B. This chapter authorizes a program and implementing procedural system by which residents and businesses within qualifying areas may receive preferential treatment when competing with commuter vehicles for available on street parking in predominantly residential neighborhoods of the city. The enactment of a preferential parking permit program, administered by the transportation engineer and implemented and operated by the parking permit coordinator, can address the adverse effect of motor vehicle congestion caused by the long term parking of commuter vehicles within these areas by:

1. Increasing access to residents and businesses;

2. Increasing traffic/pedestrian safety by reducing traffic congestion;

3. Reducing the adverse environmental impacts on an area created by excessive air and noise pollution and the accumulation of trash and refuse on public streets;

4. Encouraging the use of mass transit, car pooling and other alternative modes of transportation by reducing commuter vehicle traffic that originates from outside the permit area and has no apparent relation to area residents and businesses;

5. Promoting the tranquillity, safety, health and welfare of area inhabitants, which are desirable attributes that are associated with a positive urban environment. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.020: DEFINITIONS:

A. As used in this chapter:

ADDRESS: The street number and applicable apartment/condominium number for each dwelling unit, business, or other use. Each apartment or commercial unit is regarded as a unique address.

AREA: Refers, irrespective of zoning, to a geographical region, not necessarily contiguous, where residents dwell and businesses may operate.

AREA BUSINESS: Any professional establishment or nonresident property owner whose business property is located within a city parking permit area.

AREA PERMITTEE: An area resident or an area business which has received from the transportation division an authorized area regular permit or an authorized seasonal city permit.

AREA REGULAR PERMIT OR REGULAR PERMIT DECAL: The permanent adhesive decal issued by the parking permit coordinator for assignment to vehicles under the legal control of area residents and businesses.

AREA RESIDENT: Any person who dwells or resides within a parking permit area.

AREA SEASONAL PERMIT: A permanent adhesive decal issued by the parking permit coordinator for assignment to vehicles under the legal control of area residents and businesses of a seasonal city permit area.

AREA VEHICLE: A vehicle that originates from inside a permit area and is under the control of area residents or area business owners and includes automobiles, trucks, motorcycles, or other motor driven forms of transportation. It does not include boats and trailers.

CITY PERMIT AREA OR PARKING PERMIT AREA: Any officially designated permit parking area within the corporate limits of Salt Lake City wherein motor vehicles displaying a valid permit as described herein shall be exempt from parking regulations or restrictions solely applicable to commuter vehicles.

CITY PERMIT PROGRAM: Salt Lake City's permit parking program, as a whole, administered by the transportation engineer and operated by the parking permit coordinator pursuant to the provisions and regulations of this chapter.

COMMUTER VEHICLE: A motor vehicle parked in a city permit parking area that: 1) is not under the control of an area resident, business owner or property owner, and 2) does not bear a permit for the designated area.

DECLARATION: The final action taken by the transportation engineer setting the conditions for either approval or denial of the proposed city permit area.

DIRECTOR OR TRANSPORTATION DIRECTOR OR TRANSPORTATION ENGINEER: The director of the transportation division of the city.

DWELLING: A building, or portion thereof, which is designated for residential purposes. Such dwelling must bear an address assigned by the city engineer. The number of independent dwelling units recognized therein shall not exceed the number authorized under permit for zoning.

EMERGENCY PARKING SITUATION: A parking situation that, in the reasonable opinion of the director, causes a threat to the tranquility, safety, health or welfare of inhabitants of a city neighborhood that will be addressed by implementing temporary permit parking procedures. An emergency situation may include, but is not limited to, the use of a facility within or adjoining a neighborhood that in the reasonable opinion of the director: 1) is likely to result in the neighborhood qualifying as a city parking permit area or a seasonal city parking permit area, whether such use is governmental or otherwise, 2) which use appears to the director to be inimical to one or more of the objectives of the city permit parking program as set forth in subsection 12.64.010B of this chapter or its successor, and 3) where such use can be identified, forecast and is repetitive.

GUEST PERMIT: The portable card stock placard issued by the parking permit coordinator to area residents and area businesses for use on vehicles under the legal control of guests, customers and/or clients during periods when persons operating said vehicles are actually visiting or engaged in business at the permittee's address not to exceed two (2) days per visit.

LEASE: That a person pays rent or other remuneration for use of a parcel of real property as such person's residence or place of business.

OWNS: That a person has at least one-fourth ($^1/_4$) of the fee or equitable interest in a parcel of real property within a city permit parking area.

PERMIT PARKING COORDINATOR: The person designated by the transportation engineer to operate and manage the permit parking program, including the implementation and operation of permit parking areas, on a routine, daily basis.

PERMIT VEHICLE: Any vehicle properly displaying area regular, area seasonal, guest, or temporary visitor permit, issued by the parking permit coordinator for authorized use on such vehicles.

PERMIT YEAR: The twelve (12) month period set for the administration of a city permit area, including the expiration and renewal of permit area regular and guest permits.

PROGRAM: Means and shall refer to the process of designation, administration and enforcement of all city parking permit areas and regulations established by the transportation engineer pursuant to the provisions of this chapter.

REGULAR PERMIT DECALS: The permanent adhesive decal issued by the parking permit coordinator for assignment to vehicles under the legal control of area residents and area businesses.

RESIDENT: A person who resides in the city parking permit area on a regular basis.

SEASONAL CITY PERMIT AREA OR SEASONAL CITY PARKING PERMIT AREA: An area which meets the criteria for a city permit area as set forth in section 12.64.040 of this chapter except that the twenty five percent (25%) or higher occupancy by commuter vehicles is the result of special events occurring continually over a period of less than nine (9) months and more than two (2) months each year.

TEMPORARY CITY PARKING PERMIT AREA: A city parking permit area established on a temporary basis pursuant to section 12.64.175 of this chapter or its successor.

TEMPORARY VISITOR PERMIT: The temporary disposable paper permit issued for a predetermined length of time, not to exceed forty five (45) days, to area residents and area businesses for use on vehicles under the legal control of service persons, operators of construction vehicles or equipment, and long term visitors at the area permittee's address.

B. The masculine form, as used in this chapter, if applicable as shown by the context thereof, shall also apply to a female person. (Ord. 86-05 § 1, 2005: Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.030: AREA DESIGNATION; AUTHORITY:

The transportation engineer may, upon recommendation of the parking permit coordinator, and pursuant to the provisions hereunder, consider for designation as a city permit parking area any area which satisfies the threshold criteria established below. Where he deems it necessary and appropriate to accomplish the legislative intent and objectives, the transportation engineer may then designate by declaration any qualified area as an approved city permit parking area in which motor vehicles displaying a valid area parking permit may stand or be parked without limitations imposed on commuter vehicles by the parking regulations in the area. Such declaration shall also state the applicable parking regulations and the fees to be charged for permit issuance. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.040: AREA DESIGNATION; CRITERIA:

A. General Criteria: An area shall be deemed eligible for consideration as a city permit parking area if the transportation engineer determines, after evaluation of the surveys and traffic studies prepared at the direction of the parking permit coordinator, that the qualified area is adversely affected by commuter vehicles for any extended period(s) during the day or night, on weekends or holidays.

B. Specific Factors: In determining alleged adverse effects upon an area, the transportation engineer shall analyze and evaluate factors which include, but are not limited to, the following:

1. The extent of the desire and perception of need by the residents for permit parking as evidenced by receipt of verified petitions and ballots as required herein;

2. The extent to which legal on street parking spaces are occupied by motor vehicles during any given time period; and

3. The extent to which vehicles parking in the area during the period proposed for parking regulations are commuter vehicles rather than resident vehicles.

C. Threshold Technical Criteria: The transportation engineer may, upon recommendation of the parking permit coordinator, and pursuant to the provisions hereunder, consider for designation as a city permit parking area, an area whose streets (or portions thereof) qualify by satisfying the following eligibility criteria:

1. Seventy percent (70%) or more of the parking capacity is generally occupied;

2. Such occupancy continues for any consecutive four (4) hour period and such occupancy rate occurs at least four (4) days per week during at least a nine (9) month period per year. If the recommendation is for designation of a seasonal city permit area, the occupancy occurs over a period of more than two (2) months and fewer than nine (9) months;

3. Twenty five percent (25%) of the vehicles occupying the on street spaces are other than area vehicles;

4. The requesting area consists of curb space fronting a minimum of eight (8) standard block faces geographically located within the proposed permit area; and

5. The parking permit coordinator agrees that implementing the proposed permit area will not, to a significant extent, transfer the commuter vehicle parking problem to a different adjacent area should the area under consideration be designated permit parking. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.050: AREA DESIGNATION; PROCESS:

A. Persons desiring to have their area designated permit parking shall consult with the parking permit coordinator or his designee to tentatively establish the boundaries of the area proposed for designation.

B. Upon receipt of a petition containing the signatures of a minimum of twenty five percent (25%) of residents and/or businesses within the area boundary proposed for permit parking designation, the parking permit coordinator shall cause a parking study, or other surveys as may be deemed necessary, to be undertaken as soon as is practicable consistent with scheduling constraints, in order to determine if the proposed area satisfies the eligibility requirements as set forth in section 12.64.040 of this chapter, or its successor. Should the studies reflect that other nearby area streets are similarly congested with curb parking, the parking permit coordinator may require such streets (or portions thereof) to be added to the proposed permit parking area.

C. Upon certification by the parking permit coordinator that the general and technical threshold criteria set forth in section 12.64.040 of this chapter appear satisfied for a proposed area, the petitioners shall be notified that they shall have fifteen (15) days from such notice to: 1) submit a listing of all addresses within the certified area from the most current Polk or Coles city directories and 2) submit a listing from the Salt Lake County assessor's office of each separate tax parcel/property owner of record thereon within the certified area. In the interim, a ballot shall be prepared by the parking permit coordinator for the purpose of determining whether or not he should favorably recommend to the transportation engineer that the proposed area be created. The ballot form shall indicate two (2) choices, a "yes" (in favor of) choice or a "no" (not in favor of) choice for area permit parking designation. In addition a section allowing for "comments" shall be on the ballot.

Upon receipt of the area address and tax parcel listings, the parking permit coordinator shall, consistent with scheduling constraints, mail the ballot to all addresses and property owners of record within the area proposed for designation. The mass mail shall contain the following:

1. The proposal to create a city permit area and the listing of streets (or portions thereof) included within the proposed boundary.

2. An information sheet generically describing the city's permit parking program, and including options related to on street parking restrictions within a permit area, issuance of vehicle permits, and area program fees. The recommendation shall be available for public inspection at the division of transportation office.

3. The official ballot form as prescribed above.

D. For the purpose of counting residents and businesses within the proposed permit parking area, each authorized address shall be given one count. For the purpose of counting owners, each separated tax parcel shall receive an additional count, regardless of whether its owner(s) is a resident or a business. For the purpose of counting petition signatures/ballot votes, only one signature/vote per authorized address shall be counted toward the minimum petition/ballot requirements. Owners may sign/vote for any vacant parcel addresses, but may not sign/vote for occupied addresses. In the case of condominium or other hybrid ownership projects, one count shall be given the owner and one count for a nonowner occupying the unit and one count and vote shall be given to the ownership association for the condominium complex; vacant units shall be treated as vacant rentals above.

E. A thirty (30) day time period, commencing on the date of the mass mailing, shall be allowed for the purpose of voting. After indicating their preference on the ballot, residents and businesses shall return their ballot, on or prior to, the cutoff date (printed on the ballot) to the parking permit coordinator. To determine consensus as to whether or not area residents and area businesses are in favor of proceeding on to the next phase in the area designation process related to establishing the proposed permit parking area, the following criteria shall apply: fifty one percent (51%) or more of eligible residents and businesses, whose ballot has been received by the parking permit coordinator during the period allotted for voting, must indicate by ballot vote that they are not in favor of establishing the permit parking area by checking the "no" (not in favor of) choice listed on the ballot. For areas qualifying as a seasonal parking area, no ballot shall be required. Only a public hearing with residents indicating their favor with the change shall be required.

1. Immediately following the thirty (30) day deadline date specified for balloting, all ballots received by the imposed deadline shall be counted. The "yes" (in favor of) votes and the "no" (not in favor of) votes shall then be tallied separately and a percentage derived for each category by applying the stated formula to count petition signatures/ballot votes prescribed for in this section.

2. Should the official ballots received by the parking permit coordinator by the deadline date specified to receive such ballots, when tallied, fall below the required fifty one percent (51%) or more of residents and businesses indicating they are not in favor of establishing permit parking, it shall be assumed that a majority of residents and businesses in the area are in favor of permit parking. The parking permit coordinator shall then favorably recommend to the transportation engineer the establishment/creation of the proposed city permit parking area.

3. Should the official ballots received by the parking permit coordinator within the deadline date specified to receive such ballots, when tallied, meet the required fifty one percent (51%) or more of residents and businesses indicating they are not in favor of establishing permit parking, the area designation process will cease and the parking permit coordinator will take no further action related to establishing permit parking for the area. No new applications for permit parking for the area will be accepted for a period of one year from the date on which the said balloting period expired.

F. Upon receipt of the parking permit coordinator's favorable recommendation to establish a permit parking program for the area, the transportation engineer, as soon as practicable consistent with scheduling constraints, shall fix a time, date and location for a public hearing to consider the parking permit coordinator's recommendation to designate the proposed area of city permit parking area where curb parking is restricted or allowed by permit only. Said hearing shall also be conducted for comment and analysis to determine the boundaries as well as the appropriate area rules and regulations, parking restrictions, issuance of permits, fees and other pertinent matters.

G. At least ten (10) days prior to the hearing date, written notice of the public hearing(s) provided for herein shall be: 1) published in a newspaper of general circulation, 2) posted not more than four hundred feet (400') apart along the streets proposed in the permit area, and 3) mailed to the listed residents, owners and those institutions known to the parking permit coordinator to generate a significant volume of commuter parking in the neighborhood. The notice shall clearly state the purpose of the hearing, the location of the hearing, the proposed boundaries of the permit area, the proposed permit fee schedules and formulas for issuance, and the location where the parking permit coordinator's recommendation is on file and available for public review.

H. Any interested party shall be entitled to appear and be heard on the proposal, subject only to reasonable rules of order that may be established by the transportation engineer. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.060: AREA DESIGNATION; TRANSPORTATION ENGINEER ACTIONS:

A. Within thirty (30) days following the hearing, the transportation engineer shall deny or approve the designation of a city permit parking area as he deems justified under the objectives and procedures above. The transportation engineer shall reduce his decision to writing in the form of a report that shall be filed with the city recorder, accompanied by the parking permit coordinator's recommendation related to the permit parking area and made available to any interested party upon request.

B. The transportation engineer's report shall include:

1. Significant subjects and concerns raised at the public hearing conducted;

2. The findings relative to those designation criteria deemed applicable to the city permit area;

3. Conclusions as to whether the findings, including testimony obtained at the public hearing, justify preferential permit parking for the area under consideration;

4. The transportation engineer's approval (or denial) of the proposed permit parking area;

and, if approved:

5. The proposed boundaries of the city parking permit area;

6. The proposed parking regulations, including administrative provisions for issuing permits; and

7. An implementation schedule indicating when the new permit parking area will become effective.

C. If the transportation engineer approves creation of a city permit parking area, a declaration of designation shall be prepared as an administrative regulation establishing the program for the area, including the boundaries, parking regulations, fees, and other pertinent matters, for its administration and implementation. The declaration shall be mailed to each listed address in the area's designated boundaries. The parking permit coordinator shall promptly implement the program pursuant to the schedule. If the transportation engineer denies the creation of a city permit parking area, a notice of such denial shall be mailed to each listed address in the area's designated boundaries.

D. Information generated through the original designation process and the designation criteria set forth in this chapter shall also be utilized by the transportation engineer in determining whether to remove any particular existing city permit parking area or portion thereof from designated status and participation in the program.

E. Action by the transportation engineer in creating, deleting or modifying the boundaries applicable in city parking permit areas under this chapter, shall be final. However, the city council may agree to review and to modify such decision(s) by a vote of at least four (4) of its members.

F. The transportation engineer's decision shall be stayed by the filing of a written objection requesting city council review, provided the objection is filed within fifteen (15) days of the filing of the report. The objection shall specify grounds upon which council review is justified. If accepted for review, the matter shall be scheduled for public hearing before the city council, with the mailing of ten (10) days' written notice thereof to the appellant, petitioner of record and the transportation engineer. An objection failing to receive the necessary votes for review shall be deemed an affirmation of the transportation engineer's decision.

G. Actions by the transportation engineer as to the implementation and enforcement shall be considered administrative matters. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.070: SIGNS AND MARKINGS IN DESIGNATED AREAS:

Upon the declaration of the transportation engineer designating a city permit parking area, the parking permit coordinator shall cause appropriate signs, markings and/or meters to be erected in the area, indicating prominently thereon the parking regulations, the effective date, and conditions under which permit parking shall be exempt therefrom. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.080: PARKING PERMIT; APPLICATION; TERM:

Each parking permit issued by the parking permit coordinator office shall be valid for one year or portion thereof to be determined by the parking permit coordinator excluding visitor permits. Permits shall not be transferable, but may be renewed annually upon reapplication in the manner required by the parking permit coordinator. Each application or reapplication for a parking permit shall contain information sufficient to identify the applicant's identity, claim for permit eligibility, authorized residence or business within the city permit parking area, the license number of the motor vehicle for which application is made, and such other information that may be deemed relevant by the parking permit coordinator. Applications shall be accompanied by the fee established in the declaration referred to in section 12.64.070 of this chapter. (Ord. 69-98 § 1, 1998: Ord. 24-97 § 1, 1997)

12.64.090: PARKING PERMIT FEES:

To defray program administration costs, fees associated with the city parking permit program shall be established by the declaration of the transportation engineer applicable to the city permit parking area.

The fees shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

12.64.100: PARKING PERMIT; ISSUANCE CONDITIONS:

A. Parking permits shall be issued by the parking permit coordinator's office. Each such permit shall be designed to state or reflect thereon the particular city permit parking area. No more than one parking permit shall be issued for each motor vehicle included on the application. The number of permits available and the manner for allocating permits between various competing resident (as opposed to commuter) vehicles, and the manner in which the process will be administered for each designated area in the program shall be established by the transportation engineer's declaration of designation.

B. The following classifications of persons or entities (listed in order of priority) may be issued parking permits for motor vehicles under their control upon request pursuant to the allocation basis set forth in said declaration:

1. Area residents of the city permit parking area for motor vehicles owned or controlled and regularly parked in the area by household members.

2. Area business owners who own or lease property (and their full time employees) within a city permit parking area for motor vehicles associated with the business use regularly parked in the area. However, no more than one parking permit may be issued for each such motor vehicle.

3. Area residents and area businesses (and the full time employees of area businesses) within a seasonal city permit area during the term set forth in the declaration.

4. Guests, customers, and/or clients of city permit area residents or area businesses who may be provided guest permits by such area permittees for use on vehicles under the legal control of guests, customers and/or clients during periods when persons operating such vehicles are actually visiting or engaged in business at the area permittee's address, for periods not to exceed two (2) days per visit.

5. Temporary visitors as provided by section 12.64.130 of this chapter or its successor.

C. Issuance of a permit shall not guarantee or reserve to the holder thereof an on street parking space within the designated permit parking area. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.110: PARKING PERMIT; DISPLAY REQUIRED:

Permits shall be displayed on the authorized vehicle as provided in the regulations adopted in the declaration. (Ord. 24-97 § 1, 1997)

12.64.120: PARKING PERMIT; ACTIVITIES PERMITTED:

A motor vehicle bearing a valid parking permit displayed as provided for herein, shall be permitted to stand or be parked in the permit area for which the permit has been issued without being limited by parking regulations or prohibitions solely applicable to commuter vehicles. The permit does not exempt drivers or owners from complying with general parking regulations and penalties imposed by the traffic code set out in this title, or ordinances. All other motor vehicles not displaying permits that are parked within a city permit parking area shall be subject to the commuter parking regulations adopted by such declaration authorized by this chapter, and the penalties provided for herein. (Ord. 24-97 § 1, 1997)

12.64.130: TEMPORARY VISITOR PERMITS:

Each declaration shall authorize the parking permit coordinator to issue temporary visitor parking permits to residents and businesses located within designated permit areas for use of their bona fide transient visitors, service persons, and construction personnel for a limited duration not to exceed forty five (45) days. Prior to expiration, a vehicle bearing a visitor permit shall have all the parking rights, obligations and privileges held by permanent permits. Appropriate requirements or limitations on visitor permits, methods and qualification for fees, shall be recommended in each permit parking area by the parking permit coordinator and contained in the transportation engineer's declaration. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.140: PARKING PERMIT; REVOCATION CONDITIONS:

A. Faithful compliance with the terms of the city parking permit program is a condition subsequent to the privilege of obtaining a permit. Violation of the terms of the city parking permit area shall be deemed a forfeiture of those privileges.

1. Any permit holder convicted for violation of this chapter may be required to surrender such permit as a part of sentencing.

2. The parking permit coordinator is authorized to revoke the city parking permit of any person found to be in violation of this chapter, and upon written notification thereof, the person shall surrender such permit to the parking permit coordinator. Failure, when so requested, to surrender a city parking permit so revoked shall constitute an infraction.

3. In the event the parking permit coordinator has good cause to believe that any person or entity is abusing the visitor permit system described above, he shall so notify the permit holder. Any further application for a visitor permit by such person found abusing the system may be denied for a period of not more than one year.

B. Any person aggrieved by such a determination made by the parking permit coordinator under subsections A2 and A3 of this section shall have the right to appeal to the transportation engineer within seven (7) days of such determination. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.150: ENLARGEMENT OF AREA:

Upon recommendation from the parking permit coordinator that the designation criteria and circumstances indicate that enlargement of an existing permit parking area is warranted and appropriate, the transportation engineer may begin proceedings to enlarge the area by initiating the following procedure:

A. Notice shall be given to all addresses within the proposed permit area expansion boundary of a public hearing to be held. Such notice shall be given as provided for in subsection 12.64.050G of this chapter.

B. Such notice shall contain:

1. The date, time and place of the public hearing to consider the proposed area expansion.

2. A description of the transportation engineer's intentions to enlarge the existing permit parking area.

3. A listing of the streets (or portions thereof) proposed to be added to the existing permit parking area.

4. A listing of the rules and regulations proposed for governing the enlarged permit parking area, including the issuance of permits and fees.

C. The hearing shall be conducted as provided under subsection 12.64.050H of this chapter. The transportation engineer shall take into account the factors justifying the permit parking area expansion in accordance with subsection 12.64.040C of this chapter, with the exception that the requirement stated in subsection 12.64.040C4 of this chapter shall not be considered.

D. Within thirty (30) days of the public hearing the transportation engineer shall approve or deny the proposed permit area enlargement. The transportation engineer shall reduce his decision to writing in the form of a report that shall be filed with the city recorder and made available to any interested party upon request. The report shall follow the format outlined in subsection 12.64.060B of this chapter.

E. If the permit parking area enlargement is approved, a declaration of expansion shall be prepared and distributed using the criteria outlined in subsection 12.64.060C of this chapter. Criteria contained in subsections 12.64.060D through G of this chapter shall apply. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.160: REMOVAL OF AREA DESIGNATION OR DELETION OF STREETS:

Upon recommendation from the parking permit coordinator that the designation criteria and circumstances indicate that removal of permit designation from an entire permit parking area is warranted and appropriate, the transportation engineer may begin proceedings to delete a permit parking area or selected streets of a permit parking area by initiating the following procedure:

A. By giving notice to all addresses within the boundary of the permit parking area proposed to be wholly removed from permit parking designation or within the boundary of an existing permit parking area where certain streets (or portions thereof) are proposed to be deleted from permit parking area, that a public hearing is to be held to consider this action. Such notice shall be given as provided for in subsection 12.64.050G of this chapter.

B. Such notice shall contain:

1. The date, time and place of the public hearing to consider the proposed removal or deletion.

2. A description of the transportation engineer's intention to remove from designation a permit parking area or to delete certain streets (or portions thereof) from an existing permit parking area.

3. A listing of the streets (or portions thereof) proposed for removal from designation or deletion from a permit parking area.

C. The hearing shall be conducted as provided under subsection 12.64.050H of this chapter. The transportation engineer shall take into account the factors justifying the proposed removal of area permit parking designation or the proposed deletion of certain streets (or portions thereof) from an existing permit parking area.

D. Within thirty (30) days of the public hearing the transportation engineer shall approve or deny the proposed removal from permit designation of an entire permit parking area or the proposed deletion of certain streets (or portions thereof) from an existing permit parking area. The transportation engineer shall reduce his decision in writing in the form of a report that shall be filed with the city recorder and made available to any interested party upon request. The transportation engineer's report shall include:

1. Significant subjects and concerns raised at the public hearing conducted;

2. The findings relative to those designation criteria and circumstances which indicate whether or not removal from designation or the deletion of certain streets (or portions thereof) from an existing city permit parking area is warranted;

3. Conclusion as to whether the findings, including testimony obtained at the public hearing, justify the removal from designation or the deletion of certain streets (or portions thereof) from an existing city permit area;

4. The transportation engineer's approval (or denial) of the proposed removal or deletion;

5. If approved, an implementation schedule for removal or deletion.

E. If permit parking area designation is removed from an entire area or if the deletion of certain streets (or portions thereof) from an existing permit parking area is approved, a declaration of removal shall be prepared and distributed using the criteria outlined in subsection 12.64.060C of this chapter. Criteria contained in subsections 12.64.060D through G of this chapter shall apply.

In the case of deleting certain streets (or portions thereof) from an existing permit parking area, the area declaration of designation shall be amended to reflect the approved deletion. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.170: MODIFICATION OF REGULATIONS:

Upon recommendation from the parking permit coordinator that circumstances warrant modification to regulations or restrictions governing an existing permit parking area the transportation engineer may begin proceedings to make such modifications by initiating the following procedure:

A. Notice shall be given to all addresses within the boundary of the existing permit area of a public hearing to be held. Such notice shall be given as provided for in subsection 12.64.050G of this chapter.

B. Such notice shall contain:

1. The date, time and place of the public hearing to consider the proposed area modifications.

2. A description of the transportation engineer's proposed modifications to the existing permit parking area.

3. A listing of the streets (or portions thereof) that will be affected by the proposed modifications.

C. The hearing shall be conducted as provided under subsection 12.64.050H of this chapter. The transportation engineer shall take into account the factors justifying the proposed modifications/changes to rules, regulations and/or restrictions governing the existing parking permit area.

D. Within thirty (30) days of the public hearing the transportation engineer shall approve or deny the proposed modification(s) to the permit area. Should the modification(s) be approved, the parking permit coordinator shall be directed to implement the change(s) as soon as is practicable, consistent with scheduling constraints. The permit area declaration of designation shall also be amended to reflect the new, approved modification(s) to the area rules, regulations and/or restrictions. (Ord. 69-98 § 1, 1998: Ord. 77-97 § 6, 1997: Ord. 24-97 § 1, 1997)

12.64.175: EMERGENCY PROCEDURES; TEMPORARY PARKING PERMIT AREA:

In the event the transportation director determines that an emergency parking situation exists, the director may implement procedures for the establishment of a temporary city permit parking area. Such procedures shall, at a minimum, include:

A. Conducting an informal public meeting as soon as is practicable after the determination of the emergency situation. The purposes of the meeting are to allow the director an opportunity to announce to the public the director's determination of the emergency situation and of the details of the director's proposal regarding the establishment of a temporary city permit parking area and of temporary regulations pertaining thereto and to allow verbal public comment at said meeting and continuing written comment thereafter regarding said determination and proposals. The director shall give whatever informal notice of said meeting to the residents, business owners and property owners of the proposed temporary city parking permit area the director deems appropriate under the circumstances. Such notice may include the distribution of flyers throughout the said area. The formal notice requirements of section 12.64.050 of this chapter or its successor shall not apply to this informal meeting.

B. Following the informal meeting and receiving the comments from those in attendance, the director shall make whatever further review and modifications of the proposed temporary city parking permit area and proposed temporary regulations the director may deem appropriate or the director may abandon the proposal. If the director determines to proceed with the proposal after such further review, the director shall reduce such decision to writing in the form of a report that shall be filed with the city recorder and made available to any interested party upon request. Said report shall include:

1. Significant subjects and concerns raised at the informal meeting conducted;

2. Preliminary findings and conclusions justifying the implementation of the temporary city parking permit area and temporary regulations and a declaration of the emergency parking situation;

3. The boundaries of the temporary city parking permit area;

4. The parking regulations, including administrative provisions for issuing permits; and

5. An implementation schedule indicating when the temporary city parking permit area will become effective.

C. No such temporary city parking permit area or temporary regulations shall remain in effect for more than one hundred eighty (180) days.

D. No later than ninety (90) days following the effective date of implementing the temporary city parking permit area, the director shall put into place procedures for the possible designation of a regularly approved city parking permit area as provided in this chapter, to take the place of the temporary city parking permit area.

E. The director shall have discretion to make adjustments as the director may deem appropriate to the boundaries of the temporary city parking permit area and to the temporary parking regulations during the period that the temporary city parking permit area and temporary regulations are in effect. The director shall reduce such adjustments to writing in the form of amendments to the previously issued report, which amendments shall be filed with the city recorder and made available to any interested party upon request. (Ord. 86-05 § 2, 2005)

12.64.180: UNLAWFUL ACTIVITIES; PENALTY:

A. It is unlawful and a violation of this chapter, unless expressly provided to the contrary herein, for any person to stand or park a motor vehicle, or to cause the same to be done contrary to the parking regulations established pursuant hereto. Such violation shall be punishable by a fine not to exceed one hundred dollars ($100.00).

B. It is unlawful and a violation of this chapter for a person to falsely represent himself as eligible for a parking permit, or to furnish false information in an application therefor to the parking permit coordinator office. Such violation shall constitute a class B misdemeanor.

C. It is unlawful and a violation of this chapter for a person holding a valid parking permit issued pursuant hereto to permit the use or display of such permit on a motor vehicle other than that for which the permit is issued. Such conduct shall constitute an unlawful act and violation of this chapter, both by the person holding the valid parking permit and the person who so uses or displays the permit on a motor vehicle other than that for which it is issued. Such violation shall be punishable by a fine not to exceed fifty dollars ($50.00).

D. It is unlawful and a violation of this chapter for a person to copy, produce or otherwise bring into existence a facsimile or counterfeit parking permit in order to evade parking regulations applicable in a city permit parking area. Such violation shall constitute a class B misdemeanor. (Ord. 69-98 § 1, 1998: Ord. 24-97 § 1, 1997)

CHAPTER 12.68
HIGH SCHOOL PARKING LOTS

12.68.010: CITY REGULATIONS APPLICABLE:

All city traffic and safety regulations with respect to parking and driving in a parking lot must be observed. (Prior code § 28-2-9)

12.68.020: PARKING PERMIT; REQUIRED:

A. It is unlawful for either a high school student or faculty member to park a motor vehicle in any of the high school parking lots in the Salt Lake City School District, without first obtaining each year a parking permit for parking at a particular high school from said district. The permit shall be obtained from the principal of the school at which parking is desired. The permit must be placed in the rear window or in a conspicuous place at the rear of the vehicle for which the permit was obtained and which is parked on such high school property. Such permits are not transferable, and possession of a parking permit does not guarantee a specific parking lot or space on said high school property.

B. All parking and nonparking areas shall be designated, with the approval of the city transportation engineer, marked, and maintained by the Salt Lake City School District. (Prior code § 28-2-1)

12.68.030: PARKING REGULATIONS:

It is unlawful for either students or faculty to park a motor vehicle in areas marked and designated for visitors, or in other areas than where allowed by their respective permit, and it is unlawful for visitors to park in areas other than those marked or designated for parking by visitors. It is unlawful for any person without a student or faculty parking permit for persons with disabilities to park a motor vehicle in any parking space marked or designated for persons with disabilities. Delivery vehicles may park in designated delivery areas for a period not to exceed thirty (30) minutes. (Ord. 20-06 § 1, 2006: prior code § 28-2-3)

12.68.040: OPERATOR'S LICENSE REQUIRED:

It is unlawful for a student, faculty member or visitor to operate and/or park a vehicle in any high school parking lot of the Salt Lake City School District without a valid Utah operator's license in his or her possession. (Prior code § 28-2-6)

12.68.050: PERSONS UNDER EIGHTEEN; PARENTAL PERMISSION REQUIRED:

It is unlawful for any student under the age of eighteen (18) to park a motor vehicle in any Salt Lake City School District parking lot without first submitting in writing parental permission for such student to drive and/or park the specified motor vehicle in the specific high school parking lot. (Prior code § 28-2-7)

12.68.060: PARKING PERMIT; FALSE INFORMATION PROHIBITED:

It is unlawful for any person to falsify or make false representation of vehicle registration, facts, or fees in connection with the application for a parking permit. (Prior code § 28-2-2)

12.68.070: NO PARKING AREAS:

It is unlawful for any person to park a motor vehicle in those areas where the curb is painted red, in driveways, or in other areas designated as no parking areas, or in unmarked areas such as unmarked roads or alleyways. (Prior code § 28-2-4)

12.68.080: ILLEGALLY PARKED VEHICLES; POLICE AUTHORIZED TO MOVE:

Whenever any police officer finds a vehicle standing upon such district high school property in violation of any provision of this chapter, such officer is hereby authorized to have the vehicle removed to the city impound lot pursuant to chapter 12.96 of this title, or its successor. (Prior code § 28-2-8)

12.68.090: PARKING PERMIT; REVOCATION FOR ABUSE OF PRIVILEGE:

Any student or faculty member who abuses their privilege of driving and parking on such property, in any way endangering the life or property of others, may be denied or have their parking permit revoked for parking or driving on such school property by the school district. (Prior code § 28-2-10)

CHAPTER 12.76
PEDESTRIANS

12.76.010: LOCATIONS FOR CROSSING ROADWAYS:

No pedestrian shall cross a roadway:

A. At any place other than in a crosswalk. If no crosswalk exists within a distance of seven hundred feet (700') of the desired point of crossing, a pedestrian may cross by the shortest straight route to the opposite curb after exercising due care and caution and yielding to all vehicular traffic;

B. Between adjacent intersections, at which traffic control signals are in operation, at any place except in a marked crosswalk;

C. At any place other than in a crosswalk upon any through street; or

D. Where a pedestrian tunnel or overhead pedestrian crossing is available. (Prior code title 46, art. 17 § 267)

12.76.020: PEDESTRIAN RIGHTS; OBEDIENCE TO TRAFFIC CONTROL SIGNALS:

(Rep. by Ord. 62-02 § 27, 2002)

12.76.030: RIGHT OF WAY IN CROSSWALKS; VEHICLE REQUIREMENTS:

(Rep. by Ord. 62-02 § 28, 2002)

12.76.040: VEHICLE STOPPED AT CROSSWALK; PASSING PROHIBITED:

(Rep. by Ord. 62-02 § 29, 2002)

12.76.045: YIELDING RIGHT OF WAY AT MARKED OR UNMARKED CROSSWALKS; DRIVER AND PEDESTRIAN DUTIES:

A. Driver Duties:

1. With regard to marked or unmarked crosswalks, vehicles shall yield the right of way to:

a. (1) Pedestrians carrying a brightly colored flag customarily used by pedestrians in the city while crossing a street within a crosswalk;

(2) Pedestrians using a white cane or a service animal customarily used by pedestrians having visual impairments;

(3) Pedestrians using a wheelchair or similar wheeled mechanical, electrical or motorized vehicle customarily used by pedestrians having mobility impairments;

(4) Pedestrians exhibiting clear and objective signs of impairment or infirmity of any kind, including, but not limited to, infirmity resulting from advanced age;

(5) Crossing guards with a stop sign upheld; and

b. All other pedestrians;

by coming to a complete stop at the crosswalk and not entering the crosswalk while such pedestrian is lawfully within a marked or unmarked crosswalk and is in the vehicle's travel lane or adjoining lane.

2. Whenever a vehicle is stopping or stopped at a marked or unmarked crosswalk, all approaching vehicles traveling in the same direction as the stopping or stopped vehicle shall also stop to verify that no pedestrian is within their travel lane or an adjoining lane in a marked or unmarked crosswalk.

3. A vehicle turning onto an adjacent roadway shall yield the right of way to pedestrians as explained in subsections A1 and A2 of this section.

B. Increased Penalty:

1. The civil penalty to be assessed against a person for each violation of subsection A1a of this section may be increased beyond the penalty ordinarily assessed for such violation, up to the maximum penalty provided by section 1.12.050 of this code, or its successor.

2. The civil penalty ordinarily assessed for a violation of subsection A1b of this section may be increased for a second and for each subsequent violation within one year of a previous conviction or forfeiture of penalty for a violation of said subsection.

C. Pedestrian Duties:

1. Whenever traffic or pedestrian signals are in place and operation the illuminated indications shall govern pedestrians as explained in sections 12.32.045 and 12.32.055 of this title or their successors. At all other locations pedestrians shall be granted those rights and be subject to those restrictions stated in this chapter.

2. No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close as to constitute an immediate hazard. (Ord. 23-03 § 3, 2003: Ord. 62-02 § 30, 2002)

12.76.050: PRECAUTIONS FOR CHILDREN, BLIND AND INCAPACITATED PERSONS:

A. Notwithstanding the foregoing provisions of this chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway, and shall give warning by sounding the horn where necessary, and shall exercise proper precaution upon observing on a roadway any child or any incapacitated person or any person carrying a cane as described in subsection B of this section, or any person being accompanied by a guide dog.

B. A person wholly or partially blind, and with no other person, may carry a cane or walking stick, white in color, or white tipped with red, and seven-eighths ($\frac{7}{8}$) of an inch or more in diameter, as a means of protection and identification as an indication to all traffic to exercise extraordinary care to avoid accidents. (Prior code title 46, art. 17 § 268)

12.76.060: WALKING ALONG OR UPON ROADWAY:

A. Where sidewalks are provided, it is unlawful for any pedestrian to walk along and upon an adjacent roadway.

B. Where sidewalks are not provided, any pedestrian walking along and upon a street shall when practicable walk only on the left side of the roadway, or its shoulder, facing traffic which may approach from the opposite direction. (Prior code title 46, art. 17 § 269)

12.76.070: SOLICITING RIDES OR EMPLOYMENT:

No person shall stand in a street or roadway for the purpose of soliciting from the occupant of any vehicle a ride, employment, the parking, watching or guarding of a vehicle, or other business. (Prior code title 46, art. 17 § 270)

12.76.080: PARENT AND GUARDIAN RESPONSIBILITIES:

The parent or custodian of any child and the guardian of any ward or person having charge of any blind, confused or incapacitated person shall not authorize or knowingly permit any such person to violate any of the provisions of this chapter. (Prior code title 46, art. 17 § 272)

12.76.090: PEDESTRIANS OBSTRUCTING SIDEWALKS PROHIBITED:

Pedestrians shall not obstruct or prevent the free use of sidewalks or crosswalks by other pedestrians. (Prior code title 46, art. 17 § 271)

CHAPTER 12.80
BICYCLES

12.80.010: LICENSING FOR OWNERS:

A. It is unlawful for any person to operate or ride a bicycle upon any of the streets, alleys, sidewalks or public ways of this city:

1. Unless such bicycle has been registered, licensed, and is displaying the proper license, as hereinafter provided; or
2. After the license has been duly suspended or revoked.

B. Every bicycle, before being so registered and licensed, must be inspected with relation to its frame number, operating condition, brakes, warning device, reflector and handlebars.

C. Any license issued under the provisions of this chapter shall be valid until the transfer of ownership of the bicycle, or until the bicycle license so issued is destroyed, lost or mutilated, at which time such bicycle shall again be so inspected, registered and licensed as herein provided.

D. The fee to be paid for each bicycle license or relicense because of transfer of title or destruction, loss or mutilation of the license, or for any other reason, shall be one dollar ($1.00), payable in advance. (Prior code title 46, art. 18 § 274)

12.80.020: DEALER LICENSING:

All dealers required to obtain a license pursuant to the provisions of section 5.18.020 et seq., of this code, or successor sections, shall, at the time of sale of a new or used bicycle, license and inspect such bicycle, if the purchaser is a resident of Salt Lake County or if the bicycle is purchased for use by an individual who is a resident of the county, as determined by completing the questionnaire required to be completed pursuant to the provisions of section 5.18.030 of this code, or its successor. (Prior code title 46, art. 18 § 274.1)

12.80.030: POLICE LICENSING POWERS AND DUTIES:

The chief of police is authorized and directed to prepare and issue regulations governing the inspection and licensing of bicycles required to be licensed but not validly licensed by dealers as above required; provided, that any such license so issued or heretofore issued by the police department shall be valid for the life of such bicycle or until the transfer of ownership thereof, or until the license issued to such bicycle becomes destroyed, lost or mutilated, at which time the bicycle shall again be inspected, registered and licensed or relicensed. The cost of any licensing or relicensing under the provisions of this section shall be one dollar ($1.00), payable in advance. (Prior code title 46, art. 18 § 274.2)

12.80.035: BICYCLE INSPECTIONS; UPON REQUEST OF OFFICER:

A peace officer may at any time require a person riding a bicycle to stop and submit the bicycle to an inspection and a test as appropriate if the officer has reasonable cause to believe that:

A. The bicycle is unsafe or not equipped as required by law; or

B. The bicycle's equipment is not in proper adjustment or repair. (Ord. 2-06 § 10, 2006)

12.80.040: BICYCLE AND DEVICE PROPELLED BY HUMAN POWER SUBJECT TO TITLE; EXCEPTION:

A. Except as provided under subsection B of this section or as otherwise specified herein, a person operating a bicycle or a vehicle or device propelled by human power has all the rights and is subject to the provisions of this title applicable to the operator of any other vehicle except as to special regulations of this code or those provisions which by their nature can have no application.

B. A person operating a bicycle or a vehicle or device propelled by human power is not subject to the penalties related to operator licenses under alcohol and drug related traffic offenses. (Ord. 2-06 § 11, 2006: prior code title 46, art. 18 § 277)

12.80.050: PARENT RESPONSIBILITY FOR CHILDREN:

It is unlawful for a parent or custodian of any child and the guardian of any ward to knowingly permit any such child or ward to violate any of the provisions of this chapter. (Prior code title 46, art. 18 § 273)

12.80.060: BRAKES, LIGHTS AND OTHER EQUIPMENT:

(Rep. by Ord. 2-06 § 12, 2006)

12.80.061: BICYCLE; PROHIBITED EQUIPMENT; BRAKES REQUIRED:

A. A bicycle may not be equipped with, and a person may not use on a bicycle, a siren or whistle.

B. Every bicycle shall be equipped with a brake or brakes which enable its driver to stop the bicycle within twenty five feet (25') from a speed of ten (10) miles per hour on dry, level, clean pavement. (Ord. 2-06 § 13, 2006)

12.80.065: BICYCLES; LAMPS AND REFLECTIVE MATERIAL REQUIRED:

A. Every bicycle in use at the times described in section 12.28.095 of this title shall be equipped with a:

1. Lamp of a type approved by the Utah department of public safety which is on the front emitting a white light visible from a distance of at least five hundred feet (500') to the front; and
2. a. Red reflector of a type approved by the Utah department of public safety which is visible for five hundred feet (500') to the rear when directly in front of lawful lower beams of head lamps on a motor vehicle; or

   b. Red taillight designed for use on a bicycle and emitting flashing or nonflashing light visible from a distance of five hundred feet (500') to the rear.

B. Every bicycle when in use at the times described in section 12.28.095 of this title shall be equipped with:

1. Reflective material of sufficient size and reflectivity to be visible from both sides for five hundred feet (500') when directly in front of lawful lower beams of head lamps on a motor vehicle; or
2. In lieu of reflective material, a lighted lamp visible from both sides from a distance of at least five hundred feet (500').

C. A bicycle or its rider may be equipped with lights or reflectors in addition to those required by subsections A and B of this section. (Ord. 2-06 § 14, 2006)

12.80.070: RIDING RULES AND REGULATIONS; UNLAWFUL ACTS:

(Rep. by Ord. 2-06 § 15, 2006)

12.80.075: CARRYING MORE PERSONS THAN DESIGN PERMITS PROHIBITED; EXCEPTION:

A. Except as provided in subsection B of this section, a bicycle may not be used to carry more persons at one time than the number for which it is designed or equipped.

B. An adult rider may carry a child securely attached to the adult rider's person in a backpack or sling. (Ord. 2-06 § 16, 2006)

12.80.085: PERSONS ON BICYCLES, SKATES AND SLEDS NOT TO ATTACH TO MOVING VEHICLES; EXCEPTION:

A. A person riding a bicycle, coaster, skateboard, roller skates, sled, or toy vehicle may not attach it or a person to any moving vehicle on a roadway.

B. This section does not prohibit attaching a trailer or semitrailer to a bicycle if that trailer or semitrailer has been designed for attachment. (Ord. 2-06 § 17, 2006)

12.80.095: OPERATION OF BICYCLE ON AND USE OF ROADWAY; DUTIES, PROHIBITIONS:

A. A person operating a bicycle on a roadway at less than the normal speed of traffic at the time and place and under the conditions then existing shall ride as near as practicable to the right hand edge of the roadway except when:

1. Overtaking and passing another bicycle or vehicle proceeding in the same direction;
2. Preparing to make a left turn at an intersection or into a private road or driveway;
3. Traveling straight through an intersection that has a right turn only lane that is in conflict with the straight through movement; or
4. Reasonably necessary to avoid conditions that make it unsafe to continue along the right hand edge of the roadway including:

   a. Fixed or moving objects;

   b. Parked or moving vehicles;

   c. Bicycles;

   d. Pedestrians;

   e. Animals;

   f. Surface hazards; or

   g. A lane that is too narrow for a bicycle and a vehicle to travel safely side by side within the lane.

B. A person operating a bicycle on a roadway shall operate in the designated direction of traffic.

C. 1. A person riding a bicycle on a roadway may not ride more than two (2) abreast with another person except on paths or parts of roadways set aside for the exclusive use of bicycles.

2. If allowed under subsection C1 of this section, a person riding two (2) abreast with another person may not impede the normal and reasonable movement of traffic and shall ride within a single lane.

D. If a usable path for bicycles has been provided adjacent to a roadway, a bicycle rider may be directed by a traffic control device to use the path and not the roadway. (Ord. 2-06 § 18, 2006)

12.80.105: BICYCLES AND HUMAN POWERED VEHICLES OR DEVICES TO YIELD RIGHT OF WAY TO PEDESTRIANS ON SIDEWALKS, PATHS, OR TRAILS; USES PROHIBITED; NEGLIGENT COLLISION PROHIBITED; SPEED RESTRICTIONS; RIGHTS AND DUTIES SAME AS PEDESTRIANS:

A. A person operating a bicycle or a vehicle or device propelled by human power shall:

1. Yield the right of way to any pedestrian; and

2. Give an audible signal before overtaking and passing a pedestrian.

B. A person may not operate a bicycle or a vehicle or device propelled by human power on a sidewalk, path, or trail, or across a roadway in a crosswalk, where prohibited by a traffic control device or ordinance.

C. A person may not operate a bicycle or a vehicle or device propelled by human power in a negligent manner so as to collide with a:

1. Pedestrian; or

2. Person operating a:

a. Bicycle; or

b. Vehicle or device propelled by human power.

D. A person operating a bicycle or a vehicle or device propelled by human power on a sidewalk, path, or trail, or across a driveway, or across a roadway on a crosswalk may not operate at a speed greater than is reasonable and prudent under the existing conditions, giving regard to the actual and potential hazards then existing.

E. Except as provided under subsections A and D of this section, a person operating a bicycle or a vehicle or device propelled by human power on a sidewalk, path, or trail, or across a roadway on a crosswalk, has all the rights and duties applicable to a pedestrian under the same circumstances.

F. A person operating a bicycle or a vehicle or device propelled by human power on a sidewalk shall proceed only in single file. (Ord. 2-06 § 19, 2006)

12.80.110: BICYCLES; CARRYING BUNDLE; ONE HAND ON HANDLEBARS:

A. A person operating a bicycle may not carry any package, bundle, or article which prevents the use of both hands in the control and operation of the bicycle.

B. A person operating a bicycle shall keep at least one hand on the handlebars at all times. (Ord. 2-06 § 20, 2006)

12.80.120: BICYCLES; PARKING ON SIDEWALK, ROADWAY; PROHIBITIONS:

A. A person may park a bicycle on a sidewalk unless prohibited or restricted by a traffic control device.

B. A bicycle parked on a sidewalk may not impede the normal and reasonable movement of pedestrian or other traffic.

C. A bicycle may be parked on the roadway at any location where parking is allowed:

1. At any angle to the curb or edge of the roadway; and

2. Abreast of another bicycle or bicycles near the side of the roadway.

D. A bicycle may not be parked on a roadway in a manner as to obstruct the movement of a legally parked motor vehicle.

E. In all other respects, bicycles parked anywhere on a roadway shall conform with the provisions of chapter 12.56 of this title, regarding the parking of vehicles. (Ord. 2-06 § 21, 2006)

12.80.130: BICYCLES; TURNS; DESIGNATED LANES:

A. A person riding a bicycle and intending to turn left shall comply with section 12.44.120 of this title or subsection B of this section.

B. 1. A person riding a bicycle intending to turn left shall approach the turn as close as practicable to the right curb or edge of the roadway.

2. After proceeding across the intersecting roadway, to the far corner of the curb or intersection of the roadway edges, the bicyclist shall stop, as far out of the way of traffic as practical.

3. After stopping, the bicyclist shall yield to any traffic proceeding in either direction along the roadway he had been using.

4. After yielding and complying with any traffic control device or peace officer regulating traffic, the bicyclist may proceed in the new direction.

C. 1. Notwithstanding subsections A and B of this section, the city transportation engineer may place traffic control devices that require and direct turning bicyclists to travel a specific course.

2. When the devices are placed under subsection C1 of this section, a person may not turn a bicycle other than as directed by the devices. (Ord. 2-06 § 22, 2006)

12.80.140: BICYCLES; TURN SIGNALS; EXCEPTIONS:

A. Except as provided in this section, a person riding a bicycle shall comply with section 12.44.140 of this title regarding turn signals and turning.

B. A person is not required to signal by hand and arm continuously if the hand is needed in the control or operation of the bicycle.

C. A person operating a bicycle who is stopped in a lane designated for turning traffic only is not required to signal prior to making the turning movement.

D. A person operating a bicycle may give the required hand and arm signal for a right turn by extending the right hand and arm horizontally to the right. (Ord. 2-06 § 23, 2006)

12.80.150: OPERATION OF BICYCLE ON ONE-WAY ROADWAY:

(Rep. by Ord. 14-09 § 2, 2009)

12.80.160: CENTRAL TRAFFIC DISTRICT BICYCLE RIDING RESTRICTION:

It is unlawful for operators of bicycles to ride any bicycle upon any sidewalk within the "central traffic district", as defined in section 12.04.090 of this title, or its successor, and as described in section 12.104.010, "Schedule 1, Central Traffic District", of this title, or its successor, and made a part hereof by reference, or on any other area where prohibited by signs, provided, however, the foregoing shall not apply to police officers or parking enforcement officers in the scope and course of their employment. (Ord. 69-11, 2011)

12.80.170: BICYCLE RACING; WHEN APPROVED; PROHIBITIONS; EXCEPTIONS; AUTHORIZED EXEMPTIONS FROM TRAFFIC LAWS:

A. Bicycle racing on roadways is prohibited under section 12.36.040 of this title, except as authorized in this section.

B. 1. Bicycle racing on a roadway is permitted when a racing event is approved by the city transportation engineer on a roadway under its jurisdiction.

2. Approval of bicycle roadway racing events may be granted only under conditions:

a. Which assure reasonable safety for all race participants, spectators, and other roadway users; and

b. Which prevent unreasonable interference with traffic flow which would seriously inconvenience other roadway users.

C. Participants in an approved bicycle roadway racing event may be exempted from compliance with any traffic laws otherwise applicable:

1. By agreement with the city; and

2. If traffic control is adequate to assure the safety of all roadway users. (Ord. 2-06 § 26, 2006)

12.80.180: ALTERATION OF LICENSE OR FRAME NUMBER PROHIBITED:

No person shall wilfully or maliciously destroy, mutilate or alter the number of any bicycle frame number, any bicycle license issued pursuant to this code or remove, destroy or mutilate any license decal while the same is valid, or operate any vehicle without having attached thereto a valid license decal issued as provided in this code. (Ord. 2-06 § 27, 2006: prior code title 46, art. 18 § 275)

12.80.190: LICENSE; SUSPENSION OR REVOCATION WHEN; IMPOUNDMENT:

A. The city judges or judges of juvenile courts who hear traffic cases are hereby empowered to revoke or suspend the license of any bicycle when it appears that the owner of any bicycle is not the licensee of record, or that the owner of the bicycle or the licensee thereof has used or knowingly permitted the bicycle to be used in violation of this code.

B. The police department is hereby directed and authorized to impound any bicycle so used in violation of this code for a reasonable period of time pending investigation of any alleged violation of this code, or until such bicycle is registered and licensed by the owner thereof and equipped as herein provided. (Ord. 2-06 § 28, 2006: prior code title 46, art. 18 § 279)

12.80.200: VIOLATION; PENALTY:

An operator of a bicycle who violates any of the provisions of this chapter shall be punished as an infraction in accordance with subsection 12.12.010C of this title, or its successor. (Ord. 2-06 § 29, 2006: prior code title 4, art. 18 § 279.1)

CHAPTER 12.84
MOTORBUS OPERATIONS

12.84.010: MOTORBUS DEFINED AND APPLICABILITY OF CHAPTER:

For the purpose of this chapter "motorbus" means and is defined as set forth in section 12.04.245 of this title, or its successor. Nothing in this chapter shall be deemed to apply to any vehicle of which the destination or route is under the direction of the passenger or passengers transported therein, such as taxicabs. (Ord. 75-08 § 3, 2008: prior code § 23-1-1)

12.84.020: OWNERS AND DRIVERS; INSURANCE REQUIRED:

In order to ensure the safety of the public, it is unlawful for the owner of any motorbus to drive or operate or permit the same to be driven or operated, or for any person to drive or operate a motorbus unless such owner, operator or driver shall have in force at all times which such motorbus is being driven or operated the public liability and property damage insurance or bond as required by state statute. (Prior code § 23-1-16)

12.84.030: SIGNS SHOWING DESTINATION AND OWNERSHIP:

Every motorbus shall carry a sign in letters at least one and one-half inches ($1\frac{1}{2}$) in width, so that the same shall be readily legible to the public, giving the name of the person owning the same, or the name of the person operating the same, and the termini of the route over which it runs. (Prior code § 23-1-2)

12.84.040: LIGHTS AND LIGHTED SIGNS AT NIGHT:

Every motorbus operated when it is dusk or dark shall be thoroughly artificially illuminated both on the inside and on the outside that the termini may be readily legible to the public. (Prior code § 23-1-3)

12.84.050: LICENSED DRIVERS REQUIRED:

It is unlawful to drive or operate any motorbus upon any street of the city unless it is operated by the person to whom a license has been issued for such bus. (Prior code § 23-1-8)

12.84.060: OPERATING WITH UNDERAGE DRIVERS PROHIBITED:

It is unlawful for any person, by himself or herself, agent, servant or employee, to drive or operate, or cause to be driven or operated any motorbus if the driver or operator is less than eighteen (18) years of age. (Prior code § 23-1-9)

12.84.070: ALLOWING PASSENGERS IN CERTAIN AREAS PROHIBITED:

It is unlawful to operate or run a motorbus while any person is standing or riding on any place on the outside thereof or while more than one person, besides the driver, is sitting or standing in the part of the bus that is adjacent to the driver in such manner as to obstruct his or her view to the side. (Prior code § 23-1-6)

12.84.080: CONVERSING WITH DRIVER PROHIBITED:

It is unlawful for any bus driver to engage in conversation with any passenger or any person while the bus he is operating is in motion, except to give necessary information to passengers or such other persons. It is also unlawful for any person to engage any such bus driver in conversation while the bus operated by such driver is in motion, except to request information or to give necessary directions for stopping the bus. (Prior code § 23-1-17)

12.84.090: HAND BAGGAGE IN CHARGE OF PASSENGERS:

It is unlawful for the owner, driver or other person in charge or control of a motorbus to charge or receive any additional amount for the transportation of any hand baggage in charge of a passenger. (Prior code § 23-1-12)

12.84.100: ARTICLES LEFT IN BUS TO BE RETURNED:

It is unlawful for the driver or any other employee of a motorbus company, finding any article left in any motorbus, to fail, neglect or refuse to return such article left in such motorbus by any passenger thereof who offers satisfactory proof of ownership, or, if not claimed by such passenger, to deliver such article to the police station in this city within twenty four (24) hours after the finding of such article. (Prior code § 23-1-11)

12.84.110: UNLAWFUL TO REFUSE TO TRANSPORT PASSENGERS; EXCEPTIONS:

It is unlawful for any person driving or operating any motorbus to refuse to carry any person offering himself or herself to be carried, and tendering the fare for the same, to any place on the route of such motorbus or between the termini thereof, unless at the time such offer is made the permanent seats of the bus are fully occupied. If a request is made by any person along such route to be carried by the person operating such motorbus and there is unoccupied a permanent seat or seats provided therein which may be occupied, it shall be the duty of the person operating such motorbus to carry such passenger upon tender of the fare therefor; provided, however, that the person driving or operating such motorbus may refuse transportation to any person at the time demand is made to be carried who is in an intoxicated condition, or to any person who at such time may be conducting himself or herself in a manner likely to cause a breach of the peace. (Prior code § 23-1-13)

12.84.120: RUNNING PAST OTHER BUSES OR CARS:

It is unlawful for any motorbus operator to run past or within twenty five feet (25') of any other motorbus or street or interurban railway car for the purpose of reaching prospective passengers ahead of such other motorbus or car. (Prior code § 23-1-10)

12.84.130: STOPPING BUS IN TRAFFIC LINE:

While in the process of taking on or discharging passengers, the operator of a motorbus shall stop as near as practicable to the right hand edge of the roadway as set forth in section 12.52.140 of this title, or its successor. (Ord. 75-08 § 4, 2008: prior code § 23-1-4)

12.84.140: SOLICITING PASSENGERS BY UNUSUAL NOISE PROHIBITED:

It is unlawful to solicit passengers or attract attention to a motorbus by calling or by the use of a horn, bell, whistle or other loud noise. (Prior code § 23-1-5)

12.84.150: RIDING OUTSIDE OF BUS PROHIBITED:

It is unlawful for any person to stand, sit or lie upon any part of the motorbus on the outside thereof when the same is in motion. (Prior code § 23-1-7)

12.84.160: UNLAWFUL FOR BUS DRIVER TO SMOKE:

It is unlawful for any person operating a motorbus to smoke while passengers are occupying any of the seats in such bus. (Prior code § 23-1-14)

12.84.170: UNLAWFUL FOR DRIVER TO DRINK LIQUOR:

It is unlawful for any person while engaged in operating a motorbus to drink intoxicating liquors of any kind. (Prior code § 23-1-15)

CHAPTER 12.88
VEHICLE NOISE STANDARDS

12.88.010: DEFINITIONS:

For purposes of this chapter, the following definitions shall apply:

A SCALE LEVEL (dB(A) Or dBA): Is expressed in decibels and shall be the sound pressure level which is frequency weighted in accordance with an A-weighting network.

dB(A) LEVEL: The total sound level of all noise, as measured with a sound level meter using the A-weighting network. The unit is the decibel.

DECIBEL (dB): A logarithmic unit of amplitude which denotes the ratio of two (2) quantities.

SOUND LEVEL METER: An instrument including a microphone, an amplifier, an output meter and frequency weighting networks for the measure of noise and sound pressure levels in a specified manner.

SOUND PRESSURE LEVEL (SPL Or Lp): Is expressed in decibels and shall be twenty (20) times the logarithm to the base ten (10) of the ratio of the effective sound pressure to the reference sound pressure. The effective sound pressure shall be the root-mean-square of the instantaneous sound pressure. The reference pressure shall be twenty (20) microneutrons per meter squared. (Prior code title 46, art. 23 § 290)

12.88.020: MOTOR VEHICLE NOISE LIMITS:

A. It is unlawful for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved either a motor vehicle or combination of vehicles at any time in such a manner as to exceed the following noise limits for the category of motor vehicle shown in subsections A1 and A2 of this section. Noise shall be measured at a distance of twenty five feet (25') (7.5 m) from the near side of the nearest lane being monitored and at a height of at least four feet (4') (1.2 m).

1. Any motor vehicle with a manufacturer GVW rating of ten thousand (10,000) pounds or more or any combination of vehicle towed by such motor vehicles shall not emit a sound pressure level to exceed eighty eight (88) dB(A).

2. Any motor vehicle with a manufacturer GVW rating of ten thousand (10,000) pounds or less or any combination of motor vehicles towed by such motor vehicles shall not emit a sound pressure level to exceed eighty (80) dBA.

3. Subsections A1 and A2 of this section shall apply only to vehicles traveling on streets with a posted speed of forty (40) miles per hour or less.

B. This section applies to the total noise from a vehicle or combination of vehicles, and shall not be construed as limiting or precluding the enforcement of any other provisions of this title relating to motor vehicle mufflers for noise control.

C. No person shall sell or lease, or offer for sale or lease any motor vehicle of a type described above which exceeds the maximum decibel levels set forth above.

D. Any vehicle which is found not to be in conformity with this chapter and which is manufactured prior to January 1, 1974, may be exempted from the noise levels specified herein provided a good and sufficient showing can be made:

1. That it is mechanically impossible without major construction to modify such equipment so as to be in compliance; or

2. That to comply would cause irreparable harm or injury to the engine of said vehicle.

E. An exemption may be granted if the mayor, or his or her designated representative, shall be satisfied that a condition as provided above exists rendering compliance impossible, that the vehicle is equipped in all other respects so as to minimize to the maximum degree possible the objectionable noise, and that the noise thus emitted shall not be of such a nature as to necessitate its total prohibition.

F. This provision shall not apply to new equipment which, as manufactured, could have complied with the noise levels specified above, but which has been modified so as to no longer be in compliance. (Prior code title 46, art. 23 § 291)

12.88.030: MEASUREMENT OF SOUND LEVEL:

Sound level measurement shall be made with a sound level meter using the A-weighting scale in accordance with those standards promulgated by the Society of Automotive Engineers, the American National Standards Institute, or any other procedure adopted and tested by the city departments charged with enforcing this chapter. (Prior code title 46, art. 23 § 292)

12.88.040: ENFORCEMENT AND EVALUATION OF TESTING:

A. The Salt Lake City police department shall enforce the provisions of this chapter. Said department may be equipped with the appropriate equipment for measuring sound levels, as provided in section 12.88.030 of this chapter, or its successor, for purposes of enforcing this chapter, or may employ appropriate equipment provided by other agencies.

B. Where a motor vehicle is deemed to be in violation of this chapter, the owner may transport it to a central testing location for further evaluation. If such vehicle is reevaluated and found not to be in violation of the decibel standards outlined above, no further proceedings shall be instituted and any citation issued shall be dismissed. (Ord. 31-00 § 24, 2000: prior code title 46, art. 23 § 293)

CHAPTER 12.89
OTHER NOISE PROHIBITIONS

12.89.010: RADIOS, TELEVISION SETS, TAPE PLAYERS, COMPACT DISK PLAYERS, MUSICAL INSTRUMENTS AND SIMILAR DEVICES:

It is unlawful for any person to use, operate or permit the use or operation of any radio receiving set, musical instrument, television, phonograph, drum, or other machine or device for the production or reproduction of sound:

A. Between the hours of nine o'clock (9:00) P.M. and seven o'clock (7:00) A.M. in a way that is plainly audible at their property boundary or perimeter of the source; or

B. On public property or on a public right of way at any time so as to be plainly audible fifty feet (50') (15.25 m) from the device. Permits to exceed the limits of this section may be issued for special events on public property by the chief of police or the director of the Salt Lake Valley health department upon approval from the agency operating the public property. (Ord. 1-06 § 29, 2005: Ord. 31-00 § 25, 2000: Ord. 91-92 § 1, 1992: Ord. 68-92 § 1, 1992)

12.89.020: MEASUREMENT OF SOUND LEVEL:

Sound level measurement shall be made with a sound level meter using the A-weighting scale in accordance with those standards promulgated by the American National Standards Institute, or any other procedure adopted and tested by the city departments charged with enforcing this chapter. (Ord. 91-92 § 1, 1992: Ord. 68-92 § 1, 1992)

12.89.030: ENFORCEMENT AND EVALUATION OF TESTING:

Any violation of this chapter shall constitute disturbing the peace. The police department shall enforce the provisions of this chapter. (Ord. 31-00 § 25, 2000: Ord. 91-92 § 1, 1992: Ord. 68-92 § 1, 1992)

CHAPTER 12.92
VEHICLE WEIGHT AND TIRE RESTRICTIONS

12.92.010: WEIGHT TO BE MARKED ON VEHICLES:

Every wagon or wheeled vehicle required to have tires of width as provided by this chapter shall have fixed on both sides of such wagon or wheeled vehicle, in some conspicuous place, in plain letters and figures, the weight, in pounds, of such wagon or wheeled vehicle, and also the weight capacity, in pounds, of the same. (Prior code § 41-4-5)

12.92.020: TIRE SIZE AND DIMENSION SPECIFICATIONS:

A. It is unlawful for any person to transport, haul, drive, propel or convey, or cause to be transported, hauled, driven, propelled or conveyed, any load, weight or burden over or through any of the public streets, avenues or alleys of the city, on any wagon or other four (4) wheeled vehicle not having tires which are known as flat or straight faced, and which tires are of less than the following widths for the following loads or burdens, in pounds weight, the weight of the vehicle not included:

1. Two inches (2") for over two thousand (2,000) pounds and not exceeding three thousand (3,000) pounds;

2. Two and one-half inches ($2\frac{1}{2}$") for over three thousand (3,000) pounds and not exceeding four thousand (4,000) pounds;

3. Three inches (3") for over four thousand (4,000) pounds and not exceeding five thousand five hundred (5,500) pounds;

4. Three and one-half inches ($3\frac{1}{2}$") for over five thousand five hundred (5,500) pounds and not exceeding seven thousand (7,000) pounds;

5. Four inches (4") for over seven thousand (7,000) pounds and not exceeding eight thousand (8,000) pounds;

6. Four and one-half inches ($4\frac{1}{2}$") for over eight thousand (8,000) pounds and not exceeding ten thousand (10,000) pounds;

7. Five inches (5") for over ten thousand (10,000) pounds and not exceeding twelve thousand (12,000) pounds;

8. Six inches (6") for over twelve thousand (12,000) pounds and not exceeding fifteen thousand (15,000) pounds;

9. Eight inches (8") for over fifteen thousand (15,000) pounds and not exceeding thirty thousand (30,000) pounds;

10. For greater weights, a permit to be issued on application to the mayor.

B. For any load or burden exceeding fifty thousand (50,000) pounds, planks of two inches (2") in thickness must be placed, and eight (8) wheels with tires of ten inches (10") in width must be used in conveying the same. (Prior code § 41-4-1)

12.92.030: WEIGHT DISTRIBUTION:

All loads or burdens must be so distributed that the weight on each wheel shall be equal, or as nearly so as possible. (Prior code § 41-4-2)

12.92.040: TWO WHEELED VEHICLES; TIRE REQUIREMENTS:

A. On all two (2) wheeled wagons or other two (2) wheeled vehicles used for like purposes, the widths of the tires shall be double the width of the tires for the same load or burden as herein required for four (4) wheeled wagons or other four (4) wheeled vehicles.

B. No load of greater weight than four thousand (4,000) pounds (weight of vehicle included) shall be drawn over the city's streets on two (2) wheeled vehicles. (Prior code § 41-4-3)

12.92.050: EXCEPTION FOR RUBBER TIRE VEHICLES:

This chapter shall not be construed as applying to wagons or wheeled vehicles with rubber tires. (Prior code § 41-4-4)

12.92.060: LOAD LIMITS ON CERTAIN BRIDGE:

It is unlawful for any person to transport any load, including the vehicle or other means of conveyance used in transporting such load, in excess of three thousand (3,000) pounds over or across that certain bridge which spans the Salt Lake City sewer canal located at approximately 17th North and 11th West Streets. (Prior code § 41-4-7)

12.92.070: FURNITURE VANS PROHIBITED ON CERTAIN STREETS:

It is unlawful for the owner, driver or other person having charge of any furniture van, moving van or other covered wagon, to cause or permit the same to remain or to stand upon any of the following named streets in the city, unless the said van or wagon is engaged at the time in receiving or delivering freight or goods:

A. Main, West Temple and State Streets, from South Temple Street to Fourth South Street;

B. South Temple, First South, Second South and Third South Streets from First West Street to Second East Street;

C. Fourth South Street from West Temple to Second East Street;

D. Regent Street, Richards Street and Post Office Place, Exchange Place, Cactus Street, Pierpont Avenue or Edison Street. (Prior code § 41-4-6)

CHAPTER 12.96
IMPOUNDMENT OF VEHICLES

12.96.010: NUISANCE VEHICLES DESIGNATED; ABATEMENT:

A. Nuisance Vehicle Criteria: Pursuant to section 10-8-60, Utah Code Annotated, 1953, or its successor, the city council finds that the disregard for the authorized use of streets within the city poses a danger to the safe movement of traffic within the city, and declares the same to be a nuisance. Vehicles which meet the following criteria are hereby declared to be nuisances:

1. Any vehicle found upon the streets, alleys or public property of the city with faulty or defective equipment or which does not have, in good working condition, all safety items required by state law;

2. Any vehicle left unattended upon any street, alley, bridge, viaduct, or at any location where such vehicle constitutes an obstruction or hazard to the safe movement of traffic;

3. Any vehicle upon a street or other publicly owned property, so disabled as to constitute an obstruction to traffic and the person or persons in charge of the vehicle are by reason of physical injury incapacitated to such an extent as to be unable to provide for its custody or removal;

4. Any vehicle, the driver of which has been taken into custody by the police department, under such circumstances as would leave such vehicle unattended on a street, alley, restricted parking areas or other publicly owned property;

5. Any vehicle found parked in such a manner to constitute a fire hazard or an obstruction to firefighting apparatus, including marked hydrants;

6. Any vehicle stopped, standing or parked in violation of any provisions of the traffic code set out in this title, or of the laws of the state of Utah;

7. Any vehicle parked upon a public street for more than forty eight (48) hours without being moved during that period of time.

B. Unauthorized Use Of Streets; Two Or More Notices (Parking Tickets); Nuisance: Any person receiving two (2) or more notices of unauthorized use of streets (parking tickets) within the city, pursuant to chapter 12.56 of this title, which notices are thirty (30) days old or older and have not been dismissed pursuant to subsection 12.56.570E of this title, or its successor subsection, or dismissed or reduced to judgment by a court of competent jurisdiction, shall be guilty of creating a nuisance.

C. Violation; Misdemeanor: Violation of this chapter shall be a misdemeanor.

D. Nuisance Abatement: Any vehicle declared to be a nuisance by the provisions of this chapter may be summarily abated by removing any such vehicle by or under the direction of, or at the request of a police officer or parking enforcement officer to a place of storage within the city by means of towing or otherwise.

E. Remedy Of Impoundment Not Exclusive: The impounding of a vehicle shall not prevent or preclude the institution and the prosecution of criminal proceedings in the district courts or elsewhere against the owner or operator of such impounded vehicle nor shall the impoundment and ultimate sale at auction prevent the collection of outstanding fees, fines, or other penalties due from parking notices involving such vehicle.

F. Defined: "Impoundment" means the immobilization of a vehicle by use of an immobilization device or the towing of a vehicle to a place of storage. (Ord. 47-10, 2010)

12.96.020: VEHICLES WITH OUTSTANDING PARKING TICKETS:

A. Two Or More Notices Of Unauthorized Use Of Streets (Parking Tickets): Any vehicle that has two (2) or more notices of "unauthorized use of streets" within the city, as defined at section 12.56.550 of this title, which notices are forty (40) days old or older and have not been dismissed pursuant to subsection 12.56.570E of this title, or dismissed or reduced to judgment by a court of competent jurisdiction, shall be subject to immediate impoundment by towing or by means of an immobilizing device.

B. Immobilized Vehicles; Appeal: For vehicles that have been immobilized under this section, the city shall collect the fees stated in section 12.96.025 of this chapter and all outstanding fees, fines and penalties associated with the parking citations that caused the vehicle to be immobilized. Upon payment in full the city shall release the immobilization device. This service shall be available by telephone. The vehicle owner may appeal the immobilization after obtaining release of the vehicle by submitting to the city within five (5) business days a written request for a hearing under section 12.96.090 of this chapter.

C. Delay Of Obtaining Vehicle Immobilization Release: If the vehicle has been immobilized for a period of twenty four (24) hours without arrangements being made for its release, it may be immediately impounded and towed and removed to a place of storage within the city by means of towing or otherwise. In such event, the vehicle owner shall pay towing and on street booting release fees as provided under section 12.96.025 of this chapter. (Ord. 43-13, 2013)

12.96.025: IMMOBILIZATION DEVICE; TOWING, IMPOUND, STORAGE, AND BOOTING FEES; FEE FOR REMOVAL OF ITEMS FROM VEHICLES:

There are imposed for the towing, impound, storage, and booting of vehicles under this chapter fees as shown on the Salt Lake City consolidated fee schedule.

A. Damage To Or Failure To Return Immobilization Device: The owner of a vehicle immobilized under this chapter shall be strictly liable for: 1) the cost of repair or replacement of an immobilization device damaged or destroyed by attempts to wrongfully remove or tamper with the device, 2) any damage to the vehicle caused by an attempt to drive while the immobilization device is in place, and 3) the cost of a replacement immobilization device that is wrongfully removed and not returned to the city.

B. Removal Of Items From Vehicles: Effective July 1, 2013, any person who enters an impound lot or storage area of the city for the purpose of removing personal property from a vehicle in the impound lot or storage area shall pay to the city a fee for each period of up to thirty (30) minutes that the person is within the impound lot or storage area. The fee shall be in an amount shown on the Salt Lake City consolidated fee schedule. The city shall not charge that fee to a person who is within the impound lot or storage area for the sole purpose of removing from a vehicle personal healthcare items or personal identification issued by a governmental entity. (Ord. 43-13, 2013)

12.96.030: IMPOUNDMENT; INFORMATION TO POLICE DEPARTMENT:

Upon calling for the impoundment of any vehicle under the provisions of this chapter, the impounding officer shall notify the police department of the make, model, vehicle identification number, and license number of the vehicle being impounded and the date, time and location of the vehicle at the time of impoundment. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(1), 46-26-317(1))

12.96.040: PRELIMINARY NOTICE TO OWNER:

Written notice that the vehicle has been impounded shall be sent by certified mail to the owner of record, and any recorded lienholder of the vehicle, as shown by the records of the motor vehicle division of the Utah state tax commission at the last known address as shown on said department's records, within five (5) days, excluding weekends and holidays, of the impoundment of the vehicle. If the registration on the vehicle is from another state, a notice shall be transmitted to the department of motor vehicles in such state, requesting such department to furnish the city with the name and address of the last known registered owner and any lienholder of record. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(2), 46-26-317(2))

12.96.050: NOTICE TO OWNER; CONTENTS:

The notice described in section 12.96.040 of this chapter, or its successor, shall inform the owner of the vehicle:

A. That the vehicle has been impounded, the location of the vehicle, that impound and storage fees have been assessed and are accruing on a daily basis, and how the vehicle may be claimed;

B. Of the owner's right to an administrative hearing to determine whether there was probable cause to impound the vehicle upon filing a written request with the office of the treasurer for such a hearing within ten (10) business days after the owner has learned of the impound of such vehicle, or within ten (10) business days after mailing of the date set in the notice, whichever occurs first;

C. That the vehicle shall be sold at public auction, as provided by the ordinances of the city, if the vehicle is not claimed by the owner or the lienholder of record prior to such auction. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(3), 46-26-317(3))

12.96.060: VEHICLE SOLD AT AUCTION WHEN; NOTICE OF AUCTION:

A. If at the expiration of fifteen (15) days after mailing written notice provided for herein such vehicle is not redeemed by the owner or owner's agent, the director of public services or her or his designee shall proceed to sell the same at public auction, provided that notice of the auction is published not less than seven (7) days prior to such auction in a newspaper distributed in Salt Lake County.

B. The notice shall state:

1. The time and place of such auction;

2. Describe the vehicle to be sold with reasonable certainty;

3. The name (if any) shown as owner on the records of the vehicle division of the state tax commission. If the name of the owner is unknown, such fact shall be stated.

C. In addition, a copy of this notice, as published, shall be delivered to the owner of the place of storage.

D. The director of public services or her or his designee may accept or reject all bids for such vehicle but, upon acceptance, the vehicle must be sold to the highest bidder. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(4), 46-26-317(4))

12.96.070: DISPOSITION OF SALE PROCEEDS:

A. The money received from the sale of any such vehicle shall be applied first to all outstanding fees assessed to said vehicle under section 12.96.025 of this chapter or its successor, then to pay the actual costs of advertising the notice of sale and of auctioning the vehicle, and the balance, if any, shall then be paid into the city treasury.

B. At any time within one year from and after such sale, the former owner of the vehicle sold, or recorded lienholder, upon application to the mayor and upon presentation of satisfactory proof that he or she was the owner or lienholder of record of the vehicle sold, shall be paid the proceeds of such sale less the necessary expenses incurred as identified above. The check shall be made payable jointly to the owner and any recorded lienholder. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(5), 46-26-317(5))

12.96.080: RECORDS OF IMPOUNDMENT:

The police department or the department charged with enforcement of parking laws shall keep a record for three (3) years from date of sale of all vehicles impounded, by manufacturer's name or make, body type, identification number and license number. It shall also keep records of the names and addresses of all persons claiming the same, together with such other descriptive matter as may identify such vehicles, the nature and circumstances of the impounding thereof, the violation for which such vehicles were impounded, the date of such impounding, and the name and address of any person to whom any such vehicle was released. (Ord. 89-99 § 3, 1999: Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.b(6), 46-25-317(6))

12.96.090: HEARINGS CONCERNING IMPOUNDMENT AND IMMOBILIZATION:

A. A hearing requested pursuant to this chapter shall be conducted before a hearing examiner designated by the city within forty eight (48) hours of receipt of a written demand for such hearing, Saturdays, Sundays and city holidays excepted, unless such person waives the right to a speedy hearing.

B. The hearing proceedings shall be conducted in an informal manner and shall not be bound by the formal rules of evidence or procedure. The vehicle owner or the owner's agent shall be accorded the essential elements of due process of law, including notice, and an opportunity to be heard and defend the owner's position.

C. The hearing examiner shall determine whether the city had probable cause, pursuant to city, state and federal laws, to impound or immobilize the vehicle in question.

D. The hearing examiner shall determine whether, in appropriate cases, fees and charges should be reduced in the interest of justice. In the event that the hearing examiner determines that the vehicle should be released without fees or with a reduction in fees, the hearing examiner shall prepare and date a written waiver of such fees. Copies of the waiver shall be furnished to the vehicle owner or owner's agent and the police department. The vehicle shall then be released to the owner or the owner's agent, in accordance with the terms of said waiver, or a voucher shall be authorized to reimburse the owner or owner's agent for fees paid to recover the vehicle from impound or immobilization. If the hearing examiner determines that the impound or immobilization was justified pursuant to city and state law, the owner or agent shall be responsible for the impound and storage or immobilization fees accrued and accruing on the vehicle.

E. At the conclusion of the hearing, the hearing examiner shall prepare a written decision and a copy of such decision shall be provided to the person requesting the hearing. The decision of the hearing examiner shall be final. Failure of the registered or legal owner, or the owner's agent, to request or attend such a scheduled postseizure or postimmobilization hearing shall be deemed a waiver of the right to such hearing. (Ord. 43-13, 2013)

12.96.100: IMPOUNDMENT; IMPROPERLY REGISTERED, STOLEN OR OTHER VEHICLES:

The police department or public services department shall immediately impound, in a proper place of storage in the city, all vehicles found within the city that are improperly registered, stolen, or bear defaced vehicle identification numbers. Thereafter, the police department shall, within forty eight (48) hours, notify in writing the motor vehicle division of the Utah state tax commission of such impoundment, including the date found, the address where found, the vehicle make, vehicle identification number, registration number, and the date and place of storage. (Ord. 43-98 § 4, 1998: Ord. 70-82 § 1, 1982: prior code § 46-20-284.e)

12.96.110: IMPOUNDMENT; ABANDONED AND INOPERABLE VEHICLES:

A vehicle which has been determined to be an abandoned and an inoperable vehicle, as provided by the provisions of section 41-1-79.5, Utah Code Annotated, 1953, or any successor statute, is declared to be a nuisance and may be summarily abated by removing the same under the direction or at the request of a police officer or parking enforcement officer of the city to a scheduled place of disposal within the city by means of towing or otherwise. Any such vehicle may be converted into scrap or otherwise disposed of. (Ord. 43-98 § 4, 1998: Ord. 70-82 § 1, 1982: prior code § 46-20-284.f)

12.96.120: RELEASE OF IMPOUNDED VEHICLES:

Before the owner, or the owner's agent or the lienholder of record shall be permitted to remove a vehicle which has been impounded, the owner shall:

A. Furnish satisfactory evidence to the police department of his/her identity and his/her ownership or interest in said vehicle;

B. 1. Request and obtain from the police department or the hearing officer, a written order of release directed to the place of vehicle storage, or to the parking enforcement office if the vehicle has been immobilized. Said order of release shall be issued to the owner or owner's agent or to the lienholder of record, upon:

a. The payment of the towing fee, costs of the immobilizing device, storage fees, and any other costs reasonably incurred from the date of such impounding or immobilization to the time of obtaining the order of release, or

b. Obtaining a waiver of fees after successfully petitioning the city to release the vehicle, without requirement of payment of impound, immobilizing or other costs and fees, or a reduction in said fees and costs, as provided in section 12.96.090 of this chapter, or its successor;

2. In the event a vehicle is not retrieved from the place of storage within twenty four (24) hours after a vehicle release has been issued, or within twenty four (24) hours of having been issued a waiver of fees by a hearing examiner, the owner shall be liable for all subsequent storage fees;

C. Sign a written receipt of said vehicle and deliver the same to the place of storage upon receiving the impounded vehicle. (Ord. 43-98 § 4, 1998: Ord. 56-86 § 3, 1986: Ord. 70-82 § 1, 1982: prior code §§ 46-20-284.d, 46-26-319)

CHAPTER 12.100
RAILROADS

12.100.010: GRADE CROSSINGS; AUTOMATIC SIGNAL DEVICES REQUIRED WHERE:

The Denver and Rio Grande Western Railroad Company is required to construct at its own expense and to maintain in continuous operation automatic mechanical warning devices for the purpose of warning pedestrians, drivers of vehicles and others crossing its tracks of the approach of its engines and cars:

A. At Second South Street between Fifth West Street and Sixth West Street, where its tracks cross Second South Street;

B. At Sixth South and Fifth West Streets, where its tracks cross Sixth South Street; and

C. At Eighth South Street and Fifth West Street, where its tracks cross Eighth South Street. (Prior code § 35-2-6)

12.100.020: AUTOMATIC SIGNAL DEVICES; TYPES AND SPECIFICATIONS:

A. The automatic mechanical warning devices at Second South Street and Fifth West Street and at Eighth South Street and Fifth West Street shall consist of cantilever style railroad crossing signals which extend an arm with a flashing light overhead on either side of the roadway into the intersection when rail traffic is approaching the crossing.

B. The automatic mechanical warning devices at the crossing at Sixth South Street and Fifth West Street shall consist of automatic flashing light signals to be located on both sides of the roadway adjacent to the railroad tracks of the said railroad company.

C. The signals at each of such crossings shall be so constructed as to be automatically actuated by engines and cars on the tracks of the railroad company, and shall be located and adjusted so as to adequately and safely provide warning of the approach of all rail traffic at such crossings. (Prior code § 35-2-7)

12.100.030: CITY RIGHTS RESERVED:

The rights of regulating the kind of power to be used in the city in propelling cars on and along railroads, and the speed of the same, together with the price of the license or tax to be paid therefor, shall not, by virtue of any grant or contract, be construed to mean that such right passes to the grantee; but such rights, together with all other powers vested in the mayor or city council for the regulating, controlling or removing of railroads within the city are expressly retained and reserved. (Prior code § 35-2-8)

12.100.040: SPEED LIMITS; ESTABLISHED:

It is unlawful for any person to run any locomotive, engine, train or cars operated on rails at a speed greater than twenty five (25) miles per hour in the city, south of 600 North Street, except in the following areas:

A. Between North Temple Street and 300 South Street from 400 West Street to 1100 West Street, in which it is unlawful for any person to run any locomotive, engine, train or cars operated on rails at a speed greater than thirty five (35) miles per hour;

B. Between North Temple Street and 700 South Street from 1100 West Street to the western limits of Salt Lake City, in which it is unlawful for any person to run any locomotive, engine, train or cars operated on rails at a speed greater than fifty (50) miles per hour. (Prior code § 35-2-2)

12.100.050: SPEED LIMITS; RESTRICTIONS:

It is unlawful for any person to run any locomotive, engine, train or cars operated on rails at a speed greater than is reasonable and prudent under the circumstances and time existing. (Prior code § 35-2-1)

12.100.060: BELL TO BE RUNG[1]:

It is unlawful for any person or persons employed on a locomotive to fail to ring the bell continuously on such locomotive while in motion in the inhabited portions of the city. (Prior code § 35-2-3)

12.100.070: TRAINS CROSSING OTHER RAILROAD TRACKS:

All locomotives, cars and trains are required to come to a full stop before crossing any other line of railroad, and at a distance of not less than forty feet (40') therefrom; and when two (2) trains arrive at the same crossing simultaneously, the train on the first constructed track shall have precedence in crossing. (Prior code § 35-2-4)

12.100.080: VEHICLES PASSING RAILROAD TRAINS:

The driver of a vehicle shall not overtake and pass upon the left any railroad train proceeding in the same direction, whether actually in motion or temporarily at rest. This provision shall not apply on one-way streets where the tracks are so located as to prevent compliance with the rule or where a police officer may direct otherwise. (Prior code title 46, art. 16 § 260)

12.100.090: DRIVING VEHICLES OVER RAILROAD TRACKS:

A. No driver of any vehicle proceeding upon any track in front of a railroad train upon a street shall fail to remove such vehicle from the track as soon as practicable after signal from the operator of such train.

B. When a railroad train has started to cross an intersection, no driver of a vehicle shall drive upon or across the tracks or in the path of such train within the intersection in front of such train. (Prior code title 46, art. 16 § 262)

12.100.100: TRAINS NOT TO OBSTRUCT STREETS OR SIDEWALKS:

It is unlawful for any person to permit any train, engine or cars to stand in or upon any street or sidewalk or crossing so as to obstruct the ordinary travel thereon, or to operate switch engines or cars so as to obstruct the free passage over or the ordinary use of the streets. (Prior code § 35-2-5)

12.100.110: OBSTRUCTING STREETS FOR LONGER THAN FIVE MINUTES:

No railroad company, railroad engineer, railroad conductor, or any other person operating or in control of the movement of any railroad train or locomotive shall cause or permit any locomotive, railroad car, train of railroad cars or any portion thereof to obstruct any intersection between a railroad and public street so as to prevent any person or vehicle from crossing the railroad tracks at such intersection for a period longer than five (5) minutes, except in cases of unavoidable emergencies or impossibility due to the length of such train while moving at a reasonable speed, in which cases notice shall be given at each such crossing by the engineer, conductor or other employee of the railroad company of such delay by means of a handheld sign clearly visible to the waiting motorists or pedestrians that such locomotive, railroad car, train or portion thereof will be delayed for more than five (5) minutes at such crossings. (Prior code title 46, art. 16 § 263)

CHAPTER 12.104
SCHEDULES

12.104.010: SCHEDULE 1, CENTRAL TRAFFIC DISTRICT[1]:

All that area bounded by the following described lines:

Commencing at the northwest corner of the intersection of North Temple Street and 4th West Street, thence along the west curbline of 4th West Street to the southwest corner of the intersection of 4th West and 5th South Street, thence east along the north curbline of 5th South Street to the northeast corner of the intersection of 2nd East Street and 5th South Street, thence north along the east curbline of 2nd East Street to the northeast corner of the intersection of 2nd East Street and South Temple Street, thence west along the north curbline of South Temple Street to the northeast corner of the intersection of State Street and South Temple Street, thence north along the east curbline of State Street to the northeast corner of the intersection of State Street and North Temple Street, thence west along the north curbline of North Temple Street to the place of beginning.
(Ord. 70-85 § 1, 1985: prior code title 46, schedule 1)

12.104.020: SCHEDULE 1.5, SUGAR HOUSE TRAFFIC DISTRICT[2]:

1100 East/Highland Drive from Hollywood Avenue to Sugarmont Drive.

2100 South from 800 East to 1300 East. (Ord. 89-98 § 3, 1998)

12.104.030: SCHEDULE 2, QUIET ZONES[3]:

C Street from 13th Avenue to 14th Avenue.

C Street from 8th Avenue to 9th Avenue.

D Street from 8th Avenue to 9th Avenue.

Fairfax Road from Virginia Street to Alta Street.

Virginia Street from Fairfax Road to Wasatch Drive.

100 South Street from 1000 East Street to 1100 East Street.

1000 East Street from 100 South Street to South Temple Street.

1100 East Street from 100 South Street to South Temple Street.

1300 East Street from 700 South Street to 800 South Street.

8th Avenue from B Street to D Street.

9th Avenue from B Street to D Street.

13th Avenue from B Street to C Street. (Prior code title 46, schedule 12)

12.104.040: SCHEDULE 3, RESTRICTED VEHICLE AND TRUCK ROUTES[4]:

When appropriate signs have been erected, according to the section designating restricted vehicle and truck routes, it is unlawful for such vehicles to use routes other than those designated below, except for reasons and purposes specified in subsections 12.28.140A, B, C, D and E of this title.

All state highways within the city.

200 South Street from 300 West Street to Redwood Road.

400 West Street from 1000 North Street to North Temple Street.

600 North Street from 300 West Street to 900 West Street.

700 East Street from 400 South Street to South Temple Street.

700 West Street from 900 South Street to 1700 South Street.

900 South Street from 300 West Street to State Street.

900 South Street from 300 West Street to 700 West Street.

900 West Street from North Temple Street to 1000 North Street, then via the state connecting route (freeway) to U.S. 91 at Beck's Hot Springs.

900 West Street from 1700 South Street to 2100 South Street.

1300 East Street from 500 South Street to South Temple Street.

1300 South Street from 300 West Street to 700 West Street.

2100 South Street from State Street via Parley's Way to Parley's Interchange.

Beck Street from north city limits via 300 West Street to south city limits.

Main Street from 200 North Street to North Temple Street.

North Temple Street from 300 West Street to west city limits.

Redwood Road from north city limits to south city limits.

State Street from 900 South Street to 2100 South Street. (Prior code title 46, schedule 13-a)

12.104.050: SCHEDULE 4, HAZARDOUS CARGO ROUTES[5]:

400 West Street from the American Oil Refining Co. on 1000 North Street to North Temple Street.

600 North Street from 300 West Street to 900 West Street.

900 North Street from 400 West Street to Beck Street.

900 West Street from North Temple Street to 1000 North Street, then via state connecting route (freeway) to U.S. 91 at Beck's Hot Springs.

Beck Street from the north city limits to 300 West Street, thence along 300 West Street to the south city limits.

Redwood Road from the north city limits to the south city limits.

Vehicles from the east may not enter the city until reaching 2100 South Street and 300 West Street. (Prior code title 46, schedule 13-b)

12.104.060: SCHEDULE 5, NO CRUISING ZONES[6]:

300 North to 2100 South, 400 East to 400 West.

Main Street from North Temple to 21st South.

West Temple from North Temple to 21st South.

State Street from North Temple to 21st South.

21st South from 17th East to 300 West. (Ord. 40-99, 1999)

Title 13 - RESERVED

Title 14 - STREETS, SIDEWALKS AND PUBLIC PLACES

CHAPTER 14.06
ACCOMMODATION OF BICYCLISTS AND PEDESTRIANS AT ALL CITY OWNED TRANSPORTATION FACILITIES IN THE PUBLIC RIGHT OF WAY

14.06.010: PURPOSE:

The benefits of bicycling and walking span across many aspects of our daily lives. The social and environmental benefits include healthier citizens and the improved health of our community through a substantial reduction in air pollution. A transportation system that encourages bicycling and walking can also save money, reduce traffic congestion, build community, and improve the overall quality of life. Therefore, the city supports the concept of complete streets, requiring the accommodation of pedestrians and bicyclists throughout the planning process.

All city owned transportation facilities in the public right of way on which bicyclists and pedestrians are permitted by law, including, but not limited to, streets, bridges, and all other connecting pathways, shall be designed, constructed, operated, and maintained so that users, including people with disabilities, can travel safely and independently. (Ord. 4-10 § 1, 2010)

14.06.020: GENERAL PROVISIONS AND EXEMPTIONS:

A. Bicycle and pedestrian ways shall be established in the city's new construction and reconstruction projects in the public right of way, subject to budget limitations, unless one or more of the following three (3) exemption conditions is met:

1. Bicyclists and pedestrians are prohibited by law from using the street or city owned transportation facility. In this instance, a greater effort may be necessary to accommodate bicyclists and pedestrians elsewhere within the right of way or within the same transportation corridor.

2. The cost of establishing bikeways or walkways would be excessively disproportionate to the need or probable use. A complete streets committee, consisting of the transportation director, planning director, city engineer, and airport director (if applicable), will determine whether the cost of establishing bikeways or walkways is excessively disproportionate on a project by project basis.

3. Scarcity of population or other factors indicate an absence of need, with consideration given to future population growth.

B. The design and development of the transportation infrastructure shall improve conditions for bicycling and walking through the following additional steps:

1. Planning projects for the long term. Transportation facilities are long term investments that remain in place for many years. The design and construction of new facilities that meet the criteria in the above stated exemption conditions should anticipate likely future demand for bicycling and walking facilities and not preclude the provision of future improvements. For example, a bridge that is likely to remain in place for fifty (50) years might be built with sufficient width for safe bicycle and pedestrian use in anticipation that facilities will be available at either end of the bridge even if that is not currently the case.

2. Addressing the need for bicyclists and pedestrians to cross corridors as well as travel along them. Even where bicyclists and pedestrians may not commonly use a particular travel corridor that is being improved or constructed, they will likely need to be able to cross that corridor safely and conveniently. Therefore, the design of the intersections and interchanges shall accommodate bicyclists and pedestrians in a manner that is safe, accessible and convenient.

3. Exemptions. Exemptions regarding the installation of bikeways and walkways shall be approved by the aforementioned complete streets committee and be documented with supporting data that indicates the basis for the decision.

4. Designing facilities to the best currently available standards and guidelines. The design of facilities for bicyclists and pedestrians should follow design guidelines and standards that are commonly used, such as the AASHTO "Guide For The Development Of Bicycle Facilities", AASHTO's "A Policy On Geometric Design Of Highways And Streets", the Institute of Transportation Engineers recommended practice "Design And Safety Of Pedestrian Facilities", and the U.S. department of transportation sponsored "Designing Sidewalks And Trails For Access Part II: Best Practices Design Guide". (Ord. 4-10 § 1, 2010)

14.06.030: CREATION OF COMPLETE STREETS COMMITTEE:

The complete streets committee, consisting of the transportation director, planning director, city engineer, and airport director (if applicable), is hereby established to determine whether the cost of establishing bikeways or walkways is excessively disproportionate on a project by project basis under this chapter. (Ord. 4-10 § 1, 2010)

CHAPTER 14.08
STREET AND BUILDING NUMBERING SYSTEM

14.08.010: STREET NAMES DESIGNATED ON OFFICIAL MAP:

All streets of the city shall be known by the names by which they are so designated on the official map of Salt Lake City, filed in the office of the public works director on December 3, 1920, and such additions, changes and corrections of the names of streets as shall from time to time be placed on said official map by ordinance. (Prior code § 41-6-1)

14.08.015: STREET NAME CHANGE FEES:

A nonrefundable fee as shown on the Salt Lake City consolidated fee schedule shall be paid by any person requesting consideration by the city of a change of the name of any city street. Said fee shall not be payable where such street name change is determined by the city to be necessary in order to eliminate duplication of names or to avoid other confusion which would have a negative impact upon the providing of emergency services if such street remains unchanged. (Ord. 24-11, 2011)

14.08.020: BUILDING NUMBERING SYSTEM:

It shall be the duty of the city engineer, in numbering the houses or buildings upon the streets of the city, to adopt a numbering system in accordance with the Salt Lake County addressing system, allowing one number every 8.25 feet. The initial point shall be the junction of Main Street and South Temple, and the numbering shall extend east, west, north and south with even numbers always on the right, and odd numbers always on the left, looking away from the initial point. In numbering such streets which do not strictly run in a compass direction, the city engineer shall attempt to make such numbering as consistent as possible with the scheme expressed above. (Ord. 88-86 § 63, 1986: prior code § 41-6-2)

14.08.030: HOUSE NUMBERS; ISSUANCE; USE REQUIRED:

It is unlawful for any person to erect a house or building within the limits of the city without numbering such house or building with the number designated by the public works director, or for the occupant of any house or building, or for the owner or agent of any unoccupied habitable house or building, to fail for a longer period than ten (10) days after notice from the public works director so to do, to number such a house or building with the number designated by the public works director. (Prior code § 41-6-6)

14.08.040: HOUSE NUMBERS; CERTIFICATE AND FEE:

Upon application being made to the public works director, he/she shall issue a certificate giving the correct street number for such house or building, for which he/she shall charge and receive the fee shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

14.08.050: HOUSE NUMBERS; DISPLAY SPECIFICATIONS:

When such number has been designated by the public works director, the owner or occupant of such house or building shall cause a painted, carved or cast duplicate of such number at least three inches (3") in height and of a shade in contrast to the background upon which the number is mounted to be placed in a conspicuous position upon the front of such house or building, in a permanent, stationary and durable manner, unobstructed at all times by vines, screens or anything that would tend to hide or obscure the number, and so that the number will be clearly perceptible from a distance of one hundred fifty feet (150'). (Prior code § 41-6-7)

14.08.060: HOUSE NUMBERS; USING DIFFERENT SYSTEM PROHIBITED:

It is unlawful for any person to number any house or building in any manner other than that prescribed in this chapter, and it is unlawful for any block or row of houses to be hereafter designated by a distinct numbering of the houses situated therein, and it shall be the duty of the owners of all such blocks or rows of houses now numbered in any manner other than described in this chapter to immediately cause such numbers to conform to the provisions of this chapter. (Prior code § 41-6-9)

CHAPTER 14.10
MONUMENTS

14.10.010: PROHIBITION AGAINST COVERING MONUMENTS:

It is unlawful for any person to damage, remove or cover with any hard surfacing such as asphalt, concrete or metal any public survey monument or section corner, including the metal ring and cover, except as permitted by this chapter. (Ord. 10-95 § 2, 1995)

14.10.020: PUBLIC SURVEY MONUMENT DEFINED:

"Public survey monument" means and includes any survey monument, bench mark or section corner, including metal ring and cover, owned by Salt Lake City, Salt Lake County, the state of Utah, the United States or any department, division or agency of any such governmental entity whether located on privately owned or publicly owned land. (Ord. 10-95 § 2, 1995)

14.10.030: PERMIT APPLICATION:

Prior to distributing, damaging, removing, moving or covering any public survey monument a person shall apply for a permit on a form provided by the Salt Lake City engineer's office. (Ord. 10-95 § 2, 1995)

14.10.040: PERMIT FEE:

The applicant for a public survey monument permit shall pay with the application the fee shown on the Salt Lake City consolidated fee schedule for the first monument per application and the fee shown on the Salt Lake City consolidated fee schedule for every additional monument on the same application. (Ord. 24-11, 2011)

14.10.050: OTHER GOVERNMENTAL ENTITY CONCURRENCE:

The city shall not issue a public survey monument permit for work on a public survey monument owned by another governmental entity until the applicant has provided the city with documentation of the other governmental entity's approval. (Ord. 10-95 § 2, 1995)

14.10.060: PERMIT WORK REQUIREMENTS:

Work under a public survey monument permit shall be performed only under the supervision of a licensed land surveyor in accordance with any specifications, requirements and conditions imposed by the Salt Lake City engineer's office and any other entity whose approval is required. (Ord. 10-95 § 2, 1995)

14.10.070: PENALTY FOR WORK WITHOUT PERMIT:

A person who disturbs, damages, moves, removes or covers a public monument without a permit as required by this chapter, in addition to any other penalty, shall be required to pay double the permit fee required by section 14.10.040 of this chapter or its successor. (Ord. 10-95 § 2, 1995)

14.10.080: CITY RESTORATION, REPLACEMENT, REPAIR OR UNCOVERING:

The city may restore, repair, raise, replace or uncover any public survey monument owned by the city which is disturbed, damaged, moved, removed or covered in violation of this chapter. The cost of such restoration, repair, raising, replacement or uncovering, including any necessary resurveying, shall be paid by the person who disturbed, damaged, moved, removed or covered the public survey monument, or by the person for whom such actions were performed. (Ord. 10-95 § 2, 1995)

14.10.090: ITEMIZED STATEMENT OF EXPENSES:

The city shall prepare an itemized statement of all expenses incurred in the restoration, repair, raising, replacement or uncovering, including any necessary resurveying, of any public survey monument which the city is required to restore, repair, raise, replace or uncover. The statement shall be mailed or delivered to the person who caused the city to take such action or to the person for whom the work was performed. The statement shall include the cost of all city personnel. Minimum costs for the following services shall be as shown on the Salt Lake City consolidated fee schedule:

A. Replacing a monument by survey. (This occurs when a monument is destroyed and must be replaced by surveying from other monuments in the area.)

B. Replacing a monument by survey ties. (This occurs when a monument will be disturbed and the city surveyor is notified in advance to allow time for the monument to be referenced.)

Payment of the statement shall be due within twenty (20) days of the mailing or delivery of the statement. The statement shall be deemed delivered when sent by certified mail or hand delivered, addressed to the last known address of the person who caused the city to take action or the person for whom such work was performed. (Ord. 24-11, 2011)

CHAPTER 14.12

STREET AND SIDEWALK USE

Article I. Moving Buildings Or Heavy Equipment

14.12.010: PERMIT; REQUIRED WHEN:

It is unlawful for any person to move any house, building, tractor, roller, dragline, caterpillar, steam shovel, road equipment, industrial equipment, or circus or carnival equipment, steel safe, or any other structure or equipment likely to injure, damage or deface the surface, structure or foundation of a street, upon, over, across or along any public street, alley or highway in the city without first obtaining a permit from the department of public services of the city so to do. (Ord. 45-93 § 23, 1993: prior code § 41-3-1)

14.12.020: PERMIT; APPLICATION:

The permit required by section 14.12.010 of this chapter shall be issued only upon approval of a written application therefor. The application shall state:

A. The nature and location of the structure or equipment proposed to be moved;

B. The hours of the day or night during which it is planned to move the same; and

C. The public streets, sidewalks, alleys or highways upon, over, across or along which such structure or equipment is to be moved. (Prior code § 41-3-2)

14.12.030: APPLICATION; BOND REQUIRED:

A. With the application, the applicant must file a bond in the sum of one thousand dollars ($1,000.00) indemnifying Salt Lake City and any person damaged for any loss or damage of any kind whatsoever arising from the use of the public streets, sidewalks, alleys or highways in moving such structure or equipment.

B. Whenever, in the opinion of the mayor, the bond provided for in this section shall be deemed inadequate for the protection of the city or the public, the mayor may require the bond to be in any sum not exceeding five thousand dollars ($5,000.00). (Ord. 88-86 § 63, 1986: prior code § 41-3-3)

14.12.040: ROUTE AND TIME DESIGNATED ON PERMIT; DEVIATIONS UNLAWFUL:

The department of public services shall designate in the permit the hours of the day or night during which such structures or equipment shall be moved, and it shall be unlawful for any person to violate the terms of the permit. (Ord. 45-93 § 24, 1993: prior code § 41-3-4)

14.12.050: PERMIT; DISPLAY UPON REQUEST:

Any permit issued pursuant to the terms of this chapter for the moving of structures or equipment shall be displayed to any police officer or street department inspector upon demand that such be displayed. (Prior code § 41-3-5)

14.12.060: ILLUMINATION FOR NIGHT USE OF STREETS:

If any structure or equipment is in, upon or near any public street, sidewalk, alley or highway during the night, it shall be equipped with a sufficient number of clearance lights on both sides, and marker lights upon the extreme ends of any projecting load, to clearly mark the dimensions of any such structure or equipment together with any vehicle attached to or conveying such load. (Prior code § 41-3-6)

Article II. Encroachments

14.12.070: PERMIT; REQUIRED WHEN:

A. It is unlawful for any person to erect or construct any stairway or passage leading from a street, avenue, alley, or basement or cellar of any building within the city limits, or to have any encroachment over the city property, or occupy any portion of the street, alley or sidewalk or any portion of the public streets, avenues or alleys of the city, unless the party so constructing the same shall have procured a permit to do so from the mayor or his/her designated agent.

B. No permit shall be issued allowing any person to have an encroachment over the city area or occupy any area under a sidewalk at any street intersection between the property line and the curb line. It is unlawful for any person to occupy such area. (Ord. 88-86 § 63, 1986: prior code § 41-3-7)

14.12.080: PERMIT; BOND REQUIREMENTS:

A. The applicant for such permit shall provide a corporate surety bond in the amount of not less than twenty five thousand dollars ($25,000.00), conditioned on the removal of the encroachment on city request, and shall also provide a policy of insurance in the minimum sum of two hundred fifty thousand dollars ($250,000.00) per person, five hundred thousand dollars ($500,000.00) per incident, which names Salt Lake City Corporation as an additional insured and gives the city thirty (30) days' notice of cancellation of the policy for whatever reason.

B. Provided, however, no bond or insurance will be required where the encroachment is for fencing which separates the occupied property from the traveled portion of the right of way for landscaping. Any such fencing or landscaping shall conform to all applicable city ordinances. (Ord. 16-90 § 1, 1990: Ord. 88-86 § 63, 1986: prior code § 41-3-8)

14.12.090: ADDITIONAL BOND OR WAIVER REQUIRED WHEN:

A. No permit shall be issued for any of the purposes set forth in section 14.12.070 of this chapter, or its successor, unless the applicant for such permit is the owner of the abutting property; provided, that a permit may be issued to the lessee of such property if the owner shall, in consideration of granting such permit in writing, waive in the name of such applicant, his heirs, executors, administrators, assigns or successors all claims for damages of every name or nature that may occur or accrue to the building abutting on such excavation or to the contents of such building by reason of water from the sewer, curb or water pipe along the street, and in such writing shall agree to indemnify the city against all damages and claims for damages done to the property of any tenant of the building, or other person or property, by reason of water from the sewer, curb or water pipe along the street, resulting in whole or in part by reason of such excavation, which waiver shall be duly acknowledged according to law.

B. If such applicant is the lessee of the abutting property, in consideration of granting such permit, such applicant shall execute a corporate surety bond of not less than twenty five thousand dollars ($25,000.00), which shall be approved as to form by the city attorney. Such bond shall run to the city and to any person injured, and shall be conditioned for the payment of all damages that may be adjudged against the principal named in the bond, or against the city on account of all claims for damages of every name and nature that may occur or accrue to the building abutting on such excavation, or to the contents of the building by reason of water from the sewer, curb or water pipe along the street, and against all damages and claims for damages done to the property of any tenant of the building, or other person or property by reason of water from the sewer, curb or water pipe, along the street resulting in whole or in part by reason of such excavation. (Ord. 88-86 § 63, 1986: prior code § 41-3-10)

14.12.100: ALL-EXCAVATION BOND PERMITTED WHEN:

In lieu of the bond above provided for, the applicant may give a corporate surety bond in the penal sum of fifty thousand dollars ($50,000.00), conditioned as above provided, and to cover all excavations maintained by the applicant, or to be made by the applicant, the bond to be renewed from time to time, and kept in force continuously. (Prior code § 41-3-13)

14.12.110: BOND; CHANGE IN OWNERSHIP OR LEASEHOLD INTEREST:

If at any time after the approval of any of the bonds above mentioned the ownership of or leasehold in the property therein mentioned shall be changed, the principal and sureties in the bond may have the same canceled and discharged upon obtaining the approval of the mayor of a bond by the new owner or lessee of the premises, which bond shall be for the same amount and shall contain all of the conditions, liabilities and provisions contained in the bond sought to have canceled and discharged, provided, that before any such new bond is accepted by the mayor, the owner of the abutting premises shall, in writing, and in consideration of the accepting of the new bond, execute the waiver and agreement to indemnify the city as hereinbefore provided; and that before any such bond shall be accepted by the mayor, the new lessee of the abutting premises shall execute a new bond in consideration of the accepting of the new bond, containing the conditions, obligations and agreements to be contained in the bond herein provided to be executed by a lessee upon the granting of the permit herein mentioned. (Ord. 88-86 § 63, 1986: prior code § 41-3-11)

14.12.120: NO TITLE ACQUIRED BY PERMITTEE:

No property owner or lessee shall acquire any title to land in any street, sidewalk, alley or highway by virtue of any permit issued pursuant to this chapter allowing the occupation of an area in such street, sidewalk, alley or highway. (Prior code § 41-3-14)

Article III. Miscellaneous Regulations

14.12.130: REMOVAL OF PARKING METERS:

A. Permission to remove a parking meter or meters from the street may be granted by the transportation engineer or the engineer's designee upon application being made therefor in writing showing a substantial need to temporarily close off metered parking spaces to the public use for a stated duration of time, together with payment in advance to the city treasurer of the fee, shown on the Salt Lake City consolidated fee schedule, per meter so removed per day, or part thereof. However, no fee shall be charged to: 1) any organization, for up to a total of thirty (30) days in any calendar year, that provides written verification from the internal revenue service that the organization has been granted tax exempt status as a religious or charitable organization under section 501(c)(3) of the internal revenue code, or its successor, or 2) any organization using such meter space under the direction of the city in connection with a city sponsored special event. The petitioner shall be responsible for, and install, meter post replacements according to city specifications, as set forth by the transportation engineer.

