2.24.060: STANDARDS OF REVIEW:

The panel of the employee appeals board designated to hear an appeal shall review a department head's decision using the following standards of review.

If an appeal is based upon a disciplinary decision, the designated panel shall determine if the employee has demonstrated that the department head's decision to impose discipline was clearly erroneous in light of the record viewed in its entirety including the employee's entire employment history with the city. The designated panel cannot substitute its own judgment for the department head's judgment, but can only overturn a disciplinary decision if it is clearly erroneous.

If an appeal is based upon a layoff designation, the review by the designated panel shall be limited to whether the city substantially followed its layoff procedures when it designated the employee for layoff.

If an appeal is based upon a termination decision for nondisciplinary reasons, the review by the designated panel shall be limited to whether the city followed its procedures when it terminated the employee. (Ord. 67-09 § 1, 2009)

(Ord. 67-09 § 1, 2009)

2.24.080: DISCOVERY:

If the employee or the city introduces information which was not considered in making the decision being appealed, the designated panel shall remand the matter to the department head or designee who made the decision. The department head or designee shall consider the new evidence, reconsider the decision being appealed and issue a written decision within seven (7) calendar days. If the mayor's designee determines the modified decision is within the board's duties, the panel originally designated to hear an appeal shall reconvene and hear the employee's appeal. (Ord. 67-09 § 1, 2009)

2.24.090: REMEDY:

If the designated panel determines that discipline should not have been imposed, the city will revoke the discipline and reimburse the employee for any lost wages. If the designated panel determines that an employee was erroneously designated for layoff, the city will reinstate the employee and reimburse the employee for any lost wages. If the designated panel determines that employee should not have been terminated for the stated nondisciplinary reason, the city will revoke the termination and reimburse the employee for any lost wages. The employee appeals board may not provide any remedy beyond that described in this chapter. (Ord. 67-09 § 1, 2009)

Upon request by a full time employee taking a military leave of absence, the city will compensate the employee at a rate of fifty percent (50%) of the hourly rate for each hour of unused personal leave time.

B. Upon request the city shall compensate the employee based on the employee's hourly rate of pay for each hour of holiday time requested.

C. Life Insurance And Healthcare Benefits: A full time employee who requests a military leave of absence from city employment and who receives orders to serve with a uniformed service may, as the employee departs, request limited continued enrollment in the city's healthcare or life insurance programs. The city will pay the premium for the employee's basic term life insurance benefit, to allow continuous coverage while the employee is on military leave. The employee shall be responsible for all other premium costs of such programs for the period the employee is in an unpaid status on a military leave of absence. (Ord. 22-03 § 1, 2003)

2.51.020: BENEFITS WHILE AN EMPLOYEE IS ON MILITARY LEAVE[2]:

After calculation, the resulting additional vacation, sick leave, holiday, or personal leave time will be added to the employee's leave accounts upon reemployment with the city. In the event an employee dies while on a military leave of absence, the city shall pay the value of any previously accrued and unused vacation and holiday leave, plus the additional vacation and holiday leave the city would have added to the employee's leave accounts upon a return to city employment at the time of the employee's death, to the employee's beneficiary or beneficiaries. (Ord. 1-06 § 5, 2005: prior code § 25-11-1)

2.52.040: STATEMENT OF POLICY:

No employee covered by this chapter shall be discharged or transferred to a position with less remuneration because of such employee's politics or religious belief, or incident to, or through changes, either in the elective officers, governing body or heads of departments. (Prior code § 25-11-2)

2.52.090: PROMOTIONS BY JOB BID:

A. Bid Policy: The purpose of the bid system provided under this chapter is to assure that qualified career service employees are given proper consideration when a position vacancy exists while avoiding the inefficiencies likely to result from advancing employees inexperienced, incompetent or otherwise lacking in employment skills.

B. Nonexecutive Level Bids:

1. When a department deems it advisable to fill a vacancy in a nonexecutive level position on a permanent basis, the department head shall request the human resource management office to post job bids at work locations within each department. The notice containing the vacant job title, pay range and requirements of the job, shall remain posted for five (5) working days during which time employees may bid for an appointment to fill the vacancy. The director of human resource management or recruiting representative shall review the job bids and applicants' personnel files, and certify all persons who meet minimum qualifications to the department head. Appointment to the vacancy shall be made from those qualified employees from the same department where the vacancy exists. If applicants from the department where the vacancy exists are not sufficiently competent or experienced, the department head shall select from qualified employees from other departments. If there are not suitable applicants from the other city departments, the department head may select from qualified hourly or seasonal employees. If no suitable applicants are selected under the foregoing procedures, the department head may fill the vacancy by a person outside of city employment.

2. Notification of position vacancies shall be posted under the foregoing procedure prior to recruitment outside of city employment except in the case of emergency or where it appears unlikely that the position will be filled by a qualified city employee.

C. Executive And Professional Level Bids: Job bids will be posted for five (5) working days for vacancies that exist in all executive and professional level positions and all eligible career service employees may bid on such vacant positions during that time period. However, the department head is not obligated to select anyone who is certified on the bidding list of eligibles for any executive or professional level vacancies.

D. Bids By Probationary Employees: All probationary employees newly hired under career service shall obtain authorization to bid in writing from their respective department heads before they can be considered for an appointment to fill other position vacancies. A copy of this authorization to bid shall be furnished to human resource management with the employee's job bid.

E. Recruitment Summary: Department heads shall furnish human resource management a written summary of general qualities lacking in city career service employees certified under the bid system which led to their request to post the vacancy for interested applicants not employed under the career service. This written summary by the department head shall be used for recruitment purposes only and be so designed as to assist human resource management to accurately recruit and screen applicants not employed under the career service.

F. Probationary Period: A successful applicant for a job bid shall be on probation for a period of not to exceed ninety (90) calendar days, during which time he or she shall receive the same rate of pay he was receiving when he or she entered on said job. The probationary period may be extended, if necessary, for training purposes if agreed upon by applicant and supervisor or department head. During the probationary period an applicant shall not be eligible to apply for any other job vacancy. If retained in the job applied for at the expiration of such probationary period, the applicant shall be ineligible to apply for another job opening for a period of nine (9) months, after the expiration of such probationary period, unless authorization to apply is given by his or her supervisor or department head. If the applicant is not retained in such job so applied for, after the expiration of the probationary period, he or she shall be returned to the position held prior to being accepted in the job applied for. In addition, an unmarried employee may designate one "adult designee" and the "child" or "children" of the adult designee. The option to designate an "adult designee" (and the adult designee's children) shall not apply to retirement benefit programs under the state retirement system, to benefits provided under the federal family medical leave act or to medical and dependent care flex accounts programs established under federal law.

An "adult designee" is an individual who is not the spouse of the employee and meets all of the following criteria:

      (1) A joint loan obligation, mortgage, lease, or joint ownership of a vehicle;

      (2) A life insurance policy, retirement benefits account, or will designating the adult designee as beneficiary thereto, or will of the city employee or the adult designee which designates the other as executor;

      (3) A mutually granted power of attorney for purposes of healthcare or financial management;

      (4) Proof showing that the city employee or adult designee is authorized to sign for purposes of the other's bank or credit account;

      (5) Proof of a joint bank or credit account.

4. The employee agrees to sign a notarized statement with attached documentation listed in subsection A3a or A3b of this section which shall be filed with human resources and shall attest to the authenticity and truthfulness of the documents and the statements as set forth in subsections A1 and A2 of this section.

B. Section 2.52.030 of this chapter notwithstanding, this section shall apply to elective officials, their administrative assistants, their personal secretaries, and heads of departments. This section shall not apply to voting district officers and delegates, members of the Utah state legislature, or other part time elective or appointive public office; provided, however, no nonelected officer and no employee shall hold the office of city council. No city employee or official shall solicit orally, or by letter, or be in any other manner concerned in obtaining any assessments, contributions, or services for any political party from any city employee.

B. Nothing contained in this chapter shall be construed to restrict the right of the employee to hold membership in, and support, a political party, to vote as he or she chooses, to express his or her personal opinions on all political subjects and candidates, to maintain political neutrality, and to attend political meetings after working hours; provided, no such actions shall unreasonably disrupt the operations of the city, undermine the authority of any city employee or officer, or destroy working relationships within the city.

C. Any nonelected officer and any employee who wishes to seek election to the Salt Lake City council, or to full time elective public office, may request and obtain a leave of absence without pay from city employment or use available vacation benefits: 1) between the primary election and the earlier of the general election for such office and the date the person ceases to be a candidate for that office, and 2) during the person's term of office on the city council or full time elective public office. CHAPTER 2.53
EMPLOYMENT PRACTICES

2.53.010: PURPOSE:

The purpose of this chapter is to: a) prohibit employment practices and decisions relating to Salt Lake City government's classified career and civil service that are contrary to state and federal law; and b) require employment decisions regarding employees in these systems to be made based on merit, a job applicant's or employee's abilities and qualifications, or on other job related criteria. (Ord. 87-98 § 1, 1998)

2.53.020: COVERED EMPLOYEES AND APPLICANTS:

This chapter covers employment practices and decisions relating to Salt Lake City government's classified career and civil service systems. "Classified career and civil service systems" means those job positions in Salt Lake City government lawfully included in the classified career and civil service, as defined in title 10, chapter 3 of the Utah Code Annotated, the city ordinances and city policies enacted pursuant thereto. (Ord. 87-98 § 1, 1998)

2.53.030: PROHIBITED EMPLOYMENT DECISIONS AND PRACTICES:

A. Employment decisions and practices in Salt Lake City government's classified civil or career service systems that are contrary to state or federal law are prohibited.

B. Employment decisions and practices in Salt Lake City's classified career service and civil service system shall be based on job related criteria.

1. The term "job related criteria" as used in this chapter means those criteria necessary or desirable to perform successfully the job held or sought. The term includes the personal and professional attributes, qualifications, experience, character, interpersonal skills, education and training, and those qualifications and skills identified in a written job description.

2. The following are not "job related criteria" and shall not be used as a basis for an employment decision or disciplinary action: a) the status of having a lifestyle which is irrelevant to successful job performance; and b) the status of being in or outside of an adult interpersonal relationship or a family relationship.

3. Nothing in this section shall prevent the city from taking disciplinary action with respect to classified career service or civil service employees where there exists a reasonable nexus between an act or failure to act that: a) adversely affects job performance; b) disrupts the workplace; c) undermines the authority of management; d) impairs close working relationships essential to the efficiency of the workplace; or e) otherwise impedes a safe, efficient or effective work environment. (Ord. 87-98 § 1, 1998)

2.53.035: NONDISCRIMINATION IN CITY EMPLOYMENT:

A. Salt Lake City Corporation employees shall not discriminate against an otherwise qualified employee or applicant based on race, color, national origin, sex, religion, age, honorable or general service in the United States uniformed services, sexual orientation, or disability.

B. All city employees will be held accountable for maintaining a productive, nondiscriminatory work environment.

C. If they believe they have been victims of discrimination under this section, under city policy, or under federal guidelines, employees may file grievances with the city compliance officer in human resources or with the city attorney's office. Complaints will be promptly investigated. The complainant will be notified as soon as possible regarding the disposition of the complaint. (Ord. 5-07 § 1, 2007)

2.53.040: PERMITTED PRACTICES:

It is not a prohibited practice under this chapter to observe the terms and conditions of any bona fide employment benefit plan, such as a retirement, pension or insurance plan. (Ord. 87-98 § 1, 1998)

2.53.050: RETALIATION OR HARASSMENT:

Retaliation or harassment against a person because a person filed a claim or participated in an investigation under this chapter is prohibited. (Ord. 87-98 § 1, 1998)

2.53.060: REMEDIES AND RELIEF:

A. If there has been a violation of this chapter, corrective, curative, or preventive action shall be taken to ensure that violations of this chapter, similar to those found, will not recur.

B. If an applicant for a position or an employee in the Salt Lake City government's classified career and civil service systems has been the subject of an employment decision or practice done in violation of this chapter, the applicant or employee shall be provided relief, which may include the following:

1. The applicant may be offered the position the applicant would have occupied absent the violation or, if justified by the circumstances, a substantially equivalent position, unless the evidence indicates that the applicant would not have been selected even absent the violation;

2. Cancellation of an unwarranted employment action;

3. Restoration of the employee to the position the employee would have occupied absent the violation; and

4. Adverse matters relating to an employment decision or practice in violation of this chapter shall be expunged from the applicant's or employee's personnel records. (Ord. 87-98 § 1, 1998)

CHAPTER 2.54
CITY OWNED MOTOR VEHICLES

2.54.020: DESIGNATION OF OWNERSHIP; INSIGNIA REQUIRED:

All motor vehicles owned and operated by the city shall, in a conspicuous place on both sides of the vehicle, display an identification mark designating the vehicle as the property of the city, under conditions and as required by section 41-1a-407 of the Utah code. Nothing in this chapter shall be construed to require such a display on any vehicle exempt from such requirements under state law. (Ord. 54-06 § 1, 2006)

2.54.030: USE POLICY AND RESTRICTIONS:

A. Except as provided in subsection B of this section, no motor vehicle owned by the city may be taken home by any city employee except under the following circumstances:

1. Authorization to regularly take home a city owned vehicle is granted by the department director and approved by the mayor, the mayor's chief of staff or his or her designee based on a demonstrated need for such vehicle to be taken home to serve the public interest; or

2. Due to an isolated incident of use when, because of the lateness of the hour or other peculiar circumstances, it is impractical or impossible to return such vehicle to city custody at the end of a duty shift.

B. Authorization to regularly take home a city owned vehicle may be granted to a full time employee for a "demonstrated need" based on at least one of the following criteria:

1. The employee has been designated as the director of a city department.

2. The vehicle is assigned to a sworn and certified law enforcement officer of the Salt Lake City police department or an employee of the Salt Lake City fire department (in either case, a "public safety officer") pursuant to their department's take home car program requirements. Public safety officers shall at all times maintain in their vehicle an article of clothing or equipment that clearly identifies them as public safety officers of Salt Lake City to be used in the event of unexpected or off duty deployment.

3. The employee must respond to at least five (5) emergency situations or callbacks to work per month.

4. The nature of the employee's work requires immediate response to emergency situations, regardless of frequency, that require the use of specific safety or emergency equipment that cannot be reasonably carried in the employee's personal vehicle.

5. For vehicles provided pursuant to subsections B2 through B4 of this section, reasonable personal use of the take home vehicle is allowed within Salt Lake County and the county in which the employee resides. No personal use may be made of the vehicle outside of these limits. The amount and nature of personal use shall be established by department policy, and shall be a reasonable amount and nature that, as described in that policy, shall not accumulate excessive miles on the vehicle. Fleet management shall provide to the department director a monthly report detailing usage and mileage of city vehicles, thus enabling the department director to monitor vehicle usage and to determine what constitutes a reasonable accumulation of miles on vehicles. Travel to and from secondary employment in a city vehicle is prohibited except with respect to public safety officers and in that case only if the secondary employer pays a fuel surcharge of six dollars ($6.00) per work shift of the public safety officer.

C. 1. Employees who have a demonstrated need as set forth in subsection B of this section may use city owned motor vehicles on a voluntary basis with the knowledge and consent of the appropriate department head, and only if such employees make biweekly payments to the city for such use according to the following fee schedule:

a. Employees who live within Salt Lake City shall make no payment for the use of the vehicle.

b. For those employees living outside of Salt Lake City, each employee shall make a biweekly payment to the city in the amount of three dollars ($3.00) per mile based upon the distance from the Salt Lake City limits to the employee's home. Such distance shall be calculated using the shortest possible driving distance from the city limits to the residence as evidenced by a commonly available internet or computer software program that estimates distances using driving directions. The distance calculated by such program shall be rounded to the nearest whole mile by calculating the mileage to the hundredth of a mile and then applying standard rounding practices. An employee who disagrees with the determination of the city regarding that distance calculation may appeal that determination to the employee's department head or the department head's designee, pursuant to a process established by departmental policy. Any department's policy shall require the employee to: 1) provide documentation supporting any disagreement with the distance determination of the city, and 2) describe any action taken by the department regarding the matter. The department shall maintain records regarding the appeal and shall make those records available for audit purposes.

2. The city council shall reevaluate the fee schedule each year in conjunction with its adoption of the annual city budget. Notwithstanding anything herein to the contrary, department heads, including the chief of the police department and the chief of the fire department, shall not be required to pay the fees imposed by this subsection C.

3. The mayor shall, by written policy, set forth liability insurance coverage to such employees, which coverage shall be not less than two hundred thousand dollars ($200,000.00) per incident, shall cover bodily injury, death, and property damage and shall be in addition to that required by Utah code sections 31A-22-304 and 63G-7-802.

D. Except for vehicles provided to department directors pursuant to subsection B1 of this section, under no circumstances shall a city owned vehicle be authorized for take home use for an employee who resides farther than thirty five (35) miles from the city limits, as calculated pursuant to subsection C of this section, regardless of the department in which the employee is employed.

E. Except as provided for herein, under no circumstances shall a city vehicle be used for any purpose other than city business, to promote a city interest, or for any use authorized by the mayor or the mayor's designee. (Ord. 55-13, 2013)

2.54.040: MAINTENANCE AND UPKEEP:

A. It shall be the duty and responsibility of the driver or operator of a city vehicle to see that it is properly serviced, maintained, and cleaned. This includes, but is not limited to, having the appropriate servicing performed on the vehicle at all designated intervals as set forth by the public services department. A sticker will be affixed to the vehicle in a conspicuous place indicating time of usage and service due for the vehicle.

B. If the driver or operator of the city vehicle fails to have the vehicle properly serviced or maintained as prescribed by the public services department within ten (10) working days or two hundred (200) miles of the required service or maintenance time, such failure may result in loss of use of the vehicle to the user or department as well as possible disciplinary action. (Ord. 54-06 § 1, 2006)

2.54.050: ACCIDENT INVOLVEMENT OR DAMAGE REPORTING REQUIREMENTS:

A. If a city vehicle is involved in an accident or is otherwise damaged, the police department and public services department must be notified immediately. A written report shall be prepared by the driver or operator of such vehicle relating to the accident or damage on forms prescribed by the public services department, and forwarded to the public services department. Additional copies shall be made available to all departments requiring a copy of such report.

B. If the driver or operator of the city vehicle fails to submit the report to the public services department within a reasonable period of time, the city department which has been assigned the vehicle may lose the use of it, and the driver or operator may be subject to disciplinary action.

C. In the event any person is injured in an accident involving the operation of a city vehicle, the driver or operator of the vehicle must notify the city attorney and risk manager. (Ord. 54-06 § 1, 2006)

2.54.060: VIOLATION; PENALTY:

Any violation of the provisions of this chapter shall be grounds for suspension or dismissal from employment, but shall not be considered a criminal offense. (Ord. 54-06 § 1, 2006)

CHAPTER 2.56
CITY OWNED PERSONAL PROPERTY

2.56.010: CHIEF PROCUREMENT OFFICER; DUTIES:

It shall be the duty of the city "chief procurement officer", as defined by section 3.24.030 of this code, or its successor section, to maintain a complete record and valuation of all permanent personal property belonging to the city, and he/she shall, subject to the approval of the director of finance, devise appropriate methods and prescribe the forms of records to be kept and the operating procedure to be followed in maintaining the proper accounts pertaining thereto. He/she shall also keep a record of all new or used permanent personal property acquired by the city and of its disposition. (Amended during 1/88 supplement: Ord. 88-86 § 62, 1986: prior code § 33-2-1)

2.56.020: PROPERTY RECORDS; VERIFICATION AND REPORTS:

Within the first quarter of each fiscal year and at such other times as it is deemed advisable or necessary, the proper accounting for personal property shall be verified by means of a physical inventory of all personal property which shall be checked against the personal property records. The director of finance shall establish, in writing, internal guidelines which shall be available to all departments stating the month in which the annual inventory shall be conducted. A report of all items which are unaccounted for by physical check shall be compiled for each department, together with a statement of observations regarding the orderliness and adequacy of storage facilities and the care and use of property. A copy of this report shall also be submitted to the director of finance. (Amended during 1/88 supplement: Ord. 88-86 § 62, 1986: prior code § 33-2-2)

2.56.030: CITY PROPERTY SUBJECT TO INSPECTION:

The chief procurement officer or his/her duly authorized agent shall have access to all offices, laboratories, storerooms, shops, lockers, storage cabinets and all other places where property belonging to the city is kept, for the purpose of locating, inspecting and labeling city property. (Ord. 88-86 § 62, 1986: prior code § 33-2-3)

2.56.040: DEPARTMENTAL STAFF TO ASSIST IN VERIFICATION OF RECORDS:

It shall be the duty of the department heads and designated employees to cooperate with the designated property agents in the location, identification, marking and maintaining required property records for new acquisitions and during periodic spot audits. 2.56.050: DEPARTMENT HEADS RESPONSIBLE FOR PROPERTY:

Each department head shall be held responsible for the receipt, proper custody, appropriate labeling, use, and disposition of all personal property purchased for or used by his or her department, in accordance with the property accounting procedure. He or she shall be held responsible for such exercise of due care and proper use of property within his or her department as is consistent with the powers of his or her office and with city facilities available for its protection. Department heads may designate members of their department to assist them in caring for departmental property. (Ord. 88-86 § 62, 1986: prior code § 33-2-9)

2.56.060: PERSONAL PROPERTY; DECLARATION OF OWNERSHIP:

All persons who, for their personal use and convenience, bring personally owned property to their place of employment, shall declare to their respective department heads the ownership of such property and shall file with the department head a statement of all such personally owned property used on the premises. In addition, the ownership of such personally owned property should be clearly indicated on each item. The record kept on file with the department head, together with the name of the owner appearing on the item, shall be deemed sufficient evidence to overcome the presumption that all property on the premises is property of the city. Small personal effects which are not usually provided by the city and which are not likely to be confused with similar items belonging to the city shall not be subject to this regulation. (Ord. 88-86 § 62, 1986: prior code § 33-2-12)

2.56.070: PERSONAL PROPERTY; IDENTIFICATION AND CONTROL:

The use on the premises of personal property belonging personally to employees of the city, though not prohibited, shall nevertheless be subject to regulation in an effort to facilitate identification of personally owned property as distinguished from city property and in order to allow for the movement of personally owned property to and from the premises in contradistinction to such movement of city property, which is prohibited. (Ord. 88-86 § 62, 1986: prior code § 33-2-11)

2.56.080: PERSONAL PROPERTY; INSURANCE PROTECTION:

The city, except by written agreement, will not provide insurance protection against loss of personally owned property, nor will the city be otherwise responsible for loss in case of fire, theft or destruction; nor will the city be responsible for the use or misuse of personally owned property by its officers or employees. (Ord. 88-86 § 62, 1986: prior code § 33-2-13)

2.56.090: FIRE DEPARTMENT PROPERTY; AUTHORIZATION AND LOAN PROCEDURES:

Notwithstanding any provision of this chapter to the contrary, the fire department is authorized to lend items of personal property belonging to the city when such loan is made for the purpose of saving or preserving life and/or property in emergency situations. Whenever practical, the fire department shall obtain a signed receipt for and an agreement to return any item of personal property so loaned. (Ord. 88-86 § 62, 1986: prior code § 33-2-14)

2.56.100: ACQUISITION OF PROPERTY BY DIRECT PURCHASE:

The acquisition of permanent property by the city shall be ascertained from the finance records of the city. A record thereof shall be kept in appropriate form by the city purchasing and property management division for each department of the city. Upon receipt of the invoice and payment therefor, all property shall be permanently identified and labeled by the receiving department, and shall be subject to inspection and verification by purchasing and property management division personnel. (Ord. 88-86 § 62, 1986: prior code § 33-2-5)

2.56.110: ACQUISITION OF PROPERTY BY METHODS OTHER THAN PURCHASE:

The acquisition of permanent property in some manner other than by direct purchase, e.g., fabrication by departments, donations, gifts and the like, shall be reported to the chief procurement officer by the head of the department receiving the property. Appropriate acknowledgment and acceptance of donations and gifts should be made and a copy of the memorandum of the acceptance should be filed with the chief procurement officer, and also in the files of the department head. (Ord. 88-86 § 62, 1986: prior code § 33-2-6)

2.56.120: USE OF PROPERTY:

The use of property for institutional and departmental purposes shall not be impeded by the use of property for matters personal to city employees or by removal from the building for other than recognized activities of the city. (Ord. 88-86 § 62, 1986: prior code § 33-2-7)

2.56.130: SURPLUS PERSONAL PROPERTY; IDENTIFICATION AND REVIEW:

Department heads shall periodically identify surplus personal property within the possession of their departments and report such property to the chief procurement officer for consideration. The chief procurement officer shall also periodically review such reports to determine whether excess properties are on hand which need to be disposed of. (Ord. 88-86 § 62, 1986: prior code § 33-2-15)

2.56.140: SURPLUS PERSONAL PROPERTY; METHODS OF DISPOSITION:

Personal property determined to be surplus under the criteria set forth in this chapter may be disposed of by one or more of the following means:

A. Interdepartmental Transfer: The chief procurement officer shall maintain a system for determining whether interdepartmental transfers of property shall be made and the means by which transfers are to be effected.

B. Trade In: The chief procurement officer may authorize surplus personal property to be traded for other property or equipment being purchased.

C. Sale Or Irrevocable Transfer: The chief procurement officer shall adopt specific written guidelines establishing requirements for notice, bidding or other conditions of sale or other transfer of personal property.

2.56.150: CONVEYANCE FOR VALUE:

A. Every transfer of inventoried, city owned, personal property shall be conducted by the chief procurement officer, or under his/her express written authority. All conveyances of such property shall be based upon the highest and best economic return to the city, except that consideration for property conveyed may be based on other public policy factors when conveyed to units of government or other public or quasi-public organizations, or to nonprofit corporations which meet each of the following criteria:

1. Have obtained an exemption pursuant to section 501(c)(3), internal revenue code, from the internal revenue service;
2. Exist primarily to serve the needs of the public; and
3. The property is used for bona fide public purposes with only incidental benefit to the nonprofit entity.

B. The highest and best economic return to the city, as referred to in this chapter, shall be estimated by one or more of the following methods:

1. Sealed competitive bid;
2. Public auction;
3. Evaluation by qualified and disinterested consultant;
4. Other professional publications and valuation services; or
5. An informal market survey by the chief procurement officer in the case of items of personal property possessing readily discernible market value.

C. Sales of city personal property shall be based, whenever possible, upon competitive sealed bids or at public auction. The chief procurement officer may, however, waive this requirement when the value of the property has been estimated by an alternate method specified under this section, and:

1. The value of the property is considered negligible in relation to the costs of sale by bid or at public auction;
2. Sale by bidding procedures or at public auction are deemed unlikely to produce a competitive offer; or
3. Circumstances indicate that bidding or sale at public auction will not be in the best interests of the city. (Ord. 39-90 § 1, 1990: Ord. 88-86 § 62, 1986: prior code § 33-2-17)

2.56.160: VALIDITY OF ACTIONS:

No provision of this chapter shall be construed to require or to invalidate any conveyance by the city nor to vest rights or action of any kind against the city, its officers, agents or employees. (Ord. 88-86 § 62, 1986: prior code § 33-2-18)

2.56.170: DISPOSITION OF PROCEEDS:

All monies derived from the sales of personal property shall be credited to the general fund of the city, unless the property was purchased with monies derived from an enterprise fund or an internal service fund, in which case the monies shall be deposited in the general revenue account of the enterprise or internal service fund which made the original purchase. (Ord. 11-91 § 1, 1991: Ord. 88-86 § 62, 1986: prior code § 33-2-19)

2.56.180: REMOVAL OF PROPERTY; RESTRICTIONS:

A. The removal of personal property from the building for recognized activities shall be restricted to those situations in which employees shall be personally responsible for and shall have custody and exercise immediate supervision over the property at all times, or, in the absence of custody and immediate supervision, it shall be limited to occasions where due precautions have been taken to ensure its protection.

B. The removal of property from the building for any purpose whatsoever which is inconsistent with the recognized activities of the city and its departments is strictly prohibited unless special permission is given by the mayor.

C. Any removal of property shall be subject to the procedure prescribed by the chief procurement officer and approved by the director of finance. (Ord. 88-86 § 62, 1986: prior code § 33-2-8)

2.56.190: NEGLIGENCE OR MISUSE; INVESTIGATION; LIABILITY:

Failure of the department head to account properly for all personal property charged to a given department or to make satisfactory explanation as to the use and disposition of any item shall be deemed cause for investigation by the purchasing and property management division staff. If investigation determines that the loss is due to negligence or misapplication on the part of the department head, or some employee in his department, then those persons acting negligently or malfeasantly shall be held personally liable for all loss resulting therefrom. (Ord. 88-86 § 62, 1986: prior code § 33-2-10)

CHAPTER 2.58
CITY OWNED REAL PROPERTY

2.58.010: SURPLUS REAL PROPERTY; IDENTIFICATION AND REPORTING REQUIREMENTS:

Department heads shall periodically identify potential surplus property within the possession of their departments and report such property to the "chief procurement officer", as defined in title 3, chapter 3.24 of this code, or its successor chapter, for consideration. The chief procurement officer shall also periodically review such reports to determine whether excess properties are on hand which need to be disposed of. (Ord. 88-86 § 61, 1986: prior code § 33-1-1)

2.58.020: SURPLUS REAL PROPERTY; METHODS OF DISPOSITION:

B. Sale, Lease Or Irrevocable Transfer: The chief procurement officer shall adopt specific written guidelines establishing requirements for notice, bidding or other conditions of sale, lease or other transfer of real property.

C. Revocable Transfers: Permits, licenses, easements, franchises and other transfers of real property which are, by the terms of conveyance, revocable by the city, shall be permitted under the provisions of this chapter.

D. Salvage, Discard Or Destruction: Inventoried city property shall be salvaged, discarded or destroyed only upon authorization of the city procurement officer or a designated representative. (Ord. 86-06 § 1, 2006: amended during 1/88 supplement: Ord. 88-86 § 61, 1986: prior code § 33-1-2)

2.58.030: CONVEYANCE FOR VALUE:

A. Every sale of city owned real property shall be conducted by the chief procurement officer, or under his/her express written authority. All other conveyances for value, including leases, permits, rights of way, revocable permits and easements, shall be conducted in a manner designated in writing by the mayor. All conveyances or encumbrances of such property shall be based on the highest and best economic return to the city, except that consideration for property conveyed may be based on other public policy factors: 1) when conveyed to units of government or other public or quasi-public organizations; or 2) when an encroachment on the public way, within the corporate limits of Salt Lake City, involves a beautification project which furthers specific goals and objectives set forth in the city's strategic plan, master plans, or other official documents including decorative street lighting, building facade lighting, flower and planter boxes, and landscaping.

B. The highest and best economic return to the city, as referred to in this chapter, shall be estimated by one or more of the following methods:

1. Sealed competitive bid;

2. Evaluation by qualified and disinterested appraiser;

3. Other professional publications and valuation services; or

4. An informal market survey conducted by the chief procurement officer in the case of items of real property possessing readily discernable market value.

C. Sales of city real property shall be based, whenever possible, on competitive sealed bids. The chief procurement officer, in consultation with the director of finance, may, however, waive the competitive bidding requirement when the value of the property has been estimated by an alternate method specified under subsection B of this section, and:

1. The value of the property is considered negligible in relation to the costs of sale by bid; or

2. Sale by bidding procedure is deemed unlikely to produce a competitive offer; or

3. Circumstances indicate that bidding on the property will not be in the best interests of the city. (Ord. 10-96 § 1, 1996: Ord. 59-90 § 1, 1990: amended during 1/88 supplement: Ord. 88-86 § 61, 1986: prior code § 33-1-3)

2.58.035: SIGNIFICANT PARCEL OF REAL PROPERTY:

In connection with any proposed sale, lease, conveyance or other disposition of real property owned by the city, the following real property is deemed to be "significant":

A. Any property where the conveyance of the property would result in a request to amend the city budget;

B. Any property where the conveyance of the property would result in a request for a change of zoning of that property;

C. Any property that is specifically referenced in a master plan or where the proposed use of the land following its conveyance would conflict with the master plan for the area; and

D. Any property designated as significant on table 2.58.035D, "Table Of Significant Parcels Of Real Property", of this section.

A significant parcel of real property owned by the city or any legal interest therein shall not be sold, traded, leased or otherwise conveyed or encumbered until the city has provided reasonable notice to all interested parties and held at least one public hearing on the proposed conveyance as set forth herein.

B. Reasonable notice of the proposed conveyance of a significant parcel of city owned real property shall be interpreted to require the following:

1. Notice of the proposed conveyance shall be mailed to all abutting property owners.

2. Notice of the proposed conveyance shall be delivered to the office of the city council, posted in the office of the city recorder, delivered to a local media representative, and posted on the city's website.

C. No significant parcel of city owned real property, as identified on table 2.58.035D of this chapter, may be conveyed until after a public hearing has been held before either the Salt Lake City planning commission, the airport advisory board, or the public utilities advisory board.

D. In addition to the public hearing required above, the Salt Lake City council may also request a public hearing prior to the conveyance of any significant parcel of city owned real property. Any request for a hearing before the city council must be delivered to the office of the mayor no less than fifteen (15) days after delivery of the notice to the office of the city council pursuant to subsection B2 of this section. If no request for a hearing is made within that time period, the city council shall be deemed to have waived any right to request a hearing.
If a written call for hearing has been made by the council, the mayor or his or her designee shall meet thereafter to hear and consider comments upon proposals to convey the city property specified in the notice. Such hearing shall take place before, after or in conjunction with a regularly scheduled city council meeting, as determined by the mayor.

E. Any notice of a proposed conveyance of a significant parcel of city owned real property shall specify the following:

1. A description of the property to be conveyed or encumbered;

4. Any consideration tendered;

5. The name of the person, department or entity requesting such action;

6. The basis upon which the value of the interest has been determined by the city;

7. The date, time and location of the public hearing to be held. The notice shall further state that interested persons may appear and comment upon the proposal.

F. The conveyance or encumbrance of real property of the city may be finalized as follows:

1. By the mayor, at his/her discretion following notice and/or public hearing, as required by this section; or

2. If the transfer is revocable and the mayor has determined that an unanticipated combination of facts and conditions of pressing necessity has emerged which requires that action be taken prior to a city council hearing. Such conditions shall not be deemed to arise, unless it appears that delay from notice or a hearing would produce:

   a. Great or irreparable injury to persons seeking the conveyance or encumbrance, with negligible impact upon city interests,

   b. Serious detriment to the social or economic interest of the community as whole; or

3. Substantial economic loss to the city.

G. Any decision by the mayor to forego the city council hearing provisions of this section shall be made in writing to the city council, stating the specific reasons upon which the decision was based. (Ord. 86-06 § 4, 2006: Ord. 88-86 § 61, 1986: prior code § 33-1-4)

2.58.060: DISPOSITION OF PROCEEDS:

However, if the property was purchased with monies from an enterprise fund, or from properties attributable by the mayor to use by an existing enterprise fund, then the proceeds or revenue shall be deposited in a surplus property account within that fund's capital improvements fund. Funds within surplus property accounts may not be expended without prior appropriation or approval of the city council. (Ord. 11-91 § 2, 1991: Ord. 88-86 § 61, 1986: prior code § 33-1-6)

Membership in any neighborhood or community based organization must be open to anyone residing within or owning property within the boundaries of the organization. The number, name or boundaries of any community or neighborhood organization may be amended by the city council upon petition from a city council member, or any neighborhood or community organization recognized under this chapter. All neighborhood or community organizations affected by such a petition shall hold a public hearing on the amendment request not less than fifteen (15) nor more than forty five (45) days after written notice of the request is received. (Ord. 63-90 § 1, 1990)

2.60.050: VOLUNTEER STATUS AND PARTIAL INDEMNIFICATION:

This defense and indemnification obligation on behalf of the city shall be limited to only those determinations and recommendations and shall not extend to any physical activities of the recognized organizations or their members such as driving, inspecting property or other similar activities. The mayor or the mayor's designee may notify the considering body that immediate action is necessary for the best interests of the city, in which case a request for delay shall not be granted. B. Citizen Requested Investigations: Any person who files with the police department a complaint about a police officer, whether or not claiming that the police officer used excessive force, may, within four (4) business days after filing such complaint, file with the board a request that the board investigate the complaint. At the time a person files such a complaint with the police department, the police department shall notify such person orally or in writing of the person's right, within four (4) business days after such filing, to request a board investigation of the complaint. The board, in its discretion, may grant or deny such request, and the board shall promptly notify the person making the request of the board's decision to grant or deny the request. If the board grants the request, it shall promptly notify the internal affairs unit thereof, and the administrator shall have access to the internal affairs unit's investigation of such complaint.

Any person who files a complaint against a police officer under this section, knowing that such complaint is frivolous, malicious or false, shall be guilty of a class C misdemeanor. In addition, any person who files a complaint against a police officer knowing that such complaint is frivolous, malicious or false, shall be civilly liable for all costs and expenses incurred in investigating and otherwise responding to the complaint. A complaint is frivolous if it has no reasonable basis in fact. The board may adopt rules that allow it to dismiss any claim that it deems frivolous, malicious or false.

C. Administrator's Database: When the administrator is notified that a complaint is filed with the internal affairs unit, or when the board agrees to investigate a complaint at the request of a person pursuant to subsection B of this section, the administrator shall ensure that all pertinent data concerning the complaint is collected and entered into a computer database for future analysis.

D. Administrator's Access To Files: The administrator shall have access, via computer database network, to all police department files on its network, except those files that are confidential by law. The administrator shall not discuss with or release the contents of those files to any person other than members of the board, the board advisor, the police chief or his or her designee, the internal affairs unit, the mayor or his or her designee, or the office of the city attorney. E. Administrator's Access To Internal Affairs Investigation: The administrator shall have unfettered access to the internal affairs unit investigation process. The administrator may inquire of the commander of the internal affairs unit or the applicable assistant police chief about the status of any open case.

F. Administrator; Interviews:

1. Access To Internal Affairs Interviews: The administrator shall have access to all interviews scheduled by the internal affairs unit. The police department shall notify the administrator when interviews related to: a) investigations in which it is claimed that a police officer used excessive force or b) investigations that the board in its discretion has requested to review are scheduled so that the administrator may be present, at his or her discretion. The administrator may participate in questioning the witnesses. The administrator may request that the internal affairs unit interview witnesses or collect evidence, as he or she deems appropriate. If the administrator requests that the internal affairs unit interview a witness and the internal affairs unit denies that request, the administrator may independently interview that witness. In that event the administrator shall invite internal affairs unit personnel to be present at the interview and such personnel, if they choose to attend, may participate in questioning the witness.

2. Disclosure To Witnesses: If the administrator participates in any portion of the interview process, he or she must clearly communicate to all participating witnesses that he or she is an independent investigator/administrator affiliated with the board and not with the police department.

3. Compelling Attendance Of Witnesses And Police Officers: If the administrator desires to interview a witness or a police officer in connection with an open internal affairs unit investigation that the administrator is investigating or reviewing pursuant to this chapter, and if such person declines to be interviewed, the administrator may ask the mayor to compel the witness or police officer to meet with and be interviewed by the administrator pursuant to chapter 2.59 of this title.

J. Board's Access To Administrator's Records: Upon request, the administrator shall provide to the board the administrator's notes and other records regarding cases investigated by the administrator.

K. Administrator's Attendance At Prediscipliinary Hearings: The administrator may attend the prediscipliinary hearing of a police officer who is the subject of the administrator's report under subsection I of this section. If, after attending the prediscipliinary hearing, the administrator decides to prepare a second report that contains a different recommendation regarding the police officer, the administrator shall submit that second report to the board review panel not less than five (5) business days after the end of the prediscipliinary hearing.

L. Board's Access To Files: Except as required by law, members of the board shall not discuss with or release the contents of police department files to any person other than members of the board, the board advisor, the administrator, the police chief or his or her designee, the internal affairs unit, the mayor or his or her designee, or the office of the city attorney. A breach of this confidentiality obligation by a member of the board shall be grounds for removal from office, as well as civil and criminal liability pursuant to any applicable city, state or federal law. In cases involving the review of police officer actions by the Salt Lake County district attorney's office, the Utah attorney general's office, or the United States department of justice, the administrator shall review the case only after the review by such outside agency is completed, unless: a) the board, in consultation with the applicable outside agency, directs otherwise, and b) if the internal affairs unit determines to commence an investigation before completion of the outside agency review. When the review is completed, the administrator shall have access to all materials provided to the internal affairs unit by the Salt Lake County district attorney's office, the Utah attorney general's office, or the United States department of justice. (Ord. 52-03 § 1, 2003)

A. Majority Report: At the completion of a panel's review of a case pursuant to section 2.72.180 of this chapter, the panel shall prepare a report and immediately forward a copy of that report to the police chief. The panel's report shall contain, at a minimum, recommendations concerning case disposition and any other recommendations to the police chief in terms of the individual case or general practices or policies. The report shall be filed as promptly as possible, considering the time needed for the filing of minority reports and the police department's deadline for completing its final determination regarding complaints, after the administrator receives the internal affairs unit's case file on the case pursuant to section 2.72.170 of this chapter, but in all cases at least ten (10) business days before the police officer's prediscipliinary hearing. After attending the prediscipliinary hearing, the administrator may submit to the panel a second report containing a recommendation different than the administrator's initial recommendation. If, after reviewing the administrator's second report, the panel decides to prepare a second majority report that contains a recommendation less favorable to the police officer, the panel shall submit that second majority report to the police chief not less than five (5) business days after receiving the administrator's second report.

The definitions are as follows: a) "unfounded": the reported incident did not occur; b) "exonerated": the employee's actions were reasonable under the circumstances; c) "no determination is possible": there is insufficient evidence to support a conclusion as to whether or not the employee violated policy; d) "sustained": the employee's action(s) is in violation of policy or procedure of the police department. (Ord. 19-04 § 5, 2004: Ord. 52-03 § 1, 2003)

2.72.210: POLICE DEPARTMENT RESPONSE TO CASE:

Absent exigent circumstances in which the police chief, in his or her sole discretion, determines that a discipline decision must be made before he or she receives a majority and any minority reports pursuant to section 2.72.190 of this chapter, the police chief shall review and consider such majority and minority reports prior to making a discipline decision in the related case. However, the decision to discipline or not to discipline an officer, as well as the appropriate discipline, is within the sole discretion of the police chief. Immediately following a decision of the police chief to discipline or not to discipline a police officer for the alleged use of excessive force and in any other case the board has designated for review or investigation pursuant to section 2.72.150 of this chapter, the police chief shall submit to the board and the administrator a report outlining the case disposition. If the board disagrees with the case disposition, the board may communicate the disagreement to the police chief in written format, with a copy to the mayor. (Ord. 52-03 § 1, 2003)

The board may also obtain and review any records or reports of the administrator or the internal affairs unit.

B. Semiannual Reports:

1. Majority Report: After it finishes each audit, the board shall prepare a semiannual advisory report highlighting the trends in police performance and stating its findings, conclusions and recommendations regarding changes in police policy and procedures. Patterns of behavior, unclear procedures, policy issues, and training needs may be identified for review. A report shall be completed and filed with the mayor, the council, and the police chief within thirty (30) days after each of the board's semiannual audits.

2. Minority Report: If less than all of the members of the board join in the majority report of the board, any member not joining in the majority report may file with the mayor, the council, and the police chief a minority report, setting forth such person's conclusions regarding the audit. Any minority report must be filed within seven (7) business days after the filing of the majority report.

3. Confidentiality Of Reports: No semiannual advisory reports shall contain the names of any individual persons. Except during a closed session of the board, no individuals shall be mentioned by name in any verbal or written statements by the board or the members thereof.

2.72.250: COOPERATION AND COORDINATION:

A. In General: All city officers and employees, including those of the police department, shall provide complete and prompt cooperation to the board in the discharge of its duties. The board and other city officers and employees shall coordinate their activities so that such officers and employees and the board can fully and properly perform their respective duties.