B. When restricted parking areas are requested to be reserved for exclusive use by the petitioner and it is necessary to temporarily remove existing parking meters in order to relocate such restricted parking, the foregoing meter removal provisions shall apply. (Ord. 24-11, 2011: Ord. 29-03 § 3, 2003: Ord. 42-02 § 2, 2002: prior code § 41-3-16)

CHAPTER 14.20
SIDEWALK USE RESTRICTIONS

14.20.010: SIDEWALK OBSTRUCTIONS PROHIBITED:

It is unlawful for any person owning, occupying or having control of any premises, to place or permit upon the sidewalk or the half of the street next to such premises:

A. Any broken ware, glass, filth, rubbish, refuse, ice, water, mud, garbage, cans, or other like substances;

B. Any lumber, wood, boxes, fencing, building material, dead trees, tree stumps, merchandise or other thing which shall obstruct such public street or sidewalk or any part thereof, or the free use and enjoyment thereof, or the free passage over and upon the same, or any part thereof, without the permission of the mayor or his/her designee. (Ord. 88-86 § 62, 1986: prior code § 38-3-1)

14.20.020: DRIVING OR RIDING ON SIDEWALK:

It is unlawful for any person to drive a self-propelled vehicle or team, or lead, drive or ride any animal upon any sidewalk, except across a sidewalk at established crossings. (Prior code § 38-3-6)

14.20.030: RECEIVING GOODS AND MERCHANDISE:

It is unlawful for any person to place or keep, or suffer to be placed or kept upon any sidewalk, any goods, wares or merchandise which such person may be receiving or delivering without leaving a ten foot (10') passageway clear upon such sidewalk; and it is unlawful for any person receiving or delivering such goods, wares or merchandise to suffer the same to be or remain on such sidewalk for a longer period than one hour. (Prior code § 38-3-5)

14.20.040: SIDEWALKS TO BE SWEPT IN FRONT OF BUSINESSES:

It is unlawful for the owners or occupants of places of business within the city to fail to cause the sidewalk abutting thereon to be swept or cleaned as necessary to prevent an unreasonable accumulation of dirt, garbage or other material obstructing the sidewalk. (Ord. 88-86 § 62, 1986: prior code § 38-3-12)

14.20.050: CELLAR DOORS AND OTHER OPENINGS IN STREETS OR SIDEWALKS:

It is unlawful for the owner or occupant of any building having a cellar or other opening upon any street or sidewalk to fail to keep the door or other covering thereof in good repair and safe for the passage of the customary traffic on such street or sidewalk; and if the owner or occupant of any such building neglects or refuses to repair properly any such door or covering for twenty four (24) hours after notice from the director of public services to do so, the director shall forthwith cause such repairs to be made at the expense of the owner or occupant. (Ord. 45-93 § 25, 1993: Ord. 88-86 § 62, 1986: prior code § 38-3-3)

14.20.060: WATER FROM ROOF; DISCHARGE ON SIDEWALKS PROHIBITED:

It is unlawful for any person owning, occupying or having control of any premises to suffer or permit water from the roof or eaves of any house, building or other structure, or from any other source under the control of such person, to be discharged and spread upon the surface of any sidewalk. (Prior code § 38-3-4)

14.20.070: SNOW TO BE REMOVED FROM CITY SIDEWALKS:

It is unlawful for the owner, occupant, lessor, or agent of property abutting a paved city sidewalk to fail to remove or cause to be removed from the length and breadth of the entire sidewalk abutting such property all hail, snow, or sleet falling thereon, within twenty four (24) hours after such hail, snow, or sleet has ceased falling at the Salt Lake City Airport as reported by the National Weather Service. Each day such sidewalk is not so cleared shall constitute a new violation. (Ord. 81-10, 2010)

14.20.080: OBSTRUCTING RIGHT OF WAY WITH SNOW PROHIBITED:

It is unlawful to place snow removed from private property in the public way. It is unlawful to place snow removed from sidewalks, drive approaches or other public places in a manner so as to cause a hazard to vehicular or pedestrian traffic. (Ord. 32-89 § 1, 1989)

14.20.090: GAMES ON SIDEWALKS OR STREETS:

It is unlawful for any person to obstruct any sidewalk or street by playing games thereon, such as marbles, jumping rope, flying of kites, hackey sack, coasting, or to annoy or obstruct the free travel of any foot passenger, team or vehicle. (Ord. 88-86 § 62, 1986: prior code § 38-3-7)

14.20.100: LOITERING ON SIDEWALK:

It is unlawful for any person to remain standing, lying or sitting on any sidewalk for a longer period than two (2) minutes, in such manner as to obstruct the free passage of pedestrians thereon, or wilfully to remain standing, lying or sitting thereon in said manner for more than one minute after being requested to move by any police officer, or wilfully to remain on any sidewalk in such manner as to obstruct the free passage of any person or vehicle into or out of any property abutting upon said sidewalk or any property having access to such sidewalk. (Ord. 88-86 § 62, 1986: prior code § 38-3-9)

14.20.110: FAILURE TO REMOVE HAIL, SNOW, AND SLEET; CIVIL PENALTIES:

A. Any owner, occupant, lessor, or agent of property abutting a paved city sidewalk who fails to comply with section 14.20.070 of this chapter is guilty of a civil violation. Such violation shall be handled by the Salt Lake City justice court in accordance with the procedures set forth in title 2, chapter 2.75 of this code, or its successor. Notice of a civil violation may be given: 1) to the owner, occupant, lessee, or agent of the property by hand delivery or 2) by mailing of the notice by first class mail to the owner of record.

B. The civil penalty for violation of this section shall be as set forth below:

1. For any property with street front footage of two hundred feet (200') or less:

a. Fifty dollars ($50.00) for each day hail, snow, or sleet is not removed from sidewalks within twenty four (24) hours;

b. Seventy five dollars ($75.00) for each day hail, snow, or sleet is not removed from sidewalks within forty eight (48) hours; and

c. One hundred dollars ($100.00) for each day hail, snow, or sleet is not removed from sidewalks within seventy two (72) hours.

2. For any property with street front footage of more than two hundred feet (200'):

a. One hundred dollars ($100.00) for each day hail, snow, or sleet is not removed from sidewalks within twenty four (24) hours;

b. One hundred fifty dollars ($150.00) for each day hail, snow, or sleet is not removed from sidewalks within forty eight (48) hours; and

c. Two hundred dollars ($200.00) for each day hail, snow, or sleet is not removed from sidewalks within seventy two (72) hours. (Ord. 81-10, 2010)

CHAPTER 14.28
STREETS AND SIDEWALKS; UNLAWFUL ACTS

14.28.010: DEPOSITING MATERIAL ON STREETS PROHIBITED:

It is unlawful for any person intentionally or carelessly to throw, cast, put into, drop or permit to fall from a vehicle and remain in any street, gutter, sidewalk or public place any stones, gravel, sand, coal, dirt, manure, garbage, leaves, lawn or hedge clippings or rubbish of any kind, or any other substance which shall render such highway unsafe or unsightly or shall interfere with travel thereon. (Prior code § 41-2-1)

14.28.020: POSTING BILLS PROHIBITED:

It is unlawful for any person, acting for himself or herself, through an agent, or for such agent, to print, paint, write, mark, paste, or in any way post up any notice, card, advertisement or other device upon any tree, post, pole, device or standard, upon any street or sidewalk at any time, except as may be provided by law. (Prior code § 41-2-4)

14.28.030: BONFIRES ON PAVED STREETS PROHIBITED:

It is unlawful for any person to build, maintain or assist in building or maintaining any fires upon any of the paved streets of the city, or upon any street within the fire limits. (Prior code § 41-2-2)

14.28.040: SLEDDING AND COASTING ON STREETS:

It is unlawful for any person to coast or slide with any sled, sleigh, toboggan or vehicle, upon any public street, avenue, sidewalk or alley within the city; provided, however, that the mayor, by public notice or proclamation, may authorize the use of certain streets, avenues or alleys for coasting during the winter season. During the period for which such notice or proclamation shall be issued, coasting and sliding upon such streets or avenues as may be designated by the proclamation or notice shall be permissible. (Prior code § 41-2-3)

14.28.050: STANDING, LYING OR SITTING ON STREETS OR HIGHWAYS:

It is unlawful for any person to remain standing, lying or sitting on any street or highway in a manner which obstructs the free passage of vehicular or pedestrian traffic thereon, or which creates a hazard to any person, or to wilfully remain on such street or highway in a manner which obstructs the free passage of any person or vehicle into or out of any property abutting upon such street or highway, or any property having access to such street or highway. (Prior code § 41-2-5)

14.28.060: RESERVED:

(Ord. 77-12, 2012)

CHAPTER 14.32
CONSTRUCTION, EXCAVATION AND OBSTRUCTIONS IN THE PUBLIC RIGHT OF WAY

Article I. Preamble, Definitions And General Requirements

14.32.010: PREAMBLE:

It is the express policy of the city to minimize the frequency and extent of construction activities in the public way, and to more effectively control and manage construction activities in the public way, for the purpose of: a) minimizing the disruption of traffic, b) protecting the city's investment in its infrastructure by preserving the serviceable life of its streets, sidewalks, curbs, gutters and other improvements, c) promoting the efficient flow of traffic, and d) generally promoting the public safety and welfare of the residents of, and visitors to, the city. Accordingly, all construction and excavation in, and obstruction of, the public way shall be subject to the procedures and requirements of this chapter. (Ord. 70-99 § 1, 1999)

14.32.015: DEFINITIONS:

As used in this chapter:

APARTMENT HOUSE: A building comprising four (4) or more dwelling units designed for separate housekeeping tenements.

APPLICANT: Any person who makes application for a permit.

APPURTENANCES: Miscellaneous concrete surfaces within the public way, such as parking bays and carriage walks.

BUSINESS: Any place in the city in which there is conducted or carried on principally or exclusively any pursuit or occupation for the purpose of gaining a livelihood.

CITY: Salt Lake City Corporation.

CITY ENGINEER: The city engineer, or his/her authorized representative.

COMPETITIVE UTILITY PROVIDER: Each person who provides public utility services within the city in competition with one or more persons providing the same or similar services.

DEFECTIVE CONCRETE: The existence of any of the following conditions within the public way:

A. The displacement of sidewalk, curb, gutter and driveway approach sections or appurtenances either horizontally or vertically to a point that one section or any part of a section is separated by at least one-half inch ($^1/_2$") from the other; or

B. The presence of a minimum of three (3) cracks of any length or width between score marks and/or expansion joints in any sidewalk, curb, gutter and drive approach sections or appurtenances; or

C. The presence of spalling over more than twenty five percent (25%) of the surface area of any sidewalk, curb, gutter and drive approach sections or appurtenances; or

D. The existence of settling, spalling or depressions in a sidewalk, curb, gutter and drive approaches or appurtenances, which allow water to become entrapped or cause ice pockets; or

E. The existence of similar signs of deterioration in sections of sidewalk, curb, gutter and drive approaches or appurtenances contiguous to sections which are in a condition as defined in subsections A through D of this definition to such an extent that they can reasonably be considered as part of the overall defective areas, or which must be replaced to effect a proper correction of the defective sections. A drawing illustrative of the foregoing is adopted as part of this chapter. Three (3) copies of the defective concrete replacement criteria drawing shall be kept on file in the city recorder's office and the city engineer's office.

EMERGENCY: Any unforeseen circumstances or occurrence, the existence of which constitutes a clear and immediate danger to persons or property, or which causes interruption of utility services.

ENGINEERING REGULATIONS, CONSTRUCTION SPECIFICATIONS, AND DESIGN STANDARDS: The latest version of the engineering regulations, or standard specifications and details for municipal construction published by the city engineer.

FACILITY OR FACILITIES: Any wires, lines, cables, coaxial cables, conduit, manholes, ducts, pipelines, tunnels, vaults, ditches, tracks, poles, antennas, transceivers, amplifiers, switches, electronic devices, structures or other improvements of any kind or nature, whether fixed or movable.

FAILURE: A work site restoration which fails to meet city engineer specifications, or which results in a deteriorated or substandard condition within the duration of the warranty period. Failure includes settlement of surfaces, deterioration of materials, and other surface irregularities. Measurement of failure shall be further defined in the engineering regulations.

IN ONE OWNERSHIP: Ownership of two (2) or more lots or tracts of land by the same person, even though such person may own such lots or tracts of land jointly with dissimilar persons.

MAJOR WORK: Any reasonably foreseeable work in the public way that will: a) affect the public way for more than ten (10) calendar days, b) involve a street cut of more than one hundred feet (100') in length, or c) involve a street cut of more than two hundred (200) square feet.

MULTIPLE DWELLING UNITS: Four (4) or more dwelling units designed for separate housekeeping tenements when such units are so situated as not to constitute an apartment house, when such units are located on the same lot or tract of land, or on two (2) or more lots or tracts of land which are connecting and in one ownership.

NEW STREET: Any street which has been constructed or reconstructed within the two (2) year period immediately preceding the date of determination, which construction or reconstruction shall consist of the construction of new subbase, or the reworking of existing pavement subbase, and the application of new surfacing, or the additions of at least three inches (3") of new pavement surfacing overlay.

OBSTRUCTION: Any rubbish, glass, material, wood, ashes, tacks, metal, earth, stone, structure, or other object, thing or substance which may interfere with or obstruct the free use or view of the public way by travelers, or injure or tend to injure or destroy or render unsightly the surface of a public way, or which may cause or tend to cause such public way to become restricted in its intended uses or unsafe or dangerous for travelers thereon.

OWNER: Any person, including the city, owning any facility or facilities that are, or are proposed to be installed or maintained in the public way.

PERMIT: A permit issued under this chapter for construction, excavation or other work in, or obstruction of, the public way.

PERMITTEE: Any person who has been issued a permit and has agreed to fulfill the requirements of this chapter.

PERSON: Means and includes any natural person, partnership, firm, association, public utility company, corporation, company, organization, or entity of any kind.

PIPE DRIVEWAY: A driveway approach which uses a pipe or other means to bridge the gutter.

PROPERTY OWNER: Person or persons having legal title to property and/or equitable interest in the property, or the ranking official or agent of a company having legal title to property and/or equitable interest in the property.

PUBLIC UTILITY COMPANY: Any company providing gas, electricity, water, telephone, or other utility product or services for use by the general public, whether or not such company is subject to the jurisdiction of the public service commission, and whether or not such utility product or services are generally available throughout the city, or are available only within a limited portion of the city.

PUBLIC WAY: Means and includes all public rights of way and easements, pathways, walkways and sidewalks, public streets, public roads, public highways, public alleys, and public drainageways including the surface, subsurface and above surface space, now or hereafter existing as such within the city. It does not, however, include utility easements not within public ways of the city.

PUBLIC WAY ORDINANCE: Any city ordinances or combination of ordinances governing use of the public right of way.

REFERENCED: When relating to survey monuments, means a monument which has been measured from locally set (usually within 100 feet) survey points sufficient to enable the monument to be reestablished if disturbed.

RESIDENCES: Buildings or dwellings comprising not more than three (3) dwelling units designed for separate housekeeping tenements and where no business of any kind is conducted, except such home occupations as are allowed and defined in the zoning ordinances of the city.

RESIDENT: The person or persons currently making their home at a particular dwelling.

RESURFACED STREET: Any street which has, within a two (2) year period immediately preceding the date of determination, received a bituminous pavement overlay application of between one and three inches (3") of thickness.

SECTION: A portion of the concrete which is set apart by expansion joints and/or construction joints.

TELECOMMUNICATION FACILITIES: All equipment and personal property used in connection with the provision of telecommunication services either within or outside of the city, including, without limitation, all conduits, wiring, cables, fiber optic cables, switches, manholes, poles, antennas, transceivers, amplifiers and all other electronic devices, equipment and related appurtenances.

TEMPORARY STRUCTURE: A facility constructed or installed for use during the construction of a project, but not a permanent part of the project, such as scaffolding, fences, trash containers, trailers, or portable offices.

TRAFFIC BARRICADE MANUAL: The manual on proper barricading and traffic control practices, published by the transportation engineer.

TRANSPORTATION ENGINEER: The city transportation engineer or his/her authorized representative.

USE PERMIT: Any writing from the city authorizing a user to use any portion of the public way, including, without limitation, any franchise agreement, lease, permit, license or easement.

USER: Any person which uses or proposes to use the public way, or any facilities located wholly or partially within the public way, for any purpose, other than as a member of the general public, all as more particularly described in the public way ordinance.

WORK IN THE PUBLIC WAY: Means and includes all activity which involves the physical occupancy or other obstruction of the public way.

WORK SITE RESTORATION: Means and includes the restoration of the original ground or paved hard surface area to comply with engineering regulations, and includes, but is not limited to, repair, cleanup, backfilling, compaction, and stabilization, paving and other work necessary to place the site in acceptable condition following the conclusion of the work, or the expiration or revocation of the permit. (Ord. 70-99 § 1, 1999)

14.32.020: ORDERS, RULES AND REGULATIONS:

In addition to the requirements set forth in this chapter, the city engineer may adopt such orders, rules and regulations which are reasonably necessary to accomplish the purposes of this chapter and are consistent herewith. (Ord. 70-99 § 1, 1999)

14.32.025: PERMIT REQUIRED; PERSONS ELIGIBLE FOR PERMIT:

A. Any person desiring to perform any work of any kind in the public way shall first apply for and obtain a permit for such work. It is unlawful for any person to commence work in the public way until the engineer has approved the application and until a permit has been issued for such work, except as specifically provided to the contrary in this chapter.

B. No person shall be eligible to apply for or receive a permit, save and except the following:

1. Contractors licensed by the state as general contractors;

2. Public utility companies;

3. The city;

4. Residents installing, replacing, or maintaining less than five hundred (500) square feet or one hundred (100) linear feet of sidewalk, curb and gutter, or driveway approach, or other work approved by the city engineer, upon a portion of the public way adjacent to their residence;

5. Persons performing work which requires the use and occupation of the public way, such as the construction of scaffolding, the staging of cranes, the installation or maintenance of electric signs, glass, awnings, and painting or cleaning of buildings or sign boards or other structures.

C. It is lawful for a city, county, or state employee to perform routine maintenance work, not involving excavations, without first having obtained a permit therefor.

D. A permit is not required for hand digging excavations for installation or repair of sprinkler systems and landscaping within the nonpaved areas of the public way. However, conformance to all city specifications is required.

E. Permits pertaining to emergency work are addressed in section 14.32.100 of this chapter. (Ord. 70-99 § 1, 1999)

14.32.030: PERMIT APPLICATION REQUIREMENTS:

A. Applications for a permit shall be filed with the city engineer on a form or forms to be furnished by the city engineer, and shall contain:

1. The name, address, telephone, and facsimile number of the applicant. Where an applicant is not the owner of the facility to be installed, maintained or repaired in the public way, the application also shall include the name, address, telephone, and facsimile number of the owner;

2. A description of the location, purpose, method of the proposed work, and surface and subsurface area to be affected;

3. A plan showing the proposed location of the work and the dimensions of any excavation and the facilities to be installed, maintained, or repaired in connection with the work, and such other details as the city engineer may require;

4. A copy or other documentation of the use permit authorizing the applicant or owner to use or occupy the public way for the purpose described in the application. Where the applicant is not the owner of the facility or facilities to be installed, maintained, or repaired, the applicant must demonstrate in a form and manner specified by the city engineer that the applicant is authorized to act on behalf of the owner;

5. The proposed start date of work;

6. The proposed duration of the work, which shall include the duration of the restoration of the public way physically disturbed by the work;

7. Written certification that all material to be used in the work and restoration of the public way, will be on hand and ready for use so as not to delay the work and the prompt restoration of the public way;

8. Written certification that the applicant and owner are in compliance with all terms and conditions of this chapter, the orders, and all applicable rules and regulations of the city engineer, and that the applicant and owner are not subject to any outstanding assessments, fees or penalties that have been finally determined by the city;

9. Evidence of insurance as required by section 14.32.065 of this chapter;

10. A performance deposit as required by section 14.32.070 of this chapter; and

11. Any other information that may reasonably be required by the city engineer. (Ord. 70-99 § 1, 1999)

14.32.035: PERMIT APPLICATION APPROVAL CRITERIA:

A. Factors to be considered by the city in reviewing the permit for approval, and the scope and timing of approved work, shall include, among other things, the following:

1. The capacity of the public way to accommodate the facilities proposed to be constructed and installed, and the compatibility of such new facilities with existing facilities;

2. Any damage to or disruption of public or private facilities, improvements, or landscaping then existing in the public way;

3. The public interest in minimizing the cost and disruption of construction from numerous excavations in the public way;

4. Any then existing excavation restrictions imposed by the city engineer pursuant to section 14.32.085 of this chapter;

5. The availability of alternatives to excavation, including, without limitation, the existence of excess capacity in the public way;

6. The qualifications and reputation of the applicant;

7. The financial strength of the applicant, including the applicant's ability to provide the required bonding and security; and

8. Potential conflicts with other uses of the public way.

B. The city engineer may deny the issuance of permits to persons who have shown by past performance that they will not consistently conform to the engineering regulations, construction specifications, design standards or the requirements of this chapter; provided that prior to any such denial, such person shall be given written notice of the basis for such denial, and shall be given a reasonable opportunity to be heard in connection therewith.

C. When necessary, in the judgment of the city engineer, to fully determine the relationship of the work proposed to existing or proposed facilities within the public ways, or to determine whether the work proposed complies with the engineering regulations, construction specifications and design standards, the city engineer may require the filing of engineering plans, specifications and sketches showing the proposed work in sufficient detail to permit determination of such relationship or compliance, or both, and the application shall be deemed suspended until such plans and sketches are filed and approved.

D. The disapproval or denial of an application by the city engineer may be appealed by the applicant to the director of public services, by the filing of a written notice of appeal within ten (10) days of denial. The director of public services shall hear such appeal and render his/her decision, within fifteen (15) days following notice of such appeal.

E. In approving or disapproving work within the public way, or permits therefor; in the inspection of such work; in reviewing plans, sketches or specifications; and generally in the exercise of the authority conferred upon him/her by this chapter, the city engineer shall act in such manner as to preserve and protect the public way and the use thereof. (Ord. 6-01 § 3, 2001: Ord. 70-99 § 1, 1999)

14.32.040: COMPLETION DATE FOR WORK:

A. Work shall be completed within thirty (30) days from the starting date, or within such shorter period as shall be directed by the city engineer. Such determination shall be based upon factors reasonably related to the work to be performed under the permit. Such factors may include, in addition to other factors related to the work to be performed, the following:

1. The scope of work to be performed under the permit;

2. Maintaining the safe and effective flow of pedestrian and vehicular traffic on the public way affected by the work;

3. Protecting the existing improvements to the public way impacted by the work;

4. The season of the year during which the work is to be performed as well as the current weather and its impact on public safety and the use of the public way by the public;

5. Use of the public way for extraordinary events anticipated by the city.

The city engineer shall be notified by the permittee of commencement of the work within twenty four (24) hours prior to commencing work. The permit shall be valid for the time period specified in the permit.

B. If the work is not completed during such period, the permittee may apply to the city engineer for an additional permit or an extension, which may be granted by the city engineer for good cause shown and upon compensating the city for any damages associated with such delay.

C. The length of the extension requested by the permittee shall be subject to the approval of the city engineer. No extension shall be made that allows work to be completed between November 16 of each year through March 31 of the following year, without payment of winter fees. (Ord. 70-99 § 1, 1999)

14.32.045: PERMIT; NO TRANSFER OR ASSIGNMENT:

Permits shall not be transferable or assignable, and work shall not be performed under a permit in any place other than as specified in the permit. Nothing herein contained shall prevent a permittee from subcontracting the work to be performed under a permit; provided, however, that the holder of the permit and, in the case of a permit issued in the name of a general contractor, the person for whom work is being performed by such general contractor, shall be and remain responsible for the performance of the work under the permit, and for all bonding, insurance and other requirements of this chapter and under said permit. (Ord. 70-99 § 1, 1999)

14.32.050: OWNER AND APPLICANT BOTH RESPONSIBLE:

The terms and provisions of the permit, the terms and provisions of this chapter, and the terms and provisions of any applicable orders, rules and regulations, shall be binding upon and applicable to both: a) the applicant, and b) in the case of an applicant who is not also the owner, the owner on whose behalf the applicant is acting. (Ord. 70-99 § 1, 1999)

14.32.055: PERMIT CONSTITUTES AGREEMENT:

The acceptance of any permit shall constitute such an agreement by the permittee to comply with all of the terms, conditions and requirements of this chapter. (Ord. 70-99 § 1, 1999)

14.32.060: LIABILITY AND INDEMNIFICATION:

Each permit, except one obtained for work involving the city, shall incorporate by reference and require the permittee and the owner to comply with the liability and indemnity provisions set forth below in this section.

A. Responsibility Of Owner And Permittee: Each owner and permittee is wholly responsible for the quality of the work performed in the public way and both the owner and permittee are jointly responsible for all consequences of any condition of such work and any facilities installed in the public way. The issuance of any permit, the performance of any inspection or repair, the making of any suggestion, the issuance of any approval, or the acquiescence of any person affiliated with the office of the city engineer shall not excuse any owner or permittee from such responsibility or liability.

B. Indemnification, Defense, And Hold Harmless:

1. Each owner and permittee shall agree on its behalf and that of any successor or assign to indemnify, defend, protect, and hold harmless the city, including, without limitation, each of its officers, agents, and employees, from and against any and all actions, claims, costs, damages, demands, expenses, fines, injuries, judgments, liabilities, losses, penalties, or suits including, without limitation, attorney fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from:

a. Any act or omission by, or negligence of, the owner or the permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by the permit, or while in or about the property subject to the permit for any reason connected in any way whatsoever with the performance of the work authorized by the permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facility, facilities or structures authorized under the permit, including, without limitation, injuries relating to falling objects or failure to maintain proper barricades and/or lights as required;

b. Any accident, damage, death or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by the permit, or while in or about the property for any reason connected with the performance of the work authorized by the permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by the permit, including, without limitation, injuries relating to falling objects or failure to maintain proper barricades and/or lights as required;

c. Any accident, damage, death, or injury to any person(s) or accident, damage, or injury to any real or personal property or goodwill in, upon, or in any way allegedly connected with the work authorized by the permit from any cause or claims arising at any time, including, without limitation, injuries relating to falling objects or failure to maintain proper barricades and/or lights as required; and

d. Any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by permittee about, in, on, or under the work site subject to the permit or the environment. As used herein, "hazardous material" means any gas, material, substance, or waste which, because of its quantity, concentration, or physical or chemical characteristics, is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment. "Release" when used with respect to hazardous materials shall include any actual or imminent disposing, dumping, emitting, emptying, escaping, injecting, leaching, leaking, pumping, pouring, or spilling. (Ord. 70-99 § 1, 1999)

14.32.065: INSURANCE:

A. Each owner or permittee shall maintain in full force and effect, throughout the term of the permit, an insurance policy or policies issued by an insurance company or companies authorized to do business in the state and rated either: 1) "A-", or better, or 2) listed in the U.S. treasury department's then current listing of approved sureties by A.M. Best Company at the time the permit is issued. Policy or policies shall afford insurance covering all operations, vehicles, and employees, as follows:

1. Workers' compensation insurance and employers' liability insurance providing statutory benefits.

2. Commercial general liability insurance with limits not less than two hundred fifty thousand dollars ($250,000.00) each occurrence combined single limit for bodily injury and property damage, including contractual liability; personal injury; explosion, collapse, and underground (xcu); products; and completed operations.

3. Business automobile liability insurance with limits not less than two hundred fifty thousand dollars ($250,000.00) each occurrence combined single limit for bodily injury and property damage, including owned, nonowned, and hired auto coverage, as applicable;

Notwithstanding the minimum insurance limits set forth above, insurance limits shall not be less than the then applicable statutory governmental immunity limit. The city engineer, with the concurrence of the city attorney, may increase the minimum insurance limits as to any permit as the best interests of the city may dictate, based on a balancing of the risks and benefits.

B. Said policy or policies shall include the city and its officers and employees jointly and severally as additional insureds (except for workers' compensation insurance), shall apply as primary insurance, shall stipulate that no other insurance affecting the city will be called on to contribute to a loss covered thereunder, and shall provide for severability of interests. Said policy or policies shall provide that an act or omission of one insured, which would void or otherwise reduce coverage, shall not reduce or void the coverage as to any other insured. Said policy or policies shall afford full coverage for any claims based on acts, omissions, injury, or damage which occurred or arose, or the onset of which occurred or arose, in whole or in part, during the policy period. Said policy or policies shall be endorsed to provide thirty (30) calendar days' advance written notice of cancellation or any material change to the city engineer.

C. Should any of the required insurance be provided under a claims made form, the insured owner or permittee shall maintain such coverage continuously throughout the term of the permit, and without lapse, for a period of three (3) years beyond the expiration or termination of the permit, to the effect that, should occurrences during the term of the permit give rise to claims made after expiration or termination of the permit, such claims shall be covered by such claims made policies.

D. Should any of the required insurance be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defense costs be included in such general annual aggregate limit, such general aggregate limit shall be double the occurrence or claims limits specified above in subsection A of this section.

E. Such insurance shall in no way relieve or decrease permittee's and owner's obligation to indemnify the city under subsection 14.32.060B of this chapter or any other provision of this chapter.

F. Certificates of insurance, in the form satisfactory to the city engineer, evidencing all coverages above, shall be furnished to or maintained on file with the city engineer before issuance of a permit, with complete copies of policies furnished promptly upon the city engineer's request.

G. A property owner performing work adjacent to his/her residence may submit proof of a homeowner's insurance policy in lieu of the insurance requirements of this section.

H. A public utility company may be relieved of the obligation of submitting certificates of insurance if such company shall submit satisfactory evidence in advance that it is insured in the amounts set forth in this chapter, or has complied with state requirements to become self-insured. Public utilities may submit annually evidence of insurance coverage in lieu of individual submissions for each permit.

I. The city engineer, with the concurrence of the city attorney, may modify the insurance requirements set forth above as they pertain to a particular permit, as the best interests of the city may dictate, based on a balancing of the risks and benefits. (Ord. 70-99 § 1, 1999)

14.32.070: BOND; REQUIRED WHEN:

Except as noted in this chapter, each applicant, before being issued a permit, shall provide the city with an acceptable corporate surety bond of fifteen thousand dollars ($15,000.00) to guarantee faithful performance of the work authorized by a permit granted pursuant to this chapter, and compliance by such applicant with the terms and conditions of the permit, applicable city ordinances, and the regulations, specifications and standards promulgated by the city relative to work in the public way. The amount of the bond required may be increased or decreased in the discretion of the city engineer whenever it appears that the amount and cost of the work to be performed, and not satisfactorily completed, may vary from the amount of bond otherwise required under this chapter. (Ord. 46-01 § 1, 2001: Ord. 70-99 § 1, 1999)

14.32.075: BOND; CONDITIONS; TERM:

A. The bond required by section 14.32.070 of this chapter or its successor shall guarantee to the city that the permittee shall fully comply with the requirements of the permit, applicable city ordinances, and the regulations, specifications and standards promulgated by the city relative to work in the public way, and respond to the city in damages for failure to conform therewith.

B. The bond shall guarantee all of permittee's obligations of performance arising during the period beginning on the date the permit is issued, and ending on the date three (3) years after completion of the work to the satisfaction of the city.

C. The limitation of the duration of the bond to three (3) years shall not operate to limit obligations of the permittee which extend beyond, or arise after, such three (3) year period under the terms of the permit, applicable city ordinances, or the regulations, specifications and standards promulgated by the city. (Ord. 46-01 § 2, 2001: Ord. 70-99 § 1, 1999)

14.32.080: COORDINATION OF WORK WITHIN THE PUBLIC WAY:

A. The city engineer shall, on or prior to October 1 of each year, publish in a newspaper of general circulation within the city, and mail to all persons who have made written request to the city engineer therefor, a schedule identifying the location and anticipated start date and completion date of all street construction or reconstruction and overlays constituting major work, anticipated to be performed within the city during the three (3) year period beginning on the next succeeding January 1. Such schedule shall be updated quarterly and shall be available for inspection at the office of the city engineer.

B. Each user and prospective user shall provide to the city engineer, on or before November 1 of each calendar year, on a form approved by the city engineer, a construction schedule which identifies, in reasonable detail, the location, and anticipated start date and completion date, of all anticipated major work to be conducted within the public way during the three (3) year period beginning on the next succeeding January 1. Failure of a user to identify work in the construction schedule shall not of itself preclude the issuance of a permit for such work; provided, however, that the city engineer may deny the permit until the proposed work can be considered by the city engineer in connection with the imposition of excavation restrictions and the publication of notice thereof pursuant to subsection 14.32.085C of this chapter.

C. Any requests to maintain the confidentiality of information submitted pursuant to subsection B of this section shall be considered by the city in accordance with the provisions of the Utah governmental immunity act, title 63, chapter 30, Utah Code Annotated, or any successor provisions. It shall be the general policy of the city engineer to disclose information in order to facilitate coordination among users and avoid unnecessary or prolonged excavation of city streets.

D. The city engineer shall use the information provided pursuant to subsection B of this section to coordinate construction activities in the public way, to identify conflicts and opportunities for coordination, and to determine the nature and scope of any excavation restrictions to be imposed for affected portions of the public way. The city engineer may, in his discretion, and for the purpose of realizing the objectives set forth in section 14.32.010 of this chapter: 1) schedule work in the public way in the order in which applications are filed, and without regard to other work in the public way; 2) either delay or accelerate the commencement date of certain work so that such work is performed simultaneously; or 3) either delay or accelerate the commencement date of certain work so that such work is performed in sequence, or is separated by a reasonable period of time.

E. Each applicant shall use the information available pursuant to subsections A and B of this section, or otherwise, to coordinate, in good faith, its proposed work in the public way with work proposed by the city or other users. (Ord. 70-99 § 1, 1999)

14.32.085: EXCAVATION RESTRICTIONS:

A. The city engineer shall, from time to time, impose excavation restrictions on portions of the public way, as provided in subsection B of this section. Except as provided in section 14.32.090 of this chapter, the city engineer shall not issue a permit for any portion of the public way subject to an excavation restriction, contrary to the terms of such restriction.

B. 1. Excavation restrictions shall be imposed by the city engineer for seven (7) years following the completion of new streets, and for three (3) years following the resurfacing of streets.

2. Following the completion of any work in the public way pursuant to a permit, the city engineer shall impose excavation restrictions of five (5) years either: a) solely on the owner performing such work, or b) on such owner and on such other prospective permittee or class of permittees as the city engineer shall determine.

3. Excavation restrictions shall be imposed by the city engineer on any portion of the public way for so long as excess capacity exists in such portion of the public way.

4. The excavation restrictions imposed by the city engineer may be either limited or comprehensive in scope. For example, a limited restriction on excavation for construction of telecommunication lines shall not preclude excavations for gas utility lines. A comprehensive restriction shall restrict all activity in the affected portion of the public way, except as otherwise provided in this chapter. In addition, the categories identified in subsections B1 through B3 of this section are not mutually exclusive. For example, the city engineer may impose a comprehensive three (3) year restriction on a resurfaced street, and at the same time a limited five (5) year restriction on electric utility facilities for the same street, if electric utility facilities were installed at the time of the street resurfacing.

5. The nature, scope and duration of the restriction shall be consistent with the terms described in the notice provided for in subsection C of this section.

6. The nature, scope and duration of each excavation restriction shall be evidenced in writing, which writing shall be maintained in the files of the city engineer, and shall be available for inspection during regular business hours at the office of the city engineer.

C. The city engineer shall publish, or cause to be published, on or before December 31 of each year, a notice advertising his/her intent to impose excavation restrictions relating to portions of the public way which will be under construction during the next succeeding calendar year. The notice shall be published at least once each week for three (3) consecutive weeks in a newspaper of general circulation within the city, which is used by the city for the publication of legal notices; provided that the first publication shall be on or before December 31. In addition, such notice shall be mailed by the city engineer to each person which has made written request therefor. Such notice shall describe: 1) the nature of the project giving rise to the restriction; 2) the portion of the public way affected by the restriction; 3) the effective date of the restriction; 4) the duration of the restriction; and 5) the nature of the restriction. The notice shall invite all potential users to whom the restriction will apply to participate in the project in the manner described by the city engineer, which may include: 1) locating facilities in the same trench as an applicant, 2) sharing the cost of joint facilities with such applicant, 3) collocating facilities within a common conduit, 4) entering into lease arrangements with the applicant for use of facilities, 5) constructing separate facilities in the project area within the same time frame, 6) otherwise cooperating in a manner mutually agreeable to such users or 7) participating in the project in such manner as the city engineer determines shall be in the best interests of the city. All collocations shall comply with applicable building and safety codes or requirements. Such notice shall further provide that all interested users must file a permit application with the city engineer not later than six (6) weeks prior to the estimated date of commencement of construction of the proposed project. Nothing herein shall require the city engineer to publish notice of an excavation restriction which applies to only one user, provided that written notice of such excavation restriction is mailed or otherwise provided to such user. (Ord. 70-99 § 1, 1999)

14.32.090: EXCEPTIONS TO EXCAVATION RESTRICTIONS:

The city engineer shall temporarily or permanently suspend an excavation restriction for any of the following reasons:

A. To permit work to be performed by the city;

B. To permit emergency repair work, or, in the discretion of the city engineer, work which could not reasonably have been anticipated by the applicant at the time of publication of the notice described in subsection 14.32.085C of this chapter;

C. Excess capacity no longer exists in the restricted portion of the public way;

D. To permit the installation of service laterals, the need for which could not have been reasonably anticipated at the time of publication of the notice described in subsection 14.32.085C of this chapter; or

E. Suspension of the restriction is otherwise in the city's best interest. (Ord. 70-99 § 1, 1999)

14.32.095: EXCESS CAPACITY:

Each competitive utility provider applicant shall, as a condition of the permit: a) demonstrate to the city that the facilities proposed to be installed are reasonably anticipated to provide sufficient capacity to satisfy the needs of such applicant for a minimum of five (5) years following installation, and b) install additional facilities designed to provide double the capacity indicated in a) above, or such lesser or greater additional capacity as shall reasonably be required by the city engineer. By way of example, and without limiting the generality of the foregoing, an applicant proposing to install one "quad" conduit shall install two (2) quad conduit. Such excess capacity shall be owned by the applicant, but shall be leased or otherwise made available to other users pursuant to the city's public way ordinance. The city engineer may waive this requirement if, in the judgment of the city engineer, the requirement will have the effect of precluding a less intrusive alternative. For example, a user proposing to bore under the public way may be relieved of this requirement if a surface cut would be required to install excess capacity. (Ord. 70-99 § 1, 1999)

14.32.100: EMERGENCY WORK:

A. Any person maintaining pipes, lines or other facilities in the public way may proceed with work upon existing facilities without a permit when emergency circumstances demand the work to be done immediately; provided, a permit could not reasonably and practicably have been obtained beforehand.

B. In the event that emergency work is commenced on or within any public way of the city during regular business hours, the city engineer shall be notified within one-half ($\frac{1}{2}$) hour from the time the work is commenced. The person commencing and conducting such work shall take all necessary safety precautions for the protection of the public and the direction and control of traffic, and shall ensure that work is accomplished according to the engineering regulations, the "Manual On Uniform Traffic Control Devices", the Salt Lake City traffic barricade manual, and other applicable laws, regulations and generally accepted industry practices.

C. Any person commencing emergency work in the public way during nonbusiness hours without a permit shall immediately thereafter apply for a permit or give notice during the first hour of the first regular business day on which city offices are open for business after such work is commenced, and a permit may be issued which shall be retroactive to the date when the work has begun, at the discretion of the city engineer. (Ord. 70-99 § 1, 1999)

14.32.105: COMPLIANCE WITH SPECIFICATIONS, STANDARDS AND TRAFFIC CONTROL REGULATIONS:

A. The work performed in the public way shall conform to the requirements of the engineering regulations, design standards, construction specifications and traffic control regulations of the city, copies of which shall be available from the city engineer and kept on file in the office of the city recorder and the city engineer, and shall be open to public inspection during office hours.

B. All excavations shall be conducted in a diligent and expeditious manner resulting in a minimum amount of interference or interruption of street and pedestrian traffic. All weather pedestrian access to businesses shall be provided. Suitable, adequate and sufficient barricades and/or other structures will be available and used where necessary to provide safe and efficient traffic flow, and to prevent accidents involving property or persons. Barricades must be in place until all of the permittee's equipment is removed from the site and the excavation has been backfilled and the public way restoration has been completed. From sunset to sunrise, all barricades and excavations must be clearly outlined by adequate signal lights, torches, etc. The transportation division, the police department and the fire department shall be notified at least twenty four (24) hours in advance of any planned excavation requiring street closure or traffic detour. (Ord. 46-01 § 3, 2001: Ord. 70-99 § 1, 1999)

14.32.110: JOB SITE PERMITTEE IDENTIFICATION:

During construction, and during any other period of time that the public way remains obstructed, the permittee shall post at the site a sign with minimum two inch (2") high letters and otherwise meeting the requirements of the city engineer, indicating permittee's name, or company name, telephone number, and both daytime and after hours telephone numbers. At least one sign shall be posted for each block face affected by the construction. (Ord. 46-01 § 4, 2001: Ord. 70-99 § 1, 1999)

14.32.115: PARKING METER REMOVAL OR OCCUPATION:

Where any of the activities permitted by this chapter require the removal or extended occupation of parking meters, applicant shall comply with conditions set forth in section 14.12.130 of this title, or its successor. (Ord. 70-99 § 1, 1999)

14.32.120: STATE HIGHWAY PERMITS:

A. Holders of permits for work on state highways within the city limits, issued by the department of transportation of the state, shall not be required to obtain permits from the city under the provisions of this chapter, unless the work extends beyond the back side of the curb. Any city permit shall not be construed to permit or allow work in a state highway within the city without a state permit.

B. The city engineer shall have the right and authority to regulate work under state highway permits with respect to hours and days of work, and measures required to be taken by the permittee for the protection of traffic and safety of persons and property. (Ord. 70-99 § 1, 1999)

14.32.125: RELOCATION OF STRUCTURES IN PUBLIC WAYS:

A. The city engineer may direct any person owning or maintaining facilities or structures in the public way to alter, modify or relocate such facilities or structures. Sewers, pipes, drains, tunnels, conduit, pipe driveways, vaults, trash receptacles and overhead and underground gas, electric, telephone and communication facilities shall specifically be subject to such directives. The person owning or maintaining the facilities or structures shall, at their own cost and expense and upon reasonable written notice by the city, promptly protect, or promptly alter or relocate such facilities or structures, or part thereof, as directed by the city. In the event that such person refuses or neglects to conform to the directive of the city, the city shall have the right to break through, remove, alter or relocate such part of the facilities or structures without liability to such person. Such person shall pay to the city all costs incurred by the city in connection with such work performed by the city, including also design, engineering, construction, materials, insurance, court costs and attorney fees, and all costs of construction delays caused by such person's failure to promptly relocate facilities.

B. Any directive by the city engineer shall be based upon one of the following grounds:

1. The facility or structure was installed, erected or is being maintained contrary to law, or determined by the city engineer to be structurally unsound or defective;

2. The facility or structure constitutes a nuisance as defined under state statute or city ordinance. (This section shall not, however, be deemed to diminish the vehicle impound authority of the police department under title 12, chapter 12.96 of this code, or its successor.);

3. The authority under which the facility or structure was installed has expired or has been revoked;

4. The facility or structure is not in conformity with or interferes with public or private improvements proposed for the area; or

5. The public way is about to be repaired or improved and such facilities or structures may pose a hindrance to construction.

C. Any directive of the city engineer under this section shall be under and consistent with the city's police power. Unless an emergency condition exists, the city engineer shall make a good faith effort to consult with the person regarding any condition that may result in a removal or relocation of facilities in the public way to consider possible avoidance or minimization of removal or relocation requirements and provide the directive as far enough in advance of the required removal or relocation to allow the person a reasonable opportunity to plan and minimize cost associated with the required removal or relocation.

D. This obligation does not apply to facilities or structures originally located on private property pursuant to a private easement, which property was later incorporated into the public way, if that prior private easement grants a superior vested right.

E. Any person owning or maintaining facilities or structures in the public way who fails to alter, modify or relocate such facilities or structures upon notice to do so by the city engineer shall be guilty of a misdemeanor. All costs of alteration, modification or relocation shall be borne by the person owning or maintaining the facilities or structures involved.

F. The city may, at any time, in case of fire, disaster or other emergency, as determined by the city in its reasonable discretion, cut or move any parts of facilities and appurtenances on, over or under the public way, in which event the city shall not be liable therefor to any person. The city shall notify a person in writing prior to, if practicable, but in any event as soon as possible and in no case later than the next business day following any action taken under this subsection. (Ord. 70-99 § 1, 1999)

14.32.130: IMPACT OF EXCAVATION ON EXISTING IMPROVEMENTS:

A. If any sidewalk or curb ramp is blocked by excavation work, a temporary sidewalk or curb ramp shall be constructed or provided. Said temporary improvement shall be safe for travel and convenient for users, and consistent with city standards for such.

B. 1. At any time a permittee disturbs the yard, residence or the real or personal property of a private property owner or the city, such permittee shall ensure that such property is returned, replaced and/or restored to a condition that is comparable to the condition that existed prior to the commencement of the work.

2. The costs associated with the disturbance and the return, replacement and/or restoration shall be borne by the permittee. Further, a permittee shall reimburse a property owner or the city, for any actual damage caused by the permittee, its subcontractor, or its independent contractor, in connection with the disturbance of such property. However, nothing in this subsection shall require the permittee to pay a subscriber or private property owner when that subscriber or private property owner requests that the permittee remove, replace or relocate improvements associated with the service provided by the permittee to the property owner and when the permittee exercises due care in the performance of that service, or when the subscriber or private property owner provided false information to the permittee on which the permittee relied to its detriment.

C. Examples of types of acts specifically included in this section are the following:

1. Removal of sod, lawn, shrubbery, flowers, trees, driveways, or fence, to install, trench, repair, replace, remove or locate, equipment, cable or other appurtenances of the permittee;

2. Installation or removal of equipment or other appurtenances of the permittee's facilities within a private property owner's property or residence which requires drilling, excavating, plastering, or the like on the part of the permittee;

3. Temporarily relocating or moving a piece of personal property or a fixture of a private property owner (such as a motor vehicle, fence, air conditioning, heating unit, or the like) in order to perform some sort of construction, maintenance or repair by the permittee; or

4. Permanently removing a permittee's equipment or other appurtenances due to the revocation, termination or nonrenewal of the franchise (if applicable).

D. Existing drainage channels, such as gutters or ditches, shall be kept free of dirt or other debris so that natural flow will not be interrupted. When it is necessary to block or otherwise interrupt flow of the drainage channel, a method of rerouting the flow must be submitted for approval by the director of the city's department of public utilities prior to the blockage of the channel.

E. The requirements imposed upon the permittee extend to any subcontractor or independent contractor that the permittee might employ to perform the tasks pursuant to the permit.

F. The requirements of this section shall not apply to the removal by a permittee, of a permanent structure placed by a property owner in a public way, unless such property owner has received prior written permission from the city granting the property owner the right to install a permanent structure on a public way, and such written permission has been recorded in the office of the county recorder. (Ord. 70-99 § 1, 1999)

14.32.135: RESTORATION OF PUBLIC PROPERTY:

A. The permittee shall, at its own expense, restore all public way facilities modified, damaged or removed by the permittee to a condition that is comparable to or better than the condition that existed prior to the commencement of the work, as required by the engineering regulations, design standards and specifications promulgated by the city from time to time. Such regulations, design standards and specifications shall require, at a minimum, that restoration work be performed beyond the walls of any trench for a minimum distance of twenty four inches (24") on each side of the trench for trenches less than forty two inches (42") deep, and a minimum distance of thirty six inches (36") on each side of the trench for trenches deeper than forty two inches (42"); provided, however, that the city engineer may determine not to require restoration of the street surface beyond the walls of any trench located in a street scheduled to be reconstructed by the city within three (3) years following completion of the excavation work, if the cost of such work exceeds the benefit to the city, and the site can otherwise be restored to the satisfaction of the city for such three (3) year period. All restoration work shall be accomplished within the time limits set forth in the permit, unless additional time is granted in writing by the city engineer.

B. Without limiting the generality of the foregoing, and unless otherwise authorized by the city engineer in the permit, all paving and replacement of street facilities shall be completed within three (3) calendar days from the time the excavation commences on major or collector streets, and within seven (7) calendar days from the time the excavation commences on all other streets, except as provided for during excavation in winter or during weather conditions which do not allow paving according to applicable standards and specifications. In winter, a temporary patch must be provided, to be replaced with permanent materials when weather permits. In all excavations, restoration of pavement surfaces shall be made immediately after backfilling is completed or concrete is cured. If work is expected to exceed the above duration, the permittee shall submit a detailed construction schedule for approval. The schedule will address means and methods to minimize traffic disruption and complete the construction as soon as reasonably possible. (Ord. 46-01 § 5, 2001: Ord. 70-99 § 1, 1999)

14.32.140: REPAIR AND MAINTENANCE OBLIGATION OF PERMITTEE:

Each owner and permittee that causes work to be performed in the public way shall be responsible to maintain, repair, or reconstruct the site of the work so as to maintain a condition acceptable to the city engineer until such time as the public way is reconstructed, repaved, or resurfaced. (Ord. 70-99 § 1, 1999)

14.32.145: TAMPERING WITH TRAFFIC BARRICADES:

It is unlawful for any person maliciously or wantonly or without authorization and legal cause to extinguish, remove or diminish any light illuminating any barricade or excavation or to tear down or remove any rail, fence or barricade protecting any excavation or other construction site. (Ord. 70-99 § 1, 1999)

14.32.150: CONFLICT WITH GOVERNING PROVISIONS:

Should there be a conflict between the provisions of this chapter and the provisions of any other ordinance, agreement, franchise, or other document governing the excavation of a public way, the more restrictive provisions of the aforesaid documents shall apply. (Ord. 70-99 § 1, 1999)

Article II. Occupying The Public Way While Working On Private Property

14.32.200: PERMIT REQUIRED FOR CERTAIN WORK:

A. Required For Obstruction Of Public Way: Except for a period of ten (10) days prior to scheduled city sponsored cleanup campaigns, the terms and conditions of which shall be described in flyers or mailings produced and distributed by the city, it is unlawful for any person to place, cast, deposit, permit, erect, or suffer to remain in or upon any public way in the city any "obstruction" as defined in this chapter, without obtaining from the city engineer permission so to do, and then only in strict accordance with the terms and conditions of these ordinances and of the express permission granted.

B. Required For Occupation Of Street With Building Material: It is unlawful for any person to occupy or use any portion of a public way for the storage of construction or landscaping materials and/or equipment without first making application for and receiving a permit for the occupation or use. However, no fence construction pursuant to these ordinances and no building material shall remain in place on any public way after the ending date of the permit, unless said permit is extended by the city engineer.

C. Required For Scaffold Or Staging Over Public Way: It is unlawful for any person to erect, build, maintain, swing or use any scaffold, fence or any other temporary structure over or upon the public way without first obtaining a permit for that purpose and paying the fee for such permit.

D. Not Required When: A permit is not required for use of the public way, other than as noted in this article. However, all persons working within the public way shall properly protect travelers thereon by conformance to the Salt Lake City traffic barricade manual. Any obstruction of a travel lane on any collector or arterial street, as defined in the Salt Lake City official street map, for a period of more than twenty (20) minutes shall be barricaded in accordance with a traffic plan approved by the transportation engineer. (Ord. 17-00 § 1, 2000: Ord. 70-99 § 1, 1999)

14.32.205: PERMIT LIMITATIONS:

A. Removal Of Obstruction And Rubbish Required: No portion of a public way other than that set forth in the permit shall be used for depositing materials for future work or for receiving rubbish from such work. All obstructions and other rubbish shall be removed by the permittee at such times as the city engineer may direct and in case of the neglect or refusal of such permittee to remove such rubbish or obstruction, the city engineer may cause it to be removed at the permittee's expense in accordance with the law.

B. Restriction To Eight Feet: No permit to occupy the public way with building materials or barricade fence shall be granted that will allow occupation of more than eight feet (8') in the roadway portion of the public way. This distance may be extended to a maximum distance of fifteen feet (15') at the discretion of the city transportation engineer when, in his/her opinion, additional space is deemed necessary and when the additional space will not adversely impact traffic flow.

C. Maintenance Of Drainage Channels: Existing drainage channels such as gutters or ditches shall be kept free of dirt or other debris so that natural flow will not be interrupted. When it is necessary to block or otherwise interrupt flow of the drainage channel, a method of rerouting the flow must be submitted for approval by the city engineer prior to blockage of the channel.

D. Maintenance Of Pedestrianways: Barricades or covered walkways placed in accordance with the Salt Lake City barricade manual, shall be provided at all times for the protection of the general public when any work or storage of material which has been approved and is being accomplished within the public right of way. (Ord. 70-99 § 1, 1999)

Article III. Installation, Modification Or Replacement Of Public Way Improvements

14.32.300: PURPOSE AND BENEFIT OF PROVISIONS:

A. Purpose: This article is enacted for the purpose of promoting the health, safety and welfare of the inhabitants of the city by keeping sidewalks, curb, gutters, drive approaches and appurtenances, such as parking bays and carriage walks in safe, usable condition. To this end it is deemed the responsibility of owners to notify the city of any defective concrete existing at their property and, upon replacement of the defective concrete, to pay an amount equal to the resulting benefit to the improved property.

B. Benefit: It is hereby found and determined that the replacement of defective concrete will result in an improvement benefiting the adjoining property in the amount of fifty percent (50%) of the total replacement cost in the case of property used as a residence or residences, and one hundred percent (100%) of the total replacement cost in the case of property used as multiple dwelling units, an apartment house, a business, or for any purpose other than as a residence. The difference in resulting benefits as compared to the cost of replacement is based upon a finding of the city council of factors indicating substantially greater benefits to properties used for the purpose other than as residences. (Ord. 70-99 § 1, 1999)

14.32.305: DEFECTIVE CONCRETE; DUTY OF OWNER OR TENANT:

Any person owning real property in the city and any tenant of real property in the city shall:

A. 1. Report to the city engineer's office the fact that any defective concrete exists in front of or along the side of the property owned or occupied by such owner or tenant;

2. The owner shall correct the problem and may elect to proceed to correct the problem in accordance with section 14.32.320 of this chapter or its successor, and

B. Take such temporary steps as needed to protect the public from the hazard until the hazard is repaired. (Ord. 70-99 § 1, 1999)

14.32.310: DEFECTIVE CONCRETE; DISCOVERY BY CITY:

In the event any defective concrete is discovered or observed by the city, the city shall have the right to give notice to the owner of the adjacent property the same as if reported by the owner or tenant. The owner and/or tenant shall have the same duties as set forth in section 14.32.305 of this chapter or its successor. (Ord. 70-99 § 1, 1999)

14.32.315: DEFECTIVE CONCRETE; NOTICE TO REPLACE; CONTENTS:

Whenever the city receives notice of any defective concrete, or discovers same and the city deems that such concrete is defective, it must be replaced. Upon such determination by the city, it may notify the property owner whose property is adjacent to the defective concrete where such replacement is needed that the owner shall have the options provided in section 14.32.320 of this chapter or its successor, for the method of replacement. Such notice shall also set forth the cost of replacement to the owner in the event such replacement is made by the city or by a contractor employed by the city. (Ord. 70-99 § 1, 1999)

14.32.320: DEFECTIVE CONCRETE; REPAIR OPTIONS AND COSTS:

After notice is given as specified in section 14.32.315 of this chapter, or its successor, the replacement of any defective concrete may be made in the manner as herein set forth, and the cost thereof shall be paid as follows:

A. If the adjacent property is a residence, the owner may employ a contractor or act as a contractor to make the required replacement. Such replacement must be done according to city specifications, to the satisfaction and approval of the city engineer, only after obtaining the required permit and shall be completed within sixty (60) calendar days of receipt of the notice provided for in the preceding section. Replacement made under this subsection shall be at the sole cost and expense of the owner. Election by the owner to proceed under this subsection shall be entirely voluntary on the part of the owner and the replacement costs paid by the owner shall not be deemed to be an assessment by the city.

B. If the adjacent property is a residence, the owner may agree in writing, upon forms approved by the city attorney, to pay fifty percent (50%) of the cost thereof in advance, and the city shall pay the remaining fifty percent (50%) of the cost of replacement, such amount being equal to the resulting benefit to the property. In such case, the city shall make the replacement or employ a contractor to make same, subject to the availability of funds.

C. For replacement made to defective concrete adjacent to an apartment house, business, multiple dwelling units and any other case other than a residence, the owner of the adjacent property shall pay one hundred percent (100%) of the total cost of such replacement, said amount being equal to the resulting benefit to the property. Such replacement may be accomplished, at the option of the owner, by a contractor employed by the owner or, upon payment to the city of the total cost thereof in advance, by the city. If done by a contractor employed by the owner, such replacement must be done according to city specifications, to the satisfaction and approval of the city engineer. It shall be done only after obtaining the required permit and completed within sixty (60) calendar days, weather permitting, of receipt of notice provided for in this chapter.

D. The owner must notify the city engineer, within seven (7) calendar days of receipt of the notice provided for in the preceding section, under which option said owner wishes to proceed.

E. In the event the owner refuses to or does not notify the city engineer as to the option elected by the owner for the necessary replacement, or if the owner submits a written request to have his or her property included in a special improvement district, the city may then create a special improvement district for the purpose of making the required replacement after such district is created, and levy assessment on the property in accordance with section 17A-3-301 et seq., Utah Code Annotated, 1953, as amended, or its successor. The assessment of the owner's portion of the total replacement cost shall be equal to the benefit received by the owner in accordance with the provisions of subsections B and C of this section. Such assessment shall be designated by the ordinance creating the special improvement district to be paid by the owner of the property assessed over a period of five (5) years from the effective date of such ordinance.

F. This section shall not preclude payment being made for replacement to defective concrete adjacent to a residence by the city under special conditions, such as the city receiving a federal grant for such replacement, a low income abatement, as provided in section 14.32.335 of this chapter, or its successor, for the city to pay all or a portion of said cost. Prior to making any abatement in excess of fifty percent (50%) in the case of a residence, the mayor must first establish a written executive policy concerning what percentage the city will pay. (Ord. 70-99 § 1, 1999)

14.32.325: ORDINARY REPAIRS:

Any repairs required to be made to sidewalk or appurtenances which are not defective, as defined in this chapter, shall constitute ordinary repairs. In the event the city determines that any ordinary repair should be made, the entire cost thereof shall be borne by the city, subject to availability of funds. (Ord. 70-99 § 1, 1999)

14.32.330: WAIVER OF REPLACEMENT REQUIREMENT:

In the event the city determines that any defective concrete should not be replaced because of a contemplated overall street repair or replacement project, lack of funds or other good reason, the city engineer or the city engineer's designee may temporarily waive the requirement of replacement. (Ord. 70-99 § 1, 1999)

14.32.335: ABATEMENT OF ASSESSMENT; CONDITIONS:

Assessments shall be equal and uniform according to the benefits received; however, when the owner of a residence adjacent to any defective concrete which requires replacement shall have a combined family income at or below the levels established by the department of housing and urban development in its "Income Limits For Housing And Community Development, Section 8 Program For Salt Lake City And Ogden, Utah SMSA", as amended from time to time, the entire cost of replacement may be paid by the city, subject to the availability of funds. Such owner must file an application therefor with the city, in order for payments to be abated. In order for the above income guidelines to become effective for the purposes of this section, the city must receive notice of such amendment and same must be adopted by the mayor by executive action. (Ord. 70-99 § 1, 1999)

14.32.340: SPECIFICATIONS AND GRADES FOR CONSTRUCTION:

All construction authorized by the permit issued under this chapter shall be constructed in accordance with the specifications and grades approved by the city engineer, and the acceptance of such permit shall be deemed an agreement by the permittee to perform such construction in accordance with such specifications and grades. (Ord. 70-99 § 1, 1999)

14.32.345: SIDEWALKS; INSPECTION AND APPROVAL:

All sidewalks constructed in accordance with the permits authorized by this chapter shall be subject to inspection and approval by the city engineer. (Ord. 70-99 § 1, 1999)

14.32.350: DRIVEWAY CONSTRUCTION:

A. Permits: No permit shall be granted by the city engineer without the favorable recommendation of the transportation engineer, for any driveway exceeding thirty feet (30') in width except:

1. Industrial M-1, M-1A, M-2 and M-3 districts, as set forth in title 21A of this code, wherein driveways not exceeding forty feet (40') in width may be permitted; and

2. In developed areas where street construction requires replacement of existing nonconforming driveways, the city engineer, upon favorable recommendation from the transportation engineer, may allow replacement of such nonconforming driveways when relocation of the driveway is not practical and will adversely affect traffic.

B. Concrete Thickness: No driveway, including a sidewalk section through a driveway, shall be less than six inches (6") thick; provided, however, that the city engineer may require that any driveway, including sidewalk, must be at least eight inches (8") thick when, in the opinion of the city engineer, such driveway and sidewalk will be used for heavy trucks, vehicles or equipment.

C. Multiple Drives, Islands And Landscaping: When more than one driveway is required for any parcel of land, a sidewalk island of at least twelve feet (12') in width shall be provided and landscaped between such multiple driveways, except in developed areas, where the street construction requires replacement of existing driveways with nonconforming islands. In such circumstances, the city engineer, upon the favorable recommendation of the transportation engineer, may allow the replacement of driveways with nonconforming islands or separations of less than twelve feet (12') in width, when relocation of the driveway is not practical and will not adversely affect traffic. The city engineer may direct that areas between such multiple drives that are less than twelve feet (12') in width be paved, if landscaping is impractical.

D. Corner Lot And Violation: In no case shall a permit be granted for a driveway which will be within ten feet (10') of the property line where it abuts any intersecting street.

E. Denial For Dangerous Conditions: Where, in the opinion of the city engineer, upon recommendation of the transportation engineer, it would be dangerous because of traffic, or because a driveway conflicts with any permanent improvements or waterway, the city engineer may refuse to issue the requested driveway permit. Such denial by the city engineer shall be final unless the applicant appeals the matter to the appeals hearing officer. The appeals hearing officer shall have the authority and discretion to either affirm the city engineer's decision or specify the conditions and location upon which a driveway may be permitted.

F. Pipe Driveway; Property Owner Responsibility: Permits for pipe driveways shall be issued only for locations which meet criteria established by the city engineer, and where no other practical means is available to prevent vehicles from dragging on the street or driveway. Pipe driveways are installed solely for the convenience of the abutting property owner and must conform to Salt Lake City design standards. The owner is responsible for keeping pipe driveways structurally sound and free of debris so as not to impede the gutter flow. (Ord. 8-12, 2012: Ord. 70-99 § 1, 1999)

Article IV. Fees And Charges

14.32.400: EXCAVATION PERMIT FEES:

A. Fees: The city engineer shall charge, and the city treasurer shall collect, upon issuing a permit, the fees shown on the Salt Lake City consolidated fee schedule for review of the application and site inspection of:

1. Excavation.

2. Multiple utility excavation.

3. Portions of the public way to which excavation restrictions apply. Excavation permits for portions of the public way to which excavation restrictions apply, when permitted pursuant to the provisions of this chapter, shall be issued only upon written authorization of the city engineer and the permit fees shall be two (2) times the normal rates published in this section. The city engineer may also require persons working in such portions of the public way to employ extraordinary measures in restoring said street such as applying seal coat or other surface treatment to maintain the overall integrity of the surface. The value of such extraordinary measures may, in the discretion of the city engineer, be used to offset the additional fees.

4. Poles and anchors.

B. Higher Fee: Where any of the foregoing subsections specify a higher fee for any period, such higher fee shall be applicable if any portion of the work is completed during the higher fee period.

C. Permit Extension: Fee as shown on the Salt Lake City consolidated fee schedule. The city engineer may deny this permit extension when work is not proceeding on the project in a satisfactory manner. (Ord. 24-11, 2011)

14.32.405: PUBLIC WAY IMPROVEMENT FEES:

The city engineer shall charge, and the city treasurer shall collect, upon issuing a permit, the fees shown on the Salt Lake City consolidated fee schedule for review of the application and site inspection of public way improvements.

A. For in-kind replacement of existing sidewalk, curb and gutter, or driveway approach, a no charge permit will be issued.

B. Where a higher fee for any period is specified on the Salt Lake City consolidated fee schedule, such higher fee shall be applicable if any portion of the work is completed during the higher fee period. (Ord. 24-11, 2011)

14.32.410: PUBLIC WAY OBSTRUCTION PERMIT FEES:

The city engineer shall charge, and the city treasurer shall collect, upon issuing a permit, the following fees for review of the application and site inspection of obstructions in the public way:

A. Monthly Fee (Construction Barricades Requiring More Than 5 Days): In addition to excavation fees:

1. Flat fee for all or any part of a block face: As shown on the Salt Lake City consolidated fee schedule.

2. Each additional block face: As shown on the Salt Lake City consolidated fee schedule.

3. Permit extension: As shown on the Salt Lake City consolidated fee schedule.

B. Short Term Occupation Of The Public Way (5 Days Or Less): Scaffolding or other temporary structures over public way, or storage of construction materials or soil. Permit up to and including five (5) days: As shown on the Salt Lake City consolidated fee schedule, per setup. No fee shall be charged for scaffolding or staging done behind an approved barricade fence.

C. Permit Extension: The fee for each permit extension shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

14.32.415: AUTHORIZATION OF ADDITIONAL CHARGES:

Additional charges to cover the reasonable cost and expenses of any required engineering review, inspection, and work site restoration associated with each undertaking may be charged by the city to each permittee, in addition to the permit fee. (Ord. 70-99 § 1, 1999)

14.32.418: BARRICADE PERMIT FEES:

The transportation director shall charge the fee shown on the Salt Lake City consolidated fee schedule, upon reviewing and processing a barricade permit plan proposal. (Ord. 24-11, 2011)

14.32.420: PERMIT FEE WAIVERS:

The city engineer may waive permit fees or penalties or a portion thereof, provided for in this chapter, when he/she determines that such permit fee or penalty: a) pertains to construction or rehabilitation of housing for persons whose income is below the median income level for the city; or b) pertains to an encroachment on the public way involving a beautification project which furthers specific goals and objectives set forth in the city's strategic plan, master plans, or other official documents, including decorative street lighting, building facade lighting, flower and planter boxes, and landscaping. (Ord. 70-99 § 1, 1999)

14.32.425: TELECOMMUNICATION RIGHT OF WAY PERMITS:

A. Definitions: For purposes of this section, the following terms shall have the following meanings:

CABLE: Any optical fiber, copper or other line, wire or cable, of any dimension: 1) encased in its own sheathing and physically installed and handled as a discrete facility, 2) used by a person for the transmission of telecommunication signals, and 3) situated wholly or partially in the city's right of way.

CONDUIT: Any pipe, pipeline, housing, structure or similar facility: 1) the primary purpose of which is the housing of cables, and 2) which is situated wholly or partially in the city's right of way. For purposes of calculating the charge assessed pursuant to this section, any conduit four inches (4") in diameter or smaller shall be deemed a single conduit, and any conduit larger than four inches (4") in diameter shall be deemed multiple conduits in increments of four inches (4"), with any increment in excess of a multiple of four (4) being deemed a separate conduit. By way of example, a conduit with a diameter of eight inches (8") shall be deemed to be two (2) conduits, whereas a conduit with a diameter of nine inches (9") shall be deemed to be three (3) conduits.

CONDUIT EQUIVALENT: In the case of one or more cables: 1) owned by a single cable owner, 2) situated in the city's right of way, and 3) not housed within a conduit, such number of such cables as may practicably have been housed within a four inch (4") conduit, had the owner elected to install such cables within a four inch (4") conduit, as determined by the city engineer; provided, however, that a single conduit equivalent shall include only those cables which occupy a contiguous space within the right of way not exceeding eighteen inches (18") in width.

CONSUMER PRICE INDEX: The U.S. city average geographic index for the components including "all urban consumers" based on "all items", as published for the month of October prior to the January in which the recalculated charge is to take effect by the U.S. department of labor, bureau of labor statistics, or in the event the consumer price index is no longer published, the generally accepted replacement index, if any.

EXISTING AGREEMENT: A telecommunications right of way lease, a franchise, or similar contract between the city and a conduit owner or cable owner relating to the use of the city's right of way, in effect on the effective date hereof.

LINEAR FOOT CHARGE: An annual charge payable to the city as and to the extent provided in this section, by each conduit owner or cable owner in an amount equal to the linear footage of conduit or conduit equivalent owned by such conduit owner or cable owner, as determined by the city engineer, times one dollar ($1.00). Effective January 1, 2005, and January 1 of each year thereafter, the linear foot charge in effect for the prior calendar year shall be adjusted to reflect the one year percentage increase or decrease, if any, in the consumer price index.

MINIMUM CHARGE: The minimum annual charge payable by a conduit owner or cable owner under this section, which shall initially be five hundred dollars ($500.00). Effective January 1, 2004, and January 1 of each year thereafter, the minimum charge in effect for the prior calendar year shall be adjusted to reflect the one year percentage increase or decrease, if any, in the consumer price index.

OWNER: The person owning a conduit or cable. For purposes of this section, each conduit or cable shall be deemed owned by only one person. In the case of a conduit or cable owned by more than one person, "owner" shall mean the person which, from time to time, has the greater ownership interest in such conduit or cable. In the event each such person has an equal ownership interest in such conduit or cable, "owner" shall mean the person so designated to the city by the persons sharing equal ownership or, in the absence of such designation, the person designated by the city.

PERSON: Any individual, partnership, association, joint venture, limited liability company, corporation or other legal entity.

RIGHT OF WAY: Any present or future street, alley, viaduct, bridge, road, lane and public way within the city, including the surface, subsurface and airspace, and shall not include any city park, pleasure grounds or other recreational areas, or other property owned by the city.

TELECOMMUNICATION RIGHT OF WAY PERMIT: A contract, including a franchise agreement, between the city and any person, authorizing such person to occupy an identified portion of the right of way with conduit or cable. Telecommunication right of way permits shall contain terms and conditions governing and relating to the use of the right of way, and the city's management thereof, substantially similar to the terms and conditions generally included in existing agreements.

TELECOMMUNICATION SIGNALS: Information in electromagnetic frequency, electronic or optical form, and including, but not limited to, voice, video or data: 1) whether or not the transmission medium is owned by the provider itself, 2) whether or not the transmission medium is wireline or wireless, and 3) whether or not the information is in digital or analog form.

B. Telecommunications Right Of Way Permit Required: No person may construct, install, maintain, situate, or permit to remain situated, any conduit or cable within any portion of the right of way without a telecommunications right of way permit; provided, however, that no telecommunication right of way permit shall be required in connection with a cable situated within a conduit, the owner of which conduit has a telecommunication right of way permit from the city.

C. Existing Agreement: Persons currently operating under an existing agreement may continue operating under such existing agreement for the remaining term thereof, subject to payment of the charge imposed by subsection D of this section, if applicable.

D. Annual Charge Imposed: There is hereby imposed and assessed upon: 1) each conduit owner, 2) each owner of cable which is not situated within a conduit, and 3) each person authorized to use a cable under the circumstances described in subsection F of this section, as a rental payment and compensation to the city for such owner's use of a portion of the right of way, an annual charge equal to the greater of: 1) the linear foot charge or 2) the minimum charge. The charge hereby imposed and assessed shall be effective on and after July 1, 2004; provided that the charge may not apply to certain owners, or with respect to certain conduits or cables, until a later date, as provided herein. Such charge shall be payable on a calendar year basis; provided that: 1) the charge payable July 1, 2004, shall be prorated over the remaining six (6) months of calendar year 2004, and 2) the charge shall be prorated on a monthly basis for new construction effective the date of commencement of construction, and otherwise for owners effective as of and including the month in which the charge becomes effective as to such owners or such owners' conduit or cable. Any rental payments paid by an owner to the city under an existing agreement shall be prorated over calendar year 2004, and applied as a credit against the charge hereby imposed on such owner. Payments under this subsection shall be paid to the city by January 31 each year. If payment is not received by January 31, a penalty is imposed equal to ten percent (10%) of the amount due. In addition, for each calendar month that a payment is late, compound interest equal to two percent (2%) per month will accrue.

E. Excess Conduit With Cables Which Have Not Been Actively Used Excepted From Charges: Excess conduit which contains cables which have never been actively used and cables which have never been actively used which are not in conduit shall not be subject to such charge until the calendar year in which such cables are first put to use. If such a cable is put into active use, the owner shall so notify the city engineer within thirty (30) days of activation.

F. Additional Exception To Charges Imposed: No charge shall be imposed under subsection D of this section on a conduit owner with respect to any portion of a conduit if such portion of conduit is occupied by any cable, the operation of which generates gross receipts or gross revenues subject to the license tax authorized under the Utah municipal telecommunications license tax act, title 10, chapter 1, part 4, Utah Code Annotated, or successor provisions, or any other gross revenue or gross receipts based tax, fee or charge. If such portion of conduit is also occupied by cable: 1) the operation of which does not generate gross receipts or gross revenues subject to the above described taxes, fees or charges, and 2) which is owned by a person other than the conduit owner, or which cable a person other than the conduit owner has the legal right to use in connection with the operation of such other person's trade or business, then the charge described in subsection D of this section shall be imposed, with respect to such cable, on such other person; provided, however, that in the event two (2) or more persons occupy such conduit, each such person shall be responsible for paying only a portion of the charge imposed by subsection D of this section, in an amount equal to the total charge, divided by the number of such persons.

G. Exception To Existing Agreements And Charges Imposed: Any conduit owner or cable owner who is currently operating such conduit or cable under an existing agreement shall be subject to the charge imposed under subsection D of this section only if such existing agreement includes language recognizing the possibility that the terms and conditions of such existing agreement may be subject to change. In such event, the charge imposed under subsection D of this section shall be payable in lieu of, and not in addition to, the payment otherwise payable under the terms of such existing agreement. Conduit owners or cable owners operating under existing agreements and not so subject to the charge imposed under subsection D of this section shall continue paying to the city the amounts set forth in such existing agreements until such existing agreements terminate, at which time such conduit owners or cable owners shall be subject to the charge imposed under subsection D of this section.

H. Abatement Of Rental Charge: Any cable owner whose cable is situated within a conduit owned by a conduit owner subject to the charge imposed under subsection D of this section, may apply to the city for the abatement of the rental charge or other payment payable by such cable owner under an existing agreement. Such abatement shall be effective from and after the date of receipt of any application accompanied by information sufficient to: 1) identify the conduit owner, and 2) establish the applicability of the charge imposed under subsection D of this section to such conduit owner.

I. Permit Requirements: Each telecommunication right of way permit shall include a requirement that the permittee provide to the city, and update on at least a semiannual basis, an as built survey of all conduit and cables, and all equipment and improvements ancillary and appurtenant thereto, situated within the right of way, in such electronic format as shall be compatible with the city's computerized GIS system, as determined by the city engineer.

J. Federal Or State Limits: To the extent that federal or state law limits the amount of charges which the city may impose on, or the compensation it may require from, a conduit owner or a cable owner, nothing in this section shall require the payment of any greater amount, unless and until the federal or state limits are raised.

K. Severability: To the extent any requirement of this section or of any telecommunications right of way permit is held by a court of competent jurisdiction, pursuant to a final, nonappealable ruling, to violate federal or state law, such requirement shall be deemed severed from this chapter or such telecommunications right of way permit, and the remainder of the requirements hereof or thereof shall continue in full force and effect. (Ord. 5-10 § 1, 2010: Ord. 49-04 § 1, 2004)

Article V. Applicability To City

14.32.500: APPLICABILITY TO CITY:

The provisions of this chapter shall apply generally to the city and its departments, except as follows:

A. Subsections 14.32.030A9 and A10 of this chapter.

B. Section 14.32.060 of this chapter.

C. Section 14.32.065 of this chapter.

D. Section 14.32.070 of this chapter.

E. Section 14.32.095 of this chapter.

F. Section 14.32.110 of this chapter.

G. Section 14.32.125 of this chapter.

H. Section 14.32.410 of this chapter.

I. Section 14.32.425 of this chapter. (Ord. 49-04, 2004: Ord. 70-99 § 1, 1999)

Article VI. Enforcement

14.32.600: WORK WITHOUT PERMIT; PENALTY:

A. A stop order may be issued by the city engineer directed to any person or persons doing or causing any work to be done in the public way without a permit. The abutting property owner shall be responsible for causing work to be done.

B. Any person found to be doing work in the public way without having obtained a permit, as provided by this chapter, shall be required to pay a permit fee equal to two (2) times the normal permit fee. For replacement work, where a fee is not normally charged, the normal permit fee for new construction shall apply. (Ord. 70-99 § 1, 1999)

14.32.605: FAILURE TO COMPLY; PENALTY:

A. Any permit may be revoked or suspended and a stop order issued by the city engineer, after notice to the permittee for:

1. Violation of any condition of the permit, the bond, or of any provision of this chapter;

2. Violation of any provision of any other ordinance of the city or law relating to the work;

3. Existence of any condition or the doing of any act which does constitute, may constitute or cause a condition endangering life or property.

B. A suspension or revocation by the city engineer, and a stop order, shall take effect immediately upon entry thereof by the city engineer and notice to the person performing the work in the public way. (Ord. 70-99 § 1, 1999)

14.32.610: DEFAULT IN PERFORMANCE; PENALTY:

Whenever the city engineer finds that a default has occurred in the performance of any term or condition of the permit, written notice thereof may be given to the principal and to the surety on the bond, if there is a surety bond. Such notice shall state the work to be done, the estimated cost thereof, and the period of time deemed by the city engineer to be reasonably necessary for the completion of the work. (Ord. 70-99 § 1, 1999)

14.32.615: COMPLETION TIME; CITY TO PERFORM WORK WHEN; COSTS:

In the event that the surety (or principal), within a reasonable time following the giving of such notice (taking into consideration the exigencies of the situation, the nature of the work, and the requirements of public safety and for the protection of persons and property), fails either to commence and cause the required work to be performed with due diligence, or to indemnify the city for the cost of doing the work, as set forth in the notice, the city may perform the work, at the discretion of the city engineer, with city forces or contract forces or both, and suit may be commenced by the city attorney against the contractor and bonding company and such other persons as may be liable, to recover the entire amount due to the city, including attorney fees, on account thereof. In the event that cash has been deposited, the costs of performing the work may be charged against the amount deposited, and suit brought for the balance due, if any. (Ord. 70-99 § 1, 1999)

14.32.620: FAILURE TO CONFORM TO DESIGN STANDARDS; PENALTY:

For failure to conform to the design standards and regulations, the city engineer may:

A. Suspend or revoke the permit;

B. Issue a stop order;

C. Order removal and replacement of faulty work;

D. Require an extended warranty period;

E. Negotiate a cash settlement to be applied toward future maintenance costs. (Ord. 70-99 § 1, 1999)

14.32.625: APPEAL OF SUSPENSION, REVOCATION, OR STOP ORDER:

Any suspension or revocation or stop order by the city engineer may be appealed by the permittee to the director of public services by filing a written notice of appeal within ten (10) days of the action of the city engineer. The director of public services shall hear such appeal, if written request therefor be timely filed, as soon as practicable, and render his/her decision within a reasonable time following filing of notice of appeal. (Ord. 6-01 § 4, 2001: Ord. 70-99 § 1, 1999)

14.32.630: VIOLATION; PENALTY:

A violation of any provision of this chapter, or failure to comply with a stop order, shall be a class B misdemeanor. Each day the violation exists shall be a separate offense. No criminal conviction shall excuse a person from otherwise complying with the provisions of this chapter. (Ord. 70-99 § 1, 1999)

CHAPTER 14.36
NEWSRACKS

14.36.010: PURPOSE AND INTENT OF PROVISIONS:

The city council hereby finds and declares:

A. The primary intended use of the streets and sidewalks of the city is the movement of people and property. Generally speaking, the city considers its streets and the real property interests therein to be a valuable asset, one which it intends to control by regulation and will not allow to be appropriated by private enterprise.

B. The city has an obligation to the general public to ensure reasonably unobstructed passage over the public ways in a clean, safe and orderly manner.

C. The city has an obligation to protect the health and safety of the public, and to protect persons, including minors, from unwilling exposure to explicit sexual material.

D. Inappropriately located newsracks can pose a significant hazard and annoyance to pedestrians, abutting landowners, vehicles, and the maintenance of public improvements.

E. The uncontrolled construction, placement and maintenance of newsracks unreasonably interferes with the public's right to safe and unobstructed passage and tends to physically and visually clutter the public rights of way and required setbacks. Such placement, construction and maintenance of newsracks must be reviewed in relationship to proximity, design and use of other existing or proposed street improvements and furniture of the streetscape, including, but not limited to, signs and lampposts, parking meters, bus shelters and benches, planters, telephone booths, traffic devices, bus stop areas, loading zones, and landscaped setbacks.

F. The city's central business district and an expanded area surrounding it are particularly congested and important areas. The aesthetically pleasing and functional design and regulation of the use of streets and sidewalks in the expanded central business district are extremely important in developing and maintaining order for the public good.

G. The city has gone to great lengths in its street improvement program in existing and proposed beautification projects within the expanded central business district to create an aesthetically pleasing and harmonious streetscape which also functions safely and efficiently. Outdoor newsracks, as part of the streetscape furniture, should be designed, constructed and placed in this area according to the proposed pattern to carry out those objectives.

H. Historically, the use of the streets for commercial enterprise has been precluded to preserve the streets for public purposes and to avoid the appropriation of public property or the creation of unfair economic advantage to businesses competing in the business district on private property. Distribution of newspapers has been a notable, but limited exception allowed in business districts to accommodate convenient dissemination of the news to encourage an informed citizenry, even though such distribution from newsracks competes with normal retail or subscription methods. Use of city owned property and publicly owned sidewalks in commercial districts where subscription is less common should not be absolutely denied, but is subordinate to the property's use for public purposes. This private use of the city owned property and publicly owned sidewalks, afforded certain constitutional protection under freedom of expression, is being regulated to ensure subordination to public purposes and protection to the city and its residents, by indemnifying the city against any liability arising out of this use of public property.

I. Daily newspapers of general circulation provide the most comprehensive and detailed information regarding local advertising and state and local news. This information is of greatest interest to those in the expanded central business district, and becomes stale on a daily basis requiring rapid turnover.

J. The above strong compelling governmental interests compete against public interests in freedom of expression and the private commercial interests of distributors. The city desires, in the time, place and manner provisions codified in this chapter, to balance those interests. (Ord. 18-91 § 1, 1991: prior code § 20-39-1)

14.36.020: TITLE:

This chapter may be referred to as the *SALT LAKE CITY NEWSRACK ORDINANCE*. (Ord. 18-91 § 3, 1991)

14.36.030: PERMIT REQUIRED:

It is unlawful to place or maintain a newsrack on property owned by the city or on publicly owned sidewalks without obtaining a permit for distributing materials through newsracks on such property pursuant to the provisions of this chapter. (Ord. 18-91 § 3, 1991)

14.36.040: DEFINITION OF NEWSRACK:

For the purpose of this chapter, "newsrack" means any outdoor self-service or coin operated container, rack or structure used or maintained for the distribution of newspapers, news periodicals or other printed material. (Ord. 18-91 § 3, 1991)

14.36.050: NEWSRACK ALLOWED ONLY IN SPECIFIED AREAS:

A. Newsracks on city owned property or on publicly owned sidewalks shall be lawful within the expanded central business district ("ECBD") which is defined to include the area of downtown bounded on the north by the north side of North Temple Street; on the east by the east side of 200 East Street; on the south by the south side of 500 South Street; and on the west by the west side of 400 West.

B. Outside the ECBD the existing newsracks which substantially conform to the provisions of this chapter and which are listed on exhibit A to the ordinance codified herein, a copy of which shall be filed with the city recorder along with said ordinance, may remain in their present location subject to section 14.36.260 of this chapter.

C. The airport may make such rules and regulations governing the location and fees for newsracks as the airport director deems reasonably necessary to ensure the safety and efficient operation of the airport.

D. Other than as allowed by subsections A, B and C of this section, it is unlawful to own, operate, place or maintain a newsrack on city owned property or publicly owned sidewalks. (Ord. 18-91 § 3, 1991)

14.36.060: YEARLY PERMIT OR CERTIFICATION:

Anyone desiring to use newsracks on city owned property or publicly owned sidewalks shall, prior to any initial use, and thereafter before July 31 of each year, submit the required permit application or certification as specified below. (Ord. 18-91 § 3, 1991)

14.36.070: PERMIT APPLICATION:

An application for a permit to distribute through newsracks on city owned property or publicly owned sidewalks ("permit") shall be filed with the zoning administrator upon a form provided by the administrator and shall include the following:

A. The name, address, and telephone number of the applicant;

B. The name, address, and telephone number of a responsible person whom the city may notify or contact at any time concerning the applicant's newsracks;

C. Evidence of the applicant's qualification to do business in the state of Utah;

D. Evidence of the applicant's Salt Lake City business license;

E. The name of the materials to be distributed by the newsrack;

F. The number of newsracks on city owned property or publicly owned sidewalks which will be, or are expected to be, maintained by the applicant; and

G. The evidence of insurance or self-insurance required by section 14.36.140 of this chapter. (Ord. 18-91 § 3, 1991)

14.36.080: PERMIT FEE:

The permit application shall be accompanied by the fee shown on the Salt Lake City consolidated fee schedule, per newsrack to partially defray the cost of reviewing the permit application. (Ord. 24-11, 2011)

14.36.090: ISSUANCE OF PERMIT:

The zoning administrator shall issue a permit upon filing the completed application and payment of the application fee. (Ord. 18-91 § 3, 1991)

14.36.100: CERTIFICATION APPLICATION:

For any subsequent year after a newsrack permit has been issued the permittee shall, on or before July 31 of each subsequent year, submit a certificate, on a form to be provided by the city, which shall include the following:

A. Any changes in the information provided to the city by the permit application; and

B. A map of the expanded central business district and the city showing the location of newsracks subject to the permit which are maintained by the permittee. If the permit holder distributes more than one publication through the newsracks the map shall identify which publication is distributed at which newsrack location. (Ord. 18-91 § 3, 1991)

14.36.110: CERTIFICATE FEE:

Accompanying the certificate filing shall be the fee shown on the Salt Lake City consolidated fee schedule, per newsrack to partially defray the city's cost of reviewing the certificate and the information contained therein. (Ord. 24-11, 2011)

14.36.120: TRANSITIONAL FILINGS:

After the ordinance codified herein becomes effective, any person owning or maintaining a newsrack on city owned property or publicly owned sidewalks shall obtain a permit by filing a permit application and section B of the yearly certification on or before July 31, 1991. The filing shall be accompanied by a fee in the amount of five dollars ($5.00) per newsrack to partially defray the city's costs of processing the permit and certification. This initial filing shall be all the filing required until July 31, 1992. (Ord. 18-91 § 3, 1991)

14.36.130: HOLD HARMLESS:

Anyone owning or maintaining a newsrack on city owned property or publicly owned sidewalks shall indemnify, defend and hold Salt Lake City and its officers and employees harmless for any loss or damage, including attorney fees, arising out of the use or placement of such newsrack(s). (Ord. 18-91 § 3, 1991)

14.36.140: INSURANCE REQUIREMENTS:

Anyone owning or maintaining a newsrack on city owned property or publicly owned sidewalks shall maintain liability insurance with an insurer insuring against all liability that the owner or maintainer of the newsrack may incur by virtue of the placement, care, use, operation and existence of the newsrack. Such insurance shall have a limit of no less than two hundred fifty thousand dollars ($250,000.00) for each occurrence or, if the provisions of the Utah governmental immunity act are modified, such other limit as may be required to protect the city from liability. This insurance shall name the city as an additional insured and may not be cancelable without thirty (30) days' prior written notice to the city. In lieu of such insurance, a permittee may obtain a waiver of such insurance from the zoning administrator upon a showing, acceptable to the city attorney, that such person has sufficient unencumbered assets available for attachment and execution to satisfy any judgment that would be rendered against it up to two hundred fifty thousand dollars ($250,000.00). The permittee shall provide evidence of insurance or evidence of sufficient assets, as the case may be, to the zoning administrator each year with the permit application or certification. (Ord. 18-91 § 3, 1991)

14.36.150: NUMBER OF NEWSRACKS PER BLOCK:

There shall be no more than thirty two (32) newsracks on any one block, which, for this chapter, shall mean any numbered whole block as shown on the original plat of the city. (Ord. 18-91 § 3, 1991)

14.36.160: GROUPING OF NEWSRACKS:

Between intersecting streets which define blocks, newsracks shall be placed together in not more than three (3) groups of not more than eight (8) newsracks in any group. Each group on the same face of any block shall be separated by a distance of not less than one hundred feet (100'). Each newsrack within a group shall be separated no more than two feet (2') from the nearest other newsrack within the group. Groups located within thirty feet (30') of an intersection shall be considered to be on both block faces. In the event that the design of any special improvement district requires a different grouping pattern on any block face, the grouping on that block face shall be as required by the special improvement district design. (Ord. 18-91 § 3, 1991)

14.36.170: CONCENTRATION OF PUBLICATIONS:

No more than eight (8) newsracks on any block may dispense the same publication. No more than three (3) newsracks on any block face shall dispense the same publication. Newsracks placed within thirty feet (30') of an intersection shall be counted in the total allowed for each block face. (Ord. 18-91 § 3, 1991)

14.36.180: LOCATION RESTRICTIONS:

No newsrack shall be located adjacent to any mailbox, post, pole, water feature, art or monument, or adjacent to or within any raised planter, except when pedestrian circulation space between such items and the newsrack is not needed and sufficient space for maintenance of such items and newsracks is provided, or if the original design of such items specifically provides for newsracks in an integrated design feature, or if the city engineer specifies a particular location for placement, or in a manner which unsafely:

A. Impedes or interferes with the reasonable use of a crosswalk, display window or building entrance;

B. Impedes or interferes with the reasonable use of any kiosk, bench, trash receptacle, drinking fountain, bicycle rack, driveway, alley, or bus shelter;

C. Interferes with the reasonable use of any fire hydrant, traffic signal box, fire call box, police call box, or other emergency facility;

D. Impairs or interferes with pedestrian traffic;

E. Interferes with or impairs the vision of operators of vehicles at street intersections;

F. Reduces the clear, unimpeded sidewalk width to:

1. Ten feet (10') on sidewalks over twelve feet (12') in width, or

2. Less than three-fourths ($^3/_4$) of the width of the sidewalk on sidewalks less than twelve feet (12'), with a four foot (4') minimum.

In determining an unimpeded sidewalk, features such as fountains, fire hydrants or similar structures shall be considered. (Ord. 18-91 § 3, 1991)

14.36.190: LOCATION CHANGES:

So long as the provisions of this chapter are complied with, newsracks may be moved from one permitted location to another permitted location. Additional complying newsracks may be installed by a permittee during the year of any permit or certification. If any newsracks are added after the yearly permit or certification filing, the permittee shall pay the past full year's fee for such added locations at the time of the next yearly filing. (Ord. 18-91 § 3, 1991)

14.36.200: RIGHTS GRANTED:

The approval of any location for use as a newsrack shall not be construed as granting the user any right or interest to or in the property owned by the city. The rights granted by this chapter are merely a license to use the property for permitted purposes, subject to the provisions of this chapter. (Ord. 18-91 § 3, 1991)

14.36.210: ANCHORAGE OF NEWSRACKS:

Newsracks shall be anchored to the ground or sidewalk at their site. Newsracks may not be anchored to trees, posts or poles with chains, rope, cable or otherwise. The permittee shall be responsible for any damage or repairs caused or necessitated by the removal or installation of any newsrack to bring the site to its original condition, ordinary wear and tear excepted. (Ord. 18-91 § 3, 1991)

14.36.220: DESIGN STANDARDS:

All permitted newsracks shall comply with following design standards:

A. Height: As measured from the surface of the sidewalk to the highest point of the newsrack, no newsrack shall exceed:

1. A height of fifty inches (50") when located adjacent to a building or structure, including light poles and similar features, of equal or greater height; or

2. A height of five feet (5') when located adjacent to a building stacked with multiple racks; or

3. Three feet (3') in other locations.

B. Other Dimensions: No newsrack shall exceed:

1. A depth of two feet (2'); and

2. A length of two feet (2').

C. Color: Newsracks shall be flat black, or the designated fixture color as part of any special improvement district with an overall street design theme which specifies particular colors. In the event that the design of a special improvement district requires that newsracks be enclosed within particular materials or colors, any permittee with newsracks within such district shall be notified of the pending requirements and shall comply with them.

D. Advertising: Newsracks shall carry no advertising except a logo or other information identifying the newspaper. This information may be displayed on the newsrack limited to a height of six inches (6") and width of thirteen inches (13") on the upper two-thirds ($^2/_3$) of the sides and a height of three inches (3') and width of twenty inches (20") on the bottom one-third ($^1/_3$) of the front. (Ord. 18-91 § 3, 1991)

14.36.230: NONEMERGENCY REMOVAL; PERMITTEES:

A. Notice: If at any time it is determined by the city that a permittee's newsrack is not in compliance with the requirements of this chapter, a "notice of intent to remove" shall be issued, in writing, to the permittee. Such notice will state the violation or violations which constitute the basis of the proposed removal. The notice shall contain the date, time and place for hearing to be held before removal.

B. Hearing: The hearing shall be held not less than ten (10) days from the time of service of notice. Prior to the hearing the permittee may file a written response to the notice specifically setting forth the reason or reasons the newsrack should not be removed. At the hearing the zoning administrator shall determine whether the newsrack complies with the provisions of this chapter. In the event that the zoning administrator determines the newsrack is not in compliance with this chapter, the newsrack shall be removed by the owner within ten (10) days or otherwise brought into compliance. If the newsrack is not moved as required the city may remove the newsrack and recover the expense of removal from the owner.

C. Appeal: The permittee may appeal any decision or order to the mayor or the mayor's designee. Any appeal shall be filed in writing within ten (10) days of the decision and shall specify the basis for the appeal. The mayor shall consider the appeal based on the written submissions. (Ord. 18-91 § 3, 1991)

14.36.240: EMERGENCY REMOVAL; PERMITTEES:

A. Removal: In the event that a city zoning inspector or the city police or fire department determine that the location or operation of the newsrack constitutes an immediate physical threat to public life, safety or health the newsrack may be removed by the city immediately without any prior notice or hearing. This provision shall not be enforced in any way related to the content or expression of the material distributed by the newsrack.

B. Notice And Hearing: In the event of such an emergency removal the city shall immediately contact the permittee's representative designated pursuant to subsection 14.36.070B of this chapter and inform the representative of the removal and the reason(s) therefor. If requested by the representative, the city shall hold an immediate hearing before the zoning administrator to determine whether or not the removed newsrack constituted an immediate threat to the public's life, safety and health. In the event that the zoning administrator determines that the newsrack did not constitute such an immediate threat, the city shall immediately, at its own expense, replace the newsrack at its location. In the event that no immediate hearing is requested by the permittee's representative, a hearing as provided in subsection 14.36.230B of this chapter shall be held.

C. Appeal: The permittee may appeal any decision or order to the mayor or the mayor's designee. Any appeal shall be filed in writing within ten (10) days of the decision and shall specify the basis for the appeal. The mayor shall consider the appeal based on the written submissions. (Ord. 18-91 § 3, 1991)

14.36.250: UNAUTHORIZED NEWSRACKS:

Any newsracks on city owned property or publicly owned sidewalks, except those for which a permit has been obtained pursuant to this chapter, shall be impounded by the city without prior notice or hearing. The city shall take reasonable efforts to determine the owner of the newsrack and shall notify the owner of the impoundment. The owner of any impounded newsrack shall be responsible for the expense of removal and storage of such newsrack. If the owner fails to reclaim the impounded newsrack and pay the expenses of removal and storage within thirty (30) days from notice of impoundment, the newsrack may be deemed unclaimed property and may be disposed of pursuant to law. (Ord. 18-91 § 3, 1991)

14.36.260: NONCOMPLYING DESIGNS OUTSIDE ECBD:

A. Newsracks which are not in the ECBD but whose location is permitted by subsection 14.36.050B of this chapter, as listed on exhibit A, and for which a permit has been obtained, shall comply with the design standards of section 14.36.220 of this chapter before July 1, 2001, or at any such earlier date when the city owned property or publicly owned sidewalk where the newsrack is located is substantially repaired or altered by a special improvement district or other similar project. (Ord. 18-91 § 3, 1991)

14.36.270: NONCOMPLYING LOCATIONS WITHIN ECBD:

Newsracks for which a permit has been obtained and which either comply with the design standards of section 14.36.220 of this chapter, or are temporarily exempted from such compliance pursuant to section 14.36.280 of this chapter, which are located at a site which does not comply with the location requirements of section 14.36.180 of this chapter may remain in the present location until July 1, 1996, or any such earlier date when the city owned property or publicly owned sidewalk where such newsrack is located is substantially repaired or altered by a special improvement district or other similar project. (Ord. 18-91 § 3, 1991)

14.36.280: NONCOMPLYING DESIGNS WITHIN ECBD:

Newsracks for which a permit has been obtained, which are anchored to a location permitted by either section 14.36.180 or 14.36.270 of this chapter and which are substantially in compliance with the design provisions of section 14.36.220 of this chapter, except that the colors allowable may include white newsracks or blue and white newsracks, may remain with their present design until July 1, 1996, or any such earlier date when the city owned property or publicly owned sidewalk where the newsrack is located is substantially repaired or altered by a special improvement district or similar project. (Ord. 18-91 § 3, 1991)

CHAPTER 14.38
SIDEWALK ENTERTAINERS AND ARTISTS

14.38.010: PURPOSE AND INTENT OF PROVISIONS:

The city council hereby finds and declares:

A. Salt Lake City ordinances prohibit the conduct of any business or the sale of any goods or merchandise from any stand or structure upon certain streets or sidewalks of the city; however, the city has by ordinance provided for certain exceptions to the foregoing prohibition, including exceptions for sidewalk vending carts, sidewalk sales by abutting businesses, and newsracks;

B. It is in the public interest to enliven and increase the presence of the arts and create a festive atmosphere in certain downtown and other commercial areas, and in larger city parks, by encouraging artists to express themselves on certain city sidewalks and in certain larger city parks;

C. It is in the public interest to encourage artists to display or perform their artwork on certain city sidewalks and in larger city parks, to provide opportunities for these artists to fully express themselves, and to provide greater opportunities for the public to experience such artwork;

D. It is in the public interest to encourage and promote the community of artists who desire to display or perform their artwork on certain city sidewalks and in larger city parks;

E. It is in the public interest that the first amendment rights of artists be advanced by allowing them to display or perform their artwork on certain city sidewalks and in larger city parks, subject to reasonable time, place, and manner regulations governing such displays or performances;

F. The city has an obligation to the general public to provide reasonable access to and use of city open space and to provide reasonably unobstructed passage over the public ways in a clean, safe, and orderly manner;

G. The primary purpose of public sidewalks is for the passage of pedestrians from one point to another;

H. The city has established various zoning districts within the city in recognition of the differing character, nature and use of specific areas of the city, and it is in the public interest, both for citizens and artists, to concentrate artists in those districts where their activities would be most compatible with the primary character, nature and use of the district; it is in the public interest to concentrate artists primarily in the downtown, gateway and Sugar House commercial districts because these districts are specifically designed to accommodate larger crowds and allow for the safer display or performance of artwork; it is in the public interest to exclude artists from those areas that are primarily residential or industrial, contain only small scale or neighborhood commerce (e.g., section 21A.26.020, "CN Neighborhood Commercial District" and 21A.26.030, "CB Community Business District", of this code), are intended to serve primarily the automobile driving consumer (e.g., sections 21A.26.040, "CS Community Shopping District" and 21A.26.050, "CC Corridor Commercial District", of this code), or are otherwise unsuited for the display or performance of artwork as the presence of artists on the public sidewalks and parking strips in these areas is likely to: 1) result in greater pedestrian and/or traffic congestion; 2) threaten the public health, safety, and welfare of the citizenry; 3) create visual blight or impact the aesthetic value of the communities; 4) impact access to and egress from businesses and residential areas; 5) block sight easements to businesses and residential areas; 6) prevent the free flow of vehicular and pedestrian traffic; 7) impede the response time of safety personnel; 8) intrude upon the look, feel and quiet enjoyment of a neighborhood; 9) hinder or interfere with the business of local merchants who provide an important tax base for the city; or 10) force citizens to be exposed to unwanted, unwelcome and unsolicited messages or noise with no avenue of escape;

I. The city has a history of issuing permits for special events and free expression activities in the city's parks, including some parks that are nine (9) acres or less in size, and it is in the public interest to continue to allow special events and free expression activities in those parks as provided by title 3, chapter 3.50 of this code; it is also in the public interest, however, to otherwise exclude artists not obtaining such permits from those city owned parks that are nine (9) acres or less in size, as those city parks are located primarily in residential areas (or areas intended by the city zoning ordinances to become residential areas), and are intended to serve and do serve primarily as family and recreational activity centers where citizens can enjoy the peace, quiet, and tranquility of the city's open space; the presence of artists in these smaller city parks on an ongoing and unregulated basis and without a permit to hold a special event or free expression activity is inconsistent with these purposes; the city's larger parks are more amenable to the display or performance of artwork without a permit to hold a special event or free expression activity; limiting artists to the larger parks or to the boundaries of short term, permitted special event or free expression activity under title 3, chapter 3.50 of this code will better accommodate the competing interests of artists and those wishing to enjoy the peace, quiet and tranquility of the city's parks;

J. It is in the public interest to promote special events and free expression activities, to ensure that those participating or visiting such special events and free expression activities are allowed to do so peacefully and without undue interference, to ensure that those desiring to participate or visit such special events and free expression activities enjoy free and unimpeded ingress and egress to and from such special events and free expression activities, and that the speech or expressive activity of third parties not actually involved with the special event or free expression activity is not unduly confused with the speech or expressive activity of those organizing, participating or visiting the special event or free expression activity;

K. Special events require efficient ingress and egress of event patrons, and patrons should be protected from having to enter into roadways or streets as they line up to enter a special event if passage to a special event is blocked;

L. While it is in the public interest to protect the first amendment rights of artists to display or perform their artwork for sale or compensation, it is also in the public interest to require those artists wishing to display or perform their artwork for sale or compensation to register with the city and pay a nominal fee as such registration will allow the city to better monitor this commercial activity, enforce generally applicable commercial and business ordinances that may apply to such commercial activity, and protect the consuming public; these public interests do not apply to artists who display or perform their artwork for free; and

M. The above strong significant governmental interests compete with public and private interests in freedom of expression, the personal and commercial interests of entertainers and artists, the personal and commercial interests of the city's merchants, and the interest of the general public to use and enjoy city property; the city therefore desires, through the following reasonable time, place, and manner regulations, to balance those competing interests and protect the health, safety, and welfare of the citizens and visitors to the city, preserve the quality of life of city residents and business owners alike, preserve the property values and character of neighborhoods surrounding city owned property, support the local merchant economies, and provide artists with opportunities to exercise their constitutional rights to display and perform their artwork on certain city sidewalks or in larger city parks. (Ord. 25-04 § 1, 2004)

14.38.020: TITLE:

This chapter may be referred to as the *SALT LAKE CITY SIDEWALK ENTERTAINMENT AND ART DISPLAYS ORDINANCE*. (Ord. 25-04 § 1, 2004)

14.38.030: DEFINITIONS:

For the purposes of this chapter, the following words or phrases shall have the following meanings:

ART: A type of expressive activity, often characterized by pictorial or visual display: a) that is intended to convey particular ideas, concepts, opinions, emotions, points of view, or other messages and b) for which there is a reasonable likelihood that those who view it will understand it to convey such communicative elements or messages. "Art" includes, for example, paintings, drawings, photography, sculptures, etchings, and live entertainment. "Art" may also include T-shirts and other clothing items, baskets, jewelry, and other similar craft items where such items incorporate communicative elements or contain messages. "Art" does not include mere commercial merchandise not itself inextricably intertwined with some communicative element or not intended and reasonably understood to convey a message such as the following: items that are mass produced primarily for commercial sale, vials of fragrant oils, prayer beads, fashion bracelets and other nonexpressive jewelry items, nonmessage bearing T-shirts or other clothing items, playing cards, collectibles (e.g., Olympic pins and plates), souvenirs (e.g., shot glasses and pens), balloons, or food or other items intended primarily for human consumption.

ARTIST: A sidewalk entertainer or a sidewalk artist.

AVAILABLE CITY PROPERTY: A. Sidewalk and park strips. Portions of publicly owned sidewalks and park strip areas within the following commercially zoned districts (but excluding landscaped areas in the middle of any public street):

1. Section 21A.26.060, "CSHBD Sugar House Business District", of this code;
2. Section 21A.30.020, "D-1 Central Business District", of this code;
3. Section 21A.30.030, "D-2 Downtown Support District", of this code;
4. Section 21A.30.040, "D-3 Downtown Warehouse/Residential District", of this code;
5. Section 21A.30.045, "D-4 Downtown Secondary Central Business District", of this code; and
6. Section 21A.31.020, "G-MU Gateway-Mixed Use District", of this code;

B. Larger city parks. Areas specifically designated by the director of public service, in accordance with subsection 14.38.050B of this chapter, within those city operated parks (not necessarily limited to those parks identified in title 15, chapter 15.04 of this code) that are larger than nine (9) acres;

C. Library plaza. Any area or areas within the library plaza specifically designated by the director of public services in accordance with subsection 14.38.050B of this chapter; and

D. Washington Square.

DISPLAY: Includes any display of art, whether or not for sale or compensation.

DOWNTOWN LIBRARY BLOCK: The city block bounded by 200 East Street, 400 South Street, 300 East Street, and 500 South Street.

ENTERTAINMENT: Includes, but is not necessarily limited to, the following activities when performed for the general public: acting, singing, playing musical instruments, pantomiming, juggling, performing magic, dancing, reading, puppetry, sidewalk art (i.e., working with nonpermanent, water soluble media, such as chalk, pastels or watercolors directly on the pavement) and reciting.

LIBRARY PLAZA: The outdoor areas on the downtown library block.

PERFORM: Includes performing entertainment for the general public, with or without charge.

SIDEWALK ART: Works of art displayed upon publicly owned property.

SIDEWALK ARTIST: Any person who displays sidewalk art.

SIDEWALK ENTERTAINER: A person, or group of persons together, who perform(s) sidewalk entertainment.

SIDEWALK ENTERTAINMENT: Entertainment performed or provided by a person or group of persons together upon publicly owned property. (Ord. 25-04 § 1, 2004)

14.38.040: DISPLAYS AND PERFORMANCES ALLOWED ONLY IN SPECIFIED AREAS:

Subject to sections 14.38.050, 14.38.060 and 14.38.070 of this chapter, sidewalk art may be displayed, and sidewalk entertainment may be performed, only upon available city property. It is unlawful to display sidewalk art or to perform sidewalk entertainment on publicly owned sidewalks, park strip areas, city operated parks, or other areas of city property that do not constitute available city property. (Ord. 25-04 § 1, 2004)

14.38.050: LOCATION RESTRICTIONS:

A. Sidewalk And Park Strips: No artist may perform sidewalk entertainment or display sidewalk art in any of the following places, even within available city property:

1. Within fifteen feet (15') of the intersection of a sidewalk with any other sidewalk, marked or unmarked crosswalk, or midblock crosswalk; displays shall not obstruct sightlines of motorists or pedestrians at crosswalks or intersections;
2. Within the inner eight feet (8') of any sidewalk twelve feet (12') or greater in width, "inner" meaning as measured from the edge of the sidewalk farthest from the adjacent street or park strip;
3. Within the inner three-fourths ($^3/_4$) of the width of any sidewalk less than twelve feet (12') in width, but in no event nearer than six feet (6') from the inner edge of any sidewalk, "inner" meaning as measured from the edge of the sidewalk farthest from the adjacent street or park strip;
4. Within eight feet (8') of an imaginary perpendicular line running from any building entrance or doorway to the curb line;
5. Within eight feet (8') of any parking space or access ramp for persons with disabilities, fire lane, taxi zone, or loading zone;
6. Within ten feet (10') of the boundary of any designated bus stop;
7. Within eight feet (8') of any office window or display window;
8. Within eight feet (8') of any fire hydrant;
9. In the case of sidewalk artists, within one hundred feet (100') on the same linear block face of a door to any business or gallery displaying or selling artwork as its predominant business activity, whether or not for compensation, if that business has direct access to the city sidewalk; or
10. In the case of sidewalk entertainers, within one hundred feet (100') on the same linear block face of a door to any business, theater, stadium, auditorium, or other place where entertainment is routinely performed, whether or not for charge, if that business has direct access to the city sidewalk.