B. Police Department: It is recognized that the memorandum of agreement between the city and the Salt Lake Police Association contains a deadline by which the police department must notify police officers of the disposition of any internal police department disciplinary investigation and of any disciplinary action to be administered. The police department and the police chief are encouraged to complete their internal investigations in such a manner and time that the board and board review panels have sufficient time to perform their duties and issue their majority and any minority reports prior to such deadline in the memorandum of agreement, in order to allow the police chief to consider such reports prior to making a decision regarding case disposition or discipline. (Ord. 19-04 § 8, 2004: Ord. 52-03 § 1, 2003)

2.72.260: BOARD ACTIONS SHALL NOT BIND THE MAYOR OR POLICE CHIEF:

The purposes of the program shall include, but are not limited to:

D. Nonprogram Projects: Monies from the fund may be used to partner in, or contribute to, open space land protection projects involving lands, conservation easements, or other interests in open space lands where the city will be a funding participant only, or where lands will be held and managed by an entity other than the city. However, in any such case: 1) the open space land interest being protected must meet the definition of open space lands set forth in this chapter; and 2) the city shall retain a permanent and nonrevocable reversionary or other backup interest in the land, conservation easement, or other interest in the land that enables the city to manage such interest as part of the open space lands program in the event the administering entity ceases to exist or fails to properly administer the open space land concerned.

The procurement rules shall prescribe minimal and expeditious processes to use when making these purchases.

Such waiver shall be approved in advance by the chief procurement officer for operational supplies and services, or by the city engineer for construction related supplies and services, except in case of an emergency. Waivers are permissible when:
   a. Supplies or services are available from a sole source, or a solicitation process would be unlikely to produce competition;
   b. A particular supply or service is beneficial to the city in order to match or service existing equipment or facilities;
   c. The city needs services of a very specialized nature or in connection with confidential matters, and procurement processes would not be beneficial to obtaining them;

D. With the approval of the mayor, and when not in conflict with state or federal law, the chief procurement officer and city engineer, in their respective areas of authority, may each exempt a type or class of procurement from any or all of the requirements of this chapter in the procurement rules when that exemption is in the best interest of the city, and competitive processes would not be of benefit to the city.

E. When granting a concession in which a person makes use of city property to provide goods or services to the public, or arrangements of similar nature, the city shall make use of this chapter to the extent determined to be practicable by a procurement official in order to provide for the desired concession or arrangements on terms most beneficial to the city. (Ord. 64-97 § 2, 1997)

B. All protests must be in writing, and must specify the nature and factual basis of the protest with sufficient detail to permit review.

C. Protests shall be submitted prior to the opening of bids or the closing date for proposals unless the protestor did not know and could not have known of the facts giving rise to the protest prior to such time. In such a case, the protest shall be submitted within five (5) working days after the protestor knows or should have known of the facts giving rise thereto.

D. The procurement official may determine that a protest is without merit, and in such a case, the city may proceed with the procurement and award. If a protest must be reviewed to determine whether it has merit, the city shall not proceed further with the procurement or award until all administrative remedies have been exhausted, or until the procurement official, after consultation with the procuring department or division, makes a written determination that the award of the contract without delay is necessary to protect substantial interests of the city.

E. Notwithstanding any provision of this chapter to the contrary, the chief procurement officer may establish in the procurement rules a minimal process, if any, to review protests of small purchases, and such process need not provide for an appeal of such review. (Ord. 64-97 § 2, 1997)

A. The procurement official shall consider and decide protests in accordance with the procurement rules. The decision shall be final and conclusive unless appealed as provided under this section.

The written appeal shall be delivered within the time permitted and in the manner specified in the procurement rules.

C. A timely written appeal shall be reviewed and decided as specified in the procurement rules. Prior decisions by administrative officials shall not be final or conclusive when a mater is reviewed on appeal. An appeal shall be resolved by a written decision, and the determination of an issue of fact shall be final and conclusive unless arbitrary and capricious or clearly erroneous. Any appeal withdrawn before a decision is made shall be withdrawn with prejudice unless the city consents otherwise.

D. At the discretion of the procurement official, the city may impose reasonable charges to pay the expenses incurred by the city to consider a protest or appeal. (Ord. 64-97 § 2, 1997)

3.24.230: REMEDIES FOR ILLEGAL SOLICITATIONS:

A. Prior to bid opening or the closing date for proposals, if the procurement official, after consultation with the city attorney, determines that a solicitation is in violation of law, then the solicitation will be canceled, and any subsequent solicitation shall be made in accordance with law.

B. If after an award it is determined that a solicitation or award was in violation of law, the contract may be ratified and affirmed if the person awarded the contract has not acted fraudulently or in bad faith, and if doing so is in the best interest of the city. The contract may also be terminated, and the person awarded the contract shall be compensated for actual expenses reasonably incurred prior to termination, plus a reasonable profit for the same. If the person awarded the contract has acted fraudulently or in bad faith, the contract may be declared null and void; or the contract may be ratified and affirmed, if such action is in the best interest of the city and without prejudice to the city's rights to any appropriate damages. (Ord. 64-97 § 2, 1997)

A. At the discretion of the procurement official, the city may issue a temporary suspension to any person who is directly or indirectly associated with city procurement processes or contracts in the manner provided in the procurement rules. A temporary suspension shall allow the city to examine the circumstances when the city has reason to believe that there has been a material violation of a process, legal requirement or contract, or where circumstances raise concerns for the city's interest. The city shall give notice of the temporary suspension to the affected person, and shall specify any terms applicable to the temporary suspension. In connection with the temporary suspension, the city may conduct an investigation, require the correction of any violation, initiate further action under this section, and take all other actions appropriate to protect the city and resolve the matter.

B. At the discretion of the procurement official, the city may issue a suspension pending the outcome of legal processes to any person who is directly or indirectly associated with city procurement processes or contracts in the manner provided in the procurement rules. This suspension may be issued when the person is the subject of an indictment for an activity which has bearing on procurement, contract or ethical matters; when the person is adverse to the city in a litigation, administrative hearing, dispute resolution process, or similar process; or when legal processes raise concern for the city's interest. A suspension pending the outcome of legal processes may remain in effect until after a trial, appeal period, or other process to obtain final resolution.

C. With cause shown, the city may suspend any person from direct or indirect participation in city procurement processes and contracts for any appropriate period of time as provided in the procurement rules. A. Any assistance or payment made under this chapter shall not be construed as, and does not imply, an admission of negligence or responsibility on the part of the city or the department for any damage or loss.

B. Any assistance or payment made under this chapter is strictly voluntary on the part of the department. While it shall be the general policy of the city to follow the provisions of this chapter, the city shall not be required to do so. The city may, based on the particular facts and circumstances of an event, elect to reject a request for assistance hereunder. If a request for assistance under this chapter is not approved by the director within ninety (90) days of filing, it is deemed rejected. In the event a request hereunder is rejected, the property owner's recourse would be to proceed under the provisions of the Utah governmental immunity act and file a notice of claim thereunder. Nothing in this chapter shall be construed as an acknowledgment by the city that the property owner has a meritorious claim under the Utah governmental immunity act, and the city reserves the right to assert any and all available defenses. The ninety (90) day notice period under this chapter shall not operate to extend the one year notice period under the Utah governmental immunity act. This chapter shall not in any way supersede, change or abrogate the Utah governmental immunity act, and its application to the city and the department, or establish in any person a right to sue the city under this chapter.

C. Any assistance or payment made under this chapter and accepted shall constitute a full and complete release of any and all claims against the city (including the department), its officers, employees and agents arising from the incident. (Ord. 23-06 § 2, 2006)

3.36.090: BUDGET EXPENDITURES:

The department is authorized to provide for and include within each enterprise fund it manages a separate fund from which amounts may be drawn to make the foregoing assistance or payments. Each such separate fund shall be funded, in amounts deemed by the director to be sufficient for the purpose, from revenues accruing to each respective enterprise fund from all available sources, including regular service charges. The establishment and funding of such funds, and the expenditure of the amounts therein, shall be consistent with applicable law, and all applicable bond covenants of the city. (Ord. 23-06 § 2, 2006)

ENTERPRISE FUND PAYMENT IN LIEU OF TAXES

3.40.010: SHORT TITLE:

This chapter shall be known as the *ENTERPRISE FUND PAYMENT IN LIEU OF TAXES ORDINANCE OF SALT LAKE CITY*. (Ord. 47-04 § 1, 2004)

3.40.020: PURPOSE:

The water, golf, sewer, stormwater, and refuse functions of the city are operated as enterprise funds, and the city's general fund receives no revenue from their use of city owned property. The city's objective in enacting this chapter is to fairly and equitably charge an amount in lieu of taxes for each of said enterprise funds' use of city owned property, as if said enterprise funds were operated as private entities and were paying real and personal property taxes as private businesses. (Ord. 47-04 § 1, 2004)

3.40.030: PAYMENT IN LIEU OF TAXES:

There is levied upon the city's water, golf, sewer, stormwater, and refuse enterprise funds an annual payment in lieu of taxes based on the calculation of the value of assets within city limits held and used by each of said enterprise funds, using the income method of property evaluation. As suggested by the May 17, 1989, KPMG Peat Marwick report to the mayor and city council on charges for services between funds, for years subsequent to fiscal year 1990-1991, the payment in lieu of taxes shall be calculated using the income method of valuation for each said fund as follows:

A. Net revenue shall be calculated by subtracting operating expenses from operating revenue.

B. The asset value shall be calculated by dividing the net revenue by the capitalization rate of nine and one-half percent ($9\frac{1}{2}\%$).

C. The payment in lieu of taxes shall be calculated by multiplying the asset value by the city's property tax rate.

D. The sums due the city's general fund under this chapter for each fiscal year after 1990-1991 shall be determined by the city's finance department following the city's administrative policies and procedures and using audited financial data. Each said enterprise fund shall be notified of the pilot due in the city's budget, with payment due on or before December 30 of each year, beginning in 1990. (Ord. 47-04 § 1, 2004)

B. Process: The city acknowledges an obligation to process appeals regarding free expression activities promptly so as to not unreasonably inhibit or unlawfully burden constitutionally protected activities. To the extent possible, the appeals process related to free expression activities shall be that specified in section 3.50.190 of this chapter, with the times modified by the events coordinator to allow the necessary expeditious processing. Article I. Administration

5.04.010: DEFINITIONS[2]:

(Rep. by Ord. 37-99 § 3, 1999)

5.04.020: LICENSE; ISSUANCE:

This chapter is enacted to establish the base license fee for general businesses and to establish additional fees for businesses receiving a disproportionate level of the city's services. No license may be issued for a business operation which, on the face of the license application, would be in violation of criminal laws or ordinances or where the place of business would be located in an area not zoned for such business activity unless it is a legal nonconforming use as provided in title 21A, chapter 21A.38 of this code. (Ord. 74-09, 2009)

5.04.030: LICENSE; REQUIRED TO DO BUSINESS:

(Rep. by Ord. 37-99 § 1, 1999)

5.04.040: LICENSE; NOT REQUIRED WHEN:

A. Exemptions: No base license fee shall be imposed under this chapter upon any person:

1. Engaged in business for solely religious, charitable, eleemosynary, or other types of strictly nonprofit purpose who is tax exempt in such activities under the laws of the United States and the state of Utah;

2. Engaged in a business specifically exempted from municipal taxation and fees under the laws of the United States and the state of Utah;

3. Engaged in a business operated under the supervision of the Utah State Fair Corporation and located exclusively at the Utah State Fair Park during the period of the annual Utah State Fair; or

4. Not maintaining a place of business within the city who has paid a like or similar license tax or fee to some other taxing unit within the state, and which taxing unit exempts from its license tax or fee, by reciprocal agreement, businesses domiciled in the city and doing business in such taxing unit.

B. Disproportionate Fees: The exemptions set forth in subsections A1, A2, and A4 of this section shall not apply to any disproportionate fees which may be applicable under section 5.04.070 of this chapter to a person doing business in the city, nor to any other fees or charges which may be required under this code.

C. Reciprocal Agreement: The mayor may, with approval of the city council, enter into reciprocal agreements with the proper officials of other taxing units, as may be deemed equitable and proper in effecting the exemption provided for in subsection A of this section. Nothing in this section shall preclude the city from reviewing and investigating a business license application under such a reciprocal agreement, and requiring payment of disproportionate fees or other fees or taxes imposed by any other provisions of the ordinances of the city, in the discretion of the city council. (Ord. 37-11, 2011)

5.04.050: BASE LICENSE ADDITIONAL TO ALL OTHER TAXES OR LICENSES:

The base license fee and disproportionate fee imposed by section 5.04.070 of this chapter shall be in addition to any and all other taxes or licenses imposed by any other provisions of the ordinances of Salt Lake City. (Ord. 74-09, 2009)

5.04.060: FEE; NO UNDUE BURDEN ON INTERSTATE COMMERCE:

None of the license fees provided for by this chapter shall be applied as to occasion an undue burden on interstate commerce. In any case where a license fee is believed by a licensee or applicant for license to place an undue burden upon such commerce, such person may apply to the mayor for an adjustment of the fee so that it shall not be discriminatory, unreasonable or unfair as to such commerce. Such application may be made before, at or within six (6) months after payment of the prescribed license fee. The applicant shall, by affidavit and supporting testimony, show the method of applicant's business, the gross volume or estimated gross volume of business, and such other information as the mayor may deem necessary in order to determine the extent, if any, of such undue burden on such commerce. The mayor may designate a person to conduct an investigation, comparing applicant's business with other businesses of like nature. The mayor's designee shall make findings of facts; shall determine whether the fee fixed by this chapter is discriminatory, unreasonable or unfair as to applicant's business; and shall recommend to the mayor a license fee for the applicant in an amount that is nondiscriminatory, reasonable and fair. If the mayor is satisfied that such license fee is the amount that the applicant should pay, the license fee shall be fixed in such amount. If the regular license fee has already been paid, the mayor shall order a refund of the amount over and above the fee fixed by the mayor. In fixing the fee to be charged, the mayor shall have the power to use any method which will assure that the fee assessed shall be uniform with that assessed on businesses of like nature. (Ord. 74-09, 2009)

5.04.070: LICENSE FEES LEVIED:

A. Fees For Businesses Located In The City: There is levied upon the business of every person engaged in business in the city at a place of business within the city, an annual business license fee per place of business except as otherwise set forth in subsection F of this section. The amount of the fee shall be the base license fee imposed under subsection B of this section, plus:

1. The regulatory fee imposed under subsection C of this section, if applicable; and

2. The disproportionate cost fee imposed under subsection D of this section, if applicable; and

C. Regulatory Fee: The regulatory fee levied and imposed, for direct costs associated with doing business within the city, covering licenses listed under the Salt Lake City consolidated fee schedule shall be as set forth thereunder.

D. Disproportionate Cost Fee:

1. It is determined by the city council that a disproportionate level of municipal services are provided to certain businesses within the city in comparison with the level of services provided to other businesses and to residences within the city, based on additional municipal services provided to such businesses and on disproportionate use of public utilities and services for police, fire, stormwater runoff, traffic control, parking, transportation, beautification, and snow removal. Disproportionate cost fees shall be levied as set forth in subsections D2 and D3 of this section.

2. For any business having employees, the disproportionate cost fee for such business shall be as shown on the Salt Lake City consolidated fee schedule, per employee, for each full time and part time employee exceeding one, engaged in the operation of said business, based upon the "number of employees" as defined in section 5.02.005 of this title, or its successor section.

3. The disproportionate cost fee for a specific type of business shall be as shown on the Salt Lake City consolidated fee schedule.

   a. Except as set forth in subsection D3b of this section, the disproportionate cost fee for a rental dwelling shall be based upon the number of dwelling units located in the rental dwelling.

E. Enhanced Services: It is determined by the city council that municipal services are provided to businesses within the central business district and the Sugar House business district, as defined in the zoning ordinance, at a level which exceeds other geographic areas of the city. No enhanced service fee shall be charged said businesses at the present time.

F. Multiple Rental Dwellings: An owner of multiple rental dwellings or multiple buildings containing rental dwellings within the city shall be required to obtain only one base license and to pay one base license fee for the operation and maintenance of all such rental dwellings plus a disproportionate cost fee as set forth, respectively, in subsections B and D of this section.

Fee For Businesses Located Outside The City: There is levied upon every person engaged in business in the city, not having a place of business in the city, and not exempt as provided by section 5.04.040 of this chapter, or its successor section, the same license fee as if such place of business were located within the corporate limits of Salt Lake City.

H. Renewal Notices: Any notice or renewal reminder provided by the city in connection with this section may be sent by ordinary mail, addressed to the address of the business as shown on the records of the city's licensing office, or, if no such address is shown, to such address as the licensing office is able to ascertain by reasonable effort. Failure of a business to receive any such notice or reminder shall not release such business from any fee or any penalty, nor shall such failure operate to extend any time limit set by the provisions of this chapter. (Ord. 37-11, 2011)

5.04.080: JOINT LICENSES:

Whenever any person is engaged in two (2) or more businesses at the same location within the city, such person shall not be required to obtain separate licenses for conducting each of such businesses, but shall be issued one license which shall specify on its face all such businesses. The license fee to be paid shall be computed as if all of said businesses were one business being conducted at such location. Where two (2) or more persons conduct separate businesses at the same location, each such person shall obtain a license for such business and pay the required license fee for such business. (Ord. 74-09, 2009)

5.04.090: BRANCH ESTABLISHMENTS:

Except as otherwise provided in subsection 5.04.070F of this chapter, a separate license shall be obtained for each branch establishment or location of business engaged in, within the city, as if such branch establishment or location were a separate business, and each license shall authorize the licensee to engage only in the business licensed thereby at the location or in the manner designated in such license. Warehouses and distributing places shall be deemed to be separate places of business or branch establishments, regardless of whether or not such are used in connection with or incident to a business licensed under this chapter. (Ord. 74-09, 2009)

5.04.094: LICENSE; FEE REFUND PROHIBITED:

No license fee, or any part thereof, shall be returned for any reason whatsoever once the license has been granted or issued. (Ord. 74-09, 2009)

(Ord. 74-09, 2009)

5.04.110: FEES; DELINQUENT PAYMENTS; PENALTY:

In the event any fee is not paid on or before such date, a penalty shall be assessed pursuant to the provisions of section 5.04.114 of this chapter, or its successor section, which penalty shall become part of the license fee imposed by this chapter. (Ord. 74-09, 2009)

A. Late Renewal Fee; Penalties: If any license renewal fee is not paid by the due date, a penalty of twenty five percent (25%) of the amount of such license fee shall be added to the original amount thereof, and, if such amount is not paid within two (2) months of the due date, an additional penalty of seventy five percent (75%) shall be added to the original amount thereof for a total of one hundred percent (100%) of such license fee. In addition, any licensee whose license renewal fee is not paid within sixty (60) days of the due date shall terminate business operations at the previously licensed location. No business shall be conducted thereafter at said location unless and until the mayor or the mayor's designee approves an application, notice or petition for renewal of a license or for a new license.

B. Initial Fee Nonpayment; Penalty: When any person, firm or corporation engages in any occupation covered by the provisions of this title, or adds anything to an existing business which requires an additional license fee, without first paying the required license fee, a penalty of one hundred percent (100%) of the amount of such license fee shall be added to the original amount thereof.

C. Collection: All penalties provided for in this section shall be collected by the license supervisor and the payment thereof shall be enforced by him or her in the same manner as the license fees are collected and payment enforced.

D. No License Issuance: No license shall issue until all penalties legally assessed have been paid in full.

E. Other Enforcement Not Precluded: Nothing in this section shall be construed to prevent or in any manner interfere with the enforcement of any criminal or civil penalty provision contained in any ordinance of the city, including, but not limited to, those provisions pertaining to operation of businesses without an unexpired and valid business license. (Ord. 74-09, 2009)

5.04.116: LICENSE; FEE COLLECTION; CIVIL ACTIONS AUTHORIZED:

In any case where several or diverse amounts of license fees remain due and unpaid by any such person, such several amounts of unpaid license fees may be joined as separate causes of action in the same complaint in such civil actions.

It shall not be a defense to any penalty assessment that: 1) the false alarms were the result of faulty or malfunctioning equipment; 2) the false alarms were caused by electrical surges; or 3) the false alarms were caused by the fault of another person during noncriminal incidents. The hearing officer shall render a decision within ten (10) days after the appeal hearing is concluded. Following issuance of such decision, additional penalty assessments shall accrue until paid, as provided in this chapter.

If the hearing officer finds that no violation of this chapter occurred, or that a violation occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may dismiss the penalty and release the alarm user from liability thereunder, or may reduce the penalty associated therewith as he or she shall determine. Such defenses are:

2. The alarm for which the penalty has been assessed was, in fact, not false, but was rather the result of an actual or attempted burglary, robbery or other emergency;
3. The police dispatch office was notified by the permit holder or the alarm company that the alarm was false prior to the arrival of a peace officer to the subject premises in response to the false alarm; or
4. Such other mitigating circumstances as may be approved by the city law department.

D. If the hearing officer finds that a false alarm did occur and no applicable defense exists, the alarm administrator may, in the interest of justice and on behalf of the city, enter into an agreement for the timely or periodic payment of the applicable fees and penalties. (Ord. 64-00 § 1, 2000)

The mayor may either approve or deny the proposed alternative methods of regulation proposed by the petitioner or may approve other alternative methods of regulation. Upon approval by the mayor, such alternative regulation(s) shall be as obligatory upon the petitioner as if such had been specific requirements set forth in this chapter, and the violation of any of which alternate regulations shall be a misdemeanor.

B. Standard For Approval: The standard for approval of any such alternative regulation(s) shall be that they are equivalent to the requirements of this chapter which they would supplant, in meeting the objectives which underlie this chapter, namely, inhibiting theft and trafficking of stolen merchandise, and providing adequate opportunity for examination by the police of transactions governed by this chapter. (Ord. 22-89 § 2, 1989)

5.20.050: CONDITIONS OF STREET OCCUPANCY:

All transmission and distribution structures, poles, other lines, and equipment installed or erected by the grantee pursuant to the terms hereof shall be located so as to cause a minimum of interference with the proper use of public ways. All cables, wires and other equipment shall be installed, where possible, parallel with electric and telephone lines. (Ord. 22-89 § 2, 1989)

5.20.060: RESTORATION OF PUBLIC WAYS:

If during the course of the grantee's construction, operation, or maintenance of the cable communications system there occurs a disturbance of any public way, the grantee shall, at its expense, replace and restore such public way to a condition comparable to the condition of the public way existing immediately prior to such disturbance. (Ord. 22-89 § 2, 1989)

5.20.070: RELOCATION:

A. Upon receipt of reasonable advance notice, the grantee shall, at its own expense, protect, support, temporarily disconnect, relocate in the public way, or remove from the public way, any property of the grantee when lawfully required by the city by reason of traffic conditions; public safety; street abandonment; freeway and street construction; change or establishment of street grade; installation of sewers, drains, or gas or water pipes; or any other type of structures or improvements by the city; but, the grantee shall in all cases, have the right of abandonment of its property.