B. Larger Parks, The Library Plaza, And Washington Square: The director of public services shall designate areas within city operated parks larger than nine (9) acres, the library plaza, and Washington Square that shall constitute available city property. In making such designations the director of public services shall take into consideration the interests: 1) of providing artists reasonable opportunities for self-expression, 2) of providing reasonable opportunities for the public to experience the artists' work, 3) of the public to peaceably enjoy the city's parks, the library plaza, and Washington Square, and 4) of adequately maintaining park, library plaza, and Washington Square vegetation and properties. No artist may perform sidewalk entertainment or display sidewalk art within city operated parks larger than nine (9) acres, within the library plaza, or within Washington Square except within those areas designated by the director of public services under this section.

C. Special Events And Free Expression Activities: No artist shall perform sidewalk entertainment or display sidewalk art within one hundred fifty feet (150') of any special event or free expression activity for which a permit has been issued under title 3, chapter 3.50 of this code while such special event or free expression activity is occurring, if such special event or free speech activity involves, incorporates, promotes, includes, or contains art, artwork, or entertainment activity, unless such artist has permission to do so from the sponsor of the special event or free speech activity. Such distance shall be measured from any boundary of the applicable permitted special event or free expression activity area. The one hundred fifty foot (150') restriction set forth in this subsection shall not apply in those instances in which fences, streets, hedges, bodies of water, or other natural or manmade barriers or obstacles are located between the artist and the special event or free expression activity such that there is no significant likelihood that an objective observer would reasonably believe that the artist is a participant in or a part of the special event or free expression activity. (Ord. 20-06 § 1, 2006: Ord. 60-04 § 1, 2004: Ord. 25-04 § 1, 2004)

14.38.060: SPACE RESTRICTIONS:

A. With respect to art displayed upon publicly owned sidewalks and/or park strip areas, including those areas located within available city property:

1. No artist may display sidewalk art directly on the surface of the sidewalk or ground, or on a blanket or board placed immediately on the sidewalk or ground or on top of a trash receptacle;
2. No artist's display of sidewalk art may exceed six feet (6') in height from ground level or six feet (6') in length;
3. The display of any sidewalk art may not be less than twenty four inches (24") above the sidewalk or ground if the display surface is parallel to the sidewalk or ground, and may not be less than twelve inches (12") above the sidewalk or ground if the display surface is vertical or slanted;
4. Where a rack or other display structure is placed on top of or above a table or other base, the size of the base shall not be less than the size of the display structure placed thereon;
5. Nothing placed on the base of any display shall exceed the size limitations contained in this section;
6. No artist displaying sidewalk art shall use any area other than the area immediately beneath the surface of the display space for the storage of items for display; and
7. Nothing used by a sidewalk entertainer as a prop or aid in his or her performance shall exceed the size and other limitations set forth in this section or/and applicable to displays.

B. No art displays, stands, props, or other equipment or structures may remain on property owned by the city or on city owned sidewalks between the hours of eleven o'clock (11:00) P.M. and eight o'clock (8:00) A.M. (Ord. 25-04 § 1, 2004)

14.38.070: REGISTRATION REQUIRED:

It is unlawful for any artist, even on available city property, to place or maintain a display of art for sale or compensation, or to perform sidewalk entertainment for compensation, without first registering to sell sidewalk art or perform sidewalk entertainment on such property pursuant to the provisions of this chapter. (Ord. 25-04 § 1, 2004)

14.38.080: YEARLY REGISTRATION:

Any sidewalk artist or sidewalk entertainer desiring to use available city property for the sale of sidewalk art or performance of sidewalk entertainment for compensation shall, prior to any initial use and annually thereafter, submit the required registration form and registration fee as specified below. (Ord. 25-04 § 1, 2004)

14.38.090: REGISTRATION FORM:

Registrations to use available city property for the display or performance of art, for compensation, shall be made with the city's property manager upon a form provided by the property manager and shall include the following information:

A. The name, address, and telephone number of the registrant;

B. The name, address, and telephone number of a responsible person whom the city may notify or contact at any time concerning the registrant's entertainment or display;

C. A description of the type of sidewalk art to be displayed for sale or sidewalk entertainment to be performed, including an explanation of the dimensions and layout of any display and a diagram, drawing, or other pictorial representation of any proposed display; and

D. The length of time for which the registration is desired (not to exceed 12 months). (Ord. 25-04 § 1, 2004)

14.38.100: REGISTRATION FEE:

The registration form shall be accompanied by the registration fee shown on the Salt Lake City consolidated fee schedule to partially defray the city's cost of reviewing the registration form, issuing the registration certificate, enforcing this chapter and otherwise recouping those maintenance, public health and safety, or other costs and expenses related to this chapter. (Ord. 24-11, 2011)

14.38.110: ISSUANCE OF REGISTRATION CERTIFICATE:

A. The city's property manager shall issue a registration certificate upon receipt of a completed registration form and receipt of the registration fee in accordance with sections 14.38.090 and 14.38.100 of this chapter. The property manager shall provide a copy of each such issued registration certificate, including any photos or descriptions of the art or display, to the city's civil enforcement unit administrator or his/her designee.

B. The time for processing registration forms as specified in this section shall begin to run from the receipt of a completed registration form. Not more than three (3) business days after receipt of a fully completed registration form, the property manager shall either issue or deny the registration certificate, and shall notify, in writing, the registrant of such issuance or denial. If, within that time period, the property manager fails to notify the registrant of the denial of the registration certificate, the registration certificate shall be deemed to have been issued.

C. The registrant may appeal the denial or revocation of a registration certificate by the property manager by filing with the mayor a written notice of appeal. The notice of appeal shall be filed within ten (10) days after receipt of written notice of denial or revocation of the registration certificate. The mayor or his/her designee may consider the appeal based upon the written submissions, or may, for good cause shown, hear oral evidence and argument. Any appeal shall be decided by the mayor or his/her designee within five (5) business days after receipt of the written notice of appeal. (Ord. 43-10, 2010)

14.38.120: HOLD HARMLESS:

Anyone using available city property for sidewalk entertainment or sidewalk art shall indemnify, defend, and hold the city and its officers and employees harmless for any loss or damage, including attorney fees, arising out of such use of such property. This obligation shall not extend to any claims of loss, damage, or injury sustained by any person or persons, to damage to property, or to expenses, including reasonable attorney fees, resulting from actions or omissions not within the artist's reasonable control or to the acts or omissions to act by the city, its officers or employees, or other third persons. (Ord. 25-04 § 1, 2004)

14.38.130: SPECIAL EVENTS:

A. The restrictions of this chapter notwithstanding, nothing herein shall prohibit the city from authorizing persons to conduct sidewalk entertainment, display sidewalk art, or conduct vending operations within such areas as the city may deem appropriate, as a part of a special event or free expression activity. Special event artists or sidewalk entertainers shall not be governed by this chapter, but shall be governed by title 3, chapter 3.50 of this code or such other ordinance, city policy, or executive order as may be applicable. During such special event or free expression activity the city may require other sidewalk artists or sidewalk entertainers to relocate and perform or display art at another available location within available city property.

B. The foregoing notwithstanding, and notwithstanding any provision of title 3, chapter 3.50 of this code to the contrary, no special event or free expression activity shall be allowed within one hundred fifty feet (150') of any other special event or free expression activity for which a permit has been issued under title 3, chapter 3.50 of this code while such special event or free expression activity is occurring, if both of such special events or free speech activities involve, incorporate, promote, include, or contain art, artwork, or entertainment activity, unless the sponsor of such special event or free speech activity has permission to do so from the sponsor of the other special event or free speech activity. Such distance shall be measured from the nearest boundaries of the applicable permitted special events or free expression activity areas. (Ord. 25-04 § 1, 2004)

14.38.140: RIGHTS GRANTED:

By allowing the use of city owned property for sidewalk entertainment or sidewalk art displays the city does not grant the user any property right or interest to or in any property owned by the city. The rights granted by this chapter are subject to the provisions of this chapter and other applicable laws. The sidewalk artist displaying sidewalk art shall be personally present at such display at all times when such sidewalk art is on display, except for thirty (30) minutes in every two (2) hour time period. (Ord. 25-04 § 1, 2004)

14.38.150: VIOLATION; REMOVAL:

If at any time the city determines that an artist's use of available city property or the display placed thereon is not in compliance with the requirements of this chapter or other applicable law, a civil notice of violation, as provided by title 2, chapter 2.75 of this code, shall be issued to the artist by an authorized city official. If, after receipt of civil notice of violation, an artist fails or refuses to remove any display in violation, the city may, after consultation with the city attorney or his/her designee, impound such display. Although prior notice of such impoundment shall not be required, the city shall take reasonable efforts to promptly notify the artist following the impoundment. The owner of any impounded display shall be responsible for the expense of removal and storage of such display. If the owner fails to reclaim the impounded display and pay the expenses of removal and storage within thirty (30) days after notice of impoundment, the display may be deemed unclaimed property and may be disposed of pursuant to law. If in subsequent proceedings on the underlying citation it is determined that the city made an error in impounding the display, the city shall, forthwith, at its own expense, replace the display at its location. This provision shall not be enforced in any way related to the content or expression of the material displayed, distributed, or performed by the artist. (Ord. 25-04 § 1, 2004)

14.38.160: EMERGENCY REMOVAL:

A. Removal: If a city zoning inspector or the city police or fire department(s) determines that an artist's use of available city property or any display placed thereon constitutes an immediate physical threat to public life, safety, or health, the offending display may be removed by the city immediately, without any prior notice or hearing. This provision shall not be enforced in any way related to the content or expression of the material displayed, distributed, or performed by the artist.

B. Notice And Hearing: In the event of such an emergency removal the city shall immediately contact the artist, if known. The city shall inform the artist or the artist's representative of the removal and the reason(s) therefor. If requested by the artist, the city shall hold an expedited hearing before the city's property manager to determine whether or not the removed display constituted an immediate threat to the public's life, safety, or health. If the city's property manager determines that the display did not constitute such an immediate threat, the city shall forthwith, at its own expense, replace the display at its location.

C. Appeal: The artist or the artist's representative may appeal any decision or order by filing with the mayor a written notice of appeal. Any such notice of appeal shall be filed in writing within five (5) days of the removal decision and shall specify the basis for the appeal. The mayor or his/her designee may consider the appeal based on the written submissions, or may, for good cause shown, also hear oral evidence and argument. Any appeal shall be decided by the mayor or his/her designee within two (2) business days. (Ord. 25-04 § 1, 2004)

14.38.170: PENALTIES:

Any violation of this chapter shall constitute a civil violation and shall be handled as provided by title 2, chapter 2.75 of this code. The civil penalty for each such civil violation shall be one hundred dollars ($100.00). Three (3) or more civil violations within a one year period shall constitute a misdemeanor. (Ord. 43-10, 2010)

CHAPTER 14.40
UTILITY POLES AND WIRES

14.40.010: PERMIT; REQUIRED WHEN; REMOVAL OF POLES:

A. It is unlawful for any person to set or erect in or on any public street, alley or way of the city, or in or on any public ground within the city or of the city, any pole or poles for any purpose, without first having procured from the city engineer a permit therefor.

B. The city engineer may issue a permit for the location of poles referred to in this chapter, which permit shall be issued if the poles and structures contemplated are in conformity in type, size and condition with other poles and structures in the general area.

C. The city engineer may, at any time any street, alley or way is about to be paved or otherwise improved, require all persons maintaining poles in the center of or adjacent to such street, alley or way to remove or relocate the same to conform such poles to plans for improvement of the area. (Prior code § 41-8-2)

14.40.020: PERMIT; ISSUANCE ONLY TO FRANCHISE HOLDER:

No permit for the erection or maintenance of any telegraph, telephone, electric light, street railroad, electric railroad or other poles in any of the streets of the city shall be issued to any person, unless such person is a holder of a franchise from the city, granting certain specified and privileged uses of such streets; provided, that a copy of such franchise shall be placed on file with the director of public services for his/her guidance, and provided that nothing in this section shall be construed to authorize the erection of any pole without a permit from the director of public services. (Ord. 6-01 § 5, 2001: Ord. 77-97 § 9, 1997: prior code § 41-8-3)

14.40.030: PERMIT; APPLICATION AND FEE:

All applications for permits to erect poles must be in writing addressed to the director of public services, must be signed by the person desiring to erect the poles therein specified, must state the place or places where it is desired to erect poles, and must be accompanied by the fee shown on the Salt Lake City consolidated fee schedule for each pole, permission to erect which is applied for. Such application must be left with the director of public services and be filed in his/her office. (Ord. 24-11, 2011)

14.40.040: BOND REQUIREMENTS:

It is unlawful for any person to erect or maintain any telegraph, telephone, street railroad, electric light or electric railroad poles within the corporate limits of the city without having first executed and delivered to the city a bond in the sum of twenty five thousand dollars ($25,000.00), to be approved by the mayor, conditioned that such person will indemnify and save the city harmless from any and all damages that may be caused by reason of the erection, maintenance, operation, management or use of such telegraph, telephone, street railroad, electric light or electric railroad poles or the wire thereon within the city. (Prior code § 41-8-1)

14.40.050: POLES AT INTERSECTIONS:

It is unlawful for any person to erect or maintain any pole or other obstruction in the intersection outside of the curb line of any street of the city, except upon plans and specifications submitted to and approved by the city engineer. (Prior code § 41-8-6)

14.40.060: CENTER OF STREET POLES:

It is unlawful for any person to erect poles of any character for any purpose in the center of any street in the city, except upon plans and specifications submitted to and approved by the director of public services. (Ord. 6-01 § 7, 2001: Ord. 77-97 § 11, 1997: prior code § 41-8-7)

14.40.070: POLE APPEARANCE AND DESIGNATION:

It is unlawful for any person to erect or maintain any pole or poles in any street of the city, unless such pole, if wooden, is peeled and neatly trimmed of knots, presenting a smooth appearance, and, whether wooden or steel, painted with a color approved by the director of public services. The name of the corporation erecting or maintaining such pole or poles shall also be designated on the pole or poles in a manner approved by the director of public services. (Ord. 6-01 § 8, 2001: Ord. 77-97 § 12, 1997: prior code § 41-8-8)

14.40.080: WIRES; HEIGHT AND DISTANCE SPECIFICATIONS:

A. It is unlawful for any person to attach any telegraph, telephone or electric light, electric or power wire to any pole in the streets of the city at a distance of less than eighteen feet (18') from the grade of the street at the base of the pole.

B. It is likewise unlawful for any person to attach wires thereon used for a different purpose at a distance of less than three feet (3') from wires previously attached; provided, that this section shall not be construed to prevent any person already having wires attached to a pole from attaching additional wires at a distance of less than three feet (3'), nor from preventing any person, when authorized or directed by the director of public services, from attaching wires to poles at a distance of less than three feet (3') from existing wires when the new wires and the existing wires are used for similar currents; provided, further, that when directed by the director of public services, for the purpose of crossing other wires or other obstructions, the heights and distance of wires may be varied. (Ord. 6-01 § 9, 2001: Ord. 77-97 § 13, 1997: prior code § 41-8-9)

14.40.090: USE FOR FIRE ALARM OR TELEGRAPH PURPOSES:

In case the corporation of the city desires at any time to put in operation any fire alarm or police telegraph system, it reserves to itself the right to use the top of, or a space near the top of, any and all telegraph and telephone poles, free of expense, for the purpose of attaching wires thereto for use in such fire alarm or police telegraph, and the granting of any franchise to any person to erect poles for any of the purposes indicated in this chapter shall be with the above reservation of privilege and right. (Prior code § 41-8-11)

14.40.100: POLES NOT TO INTERFERE WITH OTHER UTILITIES:

It is unlawful for any person to erect or to cause to be erected any pole or poles in any street when the erecting thereof will in any manner interfere with any sewer connection, gas or water main or pipe, or which will in any way interfere with the free use of said streets, and the director of public services is prohibited from granting any permit for the erection of poles, the setting of which will in any manner violate this section. (Ord. 6-01 § 10, 2001: Ord. 77-97 § 14, 1997: prior code § 41-8-5)

14.40.110: PULLING DOWN OR DEFACING POLES PROHIBITED:

It is unlawful for any person wilfully or negligently to injure, pull down, break or deface any telegraph, telephone, electric light or power pole or wire erected or standing in the streets of the city. (Prior code § 41-8-12)

CHAPTER 14.44
RAILROADS

14.44.010: TRACKS TO CONFORM TO GRADE; EXCEPTION:

All railroad companies shall make their railroad tracks conform to what is, or may hereafter be, the established grade to the street or place through which their railroads pass, and no company shall have the right to take up, remove, carry away, or cause or permit to be taken up, removed or carried away, any rock, gravel, earth or other material from any street or public place for any purpose, except by permission of the mayor, and under the direction of the director of public services. (Ord. 6-01 § 11, 2001: Ord. 77-97 § 15, 1997: prior code § 35-1-4)

14.44.020: TRACKS TO BE LAID IN CENTER OF STREET:

The tracks of all railroads shall be laid in the center of the streets, unless otherwise directed by the mayor. (Prior code § 35-1-8)

14.44.030: GRADE CROSSINGS; PLANKING AND PAVING:

A. Every railway company operating within the boundaries of the city shall keep every portion of every city street or alley upon or across which their tracks shall be or are constructed and maintained in good and safe condition to accommodate public travel. For this purpose, each railway company will install and maintain the materials required in the manner specified from time to time in writing by the mayor to surface and maintain the same in good condition for public travel.

B. The portions of the street or alley surfaces to be so maintained by all such railway companies shall include all the space between their different rails and tracks and also the space outside the outer rail of each outside track for a distance of two feet (2'), measured from the outside edge of the rail, for the full width of the street or alley, including sidewalks, or length of said street or alley, unless otherwise directed by the mayor.

C. At all times, the surface of the street or alley shall be maintained level with the top of the rails on the track. After being directed in writing to surface or perform maintenance work on an area of trackage, each such railway company shall complete the work specified by the mayor within seven (7) days on small roadway repairs or thirty (30) days for major capital improvements, or such other reasonable time as specified by the city. Every railway company which fails or refuses to comply with such notice, within the time specified, shall pay to the city all costs and expenses incurred by the city or others at its direction for performing the required surfacing and/or maintenance work and the city may thereafter recover such costs and expenses, including attorney fees incidental thereto, in a civil action brought against such railway company in any court having jurisdiction thereof. (Prior code § 35-1-5)

14.44.040: VIADUCTS AND BRIDGES; REQUIRED WHEN:

Such railroads shall, when required by the mayor, construct suitable viaducts over all streets when life or property may be endangered by the ordinary public use of the streets over, upon or across which such railroads are constructed. (Prior code § 35-1-3)

14.44.050: VIADUCTS AND BRIDGES; AT EMBANKMENTS AND EXCAVATIONS:

All railroad companies shall, at their own expense, construct viaducts and bridges for the cross streets, now existing or hereafter opened, intersecting the embankments or excavation of their railroads; they shall also make such grades or excavations as, in the opinion of the mayor, may be required to make the passage over the railroad embankments easy and convenient for all the purposes for which streets are usually used; and they shall make such drains and sewers as their embankments and excavations may make necessary. (Prior code § 35-1-2)

14.44.060: PROTECTION OF STREETS AND DRAINAGE FACILITIES:

It is unlawful for any person to construct a railroad within the limits of the city without complying with the following provisions:

A. Such railroad shall, at its own expense, construct and keep in good repair all water ducts, sewers, drains, street crossings, receiving basins, and all fixtures connected therewith, and all fixtures connected with the distribution of water or sewage in the city which may be affected by the construction of the railroad.

B. All construction, alteration and repairs must be done under the supervision of the director of public services and shall be subject to the approval of the mayor. (Ord. 6-01 § 12, 2001: Ord. 77-97 § 16, 1997: prior code § 35-1-1)

14.44.070: CONSTRUCTION OF TRACKS CROSSING OTHERS:

Nothing in any ordinance or resolution granting a right of way or franchise for a railroad shall be construed to prohibit the mayor from granting permission to any other railroad company to cross any railroad track already laid, and when any railroad shall intersect any other railroad, the rails of each shall be so cut or altered as to permit the cars to pass without obstruction. It is unlawful for any person wilfully to obstruct any railroad in the manner herein prohibited. It is unlawful for any person wilfully to construct a railroad in order to obstruct the free passage of another railroad. (Prior code § 35-1-7)

14.44.080: OBSTRUCTIONS TO STREETS; REMOVAL AND RESTORATION CONDITIONS:

If, at any time after the commencement of the construction of any railroad, it shall appear to the mayor that any part thereof shall constitute an obstruction or impediment to the ordinary use of any street or place, or that it is being operated contrary to the regulations of the city, the railroad company shall, on notice from the mayor, and within the time therein specified, provide a remedy satisfactory to the mayor; should the company fail or refuse to obey the directions of such notice, the mayor may, upon the expiration of the time limited in such notice, cause the obstruction or impediment to be removed, and the street or place restored at the expense of the railroad company which may be recovered in a civil action in any court having jurisdiction thereof. (Prior code § 35-1-6)

14.44.090: RAILROAD HORNS AND WHISTLES; RESTRICTIONS[1]:

A. No railroad shall cause or permit a locomotive horn, whistle or bell to be sounded at Salt Lake City intersections located within a designated quiet zone except when, in the judgment of the operator of the locomotive, it is necessary to do so to prevent damage to property or injury to persons.

B. The provisions of this section prohibiting the sounding of a horn or whistle at specified intersections shall not be enforced until the city transportation director gives notice of a quiet zone to the affected railroads. Notice shall be given by sending a certified letter, return receipt requested, to the affected railroads, with a copy to the city recorder, city prosecutor, and to the city attorney. Said notice shall specify the intersections to which the quiet zone applies. (Ord. 17-01 § 1, 2001)

14.44.095: 900 SOUTH STREET RAILROAD HORN QUIET ZONE:

Notwithstanding the provisions of section 14.44.090 of this chapter, and ordinance 81-04, as amended, and until such ordinance is no longer in effect, with respect to the rail line that parallels 900 South Street at approximately 950 South, and effective for all streets from Redwood Road to 700 West Street, inclusive, no operator of a railroad locomotive or any other railroad vehicle shall cause or permit any locomotive mounted audible warning device to be sounded any further than nine hundred feet (900') distant from any street/track crossing, measuring such distance from the front of an approaching locomotive or other railroad vehicle to the middle of the pavement of an upcoming street, except when, in the judgment of the operator of the locomotive or vehicle, it is necessary or prudent to sound such device to prevent damage to property or injury to persons. (Ord. 81-04, 2004: Ord. 47-03 § 1, 2003)

CHAPTER 14.48
DECORATIVE STREET LIGHTING PROGRAM

14.48.010: TERMS AND CONDITIONS:

In addition to all other street lighting programs provided by the city, the city may offer a decorative street lighting program which permits the location of private street lighting facilities in the parkway strip, or on other city property; provided, that such program shall be subject to the following conditions:

A. The program shall be voluntary. No property owner shall be required to install, or to consent to the installation of, lighting facilities adjacent to his or her property.

B. All costs related to the street lighting facilities, including costs of acquisition, installation, operation and maintenance, shall be borne by the property owners participating in the program; provided, that the city may pay any administrative costs and expenses and all permit fees.

C. Street lighting facilities located adjacent to an owner's property shall be connected to such owner's electrical service, and the payment of all electric utility charges related to the street lighting facilities shall be the responsibility of such property owner.

D. Each participating property owner shall obtain from the city a revocable permit setting forth the terms and conditions of the use of city property for street lighting purposes, which revocable permit shall be signed by the city and the property owner and recorded in the office of the Salt Lake County recorder. Such revocable permit shall provide that the obligations on the part of the property owner contained therein shall run with the land.

E. All street lighting facilities shall meet certain standards, promulgated from time to time by the transportation division, regarding aesthetics, quality of manufacture, durability, warrantability, location and installation. (Ord. 11-96 § 1, 1996: Ord. 10-96 § 3, 1996)

CHAPTER 14.52
DISPOSITION OF CITY OWNED ALLEYS

14.52.010: DISPOSITION OF CITY'S PROPERTY INTEREST IN ALLEYS:

The city supports the legal disposition of Salt Lake City's real property interests, in whole or in part, with regard to city owned alleys, subject to the substantive and procedural requirements set forth herein. (Ord. 24-02 § 1, 2002)

14.52.020: POLICY CONSIDERATIONS FOR CLOSURE, VACATION OR ABANDONMENT OF CITY OWNED ALLEYS:

The city will not consider disposing of its interest in an alley, in whole or in part, unless it receives a petition in writing which demonstrates that the disposition satisfies at least one of the following policy considerations:

A. Lack Of Use: The city's legal interest in the property appears of record or is reflected on an applicable plat; however, it is evident from an on site inspection that the alley does not physically exist or has been materially blocked in a way that renders it unusable as a public right of way;

B. Public Safety: The existence of the alley is substantially contributing to crime, unlawful activity, unsafe conditions, public health problems, or blight in the surrounding area;

C. Urban Design: The continuation of the alley does not serve as a positive urban design element; or

D. Community Purpose: The petitioners are proposing to restrict the general public from use of the alley in favor of a community use, such as a neighborhood play area or garden. (Ord. 24-02 § 1, 2002)

14.52.030: PROCESSING PETITIONS:

There will be three (3) phases for processing petitions to dispose of city owned alleys under this section. Those phases include an administrative determination of completeness; a public hearing, including a recommendation from the planning commission; and a public hearing before the city council.

A. Administrative Determination Of Completeness: The city administration will determine whether or not the petition is complete according to the following requirements:

1. The petition must bear the signatures of no less than eighty percent (80%) of the neighbors owning property which abuts the subject alley property;

2. The petition must identify which policy considerations discussed above support the petition;

3. The petition must affirm that written notice has been given to all owners of property located in the block or blocks within which the subject alley property is located;

4. A signed statement that the applicant has met with and explained the proposal to the appropriate neighborhood organization entitled to receive notice pursuant to title 2, chapter 2.62 of this code; and

5. The appropriate city processing fee shown on the Salt Lake City consolidated fee schedule has been paid.

B. Public Hearing And Recommendation From The Planning Commission: Upon receipt of a complete petition, a public hearing shall be scheduled before the planning commission to consider the proposed disposition of the city owned alley property. Following the conclusion of the public hearing, the planning commission shall make a report and recommendation to the city council on the proposed disposition of the subject alley property. A positive recommendation should include an analysis of the following factors:

1. The city police department, fire department, transportation division, and all other relevant city departments and divisions have no reasonable objection to the proposed disposition of the property;

2. The petition meets at least one of the policy considerations stated above;

3. Granting the petition will not deny sole access or required off street parking to any property adjacent to the alley;

4. Granting the petition will not result in any property being landlocked;

5. Granting the petition will not result in a use of the alley property which is otherwise contrary to the policies of the city, including applicable master plans and other adopted statements of policy which address, but which are not limited to, midblock walkways, pedestrian paths, trails, and alternative transportation uses;

6. No opposing abutting property owner intends to build a garage requiring access from the property, or has made application for a building permit, or if such a permit has been issued, construction has been completed within twelve (12) months of issuance of the building permit;

7. The petition furthers the city preference for disposing of an entire alley, rather than a small segment of it; and

8. The alley property is not necessary for actual or potential rear access to residences or for accessory uses.

C. Public Hearing Before The City Council: Upon receipt of the report and recommendation from the planning commission, the city council will consider the proposed petition for disposition of the subject alley property. After a public hearing to consider the matter, the city council will make a decision on the proposed petition based upon the factors identified above. (Ord. 24-11, 2011)

14.52.040: METHOD OF DISPOSITION:

If the city council grants the petition, the city owned alley property will be disposed of as follows:

A. Low Density Residential Areas: If the alley property abuts properties which are zoned for low density residential use, the alley will merely be vacated. For the purposes of this section, "low density residential use" shall mean properties which are zoned for single-family, duplex or twin home residential uses.

B. High Density Residential Properties And Other Nonresidential Properties: If the alley abuts properties which are zoned for high density residential use or other nonresidential uses, the alley will be closed and abandoned, subject to payment to the city of the fair market value of that alley property, based upon the value added to the abutting properties.

C. Mixed Zoning: If an alley abuts both low density residential properties and either high density residential properties or nonresidential properties, those portions which abut the low density residential properties shall be vacated, and the remainder shall be closed, abandoned and sold for fair market value. (Ord. 24-02 § 1, 2002)

14.52.050: PETITION FOR REVIEW:

Any party aggrieved by the decision of the city council as to the disposition of city owned alley property may file a petition for review of that decision within thirty (30) days after the city council's decision becomes final, in the third district court. (Ord. 24-02 § 1, 2002)

CHAPTER 14.54
DEDICATION OF PRIVATE STREETS TO PUBLIC OWNERSHIP

14.54.010: PURPOSE:

The purpose of this chapter is to establish policy and procedures for the dedication of private streets to public ownership. Private alleys are excluded from this policy. (Ord. 88-10, 2010)

14.54.020: POLICY:

It is the policy of Salt Lake City Corporation that:

A. The city will not make a proactive effort to bring private streets into public ownership unless there is a compelling public interest;

B. Private streets created as part of a platted subdivision will not be considered for public ownership unless there is a compelling public interest;

C. Existing private streets may be considered for public ownership when requested by property owners abutting the private street. That request will come in the form of a private street dedication petition. The petition must be signed by property owners representing one hundred percent (100%) of the total linear front footage of the street. By signing the petition, the petitioners agree it is their intent to dedicate the street to public ownership;

D. Private streets will not be considered for public ownership unless:

1. The underground utilities meet city standards or until the utilities are brought up to city standards;

2. The street surface features meet current city standards or are brought into an acceptable degree of compliance. Numerous factors will be considered through the petition process and the fact that the underground and surface standards are met does not guarantee that the street will be brought into public ownership. There are certain city standards that the city will not consider waiving or reducing (grade, surface, width), as they relate to health and safety and ability to provide services. Streets will not be considered for public ownership if they have less than sixteen feet (16') of clear paved way, not including parking. If the clear paved width, not including parking, is between sixteen (16) and twenty feet (20'), the city will consider public ownership if there is a compelling public interest. Grade of the street must meet current city street grade standards; and

3. Deteriorated retaining walls and other private property features abutting the proposed public ownership are removed, repaired, or replaced by the property owners to ensure public safety;

E. Salt Lake City will not pay the cost of underground (utilities, etc.) or surface (curb, gutter, sidewalks, concrete, etc.) improvements to bring the street up to city standards. The burden is on the private street property owners to fund necessary improvements. Private street property owners may pursue funding options to upgrade the street to city standards through the city's community development block grant (CDBG), capital improvement program (CIP), or special assessment area (SAA) programs if the private street was not expressly created in a platted subdivision. City funds will not be expended on streets created as a part of a platted subdivision, on the policy basis that taxpayer funds should not be expended to address deficiencies in standards consciously chosen by the property developer. If directed by the mayor, the city may make repairs to water or sewer lines in an emergency situation involving a substantial risk to health or safety and on the basis that the owner will reimburse the city;

F. If matching funding is requested from the city through the CDBG or CIP programs, or through creation of an SAA, the request will be considered through the routine processes for allocation of those funds and will not be given priority;

G. The city will not agree to split the ownership of utilities and streets unless there is compelling public benefit;

H. If a private street was created as part of a planned development, the city will not pay, or share the cost of repairing or improving the street. If the street was created through a planned development, an amendment to the planned development is required. There must be a compelling public interest proven for public ownership to be considered. The amendment process will be reviewed by the planning commission with a recommendation forwarded to the city council;

I. The city has no affirmative duty to inform residents if their street or utility is private. However, as a courtesy, when a customer signs up for water service, the city will make a reasonable effort to inform the customer if their street or the water utility line is private;

J. The city will not take ownership of a street that does not allow public access;

K. The city will not take ownership of a street that is targeted for redevelopment as identified in a city master plan;

L. The city must be able to safely and efficiently provide services (fire protection, garbage collection, snow removal, etc.) along the street in order to dedicate a private street to public ownership;

M. No specific rights or guarantees for use of the street, such as on street parking, are conveyed to private street owners when a private street becomes publicly owned; and

N. The city will not consider the acceptance of an existing private street to public ownership unless it is demonstrated that the street dedication achieves at least one of the following objectives:

1. The street currently provides, or can provide with improvements:

a. Access to open space, public facilities/uses or other public amenities;

b. Mid-block pedestrian access;

c. An improvement to the surrounding pedestrian or vehicular circulation pattern;

d. An identified planning goal as noted in the adopted master plan for the neighborhood;

2. Dedicating the private street to public ownership will encourage reinvestment in the community;

3. Dedication of the street will improve public health, safety, and general welfare. (Ord. 88-10, 2010)

14.54.030: ADMINISTRATIVE PROCEDURES:

The mayor is authorized to adopt additional, consistent administrative procedures necessary to implement this policy. (Ord. 88-10, 2010)

Title 15 - PARKS AND RECREATION

CHAPTER 15.04
PARKS, PLAY FIELDS AND GOLF COURSES

15.04.010: APPLICABILITY OF PROVISIONS:

The provisions of this chapter shall apply to the public parks and playgrounds as named and described in the succeeding sections of this chapter. (Prior code § 27-8-1)

15.04.030: DESCRIPTION OF IONE MCKEAN DAVIS MEMORIAL PARK:

Ione McKean Davis Memorial Park is described as follows:

Beginning at the northeast corner of Lot 4, Block 13, Sunnyside Park Subdivision, said corner being West 33.0 feet and South 35.0 feet from City Monument at the intersection of 900 South Street and 20th East Street; thence south 252.45 feet to the southeast corner of Lot 1, Block 13, Block 27, 5 Acre Plat "C" Salt Lake City Survey; said point is also a point on curve, radial line bears north; thence northwesterly along the arc of a curve to the right 66.208 feet, radius 252.699 feet to a point of reverse curve, radial line bears S 15 degrees 00'42" W; thence northwesterly along the arc of a curve to the right 83.500 feet, radius 318.699 feet, to a point of tangency; thence east 34.86 feet to a point of curve, radial line bears north; thence northeasterly along the arc of a curve to the left 75.290 feet, radius 35.013 feet; thence N 33 degrees 15'00" W 216.822 feet to a point on a curve, radial line bears N 6 degrees 15'51" E; thence easterly along the arc of a curve to the left 44.83 feet, radius 410.050 feet to a point of tangency; thence east 158.000 feet to the point of beginning.
Contains 0.7217 acre.
(Ord. 23-86, 1986: prior code § 27-8-32)

15.04.040: DESCRIPTION OF DILWORTH PARK:

Dilworth Park is described as follows:

Beginning at the southwest corner of Lot 4, Block 6, 5 Acre Plat "C", B.F.S.; thence S. 89 deg. 52' E. 761.24 feet; thence N. 0 deg. 09'40" E. 326.67 feet; thence N. 89 deg. 52' W. 290.5 feet; thence S. 62 deg. 46' W. 204.0 feet; thence S. 0 deg. 11'30" W. 51.89 feet; thence N. 89 deg. 52' W. 289.58 feet; thence S. 0 deg. 11'30" W. 181.0 feet to the point of beginning.
(Prior code § 27-8-2)

15.04.060: DESCRIPTION OF ENSIGN DOWNS:

Ensign Downs is described as follows:

Beginning at a point 50.0 feet north and 30.06 feet west of the northeast corner of Lot 1, Ensign Downs Plat "B" Subdivision and running thence N. 15 deg. 06' W. 861.66 feet to the south line of Greenstroke Drive; thence southwesterly along the southerly line of Greenstroke Drive to the intersection with Highfall Road; thence southeasterly along the easterly line of Highfall Road to the intersection with Dorchester Drive; thence southeasterly along the northerly line of Dorchester Drive to the point of beginning.
(Prior code § 27-8-4)

15.04.070: DESCRIPTION OF FAIRMONT PARK:

Fairmont park is described as follows:

The area bounded between 9th East Street and 11th East Street and between Sugarmont Avenue and I-80 excepting the lots being 110.27 feet in depth on both sides of Simpson Avenue extending 726.0 feet east of 9th East Street.
(Prior code § 27-8-5)

15.04.080: DESCRIPTION OF JORDAN PARK:

Jordan park is described as follows:

The area bounded between 9th West Street and the Jordan River and between Montague Avenue and Fremont Avenue, excepting two (2) areas described as follows:

Beginning at the northwest corner of the intersection of Fremont Avenue and 8th West Street; thence west along the north line of said avenue 437.90 feet; thence north 2,150 feet; thence east 287.90 feet; thence north 25.00 feet; thence east 150.0 feet; thence south 240.0 feet to the point of beginning. Also, Lots 8 and 9, Block 2, Silver Park Subdivision, all being located in Section 11, T. 1 S., R. 1 W., Salt Lake Base and Meridian.
(Amended during 1/88 supplement: prior code § 27-8-6)

15.04.090: DESCRIPTION OF LAIRD PARK:

Laird park is described as follows:

All of Lots 20 through 40, Block 5, together with the included vacated alleys, Colonial Heights Subdivision, located in Block 28, 5 Acre Plat "C", Big Field Survey.
(Prior code § 27-8-7)

15.04.100: DESCRIPTION OF LIBERTY PARK:

Liberty park is described as follows:

All of Block 19, 5 Acre Plat "A", Big Field Survey, being further described as the area between 5th East Street and 7th East Street between 9th South Street and 13th South Street.
(Prior code § 27-8-8)

15.04.110: DESCRIPTION OF LINDSEY GARDENS:

Lindsey Gardens is described as follows:

Beginning at the southwest corner of Block 112, Plat "D", Salt Lake City Survey; thence east 594.22 feet; thence north 1,154.58 feet; thence west 165.0 feet; thence north 192 feet more or less; thence west 51.50 feet; thence north 220.50 feet, more or less, to the south line of 11th Avenue; thence west 212.72 feet; thence south 412.5 feet to the south line of 10th Avenue; thence west 165.0 feet to the east line of M Street; thence south 1154.58 feet to the point of beginning.
(Prior code § 27-8-9)

15.04.120: DESCRIPTION OF MADSEN PARK:

Madsen park is described as follows:

All of Lots 15 through 29, Western Subdivision, located in Block 57, Plat "C," Salt Lake City Survey, being located between Ninth West Street and Chicago Street on the north side of South Temple Street.
(Prior code § 27-8-10)

15.04.130: DESCRIPTION OF MEMORY GROVE PARK:

Memory Grove park is described as follows:

All of Canyon Road from the north line of 4th Avenue to the intersection with Bonneville Boulevard. Also all of Lots 3 through 10, Block 3, Plat "K," Salt Lake City Survey and the following described area: Beginning at the Southwest corner of Block 71, Plat "D," Salt Lake City Survey; thence west 100 feet more or less to the east boundary of the Canyon Road Subdivision; thence northerly along said line 336 feet more or less to the northeast corner of Lot 9 of said subdivision; thence N. 76 deg. 14 min. 42 sec. W. 70.47 feet to the east line of said Canyon Road; thence northerly along said east line to the intersection of Canyon Road with Bonneville Boulevard; thence southeasterly around a curve to the right and southerly along the west line of said Bonneville Boulevard 3,500 feet more or less to the south line of Eleventh Avenue; thence west 165 feet; thence south 83.0 feet; thence S. 87 deg. 28 min. 28 sec. W. 128.02 feet; thence south 55.0 feet; thence west 122.5 feet; thence south 1,960 feet more or less to the north line of Sixth Avenue; thence west 100.0 feet; thence S. 11 deg. 01 min. 17 sec. W. 83 feet more or less; thence west 214.26 feet; thence south 330.0 feet to said point of beginning; also that area located north of Lot 10 of said Block 3, Plat "K," Salt Lake City Survey and between the east lines of East Capitol Street and Bonneville Boulevard, and the west line of said Canyon Road.
(Prior code § 27-8-11)

15.04.140: DESCRIPTION OF CHARLES LEE MILLER PARK:

Charles Lee Miller Park is described as follows:

Beginning at the northeast corner of Lot 77, Block 13, Douglas Park Subdivision, a subdivision of part of Block 29, Five Acre Plat "C," Big Field Survey and running thence N. 89°56'40" E. 104.39 feet to a point on a 284.91 foot radius curve to the right, said point being also the northwest corner of Lot 1, Block 13, said subdivision; thence southwesterly 149.18 feet along the arc of said curve to point of tangency, said point being also the northwest corner of Lot 10, Block 13, said subdivision; thence S. 29°57'20" W. 77.00 feet to point of curvature on a 373.49 foot radius curve to the right, said point being also the northwest corner of Lot 13, Block 13, said subdivision; thence 260.75 feet along the arc of said curve to a point of reverse curvature with a 555.00 foot radius curve to the left, said point being also the northeast corner of Lot 27, Block 13, said subdivision; thence 387.46 feet along the arc of said curve to a point which is also the northwest corner of Lot 39, Block 13, said subdivision; thence S. 29°57'20" W. 131.60 feet; thence West 28.49 feet to the northwesterly corner of Lot 22, Block 1, Upper Yale Park, a subdivision, a part of Block 29, Five Acre Plat "C," Big Field Survey; thence S. 42°45'00" W. 108.32 feet; thence S. 16°54'04" W. 238.68 feet; thence S. 49°27'20" W. 263.94 feet; thence N. 0°01'04" W. 314.46 feet to southwest corner of Lot 14, Block 29, Five Acre Plat "C," Big Field Survey; thence N. 89°57'20" E. 5.00 feet; thence N. 41°01'45" E. 228.08 feet to the southeast corner of Lot 40, Block 13, Douglas Park Subdivision, a subdivision of part of Block 29, Five Acre Plat "C," Big Field Survey; thence N. 39°57'20" E. 7.47 feet; thence N. 50°02'40" W. 14.50 feet; thence N. 29°45'06" E. 25.40 feet; thence N. 39°57'20" E. 50.00 feet; thence S. 50°02'40" E. 19.00 feet; thence N. 39°57'20" E. 200.00 feet to point of tangency on a 313.30 foot radius curve to the right, said point being also the northeast corner of Lot 51, Block 13, said subdivision; thence 136.70 feet along the arc of said curve to a point of reverse curvature with a 575.30 foot radius curve to the left, said point being also the northeast corner of Lot 59, Block 13, said subdivision; thence 301.23 feet along the arc of said curve to a point of tangency, said point being also the northeast corner of Lot 72, Block 13, said subdivision; thence N. 34°57'20" E. 232.41 feet to the point of beginning.
(Prior code § 27-8-30)

15.04.145: DESCRIPTION OF PARLEY'S HISTORIC NATURE PARK:

Parley's Historic Nature Park is described as follows:

Beginning at the North $^1/_4$ Corner of Section 26, Township 1 South, Range 1 East, Salt Lake Base and Meridian; thence N90°00'00"E 212.49 feet; thence S64°56'27"E 266.56 feet; thence S33°44'23"E 1032.23 feet; thence S77°48'47"W 138.87 feet; thence N89°59'10"W 307.14 feet to a point on the north boundary of North Canyon Rim Subdivision and following said subdivision for the next three courses; thence N84°15'12"W 100.13 feet; thence S86°07'52"W 147.34 feet; thence N82°09'12"W 293.80 feet; thence N00°02'04"W 382.55 feet; thence N77°13'49"W 153.24 feet; thence S00°00'00"E 157.00 feet; thence S51°03'50"W 136.80 feet; thence S00°00'00"E 151.85 feet; thence S23°30'00"W 196.32 feet; thence N90°00'00"W 25.00 feet; thence S00°00'00"E 20.00 feet; thence N90°00'00"W 80.00 feet to the Northeast corner of Canyon Rim Addition #3 Subdivision; thence along said subdivision N73°06'11"W 707.39 feet; thence N41°18'28"W 399.53 feet; thence N55°00'00"W 141.35 feet; thence N30°04'01"W 74.28 feet; thence N55°59'31"W 399.92 feet; thence S00°00'00"E 56.03 feet to the Northeast corner of Pleasant View Heights Addition Subdivision and along said subdivision the next five courses; thence N66°50'00"W 203.40 feet; thence N79° 58'26"W 100.52 feet; thence N31°30'00"E 13.93 feet; thence N58°30'00"W 155.00 feet; thence S31°20'09"W 74.75 feet; thence N07°21'40"W 195.11 feet; thence N90°00'00"E 969.73 feet; thence N00°00'00"E 578.00 feet; thence S71°37'21"E 15.08 feet; thence S40°41'00"E 80.00 feet; thence S80°20'00"E 136.00 feet; thence N73°35'00"E 47.67 feet; thence S75°12'01"E 141.52 feet; thence S44°40'00"E 64.45 feet; thence S55°36'00"E 164.10 feet; thence S73°30'00"E 197.49 feet; thence S00°00'00"E 59.79 feet; thence S65°10'23"E 243.58 feet; thence N23°00'00"E 114.00 feet; thence S68°16'30"E 111.00 feet; thence S69° 30'00"E 214.46 feet; thence S00°00'00"E 99.11 feet to the point of beginning, contains 60.76 acres more or less.
(Ord. 5-11, 2011)

15.04.150: DESCRIPTION OF PIONEER PARK:

Pioneer Park is described as follows:

All of Block 48, Plat "A," Salt Lake City Survey, being the area between Third and Fourth South Streets and Third and Fourth West Streets.
(Amended during 1/88 supplement: prior code § 27-8-12)

15.04.155: DESCRIPTION OF POPLAR GROVE PARK:

Poplar Grove Park is described as follows:

Beginning at a point on the east line of 11th West Street and the south line of Seventh South Street, said point being located in the northwest quarter of the northwest quarter of Section 11, T. 1 S., R. 1 W., Salt Lake Base and Meridian, and running thence east 132.0 feet; thence south 30.0 feet; thence east 132.0 feet to the west line of Emery Street; thence south along said line 673.0 feet; thence west 132.0 feet; thence south 263.0 feet to the north line of Indiana Avenue; thence west 132.0 feet to said east line of 11th West Street; thence north 966 feet to the point of beginning.
(Ord. 26-88 § 1, 1988: prior code § 27-8-16)

15.04.160: DESCRIPTION OF RESERVOIR PARK:

Reservoir Park is described as follows:

All of Block 33, Plat "F," Salt Lake City Survey, being the area between First South and South Temple Streets and University and Thirteenth East Streets.
(Prior code § 27-8-13)

15.04.165: DESCRIPTION OF MIGNON B. RICHMOND PARK:

Mignon B. Richmond park is described as follows:

Beginning at a point that is West 99.000 feet from the northeast corner of Lot 5, Block 20, Plat B, Salt Lake City Survey; County of Salt Lake, State of Utah; thence East 264.000 feet; thence South 230.000 feet; thence East 16.500 feet; thence South 75.000 feet; thence West 148.500 feet; thence North 65.750 feet; thence West 156.750 feet; thence North 74.250 feet; thence East 24.750 feet; thence North 165.00 feet to the point of beginning, as described from original survey of Block 20, Plat B, Salt Lake City Survey. Containing 1.72 acres more or less.
(Ord. 29-88 § 1, 1988)

15.04.170: DESCRIPTION OF RIVERSIDE PARK:

Riverside park is described as follows:

Beginning at the point of intersection of the northerly line of the 5th North Street-6th North Street Diagonal and the east line of the Jordan River right-of-way line and running thence southeasterly along the northerly line of said diagonal street for a distance of 983.2 feet, more or less, to the northerly line of Waverly Subdivision; thence N. 89 deg. 59 min. 30 sec. E. 71.0 feet, more or less, to the southwest corner of Lot 1, Catherine Circle Subdivision; thence North 0 deg. 00 min. 55 sec. W. 214.50 feet; thence N. 89 deg. 59 min. 30 sec. E. 474.95 feet to the west line of 13th West St.; thence N. 0 deg. 00 min. 55 sec. W. 297.0 feet; thence west 559.0 feet; thence north 150.0 feet; thence N. 34 deg. 34 min. E. 211.5 feet; thence N. 5 deg. W. 63.33 feet; thence N. 54 deg. 29 min. 35 sec. W. 314.0 feet thence N. 29 deg. 22 min. 14 sec. W. 129.73 feet; thence north 26 deg. 45 min. West 140.0 feet to the south line of 7th North Street; thence west 166.50 feet; thence north 96.04 ft. to the southeast corner of Lot 1, Rose Park Circle Subdivision; thence N. 79 deg. W. 51.7 feet; thence N. 71 deg. 09 min. W. 122.0 feet; thence N. 71 deg. 10 min. 40 sec. E. 192.0 feet; thence north 2.0 feet; thence N. 83 deg. 22 min. W. 27.22 feet to the east right-of-way line of the Jordan River; thence S. 1 deg. 57 min. 06 sec. E. 970.0 feet, more or less, to the point of beginning.
(Prior code § 27-8-14)

15.04.180: DESCRIPTION OF SHERWOOD PARK:

Sherwood park is described as follows:

Beginning at the southwest corner of Lot 1, Block 3, Sherwood Forest Addition Subdivision, Section 3, T. 1 S., R. 1 W., Salt Lake Base and Meridian, said point being on the north line of Fourth South Street, and running thence north 718.5 feet; thence west 396.0 feet; thence north 20 feet, more or less to the south line of Third South Street; thence west 82.5 feet; thence south 169 feet; thence west 445.2 feet; thence south 388 feet; thence east 345.2 feet; thence south 169 feet; thence east 578.5 feet to the point of beginning.
(Prior code § 27-8-15)

15.04.200: DESCRIPTION OF STRATFORD PARK:

Stratford park is described as follows:

Beginning at a point 66.0 feet west and 137.0 feet north from the southwest corner of Lot 47, Crystal Heights Subdivision, and running thence north 60.0 feet; thence west 125.0 feet; thence north 275.0 feet; thence N. 89 deg. 50 min. 58 sec. W. 263 feet more or less to the east line of Preston Street; thence south 335.0 feet; thence S. 89 deg. 50 min. 58 sec. E. 388 feet more or less to the point of beginning, being located in the southeast quarter of the southeast quarter of Section 21, T. 1 S., R. 1 E., Salt Lake Base and Meridian.
(Prior code § 27-8-17)

15.04.210: DESCRIPTION OF SUGARHOUSE PARK:

Sugarhouse park is described as follows:

Beginning at the west quarter corner of Section 21, T. 1 S., R. 1 E., Salt Lake Base and Meridian, said point also being the southeast corner of Lot 1, Block 1 of Union Heights Subdivision, and running thence N. 0 deg. 13 min. 44 sec. E. along the east boundary of Block 1 of said subdivision and along said line extended 2,420 feet more or less to a point that is 50 feet south of the centerline of 21st South Street, as shown on the Utah State Highway Commission drawing, Federal Aid Project 97-C of 1935; thence running easterly on a line parallel to and 50 feet south from the centerline of said 21st South Street a distance of 2,280 feet more or less to the west line of the Salt Lake City Board of Education property; thence S. 0 deg. 17 min. 36 sec. W. 699.5 feet; thence N. 89 deg. 42 min. 24 sec. W. 378.4 feet; thence S. 0 deg. 17 min. 36 sec. W. 660.0 feet to the south line of said Board of Education property; thence S. 89 deg. 42 min. 24 sec. E. 1,178.4 feet to a point 37 feet west of the 17th East Monument line; thence southerly 775 feet more or less to a point 880 feet west of said monument line, said point also being the west boundary of the Country Club property; thence along said west boundary S. 19 deg. 22 min. W. 411.04 feet to the northeast corner of Lot 378 of Highland Park Plat "A" of said Section 21; thence N. 80 deg. 47 min. 58 sec. W. along the north line of said Highland Park Plat "A" 2,831.9 feet to the point of beginning, excluding therefrom the right-of-way of federal highway Interstate 80.
(Prior code § 27-8-18)

15.04.220: DESCRIPTION OF SUNNYSIDE PARK:

Sunnyside park is described as follows:

Beginning at a point on the north line of Sunnyside Avenue, said point being 543.78 feet east of the west line of Section 9, T. 1 S., R. 1 E., Salt Lake Base and Meridian, and running thence N. 0 deg. 02 min. 01 sec. W. 800 feet; thence S. 89 deg. 59 min. 50 sec. W. 1,243.78 feet; thence S. 0 deg. 02 min. 01 sec. E. 300 feet; thence S. 89 deg. 59 min. 50 sec. W. 400 feet; thence S. 0 deg. 02 min. 01 sec. E. 500 feet; thence N. 89 deg. 59 min. 50 sec. E. 1,643.78 feet to the point of beginning.
(Prior code § 27-8-19)

15.04.230: DESCRIPTION OF WARM SPRINGS PARK:

Warm Springs park is described as follows:

Beginning at a point 68.0 feet east of the City Monument at the intersection of Wall Street and Second West Street, said point being north 1,080 feet more or less and east 420 feet more or less from the south quarter corner of section 25, T. 1 N., R. 1 W., Salt Lake Base and Meridian, said point being also on the east line of said Second West Street, and running thence north along said line 325 feet more or less to the intersection with the east line of Beck Street; thence N. 24 deg. 22 min. 53 sec. W. along said east line of Beck Street 645 feet more or less to the south fence line of the Salt Lake City Animal Shelter; thence N. 65 deg. 37 min. 07 sec. E. 284 feet more or less to the west boundary of the State Road Commission property; thence S. 26 deg. 06 min. E. 90 feet along said property line; thence S. 11 deg. 16 min. W. 69.3 feet; thence N. 81 deg. 53 sec. E. 120.8 feet to west line of Victory Road; thence S. 32 deg. 34 min. E. 1,130 feet more or less along said line to the Utah Power and Light Company's north property line; thence S. 43 deg. 30 min. W. along said property line 405 feet more or less to the east line of said Wall Street; thence N. 49 deg. 04 min. W. along said line 180 feet more or less to a point; thence N. 58 deg. 49 min. W. also along said line 424.9 feet to the point of beginning.
(Amended during 1/88 supplement: prior code § 27-8-20)

15.04.240: DESCRIPTION OF GEORGE WASHINGTON PARK:

George Washington park is described as follows:

Beginning at a point West 1,331.30 feet from the East Quarter Corner of Section 11, Township 1 South, Range 2 East, Salt Lake Base and Meridian, said point further described as being on the east-and-west quarter line for said Section 11, and running thence South 1,150 feet more or less to a point on the curve of a 1,795.10 foot radius curve to the right, said curve further described as being the north right-of-way line for the frontage road adjacent to Interstate 80; thence Northwesterly along the arc of said curve 850 feet more or less to a point of tangency; thence continuing along said North right-of-way line N. 56°25'00" W. 685 feet more or less to a point on the north-and-south quarter line of said Section; thence N. 65°58'47" E. 1,007.22 feet to a point on the east-and-west quarter line of said section; thence N. 42°36'50" W. 1,358.82 feet to the north-and-south quarter line of said Section; thence S. 54°27'43" W. 430.12 feet; thence N. 56°48'32" W. 794.64 feet; thence N. 17°29'16" W. 382.68 feet; thence N. 33°12'23" E. 657.34 feet; thence S. 51°57'50" E. 2,653.55 feet; thence South 455 feet more or less to the point of beginning.
(Prior code § 27-8-31)

15.04.250: DESCRIPTION OF MUNICIPAL BALLPARK:

Municipal ballpark is described as follows:

The area bounded by 7th East Street to the west, 8th East Street to the east, 13th South Street to the north and to a line 111.25 feet north of the north line of Harrison Avenue to the south.
(Prior code § 27-8-26)

15.04.260: DESCRIPTION OF WHITE SOFTBALL PARK:

White softball park is described as follows:

The area is bounded by North Temple Street to the north, Learned Avenue to the south, 10th West Street to the east and 11th West Street to the west.
(Prior code § 27-8-29)

15.04.270: DESCRIPTION OF BONNEVILLE GOLF COURSE:

Bonneville golf course is described as follows:

Beginning at a point on the east line of 21st East Street, said point being S. 0 deg. 11 min. 30 sec. W. 148.0 feet and east 34.56 feet from the City Monument at Hubbard Avenue and 21st East Street, said point being also located in Block 25, 5 Acre Plat "C", Big Field Survey, and Section 10, T. 1 S., R. 1 E., Salt Lake Base and Meridian and running thence east 678.0 feet to the west line of 22nd East Street; thence south 25.0 feet; thence east 228.0 feet; thence north 25.0 feet; thence east 747.28 feet to the centerline of said Section 10; thence south 240.36 feet to the center of the section; thence S. 89 deg. 51 min. 30 sec. E. 2,643.37 feet along the quarter Section line to the west quarter corner of Section 11; thence S. 89 deg. 40 min. E. 434.4 feet along the quarter Section line; thence south 33.0 feet; thence west 54.4 feet; thence S. 0 deg. 09 min. 33 sec. E. 1,658 feet more or less to the north line of Lot 28, Oak Hills Plat "A-1"; thence S. 89 deg. 58 min. 57 sec. W. 310.0 feet; thence S. 44 deg. 55 min. 08 sec. W. 98.88 feet; thence S. 89 deg. 58 min. 57 sec. W. 1,655 feet more or less to the east line of Wasatch Drive; thence north 150 feet along said line; thence S. 89 deg. 58 min. 57 sec. W. 985.27 feet to said centerline of Section 10; thence north 52.06 feet along said line; thence N. 70 deg. 00 min. 34 sec. W. 225.24 feet to a point on a 110 foot radius curve to the left, whose tangent bears N. 10 deg. W.; thence northwesterly 153.59 feet along said curve to a point of tangency; thence west 680.0 feet; thence north 100.0 feet; thence west 266.92 feet more or less to the east line of Foothill Drive; thence N. 33°15' W. 704.66 feet to the intersection with said east line of 21st East Street; thence N. 0°11'30" E. 950.70 feet along said line to the point of beginning.
(Prior code § 27-8-22)

15.04.280: DESCRIPTION OF FOREST DALE GOLF COURSE:

Forest Dale golf course is described as follows:

The area bounded by I-80 to the north, 9th East Street to the west, a line 571.59 feet north of and parallel to the north line of 27th South Street to the south, and by the Jordan and Salt Lake Canal to the east.
(Prior code § 27-8-23)

15.04.290: DESCRIPTION OF GLENDALE PARK GOLF COURSE:

Glendale park golf course is described as follows:

The area bounded by the Brighton-North Point Canal to the west, Jordan River to the east, 17th South Street to the north, and 21st South Street to the south.
(Prior code § 27-8-24)

15.04.300: DESCRIPTION OF NIBLEY PARK GOLF COURSE:

Nibley park golf course is described as follows:

Beginning at the point common to Lots 6, 7, 12 and 13, Block 30, 10-acre Plat "A", Big Field Survey, said point being the northeast corner of Lot 2, Homefield Subdivision, and also on the existing city limit line, and running thence west 555.5 feet; thence north 574.2 feet; thence west 203.5 feet to the east line of 5th East Street; thence north along said line 1,148.4 feet to the south line of 27th South Street; thence east along said line 1,448.60 feet to the west line of the widened 7th East Street; thence south 1,182.0 feet to said city limit line; thence west along said line 935.5 feet; thence south 254.1 feet; thence east 240.5 feet to the east line of said Lot 7; thence south 287.1 feet along said line to the point of beginning.
(Prior code § 27-8-27)

15.04.310: DESCRIPTION OF ROSE PARK GOLF COURSE:

Rose park golf course is described as follows:

Beginning at a point on the east line of Redwood Road, said point being south 231.0 feet and east 55 feet more or less from the south quarter corner of Section 22, T. 1 N., R. 1 W., Salt Lake Base and Meridian, and running thence east 450 feet more or less to the west right-of-way line of the Jordan River; thence northerly along said line 535 feet more or less; thence S. 50° E. 123 feet, more or less to the southwest corner of Lot 4, Rose Park Plat "G-1" Subdivision; thence eastwardly along the south line of said Lot, 149.09 feet to Lot 3 of said subdivision; thence N. 5°44'25" E. 118.34 feet; thence S. 89°59'34" E. 2,083.84 feet to a point of tangency with a 549.73 foot radius curve to the right; thence southeastwardly along said curve 379.73 feet to a point of tangency; thence S. 39°59'34" E. 287.68 feet; thence S. 89°59'34" E. 30.88 feet; thence north 435.0 feet more or less; thence N. 11°45' W. 687.0 feet more or less; thence N. 89°26'5.7" W. 1,798.87 feet; thence N. 0°11'27" E. 288.0 feet; thence west 480.0 feet more or less, to the west bank of the Jordan River; thence northwesterly along the west bank of the Jordan River to the east line of Redwood Road; thence southerly along said east line to the point of beginning.
(Prior code § 27-8-28)

15.04.320: DESCRIPTION OF STEINER AQUATIC CENTER:

Steiner Aquatic Center is described as follows:

A. Parcel 1: Beginning at a point on the east right-of-way of Guardsman Way which is the southwest corner of Parcel No. 2, Tract "L" as shown on the United States Department of Interior, Bureau of Land Management Plat of Section 4, T1S, R1E SLB&M, dated December 2, 1976, a point which is east 699.98 feet and north 1,099.78 feet from Fort Douglas Military Monument No. 3 as shown on City Atlas Plat No. 70; thence N. 00°02'01" W. 160.00 feet along the east right-of-way of Guardsman Way; thence N. 15°26'16" E. 590 feet; thence N. 44°50'52" E. 202.12 feet; thence N. 89°59'50" E. 320.00 feet; thence S. 00°02'01" E. 1,171.43 feet; thence N. 89°59'10" W. 220.00 feet; thence N. 00°59'50" W. 400 feet to the point of beginning. Contains 12.14 acres more or less.

B. Parcel 2: Beginning at a point on the east right-of-way of Guardsman Way, a point which is east 699.98 feet and north 1,259.82 feet from Fort Douglas Military Monument No. 3 as shown on City Atlas Plat No. 70; thence N. 00°02'01" W. 370.00 feet; thence N. 89°59'10" E. 102.40 feet; thence S. 15°26'16" W. 383.87 feet to the point of beginning. Contains 0.435 acre more or less.
(Ord. 84-90 § 1, 1990)

15.04.330: DESCRIPTION OF DONNER TRAIL PARK:

Donner Trail park is described as follows:

A. Parcel 1: Salt Lake County Tax Id. No. 16-11-177-001-0000
Beginning at a point on curve that is east 2,460.22 feet and south 2,532.30 feet from the Northwest Corner of Lot 1, Section 11, Township 1 South, Range 1 East, Salt Lake Base and Meridian; thence southwesterly along a curve to the right 84.37 feet; thence northwesterly along a curve to the right 86.6 feet; thence northwesterly along a curve to the left 538.17 feet; thence N89°40'W 545.71 feet; thence southwesterly along a curve to the left 454.96 feet; thence S36°55'W 75.6 feet; thence westerly along a curve to the right 39.27 feet; thence N53°05'W 360.98 feet; thence northwesterly along a curve to the right 304.62 feet; thence N49°35'E 225.26 feet to the south line of Rotary Park; thence the following eight courses along said south line, S52°28'01"E 508.33 feet; N66°16'33"E 306.63 feet; N18°04'47"E 131.25 feet; N70°47'46"E 164.47 feet; S69°06'27"E 85.44 feet; S34°39'37"E 122.07 feet; S72°58'04"E 522.02 feet; S83°56'37"E 300.17 feet; thence S0°14'34"W 184.04 feet to the point of beginning, containing 11.97 acres more or less.

B. Parcel 2: Salt Lake County Tax Id. No. 16-11-152-005-0000
Beginning at a point that is south 2,635.51 feet and east 255.83 feet from the Northwest Corner of Lot 1, Section 11, Township 1 South, Range 1 East, Salt Lake Base and Meridian; thence N00°50'29"E 302.18 feet; S89°40'E 71.76 feet; thence southeasterly along a curve to the right 31.85 feet; thence southeasterly along a curve to the left 146.14 feet; thence S53°05'E 280.35 feet; thence N89°40'W 154.156 feet; thence N00°50'29"E 50 feet; thence N89°40'W 250.754 feet; thence S00°50'29"W 50 feet; thence N89°40'W 10.6 feet to the point of beginning, contains 1.22 acres more or less.

C. Parcel 3: Salt Lake County Tax Id. No. 16-11-153-001-0000
Lot 11, Canyon View park subdivision.
(Ord. 14-07 § 1, 2007)

CHAPTER 15.08
PARK AND PLAYGROUND RULES

15.08.010: APPLICABILITY OF CHAPTER PROVISIONS:

It is unlawful for any person to do or to allow or permit any of the acts prohibited by this chapter in any public park or playground in Salt Lake City or in any place now, or which may hereafter be, set aside or used as a public park or playground under the jurisdiction of the city, whether within or without the city limits. (Prior code § 27-5-1)

15.08.020: PARK HOURS; DESIGNATED:

A. All public parks and playgrounds of the city shall be closed to the public between the hours of eleven o'clock (11:00) P.M. and five o'clock (5:00) A.M. the following morning, with the exception of:

1. Charles Lee Miller park, which shall be closed to the public between the hours of nine o'clock (9:00) P.M. and five o'clock (5:00) A.M. the following morning;

2. Pioneer park, which shall be closed to the public: a) from May 1 through September 30, between the hours of eleven o'clock (11:00) P.M. and five o'clock (5:00) A.M. the following morning; and b) from October 1 through April 30, between one-half ($\frac{1}{2}$) hour after sunset to seven o'clock (7:00) A.M. the following morning, except that in connection with events or activities at Pioneer park for which a permit has been issued under title 3, chapter 3.50 of this code, the director of public services, or his or her designee, shall, at the request of the sponsor of such event or activity, allow Pioneer park to remain open until eleven o'clock (11:00) P.M. for not to exceed three (3) consecutive days during which the event or activity is occurring;

3. Donner Trail park, which shall be closed to the public between the hours of ten o'clock (10:00) P.M. and five o'clock (5:00) A.M. the following morning; and

4. With the exception of City Creek park, which shall be closed to the public between the hours of eleven o'clock (11:00) P.M. and five o'clock (5:00) A.M. the following morning, all public parks and playgrounds of the city five (5) acres or less in size, whether or not specifically named or described in this title, which shall be closed to the public between the hours of ten o'clock (10:00) P.M. and five o'clock (5:00) A.M. the following morning.

B. The Memorial House in Memory Grove shall be closed to public use at twelve o'clock (12:00) midnight; outdoor activities on the leased south lawn shall be closed at eleven thirty o'clock (11:30) P.M.; and the Memorial House shall be locked and vacant no later than two o'clock (2:00) A.M. Between twelve o'clock (12:00) midnight and two o'clock (2:00) A.M., use of the Memorial House shall be limited to employees cleaning the premises after an activity.

C. No person or persons shall be permitted in said parks or playgrounds, either on foot or on or in any type of vehicle, during such hours unless for the express purpose of traveling directly through the park or playground on a public street that passes through the park or playground. (Ord. 25-08 § 1, 2008: Ord. 14-07 § 2, 2007: Ord. 19-06 § 1, 2006: Ord. 31-01 § 2, 2001: Ord. 35-94 § 1, 1994: Ord. 3-93 § 1, 1993: prior code § 27-6-1)

15.08.030: PARK HOURS; EXEMPTION:

Provided, however, that section 15.08.020 of this chapter, or its successor section, shall not apply to a person or persons who are in the park in conformity with a function or activity for which a permit has previously been authorized pursuant to the provisions of section 15.08.090 of this chapter, or its successor section. (Prior code § 27-6-2)

15.08.040: ADVERTISING MATERIAL DISTRIBUTION:

Subject to the provisions of title 3, chapter 3.50; title 5, chapter 5.65; and title 14, chapter 14.38 of this code, or their successor chapters, no person shall distribute any handbill or circulars, or post, place or erect any bills, notices, papers or advertising device or matter of any kind, except such advertising on seats placed on city owned golf courses as may be authorized in writing by Salt Lake City Corporation. (Ord. 22-02 § 2, 2002: prior code § 27-5-6)

15.08.050: BEER AND ALCOHOLIC BEVERAGES:

It is unlawful for any person to consume beer or any alcoholic beverage, or to have in his or her possession any beer or alcoholic beverage within any public park described in chapter 15.04 of this title, or its successor chapter, provided that this provision shall not apply to those parks in which the city has expressly granted a concessionaire operating in the park a license to sell beer. In Memory Grove Park, alcohol may be served and consumed only on the leased Memorial House premises, including the south lawn area, subject to provisions of any lease agreement which the city may enter into. Sacramental wines may be consumed in conjunction with permitted activities such as weddings in the chapel in the Memorial Grove Park or as otherwise specified in an agreement with the city for management of the Memorial House operations. (Ord. 31-01 § 2, 2001: Ord. 3-93 § 2, 1993: prior code § 27-7-1)

15.08.060: BUSINESS ACTIVITIES:

Subject to the provisions of title 3, chapter 3.50; title 5, chapter 5.65; and title 14, chapter 14.38 of this code, or their successor chapters, no person shall practice, carry on or conduct or solicit any trade, occupation, business or profession, without written permission of the mayor. (Ord. 22-02 § 3, 2002: prior code § 27-5-17)

15.08.070: INTERFERENCE WITH ANIMALS OR FOWL:

A. Unlawful Acts: No person shall annoy, injure, release from confinement, or in any manner interfere with any swan, duck, goose, bird, or animal on the property of the city.

B. Unleashed Dogs:

1. Except as set forth in subsections B2 and B3 of this section, no person shall suffer or permit any dog to enter or remain in a public park or playground unless it be led by a leash of suitable strength, not more than six feet (6') in length.

2. Dogs shall be permitted to run off leash only in areas of parks and public spaces specifically authorized by city ordinance, specifically designated by the director of public services as "off leash areas", and clearly identified by signage as such. Said areas shall be as follows:

   a. Designated areas of Memory Grove Park known as the Freedom Trail section,

   b. The municipal ballpark, also known as Herman Franks Park, except for the fenced youth baseball diamonds and playground area,

   c. Designated areas of Jordan Park,

   d. Designated areas of Lindsey Gardens,

   e. Designated areas of Parley's Historic Nature Park, as set forth in chapter 15.10 of this title, or its successor, and

   f. Experimental areas referred to in subsection 8.04.300C of this code, or its successor subsection.

3. While in such areas dogs shall at all times remain under control of the dog's owner or custodian. "Under control" means that a dog will respond on command to its owner or custodian.

C. Animals To Be Controlled: No person shall ride or drive any horse or animal not well broken and under perfect control of the driver.

D. Livestock And Animals: No person shall lead or let loose any cattle, horse, mule, goat, sheep, swine, dogs, or fowl of any kind.

E. Tethering Animals: No person shall hitch or fasten any horse or other animal to any tree or any other place or structure not especially designated and provided for such purpose. (Ord. 6-11, 2011)

15.08.080: CAMPING:

A. No person shall camp, lodge, make a fire or pitch a tent, fly, lean to, tarpaulin or any other type of camping equipment in any park or playground except:

1. In cases of local emergency as declared by the mayor of the city.

2. By permit issued to youth groups the majority of whose members' ages are at least eight (8) years of age, but no more than seventeen (17) years of age, under the following conditions:

a. The youth are accompanied by adult leaders in the ratio of two (2) adults for every ten (10) youth at all times while the youth are camping in a city park.

b. The youth group provides adequate police and fire security to ensure the safety of the campers and garbage removal and cleanup. The sponsor shall submit a plan along with an application for a special events permit to the city which shall be reviewed and approved by the public services department director, the fire and police chiefs, or their designees, who will forward a recommendation to the mayor as to whether or not the request for camping should be granted. Application for the special events permit shall be made directly to the special events coordinator who shall forward all accompanying information to the appropriate departments.

c. The youth group files a bond in the amount of ten thousand dollars ($10,000.00) to compensate the city for any damage to the park caused by the youth group during their camping activities.

d. The youth group files a certificate of insurance in the aggregate amount of one million dollars ($1,000,000.00), which names the city as an additional insured.

e. No camping is allowed in any one park for more than forty eight (48) continuous hours in any thirty (30) day period.

f. The youth group shall comply with all ordinances and park regulations relating to city parks.

g. No more than sixty (60) people shall be allowed to camp at one time.

B. The public services department director shall issue rules and regulations for the use of parks and parking lot areas for camping and parking of vehicles. Said rules shall specify in which parks camping will be allowed by permit only, wherein the location camping may be allowed and restrict activities of campers with regard to noise, fires, attaching structures to the ground, and specifying qualifications for security personnel. (Ord. 77-12, 2012)

15.08.090: FIRE MAKING:

No person shall make or kindle a fire for any purpose. (Prior code § 27-5-8)

15.08.100: FIREWORKS, FIREARMS AND EXPLOSIVES:

No person shall carry or discharge any firearms, firecrackers, rockets, torpedoes, powder, or any other fireworks or explosives. (Prior code § 27-5-3)

15.08.110: GAMBLING:

No person shall play or bet at or against any game which is played, conducted, dealt or carried on with cards, dice, slot machine, wheels or other device, for money, chips, credit, cigars, candy, merchandise or any other thing representative of value, or maintain or exhibit any cards, dice, table, wheel, machine or other instrument or device for betting, gambling or gaming. (Prior code § 27-5-16)

15.08.120: HUNTING AND FISHING:

No person shall hunt or fish at any park or public grounds. (Prior code § 27-5-24)

15.08.130: LITTERING:

No person shall throw or deposit any bottles, tin or tin cans, broken glass, nails, tacks, crockery, wire, paper, clothes, scrap or sheet iron, boxes, boards, lumber or stone, or any rubbish or garbage. (Prior code § 27-5-20)

15.08.140: PLAY AREA RESTRICTIONS:

No person shall play or engage in any game, excepting at such place as shall be specially set apart for that purpose. (Prior code § 27-5-18)

15.08.150: INJURING OR DESTROYING PROPERTY:

A. Trees, Shrubs, Buildings: No person shall cut, break, injure, deface or disturb any tree, shrub, plant, rock, building, cage, pen, monument, fence, bench or other structure, apparatus or property; or pluck, pull up, cut, take or remove any shrub, bush, plant, flower; or mark, or write upon any building, monument, fence, bench or other structure.

B. Removal Or Destruction Of Property: No person shall cut, remove, injure or destroy any wood, turf, grass, soil, rock, sand or gravel. (Prior code §§ 27-5-4, 27-5-5)

15.08.160: RESTROOM FACILITY USE RESTRICTIONS:

No person over eight (8) years of age shall enter or use any water closet designated for members of another sex in a public park or playground. (Prior code § 27-5-23)

15.08.170: SELLING MERCHANDISE:

Subject to the provisions of title 3, chapter 3.50, title 5, chapter 5.65, and title 14, chapter 14.38 of this code, or their successor chapters, no person shall sell or offer for sale any merchandise, article or thing whatsoever, without the written consent of the mayor within any park or playground, or within a distance of sixty feet (60') of any boundary line of any public park or playground. (Ord. 22-02 § 4, 2002: prior code § 27-5-12)

15.08.180: SWIMMING AND WADING:

No person shall swim, bathe or wade in the waters of any fountain, pond, lake or stream not set aside for the purpose of swimming, bathing or wading, or pollute the waters of any fountain, pond, lake or stream. (Prior code § 27-5-7)

15.08.190: UNAUTHORIZED ASSEMBLY:

No person shall conduct, carry on or participate in any commercially related special event or free expression activity in any city park except pursuant to the provisions of title 3, chapter 3.50 of this code. (Ord. 23-93 § 3, 1993: prior code § 27-5-21)

15.08.200: VEHICLE RESTRICTIONS:

A. Use Of Roads Or Drives: No person shall ride or drive any horse or other animals, or propel any vehicle, cycle or automobile elsewhere than on the roads or drives provided for such purposes, and never on the footpaths.

B. Excessive Speed: No person shall ride or drive any animal or vehicle at a rate of speed exceeding that indicated on traffic signs erected on any parkway within any public park.

C. Business Vehicles: No person shall drive or have any dray, truck, wagon, cart, perambulator, motor vehicle or other traffic vehicle, carrying or regularly used or employed in carrying gifts, merchandise, lumber, machinery, oil, manure, dirt, sand or soil, or any article of trade or commerce, or any offensive article or material whatsoever upon any road or drive, except such as may be specially provided or designated for such use. (Prior code §§ 27-5-10, 27-5-14, 27-5-19)

CHAPTER 15.10
PARLEY'S HISTORIC NATURE PARK USE AND MANAGEMENT

15.10.010: SCOPE:

In addition to the park and playground rules set forth in chapter 15.08 of this title, the provisions of this chapter shall govern the use and management of Parley's Historic Nature Park. In the event of a conflict between the provisions of chapter 15.08 of this title and this chapter, the provisions of this chapter shall apply. (Ord. 7-11, 2011)

15.10.020: PURPOSE AND POLICY OBJECTIVES:

This chapter is enacted to provide rules for the use and management of the Parley's Historic Nature Park and is intended to help achieve the following policy objectives:

A. Protect the riparian corridor and water quality;

B. Protect and restore cultural and natural resources, including water resources, plant communities, wildlife and habitat, biodiversity, and historical sites;

C. Restore damaged areas, including historic features, appropriate user created trails, culvert erosion areas, eroded hillsides and stream banks, riparian corridor vegetation and habitat, and abate noxious weeds;

D. Minimize potential for disasters, including fire, floods, threats to water quality, and extreme climatic variations;

E. Maintain and enhance multiple park uses with minimal conflict, including off leash dog walking; walking, trail running and hiking, including ADA access where possible; regional trails and connections; BMX and cycling; water access; and nature appreciation and education;

F. Identify dog off leash recreation areas;

G. Maintain emergency and maintenance access;

H. Limit undesirable impacts on neighboring property; and

I. Encourage self-policing and volunteer education. (Ord. 7-11, 2011)

15.10.030: PARK USE AND MANAGEMENT PLAN:

The Parley's Historic Nature Park comprehensive use and management plan, dated February 15, 2011, is hereby adopted by this reference and shall be used as an advisory guide for the use and management of the Parley's Historic Nature Park. Notwithstanding the advisory nature of the plan, the interim use plan map, dated February 15, 2011, illustrating and delineating current conditions, and current and future restoration and buffer areas, and the comprehensive use plan map, dated February 15, 2011, illustrating and delineating Parley's Historic Nature Park features referenced in this chapter, are hereby adopted. The use and management of the park shall be as shown on these maps and in accordance with the provisions of this chapter. (Ord. 7-11, 2011)

15.10.040: PARK ENTRANCE POINTS:

A. The Parley's Historic Nature Park shall be accessed only from the following four (4) places as shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter:

1. Entrance A: On the west boundary of the park, located adjacent to the east parking lot of Tanner Park, denominated as "Entrance A" on the interim and comprehensive use plan maps;
2. Entrance B1: On the west end of Parley's Trail, located adjacent to the west parking lot of Tanner Park, denominated as "Entrance B1" on the interim and comprehensive use plan maps;
3. Entrance B2: Near the east boundary of the park, located along Parley's Trail, east of I-215, denominated as "Entrance B2" on the interim and comprehensive use plan maps; and
4. Entrance C: On the south boundary of the park, located approximately at 2870 East, denominated as "Entrance C" on the interim and comprehensive use plan maps.

B. Dogs may enter the park only at entrances A, B1, and B2, except that the mayor may elect to allow dogs to enter the park at entrance C as permitted in subsection 15.10.060D of this chapter. (Ord. 7-11, 2011)

15.10.050: TRAILS:

A. Trails shall be established and maintained only as shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter and in accordance with the requirements of this section.

B. All approved trails shall be clearly marked.

C. Unapproved, user created trails existing as of February 15, 2011, shall be evaluated by the mayor, or the mayor's designee, as follows:

1. Trails identified as irreparable shall be closed and revegetated to a natural state.
2. Trails identified as appropriate and reparable shall be repaired and shall thereafter be deemed an approved trail.
3. Trails identified as appropriate and usable shall be deemed an approved trail.

D. Any trails approved pursuant to subsections C2 and C3 of this section shall be shown on the comprehensive use plan map adopted by reference in section 15.10.030 of this chapter. Copies of the updated map shall be transmitted to the city council.

E. User created trails appearing after February 15, 2011, shall be closed and revegetated to a natural state. (Ord. 7-11, 2011)

15.10.060: DOG OFF LEASH AND ON LEASH TRAILS AND AREAS:

A. Within Parley's Historic Nature Park dogs shall be on leash or off leash as provided in this section. The physical boundaries of dog on leash and off leash areas and trails shall be clearly marked and shall be shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter.

B. Dogs shall be on leash, on trail within or immediately adjacent to the following places:

1. Any historic site area designated on the comprehensive use plan map;
2. Within the Parley's Trail right of way, except as otherwise permitted in subsection D of this section; and
3. Within the west Tanner Park Parking Lot to the Parley's Trail and the east Tanner Park Parking Lot to the Parley's Historic Nature Park regulation sign located at the first turn, top of the hill.

C. Dogs shall be prohibited on the south loop trail located between the pedestrian bridges over Parley's Creek and on the trail from entrance C to the south loop trail, except as otherwise permitted in subsection D of this section.

D. After riparian, wetland, and spring restoration is deemed successfully established and user compliance with park rules is assessed, dogs may be allowed on the following trails as determined by the mayor in accordance with applicable management policies of the comprehensive use and management plan:

1. The south loop trail;
2. The trail from entrance C to the south loop trail;
3. The trail connecting the central dog off leash area to Parley's Trail; and
4. That portion of Parley's Trail connecting the east and central dog off leash areas.

E. Dogs and public access and use shall be prohibited in protection, natural, restoration, and buffer areas shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter, except as shown otherwise on such maps and as permitted by the provisions of this chapter.

F. Dogs shall be permitted in designated off leash areas and on trails identified for off leash use on the interim and comprehensive use plan maps. (Ord. 7-11, 2011)

15.10.070: RIPARIAN CORRIDOR, WETLAND, AND NATURAL SPRING AREAS:

A. Riparian corridor, wetland, and natural spring areas shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter shall be maintained and protected in accordance with this section.

B. The provisions of section 21A.34.130 (riparian corridor overlay district) of this code shall apply to the Parley's Historic Nature Park except as follows:

1. Except as provided in subsection B3 of this section, there shall be no disturbance of land (trails or development) located within fifty feet (50') of the Parley's Creek annual high water level (AHWL).
2. Natural springs and wetlands shall be preserved and protected by twenty five (25) to fifty foot (50') buffer zones, boardwalks, and/or signage, as determined by the mayor or the mayor's designee. When use of boardwalks is not feasible, trails shall be aligned or realigned as needed to avoid encroachment within natural spring and/or wetland buffer zones. If adverse impacts are not reasonably preventable, public use in or near springs and wetlands may be restricted consistent with management strategies set forth in the comprehensive use and management plan.
3. Designated Parley's Creek access areas, bridges, and boardwalks may be established, repaired, and maintained subject to applicable provisions of section 21A.34.130 of this code. (Ord. 7-11, 2011)

15.10.080: PARLEY'S CREEK PUBLIC ACCESS AND USE AREAS:

A. Public access to and use of Parley's Creek shall be permitted as shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter. Such public access and use areas:

1. Shall be designed to prevent stream bank erosion, sedimentation, and pollution input to Parley's Creek, and
2. May be closed for maintenance and protection of water quality.

B. Dogs may run at large within the public access and use areas described in subsection A of this section, except:

1. Within a protection, natural, restoration, or buffer area as provided in section 15.10.090 of this chapter, and
2. As needed to maintain water quality. (Ord. 7-11, 2011)

15.10.090: PROTECTION, NATURAL, RESTORATION, AND BUFFER AREAS:

A. Protection, natural, restoration, and buffer areas shown on the interim and comprehensive use plan maps adopted by reference in section 15.10.030 of this chapter shall be maintained and managed to avoid damage or degradation, and/or to allow restoration, as the case may be. Recognized best management practices shall be employed in such areas:

1. Riparian corridor, wetland, and natural spring areas except as otherwise provided in section 15.10.070 of this chapter;
2. Areas with steep slopes;
3. Areas and trails with soils susceptible to slope failure, erosion, and/or excessive sedimentation;
4. Highly vegetated areas which function as natural filters to prevent pollutants from being introduced in stream areas;
5. Areas with substantial native vegetation and habitat; and
6. Areas which, if not protected, would be likely to result in impaired water quality.

B. Public access to any area may be temporarily prohibited as needed to protect:

1. Public safety;
2. Water quality;
3. An overused area, as determined by the mayor or the mayor's designee, which may be severely damaged if public use and access is not temporarily prohibited to allow restoration and avoid further degradation and possible permanent closure; and
4. Any restored and/or revegetated area.

C. Protection, natural, restoration, and buffer areas shall be clearly marked. (Ord. 7-11, 2011)

15.10.100: CONFLICT OF LAW:

If any provision of this chapter conflicts with a provision of an applicable state or federal law or regulation, such law or regulation shall supersede the conflicting provision of this chapter. (Ord. 7-11, 2011)

CHAPTER 15.12
PUBLIC SQUARES

15.12.010: PURPOSE OF PROVISIONS:

The purpose of this chapter is to designate certain public properties located in commercial centers and not in close proximity to churches, schools and residential areas, to be used for public squares, malls and pleasure grounds. Because of the location of such public properties, the restrictions of subsection 6.08.120B of this code, as amended, or its successor section, with respect to the close proximity to a public park of class B nonprofit clubs are overly harsh since such nonprofit clubs do not cause the same concern in a nonresidential environment. Such public properties specifically designated in section 15.12.020 of this chapter, or its successor section, shall not be considered parks under this code, as amended. (Ord. 28-86 § 2, 1986: prior code § 27-10-1)

15.12.020: AREAS DESIGNATED:

The following shall be designated as public squares, malls and pleasure grounds, as provided in section 15.12.010 of this chapter, or its successor section:

A. Washington Square, described as follows:

Being all of Block 38, Plat "A", Salt Lake City, encompassing the area between Fourth and Fifth South Streets and between State and Second East Streets.

B. 500 West Street Commons, described as follows:

Being all of the following described property, encompassing the median islands in 500 West Street between North Temple Street and 400 South Street:

1. The median island in 500 West Street between 400 South Street and 250 South Street, more particularly described as follows:

Beginning south 454.78 feet and east 5.33 feet from the Northwest corner of Block 62, Plat A, Salt Lake City Survey, located in the West half of Section 1, Township 1 South, Range 1 West, Salt Lake Base and Meridian; thence S00°01'22"E 58.24 feet to a point of curve, chord bears S27°40'58"W 7.91 feet; thence southwesterly 8.23 feet along an 8.51 foot radius curve to the right to a point of reverse curve, chord bears S27°39'00"W 11.46 feet; thence southerly 11.92 feet along a 12.34 foot radius curve to the left; thence S00°01'22"E 112.81 feet to the point of curve, chord bears S27°41'37"E 11.46 feet; thence southeasterly 11.92 feet along a 12.34 foot radius curve to the left to a point of reverse curve, chord bears S27°43'41"E 7.91 feet; thence southerly 8.23 feet along an 8.51 foot radius curve to the right; thence S00°01'18"E 133.96 feet to a point of curve, chord bears S27°41'05"W 7.91 feet; thence southwesterly 8.23 feet along an 8.51 foot radius curve to the right to a point of reverse curve, chord bears S27°39'04"W 11.46 feet; thence southerly 11.92 feet along a 12.34 foot radius curve to the left; thence S00°01'15"E 238.41 feet to a point of curve, chord bears S27°41'33"E 11.46 feet; thence southeasterly 11.92 feet along a 12.34 foot radius curve to the left to a point of reverse curve, chord bears S27°43'34"E 7.91 feet; thence southerly 8.23 feet along an 8.51 foot radius curve to the right; thence S00°01'15"E 33.50 feet to a point of curve, chord bears S10°15'03"W 155.91 feet; thence southwesterly 156.75 feet along a 437.18 foot radius curve to the right to a point to reverse curve, chord bears S10°09'50"W 176.90 feet; thence southerly 177.86 feet along a 491.89 foot radius curve to the left to a point of reverse curve, chord bears S46°45'23"W 8.03 feet; thence westerly 9.00 feet along a 5.51 foot radius curve to the right to a point of compound curve, chord bears N46°47'47"W 8.03 feet; thence northwesterly 9.00 feet along a 5.51 foot radius curve to the right; thence N00°01'15"W 90.58 feet; thence N06°06'32"W 75.43 feet; thence N00°01'15"W 195.47 feet to a point of curve, chord bears N27°41'05"E 7.91 feet; thence northeasterly 8.23 feet along an 8.51 foot radius curve to the right to a point of reverse curve, chord bears N27°39'04"E 11.46 feet; thence northerly 11.92 feet along a 12.34 foot radius curve to the left; thence N00°01'15"W 238.41 feet to a point of curve, chord bears N27°42'58"W 11.46 feet; thence northwesterly 11.92 feet along a 12.33 foot radius curve to the left to a point of reverse curve, chord bears N27°41'32"W 7.91 feet; thence northerly 8.23 feet along an 8.52 foot radius curve to the right; thence N00°01'18"W 133.96 feet to a point of curve, chord bears N27°40'58"E 7.91 feet; thence northeasterly 8.23 feet along an 8.51 foot radius curve to the right to a point of reverse curve, chord bears N27°39'05"E 11.46 feet; thence northerly 11.92 feet along a 12.33 foot radius curve to the left; thence N00°01'22"W 112.81 feet to a point of curve, chord bears N27°42'16"W 11.46 feet; thence northwesterly 11.91 feet along a 12.33 foot radius curve to the left to a point of reverse curve, chord bears N27°42'16"W 7.92 feet; thence northerly 8.23 feet along an 8.52 foot radius curve to the right; thence N00°01'22"W 233.87 feet to a point of curve, chord bears N77°31'49"E 39.06 feet; thence northeasterly 54.14 feet along a 20.00 foot radius curve to the right to a point of compound curve, chord bears S12°28'22"E 188.52 feet; thence southeasterly 190.01 feet along a 437.22 foot radius curve to the right to the point of beginning, contains 1.63 acres more or less.

2. The median island in 500 West Street between 200 South Street and 100 South Street, more particularly described as follows:

Beginning west 43.78 feet and north 2.95 feet from the Northwest corner of Block 65, Plat A, Salt Lake City Survey, located in the Northwest Quarter of Section 1, Township 1 South, Range 1 West, Salt Lake Base and Meridian. The following courses are along the top back of curb; thence S00°00'36"E 65.15 feet to a point of curve, chord bears S13°15'01"W 208.55 feet; thence southwesterly 210.42 feet along the arc of a 454.61 foot radius curve to the right to a point of reverse curve, chord bears S24°35'47"W 33.76 feet; thence southwesterly 33.76 feet along the arc of a 505.27 foot radius curve to the left to a point of reverse curve, chord bears N78°39'50"W 39.22 feet; thence westerly 54.91 feet along the arc of a 20 foot radius curve to the right; thence N00°00'36"W 291.10 feet to a point of curve, chord bears N44°58'53"E 28.28 feet; thence northeasterly 31.41 feet along the arc of a 20 foot radius curve to the right; thence N89°58'21"E 60.34 feet to a point of curve, chord bears S45°01'07"E 28.29 feet; thence southeasterly 31.42 feet along the arc of a 20 foot radius curve to the right to the point of beginning, contains 0.63 acres more or less.

3. The median island in 500 West Street between 100 South Street and South Temple Street, more particularly described as follows:

Beginning west 43.80 feet and south 3.05 feet from the Southwest corner of Block 80, Plat A, Salt Lake City Survey, located in the Northwest Quarter of Section 1, Township 1 South, Range 1 West, Salt Lake Base and Meridian. The following courses are along the top back of curb, Point is also point of curve, chord bears S44°58'39"W 28.28 feet; thence southwesterly 31.41 feet along the arc of a 20 foot radius curve to the right; thence S89°58'21"W 60.34 feet to a point of curve, chord bears N45°01'21"W 28.29 feet; thence northwesterly 31.42 feet along the arc of a 20 foot radius curve to the right; thence N00°01'04"W 655.89 feet to a point of curve, chord bears N60°32'34"E 17.42 feet; thence northeasterly 21.14 feet along the arc of a 10 foot radius curve to the right to a point of reverse curve, chord bears N89°58'58"E 70.01 feet; thence easterly 73.57 feet along the arc of a 67.72 foot radius curve to the left to a point of reverse curve, chord bears S60°34'41"E 17.42 feet; thence southeasterly 21.14 feet along the arc of a 10 foot radius curve to the right; thence S00°01'04"E 655.88 feet to the point of beginning, contains 1.56 acres more or less.

4. The median island in 500 West Street at South Temple Street, more particularly described as follows:

Beginning west 64.72 feet and north 19.23 feet from the Northwest corner of Block 80, Plat A, Salt Lake City Survey, located in the Northwest Quarter of Section 1, Township 1 South, Range 1 West, Salt Lake Base and Meridian. The following courses are along the top back of curb, Point is also point of curve, chord bears S89°58'48"W 58.83 feet; thence westerly 65.16 feet along the arc of a 42.06 foot radius curve to the right to a point of compound curve, chord bears N00°01'07"W 99.01 feet; thence northerly 110.30 feet along the arc of a 69.26 foot radius curve to the right to a point of compound curve, chord bears N89°58'48"E 58.83 feet; thence easterly 65.15 feet along the arc of a 42.06 foot radius curve to the right to a point of compound curve, chord bears S00°01'18"E 99.01 feet; thence southerly 110.30 feet along the arc of a 69.26 foot radius curve to the right to a point of beginning, contains 0.22 acres more or less.

5. The median island in 500 West Street between South Temple Street and North Temple Street, more particularly described as follows:

Beginning west 44.00 feet and north 22.04 feet from the Southwest corner of Block 83, Plat A, Salt Lake City Survey, located in the Northwest Quarter of Section 1, Township 1 South, Range 1 West, and Southwest Quarter of Section 36, Township 1 North, Range 1 West, Salt Lake Base and Meridian. (Ord. 67-06 § 1, 2006: Ord. 28-86 § 2, 1986: prior code § 27-10-2)

15.12.030: USE RESTRICTIONS:

The following restrictions relating to public parks and playgrounds under this code, as amended, shall be fully applicable to the public properties designated in section 15.12.020 of this chapter, but not the restrictions relating to the proximity of class B nonprofit clubs to public parks, and, in the case of the public property designated in subsection 15.12.020B of this chapter, not the restrictions relating to the proximity of class C beer establishments, class C nonprofit clubs, or any other establishments that sell or serve alcoholic beverages, to public parks, for the reasons set forth in the statement of purpose in section 15.12.010 of this chapter, or its successor section:

Sections 5.68.020, 5.74.200 and 11.12.080 of this code or their successor sections; chapter 15.08 of this title (except that 500 West Street commons shall be closed to the public from dusk until dawn), or its successor chapter. (Ord. 67-06 § 2, 2006: Ord. 28-86 § 2, 1986: prior code § 27-10-3)

CHAPTER 15.14
FEES FOR USE OF CITY AND COUNTY BUILDING FACILITIES

15.14.010: DEFINITIONS:

For the purpose of this chapter the following words shall have the meanings as given in this section:

DEPOSIT: A cleaning or damage deposit which shall be refundable if the facilities are left in a clean and undamaged condition.

DIRECT COST: The city's actual cost, other than for cleaning or replacement or repair of damaged property, incurred as a result of the use of space within the city and county building by a person, organization or group. Direct costs include, but are not limited to, room or building preparation or setup and special security, are payable in advance of use of the space, and are nonrefundable once such costs are incurred.

FEE: A nonrefundable user charge for the use of space within the city and county building.

RELIGIOUS OR CHARITABLE ORGANIZATION: Any organization which provides to the city written approval from the internal revenue service that such organization has been granted tax exempt status under section 501(c)(3) of the internal revenue code, or its successor; or any organization which is organized for a civic, charitable or religious purpose and which is not engaged in business for economic profit. (Ord. 56-92 § 1, 1992)

15.14.020: WEDDING, RECEPTION, PARTY, MEETING, AND FILMING FEES:

Any person, organization or group desiring to use the facilities within the city and county building or the grounds of Washington Square shall pay the fee for the use of such facilities as shown on the Salt Lake City consolidated fee schedule:

A. Social Activities:

1. Wedding Ceremony; No Food: Wedding ceremony only where no food is involved, with a time limit of two (2) hours. A deposit as shown on the Salt Lake City consolidated fee schedule shall also be required.

2. Activity With Food: A wedding, party or other social activity involving food. A deposit as shown on the Salt Lake City consolidated fee schedule shall also be required.

B. Filming: Any motion picture, video, or still photograph taken for other than private parties doing filming for their own noncommercial use shall pay fees and deposits for the use of such facilities as shown on the Salt Lake City consolidated fee schedule:

1. For filming which involves the following numbers of staff, crew or other persons at the filming site who are employed by or associated with the filming entity, the fee for each four (4) hour block or portion thereof during which the city's facilities or grounds are being used, plus a onetime deposit for the event, as follows:

a. Fewer than eight (8) persons: The fee shown on the Salt Lake City consolidated fee schedule per four (4) hours plus the deposit shown on the Salt Lake City consolidated fee schedule.

b. Eight (8) to fifteen (15) persons: The fee shown on the Salt Lake City consolidated fee schedule per four (4) hours plus the deposit shown on the Salt Lake City consolidated fee schedule.

c. More than fifteen (15) persons: The fee shown on the Salt Lake City consolidated fee schedule per four (4) hours plus the deposit shown on the Salt Lake City consolidated fee schedule.

2. For filming by a "religious or charitable organization", as defined at section 15.14.010 of this chapter or its successor, or by a public entity no fee shall be charged, but a onetime deposit for the event shall be required according to the number of staff, crew and other persons at the filming site who are employed by or associated with the filming entity as follows:

a. Fewer than eight (8) persons: The deposit shown on the Salt Lake City consolidated fee schedule.

b. Eight (8) to fifteen (15) persons: The deposit shown on the Salt Lake City consolidated fee schedule.

c. More than fifteen (15) persons: The deposit shown on the Salt Lake City consolidated fee schedule.

C. Miscellaneous Meetings: All other meetings, uses or activities shall pay a fee for the use of such facilities according to the following schedule:

1. Regular City Business Hours: During regular business hours between eight o'clock (8:00) A.M. and five o'clock (5:00) P.M., Monday through Friday: The fee shown on the Salt Lake City consolidated fee schedule. A deposit shown on the Salt Lake City consolidated fee schedule shall also be required. Meetings or activities during said business hours shall be limited to a maximum of forty (40) persons and shall be for no more than three (3) hours' duration.

2. Nonbusiness Hours: At any other time on weekdays and during nonbusiness hours and at any time on Saturdays, Sundays and legal holidays: The fee shown on the Salt Lake City consolidated fee schedule per hour. A deposit shown on the Salt Lake City consolidated fee schedule shall also be required.

D. Damage; Other Expenses From Use:

1. Setoff Against Deposit: Whenever a deposit is required under this chapter, any property damage or expense incurred by the city as a result of the use by a person, organization or group shall be deducted from such deposit, and the balance shall be refunded to the user.

2. Costs In Excess Of Deposit: In the event cleaning, property damage expenses incurred by the city resulting from the use of the city facilities exceed the amount of any deposit required hereunder, the person, organization or group which reserved the use of the facilities shall be liable to Salt Lake City for such costs, damages or expenses in excess of the deposit. A reasonable deposit in a sum greater than that set forth herein may be required by the city of any person, organization or group whose previous use of city facilities has resulted in damages, costs or expenses to the city in excess of the required deposit, or when the manager of the support services division reasonably expects, because of the size of an organization or group, that the city's costs of cleaning the facilities following the event will exceed the amount of the deposit provided hereunder.

3. Use Debarment: The city may refuse the use of city facilities to any person, organization or group: a) whose previous use of said facilities has resulted in costs, damage or expenses to the city in excess of a required deposit; or b) which has failed or refused to pay the city for such expenses to the city previously incurred in excess of a required deposit; or c) whose prior use of city facilities resulted in a violation of a Salt Lake City ordinance or state or federal law.

E. Supplemental Charge For Exclusive Building Use: Any person or entity which desires exclusive use of the entire city and county building for an activity as provided under this chapter shall pay a surcharge fee shown on the Salt Lake City consolidated fee schedule in addition to all other fees which may otherwise be applicable hereunder.

F. Fee And Deposit Exceptions:

1. Religious, Eleemosynary, Charitable Organizations: Religious, eleemosynary or charitable organizations as defined in section 15.14.010 of this chapter or any successor law are exempt from paying fees provided in this chapter, provided they pay required deposits for use at other than regular business hours and provided they obtain all permits and otherwise comply with all other applicable laws, rules, regulations and conditions regarding the space or area utilized. This exemption shall not apply to supplemental direct cost or exclusive use fees.

2. Government Entities And Neighborhood Civic Organizations: Governmental entities and neighborhood civic organizations, recognized pursuant to title 2, chapter 2.60 of this code, are exempt from the fee and deposit requirements of this chapter, provided they obtain all applicable permits and comply with all other applicable laws, rules, regulations and conditions regarding the spaces or area utilized. This exemption shall not apply to supplemental direct cost or exclusive use assessments.

G. Supplemental Direct Cost Assessment: In addition to any fees or deposits which may be payable under any provision of this chapter, all direct costs reasonably anticipated by the manager of the city's support services division shall be payable to the city in advance of the use of said city facilities by any private person, organization or group, or by any religious or charitable organization or public entity. (Ord. 24-11, 2011)

15.14.030: RESERVATIONS REQUIRED:

Any use of the city and county building by any private person, organization or group, or by any public entity other than Salt Lake City Corporation, or by any religious or charitable organization, shall be coordinated through the manager of the city's support services division or the successor to that position. Whenever there is a conflict between an event scheduled to be held in the city council chambers and a regularly scheduled meeting of the city council, the needs of the city council shall take precedence. (Ord. 56-92 § 1, 1992)

15.14.040: HOURS OF USE:

No weddings, receptions, meetings or other events shall be held within the city and county building between the hours of twelve o'clock (12:00) midnight and six o'clock (6:00) A.M. of any day. No wedding shall be held within the city and county building between the hours of eight o'clock (8:00) A.M. and five o'clock (5:00) P.M., Monday through Friday, when the building is open for governmental business. No setting up for any wedding, reception, meeting or other event shall be allowed prior to five o'clock (5:00) P.M. on Monday through Friday when the building is open for governmental business. All such events scheduled to begin prior to twelve o'clock (12:00) midnight of any day shall conclude no later than twelve o'clock (12:00) midnight of the day so scheduled. (Ord. 17-95 § 2, 1995: Ord. 56-92 § 1, 1992)

15.14.050: RESTRICTIONS ON USE; NOTICE REQUIRED FOR RELIGIOUS USE OR CLAIMS OF CONSTITUTIONALLY PROTECTED BUILDING USE RIGHTS:

A. School Social Functions: Regardless of any other provision of this chapter, the facilities within the city and county building shall not be used at any time for school sponsored, affiliated or related proms, dances or social functions.

B. Religious Use: Prior to approval of any request by a religious organization for use of said facilities, such request shall be reviewed by the city attorney or his/her designee to ascertain whether such use would be in violation of the first amendment to the constitution of the United States or of article I, section 4 of the constitution of Utah.

C. Free Speech: Any applicant who asserts a constitutional free speech or other privileged building use shall identify such claim in the application. Upon filing, the matter will be referred to the city attorney for evaluation and recommendation before denial.

D. Use Of Open Flame: No open flame at any activity or event is permitted or will be allowed without the city fire marshal's prior written authorization. (Ord. 17-95 § 3, 1995: Ord. 56-92 § 1, 1992)

CHAPTER 15.16
FEES FOR PARK AND RECREATION FACILITIES

15.16.010: ATHLETIC FACILITY RESERVATION FEES:

A. Reservation Fees: Except as may be provided under written agreement with the city, any person, organization or group desiring to utilize any city owned athletic facility, may reserve that facility according to the fees shown on the Salt Lake City consolidated fee schedule.

Those reserving athletic facilities shall also be assessed the fee shown on the Salt Lake City consolidated fee schedule per staff hour for any cleaning required of the parks division after the athletic facility is used.

B. Payment: Weekday reservations must be made and paid in full at least twenty four (24) hours in advance. Weekend reservations must be paid in full by the Thursday prior.

C. "Sweat Equity":

1. Community youth teams and organizations may be eligible to receive credit of up to fifty percent (50%) of the cost of their annual field usage fees. Credits earned will be applied to the team or organization's account balance before the end of the season. The team or organization's remaining account balance is due in full after all payments and credits have been applied. A payment of one-half ($^1/_2$) of the field usage fee is due at the time the field is reserved.

2. Community youth teams and organizations shall submit a proposal to the parks and public land program staff for the maintenance type work they propose to complete in exchange for their credit. Once the proposal is approved, the community youth team or organization shall work with supervisory staff of the parks and public lands division to implement the proposal.

3. Team and organization credit is earned at a rate of ten dollars ($10.00) per hour per person by providing volunteer time for the following types of maintenance work for the city which has been approved by the parks and public lands division:

   a. Painting of facilities and structures, such as concession stands, dugouts, or bleachers;

   b. Providing field repair materials and related labor donations, such as sod, soil, seed, or irrigation supplies;

   c. Graffiti removal;

   d. Labor to apply soil and sod;

   e. Curbside placement and retrieval of garbage containers;

   f. Beginning of the season field prep work;

   g. Hand weeding;

   h. Assisting the city with other projects administered by Salt Lake City's volunteer program; and

   i. Essential field prep.

4. All field users shall leave the fields free of trash after their use of the field. No credit can be earned for trash removal.

5. The city welcomes donations and partners for larger capital projects or improvement needs. Teams or organizations interested in larger projects should contact the city's public services department. (Ord. 19-13, 2013)

15.16.020: PICNIC FACILITY RESERVATION FEES:

Any person, organization or group desiring to reserve picnic facilities shall pay the fee shown on the Salt Lake City consolidated fee schedule for the use of such facilities.

A person may rent a recreation kit for the fee shown on the Salt Lake City consolidated fee schedule. The person shall pay the fee at the time the person picks up the kit. A kit is due back on the business day following the reservation day. If any equipment is lost or not returned, the person shall pay to the city a charge for the cost of the missing equipment, which charge is shown on the Salt Lake City consolidated fee schedule, plus sales tax. The person shall pay a late fee as shown on the Salt Lake City consolidated fee schedule for each day thereafter that the kit is not returned. After ten (10) days, the person shall pay a replacement fee, in addition to the late fees and any charge for missing equipment, for a lost or unreturned recreation kit. (Ord. 42-13, 2013)

15.16.030: GOLF COURSES; GREEN FEES UNTIL DECEMBER 31, 1992:

(Rep. by Ord. 18-00 § 1, 2000)

15.16.031: GOLF COURSES; GREEN FEES:

A. Fees Imposed: There shall be imposed on any person playing golf at any of the city golf courses the fees shown on the Salt Lake City consolidated fee schedule. Fees and policies listed in this section shall become effective January 1, 2012. All fees include sales tax unless otherwise noted.

1. Green Fees: Senior and junior green fees shall be valid Monday through Friday all day and Saturday, Sunday, and recognized holidays after twelve o'clock (12:00) noon.

2. Grandfathered Senior Season Golf Passes: In 1997, the decision was made by the Salt Lake City golf division, with the approval of the city council, to phase out the senior season pass program and to effectively grandfather the senior season pass program for qualified senior season pass holders based on their continued participation. Senior season passes for calendar years subsequent to 1997 were available solely to those individuals who had purchased calendar 1997 senior season passes on or before June 30, 1997. No other senior season passes were issued after this date. Senior season pass holders were required to renew their passes annually in order to remain eligible for a senior season pass. Any senior season pass holder who failed to renew a senior season pass for any year would not be eligible for any further senior season pass. Grandfathered senior season golf passes may not be used Fridays through Sundays, on defined holidays, or for group reservation play. The fees pertaining to the grandfathered senior season pass program are shown on the Salt Lake City consolidated fee schedule.

3. School Golf Teams: Green fees for school golf team special play (high school and collegiate golf teams) shall be as shown on the Salt Lake City consolidated fee schedule.

4. Tee Times: Green fees for advance tee time reservations (minimum 18 holes) shall be as shown on the Salt Lake City consolidated fee schedule.

5. Tee Time Cancellations: The department of public services, with concurrence of the mayor, may set reasonable regulations with regard to amounts of refunds for cancellations and time in which cancellations must be made.

6. Frequent Player Discount Card (Nontransferable): Golfers may obtain from the Salt Lake City golf division administration office a nontransferable frequent player discount card, subject to the following terms and conditions:

   a. The annual purchase price of the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

   b. The card is valid at all city operated golf courses.

   c. The card is valid for one calendar year from the date of purchase.

   d. Cardholders shall receive a ten percent (10%) to thirty percent (30%) discount from the standard adult, senior, or junior green fee rate for which the cardholder qualifies based on the day and time of play.

   e. Cardholders shall receive a twenty percent (20%) discount on the purchase of range balls at any time.

   f. Discounted fees shall be rounded up to the next twenty five cent ($0.25) increment.

   g. The card shall be presented at time of play in order to receive green fee or range ball discounts.

   h. Except for junior and senior discounts, the card is not valid with any other discount offer.

   i. The card is not valid for use for tournament or group play.

   j. Lost or stolen cards shall be subject to the replacement fee shown on the Salt Lake City consolidated fee schedule.