B. The grantee shall, on the request of any person holding a building moving permit issued by the city, temporarily raise or lower its wires to permit the moving of such building, provided:

1. The expense of such temporary raising and lowering of wires is paid by said person, including, if required by the grantee, making such payment in advance; and

2. The grantee is given not less than seven (7) business days' advance written notice to arrange for such temporary wire changes. (Ord. 22-89 § 2, 1989)

5.20.080: TRIMMING OF TREES AND SHRUBBERY:

The grantee shall have the authority to trim trees or other natural growth overhanging any part of its cable communications system in the service area so as to prevent branches from coming in contact with grantee's wires, cables, or other equipment. Grantee shall reasonably compensate the city or property owner for any damages caused by such trimming, or shall, in its sole discretion and at its own expense, reasonably replace all trees or shrubs damaged as a result of any construction of the system undertaken by grantee. The provisions of this section do not supersede the requirements of the urban forestry ordinance. (Ord. 22-89 § 2, 1989)

5.20.090: FRANCHISE AUTHORITY USE OF GRANTEE'S POLES AND CONDUITS:

Subject to any applicable state or federal regulations or tariffs, the city shall, after giving written notice, have the right to make use of any poles or conduits controlled or maintained by or for use of the grantee, that are located in any public way. Such use by the city shall not interfere with current or future use by the grantee. Further, to the extent not expressly precluded by law, the city agrees to indemnify the grantee from any damages arising from or attributable to such use. (Ord. 22-89 § 2, 1989)

5.20.100: SAFETY REQUIREMENTS:

A. Construction, installation and maintenance of the cable communications system shall be performed in an orderly manner.

B. Grantee shall install and maintain its wires, cables, fixtures and other equipment in accordance with applicable safety codes or technical requirements, including, but not limited to, national electrical safety code (national bureau of standards); national electrical code (national bureau of fire underwriters); and applicable FCC or other federal, state or local regulations, and in such manner that they will not interfere with any installations of the city or any public utility. All lines, equipment and connections in, over, under, and upon the streets and private property within the city, wherever situated or located, shall at all times be kept and maintained in a safe and suitable condition and in good order and repair. All installations shall be made so as not to impair the fire integrity of any building. The cable communications system shall not endanger nor interfere with the safety of persons or property in the service area. (Ord. 22-89 § 2, 1989)

5.20.110: AERIAL AND UNDERGROUND CONSTRUCTION:

A. In those portions of the service area where the transmission or distribution facilities of the public utilities providing telephone and electric services are underground, the grantee likewise shall construct, operate and maintain its transmission and distribution facilities underground (except for ground mounted appurtenances such as subscriber taps, line extenders, system passive devices, amplifier, power supplies, pedestals, etc.) provided that the underground facilities are capable of receiving the equipment without technical degradation of the cable communications system's signal quality. In those parts of the service area where the transmission or distribution facilities of the public utilities are both aerial and underground, grantee shall have the sole discretion to construct, operate and maintain all of its transmission and distribution facilities, or any part thereof, aerially or underground.

B. Notwithstanding anything to the contrary contained in this section, in the event that all of the transmission or distribution facilities of the public utilities providing telephone communications and electric services in a given area are to be placed underground, upon ninety (90) days' notice grantee shall be required to place all of its transmission and distribution facilities underground in the given area concurrent with placement by the utilities, and thereafter construct or operate and maintain all of its transmission and distribution facilities underground in the given area. (Ord. 22-89 § 2, 1989)

5.20.120: EXTENSION OF SERVICE:

A. Authorization: Grantee is hereby authorized to extend the cable communications system throughout the service area.

B. Expansion Plan: Grantee shall file with the city each year with its annual report a five (5) year expansion plan indicating grantee's present plan for construction, rebuilding, or overbuilding the service area, including target dates for completion. The expansion plan will be submitted in a format mutually acceptable to the grantee and the city.

C. Requirements:

1. Whenever grantee shall receive a request for service from at least fifteen (15) or more subscribers within one thousand three hundred twenty (1,320) cable bearing strand feet ($^{1}/_{4}$ cable mile) of its trunk cable, it shall extend its cable communications system to such subscribers at its normal connection fee; provided that such extension is technically feasible, will not adversely affect the operation of the cable communications system, and grantee is able to reasonably obtain all easements which are necessary to extend service relating thereto. The extension of services shall be completed within sixty (60) days of the date of request.

2. No subscriber shall be refused service arbitrarily. However, for unusual circumstances, such as a subscriber's request to locate his cable drop underground, existence of more than one hundred fifty feet (150') of distance from distribution cable to connection of service to subscribers, or a density of less than fifteen (15) subscribers per one thousand three hundred twenty (1,320) cable bearing strand feet of trunk or distribution cable, cable service or other service may be made available on the basis of a capital contribution in aid of construction, including cost of material, labor and easements. For the purpose of determining the amount of capital contribution in aid of construction to be borne by grantee and subscribers in the area in which cable service may be expanded, grantee will contribute an amount equal to the construction and other costs, multiplied by a fraction whose numerator equals the actual number of potential subscribers per one thousand three hundred twenty (1,320) cable bearing strand feet of its trunks or distribution cable, and whose denominator equals fifteen (15) subscribers. The remainder of the construction and other costs will be charged to the potential subscribers when or if they subscribe on a pro rata basis. Grantee may require that the payment of the capital contribution in aid of construction borne by such potential subscribers be paid in advance. The subscriber shall be given a written estimate of such payment prior to the beginning of construction, and shall in no event be required to pay more than five percent (5%) over this estimate. In lieu of directly charging for construction costs, grantee may implement alternative pricing structures for services rendered which reflect disproportionate construction and related costs incidental to serving low density or other capital intensive areas. (Ord. 22-89 § 2, 1989)

5.20.130: SERVICES TO PUBLIC BUILDINGS:

A. The grantee shall provide upon demand and without charge a minimum of one outlet of basic service to each governmental office building, fire station, police station, and public school building within the service area where the drop line from the feeder cable to said buildings or premises is less than one hundred fifty (150) cable feet, and to the city/county building at 400 South and State Streets. The grantee shall provide one outlet of basic service to each governmental office building, fire station, police station, and public school building within the service area where the drop line from the feeder cable to said buildings or premises exceeds one hundred fifty (150) cable feet upon receipt of payment for the incremental cost of such drop line in excess of one hundred fifty (150) cable feet. The city has the right to request additional outlets in any given building for which the city shall pay the incremental cost of installation, as well as the cost of any equipment necessary to ensure such distribution does not adversely affect the grantee's cable communication system. These outlets shall not be used to distribute or sell cable services in or throughout such buildings; nor shall such outlets be located in common or public areas open to the public.

B. Users of such outlets shall hold grantee harmless from any and all liability or claims arising out of their use of such outlets, including, but not limited to, those arising from copyright liability. (Ord. 22-89 § 2, 1989)

5.20.140: EMERGENCY OVERRIDE:

In the case that the mayor or the mayor's designee declares a state of emergency or disaster, the grantee shall, upon request of the city, make available to the city a system audio override through which emergency information and instructions may be given during the emergency or disaster period. (Ord. 22-89 § 2, 1989)

5.20.150: SYSTEM REQUIREMENTS:

Any cable communications system permitted to be installed and operated hereunder:

A. Shall have a minimum capacity of twenty (20) channels;

B. Shall be operationally capable of relaying to subscriber drops (i.e., terminals) those television or radio broadcast signals for the carriage of which the grantee is now or hereafter required by the federal communications commission;

C. Future construction shall have, if technically practicable, the capacity for nonvoice return communication such that:

1. Return communications are capable of being received and processed both at the headend for the service area in which the communication originates and at a main headend for the service area served by the grantee,

2. At the option of the subscriber, no return signals will be communicated, and

3. The system will include technical safeguards calculated to deter interception of return communications by third parties;

D. Shall distribute in color television signals which it receives in color;

E. Shall provide at least one access channel for the city of Salt Lake, and at least one access channel for educational and public use. All access channels shall be carried throughout the service area and shall be made available to subscribers without charge; and

F. Shall provide, to the extent technically practicable, a microwave receiver and the necessary connections to receive transmissions from the city for the government access channels and transmit those signals over the cable communication system. (Ord. 22-89 § 2, 1989)

5.20.160: EDUCATIONAL AND MUNICIPAL SERVICES:

On reimbursement of actual cost for installation and periodic maintenance, the grantee shall provide a return link, if technically practicable, permitting transmission of originated program material between:

A. Each public building within the service area designated by the city and each state accredited public or private educational institution located within the service area that requests such installation; and

B. The headend of the grantee. (Ord. 22-89 § 2, 1989)

5.20.170: COMMUNITY ACCESS SERVICES:

A. The grantee shall provide for or accommodate public access programming.

B. The purpose of the public access channel is to provide a channel through which citizens of civic organizations, cultural and arts organizations can promote and encourage programming that will be of benefit to the community within service area.

C. Access channel assignments shall be made by the grantee in consultation with the city and shall be uniform throughout the city. (Ord. 22-89 § 2, 1989)

5.20.180: COMPATIBILITY AND INTERCONNECTION:

All cable communication systems franchised hereunder shall, insofar as technically and economically feasible, be compatible with and able to tie into all other systems within and adjacent to the city. (Ord. 22-89 § 2, 1989)

5.20.190: FRANCHISE FEE:

A. Grantee shall pay to the city a franchise fee equal to five percent (5%) of the gross revenues received by the grantee from the operation of the cable communication system. Franchise fee payments due to the city under this section shall be computed quarterly. For the purpose of the franchise fee payment computation, the applicable accounting period shall be a calendar year, unless otherwise agreed to in writing by the city and grantee.

B. The quarterly franchise fee payments shall be due and payable ninety (90) days after the close of the quarter. Each payment shall be accompanied by a brief report from a representative of grantee showing the basis for the computation and a written statement signed under penalty of perjury by an officer of the grantee, which identifies in detail the sources and amounts of gross revenues received by the grantee during the quarter for which payment is made. No acceptance of any payment shall be construed as an accord that the amount paid is in fact the correct amount, nor shall such acceptance of payment be construed as a release of any claim the city may have for further or additional sums payable under the provisions of this permit.

C. Any franchise fees which remain unpaid after the dates specified in subsection B of this section shall be delinquent and shall thereafter accrue interest at eighteen percent (18%) per year until paid.

D. The grantee shall, upon reasonable notice from the city, make available to the city or its designated representatives full billing records for confidential inspection and audit. If the results of the audit show an underpayment of greater than five percent (5%), the grantee will pay all costs associated with the audit in addition to any other amounts owed as shown by the audit. If the results of the audit show an underpayment of greater than ten percent (10%), the grantee will pay the cost of the audit plus fifty percent (50%) of the total error as penalty in addition to any amount owed as shown by the audit. If the results of the audit show an underpayment of less than five percent (5%) or an overpayment, city shall pays its own costs associated with the audit.

E. In the event the results of the audit are disputed, the city may elect to arbitrate the dispute or take any other appropriate action. In the event the city elects to arbitrate, the city and the grantee shall each select an independent auditor at their own cost. The two (2) auditors will agree upon the results of the audit. If the two (2) independent auditors cannot agree upon the results of the audit, a third auditor will be selected by the two (2) independent auditors to make a final determination. The determination of the third independent auditor will be final.

F. The period of limitation for recovery of any franchise fee payable hereunder shall be five (5) years from the date on which payment by the grantee is due. Unless within five (5) years from and after said payment due date, the city initiates a lawsuit for recovery of such franchise fees in a court of competent jurisdiction, such recovery shall be barred, and the city shall be estopped from asserting any claims whatsoever against the grantee relating to any such alleged deficiencies.

G. If grantee challenges the right of the city to collect the franchise fee provided by this chapter, any relief requested by grantee and awarded to it by virtue of such challenge shall be prospective only from and after the date of the filing of the initial pleading seeking such relief in a court of competent jurisdiction. Grantee shall waive any and all claims or rights to collect back from the city or obtain credit therefor against future payment obligations, any amounts collected by the city prior to the filing of the initial pleading seeking such relief in a court of competent jurisdiction. In the event grantee's challenge to any franchise fee payments should result in an initial judgment in its favor, grantee shall continue to make all franchise fee payments pending an appeal by the city to a court of last resort. In the event the court of last resort determines that the city is not entitled to collect any or all of the franchise fee, the city shall refund to grantee all payments made subsequent to the filing of the initial action by grantee, together with interest on such monies determined by the actual rate of return on the average of all investments of city during the period for which such funds were paid after the judgment. (Ord. 22-89 § 2, 1989)

5.20.200: RATES AND CHARGES:

The city does not intend to regulate the rates for the provision of cable service and other service except to the extent permitted pursuant to applicable federal, state and local law, and expressly provided herein. From time to time, grantee may change its rates and charges including, but not limited to, the implementation of additional charges and rates; provided that grantee give thirty (30) days' notice to the city. (Ord. 22-89 § 2, 1989)

5.20.210: RENEWAL OF FRANCHISE:

A. Proceedings undertaken by the city relating to renewal of the grantee's franchise shall be governed by and comply with the provisions of section 626 of the cable act (as such existed as of the effective date of the cable act), unless the procedures and substantive protections set forth therein shall be deemed to be preempted and superseded by the provisions of any subsequent provision of federal or state law.

B. In addition to the procedures set forth in said section 626(a), the city shall notify grantee of its preliminary assessments regarding the identity of future cable related community needs and interests, as well as the past performance of grantee under the then current franchise term. The preliminary assessment shall be provided to the grantee prior to the time that the four (4) month period referred to in subsection (c) of section 626 is considered to begin.

C. Notwithstanding anything to the contrary set forth in this section, at any time during the term of the then current franchise, while affording the public appropriate notice and opportunity to comment, the city and grantee may agree to undertake and finalize negotiations regarding renewal of the then current franchise and the city may grant a renewal thereof. The terms set forth in this section shall be construed to be consistent with the express provisions of section 626 of the cable act. (Ord. 22-89 § 2, 1989)

5.20.220: CONDITIONS OF SALE:

A. In the event the franchise is lawfully revoked by the city, grantee shall be given six (6) months to transfer its cable system to a qualified third party. During the period before sale the grantee may continue to operate pursuant to the terms of its prior franchise and, without limitation, continue to receive all revenues derived from or related thereto subject to payment of the required franchise fees.

B. If the city either acquires ownership of the cable communications system or by its actions effects a transfer of ownership of the cable system, the acquisition or transfer shall be at a fair market value, determined on the basis of the cable system valued as a going concern, but with no value allocated to the franchise itself.

C. Without waiving or establishing the city's right to proceed by condemnation the city may agree to have the fair market value determined by two (2) cable television experts, one chosen by the grantee and one chosen by the city. If these experts cannot agree, the disagreement will be resolved through pendulum arbitration by an arbitrator chosen by the two (2) experts. (Ord. 22-89 § 2, 1989)

5.20.230: TRANSFER OF FRANCHISE:

Grantee's right, title, or interest in the franchise shall not be sold, transferred, assigned or otherwise encumbered without the prior consent of the city except for a transfer in trust, by mortgage, by other hypothecation, or by assignment of any rights, title, or interest of grantee in the franchise or cable communication system in order to secure indebtedness; provided, however, that without consent and upon notice which shall be no less than thirty (30) days, grantee may sell, transfer or assign its right, title and interest in the franchise to an affiliate. (Ord. 22-89 § 2, 1989)

5.20.240: COMPLIANCE WITH FCC REGULATIONS:

Grantee shall comply with all FCC requirements and regulations. (Ord. 22-89 § 2, 1989)

5.20.250: BOOKS AND RECORDS:

The city may review such of the grantee's books and records as are reasonably necessary to monitor compliance with the terms hereof. Such records shall include, but shall not be limited to, any public records required to be kept by the grantee pursuant to the rules and regulations of the FCC. To the extent allowable by law the city will treat any information disclosed by the grantee on a confidential basis, and to only disclose it to employees, representatives, and agents thereof who have a need to know; or in order to enforce the provisions hereof. Notwithstanding anything contained herein to the contrary, the grantee shall not be required to disclose information which it reasonably deems to be confidential or proprietary in nature, except to the extent required by law. (Ord. 22-89 § 2, 1989)

5.20.260: PERIODIC REVIEW:

Beginning on a date established by the city and then annually thereafter, the city may on its own initiative, and shall at the request of the grantee, schedule a public meeting for the purpose of identifying the cable related community needs and interests, and reviewing the performance of the grantee under the franchise. The city shall notify grantee of the time and place of such meeting and provide the grantee with an opportunity to be heard. The public shall be afforded appropriate notice and opportunity for comment. Within four (4) months of such meeting, the city shall provide grantee with a written copy of its findings. (Ord. 22-89 § 2, 1989)

5.20.270: REPORTING REQUIREMENT:

At a minimum the grantee shall provide the city annually the following information:

A. A report of the previous year's performance on the expansion plan required by section 5.20.120 of this chapter, including, but not limited to, service begun or discontinued during that year and a new five (5) year plan;

B. A financial summary, including a statement of income, revenues, and aggregate operating expenses, prepared in accordance with generally accepted accounting principles and certified by grantee's chief financial officer;

C. A list of the grantee's officers, members of its board of directors and other principals;

D. A written report regarding the FCC proof of performance tests for the system;

E. A current map or set of maps drawn to scale showing all equipment installed and in place, or when the time comes that the city shall have operational a computerized geographical information system, grantee shall update cable system data on a monthly basis; and

F. A description of all petitions, applications, communications and reports submitted by the grantee to any state or federal entity in respect to any matters affecting cable television system's operations authorized by the franchise. Copies shall be provided to city upon request. (Ord. 22-89 § 2, 1989)

5.20.280: INSURANCE, INDEMNIFICATION, BONDS OR OTHER SURETY:

A. Grantee shall maintain in full force and effect, at its own cost and expense, during the term of the franchise, general comprehensive liability insurance in the amount of two hundred fifty thousand dollars ($250,000.00) for bodily injuries, (including accidental death) to any one person, and subject to the same limit for each person in amount not less than five hundred thousand dollars ($500,000.00) on account of any one occurrence, and property damage liability insurance in an amount not less than one hundred thousand dollars ($100,000.00) resulting from any one occurrence. Said insurance shall designate the city as an additional named insured. Such insurance shall be noncancellable except upon sixty (60) days' prior written notice to the city. In the event that potential liability for the city is increased by any change in the Utah governmental immunity act, grantee shall modify the required insurance amounts accordingly upon thirty (30) days' notice from the city.

B. The grantee shall indemnify, save and hold harmless, and defend the city, its officers, boards, and employees, from and against any liability for damages and for any liability or claims resulting from property damage or bodily injury (including accidental death), which arise out of the grantee's construction, operation, or maintenance of its cable communication system, including, but not limited to, reasonable attorney fees and costs during third party litigation. This provision will not apply in the event of a value dispute on sale, or to damages which arise from the city's sole negligence. (Ord. 22-89 § 2, 1989)

5.20.290: SECURITY FUND:

A. Within thirty (30) days after the effective date of a franchise grant, grantee shall deposit into a bank account established by the city the sum of twenty five thousand dollars ($25,000.00) as security for its faithful performance on all provisions of this chapter and the cable television services standards ordinance; its compliance with all orders, permits and directions of the city; and its payment of any claim, lien or tax due the city which arises by reason of construction, operation or maintenance of the system. Interest accrued on this deposit shall be rebated to the grantee at the end of each calendar year. Grantee shall not use this security fund as security for any other purpose.

B. No funds shall be drawn from the security fund without providing the grantee the opportunity to cure the default as provided in sections 5.20.300 through 5.20.330 of this chapter or other applicable cure provisions.

C. Within thirty (30) days of notice that any amount has been withdrawn from the security fund, grantee shall deposit a sum sufficient to restore the security fund to the original amount.

D. In lieu of the security fund set forth in this section, the city and grantee may agree that a guarantee from an entity and in a form acceptable to the city may be sufficient to satisfy grantee's obligations hereunder. (Ord. 22-89 § 2, 1989)

5.20.300: NOTICE OF VIOLATION:

In the event that the city believes that the grantee has not complied with the terms of the franchise or this chapter, it shall notify grantee of the nature of the alleged noncompliance. (Ord. 22-89 § 2, 1989)

5.20.310: GRANTEE'S RIGHT TO CURE OR RESPOND:

Grantee shall have thirty (30) days from receipt of the notice described in section 5.20.300 of this chapter to:

A. Respond to the city contesting the assertion of noncompliance; or

B. Cure such default or, in the event that, by the nature of default, such default cannot be cured within the thirty (30) day period, initiate reasonable steps to remedy such default and notify the city of the steps being taken and the projected date that they will be completed. (Ord. 22-89 § 2, 1989)

5.20.320: PUBLIC HEARING:

In the event that grantee fails to respond to the notice described in section 5.20.300 of this chapter pursuant to the procedures set forth in section 5.20.310 of this chapter, or in the event that the alleged default is not remedied within sixty (60) days after the grantee is notified of the alleged default pursuant to section 5.20.300 of this chapter, the city shall schedule a public hearing to investigate the default. Such public hearing shall be held by the mayor or his or her designee at a time which is no less than five (5) business days therefrom. The city shall notify the grantee of the time and place of such meeting and provide the grantee with an opportunity to be heard. (Ord. 22-89 § 2, 1989)

5.20.330: VIOLATION OF CERTAIN SPECIFIED SECTIONS:

The notice, cure and public hearing provisions of sections 5.20.300, 5.20.310 and 5.20.320 of this chapter shall not be applicable to any violations of sections 5.20.100, 5.20.140, 5.20.280 of this chapter or other violations which may immediately affect the health, safety and welfare of the city. In the event of such violations the city may demand the grantee immediately cure the violation. The city may enforce such a cure requirement by any or all applicable remedies at law or equity. (Ord. 22-89 § 2, 1989)

5.20.340: ENFORCEMENT:

A. Subject to sections 5.20.290 through 5.20.330 of this chapter and applicable federal and state law, in the event the city determines that grantee has failed to substantially comply with any material provision of the franchise, the city may:

1. Foreclose on all or any part of any security provided under this chapter or other related ordinances, if any, including, without limitation, any bonds or other surety; provided, however, the foreclosure shall only be in such a manner and in such amount as the city reasonably determines is necessary to remedy the default;
2. Commence an action at law for monetary damages or seek other equitable relief;
3. Subject to applicable federal, state and local law, in the case of a substantial default of sections 5.20.100, 5.20.110, 5.20.140, 5.20.240, or subsection 5.20.120C of this chapter, revoke the franchise agreement; or
4. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages;
5. Exercise any right or remedy available at law or in equity;
6. Impose penalties pursuant to section 5.20.350 of this chapter.