7. Birdie Passport (Weekday 9-Course): Golfers may obtain from the Salt Lake City golf division administration office a nontransferable annual card called the birdie passport to be presented at the golf course in lieu of payment for green fees. This annual passport is subject to the following terms and conditions:

   a. The card may be used at any time Monday through Thursday and Friday until twelve o'clock (12:00) noon at the following courses: Bonneville, Forest Dale, Glendale, Jordan River Par-3, Mountain Dell Lake, Mountain Dell Canyon, Nibley Park, Rose Park, and Wingpointe.

   b. The adult price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

   c. The senior price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

   d. The card is valid for one year from the date of purchase.

   e. The card is not valid on holidays.

   f. The purchase price for the card and program availability are subject to change annually.

   g. Lost or stolen cards shall be subject to the replacement fee shown on the Salt Lake City consolidated fee schedule.

8. Double Eagle Passport (Unlimited 9-Course): Golfers may obtain from the Salt Lake City golf division administration office a nontransferable annual card called the double eagle passport to be presented at the golf course in lieu of payment for green fees. This annual passport is subject to the following terms and conditions:

   a. The card may be used at any time seven (7) days a week (including holidays) at the following courses: Bonneville, Forest Dale, Glendale, Jordan River Par-3, Mountain Dell Lake, Mountain Dell Canyon, Nibley Park, Rose Park, and Wingpointe.

   b. The adult price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

   c. The senior price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

   d. The card is valid for one year from the date of purchase.

   e. The purchase price for the card and program availability are subject to change annually.

   f. Lost or stolen cards shall be subject to the replacement fee shown on the Salt Lake City consolidated fee schedule.

9. Junior Par Passport (May Through August): Junior golfers may obtain from the Salt Lake City golf division administration office a nontransferable card called the junior par passport to be presented at the golf course in lieu of payment for green fees. This passport is subject to the following terms and conditions:

   a. The card may be used May 1 through August 31.

b. The card may be used at any time Monday through Thursday, Friday before twelve o'clock (12:00) noon and Saturday and Sunday after twelve o'clock (12:00) noon at all Salt Lake City golf courses.

c. The card is not valid on holidays.

d. The junior price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

e. The purchase price for the card and program availability are subject to change annually.

f. Lost or stolen cards shall be subject to the replacement fee shown on the Salt Lake City consolidated fee schedule.

10. Junior Eagle Passport (Annual): Junior golfers may obtain from the Salt Lake City golf division administration office a nontransferable annual card called the junior eagle passport to be presented at the golf course in lieu of payment for green fees. This annual passport is subject to the following terms and conditions:

a. The card may be used May 1 through August 31 at any time Monday through Thursday, Friday before twelve o'clock (12:00) noon, and Saturday and Sunday after twelve o'clock (12:00) noon at all Salt Lake City golf courses.

b. The card may be used September 1 through April 30 after twelve o'clock (12:00) noon Monday through Thursday and Saturday and Sunday. The card is not valid on Fridays.

c. The card is valid for one year from the date of purchase.

d. The junior price for the card is shown on the Salt Lake City consolidated fee schedule, plus tax.

e. The card is not valid on holidays.

f. The purchase price for the card and program availability are subject to change annually.

g. Lost or stolen cards shall be subject to the replacement fee shown on the Salt Lake City consolidated fee schedule.

11. Private Lessons: Private lesson fees may be established by the individual teacher. Private lesson fees shall be approved annually by Salt Lake City golf administration.

B. Use Of Senior And Junior Discount Fees: Senior and junior discount fees provided for in this chapter may not be used for group reservation play, or before twelve o'clock (12:00) noon on Saturdays, Sundays, or recognized holidays.

C. Golf CIP Fund: One dollar ($1.00) per nine (9) hole round at each golf course for all green fee types shall be allocated to a dedicated golf capital improvement fund. Nine percent (9%) of all passport annual fees shall be allocated to this fund.

D. Definitions:

JUNIOR: Any person seventeen (17) years of age or younger.

RECOGNIZED HOLIDAYS: Memorial Day, Independence Day, Pioneer Day, and Labor Day.

SENIOR: Any person sixty five (65) years of age or older.

E. Adjustment Of Fees: The director of public services, with approval of the mayor, shall have the authority, at any time, to reduce the fees listed in this section for any city golf course, if the director deems it necessary to reduce fees in order to increase the use of the golf course. (Ord. 76-11, 2011)

15.16.035: GOLF COURSES; GROUP RESERVATIONS:

Reservations for exclusive use of a course such as for group play or tournaments shall be allowed in accordance with the following guidelines:

A. Tournament Fees: Additional fees above and beyond the regular green and cart fees shall be required for group play or tournaments.

A per person minimum tournament fee shall be charged as shown on the Salt Lake City consolidated fee schedule.

1. One hundred percent (100%) of the per person tournament fee shall be credited toward pro shop merchandise certificates for the group with the following exception: The golf course shall have the option of designating up to twenty percent (20%) of the tournament fee as a scoring fee for groups requiring scoreboard or scorekeeping services from or arranged by the city's golf staff. For groups paying the scoring fee, the balance of the per player tournament fee shall be credited toward pro shop merchandise certificates.

B. Green Fees: Green fees shown on the Salt Lake City consolidated fee schedule shall be charged for each participant.

C. Reasonable Regulations Set By Department Of Public Services: The department of public services, with concurrence of the mayor, may set reasonable regulations with regard to:

1. How many days in advance of the date for which the facility is reserved that all reservation and green fees must be paid;

2. Amounts of refunds for cancellations and time in which cancellations must be made;

3. Rescheduling "rainouts";

4. Minimum and maximum number of golfers;

5. Cart reservations;

6. Minimum and maximum numbers of holes to be reserved for group play;

7. Dates and times for taking group reservations;

8. Golf courses for which group reservations may be made;

9. Fees for special services requested of the city over and above services normally provided; however, such costs shall reflect actual city costs, including overhead;

10. How many group reservations a person or group can make in a single calendar year;

11. How many group reservations a person can make per request;

12. Making reservations by phone or in person.

D. Adjustment Of Fees: The director of public services, with approval of the mayor, shall have the authority, at any time, to reduce the fees listed in this section for any city golf course, if the director deems it necessary to reduce fees in order to increase the use of the golf course. (Ord. 24-11, 2011)

15.16.060: TENNIS COURT USE FEES:

A. Fee Categories: The fees imposed for use of city tennis courts are set forth in the Salt Lake City consolidated fee schedule under the following categories of uses:

1. Tennis courts other than in Liberty Park or the Dee Smith Tennis Courts.

2. Tennis courts in Liberty Park or the Dee Smith Tennis Courts:

a. Outdoor Courts:

(1) Basic Use Fee (Court Fee): A person, or multiple persons, desiring to play tennis on any outdoor tennis court shall pay a single basic use fee per hour per court during the hours that such person or persons make use of such court.

(2) Nontournament Reservation Fee (Reservation Fee): Except as provided in subsection A2a(3) of this section regarding tournaments, a person making a reservation of an outdoor tennis court, before the day of use, shall pay a reservation fee for each court reserved. This reservation fee shall be in addition to the basic use fee described above.

(3) Tournaments (Tournament Reservation Fee): Any person, group, or organization desiring to reserve any outdoor tennis courts for the purpose of conducting a tournament may do so only if the director of tennis for the site to be used has first approved such tournament. The person, group, or organization conducting the tournament shall pay, in advance and in addition to the basic use fee, a tournament reservation fee for each court so reserved.

b. Indoor (Bubble) Courts:

(1) Basic Use Fee (Court Fee): Except as provided in subsection A2b(2) of this section regarding prepaid fees and subsection A2b(4) of this section regarding tournaments, a person, or multiple persons, desiring to play tennis on any indoor (bubble) tennis court shall pay a single basic use fee per hour per court during the hours that such person or persons make use of such court.

(2) Seasonal Prepaid Fee (Prepaid Court Fee): A person may pay a prepaid court fee in order to reserve the use of a particular indoor (bubble) tennis court on a recurring basis on a particular day and time during the entire tennis season that the bubble is in place during a particular year. Such recurring use must be at least once per week. The prepaid court fee is assessed on a per hour per court basis, and must be prepaid for the entire tennis season before such use begins.

(3) Reservation Fee: There is no reservation fee for the indoor (bubble) courts.

(4) Tournaments (Tournament Fee): Any person, group, or organization desiring to reserve any indoor (bubble) tennis courts for the purpose of conducting a tournament may do so only if the director of tennis for the site to be used has first approved such tournament. The person, group, or organization conducting the tournament shall pay, in advance and in lieu of the basic use fee, a tournament fee that will be assessed on a per hour per court basis for each court so used.

B. Hours Of Operation: The fees referenced in this section shall apply only on Monday through Friday, from seven o'clock (7:00) A.M. until closing time, and on Saturdays, Sundays, and holidays from eight o'clock (8:00) A.M. until closing time. (Ord. 46-12, 2012)

15.16.080: AQUATIC CENTER FEES:

(Rep. by Ord. 45-12, 2012)

15.16.090: RECREATION PROGRAM FEES:

A. The director of public services and the director of community and economic development, with approval of the mayor, shall establish a fee schedule for recreation program fees; provided, however, that the maximum fees charged shall be as follows:

1. City Special Events: The majority of special events produced or sponsored by Salt Lake City shall be free to the public. These events include, but are not limited to, Bike Bonanza, Friday Night Flicks, 4th Of July Celebration at Jordan Park, Fireworks for 24th Of July Celebration at Liberty Park, Monster Block Party, Highland Bagpipe Experience, Salt Lake City Gets Fit Online Tracking, The People's Market, and the International Culture Fest.

The Salt Lake City Gets Fit 5K is currently charging the admission fee shown on the Salt Lake City consolidated fee schedule. The Salt Lake City Gets Fit Volleyball Tournament charges the admission fee shown on the Salt Lake City consolidated fee schedule. These admission fees will not exceed the amount shown on the Salt Lake City consolidated fee schedule, per person. These fees represent a partial recovery of the costs to produce these events.

Fees for additional special events and festivals that may be produced or sponsored by Salt Lake City, or held on city owned or city managed property, shall be established consistent with fees for similar events as set forth in the consolidated fee schedule.

2. Programs And Fees:

a. Youth And Family Programs: The youth and family recreation program fees are shown on the Salt Lake City consolidated fee schedule.

B. The director of public services and the director of community and economic development, in establishing fees within the limitations provided in this section, shall determine the fee based upon the recoupment of costs incurred by city personnel for their time in making the reservations and in their involvement with the activity. The fees charged do not represent the payment of any consideration for the use of the land, which is provided at no cost, fee, or consideration.

C. Refugee youth are eligible for scholarships funded by Salt Lake County. In general, refugee status is a form of protection that may be granted to people who meet the definition of refugee and who are of special humanitarian concern to the United States. (Ord. 67-12, 2012)

15.16.100: CEREMONY PERMIT FEES:

Fees for holding weddings and other formal ceremonies at city parks shall be as shown on the Salt Lake City consolidated fee schedule per day plus the fee shown on the Salt Lake City consolidated fee schedule per staff hour from setup to take down for a parks attendant. (Ord. 24-11, 2011)

15.16.110: FOOD AND BEVERAGE SERVICE PERMITS:

The city shall allow organized youth sports leagues to use city owned food and beverage facilities in city parks or to bring in temporary facilities to support and serve participants in and patrons of youth sports conducted in city parks. Youth leagues desiring to provide such service to participants or patrons shall apply for a seasonal food and beverage service permit from the parks division director, in addition to any other permits required by other governmental entities. Seasonal youth league food and beverage service permit fees shall be as follows:

A. The fee shown on the Salt Lake City consolidated fee schedule per season for the use of city owned food and beverage service facilities, including storage;

B. The fee shown on the Salt Lake City consolidated fee schedule per season for the use of temporary facilities brought in by the league that require hookup to city utilities; and

C. The fee shown on the Salt Lake City consolidated fee schedule per season for the use of temporary facilities brought in by the league requiring no hookup. (Ord. 24-11, 2011)

CHAPTER 15.20
PENALTY FOR PARKS AND RECREATION VIOLATIONS

15.20.010: VIOLATION OF PROVISIONS; UNLAWFUL:

It is unlawful for any person to do any act prohibited by chapters 15.04 through 15.16 of this title, or to fail or refuse to do any act required by chapters 15.04 through 15.16 of this title, or their successor chapters. (Ord. 74-80 § 3, 1980: prior code § 27-10-1)

15.20.020: VIOLATION OF PROVISIONS; PENALTY:

Any person guilty of violating any provision of chapters 15.04 through 15.16 of this title, or their successor chapters, shall be deemed guilty of an infraction, and may not be imprisoned, but shall be punishable by a fine not to exceed two hundred ninety nine dollars ($299.00). (Ord. 74-80 § 3, 1980: prior code § 27-10-2)

CHAPTER 15.21
RECREATION ENTERPRISE FUND

(Rep. by Ord. 49-06 § 3, 2006)

CHAPTER 15.24
CEMETERIES

Article I. General Regulations

15.24.010: ADMINISTRATION AND ENFORCEMENT:

The city cemetery shall be under the immediate supervision of the city sexton/maintenance supervisor, under the direction of the director of public services. It shall be the duty of the city sexton/maintenance supervisor to enforce the provisions of this title in respect to the city cemetery, and to perform such other work as may be required by the director of public services. (Ord. 48-93 § 1, 1993: prior code § 6-1-1)

15.24.020: RECEIPTS DEPOSITED WITH TREASURER:

(Rep. by Ord. 54-99 § 1, 1999)

15.24.030: EMPLOYEE CONFLICT OF INTEREST RESTRICTIONS:

No employee of the city assigned to work at the city cemetery shall be interested in any manner in any monumental, vault, casket manufacturing or kindred business, and shall not in any manner solicit business or trade for himself/herself or any other person, or receive directly or indirectly, any profits or rewards growing out of the sale or placing of any monuments, caskets, vaults or markers. (Prior code § 6-1-5)

15.24.040: SPEED LIMIT IN CEMETERY:

It is unlawful for any person to ride or drive any vehicle within the limits of the city cemetery at a speed greater than fifteen (15) miles per hour. (Prior code § 6-1-4)

15.24.050: RESERVED:

(Ord. 51-13, 2013)

15.24.060: UNAUTHORIZED VEHICLES:

It is unlawful for any person to ride, drive or propel any vehicle, cycle, automobile or truck on property within the limits of the city cemetery on other than designated roadway without the prior written permission of the city sexton/maintenance supervisor. This section, however, shall not apply to restrict the use or operation of city maintenance vehicles within the cemetery. (Ord. 48-93 § 1, 1993: prior code § 6-1-9)

15.24.070: PLANTING RESTRICTIONS:

No person other than an authorized employee of the department of public services shall plant any tree, shrub, bush, plant or flower upon any property within the cemetery. (Ord. 45-93 § 29, 1993: prior code § 6-1-10)

15.24.080: ARTIFICIAL FLOWER DISPLAYS:

No flower displays using artificial flowers shall be placed or installed in the city cemetery between March 1 and October 31, of any calendar year, except on Memorial Day when they can be placed or installed in the cemetery so long as they are displayed only in containers or wreaths. (Prior code § 6-1-6)

15.24.090: DOGS PROHIBITED:

It is unlawful for any person to take a dog into the city cemetery, or to allow or permit any dog in such person's care or custody to remain within the limits of the city cemetery, whether loose, on a leash, or in arms. (Prior code § 6-1-8)

15.24.100: INJURING OR REMOVING CEMETERY PROPERTY PROHIBITED:

It is unlawful for any person to injure, deface, break, destroy or remove any headstone, tombstone, monument, tree, shrub, or any other property in the city cemetery. (Prior code § 6-1-3)

Article II. Lots And Gravesites

15.24.110: SALE AUTHORIZED; PROCEDURE:

The city sexton/maintenance supervisor shall, upon application of a purchaser, sell gravesites in the city cemetery which shall be described by plat, lot or portion of lot. (Ord. 48-93 § 1, 1993: prior code § 6-2-1)

15.24.120: PRICE FOR GRAVESITES:

The price for each gravesite sold in the various locations within the city cemetery shall be as follows:

A. Adult Gravesite: Beginning July 1, 2009, the price for an adult gravesite shall be seven hundred eighty dollars ($780.00) for Salt Lake City residents and one thousand two hundred seventy four dollars ($1,274.00) for non-Salt Lake City residents.

B. Infant Gravesite: Beginning July 1, 2009, the price for an infant gravesite shall be five hundred sixteen dollars ($516.00) for Salt Lake City residents and eight hundred twelve dollars ($812.00) for non-Salt Lake City residents. (Ord. 28-09 § 1, 2009)

15.24.130: WHAT PRICE INCLUDES:

The payment specified in section 15.24.120 of this chapter, or its successor section, shall not include payment for any of the services provided in any other article in this chapter, but shall include payment for continuing care, which shall consist solely of filling the grave, placing topsoil thereon, filling and seeding the gravesite with suitable grass seed, and watering and cutting such grass until such time as the gravesite is transferred to another party. (Ord. 49-01 § 2, 2001: prior code § 6-2-3)

15.24.140: INSTALLMENT CONTRACTS; AUTHORIZED WHEN:

A. The city sexton/maintenance supervisor may sell gravesites on installment contracts, provided that such contracts comply with the following provisions:

1. The date of final payment shall be no later than twelve (12) months following the date of the contract;

2. The contract shall provide for no more than twelve (12) equal monthly installments;

3. Interest on installment contracts for the purchase of gravesites shall be charged up front in the amount of six percent (6%) of the total contract. This rate of interest results in an effective percentage rate of 10.89 percent when applied to twelve (12) equal payments, with the first payment commencing thirty (30) days following the contract day. If the contract balance is paid early, the final payment will be recalculated so that interest is not overpaid by the purchaser;

4. The contract shall provide that in the event of default in any installment payment for a period of sixty (60) days, the city shall have the option of declaring the entire contract balance, together with accrued interest, due and payable immediately, and upon the failure of the purchaser to pay such balance immediately, the interest of the purchaser to the unused gravesite or sites shall revert to the city, and the contract shall have no further force and effect in law or equity against the city, but shall remain enforceable against the purchaser for any balance due on used gravesites.

B. Such contract may be in the form of a nonnegotiable installment note payable to Salt Lake City Corporation, provided the note contains the provisions specified in this section. (Ord. 48-93 § 1, 1993: Ord. 2-92 § 1, 1992: prior code § 6-2-4)

15.24.150: INSTALLMENT CONTRACTS; RECEIPT OF BURIAL RIGHTS:

At the time of sale, the city sexton/maintenance supervisor shall issue to each installment purchaser a receipt of burial rights, which receipt shall be issued in consecutive serial numbers and shall describe gravesite or sites in lots or portions of lots and plats in accordance with the official cemetery survey. (Ord. 48-93 § 1, 1993: prior code § 6-2-5)

15.24.160: DUPLICATE CERTIFICATES OF BURIAL RIGHTS:

The city sexton/maintenance supervisor shall keep a duplicate of all certificates of burial rights issued by the city sexton/maintenance supervisor as part of the records of the city cemetery. (Ord. 48-93 § 1, 1993: prior code § 6-2-7)

15.24.170: INSTALLMENT CONTRACTS; TRANSFER BY CERTIFICATE:

When the installment contract, provided by the provisions of section 15.24.150 of this chapter, or its successor section, is fully paid by the purchaser, or in the event full payment for the gravesite or sites is made at the time of sale, the city shall transfer by certificate of burial rights, signed by the mayor or the city sexton/maintenance supervisor for and on behalf of the city, the title to the burial rights in such gravesite or sites to the purchaser, and such his/her heirs, successors and assigns, subject to the trust imposed upon the city with respect to the maintenance of the city cemetery as a burial ground for deceased persons. (Ord. 48-93 § 1, 1993: prior code § 6-2-6)

15.24.180: TRANSFER OF CERTIFICATE; RECORDING FEE:

The fee for recording a transfer of the certificate of burial rights from the original purchaser to another party shall be shown on the Salt Lake City consolidated fee schedule. No such transfer shall be binding upon the city until such transfer fee has been paid and the transfer recorded by the city sexton/maintenance supervisor. (Ord. 24-11, 2011)

15.24.190: UNUSED LOTS; CITY RIGHTS:

If, for a period in excess of sixty (60) years and one day of purchase of any cemetery lot, the grantee, or persons claiming through the grantee:

A. Have not used portions of the lots or parcels for purposes of burial and have not provided for the care of the lots or parcels beyond that uniformly provided for all lots of the cemetery, and during the sixty (60) year period have not given the city written notice of any claim or interest in the lots or parcels; or

B. Have not used a portion of the lots or parcels for purposes of burial and have not kept the lots or parcels free of weeds or brush, but have allowed them to remain entirely unimproved for more than twenty (20) years, and such lots or parcels are located in a portion of the cemetery such that they adjoin or are adjacent to improved parts of the cemetery and by reason of their unimproved conditions detract from the appearance of the cemetery, or interfere with the cemetery's harmonious improvements, or furnish a place for growth of weeds and brush; the city may, by following the procedures set forth in section 8-5-1, Utah Code Annotated, 1953, as amended, or its successor, demand of the grantee or persons claiming through the grantee, either:

1. That they file with the city sexton/maintenance supervisor a written notice of claim or interest in and to the lots or parcels accompanied by evidence of their claim within fifty (50) days after service of a copy of notice of demand, or

2. That they keep the premises clear of weeds and in a condition of harmony with other adjoining lots. (Ord. 48-93 § 1, 1993: Ord. 88-86 § 19, 1986: prior code § 6-2-14)

15.24.195: ALTERNATIVE COUNCIL PROCEDURES FOR NOTICE; TERMINATION OF RIGHTS:

A. As an alternative to the procedures set forth in section 15.24.190 of this chapter, the city council may pass a resolution demanding that the owner of a lot, site, or portion of the cemetery, which has been unused for burial purposes for more than sixty (60) years, file with the city recorder notice of any claim to the lot, site, or parcel.

B. The city council shall then cause a copy of the resolution to be personally served on the owner in the same manner as personal service of process in a civil action. The resolution shall notify the owner that the owner must, within sixty (60) days after service of the resolution on the owner, express interest in maintaining the cemetery lot and submit satisfactory evidence of an intention to use the lot for a burial.

C. If the owner cannot be personally served with the resolution of the city council as required in subsection B of this section, the city council shall publish its resolution for three (3) successive weeks in a newspaper of general circulation within Salt Lake County and mail a copy of the resolution within fourteen (14) days after the publication to the owner's last known address, if available.

D. If, for thirty (30) days after the last date of service or publication of the city council's resolution, the owner or person with a legal interest in the cemetery lot fails to state a valid interest in the use of the cemetery lot for burial purposes, the owner's rights are terminated and that portion of the cemetery shall be vested in Salt Lake City Corporation. (Ord. 49-01 § 1, 2001)

15.24.200: UNUSED LOTS; PURCHASE BY CITY SEXTON/MAINTENANCE SUPERVISOR AUTHORIZED WHEN:

The city sexton/maintenance supervisor, when directed so to do by the mayor, may purchase for the city, with funds provided for that purpose by the city council, any unused lots or portions of lots located in the city cemetery at a price of one-half ($^1/_2$) the current resident rate. It is unlawful, however, for the city sexton/maintenance supervisor or any other employee of the city to trade, deal in or make a profit, directly or indirectly, out of any transaction involving the sale, purchase or transfer of any cemetery lot. (Ord. 54-99 § 4, 1999: Ord. 48-93 § 1, 1993: prior code § 6-2-11)

15.24.210: RECORDING OF PLATS AND CONVEYANCES:

The city sexton/maintenance supervisor shall file with the Salt Lake County recorder all records required by state statute relating to cemetery plats and ownership thereof. (Ord. 48-93 § 1, 1993: prior code § 6-2-12)

15.24.220: LOTS; CONTINUING CARE REQUIRED:

A. All lots in the city cemetery shall be continually maintained by the city. The sale of the burial right to any lot shall be subject to a continuing care fee shown on the Salt Lake City consolidated fee schedule. Said fee shall be collected from the person purchasing the burial right to such lot, and in consideration of the payment of said fee the city shall continually care for and maintain such lot until said lot is transferred to another party. Upon any sale or other transfer of the burial right to any cemetery lot, a continuing care fee shown on the Salt Lake City consolidated fee schedule, per lot shall be payable to the city by the transferee.

B. No grave opening upon any lot shall be authorized by the city sexton/maintenance supervisor if a continuing care fee is owed upon such lot until such fee is paid. The execution of an installment note in accordance with the provisions of this chapter shall be deemed payment in order to authorize grave openings. (Ord. 24-11, 2011)

15.24.230: LOTS; CHANGES AND SERVICES RESTRICTED:

No improvement, change or service, other than continuing care as defined in this chapter, shall be made upon any gravesite by the owner or owners thereof without the prior written approval of the city sexton/maintenance supervisor for such changes or services, nor without payment to the city of the reasonable cost of all such improvements, changes or services requested and approved. (Ord. 49-01 § 4, 2001: Ord. 48-93 § 1, 1993: prior code § 6-2-9)

15.24.240: HEADSTONE, MONUMENT AND MARKER LIMITATIONS; FENCE LIMITATIONS:

The following rules and restrictions are applicable to headstones, monuments, and markers (collectively referred to as "headstones") installed in the city cemetery but may be waived or modified by the mayor or the mayor's designee if that person determines that the enforcement of the rules or restrictions, under the circumstances, would be inappropriate or unnecessary to protect safety or health, or such waiver or modification would be in the best interest of the city or the convenience of the public:

A. Specifications: All upright headstones shall be installed at the west end of the grave with the following specifications:

1. Height: An installed headstone may not be more than three feet (3') tall, when measured from ground level to the top of the headstone.

2. Width: When installed, a single headstone on a single grave may not be more than thirty nine inches (39") wide, measured north to south, including a four inch (4") flush with the ground base all the way around the headstone.

3. Double Headstones: When installed, a double headstone on two (2) graves may not be more than seventy eight inches (78") wide, measured north to south, including a four inch (4") flush with the ground base all the way around the headstone.

4. Length: When installed, a headstone, measured east to west, may not be more than twenty six inches (26") in length including a four inch (4") flush with the ground base all the way around the headstone.

5. Pinned To Base: All upright markers shall be pinned to the base.

B. Waiver; Owner Responsibility: The restriction on the length of a ground level (flat) headstone stated in subsection A4 of this section shall not apply if the owner of a burial lot signs and delivers to the main cemetery office a written waiver that states that the owner is knowingly installing a headstone that exceeds the normal twenty six inch (26") limitation. In the waiver the owner shall accept all responsibility for damage to the headstone or any ground level flower vase or receptacle placed in the maintenance path due to: 1) its placement in the normal traffic path, 2) the city's maintenance of the city cemetery, or 3) the occurrence of other funerals and the installation of other headstones in the area. The city shall not be responsible for any costs to have the headstone repaired or replaced.

C. Ownership, Liability Risks, And Maintenance Of Headstones: A headstone is the private property of the owner of the burial right. The installation of a headstone is done at the owner's own risk. The owner assumes all liability and costs for the maintenance and repair of the headstone including the raising of a sunken headstone, the repair of cracks, chips, or scratches, and the repair or replacement of a headstone due to the age of the headstone or cement. The city is not responsible for damage to headstones resulting from natural events such as tree damage, or for damage to a headstone or injury to any person in connection with the raising of a headstone or a visit to the cemetery.

D. Prohibitions: No person may erect or maintain any fence, wall, corner post, coping, hedge, or boundary of any kind upon any lot or gravesite in the city cemetery, nor grade the cemetery ground or land. The city sexton/maintenance supervisor shall, whenever requested, furnish the true line of a lot according to the official survey, and shall prevent and prohibit any marking of a lot, except by official landmarks, and shall prevent and prohibit any grading that might destroy or interfere with the general slope of the cemetery land. (Ord. 51-13, 2013)

15.24.245: CEMETERY GROUNDS WORK ORDER AND PAYMENT; DAMAGE:

A. Any person (including a business entity) who desires to perform work in the city cemetery, including the installation of a headstone or other work at a burial lot, shall first, on a weekday, complete a work order form at the main office of the city cemetery. While working within the city cemetery, the person must possess the work order form and shall present the form for inspection upon request by a cemetery employee. Any work performed within the city cemetery shall be done during regular business hours Monday through Saturday, eight o'clock (8:00) A.M. to four thirty o'clock (4:30) P.M.

B. The city shall document any damage to property within the city cemetery done by or on behalf of any person that is not reported to the main office of the cemetery and repaired according to city standards. The city shall provide written notice of the damage to that person, stating the date and location of the damage and identifying the person responsible for the damage. The city shall also provide a copy of the notice to the person who caused the damage. The city cemetery shall repair the damage and bill the person responsible for the city's cost of labor and materials to repair the damage.

C. The following are nonexclusive examples of damage to which this section relates:

1. Tire ruts in the lawn area;

2. Leaving excess dirt in a burial lot or on nearby grounds or headstones;

3. Dirt or tire marks on a nearby headstone;

4. The sinking or dislodging of any headstone;

5. Installing of a headstone without proper documentation or payment of required fees; or

6. Damage to the irrigation system.

D. If an employee or agent of a person (including a business entity) who does work in the city cemetery for compensation receives three (3) notices of violations of this chapter, that employee or agent shall be barred from performing work within the city cemetery for one year after the delivery of the third notice. The employee or agent may resume working at the city cemetery only with the consent of the city sexton.

E. If any person (including a business entity) not described in subsection D of this section receives six (6) notices of violations of this chapter, the person shall be suspended from performing work within the city cemetery for one month. If the person receives six (6) additional notices of violations of this chapter, the person shall be suspended from performing work within the city cemetery for two (2) additional months. If the person receives six (6) additional notices of violations of this chapter, the person shall be suspended from performing work within the city cemetery for three (3) additional months.

F. The city sexton shall coordinate the repair of damage reported to the cemetery office. The person who caused the damage shall repair the damage at the person's own expense.

G. No person may set a headstone or perform other work in the city cemetery, except work essential to a burial, from December 1 through February 28 or any other time the city determines that the cemetery grounds are unsuitable for traffic or work. (Ord. 51-13, 2013)

Article III. Interment And Disinterment

15.24.250: BURIALS MUST BE IN CEMETERIES; EXCEPTION:

It is unlawful for any person to bury the body of a deceased person within the limits of the city, except in the burying grounds located therein, unless by permission of the mayor. (Prior code § 6-3-1)

15.24.260: BURIALS; CITY SEXTON/MAINTENANCE SUPERVISOR AUTHORITY:

All interments in the city cemetery shall be under the direction of the city sexton/maintenance supervisor, who shall dig or cause to be dug all graves required for the burial of the dead. (Ord. 48-93 § 1, 1993: prior code § 6-3-3)

15.24.270: BURIALS; CERTIFICATE OR PERMIT REQUIRED:

Before any interment, the city sexton/maintenance supervisor shall require of any person requesting interment a certificate of burial rights. Such certificate may be obtained by purchasing the same, if the applicant has not yet purchased the gravesite, or by presentation of a written permit from the owner or nearest relative of the owner thereof. All such certificates and permits shall be filed with the city sexton/maintenance supervisor, and it is unlawful for any person to inter any person in the city cemetery without complying with the provisions of this section. (Ord. 48-93 § 1, 1993: 1987 Code: prior code § 6-3-6)

15.24.280: PERMIT REQUIREMENTS:

The city sexton/maintenance supervisor shall not inter or permit the interment of any body unless it is accompanied by a burial, removal or transit permit issued in accordance with state statutes and this code. The city sexton/maintenance supervisor shall endorse upon the permit the date of interment over his/her signature, and shall forthwith return it to the local registrar in accordance with state statutes and this code. (Ord. 48-93 § 1, 1993: prior code § 6-3-4)

15.24.290: FEES FOR CITY SEXTON/MAINTENANCE SUPERVISOR'S SERVICES:

A. The city sexton/maintenance supervisor shall collect from those requiring cemetery services, fees shown on the Salt Lake City consolidated fee schedule for the following services:

1. Opening and closing a single infant grave of five feet (5') in length or less;
2. Opening and closing a single adult grave for cement receptacle;
3. Removal of remains of deceased individuals:
   a. Adult removal from existing grave;
   b. Infant removal from existing grave;
   c. Removal of cremains;
4. Burial of cremains;
5. Opening and closing a double deep grave;
6. Opening and closing the top of an existing double deep grave;
7. Removal and lowering of deceased individuals:
   a. Adult Salt Lake City resident;
   b. Adult non-Salt Lake City resident;
   c. Infant Salt Lake City resident;
   d. Infant non-Salt Lake City resident;
8. Marker monitoring:
   a. Ground level marker;
   b. Upright marker.

   For purposes of this section, "ground level marker" means a marker that can be passed over by the city's lawn mowers without obstruction. An "upright marker" is a marker that is not a ground level marker;
9. Opening and closing a grave at the Fort Douglas Cemetery;
10. Opening and closing a grave at the Jewish Cemetery.

B. For burials not completed by four o'clock (4:00) P.M. on any day, the city shall charge the fee per hour shown on the Salt Lake City consolidated fee schedule in addition to any other fees and costs provided for in this chapter.

C. For any burial on a Saturday, the city shall charge the fee shown on the Salt Lake City consolidated fee schedule in addition to any other fees and costs provided for in this chapter.

D. For any burial on a Sunday or holiday, the city shall charge the fee shown on the Salt Lake City consolidated fee schedule in addition to any other fees and costs provided for in this chapter.

E. A person who receives a bill from the city cemetery, including any bill relating to damage caused in the city cemetery, shall pay the bill in full within sixty (60) days. The person shall pay to the city a late fee equal to ten percent (10%) of the original bill for each day the payment is late. (Ord. 51-13, 2013)

15.24.300: RECORDKEEPING REQUIREMENTS:

The city sexton/maintenance supervisor shall keep a record of all interments made, including cremations, in the city cemetery, which shall state the name of the deceased person, place of death, date of burial, and name and address of the funeral director. These records shall be open to public inspection at all times. (Ord. 48-93 § 1, 1993: prior code § 6-3-5)

15.24.310: BURIAL ABOVEGROUND PROHIBITED:

It is unlawful for any person to bury the body of a deceased person in any structure above the ground in the city cemetery. (Prior code § 6-3-10)

15.24.320: BURIAL OF CONVICTED MURDERERS PROHIBITED:

There shall not be interred in any cemetery within the city limits the body of any person known to the law as a murderer except in a plot or portion of such cemetery which has been definitely designated and set apart for the burial of such persons. (Prior code § 6-3-2)

15.24.330: USE OF WOOD RECEPTACLES PROHIBITED:

A. It is unlawful for any person to bury the body of a deceased person in a wood receptacle at the Salt Lake City Cemetery, except as provided in subsection B of this section.

B. A body of a deceased infant may be buried in a wood receptacle, provided that such infant is buried in a grave already occupied by the body of another person or the body of the infant is buried in either section Y or west 15, which sections are designated as baby land. (Prior code § 6-3-11)

15.24.340: DISINTERMENT AND REMOVAL:

It is unlawful for any person to disinter any body buried in the city cemetery or in any cemetery within the limits of Salt Lake City except under the direction of the city sexton/maintenance supervisor. Before disinterment, the city sexton/maintenance supervisor shall require a permit issued by the board of health and a written order from the owner of the lot authorizing such removal, which order shall be filed and preserved by the city sexton/maintenance supervisor. All such removals shall be recorded by the city sexton/maintenance supervisor in a book kept for that purpose. (Ord. 48-93 § 1, 1993: prior code § 6-3-7)

15.24.350: DEATH FROM CONTAGIOUS DISEASES; DISINTERMENT CONDITIONS:

It is unlawful for any person to remove the body of a person who has died of a contagious disease within two (2) years from the date of burial, unless such a body has been buried in a hermetically sealed coffin, and is found to be so encased. (Prior code § 6-3-8)

CHAPTER 15.28
CAPITAL PROJECTS FUND

15.28.010: CREATION; ADMINISTRATION:

A. Capital Projects Fund Created: All funds received from leases on special use facilities and public buildings in city parks, including, but not limited to, Memorial House in Memory Grove, Chase Home in Liberty park, Raging Waters, Derks Field and Oak Hills Tennis Center, shall be placed in the parks' capital projects fund and kept separate and apart from all other city funds. For purposes of this section, the term "special use facility" shall not include any facility for which a fee is charged pursuant to chapter 15.16 of this title with the exception of Oak Hills Tennis Center.

B. Use Of Funds: This fund shall be used for capital developments, improvement and repairs within the city parks and recreation system, including the renovation of existing park facilities, and the creation of new facilities. Revenue generated from the lease of a specific facility may be used for capital development and improvement of other park facilities, and need not be restricted to renovation of the facility generating the revenue.

C. Administration: The collection, accounting and expenditure of funds shall be in accordance with existing fiscal policy of the city and the fund shall be administered by the department of public services. (Ord. 45-93 § 30, 1993: Ord. 49-88 § 1, 1988)

CHAPTER 15.30
SMOKING PROHIBITED IN CITY PARKS, RECREATIONAL AREAS, AND CEMETERIES, AND NEAR MASS GATHERINGS

15.30.010: DEFINITIONS:

CITY PARK: Means and includes city owned parks, public squares, ball diamonds, golf courses, soccer fields, and other recreation areas, Library Square, city owned cemeteries and trails, but not designated smoking areas specified by the city.

MASS GATHERING: An outdoor assembly of one hundred (100) or more people on city owned property that reasonably can be expected to continue for two (2) or more hours.

SMOKE OR SMOKING: Means and includes possession, carrying, or holding a lighted pipe, cigar, or cigarette of any kind, or any other lighted smoking equipment, or the lighting or emitting or exhaling of smoke of a pipe, cigar, or cigarette of any kind, or of any other lighted smoking equipment. (Ord. 81-06 § 1, 2006)

15.30.020: PROHIBITIONS:

Smoking is hereby prohibited in city parks, light rail train stations, within twenty five feet (25') of bus stops, and within fifty feet (50') of mass gatherings. A violation of this chapter is an infraction punishable by a fine not to exceed twenty five dollars ($25.00) but not by imprisonment. Police officers shall have the discretion to issue a "warning" if they deem it is in the best interests of the city for the first offense. (Ord. 81-06 § 1, 2006)

15.30.030: EXCEPTIONS:

A. American Indian/Alaska Native Ceremonies:

1. A person is exempt from the restrictions of this chapter if the person:

   a. Is a member of an American Indian/Alaska Native tribe whose members are recognized as eligible for the special programs and services provided by the United States to American Indians/Alaska Natives who are members of those tribes;

   b. Is an American Indian/Alaska Native who actively practices an American Indian/Alaska Native religion, the origin and interpretation of which is from a traditional American Indian/Alaska Native culture;

   c. Is smoking tobacco using the traditional pipe of an American Indian/Alaska Native tribal religious ceremony, of which tribe the person is a member, and is smoking the pipe as part of that ceremony; and

   d. The ceremony is conducted by a pipe carrier, American Indian/Alaska Native spiritual person, or medicine person recognized by the tribe of which the person is a member and by the American Indian/Alaska Native community.

2. A religious ceremony using a traditional pipe under this section is subject to any applicable state or local law, except as provided in this section.

B. First Amendment Activities: A person is exempt from the restrictions of this chapter if the person is smoking or using smoking materials to exercise protected First Amendment activity, such as smoking or use of materials for bona fide religious purposes. (Ord. 81-06 § 1, 2006)

15.30.040: POSTING OF SIGNS:

"No smoking" signs or the international "no smoking" symbol (consisting of a pictorial representation of a burning cigarette enclosed in a red circle with a red bar across it) shall be clearly and conspicuously posted in every city park. (Ord. 81-06 § 1, 2006)

Title 16 - AIRPORTS

CHAPTER 16.04
DEFINITIONS

16.04.010: DEFINITIONS, GENERALLY:

The following words and phrases, whenever used in this title, shall be defined as provided in this chapter unless a different meaning is specifically or more particularly described. (Prior code § 2-1-3)

16.04.020: ACROBATIC:

"Acrobatic" means maneuvers intentionally performed by an aircraft involving an abrupt change in its altitude, an abnormal altitude or an abnormal acceleration thereof. (Prior code § 2-1-4)

16.04.030: AIRCRAFT OPERATIONS:

"Aircraft operations" means an aircraft arrival at or departure from the airport, with or without FAA airport traffic control service. (Prior code § 2-1-5)

16.04.040: AIRCRAFT PARKING AREA:

"Aircraft parking area" means the area or areas of the airport set aside and designated for the parking of aircraft. (Prior code § 2-1-6)

16.04.050: AIRPORT:

"Airport" means and has reference to all of the areas comprising Salt Lake City International Airport, Salt Lake City Airport II, and the Tooele Valley Airport, as appropriate, as they now exist or as may hereafter be expanded and exist, together with all their appurtenant facilities. A territorial division thereof may be designated by number. (Ord. 77-04 § 1, 2004: prior code § 2-1-7)

16.04.060: AIRPORT RULES AND REGULATIONS:

"Airport rules and regulations" means the provisions of this title, as amended, and any rules and regulations issued by the director. (Prior code § 2-1-8)

16.04.070: AIR TRAFFIC:

"Air traffic" means aircraft in operation anywhere in the airspace above and on the surface of the area embraced by the airport, and normally used for the movement of aircraft. (Prior code § 2-1-9)

16.04.080: CITY:

"City" means and has reference to Salt Lake City, a municipal corporation of the state of Utah. (Prior code § 2-1-10)

16.04.090: COMMERCIAL VEHICLE:

"Commercial vehicle" means a vehicle used or maintained for the transportation of persons or property for hire, compensation or profit. (Prior code § 2-1-11)

16.04.100: CONTROL TOWER:

"Control tower" means the FAA air traffic control tower at Salt Lake City International Airport. Whenever used within this title, it shall refer to operations at Salt Lake City International Airport only. (Prior code § 2-1-12)

16.04.110: DIRECTOR:

"Director" means the duly appointed and qualified department head of the city department designated as the "department of airports", selected and appointed by the mayor with the recommendation of the airport board and with the advice and consent of the city council. (Ord. 86-98 § 7, 1998: prior code § 2-1-13)

16.04.120: DOPING:

"Doping" means the application of a preparation to strengthen and tighten aircraft fabric. (Prior code § 2-1-14)

16.04.130: ENGAGING IN AERIAL APPLICATIONS:

"Engaging in aerial applications" means a person engaged in the business of aerial crop dusting, spraying or firefighting. (Prior code § 2-1-15)

16.04.140: ENGAGING IN AIRCRAFT FUEL AND OIL DISPENSING SERVICE:

"Engaging in aircraft fuel and oil dispensing service" means a person engaged in the business of dispensing fuels and oil and other related services. (Prior code § 2-1-16)

16.04.150: ENGAGING IN AIRCRAFT RENTAL:

"Engaging in aircraft rental" means a person engaged in the rental of aircraft. (Prior code § 2-1-17)

16.04.160: ENGAGING IN AIRCRAFT SALES:

"Engaging in aircraft sales" means a person engaged in the sale of new and/or used aircraft. (Prior code § 2-1-18)

16.04.170: ENGAGING IN AIRFRAME AND/OR POWER PLANT REPAIR:

"Engaging in airframe and/or power plant repair" means a person engaged in the business of repairing or servicing aircraft airframes or power plants. (Prior code § 2-1-19)

16.04.180: ENGAGING IN AIR TRANSPORTATION SERVICE:

"Engaging in air transportation service" means a person engaged in the transportation of a person or persons and/or property according to the applicable following conditions:

A. A certified air carrier which holds a certificate of public convenience and necessity issued under section 401 of the federal aviation act of 1958, as amended, or its successor, other than an air carrier which holds a certificate of public convenience and necessity for supplemental air service;

B. A supplemental air carrier as defined in title 1, general provisions definitions, section 101(32) of the federal aviation act of 1958, as amended, or its successor; or

C. An air taxi operator subject to part 298, as amended, of the economic regulations of the civil aeronautics board and engaged directly in air transportation of passengers and/or property and who does not hold a certificate of public convenience and necessity issued by the civil aeronautics board pursuant to section 401 of the federal aviation act of 1958, as amended, or its successor, or other economic authority issued by the civil aeronautics board. (Prior code § 2-1-20)

16.04.190: ENGAGING IN COMMERCIAL FLIGHT SERVICE:

"Engaging in commercial flight service" means a person engaged in commercial air activities such as, but not limited to, banner towing, aerial advertising, aerial photography, aerial survey, firefighting, fire patrol, pipeline patrol, power line patrol, cloud/fog seeding operations, or any other operations including FAR part 135 operations. (Prior code § 2-1-23)

16.04.200: ENGAGING IN MULTIPLE SERVICE:

"Engaging in multiple service" means a person engaged in two (2) or more commercial aeronautical activities. (Prior code § 2-1-21)

16.04.210: ENGAGING IN RADIO, INSTRUMENT OR PROPELLER SERVICE:

"Engaging in radio, instrument or propeller service" means a person engaged in the sales and service of aircraft radios, instruments or propellers, and shall include repairs and installations of new and/or used aircraft radio equipment and parts, aircraft instruments, or propellers. (Prior code § 2-1-22)

16.04.220: ENGAGING IN TRAINING SCHOOL:

"Engaging in training school" means a person engaged in conducting a pilot flight training school instruction as is necessary to prepare a student pilot to take a written examination and flight check ride for obtaining a pilot certificate or appropriate aircraft rating from the FAA. (Prior code § 2-1-24)

16.04.230: FAA:

"FAA" means the federal aviation administration. (Prior code § 2-1-25)

16.04.240: FAR:

"FAR" means the federal aviation regulations. (Prior code § 2-1-26)

16.04.250: FIXED BASE OPERATOR:

"Fixed base operator" means a person, subject to the provisions of a lease with the city, engaging in the selling, servicing, renting or leasing of new and/or used aircraft, parts, aircraft accessories and hardware; custom repair, overhauling and modification of general accessories and hardware; overhauling and modification of aircraft and/or aircraft equipment; and includes the conducting of charter flight services, aerial photography, advertising, mapmaking, aerial firefighting or crop dusting services. (Prior code § 2-1-27)

16.04.260: GENERAL AVIATION:

"General aviation" means and shall include all phases of aviation other than aircraft manufacturing, military aviation scheduled and nonscheduled, and regulated air carrier operations. (Prior code § 2-1-28)

16.04.270: ITINERANT OPERATIONS:

"Itinerant operations" means all aircraft arrivals and departures other than local aircraft operations. (Prior code § 2-1-29)

16.04.280: LANDING AREA:

"Landing area" means the runways, taxiways, intermediate turnoffs, and adjoining areas. (Prior code § 2-1-30)

16.04.290: LOCAL AIRCRAFT OPERATIONS:

"Local aircraft operations" means:

A. Aircraft operating only in local traffic pattern or within sight of the tower at the airport;

B. Aircraft that are known to be departing from, or arriving from, flight in local practice areas located within a twenty (20) mile radius of the control tower at the airport; and

C. Aircraft making simulated instrument approaches or low passes at the airport. (Prior code § 2-1-31)

16.04.300: MAYOR:

"Mayor" means the duly elected or appointed and qualified chief executive and administrative officer of Salt Lake City, or his/her authorized representative. (Prior code § 2-1-32)

16.04.310: MOTOR VEHICLE:

"Motor vehicle" means any vehicle propelled by an internal combustion or electric motor. (Prior code § 2-1-33)

16.04.320: OWNER:

"Owner", when referring to vehicles or aircraft, means a person who holds the legal title to any aircraft or vehicle. If such aircraft or vehicle is the subject of any agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement coupled with an immediate right of possession vested in the conditional vendee or lessee, or, in the event the mortgagor of any aircraft or vehicle is entitled to possession, then such conditional vendee, lessee or mortgagor thereof shall be deemed the owner for purposes of this title. (Prior code § 2-1-34)

16.04.330: PARKING AREA:

"Parking area" means any portion of the airport which is set aside for parking of vehicles. (Prior code § 2-1-35)

16.04.340: PEDESTRIAN:

"Pedestrian" means any person traveling afoot within the borders of the airport. (Prior code § 2-1-36)

16.04.350: PERSON:

"Person" means and includes a natural person, copartnership, firm, association or corporation. (Prior code § 2-1-37)

16.04.360: PROVIDING AN AIRCRAFT PARTS HOUSE:

"Providing an aircraft parts house" means a person engaged in the business of storing and dispensing aircraft parts. (Prior code § 2-1-38)

16.04.370: RAMP:

"Ramp" means a paved area of the airport normally used for the parking and taxiing of aircraft. (Prior code § 2-1-39)

16.04.380: STATE:

"State" means and has reference to the state of Utah. (Prior code § 2-1-40)

16.04.390: TRAFFIC:

"Traffic" means pedestrians and vehicles, either singly or together, while using any roadway or walkway within the airport. (Prior code § 2-1-41)

16.04.400: VEHICLE:

"Vehicle" means a device in, upon or by which any person or property is or may be propelled, moved, transported, hauled or drawn upon any roadway within the airport. (Prior code § 2-1-42)

16.04.410: ZONES:

A. "Bus zone" means that space reserved for loading and unloading buses.

B. "Limousine zone" means that space reserved for loading and unloading limousines.

C. "Loading gate" means that space reserved for loading and unloading aircraft.

D. "Loading ramp" means equipment used in loading and unloading aircraft.

E. "Loading zone" means that space adjacent to a curb, reserved for the exclusive use of vehicles during the loading or unloading of passengers, property or materials.

F. "Taxicab stand" means the space reserved for loading and unloading taxicabs. (Prior code § 2-1-43)

CHAPTER 16.08
AIRPORT MASTER PLAN EXTERIOR BOUNDARIES

16.08.010: DECLARATION OF POLICY:

The city council finds that:

A. Aircraft transportation of all kinds is rapidly accelerating and expanding in all its fields and requires and will require increasingly larger areas for landing facilities, terminal facilities, warehouse facilities, hangar and other facilities to accommodate such transportation;

B. Salt Lake City International Airport and Airport II are situated in the center of the great intermountain west, and as such will attract and serve an ever expanding aircraft transportation system and efforts are being made to increase the number of airlines using said airports;

C. In order to meet the needs of the aircraft industry using such airports, it is necessary that immediate steps be taken to enlarge the airports and their facilities;

D. It is necessary that the city make plans for the enlargement of the airports to provide the necessary accommodations and to protect the air space needed therefor;

E. It is further necessary to adopt a master plan which will define and fix the exterior boundaries of the area necessary for the orderly and convenient expansion of such airport facilities in order to keep abreast of the needs and requirements of the air transportation industry which the airports should and will serve. (Ord. 88-86 § 12, 1986: prior code § 2-17-1)

16.08.020: SALT LAKE CITY INTERNATIONAL AIRPORT BOUNDARIES:

The boundaries of the Salt Lake City International Airport shall be as set forth in the records of the Salt Lake County recorder, which may be restated in airport rules and regulations. (Ord. 77-04 § 2, 2004: Ord. 43-93 § 1, 1993: prior code § 2-17-2)

16.08.030: SALT LAKE CITY AIRPORT II AND TOOELE VALLEY AIRPORT BOUNDARIES:

A. The boundaries of the Salt Lake City Airport II shall be as set forth in the records of the Salt Lake County recorder, which may be restated in airport rules and regulations.

B. The boundaries of the Tooele Valley Airport shall be as set forth in the records of the Tooele County recorder, which may be restated in airport rules and regulations. (Ord. 77-04 § 3, 2004: Ord. 56-94 § 1, 1994: prior code § 2-17-3)

CHAPTER 16.12
AIRPORT LOCATION AND REGULATIONS

Article I. General Regulations

16.12.010: SALT LAKE CITY INTERNATIONAL AIRPORT:

A. Location: Salt Lake City International Airport is four (4) miles west of the downtown business section of Salt Lake City at an elevation of four thousand two hundred twenty six feet (4,226').

B. Traffic Pattern: The normal traffic pattern for aircraft using the west runway is a rectangular path to the west of the airport. The traffic pattern for aircraft using the east runway is a rectangular path to the east of the airport.

C. Altitude Restrictions: It is unlawful to operate an aircraft over the city at an altitude of less than two thousand feet (2,000') above the ground. This provision does not apply to:

1. Aircraft flying a normal traffic pattern in the process of landing at or takeoff from Salt Lake City International Airport; or

2. Flights pursuant to subsection 16.16.180A of this title; or

3. Flights under two thousand feet (2,000') authorized by the mayor in writing when there is a demonstration of need; restrictions are imposed by the mayor requiring the low altitude flight be consistent with FAR 91.79; and the filing with the city of adequate insurance or other security (approved as to form by the city attorney), sufficient to protect the city and the public.

D. Runways: Salt Lake City International Airport has three (3) runways, two (2) north-south and one northwest-southeast.

1. Runway 34L-16R is a precision instrument runway and will accommodate aircraft with weights up to three hundred twenty thousand (320,000) pounds (dual tandem gear rated).

2. Runway 34R-16L is normally used by general aviation aircraft. It will accommodate aircraft with weights up to two hundred sixty thousand (260,000) pounds (dual tandem gear rated).

3. Runway 32-14 is normally used by general aviation aircraft. It will accommodate aircraft having a total weight of thirty five thousand (35,000) pounds or less. (Ord. 65-86 § 1, 1986: prior code § 2-1-1)

16.12.020: SALT LAKE CITY AIRPORT II:

A. Location: Salt Lake City Airport II is eleven (11) miles south of Salt Lake City International Airport at an elevation of four thousand six hundred five feet (4,605'). It is used by general aviation aircraft only. UNICOM radio facilities, runway and taxiway lights, fixed base operator facilities, and hangars are available.

B. Traffic Patterns: The traffic patterns for Salt Lake City Airport II are rectangular patterns west of the airport.

C. Runways: The runway alignment at Salt Lake City Airport II is 34-16, one hundred feet by five thousand six hundred four feet (100' x 5,604'), paved and lighted. The runway will accommodate aircraft with weights of thirty five thousand (35,000) pounds or less. (Prior code § 2-1-2)

16.12.030: RULES AND REGULATIONS; ADOPTION AND CONTENTS:

A. Subject to approval by the mayor, the director shall have the power and authority and is hereby empowered and authorized, upon the basis of passenger flow, security reasons or where necessitated by the peculiar character of the airport, to adopt reasonable rules and regulations pertaining to the solicitations of contributions for charitable, religious or political purposes on the airport.

B. Such rules and regulations may provide for the following:

1. Conducting such activities in such manner as to maintain a free flow of pedestrians and vehicular traffic, maintain security of the airport, and avoid excessive disruption of normal activities and movement of passengers and vehicles;

2. Designating areas upon the airport in which such activities may not be conducted;

3. Determining the number of persons who may engage in such activities at any specific time and the duration of the activity. (Prior code § 2-2-14)

16.12.040: ALL REGULATIONS APPLICABLE TO THE AIRPORT:

No person shall commit any violation of this code, as amended, while on the airport. For the purposes of this section, the airport shall be deemed to be a public place. (Prior code § 2-14-1)

16.12.050: USE OF AIRPORT PROPERTY; PERMISSION REQUIRED:

A. Permission granted by the city or an authorized agent thereof, expressly or by implication, to enter upon or use the airport or any part thereof, including aircraft owners, operators, pilots, crew members, mechanics, servicemen and passengers, spectators, sightseers, officers and employees of airlines, agents and employees of sales agencies, flight operators, lessees and other persons occupying space at the airport, persons doing business with the airport, its lessees, sublessees and permittees and all other persons whatsoever, shall be upon an implied agreement to comply with airport rules and regulations.

B. All general aviation aircraft normally based at the airport shall have such aircraft registered with a fixed base operator or the director. The registration must include type and make of aircraft, aircraft registration number, the owner's name, address and telephone number and next of kin.

C. The airport management shall have the authority to take such steps as may be necessary for the handling, policing and protection of the public while present at the airport, subject to the review of the director. (Prior code § 2-2-1)

16.12.060: COMMERCIAL ACTIVITIES; PERMIT REQUIREMENTS:

No person shall use the airport, or any portion thereof, for any revenue producing commercial activity without first obtaining an appropriate permit for such activity from the director and paying the rates and charges prescribed for such use. No person not so authorized shall operate, service or repair aircraft or carry on any business of any nature upon the airport premises. (Prior code § 2-2-7)

16.12.070: CONDUCT OF AVIATION BUSINESS:

Any person wishing to use the airport as a base for conducting a business in any form of commercial aviation, including building of structures, shall first make application in writing and secure permission from the director, and shall pay the fees and charges prescribed for such use. The carrying of passengers for hire or reward, including, but not limited to, air taxi, charter or rental, for the purpose of this title, is considered to be a conduct of aviation business. (Prior code § 2-2-8)

16.12.080: CONDUCT OF GENERAL BUSINESS:

Any person wishing to engage in the business or concession of selling food, refreshments or any other commodity or service upon the airport or upon any land acquired by the city for use in connection with the airport, or upon or in any of the buildings, structures, land, parking places, walkways, roadways or other facilities used or operated in connection with the airport, shall make application in writing and secure permission from the director, and shall pay the fees and charges prescribed for such use. (Prior code § 2-2-9)

16.12.090: PERSONS EMPLOYING PROFESSIONAL SKILLS:

Any person wishing to use the airport, its facilities and services, for the purpose of utilizing his or her professional skill or the professional skill of his or her employees for profit, shall possess all applicable licenses, shall make a written application therefor and procure permission from the director, and shall pay the fees and charges prescribed for such use. (Ord. 77-04 § 4, 2004: prior code § 2-2-10)

16.12.100: GUESTS OF PILOTS AND OPERATORS; RESPONSIBILITY:

The provisions of this title shall apply to pilots, owners and operators of private aircraft and vehicles, and they shall be responsible for the observance of airport rules and regulations by persons accompanying them as their guests, invitees, students or passengers. (Prior code § 2-2-12)

16.12.110: USERS AND VISITORS; RISK AND LIABILITY:

Persons visiting or using the airport and its facilities shall do so at their own risk and shall assume full responsibility for their own acts and the acts of their agents, employees, guests and invitees, and shall save and hold harmless and defend the city, its officers, employees and agents from liability for any loss, damage or injury resulting from their use thereof, and shall save and hold harmless and defend the city, its officers, employees and agents from the claims of others arising out of such use when such use is in the course of any business transaction or other matter whatsoever with such user and at the latter's request, solicitation, invitation, permission or license. (Prior code § 2-2-2)

16.12.120: REVOCATION OF USE PRIVILEGE:

Any person refusing to comply with this title or airport rules and regulations may be removed from the airport upon order of the director and may be deprived of further use of the airport and its facilities. (Ord. 70-04 § 1, 2004: prior code § 2-2-3)

16.12.130: USE OF AIRPORT FACILITIES; RESTRICTED AREAS:

A. Entering Posted Areas: No person shall enter any restricted area except by permission of the director, which permission shall be in the form of appropriate identification. Such identification must be worn on the left front side of the outer garment at all times a person is within any such restricted area, except when actually handling cargo/baggage, performing aircraft/equipment maintenance, or during inclement weather, when the badge must be presented upon request. No person shall use the identification of another or allow another person to use his or hers.

B. Disclosure Of Confidential Information: No person may disclose confidential information regarding security to any person not authorized to have the information. This includes, but is not limited to, disclosing combinations to combination locking devices used for airport security purposes.

C. Duplication Of Airport Keys: No person may duplicate keys or keying devices without permission from the director.

D. Screening Requirements: No person shall be in any area beyond the screening checkpoints unless that person has been screened in compliance with federal requirements or is exempt therefrom.

E. Security: No tenant or its employees shall allow or permit any person or vehicle to enter any area except that immediately controlled by the tenant unless that person or vehicle is properly escorted or badged/marked as required by security regulations.

F. Perimeter Gates: No person with a gate access card shall leave a perimeter gate open after entering or exiting therethrough unless the gate is attended. (Ord. 42-87 § 1, 1987: prior code § 2-2-21)

16.12.140: TERMINAL USE FEES; AIRCRAFT AND PASSENGER SERVICES:

There is imposed on any person using the passenger terminal facilities of Salt Lake City International Airport for enplaning or deplaning passengers into or from transport type aircraft the following fees for the use of aircraft apron facilities, baggage claim facilities and other common and public use facilities:

A. For twenty two (22) or fewer flights in a calendar month, a use fee for the joint bag claim and other facilities will be computed as shown on the Salt Lake City consolidated fee schedule plus a use fee shown on the Salt Lake City consolidated fee schedule, per flight.

B. For more than twenty two (22) flights in a calendar month, a use fee for the joint bag claims and other facilities will be computed as shown on the Salt Lake City consolidated fee schedule plus a use fee shown on the Salt Lake City consolidated fee schedule per flight for the first twenty two (22) flights. For flights in excess of twenty two (22) in a calendar month, only the use fee for the joint bag claims as computed per passenger enplaned and shown on the Salt Lake City consolidated fee schedule will be imposed.

C. If the international arrivals building is used, a use fee shown on the Salt Lake City consolidated fee schedule.

D. For use of the executive terminal on the east side of Salt Lake City International Airport, a use fee shown on the Salt Lake City consolidated fee schedule, per flight.

E. Any airline having a valid and existing (not terminated or expired) agreement with the city covering the use of baggage claim and terminal facilities at Salt Lake City International Airport shall be exempt from the use fee imposed by subsections A and B of this section. (Ord. 24-11, 2011)

16.12.150: TERMINAL USE FEES; ANNUAL SPACE RENTAL:

A. There is hereby imposed on any person not having a valid and existing (not terminated or expired) agreement or permit from the city a use fee, computed by multiplying the number of square feet of space in the terminal used exclusively by any person by the annual rent rate per square foot of space in the terminal as is from time to time being charged commercial airlines in accordance with the formula in exhibit C, part I(b) of the airport use agreement dated July 1, 1978, and designated by the algebraic symbol "RM".

B. The annual rental rate for basement and baggage make up space shall be charged in the above manner at the rate of 0.5 RM. Payment of said use fee or acceptance of payment of said use fee shall not be construed as creating any type of tenancy whatsoever or as authorizing the continued use or occupancy of such space. (Prior code § 2-2-27)

16.12.155: APRON USE FEES; OFF AIRPORT IN FLIGHT CATERERS:

A. There is imposed upon any person engaging in food and beverage in flight catering services at the airport whose business premises is at a location other than on the airport, a fee for use of the aircraft apron or parking area and related facilities and other common and public use facilities at the airport.

B. The fee for such use shall be seven percent (7%) of such person's gross sales at the airport. Within fifteen (15) days of the end of each month such person shall provide an audited statement to the director or his designee showing such person's actual gross receipts for sales at the airport, accompanied by a check for said percentage of gross sales. City shall have the right to audit such person's records, concerning such sales, at any time during normal business hours.

C. Any person who fails to comply with the foregoing may be prohibited from obtaining access to the airport apron or parking area and related facilities.

D. "Engaging in food and beverage in flight catering services" means a person engaged in the business of preparing food and beverages and using or supplying such to others for use at or on aircraft flights from the airport. (Ord. 76-90 § 1, 1990)

16.12.160: LANDING FEES:

A. Computation: There is hereby imposed on every operator engaged in the business of transporting by air persons or property for hire, including, but not limited to, travel clubs, common carriers, contract carriers, foreign air carriers and charter operators, a landing fee for each aircraft (fixed wing) landing made at Salt Lake City International Airport. The landing fee shall be computed by multiplying the landing fee rate, as amended from time to time and charged to commercial airlines in accordance with the formula in exhibit C, part I(a) of the airport use agreement with participating air carriers dated July 1, 1978, by the number of thousands of pounds, or fraction thereof, of certified maximum gross landing weight, as defined in the federal air regulations, of the aircraft, whether the aircraft is actually in revenue service or not.

B. Exemptions:

1. Any air carrier that has a valid and existing (not terminated or expired) airport use agreement with the city providing for the payment of landing fees for use of Salt Lake City International Airport shall be exempt from the landing fee imposed by this section.

2. Any such operator that is a fixed base operator based at Salt Lake City International Airport and operates a charter or air taxi service on a request basis shall, unless such operator has a valid and existing agreement with the city providing for the payment of landing fees as established by ordinance, be exempt from the landing fee imposed by this section.

C. Helicopters: There is hereby imposed on every operator, not otherwise exempt, of a helicopter for the carriage of persons or property for hire for a landing fee for each helicopter landing made at Salt Lake City International Airport as shown on the Salt Lake City consolidated fee schedule, per landing, regardless of weight.

D. Landing Defined: The term "landing" as used in this section means and includes all landings, whether revenue or nonrevenue. The foregoing notwithstanding, the term "landing", for purposes of landing fee computation, shall not include the situation where an aircraft departs from the Salt Lake City International Airport for another destination and, without making a stop at another airport, said aircraft is forced to return to and land at Salt Lake City International Airport because of meteorological conditions, mechanical or operating causes, or for similar emergency or precautionary reasons. (Ord. 24-11, 2011)

16.12.170: CARGO CARRIER RAMP USE FEE:

A. Imposed: There are hereby imposed on every operator, engaged in the business of transporting property by air for hire, cargo carrier ramp use fees for each separate use of the cargo ramp facility at Salt Lake City International Airport. The cargo carrier ramp use fee shall be computed on an annual basis by the city, for each fiscal year, first determining the cost of:

1. Investment by the city for construction of the ramp;

2. Associated site development costs;

3. Administrative and maintenance costs;

4. A percentage equal to two percent (2%) of the total costs as outlined above representing the city's return on this investment.

B. Cost Formula: The investment costs associated with the ramp shall be amortized over a twenty (20) year period for the purpose of determining a yearly investment cost at an interest rate equal to the rate charged participating airlines for city investment as detailed in the airport use agreements. The city shall then take the sum of the yearly investment cost, the cost of administration and maintenance, and the percentage return on city investment, and shall allocate them as follows:

1. Thirty five percent (35%) of total yearly cost to aircraft usage;

2. Sixty five percent (65%) of total yearly cost to gross weight.

C. Fee Determination: After these costs are allocated, fees to be charged to aircraft using the facilities shall be determined as follows:

1. The amount determined in subsection B1 of this section shall be divided by the total number of aircraft utilizing the cargo ramp facilities in the prior year to determine a flat rate fee to be charged to each aircraft per use.

2. The amount determined in subsection B2 of this section shall be divided by the total gross certified landing weight of aircraft utilizing the cargo ramp in the prior year to establish a basic rate per one thousand (1,000) pounds, or fraction thereof, of maximum gross certified landing weight and shall be charged according to each aircraft per use.

D. Payment: Bills shall be submitted to the airline on a monthly basis and shall be payable within thirty (30) days of day of receipt. (Ord. 24-11, 2011)

16.12.180: AIRCRAFT PARKING FEES:

A. There are established the following classes of fees for the parking of aircraft at the Salt Lake City International Airport:

1. Monthly parking fees for airport based aircraft on airport controlled space, as shown on the Salt Lake City consolidated fee schedule.

2. Daily transient aircraft parking fees on airport controlled space, as shown on the Salt Lake City consolidated fee schedule.

B. Any person engaging in air transportation services having an assigned gatehold shall be exempt from all parking fees in this section. (Ord. 24-11, 2011)

16.12.190: FUEL ROYALTIES:

A. There is imposed upon any person offering aviation fuel for sale upon the airport the following royalties:

1. A fuel royalty equal to six cents ($0.06) per gallon of fuel delivered to any person at the airport.

B. Any person selling fuel at the airport shall, on or before the twelfth day of each month submit to the city a detailed statement showing all fuel delivered to such person during the preceding calendar month. The city shall then bill such person for the preceding calendar month, taking into account the customary shrinkage allowance of two percent (2%). Such bill shall be paid within ten (10) days of the receipt thereof from the city.

C. Any person required to and paying a landing fee imposed by section 16.12.160 of this chapter, or its successor, or required by an existing agreement shall be exempt from the provisions of this section. (Ord. 28-96 § 1, 1996: Ord. 68-90 § 1, 1990: prior code § 2-2-28)

16.12.195: CUSTOMER FACILITY CHARGE:

A. There is hereby imposed a customer facility charge (CFC) on each transaction day, up to and including a maximum of twelve (12) days per contract, for the rental of a vehicle from an on airport rental car company (airport rental car company).

B. The executive director of the Salt Lake City department of airports or designee is authorized to implement and administer the CFC program on behalf of the city, through concession and/or lease contracts or other means, including, without limitation, the rules and regulations of the airport. The CFC charges may be precollected for future use, as specified in section 16.12.200 of this chapter.

C. The CFC shall not exceed five dollars ($5.00) per transaction day during the first year following the effective date. Thereafter, the method of calculating the CFC and the amount of such CFC shall be determined by the executive director of the Salt Lake City department of airports on behalf of the city. However, the CFC shall not exceed ten dollars ($10.00) per transaction day. City may at any time and for any reason, change the amount of the CFC or discontinue it upon written notice to any affected airport rental car company.

D. The airport rental car company shall collect the CFC and shall hold the CFC in trust for the benefit of the city. The CFC at all times shall be property of the city and the airport rental car company shall have no ownership or property interest in the CFC. The airport rental car company shall segregate, separately account for and disclose all CFCs as trust funds in its financial statements, and shall maintain adequate records that account for all CFCs charged and collected.

E. Airport rental car companies shall list the CFC separately on its customer invoice, describing it as a "customer facility charge".

F. The airport rental car company shall remit directly to the Salt Lake City department of airports on a monthly basis all CFCs that were collected or should have been collected from its airport customers. The CFCs shall be received no later than the last day of the month following the month in which the CFCs were collected.

G. The airport rental car company shall submit to the Salt Lake City department of airports on a monthly basis a transaction report, which includes transaction days, a summary of daily business transactions in connection with the airport, an accounting of all fees charged to airport customers in connection with such transactions, and such other information as required by city in form and substance satisfactory to the Salt Lake City department of airports. (Ord. 9-11, 2011)

16.12.200: FUNDS; DISPOSITION AND ACCOUNTING:

A. All funds received from fuel, taxes, rentals, concessions, customer facility charges, or any other source by the airport shall be placed in the airport enterprise funds and kept separate and apart from all other city funds. The collection, accounting, and expenditure of all airport funds shall be in accordance with existing fiscal policy of the city.

B. Funds received from customer facility charges shall be used for paying the city's capital costs for construction and improvement of rental car facilities at the airport, including costs that support environmental sustainability; paying a pro rata share of city's costs for joint use infrastructure, such as roadways, ready return and quick turnaround areas allocable to rental car usage; building reserves for renewal and replacement capital costs; paying common costs of a shuttle bus operation for rental car customers; funding transportation costs and other costs associated with interim operations during construction phasing and relocation of rental car operations; paying the city's costs for infrastructure for future lease areas for service center, including site prep; funding debt service associated with rental car facilities; or funding city's costs for such other rental car related purpose as the city determines. (Ord. 9-11, 2011)

16.12.210: REPAIRS TO AIRCRAFT:

A. No aircraft, aircraft engine, propeller or appliance shall be repaired in any area of the airport other than that area specifically designated or approved by the director. The director has designated that a person who properly leases an enclosed hangar at the airport may make or cause to be made necessary repairs, maintenance and inspections that are required by federal aviation regulations to maintain the aircraft in an airworthy condition when the same are not otherwise prohibited by this title, but only for the aircraft listed in the lease.

B. No repair will be made on any aircraft in a hangar other than that aircraft normally assigned to that hangar. Corporate aircraft maintenance hangars or areas, however, are considered as designated repair areas for maintenance on their own corporate aircraft.

C. All repairs on aircraft are to be made by properly certified mechanics, except those items of "preventive maintenance" performed by the owner or operator in accordance with the provisions of FAR, part 43.

D. Items of preventive maintenance may be performed in tiedown areas. (Ord. 77-04 § 5, 2004: prior code § 2-2-22)

16.12.220: ADVERTISING MATERIALS:

No person shall post, distribute or display signs, advertisements, circulars, printed material or written matter at the airport, without the written permission of the director. This section shall not apply when such distribution or displays are for religious, charitable or political purposes, which events shall be controlled by all other applicable provisions. (Ord. 88-86 § 8, 1986: prior code § 2-2-15)

16.12.225: GRAPHICS STANDARDS:

No person shall knowingly violate airport graphics standards as they shall be established and changed from time to time by the director. (Ord. 42-87 § 11, 1987: prior code § 2-19-19)

16.12.230: AUCTIONS AND SALES:

There shall be no auctions or other special sales held on any airport property without the prior consent of, and in the manner prescribed by, the director. (Prior code § 2-2-23)

16.12.240: COMMERCIAL PHOTOGRAPHY:

No person shall take still, motion or sound pictures at the airport for commercial purposes without the permission of the director. (Prior code § 2-2-16)

16.12.250: ANIMALS:

Animals may be permitted at the airport if controlled by a leash or other means which will secure the control thereof by the owner or person in charge of the same. No person shall bring an animal to the airport except under complete control. No person while at the airport shall allow any animal to escape from such person's control. Any person bringing an animal to the airport agrees to indemnify fully, defend and save and hold harmless the city, its officers, agents and employees from and against all losses, damages, claims, liabilities and causes of action of every kind or character and nature, as well as costs and fees, including reasonable attorney fees connected therewith and expenses of the investigation thereof, based upon or arising out of damages or injuries to third persons or their property caused by the negligence of such person. The city shall give to such person prompt and reasonable written notice of any such claim or action and such person shall have the right to investigate, compromise and defend the same to the extent of his or her own interest. (Ord. 77-04 § 6, 2004: Ord. 88-86 § 9, 1986: prior code § 2-2-18)

16.12.260: FIREARMS AND EXPLOSIVES:

No person, except authorized peace officers, post office, customs, express and air carrier employees, members of the armed forces of the United States or members of the national guard, on official duty, shall carry any loaded or unloaded firearm, explosive, ammunition or other dangerous weapon or device except an unloaded firearm or ammunition being transported in a private aircraft in a manner that complies with law, or being delivered for shipment by an air carrier directly to the air freight office or the airline ticket counter in compliance with law. (Ord. 77-04 § 7, 2004: Ord. 42-87 § 6, 1987: prior code § 2-14-3)

16.12.270: ROADS AND WALKS:

No person shall hinder or obstruct the use of any roadway or walkway provided for vehicular or pedestrian travel, or otherwise use or occupy the same except in accordance with the ordinary use thereof for the particular class of traffic involved. (Prior code § 2-2-17)

16.12.280: SANITATION AND LITTERING:

No person shall drop, throw or otherwise release or permit to be released upon the airport premises any garbage, paper, refuse, cans, building materials, rags, litter or other waste material, except in proper receptacles. (Prior code § 2-14-2)

16.12.285: DEPOSIT OR LEAKAGE OF MATERIALS ONTO AIRPORT PREMISES:

A. No person shall discard or deposit any glass, nails, wire, cans, rocks or gravel, or any other substance or material on the airport. Any such discards or deposits shall be removed at such person's expense.

B. No vehicle shall be driven or moved upon the airport unless such vehicle is so constructed, loaded and/or covered so as to prevent its contents from dropping, sifting, leaking or otherwise escaping therefrom. (Ord. 42-87 § 7, 1987: prior code § 2-14-8)

16.12.290: PEDESTRIANS ON RUNWAYS OR TAXIWAYS:

Pedestrian traffic in any form is strictly forbidden on runways, taxiways and across ramps between concourses. Exceptions may be granted by the director, in writing. (Ord. 42-87 § 1, 1987: prior code § 2-2-24)

16.12.300: TAMPERING WITH CITY PROPERTY:

No person shall interfere or tamper with any property of the city at the airport or ride, drive or park any vehicle or walk upon any portion of the airport not intended for such use without authorization from the director. (Prior code § 2-2-6)

16.12.310: FLYING OF MODEL AIRPLANES AND OTHER OBJECTS:

No person shall fly any model airplane, kite, model rocket, balloon, or other airborne device on the airport or controlled properties without the express prior written approval of the director. (Ord. 77-04 § 8, 2004: prior code § 2-14-7)

16.12.320: TRESPASS AND DAMAGE TO PROPERTY:

No person shall:

A. Destroy, damage, deface or disturb in any way any building, sign, equipment, marker or other structure, tree, flower, lawn or other public property on the airport;

B. Trespass on any airport property or within any building on airport property;

C. Interfere or tamper with or damage any part of the airport or any equipment thereof;

D. No unauthorized person shall interfere or tamper with any aircraft or start the engine of any aircraft. (Prior code § 2-14-5)

16.12.325: HUNTING AND SHOOTING PROHIBITED:

There shall be no hunting or shooting on the airport, its related or controlled properties without the express prior written approval of the director. (Prior code § 2-14-6)

16.12.330: ABANDONING AIRPLANES, VEHICLES OR OTHER PROPERTY:

No person shall park and abandon any airplane, boat, trailer, automobile, truck or other personal property within the limits of the airport. Vehicles and personal property of any nature shall be removed from the airport premises immediately upon request of the director. (Prior code § 2-14-4)

16.12.340: TAMPERING WITH AIRCRAFT PROHIBITED:

No person shall enter, climb upon or tamper with any aircraft without permission of the proper authority, or commit any act which would endanger an aircraft landing at, taxiing on or taking off from the airport. (Prior code § 2-2-5)

16.12.350: UNLAWFUL ENTRY OF HANGARS OR OTHER BUILDINGS:

No person shall enter any hangar or portion of any building occupied by any person under a lease or license from the city without consent of such licensee. However, this section does not abrogate the city's right to enter any leased hangar or building as provided in any of the city's written lease agreements, or city authority of law. (Prior code § 2-2-4)

16.12.360: LIABILITY FOR DAMAGE TO AIRPORT PROPERTY:

A. Any person causing damage of any kind to the airport, or any of the fixtures thereof, shall be liable for such damage to the city. Damage to field lighting or other airport facilities shall be paid for by the owner of the aircraft or vehicle involved or by the operator or pilot responsible therefor.

B. Any damage to any of the physical property on the airport, its related and/or controlled properties, shall be reported immediately to the director. (Prior code § 2-2-11)

Article II. Soliciting And Freedom Of Expression

16.12.370: SOLICITING OR CANVASSING; PREREQUISITES:

Soliciting or canvassing by any person for any purpose whatsoever shall be prohibited within the airport, its buildings and facilities, unless written permission is obtained from the director. If an information card required by title 5, chapter 5.66 of this code is presented to the director, the director shall grant permission to conduct the solicitations at the airport, provided the information cardholder agrees to abide by reasonable rules and regulations adopted by the director as authorized by section 16.12.030 of this chapter, or its successor. (Ord. 88-86 § 7, 1986: prior code § 2-2-13)

16.12.380: FREEDOM OF EXPRESSION; PURPOSE OF PROVISIONS:

The regulations hereinafter set out are hereby declared to be necessary for the accomplishment of the following purposes:

A. To ensure that persons seeking to exercise constitutional freedoms of expression can communicate effectively with users of the airport;

B. To ensure adequate nearby police facilities for the protection of persons exercising their constitutional freedoms;

C. To restrict such activities to public areas of airport buildings and premises;

D. To protect persons using the airport from repeated communications or encounters which might constitute harassment or intimidation;

E. To ensure the free and orderly flow of pedestrian traffic through the airport premises;

F. To ensure that only nonprofit charitable, political or religious organizations are permitted to solicit funds on the airport premises;

G. To ensure that properly authorized persons, groups and organizations seeking to solicit funds have adequate exposure to the traveling public; and

H. To restrict such solicitation of funds to public areas of airport buildings and premises. (Prior code § 2-2-29)

16.12.390: PERMIT REQUIRED; SOLICITING RESTRICTIONS:

Any person, group or organization desiring to engage in solicitation of funds at any airport owned by the city, which solicitation involves the exercise of activities which are constitutionally protected, including, but not limited to, the distribution of noncommercial, nonobscene or any other goods of whatever nature, in conjunction with a request for a donation, the sale of any such literature or other goods, or the mere solicitation of funds, shall be allowed to engage in such activity provided that the following conditions are met:

A. Such solicitation does not result in interference with the transportation function of the airport;

B. The solicitation does not constitute a commercial activity;

C. Such person, group or organization shall have first secured the information card required by title 5, chapter 5.66 of this code, or its successor, and

D. The person, group or organization desiring to solicit funds at the airport shall first obtain a written permit therefor from the director. For purposes of obtaining such permit, there shall be submitted to the director a written application setting forth the following:

1. The full name, mailing address and telephone number of the person, group or organization sponsoring, promoting or conducting the solicitation,

2. The full name, mailing address and telephone number of the individual person or persons who will have supervision of and responsibility for the proposed solicitation,

3. The purpose of the proposed solicitation,

4. The dates and hours during which the solicitation is proposed to be carried out, and the expected duration of the proposed solicitation, and

5. The number of persons proposed to be engaged in such solicitation. (Ord. 88-86 § 10, 1986: prior code § 2-2-30)

16.12.400: PROHIBITED CONDUCT AND ACTIVITIES:

In the solicitation of funds, the following requirements shall apply:

A. No sound or voice amplifying apparatus or noisemaking devices shall be used;

B. No sign or printed matter shall be attached to any "solicitation booth", except such as may be necessary to identify the organization which is conducting the solicitation, and any such sign must conform with the airport decor and signing scheme;

C. No person soliciting funds shall in any way indicate to the public that he or she is a representative of the city or the city's airports;

D. Funds shall neither be demanded nor required in return for written material or other items such as flowers or candy which are proffered to the general public as "free", "gifts", or "gratuities"; and

E. The solicitations referred to herein shall be conducted strictly in conformity with the terms and conditions of these regulations, and of title 5, chapter 5.66 of this code, and all other applicable laws and ordinances. (Ord. 86-98 § 9, 1998: prior code § 2-2-31)

16.12.410: PERMIT ISSUANCE CONDITIONS:

Upon receipt of an application containing information as described in subsection 16.12.390D of this chapter, or its successor, the director shall forthwith issue a permit to the applicant if there is space available in the airport terminal, applying only the limitations and regulations set forth in the ordinances set out herein. The director shall exercise no judgment regarding the purpose or content of the proposed activity, and shall exercise no discretion over the issuance of a permit hereunder, except as provided in such ordinances, it being the intent of these ordinances that the issuance of a permit by the director under this section shall be a routine clerical and ministerial function. In no event, however, shall the director issue a permit for a period of time in excess of thirty (30) days. (Prior code § 2-2-32)

16.12.420: SOLICITATION BOOTH REQUIREMENTS:

Each permit issued by the director shall specify, in accordance with the provisions of the ordinances codified herein, the areas in which the proposed solicitation booth shall be located; provided, however, that such location shall provide reasonable access to the general public. Solicitations shall be conducted only from a solicitation booth which shall be furnished by the director. Such booth shall be located within the permissible areas at such points as may be designated from time to time by the director. (Prior code § 2-2-33)

16.12.430: APPORTIONMENT OF AVAILABLE SPACE:

A. In the event that two (2) or more persons, groups, or organizations seek to conduct the activities described herein at the same time, the director shall apportion the available areas between them or among them on as equitable a basis as possible.

B. In no event, however, shall more than three (3) persons be engaged in any solicitations permitted by these rules and regulations in any one area at the same time.

C. When the director receives more applications for permits than the director is able to grant by following this rule, permits shall be granted on a first come first serve basis and the director may impose such reasonable and equitable restrictions as to allowable dates, hours or numbers of participants as may reasonably be required to provide, as much as possible, fair and equal opportunities for all applicants, while ensuring the efficient and effective operation of the transportation function of the airport. (Prior code § 2-2-35)

16.12.440: RELOCATION OF ACTIVITIES:

The director may move such permitted activities from one area to another upon reasonable written notice to the permit holder when such move or moves are necessary for the efficient and effective operation of the transportation function of the airport. Such move, however, shall not unreasonably interfere with the permittee's access to the general public. (Prior code § 2-2-34)

16.12.450: FACE TO FACE DISCUSSIONS; CONDITIONS:

The foregoing regulations shall not prevent or prohibit any person, group or organization from communicating their views in face to face discussions at locations in the airport other than the solicitations booth. Such communications, however, shall be conducted only in or upon those premises which are nonsecured, public use areas. Further, under no circumstances shall the same be conducted:

A. Beyond the security checkpoints through which passengers and visitors are required to pass when moving toward aircraft gate positions; i.e., on the side of the security checkpoints where the gate positions of arriving and departing aircraft are located;

B. In any areas reserved for particular uses, such as parking areas, restroom facilities, restaurants, ticket counters or baggage claim areas;

C. Within ten feet (10') of any area leased exclusively to a tenant of the airport;

D. Within thirty feet (30') of any security checkpoint; or

E. Within ten feet (10') of any stairwell, elevator, enclosed concession, any holding areas within the airport concourses or any doors of general public circulation. (Amended during 1/88 supplement: prior code § 2-2-36)

16.12.460: FACE TO FACE DISCUSSIONS; CONDUCT PROHIBITED:

In conducting any face to face discussion or in an attempt to engage any person or persons in such discussions, no person shall:

A. In any way obstruct, delay or interfere with the free movement of any other person, seek to coerce or physically disturb any other person, or hamper or impede the conduct of any authorized business at the airport;

B. Use any sound or voice amplifying apparatus on the premises of the airport;

C. Receive or accept any donation of money (but may direct to a location established under section 16.12.420 of this chapter, or its successor, any person wishing to make such a donation) except at a solicitation booth;

D. Use any noisemaking device;

E. In any way indicate to the public that he or she is a representative of the city, or the city's airports;

F. Misrepresent his or her identity; or

G. In any manner disrupt the orderly business of the airport. (Ord. 86-98 § 10, 1998: prior code § 2-2-37)

CHAPTER 16.16
GENERAL FLIGHT REGULATIONS

16.16.010: FEDERAL, STATE AND LOCAL REGULATIONS APPLICABLE:

No person shall navigate any aircraft, land aircraft upon, fly aircraft from or conduct any aircraft operations on or from the airport other than in conformity with pertinent federal, state and city laws and rules and regulations. (Prior code § 2-3-1)

16.16.020: PILOTS; U.S. AIRMAN'S CERTIFICATE REQUIRED:

It is unlawful for any person to pilot within the city any civil aircraft unless such person is the holder of a currently effective pilot certificate issued by the government of the United States, but this restriction shall not apply to any person certificated by a foreign country with which the United States has a reciprocal agreement. (Prior code § 2-3-2)

16.16.030: AIRCRAFT; U.S. REGISTRATION REQUIRED:

It is unlawful for any person to land upon or fly any aircraft from the airport unless there is prominently displayed in such aircraft a current certificate of registration and a currently effective certificate of airworthiness issued by the FAA, but this restriction shall not apply to any aircraft certificated by a foreign country with which the United States has a reciprocal agreement. (Prior code § 2-3-3)

16.16.040: COMMERCIAL FLIGHT PREREQUISITES:

It is unlawful for any person to carry passengers for hire or reward in any aircraft unless such person has been certificated by the FAA as a commercial pilot, and it is unlawful for any person to pilot any aircraft in a commercial flight which does not qualify under requirements of the FAA for transportation of persons or property for hire or reward. (Prior code § 2-3-4)

16.16.050: ARMED FORCES PERSONNEL AND AIRCRAFT:

All officers and members of the armed forces of the United States, either active or reserve, while engaged in the service of the United States and all aircraft owned by and/or operated exclusively under direction of the armed forces shall be subject to the provisions contained in this chapter except as to certification of aircraft and airmen. (Prior code § 2-3-5)

16.16.060: AIRCRAFT OWNER RESPONSIBILITIES:

No aircraft owner or operator shall lease to another or otherwise permit any person to operate any aircraft on or within the limits of the airport until such owner or operator has assured himself or herself that:

A. The lessee or permittee has in his/her possession a currently effective pilot certificate qualifying him/her to operate the particular aircraft involved, or a student pilot certificate properly endorsed for the flight involved;

B. The pilot has in his/her possession a currently effective medical certificate; and

C. The pilot has an understanding and working knowledge of FAA airport traffic control procedure, airport rules and regulations, and the use of aircraft radio. (Prior code § 2-3-11)

16.16.070: LANDING FIELD ESTABLISHMENT CONDITIONS:

It is unlawful for any person to set up or to maintain within the limits of the city any landing field for aircraft without special permission first obtained from the mayor in writing. (Prior code § 2-3-17)

16.16.080: TRAFFIC RULES FOR FLIGHT OPERATIONS:

In addition to FAR 91, the traffic rules set out in this chapter shall govern flight operations at the airport. (Prior code § 2-4-1)

16.16.090: CONTROL TOWER:

Air and ground traffic shall be under the direction of the control tower when operating within the movement area at Salt Lake City International Airport. All instructions to personnel of aircraft and vehicular traffic shall be transmitted by radio or by flashing light gun signals. (Prior code § 2-4-3)

16.16.100: RADIO COMMUNICATIONS:

(Rep. by Ord. 77-04 § 9, 2004)

16.16.110: KNOWLEDGE OF FIELD RULES REQUIRED:

All pilots and student pilots shall learn and have a working knowledge of airport field rules, traffic patterns, and practice and restricted areas of the city and the near vicinity thereof. (Prior code § 2-3-12)

16.16.120: AIRPORT BEACON LIGHTED DURING DAYLIGHT HOURS; IFR:

(Rep. by Ord. 77-04 § 10, 2004)

16.16.130: SERVICING EQUIPMENT:

The director shall authorize and designate the placement and parking of all aircraft servicing equipment of the airlines and other aircraft on the airport. (Prior code § 2-4-4)

16.16.140: PORTABLE EQUIPMENT MUST BE SECURED:

Portable loading ramps, baggage trucks and other such portable equipment shall be equipped with brakes, or if not so equipped, shall be secured by suitable locking devices when not in use. (Prior code § 2-9-5)

16.16.150: EXCEEDING AIRPORT WEIGHT LIMITS PROHIBITED:

No person shall land, take off or taxi an aircraft on the ramps, runways and taxiways of the airport with a gross weight in excess of the design limits for such ramps, runways and taxiways, or in excess of such weight limitations as the director may from time to time establish and publish in the "FAA Airport Facility Directory". (Ord. 77-04 § 11, 2004: prior code § 2-4-2)

16.16.160: HOLDING OR BOARDING ON RUNWAYS PROHIBITED:

No person shall board or disembark from any aircraft on the landing or takeoff area except in case of an emergency, nor shall any aircraft hold on a runway or landing strip while instructors are coaching students. Instructors shall not solo students except from the end of runways and in so doing shall clear the runway before disembarking from aircraft. (Prior code § 2-9-1)

16.16.170: FLIGHT OVER THE CITY; RESTRICTIONS:

Persons flying any aircraft within the limits of the city or the airport shall operate the same as to cause a minimum of noise and inconvenience and shall not endanger property or the lives of others. (Prior code § 2-3-14)

16.16.180: FLIGHT OVER THE CITY; MINIMUM ALTITUDE:

A. General Restrictions: Except as directed by FAA air traffic control, aircraft flown over residential or business areas of the city shall comply with minimum altitude as specified in regulations promulgated by the federal aviation administration.

B. Exemption For Flying Reindeer On Christmas Eve: On Christmas Eve only, flying reindeer and any cargo they may be towing shall be exempt from the provisions of subsection A of this section. (Ord. 77-04 § 12, 2004: Ord. 92-85 § 1, 1985: prior code §§ 2-3-8, 2-3-8(e))

16.16.190: DEMONSTRATION FLIGHTS AND GROUND DISPLAYS:

A. No flight or ground demonstrations shall be conducted on the airport without the express written approval of the director.

B. This shall not apply to aircraft sales demonstrations. (Ord. 77-04 § 13, 2004: prior code § 2-3-20)

16.16.200: AEROBATICS RESTRICTIONS:

It is unlawful for any person to aerobatically fly an aircraft:

A. Over any business, industrial or residential area of the city;

B. Over any open air assembly of persons within the corporate limits of the city; or

C. Within the corporate limits of the city while carrying passengers for hire or reward. (Prior code § 2-3-16)

16.16.210: RECKLESS AIRCRAFT OPERATION; PENALTY:

Any person who manifests a willful disregard for the safety of persons or property may, after providing reasonable notice to such person and opportunity for hearing on the matter, be denied the use of the airport. If such disregard is due to any violation of airport rules and regulations or regulations in force and effect of the state or the FAA, denial of use of the airport may be for such period of time as in the discretion of the director is deemed advisable. (Prior code § 2-3-13)

16.16.220: REPAIRING AIRCRAFT ON LANDING AREA PROHIBITED:

No person having charge or control of an aircraft shall permit the same to remain unnecessarily on any part of the landing or takeoff area for the purpose of repairs. (Prior code § 2-9-2)

16.16.230: ACCIDENT REPORT REQUIREMENTS:

A. When, within the limits of the airport, death or injury to persons or damage to aircraft or other property results from collision, mishaps or accident involving any aircraft, or in or around any aircraft, a report shall be made immediately by the pilot or the registered owner to the FAA district safety office, the Utah state division of aeronautics, and to the director, stating the make and registration number of the aircraft, the time and place of the accident, and giving such other information as may be required in approved accident reports.

B. In the event of an accident occurring on the airport involving any aircraft, no vehicle or personnel will be permitted on the landing areas without the express approval of the airport management and/or the control tower. Aircraft in the air will continue to circle or land, wind permitting, on an unobstructed runway as directed by the control tower. (Prior code § 2-3-7)

16.16.240: DAMAGE BY AIRCRAFT; RESPONSIBILITY:

Any person who operates an aircraft in a negligent manner resulting in damage to airport equipment or buildings shall be required to reimburse the city for such damages. (Prior code § 2-3-19)

16.16.250: DAMAGE BY AIRCRAFT; LIEN FOR PAYMENT OF COSTS:

The director may claim a mechanic's lien and hold any aircraft until all fees and charges for materials, labor and damages to airport property have been paid. (Prior code § 2-9-4)

16.16.260: DAMAGED AIRCRAFT; REMOVAL RESPONSIBILITY:

Every aircraft owner, pilot and agent, severally, shall be responsible for the prompt removal of wrecked aircraft, together with such debris as may be resulted therefrom, as soon as permitted by FAA regulations. Care shall be used so as not to damage airport property. (Prior code § 2-9-3)

16.16.270: TAIL SKIDS PROHIBITED:

(Rep. by Ord. 77-04 § 14, 2004)

16.16.280: DROPPING OBJECTS FROM AIRCRAFT:

It is unlawful to drop any material, object or refuse from an aircraft while taxiing upon the airport or while in flight within the limits of the airport or the city unless prior permission has been obtained in writing from the FAA, the Utah state aeronautics commission and the mayor. (Prior code § 2-3-9)

16.16.290: JUMPING OR PERMITTING JUMPING FROM AIRCRAFT:

A. Except in case of emergency, it is unlawful for any person aboard an aircraft in flight to jump from such aircraft at any point over the corporate limits of the city, or to land within the corporate limits of the city from an aircraft in flight, whether the jump therefrom is made within or outside the corporate limits without having first obtained permission from the mayor in writing.

B. Except in case of emergency, it is unlawful for the pilot or other persons in charge of an aircraft in flight to permit any person aboard to jump therefrom over the corporate limits of the city without such person having first obtained permission from the mayor in writing. (Prior code § 2-3-10)

16.16.300: SKYDIVING:

Skydiving operations shall not be conducted on or in the immediate vicinity of the airport without the prior written permission of the director. (Ord. 80-86 § 1, 1986: prior code § 2-3-22)

16.16.310: GLIDERS, BALLOONS AND SIMILAR VEHICLES PROHIBITED:

No gliders, hang gliders, heligliders, hot air balloons and similar aircraft like vehicles shall be operated on or from Salt Lake City International Airport or Salt Lake City Airport II. (Ord. 77-04 § 15, 2004: prior code § 2-3-21)

16.16.320: ULTRALIGHT VEHICLES:

Ultralight vehicles, as defined in 14 code of federal regulations section 103.1 or any successor thereto, shall be prohibited from operating at the Salt Lake City International Airport or Salt Lake City Airport II. (Ord. 77-04 § 16, 2004: Ord. 42-87 § 3, 1987: prior code § 2-3-23)

CHAPTER 16.20
TRAFFIC PATTERN

(Rep. by Ord. 77-04 §§ 17, 18, 19, 20, 2004)

CHAPTER 16.24
RUNNING ENGINES

16.24.010: AIRPORT EMPLOYEE SAFETY PRECAUTIONS:

Persons employed at the airport shall observe every precaution for their own safety when in the vicinity of turning propellers or jet engines and it shall be their duty to warn others of inherent dangers. (Prior code § 2-11-5)

16.24.020: STARTING ENGINES:

(Rep. by Ord. 77-04 § 21, 2004)

16.24.030: RUNUP OF JET OR JET PROP ENGINES:

(Rep. by Ord. 77-04 § 22, 2004)

16.24.040: RUNUP AREAS:

Aircraft engines shall be run up only in the areas designated by the director or the control tower. The aircraft shall be so placed that hangars, shops, groups of persons and other aircraft will not be in the path of the propeller stream or the blast from jet engines. The aircraft shall also be so placed that noise from such engine runup will not unreasonably inconvenience others. (Prior code § 2-11-3)

16.24.050: RUNNING ENGINES IN HANGARS PROHIBITED:

No person shall start an aircraft engine or run it while in a hangar. (Prior code § 2-11-2)

CHAPTER 16.28
TAXIING OF AIRCRAFT

16.28.010: STANDARDS; FAR RULES APPLICABLE:

All aircraft shall be governed by the standard FAR-91 rules of taxiing and by the provisions of the following sections. (Prior code § 2-5-1)

16.28.020: CARE AND SAFETY PRECAUTIONS:

Aircraft shall be taxied carefully, having due regard for the safety of other aircraft, vehicles and persons. (Prior code § 2-5-3)

16.28.030: CLEARANCE AT RAMPS AND TERMINAL AREAS:

Persons taxiing past aircraft parked on ramps or in front of the terminal buildings shall use extreme caution. Adequate clearance shall be given when passing other aircraft, vehicles or persons. (Prior code § 2-5-2)

16.28.040: CROSSING RUNWAYS:

Aircraft, vehicles and pedestrians shall not cross any runway or taxiway at Salt Lake City International Airport until clearance by the control tower has been received. (Ord. 1-06 § 31, 2005: Ord. 77-04 § 23, 2004: prior code § 2-5-4)

16.28.050: PASSING OTHER AIRCRAFT:

Aircraft may pass other aircraft at Salt Lake City International Airport while taxiing only if cleared to do so by the control tower. (Prior code § 2-5-5)

16.28.060: AREAS FOR TAXIING OR TOWING:

No aircraft shall be taxied or towed on any area, other than the areas normally used for operation of aircraft, without the express prior written approval of the director. (Prior code § 2-5-8)

16.28.070: TAXIING IN AND OUT OF HANGARS:

No aircraft shall be moved into or out of any hangar with an engine running. (Prior code § 2-5-6)

16.28.080: JET AND PROP JET POWERED AIRCRAFT:

No jet or prop jet aircraft shall be taxied on the airport where the exhaust blast is likely to cause injury to persons or damage to property, runways, aprons or taxi strips. If it is impossible to taxi aircraft without causing such damage, engines must be shut down and the aircraft towed to its destination. (Prior code § 2-5-7)

CHAPTER 16.32
TAKEOFF PROCEDURES

16.32.010: STANDARDS; FAR RULES APPLICABLE:

All aircraft shall be governed by the standard FAR-91 rules for takeoff and by the provisions of the following sections of this chapter. (Prior code § 2-6-1)

16.32.020: TOWER CLEARANCE REQUIRED:

Takeoff at Salt Lake City International Airport shall not be commenced until clearance has been received from the control tower. (Prior code § 2-6-2)

16.32.030: MANNED BALLOONS; LAUNCH SITE REQUIREMENTS:

It is unlawful for any person to launch any manned balloon or other similar aircraft within the corporate limits of the city, except at a launch site which meets the following requirements:

A. The launch site is sufficiently large and open so that nothing will be contacted by the balloon upon takeoff;

B. The terrain is suitable for such operations;

C. The launch must not interfere with the safe operation of any of the city's airports. (Ord. 77-04 § 32, 2004: prior code § 2-6-11)

CHAPTER 16.36
LANDING RULES

16.36.010: STANDARDS; FAR RULES APPLICABLE:

All persons piloting or flying aircraft shall be governed by the standard FAR-91 rules for landing in addition to the following provisions set out in this chapter. (Prior code § 2-8-1)

16.36.020: USE OF RUNWAYS REQUIRED:

Landings and takeoffs will be confined to paved runways. (Ord. 77-04 § 35, 2004: prior code § 2-8-7)

16.36.030: PASSING AIRCRAFT WHILE LANDING PROHIBITED:

No person shall land, maneuver or operate an aircraft in such a manner as to pass, or impair, restrict or impede the movement of, another aircraft. (Ord. 77-04 § 39, 2004: prior code § 2-8-6)

CHAPTER 16.40
AIRCRAFT PARKING RULES

16.40.010: AREAS FOR PARKING:

No person shall park any aircraft in any area on the airport other than that prescribed by the director. (Prior code § 2-10-1)

16.40.020: PARKING ON APRON:

Aircraft shall be parked only on painted parking spots designated for that use. (Prior code § 2-10-4)

16.40.030: AIRLINE PARKING POSITIONS:

No person shall park any aircraft on the airline parking positions for a period longer than that agreed to by the airline having jurisdiction over the position. No person shall park any aircraft so as to interfere with the proper use of airline equipment on the airline parking positions. (Prior code § 2-10-5)

16.40.040: AIR TAXI AND TRANSIENT PARKING:

Aircraft parking for air taxi and transient aircraft desiring to park at the city's airports may only do so in the areas designated by the department of airports as being provided for that purpose. (Ord. 77-04 § 40, 2004: prior code § 2-10-6)

16.40.050: SECURING OF UNATTENDED AIRCRAFT:

No person shall leave an aircraft unattended unless within a hangar or otherwise properly tied or secured. Owners shall assume the risk of damage to their own aircraft and shall be liable for any injury to persons or damage to others' property caused by their negligence in permitting the movement of their aircraft when attended or unattended. (Prior code § 2-10-2)

16.40.060: OWNER RESPONSIBLE FOR SECURING AIRCRAFT:

It shall be the duty of aircraft owners and operators to securely fasten their airplanes in a manner that prevents harm or damage. (Ord. 77-04 § 41, 2004: prior code § 2-10-3)

16.40.070: ORDERLY PARKING; CLEANLINESS OF AREA:

Each operator and attendant shall be responsible for the orderly parking of aircraft in the area adjacent to his or her hangar or hangars and for the cleanliness of the area he or she uses. (Prior code § 2-10-7)

16.40.080: PAYMENT OF RATES AND CHARGES REQUIRED:

It is unlawful for any person to park an aircraft in any area designated for parking without paying the prescribed rates and charges for such parking. (Prior code § 2-10-8)

16.40.090: VIOLATIONS; IMPOUNDING OF AIRCRAFT:

Any aircraft parked in violation of this chapter may be impounded by the director. Such aircraft shall not be released except upon payment by the owner, pilot or operator of such aircraft of a fee in the amount of fifteen dollars ($15.00) for the cost of impound, together with the parking fee then due and all storage and towing charges reasonably resulting from such impounding to the time of payment of all fees and release of the aircraft. The impounding of an aircraft shall not prevent or preclude the institution and prosecution of criminal proceedings in the circuit court or elsewhere against the owner or operator of such impounded aircraft. (Prior code § 2-10-9)

CHAPTER 16.44
NOISE RESTRICTIONS

16.44.010: DEFINITIONS:

For the purposes of this chapter the following definitions shall apply:

AIRPLANE: Any civil, subsonic turbojet powered airplane exceeding seventy five thousand (75,000) pounds in maximum certificated takeoff weight.

STAGE 1 AIRPLANE: An airplane that does not meet the stage 2 or 3 noise levels prescribed in section C36.5(a)(2) or C36.5(a)(3) of appendix C of federal aviation regulations part 36, or its successor.

STAGE 2 AIRPLANE: An airplane that complies with the noise levels prescribed in section C36.5(a)(2) of appendix C of federal aviation regulations part 36 (including use of the applicable tradeoff provisions).

STAGE 3 AIRPLANE: An airplane that complies with the noise levels prescribed in section C36.5(a)(3) of appendix C of federal aviation regulations part 36 (including use of the applicable tradeoff provisions). (Ord. 77-04 § 42, 2004: prior code § 2-20-1)

16.44.020: AIRPORT USE RESTRICTIONS:

No airplane may take off or land at Salt Lake City International Airport unless it is a stage 2 or 3 airplane. Any noise compliant airplane, however, may continue to operate at the airport. (Prior code § 2-20-2)

CHAPTER 16.48
FIRE PROTECTION

16.48.010: FIRE PREVENTION RESPONSIBILITY:

Every person using the airport or its facilities in any way shall use the utmost caution to prevent fire. (Prior code § 2-13-1)

16.48.020: FIRE EXTINGUISHER REQUIREMENTS:

Every building on the airport and every repair shop, doping or welding room shall be equipped with adequate fire extinguishers and first aid equipment approved by the city fire marshal. Such extinguishers and equipment shall be maintained in first class working condition at all times and it shall be the duty of the director to designate some person to examine the same and report their condition to the director as frequently as the director shall require. (Prior code § 2-13-13)

16.48.030: SMOKING LIMITATIONS:

Smoking shall be prohibited in those areas of airport buildings where no smoking signs are posted. (Prior code § 2-13-2)

16.48.040: HEATING AND FUEL BURNING EQUIPMENT:

All heating equipment and fuel burning appliances installed in any structure shall be in accordance with the provisions of this code relating to such installation. (Prior code § 2-13-6)

16.48.050: FLOORS TO BE FREE OF FLAMMABLE MATERIAL:

All lessees shall keep the floors of hangars, shops, storerooms, aprons and areas adjacent thereto leased by them, free of all grease, waste or other flammable material. (Prior code § 2-13-10)

16.48.060: WASTE RECEPTACLE REQUIREMENTS:

Metal receptacles with self-closing covers shall be provided for the disposal of oil waste, rags and other rubbish, and the contents thereof shall be removed at least daily. (Prior code § 2-13-11)

16.48.070: FUEL AND FLAMMABLE LIQUID STORAGE:

Aircraft fuel and other flammable liquids shall be stored in accordance with the requirements of this code relating to fire and fire prevention, including, but not limited to, the provisions of title 18 of this code, as amended. (Prior code § 2-13-3)

16.48.080: LUBRICATING OIL STORAGE:

No person shall keep or store lubricating oils in or about the hangars unless stored in closed containers. (Prior code § 2-13-16)

16.48.090: LEAKING FUEL OR OIL:

No person shall keep any aircraft stored in a hangar or tied down on any ramp, without providing for the containing of leaking fuel or oil. Repairs of any damage resulting from failure to observe proper containment of such leaks shall be made at the expense of the aircraft owner. (Prior code § 2-13-17)

16.48.100: CLEANING OF AIRCRAFT:

No person shall use flammable and/or volatile materials in the cleaning of any aircraft, aircraft engine, propeller or appliance unless such cleaning operations are conducted in open areas, as designated outside buildings and a safe distance from the same or other aircraft, or in a room specifically set aside for that purpose, which room must be properly fireproofed and equipped with adequate and readily accessible fire extinguishing apparatus. (Prior code § 2-13-5)

16.48.110: PAINTING AND DOPING OF AIRCRAFT:

Painting and doping is prohibited except in rooms adequately ventilated and approved by the city fire marshal. The doping and/or painting of aircraft, or parts thereof, shall not be permitted in any aircraft parking area, taxiway, shade hangar, or T-hangar. (Prior code § 2-13-4)

16.48.120: WELDING AND SIMILAR OPERATIONS:

No welding operations, nor the use of any appliance with an open flame or highly heated part shall be allowed except in shop space designated for such purpose by the director. (Prior code § 2-13-8)

16.48.130: OPEN FLAME OPERATIONS:

No person shall conduct any open flame operations in any hangar or building, or part thereof, unless specifically authorized by the director. (Prior code § 2-13-15)

16.48.140: HEATING OF OIL:

No person shall heat oil in any manner except with steam, hot water, hot air or electric heaters. (Prior code § 2-13-7)

16.48.150: STORAGE OF MATERIALS:

No person shall store or stock material or equipment in such a manner as to constitute a fire hazard. (Prior code § 2-13-14)

16.48.160: ACCUMULATION OF LITTER PROHIBITED:

No boxes, crates, rubbish, paper or other litter shall be permitted to accumulate in, about or around any hangar, and all oil, paint and varnish cans, bottles or other containers shall be removed from the hangar immediately upon being emptied. (Prior code § 2-13-12)

16.48.170: MOTOR VEHICLES IN HANGARS PROHIBITED:

Except as provided in section 12.56.240 of this code, or its successor, no automobile or other motor vehicle shall be driven into or allowed to remain inside any hangar ordinarily used for the storage or parking of aircraft for hire or reward except when necessary for some operation requiring its entrance therein, or as set forth in section 16.60.065 of this title. A hangar, or portion of a hangar, set aside and ordinarily used as a repair shop, however, is exempted from this provision. (Ord. 77-04 § 44, 2004: prior code § 2-13-9)

16.48.180: ALARMED FIRE ESCAPE DOORS:

No person may enter or exit through or activate any alarmed emergency fire escape door for other than its intended use without the prior permission of the director. (Ord. 42-87 § 2, 1987: prior code § 2-2-39)

CHAPTER 16.52
REFUELING AND DEFUELING

16.52.010: AIRCRAFT REFUELING; REQUIRED PROCEDURES:

The refueling of all aircraft and vehicles shall be accomplished only by use of fuel trucks or pumps and pits approved by the director. Fueling equipment shall meet National Fire Prevention Association standards. Any other refueling procedures require prior written permission from the director. (Ord. 42-87 § 4, 1987: prior code § 2-12-2)

16.52.020: AIRCRAFT REFUELING; AUTHORIZED DISPENSERS:

No aircraft shall be refueled except by fuel dispenser authorized by the director. (Prior code § 2-12-1)

16.52.030: FUEL AND FUELING DISPENSERS; AUTHORIZED OPERATIONS ONLY:

A. Except as set forth in this section, only those persons or businesses having valid written lease agreements for commercial flight operations at the airport shall be allowed to have fueling dispensers on their leased premises. All such facilities shall comply with all laws and regulations relating thereto, and the director shall approve the location and construction of all such facilities.

B. Fuel which is delivered to the airport for the purpose of storage or resale on airport premises shall only be delivered to facilities located in an area which has been designated by the director as a fuel farm.

C. Any persons or businesses owning or having a valid written lease agreement for hangar space at the airport but which are not authorized to perform commercial flight operations at the airport shall be allowed to have fueling dispensers on their premises for storage purposes only, and not for delivery or resale purposes or any other purposes, if such persons or businesses own or lease a single hangar having an area of ten thousand (10,000) square feet or more. All such facilities shall comply with all laws and regulations relating thereto, and the director shall approve the location and construction of all such facilities. (Ord. 18-93 § 1, 1993: prior code § 2-12-19)

16.52.035: SELF-FUELING:

Aircraft owners or pilots desiring to conduct self-fueling operations shall notify the director in writing, obtain a written permit from the airport and comply with the terms thereof. (Ord. 42-87 § 5, 1987: prior code § 2-12-20)

16.52.040: FIRE EXTINGUISHER REQUIREMENTS:

Adequate fire extinguishers shall be kept within easy reach of all fueling and draining operations. (Prior code § 2-12-15)

16.52.050: GROUNDING; REQUIRED WHEN:

During period of fueling, refueling or defueling of any aircraft, the aircraft and fuel dispensing or draining apparatus shall be properly grounded to a point or points of zero electrical potential to prevent ignition of volatile gases by static electricity. (Prior code § 2-12-6)

16.52.060: GROUNDING; SPECIFIC EQUIPMENT:

All hoses, funnels and appurtenances used in fueling and draining operations shall be properly equipped with a grounding device. (Prior code § 2-12-11)

16.52.070: MAINTENANCE OF FUELING EQUIPMENT:

Fueling and defueling equipment, including hoses, valves, nozzles and such other equipment as may be used, shall be maintained in a safe operating and nonleaking condition. (Prior code § 2-12-10)

16.52.080: JET FUEL DISPENSING OPERATIONS:

Jet fuel dispensing operations shall provide for the recirculation of the fuel prior to and during delivery of fuel to the aircraft. (Prior code § 2-12-16)

16.52.090: REFUELING MEASUREMENT EQUIPMENT:

All refueling vehicles shall be equipped with functioning refueling measurement equipment. (Prior code § 2-12-12)

16.52.100: SMOKING PROHIBITED:

No smoking shall be permitted within fifty feet (50') of a refueling truck or within fifty feet (50') of an aircraft fuel tank while such aircraft is being refueled or defueled. (Prior code § 2-12-4)

16.52.110: ATTENDANT REQUIRED WHEN PASSENGERS IN AIRCRAFT:

During the refueling or defueling of any aircraft, no passenger or passengers shall be permitted in such aircraft unless a cabin attendant is stationed at or near the cabin door. (Prior code § 2-12-5)

16.52.120: REFUELING IN BUILDINGS PROHIBITED:

There shall be no fueling operations conducted in any building on the airport. (Prior code § 2-12-13)

16.52.130: REFUELING OR DEFUELING PROHIBITED WHEN:

No aircraft shall be refueled or defueled while the aircraft engine is running or while such aircraft is in a hangar or other enclosed place, or while being warmed by the application of external heat. (Prior code § 2-12-3)

16.52.140: OPERATING ELECTRICAL EQUIPMENT PROHIBITED WHEN:

During fuel handling in or about any aircraft, no person shall operate any radio transmitter or receiver, or shall switch electrical appliances off or on in such aircraft. (Prior code § 2-12-8)

16.52.150: STARTING ENGINES PROHIBITED WHEN GASOLINE ON GROUND:

No person shall start the engine of any aircraft whenever gasoline is on the ground or pavement thereunder. When gasoline is spilled or leaks from gasoline equipment or from aircraft, those persons in charge thereof shall immediately notify the airport fire department. (Prior code § 2-12-9)

16.52.160: PREVENTION OF FUEL OVERFLOW:

Persons engaged in aircraft fuel handling shall exercise care to prevent overflow of fuel. (Prior code § 2-12-7)

16.52.170: REFUELING VEHICLES; PARKING RESTRICTIONS:

Refueling vehicles shall be parked in areas approved by the director and at least fifty feet (50') from other aircraft and buildings except when actively fueling. (Ord. 77-04 § 45, 2004: prior code § 2-12-14)

16.52.180: WASHING AIRCRAFT WITH PETROLEUM PRODUCTS:

If petroleum products are used in the washing of aircraft, such washing shall be done only in those areas designated for such purpose. (Prior code § 2-12-17)

16.52.190: DUMPING OF OIL PROHIBITED:

Persons changing oil in their own aircraft shall not dump drained or surplus oil upon the surface of the ground on airport property, or into storm drains. (Prior code § 2-12-18)

CHAPTER 16.56
AERONAUTICAL SERVICES; LEASING AIRPORT PROPERTY

16.56.010: AERONAUTICAL SERVICE BUSINESS REQUIREMENTS:

A. Any person desiring to perform aeronautical services at or from the airport must submit to the director, prior to commencing any operation, information satisfactory to the director that the prospective tenant meets the minimum standards established herein for engaging in such business on the airport.

B. The applicant shall submit to the director a verified statement, including a complete summary of the general nature of the applicant's general aviation operation, and if an individual, his/her name and address, or if a partnership, the names and addresses of all the partners, or if a corporation, association or organization, the names of the president, vice president, secretary, and full time managing officer or managing employee.

C. Any person operating as a fixed base operation shall require all employees to participate in fire, rescue or other emergency training conducted by the city fire department on a schedule convenient to both parties.

D. All personnel of lessee are required to hold FAA certificates and ratings and must maintain such certificates and ratings.

E. Any person offering any services, or combinations thereof, shall do so under written lease or permit agreement with the city. In the event services are provided under a permit agreement, the following shall apply:

1. Such permit will be issued for a period of one year. In the event the permit is abandoned by the holder, or is canceled by the director: a) for failure to comply with the airport rules and regulations, or the directives issued pursuant thereto, or b) for violation of any of the provisions of this title, as amended, there shall be no refund of permit fees previously paid or accrued.
2. Employees of fixed base operators or others operating under contract with the city, which contracts allow the contracting party to perform such services, shall not be required to obtain the permit provided for by this section in order to perform services on behalf of such contracting party.
3. The permit holder shall maintain and keep available for inspection by the director, at reasonable times and places, in accurate form, such permanent written records as may be necessary to show the nature of services performed pursuant to such permit, when, where and for whom the services were performed and the charge therefor. The permit holder shall submit to the director, not less than every six (6) months, a statement of the charges made during the preceding six (6) months, for the services performed pursuant to such permit.
4. The permit holder shall meet such other qualifications as may from time to time be established by the director, and shall conduct the services for which the permit is issued without discrimination and in accordance with the airport rules and regulations.
5. The permit holder shall indemnify, hold harmless and defend the city from any and all claims of liability for personal injury, death, or property damage resulting from permittee's operation at the airport. Any and all permits shall contain language similar to that required of leasehold operations as stated in section 16.56.020 of this chapter, or its successor.
6. All permit holders shall comply with the airport rules and regulations.
7. All permit holders shall obtain and keep current the appropriate license or licenses as required by the city, county, state and federal authorities to engage in the business or activities conducted by such holders.
8. The director may cancel any permit for failure of the permittee to comply with the airport rules and regulations or directives issued pursuant thereto or this title, as amended. A permit shall be canceled only after reasonable notice to the permittee and an opportunity to be heard by the airport board's general aviation subcommittee, whose decision shall be final. (Ord. 86-98, 1998: prior code § 2-19-1)

16.56.020: MANDATORY AND MINIMUM STANDARD LEASE CLAUSES:

The following minimum standards for leasehold operations at the airport shall include therein the building codes, as adopted in this code, and the state and the appropriate API standards for the handling of aviation fuels. All leases concerning aeronautical services at the airport shall contain the following provisions:

A. Fair Operation: The lessee agrees to operate the premises leased for the use and benefit of the public and to furnish such service on a fair, equal and not unjustly discriminatory basis to all users thereof, and to charge fair, reasonable and not unjustly discriminatory prices for each unit or service. The lessee, however, may be allowed to make reasonable and nondiscriminatory discounts, rebates or other similar types of price reductions to volume purchasers.

B. Compliance Requirements: The lessee, for himself/herself, and for his/her heirs, personal representatives, successors in interest and assigns, as part of the consideration hereof, does hereby covenant and agree, as a covenant running with the land, that in the event facilities are constructed, maintained or otherwise operated on the property described in this lease for a purpose for which a department of transportation program or activity is extended, or for any other purpose involving the provision of a similar service or benefit, a lessee shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to title 49, code of federal regulations, department of transportation, subtitle A, office of the secretary, part 21, nondiscrimination in federally assisted programs of the department of transportation - effectuation of title VI of the civil rights act of 1964 and any provisions of such regulations as may in the future be amended.

C. Nondiscrimination Covenants: The lessee, for himself/herself, and for his/her heirs, personal representatives, successors in interest and assigns, as part of the consideration hereof, does hereby covenant and agree, as a covenant running with the land:

1. That no person, on the grounds of race, color or national origin, shall be excluded from participation in, denied the benefits of or be otherwise subjected to discrimination in the use of such facilities;
2. That in the construction of any improvements on, over or under such land and the furnishing of services thereof, no person on the grounds of race, color or natural origin shall be excluded from participation in, denied the benefits of, or otherwise be subject to discrimination; and

3. That the lessee shall use the premises in compliance with all other requirements imposed by, or pursuant to title 49, code of federal regulations, department of transportation, subtitle A, office of the secretary, part 21, nondiscrimination in federally assisted programs of the department of transportation - effectuation of title VI of the civil rights act of 1964 and any provisions of such regulations as may in the future be amended.

D. Termination Of Lease: In the event of a breach of any of the nondiscrimination covenants pursuant to part 21 of the regulations of the office of the secretary of transportation, the lessor shall have the right to terminate this lease and to reenter and repossess said land and the facilities thereon and hold the same as if said lease had never been made or issued.

E. Servicing Aircraft: It is clearly understood and agreed by the lessee that no right or privilege has been granted which would operate to prevent any person, firm, or corporation operating aircraft on the airport from performing services on its own aircraft with its own regular employees (including, but not limited to, maintenance and repair) that it may choose to perform.

F. Exclusive Right: It is understood and agreed that nothing herein contained shall be construed to grant or authorize the granting of an exclusive right.

G. Improvement Of Landing Area: Lessor reserves the right to further develop or improve the landing area of the airport as it sees fit, regardless of the desires or views of the lessee and without interference or hindrance from lessee.

H. Maintenance And Repair: Lessor reserves the right, but without obligation to lessee, to maintain and keep in repair the landing areas of the airport and all public facilities of the airport, together with the right to direct and control all activities of lessee in this regard.

I. National Emergency: During the time of war or national emergency, lessor shall have the right to lease the landing area or any part thereof to the United States government for military or naval use, and if such lease is executed the provisions of this instrument, insofar as they are inconsistent with the provisions of the lease to the government, shall be suspended.

J. Protection Against Obstruction: Lessor reserves the right to take any action it considers necessary to protect the aerial approaches of the airport against obstruction, together with the right to prevent lessee from erecting, or permitting to be erected, any building or other structure on or adjacent to the airport which, in the opinion of the lessor, would limit the usefulness of the airport or constitute a hazard to aircraft.

K. Federal Agreements: This lease shall be subordinate to the provisions of any existing or future agreement between lessor and the United States, relative to the operation and maintenance of the airport, the execution of which has been or may be required as a condition precedent to the expenditure of federal funds for the development of the airport.

L. Right To Close Airport: The lessor reserves the right to temporarily close the airport or any of the facilities thereon for maintenance, improvement, or for the safety of the public.

M. Assignment Of Lease: Lessor reserves the right to approve or deny any assignment of this lease or sublease of the premises.

N. Indemnification:

1. It is understood and agreed that the lessee is an independent contractor and not an agent or employee of the city, and the city is an independent contractor and not an agent or employee of the lessee with regard to its acts or omissions hereunder.

2. Lessee agrees to indemnify fully, defend and save and hold harmless the city, its officers, agents and employees from and against all losses, damages, claims, liabilities and causes of action of every kind of character and nature as well as costs and fees, including reasonable attorney fees connected therewith, and expenses of the investigations thereof, based upon or arising out of damages or injuries to third persons or their property caused by the negligence, intentional acts or omissions of lessee, its officers, agents or employees. City shall give to lessee prompt and reasonable written notice of any such claims or action, and lessee shall have the right to investigate, compromise and defend the same to the extent of its own interests. In carrying out any of the provisions herein, or in exercising any power or authority granted to lessee, there shall be no liability upon any official of Salt Lake City Corporation, Salt Lake City airports, their authorized assistants, consultants or employees, either personally or as officials of the city, it being understood that in such matters they act as agents and representatives of Salt Lake City Corporation.

3. It is further understood and agreed that the city assumes no responsibility for any damages or losses that may occur to the lessee's property, except the only obligation that the city assumes is that it will not wilfully, intentionally or negligently damage the property of the lessee.

Note: These minimum standards do not abrogate existing leases on the airport, as of the effective date hereof. (Ord. 86-98 § 12, 1998: prior code § 2-19-2)

16.56.030: LEASE PROPOSAL REQUIREMENTS:

The city will not accept an original request to lease land or facilities at the airport unless the proposed lessee submits in writing a proposal which sets forth the scope of operations proposed, which shall include the following:

A. The services the applicant will offer;

B. The amount of land that the applicant desires to lease;

C. The building space the applicant will construct or lease;

D. The number of aircraft the applicant will provide;

E. The number and qualifications of persons the applicant will employ;

F. The proposed hours of operation;

G. The amount and types of insurance coverage the applicant will maintain;

H. Evidence of the applicant's financial capability to perform and provide the above services and facilities. (Prior code § 2-19-3)

16.56.040: BOND REQUIREMENTS:

A. Upon the execution of the lease agreement and prior to entering the premises, the lessee shall provide to the city a performance bond, written with a company or companies acceptable to the city, conditioned upon the faithful and true performance, observation and compliance with all of the terms, conditions and provisions of the lease agreement. Such performance bond shall be in an amount based upon twenty percent (20%) of the minimum guaranteed annual rental and fees, rounded to nearest one hundred dollars ($100.00). In lieu of such performance bond, the city may, upon the approval of the director, accept a cash deposit equivalent to the performance bond, and the city shall not be required to pay any interest on the deposit.

B. Airport users each shall provide to the city a performance bond, written with a company or companies acceptable to the city, conditioned upon the faithful performance, observation and compliance with this title. Such performance bond shall be in an amount based upon twenty percent (20%) of the user's projected annual landing and other fees, rounded to the nearest one hundred dollars ($100.00). In lieu of such performance bond, the city may, upon the approval of the director, accept a cash deposit equivalent to the performance bond, and the city shall not be required to pay any interest on such deposit. (Ord. 42-87 § 10, 1987: prior code § 2-19-4)

16.56.050: MISCELLANEOUS BUSINESSES; ANNUAL FEE:

Minimum requirements associated with any business for profit not specifically addressed in this title shall be as provided by the director. In providing the minimum requirements herein, the director shall treat all similar type services equally. Permittee shall pay to the city the annual fee shown on the Salt Lake City consolidated fee schedule prior to issuance of the permit agreement. (Ord. 24-11, 2011)

16.56.060: AERIAL APPLICATION OPERATIONS:

Any person desiring to engage in aerial application operations must hold an agricultural aircraft operator certificate issued by the FAA under part 137 of the FAA regulations, comply with requirements of the state and political subdivisions thereof, and as a minimum, do the following:

A. Register the business with the director, stating the scope of activities to be entered into;

B. Enter into a lease in which the leasehold shall contain adequate square feet of land to provide for buildings, aircraft parking and tiedown, and parking space for loading vehicles and equipment;

C. Construct or lease a building providing adequate square footage of properly lighted and heated space for housing office, restrooms and storage. Such building shall contain public telephone facilities;

D. Provide at least one person holding a current FAA commercial certificate, properly rated for the aircraft to be used and meeting the requirements of part 137 of the FAA regulations and applicable regulations of the state;

E. Provide at least one aircraft, which shall be airworthy, meeting all the requirements of part 137 of the FAA regulations and applicable regulations of the state. Such aircraft shall be owned or leased by agreement in writing and based on the lessee's leasehold;

F. Provide storage and containment of noxious chemical materials in a segregated, safe area protected from public access;

G. Provide availability of aircraft suitably equipped for agriculture or firefighting operations with adequate safeguards against spillage of noxious chemical materials on the runways or taxiways or dispersal by wind force to other operational areas on the airport;

H. The hours of operation shall be as required by each individual lessee;

I. Provide proof of insurance coverage in the form of a policy or certificate of insurance, written by an insurance company or companies acceptable to the city, in an amount not less than five million dollars ($5,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The coverages as provided above shall be increased if, in the opinion of the mayor or his/her designee, such is warranted. (Ord. 88-86 § 18, 1986: prior code § 2-19-13)

16.56.070: AIRCRAFT FUEL AND OIL DISPENSING SERVICES:

Any person desiring to dispense aviation fuels and oil and provide other related services, such as aircraft parking, shall, as a minimum, do the following:

A. Register the business with the director stating the scope of activities to be entered into;

B. Obtain appropriate certification to comply with FAA regulations and maintain such certification in a current status;

C. Enter into a lease in which the leasehold shall contain adequate square feet of land to provide for building or buildings, adequate aircraft parking area and dispensing equipment;

D. Construct or lease a building which will provide adequate square footage of properly lighted and heated floor space for office, public lounge and restrooms. Such building shall contain public telephone facilities;

E. Provide at least one properly trained person who shall be on duty during all hours of operation;

F. Provide emergency starting equipment, adequate fire extinguishers, adequate towing equipment, and wheel chocks;

G. Provide as a minimum two (2) dispensers, metered, filter equipped, fixed or mobile, for dispensing aviation fuels in sufficient quantity to supply the demand, adequate stock of appropriate lubricants, and separate dispensing pumps and meters for each grade of fuel to be dispensed;

H. Fueling service shall be provided from six o'clock (6:00) A.M. to thirty (30) minutes after sundown, seven (7) days per week. At least one fixed base operator, however, shall be open twenty four (24) hours per day, seven (7) days per week. Such twenty four (24) hour per day requirement shall not be applicable at Airport II unless there exists two (2) or more fixed base operators at the airport;

I. Provide insurance coverage, written with an insurance company or companies acceptable to the city, in an amount not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The above coverages shall be increased when, in the opinion of the city, such is warranted. (Prior code § 2-19-9)

16.56.080: AIRCRAFT PARTS HOUSE:

Any person desiring to provide an aircraft parts house must, as a minimum, do the following:

A. Register the business with the director, stating the scope of activities to be entered into;

B. Enter into a lease in which the leasehold shall contain adequate square feet of land for required building;

C. Construct or lease a building providing adequate square footage of properly lighted and heated space to house office, restroom facilities, and minimum shop and hangar space as required for FAA repair shop certification. Such building shall contain public telephone facilities;

D. Provide knowledgeable personnel in sufficient number to meet the requirements of operation;

E. The normal operating hours will be at the operator's discretion. The services, however, shall be reasonably available to the public;

F. Provide proof of insurance coverage in the form of a policy or a certificate of insurance with a company or companies acceptable to the city, in an amount not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The coverages as provided above shall be increased if, in the opinion of the mayor or his/her designee, such is warranted. (Ord. 88-86 § 14, 1986: prior code § 2-19-11)

16.56.090: AIRCRAFT RENTAL:

A. Minimum Requirements: Any person desiring to engage in the rental of aircraft to the public must, as a minimum, do the following:

1. Register the business with the director, stating the scope of activities to be performed;

2. Enter into a lease in which the leasehold shall contain adequate square footage of land to provide space for aircraft parking and building or buildings;

3. Lease or construct a building which will provide adequate square footage of properly heated and lighted space for housing of offices, restrooms and public space. Such building shall contain a telephone for public use;

4. Provide at least one person having a current pilot certificate with appropriate ratings. The office shall be attended during all hours of operations;

5. Provide at least one airworthy aircraft owned or leased in writing to the lessee;

6. Accomplish all work and maintain all aircraft in accordance with FAA regulations, and have all work inspected according to state and federal regulations;

7. Provide proof of insurance coverage in the form of a policy or a certificate of insurance, with a company or companies acceptable to the city, for all aircraft owned, in amounts not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability and not less than one hundred thousand dollars ($100,000.00) per seat passenger liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The amounts under the basic coverage, as provided above, may be increased if, in the opinion of the city, it is warranted.

B. Operating Hours: The normal operating hours of an aircraft rental business will be at the operator's discretion. The services, however, shall be reasonably available to the public.

C. Fees: If the right to perform aircraft rental on the airport is granted to any person by permit agreement as stated in subsection 16.56.010E of this chapter, or its successor, such person shall pay the fee shown on the Salt Lake City consolidated fee schedule, per year for each aircraft such person owns which will be used in the performance of aircraft rental. Ownership as used herein shall be as the term "owner" is defined in section 16.04.320 of this title, or its successor. The permittee will supply the director a list of all aircraft with the corresponding FAA "N-number" for all aircraft to be used in the performance of aircraft rental. Such fees will be paid prior to the issuance of the permit agreement. The payment of annual fees above will be increased or decreased by aircraft the permittee adds or may delete in the performance of aircraft rental during the time said permit agreement is in place. Permittee shall be subject to all conditions of this section except space requirements as stated in subsections A2 and A3 of this section. (Ord. 24-11, 2011)

16.56.100: AIRCRAFT SALES:

A. Any person desiring to engage in business of commercial sale of new and/or used aircraft must, as a minimum, do the following:

1. Register the business with the director, stating the scope of activities to be entered into;

2. Enter into a lease in which the leasehold shall contain adequate space for operation of the business to be conducted;

3. Provide proof of insurance coverage, in the form of a policy or certificate of insurance written by an insurance company or companies acceptable to the city, in amounts not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability and not less than one hundred thousand dollars ($100,000.00) per seat passenger liability. Said policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The above coverage shall include aircraft held for sale and/or demonstration by the lessee but owned by others;

4. Provide the buyer proof that the aircraft to be sold is certificated under FAA regulations as airworthy, or provide the buyer with a statement of the work required to meet all regulations in order to obtain certification;

5. Provide or contract for all necessary service to fulfill implied and expressed warranties on aircraft within the terms of the contract.

B. If the right to perform aircraft sales on the airport is granted to any person by permit agreement as stated in subsection 16.56.010E of this chapter, or its successor, such person shall pay a fee of one hundred dollars ($100.00) prior to issuance of the permit agreement. Permittees shall be subject to all the requirements of this section except space requirements as stated in subsection A2 of this section.

C. Transacted sales by persons normally not in the business of aircraft sales on a commercial basis are exempt from this section. (Prior code § 2-19-5)

16.56.110: AIRFRAME AND/OR POWER PLANT REPAIR:

Any person desiring to engage in airframe and/or power plant repair service must, as a minimum, do the following:

A. Register the business with the director, stating the scope of activities to be entered into;

B. Enter into a lease in which the leasehold shall contain adequate space for operation of the business to be conducted, or if no space is required, otherwise comply with sections 16.12.070 and 16.12.090 of this title;

C. Provide the appropriate certification to comply with FAA regulations, and maintain such certificate in a current status;

D. Provide proof of insurance coverage in the form of a policy or a certificate of insurance with a company or companies acceptable to the city, in an amount not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' written notice to the city. The above coverages shall be increased when, in the opinion of the city, the number and type of aircraft serviced warrants same;

E. Accomplish all work in accordance with FAA regulations and have all work inspected according to state and federal regulations. (Ord. 77-04 § 46, 2004: prior code § 2-19-6)

16.56.120: AIR TRANSPORTATION SERVICE:

The following shall apply to any person desiring to engage in scheduled air transportation service:

A. Such person must hold a current FAA certificate with ratings appropriate for the functions to be accomplished.

B. Prior to entering into an agreement for any space to be leased from the city, and prior to commencing any operations at the airport for conduct of the business of air transportation, the prospective lessee must present to the director information satisfactory to the director that the lessee meets the minimum standards established by the city for engaging in the business of air transportation.

C. Each prospective lessee shall submit to the director a verified statement, including a complete summary of the general nature of its air transportation business and if an individual, such person's name and address, or if a partnership, the names and addresses of all the partners, or if a corporation, association or other organization, the names and addresses of the president, vice president, secretary, and full time managing officer or station manager.

D. The lessee may be required to submit a financial statement and credit ratings acceptable to the city.

E. The lessee must be a certified air carrier who holds a certificate of public convenience and necessity issued under section 401 of the federal aviation act of 1958, as amended, or its successor, other than an air carrier which holds a certificate of public convenience and necessity for supplemental air service; or a supplemental air carrier as defined in title 1, general provisions definitions, section 101(32) of the federal aviation act of 1958, as amended, or its successor; or an air taxi operator subject to part 298 of the economic regulations of the civil aeronautics board and engaged directly in air transportation of passengers and/or property, and who does not hold a certificate of public convenience and necessity issued by the civil aeronautics board pursuant to section 401 of the federal aviation act of 1958, as amended, or other economic authority issued by the civil aeronautics board.

F. All airlines and air transportation companies must meet the following minimum standards for the conduct of business at the airport:

1. The lessee shall lease space in the terminals on the west side of Salt Lake City International Airport providing adequate square footage of space for passengers and crew members of itinerant aircraft, office, passenger gatehold, and satisfactory arrangements for checking of passengers, handling of luggage and ticketing.

2. The lessee shall provide at least one FAA certificated commercial pilot who is appropriately rated to conduct air taxi service as offered. At its option, the city may require the lessee to provide assurance satisfactory to the city of its continued availability of suitable aircraft with qualified operating crews.

3. The lessee shall provide at least one 4-place aircraft which shall meet all the requirements of the commercial operator's certificate held.

4. The normal operating hours will be at the operator's discretion. The services, however, shall be reasonably available to the public eight (8) hours per day, five (5) days per week. Scheduled lessees must supply to the city a schedule of their flights, shall operate at all times on a scheduled basis, and shall comply with all city, county, state and federal laws, rules, regulations and ordinances.

5. Each airline and air transportation company shall provide proof of insurance coverage in the form of a policy or certificate of insurance, written with a company or companies acceptable to the city, in an amount not less than twenty five million dollars ($25,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The city, at its option, may require insurance coverage in excess of the coverage provided for above if in the opinion of the city it is warranted. (Prior code § 2-19-12)

16.56.130: COMMERCIAL FLIGHT SERVICE:

A. Any person desiring to engage in the commercial flight services shall, as a minimum, do the following:

1. Provide at least one person having a current pilot certificate with appropriate ratings for the aircraft to be flown;

2. Provide at least one properly certificated aircraft owned or leased in writing to the lessee which is maintained according to the standards of a commercial operation under the appropriate FAR;

3. Provide proof of insurance coverage in the form of a policy or a certificate of insurance, written by a company or companies acceptable to the city, for all aircraft owned or leased by lessee in amounts not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability and not less than one hundred thousand dollars ($100,000.00) per seat passenger liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The coverages as provided above shall be increased if, in the opinion of the mayor or his/her designee, such is warranted.

B. If the right to perform commercial flight service on the airport is granted to any person by permit agreement, as stated in subsection 16.56.010E of this chapter, or its successor, such person shall pay the fee shown on the Salt Lake City consolidated fee schedule, per year. If the person performing a commercial flight service is the owner (as the term "owner" is defined in section 16.04.320 of this title, or its successor), of the aircraft used in the performance of a commercial flight service, the person performing a commercial flight service shall pay an additional fee shown on the Salt Lake City consolidated fee schedule per aircraft per year for each aircraft used in the performance of a commercial flight service. The permittee will supply the director a list of all aircraft with the corresponding FAA "N-number" for all owned aircraft to be used in the performance of commercial flight service. Such fees will be paid prior to the issuance of the permit agreement. The payment of annual fees above will be increased or decreased by owned aircraft the permittee adds or may delete in the performance of commercial flight service during the time the permit agreement is in place. The permittee shall be subject to all conditions of this section except space requirements as stated in subsection A2 of this section. (Ord. 24-11, 2011)

16.56.140: COMPLETE FIXED BASE OPERATION:

Any person desiring to engage in a complete fixed base operation must, as a minimum, do the following:

A. Register the business with the director, stating the scope of activities to be entered into;

B. Provide sales, servicing, rental and display of franchised aircraft, aircraft engine overhaul, repair and maintenance (at least demonstrated capability to perform minor repairs coupled with possession of the necessary tools, jacks, towing equipment, tire repair equipment, etc.), and airframe repair and maintenance service for business and/or personal aircraft by FAA certificated mechanics with appropriate airframe and/or power plant ratings;

C. In providing aircraft rental and sales, provide for the following:

1. Availability, during specified hours, of aircraft commensurate with the scope of planned activity as specified in this chapter,

2. Sales or distributorship franchise for an aircraft manufacturer for new aircraft, or adequate sources of used aircraft,

3. Suitable sales and office facilities, which may be leased, rented or constructed on the airport property,

4. Satisfactory arrangements at the airport for repairing and servicing of sold aircraft during the sale guarantee period, as specified in sections 16.56.080, 16.56.100, 16.56.110 and 16.56.170 of this chapter, or their successors,

5. Minimum stocks of spare parts peculiar to the aircraft types for which sales privileges are granted;

D. Provide, at lessee's option, radio repair and overhaul services, sale at wholesale or retail of any aircraft parts and accessories, and/or propeller repair or overhaul services as licensed by the FAA and as prescribed in this chapter;

E. Any person who desires to operate as a fixed base operator shall meet the following minimum standards:

1. Lease existing facilities or construct a building to provide adequate square footage of shop space meeting local and state industrial code requirements, plus adequate office space. Such facility shall contain a public telephone,

2. Provide full time FAA certificated mechanics in such fields as airframe and engine maintenance, electronic instrument maintenance, and others as required,

3. Provide minimum equipment, such as, but not limited to, machine tools, jacks, lifts and test centers, as required for its operation,

4. Make arrangements for access to, or for the provision of, such minimum capacity for the storage of aircraft as the director shall specify, and shall be required to remove any nonairworthy aircraft from the airport premises within a reasonable time,

5. Promptly remove from the public landing area, as soon as permitted by cognizant FAA and CAB authorities, any disabled aircraft owned or controlled by the lessee, coupled with the availability of or arrangements made for suitable tractors, towbars, jacks, dollies, and other equipment as might be needed to remove the largest aircraft that normally could be expected to be operated from the lessee's facility,

6. Meet all applicable safety requirements, if painting of aircraft is anticipated;

F. Furnish, as may be required by the city, such primary line service to the public on a nondiscriminatory basis as the sale of aviation petroleum fuel and aircraft propellant products, the rental of aircraft parking areas, storage and/or hangar space (including demonstrated capability to efficiently and safely move aircraft to such areas and store them in compliance with local regulations), pilot training with FAA certified instructors, aircraft rental facilities, aircraft charter, and flight maintenance facilities;

G. Provide, as may be required by the city, the following:

1. At all fueling locations, suitable space in a convenient location to service the type of aircraft using the airport,

2. Tank storage capacity, either above or below ground as mutually agreed upon, for aviation fuels,

3. Adequate grounding rods at all fueling locations to eliminate hazards of static electricity, together with mobile and/or fixed pumping equipment which meets all applicable safety requirements, with reliable metering devices subject to independent inspection, and with a pumping efficiency capable of filling jet aircraft including the "jumbo" or" bus" series within a reasonable time,

4. Uniformed personnel on full time duty during all hours of operation;

H. Maintain an adequate staff of employees with skills, licenses and certificates appropriate to the activity provided as specified in these minimum standards;

I. Conform to all safety, health and sanitary codes;

J. Provide energizers, starters, passenger loading steps, oxygen and compressed air, together with such other equipment and supplies as may be required to serve the types of aircraft using its facility;

K. Remove snow and otherwise clean up lessee's fueling and aircraft parking areas and possess the equipment necessary for this purpose;

L. Furnish, as may be required by the city, a financial statement and credit rating acceptable to the city;

M. Provide insurance coverage written with an insurance company or companies acceptable to the city in amounts not less than two million dollars ($2,000,000.00) combined single limit bodily injury liability and two million dollars ($2,000,000.00) hangar keeper's liability insurance. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy, the insurer will give thirty (30) days' prior written notice to the city. The above levels of coverage shall be increased if, in the opinion of the mayor or his/her designee, such is warranted;

N. Be available, either individually or in connection with the other fixed base operators situated at the airport, for repair service and emergency service during the night hours, weekends and holidays, to ensure that aircraft repair service is available for general aviation users at all times. This service shall be provided for the public and/or general aviation users. In any event, each fixed base operator shall remain open for business at least eight (8) hours daily, five (5) days each week. The lessee may be required by the city to supply, on a twenty four (24) hour basis, seven (7) days per week, facilities for the sale of aviation petroleum, fuel and aircraft propellant products. Likewise, lessee may be required to provide basic facilities and employees to handle the tiedown and/or hangar space for aircraft on a seven (7) day, twenty four (24) hour basis. (Ord. 88-86 § 17, 1986: prior code § 2-19-16)

16.56.150: FLIGHT TRAINING:

A. Any person desiring to engage in pilot flight instruction shall provide, as a minimum, the following:

1. Registration: Register the business with the director, stating the scope of activities to be entered into;

2. Lease: Enter into a lease in which the leasehold shall contain reasonable space which is adequate for operation of the business to be conducted;

3. Certification: Obtain appropriate certification to comply with FAA regulations and accomplish all flight checks and other requirements to maintain such certification in a current status;

4. Insurance:

a. Provide proof of insurance coverage in the form of a policy or a certificate of insurance, with a company or companies acceptable to the city, in the minimum amounts established by section 63-30-34, Utah Code Annotated, or its successor, as maximum amounts for which a governmental entity may be held liable,

b. A flight instructor using an aircraft which it does not own shall be in compliance with this section if the aircraft owner carries insurance in type and amounts equal to or greater in coverage than the above, and the aircraft owner's insurer names the flight instructor as a named insured on the aircraft owner's insurance policy,

c. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. The above coverage shall be increased when, in the opinion of the mayor or his/her designee, such is warranted.

B. If the right to perform flight training on the airport is granted to any person by permit agreement as stated in subsection 16.56.010E of this chapter, or its successor, such person shall pay the fee shown on the Salt Lake City consolidated fee schedule, per year. If the person performing flight training is the owner (as the term "owner" is defined in section 16.04.320 of this title, or its successor), of the aircraft used in the performance of flight training, the person performing flight training shall pay an additional fee shown on the Salt Lake City consolidated fee schedule per aircraft per year for each aircraft used in the performance of flight training. The permittee will supply the director a list of all aircraft with the corresponding FAA "N-number" for all owned aircraft to be used in the performance of flight training. Such fees will be paid prior to the issuance of the permit agreement. The payment of annual fees above will be increased or decreased by owned aircraft the permittee adds or may delete in the performance of flight training during the time the permit agreement is in place. The permittee shall be subject to all conditions of this section except space requirements as stated in subsection A2 of this section. (Ord. 24-11, 2011)

16.56.160: FLYING CLUB REGULATIONS:

A. Approval Required: Flying clubs shall be permitted at the airport only upon prior written approval of the director.

B. Definition Of Flying Club: "Flying club" means an association or group of more than three (3) individuals jointly owning or leasing an aircraft where payment is made to the club for the operating time of such aircraft. The registration certificate issued by the FAA must show the names of all owners if the club is not incorporated, and the aircraft must be registered in the name of any incorporated flying club.

C. Organization: Flying clubs must be organized as nonprofit corporations under the laws of the state, or as duly organized nonprofit, functioning unincorporated associations for the purpose of:

1. Fostering flying for pleasure;

2. Development of skills in aeronautics, including pilotage or navigation; and

3. The development of an awareness and appreciation of aviation requirements and techniques by the general public in the field of aviation and aeronautics.

D. Documents Required: Flying clubs shall furnish the director with copies of their bylaws, articles of incorporation, operating rules, membership agreements, and the location and address of the club's registered office. The director shall also be furnished with a current roster of all officers and directors, including places of residence, business addresses and telephone numbers, who shall be responsible for compliance by the club members with all aviation laws and airport rules and regulations.

E. Commercial Operation Prohibited: Neither flying clubs nor any individual member thereof shall provide instruction to other than its members or engage in charter service or in any commercial operation at the airport.

F. Membership Records: Flying clubs shall keep a membership record of all members, containing full names and addresses, past and present members included, together with the date their membership commenced and terminated, and the investment share held by each member. Such records shall be available for review at any reasonable time by the director.

G. Operation Of Aircraft:

1. All aircraft owned, leased or used by flying clubs shall be registered with the director, and may not be leased or loaned to others for any commercial use, purpose or venture. The club's aircraft shall not be used by other than bona fide members for rental or by anyone for charter or taxi lease.

2. An aircraft operated, owned or leased by a flying club shall meet all airworthiness requirements of the appropriate federal agency.

3. The flying club shall not derive greater revenue from the use of its aircraft than the amount necessary for its actual operation, maintenance and replacement.

H. Rule And Regulation Compliance: All flying club members must comply with all FAA, state and airport rules and regulations.

I. Insurance Required: Each aircraft owned by the flying club must have liability insurance coverage in amounts not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability, and not less than one hundred thousand dollars ($100,000.00) per seat passenger liability. Certificates of such insurance coverage shall be filed with the director and the policy shall contain a provision whereby such insurance may be canceled only after giving thirty (30) days' written notice to the director. The above levels of coverage shall be increased if, in the opinion of the mayor or his/her designee, such is warranted.

J. Holding Harmless: The flying club shall indemnify, defend and hold harmless the city from any and all claims of liability for personal injury, death or property damage, or any and all other damages whatsoever resulting from its operation at the airport. (Amended during 1/88 supplement: Ord. 88-86 § 18, 1986: prior code § 2-19-17)

16.56.170: RADIO, INSTRUMENT OR PROPELLER REPAIR SERVICE:

A. Any person desiring to provide a radio, instrument or propeller repair service must, at a minimum, do the following:

1. Register the business with the director, stating the scope of activities to be entered into;

2. Obtain appropriate certification to comply with FAA regulations and maintain such certification in a current status;

3. Enter into a lease in which the leasehold shall contain adequate square feet of land for required building;

4. Construct or lease a building providing adequate square footage of properly lighted and heated space for housing office, restroom facilities and minimum shop and hangar space as required for FAA repair shop certifications. Such building shall contain public telephone facilities;

5. Provide at least one FAA certified repairman qualified in accordance with the terms of the repair station certificate;

6. The normal operating hours of such service will be at the operator's discretion. The services, however, shall be reasonably available to the public;

7. Provide proof of insurance coverage in the form of a policy or certificate of insurance, written by an insurance company or companies acceptable to the city, in an amount not less than one million dollars ($1,000,000.00) combined single limit bodily injury liability and property damage liability. Such policy or certificate of insurance shall be filed with the city, shall name Salt Lake City Corporation as an additional insured, and shall contain a statement that in the event of cancellation or material change in the policy the insurer will give thirty (30) days' prior written notice to the city. Insurance coverage limits may be required to be increased when it is deemed by the city that the risk exposure is greater than the minimum requirements herein.

B. If the right to perform radio instrument or propeller repair on the airport is granted to any person by permit agreement as stated in subsection 16.56.010E of this chapter, or its successor, such person shall pay the fee shown on the Salt Lake City consolidated fee schedule prior to issuance of the permit agreement. The permittee shall be subject to all conditions of this section except space requirements, as stated in subsections A3 and A4 of this section. (Ord. 24-11, 2011)

16.56.180: MULTIPLE SERVICES:

A. Any person desiring to engage in two (2) or more commercial aeronautical activities must, as a minimum, do the following:

1. Register the business with the director, stating the scope of activities to be entered into;

2. Obtain appropriate certification to comply with FAA regulations, and maintain such certification in a current status;

3. Enter into a lease for multiple services in which the leasehold shall contain adequate square feet of land to provide space for specific use area requirements established for services to be offered. Specific use space need not be cumulative where a combination use can be reasonably and feasibly established, the determination of which is to be made by the city;

4. Construct or lease a building containing adequate square footage to provide properly lighted and heated space for office, public lounge, pilot briefing, and restrooms. Such building shall contain public telephone facilities. Repair stations must provide minimum shop and hangar space as required for FAA repair shop certification;

5. Assign multiple responsibilities, as needed, to personnel in order to meet personnel requirements for all activities, provided such personnel meet requirements for all activities engaged in;

6. Meet all requirements for aircraft for the specific activities to be engaged in; however, multiple uses can be made of all aircraft, except aerial applicator aircraft, to meet these requirements. In order to meet these requirements, however, a minimum of two (2) aircraft must be owned or leased, under the direct control of the lessee, and based on the lessee's leasehold;

7. Provide all equipment specifically required for each activity;

8. Provide all services specifically required for each activity during the hours of operation as required for that activity under these minimum standards;

9. Adhere to the operating schedule as required for each activity;

10. Obtain the highest single coverage in the amounts and types of insurance established for each specific activity.

B. If the right to perform multiple services at the airport is granted to any person by permit agreement as stated in subsection 16.56.010E of this chapter, or its successor, such person shall be responsible for payment of all fees as established for each aeronautical activity engaged in, as specified in this chapter; provided, however, fees for owned aircraft (as the term "owner" is defined in section 16.04.320 of this title, or its successor) will be assessed for one aeronautical activity only. The permittee shall be subject to all conditions of this section except space requirements as stated in subsections A3 and A4 of this section. (Prior code § 2-19-15)

CHAPTER 16.60
MOTOR VEHICLE OPERATION

Article I. General Regulations

16.60.001: AUTHORITY TO ESTABLISH RULES AND REGULATIONS:

To the extent authorized by the provisions of this chapter and consistent with other applicable provisions of this code, the department director, under guidance and direction from the mayor, may enter into contracts deemed necessary or desirable and may establish rules and regulations necessary to administer the provisions of this chapter and any security or operating requirements applicable to the Salt Lake City International Airport. (Ord. 86-10, 2010)

16.60.005: EXEMPTIONS FROM REQUIREMENTS OF THIS CHAPTER:

Vehicles licensed and operated by a government agency, a university or school district, the Utah transit authority, an ambulance service, and others, as may be designated in department rules and regulations, and others, as may be designated by the director, are exempt from the requirements of this chapter. (Ord. 86-10, 2010)

16.60.010: COMPLIANCE WITH STATE AND OTHER REGULATIONS:

A. No person shall operate a motor vehicle on the airport except in strict compliance with applicable laws of the state, city ordinances, and department rules and regulations.

B. No person or owner shall drive, or permit to be driven, stopped or parked on any street, parking lot, alleyway or driveway within the airport, any vehicle which is required under the laws of the state to be inspected and registered unless such vehicle has been inspected and registered, and has attached thereto in proper position a valid and unexpired certificate of inspection as required by the laws of the state.

C. All vehicles operated on airport property, including ramp areas, shall be maintained in a safe operating condition. (Ord. 86-10, 2010)

16.60.020: DRIVING ON LOADING AREAS; RESTRICTIONS:

A. Any motorized vehicle being used on the ramp as a service vehicle shall display the department issued identification sticker. Each such vehicle shall also bear company identification visible from fifty feet (50') on both sides of the vehicle.

B. No person or vehicle is permitted in, on, or around any secured area, such as, but not limited to, any hangar, landing field, runway, apron or taxi strip, without prior permission from the department director.

C. Automobiles, trucks and other equipment (including airport maintenance and emergency vehicles) being driven on any landing area, runway, taxi strip, or apron shall display a standard checkered flag or flashing amber or red light, as appropriate, if operated during the nighttime, or, when applicable, be marked in accordance with federal aviation administration regulations or as directed by the department director, and shall not be operated without prior permission of the control tower. (Ord. 86-10, 2010)

16.60.030: VEHICLE RAMP OPERATIONS:

A. Speed Limits: Motor vehicles shall be operated on established streets and roadways within the airport in strict compliance with speed limits posted on traffic signs. They shall also be maintained and operated in conformity with all motor vehicle regulations and laws of the state and city. Motor vehicles being operated on any passenger loading ramp, aircraft parking ramp, or in any area immediately adjacent to the terminals or hangars, shall be driven cautiously and at a safe and reasonable speed, but not to exceed twenty (20) miles per hour.

B. Use Of Ramp Roadways: Vehicles shall only be operated within the limits of the designated painted roadways on the air operations areas, except as required to perform aircraft servicing and airfield inspections.

C. Traffic Markings On Paved Surfaces: Vehicle operators shall observe all traffic markings painted on pavement surfaces of the aircraft operations area.

D. Yield Right Of Way To Aircraft: All vehicles shall yield right of way to any aircraft when the aircraft is under tow or has its engines operating. No vehicle shall proceed past such aircraft until the vehicle's progress will not impede the aircraft's movement. This section does not preclude the establishment of agreements to the contrary between the city and the federal aviation administration. (Ord. 86-10, 2010)

16.60.040: COMMON CARRIERS:

No common carrier, vehicle for hire, or ground transportation vehicle shall load or unload passengers at the airport at any place or in any manner other than that designated by the department director. (Ord. 86-10, 2010)

16.60.050: ACCIDENTS TO BE REPORTED:

Any person involved in an accident resulting in personal injury or damage to property on the airport shall report such accident promptly to the office of the department director. (Ord. 86-10, 2010)

16.60.060: PROHIBITED VEHICLES AND ANIMALS:

No go-cart, motorbike, bicycle, house trailer, or similar vehicle, or horse, shall be permitted on any landing area, ramp, taxiway, or hangar area without approval of the department director, except for bicycles that are secured and delivered to an aircraft for transport, or motorcycles used for surface transportation in a hangar area. (Ord. 86-10, 2010)

16.60.065: PARKING AREAS:

A. Parking areas for motor vehicles shall be set aside for airport employees and the general public. No person shall park a motor vehicle or a trailer in any place on the airport other than those areas designated by the department director or as expressly set forth in this title. No person shall park a vehicle in an area designated as an employee parking lot unless such person has complied with all rules and regulations, and other requirements for employee parking as established by the department.

B. Tenants of T-hangars and shade hangars may park their motor vehicles in their own hangars when the aircraft is being flown, or in front of their hangar if they are present. Service or delivery vehicles may park next to a tenant's hangar long enough for delivery. All others shall park in public lots.

C. No person shall park a motor vehicle on the airport in excess of seventy two (72) consecutive hours unless it is parked in the public parking area or with the authorization of the airport.

D. No person shall park a motor vehicle in an area designated as a public parking lot unless such person pays the authorized rate for such parking lots. A schedule of parking rates shall be available in the airport office of finance and administration. (Ord. 86-10, 2010)

16.60.067: PARKING VEHICLES:

No person shall park a vehicle on the airport other than in the manner and at locations indicated by posted traffic signs and markings. Each hour a vehicle remains parked in violation of this section shall be a separate offense. (Ord. 86-10, 2010)

16.60.070: IMPOUNDMENT AUTHORIZED WHEN:

Any vehicle parked in violation of department rules and regulations may be impounded or relocated by a certified peace officer. The owner thereof shall pay for the tow charge, regular parking fees, and other penalties and related charges. (Ord. 86-10, 2010)

16.60.075: PASSENGER COURTESY CARTS:

A. No person may operate any vehicle inside a city owned building at the airport without proper authority. The owner of any such authorized vehicle shall install and maintain a speed governor on each such vehicle which will prevent the vehicle from exceeding five (5) miles per hour. Vehicles at all times shall be maintained in a safe operating condition. Any person operating such vehicle shall yield to pedestrians, not pass pedestrians unless there is enough space to leave an eighteen inch (18") clearance between vehicle and pedestrian, and otherwise operate the vehicle in a safe manner.

B. The department director may prohibit the operation of such vehicles at the airport or limit their use at any time. (Ord. 86-10, 2010)

Article II. Ground Transportation Businesses

16.60.080: PURPOSE OF ARTICLE II PROVISIONS:

The provisions set out in this article are enacted for the purpose of:

A. Requiring persons who conduct business at the airport by providing ground transportation service to assist the city in defraying the expense of providing certain facilities and services provided for ground transportation vehicles and services using the airport, and to create an equitable assessment of fees for its use; and

B. Requiring such persons to adhere to department rules and regulations regarding the operation of ground transportation vehicles to ensure that such are conducted in a safe, efficient, and cost effective manner for the public benefit. (Ord. 86-10, 2010)

16.60.090: DEFINITIONS:

The following words and phrases, when used in this chapter, shall have the meanings defined and set forth in this section:

AIRPORT SHARED RIDE SERVICE: Ground transportation provided by an authorized ground transportation business contracted through the department of airports to provide on demand shared ride service to and from the Salt Lake City International Airport.

AIRPORT SHARED RIDE VEHICLE: Any authorized ground transportation vehicle operating under contract with the department of airports to provide airport shared ride service.

AUTHORIZED GROUND TRANSPORTATION BUSINESS: Any business operating any ground transportation vehicle, which has a current, valid business license as required by the city and which:

A. Registers the business in accordance with the requirements established by the department, and

B. Is current with all fees or charges imposed by the department or city.

AUTOMOBILE: Any motor vehicle with passenger seating for five (5) persons or less not including the driver.

BUS: Any motor vehicle with a seating capacity of twenty five (25) passengers or more, not including the driver.

BUSINESS: A voluntary association legally formed and organized to carry on a business in Utah in the legal name of the association, including, without limitation, a corporation, limited liability company, partnership, or sole proprietorship.

CIVIL NOTICE: The written notice of a ground transportation violation.

COURTESY VEHICLE: Any motor vehicle regularly operated on Salt Lake City streets for transportation of customers and/or baggage without making a specific separate charge to the passenger for such transportation.

DEPARTMENT: The Salt Lake City department of airports.

DEPARTMENT DIRECTOR: The director of the Salt Lake City department of airports.

DEPARTMENT RULES AND REGULATIONS: Rules and regulations developed and adopted by the department director to govern ground transportation service and businesses at the airport.

FIXED SCHEDULE: Ground transportation service operating on a regular time schedule previously announced as to time of departure and arrival between the airport and definitely established and previously announced points along definitely established and previously announced routes regardless of whether there are passengers or freight to be carried.

GROUND TRANSPORTATION APPEAL COMMITTEE: A committee established by the department director to hear and rule on appeals, suspensions, and other matters related to ground transportation in and connected with the city.

GROUND TRANSPORTATION BUSINESS: Any business operating any ground transportation vehicle.

GROUND TRANSPORTATION SERVICE: The transportation of passengers by a ground transportation business.

GROUND TRANSPORTATION VEHICLE: Any motor vehicle used for the transportation of persons using Salt Lake City streets for commercial purposes regardless of whether a fee or fare is collected, which includes, but is not limited to, any airport shared ride vehicle, automobile, bus, courtesy vehicle, hotel vehicle, limousine, minibus, special transportation vehicle, specialty vehicle, taxicab, van, or trailer being towed by a ground transportation vehicle.

HOTEL VEHICLE: Any motor vehicle regularly operated by a ground transportation business under contract to or directly by a motel, hotel, or other lodging business to provide transportation of customers and/or baggage for the contracted establishment, for which transportation the customer is charged a separate fee or fare, and which is subject to a contract filed with the department providing for operating the vehicle.

LIMOUSINE: Any vehicle described by its manufacturer or aftermarket manufacturer as a limousine or a luxury vehicle such as, but not limited to, a Cadillac Escalade, Chevrolet Suburban, Lincoln Town Car, or Mercedes Benz, with a driver furnished, who is dressed in professional business attire or a chauffeur's uniform. A limousine may be deemed a hotel vehicle if the service provided is prearranged and minimum fare is charged as provided in this chapter.

MINIBUS: Any motor vehicle with a seating capacity of thirteen (13) to twenty four (24) passengers, not including the driver.

ON DEMAND AIRPORT SERVICE OR ON DEMAND SERVICE: Transportation provided by an authorized airport ground transportation business which is not "scheduled service" nor "prearranged service from the airport" as defined in this section.

PREARRANGED SERVICE FROM THE AIRPORT: Transportation from the airport to points within the corporate limits of Salt Lake City provided by an authorized ground transportation business which is contracted for between such business and the person to be transported, or by an agent of the person, prior to the arrival of the person at the Salt Lake City International Airport. Prearranged service from the airport shall include airport ground transportation contracted for by an airline company on behalf of its own passengers whose regular air travel may have been disrupted in some manner. An agent may include a travel agent, family member, employee, business or meeting planner, but excludes an authorized ground transportation business. Prearranged service to the airport shall be provided on the same basis as permitted under title 5, chapter 5.71 of this code.

SCHEDULED SERVICE: Transportation provided by an authorized ground transportation business on a fixed schedule posted with the department in advance of such transportation.

TAXICAB: A motor vehicle with a seating capacity of five (5) passengers or less, not including the driver, or a van with a passenger seating capacity of six (6) to twelve (12), not including the driver, used in the on demand for hire transportation of passengers or baggage over the public streets and not operated over a fixed route or upon a fixed schedule, but which is subject for contract hire by persons desiring special trips from one point to another, as provided under title 5, chapter 5.72 of this code, or its successor chapter, and authorized to operate in Salt Lake City by contract with the department.

VAN: Any licensed motor vehicle other than those designated as a limousine with a passenger seating capacity of six (6) to twelve (12), not including the driver. (Ord. 86-10, 2010)

16.60.095: BUSINESSES AUTHORIZED TO PROVIDE GROUND TRANSPORTATION:

It shall be a violation to operate a ground transportation vehicle at the airport, unless such vehicle is part of an authorized ground transportation business. (Ord. 86-10, 2010)

16.60.097: GROUND TRANSPORTATION DESTINATIONS:

A. All authorized ground transportation businesses may provide scheduled service or prearranged service from the airport.

B. Only authorized airport shared ride service vehicles, taxicabs, courtesy vehicles, and hotel vehicles may provide on demand service at the airport, except that courtesy vehicles and hotel vehicles may provide on demand service only to and from the hotel, motel, or other lodging business with whom they hold a current contract for transportation services. The department director may waive these restrictions if the director determines that circumstances at the airport exist that create congestion, security concerns, emergency conditions, or other operational problems, and that a temporary suspension of this limitation is in the best interests of the city to address such circumstances.

C. All authorized ground transportation businesses may provide on demand, scheduled service and prearranged service from the airport to destinations outside of the corporate limits of Salt Lake City. (Ord. 86-10, 2010)

16.60.100: PASSENGER PICK UP ZONES:

All persons operating a ground transportation vehicle on the premises of the airport shall pick up passengers only in areas as designated by the department director. Ground transportation vehicles may occupy such area only for the period of time established by the department director. (Ord. 86-10, 2010)

16.60.110: COMMERCIAL CHARGES:

Commercial charges may be imposed by the city for the use of airport facilities and services. Any business located at, or doing business on, the airport shall pay all established fees applicable to such business. (Ord. 86-10, 2010)

16.60.120: GROUND TRANSPORTATION FEES REQUIRED:

No ground transportation vehicle or business shall use the airport's roadways or facilities without paying required fees established under section 16.60.110 of this chapter. (Ord. 86-10, 2010)

16.60.130: PAYMENT OF FEES:

Payment of required fees shall be made in the manner prescribed by the department director consistent with department rules and regulations and applicable provisions of this code. (Ord. 86-10, 2010)

16.60.140: CITY ORDINANCES APPLICABLE TO AIRPORT:

All applicable ordinances set forth in this code, including, without limitation, title 5, chapters 5.71 and 5.72 of this code or their successors, shall apply to the airport. Pursuant to applicable provisions of this code, the department director may enter into contracts and establish rules and regulations for taxicab operations specific to the airport. (Ord. 86-10, 2010)

16.60.180: GROUND TRANSPORTATION BOOTHS:

There may be established within the terminal buildings at the airport one or more ground transportation booths for the exclusive use of authorized ground transportation businesses to assist the public to arrange for transportation, including travel reservations and ticket sales. These booths may be made available to businesses in accordance with applicable contracts and/or department rules and regulations.

A. No authorized ground transportation business may solicit passengers at the airport except at a bona fide ground transportation booth established by the department director and operated by the authorized ground transportation business.

B. No person or business including any ground transportation business may contract for passenger meet and greet services on behalf of any ground transportation business without written permission of the department director.

C. In addition to civil penalties, any violation of these solicitation restrictions by any driver or representative of any authorized ground transportation business may result in such driver or business being barred from any further entry to an airport terminal as a driver or authorized ground transportation business employee.

D. No representative of any authorized ground transportation business shall transport baggage or cargo in behalf of a customer to or from the airport without documentation such as baggage claim tickets or transfer documents clearly indicating the authority of such representative to transport such baggage. Said representative shall produce such documentation for inspection upon request by an authorized official of the department. (Ord. 86-10, 2010)

16.60.190: STAGING AND PARKING OF GROUND TRANSPORTATION VEHICLES:

Any use of a staging area, parking facilities, taxi stands, parking areas, traffic lanes or other areas and facilities used by authorized ground transportation vehicles are subject to department rules and regulations. (Ord. 86-10, 2010)

16.60.200: SIGNS:

Signs may be posted at the airport by authorized ground transportation businesses if such signs are in accordance with applicable city ordinances, department contracts, department rules and regulations, and have been approved by the department director. (Ord. 86-10, 2010)

CHAPTER 16.64
VIOLATION, PENALTY AND ENFORCEMENT

16.64.010: PROHIBITIVE NATURE OF REGULATIONS:

It is a violation for any person to do any act prohibited by law, to fail or refuse to do any act required by law, to operate any vehicle or aircraft in violation of any provisions of this title or department rules and regulations, or to operate any vehicle or aircraft unless such vehicle or aircraft is equipped and maintained as provided in this title or other applicable law. (Ord. 86-10, 2010)

16.64.020: REMOVAL AUTHORIZED WHEN:

Any person using airport property, operating any vehicle or handling any aircraft in violation of this title or other applicable law, or by refusing to comply therewith, may be removed or ejected from the airport, and may be deprived of the further use of the airport and its facilities for such length of time as may be deemed necessary by the department director to ensure the safeguarding of the same and the public and its interest therein. (Ord. 86-10, 2010)

16.64.025: VIOLATION; PENALTY:

Any person guilty of violating any provision of this title shall be deemed guilty of a class B misdemeanor, except the violation of certain sections of this title as set forth in section 16.64.030 of this chapter, which shall constitute civil violations. (Ord. 86-10, 2010)

16.64.030: CIVIL PENALTIES AND ENFORCEMENT:

A. Any person in violation of this title, department rules and regulations, or other applicable law are subject to civil penalties and any other lawful action as may be taken by the department director to ensure the safe and effective operations of the airport.

B. The city may revoke, suspend, or deny renewal of a city business license to operate a ground transportation business for violation of any provision of this title, department rules and regulations, or other applicable law as provided under title 5, chapter 5.02 of this code.

C. The department may revoke, suspend or deny renewal of an operator's badge, department automated vehicle identification tag, or department inspection seal for violation of any provision of this title, department rules and regulations, or other applicable law. The person or business affected may request, in writing filed with the department, an appeal hearing before the ground transportation appeal committee. Any such revocation, suspension or denial of renewal shall remain in effect until the party against whom such action is taken requests reinstatement, and the ground transportation appeal committee determines that reinstatement is appropriate.

D. If any named party fails to comply with civil penalties imposed under this chapter, such party may be subject to suspension, revocation, or nonrenewal of a city license to operate a ground transportation business, operator's badge, department automated vehicle identification tag and department inspection seal.

E. Civil penalties may be imposed as set forth below. The named party in the civil notice shall be liable for a civil penalty. Any penalty assessed in connection with this section may be in addition to any other penalty that may be imposed by law or department rules and regulations.

F. Violations of the following shall constitute civil violations and be subject to the following penalties:

Code	Amount Of Penalty	Violation
Article I.		
General Regulations		
16.60.010	$500 .00	Vehicle operations on airport
16.60.020	1,000 .00	Secured area vehicle operations
16.60.030	1,000 .00	Ramp area vehicle operations
16.60.040	200 .00	Unauthorized passenger load/unload
16.60.050	1,000 .00	Failure to report accident
16.60.060	1,000 .00	Prohibited vehicle or animal in secure area
16.60.065	200 .00	Parking area restrictions/failure to pay fees
16.60.067	100 .00	Parking violation posted signs
16.60.075	500 .00	Courtesy cart operations
Article II.		
Ground Transportation Businesses		
16.60.095	1,000 .00	Unauthorized ground transportation vehicle
16.60.097	500 .00	Unauthorized prearranged/on demand transport
16.60.100	200 .00	Unauthorized passenger pick up
16.60.120	500 .00	Failure to pay fees
16.60.180A,B,D	500 .00	Unauthorized solicitation or baggage transport
16.60.190	100 .00	Unauthorized staging/use of grounds and facilities
16.60.200	500 .00	Unauthorized posting of signs

(Ord. 86-10, 2010)

16.64.050: ENFORCEMENT PROCEDURES; CIVIL NOTICE OF GROUND TRANSPORTATION VIOLATION:

A. Civil notices under this chapter, other than those involving revocations, suspensions, denials or approvals of a business license, operator's badge, department automated vehicle identification tags and department inspection seals shall be heard by the Salt Lake City justice court. Any named party may appear before a hearing officer and present and contest an alleged violation as provided in title 2, chapter 2.75 of this code, or its successor.

B. The burden to prove any defense shall be upon the person raising such defense. Nothing herein shall affect the city's burden to prove each element of the underlying charge by a preponderance of evidence.

C. If the hearing officer finds that no violation of this chapter occurred, or that a violation occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may dismiss the civil notice and release the named party from liability thereunder, or may reduce the penalty associated therewith as he or she shall determine. Such defenses are:

1. The civil notice does not contain the information required by this chapter;

2. Compliance with the subject ordinances would have presented an imminent and irreparable injury to persons or property; or

3. Such other mitigating circumstances as may be approved by the city attorney's office. (Ord. 86-10, 2010)

16.64.060: EXPEDITED APPEAL OF EXCLUSION:

Any named party who is excluded from pursuing commercial activities under this chapter, and has not had a hearing before the ground transportation appeal committee regarding such exclusion as provided for in this chapter, may request an expedited appeal of the action that resulted in such exclusion. Such appeal shall be requested in writing by the party so excluded to the department. The department shall promptly investigate the facts relating to such exclusion. If the evidence indicates such exclusion is improper under this chapter, the department director may reverse the action that resulted in such exclusion. If the department director does not reverse such action, the action resulting in such exclusion shall be heard and determined by the ground transportation appeal committee in accordance with the provisions of this chapter. If a preponderance of the evidence indicates such exclusion is proper under this chapter the ground transportation hearing committee shall uphold such exclusion. (Ord. 86-10, 2010)

Title 17 - PUBLIC SERVICES

CHAPTER 17.04
WATERSHED AREAS

Article I. General Provisions And Permits

17.04.010: DEFINITIONS:

For the purposes of this chapter, the following terms, phrases and words shall have the meanings set forth in this section:

APPROVED SPRING: A naturally occurring spring which:

A. Produces each day an amount of water equal to the minimum quantity and quality of water required by state law, Salt Lake County and the Salt Lake City ordinances, and Salt Lake Valley health department regulations for a residence within the watershed area;

B. Produces water which at all times meets at least the minimum health standards of state and Salt Lake Valley health department regulations;

C. Produces less than one hundred (100) gallons of water per minute during the period between September 15 and October 1;

D. Is not a watercourse or a tunnel, mineshaft, well or any other artificial structure;

E. The department of public utilities finds that the development of the spring will not have a substantial adverse effect upon wetlands created by such spring or the riparian zone below such spring;

F. The department of public utilities finds that the development of the spring will not cause any degradation of water quality under federal, state, county and city laws and regulations.

AQUIFER: An underground formation that contains and transmits ground water.

DEPARTMENT: The Salt Lake Valley health department.

DIRECTOR: The director of the Salt Lake City department of public utilities or his/her authorized representative.

HEALTH DIRECTOR: The director of the Salt Lake Valley health department or his/her authorized representative.

LIMITING DISTANCE: The distance by horizontal measurement from the normal bank of a stream or the high water line of a reservoir as determined by the department.

NONPOINT DISCHARGE: Any surface or subsurface discharge of wastewater to a designated watershed stream segment or tributary, from diffused source(s) or conveyance(s).

OWNER: Any person who alone, jointly or severally with others:

A. Has legal title to any premises, dwelling or dwelling unit, with or without accompanying actual possession thereof; or

B. Has charge, care or control of any premises, dwelling, or dwelling unit, as legal or equitable owner or agent of the owner, or an executrix, administrator, administratrix, trustee or guardian of the estate of the owner.

PERSON: Any individual, public or private corporation and its officers, partnership, association, firm, trustee, executor of any estate, the state or its departments, institution, bureau, agency, county, city, political subdivision or any legal entity recognized by law.

POINT SOURCE DISCHARGE: Any surface or subsurface discharge of wastewater, treated or otherwise, to a designated watershed stream segment or tributary, from a discrete conveyance.

POLLUTION: Any manmade or man induced alteration of the chemical, physical, geological, radiological or biological integrity of water under standards of the Utah state department of health or the environmental protection agency (EPA).

PUTRESCIBLE MATERIAL: Any organic material subject to biological decomposition with the production of offensive odors associated with anaerobic or facultative aerobic conditions, including, but not limited to, dead animals, garbage, manure, compost and vegetable matter.

RESERVOIR: Any natural or artificial lake or pond, except a stormwater detention basin.

RESIDENCE: A single-family dwelling.

SALT LAKE CITY WATERSHED AREA OR CITY WATERSHED: The watershed area supplying drinking water to the residents of Salt Lake City or the Salt Lake City water system for drinking or residential uses, including, but not limited to:

A. All of Big Cottonwood watershed area lying east of the Salt Lake City water intake, which is located east of Wasatch Boulevard in the mouth of the canyon;

B. All of the Parley's Canyon watershed area lying north and east of the Salt Lake City Mountain Dell Reservoir Dam;

C. All of the City Creek Canyon watershed area lying north and east of Salt Lake City's City Creek treatment plant sludge beds;

D. All of the Little Cottonwood Canyon watershed area extending fifty feet (50') on both sides of Little Cottonwood Creek east from the Little Cottonwood Creek radial gate intake structure, which structure is located approximately six hundred feet (600') west of Wasatch Boulevard, east to the intersection of Little Cottonwood Road and the North Fort of Little Cottonwood Road and all of the watershed area east of the Little Cottonwood Canyon Road and North Fork of Little Cottonwood Road;

E. All of the Emigration Canyon watershed area that contributes water to Emigration Creek from Burr Fork and Killyon Canyon above a point at the intersection of state Highways 65 and 172;

F. Any other watershed area designated by law, either existing or to be defined in the future by the governing authority of Salt Lake City.

SEWAGE: A combination of liquid or water carried wastes produced by man, animal or fowl from residences, business buildings, institutions, industrial establishments, agriculture, recreation and other locations, including septic tanks, privy vaults and cesspools, together with ground, surface and stormwater.

SUPERINTENDENT OF WATERWORKS: An official who, under the executive direction of a governing authority, has charge of all facets of the water supply and distribution systems in a given jurisdiction; in Salt Lake City it is the director.

WATERCOURSE: Aqueducts, pipelines, natural or artificial streams or channels through or in which water at any time flows.

WATERSHED AREA: The entire area in any canyon above the intake of the city within which water drains into any stream or tributary thereof or any artesian or flowing well basin and/or having an existing or proposed water intake of the city within which water drains into any stream, tributary, or aquifer where such waters are taken by or may be taken by the city into its waterworks system for the culinary and domestic use of the inhabitants thereof.

WATERWORKS SYSTEM: Any facility used to divert surface or underground water into a system for distribution to culinary users, including, but not limited to, diversion works, treatment or appurtenant facilities, plants, aqueducts, pipes and other distribution facilities.

WELL: Any artificially made pipe, shaft or hole sunk into the earth below the ground surface into a water bearing strata from which water may be taken. (Ord. 1-06 § 30, 2005: Ord. 50-93 § 1, 1993)

17.04.020: PREAMBLE; PERMIT; REQUIRED FOR WATER USE; CONDITIONS:

Beginning in 1888, the city acquired extensive water rights to Wasatch Canyon stream flows through exchange agreements with irrigation companies and control over the city's watersheds through state and federal legislation. Under state law, the city can only sell its surplus water outside the city's limits. The city has determined that except for snowmaking, fire protection and water from possible canyon springs it does not have surplus water for sale in its watershed canyons. This determination is based upon the following: Canyon waters are extremely valuable to the city because they are the city's closest high quality water supplies; water from canyon streams can be delivered to most city customers by gravity flow without pumping; and water used for snowmaking affords a degree of storage as it is usually the last to melt. Additionally, the city has made major capital expenditures for facilities to treat water coming from the canyons and they operate most economically when they have greater quantities of water to treat. Also, controlling issuance of new permits for water supply in the watershed area hereunder is consistent with the city's 1989 watershed management plan for the protection of the city's watersheds.

A. No permits issued prior to enactment of the ordinance codified herein may be amended except as to the sources of the water supply. No permit shall be amended to enlarge the service boundary or increase the water supply.

B. No new use of Salt Lake City water in the watershed areas of the city shall be made by any individual whomsoever without such person first obtaining a permit for such water use from the city. Subject to the other terms of this chapter, a permit may be issued on an interruptible basis only to:

1. The owner, or lessee where the owner is a governmental entity, of property in a watershed area for the purpose of supplying water from an approved spring for a residence located on such property;

2. The owner, or lessee where the owner is a government entity, of property in a watershed area for snowmaking or fire protection;

3. The federal government, the state of Utah or a political subdivision thereof for the purpose of supplying water for use on property owned or leased for use by such governmental entity.

C. The city shall not be required to issue a permit in any case, but may do so in its sole discretion as provided in this section. The city may include in any permit conditions for spring development or use.

D. All permittees take water at their own risk where the source of supply is other than treated water from the regular city pipeline system, and all permits issued shall so state.

E. When the approved spring which an applicant desires to use is a spring which is already being used under a permit from the city, the city shall not issue a new permit unless: 1) utilization of the water from such spring by the applicant will not interfere with the supply to the other then existing permittees using such approved spring, 2) the then existing permittees using such approved spring who own a water system shall approve of such new connection to their system, except for the spring box or other spring capturing device, and 3) the existing permit shall be amended in a manner satisfactory to the then existing permittees and the city to take into account required conditions 1) and 2) of this subsection. The city retains the right to authorize a tap or connection for a new permittee to any spring box or other spring capturing device.

F. An applicant for a permit may be required by the city to supply as part of the application an environmental report with respect to the proposed water system.

G. Any change application required to be filed with the state engineer for the use of the water from an approved spring shall be filed by the permittee only with the city's prior written approval in the city's name at the permittee's sole expense.

H. The geographic area served pursuant to an issued permit shall not be expanded beyond the original geographic area which is to be served under the permit on the date it is issued. (Ord. 50-93 § 1, 1993)

17.04.030: CHARGES FOR USE OF WATER:

The policies, rates or fees for sale of surplus water in the watershed area shall be recommended by the city's public utilities advisory committee and approved by the director of public utilities. All said policies, rates or fees are subject to review and approval of the city mayor and council. Such rates shall not exceed the city's special county water rates. (Ord. 50-93 § 1, 1993)

17.04.040: PERMIT; RIGHTS PERMISSIVE ONLY:

A. All permits issued pursuant to the provisions of this chapter shall be deemed to give permissive rights to the use of water only and such use shall be permitted only during periods when the city has surplus water for sale. Such permits shall be subject to immediate suspension or revocation when the city in its sole judgment determines that surplus water is no longer available from the city sources of supply.

B. Except as otherwise provided above, permits shall have original terms of no more than thirty (30) years and be renewable only upon such terms as the city shall determine in its sole discretion. (Ord. 50-93 § 1, 1993)

17.04.050: EASEMENTS AND SERVICE CONNECTIONS:

An applicant for a permit must supply satisfactory evidence that the applicant will be able to provide at applicant's sole expense all easements necessary for the transportation of water from the approved spring to the point where it is to be used. All users shall make and maintain connections at their sole expense and shall construct and maintain at their sole expense any and all water lines, spring boxes, valves, etc., necessary to supply culinary water to their premises. All connections and appurtenances, both as to materials used and method of construction, shall be subject to the approval of the city. (Ord. 50-93 § 1, 1993)

17.04.060: PERMIT; REVOCATION CONDITIONS:

All permits issued pursuant to the provisions of this chapter shall be subject to revocation by the public utilities director, or health director, subject to review by the mayor. Permits may be revoked for any of the following causes:

A. Nonpayment of water bills;

B. Violation of any of the sanitary regulations now existing or which may hereafter be enacted pertaining to the watershed area by permittee or any of the permittee's family, licensees or agents;

C. Waste of water due to any cause not immediately remedied by permittee;

D. Use for any purpose other than those allowed by city permit;

E. Violation of this chapter or any condition specified in a permit;

F. The city has no surplus water; and

G. Any other cause deemed necessary by the director or health director to protect the safety, health and welfare of the inhabitants of the city's water service area. (Ord. 50-93 § 1, 1993)

17.04.065: EXCHANGE OF WATER RIGHTS:

The city shall not be precluded from making agreements for the exchange of water rights within the city's watershed, or to resolve disputes involving existing water rights or alleged water rights, if the city determines that to do so is in the city's best interest. (Ord. 50-93 § 1, 1993)

Article II. Subdivisions

17.04.070: CONSTRUCTION; APPROVAL REQUIRED; CONDITIONS:

It is unlawful to plan or construct any subdivision in a watershed area of the city without securing approval therefor in accordance with the provisions of this chapter. No subdivision in the watershed area shall be approved without compliance with the requirements set forth in sections 17.04.080 through 17.04.110, inclusive, of this chapter, or their successor sections. (Ord. 50-93 § 1, 1993)

17.04.080: WASTE DISPOSAL SYSTEM REQUIREMENTS:

All applicants for a water use permit on the watershed area shall comply with all city, county, department and state waste disposal system regulations. (Ord. 50-93 § 1, 1993)

17.04.090: PLANS AND OTHER SPECIFICATIONS:

All applicants for a water use permit within the city's watershed areas shall submit to the proper governing authority all other plans, specifications and drawings required by applicable law or ordinances. (Ord. 50-93 § 1, 1993)

17.04.100: CONSTRUCTION PERMIT APPROVAL CONDITIONS:

Approval by other agencies of the general subdivision layout shall not be considered approval for a water use permit. (Ord. 50-93 § 1, 1993)

17.04.110: SALE OF LOTS PRIOR TO CONSTRUCTION APPROVAL:

If any lot is sold before approval for construction and a water use permit has been issued by the director and the department, the seller must notify the buyer that construction has not been approved. (Ord. 50-93 § 1, 1993)

Article III. Livestock And Other Animals

17.04.120: LIVESTOCK; AT LARGE PROHIBITED; PERMITS:

No livestock shall be allowed, such as, but not limited to, cattle, horses, sheep, hogs, or any other domestic animals, to run at large within the city's watershed area, except where such livestock are permitted in writing by the director or health director. (Ord. 50-93 § 1, 1993)

17.04.130: LIVESTOCK; PROHIBITED NEAR STREAMS:

Except as permitted in writing by the director, no person shall permit any horses, cattle, sheep, hogs or other animals to water directly from a stream in a watershed area. (Ord. 50-93 § 1, 1993)

17.04.140: LIVESTOCK; DEEMED ESTRAYS WHEN; IMPOUNDMENT:

Whenever any loose cattle, horses, sheep, hogs or other animals are found within the "watershed area", as herein defined, of the city without a written permit from the director, the director shall cause any such animals to be impounded and dealt with according to law. (Ord. 50-93 § 1, 1993)

17.04.150: CORRALS AND OTHER STRUCTURES PROHIBITED:

No person shall construct or maintain any corral, sheep pen, pigpen, chicken coop, stable, or any other such structure or outhouse within Salt Lake City's watershed areas, except as permitted in writing by the director. (Ord. 50-93 § 1, 1993)

17.04.160: DOGS; PERMIT REQUIREMENTS:

Owners or lessees of residences located within the Salt Lake City watershed area may be allowed to maintain a dog within the watershed areas of the city only with and subject to a written permit from the director.

A. Applicants shall submit to the Salt Lake County division of animal control certification of property ownership within city's watershed, or if a lessee, an owner's certification.

B. Applicants for such permits must submit a request to the department and obtain prior written approval, which must include their proposed method of housing and fencing in the dog. Such housing and the fenced enclosure shall be maintained in a clean and sanitary condition at all times and subject to inspection at any time by proper authorities.

C. Applicants shall submit their proposed method of animal waste disposal for prior approval. Fecal waste must be disposed of on a daily basis in a manner approved by the Salt Lake Valley health department so as to prevent contamination of the watershed area.

D. Proposed applicants will sign a written statement certifying that they agree to be governed and will abide by the following:

1. The enclosure used for the keeping of the dog will be maintained in a clean and sanitary condition at all times.
2. All dog fecal waste will be cleaned up on a daily basis and disposed of in an acceptable manner.
3. The dog will not be allowed off the owner's property, even if it is on a leash, except when it is entering or leaving the property in a vehicle. At these times, when the animal is outside its enclosure, the animal must be on a leash.
4. All permitted dogs shall wear special designation tags at all times.
5. No more than one dog permit will be allowed for any residence.
6. Owners of permitted dogs shall be subject to Salt Lake County animal control regulations and the Salt Lake City and county watershed regulations except as specified above.

E. Applicants shall pay the regular dog fees for keeping of such animal plus a special permit fee shown on the Salt Lake City consolidated fee schedule to the Salt Lake County division of animal control for keeping the animal in city watershed areas. Prior to the issuance of any such permit, applicants shall submit a surety bond acceptable in force to the Salt Lake Valley health department, or cash in the amount of one hundred dollars ($100.00), to ensure compliance with the above regulations.

F. Any dog permit owner who is found to be in violation of any of the above requirements shall forfeit such person's dog permit and the required bond or cash to the Salt Lake Valley health department. Permit owners shall also be subject to all other applicable fines and penalties as required by law. Should an applicant whose permit and bond have been forfeited desire to apply for another such permit, the same fees shall be required, but the required bond shall be in the sum of three hundred dollars ($300.00). After a second forfeiture the required bond shall be five hundred dollars ($500.00). (Ord. 24-11, 2011)

17.04.170: DOGS; PROHIBITED IN DESIGNATED AREAS:

It is unlawful for any owner or person keeping, harboring, having charge or control of any dog, to permit such dog to be taken into or allowed to run loose or on a leash within the following described watershed areas:

A. All of the Big Cottonwood watershed area lying east of the city water intake, which is located east of Wasatch Boulevard in the mouth of said canyon;

B. All canyon watershed areas except when being transported in a motor vehicle in Parley's Canyon, on county roads or state highways or in canyon watershed areas, by permit from the director;

C. All of the City Creek Canyon watershed area lying north and/or east of Salt Lake City's City Creek treatment plant sludge beds and in other areas of City Creek Canyon above the entrance when a written permit is required by the director. (Ord. 50-93 § 1, 1993)

Article IV. Water Use And Sanitary Facilities

17.04.180: RULES AND REGULATIONS:

The director and health director are authorized and directed to prescribe rules and regulations not contrary to law, for governing all matters of sanitation within the Salt Lake City watershed area. (Ord. 50-93 § 1, 1993)

17.04.190: GARBAGE AND SEWAGE DISPOSAL SYSTEM SUPERVISION:

Approvals for the location, construction and maintenance of all garbage or sewage disposal systems, vaults and privies, and the disposal of garbage and human waste, shall be under the direct supervision and control of the director and/or the health director. (Ord. 50-93 § 1, 1993)

17.04.200: WATER USING FACILITIES; PERMIT REQUIRED:

It is unlawful for any person to construct, use or maintain any closet, privy, outhouse, cesspool, urinal or sewage disposal system, or any public bathhouse, swimming tank or swimming pool at any place within the "watershed area", as defined in this chapter, of the city unless such closet, privy, outhouse, cesspool, urinal or sewage disposal system, public bathhouse, swimming tank or other such facility is provided with effective germ destroying appliances, and without first having obtained from the director and health director a permit for the construction, use and maintenance of same. (Ord. 50-93 § 1, 1993)

17.04.210: SANITARY SEWAGE DISPOSAL SYSTEM REQUIRED:

Any person who owns, operates, maintains or permits the use of any house, cottage, cabin, human habitation or camping place shall be required to provide and maintain a sewage disposal system satisfactory to the director and health director, and upon such person's failure to do so, the health director shall have and there is conferred upon the director the authority to close, seal and prevent the use of such house, cabin, human habitation or camping place. (Ord. 50-93 § 1, 1993)

17.04.220: SEWAGE DISPOSAL REQUIREMENTS:

It is unlawful for any person:

A. To deposit any human excreta within the city watershed (except that a backpacker or hiker may pothole and cover excreta with at least 6 inches of soil, and at least 300 feet from live water) other than into a toilet connected to public sewerage or into a chemical type toilet approved by the health director. Other methods of disposal may be approved by the director or health director provided they do not create any health hazard or pollution problem. Vaults, privies, chemical privies and privies connected to holding tanks may be permitted with written approval of the director provided the effluent from such tanks is treated in conformance with the Utah state department of health code of waste disposal regulations and transported from the city watershed by a licensed scavenger to an authorized dumping station. It also is unlawful:

1. To construct, use or maintain any cesspool(s) for disposal of human waste anywhere within the city watershed;
2. To discard garbage or debris in the watershed area;
3. To damage, vandalize or destroy any authorized toilet or privy within the city watershed area without permission from the owner.

B. Construction of any sewer lint in the city watershed area shall not begin until there is written approval received from the director and the health director.

C. The director shall require the pumping of sewage storage vault(s) in accordance with applicable laws.

D. A sewage disposal system or privy within any city watershed area shall be sealed immediately if it is unsanitary or does not comply with the requirements of applicable laws, ordinances or regulations. Such a facility may not be used until it conforms to the requirements of applicable laws, ordinances or regulations. It is unlawful for any person to use or maintain any such facility after it has been sealed in accordance with the provisions of this subsection.

E. When the director or health director determines that a privy or other source of pollution is a hazard to the watershed or water supply system, or both, and the hazard cannot be adequately remedied or corrected, the director or health director shall order the destruction and removal of the privy or source of pollution. Cost of all remedies shall be borne by the owner. (Ord. 50-93 § 1, 1993)

17.04.230: GARBAGE OR HUMAN WASTE DISPOSAL; PERMIT REQUIRED:

It is unlawful for any person other than Salt Lake County to collect or dispose of garbage or human waste within the watershed areas described in this chapter without a permit from the health director, and no such permit shall be granted to any person except a licensed scavenger and then only with the equipment that has already been approved for such work by the health director. (Ord. 50-93 § 1, 1993)

17.04.240: SEPTIC TANKS; PERMIT CONDITIONS:

Septic tanks and/or drain fields may be used for the disposal of wastewater from sinks, washbowls and bathtubs (gray water). The location and construction of the same must be approved by written permit granted by the director or health director. (Ord. 50-93 § 1, 1993)

17.04.250: CHEMICAL TOILETS OR PRIVIES:

Chemical toilets or privies shall be installed and used within the city's watershed only with the prior written approval of the director or health director. (Ord. 50-93 § 1, 1993)

17.04.260: SANITARY FACILITIES; ALTERATIONS:

No person shall alter any existing, or construct or install any new, receptacle for human excreta without first having the plans thereof approved by the health director and director and all receptacles for human excreta shall be operated and maintained in a manner approved by the director and the health director. (Ord. 50-93 § 1, 1993)

17.04.270: SANITARY FACILITIES; EMPTYING REQUIREMENTS:

A. All vaults or other approved receptacles used by any person for storage of human excreta shall be emptied completely at least once each year. Additionally, whenever the level of human excreta in such vault or receptacle is allowed to reach eighty percent (80%) of capacity or a point twelve (12) or less inches below any removal or leakage point, or the ceiling of such vault or receptacle, whichever point is lower, a notice of violation will be issued to the owner or operator of the facility using such vault or receptacle, allowing twenty four (24) hours for complete removal of such excreta. Upon any failure to comply with a notice to remove all excreta within twenty four (24) hours, the house, cabin, human habitation or camping place, or other facility involved in such notice shall be closed and sealed to prevent its use until the owner or operator of such facility complies herewith. All owners and others having control over the use of such vaults are encouraged to keep the level of excreta below sixty percent (60%) of the vault's capacity to allow sufficient reserve for emergencies.

B. No person shall fail to exercise the necessary care to prevent contamination of any spring, marsh, watercourse, water source or reservoir within the watershed area of the city in emptying a vault or other approved receptacle, or to fail to provide such transportable receptacle with a tightly fitting cover, securely fastened during the process of removal to the place of ultimate disposal, or to transport such transportable receptacle except by a licensed scavenger service. (Ord. 50-93 § 1, 1993)

17.04.280: HAULING OF HUMAN WASTE REQUIRED:

The effluent from any tank or privy for human excreta must be hauled (by a licensed scavenger) at the cost of the owner or occupant to an approved sewage disposal site. (Ord. 50-93 § 1, 1993)

17.04.290: PROHIBITED LOCATION OF TOILET VAULTS:

No person shall construct, locate or maintain any vault for the deposit or storage of human excreta within one hundred (100) linear feet from the edge of any spring, marsh, watercourse, water source or reservoir within the watershed area of the city, or at any place or in such manner as to contaminate or threaten to contaminate the same. (Ord. 50-93 § 1, 1993)

17.04.300: UNLAWFUL TO BREAK CONDEMNING SEAL:

It is unlawful for any person to break or remove any seal placed by the health director, or any deputy or inspector acting under the health director's direction, upon any privy, closet, urinal or other place where human waste is deposited, or to use any such place so sealed until the nuisance is abated. (Ord. 50-93 § 1, 1993)

Article V. Water Pollution And Other Unlawful Activities

17.04.310: NUISANCES PROHIBITED:

It is unlawful for any person to commit any nuisance whatsoever in any watershed area of the city. (Ord. 50-93 § 1, 1993)

17.04.320: POLLUTION OF CANYON WATERS PROHIBITED:

It is unlawful for any person to do or allow to be done any act that will pollute any source of water of the city, and in particular, it is unlawful for any person to do or allow to be done any of the things described in this chapter in any canyon or along any stream of water used by the inhabitants of the city for water supply anywhere within the watershed area of the city. (Ord. 50-93 § 1, 1993)

17.04.330: PROHIBITED ACTS:

It is unlawful for any person to bathe, swim or wash clothes, diapers, eating or cooking utensils, or any other object of any kind in any spring, marsh, watercourse, water source, water stream or reservoir within the city watershed. (Ord. 50-93 § 1, 1993)

17.04.340: CAMPING AND CAMPFIRE RESTRICTIONS:

A. Picnicking And Camping: No person shall spread or eat any picnic or lunch at places forbidden or unauthorized by the director or health director, who may require that picnicking or camping be confined to certain designated places. Except as stated below, no person shall camp overnight within the city's watershed areas, except within areas authorized, designated and posted as campgrounds for overnight camping during the camping season as designated by the director or the United States forest service, and except in connection with backpacking where the campsite is at least one-half ($\frac{1}{2}$) mile from any access or other roadway and at least two hundred feet (200') (61 m) from any spring, stream or other water source.

B. Restrictions From Campfires And Smoking: The director shall have power and authority to erect all signs necessary to forbid the making or having campfires, bonfires, or any other kind of combustible material ignited, and to prohibit smoking, except in designated places, in any of the watersheds under the jurisdiction of the director. The director may set aside certain areas in city watersheds in which campfires and smoking may be restricted or prohibited. (Ord. 50-93 § 1, 1993)

17.04.350: GLASS BREAKAGE PROHIBITED:

No person shall throw or break bottles or glass anywhere within the watershed area. (Ord. 50-93 § 1, 1993)

17.04.360: GARBAGE DEPOSIT PROHIBITED:

No person shall throw or deposit any garbage or other refuse matter of any kind anywhere within the city watershed, except into a garbage disposal site or container designated by the health director. (Ord. 50-93 § 1, 1993)

17.04.370: PUTRESCIBLE MATERIAL PROHIBITED:

No person shall deposit any garbage, vegetable or any putrescible matter in any spring, marsh, watercourse, water source or reservoir within the watershed of the city, or put the same into or upon the ground within the city watershed unless sufficient and adequate provisions are first made to prevent their being washed or carried into any such water source or supply. No person shall deposit, pile, unload or leave any garbage or other refuse or putrescible material at any place within the "watershed area" as herein defined. (Ord. 50-93 § 1, 1993)

17.04.375: HERBICIDE, PESTICIDE AND FERTILIZER RESTRICTIONS:

A. Use Prohibited; Exception: The outdoor use of herbicides, pesticides and fertilizers in any watershed area is prohibited, except in accordance with a permit for such use issued by the director. On or before July 1, 2001, the director shall adopt regulations governing the issuance of such permits. Such regulations shall identify chemicals, or specify the procedure for identifying chemicals, the use of which in watershed areas: 1) are determined by the director to be beneficial to the watersheds, such as herbicides to eradicate nonnative plant species, or to save native plants from insect pests, or 2) are demonstrated by the applicant to the satisfaction of the director to have no adverse impact on watershed or watershed ecosystems. Such regulations shall also include approved application methods, and may limit herbicide/pesticide application to licensed professionals. In adopting such regulations and making all required determinations, the director may rely on accepted industry and trade literature, studies or other information, taking into account special circumstances relating to the watershed areas. Public safety, the cost of water treatment and the long term protection of the watershed shall be given priority over any other considerations. Regulations so adopted may be revised from time to time as the director deems appropriate. Permits shall be issued only in accordance with regulations so adopted and revised by the director.

B. Approved Herbicide And Pesticide List: The following herbicides and pesticides are approved for use in the watershed, if used according to the product label. The listed herbicides and pesticides should be applied in a manner so as not to allow drift or over spray to hit open water. Conservative application methods are to be used in all watershed areas. Hand sprayers and spot spraying are recommended for application sites around stream banks. Spraying plans should be canceled and active spraying should be discontinued if rain is anticipated within twenty four (24) hours of application. Designated watershed areas are listed on GIS maps for ease of locating areas of special concern.

Azafenidin
Chlorsulfuron
Glyphosate
Metsulfuron
Pendimenthalin
Prodiamine
2,4-D amine
3,6-dichloro-o-anisic acid

Herbicides and pesticides are to be applied by licensed applicators only.

C. Permits: In accordance with Salt Lake City ordinance (watershed protection), the regulations governing permits for outdoor use of herbicides, pesticides and fertilizers in watershed restricted areas are as follows:

1. Only chemicals listed on the city's published list can be used:
   a. Listed chemicals are restricted to those recommended by experts and currently considered safe for usage in watershed areas.
   b. Most biological products are safe; however, notification and approval of use are required prior to use.
   c. No private watershed homeowner is allowed to store or apply large quantities of chemicals (greater than 0.5 gallons concentrated material).
   d. All pesticides must be stored in such a manner as to avoid freezing.
   e. Spilled material must be cleaned up immediately; saturated soil must be removed, put in a sealed container and taken out of the canyon for disposal at the Salt Lake Valley household hazardous waste facility, 6030 W. 1300 S., SLC. Do not leave the contaminated soil where the contaminant can be washed out by rain and get into the stream. Report any spill greater than six (6) ounces of concentrated material.
   f. Pesticides are to be used only in accordance with label and labeling directions or as modified or expanded and approved by the department.
2. Chemical applications are restricted as follows:
   a. Applications within one hundred feet (100') of a waterway are prohibited.
   b. Pesticides must be used in such a manner and under such wind and other conditions as to prevent contamination of people, pets, fish, wildlife, crops, property, structures, lands, pasturage or waters (more than 100 feet away) from the area of use.
   c. Homeowner applications more than ten feet (10') high are prohibited.
   d. Homeowner applications covering more than 0.25 acre are prohibited.
   e. All equipment containing pesticides and drawing water from any water source must have an effective antisiphon device to prevent backflow.
   f. Large scale applications (greater than 0.25 acre) must be done by a licensed professional applicator (all other restrictions apply).
3. Bulk chemicals (greater than 100 pounds) are not allowed to be stored in the watersheds, or transported into or through them except under certain circumstances.
   a. Transport of herbicides on I-80 is not restricted, although any traffic accidents within the city's watershed involving spilled herbicides must be reported to public utilities.
   b. Trucks entering the canyons must carry verification of volume and composition of materials on their trucks (in case of spills).
   c. Materials for specifically approved applications will be allowed even if in excess of limit, permit must be available on request.
4. Fertilizers are restricted except for revegetation.
   a. Where applicable, a soil analysis may be required to determine the amount of fertilizer allowed.
   b. Temporary irrigation may be permitted for revegetation. (Ord. 26-01 § 1, exh. A, 2001)

Article VI. Enforcement

17.04.380: INTERFERING WITH OFFICERS PROHIBITED:

It is unlawful for any person to interfere with, molest, hinder or obstruct the director, the health director, law enforcement officers or any of their agents or employees while in the performance of the duties imposed by this chapter. (Ord. 50-93 § 1, 1993)

17.04.390: VIOLATION; PENALTY:

Any person violating any provision of this chapter shall be punished by a fine in any sum less than one thousand dollars ($1,000.00), or by imprisonment not to exceed six (6) months, or both such fine and imprisonment. (Ord. 50-93 § 1, 1993)

17.04.400: TRESPASSING:

A. It is unlawful for any person to take down any fence, or to let down any bars, or to open any gate so as to expose any enclosure, or to ride, drive, walk, lodge, or camp or sleep upon the premises of another within the city watershed without the permission of the owner or occupant thereof.

B. It is unlawful for any person to operate any type of motor vehicle (including, but not limited to, motorcycles, trail bikes, bicycles, dune buggies, motor scooters or jeeps) upon the private property of another, within the city watershed without first obtaining the written permission of the person in lawful possession of the property or, if the property is unoccupied, the owner of such property.

C. It is unlawful for any person to operate any type of motor vehicle (including, but not limited to, motorcycles, trail bikes, bicycles, dune buggies, motor scooters or jeeps) upon any public property, within the city watershed except within designated streets, highways or alleys, without first obtaining the written permission of the public entity which is in possession of such property or, if the property is unoccupied, the public entity which owns such property.

D. Every person who operates any type of motor vehicle upon the private property of another or upon any public property, except as hereinabove provided, at all times while so operating such motor vehicle shall maintain in his possession the written permission required by the two (2) preceding subsections, except that, if the same document grants permission to two (2) or more persons a person named in such document need not have it in his possession while another person named in the same document, riding in the same group and not more than three hundred feet (300') from such person, has such document in possession.

E. This article does not prohibit the use of such property by the following:

1. Emergency vehicles;

2. Vehicles of commerce in the course of normal business operations. (Ord. 50-93 § 1, 1993)

Article VII. Appropriations Of Water

17.04.410: APPLICATIONS FOR APPROPRIATIONS OF WATER; PROTESTS:

It is the city's general policy to file a protest with the state engineer with respect to any application which is inconsistent with this chapter or with respect to a use for which no permit has been issued pursuant to this chapter, including, without limitation, changes in place of diversion, purpose of use, importation of water from other watersheds, drilling of wells, and transfer of water rights into watershed areas; provided, however, that the city's director of public utilities and the city attorney shall determine whether to file such a protest in any particular case. (Ord. 50-93 § 1, 1993)

Article VIII. Adoption Of Public Law

17.04.420: WATERSHED IMPROVEMENT ACT:

Salt Lake City Corporation adopts by reference as though fully stated herein, the Salt Lake City watershed improvement act of 1990, public law 101-634 (the act), enacted by the senate and house of representatives of the United States of America and approved on November 28, 1990. The city accepts and will abide by the terms of the act. (Ord. 50-93 § 1, 1993)

CHAPTER 17.08
CITY CREEK CANYON

17.08.010: RULES AND REGULATIONS:

In addition to all of the requirements set forth in division I of this title pertaining to watershed areas, City Creek Canyon shall be subject to the rules set forth in this chapter, and it is unlawful for any person to do or permit to be done any of the things set forth in this chapter in City Creek Canyon or in City Creek. (Ord. 50-93 § 2, 1993)

17.08.020: RESERVATION AND FEE PAYMENT REQUIRED:

City Creek Canyon will be closed to public vehicular traffic except by reservations and payment of fees for the use of canyon picnic facilities. (Ord. 50-93 § 2, 1993)

17.08.030: PICNIC FACILITIES; RESERVATION FEES:

Any person or group desiring to reserve picnic facilities shall pay the fee shown on the Salt Lake City consolidated fee schedule for the use of such facilities as determined by the public utilities advisory committee and approved by the director. (Ord. 24-11, 2011)

17.08.040: DRIVING RESTRICTIONS:

It is unlawful for any person to drive, ride or propel, or cause or permit to be driven, ridden or propelled, any vehicle in the canyon at a speed exceeding posted speed limits or is too fast for existing conditions or is greater than is reasonable and safe, or so as to endanger life, limb or property in any respect whatever, or upon approaching any bridge, sharp curve, dugway or descent, or traversing such bridge, curve, dugway or descent, to fail to have such vehicle under control at all times. (Ord. 50-93 § 2, 1993)

17.08.050: ANIMALS:

Animals in City Creek Canyon are subject to the provisions of section 17.04.160, or its successor, of this title. (Ord. 50-93 § 2, 1993)

17.08.060: BREAKING GLASS PROHIBITED:

No person shall break bottles or glass anywhere within City Creek Canyon. (Ord. 50-93 § 2, 1993)

17.08.070: CAMPING PROHIBITED:

It is unlawful for any person to camp on any land within City Creek Canyon. (Ord. 50-93 § 2, 1993)

17.08.080: FIRES PROHIBITED; EXCEPTION:

No person shall build any fire except in a clearly designated fireplace or in an area set aside by the city for fires. (Ord. 50-93 § 2, 1993)

17.08.090: FIREARM DISCHARGE RESTRICTIONS:

No person shall discharge any firearm, within the City Creek watershed area, except in areas allowed for game hunting under section 11.48.060, or its successor, of this code. (Ord. 50-93 § 2, 1993)

17.08.100: VEGETATION, TREES AND SHRUBBERY; PERMIT REQUIRED FOR REMOVAL:

It is unlawful for any person to dig up, cut down, injure, carry off, or remove in any manner, vegetation, wood or underwood, tree or timber, or branches of trees or shrubbery within or from City Creek Canyon except by permit from the director. (Ord. 50-93 § 2, 1993)

17.08.110: NUISANCES PROHIBITED:

No person shall commit or permit any nuisance to exist in the canyon. (Ord. 50-93 § 2, 1993)

CHAPTER 17.12
METROPOLITAN WATER DISTRICT

17.12.010: CREATION AND INCORPORATION OF DISTRICT:

It is ordained that the public convenience and necessity require the incorporation of a metropolitan water district for the purpose of providing an adequate water supply for the inhabitants of the territory within the corporate boundaries of Salt Lake City. Said metropolitan water district is hereby incorporated under the laws of the state of Utah, and particularly under the metropolitan water district act. The cities to be included within the district are Salt Lake City and Sandy City, and the name of the district shall be "metropolitan water district of Salt Lake and Sandy". (Ord. 23-01 § 1, 2001)

17.12.020: BOARD OF TRUSTEES; NUMBER OF MEMBERS:

The board of trustees of the metropolitan water district shall consist of seven (7) members, with five (5) trustees appointed by Salt Lake City and two (2) trustees appointed by Sandy City pursuant to existing agreements between the two (2) cities and the metropolitan water district. (Ord. 23-01 § 1, 2001)

17.12.030: BOARD OF TRUSTEES; APPOINTMENT:

The five (5) Salt Lake City members of the board of trustees of the metropolitan water district shall be appointed in a manner consistent with state law. (Ord. 23-01 § 1, 2001)

17.12.040: BOARD OF TRUSTEES; QUALIFICATIONS:

The Salt Lake City appointed members of the board of trustees of the metropolitan water district shall be registered voters, property taxpayers and residents of Salt Lake City. No person shall be eligible for Salt Lake City appointment to the board of trustees who is an officer or employee of the city. A Salt Lake City appointed trustee shall forfeit his or her position as trustee if at any time after appointment such trustee becomes an officer or employee of the city. The appointment of trustees shall be made without regard to partisan political affiliations and shall be made from citizens of the highest integrity, attainment, competence and standing in the community of Salt Lake City. (Ord. 23-01 § 1, 2001)

17.12.050: BOARD OF TRUSTEES; TERM OF OFFICE:

The term of office for each Salt Lake City appointed trustee shall be four (4) years. (Ord. 23-01 § 1, 2001)

CHAPTER 17.16
CULINARY WATER SYSTEM

Article I. Service Conditions

17.16.010: FURNISHING OF WATER; APPLICATION REQUIRED:

A. No culinary water shall be furnished to any house, tenement, apartment, building, place, premises or lot, whether such water is for the use of the owner or tenant, unless the application for water shall be made in writing, signed by such owner or the owner's duly authorized agents, in which application the owner shall agree to pay for all water furnished thereto according to city ordinances, rules and regulations.

B. In case an application to furnish water shall be made by a tenant of the owner, as a condition of granting the same, such owner or the owner's duly authorized agent must either cosign the application or sign a separate agreement which provides that, in consideration of the granting of such application, the owner will pay for all water furnished such tenant, or any other occupant of the place named in the application, in case such tenant or occupant shall fail to pay the same in accordance with the city's ordinances, rules and regulations. (Prior code § 49-6-1)

17.16.020: APPLICATION; CONTENTS:

The applicant shall state fully and truly the purpose for which water is required, and shall agree to conform to and be governed by such ordinances, rules and regulations as may be prescribed by the city for the control of the water supply. The applicant(s) agrees to be responsible for and pay all bills due the city on account of materials or labor furnished, as provided in this chapter, as well as for all water delivered to the premises. (Prior code § 49-6-2)

17.16.030: PREVIOUS CHARGES MUST BE PAID:

Before water will be turned on to any premises, all charges against the premises that are due and payable to the city for water, or any service, material or supplies pertaining thereto furnished thereon, must have been paid. (Prior code § 49-6-3)

17.16.040: WATER CONNECTION FEES AND CERTAIN CONNECTION REQUIREMENTS:

A. A connection fee shown on the Salt Lake City consolidated fee schedule will be imposed for each permanent connection to the city's culinary water system for metered water service and automatic fire line, detector check and fire system connections.

B. When a residential building is demolished and the existing service is reused for a replacement structure within five (5) years after demolition, no new connection fees will be charged. If the meter size is increased, a credit shall be given in the amount of the previously paid connection fee. After five (5) years from date of demolition, the property owner will be required to pay a new meter connection fee.

C. When a commercial building, such as a hotel, motel, industrial building, etc., is demolished the water connection fee shall be based and charged on the new additional use pursuant to subsection A of this section. After five (5) years from the date of demolition, the property owner will be required to pay a new water connection fee.

D. All connection fees shall be paid prior to city issuance of a building permit, except connection fees for water main extensions covered in section 17.16.300 of this chapter, which shall be paid pursuant to such section.

E. In all cases, the pipe and type of materials to be furnished and installed in the public right of way, or per written agreement, are to be maintained by the city, shall be approved by the public utilities director and shall be under the director's exclusive control. All excavation and other permits necessary shall be obtained at the expense of the applicant. Pipe and material outside the public way and pipe and materials installed as private pipelines or services shall be maintained by the property owners.

F. All water main extensions shall be made at the expense of the person, persons or corporation petitioning for the extension, and shall be made without special taxes being levied to pay for the same. All water mains shall be extended, at minimum, to the far end of the lot being serviced. All roads shall be subgraded prior to installation of the public utilities facilities.

G. Additional charges will be imposed for the cost, installation, and inspection of meters. Said fees will be fixed and charged as determined by the director of the department of public utilities on a cost basis. (Ord. 24-11, 2011)

17.16.050: UNSCHEDULED CHARGES SET BY DIRECTOR:

All other charges for other size connections, and all work done by the public utilities department, including cutting and replacing pavement where necessary, shall be fixed and charged as determined by the public utilities director. (Ord. 24-11, 2011)

17.16.060: PIPE REPLACEMENT CHARGES:

Where an old service pipe is replaced by a new service pipe of a different size, the charge shall be the same as for the installation of a new service meter. (Prior code § 49-6-10)

17.16.070: FRANCHISE FEES FOR USE OF CITY STREETS:

A. Purpose: The public utilities department is operated as an enterprise fund, and the city receives no revenue from the department's use of city streets. The city's objective in enacting the ordinance codified herein is to fairly and equally charge for the department's use of the city's streets the same cumulative charges the city has imposed against utility companies for their use of city streets under other city ordinances.

B. Amount: In addition to the other charges provided for in this chapter, the department shall pay, to the city, a franchise fee equal to six percent (6%) of the gross revenues received by the department from the operation of the public utility. The department is authorized to add to each billing for water, sewer, and stormwater sewer services rendered within city limits, a fee equal to the fee imposed by this subsection. Funds collected under this section shall be distributed to the city's general fund within forty five (45) days after the close of each month in any calendar year, together with a report of such revenue showing the general service and the actual amounts collected. (Ord. 49-10, 2010)

Article II. Water Shortages

17.16.080: WATER USE MAY BE LIMITED BY PROCLAMATION:

In the event of the scarcity of water, whenever it shall be necessary, in the judgment of the mayor, the mayor shall, by proclamation, limit the use of water for other than domestic purposes, to such extent as may be required for the public good. (Prior code § 49-6-46)

17.16.090: VIOLATION OF PROCLAMATION PROHIBITED; PENALTY:

It is unlawful for any person, by himself or herself, family, servants or agents, to violate any proclamation made by the mayor in pursuance of section 17.16.080 of this chapter, or its successor chapter, and if any violation thereof shall occur, then in addition to any other penalty therefor the water supply to the premises upon which such violation occurs shall be shut off, and if shut off on that account, it shall not be turned on again until the payment of such amount for each violation of the proclamation as the mayor shall determine. (Prior code § 49-6-47)

17.16.092: WATER SHORTAGE MANAGEMENT:

A. Declaration Of Policy: Given the prevailing semiarid climate of the region, the limited water resources available to Salt Lake City, and the vitally important role an adequate supply of municipal and industrial (M&I) water plays in maintaining a healthy and safe environment in the community, it is hereby declared to be the policy of Salt Lake City that, during times of water shortage caused by drought, facilities failure or any other condition or event, M&I water usage within the city's water service area shall be managed, regulated, prioritized and restricted in such a manner as to prevent the wasteful or unreasonable use of water, and to preserve at all times an adequate supply of M&I water for essential uses.

B. Water Shortage Contingency Plan: The director of the department of public utilities shall cause to be prepared and implemented a water shortage contingency plan (the "plan"). Such plan may be included as part of, or prepared separately from, the water conservation master plan provided for in section 73-10-32, Utah Code Annotated, and shall be revised from time to time as conditions and circumstances warrant. The plan shall, among other things: 1) establish graduated stages of water shortage severity, and 2) establish appropriate M&I water use restriction response measures for each stage. The plan shall include guidelines and criteria for determining the appropriate stage to be implemented under various water supply, delivery, and demand conditions. Each plan stage of water shortage, and the accompanying use restrictions, shall be implemented by declaration of the mayor, upon the advice and recommendation of the director pursuant to the plan guidelines.

C. Compliance: Compliance with the water use restriction response measures called for under any applicable plan stage may be either recommended or mandatory, as specified in the plan. The plan may not provide for mandatory restrictions on residential or commercial customers until either: 1) the projected water supply from all sources is sixty percent (60%) or less of the average annual water supply, or 2) the director otherwise determines that, in the exercise of his or her best professional judgment, the city is unable to meet anticipated essential water needs without implementing such mandatory measures.