B. The grantee shall not be relieved of any of its obligations to comply promptly with any provision of the franchise by reason of any failure of the city to enforce prompt compliance. (Ord. 22-89 § 2, 1989)

5.20.350: FINES AND PENALTIES:

A. Subject to sections 5.20.290 and 5.20.330 of this chapter, the city may impose a civil penalty on the grantee up to the following amounts per day or part thereof that the following violations occur or continue:

1. Two hundred dollars ($200.00) for any failure to complete system construction in accordance with grantee's construction obligations contained in the cable communication ordinance or franchise grant;

2. One hundred dollars ($100.00) for any failure to provide data, documents, reports or information to the city during a system review, as detailed in section 5.20.260 of this chapter;

3. Seventy five dollars ($75.00) for any failure to comply with any of the provisions of this chapter for which a damage is not otherwise specifically provided in the master cable communication ordinance or franchise grant.

B. Each violation of any provision of this chapter shall be considered a separate violation for which a separate damage can be imposed. (Ord. 22-89 § 2, 1989)

5.20.360: UNAUTHORIZED RECEPTION:

In addition to those criminal and civil remedies provided by state and federal law, it is a class B misdemeanor for any person, firm, or corporation to create or make use of any unauthorized connection, whether physically, electrically, acoustically, inductively, or otherwise, with any part of the cable communication system without the express consent of grantee. It is a misdemeanor for any person to tamper with, remove or injure any property, equipment or part of the cable system or any means of receiving cable service or other services provided thereto. (Ord. 22-89 § 2, 1989)

5.20.370: NOTICE OF WORK IN RIGHT OF WAY:

Grantee shall notify the franchise authority and take reasonable steps to notify the residents in any area where regularly scheduled work involving excavation of the right of way is to be performed at least fourteen (14) days before the work is to be performed. This notification shall not be required in the event of emergency repair work or work that is confined to a single site and which will be completed in one day. (Ord. 22-89 § 2, 1989)

5.20.380: MISCELLANEOUS PROVISIONS:

A. Preemption: If any federal or state body or agency shall preempt and supersede or preclude the jurisdiction of the city, the jurisdiction of the city shall cease while such jurisdiction is preempted, superseded or precluded.

B. Actions Of The City: In any action by the city or representative thereof mandated or permitted under the terms hereof, such party shall act in a reasonable, expeditious and timely manner. Furthermore, in any instance where approval or consent is required under the terms hereof, such approval or consent shall not be unreasonably withheld.

C. Severability: If any section, sentence, paragraph, term or provision hereof is for any reason determined to be illegal, invalid, superseded by other authority or unconstitutional by any court of common jurisdiction or by any state or federal regulatory authority having jurisdiction thereof, such portion shall be deemed a separate, distinct, and independent provision and such determination shall have no effect on the validity of any other section, sentence, paragraph, term or provision hereof, all of which will remain in full force and effect for the term of the franchise or any renewal or renewals thereof.

D. City Rules: The mayor may adopt, in addition to the provisions contained in this chapter and other applicable ordinances including, but not limited to, chapters 5.20A and 5.21 of this title, such additional regulations as it may find necessary in the exercise of the police power, including rules and requirements for customer service, provided that such regulations do not materially conflict or interfere with grantee's rights granted herein. Any such additional regulations shall be reasonably designed to meet the purposes of this chapter and shall be adopted only after notice and comment are provided.

E. CHAPTER 5.21

The purpose of this chapter is to regulate in the public interest, the service standards of cable communication systems within the city, in order to ensure that the service provided to subscribers within the city by cable television companies is reasonably sufficient to meet community needs. (Ord. 20-89 § 1, 1989)

ABANDONED CALLS: Telephone calls that are connected to the grantee's general information number but the caller hangs up without being attended by a representative of the grantee or a device capable of problem resolution (e.g., placing a service request, placing a work order, directing call to appropriate personnel, etc.). "Abandoned calls" shall in no event be deemed to include calls in which the caller hangs up within forty five (45) seconds of making the call.

CABLE SERVICE: A. The one-way transmission to subscribers of video programming or other programming services; and

B. Any subscriber interaction required for the selection of such video programming or other programming service. (Ord. 20-89 § 1, 1989)

5.21.050: SYSTEM SERVICE STANDARDS:

A. Grantee shall limit system failures to a minimum time duration by locating and commencing repair promptly. Grantee will generally respond to subscriber outages by the next business day. In the event of a major system outage, however, such as where a majority of subscribers are without a picture in twenty five percent (25%) or more of the service area, grantee will respond to such outages within twenty four (24) hours after occurrence, irrespective of holidays or nonbusiness hours.

B. Grantee shall render efficient service making system repairs promptly, and interrupting service only for good cause and for the shortest time possible. E. Ninety five percent (95%) of all repair and installation appointments shall be met by grantee on the appointed date and within the appointed four (4) hour block of time, unless satisfactory arrangements are otherwise made with the subscriber. An appointment shall be considered to have been met by grantee if the subscriber fails to be present to allow grantee access during the appointed block of time and grantee confirms such absence by calling the subscriber's home telephone.

F. The grantee shall provide the information required to monitor the standards in this section to the franchise authority on a monthly basis. The grantee shall be excused for not achieving these standards during periods when conditions exist which are outside of its reasonable ability to control, or when there are system interruptions, outages, or other activities designed to maintain or improve cable service or the system. The grantee shall notify the franchise authority in advance of any maintenance or improvement activity which grantee claims will make attainment of the standards impracticable. (Ord. 20-89 § 1, 1989)

5.21.070: NOTICE AND OPPORTUNITY TO CURE:

A. In the event the grantee violates one or more material terms, conditions or provisions of this chapter, including, but not limited to, sections 5.21.050 and 5.21.060 of this chapter, the city shall give the grantee written notice detailing the nature of the alleged noncompliance. For violations of section 5.21.060 of this chapter, the grantee shall have fifteen (15) business days to cure the default, or if the default cannot be cured within fifteen (15) business days, to initiate reasonable steps to remedy the default and notify the city of the steps being taken and the projected date that they will be completed. If the grantee disputes the assertion of noncompliance, it must notify the city in writing within five (5) business days of the original notice, stating that it disagrees with the assertion of noncompliance, giving with particularity the reasons for disagreement.

B. The mayor or the mayor's designee shall hear grantee's dispute at an executive hearing to be held in a timely manner.

C. Upon a determination by the mayor or the mayor's designee that a violation exists, grantee shall have ten (10) business days to cure the default or to take reasonable steps to remedy the default if it cannot be cured within ten (10) business days.

D. In the event that grantee fails to respond to the notice described in subsection A of this section, or in the event that the default is not remedied within the time required, the city may, without further notice and in addition to any other applicable remedies, implement and collect the daily fine pursuant to section 5.21.080 of this chapter. (Ord. 20-89 § 1, 1989)

5.21.080: ENFORCEMENT:

A. For violation of a term of this chapter, subject to the provisions of section 5.21.070 of this chapter, the grantee shall pay two hundred fifty dollars ($250.00) per day, or part thereof, for the first day that such violation continues from and after implementation of the daily fines, pursuant to subsection 5.21.070D of this chapter. The fine shall increase weekly by an additional two hundred fifty dollars ($250.00) per day to a maximum of one thousand dollars ($1,000.00) per day. Grantee shall pay the fine or penalty directly or by notifying the city to draw down the security deposit held by the city pursuant to the cable communication ordinance. If the grantee fails to pay the penalty or notify the city to draw down on the security deposit within seven (7) days of notification of the implementation of daily fines, the city may proceed immediately to draw down on the security deposit.

B. Nothing contained in this chapter shall preclude the exercise of any other right or remedy of the city available at law or equity. (Ord. 20-89 § 1, 1989)

5.21.090: THREE YEAR REVIEW AND MODIFICATION:

A. Every three (3) years after the adoption of this chapter, the city and grantee shall undertake a survey within the service area of cable subscribers designed to measure cable subscriber satisfaction of the customer service practices of the grantee. Such survey shall be at grantee's sole expense, in a form mutually acceptable to the city and grantee.

B. In the event that the survey demonstrates that the customer service practices set forth in subsection 5.21.060B of this chapter are insufficient to meet the reasonable community needs in light of the anticipated costs thereof, then the percentage set forth in subsection 5.21.060B of this chapter relating to the attending of customer calls shall automatically be deemed to increase by an amount sufficient to meet such community needs. It shall be a rebuttable presumption that such percentage increase shall be three percent (3%) for each three (3) year review period. In no event will the percentage in subsection 5.21.060B of this chapter be greater than ninety five percent (95%).

C. Nothing in this chapter shall limit the city's and the grantee's ability to reduce the percentage set forth in subsection 5.21.060B of this chapter except that no reduction may be allowed below the eighty five percent (85%) initial standard. If, based upon the survey results, a decrease in such percentage is demonstrated to be sufficient to meet the community needs, upon a request of grantee, the city shall not unreasonably refuse to reduce such percentage. (Ord. 20-89 § 1, 1989)

5.21.100: MISCELLANEOUS PROVISIONS:

A. Preemption: If any federal or state body or agency shall preempt and supersede or preclude the jurisdiction of the franchise authority, the jurisdiction of the franchise authority shall cease while such jurisdiction is preempted, superseded or precluded.

Severability: If any section, sentence, paragraph, term or provision hereof is for any reason determined to be illegal, invalid, superseded by other authority or unconstitutional by any court of common jurisdiction or by any state or federal regulatory authority having jurisdiction thereof, such portion shall be deemed a separate, distinct, and independent provision and such determination shall have no effect on the validity of any other section, sentence, paragraph, term or provision hereof, all of which will remain in full force and effect for the term of the franchise or any renewal or renewals thereof.

C. Franchise Authority Rules: The mayor may adopt, in addition to the provisions herein contained in this chapter and other applicable ordinances, such additional regulations as it may find necessary in the exercise of the police power. Any such additional regulations shall be reasonably designed to meet the purposes of this chapter and shall be adopted only after notice and comment are provided. (Ord. 20-89 § 1, 1989)

If, at the conclusion of the hearing, the city shall find that the holder has shown extenuating circumstances, the city may grant continuance of authority.

C. Upon revocation by the city of such authority, the certificate shall be modified to reflect the number of carriages actually in service for the required minimum number of carriage days during such calendar six (6) months. No refund shall be made for any unused portion of the license fee. The business license supervisor or city attorney may request city staff to investigate further or obtain additional evidence before making a determination.

B. Notice Upon Determination To Initiate A License Enforcement Action: If a determination is made that sufficient grounds exist to proceed, the business licensing supervisor will schedule a hearing before the alcohol enforcement hearing board. Thirty (30) days' written notice must be provided to the applicant or licensee. Notice may be served personally or by registered letter, return receipt requested, at the licensed premises. Receipt by any adult employee of the business constitutes adequate service. The notice must include a description of the alleged conduct underlying the complaint; a description of the potential penalties; the date, time and place the hearing will be conducted; and a statement that the licensee has the right to appear, be represented by an attorney, call witnesses and present evidence.

2. The applicant or licensee may be represented by an attorney, call witnesses, present evidence, and obtain administrative subpoenas from the city recorder as provided in title 2, chapter 2.59 of this code.

3. Strict adherence to the Utah rules of evidence is not required. The board may consider any relevant, nonprivileged oral or documentary evidence presented.

4. After hearing the evidence presented, the board will make a factual determination, based on a preponderance of the evidence, whether the alleged grounds for enforcement have been proven. A finding by at least two (2) board members is sufficient to sustain a determination. The board may request that counsel for either party draft the findings of fact.

5. If the board determines that there is not sufficient evidence to prove the alleged grounds for enforcement, then the matter will be dismissed.

6. If the board determines that sufficient evidence exists to prove the grounds for enforcement, then it must determine the appropriate penalty based on the penalty matrix in section 5.51.080 of this chapter. The board must issue a written order, which may be drafted by counsel for either party, referencing its finding of facts, and stating the penalty imposed. (Ord. 64-12, 2012)

No food vendor shall operate within one hundred feet (100') on the same linear block face of a door to a restaurant, city authorized special event selling food (outside public right of way), Gallivan Plaza (during events), or fruit or vegetable market, with direct access to the sidewalk. No flower or balloon vendor shall operate within one hundred feet (100') on the same linear block face of a door to a flower or balloon shop or city authorized special event selling flowers/balloons (outside public right of way), Gallivan Plaza (during events), with direct access to the sidewalk. No newspaper/magazine vendor shall operate within one hundred feet (100') on the same linear block face of a door to a newspaper/magazine shop or city authorized special event selling newspapers/magazines (outside public right of way), Gallivan Plaza (during events), with direct access to the sidewalk. In the event of multiple entries/spacing requirements, the above requirement does not invalidate a legally authorized vending permit location. The vendor will still be authorized to operate at a maximum available spacing from all affected entries. The above requirement may be waived if the application is submitted with the written consent of the proprietor of such restaurant or shop. The consent shall be on forms deemed appropriate by the business license administrator. Payment of any consideration to a proprietor of such restaurant or shop or receipt of such consideration by a proprietor for such written consent is prohibited. Such waiver shall not except the permittee from compliance with the other location and distance restrictions of this chapter. (Ord. 54-07 § 1, 2007)

5.65.160: APPROVED KITCHEN:

If the vending cart includes an area for food preparation and/or sale, it must be approved by the Salt Lake Valley health department. Vending carts shall only be kept at a commissary approved by the health department for the purposes of cleaning, stocking and preparation of food. The keeping of vending carts at a personal residence or other location not approved by the health department is strictly prohibited. (Ord. 54-07 § 1, 2007)

2. Pick up any paper, cardboard, wood or plastic containers, wrappers, or any litter in any form which is deposited by any person within a fifty foot (50') radius of the place of conducting business; and clean up all residue from any liquids spilled upon the sidewalk within said fifty foot (50') radius. Each person conducting business on a public sidewalk under the provisions of this chapter shall carry a suitable container for the placement of such litter by customers or other persons;

3. Vending carts whose operations involve the cooking of food which will result in suspended grease or oil particles that end up as deposits on the immediate sidewalks or adjacent walls shall at the permittee's sole expense be required to clean their assigned location twice monthly, except during the months of December 1 through March 31, in accordance with the standards set forth and approved by the department of public utilities. The cleaning method must use a solution which dissolves the grease, and contains the wastewater while the cleaning process takes place so that the cleaning water or solution is not allowed to drain into the street or storm drain. A plan for cleaning shall be submitted to the city before a revocable land use permit is issued;

4. Obey any lawful order of a police officer to move temporarily to a different location to avoid congestion or obstruction of the sidewalk or to remove the vending cart entirely from the sidewalk, if necessary, to avoid such congestion or obstruction;

5.65.180: SPECIAL EVENTS:

The restrictions of this chapter notwithstanding, nothing herein shall prohibit the city from authorizing vendors, other than those licensed under this chapter, to conduct concurrent sidewalk vending operations within the expanded central business district, or such other areas as the city may deem appropriate, during special events (special event vendors). The special event vendors shall not be governed by this chapter, but shall be governed by such other ordinance, city policy, or executive order as may be applicable. However, as long as the public right of way remains open to the general public, such authorization of special event vendors shall not require removal of a permittee under this chapter from operating within his/her designated permit operating location or a mutually acceptable adjacent alternative location during such special event, unless otherwise provided under the city's ordinances. If the city is closing a public right of way to general access, either partially or fully, in order to accommodate a special event, the city may relocate the vendor to an adjacent location outside the special event boundary, subject to the spacing requirements of subsection 5.65.120D of this chapter. The failure of a permittee to vend from a vending cart within the permittee's permit operating location for thirty (30) continuous calendar days or more, except during the period of December, January, and February, shall constitute abandonment.

B. Upon denial, suspension or revocation, the business license supervisor shall give notice of such action to the permit holder or applicant, as the case may be, in writing stating the action he/she has taken and the reasons therefor. Such notice shall contain the further provision that it shall become final and effective within ten (10) days, unless such action is the result of a failure of the permittee to maintain liability insurance as required by this chapter, or is the result of a threat to the public health, safety or welfare in which case the action shall be effective immediately upon issuance of such notice. Any person receiving such notice, other than a notice effective upon issuance, shall have ten (10) days from the date of receipt thereof to file a written request with the business license administrator for a hearing thereon before a hearing examiner appointed by the mayor. Upon receipt of such request the business license administrator shall schedule a hearing in accordance with the procedures set forth in chapter 5.02 of this title, or its successor chapter. If the notice of denial, suspension or revocation is effective upon issuance thereof, as provided in this section, a hearing shall be held within five (5) business days of the date of issuance without any requirement of a request for such hearing from the permit holder. (Ord. 54-07 § 1, 2007)

The placement of any cart or device on any sidewalk in violation of the provisions of this chapter is declared to be a public nuisance. The business licensing administrator may, as provided by law, cause the removal of any cart or device found on a sidewalk in violation of this chapter and is authorized to store such cart or device until the owner thereof shall redeem it by paying the removal and storage charges. (Ord. 54-07 § 1, 2007)

Refusal or failure to comply with any remedial requirements referred to in the notice of violation by the deadline set as the compliance date may result in the imposition of the full penalty and any additional administrative fees which may be applicable. (Ord. 2-12, 2012)

8.04.520: NOTICE OF VIOLATIONS:

A. Notices of violations shall be adjudicated as civil violations in the justice court in accordance with the procedures set forth in title 2, chapter 2.75 of this code.

CHAPTER 8.05
REGULATION AND CONTROL OF VICIOUS DOGS

8.05.010: REGULATION OF VICIOUS DOGS:

A vicious dog shall not be licensed in Salt Lake City unless the owner or keeper of such vicious dog shall meet the following requirements:

A. The owner or keeper shall present to the office of animal services proof that the owner or keeper has procured liability insurance in the amount of at least twenty five thousand dollars ($25,000.00), covering any damage or injury which may be caused by such vicious dog during the twelve (12) month period for which licensing is sought, which policy shall contain a provision guaranteeing Salt Lake City Corporation to be notified by the insurance company of any cancellation, termination or expiration of the liability insurance policy. Such proof of insurance shall be in such form as approved by the office of the Salt Lake City attorney.

B. The animal services director may issue regulations requiring the owner or keeper, at his or her own expense, to have the licensing number assigned to such vicious dog, or such other identification number as Salt Lake City shall determine, tattooed upon such vicious dog by a licensed veterinarian or person trained as a tattooist and authorized as such by statute. The tattoo shall be placed either on the upper inner lip or upper left rear thigh of the vicious dog. The office of animal services may designate the particular location of the tattoo. The number shall be noted on the city licensing files for such vicious dog, if it is different from the dog's license number. For the purposes of this section, "tattoo" shall be defined as any permanent numbering of a vicious dog by means of indelible or permanent ink with the number designated by the licensing authority, or any other permanent, acceptable method of tatooing.

C. The owner or keeper shall display a sign on his or her premises warning that there is a vicious dog on the premises. Such sign shall be visible and capable of being read from all public entrance points to the area in which the dog is enclosed.

D. The owner or keeper shall sign a statement attesting that:

1. The owner or keeper shall maintain and not voluntarily cancel the liability insurance required by this section during the twelve (12) month period for which licensing is sought, unless the owner or keeper shall cease to own or keep the vicious dog prior to expiration of such license;

2. The owner or keeper shall, on or prior to the effective date of such license for which application is being made, have an enclosure for the vicious dog on the property where the vicious dog will be kept or maintained. Such enclosure shall be securely enclosed and locked and designed with secure sides, top and bottom and shall be designed to prevent the animal from escaping from the enclosure;

3. The owner or keeper shall notify the office of animal services immediately if a vicious dog is on the loose, is unconfined, has attacked another animal or has attacked a human being. If the vicious dog has died, been sold, or been given away, the owner or keeper shall notify the office of animal services by the end of the next business day and shall also provide the office of animal services with the name, address and telephone number of the new owner of the vicious dog.

E. The owner or keeper shall at all times cause the vicious dog to wear a collar of a color and type provided by the office of animal services so that the dog is readily identifiable as a vicious dog.

F. The owner or keeper of a vicious dog shall be issued a permanent license number when the vicious dog is licensed. Said license must be renewed each year. The animal license fee shown on the Salt Lake City consolidated fee schedule for a vicious dog shall be in addition to other license fees. (Ord. 24-11, 2011)

8.05.020: CONTROL OF VICIOUS DOGS:

A. All vicious dogs shall be confined in a locked enclosure. It shall be unlawful for any owner or keeper to maintain a vicious dog upon any premises which does not have a locked enclosure.

B. It shall be unlawful for any owner or keeper to allow any vicious dog to be outside of the dwelling of the owner or keeper or outside of the enclosure, unless the vicious dog shall be securely muzzled and restrained with a chain having a minimum tensile strength of three hundred (300) pounds and not exceeding three feet (3') in length, and shall be under the direct control of a person capable of completely restraining the dog and under the direct supervision of the owner or keeper of the vicious dog.

C. Vicious dogs shall not be allowed to participate in dog shows. (Ord. 48-88 § 2, 1988)

8.05.030: OFFENDING VICIOUS DOGS:

A. It shall be a class B misdemeanor offense of strict liability for the owner or keeper of a vicious dog if the owner's or keeper's vicious dog shall, when unprovoked, kill or wound, or assist in killing or wounding any sheep, lamb, cattle, dog, cat, horse, hog, swine, fowl or other animal, or shall, when unprovoked, attack, assault, bite or otherwise injure any human being or assist in attacking, assaulting, biting or otherwise injuring any human being while out of or within the enclosure of the owner or keeper of such vicious dog, or while otherwise, on or off the property of the owner or keeper, whether or not such vicious dog was on a leash and securely muzzled or whether the vicious dog escaped without fault of the owner or keeper.

B. The owner or keeper of such dog shall also be strictly liable to the person aggrieved as aforesaid, for all damage sustained. It is rebuttably presumed as a matter of law that the owning, keeping or harboring of a vicious dog in violation of this chapter is a nuisance. It shall not be necessary, in order to sustain any such action, to prove that the owner or keeper of such vicious dog knew that such vicious dog possessed the propensity to cause such damage or that the vicious dog had a vicious nature. Upon such attack or assault, the office of animal services or police department is hereby empowered to impound the vicious dog. (Ord. 69-99 § 7, 1999: Ord. 48-88 § 2, 1988)

8.05.040: PENALTIES FOR VIOLATION:

A. Any vicious dog:

1. Which does not have a valid license in accordance with the provisions of this chapter; or

2. Whose owner or keeper does not secure the liability insurance coverage required in accordance with subsection 8.05.010A of this chapter, or its successor; or

3. Which is not maintained on property with an enclosure; or

4. Which is found to be outside of the dwelling of the owner or keeper, or outside of an enclosure except as provided in this chapter; or

5. Which is found not wearing the collar required by subsection 8.05.010E of this chapter, or its successor; or

6. Which is not tattooed, should the animal services director issue such regulation, shall be impounded by an animal services officer or police officer, and the owner or keeper shall be guilty of a class B misdemeanor.

B. If any dog that has been declared vicious pursuant to the provisions of this chapter shall, when unprovoked, kill, wound or worry or assist in killing or wounding or worrying any animal, the animal services office or police department is empowered to impound and, after the expiration of a five (5) day appeal period, exclusive of weekends and holidays, shall euthanize the vicious dog. Appeals shall be made, in writing, to the director of animal services and shall be made pursuant to section 8.05.050 of this chapter, or its successor.

C. If any dog that has been declared vicious pursuant to the provisions of this chapter shall, when unprovoked, attack, assault, wound, bite or otherwise injure or kill a human being, the office of animal services or police department is empowered to impound and, after the expiration of a five (5) day appeal period, exclusive of weekends and holidays, shall euthanize the vicious dog. Appeals shall be made, in writing, to the director of animal services and shall be made pursuant to section 8.05.050 of this chapter. (Ord. 69-99 § 7, 1999: Ord. 48-88 § 2, 1988)

8.05.050: DETERMINATION, SEIZURE, IMPOUNDMENT AND DISPOSITION OF VICIOUS DOGS:

A. The director of animal services, or the director's designee, in their discretion or upon receipt of a complaint alleging that a particular dog is a vicious dog, as defined herein, may initiate proceedings to declare such dog a vicious dog. In determining whether or not a dog shall be declared a vicious dog, the director of animal services or designee may consider, as a mitigating factor, that the actions of the dog were "provoked", as defined in this title. A hearing on the matter shall be conducted by the director of animal services or the designee. The person owning, keeping, sheltering or harboring the dog in question shall be given not less than seventy two (72) hours' written notice of the time and place of the hearing. Said notice shall set forth the description of the dog in question and the basis for the allegation of viciousness. The notice shall also set forth that if the dog is determined to be vicious, the owner will be required to register and restrain it in accordance with this chapter, remove it from the city, or allow it to be euthanized. The notice shall be served upon any adult residing at the premises where the dog is located, or may be posted on those premises if no adult is present to accept service.

B. If, after the hearing, the animal services director or the designee determines that a dog is vicious, as defined in this title, the director of animal services or his or her designee shall order the person owning, sheltering, harboring or keeping the dog to register the dog in compliance with this chapter, remove it from the city, or to cause it to be euthanized in a humane manner. The order shall immediately be served upon the individual or entity against whom issued in the same manner as the notice of hearing. If the order is not complied with within three (3) days of its issuance, the director of animal services or the designee is authorized to order the seizure and impoundment of the dog. A dog so seized shall be impounded for a period of seven (7) days from the date the order is served upon the owner or keeper. If, at the end of the impoundment period, the person against whom the order of the director of animal services or his or her designee was issued has not appealed such order, the director of animal services or the designee shall cause the dog to be euthanized.

C. The order to register, remove or euthanize a vicious dog issued by the director of animal services or his or her designee may be appealed to the mayor or the mayor's designee. In order to appeal the order, written notice of appeal must be filed with the mayor within three (3) days after receipt of the order to remove, register or euthanize the vicious dog. Failure to file such written notice of appeal shall constitute a waiver of the right to appeal the order of the director of animal services or his or her designee.

D. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the office of the city recorder. The hearing of the appeal shall be held by the mayor or mayor's designee within five (5) days after receipt of the notice of appeal. The hearing may be continued for good cause. After such hearing, the mayor may affirm, reverse or modify the order of the director of animal services or his or her designee. Such determination shall be contained in a written decision and shall be made within three (3) days after the hearing, or any continued session thereof.

E. If the mayor affirms the action of the director of animal services or his or her designee, the mayor or the mayor's designee shall order in his or her written decision that the person owning, sheltering, harboring or keeping such vicious dog shall comply with the requirements of this chapter, remove such dog from the city, or cause it to be euthanized in a humane manner. The decision and order shall immediately be served upon the person or entity against whom rendered in the same manner as the order to remove or euthanize. If the order of the mayor, after appeal, is not complied with within three (3) days of its issuance, the office of animal services is authorized to seize and impound such vicious dog. Any dog so seized shall be impounded for a period of seven (7) days from the date the order is served upon the owner or keeper. If, at the end of the impoundment period, the entity or individual against whom the decision and order of the mayor was issued has not complied with the order or petitioned the appropriate court for a review of the order, the animal services office shall cause the dog to be euthanized in a humane manner.

F. Failure to comply with an order of the director of animal services or his or her designee issued pursuant hereto and not appealed, or of the mayor after appeal, shall constitute a class B misdemeanor.

G. Any dog found at large which displays vicious tendencies may be processed as a vicious dog pursuant to the foregoing.

H. Any dog which is alleged to be vicious and which is under impoundment or quarantine at the animal shelter shall not be released to the owner, but shall continue to be held at the expense of the owner pending the outcome of the hearing and all appeals. All costs of such impoundment or quarantine shall be paid by the owner if the dog is determined to be vicious. If collection of expenses is pursued through the court, Salt Lake City Corporation shall file suit and receive a judgment for all expenses, together with reasonable attorney fees, interest and court costs. If the dog is not determined to be vicious, all costs of such impoundment or quarantine shall be paid by Salt Lake City Corporation. (Ord. 69-99 § 7, 1999: Ord. 48-88 § 2, 1988)

2. The licensee is given written notice to comply and written notice of the right to a hearing to show cause why the license should not be revoked; and

K. The facility or operation of any licensee whose license has been suspended shall close and remain closed and all operations cease until the license has been reinstated and a new license is issued. Any facility or operation for which the license is revoked shall not be eligible to apply for a new license until one year after the date of the order revoking the license or, if the revocation is appealed, one year from the date of the order sustaining the revocation.

A license which has been suspended may be reinstated, a person with a revoked license may be issued a new license, or a licensee may no longer be subject to an order of probation if the office of animal services determines the conditions which prompted the suspension, revocation, or probation have been remedied or no longer exist.

M. A licensee shall have the right to appeal adverse decisions to the office of animal services director or designee. (Ord. 5-12, 2012)

(Ord. 52-89 § 3, 1989)

8.16.015: IDENTIFICATION NUMBER:

Each horse used to pull a carriage in the city shall be identified by a brand or mark in accordance with chapter 4-24, Utah Code Annotated, or its successor, which brand or mark uniquely identifies the horse thus marked. The identification brand or mark and description of each of said horses, including age, breed, sex, color and other identifying markings, shall be filed by the carriage horse business with animal services. (Ord. 17-02 § 13, 2002: Ord. 52-89 § 3, 1989)

8.16.020: EXAMINATION REQUIRED:

Every horse shall be examined prior to use in a horsedrawn carriage business, and every six (6) months thereafter, by a veterinarian and at no expense to the city. The horse shall be examined and treated for internal parasites; problems with its teeth, legs, hoofs and shoes, or cardiovascular system; drug abuse; any injury, disease, or deficiency observed by the veterinarian at the time or previously, and the general physical condition and ability to perform the work required of it. (Ord. 52-89 § 3, 1989)

8.16.025: CERTIFICATE REQUIRED:

No person shall cause or attempt to cause a horse to pull a carriage, unless the horse has been certified pursuant to this section. The certification of the horse may be made subject to a condition, or otherwise limited by the veterinarian. The certificate shall be kept and be available for inspection by the office of animal services at the stable where the certified horse is kept, and a copy of the certificate shall be mailed to the office of animal services within five (5) days from its date. (Ord. 17-02 § 14, 2002: Ord. 52-89 § 3, 1989)

8.16.030: CERTIFICATE BY VETERINARIAN; TERM:

After performing the physical examination required by section 8.16.020 of this chapter, or its successor, the examining veterinarian may sign a certificate attesting that the horse is in good health. The certificate shall specifically identify each horse by its breed, sex, color and identifying markings and shall state, in the opinion of the veterinarian, the maximum load which each horse can reasonably be expected to draw safely and without causing injury to the horse. The certificate, if issued, shall be valid for a period of not more than six (6) months from the date of signature. (Ord. 52-89 § 3, 1989)

8.16.035: CRITERIA FOR DETERMINING HEALTH:

For purposes of this chapter, a horse shall be deemed to be in good health only if the horse:

B. Immunizations: Has been immunized for the following and such vaccination will be effective at all times during the next six (6) months: eastern equine encephalitis, western equine encephalitis, tetanus, rhino flu, and deworming;

C. Coggins Test: Has been given a Coggins test with negative results on at least one certificate during its life and since the last time the horse entered the state of Utah; the certificate verifying said test or tests shall be filed with animal services before such horse is used in any carriage business;

D. In General: Is, in the opinion of the veterinarian, in general good health and in all respects physically fit to perform the work for which the horse is used, including the pulling of carriages. (Ord. 17-02 § 15, 2002: Ord. 52-89 § 3, 1989)

8.16.040: CANCELLATION AND SUSPENSION OF CERTIFICATE:

A veterinarian shall cancel a certificate, if the veterinarian learns of a condition which is reasonably expected to make the horse unfit for its work for a period of two (2) weeks or more. If the horse appears to the veterinarian to be suffering from an injury or sickness from which it is expected to recover in under two (2) weeks, the veterinarian shall suspend the certificate for such horse for the time that the veterinarian expects will be necessary for the horse to recover. Upon written request of a holder for a hearing on such cancellation or suspension of a veterinarian's certificate, a hearing shall be held by the city within three (3) working days of receipt of such request to determine whether said cancellation or suspension shall remain in effect. A canceled certificate shall be destroyed by the veterinarian or clearly marked as canceled or invalid. Suspension of a certificate shall be clearly marked by the veterinarian in nonerasable ink on the original of the certificate. (Ord. 52-89 § 3, 1989)

8.16.045: POLICE OR ANIMAL SERVICES ORDERS:

A city police officer, a health department officer or an animal services officer may order that a horse not be used to pull a carriage in the city and that the horse be returned to its stable, if the officer has cause to believe that the horse is suffering from any injury, ailment, or other condition significantly affecting its ability to pull a carriage safely. The order shall be effective only for so long as the officer specifies or until a hearing can be held regarding disqualification, or for three (3) working days, whichever is shorter. (Ord. 17-02 § 16, 2002: Ord. 69-99 § 6, 1999: Ord. 52-89 § 3, 1989)

Before a horse may be disqualified, a hearing shall be held before the mayor, or his/her designee, at which the carriage business and the owner of the horse may appear and express themselves. At least three (3) working days' notice shall be given of the hearing to the carriage business using the horse. A disqualified horse shall not be used to pull a carriage within the city. (Ord. 52-89 § 3, 1989)

8.16.055: ACCIDENTS:

In addition to any other requirements of law regarding reporting of vehicle accidents, the operator of a horsedrawn carriage shall report to the office of animal services any accident involving such carriage, and no such horse or carriage shall again be operated until such have been inspected by an animal services officer and a determination has been made by such officer that no removal order is necessary as provided by section 8.16.050 of this chapter, or its successor. (Ord. 17-02 § 17, 2002: Ord. 69-99 § 6, 1999: Ord. 52-89 § 3, 1989)

The office of animal services and its officials may at any reasonable time, examine any horse owned by a carriage business or used by a carriage business to pull a carriage, or may have such a horse examined by a veterinarian. The costs of such examination shall initially be borne by the office of animal services. Such orders shall be in writing and may be given to the driver of a carriage to which the horse is hitched, or to a carriage business owning or having possession of the horse. If such examination determines that such horse is suffering from any injury, ailment or other condition significantly affecting its ability to pull a carriage in the city, the costs for such examination shall be reimbursed to the office of animal services by the certificate holder owning or operating such horse. (Ord. 17-02 § 18, 2002: Ord. 52-89 § 3, 1989)

Article II. Care Of Horses

8.16.065: PHYSICAL CONDITION FOR WORK:

No person shall cause a horse to draw or to be harnessed to a carriage if:

A. Certifiable: The person attending to the horse knows, or reasonably should know that the horse, if then examined by a veterinarian, would probably not then be eligible for certification, or would be subject to cancellation or revocation of certification;

B. Acute Ailment: The horse has an open sore or wound, or is lame or appears to have any other injury, sickness, or ailment, unless the person attending to the horse has in his possession a written statement signed by a veterinarian and stating that the horse is fit for pulling a carriage notwithstanding the injury, sickness, or ailment;

C. Hoofs: The hoofs of the horse are not properly shod and trimmed, utilizing rubber coated heel pads or open steel barium tip shoes to aid in the prevention of slipping. Horses shall be shod and trimmed at least every four (4) to six (6) weeks, or more frequently if necessary by an experienced, competent farrier;

D. Coat: The horse is not well groomed and/or has fungus, dandruff, or a poor or dirty coat. (Ord. 17-02 § 19, 2002: Ord. 52-89 § 3, 1989)

B. No carriage horse shall be at work for more than nine (9) total hours in any continuous twenty four (24) hour period. There shall be a rest period of at least fifteen (15) minutes at the end of each two (2) hour work period. During such rest periods, the person in charge of such horse shall make fresh drinking water available to the horse. The horse shall not be allowed to drink in large quantities unless it is first rested.

C. No carriage horse shall be worked more than five (5) consecutive days without being provided a rest period of at least one day before the resumption of work.

For purposes of this subsection, temperatures shall be those measured in the downtown area of the city and broadcast by the local radio stations or as measured and announced by the national weather service. An operator of a carriage drawn by a horse already at work at the time the temperature reaches the above described conditions shall return the passengers, if any, to the point of loading and shall rest the horse in sheltered conditions. Thereafter, such horse may be worked only when the temperature once again reaches acceptable limits under this section. Every horse at work shall have a blanket provided by its operator when standing idle at its staging point, the horse has been working and is visibly sweating, and the ambient temperature is less than twenty degrees Fahrenheit (20°F). 4. So that the horses contained therein have easy access to water and to mineralized salt at all times, and to food as needed. Such food and water shall be kept free of contamination.

D. Floors shall be level and free from holes or openings, and shall provide proper drainage. No horse shall be stabled on a concrete floor without bedding that is:

3. Not of a type that will harm or in any way be a discomfort to the animal.

E. Each stall shall be attended to daily, ensuring clean and dry bedding, and all interior areas of a stable and all exterior areas surrounding a stable shall be kept clean, properly drained and free from nuisances including, but not limited to, odors and accumulation of refuse or excrement. Manure accumulations shall be removed from the premises weekly to prevent rodent and vermin activity.

F. Each stall shall house one horse only.

G. Feed shall be kept in storage areas, constructed to permit extermination treatment in order to be made rodent and insect proof. Feed storage areas shall allow no harborage and shall be kept vermin free. Storage of feed concentrates shall be kept in an area inaccessible to the horses.

Violation: Whenever dust, fumes, gases, mist, odorous matter, vapors or any combination thereof escape from a building used for any process including those mentioned in subsection A of this section, in such a manner and amount as to cause a violation of this regulation, the Salt Lake Valley health department may order that the building or buildings in which the processing, handling or storage are done be tightly closed and ventilated in such a way that all air and gases and air or gas borne materials leaving the building are treated by incineration or other effective means for removal or destruction of odorous matter or other air contaminants before discharging into the open air.

D. Control Of Odors:

1. When as many as three (3) complaints of an objectionable odor situation are registered with the air quality section, or earlier, at the option of the air quality section, it shall be the responsibility of the air quality section to investigate the complaints by interview with the complainants and/or other occupants of the area of concern to determine the source or sources of odorous matter and the circumstances surrounding its emission.

2. When it is necessary to ascertain the presence or absence of an objectionable odor, the determination shall be made by the air quality section, using a panel as provided in subsection D3 of this section. The panel of five (5) shall be appointed by the director, and shall consist of not more than two (2) members of the air quality section.

3. An odor shall be deemed "objectionable" for the purpose of this regulation when a majority of the members of the panel exposed to the odor determine that it is or tends to annoy, injure or endanger the comfort, repose, health or safety of a person, or which in any way renders a person insecure in life or the use of property.

4. If the panel determines that a person is causing or permitting the emission of an objectionable odor, that person shall take all steps required by the air quality section to control the objectionable odor.

5. Odor producing materials shall be stored and handled in a manner such that odors produced from such materials are confined. Accumulation of odor producing materials resulting from spillage or other escape is prohibited. (Ord. 1-06 § 30, 2005: prior code § 3-1-16)

9.24.200: VIOLATION; PENALTY:

Any person who shall fail to do those acts required in this chapter, and any person who shall do those prohibited herein shall be guilty of a misdemeanor. If the violator is a corporation, the corporation may be fined five thousand dollars ($5,000.00). Each and every day that a violation of this chapter continues shall constitute a separate offense. (Prior code § 3-1-18)

Windows and other openings for light or ventilation, the sills of which are less than thirty inches (30") from the ground or accessible to rats by means of climbing wires or pipes, shall, if open, be covered by hardware cloth conforming to the above gauge and dimensions. All exterior doors shall be protected against the gnawing of rats by the use of materials prescribed above. When closed, all exterior doors shall have a maximum clearance between doors, doorsills and jambs of not exceeding three-eighths inch ($^{3}/_{8}$"). In all side and rear doors which are left open at night and those which are left open during the day, but infrequently used, shall be installed hardware cloth doors conforming to the above dimensions and equipped with a self-closing device. All concrete floors and curtain walls shall be at least four inches (4") in thickness. (Prior code § 18-22-2)

CHAPTER 10.02
HUMAN RIGHTS COMMISSION

10.02.010: PURPOSE:

Discriminatory practices are detrimental because they impede the social and economic progress of the city by preventing all people from contributing to or fully participating in the cultural, spiritual, social and commercial life of the community, essential to the growth and vitality of its neighborhoods and businesses.

C. In developing this chapter, the Salt Lake City council (the "council") has investigated other urban centers throughout the nation and studied the effectiveness of commissions empowered to study issues of diversity, to work with city government and the community, to eliminate potential discrimination in existing and future ordinances and policies, and to encourage and educate its citizenry to facilitate full and equal participation in the life of the city.

D. The Salt Lake City human rights commission (the "commission") is created for the general purpose of advising the council and mayor on nondiscrimination policy and providing resources for educating the citizenry on issues of discrimination and equal treatment in all segments of society. The commission shall also provide advice and recommendations to address specific complaints of discrimination involving Salt Lake City Corporation (the "city") departments and services. 10.03.010: PURPOSE:

The city is committed to promoting justice, equity, and inclusiveness in the provision of healthcare and many other benefits to all of its citizens that might be offered by the city or by private employers licensed by the city. The city finds that it is made up of a diversity of households and that in those households relationships exist in many different forms. Those forms include committed, unmarried couples in either same or opposite sex relationships; parent and child relationships; other familial relationships; and committed friendships. The city wishes to promote the public health, safety, welfare, and prosperity of its citizens and generally improve overall quality of life by allowing for the efficient and streamlined disposition of healthcare benefits or other benefits that the city or businesses licensed within the city might offer to their employees, including an employee's designee listed on the mutual commitment registry. The city finds that a city maintained list is the best way for the city and for businesses licensed within the city to reliably ascertain whether an employee's designee listed on the mutual commitment registry and beneficiaries are eligible for such benefits. Therefore, it is the policy of the city to allow any two (2) adults in a committed relationship who meet the mutual commitment registry criteria to register with the city and to obtain a certificate attesting to their status. CHAPTER 10.04
EMPLOYMENT DISCRIMINATION

10.04.010: PURPOSE:

Every individual in the city has the right to work and earn wages through gainful employment. Discriminatory employment practices are detrimental because they impede the social and economic progress of the city by preventing all of the city's citizens from contributing to or fully participating in the cultural, spiritual, social and commercial life of the community, which is essential to the growth and vitality of the city's neighborhoods and businesses. The Utah antidiscrimination act, Utah code section 34A-5-101 et seq., addresses employment related discrimination based on race; color; sex; pregnancy; childbirth, or pregnancy related conditions; religion; national origin; age (if 40 years of age or older); and disability, but does not address discrimination based on sexual orientation or gender identity.

The city has found that discrimination in employment on the basis of sexual orientation and gender identity must be addressed. The denial or deprivation of employment rights because of an individual's sexual orientation or gender identity is detrimental to the health, safety, and welfare of the city's citizens and damages the city's economic well being. The purpose of this chapter is to provide a clear and comprehensive mandate for the prevention and elimination of discrimination in employment in the city against individuals based upon sexual orientation or gender identity and this chapter shall be liberally construed to achieve that purpose. (Ord. 63-09 § 1, 2009)

10.04.020: ADMINISTRATION:

The mayor is responsible for administering and implementing this chapter. (Ord. 63-09 § 1, 2009)

10.04.030: NO PRIVATE RIGHT OF ACTION; NO SPECIAL RIGHTS:

This chapter does not create a private cause of action, nor does it create any right or remedy that is the same or substantially equivalent to the remedies provided under federal or state law. This chapter does not create any special rights or privileges which would not be available to all of the city's citizens because every person has a sexual orientation and a gender identity. (Ord. 63-09 § 1, 2009)

10.04.040: SEVERABILITY:

If any section, sentence, paragraph, term, definition or provision of this chapter is for any reason determined to be illegal, invalid, superseded by other authority or unconstitutional by any court of competent jurisdiction or by any state or federal regulatory authority having jurisdiction thereof, such portion shall be deemed a separate, distinct, and independent provision and such determination shall have no effect on the validity of any other section, sentence, paragraph, term, definition or provision of this chapter, all of which will remain in full force and effect. 10.04.070: UNLAWFUL EMPLOYMENT PRACTICES:

A. Employers: An employer may not refuse to hire, promote, discharge, demote, or terminate any person, and may not retaliate against, harass, or discriminate in matters of compensation or in terms, privileges, and conditions of employment against any person otherwise qualified because of a person's sexual orientation or gender identity.