D. Enforcement: The director shall enforce compliance with all mandatory response measures set forth in the plan through the imposition and collection of civil fines, as provided in section 17.16.792 of this chapter. Nothing herein or in section 17.16.792 of this chapter shall prevent the city from exercising any other available means, either in law or equity, of enforcing compliance with the plan.

E. Plan Nonexclusive: The creation and implementation of the plan shall be in addition to, and not exclusive of, any other steps taken by the city from time to time to conserve water or manage limited water supplies, including mayoral proclamations issued pursuant to section 17.16.080 of this chapter. (Ord. 50-03 § 1, 2003)

Article III. Plumbers

17.16.100: CONNECTIONS FROM MAINS; SPECIFICATIONS:

The service pipes and connections from the main to the water meter, including the meter box, a meter yoke and valve are to be placed within the parking strip by a licensed, bonded plumber, to city standards, and subject to city inspection and approval. The city shall install and applicant will pay the city's costs of such installation when so determined by the director of public utilities. The plumber shall warrant the work and facilities installed by him/her against defects in workmanship or materials for a period of one year from date of acceptance thereof by the city. (Prior code § 49-6-4)

17.16.110: REQUIREMENTS FOR PLUMBERS:

The requirements set forth in sections 17.16.120 through 17.16.140, 17.16.180, 17.16.240, 17.16.420 and 17.16.450 of this chapter, and successor sections, shall apply to all persons performing any plumbing work in or upon any of the mains, connections or appliances appertaining to the city waterworks, and any violation of such sections or failure to comply therewith shall be deemed a violation of this section. (Prior code § 49-6-32)

17.16.120: LICENSE, REGISTRATION AND BOND REQUIRED:

Within the city's service area, no person shall make any connections to, or in any manner perform any work upon any of the mains, connections or appliances pertaining to the city waterworks until such person shall have secured a license, been registered, and filed, where applicable, a performance bond guaranteeing the installation of the water facilities within the city's service area as required by ordinance and statute. (Ord. 8-90 § 2, 1990: prior code § 49-6-33)

17.16.130: PERMIT; REQUIRED FOR WORK ON WATER PIPES:

No alteration, addition or disconnection in or about any water pipes, or apparatus connected with the city's waterworks shall be made by any plumber or any consumer of water without a written permit to do such work granted by the public utilities director. (Prior code § 49-6-34)

17.16.140: CONFORMITY WITH CITY REGULATIONS:

Plumbers will be required in all cases to comply with and conform to city's rules governing consumers in the location and placing of meters, boxes, valves and other facilities. (Prior code § 49-6-35)

Article IV. Water Supply And Service Pipes

17.16.150: ANALYSIS OF CITY WATER REQUIRED:

It shall be the duty of the health director to make or cause to be made sufficient bacteriological analysis, to meet the standard methods of the American Public Health Association, of the water furnished by the city through its water system, and report the same to the public utilities director. (Prior code § 49-6-71)

17.16.160: SERVICE PIPES; PERMIT REQUIRED FOR CONNECTION:

No connection of service pipes shall be made without first obtaining a permit therefor from the public utilities department, and no other extensions shall be made to another water user from such service pipe, either within the city or county area where water service is extended by agreement. (Prior code § 49-6-12)

17.16.170: SERVICE PIPES; MATERIALS AND INSTALLATION:

All service and other pipes used underground shall be of a type and size approved by the director of the department of public utilities, laid not less than four feet (4') below the surface of the ground, and of sufficient strength to stand the water pressure. All work upon alterations or extensions of water pipes, shall be subject to acceptance of the director. (Prior code § 49-6-11)

17.16.180: SERVICE PIPES; MINIMUM SIZE:

The minimum size for service pipe shall be three-fourths inch ($^{3}/_{4}$"). (Prior code § 49-6-39)

17.16.190: SERVICE TO INDIVIDUAL BUILDINGS:

No consumer shall be permitted to conduct water pipes across lots or buildings to adjoining premises, and each house abutting on a city water main must be supplied through its own separate service pipe running at right angles to the main. (Prior code § 49-6-13)

17.16.200: SERVICE TO MULTIPLE BUILDINGS; CONDITIONS:

Two (2) or more buildings on the same lot or on contiguous lots may, by written permission of the public utilities director, be supplied through a water meter, where such premises are owned by the same person and such person becomes responsible for the payment of all bills due the city. Upon a separation in ownership, the person who has been responsible for the payment of all bills due the city shall continue to be responsible for all water service to the buildings of such premises until such time as new applications have been signed by the new owners and separate meters have been installed at the expense of such owner or owners. (Prior code § 49-6-15)

17.16.210: SEPARATE TRENCHES FOR WATER AND SEWER PIPES:

No water pipe shall be roughed out closer than three feet (3') from the sewer pipe at the foundation of any building, and shall not be laid in the same trench with the sewer line or be so constructed as to cross the sewer line, and no water pipes shall be laid in the same trench as sewer, gas or any other pipe, but a separate trench must be provided for such water pipe at least three feet (3') horizontally from all other pipelines. (Prior code § 49-6-16)

17.16.220: RESPONSIBILITY FOR COSTS OF SERVICE:

A. Before water will be supplied through such service pipe, some person(s) must agree in writing to be responsible for and pay for all water delivered through the service meter.

B. Where water is now supplied through one service to one or more houses or persons, the public utilities director may, in his/her discretion, either refuse to furnish water until separate services are provided, or may continue the supply, on condition that one person shall be responsible for and pay for all water delivered through the service meter. (Prior code § 49-6-18)

17.16.230: SERVICE PIPES; VALVE ARRANGEMENT:

Valves required for service pipes must be so arranged that the supply to each separate house or premises may be controlled by a separate meter valve. (Prior code § 49-6-17)

17.16.240: VALVES; LOCATION; ACCESSIBLE POSITION:

When a water pipe enters a building, plumbers must supply such pipe with a valve with a handle or wrench fixed thereto for the purpose of turning the same. Such valve shall be placed on the pipe in an accessible position. All such pipes shall enter buildings at the excavated portions thereof. All valves, meters and connections for meters shall be located in accessible places. (Prior code § 49-6-38)

17.16.250: VALVES; REPOSITIONING AFTER REPAIRS:

In all cases when plumbers shall make repairs to pipes or fixtures on any premises, they shall leave the water turned on or turned off as they found it when they entered the premises to make such repairs. (Prior code § 49-6-37)

17.16.260: VALVES; UNAUTHORIZED OPERATION PROHIBITED:

It is unlawful for any person other than duly authorized employees of the department of public utilities to open or close any water valve in the water system of the city. (Prior code § 49-6-29)

17.16.270: WATER SHUTOFF AUTHORIZED WHEN:

Salt Lake City reserves the right at any time, without notice, to shut off the water from its mains for the purpose of making repairs or extensions, or for other purposes, and no claim shall be made against the city, by reason of any breakage whatsoever, or for any damage that may result from shutting off the water for repairing, laying or relaying mains, hydrants or other connections, or for any other reason whatsoever. (Prior code § 49-6-30)

17.16.280: GOOD REPAIR OF PRIVATE SERVICE REQUIRED:

All water takers shall keep their service pipes, connections and other apparatus in good repair and protected from frost at their own expense. (Prior code § 49-6-31)

Article V. Water Main Extensions

17.16.290: PERMIT AND EXPENSE RESPONSIBILITY:

Where the city water mains do not extend to the premises to be served, a permit may be issued by the public utilities director when, in the director's opinion, it is impractical to extend a standard water main, provided applicant, at his/her own expense, extends a service pipe to the point where the city main is to be tapped. (Prior code § 49-6-14)

17.16.300: INSTALLATION PROCEDURES AND EXPENSES:

All water main extensions shall be made at the expense of the person, persons or corporation petitioning for the extension, and shall be made without special taxes being levied to pay for the same. All water mains shall be extended, at minimum, to the far end of the lot being serviced. All roads shall be subgraded prior to installation of the public utilities facilities. All service connection fees shall be paid for each lot to be served thereby prior to installation of the water main extension. A bonded plumbing contractor shall set all meter boxes, yokes and meters in the parking area of the street at the center of each lot or such other location as is approved by the city, install all service laterals from the main to the meter and tap the main. All water mains and water facilities installed shall be subject to the acceptance of the department of public utilities. (Ord. 57-99 §§ 1, 3, 1999[1]: Ord. 8-90 § 1, 1990: prior code § 49-6-72)

17.16.310: ADVANCING EXPENSE OF EXTENSIONS:

Any person desiring to have the water mains within the city extended, and being willing to advance the whole expense of such extension and also, in designated areas, being willing to advance the additional expenses necessary for aid to construction of supply lines, pumping plants, reservoirs and related facilities, may make application to the city by petition containing a description of such proposed extension, accompanied by a map showing the location thereof, which petition shall also contain an offer to advance the whole expense of making the same as the expense shall be certified to by the public utilities director, and to enter into a contract for payment of such expense. (Prior code § 49-6-73)

17.16.320: STATEMENT OF COSTS FOR EXTENSIONS:

Upon the receipt of such petition and map, and before the petition is granted, the city shall submit to the petitioner and the mayor a certified statement showing the whole cost and expense of making such extension. (Prior code § 49-6-74)

17.16.330: DEPOSIT OF EXTENSION EXPENSES WITH CITY:

If the city grants the petition, before any work shall be done on such extension, and within thirty (30) days or such other time as the city shall indicate after the granting thereof, the cost and expense of making such extension, as certified by the public utilities director, shall be deposited with the city treasurer. (Prior code § 49-6-75)

17.16.335: REFUND OF EXPENSES:

The certified cost of the petitioner's installation of such new extension or money deposited pursuant to sections 17.16.310, 17.16.320 and 17.16.330 of this chapter, or successor sections, may be partially or completely refunded, without interest thereon, only under the following conditions:

A. For a period of fifteen (15) years from the date on which such an extension is completed and approved in writing by the city, the city will add a charge to be refunded to the petitioner, as set forth below, for each connection made to such extension pursuant to a written request for a service lateral connection thereto from a property owner.

B. Such charge shall be a front footage charge prorated against the property to be served, based upon the said cost of installation of said extension prorated over the total front footage of the petitioner's property fronting on such extension.

C. In no event shall reimbursement for any extension hereunder exceed the amount of the deposit required therefor under section 17.16.330 of this chapter or its successor, or the cost of extension under section 17.16.320 of this chapter or its successor, less the prorated front footage charge against the petitioner's property to be served.

D. Title to all facilities installed in connection with such extension, except service lines, shall vest in the city, and any easements and rights of way, if any, deemed necessary for such extension by the director of the department of public utilities shall be conveyed without cost to the city prior to the commencement of any construction. (Ord. 83-90 § 2, 1990: Ord. 56-87 § 1, 1987: prior code § 49-6-76)

17.16.337: RETURN OF CITY'S EXPENSES:

A. During a period of fifteen (15) years from the date on which an extension is completed where the city has advanced all or part of the funds for such extension and has decided to obtain a refund of expense therefor for connections thereto, the city shall make a proportional charge based upon the following formula for any connection to such extension pursuant to a written request for a service lateral connection thereto from a property owner.

B. Such charge shall be a front footage charge prorated against the property to be served, based upon the said cost of installation of the extension prorated over the total front footage of the petitioner's property fronting on the extension. (Ord. 83-90 § 3, 1990: Ord. 56-87 § 1, 1987: prior code § 49-6-76.1)

17.16.340: REQUEST FOR IMPROVEMENT DISTRICT FOR CERTAIN EXTENSIONS:

A. Any person desiring to have water mains of the city extended without advancing the cost and expense thereof, as hereinbefore provided, may make application for the establishment of an improvement district therefor by petition to the city showing the location and extent of such proposed extension. If the city chooses to do so, the city shall attempt to establish an improvement district pursuant to state law.

B. The city may establish an improvement district on its own initiative pursuant to state law. (Prior code § 49-6-77)

17.16.345: LOT HYDRANT; FEE:

When a culinary water service meter is not used for construction purposes, then during any lot or subdivision construction in the city's service area, the contractor shall install for each lot a hose bib (standpipe with automatic drain) meeting the requirements of the city's director of public utilities. A flat fee, as shown on the Salt Lake City consolidated fee schedule, for water used during construction per residential lot shall be charged to and paid by the contractor. Commercial properties shall pay metered rates. (Ord. 24-11, 2011)

Article VI. Meters

17.16.350: WATER USED IN BUILDING CONSTRUCTION TO BE METERED:

Where a building is to be erected, application shall be made for service pipe in the regular manner, and all water consumed in the construction of such building shall be paid for at regular meter rates. (Prior code § 49-6-60)

17.16.360: WATER USE CONDITIONS:

It is unlawful for any person, other than a city or county firefighter in the course of employment, to use water from the city mains except with a written water sales permit from the department of public utilities or through a meter, as provided in this chapter. (Prior code § 49-6-61)

17.16.370: METER FURNISHED BY CITY:

A meter of a type approved by the director of the department of public utilities will be furnished and, except as provided in section 17.16.040 of this chapter, or its successor, maintained by the city upon payment of all installation, connection and other charges by the applicant as provided in this chapter. (Prior code § 49-6-5)

17.16.380: METER DEPOSITS REQUIRED WHEN:

Water takers who are not the owners of the premises, or who do not have a long term lease of five (5) years or longer on which metered water service is being supplied, shall pay to the department of public utilities, for deposit with the city treasurer, an amount sufficient to cover the cost of water rates which may accumulate. The amount deposited shall be not less than twice any monthly or bimonthly bill for water consumed over the preceding year on such premises, but in no case shall it be less than fifty dollars ($50.00). (Prior code § 49-6-64)

17.16.390: COVER FOR PROTECTION FROM TRAFFIC LOADS:

A. Wherever water services have been installed or are to be installed on any premises, in such a location that the meter box is or may be subject to vehicular traffic, then it shall be the responsibility of the owner or occupant of the premises to install or have installed entirely at such owner's expense, a standard heavy concrete meter box with ductile iron ring and cover of sufficient strength to withstand the load of such vehicular traffic without breaking.

B. If the owner or occupant of any such premises fails to make such installation as above provided, the department of public utilities may, in addition to any and all other remedies afforded it by law, remove the meter, if one is already installed, and terminate all water services to such premises until the proper installation is made or provided; or the department may make such installation and bill the owner or occupant for the cost to the city of making such installation. (Prior code § 49-6-8)

17.16.400: METER MAINTENANCE CHARGES:

A. After the one year guarantee of the plumber or if the city makes the installation, the city shall maintain all water connections of three-fourths inch ($^{3}/_{4}$") and one inch (1") sizes within the city, or as otherwise determined by written contract, from the point of connection with the water main up to and including the meter, where the meter is set in the parking.

B. All maintenance and replacement, where necessary, on all service lines above one inch (1") in size, is to be kept at the entire expense of the consumer. (Prior code § 49-6-7)

17.16.410: TESTING OF METERS; COSTS:

Should any water taker using a water meter desire to have the meter on such person's premises tested, the charge shall be as shown on the Salt Lake City consolidated fee schedule, where the meter is found to be correct, or to register in favor of the consumer, but where found to be overregistering, the cost of such test shall be borne by the city. (Ord. 24-11, 2011)

17.16.420: OPENING METER BOXES; DAMAGES:

The opening of meter boxes by plumbers by any means other than a proper wrench is unlawful. Any plumber breaking a meter box cover or bolt will be required to pay for the repair of same in addition to the penalty prescribed. (Prior code § 49-6-40)

17.16.430: INTERFERING WITH METER PROHIBITED:

It is unlawful for any person by himself or herself, family, servants or agents, to open, interfere with, injure, deface or in any way impair the workings of any water meter. (Prior code § 49-6-68)

17.16.440: REMOVING METER PROHIBITED; EXCEPTION:

It is unlawful for any person other than a duly authorized employee of the public utilities department to remove any water meter from any premises. (Prior code § 49-6-69)

17.16.450: TURNOFF ALLOWED FOR CERTAIN REPAIRS:

In case of leaks or other accidents damaging service pipes, or other apparatus connected with the city waterworks, plumbers may shut off the water at the meter to make necessary repairs. (Prior code § 49-6-36)

Article VII. Subdivisions And Private Water Service

17.16.460: APPROVAL REQUIRED PRIOR TO EXTENSION OF WATER MAINS:

No water mains or pipes shall be laid nor shall permission be given to lay water mains or pipes to supply water from the waterworks system of the city to the occupants of any plat, addition or subdivision of any block, lot or tract of ground within the city, unless the plat, addition or subdivision shall have been approved by the city. (Prior code § 49-6-78)

17.16.470: PRIVATE WATER SERVICE; PERMIT REQUIREMENTS:

When permission is granted by the city to any person to put in a private water service, the whole cost of installing the same shall be paid by the persons obtaining such permission. All such water services shall be maintained and kept in good repair by the owners and users thereof, at their own cost and expense. In all cases an approved valve and other facilities and control equipment shall be installed at a location approved by the department of public utilities for each separate premises. (Prior code § 49-6-79)

17.16.480: CONNECTION TO PRIVATE PIPELINE WITHOUT PERMIT:

Should anyone connect to a private pipeline which is connected to a city main without a permit from the city department of public utilities, water may be shut off at the main until a permit is taken out and all costs and charges, including the expense of shutting off and turning on is paid. (Prior code § 49-6-80)

17.16.490: PRIVATE LINES; MASTER METERING PERMITTED WHEN:

When a private water main supplying more than one house is connected to the city water mains, the public utilities director may require a master meter to be installed near the point where the connection is to be made to the city main. This installation will be at the expense of the owners of the private line according to the regular rates for meter installation. Responsible parties must agree to pay all bills for water served through such meter at regular meter rates. (Prior code § 49-6-81)

17.16.500: PRIVATE LINES; MINIMUM CHARGE FOR SERVICE CONNECTION:

The standard minimum charge for each service connection taking off from said private line will be made. (Prior code § 49-6-82)

17.16.510: CONNECTION TO CITY MAIN REQUIRED WHEN:

Whenever a city water main shall have been laid in front of premises already connected to a private pipe, the owner or occupant shall, upon notice from the public utilities director, make application for reconnecting the premises to the city water main and pay for reconnection costs as determined by the public utilities director. The city will tap the main and extend a service pipe, reconnecting the premises at the meter and the owner must extend such owner's pipe to the meter in front of said premises at his or her own cost. The owner also shall furnish city approved pipe sufficient for city to make the connection. (Prior code § 49-6-83)

Article VIII. Fire Protection And Fire Hydrants

17.16.520: UNMETERED FIRE PROTECTION PIPES PERMITTED WHEN:

Pipes to be used only in case of fire will be allowed within buildings on the following conditions:

A. Applicant must petition the city in writing for permission to install any unmetered or metered fire protection pipe system, and all installation and connection costs and charges in connection therewith shall be paid by the applicant.

B. Except for the water source connection, such fire pipes must be entirely unconnected with any other system and must not serve any other function.

C. Fire hose connections must contain adequate seals or other measures acceptable to the director of public utilities, so that they can only be used for fighting fires.

D. All nonmetered fire system connections to the city water system shall be subject to a charge as determined by the public utilities director. (Prior code § 49-6-41)

17.16.530: FIRE PROTECTION PIPES; METER REQUIRED WHEN:

Should water be used through unmetered fire pipes or fire pipes with detector meters or fire pipes having only outside fire hydrants attached for other than fire purposes, the public utilities director may require the disconnection of the fire system until adequate payment is made for use of the water, and the director may require that an approved meter be installed upon the fire system at the owner's expense, and no water shall be delivered to such fire system until such meter is paid for and installed and the estimated unmetered water used is paid for. The type of meter installation shall be determined by the public utilities director. (Ord. 83-90 § 4, 1990: prior code § 49-6-42)

17.16.540: FIRE HYDRANTS; CONTROL AND REPAIR AUTHORITY:

Except as modified by chapter 17.20, articles I and II of this title, all fire hydrants within the limits of the city shall be under the control of and shall be kept in repair by the public utilities director. (Prior code § 49-6-19)

17.16.550: FIRE HYDRANTS; ACCESS FOR FIRE DEPARTMENT AND STREET USE:

The fire department shall at all times have free access to all fire hydrants. Water may also be furnished from the fire hydrants under the supervision of the public utilities director to street sprinkling and flushing trucks operated by the city. (Prior code § 49-6-20)

17.16.560: FIRE HYDRANTS; USE BY CONTRACTORS; FEES:

The public utilities director may give permission, for which a fee shall be set and charged by the director, for the use of water from fire hydrants by applicants who are engaged in work on public streets. (Prior code § 49-6-21)

17.16.570: USE OF WATER FROM HYDRANTS; APPLICATION:

Applications for the use of water from fire hydrants must be made in writing upon forms furnished by the public utilities department, stating the purpose for which the water is to be used, approximate length of time the applicant desires to use the water, and must be signed by the applicant or the applicant's authorized agent, agreeing to the conditions for such use, rate and payment as set and determined by the director. (Prior code § 49-6-22)

17.16.580: HYDRANT EQUIPMENT FURNISHED; DEPOSIT:

A meter, cutoff valve, outlet connection to said valve and a hydrant wrench shall be furnished by the public utilities department, which equipment must be returned to the public utilities department as soon as the use of the water from the fire hydrant is completed. A minimum deposit will be required from the applicant for the guarantee of the return of the meter and equipment in good condition. The applicant shall reimburse the city for its replacement cost for any item(s) not returned. (Prior code § 49-6-23)

17.16.590: FIRE HYDRANTS; CHARGES FOR WATER:

A minimum charge will be made for the use of said water commencing at the time equipment for fire hydrants is delivered to the applicant and until said equipment is again delivered to the waterworks storehouse and a receipt for the same given by the department. A deposit may be required to guarantee the payment of any charge made for the use of water. All water used through a meter shall be paid for at the same rates as are provided on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

17.16.600: FIRE HYDRANTS; PROPER USE REQUIRED:

The applicant must close the hydrant and disconnect the cutoff valve from the hydrants when not using the water, thereby leaving the hydrants free and clear for use by the fire department. (Prior code § 49-6-25)

17.16.610: FIRE HYDRANTS; APPLICANT RESPONSIBLE FOR DAMAGE:

Any damage to the fire hydrant or equipment of the public utilities department after release to the applicant and prior to return must be paid for by the applicant, and the permit of said applicant may be revoked at once by the public utilities department upon applicant's failure to strictly comply with the rules and regulations of the public utilities department and the ordinances of the city governing the use of water from fire hydrants. (Prior code § 49-6-26)

17.16.620: FIRE HYDRANTS; UNAUTHORIZED USE PROHIBITED:

It is unlawful for any person, other than those duly authorized, to open or operate any fire hydrant or to tamper or interfere with or attempt to draw water therefrom, or in any way to obstruct the approach thereto. (Prior code § 49-6-27)

17.16.630: UNAUTHORIZED POSSESSION OF HYDRANT EQUIPMENT:

It is unlawful for any person(s), without proper authority, to have in their possession any wrench for a fire hydrant or water valve. (Prior code § 49-6-28)

Article IX. Rates And Payments

17.16.640: CHANGES TO REGULATIONS AND RATES:

Nothing herein contained shall prohibit the city from amending, altering or adding to the provisions of this chapter in relation to the water supply, or the rules or regulations which may be adopted in conformity therewith, provided that no alteration in water rates shall apply to any permission given or contract made for the use of water until after the expiration of such permission or contract, unless allowed thereby. (Prior code § 49-6-70)

17.16.650: SPECIAL OR TEMPORARY RATES:

Water for special or temporary uses other than named in the schedule of water rates set forth in succeeding sections may be furnished at rates to be fixed by the director of the department of public utilities. (Prior code § 49-6-50)

17.16.660: PAYMENTS REQUIRED BEFORE SERVICE TURNED ON:

Before the water is turned on, all unpaid bills for water must be paid in full, together with a turnon fee of twenty one dollars ($21.00). (Prior code § 49-6-55)

17.16.670: MINIMUM CHARGES:

Each customer shall pay the following minimum fixed charge shown on the Salt Lake City consolidated fee schedule, effective for all meter readings during the periods from and including July 1, 2011, and thereafter until further amended, to cover meter reading, billing, customer service and collection costs. (Ord. 41-11, 2011)

17.16.680: METER RATES:

Each customer shall pay for each hundred cubic feet of water supplied through such customer's meter, effective for all meter readings during the periods from and including July 1, 2011, and thereafter until further amended, at the rates shown on the Salt Lake City consolidated fee schedule. (Ord. 41-11, 2011)

17.16.690: AVERAGE RATE CHARGED WHEN METER FAILS:

When for any reason the water meter shall fail to register, or the meter cannot be read, a bill shall be rendered at the average rate of consumption for like periods of time. (Prior code § 49-6-57)

17.16.700: BILLING PERIOD:

Bills for water used through meters shall be rendered monthly or bimonthly; the public utilities director shall determine from time to time when monthly or bimonthly meter readings shall be made and bills rendered. (Prior code § 49-6-53)

17.16.710: DUTY TO PAY UNAFFECTED BY DEPOSIT:

All bills for water rates must be paid promptly without reference to the deposit. (Prior code § 49-6-66)

17.16.720: DEPOSIT; APPLICATION TO UNPAID BILLS WHEN:

Whenever any consumer of water shall have failed to pay for water supplied or services rendered to such premises, the money deposited, or any part thereof, may be applied to the payment of such delinquent bills by the public utilities director. (Prior code § 49-6-67)

17.16.730: DEPOSIT; CERTIFICATE; REFUNDS:

The public utilities department shall issue a certificate of deposit. The amount deposited shall be refunded by the city treasurer to the holder upon the surrender of the certificate properly endorsed, provided all water bills and other charges are paid. (Prior code § 49-6-65)

17.16.740: ABATEMENT FOR NONUSE OF WATER; CONDITIONS:

Any water user to avail himself or herself of an abatement for nonuse of water on a meter shall report to the public utilities director, and have water turned off at such user's premises, and the meter may be removed at the option of the public utilities director. Before water service will again be supplied, written notification must be made to the public utilities director. Abatements will not be allowed for less than thirty (30) days. (Prior code § 49-6-59)

17.16.750: USING WATER WITHOUT PAYMENT PROHIBITED:

It is unlawful for any person, by himself, herself, family, servants or agents to use the water coming through the water mains without first agreeing to and paying for all water delivered, as provided in this chapter. (Prior code § 49-6-43)

17.16.760: NONPAYMENT; REQUIRED TURNOFF CONDITIONS:

If any bills rendered as aforesaid are not paid by the owner or other applicant within fifteen (15) days after their rendition, the public utilities director shall cause water being served to the owner or other applicant to be turned off. The uncollected amount may be transferred to any active account under the owner's or applicant's name, and upon failure to pay said bill after at least five (5) days' prior written notice, water being served to that account shall be turned off. (Prior code § 49-6-54)

17.16.770: INSPECTION; ACCESS TO PREMISES BY CITY OFFICERS:

Free access shall at all ordinary hours be allowed to the public utilities director, or other authorized persons, to all places supplied with water from the city waterworks system, to examine, maintain and operate any part of the water system, determine the amount of water used, the manner of its use, and make all necessary shutoffs for vacancy, delinquency and violations of this division. (Prior code § 49-6-49)

17.16.780: WATER TURNOFF AUTHORITY; RESTORATION OF SERVICE:

It shall be the duty of the public utilities director to cause water supply to be shut off on the premises of any water taker who shall fail to make application and pay the charges therefor for the installation of water meter within fifteen (15) days after notice in writing from the public utilities director so to do, and the water shall not be turned on for use on such premises until a meter has been installed and all charges and rates paid in full, together with the required charge for turning on the water. (Prior code § 49-6-63)

17.16.790: DELINQUENT PAYMENT; PENALTY:

In case of vacancy, where service is discontinued or meter taken out, unless delinquent bills are paid within thirty (30) days after the service has been discontinued a penalty of ten percent (10%) shall be charged in addition to the regular bill. (Prior code § 49-6-56)

17.16.792: WATER SHORTAGE CONTINGENCY PLAN; CIVIL FINES:

A. Any customer of the city's municipal and industrial water system found to be in violation of any mandatory water use restriction in effect from time to time under the water shortage contingency plan established under section 17.16.092 of this chapter, shall be subject to the following maximum civil fines:

First violation	$ 100 .00
Second violation	250 .00
Third violation	500 .00
Fourth violation and thereafter	1,000 .00

The violation level shall be based on violation history for the preceding twelve (12) months. A civil fine for a customer's first violation shall be imposed only after the issuance of a written warning to such customer. Any civil fine based on a violation susceptible to corrective action shall be imposed only after failure by the customer to take such corrective action within a reasonable period of time, as determined by the director, taking into account the nature of the action needed and the anticipated cost. "Customer", for purposes of this section and section 17.16.092 of this chapter, shall mean and include any person responsible, whether by ordinance or by contract between the city and such person, to pay the water charges on any account for use of water from the city's municipal and industrial water treatment and distribution system, whether the location at which such water is used is situated within or outside of the corporate limits of the city. It is the intent of the city that compliance with the provisions of section 17.16.092 of this chapter, as enforced pursuant to this section, by customers situated outside of the corporate limits of the city, shall be a contractual condition of continued water service.

B. Any customer subject to a civil fine under this section shall be notified by the director, in writing, of the date, nature, and circumstances of the violation, which notification shall be delivered by posting such notice at a conspicuous location on the property, and by mailing notice, by certified mail, no more than fifteen (15) calendar days after the date of occurrence of the violation. The notice shall advise the customer of his/her right to protest the fine to a hearing officer, which shall be the director or his or her designee, within ten (10) business days after receipt of the notice. The hearing officer shall have the authority to adjust the fine to take into account any extenuating circumstances. Any determination by the hearing officer may be appealed to a three (3) member water shortage appeals panel. The city council shall designate three (3) members of the public utilities advisory committee to serve on the panel; provided, however, that the director may designate other members of the PUAC to serve as alternates as needed. All decisions of the water shortage appeals panel shall be final.

C. All fines collected pursuant to this section shall be set aside in a segregated fund within the public utilities enterprise fund, and used exclusively for paying all or a portion of the costs and expenses incurred by the city in connection with the implementation and administration of the plan and other elements of the city's water conservation program. (Ord. 50-03 § 2, 2003)

Article X. Unlawful Activities

17.16.800: DIRECT PIPE CONNECTIONS TO STEAM BOILERS:

It is unlawful for any person to fill any steam boiler used for power purposes directly from the city water system. Such boilers must be provided either with a tank and be supplied therefrom, or with proper check valves approved by the city. (Prior code § 49-6-48)

17.16.810: TAMPERING WITH WATER SUPPLY PROHIBITED:

It is unlawful for any person, by himself, herself, family, servants or agents, without authority, to open any valve or other fixture attached to the city's system of water supply, or in any way to injure, deface or impair any part or appurtenance of the city waterworks, or to cast anything into any reservoir or tank belonging to city. (Prior code § 49-6-44)

17.16.820: UNAUTHORIZED USE OF WATER PROHIBITED:

It is unlawful for any person, after the water has been turned off from such person's premises on account of nonpayment of rates or other violation of the ordinances, rules and regulations pertaining to the water supply, or for any reason, to turn on or allow the water to be turned on, or use, or allow the water to be used without authority from the public utilities director. (Prior code § 49-6-45)

Footnote 1: Ordinance 57-99 shall become effective on January 1, 2000.

CHAPTER 17.20
FIRE HYDRANTS

Article I. Subdivisions And Developments

17.20.010: DEVELOPMENT DEFINED:

"Development" means a group or planned group or planned development, including apartment and/or group dwellings, mobile home parks, or any other private housing development where streets within such development are not dedicated to the city. (Prior code § 49-8-1)

17.20.020: FIRE HYDRANTS REQUIREMENTS FOR DEVELOPMENTS:

A. The owner, builder and/or developer(s) of any development located within the limits of Salt Lake City shall install within said development, at their sole expense, all fire hydrants required and at those locations designated by the chief of the city fire department.

B. Additionally, where the development is located on private property and the streets containing water mains and said hydrants are not conveyed or otherwise dedicated to Salt Lake City Corporation, the owner, builder and/or developer(s) shall be and remain solely liable for all claims arising therefrom and responsible for the complete maintenance and operation of all mains and fire hydrants within the development. Where such street containing water mains and hydrants is later conveyed or otherwise dedicated to and accepted by the city, the owner, builder and/or developer(s) shall, at their sole expense, maintain said mains and fire hydrants for a period of one year from the date of written acceptance thereof by the city.

C. No dwelling unit constructed after January 1, 1989, in either such development shall be located more than two hundred fifty feet (250') from a fire hydrant, measured along the curb in front of each said fire hydrant. The bottom of the sidewalk flange on each fire hydrant must be at least even with, but may be slightly higher than, the sidewalk, and all water outlets on such hydrants must, as nearly as possible, face the street. (Ord. 9-89 § 1, 1989: prior code § 49-8-2)

17.20.030: MAINS AND HYDRANTS; INSTALLATION BOND:

A performance bond in an amount adequate to cover the cost of construction must be posted before any installation of mains and fire hydrants can begin hereunder in order to assure compliance with the foregoing and that such hydrants and water mains shall be properly installed and maintained according to specifications of the public utilities department. Such bond will not be released until the requirements are met and all fire hydrants and water mains connected thereto are certified in writing to be in good operating condition by the public utilities director. (Prior code § 49-8-5)

17.20.040: HYDRANT SPECIFICATIONS:

All hydrants, whether public hydrants or private hydrants, installed in any such subdivision must comply with then current specifications for fire hydrants of the department of public utilities and must be located as required by the fire department. (Ord. 9-89 § 1, 1989: prior code § 49-8-3)

17.20.050: WATER MAIN REQUIREMENTS:

All new water main installations in any such subdivision shall be no smaller than eight inches (8") in diameter except where the footage of the main to be laid totals less than three hundred feet (300'). In that event, the diameter of such main may be a smaller dimension if so determined and specified by the public utilities director. (Prior code § 49-8-4)

Article II. Hydrants On Private Property

17.20.060: INSTALLATION AND PERMIT REQUIREMENTS:

A. No person, firm or corporation shall install fire hydrant or fire hydrant water supply piping on private property or cause the same to be done, without first obtaining a permit for each such structure from the city department of building and housing services in accordance with the provisions of this code.

B. Any installation of a fire hydrant or fire hydrant supply piping under this section shall be made at the expense of the owner of the property upon which such installation is made, and the hydrant shall be installed and perpetually maintained by such person, or his/her successor in interest, in compliance with the applicable fire hydrant specifications, regulations and agreements of the city department of public utilities.

C. Fire hydrants shall be installed as per international fire code section 87.103(c) prior to construction.

D. Whenever a building inspector determines that any work is being done contrary to the provisions of this section, the building inspector may order the work stopped by notice in writing served on any person engaged in the doing or causing such work to be done, and any such person shall stop such work until authorized by the building office to proceed with the work. (Ord. 9-89 § 1, 1989: prior code § 49-9-1)

17.20.070: FIRE HYDRANT SPECIFICATIONS:

All water outlets on fire hydrants installed under this article II must meet the specifications of the department of public utilities. (Prior code § 49-9-2)

17.20.080: WATER MAIN SIZE REQUIREMENTS:

No new water main installation used to service a fire hydrant system shall be smaller than six inches (6") in diameter. (Prior code § 49-9-3)

CHAPTER 17.24
IRRIGATION WATER

17.24.010: PUBLIC IRRIGATION WATERWAY DEFINED:

"Public irrigation waterway" means any ditch or canal through which the city distributes irrigation water as distributing agent, as provided by law. (Ord. 50-93 § 4, 1993: prior code § 49-2-1)

17.24.020: DITCHES; CAREFUL CONSTRUCTION; DAMAGE LIABILITY:

Where persons are obliged to convey water across lands lying between their premises and the public irrigation waterway, the conveyance shall be done with the least possible injury to property, both in constructing the necessary ditches and in managing the water flowing therein, and such person shall be liable for all damages caused by negligence in the construction of such ditches or in the management of water flowing therein. (Ord. 50-93 § 4, 1993: prior code § 49-2-3)

17.24.030: HEADGATE REQUIREMENTS; SIDEWALK CROSSINGS:

It is unlawful for any person to convey water from a public irrigation waterway to such person's lot or premises, by an irrigation ditch or waterway, without first having constructed, under the direction of the public utilities director, a substantial gate, both in the public irrigation waterway and at the head of such person's branch ditch; the latter such person shall keep closed and watertight, except during the period allotted to such person for the use of such water; and where the branch ditch crosses any portion of a sidewalk, such ditch shall be contained in pipe or other substantial material as approved by the director, the covering of which shall be on a level with such sidewalk. (Ord. 50-93 § 4, 1993: prior code § 49-2-2)

17.24.040: RIGHT OF WAY ALONG DITCHES AUTHORIZED WHEN:

Where public irrigation waterways pass through private grounds, the right of way for which has been acquired, the public utilities director and the director's assistants are authorized to pass along the ditches as occasion may require, during the continuance of such right. (Prior code § 49-2-4)

17.24.050: CROSSING DITCHES; REGULAR CROSSINGS TO BE USED:

It is unlawful for any person to drive any motor vehicle or other vehicle across any public irrigation waterway or canal within the corporate limits of Salt Lake City, other than at a regular crossing. (Ord. 50-93 § 4, 1993: prior code § 49-2-8)

17.24.060: CROSSING DITCHES; BRIDGES REQUIRED WHEN:

It shall be the duty of any person desiring to drive across any public irrigation waterway or canal at any place other than at a public crossing, before so doing, to place over the ditch, waterway or canal a director's, or his/her designee's, approved bridge, sufficiently high and of sufficient capacity so as not to interfere with or prevent the free and unobstructed flow of water in such ditch, waterway or canal, such bridge to be constructed only with the permission of and under the direction or the director. (Ord. 50-93 § 4, 1993: prior code § 49-2-6)

17.24.070: TAX FOR WATER; ANNUAL RATE:

During the month of April of each year the city council, at a regular meeting thereof, shall by resolution levy upon the lands irrigated by water over which the city is acting as distributing agent, such a tax per acre as may be necessary for the purpose of supplying, controlling, regulating and distributing such water, and constructing and keeping in repair the necessary means for diverting, conveying and distributing the same. (Prior code § 49-2-11)

17.24.080: TAX FOR WATER; ESTIMATES OF EXPENSES:

The tax authorized by this chapter shall be based upon an annual estimate, to be furnished the city council by the public utilities director prior to the passage of the resolution described in section 17.24.070 of this chapter, or its successor, of the cost and expenses for the ensuing year of supplying, controlling, regulating and distributing such water, and constructing and keeping in repair the necessary means for diverting, conveying and distributing the same. (Prior code § 49-2-12)

17.24.090: TAX FOR WATER; PAYMENT DATE:

The tax authorized by this chapter shall become due and payable at the office of the city treasurer on or before May 15 of each year. (Prior code § 49-2-13)

17.24.100: PAYMENT OF TAX; DELIVERY OF CERTIFICATE:

Upon payment of the tax set forth in this chapter, the city treasurer is directed to deliver to the owners of the water rights the certificate of the public utilities director specifying the time when such water may be used. (Prior code § 49-2-14)

17.24.110: TAX ON WATER; LIEN UNTIL COLLECTED:

Until the tax levied by this chapter is paid to or collected by the city treasurer, it shall be a lien upon the water rights and the land irrigated thereby. (Prior code § 49-2-15)

17.24.120: DELINQUENT TAX PAYMENTS; PROPERTY SALE CONDITIONS:

The city treasurer shall proceed to make up a list of all property upon which the tax levied by this chapter remains due and unpaid, and upon completion shall cause the same to be published in some newspaper having general circulation in the city, daily thereafter for a period of ten (10) days. Said delinquent list shall contain a description of the property delinquent according to lots, blocks or parcels, together with the owner's name or names, with the amount of taxes due on each separate parcel exclusive of costs, and shall be accompanied by a notice of sale, and unless the tax levied by this chapter and the costs of publication are paid before the date of sale, the water rights and land upon which the tax is a lien shall be offered for sale and sold by the city treasurer on the date fixed in the notice, which shall be not less than twelve (12) days after the date of first publication for the taxes, costs of advertising and expense of sale. The procedure provided for sale of property on account of delinquent special taxes shall be followed so far as applicable. (Prior code § 49-2-16)

17.24.130: DISPOSITION OF WASTE IRRIGATION WATER:

It shall be the duty of all persons using water for irrigation or other purposes to conduct the surplus or waste water into a waterway, and it is unlawful for any person to permit such water to flood the streets, sidewalks or private property to the damage thereof, or to run unnecessary waste. (Ord. 50-93 § 4, 1993: prior code § 49-2-5)

17.24.140: OBSTRUCTING IRRIGATION DITCHES PROHIBITED:

It is unlawful for any person to place any pole, board or other obstruction whatsoever or any waste material, other than irrigation water, in any public ditch, waterway or canal for any purpose, or in any manner to interfere with the free and unobstructed flow of water in such ditch, waterway or canal. (Ord. 50-93 § 4, 1993: prior code § 49-2-5)

17.24.150: WRONGFUL DIVERSION OF WATER PROHIBITED:

It is unlawful for any person to turn the water from any public irrigation waterway or reservoir, or from any private irrigating ditch during an irrigating period, except when the use of such water has been duly allotted to such person, or wilfully or maliciously to break any dam, gate, sluice or ditch used for diverting or controlling such water, or in any manner to change the current or flow of water used for irrigation purposes, in any of such ditches. No person shall at any time divert more water than his/her right and time for taking entitles him/her. (Ord. 50-93 § 4, 1993: prior code § 49-2-6)

17.24.160: APPEAL OF WATER ALLOTMENTS OR OTHER ACTS:

Any person aggrieved at the proportion of water allotted to him by the public utilities director, or at any other act claimed to have been done under the provisions of this chapter, may, on written complaint, be heard by the mayor, who shall grant such relief as may be proper; but all such complaints must be presented to the mayor within twenty (20) days from the origin of the act complained of. (Prior code § 49-2-7)

CHAPTER 17.28
MISCELLANEOUS WATER REGULATIONS

17.28.010: OBSTRUCTING WATERCOURSES; PERMIT REQUIRED:

It is unlawful for any person to place, replace or maintain any dam or other obstruction of any kind in the channel of any natural or artificial watercourse or living stream within the limits of the city, so as in any way to interfere with or impede the flowing of the water therein, without first obtaining a permit so to do from the public utilities department director. (Prior code § 49-7-3)

17.28.020: PERMIT FOR CONSTRUCTION; ISSUANCE CONDITIONS:

Any person desiring any permit to build a dam in such water course or stream shall file with his petition plans and specifications for the construction of the same, and no such permit shall be issued until such plans and specifications have the approval of the city engineer or his/her designees. (Prior code § 49-7-4)

17.28.030: OBSTRUCTING WATERCOURSES; DAILY VIOLATIONS:

A separate offense shall be deemed committed upon each day during which any dam or obstruction remains in a watercourse or stream without permission. (Prior code § 49-7-5)

17.28.040: BATHING IN STREAMS PROHIBITED:

It is unlawful for any person to bathe or swim in any of the waters, reservoirs or streams within the limits of Salt Lake City, except in public or private bathhouses. (Prior code § 49-7-2)

17.28.050: MUTILATION OF SIGNS PROHIBITED:

It is unlawful for any person or persons to deface, mutilate, tear down or in any way destroy any signs erected by the public utilities department. (Prior code § 49-7-1)

17.28.060: WATER CONSERVATION EQUIPMENT:

All water cooling systems having total capacities exceeding one and one-half ($1\frac{1}{2}$) tons per hour shall be equipped with evaporative condensers, cooling towers, spray ponds, or other approved water conservation equipment. In the event that a critical condition develops in the public water supply system, all installations not equipped to conserve water as herein provided shall be subject to immediate discontinuance on orders of the city. (Ord. 37-95 § 31, 1995: amended during 1/88 supplement: prior code § 5-12-4)

CHAPTER 17.32
GENERAL PROVISIONS AND DEFINITIONS

Article I. General Provisions

17.32.010: SHORT TITLE:

This division shall be known as, and references in this division to "this chapter" shall be deemed to refer to, the *SALT LAKE CITY WASTEWATER CONTROL ORDINANCE*. The chapters within this code that specifically refer to the industrial pretreatment program are chapters 17.32, 17.36, 17.52, 17.68 and 17.69 of this title. (Ord. 68-11, 2011)

17.32.020: PURPOSE OF PROVISIONS:

A. It is necessary for the health, safety and welfare of the residents of the POTW to regulate the collection of wastewater and treatment thereof to provide for maximum public benefit. The provisions set forth in this division are uniform requirements for direct and indirect contributors into the wastewater collection and treatment system for the POTW, and enable the POTW to comply with all applicable local, state and federal laws.

B. The objectives are:

1. To prevent the introduction of pollutants into the POTW which will interfere with the operation of the POTW or contaminate the resulting sludge;
2. To prevent the introduction of pollutants into the POTW which will pass through the POTW, inadequately treated, into receiving waters or the atmosphere, or otherwise be incompatible with the POTW;
3. To protect both publicly owned treatment works personnel who may be affected by wastewater and sludge in the course of their employment and the general public;
4. To improve the opportunity to recycle and reclaim wastewaters and sludges from the POTW;
5. To provide for equitable distribution among users of the cost and operation of the POTW;
6. To provide for and promote the general health, safety and welfare of the citizens residing within the POTW; and
7. To enable the city to comply with its UPDES permit conditions, sludge use and disposal requirements, and any other federal or state laws to which the POTW is subject.

C. The provisions herein provide for the regulation of direct and indirect contributors to the POTW through the issuance of permits and through enforcement of general requirements for all users, authorize monitoring and enforcement activities, require user reporting, assume that existing user's capability will not be preempted, and provide for the setting of fees for the equitable distribution of costs resulting from the program established herein.

D. The provisions herein shall apply to the POTW and to persons outside the service area of the POTW who are, by contract or agreement with the POTW, users of the POTW. The provisions herein shall provide for enforcement and penalties for violations. (Ord. 68-11, 2011)

17.32.030: RULES AND REGULATIONS:

The director may, from time to time, adopt such rules, regulations and policies as shall be reasonably necessary to implement the provisions of this division and administer the wastewater treatment program of the city. (Ord. 68-11, 2011)

Article II. Definitions

17.32.040: DEFINITIONS, GENERALLY:

Unless the context specifically indicates otherwise, the following terms and phrases, as used in this division, shall have the meanings hereinafter designated in this article. (Ord. 68-11, 2011)

17.32.050: ABBREVIATIONS:

The following abbreviations shall have the designated meanings:

BMP	Best management practice
BOD	Biochemical oxygen demand
CFR	Code of federal regulations
CIU	Categorical industrial user
COD	Chemical oxygen demand
cP	Centipoise = 0.01 poise = cgs unit of absolute viscosity, $\frac{gm}{sec \times cm}$
EPA	The United States environmental protection agency or its successors
l	Liter
mg	Milligrams
mg/l	Milligrams per liter
POTW	Publicly owned treatment works
SIC	Standard industrial classification
SIU	Significant industrial user
SNC	Significant noncompliance
SWDA	Solid waste disposal act, 42 USC 6901 et seq., or its successor
TRC	Technical review criteria
TSS	Total suspended solids
UPDES	Utah pollutant discharge elimination system
USC	United States Code

(Ord. 68-11, 2011)

17.32.060: ACT OR THE ACT:

"Act" or "the act" means the federal water pollution control act, PL 92-500, also known as the clean water act, as amended, 33 USC section 1251 et seq. (Ord. 68-11, 2011)

17.32.070: APPROVAL AUTHORITY:

"Approval authority" means the state of Utah's department of environmental quality, division of water quality (DWQ)) or its successor agencies. (Ord. 68-11, 2011)

17.32.080: AUTHORIZED OR DULY AUTHORIZED REPRESENTATIVE OF THE INDUSTRIAL USER:

A. If the user is a corporation:

1. The president, secretary, treasurer, or a vice president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation; or

2. The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiate and direct other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for wastewater discharge permit requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

B. If the user is a partnership or sole proprietorship: a general partner or proprietor, respectively.

C. If the user is a federal, state, or local governmental facility: a director or highest official appointed or designated to oversee the operation and performance of the activities of the government facility, or their designee.

D. The individuals described in subsections A through C of this section, may designate a duly authorized representative if the authorization is in writing, the authorization specifies the individual or position responsible for the overall operation of the facility from which the discharge originates or having overall responsibility for environmental matters for the company, and the written authorization is submitted to the director. (Ord. 68-11, 2011)

17.32.090: BEST MANAGEMENT PRACTICES:

"Best management practices" or "BMPs" means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the prohibitions listed in subsections 17.36.060A and B of this title. BMPs include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw materials storage. BMPs also include alternative means (i.e., management plans) of complying with, or in place of certain established categorical pretreatment standards and effluent limits. (Ord. 68-11, 2011)

17.32.100: BIOCHEMICAL OXYGEN DEMAND (BOD):

"Biochemical oxygen demand (BOD)" means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedures for five (5) days at twenty degrees centigrade (20°C), usually expressed as concentration (e.g., milligrams per liter [mg/l]). Laboratory determinations shall be made in accordance with methods set forth in 40 CFR 136 or its successor. (Ord. 68-11, 2011)

17.32.110: BUILDING OR SEWER LATERAL:

"Building or sewer lateral" means a sewer conveying the wastewater of a user from a residence building or other structure to a POTW sewer, including direct connections to a POTW sewer where permitted by the POTW. A sewer lateral is a building sewer owned by the user. (Ord. 68-11, 2011)

17.32.120: BUSINESS CLASSIFICATION CODE (BCC):

"Business classification code (BCC)" means a classification of dischargers based on the "1972 Standard Industrial Classification Manual", bureau of the budget of the United States Of America or its successor. (Ord. 68-11, 2011)

17.32.130: CATEGORICAL PRETREATMENT STANDARDS OR CATEGORICAL STANDARDS:

"Categorical pretreatment standard" or "categorical standard" means any regulation containing pollutant discharge limits promulgated by EPA in accordance with sections 307(b) and (c) of the act (33 USC section 1317) that apply to a specific category of users and that appear in 40 CFR chapter I, subchapter N, parts 405-471. (Ord. 68-11, 2011)

17.32.140: CATEGORICAL INDUSTRIAL USER (CIU):

"Categorical industrial user" means an industrial user subject to a categorical pretreatment standard or categorical standard. (Ord. 68-11, 2011)

17.32.150: CHEMICAL OXYGEN DEMAND (COD):

"Chemical oxygen demand (COD)" means a measure of the oxygen required to oxidize all compounds, both organic and inorganic, in water. Laboratory determinations shall be made in accordance with methods set forth in 40 CFR 136 or its successor. (Ord. 68-11, 2011)

17.32.160: CHLORINE DEMAND:

"Chlorine demand" means the amount of chlorine required to produce a free chlorine residual of 0.1 milligrams per liter at the end of the contact period on a sample, in conformance with the procedures described in standard methods set forth in 40 CFR 136 or its successor. (Ord. 68-11, 2011)

17.32.170: CITY:

"City" means the Salt Lake City Corporation, state of Utah. (Ord. 68-11, 2011)

17.32.180: COMPATIBLE POLLUTANT:

"Compatible pollutant" means biochemical oxygen demand, total suspended solids, pH and fecal coliform bacteria, plus any additional pollutants identified in the publicly owned treatment works' UPDES permit, where the publicly owned treatment works is designed to treat such pollutants and, in fact, does treat such pollutants to the degree required by the POTW's UPDES permit. (Ord. 68-11, 2011)

17.32.190: CONTROL AUTHORITY:

"Control authority" means Salt Lake City Corporation. (Ord. 68-11, 2011)

17.32.200: DAILY MAXIMUM:

"Daily maximum" means the arithmetic average of all effluent samples for a pollutant collected during a calendar day. (Ord. 68-11, 2011)

17.32.210: DAILY MAXIMUM LIMIT:

"Daily maximum limit" means the maximum allowable discharge limit of a pollutant during a calendar day. Where daily maximum limits are expressed in units of mass, the daily discharge is the total mass discharged over the course of the day. Where daily maximum limits are expressed in terms of a concentration, the daily discharge is the arithmetic average measurement of the pollutant concentration derived from all measurements taken that day. (Ord. 68-11, 2011)

17.32.220: DIRECTOR:

"Director" means the director of Salt Lake City department of public utilities or his or her designated representative. (Ord. 68-11, 2011)

17.32.230: ENVIRONMENTAL PROTECTION AGENCY OR EPA:

"Environmental protection agency" or "EPA" means the U.S. environmental protection agency, or, where appropriate, the regional water management division director, the regional administrator, or other duly authorized official of said agency. (Ord. 68-11, 2011)

17.32.240: ENFORCEMENT RESPONSE PLAN (ERP):

"Enforcement response plan" means the policies and procedures developed by the control authority and accepted by the approval authority to track compliance and take enforcement actions against noncompliance with the industrial pretreatment program requirements and limitations. (Ord. 68-11, 2011)

17.32.250: EXISTING SOURCE:

"Existing source" means any source of discharge that is not a "new source". (Ord. 68-11, 2011)

17.32.260: FATS, OILS AND GREASE:

"Fats, oils and grease" (FOG) shall mean any fats, oils or grease of animal or plant origin having a potential to cause interference with or obstruction to the POTW. (Ord. 68-11, 2011)

17.32.270: FOOD PREPARATION AND PROCESSING ESTABLISHMENTS:

"Food preparation and processing establishments" means establishments engaged in the preparation of food or drink to be consumed on the premises and/or to be delivered or picked up for resale and/or consumption. (Ord. 68-11, 2011)

17.32.280: GARBAGE:

"Garbage" means solid wastes from the preparation, cooking and dispensing of food, and from handling, storage and sale of produce. (Ord. 68-11, 2011)

17.32.290: GRAB SAMPLE:

"Grab sample" means a sample which is taken from a waste stream on a onetime basis with no regard to the flow in the waste stream and over a period of time not to exceed fifteen (15) minutes. (Ord. 68-11, 2011)

17.32.300: HAZARDOUS WASTE:

"Hazardous waste" means any material having the characteristics identified under or listed pursuant to section 3001 of RCRA and listed in 40 CFR 261. (Ord. 68-11, 2011)

17.32.310: INCOMPATIBLE POLLUTANT:

"Incompatible pollutant" means all pollutants other than compatible pollutants as defined in section 17.32.180 of this chapter, or its successor. (Ord. 68-11, 2011)

17.32.320: INDIRECT DISCHARGE:

"Indirect discharge" means the introduction of pollutants into a POTW from any nondomestic source which is regulated under section 307(b), (c) or (d) of the act (including septic tank waste discharged into the POTW). (Ord. 68-11, 2011)

17.32.330: INDUSTRIAL USER OR USER:

"Industrial user" or "user" means a source of indirect discharge. (Ord. 68-11, 2011)

17.32.340: INDUSTRIAL WASTE:

"Industrial waste" means solid, liquid or gaseous wastes, including cooling water (except where exempted by UPDES permit), resulting from any industrial, manufacturing or business process, or from the development, recovery or processing of a natural resource. (Ord. 68-11, 2011)

17.32.350: INSTANTANEOUS LIMIT:

"Instantaneous limit" means the maximum or minimum concentration of a pollutant allowed to be discharged at any time, determined from the analysis of any discrete, grab, or composited sample collected, independent of the industrial flow rate and the duration of the sampling event. (Ord. 68-11, 2011)

17.32.360: INTERFERENCE:

"Interference" means a discharge that, alone or in conjunction with a discharge or discharges from other sources, either inhibits or disrupts the POTW, its treatment processes or operations or its sludge process use or disposal and therefore is a cause of a violation of any requirement of the POTW's UPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal in compliance with any of the following statutory provisions and regulations or permits issued thereunder or more stringent state or local regulations; section 405 of the clean water act; the solid waste disposal act (SWDA), including title II, more commonly referred to as the resource conservation and recovery act (RCRA); state regulations contained in any Utah state sludge management plan prepared pursuant to subtitle D of the SWDA; the clean air act; the toxic substances control act; and the marine protection research and sanctuaries act. (Ord. 68-11, 2011)

17.32.370: LOCAL LIMIT:

"Local limit" means specific discharge limits referred to in section 17.36.090 of this title and developed and enforced by the city upon industrial or commercial facilities to implement the general and specific discharge prohibitions listed in section 17.36.060 of this title and 40 CFR 403.5(a)(1) and (b). (Ord. 68-11, 2011)

17.32.380: MEDICAL WASTE:

"Medical waste" means isolation wastes, infectious agents, human or animal blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes, and dialysis wastes. (Ord. 68-11, 2011)

17.32.390: MONTHLY AVERAGE:

"Monthly average" means the sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month. (Ord. 68-11, 2011)

17.32.400: MONTHLY AVERAGE LIMIT:

"Monthly average limit" means the highest allowable average of "daily discharges" over a calendar month, calculated as the sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month. (Ord. 68-11, 2011)

17.32.410: NEW SOURCE:

"New source" means:

A. Any building, structure, facility, or installation from which there is (or may be) a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under section 307(c) of the act that will be applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

1. The building, structure, facility, or installation is constructed at a site at which no other source is located; or

2. The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

3. The production or wastewater generating processes of the building, structure, facility, or installation are substantially independent of an existing source at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source, should be considered.

B. Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility, or installation meeting the criteria of subsection A2 or A3 of this section but otherwise alters, replaces, or adds to existing process or production equipment.

C. Construction of a "new source" as defined under this subsection has commenced if the owner or operator has:

1. Begun, or caused to begin, as part of a continuous on site construction program:

   a. Any placement, assembly, or installation of facilities or equipment; or

   b. Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the placement, assembly, or installation of new source facilities or equipment; or

2. Entered into a binding contractual obligation for the purchase of facilities or equipment which are intended to be used in its operation. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this paragraph. (Ord. 68-11, 2011)

17.32.420: NONCONTACT COOLING WATER:

"Noncontact cooling water" means water used for cooling that does not come into direct contact with any raw material, intermediate product, waste product, or finished product. (Ord. 68-11, 2011)

17.32.425: OIL AND GREASE:

"Oil and grease" means the total oil and grease measured in a wastewater sample by methods set forth in 40 CFR 136 or its successor. Oil and grease is composed of a mixture of all those polar and nonpolar materials which are soluble in hexane at pH 2 or less, and remain after boiling off the solvent. If an environmental sample is composed of nonpolar material (such as petroleum hydrocarbons), and polar materials (such as animal or vegetable oils and fats), EPA method 1664A will directly quantify all the materials as hexane extractable materials (HEM). The silica gel treated hexane extractable material (SGT-HEM) procedure of the same EPA method will measure the nonpolar material (petroleum hydrocarbons) after the polar material is removed. The difference between the two (2) measurements will give the amount of polar material (animal and vegetable) present. (Ord. 68-11, 2011)

17.32.430: PASS-THROUGH:

"Pass-through" means a discharge which exits the POTW into waters of the state in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the POTW's UPDES permit, including an increase in the magnitude or duration of the violation. (Ord. 68-11, 2011)

17.32.440: PERSON:

"Person" means any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. This definition includes all federal, state, and local governmental entities. The masculine gender shall include the feminine, and the singular shall include the plural where indicated by context. (Ord. 68-11, 2011)

17.32.450: pH:

"pH" means a measure of the acidity or basicity of an aqueous solution, expressed in standard units. Theoretically pH equals the negative logarithm (base-10) cH, where cH is the concentration of hydrogen ions in grams per liter. Scale ranges from 0 to 14, pH 7 being neutral, less than 7, acidic, more than 7, basic. (Ord. 68-11, 2011)

17.32.460: POLLUTION OR POLLUTANT:

"Pollution" or "pollutant" means any dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, sewage sludge, munitions, medical wastes, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, industrial, municipal and agricultural wastes, and certain characteristics of wastewater (e.g., pH, temperature, TSS, turbidity, color, BOD, COD, toxicity, or odor) including the manmade or man induced alteration of the chemical, physical, biological and radiological integrity of water. (Ord. 68-11, 2011)

17.32.470: PRETREATMENT:

"Pretreatment" means the reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to or in lieu of discharging or otherwise introducing such pollutants into a POTW. The reduction or alteration can be obtained by physical, chemical or biological processes, process changes, or by other means, except by diluting the concentration of the pollutants unless allowed by an applicable pretreatment standard. (Ord. 68-11, 2011)

17.32.480: PRETREATMENT REQUIREMENTS:

"Pretreatment requirements" means any substantive or procedural requirement related to pretreatment, other than a pretreatment standard imposed on a user. (Ord. 68-11, 2011)

17.32.490: PRETREATMENT STANDARDS OR STANDARDS:

"Pretreatment standard" or "standard" means any regulation containing pollutant discharge limits promulgated by the EPA in accordance with section 307 (b) and (c) of the act, which applies to industrial users. This term includes prohibitive discharge limits established pursuant to 40 CFR 403.5. (Ord. 68-11, 2011)

17.32.500: PROHIBITED DISCHARGE STANDARDS OR PROHIBITED DISCHARGES:

"Prohibited discharge standards" or "prohibited discharges" means absolute prohibitions against the discharge of certain substances; these prohibitions appear in section 17.36.060 of this title. (Ord. 68-11, 2011)

17.32.510: PUBLIC SEWER:

"Public sewer" shall mean any sewer dedicated to public use and which is controlled by a public corporation or governmental agency. (Ord. 68-11, 2011)

17.32.520: PUBLICLY OWNED TREATMENT WORKS (POTW):

"Publicly owned treatment works (POTW)" means a treatment works, as defined by section 212 of the act (33 USC 1292), or its successor, which is owned by Salt Lake City Corporation having statutory authority to collect and treat sewage. This definition includes any sewers, pumping stations and appurtenances used in the collection, storage, treatment, recycling, and reclamation of sewage or industrial wastes of a liquid nature and any conveyances, which convey wastewater to a treatment plant. Building and sewer lateral shall not be included in this definition. For the purposes of this division, "POTW" shall also include any sewers that convey wastewater to the POTW by persons outside the POTW boundaries who are by contract or agreement with the POTW actually users of the POTW. (Ord. 68-11, 2011)

17.32.530: SANITARY SEWER:

"Sanitary sewer" means the pipe or conduit system, and appurtenances, for the collection, transportation, pumping and treatment of sewage. This definition shall also include the terms "public sewer", "sewer system", and "sewer". (Ord. 68-11, 2011)

17.32.540: SEPTIC TANK WASTE:

"Septic tank waste" means any sewage from holding tanks such as vessels, chemical toilets, campers, trailers, airplane holding tanks and septic tanks. (Ord. 68-11, 2011)

17.32.550: SEWAGE:

"Sewage" means human excrement and gray water (household showers, dishwashing operations, etc.) and any of the wastewater of the community which has been contaminated by use such that treatment is required before it may be safely discharged to the environment or reused. (Ord. 68-11, 2011)

17.32.560: SHALL, WILL AND MAY:

"Shall" and "will" are mandatory; "may" is permissive. (Ord. 68-11, 2011)

17.32.570: SIGNIFICANT INDUSTRIAL USER (SIU):

Except as provided in subsections C and D of this section, a "significant industrial user" is:

A. An industrial user subject to categorical pretreatment standards; or

B. An industrial user that:

1. Discharges an average of twenty five thousand (25,000) gpd or more of process wastewater to the POTW (excluding sanitary, noncontact cooling and boiler blowdown wastewater);

2. Contributes a process waste stream which makes up five percent (5%) or more of the average dry weather hydraulic or organic capacity of the POTW treatment plant; or

3. Is designated as such by the city on the basis that it has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

C. The city may determine that an industrial user subject to categorical pretreatment standards is a nonsignificant categorical industrial user rather than a significant industrial user on a finding that the industrial user never discharges more than one hundred (100) gallons per day (gpd) of total categorical wastewater (excluding sanitary, noncontact cooling and boiler blowdown wastewater, unless specifically included in the pretreatment standard) and the following conditions are met:

1. The industrial user, prior to city's finding, has consistently complied with all applicable categorical pretreatment standards and requirements;

2. The industrial user annually submits the certification statement required in subsection 17.52.210B of this title, together with any additional information necessary to support the certification statement; and

3. The industrial user never discharges any untreated concentrated wastewater.

D. Upon a finding that a user meeting the criteria in subsection B of this section has no reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement, the city may at any time, on its own initiative or in response to a petition received from an industrial user, and in accordance with procedures in 40 CFR 403.8(f)(6), determine that such user should not be considered a significant industrial user. (Ord. 68-11, 2011)

17.32.580: SIGNIFICANT NONCOMPLIANCE (SNC):

"Significant noncompliance (SNC)" shall be applicable to all significant industrial users (or any other industrial user that violates subsection C, D or H of this section) and shall mean:

A. "Chronic violations of wastewater discharge limits", defined here as those in which sixty six percent (66%) or more of all the measurements taken for the same pollutant parameter taken during a six (6) month period exceed (by any magnitude) a numeric pretreatment standard or requirement, including instantaneous limits as defined herein;

B. "Technical review criteria (TRC) violations", defined here as those in which thirty three percent (33%) or more of wastewater measurements taken for the same pollutant parameter during a six (6) month period equals or exceeds the product of the numeric pretreatment standard or requirement including instantaneous limits, as defined herein, multiplied by the applicable TRC (TRC equals 1.4 for BOD, TSS, fats, oils and grease, and TRC equals 1.2 for all other pollutants except pH);

C. Any other violation of a pretreatment standard or requirement as defined herein (daily maximum, long term average, instantaneous limit, or narrative standard) that the director determines has caused, alone or in combination with other discharges, interference or pass-through, including endangering the health of POTW personnel or the general public;

D. Any discharge of a pollutant that has caused imminent endangerment to the public or to the environment, or has resulted in the director's exercise of emergency authority to halt or prevent such a discharge;

E. Failure to meet, within ninety (90) days of the scheduled date, a compliance schedule milestone contained in a wastewater discharge permit or enforcement order for starting construction, completing construction, or attaining final compliance;

F. Failure to provide within forty five (45) days after the due date, any required reports, including baseline monitoring reports, reports on compliance with categorical pretreatment standard deadlines, periodic self-monitoring reports, and reports on compliance with compliance schedules;

G. Failure to accurately report noncompliance; or

H. Any other violation(s), which may include a violation of best management practices, which the director determines will adversely affect the operation or implementation of the local pretreatment program. (Ord. 68-11, 2011)

17.32.590: SLUG LOAD OR SLUG DISCHARGE:

"Slug load" or "slug discharge" shall mean any discharge at a flow rate or concentration, which could cause a violation of the prohibited discharge standards in section 17.36.060 of this title. A slug discharge is any discharge of a nonroutine, episodic nature, including, but not limited to, an accidental spill or a noncustomary batch discharge, which has a reasonable potential to cause interference or pass-through, or in any other way violate the POTW's regulations, local limits or permit conditions. (Ord. 68-11, 2011)

17.32.600: STATE:

"State" means the state of Utah. (Ord. 68-11, 2011)

17.32.610: STANDARD INDUSTRIAL CLASSIFICATION (SIC):

"Standard industrial classification (SIC)" means a classification pursuant to the "Standard Industrial Classification Manual" issued by the executive office of the president, office of management and budget, 1972, or its successor. The "North American industry classification system (NAICS)" is similar to the SIC and means a classification pursuant to the office of management and budget, official 2007 U.S. NAICS Manual, as amended. (Ord. 68-11, 2011)

17.32.620: STORM SEWER:

"Storm sewer" means a sewer that carries only stormwater, surface water and groundwater drainage. (Ord. 68-11, 2011)

17.32.630: STORMWATER:

"Stormwater" means any flow occurring during or following any form of natural precipitation and resulting therefrom, including snowmelt. (Ord. 68-11, 2011)

17.32.640: SUBDIVISION:

A. "Subdivision" means the division of a tract, or lot, or parcel of land into three (3) or more lots, plots, sites or other divisions of land for the purpose, whether immediate or future, of sale or of building development or redevelopment; provided, however, that divisions of land for agricultural purposes or for commercial, manufacturing or industrial purposes shall be exempt. Further, the above definition shall not apply to the sale or conveyance of any parcel of land which may be shown as one of the lots of a subdivision of which a plat has theretofore been recorded in the office of the county recorder.

B. The word "subdivide" and any derivative thereof shall have reference to the term "subdivision" as herein defined. (Ord. 68-11, 2011)

17.32.650: TOTAL SUSPENDED SOLIDS OR SUSPENDED SOLIDS:

"Total suspended solids" or "suspended solids" means the total suspended matter that floats on the surface of or is suspended in water, wastewater or other liquids, and which is removable by laboratory filtering in accordance with methods set forth in 40 CFR 136 or its successor. (Ord. 68-11, 2011)

17.32.660: TOXIC POLLUTANT:

"Toxic pollutant" means any pollutant or combination of pollutants found to be toxic or stipulated as toxic in regulations promulgated by the administrator of the environmental protection agency under the act. (Ord. 68-11, 2011)

17.32.670: UTAH POLLUTION DISCHARGE ELIMINATION SYSTEM (UPDES) PERMIT:

"Utah pollution discharge elimination system (UPDES) permit" means a permit issued pursuant to section R317-8 of the Utah administrative code, or its successor. (Ord. 68-11, 2011)

17.32.680: VISCOSITY:

"Viscosity" means the property of a fluid that resists internal flow by releasing counteracting forces. (Ord. 68-11, 2011)

17.32.690: WASTEWATER:

"Wastewater" means the liquid and water carried industrial or domestic wastes from dwellings, commercial buildings, industrial and manufacturing facilities and institutions, together with any infiltrating groundwater, surface water and stormwater that may be present, whether treated or untreated, which enters the POTW. (Ord. 68-11, 2011)

17.32.700: WASTEWATER DISCHARGE PERMIT OR PERMIT:

"Wastewater discharge permit" or "permit" means a control document issued by the city which authorizes the discharge of industrial wastewater into the POTW by an SIU. (Ord. 68-11, 2011)

17.32.710: WASTEWATER STRENGTH:

"Wastewater strength" means the quality of process wastewater discharged, as measured by its elements, including its constituents and characteristics. (Ord. 68-11, 2011)

17.32.720: WASTEWATER TREATMENT PLANT OR TREATMENT PLANT:

"Wastewater treatment plant" or "treatment plant" means that portion of the publicly owned treatment works designed to provide treatment (including recycling and reclamation) of municipal sewage and industrial waste. (Ord. 68-11, 2011)

17.32.730: WATERS OF THE STATE:

"Waters of the state" means all streams, lakes, ponds, marshes, watercourses, waterways, wells, springs, reservoirs, aquifers, irrigation systems, drainage systems, and all other bodies or accumulations of water, surface or underground, natural or artificial, public or private, which are contained within, flow through or border upon the state or any portion thereof. (Ord. 68-11, 2011)

17.32.740: ZERO DISCHARGE INDUSTRIAL FACILITY:

"Zero discharge industrial facility" means an industry which may be identified by the director as a "significant industrial user", as defined herein, which has voluntarily elected or is required by the categorical pretreatment standard not to discharge any of its process wastewater to the POTW, but to dispose of it by other legal means. For the purposes of inspection, sampling and enforcement, a zero discharge industrial facility shall be considered an industrial user. (Ord. 68-11, 2011)

CHAPTER 17.36
GENERAL REQUIREMENTS

17.36.010: SUPERVISION OF POTW:

The POTW shall be supervised and directed by the director. (Ord. 68-11, 2011)

17.36.020: MORE STRINGENT LIMITATIONS; POTW RIGHTS:

The POTW reserves the right to establish more stringent limitations or requirements on discharges to the wastewater disposal system if deemed necessary to comply with the objectives presented in section 17.32.020 of this title, or its successor. (Ord. 68-11, 2011)

17.36.030: GENERAL DISCHARGE REGULATIONS:

A. Discharge Into POTW: All sewage shall be discharged to public sewers except as provided hereinafter.

B. Discharge Of Sewage: No person shall discharge any sewage from any premises within the POTW service area into and upon any public highway, stream, watercourse or public place, or into any drain, cesspool, storm or private sewer, except as provided for hereafter. (Ord. 68-11, 2011)

17.36.040: NONPOLLUTED WATERS DISCHARGED TO STORM SEWERS:

Nonpolluted stormwater, surface drainage, subsurface drainage, groundwater, roof runoff, noncontact cooling water or other nonpolluted water may be admitted to specifically designated storm sewers which have adequate capacity for the accommodations of such waters. No person shall connect to and/or use sanitary sewers for the above purposes without having first obtained the written consent of the director. (Ord. 68-11, 2011)

17.36.050: DISCHARGING SURFACE WATERS INTO SANITARY SEWERS:

No person shall cause to be discharged or make a connection which would allow any stormwater, surface drainage, groundwater, roof runoff, or noncontact cooling water to be admitted into any sanitary sewer, unless otherwise permitted in writing by the director. No person shall cause any of the above mentioned waters to be mixed with that person's industrial waste in order to dilute such industrial waste. (Ord. 68-11, 2011)

17.36.060: PROHIBITED DISCHARGE STANDARDS:

A. General Prohibitions: No user shall introduce or cause to be introduced into the POTW any pollutant or wastewater which causes pass-through or interference. These general prohibitions apply to all users of the POTW whether or not they are subject to categorical pretreatment standards or any other national, state, or local pretreatment standards or requirements.

B. Specific Prohibitions: No user shall introduce or cause to be introduced into the POTW the following pollutants, substances, or wastewater:

1. Explosives: Any liquids, solids or gases which by reason of their nature or quantity are, or may be, sufficient either alone or by interaction with other substances to cause fire or explosive hazard or be injurious in any other way to the POTW or to the operation of the POTW. At no time shall two (2) successive readings on any explosion hazard meter, at the point of discharge to the POTW (or at any point in the system) be more than five percent (5%), nor any single reading over ten percent (10%) of the lower explosive limit (LEL) of the meter;

2. Fire Or Explosion: Pollutants which create a fire or explosion hazard in the POTW including, but not limited to, waste streams with a closed cup flashpoint of less than one hundred forty degrees Fahrenheit (140°F) (60°C) using test methods specified in 40 CFR 261.21 or its successor;

3. Solids:

a. Solid or viscous substances in amounts which will cause obstruction to the flow in the POTW resulting in interference.

b. Solid or viscous pollutants in amounts which will interfere with the operation of the wastewater treatment facilities such as, but not limited to, fats, oils and grease, garbage with particles greater than one-fourth inch ($^1/_4$") in any dimension, animal guts or tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, feathers, ashes, cinder, sand, spent lime, stone or marble dust, metal, glass, plastics, gas, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, mud or glass grinding or polishing wastes;

4. Low pH Limit: Any wastewater which will cause corrosive structural damage to the POTW, but in no case discharges with pH of less than 5.0, unless the POTW is specifically designed to accommodate such discharges;

5. High pH Limit: Any wastewater with a pH greater than 11.0 or otherwise causing corrosive structural damage to the POTW or equipment;

6. Toxic Pollutants:

a. POTW Interference: Any pollutants including oxygen demanding pollutants (BOD, etc.), released in a discharge at a flow rate and/or pollutant concentration which, either singly or by interaction with other pollutants, will cause interference with the POTW.

b. Toxic Pollutants: Any pollutants released in a discharge at a flow rate and/or pollutant concentration which, either singly or by interaction with other pollutants, will cause interference with wastewater treatment or sludge handling process, constitute a hazard to humans or animals, create an acute toxic effect in the receiving waters of the POTW, contaminate the sludge of the POTW systems, or exceed the limitations set forth in a categorical or local pretreatment standard or requirement;

7. Noxious Substances: Any waste containing noxious or malodorous liquids, in such quantities that, alone or in combination with other waste substances are sufficient to create a hazard for humans, animals or the environment, interfere detrimentally with sewage treatment processes, pass-through treatment facilities in concentrations exceeding discharge limitations, prevent entry into the sewers for their maintenance and repair, cause a public nuisance, or cause any hazardous condition to occur in the POTW;

8. Gaseous Substances: Any pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems;

9. Untreatable Substances: Any substance which may cause the POTW's effluent or any other product of the POTW, such as residues, sludges or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process where the POTW is pursuing a reuse and reclamation program. In no case shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria, guidelines or regulations developed under section 405 of the act, or its successor; any criteria, guidelines or regulations affecting sludge use or disposal developed pursuant to the solid waste disposal act, the clean air act, the toxic substances control act, or state criteria applicable to the sludge management method being used;

10. UPDES Permit Violation: Any substances which will cause the POTW to violate its UPDES and/or state disposal system permit or the receiving water quality standards;

11. Objectionable Color: Any wastewater with objectionable color not removed in the POTW treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions which consequently imparts color to the treatment plant's effluent, thereby violating the POTW's UPDES permit;

12. Heat: Any wastewater with heat in amounts which will inhibit biological activity in the POTW resulting in interference, but in no case heat in such quantities that the temperature at the POTW treatment plant exceeds forty degrees Celsius (40°C) (104°F);

13. Radioactive Wastes: Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the director in compliance with applicable state or federal regulations;

14. Oil And Grease: Any wastewater containing petroleum oil, nonbiodegradable cutting oil, products of mineral oil origin or petroleum based grease, in amounts that will cause interference or pass-through;

15. Trucked Wastes: Trucked or hauled pollutants, except at discharge points designated by the POTW;

16. Waters: Stormwater, surface water, groundwater, artesian well water, roof runoff, subsurface drainage, swimming pool drainage, condensate, deionized water, noncontact cooling water, and unpolluted wastewater, unless specifically authorized by the director in a wastewater discharge permit;

17. Pretreatment Residue: Sludges, screenings, or other residues from the pretreatment of industrial wastes;

18. Medical Waste: Medical wastes in amounts or concentrations that would cause a violation of any one of the objectives included in subsection 17.32.020B of this title;

19. Wastewater: Wastewater causing, alone or in conjunction with other sources, the treatment plant's effluent to fail any toxicity test;

20. Detergents: Detergents, surface active agents, or other substances that might cause excessive foaming in the POTW;

21. Saltwater: Saltwater or brine from commercial or industrial establishments in concentrations that will interfere with wastewater collection, treatment or treated wastewater reuse including, but not limited to, commercial or industrial backwashes or similar waste streams resulting from the direct addition of salt;

22. Compounds For Pest Control: Any discharges containing compounds that are labeled for the control of pest species of any type, such as, but not limited to, acaricides, bactericides, fungicides, herbicides, insecticides, molluscicides, nematicides and rodenticides in concentrations that would cause interference or pass-through at the POTW or otherwise cause the POTW to violate its UPDES permit.

Pollutants, substances, or wastewater prohibited by this division shall not be processed or stored in such a manner that they could be discharged to the POTW. (Ord. 68-11, 2011)

17.36.070: NATIONAL CATEGORICAL PRETREATMENT STANDARDS:

Upon the promulgation of the federal national categorical pretreatment standard for a particular industrial subcategory, the federal standard, if more stringent than limitations imposed in this chapter for sources in that subcategory, shall immediately supersede the limitations imposed herein. Categorical industrial users must comply with the national categorical pretreatment standards found at 40 CFR chapter I, subchapter N, parts 405-471.

A. Where a categorical pretreatment standard is expressed only in terms of either the mass or the concentration of a pollutant in wastewater, the director may impose equivalent concentration or mass limits in accordance with subsections D and E of this section.

B. When the limits in a categorical pretreatment standard are expressed only in terms of mass of pollutant per unit of production, the director may convert the limits to equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users.

C. When wastewater subject to a categorical pretreatment standard is mixed with wastewater not regulated by the same standard, the director shall impose an alternate limit in accordance with 40 CFR 403.6(e).

D. When a categorical pretreatment standard is expressed only in terms of pollutant concentrations, an industrial user may request that the city convert the limits to equivalent mass limits. The determination to convert concentration limits to mass limits is within the discretion of the director. The city may establish equivalent mass limits only if the industrial user meets all the conditions set forth in subsections D1a through D1e of this section.

1. To be eligible for equivalent mass limits, the industrial user must:

a. Employ, or demonstrate that it will employ, water conservation methods and technologies that substantially reduce water use during the term of its wastewater discharge permit;

b. Currently use control and treatment technologies adequate to achieve compliance with the applicable categorical pretreatment standard, and not have used dilution as a substitute for treatment;

c. Provide sufficient information to establish the facility's actual average daily flow rate for all waste streams, based on data from a continuous effluent flow monitoring device, as well as the facility's long term average production rate. Both the actual average daily flow rate and the long term average production rate must be representative of current operating conditions;

d. Not have daily flow rates, production levels, or pollutant levels that vary so significantly that equivalent mass limits are not appropriate to control the discharge; and

e. Have consistently complied with all applicable categorical pretreatment standards during the period prior to the industrial user's request for equivalent mass limits.

2. An industrial user subject to equivalent mass limits must:

a. Maintain and effectively operate control and treatment technologies adequate to achieve compliance with the equivalent mass limits;

b. Continue to record the facility's flow rates through the use of a continuous effluent flow monitoring device;

c. Continue to record the facility's production rates and notify the director whenever production rates are expected to vary by more than twenty percent (20%) from its baseline production rates determined in subsection D1c of this section. Upon notification of a revised production rate, the director will reassess the equivalent mass limit and revise the limit as necessary to reflect changed conditions at the facility; and

d. Continue to employ the same or comparable water conservation methods and technologies as those implemented pursuant to subsection D1a of this section so long as it discharges under an equivalent mass limit.

3. When developing equivalent mass limits, the director:

a. Will calculate the equivalent mass limit by multiplying the actual average daily flow rate of the regulated process(es) of the industrial user by the concentration based daily maximum and monthly average standard for the applicable categorical pretreatment standard and the appropriate unit conversion factor;

b. Upon notification of a revised production rate, will reassess the equivalent mass limit and recalculate the limit as necessary to reflect changed conditions at the facility; and

c. May retain the same equivalent mass limit in subsequent wastewater discharge permit terms if the industrial user's actual average daily flow rate was reduced solely as a result of the implementation of water conservation methods and technologies, and the actual average daily flow rates used in the original calculation of the equivalent mass limit were not based on the use of dilution as a substitute for treatment pursuant to section 17.36.110 of this chapter. The industrial user must also be in compliance with section 17.69.030 of this title regarding the prohibition of bypass.

E. The director may convert the mass limits of the categorical pretreatment standards of 40 CFR parts 414, 419, and 455 to concentration limits for purposes of calculating limitations applicable to individual industrial users. The conversion is at the discretion of the director.

F. Once included in its permit, the industrial user must comply with the equivalent limitations developed in this section in lieu of the promulgated categorical pretreatment standards from which the equivalent limitations were derived.

G. Many categorical pretreatment standards specify one limit for calculating maximum daily discharge limitations and a second limit for calculating maximum monthly average, or four (4) day average, limitations. Where such standards are being applied, the same production or flow figure shall be used in calculating both the average and the maximum equivalent limitation.

H. Any industrial user operating under a permit incorporating equivalent mass or concentration limits calculated from a production based standard shall notify the director within two (2) business days after the user has a reasonable basis to know that the production level will significantly change within the next calendar month. Any user not notifying the director of such anticipated change will be required to meet the mass or concentration limits in its permit that were based on the original estimate of the long term average production rate. (Ord. 68-11, 2011)

17.36.080: STATE PRETREATMENT STANDARDS:

State requirements and limitations on discharges shall apply when they are more stringent than federal requirements and limitations or those in this chapter. (Ord. 68-11, 2011)

17.36.090: LOCAL LIMITS:

A. The director is authorized to establish local limits pursuant to 40 CFR 403.5(c). The director may impose mass limitations in addition to concentration based limitations for local limits.

B. Local limits established by the director and approved by the state are listed in a separate document entitled "City Of Salt Lake City Corporation Local Limits". This document is incorporated in this chapter by reference.

C. Local limits shall apply at the designated sampling point for users holding a valid wastewater discharge permit, otherwise, the local limits apply at the end of the user's sewer lateral pipeline at the point where the industrial wastewater is discharged to the POTW.

D. Local limits are established to prevent pass-through and interference and shall be reviewed as needed. Any revision to the control authority's local limits shall be submitted for approval to the state. Upon state approval, the revised local limits shall be enforceable under the conditions of this division. Copies of the most recently state approved local limits shall be made available upon request through the office of the director.

E. The director may develop best management practices (BMPs), by ordinance or in wastewater discharge permits, to implement local limits and the requirements of this division. (Ord. 68-11, 2011)

17.36.100: CITY'S RIGHT OF REVISION:

The city reserves the right to establish, by ordinance or in wastewater discharge permits, more stringent standards or requirements on discharges to the POTW consistent with the purpose of this division. (Ord. 68-11, 2011)

17.36.110: DILUTION OF DISCHARGES PROHIBITED:

No user shall ever increase the use of process water, or in any way attempt to dilute a discharge as a partial or complete substitute for adequate pretreatment to achieve compliance with a discharge limitation unless expressly authorized by an applicable pretreatment standard or requirement. The director may impose mass limitations on users who are using dilution to meet applicable pretreatment standards or requirements, or in other cases when the imposition of mass limitations is appropriate pursuant to 40 CFR 403.6(c)(1). (Ord. 68-11, 2011)

17.36.120: PRETREATMENT REQUIREMENTS:

Users shall provide wastewater treatment as necessary to comply with this division and shall achieve compliance with all categorical pretreatment standards, local limits, and the prohibitions set out in section 17.36.060 of this chapter within the time limitations specified by EPA, the state, or the director, whichever is more stringent. Any facilities or equipment (e.g., continuous pH meters, ORP meters) necessary for ensuring consistent compliance shall be provided, operated, and maintained at the user's expense. Detailed plans describing such facilities, equipment and operating procedures shall be submitted to the director for review, and shall be acceptable to the director before such facilities are constructed and equipment installed. The review of such plans and operating procedures shall in no way relieve the user from the responsibility of modifying such facilities or equipment as necessary to produce a discharge acceptable to the city under the provisions of this division. Following completion of construction the director may request the user to provide copies of as built drawings to be retained by the director. Subsequent alterations or additions to such pretreatment or flow control facilities shall not be made without prior notice to the director. New sources shall install and operate all pollution control equipment required to meet applicable pretreatment standards prior to discharging to the POTW. (Ord. 68-11, 2011)

17.36.130: ADDITIONAL PRETREATMENT MEASURES:

A. Whenever deemed necessary, the director may require users to restrict their discharge during peak flow periods, designate that certain wastewater be discharged only into specific sewers, relocate and/or consolidate points of discharge, separate sewage waste streams from industrial waste streams, and such other conditions as may be necessary to protect the POTW and determine the user's compliance with the requirements of this division.

B. The director may require any person discharging into the POTW to install and maintain, on their property and at their expense, a suitable storage and flow control facility to ensure equalization of flow. A wastewater discharge permit may be issued solely for flow equalization.

C. The director may require any user with the potential to discharge flammable substances to install and maintain an approved combustible gas detection meter. (Ord. 68-11, 2011)

17.36.140: GREASE, OIL AND SAND TRAPS OR INTERCEPTORS:

A. Requirements:

1. From and after the effective date hereof, grease, oil and sand interceptors, as described by the Utah plumbing code, hereinafter interceptors, shall be required, both for any new or old business where its building is newly constructed, added to or refurbished to the extent that a building permit is required under the law, for any food processing or preparation establishments, or any other user when, in the opinion of the director, they are necessary for the proper handling of liquid wastes containing grease, or any flammable wastes, sand and other harmful ingredients, except that such interceptors shall not be required for domestic dwellings.

2. An interceptor shall be of a type and capacity which meets all applicable standards set forth in the Utah plumbing code, and all standards adopted by the director, and shall be located as to be readily accessible for cleaning by user and inspection by POTW employees.

B. Floor Drains: Any existing floor drain, such as those from interior auto maintenance shops, garages or machine shop facilities, that discharges into a storm drain system shall be plugged, or require the installation and maintenance of an interceptor, sample box and sanitary sewer connection. All new facilities will be required to meet these regulations.

C. Interceptor Construction: All interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight, and equipped with easily removable covers which, when bolted in place, shall be gastight and watertight.

D. Inspection, Approval, And Maintenance Of Interceptor: Where installed, interceptors must be inspected and approved by the city, and shall be maintained in continuous efficient operation at all times by the user at the user's sole expense.

E. Food Establishments: In the event a food processing or preparation establishment installs or has installed an interceptor pursuant to this section, the installation shall not in and of itself, relieve the user from complying with section 17.52.220 of this title. (Ord. 68-11, 2011)

17.36.150: ACCIDENTAL DISCHARGE/SLUG DISCHARGE CONTROL PLANS:

A. The director shall evaluate whether each SIU needs an accidental discharge/slug discharge control plan or other action to control slug discharges within one year after the industrial user has been designated an SIU. The director shall reevaluate each SIU every two (2) years after the initial evaluation. The director may require any user to develop, submit for approval, and implement such a plan or take such other action that may be necessary to control slug discharges. Alternatively, the director may develop such a plan for any user. An accidental discharge/slug discharge control plan shall address, at a minimum, the following:

1. Description of discharge practices, including nonroutine batch discharges;

2. Description of stored chemicals;

3. Procedures for immediately notifying the director of any accidental or slug discharge, as required by subsection 17.52.160F of this title; and

4. Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants, including solvents, and/or measures and equipment for emergency response. (Ord. 68-11, 2011)

17.36.160: HAULED WASTEWATER:

A. Septic tank waste, from domestic sources only, may be introduced into the POTW only at locations designated by the director, and at such times as are established by the director. Such waste shall not violate sections 17.36.060 through 17.36.090 of this chapter or any other requirements established by the city. The director may require septic tank waste haulers to obtain wastewater discharge permits.

B. Septic tank waste haulers may discharge loads only at locations designated by the director. No load may be discharged without prior consent of the director. The director may collect samples of each hauled load to ensure compliance with applicable standards. The director may require the septic tank waste hauler to provide a waste analysis of any load prior to discharge.

C. Septic tank waste haulers must provide a waste tracking form for every load. This form shall include, at a minimum, the name and address of the septic tank waste hauler, permit number, truck identification, names and addresses of sources of waste, and volume and characteristics of waste. The form shall certify that the wastes to be discharged are domestic in origin only and contain no industrial wastes or any wastes that are RCRA hazardous wastes.

D. Wastewater from recreational vehicles and boats shall only be discharged at dump sites designated for such use. The city reserves the right to inspect records of individual wastewater dumps from the authorized operators of each designated dump site. Detailed plans describing such facilities and operating procedures shall be submitted to the director for review, and shall be acceptable to the director before such facilities are constructed. (Ord. 68-11, 2011)

17.36.170: REPAIR OR REPLACEMENT OF SEWERS; SEWER CONTRACTOR REQUIREMENTS:

No user not licensed as a plumber or licensed and bonded contractor, pursuant to the requirements hereof, shall engage in the business of repair or replacement of a building drain or building sewer, without first obtaining a permit from the POTW and filing a corporate surety bond with the POTW in an amount to be specified by the POTW, such that the principal and surety shall hold POTW harmless from any and all injuries to persons or damage to property, and particularly to the sewer mains, caused by or through the cleaning or removal of any stoppage in any drain or sewer, and further conditioned that the principal will faithfully observe all ordinances, rules and regulations of said POTW pertaining to plumbing and sewers. (Ord. 68-11, 2011)

17.36.180: PRIVATE FACILITIES; MANDATORY CONNECTION TO SEWERS:

A. Connection Required When: The owner or the owner's agent of all houses, buildings or properties used for human occupancy, employment, recreation or other purposes, situated within the Salt Lake City sewer service area and abutting on any street, alley or right of way in which there is now located or may in the future be located a city sewer line, shall, when notified and required in writing by the city, at owner's expense, install suitable toilet facilities therein, and connect such facilities directly with the city sewer system in accordance with the provisions herein within ninety (90) days after date of official notice to do so, provided that the city sewer line is within three hundred feet (300') of the owner's property line.

B. Discontinuance Of Privy Vaults, Cesspools And Septic Tanks:

1. After date of official notice in subsection A of this section, no user, or his/her agent, or other person having charge of or occupying any property within three hundred feet (300') of a city sewer shall maintain or use or cause or permit to exist any privy vault, septic tank or cesspool upon such property without the city's written consent.

2. In no case shall any plumbing in any house or building not complying with subsection A of this section and official notice remain unconnected to any public sewer for more than ninety (90) days after written notice from the city.

C. Outhouses Prohibited: No user shall erect or maintain any outhouse or privy within the city sewer service area, except as licensed by the city. (Ord. 68-11, 2011)

17.36.190: PRIVATE SEWAGE DISPOSAL; LIMITATIONS:

A. Private Disposal Prohibited When:

1. No user shall construct, use or maintain any privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of sewage within the boundaries of POTW where POTW service is available within three hundred feet (300') of the property line of any property upon which any building, privy, privy vault, septic tank, cesspool or other facility as described above exists, except as provided in subsection B1 of this section.

2. No user shall construct, use or maintain any privy, privy vault, septic tank, cesspool or other facility intended or used for the purpose of disposal of sewage from any subdivision located within the boundaries of POTW.

3. Within ninety (90) days from the date POTW service becomes available within three hundred feet (300') of the property line of any buildings served by any private sewage disposal system, a direct connection shall be made to the POTW sewer by the owner at owner's expense in compliance with the provisions herein contained, and any septic tank, cesspool, privy or similar private sewage disposal facilities shall be immediately emptied and filled with suitable material.

B. Private Disposal Authorized When:

1. Where POTW service is not available within the limits provided in subsection A of this section, the building's sewer shall be connected to a private sewage disposal system complying with the provisions of the Salt Lake Valley health department.

2. Prior to commencement of construction of a private sewage disposal system, the user or his/her agent shall first obtain written permission from the director for submission to the Salt Lake Valley health department.

3. The user or his/her agent shall operate and maintain the private sewage disposal facilities at user's sole expense and in compliance with all applicable federal, state, and local laws, rules and regulations.

4. No statement contained in this section shall be construed to interfere with any additional requirements which may be imposed by the Salt Lake Valley health department, the Utah water quality board or the Utah state department of environmental quality. (Ord. 68-11, 2011)

17.36.200: PROHIBITED CONNECTIONS TO POTW:

No person, either in person or through an agent, employee or contractor, shall make, allow or cause to be made any sewer connection to the POTW for service, or for the purpose of servicing property outside the boundaries of the POTW, except upon the written approval of the director. Such connection to the POTW shall be made by a person who is either a bonded, state licensed sewer contractor or plumber who has obtained necessary sewer and street permits. (Ord. 68-11, 2011)

17.36.210: DISCONTINUANCE OF SERVICE:

Any user desiring to discontinue service shall notify the POTW in writing of such fact at least thirty (30) days before the date when such service shall be discontinued. Upon giving such written notice, the user shall not be responsible for bills incurred after the termination date specified in the notice. Any unused credit balance in favor of the customer as a result of an advance payment of bills or deposit will be promptly refunded upon discontinuance of service. (Ord. 68-11, 2011)

17.36.220: MANHOLE COVERS:

No user or other person shall open any POTW sewer manhole without permission from the director. (Ord. 68-11, 2011)

17.36.230: DAMAGING SEWER SYSTEM PROHIBITED:

No person shall damage, break or remove any part or portion of any POTW sewer system, or any sewer appliance or appurtenance, without the POTW's prior written consent. (Ord. 68-11, 2011)

CHAPTER 17.40
POTW SEWER CONSTRUCTION

17.40.010: DESIGN AND CONSTRUCTION MANUALS AND SPECIFICATIONS:

The size, slope alignment, materials of construction of a POTW sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench shall all conform to the requirements set forth in the code of waste disposal regulations, adopted by the Utah state water quality board pursuant to state law, and other specific requirements as set forth by the POTW. WEF "Manual Of Practice No. 9, Design And Construction Of Sanitary And Storm Sewer" (as revised), prepared by a joint committee of the Water Environment Federation and the American Society of Civil Engineers, is adopted as the general guideline for the planning, design and construction of all POTW sewers, unless modified by construction standards adopted by the POTW. All sewer main pipes installed in the public way shall be a minimum of eight inches (8") in diameter and minimum slope on sewer main pipeline shall be as follows, unless otherwise authorized in writing by the director:

Diameter	Slope
8 inch	0.40 percent
10 inch	0.30 percent
12 inch	0.20 percent
15 inch	0.15 percent
18 inch	0.10 percent
21 inch	0.09 percent
24 inch	0.08 percent
30 inch	0.06 percent

(Ord. 36-93 § 4, 1993: prior code § 37-10-1)

17.40.020: CONSTRUCTION; SEWER CONTRACTOR REQUIREMENTS:

The actual construction of the POTW sewer shall be conducted by a bonded sewer contractor licensed by the state of Utah. Prior to construction, the contractor must be approved by the director. (Ord. 36-93 § 4, 1993: prior code § 37-10-2)

17.40.030: EXCAVATIONS; SAFETY BARRICADES; RESTORATION OF SURFACES:

All excavations for POTW sewer installation shall be adequately guarded by the contractor with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored by the contractor in a manner satisfactory to the director or governing entity or agency. (Ord. 36-93 § 4, 1993: prior code § 37-10-3)

17.40.040: CONSTRUCTION; INSPECTION AND APPROVAL:

All phases of the POTW sewer construction shall be inspected and approved by the POTW. Failure to obtain the necessary inspections and approvals may result in the work being redone. All work shall be completed in accordance with the construction, testing and acceptance standards of the POTW. (Ord. 36-93 § 4, 1993: prior code § 37-10-5)

17.40.050: MAINTENANCE OF SEWERS:

All POTW mains, sewers and pipelines located within the public way, except building sewers, shall be maintained by the POTW. City owned pipelines located within easements may be maintained by the POTW pursuant only to contract. (Ord. 36-93 § 4, 1993: prior code § 37-10-4)

17.40.060: PETITIONING CONTRACTS:

All new main pipelines must be petitioned for to the public utilities director. All mains shall be extended, at a minimum, to the far end of the lot being served. All roads shall be subgraded prior to installation of the public utilities facilities. All applicable service connection fees shall be paid for each lot to be served thereby prior to installation of the main extension. All sewer mains and related facilities installed shall be subject to the acceptance of the city's department of public utilities. All conditions required by the city shall be the same as applicable sections of chapters 17.36, 17.44 and 17.48 of this title, or their successors. (Ord. 36-93 § 4, 1993: Ord. 8-90 § 3, 1990)

CHAPTER 17.44
CONSTRUCTION, CONNECTION AND REPAIR PERMITS

17.44.010: SEWER WORK; PERMIT REQUIRED:

No person shall commence or carry on the work of installing, repairing, altering or connecting any building sewer, directly or indirectly, to the POTW sewer, without first having received applicable excavation and/or sewer connection permits. (Ord. 36-93 § 5, 1993: prior code § 37-4-1)

17.44.020: PERMIT; APPLICATION FOR SEWER CONNECTIONS:

Application for permits for sewer connections must be made in writing by a licensed and bonded contractor or plumber, on an application blank furnished by the POTW. Any permit issued shall be subject to the rules and regulations of the POTW. (Ord. 36-93 § 5, 1993: prior code § 37-4-2)

17.44.030: ADDITIONAL SURVEYS OR INSPECTIONS; FEE:

In the event that the director finds the sewer connection at the building is not exposed when the inspector or surveyor visits the site to determine the materials used and/or elevation, or if the permittee has not given sufficient information when making application for a permit so that the survey can be completed, or if the permittee requests a change in the survey, an additional fee, as shown on the Salt Lake City consolidated fee schedule, shall be determined and charged by the POTW. (Ord. 24-11, 2011)

17.44.040: PERMIT; APPLICATION FOR REPAIRS AND REPLACEMENTS; FEE:

Application for permits for sewer repair or replacement of any sewer line must be made in writing by a licensed and bonded sewer contractor or plumber on an application furnished by the director. Repair or replacement of any sewer line shall be tested and inspected in accordance with standards set by the POTW. The fee shown on the Salt Lake City consolidated fee schedule shall be determined and collected by the POTW for each such inspection. (Ord. 24-11, 2011)

17.44.050: TRIAL SEWER SURVEY FEE:

In order to determine the feasibility of connecting a building to the POTW sewer, the property owner, or licensed and bonded plumber or sewer contractor may make an application for a trial sewer survey, the cost of which shall be set by the POTW and shown on the Salt Lake City consolidated fee schedule. Any payment made hereunder does not constitute payment for a permit to connect to the sewer. Such survey shall not be made until the fee is paid in full. (Ord. 24-11, 2011)

17.44.060: PERMIT; ISSUANCE CONDITIONS; SEWER ASSESSMENT PAYMENT:

A. No permit for a sewer connection shall be issued until the POTW has been paid any required assessment or surcharge in addition to the connection fee.

B. The director shall maintain a record of the payment of the assessments and fees, together with survey plats indicating the real property within POTW for which the sewer connection assessments and fees have been paid, and these records shall be open to public inspection during regular hours of the POTW. (Ord. 36-93 § 5, 1993: prior code § 37-4-15)

17.44.070: ASSESSMENTS IN ADDITION TO FEES:

The payment of any of the assessments or surcharges required by the POTW shall not relieve the owner of the payment of other fees required herein. (Ord. 36-93 § 5, 1993: prior code § 37-4-16)

17.44.080: PERMIT; NOT TRANSFERABLE:

No contractor or plumber shall use or allow his/her license to be used in any way for the purpose of procuring a permit for any person other than himself, herself, or such person's duly authorized representative. The duly licensed and bonded sewer contractor or plumber shall be responsible for any and all work done pursuant to the issuance of any permit specified hereunder, regardless of whether the work is actually done by the contractor or the contractor's duly authorized representative. (Ord. 36-93 § 5, 1993: prior code § 37-4-8)

17.44.090: TIME FOR COMPLETION OF WORK:

The work authorized by a permit hereunder shall be done with all possible speed and in accordance with POTW rules and regulations. If the work is not completed within sixty (60) days (unless a special extension is granted in writing by the POTW) the permit shall be void, no refund made for such permit, and a new permit must be obtained to finish the work. (Ord. 36-93 § 5, 1993: prior code § 37-4-9)

17.44.100: INSPECTION OF SEWER LINES; CORRECTIONS:

The inspection of sewer lines between the POTW sewer main and within three feet (3') of the building foundation shall be under the direction of the director. The POTW shall be notified on a regular working day at least twenty four (24) hours in advance of the time the permittee requests inspection. The entire length of the building sewer, including the junction at the POTW sewer shall be fully exposed. Any portion of the work not done in accordance with these requirements and the instruction of the POTW, or its inspectors, shall be corrected promptly. There shall be no backfilling until the inspection is made and the work accepted. No certificate of inspection shall be issued until the work is satisfactorily performed and accepted. (Ord. 36-93 § 5, 1993: prior code § 37-4-11)

17.44.110: REINSPECTION; ADDITIONAL FEE:

In the event that the inspector finds the connection not in conformity with POTW standards, or if any changes are necessary requiring another inspection, a charge to be set by the POTW and shown on the Salt Lake City consolidated fee schedule shall be collected for each such additional inspection. (Ord. 24-11, 2011)

17.44.120: FAILURE TO REMEDY DEFECTIVE WORK:

No further permit shall be issued to any licensed and bonded contractor or plumber who has failed to remedy defective work to the satisfaction of the director, after such contractor or plumber has been notified in writing. (Ord. 36-93 § 5, 1993: prior code § 37-4-7)

17.44.130: PERMIT; REVOCATION CONDITIONS:

The director may, at any time, revoke a permit because of defective work which has not been corrected after written notice and within the time specified therein by the director. (Ord. 36-93 § 5, 1993: prior code § 37-4-10)

17.44.140: STARTING WORK WITHOUT PERMIT; STOP WORK ORDER:

If any work requiring a permit is commenced without the necessary permits first having been obtained therefor, the POTW may immediately issue a stop work order until the proper permits are obtained, and such an offender may, in addition to any other penalties, be charged double the regular permit fee. (Ord. 36-93 § 5, 1993: prior code § 37-4-5)

17.44.150: SURVEY STAKES; REMOVAL OR COVERING PROHIBITED:

Survey stakes set by the POTW for the sewer connection must not be disturbed, removed or covered. (Ord. 36-93 § 5, 1993: prior code § 37-4-13)

17.44.160: SURVEY STAKES; RESETTING FEE:

In the event that such survey stakes are not available for the inspector to check the pipeline when inspection is required, the inspector may refuse to make an inspection of the work until stakes have been reset by the POTW and the fee to be set by the POTW and shown on the Salt Lake City consolidated fee schedule has been paid by the permittee for the restaking. (Ord. 24-11, 2011)

17.44.170: EXTENSIONS; APPLICATION AND ADVANCING OF EXPENSES:

Any person desiring to have the sewer mains within the city extended must advance the whole expense of such extension and the additional expenses necessary for sewer service or related facilities. Such person may make application to the city by petition containing a description of such proposed extension, accompanied by a map showing the location thereof, which petition shall also contain an offer to advance the whole expense of making the same, as said expense shall be certified to by the director, by either entering into a contract for installation by and all related costs to be borne by petitioner, or a contract to pay for such expense with the work to be done by or contracted for by the city. (Ord. 36-93 § 5, 1993: prior code § 37-4-17)

17.44.180: EXTENSIONS; STATEMENT OF COSTS:

Upon the receipt of such petition and map, and before the petition is granted, the mayor shall obtain from the director of public utilities a certified statement showing the whole cost and expense of making such extension. (Ord. 36-93 § 5, 1993: prior code § 37-4-18)

17.44.190: EXTENSIONS; CONSTRUCTION WORK:

If the mayor shall grant such petition, the petitioner shall either: a) enter into a contract with the city whereby the petitioner shall install the extension entirely at petitioner's expense, but pursuant only to plans and specifications prior approved by the director, or b) within thirty (30) days, or such other time as the director shall indicate after the granting thereof, deposit the amount of the cost and expense of making such extension, as certified by the director, with the city treasurer. Such work shall either be done by or contracted for by the city. (Ord. 36-93 § 5, 1993: prior code § 37-4-19)

17.44.200: EXTENSIONS; REFUND OF EXPENSES; CONDITIONS:

The certified cost of the petitioner's installation of the extension, or money deposited pursuant to section 17.44.170 or 17.44.190 of this chapter, or successor sections, may be partially or completely refunded, without interest thereon, only under the following conditions:

A. During a period of fifteen (15) years from the date on which such an extension is completed and approved in writing by the city, the city will add a charge to be refunded to the petitioner, as set forth below, for each connection made to such extension pursuant to a written request for a service lateral connection thereto from a property owner.

B. Said charge shall be a front footage charge prorated against the property to be served, based upon the cost of installation of such extension prorated over the total front footage of the petitioner's property fronting on the extension.

C. In no event shall reimbursement for any extension hereunder exceed the amount of the deposit required therefor under section 17.44.190 of this chapter, or its successor, less the prorated front footage charge against petitioner's property to be served.

D. Title to all facilities installed in connection with the extension, except service lines, shall vest in the city, and any easements and rights of way, if any, deemed necessary for such extension by the director of the department of public utilities, shall be conveyed without cost to the city prior to the commencement of any construction. (Ord. 36-93 § 5, 1993: Ord. 83-90 § 6, 1990: Ord. 59-87 § 5, 1987: prior code § 37-4-20)

17.44.210: RETURN OF CITY'S EXPENSES:

A. During a period of fifteen (15) years from the date on which an extension is completed where the city has advanced all or part of the funds for such extension and has decided to obtain a refund of expense thereof from connections thereto, the city shall make an additional proportional charge based upon the following formula for any connection to such extension pursuant to a written request for service lateral connection thereto from a property owner.

B. Such charge shall be a front footage charge prorated against the property to be served, based upon the said cost of installation of the extension prorated over the total front footage of the petitioner's property fronting on the extension. (Ord. 36-93 § 5, 1993: Ord. 83-90 § 7, 1990: Ord. 59-87 § 2, 1987: prior code § 37-4-21)

CHAPTER 17.48
BUILDING SEWERS, CONNECTIONS AND REPAIRS

17.48.010: DESIGN AND CONSTRUCTION SPECIFICATIONS:

The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench shall all conform to the requirements of the building and plumbing code or other applicable laws, rules and regulations of federal, state, and local entities, and POTW construction standards. All building sewers larger than six inches (6") in diameter shall be approved in writing by the director. (Ord. 36-93 § 6, 1993: prior code § 37-3-3)

17.48.020: SEWER SPECIFICATIONS:

A. The size of a building sewer shall be four inches (4") or six inches (6") in diameter. The minimum slope shall be:

4 inch tile	2 percent
4 inch ductile iron or PVC	1.67 percent
6 inch concrete or tile	1 percent
6 inch iron or PVC	0.89 percent
8 inch concrete or tile	0.40 percent
8 inch iron or PVC	0.40 percent

B. Acceptable materials are:

1. Vitrified clay (tile);
2. Concrete over four inches (4") in diameter;
3. Minimum SDR 35 PVC;
4. Cast iron; and
5. Ductile iron.