It is unlawful for a joint labor-management committee controlling apprenticeship or other training or retraining (including on the job training programs) to print or publish, or cause to be printed or published, any notice or advertisement relating to admission to, or employment in, any program established to provide apprenticeship or other training by the joint labor-management committee that indicates any preference, limitation, specification, or discrimination based on sexual orientation or gender identity.

Nothing in this chapter prohibits a notice or advertisement from indicating a preference, limitation, specification, or discrimination based on sexual orientation or gender identity when sexual orientation or gender identity is a bona fide occupational qualification for employment.

F. No Preferential Treatment: Nothing in this chapter shall be interpreted to require any employer, employment agency, labor organization, vocational school, joint labor-management committee, or apprenticeship program subject to this chapter to grant preferential treatment to any person because of the person's sexual orientation or gender identity on account of an imbalance which may exist with respect to the total number or percentage of persons of any sexual orientation or gender identity employed by any employer, referred or classified for employment by an employment agency or labor organization, admitted to membership or classified by any labor organization, or admitted to or employed in, any apprenticeship or other training program, in comparison with the total number or percentage of persons of that sexual orientation or gender identity available in the city's available work force. A conciliation agreement may include: sensitivity training for the respondent and/or the respondent's employees; the respondent's agreement to adopt and pursue a policy of nondiscrimination in employment practices; and the respondent's agreement to not engage in discriminatory practices in the future.

CHAPTER 10.05
HOUSING DISCRIMINATION

10.05.010: PURPOSE:

Every individual in the city has the right to seek housing. Discriminatory housing practices are detrimental because they impede the social and economic progress of the city by preventing all of the city's citizens from contributing to or fully participating in the cultural, spiritual, social and commercial life of the community, which is essential to the growth and vitality of the city's neighborhoods and businesses.

The Utah fair housing act, Utah code section, 57-21-1 et seq., addresses housing related discrimination based on race; color; religion; sex; national origin; familial status; source of income; and disability, but does not address discrimination based on sexual orientation or gender identity.

The city has found that discrimination in housing on the basis of sexual orientation and gender identity must be addressed. The denial or deprivation of access to housing because of an individual's sexual orientation or gender identity is detrimental to the health, safety, and welfare of the city's citizens and damages the city's economic well being. The purpose of this chapter is to provide a clear and comprehensive mandate for the prevention and elimination of discrimination in housing in the city against individuals based upon sexual orientation or gender identity and this chapter shall be liberally construed to achieve that purpose. (Ord. 64-09 § 1, 2009)

The mayor is responsible for administering and implementing this chapter. (Ord. 64-09 § 1, 2009)

This chapter does not create a private cause of action, nor does it create any right or remedy that is the same or substantially equivalent to the remedies provided under federal or state law. This chapter does not create any special rights or privileges which would not be available to all of the city's citizens because every person has a sexual orientation and a gender identity. (Ord. 64-09 § 1, 2009)

10.05.040: SEVERABILITY:

If any section, sentence, paragraph, term, definition or provision of this chapter is for any reason determined to be illegal, invalid, superseded by other authority or unconstitutional by any court of competent jurisdiction or by any state or federal regulatory authority having jurisdiction thereof, such portion shall be deemed a separate, distinct, and independent provision and such determination shall have no effect on the validity of any other section, sentence, paragraph, term, definition or provision of this chapter, all of which will remain in full force and effect. Upon determining that a particular complaint does not come within the scope of this chapter, the administrator shall dismiss the complaint, notify the complainant and the respondent and take no further action.

For purposes of subsection 2.59.020A of this code, the administrator shall be deemed the mayor's designee.

D. The administrator may dismiss a complaint during the investigation and prior to referral to the city attorney if the administrator determines that:

10.05.120: DISPOSITION OF A COMPLAINT:

A. If, upon completion of an investigation of a complaint, the administrator determines that an unlawful housing practice has occurred and is unable to secure an acceptable conciliation agreement from the respondent, then the administrator shall refer the case to the city attorney. The administrator shall refer the entire file to the city attorney, who shall determine how best to pursue further action, if any, on the complaint.

B. If the city attorney determines that cause exists that an unlawful housing practice occurred and the facts are sufficient to warrant the initiation of an action in justice court, then the city attorney shall provide written notification to the respondent and the complainant that an action to enforce this chapter may be initiated in justice court. If the city attorney determines that there is no cause that an unlawful housing practice occurred or that the facts are insufficient to warrant the initiation of an action in justice court, the city attorney shall provide written notification to the respondent and the complainant and notify the administrator who shall then dismiss the complaint. (Prior code title 46, art. 3 § 82)

12.12.090: CRUISING:

A. Findings:

1. The Salt Lake City council, after hearing, makes the following legislative findings:

a. Cruising has created a traffic problem on various city streets by causing a steady stream of vehicles to be unable to clear intersections, thus blocking traffic. The traffic blocking is most noticeable downtown on the east-west bound traffic as they are blocked by the north-south traffic stopped in intersections. It is also noticeable on the north-south traffic in the Sugar House area, as vehicles heading north or south are unable to move through intersections due to traffic on 2100 South.

b. The blocked traffic has contributed to motorist frustration and resultant dangerous driving to either avoid the gridlock or dangerous maneuvers around the blocked intersections.

c. Emergency vehicles have difficulty maneuvering through the blocked intersections and traveling along the roads choked with traffic.

d. Traffic along city streets has increased forty percent (40%) since 1997 and accidents have more than doubled.

e. The traffic creates noise of automobiles, horns, engines, screeching tires, etc., that disrupts residents' quiet enjoyment of night.

f. Motorist frustration has resulted in some violent episodes commonly called "road rage".

g. In addition to the road rage that exists among the general population, gang members express their frustration and flash gang signs challenging everyone around. Other gang members pick up on the signs and flash their own challenges. Such confrontations have resulted in two (2) homicides in the downtown area since August 1997.

h. In addition, there are numerous fights, assaults with deadly weapons, and other physical confrontations, which have resulted from heavy traffic congestion and short tempers. The statistics for State Street are:

	1997	1998
Homicides	1	1
Assaults	402	525
Public peace and order	1,520	1,455
Total	1,923	1,981

i. Statistics show that the calls for police in the downtown area peak during the hours of eleven o'clock (11:00) P.M. and through four o'clock (4:00) A.M. each night. These calls for service, in part, are caused by cruising and the problems of gridlock, violations of laws and improper driving caused by cruising.

j. Statistics show that the highest demand for police service caused by gridlock, challenges to others and improper driving peak during Friday and Saturday nights.

k. The majority of businesses in Sugar House and downtown areas are closed or are closing by eleven o'clock (11:00) P.M., and very few are open after twelve o'clock (12:00) midnight. Thus there is little business reason for traffic congestion from eleven o'clock (11:00) P.M. to four o'clock (4:00) A.M. Those businesses, which have large populations leaving, such as events at the sports arena located on the block between South Temple and 100 South between 300 and 400 West Streets and Symphony Hall contribute to traffic congestion, but the persons attending have no reason to, and in large part do not "cruise the area" as "cruising" is defined in this section.

l. Commercial parking is available in the traffic congested areas of Sugar House and downtown. Because of the availability of commercial parking, persons, during the hours of eleven o'clock (11:00) P.M. to four o'clock (4:00) A.M. have little need to "cruise the area" looking for public parking stalls.

m. Elimination of those who "cruise the streets" simply as "something to do" will eliminate the vast majority of traffic congestion, noise associated with automobiles, and the resultant dangerous driving and "road rage" during the target hours of eleven o'clock (11:00) P.M. and four o'clock (4:00) A.M. in the downtown and Sugar House areas.

n. Traffic accidents have increased citywide since the fall of 1997. Many traffic accidents occur which involve people cruising while drinking alcohol. Many drivers who are cruising are impaired as they consume alcohol or drugs while involved in the gridlock.

B. Definitions:

CRUISING: The driving of a motor vehicle more than two (2) times between the hours of eleven o'clock (11:00) P.M. and four o'clock (4:00) A.M., in a particular direction, past a traffic control point.

12.32.030: COLOR INDICATIONS FOR SIGNALS; DRIVER AND PEDESTRIAN DUTIES:

(Rep. by Ord. 62-02 § 17, 2002)

12.32.040: FLASHING RED OR YELLOW SIGNALS:

(Rep. by Ord. 62-02 § 18, 2002)

12.32.045: MEANING OF VEHICULAR SIGNAL INDICATIONS; DRIVER AND PEDESTRIAN DUTIES:

A. The following meanings shall be given to highway traffic signal indications for vehicles and pedestrians. Yielding duties between drivers and pedestrians are further defined in section 12.76.045 of this title or its successor.

1. Steady green signal indications shall have the following meanings:

   a. Traffic, except pedestrians, facing a circular green signal indication may proceed straight through or turn right or left except as such movement is modified by lane use signs, turn prohibition signs, lane markings, or roadway design. But vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles within the intersection, and to pedestrians, at the time such signal indication is exhibited.

   b. Traffic, except pedestrians, facing a green arrow signal indication, shown alone or in combination with another signal indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other signal indications shown at the same time. Such vehicular traffic shall yield the right of way to pedestrians and to other traffic using the intersection.

   c. Unless otherwise directed by a pedestrian signal, pedestrians facing any green signal indication, except when the signal indication is a turn arrow for a vehicular movement in conflict with the desired path of the pedestrian, may proceed across the roadway within any marked or unmarked crosswalk.

2. Steady yellow signal indications shall have the following meanings:

   a. Traffic, except pedestrians, facing a steady circular yellow or yellow arrow signal indication is thereby warned that the related green movement is being terminated or that a red signal indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.

   b. Pedestrians facing a steady circular yellow or yellow arrow signal indication, unless otherwise directed by a pedestrian signal, are thereby advised that there is insufficient time to cross the roadway before a red signal indication is shown, and no pedestrian shall then start to cross the roadway.

3. Steady red signal indications shall have the following meanings:

   a. Vehicular traffic facing a steady circular red signal indication alone shall stop at a clearly marked stop line. If there is no stop line, traffic shall stop before entering the crosswalk on the near side of the intersection; or if there is no crosswalk, then before entering the intersection. Such traffic shall remain stopped until a signal indication to proceed is shown, or as provided below. Except when a sign is in place prohibiting a turn on red or a red arrow signal indication is displayed, vehicular traffic facing a circular red signal indication may enter the intersection to turn right, or to turn left from a one-way street into a one-way street, after stopping. Such vehicular traffic shall yield the right of way to pedestrians and to other traffic using the intersection.

   b. Vehicular traffic facing a steady red arrow signal indication shall not enter the intersection to make the movement indicated by the arrow, (except as described in the option stated below in this subsection A3b) and, unless entering the intersection to make another movement permitted by another signal indication, shall stop at a clearly marked stop line. If there is no stop line, said vehicular traffic shall stop before entering the crosswalk on the near side of the intersection, or if there is no crosswalk, then before entering the intersection, and shall remain stopped until a signal indication permitting the movement indicated by such red arrow is shown.

Option: Where turns are allowed on red and the signal indication is an arrow, a sign may be used to indicate that turns are allowed on red after stopping.

c. Unless otherwise directed by a pedestrian signal, pedestrians facing a steady circular red or red arrow signal indication alone shall not enter the roadway.

4. Flashing signal indications shall have the following meanings:

a. Flashing Yellow: When a yellow lens is illuminated with rapid intermittent flashes, vehicular traffic may proceed through the intersection or past such signal indication only with caution.

b. Flashing Red: When a red lens is illuminated with rapid intermittent flashes, vehicular traffic shall stop at a clearly marked stop line. If there is no stop line, traffic shall stop before entering the crosswalk on the near side of the intersection. If there is no crosswalk, at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection. The right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

c. Flashing Arrows: Flashing red arrow and flashing yellow arrow signal indications have the same meaning as the corresponding flashing circular signal indication, except that they apply only to vehicular traffic intending to make the movement indicated by the arrow.

d. Pedestrians: Pedestrians facing a flashing red or yellow signal may proceed to cross the roadway in a crosswalk only after ascertaining that it is safe to do so and then only with due caution. Vehicular traffic shall yield the right of way to pedestrians crossing a roadway at such intersections.

B. In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions that by their nature have no application. Any stop required shall be made at a sign or marking on the highway pavement indicating where the stop shall be made, but in the absence of any sign or marking the stop shall be made at the signal. (Ord. 62-02 § 19, 2002)

12.32.050: PEDESTRIAN WALK AND DON'T WALK SIGNALS:

(Rep. by Ord. 62-02 § 20, 2002)

12.32.055: PEDESTRIAN SIGNAL INDICATIONS:

Whenever a pedestrian signal is in place and operating, the illuminated words or symbols shall indicate and govern pedestrians as follows:

A. A steady white "Walk" or walking person (symbolizing walk) signal indication means that, exercising due caution, a pedestrian facing the signal indication may start to cross the roadway in the direction of a signal indication.

B. A flashing orange "Don't Walk" or upraised hand (symbolizing don't walk) signal indication means that a pedestrian shall not start to cross the roadway in the direction of the signal indication, but that any pedestrian who has already started to cross on a steady white "Walk" or walking person (symbolizing walk) signal indication may complete crossing the roadway.

C. A steady orange "Don't Walk" or upraised hand (symbolizing don't walk) signal indication means that a pedestrian shall not enter the roadway in the direction of the signal indication.

D. A countdown clock (displaying time in seconds remaining in the pedestrian crossing phase) in conjunction with the flashing orange upraised hand means that a pedestrian facing the signal indication may start to cross the roadway in the direction of the signal indication, but only if such pedestrian is able to safely walk completely across the street or to a safety island before the countdown clock shows no remaining time. (Ord. 62-02 § 21, 2002)

12.32.060: ISLANDS AND TURNING MARKERS IN INTERSECTIONS:

When authorized islands, markers or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications. (Prior code title 46, art. 15 § 258)

12.32.070: PLAY STREETS:

Whenever the city council has declared or proclaimed any street, alley or part thereof as a play street, the city transportation engineer shall place and maintain appropriate signs or devices in the roadway indicating and protecting such play area. Whenever such signs or devices are in place and plainly visible, no person shall drive a vehicle, park or permit his or her vehicle to remain parked upon the roadway of any street or alley so proclaimed and marked as a play street. (Prior code title 46, art. 4 § 89)

12.32.080: UNAUTHORIZED TRAFFIC CONTROL DEVICES AND COMMERCIAL ADVERTISING; PUBLIC NUISANCE:

A. No person shall place, maintain or display upon or in view of any highway any unauthorized sign, signal, light, marking or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or authorized emergency vehicle flashing light; or which attempts to direct the movement of traffic; or which hides from view or interferes with the effectiveness of any official traffic device or any railroad sign or signal; or which is of such brilliant illumination and so positioned as to blind or dazzle a driver on any highway adjacent thereto, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising.

B. This shall not be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

C. Every such prohibited sign, signal light or marking is declared to be a public nuisance, and the city transportation engineer or any police officer is hereby empowered to remove the same or cause it to be removed without notice. (Prior code title 46, art. 4 § 87)

12.32.090: INTERFERING WITH OR REMOVING TRAFFIC CONTROL DEVICES PROHIBITED:

No person shall, without lawful authority attempt to or in fact alter, deface, injure, knock down, drive into, interfere with or remove any traffic control device or any railroad sign or signal or any inscription shield, or insignia thereon or any other part thereof. (Prior code title 46, art. 4 § 88)

12.32.100: CLOSED OR RESTRICTED USE HIGHWAYS; OBEDIENCE TO SIGNS:

A. Whenever it is deemed necessary because of construction or maintenance work, or because of emergency to suspend all or part of the travel on a public highway or street or portion thereof, the appropriate highway authority of the state, county or city may restrict the use of, or close, such highway, street or portion thereof.

B. Whenever such highway, street or portion thereof is so restricted or closed to travel, the highway authority shall cause suitable barriers and notices to be posted at the point where the detour road takes off from such closed or restricted highway or street, and such detour shall be clearly indicated by signs and the same shall be adequately maintained.

C. It is unlawful for any person wilfully to fail to observe any barricade, warning light, sign or flagman warning the public that a highway or street, or portion thereof, is restricted or closed to traffic. (Prior code title 46, art. 4 § 88.1)

CHAPTER 12.36
SPEED LIMITS

12.36.010: SPEED AND OPERATION TO CONFORM TO EXISTING CONDITIONS:

Every person driving a vehicle on a street or alley shall operate the same at a speed and in a manner which is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing, and every driver of a vehicle, in compliance with legal requirements and the duty to use due care, shall use every reasonable means to avoid endangering or colliding with any person, vehicle or other object. (Ord. 2-06 § 4, 2006: prior code title 46, art. 7 § 116)

12.36.020: SPEED LIMITS:

Where no special hazard exists that requires a lower speed for compliance with section 12.36.010 of this chapter, or its successor, the speed of any vehicle in excess of limits specified in this title is prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:

A. Twenty Miles Per Hour:

1. Upon meeting or overtaking any school bus which has stopped on the street for the purpose of receiving or discharging any schoolchildren, provided such school bus bears upon the front and rear thereof a plainly visible sign containing the words "school bus" in letters no less than four inches (4") high which can be removed or covered when the vehicle is not in use as a school bus;

2. When passing a school building or the grounds thereof, or through a designated school crossing zone during school recess, or while children are going to or leaving school during opening or closing hours.

B. Twenty Five Miles Per Hour: On all streets and at all places the prima facie speed limit shall be twenty five (25) miles per hour, except as otherwise provided in subsection A of this section, or in such other streets or places as otherwise posted or marked as directed by the city transportation engineer. (Ord. 88-86 § 68, 1986: Ord. 35-86 § 1, 1986: prior code title 46, art. 7 § 117)

12.36.030: DRIVING TOO SLOW:

No person shall drive a motor vehicle at such slow speed as to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or to comply with law. (Prior code title 46, art. 7 § 118)

12.36.040: SPEED OR ACCELERATION CONTESTS PROHIBITED:

No person shall engage in any vehicle speed contest or exhibition, or in any vehicle acceleration contest or exhibition on any street or alley, and no person shall aid or abet any such vehicle speed contest or exhibition or acceleration contest or exhibition on any street or alley. (Prior code title 46, art. 7 § 119)

12.36.050: OBSTRUCTING STREETS FOR SPEED CONTESTS PROHIBITED:

No person shall, for the purpose of facilitating, aiding or inducing any vehicle speed contest or exhibition, or vehicle acceleration contest or exhibition, in any manner obstruct or place any barricade or obstruction or assist or participate in placing any such barricade or obstruction upon any street or alley. (Prior code title 46, art. 7 § 120)

12.36.060: CITATIONS FOR VIOLATIONS; SPEEDS TO BE DESIGNATED:

In every charge of violation of any speed regulation of this code, the traffic citation shall specify the speed at which the violator is alleged to have driven and the prima facie speed applicable within the district or at the location. (Prior code title 46, art. 7 § 121)

CHAPTER 12.40
ONE-WAY STREETS AND ALLEYS

12.40.010: ONE-WAY STREETS AND ALLEYS; SIGNS:

Upon those streets and parts of streets and in those alleys designated as "one-way", vehicular traffic shall move only in the indicated direction when signs indicating the direction of traffic are erected and maintained at every intersection where movement in the opposite direction is prohibited. (Ord. 88-86 § 68, 1986: prior code title 46, art. 13 § 208)

12.40.020: SIGN LOCATION AND PLACEMENT AUTHORITY:

The city transportation engineer shall place and maintain signs giving notice of said one-way streets and alleys. Signs indicating the direction of lawful traffic movement shall be placed at every intersection where movement of traffic is affected. (Prior code title 46, art. 13 § 209)

12.40.030: DIRECTION OF TRAFFIC; TRAFFIC ISLAND REQUIREMENTS:

A. Upon a roadway designated and signposted for one-way traffic, a vehicle shall be driven only in the direction designated.

B. A vehicle passing around a traffic island shall be driven only to the right or counterclockwise around such island unless otherwise indicated by traffic control devices. (Prior code title 46, art. 10 § 188)

CHAPTER 12.44
RULES OF THE ROAD

Article I. Driving And Passing

12.44.010: DRIVING ON RIGHT SIDE OF ROADWAY REQUIRED; EXCEPTIONS:

A. Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
2. When the right half of a roadway is closed to traffic while under construction or repair;
3. Upon a roadway designed and signposted for one-way traffic.

B. Upon all roadways, any vehicle proceeding at less than the normal speed of traffic at the time and place under the conditions then existing shall be driven in the right hand lane then available for traffic, or as close as practicable to the right hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a lawful left turn. (Prior code title 46, art. 10 § 182)

12.44.020: OVERTAKING AND PASSING VEHICLES PROCEEDING IN SAME DIRECTION:

The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the following provisions:

A. The driver of a vehicle, overtaking another vehicle proceeding in the same direction, shall pass to the left at a safe distance and may not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

B. The driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle and may not increase the speed of his or her vehicle until completely passed by the overtaking vehicle.

C. On a road having more than one lane in the same direction, the driver of a vehicle traveling in a left lane shall, upon being overtaken by another vehicle in the same lane, yield to the overtaking vehicle by moving safely to the right, and may not impede the movement or free flow of traffic in a left lane except:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing this movement;
2. When preparing to turn left;
3. When reasonably necessary in response to emergency conditions;
4. To avoid actual or potential traffic moving onto the right lane from an acceleration or merging lane; or
5. When necessary to follow the highway direction signs that direct use of a lane other than the right lane.