C. Pipe alignment of the building sewer shall be as approved by the POTW. Deviation of this section may only be considered upon written request from the owner and plumber. Approval of any such request shall be in writing by the director. (Ord. 36-93 § 6, 1993: prior code § 37-3-11)

17.48.030: SEPARATE CONNECTION FOR EACH PREMISES:

Each separate building or premises shall have a separate connection to the main sewer line, except when deemed impracticable and so found in writing by the director. Each owner will bear and pay for the maintenance and repair of such owner's building or lateral sewer. Notwithstanding the above, where a dwelling is the rear of another building and on the same building lot and owned by the same party, the director may issue a sewer permit for a multiple connection. (Ord. 36-93 § 6, 1993: prior code § 7-3-1)

17.48.040: REUSE OF OLD BUILDING SEWERS:

Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the POTW, to meet all requirements herein, otherwise, old building sewers shall be plugged at the user's expense upon discontinuance of service. Services to be disconnected permanently shall be plugged at the wye or property line as determined by the POTW. The plug in the old building sewer must be approved and an inspection fee will be charged by the POTW. (Ord. 36-93 § 6, 1993: prior code § 37-3-2)

17.48.050: CONNECTION TO POTW SEWER; REQUIREMENTS:

No person shall make any connections to, or in any manner perform any work upon any of the mains, connections or appliances pertaining to the sewer facilities of Salt Lake City until such person shall have secured a license, been registered, and where applicable, filed a performance bond guaranteeing the installation of underground sewer facilities within the city service area. The applicant for the building sewer permit shall notify the director when the building sewer is ready for inspection and connection to the POTW sewer. The connection shall be made by or under the supervision of the director or his/her representative. The connection of the building sewer to the POTW sewer shall conform to the requirements of the building and plumbing codes, or other applicable laws, rules and regulations of federal, state and local entities. All such connections shall be made watertight. A bonded licensed plumber shall install service laterals from the main to the property line at the center of the lot or such other location as is approved by the city. (Ord. 36-93 § 6, 1993: Ord. 8-90 § 4, 1990: prior code § 37-3-6)

17.48.060: BUILDING SEWER ELEVATION; LOW AREAS:

In all buildings where the elevation is too low to permit gravity flow to the POTW sewer, sanitary sewage discharge from such building shall be lifted by a POTW approved means and discharged to the sewer and operated and maintained by the user. (Ord. 36-93 § 6, 1993: prior code § 37-3-4)

17.48.070: SEPARATION FROM OTHER UTILITIES:

All utility lines or conduits shall be separated from the building sewer as required by state law. In addition, separation of culinary water line and sanitary sewer line shall be a minimum of three feet (3') of undisturbed ground from outside pipe diameter to outside pipe diameter. A sanitary sewer crossing above a culinary water line shall be of a material approved by the director and extend a minimum of ten feet (10') on either side of the water line without a joint. (Ord. 36-93 § 6, 1993: prior code § 37-3-8)

17.48.080: PIPE TO BE FREE OF DEFECTS:

All pipe shall be sound, free from holes or cracks, without traps, valves or other obstructions which might prevent or retard the free passage of air and sewage. (Ord. 36-93 § 6, 1993: prior code § 37-3-12)

17.48.090: CONNECTION OF UNLIKE PIPE; STANDARDS:

Any connection of pipes of unlike materials shall comply with the Utah plumbing code and the POTW construction standards. (Ord. 36-93 § 6, 1993: prior code § 37-3-10)

17.48.100: JOINT WHICH CONNECTS TO POTW SEWER; SPECIFICATIONS:

The connection of the "wye" onto the main sewer shall be entirely surrounded with a collar of a design specified by the POTW construction standards. Connection work shall be done only by the POTW, or in the presence of the POTW inspector. The trench shall not be backfilled until the building sewer line has been connected, tested and approved by the POTW inspector. (Ord. 36-93 § 6, 1993: prior code § 37-3-16)

17.48.110: CLEANOUT REQUIREMENTS:

A cleanout "wye" must be located immediately at the property line or as approved by the director. In all cases, the cleanout pipe from the "wye" to the surface of the finished grade must be iron or other material approved by the director, and on a slope of forty five degrees (45°). The cover must be a city director approved cleanout plug. Additional cleanouts shall be placed a minimum of fifty feet (50') apart along any four inch (4") building sewer, and every one hundred feet (100') along any six inch (6") building sewer, and at all other changes in direction. Cross supports for cleanouts shall be eighteen inches (18") below the cleanout tops. No waste or soil shall enter cleanout pipes. A test tee shall be required at or near the property line or wye as required by inspector. (Ord. 36-93 § 6, 1993: prior code § 37-3-13)

17.48.120: INSTALLATION EXPENSES:

All costs and expenses incidental to the installation and connection of the building sewer shall be borne by the applicant. The applicant shall retain or employ a licensed and bonded sewer contractor or plumber to make connection to and install a sewer. (Ord. 36-93 § 6, 1993: prior code § 37-3-5)

17.48.130: FEE; OPENING SEWER WHEN JUNCTION PIPE NOT AVAILABLE:

Where there is no junction pipe in the POTW sewer at the point where connection is desired to be made, the opening of the sewer and the installation of the junction pipe will be made by the POTW or its designee, if deemed necessary by the POTW, upon payment of the fee shown on the Salt Lake City consolidated fee schedule to cover the cost of the work. (Ord. 24-11, 2011)

17.48.140: FEE; REPLACING DAMAGED JUNCTION PIPE:

In case the junction pipe to the POTW sewer is broken off or damaged, it must be replaced. The installing of a new junction pipe will be made by the POTW or its designee upon payment of the fee shown on the Salt Lake City consolidated fee schedule to cover the cost of the work. (Ord. 24-11, 2011)

17.48.150: TESTING FOR LEAKS:

All building sewers shall be tested for leaks in the manner prescribed by POTW and in the presence of its inspector. Every joint shall be watertight before acceptance by the inspector. (Ord. 36-93 § 6, 1993: prior code § 37-3-15)

17.48.160: TRENCH SAFETY AND SURFACE RESTORATION:

Safety for all trench excavation and restoration shall be the sole responsibility of the person making the excavation. (Ord. 36-93 § 6, 1993: prior code § 37-3-14)

17.48.170: EXCAVATION BARRICADES AND PUBLIC SAFETY:

All excavations for building sewer installation shall be adequately guarded by the owner or the owner's representative with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored by the owner or the owner's representative in a manner satisfactory to the POTW and the street owner. (Ord. 36-93 § 6, 1993: prior code § 37-3-7)

17.48.180: EARTH COVER REQUIRED:

No lateral sewer line shall have less than two feet (2') of earth cover at finished grade and four feet (4') minimum over the mains, unless specifically authorized otherwise in writing by the director. (Ord. 36-93 § 6, 1993: prior code § 37-3-17)

17.48.190: MAINTENANCE RESPONSIBILITY:

All building sewers, including the connection to the POTW sewer, shall be maintained by the property owner. (Ord. 36-93 § 6, 1993: prior code § 37-3-9)

17.48.200: SURVEY AND INSPECTION:

Each building sewer will have a survey and inspection before it is accepted by the city public utilities. No survey shall be made until the inside rough plumbing has been accepted by building and housing services unless written permission is granted by the director. Any adjustments to the building sewer after such permission is granted will be at the property owner's expense. (Ord. 36-93 § 6, 1993)

CHAPTER 17.52
WASTEWATER DISCHARGE PERMITS

17.52.010: PERMIT REQUIREMENT:

A. No SIU shall discharge wastewater into the POTW without first obtaining a wastewater discharge permit from the director, except that an SIU that has filed a timely application pursuant to subsection 17.52.020B of this chapter may continue to discharge for the time period specified therein.

B. The director may require other users to obtain wastewater discharge permits as necessary to carry out the purposes of this division.

C. Any violation of the terms and conditions of a wastewater discharge permit shall be deemed a violation of this division and subjects the wastewater discharge permittee to the sanctions set out in sections 17.68.010 through 17.68.170 of this title. Obtaining a wastewater discharge permit does not relieve a permittee of its obligation to comply with all federal and state pretreatment standards or requirements or with any other requirements of federal, state, and local law. (Ord. 68-11, 2011)

17.52.020: PERMIT; PERMITTING PROCEDURES:

A. Wastewater Analysis: When requested by the director, any new or existing user must submit information on the nature and characteristics of its wastewater, including production and disposal procedures, within thirty (30) days of the request by completing a wastewater survey questionnaire. The control authority may prepare a form for this purpose and may periodically require users to update the survey. Failure to complete this survey shall be a violation of this division.

B. Existing Connections: Any user required to obtain a wastewater discharge permit who was discharging wastewater into the POTW prior to the effective date hereof and who wishes to continue such discharges in the future, shall, within ninety (90) days after said date, apply to the director for a wastewater discharge permit in accordance with section 17.52.030 of this chapter, and shall not cause or allow discharges to the POTW to continue after ninety (90) days of the effective date hereof except in accordance with a wastewater discharge permit issued by the director.

C. New Connections: Any user required to obtain a wastewater discharge permit who proposes to begin or recommence discharging into the POTW must obtain such permit prior to the beginning or recommencing of such discharge. An application for this wastewater discharge permit, in accordance with section 17.52.030 of this chapter, must be filed at least ninety (90) days prior to the date upon which any discharge will begin or recommence. (Ord. 68-11, 2011)

17.52.030: PERMIT; APPLICATION CONTENTS:

A. Users required to obtain a wastewater discharge permit shall complete and file with the POTW an application in the form prescribed by the POTW, accompanied by a fee as set forth in section 17.52.270 of this chapter. In support of the application, the user shall submit, in units and terms appropriate for evaluation, some or all of the following information:

1. Identifying Information:
   a. Name, address, telephone number and location (if different from the address) of applicant and owner of the premises (if different from the tenant when property is leased) from which industrial wastes are intended to be discharged,
   b. The name of an authorized representative duly authorized to act on behalf of the facility,
   c. Description of activities, facilities, and plant production processes on the premises.
2. Identifying Number: SIC number and/or NAICS number.
3. Environmental Permits: A list of any environmental control permits held by or for the facility.
4. Description Of Operations:
   a. A brief description of the nature, average rate of production (including each product produced by type, amount, processes, and rate of production), and standard industrial classifications of the operation(s) carried out by such user. This description should include a schematic process diagram, which indicates all points of discharge to the POTW from the regulated and unregulated processes and from dilute flows such as the domestic waste, boiler blowdown and noncontact cooling water, if any.
   b. Types of wastes generated, and a list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW. Material safety data sheets (MSDSs) of all chemicals shall be included.
   c. Number and type of employees, hours of operation, and proposed or actual hours of operation.
   d. Type and amount of raw materials processed (average and maximum per day).
   e. Site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, floor drains, and appurtenances by size, location, and elevation, and all points of discharge. If deemed necessary by the POTW, such plans shall provide for separate systems for handling sanitary and industrial wastewater.
5. Discharges: Time and duration of discharges.
6. Monitoring Location: The location for monitoring all wastes covered by the permit.
7. Flow Measurement: Information showing the measured average daily and maximum daily flow, in gallons per day, and peak wastewater flow rates, including daily, monthly and seasonal variations, if any, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined waste stream formula set out in 40 CFR 403.6(e) to determine alternate limits as described in subsection 17.36.070C of this title.
8. Measurement Of Pollutants:
   a. The categorical pretreatment standards applicable to each regulated process and any new categorically regulated processes for existing sources.
   b. The results of sampling and analysis identifying the nature and concentration, and/or mass, where required by the standard or by the director, of regulated pollutants in the discharge from each regulated process. Sampling and analysis of unregulated flows and dilute flows may also be required by the director for all pollutants suspected to be present in the flows.
   c. Instantaneous, daily maximum, and long term average concentrations, or mass, where required, shall be reported.
   d. Each required sample shall be representative of daily operations and shall be analyzed in accordance with procedures set out in section 17.52.170 of this chapter and 40 CFR part 136 as amended. Where the standard requires compliance with a BMP or pollution prevention alternative, the user shall submit documentation as required by the director or the applicable standards to determine compliance with the standard.
   e. Sampling must be performed in accordance with procedures set out in section 17.52.180 of this chapter.
9. Monitoring Waiver: Any requests for a monitoring waiver or a renewal of an approved monitoring waiver for a pollutant neither present nor expected to be present in the discharge based on subsection 17.52.160D2 of this chapter.
10. Additional O&M; Additional Pretreatment: If additional O&M and/or additional pretreatment will be required for the user to meet the pretreatment standard, then the application shall contain the shortest compliance schedule by which the SIU will provide such additional pretreatment and/or O&M. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. The schedule shall be arranged and reported to the control authority as set out in subsection 17.52.160B of this chapter.
11. Other Pertinent Information: Any other information as may be deemed necessary by the director to evaluate the permit application.
12. Signed Statement: A statement signed by an authorized representative of the industrial user as follows:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

B. Incomplete or inaccurate applications will not be processed and will be returned to the user for revision. (Ord. 68-11, 2011)

17.52.040: ZERO PROCESS WASTEWATER DISCHARGE PERMIT:

Zero discharge industrial facilities as defined in section 17.32.740 of this title must apply for and obtain a zero process wastewater discharge permit. The director may require the completion of a wastewater analysis as described in subsection 17.52.020A of this chapter. The application contents for a zero process wastewater discharge permit shall be the same as that for an industrial wastewater discharge permit as described in section 17.52.030 of this chapter. The zero process wastewater discharge permit shall require the permittee, to submit in December and June of each year, a written certification signed by an authorized representative that the facility has not discharged any process wastewater to the sanitary sewer in the last six (6) month period and does not intend to discharge process wastewater in the coming six (6) month period. Failure to submit this certification shall be deemed a violation of this division. Any detected discharge of process wastewater to the city's sanitary sewer system by a zero process discharge industrial facility at any time shall immediately subject the user to the enforcement remedies included in chapter 17.68 of this title. The zero process wastewater discharge permit may contain other limitations and requirements as deemed necessary by the director and this division. The duration of zero process wastewater discharge permits shall be the same as wastewater discharge permits as defined in section 17.52.070 of this chapter. (Ord. 68-11, 2011)

17.52.050: APPLICATION SIGNATORIES AND CERTIFICATIONS:

A. All wastewater discharge permit applications, user reports and certification statements must be signed by an authorized representative of the user and contain the certification statement in subsections 17.52.210A and 17.52.030A12 of this chapter.

B. If the designation of an authorized representative is no longer accurate because a different individual or position has responsibility for the overall operation of the facility or overall responsibility for environmental matters for the company, a new written authorization satisfying the requirements of this section must be submitted to the director prior to or together with any reports to be signed by an authorized representative.

C. A facility determined to be a nonsignificant categorical industrial user by the director pursuant to subsection 17.32.570C of this title must annually submit the signed certification statement in subsection 17.52.210B of this chapter. (Ord. 68-11, 2011)

17.52.060: PERMIT; DECISIONS:

A. Incomplete or inaccurate applications will not be processed and will be returned to the user for revision.

B. The director will evaluate the data furnished by the SIU and may require additional information. Within one hundred twenty (120) days of receipt of a complete permit application, the director will determine whether to issue a wastewater discharge permit. The director may conditionally approve or deny any application for a wastewater discharge permit. (Ord. 68-11, 2011)

17.52.070: PERMIT; DURATION:

A. A wastewater discharge permit shall remain in effect until terminated by the POTW.

B. All wastewater discharge permits shall be issued for a specified time period, not to exceed five (5) years from the effective date of the permit. A permit may be issued for a period less than five (5) years, or may be stated to expire on a specified date, at the discretion of the director. Each wastewater discharge permit shall indicate a specific date upon which it will expire. Any permit may be canceled or terminated for failure to comply with the requirements of this division. (Ord. 68-11, 2011)

17.52.080: PERMIT; CONTENTS:

A wastewater discharge permit shall include such conditions as are deemed reasonably necessary by the director to prevent pass-through or interference, protect the quality of the water body receiving the treatment plant's effluent, protect worker health and safety, facilitate sludge management and disposal, and protect against damage to the POTW.

A. Wastewater discharge permits shall contain:

1. A statement that indicates the wastewater discharge permit issuance date, expiration date and effective date (see section 17.52.070 of this chapter);
2. A statement that the wastewater discharge permit is nontransferable without prior notification to the city in accordance with section 17.52.110 of this chapter, and provisions for furnishing the new owner or operator with a copy of the existing wastewater discharge permit;
3. Effluent limits, including BMPs, based on applicable pretreatment standards;
4. Self-monitoring, sampling, reporting, notification, and recordkeeping requirements. These requirements shall include an identification of pollutants (or BMP) to be monitored, sampling location, sampling frequency, and sample type based on federal, state, and local law;
5. The process for seeking a waiver from monitoring for a pollutant neither present nor expected to be present in the discharge in accordance with subsection 17.52.160D2 of this chapter;
6. A statement of applicable civil and criminal penalties for violation of pretreatment standards and requirements, and any applicable compliance schedule. Such schedule may not extend the time for compliance beyond that required by applicable federal, state, or local law;
7. Requirements to control slug discharge, if determined by the director to be necessary; and
8. Any grant of the monitoring waiver by the director (subsection 17.52.160D2 of this chapter) shall be included as a condition in the user's permit.

B. Wastewater discharge permits may contain, but need not be limited to, the following conditions:

1. Requirements for the payment of the then current unit charge or schedule of user charges and fees for the wastewater to be discharged to the POTW;
2. Limits on the average and/or maximum rate and time of discharge and/or requirements for flow regulation and equalization;
3. Requirements for the installation of pretreatment technology, pollution control, or construction of appropriate containment devices, designed to reduce, eliminate, or prevent the introduction of pollutants into the treatment works;
4. Requirements for the development and implementation of spill control plans in accordance with section 17.35.150 of this title or other special conditions including management practices necessary to adequately prevent accidental, unanticipated, or nonroutine discharges; facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the industrial user's own cost and expense. Review and approval of such plans and operating procedures shall not relieve the industrial user from the responsibility to modify the industrial user's facility as necessary to meet the requirements hereof. In the case of an accidental discharge, the industrial user shall implement the requirements set out in subsections 17.52.160F1 through F4 of this chapter;
5. Requirements for installation and maintenance of inspection and sampling facilities including flow measurement devices as contained in section 17.52.220 of this chapter;
6. Requirements for the director to implement the judicially enforceable remedies outlined in sections 17.68.010 through 17.68.170 of this title according to the city's enforcement response plan;
7. Requirements for submission of technical reports or discharge reports;
8. Requirements for maintaining and retaining records relating to wastewater discharge, as specified by the POTW, and affording POTW access thereto;
9. Requirements for development and implementation of waste minimization plans to reduce the amount of pollutants discharged to the POTW;
10. Requirements for notification of the POTW of any new introduction of wastewater constituents or any substantial change in the volume or character of the wastewater constituents being introduced into the wastewater treatment system. The city reserves the ability to accept or deny any proposed changes to the wastewater discharges at the facility;
11. Requirements for separate systems to handle sanitary and industrial wastewater, such that in the event that the user's industrial wastewater is or could cause an interference or a potential interference with the POTW, that the industrial wastewater could be severed, preventing discharge into the POTW and still allowing the user's sanitary wastewater to discharge into the POTW;
12. A statement that compliance with the wastewater discharge permit does not relieve the permittee of responsibility for compliance with all applicable federal and state pretreatment standards, including those which become effective during the term of the wastewater discharge permit;
13. Production rates where mass discharge limits are required; and
14. Other conditions as deemed appropriate by the director to ensure compliance with this chapter, and state and federal laws, rules, and regulations. (Ord. 68-11, 2011)

17.52.090: PERMIT; ISSUANCE APPEAL PROCESS:

Upon issuance of the wastewater discharge permit, any person including the applicant shall have forty five (45) days to file in writing objections to any term or condition of the permit and:

A. If no objections are received by the city within this time, the permit is deemed to be accepted.

B. In its objection, the appealing party must indicate the individual wastewater discharge permit provisions objected to, the reasons for this objection, and the alternative condition, if any, it seeks to place in the individual wastewater discharge permit sections.

C. If a timely objection is filed and agreement cannot be reached with the POTW, the POTW may submit to the director the proposed permit conditions and the written objections thereto.

D. The effectiveness of the individual wastewater discharge permit shall not be stayed pending the appeal.

E. The director shall establish such special permit conditions as he or she deems advisable to ensure the applicant's compliance with this division or applicable law or regulation, and direct the POTW to issue a wastewater discharge permit accordingly.

F. Appeals of decisions made by the director may be brought before the public utilities advisory committee (PUAC), which may reevaluate the issues raised on appeal. Decisions of the PUAC shall be considered final administrative actions for purposes of judicial review.

G. Decisions by the PUAC not to reconsider an individual wastewater discharge permit, not to issue an individual wastewater discharge permit, or not to modify an individual wastewater discharge permit shall also be considered final administrative actions for purposes of judicial review; if a decision is not made by the PUAC within ninety (90) days of receipt of a written request, such request will be deemed denied.

H. Aggrieved parties seeking judicial review of the final administrative individual wastewater discharge permit decision must do so by filing a complaint with the state of Utah third district court within thirty (30) days of the date of final action. (Ord. 68-11, 2011)

17.52.100: PERMIT; MODIFICATIONS AND REVISIONS:

A. The director may modify a wastewater discharge permit for good cause, including, but not limited to, the following reasons:

1. To incorporate any new or revised federal, state, or local pretreatment standards or requirements;
2. To address significant alterations or additions to the user's operation, processes, or wastewater volume or character since the time of the wastewater discharge permit issuance;
3. A change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;
4. Information indicating that the permitted discharge poses a threat to the POTW personnel, beneficial sludge use or the receiving waters;
5. Violation of any terms or conditions of the wastewater discharge permit;
6. Misrepresentations or failure to fully disclose all relevant facts in the wastewater discharge permit application or in any required reporting;
7. Revision of or a grant of variance from categorical pretreatment standards pursuant to 40 CFR 403.13;
8. To correct typographical or other errors in the wastewater discharge permit; or
9. To reflect a transfer of the facility ownership or operation to a new owner or operator where requested in accordance with section 17.52.110 of this chapter. (Ord. 68-11, 2011)

17.52.110: PERMIT; TRANSFER:

A. Wastewater discharge permits may be transferred to a new owner or operator only if the permittee gives at least sixty (60) days' advance notice to the director and the director approves the wastewater discharge permit transfer. The notice to the director must include a written certification by the new owner or operator which:

1. States that the new owner and/or operator has no immediate intent to change the facility's operations and processes;
2. Identifies the specific date on which the transfer is to occur;
3. Acknowledges full responsibility for complying with the existing wastewater discharge permit; and
4. The conditions of the permit will not change.

B. Failure to provide advance notice of a transfer renders the wastewater discharge permit void as of the date of facility transfer. (Ord. 68-11, 2011)

17.52.120: PERMIT; SUSPENSION AND REVOCATION:

The director may revoke a wastewater permit for good cause, including, but not limited to, the following reasons:

A. Failure to notify the director of significant changes to the wastewater prior to the changed discharge;

B. Failure to provide prior notification to the director of changed conditions pursuant to subsection 17.52.160E of this chapter;

C. Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application;

D. Falsifying self-monitoring reports or certification statements;

E. Tampering with monitoring equipment;

F. Refusing to allow the director timely access to the facility premises or records;

G. Failure to meet effluent limitations;

H. Failure to pay fines;

I. Failure to pay sewer charges;

J. Failure to meet compliance schedules;

K. Failure to complete a wastewater survey or the wastewater discharge permit application;

L. Failure to provide advance notice of the transfer of business ownership of a permitted facility; or

M. Violation of any pretreatment standard or requirement, or any terms of the wastewater discharge permit or this division.

Wastewater discharge permits shall be voidable upon nonoperation of a permitted facility, cessation of operations or unreported transfer of business ownership. All existing wastewater discharge permits issued to a user are void upon the reissuance of a new wastewater discharge permit to that user. (Ord. 68-11, 2011)

17.52.130: PERMIT; REISSUANCE:

A user with an expiring wastewater discharge permit shall apply for a wastewater discharge permit reissuance by submitting a complete permit application, in accordance with section 17.52.030 of this chapter, a minimum of ninety (90) days prior to the expiration of the user's existing wastewater discharge permit. (Ord. 68-11, 2011)

17.52.140: SPECIAL AGREEMENTS AND CONTRACTS:

A. Special User Agreement: No statement contained in this section shall be construed as prohibiting special written agreements between the POTW and any other user allowing industrial waste or wastewater of unusual strength or character to be admitted to the POTW, provided the user compensates the POTW for any additional costs of treatment. The POTW shall determine the wastewater criteria, and volume characteristics used to calculate any additional cost of treatment. In no case will a special agreement waive compliance with a pretreatment standard or requirement. However, the industrial user may request a variance from the categorical pretreatment standard from the EPA. Such a request will be approved only if the industrial user can prove that factors relating to its discharge are fundamentally different from the factors considered by EPA when establishing that pretreatment standard. An industrial user requesting a fundamentally different factor variance must comply with the procedural and substantive provisions in 40 CFR 403.13 and rule R317-8-8.17 UAC;

B. Contracts With Other POTWs: Whenever there is excess POTW sewage treatment capacity, the POTW may contract with any other organized and established sewage treatment plant or with any other governmental agency or private enterprise for the discharge into the POTW from any part or parts thereof, or person living outside the boundaries of the POTW, upon such terms and conditions and for such periods of time as may be deemed reasonable. (Ord. 68-11, 2011)

17.52.150: REGULATION OF WASTE RECEIVED FROM OTHER JURISDICTIONS:

A. If another municipality, special district, government entity, or other jurisdiction authority connects to or contributes wastewater to the POTW, the director shall enter into an interagency agreement with that entity.

B. Prior to entering into an agreement required by subsection A of this section, the director shall request the following information from the contributing municipality:

1. A description of the quality and volume of wastewater discharged to the POTW by the contributing municipality;

2. An inventory of all users located within the contributing municipality that are discharging to the POTW; and

3. Such other information as the director may deem necessary.

C. An intermunicipal agreement, as required by subsection A of this section, shall contain the following conditions:

1. A requirement for the contributing municipality to adopt a sewer use ordinance which is at least as stringent as this division and local limits, including required baseline monitoring reports (BMRs) which are at least as stringent as those set out in subsection 17.36.090E of this title. The requirement shall specify that such ordinance and limits must be revised as necessary to reflect changes made to the city's ordinance or local limits;

2. A requirement for the contributing municipality to submit a revised user inventory on at least an annual basis;

3. A provision specifying which pretreatment implementation activities, including wastewater discharge permit issuance, inspection and sampling, and enforcement, will be conducted by the contributing municipality; which of these activities will be conducted by the city and which of these activities will be conducted jointly by the contributing municipality and the city;

4. A requirement for the contributing municipality to provide the city with access to all information that the contributing municipality obtains as part of its pretreatment activities;

5. Limits on the nature, quality, and volume of the contributing municipality's wastewater at the point where it discharges to the POTW;

6. Requirements for monitoring the contributing municipality's discharge;

7. A provision ensuring the city access to the facilities of users located within the contributing municipality's jurisdictional boundaries for the purpose of inspection, sampling, and any other duties deemed necessary by the city; and

8. A provision specifying remedies available for breach of the terms of the intermunicipal agreement. (Ord. 68-11, 2011)

17.52.160: REPORTING REQUIREMENTS:

A. Baseline Monitoring Reports: Within either one hundred eighty (180) days after the effective date of a categorical pretreatment standard, or the final administrative decision on a category determination under 40 CFR 403.6(a)(4), whichever is later, existing CIUs currently discharging to or scheduled to discharge to the POTW shall submit to the director a report which contains the information listed in subsections A1 through A5 of this section. At least ninety (90) days prior to commencement of their discharge, new sources, and sources that become CIUs subsequent to the promulgation of an applicable categorical standard, shall submit to the director a report which contains the information listed in subsections A1 through A5 of this section. A new source shall report the method of pretreatment it intends to use to meet applicable categorical standards. A new source also shall give estimates of its anticipated flow and quantity of pollutants to be discharged.

Users described above shall submit the information set forth below:

1. Report Information: All information required in subsections 17.52.030A1a, A3, A4a, and A7 of this chapter.

2. Measurement Of Pollutants:

a. The user shall provide the information required in subsections 17.52.030A8a through A8d of this chapter;

b. The user shall take a minimum of one representative sample to compile that data necessary to comply with the requirements of this paragraph;

c. Samples should be taken immediately downstream from pretreatment facilities if such exist or immediately downstream from the regulated process if no pretreatment exists. If other wastewaters are mixed with the regulated wastewater prior to pretreatment the user should measure the flows and concentrations necessary to allow use of the combined waste stream formula in 40 CFR 403.6(e) to evaluate compliance with the pretreatment standards. Where an alternate concentration or mass limit has been calculated in accordance with 40 CFR 403.6(e) this adjusted limit along with supporting data shall be submitted to the control authority;

d. Sampling and analysis shall be performed in accordance with sections 17.52.170 and 17.52.180 of this chapter;

e. The director may allow the submission of a baseline report which utilizes only historical data so long as the data provides information sufficient to determine the need for industrial pretreatment measures; and

f. The baseline report shall indicate the time, date and place of sampling and methods of analysis, and shall certify that such sampling and analysis is representative of normal work cycles and expected pollutant discharges to the POTW.

3. Compliance Certification: A statement, reviewed by the user's authorized representative as defined in section 17.32.080 of this title and certified by a qualified professional, indicating whether pretreatment standards are being met on a consistent basis, and, if not, whether additional operation and maintenance (O&M) and/or additional pretreatment is required to meet the pretreatment standards and requirements.

4. Compliance Schedule: If additional pretreatment and/or O&M will be required for the user to meet the pretreatment standards, the shortest schedule by which the user will provide such additional pretreatment and/or O&M must be provided. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. A compliance schedule pursuant to this section must meet the requirements set out in subsection B of this section.

5. Signature And Report Certification: All baseline monitoring reports must be certified in accordance with subsection 17.52.210A of this chapter and signed by an authorized representative as defined in section 17.32.080 of this title.

B. Compliance Schedule Progress Reports: The following conditions shall apply to the compliance schedules required by subsections 17.52.030A10 of this chapter and A4 of this section:

1. The schedule shall contain progress increments in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (such events include, but are not limited to, hiring an engineer, completing preliminary and final plans, executing contracts for major components, commencing and completing construction, and beginning and conducting routine operation);

2. No increment referred to above shall exceed nine (9) months nor shall the total compliance period exceed eighteen (18) months;

3. The user shall submit a progress report to the director no later than fourteen (14) days following each date in the schedule and the final date of compliance including, as a minimum, whether or not it complied with the increment of progress, the reason for any delay, and, if appropriate, the steps being taken by the user to return to the established schedule; and

4. In no event shall more than nine (9) months elapse between such progress reports to the director.

C. Reports On Compliance With Categorical Pretreatment Standard Deadline:

1. Within ninety (90) days following the date for final compliance with applicable categorical pretreatment standards, or in the case of a new source following commencement of the introduction of wastewater into the POTW, any user subject to such pretreatment standards and requirements shall submit to the director a report containing the information described in subsections 17.52.030A7 and A8 of this chapter and A2 of this section. For users subject to equivalent mass or concentration limits established in accordance with the procedures in section 17.36.070 of this title, this report shall contain a reasonable measure of the user's long term production rate. For all other users subject to categorical pretreatment standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the user's actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with subsection 17.52.210A of this chapter. All sampling will be done in conformance with section 17.52.180 of this chapter.

D. Periodic Compliance Reports:

1. Except as specified in subsection D3 of this section, all SIUs must, at a frequency determined by the director submit no less than twice per year (June and December or on dates specified) reports indicating the nature, concentration of pollutants in the discharge which are limited by pretreatment standards and the measured or estimated average and maximum daily flows for the reporting period. In cases where the pretreatment standard requires compliance with a BMP or pollution prevention alternative, the user must submit documentation required by the director or the pretreatment standard necessary to determine the compliance status of the user.

2. The city may authorize an industrial user subject to a categorical pretreatment standard to forgo sampling of a pollutant regulated by a categorical pretreatment standard if the industrial user has demonstrated through sampling and other technical factors that the pollutant is neither present nor expected to be present in the discharge, or is present only at background levels from intake water and without any increase in the pollutant due to activities of the industrial user. This authorization is subject to the following conditions:

a. The waiver may be authorized where a pollutant is determined to be present solely due to sanitary wastewater discharged from the facility provided that the sanitary wastewater is not regulated by an applicable categorical standard and otherwise includes no process wastewater;

b. The monitoring waiver is valid only for the duration of the effective period of the wastewater discharge permit, but in no case longer than five (5) years. The user must submit a new request for the waiver before the waiver can be granted for each subsequent wastewater discharge permit (see subsection 17.52.030A9 of this chapter);

c. In making a demonstration that a pollutant is not present, the industrial user must provide data from at least one sampling of the facility's process wastewater prior to any treatment present at the facility that is representative of all wastewater from all processes;

d. The request for a monitoring waiver must be signed in accordance with section 17.32.080 of this title, and include the certification statement in subsection 17.52.210A of this chapter;

e. Nondetectable sample results may be used only as a demonstration that a pollutant is not present if the EPA approved method from 40 CFR part 136 with the lowest minimum detection level for that pollutant was used in the analysis;

f. Any grant of the monitoring waiver by the director must be included as a condition in the user's permit. The reasons supporting the waiver and any information submitted by the user in its request for the waiver must be maintained by the director for five (5) years after expiration of the waiver;

g. Upon approval of the monitoring waiver and revision of the user's permit by the director, the industrial user must certify on each report with the statement in subsection 17.52.210C of this chapter, that there has been no increase in the pollutant in its waste stream due to activities of the industrial user;

h. In the event that a waived pollutant is found to be present or is expected to be present because of changes that occur in the user's operations, the user must immediately: Comply with the monitoring requirements of subsection D1 of this section, or other more frequent monitoring requirements imposed by the director, and notify the director; and

i. This provision does not supersede certification processes and requirements established in categorical pretreatment standards, except as otherwise specified in the categorical pretreatment standard.

3. The city may reduce the requirement for periodic compliance reports (see subsection D1 of this section) to a requirement to report no less frequently than once a year, unless required more frequently in the pretreatment standard or by the EPA/state, where the industrial user's total categorical wastewater flow does not exceed any of the following:

a. 0.01 percent of the POTW's design dry weather hydraulic capacity, or five thousand (5,000) gallons per day, whichever is smaller, as measured by a continuous effluent flow monitoring device unless the industrial user discharges in batches;

b. 0.01 percent of the POTW's design dry weather organic treatment capacity; and

c. 0.01 percent of the POTW's maximum allowable headworks loading for any pollutant regulated by the applicable categorical pretreatment standard for which approved local limits were developed in accordance with section 17.36.090 of this title.

Reduced reporting is not available to industrial users that have in the last two (2) years been in significant noncompliance, as defined in section 17.32.580 of this title. In addition, reduced reporting is not available to an industrial user with daily flow rates, production levels, or pollutant levels that vary so significantly that, in the opinion of the director, decreasing the reporting requirement for this industrial user would result in data that are not representative of conditions occurring during the reporting period.

4. All periodic compliance reports must be signed and certified in accordance with subsection 17.52.210A of this chapter.

5. All wastewater samples must be representative of the user's discharge. Wastewater monitoring and flow measurement facilities shall be properly operated, kept clean, and maintained in good working order at all times. The failure of a user to keep its monitoring facility in good working order shall not be grounds for the user to claim that sample results are unrepresentative of its discharge.

6. If a user subject to the reporting requirement in this section monitors any regulated pollutant at the appropriate sampling location more frequently than required by the director, using the procedures prescribed in section 17.52.180 of this chapter, the results of this monitoring shall be included in the report.

E. Reports Of Changed Conditions: Each user must notify the director of any significant changes to the user's operations or system which might alter the nature, quality, or volume of its wastewater at least thirty (30) days before the change.

1. The director may require the user to submit such information as may be deemed necessary to evaluate the changed condition, including the submission of a wastewater discharge permit application under section 17.52.030 of this chapter.

2. The director may issue a wastewater discharge permit under section 17.52.130 of this chapter or modify an existing wastewater discharge permit under section 17.52.100 of this chapter in response to changed conditions or anticipated changed conditions.

F. Reports Of Potential Problems:

1. In the case of any discharge, including, but not limited to, accidental discharges, discharges of a nonroutine, episodic nature, a noncustomary batch discharge, a slug discharge or slug load, that might cause potential problems for the POTW, the user shall immediately telephone and notify the director of the incident. This notification shall include the location of the discharge, type of waste, concentration and volume, if known, and corrective actions taken by the user.

2. Within five (5) days following such discharge, the user shall, unless waived by the director, submit a detailed written report describing the cause(s) of the discharge and the measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which might be incurred as a result of damage to the POTW, natural resources, or any other damage to person or property; nor shall such notification relieve the user of any fines, penalties, or other liability which may be imposed pursuant to this division.

3. A notice shall be permanently posted on the user's bulletin board or other prominent place advising employees who to call in the event of a discharge described in subsection F1 of this section. Employers shall ensure that all employees, who could cause such a discharge to occur, are advised of the emergency notification procedure.

4. SIUs are required to notify the director immediately of any changes at its facility affecting the potential for a slug discharge.

G. Reports From Unpermitted Users: All users not required to obtain a wastewater discharge permit shall provide appropriate reports to the director as the director may require.

H. Notice Of Violation/Repeat Sampling And Reporting: If sampling performed by a user indicates a violation, the user must notify the director within twenty four (24) hours of becoming aware of the violation. The user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the director within thirty (30) days after becoming aware of the violation. Resampling by the industrial user is not required if the city performs sampling at the user's facility at least once a month, or if the city performs sampling at the user between the time when the initial sampling was conducted and the time when the user or the city receives the results of this sampling, or if the city has performed the sampling and analysis in lieu of the industrial user. If the city performs the sampling and analysis in lieu of the industrial user and a violation occurs, the city will perform the repeat sampling and analysis unless it notifies the user of the violation and requires the user to perform the repeat sampling and analysis.

I. Notification Of The Discharge Of Hazardous Waste:

1. Any user who commences the discharge of hazardous waste shall notify the POTW, the EPA regional waste management division director, and state hazardous waste authorities, in writing, of any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 CFR part 261. Such notification must include the name of the hazardous waste as set forth in 40 CFR part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other). If the user discharges more than one hundred (100) kilograms of such waste per calendar month to the POTW, the notification also shall contain the following information to the extent such information is known and readily available to the user: an identification of the hazardous constituents contained in the wastes, an estimation of the mass and concentration of such constituents in the waste stream discharged during that calendar month, and an estimation of the mass of constituents in the waste stream expected to be discharged during the following twelve (12) months. All notifications must take place no later than one hundred eighty (180) days after the discharge commences. Any notification under this paragraph need be submitted only once for each hazardous waste discharged. However, notifications of changed conditions must be submitted under subsection E of this section. The notification requirement in this section does not apply to pollutants already reported by users subject to categorical pretreatment standards under the self-monitoring requirements of subsections A, C, and D of this section.

2. Dischargers are exempt from the requirements of subsection I1 of this section, during a calendar month in which they discharge no more than fifteen (15) kilograms of hazardous wastes, unless the wastes are acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e). Discharge of more than fifteen (15) kilograms of nonacute hazardous wastes in a calendar month, or of any quantity of acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e), requires a onetime notification. Subsequent months during which the user discharges more than such quantities of any hazardous waste do not require additional notification.

3. In the case of any new regulations under section 3001 of RCRA identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the user must notify the director, the EPA regional waste management waste division director, and state hazardous waste authorities of the discharge of such substance within ninety (90) days of the effective date of such regulations.

4. In the case of any notification made under this section, the user shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.

5. This provision does not create a right to discharge any substance not otherwise permitted to be discharged by this division, a permit issued thereunder, or any applicable federal or state law. (Ord. 68-11, 2011)

17.52.170: ANALYTICAL REQUIREMENTS:

A. All pollutant analyses, including sampling techniques, to be submitted as part of a wastewater discharge permit application or report shall be performed in accordance with the techniques prescribed in 40 CFR part 136 "guidelines establishing test procedures for the analysis of pollutants", and amendments thereto, unless otherwise specified in an applicable categorical pretreatment standard. If 40 CFR part 136 does not contain sampling or analytical techniques for the pollutant in question, or where the EPA determines that the part 136 sampling and analytical techniques are inappropriate for the pollutant in question, sampling and analyses shall be performed by using validated analytical methods or any other applicable sampling and analytical procedures, including procedures suggested by the director or other parties approved by EPA.

B. All laboratory samples collected for this division shall be analyzed by a laboratory that is either certified by the Utah bureau of laboratory improvements or approved by the director. (Ord. 68-11, 2011)

17.52.180: SAMPLE COLLECTION:

Samples collected to satisfy reporting requirements must be based on data obtained through appropriate sampling and analysis performed during the period covered by the report, based on data that is representative of conditions occurring during the reporting period.

A. Except as indicated in subsections B and C of this section, the user must collect wastewater samples using twenty four (24) hour flow proportional composite sampling techniques, unless time proportional composite sampling or grab sampling is authorized by the director. Where time proportional composite sampling or grab sampling is authorized by the city, the samples must be representative of the discharge. Using protocols (including appropriate preservation) specified in 40 CFR part 136 and appropriate EPA guidance, multiple grab samples collected during a twenty four (24) hour period may be composited prior to the analysis as follows: For cyanide, total phenols, and sulfides the samples may be composited in the laboratory or in the field; for volatile organics and oil and grease, the samples may be composited in the laboratory. Composite samples for other parameters unaffected by the compositing procedures as documented in approved EPA methodologies may be authorized by the city, as appropriate. In addition, grab samples may be required to show compliance with instantaneous limits.

B. Samples for oil and grease, temperature, pH, cyanide, total phenols, sulfides, and volatile organic compounds must be obtained using grab collection techniques.

C. For sampling required in support of baseline monitoring and ninety (90) day compliance reports required in subsections 17.52.160A and C of this chapter a minimum of four (4) grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide and volatile organic compounds for facilities for which historical sampling data do not exist; for facilities for which historical sampling data are available, the director may authorize a lower minimum. For the reports required by subsection 17.52.160D of this chapter, the industrial user is required to collect the number of grab samples necessary to assess and assure compliance with applicable pretreatment standards and requirements. (Ord. 68-11, 2011)

17.52.190: DATE OF RECEIPT OF REPORTS:

For written reports that are mailed through a mail facility serviced by the United States postal service, such reports will be deemed to have been submitted on the date postmarked. For written reports that are shipped using other common reliable carriers, the carrier's pick up or ship date will be deemed the submittal date. If a postmark or pick up/ship date is not available, the date of receipt of the report shall govern. (Ord. 68-11, 2011)

17.52.200: RECORDKEEPING:

Users subject to the reporting requirements of this division shall retain, and make available for inspection and copying by the director, all records of information obtained pursuant to any monitoring activities required by this division, any additional records of information obtained pursuant to monitoring activities undertaken by the user independent of such requirements, and documentation associated with BMPs established under subsection 17.36.090E of this title. Records shall include the date, exact place, method, and time of sampling, and the name of the person(s) taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. These records shall remain available for a period of at least five (5) years. This period shall be automatically extended for the duration of any litigation concerning the user or the city, or where the user has been specifically notified of a longer retention period by the director. (Ord. 68-11, 2011)

17.52.210: CERTIFICATION STATEMENTS:

A. Certification Of Permit Applications, User Reports And Initial Monitoring Waiver: The following certification statement is required to be signed and submitted by users submitting permit applications in accordance with section 17.52.020 of this chapter; users submitting baseline monitoring reports under subsection 17.52.160A5 of this chapter; users submitting reports on compliance with the categorical pretreatment standard deadlines under subsection 17.52.160C of this chapter; users submitting periodic compliance reports required by subsections 17.52.160D1 through D4 of this chapter, and users submitting an initial request to forgo sampling of a pollutant on the basis of subsection 17.52.160D2d of this chapter. The following certification statement must be signed by an authorized representative as defined in section 17.32.080 of this title:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

B. Annual Certification For Nonsignificant Categorical Industrial Users: A facility determined to be a nonsignificant categorical industrial user by the director pursuant to subsections 17.32.570C of this title and 17.52.050C of this chapter, must annually submit the following certification statement signed in accordance with the signatory requirements in section 17.32.080 of this title. This certification must accompany an alternative report required by the director:

Based on my inquiry of the person or persons directly responsible for managing compliance with the categorical Pretreatment Standards under 40 CFR , I certify that, to the best of my knowledge and belief that during the period from , to , [months, days, year]:

(a) The facility described as [facility name] met the definition of a Non-Significant Categorical Industrial User as described in section 17.32.570 C;

(b) The facility complied with all applicable Pretreatment Standards and requirements during this reporting period; and

(c) The facility never discharged more than 100 gallons of total categorical wastewater on any given day during this reporting period.

This compliance certification is based on the following information.

C. Certification Of Pollutants Not Present: Users that have an approved monitoring waiver based on subsection 17.52.160D2 of this chapter must certify on each report with the following statement that there has been no increase in the pollutant in its waste stream due to activities of the user:

Based on my inquiry of the person or persons directly responsible for managing compliance with the Pretreatment Standard for 40 CFR [specify applicable National Pretreatment Standard part(s)], I certify that, to the best of my knowledge and belief, there has been no increase in the level of [list pollutant(s)] in the wastewaters due to the activities at the facility since filing of the last periodic report under section 17.52.160.D.

(Ord. 68-11, 2011)

17.52.220: MONITORING FACILITIES FOR INDUSTRIAL USERS:

A. The director may require the industrial user to provide and operate, a control manhole or sample box or other monitoring equipment at the owner's expense approved by the director, at a point to be determined by the POTW where representative samples of all regulated discharges from the industry can be collected and flow measurements accurately made as necessary. The monitoring facilities shall be situated on the user's premises or such other location as allowed by the POTW. The POTW will be allowed to use these monitoring facilities to sample at any time and without notice in accordance with section 17.52.230 of this chapter.

B. There shall be ample room in or near such monitoring manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the user. All devices used to measure wastewater flow and quality shall be periodically calibrated as specified by the director to ensure their accuracy, but at a minimum, the calibration shall occur per the manufacturer's requirements.

C. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the user at the written or verbal request of the director and shall not be replaced. The costs of clearing such access shall be borne by the user.

D. An industrial user may be required to provide at their expense a city approved instantaneous and totalizing approved flow meter on their industrial discharges if deemed necessary by the director.

E. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the POTW's requirements and all applicable local construction standards and specifications. The construction schedule shall be submitted to the POTW for prior approval, and construction shall be completed within a time specified by written notification from the POTW. (Ord. 68-11, 2011)

17.52.230: RIGHT OF ENTRY; INSPECTION AND SAMPLING:

The director or the duly authorized representatives shall have the right to enter the premises of any user to determine whether the user is complying with all requirements of this division and any wastewater discharge permit or order issued hereunder. All users shall allow the director or the duly authorized representatives ready access to all parts of the premises for the purpose of inspection, sampling, records examination and copying, and/or in the performance of any of its duties.

A. Identification shall be provided by the director for all inspectors or other authorized personnel and these personnel shall identify themselves when entering any property for inspection purposes or when inspecting the work of any contractor.

B. The POTW or other authorized regulatory agencies shall have the right to set upon the user's property or any other representative location such devices as are deemed necessary to conduct sampling inspection, compliance monitoring and/or metering of the user's operations.

C. Where a user has security measures in force prior arrangements will be made with their security guards so that upon presentation of suitable identification, personnel from the POTW, city, county, state and EPA will be permitted to enter, without delay, for the purposes of performing their specific responsibilities.

D. Unreasonable delays in allowing the director access to the user's premises shall be a violation of this division. (Ord. 68-11, 2011)

17.52.240: SEARCH WARRANT:

If the director or duly authorized officer or agent of the POTW has been refused access to a building, structure, or property, or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this division, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the city designed to verify compliance with this division or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, the director may seek issuance of a search warrant from the third district court of the state of Utah. (Ord. 68-11, 2011)

17.52.250: CONFIDENTIAL INFORMATION AND TRADE SECRETS:

Information and data on a user obtained from reports, surveys, wastewater discharge permit applications, wastewater discharge permits, and monitoring programs, and from the director's inspection and sampling activities, shall be available to the public without restriction, unless the user specifically requests, and is able to demonstrate to the satisfaction of the director, that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets under the provisions of the Utah government records access and management act (GRAMA) or other applicable state law. Any such request must be asserted at the time of submission of the information or data. When requested and demonstrated by the user furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available immediately upon request to governmental agencies for uses related to the UPDES program or pretreatment program, and in enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics and other effluent data, as defined at 40 CFR 2.302 shall not be recognized as confidential information and shall be available to the public without restriction. (Ord. 68-11, 2011)

17.52.260: PUBLICATION OF USERS IN SIGNIFICANT NONCOMPLIANCE:

A. The POTW shall publish annually, providing public notification in the largest daily newspaper published in Salt Lake City, a list of all industrial users which were in significant noncompliance with applicable pretreatment standards and requirements at any time during the previous twelve (12) month reporting period. All records relating to compliance with pretreatment standards shall be made available to officials of the EPA or approval authority and to the public pursuant to city policy and the Utah government records access and management act.

B. The term significant noncompliance as defined in section 17.32.580 of this title shall be applicable to all SIUs (or any other industrial user that violates subsection 17.32.580C, D or H of this title). (Ord. 68-11, 2011)

17.52.270: FEES:

A. When Due; Delinquency: The fees provided for in this section are separate and distinct from all other fees chargeable by the city. All fees shall become immediately due and owing to the city upon receipt of invoice for rendition of services or expenditure by the city and shall become delinquent if not fully paid within forty five (45) days after receipt.

B. Permit Fees: Each wastewater discharge permit application filed pursuant to this division shall be accompanied by an application fee. The fees for these services are listed in a separate document entitled "Salt Lake City consolidated fee schedule". This document is incorporated in this chapter by reference.

C. Fees For City Sampling And Laboratory Analyses Of Wastewater: When the city performs sampling and contracts with a certified laboratory for the analysis of an industrial user's wastewater discharge, the fees for these services are listed in a separate document entitled "Salt Lake City consolidated fee schedule". This document is incorporated in this chapter by reference.

D. Fees For Demand Monitoring, Inspections And Surveillance: Costs incurred by the city for demand monitoring, inspection and surveillance procedures necessary as a result of a violation shall be chargeable and billed to the user whose conduct has necessitated such activity. The fees for these services are listed in a separate document entitled "Salt Lake City consolidated fee schedule". This document is incorporated in this chapter by reference.

E. Administrative Fees: Fees for administrative efforts such as, but not limited to, conciliation and show cause meetings not otherwise specifically covered in this section, and the result of an administrative effort brought about as a result of a violation shall be chargeable to the user whose conduct has necessitated such activity. The fees for these services are listed in a separate document entitled "Salt Lake City consolidated fee schedule". This document is incorporated in this chapter by reference. (Ord. 68-11, 2011)

CHAPTER 17.56
MOBILE HOME PARKS, RECREATIONAL FACILITIES AND SUBDIVISIONS

17.56.010: SEWAGE FACILITIES; APPROVAL PREREQUISITE TO RECORDATION:

All persons, contractors, builders, operators, subdividers and developers shall conform with this chapter and regulations and shall apply to the POTW office for written approval of any proposed sewage collection facilities for their mobile home parks, subdivisions or other developments prior to recordation of their plats with any county recorders, and shall pay all required fees in a timely manner. (Ord. 36-93 § 8, 1993: prior code § 37-9-1)

17.56.020: DESIGN, CONSTRUCTION AND MAINTENANCE OF FACILITIES:

All sewage collection systems and appurtenant facilities for mobile home parks and subdivisions shall be designed, constructed and maintained in strict accordance with all applicable provisions of the rules and regulations adopted or amended and revised by the POTW. (Ord. 36-93 § 8, 1993: prior code § 37-9-3)

17.56.030: CONNECTION TO POTW SYSTEM PERMITTED WHEN:

Any mobile home park or subdivision hereafter constructed having sewage system and appurtenant facilities acceptable to the POTW within such mobile home park or subdivision, as the case may be, may, at the user's sole expense, upon payment of all required fees and subject to any written extension or reimbursement agreements which may be hereafter executed with the POTW, connect such sewage system and facilities directly with an existing POTW sewer at a location designated by the POTW and under POTW direction. (Ord. 36-93 § 8, 1993: prior code § 37-9-2)

17.56.040: NEW CONSTRUCTION:

Contracts for any new sewer construction must be made with the city and all applicable fees paid to the city prior to the commencement of any construction. (Ord. 36-93 § 8, 1993)

CHAPTER 17.60
PUMPING STATIONS

17.60.010: USER REQUIRING PUMPING TO DISCHARGE TO POTW:

Whenever any user makes application for any permits, approvals, subdivision, zoning or any other actions relating to property situated in areas either within or outside of the POTW which, when connected to the POTW's sewer collection or disposal system, will require the sewage to be pumped into the POTW system, the user thereof shall be required to pay the POTW all of the costs of the installation and maintenance of the required pumping station in the manner and in the amounts hereinafter provided in this chapter. (Ord. 36-93 § 9, 1993: prior code § 37-8-1)

17.60.020: PAYMENT FOR PUMPING STATION PREREQUISITE TO APPROVAL:

Notwithstanding the provisions of any other ordinance or regulation of the POTW now or hereafter enacted, the officers and personnel of the POTW dealing with the applications referred to in section 17.60.010 of this chapter, or its successor, are directed and authorized to withhold granting of the requested applications pending payment or entry by the applicant into an agreement whereby payments will be made to the POTW in reimbursement for the costs of such pumping stations. The officers and employees of the POTW are directed and authorized to refuse to furnish sewer services to the users until the agreements are fully consummated and there has been reimbursement and payment for all services and fees due and owing thereunder. (Ord. 36-93 § 9, 1993: prior code § 37-8-2)

17.60.030: PUMPING STATIONS AREAS; SURVEYS AND ESTABLISHMENT:

A. The POTW is authorized to cause surveys or engineering studies to be made for the purpose of determining those areas either within or without the POTW which would require the installation and operation of pumping stations. The pumping station areas may include areas outside of the POTW limits which might, by annexation, become a part of the POTW or which might require sewer services from the POTW for the purpose of preserving the health and welfare of residents adjacent to said areas.

B. Based upon such studies, the POTW shall establish the pumping station areas and designate their confines in such manner as to enable landowners or users to determine whether or not they fall within the areas requiring sewage pumping stations. (Ord. 36-93 § 9, 1993: prior code § 37-8-3)

17.60.040: DESIGN AND CONSTRUCTION REQUIREMENTS:

A. The POTW may cause a pumping station to be installed in a designated pumping station area in anticipation of the development of buildings or other uses within the near future, or it may cause such construction to occur upon receipt of applications from landowners or users who anticipate developments within the designated area or a portion thereof which will require the construction of a sewage pumping station.

B. The construction of the pumping stations shall be of such size as the POTW may determine will be necessary to provide pumping to the entire area, even though pending applications before it involve only a portion of the pumping station area. All pump stations shall be planned, designed and constructed in accordance with applicable state laws. (Ord. 36-93 § 9, 1993: prior code § 37-8-4)

17.60.050: COSTS OF CONSTRUCTION; COMPUTING AND ALLOCATION:

A. The costs of construction for pumping stations shall include costs of land acquisition, easements, legal services, direct labor and materials, costs of direct supervision and engineering services, plus an amount equal to ten percent (10%) of all of the foregoing costs for administrative services by the POTW.

B. The costs of construction shall be allocated among the landowners and/or users of the sewage pumping service area in the same proportion that the total of each landowner's area bears to the total area of land situated within the pumping service area.

C. The foregoing method of allocation of costs may be varied by action of the POTW when, in its judgment, it finds that unusual topography or other physical circumstances or the contemplated use or uses require a different method of allocating costs. If the pumping station is constructed prior to the filing of an application by a landowner or user, the costs of construction will be the actual costs expended as above described.

D. If the pumping station has been constructed at the time the application is filed, then costs shall be the costs estimated by the director or which may be computed based upon contracts let to contractors or subcontractors to perform the construction. The estimated costs shall be used as the basis for establishing the amount of any payments required in advance until such time as construction is completed and actual costs are determined, at which time the costs shall be recomputed and allocated based upon the actual costs.

E. Costs of operation and maintenance, as determined by the director, may be allocated among the users of the sewage pumping service area. (Ord. 36-93 § 9, 1993: prior code § 37-8-5)

17.60.060: COSTS OF CONSTRUCTION; PAYMENT METHODS:

At the time an application is made to the POTW, the POTW shall require the applicant to enter into an agreement with the POTW whereby the applicant will pay his/her share of the sewage pumping station construction costs at such time or times fixed by the POTW. The agreement may require the applicant user to pay a lump sum in cash, contribution of the facility or other option as may be determined will best fit the needs of the POTW. The agreement shall provide, in the event the applicant user fails to make the payments, as provided, the POTW may refuse to provide services until such time as payment has been made. (Ord. 36-93 § 9, 1993: prior code § 37-8-6)

17.60.070: PUMPING STATIONS ARE PROPERTY OF POTW:

Regardless of the manner in which construction of the sewer pumping station has been achieved, whether by direct action upon the part of the POTW or by action of any applicant, the pumping station shall be deemed the property of the POTW. All maintenance after acceptance shall be performed by the POTW or its designee. (Ord. 36-93 § 9, 1993: prior code § 37-8-7)

CHAPTER 17.64
FEES AND CHARGES

17.64.010: PAYMENT RESPONSIBILITY; BASIS AND PURPOSE OF CHARGES:

A. Each user shall pay all fees and charges required by the POTW. Appropriate surcharges will be imposed. It is the purpose of this chapter to provide for the payment of all POTW costs, maintenance and operation from the users. The total annual cost of equipment replacement, maintenance, necessary modifications, power, sampling, laboratory tests, and a reasonable contingency fund. The charges will be based upon the quality and quantity of user's wastewater, and also upon the POTW's capital and operating costs to intercept, treat and dispose of wastewater.

B. The applicable charges shall be set forth in a schedule of rates for the POTW. The schedule of rates and charges shall be adjusted from time to time by the POTW, which shall be prior approved by the city public utilities advisory board and council to equitably apportion such costs among the users of the POTW. (Ord. 36-93 § 10, 1993: prior code § 37-6-1)

17.64.020: FEES AND CHARGES; SCHEDULE 1:

A. The POTW's fees and charges are set forth on the Salt Lake City consolidated fee schedule which may be amended from time to time.

B. When recommended by the city's director of public utilities and approved by the public utilities advisory committee, the director may waive sewer connection fees in an amount equal to the city's water reservoir fee for service within the city only to subsidized elderly, homeless or underprivileged housing where said housing is being provided by and a waiver is applied therefor by the federal, Utah state, city, county governments or their agencies and nonprofit corporations. (Ord. 24-11, 2011)

17.64.030: CLASSIFICATION OF USERS:

The users of the POTW may be divided into various classifications, including, but not limited to, single dwelling units, duplexes, multiple dwelling units and nonresidential. Further classifications may be established by the POTW for each nonresidential user class. (Ord. 36-93 § 10, 1993: prior code § 37-6-2(1))

17.64.040: AUTHORITY TO ADOPT FEES:

The POTW may adopt fees to be shown on the Salt Lake City consolidated fee schedule which may include, but are not to be limited to, the following:

A. Fees for all POTW costs, including maintenance and operation;

B. Fees for reimbursement of costs of setting up and operating the POTW's pretreatment program;

C. Fees for monitoring, inspections and surveillance procedures, to include, but not be limited to, laboratory analysis;

D. Fees for reviewing accidental discharge procedures and construction;

E. Fees for industrial waste permit;

F. Fees for filing appeals;

G. Fees for treatment of excessive compatible pollutants;

H. Fees for connection;

I. Fees for repairs and disconnection;

J. Fees for inspections and surveys;

K. Fees for development and expansion;

L. Fees for noncompliance;

M. Other fees as the POTW may deem necessary to carry out the requirements contained herein. (Ord. 24-11, 2011)

17.64.050: ANNUAL REVIEW OF EACH USER'S SERVICE CHARGE:

(Rep. by Ord. 72-98 § 12, 1998)

17.64.060: ANNUAL NOTIFICATION OF RATES AND CHARGES:

Each user will be notified, at least annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to wastewater treatment services. (Ord. 36-93 § 10, 1993: prior code § 37-6-2(8))

17.64.070: COMBINATION BILLINGS:

Where POTW provides culinary water, the wastewater treatment charges may be combined for billing purposes with charges for water services rendered. (Ord. 36-93 § 10, 1993: prior code § 37-6-2(4))

17.64.080: CHARGES FOR DISCONTINUING OR RESTORING SERVICES:

In the event POTW service to any building or premises in the POTW is shut off, a fee to be set by the POTW shall be charged for restoring sewer service. (Ord. 36-93 § 10, 1993: prior code § 37-6-2(5))

17.64.090: TOXIC POLLUTANTS OR DAMAGE TO FACILITIES; PAYMENT OF COSTS:

When a user's discharge causes an obstruction or damages the POTW or when because of the nature of the discharge, increases the costs of maintaining the POTW system or managing the effluent or the sludge of the POTW, the user shall pay for the cost. In addition to remunerative charges, discharges in violation of this chapter will leave the discharger liable to additional fines and penalties. Injunctive relief may be sought through the courts, and criminal penalties of up to five thousand dollars ($5,000.00) per day or more may be imposed. (Ord. 36-93 § 10, 1993: prior code § 37-6-2(6))

17.64.100: RESPONSIBILITY FOR CHARGES:

The owner of any premises connected to and discharging into the POTW, and any tenant or other user of such premises, shall be jointly and severally liable for all fees and charges for sewer service at such premises. (Ord. 72-98 § 13, 1998: Ord. 36-93 § 10, 1993: prior code § 37-6-3(1))

17.64.110: BILLING PROCEDURES AND RATES:

The city shall cause billings for wastewater treatment charges, and/or water, to be rendered periodically at rates established as set out in section 17.72.030, "Schedule 1; Rates And Fees", of this title, as amended, or its successors. (Ord. 36-93 § 10, 1993: prior code § 37-6-3(2))

17.64.120: COLLECTION OF COSTS; PARTIAL PAYMENTS:

The POTW shall receive and collect the sewer fees and charges levied under the provisions of this chapter. In the event of partial payment, the POTW may apply said payment to any sums due for water and/or sewer fees or charges. (Ord. 36-93 § 10, 1993: prior code § 37-6-3(4))

17.64.130: DELINQUENT PAYMENTS; RECOVERY BY CIVIL ACTION; SERVICE TERMINATION:

Fees and charges levied in accordance with this chapter shall be a debt due to the POTW. If this debt is not paid within thirty (30) days after billing, it shall, at the POTW's option, be deemed delinquent and subject to penalties, and may be recovered by civil action, and the POTW shall have the right to terminate sewer and/or water service and enter upon private property for accomplishing such purposes. (Ord. 36-93 § 10, 1993: prior code § 37-6-3(3))

17.64.140: DELINQUENT PAYMENTS; TAX LIEN AUTHORITY:

To the extent authorized by Utah law, the POTW may, in addition to any and all other remedies provided herein, impose a tax lien on the premises being served, to recover all delinquent fees and charges. (Ord. 72-98 § 14, 1998: Ord. 36-93 § 10, 1993: prior code § 37-6-3(5))

17.64.150: RESTORATION OF SERVICE; CONDITIONS:

Sewer service shall not be restored until all charges, including the expense of termination and restoration of service, shall have been paid. (Ord. 36-93 § 10, 1993: prior code § 37-6-3(6))

CHAPTER 17.68
ENFORCEMENT REMEDIES

17.68.010: NOTIFICATION OF VIOLATION:

Whenever the director finds that any user has violated or is violating any provision of this division, or any wastewater discharge permit, order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, the director may serve upon said user a written notice of violation. Such written notice shall be served in person or by certified mail, return receipt requested. Within ten (10) calendar days after the receipt of such notice, an explanation for the violation and a plan for the satisfactory correction and prevention thereof, which shall include specific required actions, shall be submitted by the user to the director. Submission of this plan in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation. Nothing in this section shall limit the authority of the director to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation. (Ord. 68-11, 2011)

17.68.020: CONSENT ORDERS:

The director is hereby empowered to enter into consent orders, assurances of compliance, or other similar documents establishing an agreement with any user responsible for noncompliance. Such orders will include specific action to be taken by the user to correct the noncompliance within a time period specified by the order. Consent orders shall be judicially enforceable. (Ord. 68-11, 2011)

17.68.030: SHOW CAUSE HEARING:

The director may order any user which causes or contributes to violation(s) of any provisions of this division, or any wastewater discharge permit or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, to appear before the director and show cause why a proposed enforcement action should not be taken. Notice shall be served on the user, which notice shall specify the time and place for the meeting, the proposed enforcement action, the reasons for such action, and a request that the user show cause why this proposed enforcement action should not be taken. Such written notice shall be served in person on any authorized representative of the user, or by certified mail, return receipt requested, at least seven (7) days prior to the hearing. Whether or not the user appears as ordered, immediate enforcement action may be pursued following the hearing date. A show cause hearing shall not be a prerequisite for taking any other actions against the user. (Ord. 68-11, 2011)

17.68.040: COMPLIANCE ORDERS:

When the director finds that a user has violated or continues to violate any provision of this division, or any wastewater discharge permit, order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, the director may issue an order to the user responsible for the violation directing that the user come into compliance within a specified time. If the user does not come into compliance within the time provided, sewer service may be discontinued. Compliance orders may also contain other requirements to address noncompliance, including additional self-monitoring, and management practices designed to minimize the amount of pollutants discharged to the POTW. A compliance order may not extend the deadline for compliance established for a pretreatment standard or requirement, nor does a compliance order release the user of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a prerequisite to taking any other action against the user. (Ord. 68-11, 2011)

17.68.050: CEASE AND DESIST ORDERS:

When the director finds that a user has violated or continues to violate any provision of this division, any wastewater discharge permit, rule, order, or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, or that the user's past violations are likely to recur, the director may issue an order to the user directing it to cease and desist all such violations and directing the user to:

A. Immediately comply with all requirements; and

B. Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge. Issuance of a cease and desist order shall not be a bar against or a prerequisite to taking any other action against the user. (Ord. 68-11, 2011)

17.68.060: ADMINISTRATIVE FINES:

A. Notwithstanding any other section of this division, any user found to have violated, or continues to violate any provision of this division, or any wastewater discharge permit, or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, may be fined in an amount not greater than ten thousand dollars ($10,000.00) per day, as determined by the director in his reasonable discretion. Such fines shall be assessed on a per day, per violation basis. In the case of monthly or other long term average discharge limits, fines shall be assessed for each day during the period of violation. In determining the amount of civil liability, the director shall take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration of the violation, any economic benefit gained through the user's violation, corrective actions by the user, the compliance history of the user, and any other factor as justice requires.

B. The POTW may charge a user for the costs of preparing administrative enforcement actions, such as notices and orders, which charge may be assessed whether or not a fine under subsection A of this section is also imposed. The POTW may recover reasonable attorney fees, court costs, and other expenses associated with enforcement activities, including sampling and monitoring expenses, and the cost of any actual damages incurred.

C. Assessments for fines and/or administrative costs may be added to the user's next scheduled sewer service charge, and the director shall have such other collection remedies as may be available for other service charges and fees.

D. Unpaid charges, fines, assessments and penalties shall, after sixty (60) calendar days, be assessed an additional penalty of ten percent (10%) of the unpaid balance. Thereafter, interest on any unpaid balances, including penalties, shall accrue at a rate of one percent (1%) per month. A lien against the individual user's property will be sought for unpaid charges, fines, and penalties.

E. Users desiring to dispute such fines or assessments must file a written request for the director to reconsider the fine or assessment, along with full payment thereof within thirty (30) days of being notified of the fine or assessment. The director may convene a hearing on the matter within fourteen (14) days of receiving the request from the user. In the event the user's appeal is successful, any amounts paid by the user to the POTW shall be returned to the user, without interest.

F. The imposition of an administrative fine, assessment or other charge shall not be a prerequisite for or bar against taking any other action against the user. (Ord. 68-11, 2011)

17.68.070: EMERGENCY SUSPENSIONS:

The director may order the immediate suspension or shutoff of a user's discharge (after informal notice to the user), whenever such suspension or shutoff is necessary in order to stop an actual or threatened discharge which reasonably appears to present or cause a risk of an imminent or substantial: a) damage to the POTW, b) endangerment to the health or welfare of any residents of the POTW, c) interference with the operation of the POTW, or d) endangerment to the environment. Any user notified of a suspension of its discharge shall immediately stop or eliminate its contribution. In the event of a user's failure to immediately comply voluntarily with the suspension order, the director shall take such steps as deemed necessary, including immediate severance of the sewer connection, to enforce such order. The director may allow the user to recommence its discharge when the user has demonstrated to the satisfaction of the director that the period of endangerment has passed, unless the termination proceedings set forth in section 17.68.080 of this chapter are initiated against the user. A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment, shall submit to the director a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, prior to the date of any show cause or termination of discharge hearing under sections 17.68.030 and 17.68.080 of this chapter. Nothing in this section shall be interpreted as requiring a hearing prior to any emergency suspension under this section. (Ord. 68-11, 2011)

17.68.080: TERMINATION OF DISCHARGE:

In concert with the wastewater discharge permit revocation provisions in section 17.52.120 of this title, any user committing any of the following acts or omissions is subject to termination of discharge:

A. Violation of any provisions of this division or any wastewater discharge permit, or order, rule or regulation or any pretreatment standard or requirement, issued or promulgated hereunder;

B. Failure to accurately report the wastewater constituents and characteristics of its discharge;

C. Failure to report significant changes in operations or wastewater volume, constituents and characteristics prior to discharge;

D. In the event a duly authorized officer or agent of the POTW is refused admission to a user for any reason, the director may cause sewer service to the premises in question to be discontinued until the POTW agents have been afforded reasonable access to the premises and pretreatment system to accomplish the inspection and/or sampling;

E. Failure to attain compliance within thirty (30) days of issuance of a compliance order under section 17.68.040 of this chapter;

F. In the event of actual or threatened discharges as described in section 17.68.070 of this chapter;

G. Violation of the pretreatment standards in sections 17.36.020 through 17.36.110 of this title.

The user will be notified of the proposed termination of its discharge and be offered an opportunity to show cause under section 17.68.030 of this chapter why the proposed action should not be taken. Exercise of this option by the director shall not be a bar to, or a prerequisite for, taking any other action against the user. (Ord. 68-11, 2011)

17.68.090: INJUNCTIVE RELIEF:

Whenever a user has violated a pretreatment standard or requirement or continues to violate any provisions of this division, or any wastewater discharge permit, or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, the director may petition the third district court of the state of Utah for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the wastewater discharge permit, or order, rule, regulation or other requirement imposed by this division on activities of the user. In addition, the city may recover reasonable attorney fees, court costs, and other expenses of litigation by appropriate legal action against the user found to have violated any provision hereof, or of any wastewater discharge permit, or order, or any other rule or regulation issued or promulgated hereunder. Such other action as appropriate for legal and/or equitable relief may also be sought by the director including a requirement for the user to conduct environmental remediation. A petition for injunctive relief need not be filed as a prerequisite to or a bar against taking any other action against a user. (Ord. 68-11, 2011)

17.68.100: CIVIL PENALTY PASS-THROUGH RECOVERY:

In the event that a user discharges such pollutants which cause the POTW to violate any conditions of its UPDES permit and the POTW is fined by the EPA, the state of Utah or Salt Lake County for such violations, then such user shall be fully liable for the total amount of the fines and civil penalties assessed against the POTW by the EPA or the state of Utah or Salt Lake County and administrative costs incurred.

A. A user who has violated, or continues to violate, any provision of this division, a wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement may be liable to the city for a maximum civil penalty of ten thousand dollars ($10,000.00) per violation, per day. In the case of a monthly or other long term average discharge limit, penalties shall accrue for each day during the period of the violation.

B. The director may recover reasonable attorney fees, court costs, and other expenses associated with enforcement activities, including sampling and monitoring expenses, and the cost of any actual damages incurred by the city.

C. In determining the amount of civil liability, the court may take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration of the violation, any economic benefit gained through the user's violation, corrective actions by the user, the compliance history of the user, and any other factor as justice requires.

D. Filing a suit for civil penalties shall not be a bar against, or a prerequisite for, taking any other action against a user. (Ord. 68-11, 2011)

17.68.110: REFERRAL TO STATE OF UTAH FOR ACTION; CRIMINAL PROSECUTION:

Violations of any pretreatment standards, requirements, or permit conditions may constitute an offense subject to criminal prosecution. Violations shall be classified no less than a class B misdemeanor.

A. A user who willfully or negligently violates any provision of this division, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement shall, upon conviction, be guilty of a misdemeanor, punishable by a fine of not more than twenty five thousand dollars ($25,000.00) per violation, per day, or imprisonment for not more than six (6) months, or both.

B. A user who willfully or negligently introduces any substance into the POTW which causes personal injury or property damage shall, upon conviction, be guilty of no less than a class B misdemeanor and be subject to a penalty of at least twenty five thousand dollars ($25,000.00), or be subject to imprisonment for not more than six (6) months, or both. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

C. A user who knowingly makes any false statements, representations, or certifications in any application, record, report, plan, or other documentation filed, or required to be maintained, pursuant to this division, wastewater discharge permit or order issued hereunder, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this division shall, upon conviction, be punished by a fine of not more than fifty thousand dollars ($50,000.00) per violation, per day, or imprisonment for not more than six (6) months, or both.

D. In the event of a second conviction, a user shall be punished by a fine of not more than fifty thousand dollars ($50,000.00) per violation, per day, or imprisonment for not more than six (6) months, or both.

The POTW may refer to the state criminal violations of any pretreatment standards or permit conditions. The Utah attorney general's office will offer Salt Lake County the option to prosecute the violator. Should Salt Lake County decline, the state, at its discretion, may initiate appropriate criminal action. The POTW shall assist the Utah attorney general's office or Salt Lake County any way it can with appropriate support for the action taken. (Ord. 68-11, 2011)

17.68.120: PERFORMANCE BONDS:

The director may decline to reissue a wastewater discharge permit to any user which has failed to comply with the provisions of this division, or of any previous wastewater discharge permit, order, rule or regulation issued or promulgated hereunder, unless such user first files a satisfactory bond, payable to the POTW, in a sum not to exceed a value determined by the director to be necessary to achieve consistent compliance. (Ord. 68-11, 2011)

17.68.130: LIABILITY INSURANCE:

The director may decline to reissue a wastewater discharge permit to any user which has failed to comply with the provisions of this division, or of any previous wastewater discharge permit or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, unless the user first submits proof that it has obtained financial assurances sufficient to restore or repair damage to the POTW caused by its discharge. (Ord. 68-11, 2011)

17.68.140: WATER SUPPLY SEVERANCE:

Whenever a user has violated or continues to violate the provisions of this division, or of any wastewater discharge permit, or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, water service to the user may be discontinued. Service will only recommence, at the user's expense, after it has satisfactorily demonstrated its ability to comply. (Ord. 68-11, 2011)

17.68.150: PUBLIC NUISANCES:

Any violation of the provisions of this division, or of any individual wastewater discharge permit, or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, is hereby declared a public nuisance and shall be corrected or abated as directed by the director. Any person(s) creating a public nuisance shall be subject to the provisions of this code governing nuisances, including reimbursing the city for any costs incurred in removing, abating or remedying said nuisance. (Ord. 68-11, 2011)

17.68.160: CONTRACTOR LISTING:

Users which are found to be in significant noncompliance with any provisions of this division, or of any wastewater discharge permit, or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, are not eligible to receive a contractual award for the sale of goods or services to the POTW. Existing contracts for the sale of goods or services to the POTW held by a user found to be in significant noncompliance with any provisions of this division, or of any wastewater discharge permit or order, rule or regulation issued or promulgated hereunder, or any other pretreatment standard or requirement, may be terminated at the discretion of the POTW. (Ord. 68-11, 2011)

17.68.170: REMEDIES NONEXCLUSIVE:

The remedies provided are not exclusive remedies. The director reserves the right to take any, all, or any combination of these actions against a noncompliant user. Enforcement of pretreatment violations will generally be in accordance with the city's enforcement response plan. However, the director reserves the right to take other action against any user when the circumstances warrant. Further, the director is empowered to take more than one enforcement action against any noncompliant user. These actions may be taken concurrently. (Ord. 68-11, 2011)

CHAPTER 17.69
AFFIRMATIVE DEFENSES

17.69.010: UPSET:

A. For the purposes of this section, "upset" means an exceptional incident in which there is unintentional and temporary noncompliance with categorical pretreatment standards because of factors beyond the reasonable control of the user. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

B. An upset shall constitute an affirmative defense to an action brought for noncompliance with categorical pretreatment standards if the requirements of subsection C of this section are met.

C. A user who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:

1. An upset occurred and the user can identify the cause(s) of the upset;

2. The facility was at the time being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

3. The user has submitted the following information to the director and treatment plant operator within twenty four (24) hours of becoming aware of the upset (if this information is provided orally, a written submission must be provided within 5 days):

a. A description of the indirect discharge and cause of noncompliance;

b. The period of noncompliance, including exact dates and times or, if not corrected, the anticipated time the noncompliance is expected to continue; and

c. Steps being taken and/or planned to reduce, eliminate and prevent recurrence of the noncompliance.

D. In any enforcement proceeding, the user seeking to establish the occurrence of an upset shall have the burden of proof.

E. Users shall have the opportunity for a judicial determination on any claim of upset only in an enforcement action brought for noncompliance with categorical pretreatment standards.

F. The user shall control production of all discharges to the extent necessary to maintain compliance with categorical pretreatment standards upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost or has failed. (Ord. 68-11, 2011)

17.69.020: PROHIBITED DISCHARGE STANDARDS:

A user shall have an affirmative defense to an enforcement action brought against it for noncompliance with the general and specific prohibitions in section 17.36.060 of this title, with the exception of the fire or explosion hazards or low pH, listed in subsections 17.36.060B2 and B4 of this title, if it can prove that it did not know or have reason to know that its discharge, alone or in conjunction with discharges from other sources, would cause pass-through or interference and that either:

A. A local limit exists for each pollutant discharged and the user was in compliance with each limit directly prior to, and during, the pass-through or interference, or

B. No local limit exists, but the discharge did not change substantially in nature or constituents from the user's prior discharge when the POTW was regularly in compliance with its UPDES permit, and in the case of interference, was in compliance with applicable sludge use or disposal requirements. (Ord. 68-11, 2011)

17.69.030: BYPASS:

A. Definitions: For the purposes of this section:

BYPASS: The intentional diversion of waste streams from any portion of a user's treatment facility.

SEVERE PROPERTY DAMAGE: Substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

B. Conditions To Allow Bypass: A user may allow any bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provision of subsections C and D of this section.

C. Bypass Notification:

1. If a user knows in advance of the need for a bypass, it shall submit prior notice to the director, at least ten (10) days before the date of the bypass if possible.

2. A user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards to the director within twenty four (24) hours from the time it becomes aware of the bypass. A written submission shall also be provided within five (5) days of the time the user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times and, if the bypass has not been corrected, the anticipated time it is expected to continue. The user shall also set forth in writing the steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass. The director may waive the written report on a case by case basis if the oral report has been received within twenty four (24) hours.

D. Bypass Prohibition; Exception:

1. Bypass is prohibited, and the director may take enforcement action against a user for a bypass, unless:

a. Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

b. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

c. The user submitted notices as required under subsection C of this section.

2. The director may approve an anticipated bypass, after considering its adverse effects, if the director determines that it will meet the three (3) conditions listed in subsection D1 of this section. (Ord. 68-11, 2011)

CHAPTER 17.72
SCHEDULES

17.72.010: SCHEDULE 1; TOXICS; NONEXCLUSIVE:

(Rep. by Ord. 72-98 § 18, 1998)

17.72.020: SCHEDULE 2; LOCAL LIMITS:

(Rep. by Ord. 72-98 § 19, 1998)

17.72.030: SCHEDULE 1; RATES AND FEES:

A. Purpose: For the purpose of defraying the cost of construction, reconstruction, maintenance and operation of the city sewer system, there are hereby imposed the charges shown on the Salt Lake City consolidated fee schedule upon all persons and premises receiving sewer collection and treatment services.

B. Definitions:

CUSTOMER CLASS: The classification or classifications applicable to each customer of the sewer system for purposes of calculating such customer's service charge under this chapter, based on the applicable range of the strength of such customer's waste discharge, as measured by BOD and TSS, as follows:

Customer Class	BOD (mg/l)	TSS (mg/l)
1	<300	<300
2	300 - 600	300 - 600

3	601 - 900	601 - 900
4	901 - 1,200	901 - 1,200
5	1,201 - 1,500	1,201 - 1,500
6	1,501 - 1,800	1,501 - 1,800
7	>1,800	>1,800

More than one class may apply to a customer at the same time. For example, a customer may be in class 2 for BOD, and in class 4 for TSS. The director shall assign class designations to customers based upon the nature of the facility owned or operated by the customer, and estimates based on sample measurements taken from similar facilities. Any customer may, at its expense, demonstrate that actual BOD or TSS discharges differ from the director's estimates, and the director shall assign such customer to a different class or classes, accordingly. Such actual measurements shall be conducted in accordance with procedures established by the director.

DUPLEX: A single building containing two (2) independent dwelling units.

DWELLING UNIT: A building or other structure or portion thereof, in which: 1) an individual resides as a separate housekeeping unit, or 2) a collective body of persons (doing their own cooking) resides as a separate housekeeping unit in a domestic bond based upon birth, marriage, domestic employment or other family relationship, as distinguished from a boarding house, lodging house, club, fraternity, motel or hotel.

MULTIPLE DWELLING: Any building or other structure, having four (4) or more dwelling units therein, including a mobile home park.

SERVICE CHARGE: The charge for sewer collection and treatment services levied on all users of the public sewer system, as calculated pursuant to this chapter.

SERVICE TO MULTIPLE BUILDINGS: Sewer service to multiple buildings shall be governed the same as section 17.16.200 of this title.

SINGLE DWELLING UNIT: A building containing one dwelling unit.

TRIPLEX: A single building containing three (3) independent dwelling units.

C. Sewer Charges:

1. a. Each sewer customer in classes 1 to 6 shall be charged a monthly service charge equal to the greater of: 1) the cumulative flow rate, BOD rate and TSS rate per one hundred (100) cubic feet of metered water usage during the winter period, as shown on the Salt Lake City consolidated fee schedule, or 2) a minimum charge shown on the Salt Lake City consolidated fee schedule. The average monthly water meter readings during the consecutive months of November, December, January, February and March (hereinafter "winter months"), shall be the basis for sewer billings for the twelve (12) month period beginning July 1 and ending June 30, immediately following such winter months.

b. Each customer in class 7 and all other classes that are monitored separately shall be charged a monthly service charge based on actual discharge strength. The flow component will be charged at a rate shown on the Salt Lake City consolidated fee schedule per one hundred (100) cubic feet of metered water used during the billing period. The charges for COD, BOD and TSS will be billed on actual pounds of discharge as shown on the Salt Lake City consolidated fee schedule.

Either a BOD or COD charge will be assessed, but not both. When there is an unexplained difference between the two (2) test results of COD and BOD the higher of the two will be used. Nothing in this section shall authorize discharges in excess of the maximum local limit concentrations established by the director pursuant to section 17.36.090 of this title.

c. In cases where little or no water is used during one or more of the winter months, such that the average metered usage during such winter months cannot be reasonably assumed to reflect typical monthly usage for an account, the director may use other consumptive information specific to such account to determine average monthly minimum usage for sewer billing purposes.

d. Meter readings for sewer billing purposes shall only include meters which measure water entering the sewer system.

e. In the case of sewer users whose water usage is based in whole or in part on water sources other than the city, the city may require installation of a city approved meter, at the sewer user's expense, on the well(s) or other sources of water supply, for measurement by the city during the winter months to determine the sewer user's water use during the winter months.

f. For each single-family dwelling sewer user using water other than city water and desiring not to install a water meter as provided above, the director may waive the meter requirement, in which event the user will be charged for sewer service as provided in subsection E of this section.

D. Metering Of Sewage Flows:

1. Meters will be allowed in sewer lines when the user is permitted or required by the director to have the sewage flow subject to the following requirements:

a. The charges for sewer service will be based upon the actual sewer meter readings rather than upon the average of said winter readings.

b. The user will furnish, install and maintain at user's expense a meter pursuant to the city's standards and specifications.

E. New Sewer Accounts:

1. For new sewer accounts, until the data required by subsection C1a of this section is available the monthly sewer rates shall be as shown on the Salt Lake City consolidated fee schedule.

a. For class 7 customers, new accounts shall be treated in the same manner as established accounts under subsection C1b of this section.

F. Service Charge Adjustment:

1. The director may provide for adjustments as needed to ensure equitable service charges. Such adjustments may be made where excessive quantities of culinary water pass through the water meter, but are consumed on the premises and do not enter the sewer system. In each such instance, the user will have the burden of providing evidence of such inequities by showing that the quantity of water not entering the sewer, but passing through the meter, exceeds twenty percent (20%) of the total flow in order to merit such consideration by the director. Each such adjustment proposed to be made by the director shall first be presented to the public utilities advisory committee for review and recommendation, following which review and recommendation the director shall make a final determination.

2. Additionally, the director may make adjustments under the following conditions due to faulty inside plumbing. All adjustments will be determined by prior usage. When the charge is not based on preceding usage and has not been established on winter average the charge will be determined as outlined in this section or its successor.

a. When defective plumbing has caused the average winter water consumption to exceed the previous year's average by twenty five percent (25%) or more, there may be an adjustment made based on prior usage. The customer must provide to the director evidence that plumbing repairs were made within thirty (30) days of notification from the city. Such evidence may be in the form of a statement detailing the repairs made and the date of completion. The adjustment shall be made following the determination by the director that the repairs have resulted in decreased water consumption.

b. In the event of a customer's unexplainable large increase in water consumption during the months of November through March of any year, the director may make adjustments to any account when there has been a twenty five percent (25%) increase or more in usage during the winter months. Any adjustment may be made only after an in depth review of the account has been completed, and based solely on the merits of each individual request, and the circumstances surrounding the request.

c. The director may make adjustments to the account of a single-family residence, if the user or a user's tenant who has also signed the agreement for water service has temporary additional (2 or more) people living at the residence during all or part of the "winter meter readings" period and it has caused the average winter water consumption to exceed the previous year's average by twenty five percent (25%) or more. Such adjustment may be made by using the following guidelines:

(1) For one month or less, no adjustment will be allowed;

(2) For more than one month to twelve (12) months, the charge will be based on the new average winter water use for the number of months said additional people were in the residence;

(3) For all months following the period when said additional people are not in the residence, the charge will be based upon the previous year's established average use, or the fee shall be as outlined in subsection F2d of this section, or its successor subsection.

d. All adjustments will be determined by the sewer charge of the preceding year. When the charge for the preceding year is not established on winter average, the charge will be determined as outlined in subsection F2c of this section, or its successor subsection.

G. Sewer Service Fees: The director shall charge and the city shall collect the fees shown on the Salt Lake City consolidated fee schedule.

1. Special industrial and commercial uses, including car washes, laundromats, etc., as determined by the city's public utilities director, shall be charged the fee shown on the Salt Lake City consolidated fee schedule per equivalent fixture unit, as specified in the uniform plumbing code.

2. Connection fees on property with prior development:

a. When a residential building is demolished and the existing lateral is used for the same property, there is no new sewer connection fee for the property when residential use or building type is same as prior to demolition. After five (5) years from date of demolition no credit will be given for prior sewer connection fees. After five (5) years from demolition the property owner will be required to pay all connection fees.

b. When a commercial building such as a hotel, motel, industrial building, etc., is demolished the sewer fee shall be based and charged on new additional use pursuant to the applicable fee shown on the Salt Lake City consolidated fee schedule. After five (5) years from date of demolition no credit will be given for prior sewer connection fees. After five (5) years from demolition the property owner will be required to pay all connection fees required by the city.

3. Temporary sewer connections may only be made by approval of the director. Temporary connections cannot exceed twenty four (24) months. The fee for each temporary connection shall be shown on the Salt Lake City consolidated fee schedule. All other applicable fees will be effective for temporary connections. (Ord. 24-11, 2011)

CHAPTER 17.75
GENERAL PROVISIONS

17.75.100: SHORT TITLE:

This division shall be known collectively as the *SALT LAKE CITY STORMWATER CONTROL ORDINANCE.* (Ord. 53-07 § 4, 2007)

17.75.200: FINDINGS AND PURPOSES:

A. Findings On Stormwater Runoff Harm: The city council finds that stormwater runoff has the potential for causing property damage and erosion; carrying concentrations of nutrients, chemicals, heavy metals, oil and toxic materials into receiving waters and ground water; degrading the integrity of city streets, curbs, gutters and other infrastructure; reducing residents' access to emergency services; and imposing other hazards to both life and property. For these and other reasons, stormwater runoff has the potential for adversely impacting the health, safety, property, recreational opportunities and general welfare of the community. The city council has determined that the potential for such negative impacts will increase as the amount of stormwater runoff increases due to the city's physical growth and urban development.

B. State And Federal Regulation: The federal government has established, through the clean water act, regulations regarding stormwater runoff for the protection of receiving waters. The state of Utah has also enacted the water quality act, together with related regulations. These federal and state laws and regulations are administered through the Utah department of environmental quality and include requirements that the city obtain, and abide by the provisions of, a UPDES permit for the city's discharge of stormwater runoff into receiving waters.

C. Purposes And Objectives: In view of the foregoing, the purposes and objectives of this chapter through chapter 17.91, inclusive, of this title are to:

1. Provide for and maintain a stormwater sewer system for collecting and disposing of stormwater runoff;

2. Establish the inspection, surveillance and monitoring procedures, and all related rules and regulations, necessary to regulate discharges into the stormwater sewer system, and to establish the legal authority to enforce compliance with such rules and regulations; and

3. Provide fair, equitable and nondiscriminatory rates and charges which will generate sufficient revenues to construct, operate, improve and maintain the stormwater sewer system at a level commensurate with stormwater sewer management needs. It shall be the policy of the city that present and future costs of operating the stormwater sewer system shall be fairly allocated among the various users of the stormwater sewer system through the establishment of rates and charges based upon such factors as the intensity of development of the parcel; the types of development on the parcel; the amount of impervious surface on the parcel; the cost of maintenance, operation, repair and improvements of the various parts of the system; the quantity and quality of the runoff generated; and other factors which present a reasonable basis for distinction, and which will allow for management of the stormwater sewer system in a manner that protects the public health, safety and welfare. (Ord. 53-07 § 5, 2007)

17.75.300: AUTHORITY:

This chapter through chapter 17.91, inclusive, of this title is adopted under the authority of the Utah water quality act, the federal clean water act and the rules and regulations promulgated thereunder relating to stormwater discharges, as well as certain requirements set forth in the city's UPDES permit for stormwater discharges, issued by the Utah department of environmental quality. Specifically, section 19-5-115(10), Utah Code Annotated, authorizes the city to enact and enforce rules and ordinances for the implementation of the water quality act, including stormwater discharges. (Ord. 53-07 § 6, 2007)

17.75.400: RESPONSIBILITY FOR ADMINISTRATION:

The director shall be responsible for administering, implementing, and enforcing the provisions of this chapter through chapter 17.91, inclusive, of this title. Any powers granted or duties imposed upon the director may be delegated by the director to persons in the employ of the city and under the supervision of the director. (Ord. 53-07 § 7, 2007)

CHAPTER 17.78
DEFINITIONS

17.78.100: TERMS DEFINED:

For purposes of chapters 17.81 through 17.91, inclusive, of this title, the following words, terms and phrases shall have the following meanings:

BEST MANAGEMENT PRACTICES OR BMPs: Schedules of activities, prohibitions of practices, maintenance procedures, treatment requirements, operating practices, techniques, methodologies or other management practices that, through experience and research, have proven reliable to prevent or reduce pollutants from entering the stormwater sewer system, and that are recognized, required, or accepted as BMPs under the clean water act, the water quality act, and related rules, regulations, guidance documents and stormwater permits issued thereunder. BMPs shall be an integral part of an SWPPP as necessary for compliance with an NPDES or a UPDES permit, or a city discharge permit under chapter 17.84 of this title.

CITY: Salt Lake City Corporation, a municipal corporation of the state.

CITY DISCHARGE PERMIT: A permit to discharge stormwater into the city's stormwater sewer system, issued pursuant to section 17.84.400 of this title.

CLEAN WATER ACT: The federal water pollution control act, 33 USC section 1251 et seq., as amended, including all related rules and regulations.

CONSTRUCTION ACTIVITY: Activities for which a UPDES general construction stormwater permit, as defined in the rules promulgated under the clean water act, must be obtained. These include construction activities such as clearing and grubbing, grading, excavating and demolition, that disturb one acre of land or more.

COUNCIL: The Salt Lake City council.

COUNTY: Salt Lake County, Utah.

DEPARTMENT: The city's department of public utilities.

DEVELOPED PARCEL: Any parcel which has been altered by grading or filling of the ground surface, or by construction of any improvements or other impervious surface area that affects the hydraulic properties of the parcel.

DIRECTOR: The director of the department, or the director's duly authorized designee.

DISCHARGE: Any addition or introduction of any pollutant into the stormwater sewer system or any watercourse. Discharge includes any stormwater runoff.

DISCHARGE PERMIT: Means and includes any permit regulating discharges into the stormwater sewer system, including a UPDES permit, an NPDES permit and a city discharge permit.

EPA: The U.S. environmental protection agency.

EQUIVALENT RESIDENTIAL UNIT OR ERU: The unit of measurement of the magnitude of use of the stormwater sewer system attributable to a developed parcel. One ERU is equal to the stormwater runoff from a developed parcel containing two thousand five hundred (2,500) square feet of combined impervious surface area, in any configuration, which is the estimated contribution of stormwater runoff from the average single-family residential dwelling unit and accompanying parcel of land.

ILLICIT CONNECTION: Any drain, pipe, connection or conveyance, whether on, above or below the surface, which is connected from a commercial or industrial land use to the stormwater sewer system and which does not meet the requirements of the city, including, without limitation, the requirement that such connection or conveyance be documented in plans, maps or equivalent records and approved by the director.

IMPERVIOUS SURFACE: That hard surface area of a developed parcel that either prevents or retards the entry of water into the soil mantle and/or causes water to run off the surface in greater quantities or at an increased rate of flow from that which would be present under natural conditions. Impervious surfaces may include, but are not limited to, rooftops, concrete or asphalt paving, walkways, patios, driveways, parking lots or storage areas, trafficked gravel, or other surfaces which similarly impede the natural infiltration into the ground of runoff of storm and surface water.

INDUSTRIAL ACTIVITY: Generally, activity for which an NPDES permit or UPDES permit is required. Industrial activity is more particularly defined in 40 CFR section 122.26(b)(14) and Utah administrative rule R.317-8-2.5, which definitions are incorporated herein by reference. Such activities include, by way of example, manufacturing, processing or raw materials storage at an industrial plant, and most construction activity on parcels of one acre and greater.

NPDES PERMIT: A permit issued by the EPA that authorizes the discharge of pollutants to waters of the United States, whether the permit is applicable on an individual, group or general areawide basis.

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM OR NPDES: The national program for issuing, modifying, revoking and reissuing, terminating, monitoring and enforcing discharge permits, and imposing and enforcing pretreatment requirements, under sections 307, 402, 318 and 405 of the clean water act.

ON PARCEL MITIGATION OR MITIGATION: Stormwater control facilities designed to city standards located on the parcel, which either hold runoff for a short period of time and release it to the stormwater sewer system, or hold water for a considerable length of time and disperse it by evaporation or infiltration into the ground.

OPERATOR: With respect to any industrial activity, the person or persons who either individually or taken together meet the following two (2) criteria: a) they have operational control over the site specifications (including the ability to make modifications in specifications); and b) they have the day to day operational control of those activities at the site necessary to ensure compliance with SWPPP requirements and any permit conditions.

PARCEL: The smallest separately segregated unit or plot of land which is documented and given a property serial number by the county.

PERSON: Any individual, partnership, copartnership, firm, limited liability company, corporation, association, joint stock company, trust, estate, government entity or any other entity recognized by law, and any offices, departments, institutions, bureaus or agencies thereof.

POLLUTANT: Anything that causes or contributes to pollution. Pollutant includes, without limitation, dredged soil, solid waste, incinerator residue, sewage, garbage, sewage sludge, filter backwash, munitions, chemical wastes, biological materials, toxic materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, municipal, recreational and agricultural waste discharged into water or into the stormwater sewer system.

POLLUTION: The alteration, through the introduction of a pollutant, of the physical, thermal, chemical, or biological quality of, or the contamination of, any waters of the state or waters of the United States, that renders the water harmful, detrimental, or injurious to humans, animal life, vegetation, or property, or to the public health, safety, or welfare, or impairs the usefulness or the public enjoyment of the water for any lawful or reasonable purpose.

PREMISES: Any building lot, parcel, or portion of land whether improved or unimproved, including adjacent sidewalks and parking strips.

PROHIBITED DISCHARGE: Any discharge prohibited by section 17.84.100 of this title.

RESPONSIBLE PARTY: A. An operator;

B. A person who uses the stormwater sewer system or discharges to the stormwater sewer system, whether or not pursuant to a discharge permit; or

C. A person responsible for emergency response for a facility or operation.

SINGLE-FAMILY RESIDENTIAL PARCEL: Any parcel of land which is improved with a "dwelling unit" as defined by subsection 17.72.030B3 of this title.

SMALL CONSTRUCTION ACTIVITIES: Construction activities, including clearing, grading and excavating land, that result in the disturbance of equal to or greater than one acre and less than five (5) acres of land, including projects of less than one acre that are part of a larger common plan of development or sale.

STATE: The state of Utah.

STORMWATER: A. Stormwater runoff,

B. Snowmelt runoff, and

C. Surface runoff and drainage from other sources which contains no pollutants.

STORMWATER POLLUTION PREVENTION PLAN OR SWPPP: A plan required by a discharge permit which describes and ensures the implementation of the best management practices and activities to be implemented by a person or operator to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to stormwater, the stormwater sewer system and/or receiving waters to the maximum extent practicable.

STORMWATER RULES: The rules promulgated by the state relating to stormwater discharges, and set forth in Utah administrative rule R.317-8-3.9.

STORMWATER SEWER FACILITIES: Any facilities comprising part of the stormwater sewer system.

STORMWATER SEWER SYSTEM: The city owned and operated system of conveyances designed or used for collecting, storing, controlling, treating and/or conveying stormwater. This system includes, but is not limited to, sidewalks, roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade or altered channels, reservoirs or piped storm drains. This system does not include any part of the sanitary sewer system.

STORMWATER SEWER UTILITY: The utility created in section 2.08.100 of this code, which operates, maintains, regulates and improves stormwater facilities and programs within the city.

UPDES PERMIT: A permit issued by the Utah department of environmental quality that authorizes the discharge of pollutants to waters of the state, whether the permit is applicable on an individual, group or general areawide basis.

UNDEVELOPED PARCEL: Any parcel which is not a developed parcel.

UTAH POLLUTANT DISCHARGE ELIMINATION SYSTEM OR UPDES: The program delegated to the state by the EPA pursuant to 33 USC section 1342(b) and sections 19-5-101 to 123 of the Utah code.

VIOLATION: A violation of any provision of any stormwater discharge permit, chapters 17.81 through 17.91, inclusive, of this title or any order, rule or regulation issued or promulgated hereunder.

WATER QUALITY ACT: The statute codified at section 19-5-101 et seq., Utah Code Annotated, as amended, including all related rules and regulations.

WATERCOURSE: Aqueducts, pipelines, natural or artificial streams or channels through or in which water at any time flows. (Ord. 53-07 § 8, 2007)

CHAPTER 17.81
STORMWATER SEWER UTILITY ESTABLISHMENT AND FUNDING

17.81.100: ESTABLISHMENT OF STORMWATER SEWER UTILITY AND ADMINISTRATION OF STORMWATER SEWER FACILITIES:

The stormwater sewer utility has been established pursuant to section 2.08.100 of this code, and is operated as a separate enterprise fund within the department of public utilities. All portions of the stormwater sewer system (other than streets, curbs, gutters and sidewalks) shall be operated, managed and administered by the director within the stormwater sewer utility. (Ord. 53-07 § 11, 2007)

17.81.200: SYSTEM OF RATES AND CHARGES:

A. Generally: There are hereby imposed stormwater sewer service fees, rates and charges, effective for all billing periods after and including July 1, 2011, and thereafter until further amended, on the owner of each developed parcel within the city, except: 1) governmentally owned streets, and 2) parcels on which are located stormwater sewer facilities operated and maintained by, or for, the county. The charges shall fund the administration, planning, design, construction, water quality programming, operation, maintenance and repair of existing and future stormwater sewer facilities.

B. Residential Service Charges: Residential service charges for use of the stormwater sewer system shall be as shown on the Salt Lake City consolidated fee schedule.

C. Undeveloped Parcels: Undeveloped parcels shall not be assessed a stormwater service charge.

D. Other Parcels: The charge for all other parcels shall be based upon the total square footage of measured impervious surface, divided by two thousand five hundred (2,500) square feet, or one ERU, and rounded to the nearest whole number. The actual total monthly service charge shall be computed by multiplying the total ERUs for a parcel by the monthly rate shown on the Salt Lake City consolidated fee schedule

E. Credit For On Parcel Mitigation: Nonresidential parcels with on site stormwater detention or retention facilities are eligible for a service charge credit upon application to the director by the person owning the parcel, or such person's agent. The amount of credit, if any, for on site detention or retention facilities is based on the following formula:

P = 0.25 + 0.70 (factor) + 0.05 (permit)

The foregoing symbols have the following meanings:

P	Percentage of total service charge to be applied to each parcel.
0.25	Represents 10 percent for department administration cost plus 15 percent for utility operation and maintenance costs (half of the estimated total cost for utility operation and maintenance).
0.70	Represents 15 percent for utility operation and maintenance (half of the estimated total cost for utility operation and maintenance) plus 55 percent for a utility capital improvement program.
Factor	Restricted discharge (Qr) from a developed parcel divided by the peak discharge (Qp) from the same developed parcel which would result if the flow restriction facilities were not in place.
0.05	Represents 5 percent for NPDES stormwater permit for the parcel.
Permit	The rate adjustment, which applies when the parcel has an NPDES discharge permit from the state, will be equal to 0. When the parcel is included in the city NPDES permit, this rate adjustment is equal to 1.

1. Mitigation credit is available only for those nonresidential parcels whose stormwater facilities meet the city's design and maintenance standards.

2. If the stormwater facilities are not properly maintained or if related structures are modified from an approved design, the mitigation credit may be modified or terminated by the city.

3. The director shall provide a complete on site mitigation evaluation at the request and expense of the person owning the parcel, or the owner's duly authorized agent.

F. Low Income Abatement: A person who owns a single-family residential parcel and is qualified for an abatement of the minimum monthly water charge pursuant to section 17.16.670 of this title shall be eligible for a fifty percent (50%) reduction of the service charge for such parcel.

G. Nonservice Abatement: A parcel which is not directly or indirectly benefited by the stormwater sewer utility shall be entitled to an abatement of the service charge for said parcel. In order to receive such abatement, the owner, or the owner's agent, shall apply, in writing, to the director pursuant to section 17.81.500 of this chapter. (Ord. 40-11, 2011)

17.81.300: BILLING AND COLLECTION:

A. Billing: In the case of developed parcels, the department shall cause billings for stormwater sewer utility services to be mailed periodically to the person who has signed for water and sanitary sewer service to the parcel. The amounts to be billed shall be included on the existing department bill as a separate line item. In the case of undeveloped parcels, a stormwater only billing will be sent to the owner of the parcel, as shown on the records of the county recorder.

B. Collection:

1. In the event partial payment is made on a combined bill, the payment shall be applied first to franchise fees due, and then to each service on a pro rata basis.

2. In the event of delinquency, fees and charges levied in accordance herewith shall be a debt due the city. If this debt is not paid within thirty (30) days after billing, it shall be deemed delinquent. The department shall have the right to terminate water, sewer and other city services to the premises to enforce payment. Any uncollected amount due from the person or persons who own the parcel on any inactive, terminated or discontinued account may be transferred to any active account under the same person or persons' name(s) and, upon failure to pay such bill after at least five (5) days' prior written notice, water and other city services to that account and parcel may be discontinued.

3. Water, sewer, garbage and storm sewer service shall not be restored until all charges have been paid in full.

C. Stormwater Sewer Utility Enterprise Fund: All funds received from storm sewer service charges shall be placed in the stormwater sewer enterprise fund and kept separate and apart from all other city funds. The collection, accounting and expenditure of all stormwater sewer utility funds shall be in accordance with existing fiscal policy of the city. (Ord. 53-07 § 14, 2007)

17.81.400: STORMWATER IMPACT FEE:

A. The fee shown on the Salt Lake City consolidated fee schedule for each one-fourth ($^1/_4$) acre or portion thereof shall be imposed on all new development within city boundaries for stormwater improvements.

B. Such fee shall be paid prior to city issuance of a building permit.

C. All stormwater improvements to be maintained by the city shall be installed in the public right of way, or on other property owned by the city or with respect to which the city has all necessary easements, shall be subject to approval by the director as to materials, design and construction, and shall be under the director's exclusive control. All excavation and other permits necessary shall be obtained at the expense of the applicant. All facilities not accepted by the city as part of the stormwater sewer system shall be maintained by the property owners.

D. All stormwater sewer facilities shall be constructed at the expense of the person, persons or corporation seeking the building permit, without special taxes being levied to pay for the same. All stormwater sewer facilities shall be extended, at minimum, to the far end of the lot being serviced. All roads shall be subgraded prior to installation of the stormwater sewer facilities. (Ord. 24-11, 2011)

17.81.500: APPEAL OF CHARGES:

A. Those single-family and duplex parcels larger than 0.25 gross acre, but having less than three thousand (3,000) square feet of impervious surface, may request a reduction of the charge to the tier 1 level.

B. Any owner or person who considers the city's stormwater charge as applied to a parcel owned by such person to be inaccurate, or who otherwise disagrees with the utility rate determination, may apply to the director for a service charge adjustment. Such a request shall be in writing and state the grounds for such an appeal. The director shall review the case file and determine whether an error was made in the calculation or application of the charge and make an adjustment to the charge, if necessary, to provide for proper application of the city's rates and charges pursuant hereto. In all cases, the decision of the director shall be final unless appealed.

C. Any appeal of the amount billed under this chapter shall be filed in writing with the director no later than twenty (20) days after the billing. Any subsequent appeal shall be brought within twenty (20) days after the date of the appealed decision.

D. Appeal of decisions made by the director may be brought before the public utilities advisory committee (PUAC), which may reevaluate the issue raised in the appeal. Decisions of the PUAC shall be final and conclusive.

E. Nothing in this chapter shall be construed to grant a right to judicial review which does not otherwise exist at law. (Ord. 40-11, 2011: Ord. 24-11, 2011)

CHAPTER 17.84
DISCHARGES INTO CITY STORMWATER SEWER SYSTEM

17.84.100: PROHIBITED DISCHARGES AND CONNECTIONS:

Except as authorized by this chapter, or by applicable federal or state law, it shall be unlawful to:

A. Make any discharge for which a discharge permit is required, without first obtaining a discharge permit;

B. Make any discharge under a discharge permit in violation of the terms and conditions of such discharge permit, or otherwise violate the terms and conditions of a discharge permit; or

C. Construct, use, maintain or allow to remain in place an illicit connection, whether or not the connection was permissible under law or practices applicable or prevailing at the time of connection. (Ord. 53-07 § 18, 2007)

17.84.200: PREVENTING ACCIDENTAL DISCHARGE:

Any person conducting an activity which can reasonably be anticipated to create the risk of a prohibited discharge shall provide adequate protection against accidental discharge through the use of structural and nonstructural BMPs. Such BMPs include, but are not limited to: a) implementing procedures or practices which tend to reduce the likelihood of an accidental discharge, and b) installing structures or facilities designed to prevent such accidental discharge. BMPs to prevent an accidental discharge shall be provided and maintained at the person's own cost and expense. Failure to provide or maintain such BMPs, or any discharge resulting from such failure, shall be considered a violation of this chapter. (Ord. 53-07 § 18, 2007)

17.84.300: CITY DISCHARGE PERMIT:

A. Any person required to obtain an NPDES or UPDES permit in connection with stormwater discharges associated with industrial activity, including small construction activity, or to operate under authority of such a permit, as required by the applicable provisions of the clean water act and/or the water quality act shall: 1) obtain such permit as required and comply with all provisions of such permit and, in addition 2) obtain a city discharge permit from the department and comply with the provisions thereof.

B. The term of the city's discharge permit shall be concurrent with the applicable NPDES or UPDES permit.

C. Persons required to obtain a city discharge permit pursuant to this section must file an application for a first time city discharge permit within sixty (60) days after the effective date hereof.

D. No person may commence industrial activity, including small construction activity, until a city discharge permit required by subsection A of this section has been issued by the department. The city shall not issue a building permit for any project constituting industrial activity, including small construction activity, until a city discharge permit has been issued.