D. Violation of this section is an infraction. (Ord. 21-03 § 2, 2003: Ord. 62-02 § 22, 2002: Ord. 88-86 § 68, 1986: prior code title 46, art. 10 § 184)

12.44.030: PASSING VEHICLE PROCEEDING IN OPPOSITE DIRECTION:

Drivers of vehicles proceeding in opposite directions shall pass each other to the right and, upon roadways having width for not more than one line of traffic in each direction, each driver shall give to the other at least one-half ($\frac{1}{2}$) of the main traveled portion of the roadway as nearly as possible. (Prior code title 46, art. 10 § 183)

12.44.040: PASSING ON RIGHT AUTHORIZED WHEN:

A. The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

1. When the driver of a vehicle overtaken is making or indicates he is about to make a left turn;
2. Upon a roadway with unobstructed pavement not occupied by parked vehicles of sufficient width for two (2) or more lines of moving vehicles in each direction.

B. The driver of a vehicle may overtake and, allowing sufficient clearance, pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main traveled portion of roadway. (Prior code title 46, art. 10 § 185)

12.44.050: PASSING ON THE LEFT; CONDITIONS AND PROCEDURES:

No vehicle shall be driven to overtake or pass another vehicle proceeding in the same direction, on the left of the center of that portion of any street or highway designed for vehicular traffic, unless:

A. Such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction; and

B. The overtaking vehicle returns to an authorized lane of travel as soon as practical and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet (200') of any vehicle approaching from the opposite direction. (Prior code title 46, art. 10 § 186)

12.44.060: LANED ROADWAY DRIVING PROCEDURES:

Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

A. In the absence of an extenuating circumstance necessitating an emergency or safety related maneuver, a vehicle shall be driven entirely within a single lane, and shall not be moved from such lane or across a lane line without giving the right of way to vehicles in the lane to be entered, nor until the driver has first ascertained that such movement can be made with safety and such driver has given the signal prescribed in section 12.44.140 of this chapter, or its successor.

B. The city transportation engineer may erect signs directing slow moving traffic to use the lane nearest to the right hand edge of the roadway.

C. Where a double centerline is painted on the roadway, no vehicle shall be driven along the street or highway to the left thereof.

D. When any painted traffic marking is indicated as being "wet", no vehicle shall be driven on same.

E. Motorcycles or motor driven cycles shall not be operated more than two (2) abreast in a single lane.

F. All motorcycles and motor driven cycles are entitled to full use of a lane, and no motor vehicle shall be driven in such a manner as to deprive any motorcycle or motor driven cycle of the full use of a lane. This subsection shall not apply to motorcycles or motor driven cycles operated two (2) abreast in a single lane. (Ord. 23-03 § 1, 2003: prior code title 46, art. 10 § 189)

12.44.070: LIMITED ACCESS ROADWAYS; ENTRANCES AND EXITS:

No person shall drive a vehicle onto or from any limited access road except at such entrances and exits as are designated and established by public authority. (Prior code title 46, art. 10 § 193)

12.44.080: LIMITED ACCESS ROADWAYS; USE RESTRICTIONS:

No pedestrian or other nonmotorized traffic, excluding bicyclists, shall use any limited access roadway except for the sole purpose of crossing the same in the shortest and most direct route, and then only at designated crossings, and such traffic shall yield the right of way to any motorized traffic proceeding upon the limited access roadway. Bicyclists may use the right shoulder of limited access highways except where prohibited by federal or state law or regulation or by an official sign giving notice of such restrictions. No driver shall stop a vehicle on any limited access roadway for the purpose of taking on or discharging any passenger. (Ord. 2-06 § 5, 2006: prior code title 46, art. 10 § 194)

12.44.090: FOLLOWING OTHER VEHICLES; CARAVANS AND MOTORCADES:

A. The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the street.

B. The driver of any motor vehicle drawing another vehicle which is following another motor vehicle drawing another motor vehicle, shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

C. Motor vehicles being driven upon any roadway in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any overtaking vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions or parades, as authorized in section 12.52.250 of this title, or its successor. (Prior code title 46, art. 10 § 190)

12.44.100: DRIVING ON LEFT SIDE OF TWO-WAY ROADWAY PROHIBITED WHEN:

A. No vehicle shall be driven along a highway to the left of the center of a two-way roadway under the following conditions:

1. When approaching the crest of a grade or upon a curve in the roadway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

2. Where approaching within one hundred feet (100') of or traversing any intersection or any railroad grade crossing;

3. Where the view is obstructed upon approaching within one hundred feet (100') of any bridge viaduct or tunnel;

4. Where a double centerline is painted on the roadway.

B. The foregoing limitations shall not apply on a one-way roadway or where pavement markings or signs indicate otherwise. (Prior code title 46, art. 10 § 187)

12.44.110: DRIVING IN DIVIDING SECTION PROHIBITED; EXCEPTIONS:

A. No vehicle shall be driven over, upon or across any "dividing section" of a street or highway, as defined herein, unless:

1. For the purpose of making a left turn, semicircular or U-turn through a plainly marked opening in such dividing section designed and designated for such turn;

2. For the purpose of making a left turn from a dividing section defined on each side by a solid yellow line and a broken yellow line; or

3. A sign authorized and displayed by the city transportation department or the state department of transportation shall otherwise indicate.

B. As referred to in this section, "dividing section" shall consist of the following, when used to divide a street or highway into two (2) separate roadways:

1. An unpaved divided area; or

2. A physical barrier, curbs, or other clearly indicated dividing area so constructed as to impede vehicular traffic across the same; or

3. A dividing area of over two feet (2') in width defined by either:

a. A standard double line marking on each side of the dividing area, each double line marking consisting of two (2) 4-inch wide lines four inches (4") apart, or

b. Other marking, on each side of the dividing area, of a type designated by the city transportation department or state road commission to indicate no driving along a highway to the left thereof. (Prior code title 46, art. 10 § 191)

Article II. Turns

12.44.120: RIGHT OR LEFT TURNS AT INTERSECTIONS:

The driver of a vehicle intending to turn at an intersection shall do so as follows:

A. Both the approach for a right turn and a right turn shall be made as close as practicable to the right hand curb or edge of the roadway.

B. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the centerline thereof and by passing to the right of such centerline where it enters the intersection, and after entering the intersection the left turn shall be made so as to leave the intersection in the lane nearest to the right of the centerline of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection of the left of the center of the intersection.

C. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left hand lane lawfully available to traffic moving in the direction of travel of such vehicle and, after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

D. When traffic control devices are placed at an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the direction of such indications.

E. The city transportation engineer is authorized to place traffic control devices at intersections indicating the course to be traveled by vehicles turning at such intersections.

F. The city transportation engineer is authorized to determine those intersections at which drivers of vehicles shall not make a right or left turn, and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on signs which may be removed when such turns are unrestricted.

G. Whenever such authorized signs are erected indicating that no right or left turn is permitted, no driver of a vehicle shall disobey the directions of any such sign. (Prior code title 46, art. 11 § 195)

12.44.130: TURNING MOVEMENTS; SIGNAL REQUIREMENTS:

A. No person shall turn a vehicle at an intersection unless the vehicle is in a proper position upon the roadway, as required in section 12.44.120 of this chapter, or its successor, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course, or move right or left upon a roadway unless and until such movement can be made with reasonable safety. No person shall turn any vehicle without giving an appropriate signal in the manner hereinafter provided.

B. A signal of intention to turn right or left or to change lanes shall be given continuously for at least the last three (3) seconds preceding the beginning of the turn or change.

C. Signals required on vehicles by section 12.44.140 of this chapter, or its successor, shall not be flashed on one side only on a disabled vehicle; or as a courtesy or "do pass" to operators of other vehicles approaching from the rear; and shall not be flashed on one side only of a parked vehicle, except as may be necessary for compliance with this section. (Ord. 62-02 § 23, 2002: amended during 1/88 supplement: prior code title 46, art. 11 § 197)

12.44.140: SIGNALS TO INDICATE TYPES OF TURNS:

A. The signals herein required shall be given either by means of the hand and arm outside the left side of the vehicle, or by a signal lamp or signal device which will convey an intelligible warning to other traffic approaching from the front or rear; but when a vehicle is so constructed or loaded that a hand and arm signal would not be visible both to the front and rear of such vehicle, then such signals must be given by such lamp or device.

B. Hand and arm signals shall indicate as follows:

1. Left turn: Hand and arm extended horizontally;

2. Right turn: Hand and arm extended upward;

3. Stop or decrease speed: Hand and arm extended downward;

4. Reentering moving traffic lane from parked position: Hand and arm extended horizontally;

5. Changing lanes: Same as subsections B1 and B2 of this section, depending on direction of change.

C. The opening of a door of a vehicle shall not constitute a signal as required by this title. (Prior code title 46, art. 11 § 199)

12.44.150: DRIVER MUST TURN AFTER GIVING SIGNAL:

Should the driver of any vehicle give or cause to be given any signal which would indicate to other traffic said driver's intention to turn, such driver must not fail to make such turn nor fail to yield the right of way to all other traffic that would be affected by his or her failure to complete such indicated turn. (Prior code title 46, art. 11 § 200)

12.44.160: MOVING INTO TRAFFIC; SIGNAL REQUIRED WHEN:

No person shall move a vehicle which is stopped, standing or parked on a street into a moving traffic lane without giving the signal prescribed in section 12.44.140 of this chapter, or its successor, nor until such movement can be made with reasonable safety, and must give moving vehicles the right of way. (Prior code title 46, art. 11 § 201)

12.44.170: SUDDEN STOP OR DECREASE OF SPEED:

No person shall stop suddenly or decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in section 12.44.140 of this chapter, or its successor, to the driver of any vehicle immediately to the rear, when there is opportunity to give such signal. (Prior code title 46, art. 11 § 198)

12.44.180: U-TURN RESTRICTIONS:

A. The driver of any vehicle shall not make a U-turn at any intersection or between intersections on any street or highway when such turn is prohibited by a sign or other traffic control device.

B. The driver of any vehicle shall not make a U-turn upon any curve or approach to the crest of a grade where such vehicle cannot be seen for a distance of five hundred feet (500') by the driver of any other approaching vehicle.

C. The driver of any vehicle shall not in any event make a U-turn at any location unless such movement can be made in safety without delaying or interfering with other traffic. (Prior code title 46, art. 11 § 196)

Article III. Right Of Way And Yielding

12.44.190: RIGHT OF WAY AT INTERSECTIONS:

A. The driver of a vehicle approaching an intersection shall yield the right of way to a vehicle which has entered the intersection from a different highway.

B. When two (2) vehicles enter or approach an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right of way to the vehicle on the right.

C. The right of way rule declared in subsection B of this section is modified at through highways and otherwise as hereinafter stated in this title. (Prior code title 46, art. 12 § 202)

12.44.200: TURNING LEFT AT INTERSECTIONS:

The driver of a vehicle within an intersection intending to turn to the left shall yield the right of way to any vehicle approaching from the opposite direction which is within the intersection or so close as to constitute an immediate hazard, during the time such driver is moving within the intersection. (Prior code title 46, art. 12 § 203)

12.44.210: ENTERING THROUGH STREETS OR STOP INTERSECTIONS:

A. Except as specified in subsection B of this section, when more than one vehicle enters or approaches an unregulated or an all-way stop intersection from different highways at approximately the same time, the operator of the vehicle on the left shall yield the right of way to the vehicle on the right, unless otherwise directed by a peace officer. An intersection that is unregulated because the traffic control signal is inoperative shall be deemed to be an all-way stop intersection.

B. When approaching an unregulated intersection the operator of a vehicle on a highway that does not continue beyond the intersection shall yield the right of way to the operator of any vehicle on the intersecting highway.

C. Except when directed to proceed by a police officer or traffic control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop as required by section 12.48.030 of this title, or its successor, and after having stopped shall yield the right of way to any vehicle:

1. Which has entered the intersection from another highway;

2. Which is approaching so closely on another highway as to constitute an immediate hazard during the time when such stopped vehicle, if it proceeded, would be moving across or within the intersection;

3. Which had already stopped at another stop sign at such intersection.

D. In the event that a driver, after having driven past a stop sign, is involved in a collision with a pedestrian having right of way in a crosswalk or a vehicle having right of way in the intersection such collision shall be deemed prima facie evidence of such driver's failure to yield the right of way as required by this section, but shall not be considered negligence per se. (Ord. 59-91 § 1, 1991: Ord. 42-89 § 1, 1989: prior code title 46, art. 12 § 204)

12.44.220: APPROACHING EMERGENCY VEHICLE; VEHICLE AND PEDESTRIAN DUTIES:

Upon the immediate approach of an authorized emergency vehicle equipped with at least one lighted lamp exhibiting red light visible under normal atmospheric conditions from a distance of five hundred feet (500') to the front of such vehicle, or when the driver thereof is giving a signal audible for five hundred feet (500') by siren, exhaust whistle or bell:

A. The driver of every other vehicle shall yield the right of way and shall immediately drive to a position parallel and as close as possible to the right hand edge or curb of the roadway, clear of any intersection, and shall stop and remain in such position until the authorized emergency vehicle has passed, or until otherwise directed by a police officer; and

B. Every pedestrian shall yield the right of way and shall immediately leave the roadway and remain out of the roadway until the authorized emergency vehicle has passed or until otherwise directed by a police officer. (Ord. 31-00 § 21, 2000: Ord. 71-90 § 1, 1990: prior code title 46, art. 12 § 205)

12.44.230: RIGHT OF WAY LOST OR FORFEITED:

A. Any person violating any provision of this article shall have no right of way if such violation interferes with the ability of another driver to yield the right of way to such person.

B. The driver of any vehicle traveling at an unlawful speed shall forfeit any right of way which he might otherwise have. (Prior code title 46, art. 12 § 206)

12.44.240: YIELD RIGHT OF WAY SIGNS:

The city transportation engineer shall erect and maintain a "yield right of way" sign at such intersections where needed. When such a sign is erected, the driver of a vehicle approaching the same shall in obedience to such sign slow down to a speed reasonable for the existing conditions, or shall stop if necessary as provided in section 12.48.030 of this title, or its successor, and shall yield the right of way to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection. (Prior code title 46, art. 12 § 207)

CHAPTER 12.48

C. The burden to prove any defense shall be upon the person raising such defense.

D. The hearing officer may find that no unauthorized use occurred and dismiss the ticket.

E. If the hearing officer finds that an unauthorized use occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may dismiss the notice of unauthorized use and release the owner or driver from liability thereunder. Such defenses are:

1. At the time of the receipt of the notice, possession of the subject vehicle had been acquired in violation of the criminal laws of the state;

2. If the notice of unauthorized use alleges a violation of any ordinance pertaining to a parking meter, such meter was mechanically malfunctioning to the extent that its reliability is questionable;

3. Compliance with the subject ordinances would have presented an imminent and irreparable injury to persons or property;

4. Parking notices for overtime parking at a meter or in a time restricted zone received by a city employee or guest while on official Salt Lake City business will be dismissed upon written request from the applicable department director or designee on official letterhead or by electronic mail. The request must be made within ten (10) days of receipt of the notice and must include a brief description of the reason for the request, and be submitted to: Salt Lake City Corporation, Traffic Manager, 333 South 200 East, P.O. Box 145499, Salt Lake City, UT 84114-5499. Parking violations other than overtime parking and meter violations will not be dismissed in this manner;

5. Unlimited time parking by employees of other governmental entities on official business will be allowed at city meters and time restricted locations. In order to qualify, the vehicle must display a placard or sticker issued by Salt Lake City parking enforcement or the vehicle's license plate must be registered with Salt Lake City parking enforcement for enrollment in any license plate recognition system used to regulate parking enforcement. Requests for placards must include a brief description of the reason for the request and be submitted to: Salt Lake City Parking Enforcement, P.O. Box 145552, Salt Lake City, UT 84114-5552. 8. If the hearing officer determines that the driver of a vehicle with a valid freight loading sticker was unable to find a freight loading zone and parked at a meter. The freight loading sticker must be properly displayed and the vehicle must not remain longer than the thirty (30) minutes authorized in a freight loading zone. Requests for dismissal must be made by the director or manager of the company within ten (10) days of the receipt of the notice and be submitted to: Salt Lake City Corporation, Traffic Manager, 333 South 200 East, P.O. Box 145499, Salt Lake City, UT 84114-5499.

F. If the hearing officer finds that an unauthorized use occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may reduce the penalty associated therewith, but in no event shall such penalty be reduced below the sum of ten dollars ($10.00). Such defenses are:

1. At the time of receipt of the notice, possession of the subject vehicle had been acquired pursuant to the written lease agreement or similar written agreement;

2. The subject vehicle was mechanically incapable of being moved from such location; provided, however, such defense shall not apply to any vehicle which remains at such location in excess of six (6) hours;

3. Any markings, signs or other indicia of parking use regulation were not clearly visible or comprehensible;

4. At the time of receipt of notice for expired registration, the vehicle was registered but the sticker not displayed, or if the vehicle is registered within five (5) days of the expiration date;

5. At the time of the notice of violation a residential parking permit was valid but not properly displayed;

6. Such other mitigating circumstances as the hearing officer may find, with the written approval of the court's traffic manager, which must include the basis for the decision. A report on such decisions is to be provided to the mayor and city council on a quarterly basis.

G. If the hearing officer finds that an unauthorized use occurred and no applicable defense exists, the hearing officer may, in the interest of justice and on behalf of the city, enter into an agreement for the timely or periodic payment of the applicable penalty.

H. If the penalty imposed pursuant to this chapter remains unsatisfied after forty (40) days from the receipt of notice, or ten (10) days from such date as may have been agreed to by the hearing officer, the city may use such lawful means as are available to collect such penalty, including costs and attorney fees. 12.56.590: PARKING EXEMPTION FOR OFFICIAL VEHICLES:

A. Definitions: For purposes of this section, unless otherwise apparent from the context, certain words and phrases used in this section are defined as follows:

EXEMPT VEHICLE: A marked official vehicle or a nonmarked official vehicle used by the following persons:

1. City department directors.

2. City council members.

3. Operators of city fleet vehicles.

4. Designated city employees as determined by the mayor or the mayor's designee.

5. Designated employees or representatives of other governmental entities as determined by the mayor or the mayor's designee.

6. Emergency services personnel and employees of enforcement agencies.

7. Employees or representatives of quasi-governmental entities as determined by the mayor or the mayor's designee.

A personal vehicle may be considered an exempt vehicle if it is used by a person described above for official governmental or quasi-governmental purposes.

MARKED OFFICIAL VEHICLE: A vehicle owned or leased by a governmental or quasi-governmental entity that a representative of the entity uses in the course of the representative's official duties and that displays obvious official identification such as door symbols or light bars. A governmental or exempt license plate alone does not satisfy the obvious official identification requirement.

NONMARKED OFFICIAL VEHICLE: A vehicle, owned or leased by a governmental or quasi-governmental entity, without obvious official identification such as door symbols or light bars that a representative of the entity uses in the course of the representative's official duties, or a nonmarked vehicle for which the city previously issued a parking dash placard.

B. Registration:

1. In order for a nonmarked official vehicle to become an exempt vehicle, it must be registered with the city's compliance director using the city's online registration process. Registration is not required for a marked official vehicle. A city department director may allow an individual city employee to register his or her personal vehicle as an exempt vehicle based on a documented need or requirement that will be included as part of the registration process.

2. As part of the online registration, the entity shall provide the following information:

a. Entity's name.

b. Name of entity's primary contact.

c. Telephone number of entity's primary contact.

d. E-mail address of entity's primary contact.

e. Vehicle make.

f. Vehicle model.

g. Vehicle color.

h. Vehicle license plate number.

i. Vehicle identification number.

j. Vehicle primary driver.

k. Reason why the vehicle should be classified as an exempt vehicle.

l. Days of the week when exempt status is required.

m. Location(s) in Salt Lake City where exempt status is needed.

3. As a part of the registration process, the city's compliance program director shall review all requests and approve or deny exempt vehicle status. Upon approval or disapproval, the city shall notify the entity's primary contact of the approval or disapproval. For an approval, the city shall include information about the registered exempt vehicle in the exempt vehicle database maintained in the city's parking enforcement office. The exempt vehicle database shall contain the information necessary to enable parking enforcement personnel to identify an exempt vehicle when they enter the vehicle's license plate number in their enforcement handheld device and to confirm exempt vehicle status and any status limitations.

4. The city's compliance program director shall be responsible for reviewing and approving any specific limitations for exempt vehicles, which limitations may vary for each entity.

5. Exempt vehicles are subject to the generally applicable rules regarding restricted parking locations (such as handicap, no parking, bus lanes, and residential parking permit areas) and shall comply with nonparking related ordinances such as vehicle registration requirements. Exempt vehicles may receive citations for violations of the following sections of this chapter unless parking was required as part of an unavoidable or emergent official duty: 12.56.150, "Parking Meters; Installation"; 12.56.180, "Parking Meters; Restricted Spaces"; 12.56.190, "Parking Meters; Overtime Parking Prohibited"; 12.56.300, "Residential Parking Lots Owned By The City"; 12.56.450, "Time Limited Parking On Certain Streets"; 12.56.520, "Using Streets For Storage Prohibited". If the city's parking enforcement personnel are unable to identify the justification for an exempt vehicle being parked in a restricted parking location, a citation shall be issued and the justification for such parking may be established by a hearing officer as part of a review process. Registered city exempt vehicles and city exempt vehicles used for emergency services are exempt from all parking ordinances.

C. Maintenance: A registered exempt vehicle shall remain exempt only if it undergoes an annual review and recertification process. The process shall be completed by the entity's primary contact using the same method that was used for the initial registration and shall be completed when the entity receives notification of completion from the city's parking enforcement office. Parking enforcement's notification shall be sent by e-mail to the entity's primary contact. Approximately eleven (11) calendar months after the initial registration or recertification of an exempt vehicle, parking enforcement shall notify, by e-mail, the entity's primary contact of the need to recertify the vehicle. Vehicles that are not recertified by the thirteenth month after initial registration or recertification shall be automatically removed from the exempt vehicle database. An entity may submit to the city's compliance director requests for changes to exempt vehicle status, new requests, and changes to primary contact information, and the compliance director may make those changes. CHAPTER 12.64
CITY PARKING PERMIT PROGRAM

12.64.010: PURPOSE:

A. There exist certain entities within the city, such as hospital and university complexes and other large buildings, which attract commuters seeking parking in nearby areas which are predominantly residential and business in nature. The increased demand often exacerbates the severe shortage of street parking for residents and businesses in such areas.