E. The director may include in a city discharge permit any and all reasonable requirements necessary to prevent a prohibited discharge to the stormwater sewer system, including requirements to control erosion and sediment, waste such as discarded building materials, concrete truck washout, chemicals, litter and sanitary waste, or any other pollutant, that may cause adverse impacts to water quality. (Ord. 53-07 § 18, 2007)

17.84.400: CITY DISCHARGE PERMIT APPLICATION PROCESS:

A. An application for a city discharge permit shall be submitted in writing to the director, and shall include, at a minimum, the following information: 1) the name and mailing address of the applicant, 2) the location of discharge, 3) the nature and general description of the activity giving rise to the discharge or potential discharge, 4) a copy of the applicant's application for an NPDES permit, and 5) any other information reasonably requested by the director. The city anticipates that a full and complete application for an NPDES or UPDES permit, including all attachments, may be sufficient to satisfy these requirements.

B. The director may charge an application fee shown on the Salt Lake City consolidated fee schedule in an amount reasonably determined by the director to be sufficient to recoup the costs of the application process, but not to exceed the amount shown on the Salt Lake City consolidated fee schedule.

C. Within five (5) business days after submission of a completed application to the director, the director shall evaluate the application and either approve or deny the application. If approved, the city discharge permit issued by the director shall be accepted in writing by the applicant. (Ord. 24-11, 2011)

17.84.500: INSPECTION RIGHT OF ENTRY:

A. As a condition to the issuance of a city discharge permit, all applicants shall grant the director reasonable access to all relevant parts of the premises for the purposes of inspection, sampling, examination, copying of records that must be kept under the conditions of any discharge permit, monitoring compliance with all discharge permits, and performing any additional duties as defined by state and federal law. "Reasonable access" means, at a minimum, access during normal business hours, without prior notice, to all portions of a parcel and the improvements thereon which may contribute to a stormwater discharge, subject only to bona fide safety or security precautions. Each city discharge permit shall contain provisions granting the city appropriate inspection rights. If the applicant has bona fide safety or security measures in force, the applicant shall make the necessary arrangements to allow prompt access by personnel from the city or its designated enforcement agent.

B. The director shall have the right to set up on any operator's property or any other representative location such devices as are deemed necessary to conduct sampling, inspection, compliance monitoring and/or metering of the facility's discharges.

C. The director may require the operator to install sampling and monitoring equipment at the operator's expense. This sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the operator, at its own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure accuracy.

D. Any temporary or permanent obstruction to safe and easy access to the area or facility to be inspected or sampled shall, unless part of a BMP, be promptly removed by the operator at the written or verbal request of the director. The costs of providing such safe and easy access shall be borne by the operator.

E. The director's request for reasonable access to a facility for the purposes of conducting any activity authorized or required by this chapter shall not be unreasonably delayed by an operator. (Ord. 53-07 § 18, 2007)

17.84.600: REQUIREMENT FOR USE OF BEST MANAGEMENT PRACTICES:

A. The director may adopt policies and procedures requiring BMPs for any activity, operation, or facility which may cause or contribute to a prohibited discharge.

B. Any person responsible for a parcel which is, or may become, the source of a prohibited discharge shall be required to implement, at said person's expense, additional structural and nonstructural BMPs to prevent a prohibited discharge.

C. Compliance with all terms and conditions of a valid NPDES or UPDES permit shall be deemed compliance with all similar requirements of this section. (Ord. 53-07 § 18, 2007)

17.84.700: WATERCOURSE PROTECTION:

Every person owning or occupying a parcel through which a watercourse passes shall keep and maintain that portion of the watercourse within such parcel free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, such person shall maintain existing privately owned structures within or adjacent to the watercourse so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse. (Ord. 53-07 § 18, 2007)

17.84.800: ACCIDENTAL DISCHARGES:

A. This section shall apply to any person responsible for a facility, operation or parcel, or responsible for emergency response for a facility, operation or parcel, whether or not a discharge permit is required to be obtained in connection with such facility, operation or parcel.

B. Notwithstanding other provisions of law, as soon as a person described in subsection A of this section has information of any known or suspected release of materials which are resulting, or may result, in a prohibited discharge, such person shall take the following actions:

1. Such person shall take all necessary steps to ensure the recovery, containment and cleanup of such release.

2. Such person shall immediately notify the director of the incident by telephone. This notification shall be in addition to, and not in lieu of, any other notifications required under applicable law. The notification shall include location of the release, the type, concentration and volume of the material, and any corrective actions taken or planned.

3. Such person shall, within five (5) days following the incident, submit to the director a detailed written report describing the cause of the release and the measures to be taken to prevent similar future occurrences. Such notification shall not relieve the person of any expense, loss, damage or other liability which may be incurred as a result of the release, nor shall such notification relieve the person of any fines, civil penalties or other liability which may be imposed by this chapter or other applicable law.

4. A notice shall be posted on the person's bulletin board or other prominent place advising employees of the incident, and of any possible dangers and safety precautions to be taken. Such notice shall also include recommended measures to prevent future releases.

C. Each person subject to this section shall ensure that all employees are familiar with the requirements of this section. (Ord. 53-07 § 18, 2007)

17.84.900: RELEASE OF STORMWATER OR DISCHARGE ONTO OTHER PROPERTY PROHIBITED:

It shall be unlawful to knowingly, intentionally or recklessly: a) release or direct the flow of stormwater into any conveyance facilities, or onto any property, or b) make any discharge into any conveyance facilities or onto any property, without the legal right to do so. Violation of this section shall constitute a class B misdemeanor. (Ord. 53-07 § 18, 2007)

CHAPTER 17.87
ENFORCEMENT

17.87.100: NOTIFICATION OF VIOLATION:

Whenever the director finds a violation of chapter 17.81 and/or 17.84 of this title the director may serve upon the responsible party a written notice of violation. Such written notice shall be served in person or by certified mail, return receipt requested. Within five (5) days after the receipt of such notice, an explanation for the violation and a plan for the satisfactory correction and prevention thereof, which shall include specific required actions, shall be submitted by the responsible party to the director. Submission of this plan in no way relieves the responsible party of liability for any violations occurring before or after receipt of the notice of violation. Nothing in this section shall limit the authority of the director to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation. (Ord. 53-07 § 19, 2007)

17.87.150: CONSENT ORDERS:

The director is hereby empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with any responsible party who is responsible for noncompliance. Such orders will include specific action to be taken by the responsible party. Consent orders shall have the same force and effect as administrative orders issued pursuant to sections 17.87.250 and 17.87.300 of this chapter, and shall be judicially enforceable. (Ord. 53-07 § 19, 2007)

17.87.200: SHOW CAUSE HEARING:

The director may order any responsible party suspected of causing or contributing to violation(s), to appear before the director and show cause why a proposed enforcement action should not be taken. Written notice shall be served on the responsible party, and shall specify the time and place for the hearing, the proposed enforcement action, the reasons for such action, and a request that the responsible party show cause why this enforcement action should not be taken. The notice shall be served in person on any authorized representative of the responsible party, or by certified mail, return receipt requested, at least seven (7) days prior to the hearing. Whether or not the responsible party appears as ordered, immediate enforcement action may be pursued following the hearing date. A show cause hearing shall not be a prerequisite for taking any other actions against the responsible party. (Ord. 53-07 § 19, 2007)

17.87.250: COMPLIANCE ORDERS:

When the director finds a violation or continuing violation, he may issue an order to the responsible party directing that the responsible party come into compliance within thirty (30) days, or such shorter period as the director may determine. If the responsible party does not come into compliance within the time specified, the director may take any remedial action authorized by this chapter. The issuance of an order pursuant to this section shall not be a prerequisite to emergency remedial action deemed necessary by the director. Compliance orders may also contain other requirements to address noncompliance, including additional self-monitoring, and BMPs designed to minimize the amount of pollutants discharged to the stormwater sewer system. A compliance order may not extend a federal standard or requirement, nor does a compliance order release the responsible party from state or federal liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a prerequisite to taking any other action against the responsible party. (Ord. 53-07 § 19, 2007)

17.87.300: CEASE AND DESIST ORDERS:

When the director finds a violation, or finds that the responsible party's past violations are likely to recur, the director may issue an order to the responsible party directing it to cease and desist all such violations and directing the responsible party to:

A. Immediately comply with all requirements; and

B. Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations, implementing additional BMPs, and/or terminating the discharge. Issuance of a cease and desist order shall not be a prerequisite to taking any other action against the responsible party. (Ord. 53-07 § 19, 2007)

17.87.350: ADMINISTRATIVE FINES; COSTS OF REMEDIATION:

A. Notwithstanding any other section of this chapter and chapters 17.81 and 17.84 of this title, any responsible party determined to be in violation of this chapter and/or chapter 17.81 and/or 17.84 of this title may be fined in an amount not greater than ten thousand dollars ($10,000.00) per violation, per day, as determined by the director in his reasonable discretion; provided, however, that any fine based on a violation of section 17.84.900 of this title shall not exceed the fine imposed for a class B misdemeanor.

B. The director may charge a responsible party for the costs of preparing administrative enforcement actions, such as notices and orders, which charge may be assessed whether or not a fine under subsection A of this section is also imposed.

C. The director may also charge a responsible party for the actual costs and expenses incurred by the city to respond to any discharge, regardless of whether such discharge occurs prior to or after the effective date hereof and all remedial action taken. Such charges may include all labor, equipment and materials used by the city.

D. Assessments for fines and/or costs may be added to the responsible party's next scheduled stormwater utility service charge, and the director shall have such other collection remedies as may be available for other service charges and fees.

E. Unpaid charges, fines, assessments and penalties shall, after sixty (60) calendar days, be assessed an additional penalty of ten percent (10%) of the unpaid balance. Thereafter, interest on any unpaid balances, including penalties, shall accrue at a rate of one percent (1%) per month. A lien against the responsible party's property may be sought for unpaid charges, fines, and penalties.

F. Responsible parties desiring to dispute such fines or assessments must file a written request for the director to reconsider the fine or assessment, along with full payment thereof, within thirty (30) days after being notified of the fine or assessment. The director shall convene a hearing on the matter within fourteen (14) days after receiving the request from the responsible party. In the event the director determines that all or any portion of the fines, assessments or charges were improper, such amounts paid by the responsible party to the director shall be returned to the responsible party, without interest.

G. The imposition of fines, assessments or other charges shall not be a prerequisite for taking any other action against the responsible party. (Ord. 53-07 § 19, 2007)

17.87.400: EMERGENCY SUSPENSIONS:

The director may order the immediate suspension or shutoff of a responsible party's discharge or stormwater sewer system access (after informal notice to the responsible party) whenever such suspension or shutoff is necessary in order to stop an actual or threatened discharge which reasonably appears to present or cause a risk of an imminent or substantial:

A. Damage to the stormwater sewer system or harm to the receiving waters,

B. Endangerment to the health, safety or welfare of any residents served by the stormwater sewer system,

C. Interference with the operation of the stormwater sewer system,

D. Violation of the city's UPDES permit, or

E. Endangerment to the environment.

Any responsible party notified of a suspension of its discharge shall immediately stop or eliminate its contribution or discharge. In the event of a responsible party's failure to immediately comply voluntarily with the suspension order, the director may take such steps as deemed necessary, including immediate severance of the stormwater sewer system connection, to enforce such order. The director shall allow the responsible party to recommence its discharge when the responsible party has demonstrated to the satisfaction of the director that the period of endangerment has passed, unless the termination proceedings set forth in section 17.87.450 of this chapter are initiated against the responsible party. A responsible party that is responsible in whole or in part, for any discharge presenting imminent endangerment, shall submit to the director a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, prior to the date of any show cause or termination of discharge hearing under sections 17.87.200 and 17.87.450 of this chapter. Nothing in this section shall be interpreted as requiring a hearing prior to any emergency suspension under this section. (Ord. 53-07 § 19, 2007)

17.87.450: TERMINATION OF CITY DISCHARGE PERMIT:

Violation by the holder of a city discharge permit of any of the provisions thereof, or of any of the provisions of this chapter and/or chapter 17.81 and/or 17.84 of this title, shall be grounds for termination and revocation of such permit by the director. The permit holder shall be notified of the proposed termination of a discharge permit and be offered an opportunity to show cause under section 17.87.200 of this chapter why the proposed action should not be taken. (Ord. 53-07 § 19, 2007)

17.87.500: INJUNCTIVE RELIEF:

Whenever the director finds a violation or continuing violation, the director may petition any court of competent jurisdiction for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the discharge permit, order, rule, regulation or other requirement. In addition, the director may recover reasonable attorney fees, court costs, and other expenses of litigation by appropriate legal action against the responsible party for any violation. Such other action as appropriate for legal and/or equitable relief may also be sought by the director. A petition for injunctive relief need not be filed as a prerequisite to taking any other action against a responsible party. (Ord. 53-07 § 19, 2007)

17.87.550: CIVIL FINE AND COST OF PASS-THROUGH RECOVERY:

In the event that a responsible party discharges pollutants which causes the city to violate any conditions of its UPDES permit or otherwise violate any applicable law, rule or regulation, and the city is found to be liable for such discharges of pollutants (including civil or administrative fines, penalties or other charges), then the responsible party shall be fully liable to the total amount of such liability (including civil or administrative fines and penalties) incurred by or otherwise assessed against the city, including administrative costs incurred. (Ord. 53-07 § 19, 2007)

17.87.600: REFERRAL TO STATE OF UTAH FOR ACTION:

The director may refer to the state criminal violations of any discharge permit conditions. The Utah attorney general's office may offer the county the option of prosecuting the violator. Should the county decline, the state, in its discretion, may initiate appropriate criminal action. The director may assist the Utah attorney general's office or the county with appropriate support for the action taken. (Ord. 53-07 § 19, 2007)

17.87.650: PERFORMANCE BONDS:

The director may decline to reissue a city discharge permit to any responsible party which has caused a violation, unless such responsible party first files a satisfactory bond, payable to the director, in a sum not to exceed a value determined by the director to be necessary to achieve consistent compliance. (Ord. 53-07 § 19, 2007)

17.87.700: LIABILITY INSURANCE:

The director may decline to reissue a city discharge permit to any responsible party which has caused a violation, unless the responsible party first submits proof that it has obtained financial assurances sufficient to restore or repair damage to the stormwater sewer system, and indemnify and hold the city harmless from any future violation. (Ord. 53-07 § 19, 2007)

17.87.750: WATER SUPPLY SEVERANCE:

Whenever the director finds that a person has violated or continues to violate the provisions of this chapter and/or chapter 17.81 and/or 17.84 of this title, or of any discharge permit, or order, rule or regulation issued or promulgated hereunder, water service to the person may be discontinued. Service will only recommence, at the person's expense, after it has satisfactorily demonstrated its ability to comply. (Ord. 53-07 § 19, 2007)

17.87.800: PUBLIC NUISANCES:

Any violation of this chapter and/or chapter 17.81 and/or 17.84 of this title is hereby declared a public nuisance and shall be corrected or abated as directed by the director. In addition to any other powers granted the director under chapter 17.75 of this title, the director shall be entitled to exercise all of the powers and remedies set forth in the provisions of this code governing nuisances, and shall be entitled to reimbursement for any costs incurred in removing, abating or remedying such nuisance. (Ord. 53-07 § 19, 2007)

17.87.850: CONTRACTOR LISTING:

Responsible parties who have caused or significantly contributed to a violation:

A. Are not eligible to receive a contractual award for the sale of goods or services to the city as long as such violation is continuing and/or any fines hereunder remain unpaid, or remedial action required hereunder remains unperformed; and

B. Existing contracts for the sale of goods or services to the city may be terminated at the discretion of the mayor. (Ord. 53-07 § 19, 2007)

17.87.900: NONEXCLUSIVE REMEDIES:

The provisions of this chapter are not exclusive remedies. The director reserves the right to take any, all, or any combination of these actions against a noncompliant responsible party. Enforcement of violations will generally be in accordance with the department's enforcement plan. However, the director reserves the right to take other action against any responsible party when the circumstances warrant. Further, the director is empowered to take more than one enforcement action against any noncompliant responsible party. These actions may be taken concurrently. (Ord. 53-07 § 19, 2007)

17.87.950: COMPENSATORY ACTIONS:

In lieu of enforcement proceedings, penalties and remedies authorized by this chapter for a violation of a stormwater sewer discharge permit or requirement, the director may impose alternative compensatory actions such as storm drain stenciling, watercourse cleanup, and similar community service; or may impose education at the responsible party's expense. (Ord. 53-07 § 19, 2007)

CHAPTER 17.91
MISCELLANEOUS

17.91.100: SEVERABILITY:

The provisions of chapter 17.75 of this title through this chapter are hereby declared to be severable. If any provision, clause, sentence, or paragraph of chapter 17.75 of this title through this chapter, or the application thereof to any person, establishment or circumstance shall be held invalid, such invalidity shall not affect the other provisions or application of chapter 17.75 of this title through this chapter. (Ord. 53-07 § 20, 2007)

17.91.200: ULTIMATE RESPONSIBILITY:

The standards set forth herein and promulgated pursuant to chapter 17.75 of this title through this chapter are minimum standards; therefore chapter 17.75 of this title through this chapter do not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor prohibited discharge. Review and approval of structures, facilities, and operating procedures shall not relieve a person from the responsibility of modifying a facility or process as necessary to meet the requirements hereof. (Ord. 53-07 § 20, 2007)

CHAPTER 17.95
STREET LIGHTING

17.95.100: TERMS DEFINED:

For purposes of this chapter, the following words, terms and phrases shall have the following meanings:

CITY: Salt Lake City Corporation, a municipal corporation of the state.

COMBINED OR DEPARTMENT BILL: The monthly bill sent to customers by the department.

COUNCIL: The Salt Lake City council.

DEPARTMENT: The city's department of public utilities.

DEVELOPED PARCEL: Any residential or commercial parcel that has been improved for use or has water or sanitary sewer service to the parcel.

DIRECTOR: The director of the department, or the director's duly authorized designee.

EQUIVALENT RESIDENTIAL UNIT OR ERU: The unit of measurement of the magnitude of use of the street lighting system attributable to either a developed or undeveloped parcel. For nonresidential service charges, one ERU shall be based upon the property street frontage, divided by seventy five feet (75') and rounded to the nearest positive whole number. An ERU calculation does not apply to residential service charges.

PARCEL: The smallest separately segregated unit or plot of land which is documented and given a property serial number by the county. For the purpose of billing multiple separate but contiguous parcels with one water service, such parcels will be combined for the purpose of calculating ERUs and billing.

PERSON: Any individual, partnership, copartnership, firm, limited liability company, corporation, association, joint stock company, trust, estate, government entity or any other entity recognized by law, and any offices, departments, institutions, bureaus or agencies thereof.

PREMISES: Any building lot, parcel, or portion of land whether improved or unimproved, including adjacent sidewalks and parking strips.

RESIDENTIAL SERVICE: Any parcel of land which is improved with a single, duplex or triplex "dwelling unit".

STREET LIGHTING FACILITIES: All physical items within the street lighting system, including, but not limited to, poles, fixtures, bulbs, wiring, switches, and all other appurtenances associated with the public street lighting inventory.

STREET LIGHTING SYSTEM: Includes all street lighting assets held by the city that concern streetlights within the public right of way.

UNDEVELOPED PARCEL: Any parcel that has not been improved and has no uses or generates no activity. (Ord. 93-12, 2012)

17.95.200: ESTABLISHMENT OF STREET LIGHTING UTILITY AND ADMINISTRATION OF STREET LIGHTING FACILITIES:

The street lighting utility has been established pursuant to section 2.08.100 of this code, and is operated as a separate enterprise fund within the department of public utilities. All portions of the street lighting system shall be operated, managed and administered by the director within the street lighting utility. All street lighting assets held by the city that concern streetlights within the public right of way shall be transferred to the separate street lighting enterprise fund. (Ord. 93-12, 2012)

17.95.300: SYSTEM OF RATES AND CHARGES:

A. Generally: There are hereby imposed street lighting service fees, rates and charges, effective for all billing periods after and including January 1, 2013, and thereafter until further amended. The charges shall fund the administration, planning, design, construction, programming, operation, maintenance and repair of existing and future street lighting facilities.

B. Residential Service Charges: Residential service charges for use of the street lighting system shall be as shown on the Salt Lake City consolidated fee schedule.

C. Nonresidential Service Charges: Nonresidential service charges for use of the street lighting system shall be shown on the Salt Lake City consolidated fee schedule. The charge shall be based upon the property street frontage, divided by seventy five feet (75'), or one ERU, and rounded to the nearest whole number. The actual total monthly service charge shall be computed by multiplying the total ERUs for a parcel by the monthly rate shown on the Salt Lake City consolidated fee schedule.

D. Nonservice Abatement: The owner of a parcel that is not directly or indirectly benefited by the street lighting utility and has no active business activity shall be entitled to an abatement of the service charge for said parcel. In order to receive such abatement, the owner, or the owner's agent, shall apply, in writing, to the director pursuant to section 17.95.500 of this chapter. (Ord. 93-12, 2012)

17.95.400: BILLING AND COLLECTION:

A. Billing: In the case of developed parcels, the department shall cause billings for street lighting utility services to be sent periodically to the person who has signed for water and sanitary sewer service to the parcel. The amounts to be billed shall be included on the existing department bill as a separate line item. In the case of undeveloped parcels, or properties without public water or sewer services with front footage, a street lighting only billing will be sent to the owner of the parcel, as shown on the records of the county recorder.

B. Collection:

1. In the event partial payment is made on a combined bill, the payment shall be applied first to franchise fees due, and then to each service on a pro rata basis.

2. In the event of delinquency, fees and charges levied in accordance herewith shall be a debt due the city. If this debt is not paid within thirty (30) days after billing, it shall be deemed delinquent. The department shall have the right to terminate water, sewer and other city services to the premises to enforce payment. Any uncollected amount due from the person or persons who own the parcel on any inactive, terminated or discontinued account may be transferred to any active account under the same person or persons' name(s) and, upon failure to pay such bill after at least five (5) days' prior written notice, water and other city services to that account and parcel may be discontinued.

3. Water, sewer, garbage, storm sewer and street lighting service shall not be restored until all charges have been paid in full.

C. Street Lighting Utility Enterprise Fund: All funds received from street lighting service charges shall be placed in the street lighting enterprise fund and kept separate and apart from all other city funds. The collection, accounting and expenditure of all street lighting utility funds shall be in accordance with existing fiscal policy of the city. (Ord. 93-12, 2012)

17.95.500: APPEAL OF CHARGES:

A. Owners of an undeveloped parcel may appeal the charge in writing to the director for a determination of the appropriate street lighting charge.

B. Any owner or person who considers the city's street lighting charge as applied to a parcel owned by such person to be inaccurate, or who otherwise disagrees with the utility rate determination, may apply to the director for a service charge adjustment. Such a request shall be in writing and state the grounds for such an appeal. The director shall review the case file and determine whether an error was made in the calculation or application of the charge and make an adjustment to the charge, if necessary, to provide for proper application of the city's rates and charges pursuant hereto. In all cases, the decision of the director shall be final unless appealed.

C. Any appeal of the amount billed under this chapter shall be filed in writing with the director no later than twenty (20) days after the billing. Any subsequent appeal shall be brought within twenty (20) days after the date of the appealed decision.

D. Appeal of decisions made by the director may be brought before the public utilities advisory committee (PUAC), which may reevaluate the issue raised in the appeal. Decisions of the PUAC shall be final and conclusive.

E. Nothing in this chapter shall be construed to grant a right to judicial review which does not otherwise exist at law. (Ord. 93-12, 2012)

Title 18 - BUILDINGS AND CONSTRUCTION

CHAPTER 18.04
ADMINISTRATION AND GENERAL PROVISIONS

18.04.010: DIVISION OF BUILDING AND HOUSING SERVICES; ADMINISTRATIVE DUTIES:

This title establishes the duties of the division of building and housing services. (Prior code § 5-1-1)

18.04.020: DEFINITIONS:

A. Where undefined terms are used, the definitions of "Webster's Unabridged Dictionary" shall apply.

B. In addition thereto, all words and phrases defined in this chapter shall be given such defined meanings wherever used in this title, including the following:

BUILDING OFFICIAL: Means and refers to the director of the division of building and housing services, or his designee.

DIVISION: Means and refers to the division of building and housing services of the city. (Prior code § 5-1-6)

18.04.030: APPLICATION OF PROVISIONS:

This title applies to the construction, alteration, moving, demolition, repair and use of any building or structure and the equipment therein within Salt Lake City's jurisdiction, including portable dwellings, mobile homes, trailers, and mobile home parks. (Prior code § 5-1-3)

18.04.040: TECHNICAL CONSTRUCTION CODES; ADOPTION, ADMINISTRATION AND ENFORCEMENT:

This title provides for the adoption, administration, and enforcement of the technical construction codes referenced herein. Each of the referenced technical codes bears a legal influence over details of the design, construction, alteration, occupancy, use, repair and maintenance of buildings, structures, and certain equipment therein. Each of the referenced technical codes provides minimum standards and practical safeguards and provisions against threats to life and limb, health, safety, property, and public welfare. Wherever in these codes reference is made to an appendix, the provisions of the appendix shall apply. (Prior code § 5-1-2)

18.04.050: EQUIPMENT INSTALLATION SPECIFICATIONS:

This title establishes minimum requirements for the installation and maintenance of electrical conductors, fittings, devices and fixtures, herein referred to as "electrical equipment"; for the installation and maintenance of plumbing, heating, cooling, ventilation and refrigeration systems; for the installation and maintenance of fuel piping and energy using equipment; fire protection or fire prevention piping within the corporate limits of the city, and to provide for the enforcement thereof. (Prior code § 5-1-4)

18.04.060: RESOLUTION OF CONFLICTING PROVISIONS:

Wherever conflicting provisions or requirements occur, the most restrictive provisions or requirements shall govern. (Prior code § 5-1-5)

18.04.070: LIABILITY LIMITATIONS:

Nothing in this title shall be construed to relieve or lessen the responsibility of any contractor, owner, or any other persons involved, for apparatus, construction or equipment installed by or for them, for damages to anyone injured or damaged either in person or property by any defect therein, nor shall the city or any employee thereof be held to assume any liability by reason of the inspections authorized herein, or the certificate of occupancy issued by the building official of the division of building and housing services. (Prior code § 5-1-7)

CHAPTER 18.08
ORGANIZATION

18.08.010: DIVISION ESTABLISHED; SECTIONS DESIGNATED:

There is established, in the department of development services, a subordinate division of building and housing services, to be under the supervision of the building official, which division shall be divided into the following sections:

A. Construction compliance;

B. Zoning compliance;

C. Housing preservation. (Amended during 1/88 supplement: prior code § 5-2-1)

18.08.020: POWERS AND DUTIES OF THE DIVISION:

The functions of the division of building and housing services shall be:

A. To enforce the zoning laws of Salt Lake City and to inspect, or cause to be inspected, all buildings and structures erected, or proposed to be erected in the city;

B. To carry out, enforce and perform all duties, provisions and mandates designated, made and set forth in the ordinances of the city concerning zoning, building, plumbing, electrical and mechanical construction, and repair, including uniform housing code regulations;

C. To examine and approve all plans and specifications before permits shall be issued, and to execute all permits, certificates and notices required to be issued;

D. To examine all applicants for licensing and registration in accordance with requirements of chapter 18.16 of this title, and issue same in accordance with the requirements of this title; and

E. To perform all of the functions and have all of the powers required of and conferred on the building official by the ordinances of the city. (Prior code § 5-2-2)

18.08.030: BUILDING OFFICIAL; EMPLOYMENT:

The mayor of the city shall employ a qualified building official, construction official, housing official, zoning official, plans examiner, inspector, and such other assistants and clerks as the exigencies of the work of the division may from time to time require, at such compensation and for such periods of time as the mayor may deem proper. (Prior code § 5-2-3)

18.08.040: BUILDING OFFICIAL; POWERS AND DUTIES:

The building official shall maintain public office hours necessary to efficiently administer the provisions of this title and related titles and amendments thereto, and shall perform the following duties:

A. Maintain an official register of all persons, firms or corporations lawfully entitled to carry on or engage in the businesses regulated by this title to whom a current license has been issued by the department of contractors of the state;

B. Issue permits to properly licensed, bonded and registered persons, firms or corporations for work to be done within the scope of this title;

C. Administer and enforce the provisions of this title in a manner consistent with the intent thereof, and inspect all work authorized by any permit, to assure compliance with provisions of this title or amendments thereto, approving or condemning such work in whole or in part, as conditions require;

D. Issue a certificate of approval or certificate of occupancy for all work approved by him/her;

E. Condemn and reject all work done or being done, or materials used or being used which do not in all respects comply with the provisions of this title and amendments thereto;

F. Order changes in workmanship and/or materials essential to obtain compliance with all provisions of this title;

G. Investigate any construction or work regulated by this title and issue such notice and orders which are necessary to prevent or to correct dangerous or unsanitary conditions;

H. Recommend revocation of licenses to the state department of business regulation for cause;

I. Authorize any utility to make necessary connections for power, water or gas to all applicants for such power or water in the city, when the installation and all facets of the construction or remodel project conform to this title. (Prior code § 5-2-4)

18.08.050: BUILDING OFFICIAL; DELEGATION OF AUTHORITY:

The building official may delegate any of his/her powers to the construction official, housing official, zoning official, plans examiner, inspectors and assistants, who shall enforce all of the provisions of this title. (Prior code § 5-2-5)

18.08.060: BUILDING OFFICIAL; UTILITY DISCONNECTION AUTHORITY:

The building official, or the building official's authorized representative, shall have the authority to disconnect or order discontinuance of any utility service or energy supply to buildings, structures or equipment therein regulated by this code, in cases of emergency or where necessary for safety to life and property. Such utility service shall be discontinued until the equipment, appliances, devices, piping or wiring found to be defective, or defectively installed, are removed or restored to a safe condition. (Prior code § 5-2-7)

18.08.070: DEVIATION FROM REGULATIONS AUTHORIZED WHEN:

Where conditions are extremely adverse to full compliance with the regulations of this title, the building official may grant special permission in writing to deviate from the regulations, provided that in the judgment of the building official such deviation does not create an unsanitary or unsafe condition, and further provided the request for deviation is submitted for approval in writing in advance of the construction or installation. (Prior code § 5-2-6)

18.08.080: DIVISION; RECORD KEEPING AND ACCOUNTING:

An itemized account of the business and transactions of the division, the expenses thereof, and the income therefrom for the preceding month shall be made and filed with the mayor each month. Annual reports shall be made and filed with the mayor each year, in the same manner as monthly reports. (Prior code § 5-2-11)

18.08.090: DIVISION; BOOKS, PAPERS AND EQUIPMENT:

The city shall provide such instruments, books, papers and equipment as shall be necessary for the proper performance of the duties of the members of the division. The building official shall have charge and control of the books, instruments, papers and equipment used and employed in the division, and shall deliver the same to his/her successor in office. (Prior code § 5-2-12)

18.08.100: BUILDING OFFICIAL; LIABILITY LIMITATIONS:

The building official, or his/her assistants, when acting for the city in good faith and without malice in the discharge of his/her duties, shall not thereby render himself/herself liable personally, and the building official is hereby relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required or by reason of any act or omission in the discharge of such official's duties. (Prior code § 5-2-8)

18.08.110: BUILDING OFFICIAL; RIGHT OF ENTRY FOR INSPECTIONS:

The building official, or his/her authorized assistants, shall have the right of entry, within reasonable hours, to any building or premises for the purpose of inspection, or to investigate any work or conditions governed by this title. (Prior code § 5-2-9)

18.08.120: BUILDING OFFICIAL; CONFLICT OF INTEREST PROHIBITED:

The building official and his/her assistants shall not in any way engage in the sale or installation of equipment or supplies upon which they are required to make inspection under this code. (Prior code § 5-2-10)

CHAPTER 18.12
BOARD OF APPEALS AND EXAMINERS

18.12.010: BOARD OF APPEALS CREATED; PURPOSE AND AUTHORITY:

In order to provide for reasonable interpretations of the provisions of this title, and to determine the suitability of alternates, there shall be created a board of appeals and examiners, hereinafter called "board", consisting of five (5) members who are qualified by experience and training to pass upon matters pertaining to building construction, housing, and abatement codes and technical disciplines therein. One board member shall be a LEED accredited professional. The board shall hear and decide appeals where it is alleged there is an error in any order, requirement, decision or determination made by an administrative official in the enforcement of this title. The board may also recommend new ordinances to the city council. (Ord. 79-06 § 1, 2006: prior code § 5-3-1)

18.12.020: MEMBERSHIP; APPOINTMENT, TERM AND ORGANIZATION:

Members of the board shall be appointed by the mayor and confirmed by the city council, and shall hold office for five (5) years. The building official shall be an ex officio member of the board, and shall act as secretary. A chairman of the board will be elected by members each year. (Prior code § 5-3-2)

18.12.030: RULES OF CONDUCT:

The board of appeals shall adopt reasonable rules and regulations for conducting their investigation and business and shall render all decisions and findings in writing to the building official and appellants. (Prior code § 5-3-3)

18.12.040: JUDICIAL REVIEW OF BOARD'S DECISIONS:

The city, or any person aggrieved by any decision of the board, may have and maintain an action for relief therefrom in a court of competent jurisdiction, provided petition for such relief is presented to the court within thirty (30) days after the filing of such decision in the office of the board. (Prior code § 5-3-4)

CHAPTER 18.16
REGISTRATION AND LICENSES

Article I. Contractor Registration

18.16.010: REGISTRATION; PREREQUISITE TO BUILDING WORK:

It is unlawful for any person, firm or corporation to perform any work requiring a permit from the city division of building and housing services without first having registered with the building official. (Prior code § 5-4-1)

18.16.020: STATE CONTRACTOR LICENSE REQUIRED:

Every applicant for registration shall furnish evidence that such applicant is currently licensed under the provisions of the Utah contractor's license law as it presently exists or hereafter may be amended, giving the classification and number of the license, and shall have secured all licenses required by the ordinances of Salt Lake City. (Prior code § 5-4-2)

18.16.040: EXCAVATION BOND REQUIRED:

Any person, firm or corporation properly licensed to do business in accordance with this title who in the course of their work has occasion to excavate in the city streets, alleys or rights of way shall file an additional bond with the city in the amount of ten thousand dollars ($10,000.00), or such larger amount as the mayor may require. (Prior code § 5-4-4)

18.16.050: FEE FOR REGISTRATION:

Each person, firm or corporation required to register in accordance with this chapter shall pay a registration fee shown on the Salt Lake City consolidated fee schedule for each fiscal year, or part thereof. (Ord. 24-11, 2011)

18.16.060: LICENSE AND REGISTRATION NOT TRANSFERABLE:

It is unlawful for any contractor to use such contractor's license or registration or to allow his/her license to be used in any way for the purpose of procuring a license bond, registration or permit for any person other than such contractor. (Prior code § 5-4-6)

18.16.070: SALE OF UNAPPROVED MECHANICAL EQUIPMENT PROHIBITED:

It is unlawful for any dealer or person to sell, deliver or offer for sale any mechanical equipment or apparatus that has not been approved by a recognized listing agency. (Prior code § 5-4-7)

CHAPTER 18.20
PERMITS AND INSPECTIONS

18.20.010: WORK REQUIRING PERMIT:

No person, firm or corporation shall erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish any building, structure or premises, or make any installation, alteration or improvement to the electrical, plumbing or mechanical system in a building, structure or premises, or cause the same to be done, without first obtaining the prescribed permits for each such building or structure or premises from the building official. (Prior code § 5-5-1(1))

18.20.020: EXEMPT WORK DESIGNATED:

A. A building permit shall not be required for the following:

1. Playhouses and similar uses;

2. Fences not exceeding height limitations or requiring variances by the appeals hearing officer;

3. Oil derricks;

4. Movable cases, counters and partitions not over five feet (5') high;

5. Retaining walls which are not over two feet (2') in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding flammable liquids;

6. Water tanks supported directly upon grade if the capacity does not exceed five thousand (5,000) gallons and the ratio of height to diameter or width does not exceed two to one (2:1);

7. Painting, papering and similar finish work;

8. Temporary motion picture, television and theater stage sets and scenery;

9. Window awnings supported by an exterior wall of group R, division 3, and group M occupancies, when projecting not more than fifty four inches (54").

B. Unless otherwise exempted, separate plumbing, electrical and mechanical permits shall be required for the above exempted items.

C. Exemption from the permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. (Ord. 8-12, 2012: prior code § 5-5-1(2))

18.20.030: APPLICATION; FORM AND FILING:

To obtain a permit the applicant shall first file an application therefor, in writing, on a form furnished for that purpose. (Prior code § 5-5-4)

18.20.040: APPLICATION; PLANS AND OTHER DATA:

Each application for a permit shall be accompanied by all required plans, diagrams and other data, in duplicate, unless otherwise required by the building official. The building official may require the plans and other data to be prepared and designed by an engineer or architect licensed by the state to practice as such. (Prior code § 5-5-5)

18.20.050: APPLICATION; REVIEW; PERMIT ISSUANCE CONDITIONS:

A. Application Review: Except as provided in subsection B of this section, the application plans and data filed by an applicant for a building permit shall be checked by the building official. Said application may be reviewed by other government agencies or departments to check compliance with the laws and ordinances under their jurisdiction. If the building official is satisfied that the work described in an application for a building permit and plans filed therewith conform to the requirements of this title and other pertinent ordinances and laws and that the required fees have been paid, the building official shall issue a permit therefor to the applicant. The building official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved, provided adequate information and detailed statements have been filed complying with all pertinent requirements of this title. The holder of such permit shall proceed at his or her own risk without assurance that the permit for the entire building or structure will be granted.

B. Expedited Plan Review: A building permit applicant may seek an expedited building plan review, provided that the applicant pay the expedited plan review fee set forth in section 18.32.035 of this title. The expedited building plan review may be conducted by a qualified third party with significant experience conducting building plan reviews, as selected and approved by the building official. The person(s) assigned to conduct the expedited building plan review shall provide initial comments, including corrections to be made to the building plans, within ten (10) business days of the date the application was filed.

C. Plan Review Expiration: If a building permit applicant fails to submit corrected building plans in accordance with the comments and requirements of the building services division or its authorized representative within one hundred eighty (180) days of the division transmitting such comments and requirements to the applicant, or if the applicant fails to pay the required building permit fee within one hundred eighty (180) days of the division informing the applicant that its building plans are approved and the building permit fee is due, the plan review shall expire at the end of such period and the review become null and void. An expired plan review may be renewed, provided that the applicant pay the plan review renewal fee established in section 18.32.035 of this title, however, no plan review may be renewed after three (3) years from the original submission date. (Ord. 15-10 § 2, 2010)

18.20.060: PERMIT; ISSUED TO LICENSED CONTRACTORS ONLY:

Except as otherwise provided by this title, it is unlawful to issue a permit to any person other than a duly registered contractor licensed to do business by the state department of business regulation, and registered by the city division of building and housing services. (Prior code § 5-5-2)

18.20.070: HOMEOWNER PERMITS:

Any permit required by this title may be issued to any person to do any work regulated by this title in a single-family dwelling used exclusively for such person's living purposes, including the usual accessory buildings and quarters in connection with such buildings, provided that any such person is a bona fide owner of any such dwelling and accessory buildings and quarters, and that the same are occupied or designed to be occupied by such owner, and further provided that the owner shall furnish the building official with a complete layout drawing of the proposed work, satisfy the building official that he or she has a working knowledge of the code requirements, performs the work himself or herself, pays the necessary inspection fees, and calls for all inspections required by this title. (Prior code § 5-5-3)

18.20.080: PERMIT; EFFECT OF ISSUANCE:

The issuance of a permit or approval of plans or other data shall not be construed to be a permit for or an approval of any violation of any of the provisions of this title. The issuance of a permit based upon plans and other data shall not prevent the building official from thereafter requiring the correction of errors in said plans and data or from stopping building operations being carried on thereunder when in violation of this title or any other ordinance. (Prior code § 5-5-7)

18.20.090: START OF WORK WITHOUT PERMIT; PENALTY FEES; EMERGENCIES:

A. Fee Increase When: Whenever any construction or work for which a permit is required by this title is started or commenced without obtaining the prescribed permit, the fees specified in this title may be increased by the building official up to a fee of ten percent (10%) of the valuation of the proposed construction as determined by the building official, or one thousand dollars ($1,000.00), whichever is greater, but the payment of such increased fees shall not relieve any persons from fully complying with the requirements of this title in the execution of the work nor from any other penalties prescribed herein.

B. Exception; Emergency Work: This provision shall not apply to emergency work when it shall be proved to the satisfaction of the building official that such work was urgently necessary and that it was not practical to obtain a permit therefor before the commencement of the work. In all such cases, a permit must be obtained as soon as it is practical to do so, and if there be an unreasonable delay in obtaining a permit, a double fee, as herein provided, shall be charged. (Ord. 90-05 § 1 (Exh. A), 2005: prior code § 5-5-10)

18.20.100: PERMIT; DENIAL CONDITIONS:

The building official may refuse to issue any permit for work governed by this title to any person who has a permit revoked in accordance with this title, or during such time as such person fails to comply with any provision of this title. (Prior code § 5-5-11)

18.20.110: PERMIT; EXPIRATION AND RENEWAL:

Every permit issued by the building official under the provisions of this title shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within one hundred eighty (180) days from the date of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of one hundred eighty (180) days. Before such work can be recommenced, the permit shall first be renewed by the building official and the fee therefor shall be one-half ($^1/_2$) the amount required for a new permit for such work, provided no changes have been made or will be made in the original plans or scope of such work, and provided no changes have occurred relative to other municipal regulations impacting the use, size, yard, space or other requirements concerning the proposed structure or development. Whenever a construction permit is taken out in order to resolve the violation(s) specified in a notice and order, the expiration date for the permit shall coincide with the time limit for resolution of the violation(s) contained in the notice and order. (Prior code § 5-5-8)

18.20.120: PERMIT; NOT TRANSFERABLE:

When any work regulated by this title is not completed by the permittee under the permit issued to him or her for the work and the work in question is added to or completed by one or more contractors, each contractor shall procure a permit to cover the work he or she performs. (Prior code § 5-5-13)

18.20.130: PERMIT; SUSPENSION OR REVOCATION:

The building official may, in writing, suspend or revoke a permit issued under provisions of this title whenever the permit is issued in error, or on the basis of incorrect information supplied, or in violation of any ordinance or regulation of any of the provisions of this title. (Prior code § 5-5-9)

18.20.140: HEARING ON DENIAL OR REVOCATION OF PERMIT:

Any person adversely affected by the action of the building official in accordance with the preceding sections may appeal to the board of appeals and examiners for a hearing upon such revocation or denial. (Prior code § 5-5-12)

18.20.150: INSPECTION OF WORK:

A. All construction, work and equipment for which a permit is required shall be subject to inspections by the building official. The building official may make or require any inspection of any construction work to ascertain compliance with the provisions of this title and other laws which are enforced by the division.

B. No construction, work or equipment regulated by this title shall be connected to any energy, fuel or power supply or water system or sewer system until authorized by the building official.

C. A survey of any lot may be required by the building official to verify compliance of structures with approved plans. The building official shall not be liable for any expense entailed in the removal or replacement of any material required to allow an inspection. (Prior code § 5-5-14)

18.20.160: APPROVALS REQUIRED FOR ONGOING CONSTRUCTION:

No work shall be done on any part of the building or structure beyond the point indicted in each successive inspection without first obtaining the written approval of the building official. Such written approval shall be given only after an inspection shall have been made of each successive step in the construction as indicated by each of the inspections required by the building official. (Prior code § 5-5-17)

18.20.170: REQUESTS FOR INSPECTIONS:

The building official may require that every request for the inspection be filed at least one day before such inspection is required. Such request may be in writing or by telephone. It shall be the duty of the person requesting any inspections required by this title to provide access to and means for proper inspection of such work. (Prior code § 5-5-15)

18.20.180: INSPECTION RECORD CARD:

Work requiring a permit shall not be commenced until the permit holder or his or her agent shall have posted an inspection record card in a conspicuous place on the front premises, or on an electrical service panel, and in such position as to allow the director conveniently to make the required entries thereon regarding inspection of the work. This card shall be maintained in such position by the permit holder until the building or structure is completed and ready for occupancy. (Prior code § 5-5-16)

18.20.190: FINAL INSPECTION AND CERTIFICATE OF OCCUPANCY:

There shall be a final inspection and approval on all buildings when completed and ready for occupancy. A final inspection approval may, upon notice, be revoked by the building official if the building official finds that any construction, work or equipment fails in any respect to comply with the requirements of this title, or that the installation is unsafe, dangerous, or a hazard to life or property. A certificate of occupancy shall be issued as specified in the adopted uniform building code, as amended. (Prior code § 5-5-18)

18.20.200: REINSPECTIONS AND FEES:

A. A reinspection fee may be assessed:

1. When the approved plans are not readily available to the inspector;

2. For failure to provide access on the date for which the inspection is required;

3. For deviating from plans requiring the approval of the building official.

B. In instances where reinspection fees have been assessed or reinspection is necessary, no additional inspection of the work will be performed until the required fees have been paid and the permittee calls for a reinspection. The reinspection charge shall be shown on the Salt Lake City consolidated fee schedule and not exceed the amount shown on the Salt Lake City consolidated fee schedule for each additional inspection required. (Ord. 24-11, 2011)

18.20.210: CLEANUP AND PROTECTION OF PUBLIC RIGHTS OF WAY:

A. Each permit holder shall be responsible to see that vehicles used in the process of carrying out the work authorized by the permit shall not track any mud, dirt or debris of any kind upon any streets or sidewalks within the corporate limits of Salt Lake City Corporation unless a permit has been obtained from the city engineer for use of a designated portion of the right of way with provisions made to keep that portion of the right of way and adjacent areas cleared of mud, dirt or debris of any kind. The permittee shall install a suitable process to clean the wheels of the equipment prior to its leaving the job site and entering the

streets of Salt Lake City Corporation. The suitable process shall consist of:

1. A cleaning area and crew to clean mud and dirt off the wheels and exterior body surface of the trucks, or its equivalent;

2. The cleaning area shall be arranged to furnish adequate draining to prevent puddling; the cleaning area shall be kept mud free and may be on a macadam or concrete slab;

3. The cleaning area shall be located on private property and arranged in such a way that there is no blocking of vehicular or pedestrian traffic on city rights of way except where permission has been granted by the city engineer;

4. The cleaning water or solution used for cleaning shall not be allowed to enter the city streets, gutter, or storm drain or sanitary sewer system.

B. All trucks and equipment leaving the site with earthen materials or loose debris shall be loaded and/or covered in such a manner as to prevent dropping of materials on city streets and/or sidewalks.

C. Ramps constructed over curbs and gutters shall not interfere with or block the passage of water along the gutter and shall be constructed of asphalt material that will not erode or deteriorate under adverse weather conditions.

D. The permit holder shall install erosion and water runoff controls sufficient to ensure that no stormwater, surface water, sediments or debris from the construction site shall drain or wash or be tracked into any public right of way or other adjacent properties, including curb and gutter, unless permission has been granted through the erosion control plan. These controls shall be sufficient to cover any contingency, including, but not limited to, seasonal storms, unseasonal storms, or methods of construction. The director of building and housing services or the city engineer may require, when in his/her discretion he/she deems necessary, an erosion control plan to be submitted for approval. Such plan may be required any time during construction and must be submitted within five (5) days of the request. The director of building and housing or the city engineer may suspend all work until the plan requested is approved. The permit holder will maintain all erosion control facilities throughout the life of the construction project. He/she will monitor their effectiveness after storms and make the necessary adjustments to ensure they function correctly.

E. The sidewalk and/or curb and gutter shall not be used for storage of debris, dirt or excavated materials. In addition, the sidewalks shall not be removed, blocked or otherwise rendered unusable by either the storage of construction equipment or materials or the construction procedures used, unless a safe, usable alternate walkway along the same side of the street is provided by the contractor unless a permit has been issued by the city engineer's office. All alternate walkways shall be ramped in accordance with handicap ramp requirements and so constructed as to provide an all weather walking surface four feet (4') wide as sound and smooth as the normal concrete sidewalk.

F. The permit holder shall be responsible for the immediate removal of mud, dirt or debris deposited on city streets, sidewalks and/or curb and gutters by equipment leaving the site or by the permit holder's construction procedures.

G. If it becomes necessary for the city street crews to remove any mud, dirt, or debris which has been deposited upon a street or sidewalk of Salt Lake City Corporation, the total cost to the city of such removal will be charged to the property owner or contractor (permit holder), including legal fees, if any. Payment of such charges will be made to the city prior to certification of final inspections, utility clearances, and issuance of a certificate of occupancy.

H. The director of building and housing services or the city engineer is empowered to suspend any permit until the permit holder installs the necessary cleaning equipment and/or erosion control facilities to ensure that no dust or debris is deposited upon the streets and sidewalks of Salt Lake City Corporation. Such device shall operate in a manner satisfactory to the director of building and housing services or the city engineer.

I. A violation of this chapter shall be punished as a class B misdemeanor, and the issuance of a criminal complaint shall not excuse the permit holder of his or her responsibilities to abate the problem. Each day the violation exists shall be a separate offense. (Ord. 65-87 § 1, 1987: prior code § 5-5-20)

18.20.220: WAIVER OR DEFERRAL OF FEES:

Nonprofit organizations may petition the city for the waiver or deferral of any or all fees required by this title on an annual or project by project basis as provided below.

A. Petitions shall be filed with the housing appeals and advisory board ("HAAB").

B. Waivers shall not be granted for projects that are receiving seventy five percent (75%) or more of their funding directly or indirectly from state or federal agencies, except for projects that upgrade or construct owner occupied housing or multiple dwelling units used for very low income housing as provided by the guidelines established by the United States department of housing and urban development.

C. Waivers under five hundred dollars ($500.00) may be granted by the director of community and economic development.

D. Waivers over five hundred dollars ($500.00), and director denials of waivers under five hundred dollars ($500.00) shall be heard informally before HAAB after notice of the hearing has been posted for seven (7) days in the office of the city recorder.

E. HAAB may recommend granting the waiver or deferral if it finds that the project or projects, and the sponsoring nonprofit organization furthers the city's established low income housing goals to provide housing for persons or families under eighty percent (80%) of the city's median income, as defined by the United States department of housing and urban development, and also meets all applicable guidelines established for any such programs by the United States department of housing and urban development. HAAB may recommend that waivers may be granted for remodeling or construction of offices for nonprofit housing corporations if it finds that such remodeling or construction will save the corporation money and that such savings will be applied to a specific housing project.

F. The HAAB recommendation will be made to the director of community and economic development, who shall issue the decision of the department.

G. Any person or entity dissatisfied with the decision of the director may appeal such decision to the mayor or the mayor's designee, whose decision shall be final.

H. HAAB may not grant a waiver or deferral to any organization which owns, operates, manages or is related by common ownership or management to any other such organization which owns, operates or manages buildings for which existing notices of code violations have not been cured. (Ord. 38-08, 2008: Ord. 6-04 § 9, 2004: Ord. 76-92 § 2, 1992)

CHAPTER 18.24
ENFORCEMENT AND PENALTIES

18.24.010: MANDATORY AND PROHIBITIONARY NATURE OF PROVISIONS:

A. It is unlawful for any person, firm or corporation to perform any act prohibited by this title, specifically chapters 18.04 through this chapter, 18.32 through 18.44, 18.48 through 18.64, 18.72, 18.76, 18.84 and 18.88 of this title, or to fail or to refuse to perform any act required by this title and said chapters, or to aid or abet therein, or to fail or refuse to comply with any valid order issued by the building official or his or her designee pursuant to the provisions of this title.

B. No permits shall be issued to any applicant during the time such applicant fails to correct any defective work or noncomplying installation of equipment after written notice by the building official of the division of building and housing services or his or her designee.

C. Any person, firm or corporation violating any of the provisions of this title shall be guilty of a misdemeanor. (Prior code § 5-15-1)

18.24.020: CONTINUING OFFENSES DEEMED DAILY VIOLATIONS:

Where no other penalty is prescribed, any person convicted of violating any provision of this title shall be punished as provided by section 1.12.050 of this code, or its successor section, and each day that any violation of this title is permitted to continue shall constitute a separate offense. (Prior code § 5-15-2)

CHAPTER 18.28
SITE DEVELOPMENT REGULATIONS

18.28.010: DOCUMENT ADOPTED BY REFERENCE; COPIES ON FILE:

That certain pamphlet entitled "Site Development Regulations-Procedures, Standards And Specifications", dated August 1981, including chapters 1 through 7, which were specifically prepared in conjunction with the ordinance codified herein, is hereby adopted by reference by Salt Lake City as the ordinances, rules and regulations of the city to guide all land development activity. Three (3) copies of said pamphlet, hereinafter sometimes referred to as "regulations", shall be filed for use and examination by the public in the office of the city recorder. Hereinafter, all references to the various provisions of chapters 1 through 7 of such regulations shall be considered as references to this chapter. Said provisions may be cited and known as the "site development regulations of Salt Lake City, Utah". (Amended during 11/89 supplement: prior code § 47-1-1)

CHAPTER 18.32
BUILDING REGULATIONS

18.32.020: BUILDING CODE AND STANDARDS ADOPTED:

The edition of the uniform building code, as adopted by the Utah uniform building code commission as the construction standard to be adhered to by subdivisions of the state (section 58-56-4, Utah Code Annotated, or its successor section) is adopted by Salt Lake City, together with the following chapters of the appendix to the uniform building code:

Chapter 3 Division IV - Requirements For Group R, Division 4 Occupancies;

Chapter 11 Division I - Site Accessibility;

Chapter 11 Division II - Accessibility For Existing Buildings;

Chapter 15 Reroofing;

Chapter 16 Division I - Snow Load Design;

Chapter 16 Division III - Earthquake Regulations For Seismic Isolated Structures;

Chapter 31 Division II - Membrane Structure;

Chapter 33 Excavation And Grading.

Hereafter, all references in this code to the uniform building code shall mean the said edition adopted by the Utah uniform building code commission. One copy of the uniform building code shall be filed for use and examination by the public in the office of the city recorder. (Ord. 37-95 § 2, 1995: amended during 1/88 supplement: prior code § 5-7-2)

18.32.035: FEES:

A. Building permit fees shall be based on the total valuation of the proposed project as shown on the Salt Lake City consolidated fee schedule.

B. Plan review fees shall be sixty five percent (65%) of the building permit fees.

C. Fees to expedite building plan review as governed by section 18.20.050 of this title shall be two (2) times the standard building plan review fee.

D. Penalties for not obtaining permanent certificate of occupancy will be three hundred dollars ($300.00) for each month, after the initial thirty (30) day temporary certificate of occupancy, which has no additional cost associated with it; due before the first of the month and only allowed for up to three (3) renewals after the initial free thirty (30) day period. Partial months will not be refunded.

E. Fees for renewing expired plan review after one hundred eighty (180) days as governed by section 18.20.110 of this title shall be shown on the Salt Lake City consolidated fee schedule.

F. A fee shown on the Salt Lake City consolidated fee schedule shall be charged for each permit for fencing.

G. Other fees shall consist of electrical, mechanical and plumbing, and fire suppression and monitoring equipment inspection fees as shown on the Salt Lake City consolidated fee schedule. (Ord. 42-11, 2011)

18.32.050: UBC APPENDIX CHAPTER 3 DIVISION V ADDED; NONCONFORMING BUILDING CONVERSION:

Appendix chapter 3 of the uniform building code be, and the same hereby is, amended by adding chapter 3 division V to create a group R division 5 occupancy classification and requirements applicable to change in occupancy when nonconforming group R divisions 1 and 3 occupancies undergo conversion, which shall read as follows:

Chapter 3 Division V
Requirements For Group R Division 5 Occupancies

Sec. 344. Group R, Division 5 Occupancies Defined. Group R, division 5 occupancies shall be: nonconforming group R divisions 1 and 3 structures undergoing conversion.

Sec. 345. General Provisions. Because conversion changes the original anticipated ownership plan for a multi-family dwelling unit project from a single ownership into a hybrid mixture of separate ownership of dwelling units combined with collective ownership of common areas through association, etc., each nonconforming group R division 1 or division 3 structure being converted into a condominium project or other type of ownership arrangement involving separate ownership of individual units combined with joint or collective ownership of common areas shall constitute a change in classification of occupancy to that of a group R division 5 and shall comply with basic requirements of this code and the specific requirements listed below. All work on such structures in the form of additions, alterations, or repairs shall conform to applicable standards as required by section 3403 of this code. Where said provisions require conformity to requirements governing new buildings, the applicable requirements of group R division 1 or 3 new construction shall apply.

Special Provisions And Minimum Standards.

Sec. 346. Property Report. Each conversion project to obtain approval shall submit two copies of a property report prepared by a licensed engineer or architect which discloses and describes:

(1) The age of the building or buildings,

(2) The general condition, useful life, and capacity of the building's structural elements including the roof, foundations, mechanical system, electrical system, plumbing system, boiler, and other structural elements;

(3) All known conditions constituting deficiencies requiring repair to meet existing building codes; and

(4) All known conditions which may require repair or replacement within the next succeeding five year period.

(5) The existing conditions meet the standards of the Salt Lake City existing residential housing code sections 18.50.140 Exterior Standards; 18.50.150, Interior Standards; 18.50.180, Space And Occupancy Standards; 18.50.190, Light And Ventilation; 18.50.200 Fire Safety-Egress. The building report, as required in city code section 21A.56.060, shall note all deficiencies; appeals of noted deficiencies may be addressed to the housing advisory and appeals board.

Said report shall certify the structure currently conforms to applicable codes or the owner shall present plans to bring the structures into conformity with applicable building codes prior to issuance of certificates of occupancy.

Sec. 347. Electrical Service Minimum Standards. Each converted dwelling unit shall have an electrical service which provides:

(1) A minimum service of 60 amps.

(2) Receptacle outlets are required to meet standards of the national electrical code, section 210-21(b). Each habitable room shall have no less than two such receptacles.

(3) Where a kitchen is provided, or required by this code, each kitchen shall be installed on a separate circuit.

(4) If, as an option, dishwashers or garbage disposals are to be installed or provided for, each must be located on a separate circuit. If such appliances or optional capacity are not provided, the limitation must be disclosed to buyers and in the property report.

(5) All bathrooms are to be equipped with GFIC outlet.

(6) Lights and fixtures in all storage and equipment facilities over 84 sq. ft. in size.

(7) Installation of a smoke detector conforming to manufacturer's recommendations shall be installed in each dwelling unit as a local detection unit. If the building has a common exit hall or corridor then a general automatic detection system shall be installed with the capability of sending a signal to a remote station.

(8) Installation of at least one wall switch controlled lighting outlet in every habitable room, bathrooms, hallways, stairways, attached garages, and outdoor entrances.

All electrical work and repair must be completed under permit and comply with applicable codes and ordinances.

Sec. 348. Plumbing And Water Systems.

(a) Plumbing System. A mechanical engineer, licensed plumbing contractor, or a licensed general contractor shall calculate and determine the capacity of the current plumbing system, including the existing and potential load in fixture units (as determined by the uniform plumbing code) as part of the property report required above. All new installations or repairs must be completed under permit and shall conform to applicable plumbing codes. The entire system shall be brought up to applicable standards of this code when required by section 3403. The impact of new installations upon the existing system shall be calculated and stated in the property report.

(b) Water Supply. Water piping shall be so arranged that the water supply can be turned on or off to any individual fixture; provided, however, that supply piping to a single unit and building accessory thereto may be controlled by one valve.

Sec. 349. Mechanical System. The mechanical system for each converted dwelling unit shall:

(1) Equip each unit with its own heating system, except where a central water or steam system is present.

(2) Provide each unit with its own means of controlling temperature when the building utilizes a central heating plant. All mechanical work and repair shall be completed under permit and comply with applicable codes.

Sec. 350. Discretion Of Building Official To Waive Minor Deviations. The foregoing minimum standards are intended to be fully complied with prior to the building official's approval of permits, record of survey maps, plans or certificates. However, the building official may waive literal compliance with said standards for minor deviations and non-dangerous conditions, if the official determines that strict compliance with the requirements of this chapter would be impractical due to the unique condition of the property, or result in an unnecessary and extreme hardship for the owner of the property. The building official may in such cases impose additional reasonable and equivalent conditions upon the project.

Sec. 351. All condominiums shall meet the requirements as listed in 18.96.050 (fit premises) of the city ordinance.
(Ord. 70-09 §§ 3 _ 5, 2009: Ord. 37-95 § 6, 1995: amended during 11/88 supplement: amended during 1/88 supplement: prior code § 5-7-12)

18.32.060: UBC SECTION 109.1 AMENDED; CERTIFICATE OF OCCUPANCY:

CHAPTER 3 DIVISION V ADDED; NONCONFORMING BUILDING CONVERSION:
Section 109.1 of the uniform building code is amended to read as follows:

Section 109.1 Use Or Occupancy. No building or structure of groups A, B, E, F, H, I, M, R and S occupancy shall be used or occupied, and no change in the existing occupancy classification of a building or structure or portion thereof shall be made until the building official has issued a certificate of occupancy therefor as provided herein.
(Ord. 37-95 § 7, 1995: amended during 1/88 supplement: prior code § 5-7-6)

18.32.090: UBC SECTION 204 AMENDED; DEFINITIONS:

Section 204 of the uniform building code, adopted by section 18.32.020 of this chapter, or its successor, is amended by adding definitions of condominiums and conversions which shall read as follows:

Condominium, Condominium Project, Condominium Unit. For purposes of this code, "condominium," "condominium project," and "condominium units" or "units" means property or portions thereof conforming to the definitions set forth in section 57-8-3 of Utah Code Annotated, 1953, as amended.

Conversion. "Conversion" means a proposed change in the type of ownership in a parcel or parcels of land, together with existing attached structures, from single ownership of said parcel such as an apartment house or multi-family dwelling into a condominium project or other ownership arrangements involving separate ownership of individual units combined with joint or collective ownership of common areas, facilities, or elements.
(Ord. 37-95 § 7, 1995: amended during 1/88 supplement: prior code § 5-7-11)

18.32.120: UBC APPENDIX CHAPTER 35 ADDED; FLOOD HAZARD AREAS:

The uniform building code is amended by adding a new appendix chapter 35, which reads as follows:

Sec. 3501. Floodplain Hazard Area. For the purpose of this chapter "floodplain hazard area" shall mean those lands lying within the corporate limits of Salt Lake City as defined in section 18.68.020 of the Salt Lake City code, as being located within the boundaries of flood hazard boundary map as defined in said section 18.68.020 and adopted by section 18.68.030 of the Salt Lake City code. A copy of said map and amendments is on file for public examination in the offices of the city recorder and city engineer.

Sec. 3502. Floodplain Protection Requirements. All plans involving development, repair, substantial improvements to, or construction of building or structures within the floodplain hazard area shall comply with the standards set forth in chapter 18.68 of the Salt Lake City code relating to floodplain hazard regulations.
(Ord. 37-95 § 10, 1995: amended during 1/88 supplement: prior code § 5-7-7)

18.32.130: UBC APPENDIX CHAPTER 33 AMENDED; EXCAVATION AND GRADING:

Appendix chapter 33 of the uniform building code, relating to excavation and grading, is hereby amended by deleting the text of sections 3304 through 3318 and amending by adding a cross reference, so appendix chapter 33 shall read as follows:

Appendix Chapter 33
Excavation And Grading

Sec. 3304-3318. Said sections and their revised text are hereby deleted, having been incorporated within the text of chapter 18.28 of the Salt Lake City code relating to site development regulations, drawing particular reference to provisions within chapters 4 and 5 of said development regulations.
(Ord. 37-95 § 11, 1995: amended during 1/88 supplement: prior code § 5-7-5)

18.32.140: SENIOR CITIZEN APARTMENT FEE ABATEMENT:

Qualified multi-family apartment projects may apply to, and receive from, the building official an abatement of the normal building permit fees. In order for the building official to approve the discount, the applicant must submit necessary documentation in order for the building official to certify that the apartment project qualifies under the following criteria:

A. The project is owned and/or operated as a bona fide organization for providing housing for senior citizens;

B. The project operators and/or property owners stipulate that all units shall be rented by persons over age sixty two (62) years of age;

C. Operators and/or property owners agree to verify ages of tenants as part of their annual application for an apartment house license;

D. Project operators and property owners execute an agreement, binding upon successors in interest and secured by the real property, to reimburse the city the amount of the abated fees plus interest from the date of the permit at the rate applicable to judgment, should the rate of occupancy by qualified senior citizens drop below ninety five percent (95%) during the next thirty (30) years. This occupancy rate shall be determined annually as of the date the annual license application is submitted to the city; and

E. The amount of the fees abated, plus interest at the then established rate applicable to judgments from date of the abated fees, shall be repaid to the city upon a subsequent application to convert the project to condominium or other ownership arrangements involving sale of separate units, if submitted within thirty (30) years of such abatement. (Prior code § 5-7-14)

18.32.150: UBC SECTION 103 AMENDED; VIOLATIONS AND PENALTIES:

Section 103 of the uniform building code is amended to read as follows:

It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert, or demolish, equip, use, occupy, or maintain any building or structure in the city, or cause the same to be done contrary to or in violation of any of the provisions of this code.

Any person, firm, or corporation violating any of the provisions of this code shall be deemed guilty of a misdemeanor and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this code is committed, continued, or permitted and upon conviction of any such violation such persons shall be punishable by a fine as provided by section 1.12.050, or its successor, of the Salt Lake City code.
(Ord. 37-95 § 12, 1995: amended during 1/88 supplement: prior code § 5-7-4)

CHAPTER 18.36
ELECTRICAL REGULATIONS

18.36.010: ELECTRICAL CODE ADOPTED BY REFERENCE:

The edition of the national electrical code, as adopted by the Utah uniform building code commission, is adopted by Salt Lake City as the ordinances, rules and regulations of the city, subject to the amendments and exceptions thereto as hereinafter set forth in this chapter, one copy of which code shall be filed for use and examination by the public in the office of the city recorder. Hereafter, all references in this code to the national electrical code shall mean the edition of the national electrical code adopted by the Utah uniform building code commission. (Ord. 37-95 § 13, 1995: amended during 1/88 supplement: prior code § 5-9-1)

18.36.100: PERMIT FEES; RESIDENTIAL WORK:

The following fees for a permit for the installation of electrical materials in residences, including multiapartment buildings, shall be paid to the city treasurer before any permit is valid. The basic fee for each permit requiring inspection is shown on the Salt Lake City consolidated fee schedule. In addition, the fee for each individual specialty item is shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

18.36.110: FEE FOR TEMPORARY METERING:

The fee for permit for temporary metering and service facilities shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

18.36.120: COMMERCIAL AND INDUSTRIAL FEES:

The fees to be paid to the city treasurer for electrical permits covering work in industrial or commercial properties shall be computed as follows:

A. Minimum Fee: Minimum fee shall be as shown on the Salt Lake City consolidated fee schedule.

B. New Service Or Change Of Service: For new service, change of service, alterations or repairs of six hundred (600) volt or less capacity service entrance equipment, the fee shall be as shown on the Salt Lake City consolidated fee schedule.

C. Subfeeders: Fee for installation, alteration or repair of subfeeders, including supply taps from subfeeders, shall be as shown on the Salt Lake City consolidated fee schedule.

D. Transformers: The installation of transformers shall be subject to inspection fee when such transformers are an integral part of the consumer's distribution system. Such fee shall be in addition to the regular system inspection fee and shall be as shown on the Salt Lake City consolidated fee schedule.

E. Motor Generator: The fee for installation of a motor generator for emergency or standby shall be as shown on the Salt Lake City consolidated fee schedule.

F. Alternate Fee Schedule: Electrical permit fees shall be computed on the schedules set forth on the Salt Lake City consolidated fee schedule and shall be paid prior to work being started. When a fee cannot be computed on the standard schedules, it shall be computed based on the alternate schedule shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

18.36.130: ELECTRICAL WORK EXCEEDING ONE HUNDRED THOUSAND DOLLARS:

When the cost of electrical work exceeds one hundred thousand dollars ($100,000.00), electrical permit fees shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

18.36.170: POWER TO PANEL PERMITS; REQUIRED WHEN:

All new construction shall require a power to panel permit in accordance with section 18.36.180 of this chapter, or its successor section, to be issued in conjunction with the required electrical permit. (Prior code § 5-9-21)

18.36.180: POWER TO PANEL PERMIT; FOR CONSTRUCTION PURPOSES ONLY:

A. Temporary Basis: A power to panel permit shall authorize power for construction purposes on a temporary basis only; permanent power must be authorized separately.

B. Permit: At the time power to panel is required to complete construction, the owner or contractor shall apply for and obtain a separate power to panel construction permit. Said permit shall be valid for a sixty (60) day period.

C. Extensions: Thirty (30) day extensions for such permit may be issued upon the approval of building and housing services and upon payment of one-half ($\frac{1}{2}$) of the original permit fee for each extension.

D. Certificate Of Occupancy: Final electrical approval for permanent power shall be withheld until a certificate of occupancy is issued. Occupancy occurring prior to the issuance of a certificate of occupancy shall result in a discontinuance of all power until occupancy is approved or until occupancy ceases.

E. Expiration: Upon expiration of a power to panel construction permit, all power to the electrical panel shall be discontinued.

F. Fees:

60 day, no issue fee	$20 .00
30 day extension	7 .00

(Ord. 53-86 § 1, 1986: prior code § 5-9-18)

18.36.210: VIOLATION; PENALTY:

Any person, firm or corporation, whether acting as owner or occupant of the premises involved, or contractor, or otherwise, who violates or refuses to comply with any provisions of this title, or the national electrical code, as amended, shall be guilty of a misdemeanor. A separate offense shall be deemed to be committed on each day an offense occurs or continues. (Ord. 37-95 § 28, 1995: amended during 1/88 supplement: prior code § 5-9-19)

CHAPTER 18.44
FIRE PREVENTION AND INTERNATIONAL FIRE CODE

18.44.010: INTERNATIONAL FIRE CODE AND STANDARDS ADOPTED:

The edition of the international fire code as adopted by section 53-7-106, Utah Code Annotated, or its successor section is adopted by Salt Lake City as the fire code ordinance, rules and regulations of the city. Appendices A, B, C, D, E, F, G of the international fire code are specifically adopted by Salt Lake City as part of the fire code of the city. Hereafter, all references in this code to the fire code shall mean the edition adopted by section 53-7-106, Utah Code Annotated, or its successor section, together with its appendices. One copy of the international fire code shall be filed for use and examination by the public in the office of the city recorder. (Ord. 68-02 § 1, 2002)

18.44.020: AMENDMENTS:

Section 109.3 of the international fire code is amended to read as follows:

109.3. Violation Penalties. Upon conviction for such violations of this chapter, the person(s) or entity(ies) shall be punishable as provided by title 1, chapter 1.12 of the city code. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

Section 27.03.3.1 of the international fire code is amended to read as follows:

27.03.3.1. Unauthorized Discharges. When hazardous materials are released in quantities reportable under federal, state, or local regulations, the fire department shall be notified without delay, and the following procedures are required in accordance with section 27.03.3.1.1 through 27.03.3.1.4.

Section 305.5 of the international fire code is amended to read as follows:

305.5. Hazardous Environmental Conditions. When the fire code official determines that hazardous environmental conditions necessitate controlled use of any ignition sources, including fireworks, lighters, matches and smoking materials, the ignition or use of such ignition sources in mountainous, brush-covered or forest-covered areas or other designated areas is prohibited except in approved designated areas.
(Ord. 45-11, 2011)

18.44.030: FIRE SUPPRESSION AND MONITORING EQUIPMENT INSPECTION FEES:

A. Fees for the first inspection of fire suppression and monitoring equipment, as shown on the Salt Lake City consolidated fee schedule, shall be paid to the city treasurer before any permit under this title is valid.

B. In the event that the fire suppression and monitoring equipment does not pass the first scheduled inspection, for whatever reason, subsequent reinspections shall be billed to the applicant at the rate per hour of inspector time as shown on the Salt Lake City consolidated fee schedule. (Ord. 42-11, 2011)

CHAPTER 18.48
DANGEROUS BUILDINGS

Article I. Code Adoption And Administration

18.48.010: UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS ADOPTED:

The uniform code for the abatement of dangerous buildings, 1994 edition, hereinafter sometimes referred to as "UCADB", is adopted by Salt Like City as the ordinances, rules and regulations of the city, subject to the amendments and exceptions thereto as set out in this chapter; three (3) copies of said code shall be filed for use and examination by the public in the office of the city recorder. The purpose of this code is to provide minimum requirements for the protection of life, limb, health, property, safety and welfare of the general public and the owners and occupants of buildings within the city, and providing for correction of violations thereof. Hereafter, all references in this code to the uniform code for the abatement of dangerous buildings, 1988 edition, adopted by this section, or its successor, are amended and deemed to read the uniform code for the abatement of dangerous buildings, 1994 edition. (Ord. 55-95 § 3, 1995: amended during 1/88 supplement: prior code § 5-11-1)

18.48.020: CITY COUNCIL AS GOVERNING BODY:

All references to a governing body in the uniform code for the abatement of dangerous buildings, 1994 edition, as adopted by section 18.48.010 of this chapter, or its successor, are amended to refer to the city council of Salt Lake City, hereinafter "city council", except as specifically amended. (Ord. 55-95 § 3, 1995: amended during 11/88 supplement: amended during 1/88 supplement: prior code § 5-11-2)

18.48.030: HOUSING INSPECTION FEES:

The fee shown on the Salt Lake City consolidated fee schedule for an existing single-family dwelling housing unit inspection shall not exceed the amount shown on the Salt Lake City consolidated fee schedule. An additional fee shown on the Salt Lake City consolidated fee schedule shall be charged for every additional dwelling unit on the premises. (Ord. 24-11, 2011)

18.48.060: PERFORMANCE OF ABATEMENT WORK:

Chapter 6 of the uniform code for the abatement of dangerous buildings, 1994 edition, relating to procedures for conduct of hearing appeals, shall be amended as follows:

PROCEDURES FOR CONDUCT OF
HEARING APPEALS

Section 601 UCADB. Hearing.

(a) Petition For Hearing. When any abatement work of repair or demolition is to be done or requested by the city pursuant to the enforcement provisions of this code, except in emergency situations, the building official shall petition the mayor to hold a hearing and order the property owner(s) to show cause why the city should not abate by repair or demolition a substandard or dangerous building or structure constituting a public nuisance.

Notwithstanding the provision of any other ordinance pertaining to hearings before the mayor, said hearings may be held either before the mayor or the mayor may direct the matter to be heard before a panel of hearing examiners of HAAB to conduct such hearings to determine the facts and make recommendations and findings to the mayor.

(b) Panel Of Hearing Examiners. In the event the mayor may direct a panel of hearing examiners from HAAB to act as hearing examiners in abatement proceedings, HAAB shall select at least three individual members of its board to act as the panel of hearing examiners and designate one as acting chairperson. The mayor or said panel of hearing examiners shall have the power and authority to call, preside at, and conduct hearings to consider whether or not structures are dangerous or substandard buildings under this code constituting a public nuisance to be abated by the city by demolition or repair, including the power to issue subpoenas, administer oaths, examine witnesses, receive evidence, compel attendance of witnesses and/or the production of witnesses or evidence; and based upon the evidence presented, prepare for the approval of the mayor, findings of fact, conclusions of law and proposed orders for said board. Hearings shall be conducted as provided in this code. The owner(s) shall have the right to appear at said hearing in person or by counsel or both, present evidence and oral argument, cross-examine witnesses, and in all proper ways defend the owner(s)' interest.

(c) Notice Of Abatement Hearing. Reasonable notice (not less than ten [10] days) of the time and place of said hearing together with a petition for abatement setting forth the nature of the complaint against the property sufficient to reasonably inform the owner(s) and enable them to answer the charges of the complaint, shall be served upon the owner(s) personally or by mailing a copy to the owner(s) at their last known address appearing on the last assessment rolls for the property on file in the county assessor's office.

(d) Action By Hearing Examiners. Within thirty (30) days of the conclusion of abatement hearings held before HAAB's panel of hearing examiners as provided in (a) and (b) above, said panel shall submit to the office of the mayor a report of written findings of fact, conclusions, recommendations and proposed order based upon and supported by the evidence presented at the hearing. A copy of such findings, conclusions, recommendations and order shall be mailed or delivered to each party on the date they are filed with the office of the mayor.

(e) Consideration Of Report. The office of the mayor shall fix a date, time and place to consider the panel of hearing examiners' report and proposed recommendations. Notice thereof shall be mailed to each party to the action not less than ten (10) days prior to the date fixed unless otherwise stipulated by all parties.

(f) Exceptions To Report. Not later than two (2) days before the date set to consider said report, any party may file with the city recorder two copies of written exceptions, proposed additional or alternative findings to any part or all of the hearing examiners' report and may attach thereto a proposed decision together with written argument in support of such decision. Such exception must also indicate whether or not the party desires to present oral argument, which may be heard only with the consent of the mayor and said argument shall be confined to the issues set forth in the written exceptions or as otherwise limited by the mayor.

(g) Disposition By The Mayor. The mayor may adopt the report of findings as the basis for its action in the abatement proceedings, or upon filing its own statement of the legal or substantial basis in the record therefor, it may:

(i) Reject all or any portion of the report's findings and remand the same back to the same panel of hearing examiners for further hearing and findings on specific issues;

(ii) Disregard any portion of the report's findings and proceed to take action upon the remainder of the findings;

(iii) Substitute alternative or additional findings of fact on the issues presented to the examiners, if the substituted findings are supported by a preponderance of the evidence in the record.

Upon remand of any portion of the panel's reported findings, the same panel of examiners shall conduct further hearing proceedings to the extent necessary to make findings on the issues remanded for further hearing. Upon remand, the panel of examiners shall prepare and submit its revised report and findings as provided in (d) above. Consideration of the revised report by the mayor shall comply with (e) - (g) above.

(h) Order Of The Mayor. Upon disposition, the decision of the mayor shall be made in written order supported by findings of facts, which may be those submitted by the panel of hearing examiners if approved and adopted by said board or as the report may be modified, reversed or rejected by the mayor. A copy of the decision shall be mailed to parties in interest or their counsel. All orders entered by the mayor shall be final and shall be effective as of the date stated in such written order. Said order shall specify the manner in which the expense of any abatement work ordered shall be charged and collected from the owner(s) as an individual obligation, a special assessment, and/or as a certified property lien as provided below.

Section 801 UCADB. Abatement Work.

(a) Procedure To Accomplish Abatement Work. Upon the order of the mayor to complete abatement work by demolition or repair, the building official shall cause the work to be accomplished by city personnel or by private parties under his direction. Plans, specifications, bidding proposals, etc. therefor, may be prepared by the building official or his designee, or said official may employ such appropriate professional assistance that he may deem reasonably necessary.

(b) Expense To Be Charged To Owner. The expense of such work, including costs of professional assistance, shall be paid from the repair and demolition abatement fund and charged against the property and/or its owner(s), placed as a special assessment on city tax rolls, and/or certified directly to the county treasurer as a certified property tax lien, whichever the mayor shall determine is appropriate at the time the order is entered.

Section 802 UCADB. Repair And Demolition Abatement Fund.

(a) Use Of Fund. The city council shall establish a special revolving fund to be designated as the repair and demolition abatement fund and shall oversee its administration. Recommendations to the mayor for the use of the fund may be made by HAAB. Upon the order of the mayor for the building official to proceed with abatement work, the building official may make demand for disbursements to be made out of said fund to defray costs and expenses which may be incurred by the city in doing or causing to be done the necessary abatement work as ordered.

(b) Revolving Fund. The city council may, at any time, transfer to said repair and demolition abatement fund, out of any money in the city's general fund or such other sources that may be available, such sums as it may deem necessary in order to expedite the performance of abatement work. Such sums, though transferred to the fund, may be deemed a grant, or at the option of the city council, may be deemed a loan to said fund which may be repaid out of the proceeds of collection as hereinafter provided for. All funds collected under the proceedings hereinafter provided for, shall be paid to the city treasurer who shall credit the same to the repair and demolition abatement fund.
(Ord. 55-95 § 3, 1995: amended during 1/88 supplement; prior code § 5-11-6)

18.48.070: RECOVERY OF COST OF REPAIR OR DEMOLITION:

Chapter 9 of the uniform code for the abatement of dangerous buildings, 1994 edition, shall be amended to read as follows:

RECOVERY OF COST OF REPAIR OR DEMOLITION

Section 901 UCADB. Account Of Expense And Filing Of Reports. Contents.

The building official shall keep an itemized account of expense incurred by the city in the abatement by work authorized by an order of the mayor under this code. Within ten days of the completion of the abatement work of demolition or repair as ordered by the mayor, said building official shall prepare and file with the city recorder a report specifying the work done, the itemized and total cost of the work to be reimbursed, a description of the real property upon which the building or structure is or was located, and the name and addresses of the property owner(s) joined as parties in the abatement proceeding or otherwise entitled to notice pursuant to this code.

Concurrently, the building official shall file three copies of the account with the county treasurer and mail a fourth copy of the account to the named property owner(s) demanding payment within twenty days of the date of mailing by certified or registered mail to the last known address of the property owner, or the address shown on current property tax rolls.

Section 903 UCADB. Protests And Objections. How Made.

Any property owner(s) or interested parties affected by the proposed charge who desire to protest the amount or method of collection, shall file a written protest or objection with the city recorder within twenty days of the date of the demand and mailing of the report. Each such protest or objection shall contain a description of the property involved and state the grounds of such protest or objection. The city recorder shall endorse on every such protest or objection the date it was received in the recorder's office and shall present such protest or objections to the office of the mayor to be set for hearing and no other protest or objection shall be considered. The office of the mayor shall fix a time, date, and place for hearing of said objection and shall cause the city recorder to prepare notice of said hearing to be posted upon the property involved, published once in a newspaper of general circulation in the city, and served by certified mail, postage prepaid, addressed to the owner(s) of the property at the address as it appears on the building official's report or on the address submitted on the protest. Such notice shall be given at least seven (7) days prior to the date set for hearing and shall specify the date, hour and place when the mayor will hear and pass upon the building official's report, together with the objections and protests that have been filed.

Section 904 UCADB. Hearing Of Protest And Approval Of Report.

Upon the day and hour fixed for hearing, the mayor shall hear and pass upon the report of the building official together with objections made thereto. The mayor may make such revision, correction, or modification in the report or the charge as deemed just. When the mayor is satisfied with the correctness of the charge, the report (as submitted or as revised, corrected or modified) together with the charge shall be affirmed or rejected. The decision of the mayor on the report and the charge, and all protests, and objections thereto shall be final and conclusive.

If no objections to the items of the report are so filed or made within twenty (20) days of the date of the mailing of such report by the building official, the city recorder shall so certify upon the report which shall be deemed to be approved by the mayor. In the event the abatement order of the mayor directed the charge to be certified to the county treasurer as a certified lien to be included upon the county tax rolls, the recorder shall send a copy of the approved report to the city treasurer and certify the same as a lien to the county treasurer and the board of county commissioners.

Section 905 UCADB. Method Of Collection.

(a) Selection Of Method: The mayor, in its order of abatement work as provided herein or in its order as it may be modified upon a hearing and protest, may order that the charge of any abatement work shall be made a personal obligation of the property owner, a special city assessment against the property involved, and/or be placed as a certified lien on the assessment rolls of the county.

(i) Personal Obligation. If the mayor orders that the charge to be made a personal obligation of the property owner, it shall direct the city attorney to collect the same on behalf of the city by use of all appropriate legal remedies.

(ii) Special City Assessment. If the mayor orders the charge to be assessed as a special city assessment against the property, it shall confirm the assessment and direct the city recorder to transmit the building official's report to the city treasurer to be recorded on the special assessment roll on the city tax rolls, and thereafter said assessment shall constitute a special assessment against and a lien upon the property.

(iii) Certified lien against property to be collected with property taxes. If the mayor orders abatement by demolition and orders the charge for such expense, in addition to being assessed as a special assessment against the property, to be certified to the county treasurer for placement upon its appropriate rolls to be collected by the county treasurer at the same time and in the same manner as general property taxes, then the city recorder at the expiration of demand period (twenty days from the date of the mailing of the itemized statement from the building official) if no objections are filed within said period, or upon the action of the mayor following the hearing of an objection or protest, shall submit the county treasurer's office a certification that the amount approved as a special assessment is to be placed as a certified lien against the property for the improvement of real property.

(b) Action By County Treasurer Upon Certified Lien. Upon the receipt of the itemized statement in triplicate from the building official, and the certification from the city recorder relating to the costs of abating such structure by demolition, the county treasurer shall forthwith mail one copy to the owner(s) of the land from which the same were removed, together with notice that objection in writing may be made within thirty days to the whole or any part of the statement so filed with the board of county commissioners. The county treasurer shall at the same time deliver a copy of the statement to the clerk of the board of county commissioners and the city recorder. If objections to any statement are filed with said County Commissioners within thirty days, the objections shall be set for hearing, giving notice thereof to the owner(s) of the property involved and the protestant, together with a copy thereof to the county treasurer, the building official and city attorney. The board of county commissioners, upon the hearing of the same, shall fix and determine the actual cost of abating said structures and report their findings to the county treasurer. If no objections to the statement so filed are made within thirty days of the date of the mailing of such itemized account by the county treasurer, said treasurer shall enter the amount of said statement upon the assessment rolls of the county in the column prepared for the proposed certified liens; and likewise, within ten days from the board of county commissioners' action upon objections filed, shall enter in the prepared column upon tax rolls the amount found by the board of county commissioners as the cost of such abatement work. If current tax notices have been mailed for the year, said certified lien may be carried over on the rolls of the county treasurer to the following year. After the entry by the county treasurer of the costs for such abatement work, the amount so entered shall have the force and effect of a valid judgment of the district court, and shall be a lien upon the property involved and shall be collected by the county treasurer at the time of the payment of general taxes. Upon payment thereof, receipt shall be acknowledged upon the general tax receipt issued by the county treasurer and the funds shall be reimbursed back to the city treasurer and credited to the repair and demolition abatement fund.

Section 906 UCADB. Contest - Time Limitation.

The validity of any assessment made under the provisions of this chapter shall not be contested in any action or proceeding unless the same is commenced in a court of competent jurisdiction within thirty days after the assessment is placed upon the assessment rolls provided herein. An appeal from a final judgment in such action or proceeding must be perfected within thirty days after the entry of such judgment.

Section 907 UCADB. Authority Or Installment Payment Of Assessments With Interest.

The mayor, in his/her discretion, may determine that assessments which are special assessments on city tax rolls in amounts of $500 or more, may be payable in not to exceed five equal annual installments. The mayor's determination to allow such assessments to be paid in installments, the number of installments, and whether they shall bear interest and the rate thereof, shall be specified in the order of abatement, or any order issued as a result of a protest or objection to the building official's report. Said authority to allow installment payments of assessments with interest, shall only be allowed on special assessments placed on the city tax rolls, and shall not apply to any assessments which are directed to be placed as a certified tax lien on county tax rolls.

Section 908 UCADB. Lien Of Assessment.

(a) Priority. Immediately upon its being placed on the assessment rolls of either the city treasurer's office or the county treasurer's office, the assessment shall be deemed to be complete, the several amounts shall be payable, and the assessments shall be liens against the lot or parcels of land assessed respectively. The liens shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens, except for state, county and municipal taxes with which it shall be upon a parity. The lien of the special assessment placed on the special tax assessments of the city treasurer's office, shall continue until the assessment and all of the interest due and payable thereon are paid. The lien of any special assessment certified and placed upon the tax rolls of the county treasurer's office, shall continue until the assessment and all interest due and payable thereon are paid or otherwise collected in the same manner as general taxes or are sold pursuant to the general law and taxes.

(b) Interest. All such assessments appearing on the city treasurer's assessment rolls which remain unpaid after thirty days from the date of recording on the assessment rolls, shall become delinquent and shall bear interest at the rate of seven percent (7%) per annum from and after said date. All such assessments which remain unpaid after the date of recording on the assessment roll within the county treasurer's office, shall become delinquent and shall bear interest as provided by the laws affecting the collection of general taxes.

Section 909 UCADB. Report To Assessor And Tax Collector; Addition To Assessment Of City Tax.

After confirmation of the building official's report, certified copies of the assessment shall be given by the city recorder to the city assessor and the city treasurer, who shall add the amount of the assessment as a special assessment to the next regular tax bill levied against the parcel for municipal purposes. A certified copy of the assessment and all assessments for the special assessments for charges made from the repair and demolition abatement fund, may be filed by the city treasurer with the County Auditor on or before August 10. The descriptions of the parcels reported shall be those used for the same parcels on the County Assessor's map book for the current year.

Section 911 UCADB. Collections Of Assessments; Penalties For Foreclosure.

The amount of the special assessment shall be collected at the same time and in the same manner as the ordinary municipal taxes are collected; and shall be subject to the same penalties and procedure and sale in case of delinquency as provided for ordinary municipal taxes. All laws applicable to the levy, collection and enforcement of municipal taxes shall apply to such assessments which appear upon the rolls of the city assessor and treasurer.

If the mayor has determined that the charge shall be placed as an assessment upon the city tax rolls, and that said assessment shall be paid in installments, each installment and any interest thereon shall be collected in the same manner as ordinary municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for collection as provided for ordinary municipal taxes.

Section 912 UCADB. Repayment Of Repair And Demolition Fund.

All money recovered by payment of the charge or assessment or from the sale of the property at foreclosure sale shall be paid to the city treasurer who shall credit the same to the repair and demolition abatement fund.
(Ord. 55-95 § 3, 1995: amended during 1/88 supplement: prior code § 5-11-7)

18.48.080: PUBLIC NUISANCES; ADMINISTRATIVE REVIEW AND LIMITATIONS:

A. Public Nuisance Structures: Any structure which has been boarded and/or vacant over two (2) years is declared to be a public nuisance as detrimental to the safety and public welfare of the residents and property values of this city.

B. Administrative Review And Time Limitation: Any aggrieved property owner or other interested party may seek review of HAAB's decision by filing a written petition for review, together with advertising costs, requesting a public hearing before the office of the mayor within thirty (30) days of HAAB's written decision. The petitioner shall be responsible for all costs of advertising. On review, the office of the mayor shall determine from the minutes whether or not HAAB's decision was reasonably related to the information provided and, if so, shall sustain its action. Only if the office of the mayor should find HAAB's decision to be unreasonable or arbitrary insofar as it is unsupported by the facts and evidence presented in HAAB, shall it reverse or modify HAAB's decision. Any party which fails to request a review as provided herein, shall be deemed to have waived such review. (Prior code § 5-11-9)

Article II Temporary Securing Of Buildings

Part 1. Boarding Process

18.48.090: DEFINITIONS:

BOARDED BUILDING: A building in which all or some of the utilities have been disconnected and all windows and doors are boarded against entry at the ground and second level (if a second level exists). Entry doors may be locked or boarded and windows adjacent to entry doors are boarded against entry.

BOARDING: The secured covering of openings to a building or structure to prevent entrance pursuant to the provisions and standards of this article due to the nonoccupancy of the building or structure.

CLOSED TO OCCUPANCY: A building in which no person may eat, sleep, live or otherwise reside or occupy the building or any portion thereof. Buildings closed to occupancy may only be entered by the owner, owner's agent or other authorized persons to do repair work.

EMERGENCY CONDITIONS: One or more conditions which exist in a building or on a property that create a likelihood of imminent danger to life or safety if anyone were to enter or occupy the property or building.

UNBOARDED/UNSECURED BUILDING: A building whose window(s) and/or door(s) are missing or broken and other openings are not secured against unauthorized persons entering the building.

VACANT/SECURED BUILDING: A building having utility meters that may be locked off but the meters and service lines are in place. All windows are secured and glazed and the doors are secured by means of a lock. (Ord. 27-00 § 1, 2000: Ord. 80-94 § 2, 1994)

18.48.100: NOTICE AND ORDER TO TEMPORARILY SECURE:

A. If the director of housing and neighborhood development determines that a building needs to be boarded, the director of housing and neighborhood development shall send a notice by certified mail, return receipt requested, and regular mail, to the property owner requiring the owner to board the building. The director of housing and neighborhood development shall also, on the same day, post a notice on the property.

B. If, due to the existence of emergency conditions, as identified by the director of housing and neighborhood development, it is not possible or practical to give notice in advance, the city may nevertheless board the building without giving prior notice to the owner or occupant, but the city shall provide all required notices immediately following the boarding of the building. (Ord. 27-00 § 2, 2000: Ord. 80-94 § 2, 1994)

18.48.110: CITY BOARDING OR SECURING:

A. If, within the time specified in the notice and order, the property owner fails to comply with the notice and order by taking out a permit to board the building pursuant to this article, or apply for a stay pursuant to part 2 of this article, the city may cause the property to be boarded.

B. If the director of housing and neighborhood development determines that emergency conditions exist, the city may board the building.

C. If the city boards a building, the city shall send the property owner a bill for:

1. The fees and charges for services which would otherwise have been charged for the securing of a boarding permit pursuant to section 18.48.140 of this chapter;

2. The fee shown on the Salt Lake City consolidated fee schedule to partially recover the city's costs in administering the boarding; and

3. The actual costs of the boarding incurred by the city. (Ord. 24-11, 2011)

18.48.120: BOARDING PERMIT REQUIRED:

It is unlawful to board a building except pursuant to a permit issued under this article. (Ord. 80-94 § 2, 1994)

18.48.130: BOARDING PERMIT APPLICATION:

Permits for boarding a building must be applied for on a form provided by the director of housing and neighborhood development. The form shall specify the following:

A. The address of the structure to be boarded or temporarily secured;

B. The type of building;

C. For residential structures, the number of dwelling units;

D. For nonresidential buildings, the number of building square feet and the linear footage of all building faces at ground level;

E. The name, address and telephone number of a person authorized to act as an agent for the owner for performing the owner's obligations under this article, who lives within forty (40) miles of Salt Lake City;

F. Whether the property has the required external water source for landscaping, if landscaping is required; and

G. A description of the condition of the building and the landscaping of the surrounding property. (Ord. 27-00 § 4, 2000: Ord. 80-94 § 2, 1994)

18.48.140: INITIAL FEES:

For the first year of any boarding, at the time of filing the application, the applicant shall pay the following fees:

A. The fee shown on the Salt Lake City consolidated fee schedule for each structure; and

B. A plumbing permit fee shown on the Salt Lake City consolidated fee schedule to install the external irrigation hose bib, if required, and not already present. (Ord. 24-11, 2011)

18.48.150: SEPARATE SALVAGE PERMIT REQUIRED:

If the property owner intends to salvage any of the structure or other building components, hardware or equipment prior to or during the boarding, the property owner must secure a salvage permit as otherwise required by law. (Ord. 80-94 § 2, 1994)

18.48.160: COMPLETION OF BOARDING:

Boarding must be completed within ten (10) days of the issuance of a permit. (Ord. 80-94 § 2, 1994)

18.48.170: BOARDING WITHOUT PERMIT:

Boarding a building before obtaining a permit pursuant to this article will require payment of double the initial boarding application fee specified in subsection 18.48.140A of this chapter or its successor. (Ord. 80-94 § 2, 1994)

18.48.180: YEARLY FEES:

A. On or before each yearly anniversary of a boarding permit, a property owner desiring to continue to board a building shall pay the annual boarding fee shown on the Salt Lake City consolidated fee schedule.

B. A late fee of twenty five dollars ($25.00) shall be assessed by the city for each thirty (30) days, or any portion thereof, in which the annual fees have not been paid.

C. If the property owner fails to pay either the initial boarding fees or the annual boarding fee, the city may take legal action to collect any amounts owed. (Ord. 24-11, 2011)

18.48.185: POSTING OF BOARDED OR CLOSED TO OCCUPANCY BUILDINGS:

Whenever a building is boarded or closed to occupancy, the city shall be authorized to install a sign to be mounted on the front facade of the building. The sign shall state that the building is closed to occupancy and that it is unlawful for any unauthorized person to enter the building. The sign shall also provide phone numbers to call if people are seen on the property or if doors or windows are unsecured. (Ord. 27-00 § 7, 2000)

Part 2. Stays

18.48.190: STAYS AUTHORIZED:

The owner of any property which should be boarded pursuant to this article, either voluntarily by the owner or pursuant to a notice and order, may apply for a stay of the boarding requirement. (Ord. 80-94 § 2, 1994)

18.48.200: STAY PROCESS:

A. An owner seeking a stay shall obtain and complete the boarding application provided in section 18.48.130 of this chapter or its successor.

B. The building official shall promptly inspect the building and render a determination, in writing, regarding the building's suitability for a stay.

C. If the building official determines that the building is in such a condition as to pose an imminent danger of collapse or fire or is an attractive nuisance which creates a significant risk of transient occupancy or vandalism, the building official shall deny the request for a stay.

D. If the director of housing and neighborhood development denies a stay request, the building owner shall obtain a boarding or demolition permit within seven (7) days or the city may proceed to board the property pursuant to section 18.48.110 of this chapter, or its successor. In addition to the provisions of this section, the issuance of demolition permits in historic districts and landmark sites are subject to the provisions of subsection 21A.34.020L of this code. In the event of a conflict between the provisions of this subsection and subsection 21A.34.020L of this code, the latter shall control.

E. If the director of housing and neighborhood development determines that a stay is appropriate, the director of housing and neighborhood development shall certify in writing that a stay of up to four (4) months has been issued. (Ord. 27-00 § 8, 2000: Ord. 80-94 § 2, 1994)

18.48.210: ACTIONS DURING THE STAY:

A. Within the stay period, the building owner shall obtain either a boarding permit pursuant to this article or a building permit to rehabilitate the building.

B. If the owner obtains a boarding permit, the owner shall, at that time, pay all the fees required pursuant to this article.

C. If the owner obtains a building permit for rehabilitation, the owner shall not be required to pay the boarding application fee but shall pay, instead, the appropriate building permit fees. (Ord. 80-94 § 2, 1994)

18.48.220: WORK ON BUILDING PERMIT:

A. If an owner has obtained a stay pursuant to this article and subsequently secures a building permit for rehabilitation, work under the building permit must be begun within thirty (30) days of obtaining the permit and must be prosecuted to completion with reasonable diligence.

B. If work under the building permit is not begun or pursued as required, the city may revoke the building permit without further notice and board the building as necessary. (Ord. 80-94 § 2, 1994)

Part 3. Boarding Standards

18.48.230: METHOD OF SECURING BUILDINGS:

All buildings shall be boarded in the following manner:

A. All openings in the structure on the first two (2) floors, other openings easily accessible from the ground, and openings with broken glass, shall be secured either by erecting a single one-half inch ($^1/_2$") thick layer of plywood sheathing, or exterior grade chipboard, covering over all exterior openings, overlapping the opening on every edge by three inches (3"), nailed along the edges by eightpenny common nails spaced every six inches (6");

B. Alternately, the openings may be secured by conventional wood frame construction. The frames shall use wood studs of a size not less than two inches by four inches (2" x 4") (nominal dimension) placed not more than twenty four inches (24") apart on center. The frame stud shall have the four inch (4") sides or the wide dimension perpendicular to the face of the wall. Each side of the frame shall be covered with plywood or chipboard sheathing of at least one-half inch ($^1/_2$") thickness or equivalent lumber nailed over the opening by using eightpenny common nails spaced every six inches (6") on the outside edges and every twelve inches (12") along intermediate stud supports;

C. All coverings shall be painted with the same color as the building or its trim; and

D. Exterior doors shall be secured by a strong nonglass door adequately locked to preclude entry of unauthorized persons, or shall be covered as an opening described in subsection A or B of this section or successor sections. (Ord. 80-94 § 2, 1994)

18.48.240: LANDSCAPE MAINTENANCE:

Existing landscaping and lawn on the property shall be maintained in the manner otherwise required by law. (Ord. 80-94 § 2, 1994)

18.48.250: EXTERIOR MAINTENANCE:

A. The exterior of a boarded building shall be maintained as required by relevant requirements set forth in sections 18.50.140 to 18.50.230 of this title. In particular, exterior walls and surfaces shall be properly maintained and severely weathered, peeling, or unpainted wood and damaged siding and roofing shall be replaced or repaired with similar materials and colors.

B. Doors, windows, special glass, fixtures, fittings, pipes, railings, posts, panels, boards, lumber, stones, bricks, marble, or similar materials within the interior of a boarded building shall not be salvaged except upon the issuance of a predemolition salvage permit as provided in section 18.64.070 of this title.

C. If the owner of a boarded building fails to maintain the building and its premises as required by this section and section 18.64.045 of this title, the city may take appropriate legal action to enforce such requirements. (Ord. 94-12, 2012)

18.48.260: SNOW REMOVAL:

Snow must be removed from public sidewalk areas surrounding the property in the manner otherwise required by law. (Ord. 80-94 § 2, 1994)

18.48.270: CITY MAINTENANCE OF BUILDING:

A. If the director of housing and neighborhood development determines that a boarded building is not being maintained, the director of housing and neighborhood development shall send a notice to the property owner and/or the property owner's agent requiring compliance with the building maintenance standards within seven (7) days.

B. If the director of housing and neighborhood development determines that the property owner has failed to comply with the notice and order, the city may cause the work to be done by a contractor employed by the city.

C. The city shall bill the property owner:

1. The administrative fee shown on the Salt Lake City consolidated fee schedule, per year to cover the city's administrative expenses in contracting for the building maintenance; and

2. The actual cost of building maintenance billed to the city by the city's contractor. (Ord. 24-11, 2011)

18.48.280: CITY MAINTENANCE OF LANDSCAPING:

A. If the director of housing and neighborhood development determines that the landscaping on the property surrounding a boarded building is not being maintained as required by city code, the director of housing and neighborhood development shall send a notice to the property owner and/or the property owner's agent, requiring compliance with landscaping standards within seven (7) days.

B. If the director of housing and neighborhood development determines that the property owner has failed to comply with the notice and order, the city may cause the work to be done by a contractor employed by the city.

C. The city shall bill the property owner:

1. The administrative fee shown on the Salt Lake City consolidated fee schedule, per year, to cover the city's administrative expenses in contracting for the landscaping maintenance; and

2. The actual cost of landscaping maintenance billed to the city by the city's contractor. (Ord. 24-11, 2011)

18.48.290: CITY REMOVAL OF SNOW:

A. If the director of housing and neighborhood development determines that sidewalks adjacent to a boarded building are not having the snow removed as required by section 18.48.260 of this chapter or its successor, the director of housing and neighborhood development shall send a notice to the property owner and/or the property owner's agent, requiring snow from the present snowfall to be removed and notifying the property owner that if snow from a subsequent snowfall is not removed as required, the city will contract for the removal and charge the property owner, pursuant to this section or its successor.

B. If the director of housing and neighborhood development determines that the property owner has failed to comply with the notice and order, the city may cause snow, during the winter, to be removed by a contractor employed by the city.

C. The city shall bill the property owner:

1. The administrative fee shown on the Salt Lake City consolidated fee schedule, per year, to cover the city's administrative expenses in contracting for snow removal; and

2. The actual cost of snow removal billed to the city by the city's contractor. (Ord. 24-11, 2011)

Part 4. Miscellaneous Provisions

18.48.300: APPEAL PROCESS:

A. Any person aggrieved by the decision of the director of housing and neighborhood development may appeal the decision to the housing advisory and appeals board (HAAB) by filing a notice with HAAB within seven (7) days of the director of housing and neighborhood development's decision. The notice shall specify the basis for the appeal.

B. An HAAB panel of at least three (3) HAAB members shall schedule a hearing not less than seven (7) days after the notice of appeal nor more than fourteen (14) days after the notice.

C. HAAB shall notify the applicant and any appellant of the hearing and, at the hearing, shall take testimony and evidence.

D. HAAB shall sustain the decision of the director of housing and neighborhood development unless HAAB finds that the director of housing and neighborhood development has failed to comply with the provisions of this article.

E. Any person aggrieved by any decision of HAAB under this article may appeal such decision to the mayor within seven (7) days of HAAB's decision. The appeal shall specify any objection to HAAB's decision.

F. The mayor, or the mayor's designated hearing officer, shall not take any additional evidence and shall consider the appeal only on the basis of the material presented to HAAB.

G. The mayor, or the mayor's designated hearing officer, shall sustain the decision of HAAB, unless it appears that the decision of HAAB is not supported by any competent evidence or is arbitrary or capricious. If the mayor or the mayor's designated hearing officer does not reverse or otherwise modify the HAAB decision within seven (7) days after the matter is submitted, the HAAB decision shall be sustained. (Ord. 27-00 § 12, 2000: Ord. 80-94 § 2, 1994)

18.48.310: LEGAL ACTION AUTHORIZED:

The city may take appropriate legal action to collect all unpaid fees or bills provided by this article. (Ord. 80-94 § 2, 1994)

18.48.320: EXISTING BOARDED PROPERTIES:

A. The director of housing and neighborhood development shall take reasonable actions to notify the owners of buildings boarded as of the effective date hereof.

B. The notice shall generally inform the property owner of the enactment of the ordinance codified herein and shall notify the owner that a permit is required for the boarded building.

C. Owners of buildings boarded as of the effective date hereof shall apply for a permit no later than January 31, 1995.

D. The permit for buildings boarded as of the effective date hereof shall be processed as a new permit pursuant to the provisions of section 18.48.130 of this chapter or its successor.

E. To partially even the burden of processing applications, any owner of a building boarded as of the effective date hereof shall receive a discount of thirty percent (30%) of the fees required by section 18.48.140 of this chapter or its successor, if the owner applies for a permit prior to October 31, 1994. (Ord. 27-00 § 13, 2000: Ord. 80-94 § 2, 1994)

18.48.325: BUILDING INSPECTIONS REQUIRED:

Whenever a property owner, manager or tenant intends to clean, repair, renovate, reopen or reoccupy a building that has been boarded, the building is to be inspected and a permit must be issued by the Salt Lake City building services and licensing division prior to the building owner, manager or tenant initiating any of the above actions. Any person conducting any work on a building that has been boarded or closed to occupancy must have a copy of the permit on the site at all times. Any person conducting work without a permit on the site, will be evicted from the premises. (Ord. 27-00 § 15, 2000)

Article III. Emergency Demolition

18.48.330: PURPOSE:

Notwithstanding the other provisions of this chapter, the UCADB, the process for demolishing buildings in an emergency situation, shall be as provided by this article. (Ord. 55-95 § 3, 1995: Ord. 90-94 § 1, 1994)

18.48.340: EMERGENCY DEMOLITIONS APPLICABILITY:

If the building official determines that the walls or roof of a building or structure are collapsing, either in whole or in part, or in imminent danger of collapsing in such a way as to fall on other structures, property or public rights of way, or create a danger to persons who may enter the property, or create a danger of fire, the building official may seek an order that the building should be demolished pursuant to this article. (Ord. 90-94 § 1, 1994)

18.48.350: IMMEDIATE CITY DEMOLITION:

A. If the building official determines that demolition should be begun immediately, the building official shall schedule an emergency meeting of the housing advisory and appeals board (HAAB) as soon as practical.

B. The director of housing and neighborhood development shall make reasonable efforts to notify the recorded property owner, all HAAB members, the historic landmark commission staff person, the city council member and the chairperson of the neighborhood council recognized pursuant to title 2, chapter 2.62 of this code in which the property is located.

C. At least three (3) HAAB members, and any others available, shall attend the emergency meeting to consider the immediate demolition.

D. The emergency HAAB meeting shall hear any evidence or testimony regarding the immediate demolition and shall determine whether immediate demolition is appropriate under the standards of section 18.48.340 of this chapter or its successor.

E. If the emergency HAAB meeting authorizes immediate demolition, and the property owner was present or represented at the emergency HAAB meeting, the property owner shall have twenty four (24) hours in which to have a licensed contractor take out a permit for the demolition. Work under any such permit shall be commenced within twenty four (24) hours of the permit's issuance. Within twenty four (24) hours of the start of the work, the property shall be secured to prevent entry and the structure demolished so that no part of the structure is in imminent danger of collapsing in such a way as to fall on other structures, property or public rights of way, or create a danger of fire. Work under the demolition permit shall be completed within seven (7) days of the permit's issuance.

F. If the property owner was unrepresented at the emergency HAAB meeting, or the property owner fails to proceed with the demolition pursuant to the requirements of subsection E of this section or its successor, the city may contract with a licensed demolition contractor to demolish the building.

G. If HAAB does not authorize the immediate demolition, the building official may appeal such a denial on an expedited basis to the mayor.

1. All parties specified in subsection B of this section, or its successor, shall be notified of the appeal hearing before the mayor or the mayor's designee.

2. The mayor, or the mayor's designee, shall hear evidence regarding the immediate demolition.

H. If the mayor or the mayor's designee authorizes immediate demolition under the standards of section 18.48.340 of this chapter, or its successor, the provisions of subsections E and F of this section, or their successors, shall apply. (Ord. 27-00 § 14, 2000: Ord. 90-94 § 1, 1994)

18.48.360: LEVEL 3 EMERGENCIES:

If the mayor has declared a level 3 emergency, the notification and hearing provisions of section 18.48.350 of this chapter, or its successor, shall be waived and the building official may immediately secure the demolition of any structure which meets the standards of section 18.48.340 of this chapter or its successor. (Ord. 90-94 § 1, 1994)

18.48.370: BILL FOR COSTS; COLLECTION:

A. Upon the completion of any city demolition pursuant to this article, the city shall mail a bill to the property owner for the city's costs of demolition which shall include the cost of the demolition contractor and a reasonable amount to pay the costs of city personnel involved in the demolition.

B. If the bill is not paid within thirty (30) days, the city may take legal action to collect the bill. (Ord. 90-94 § 1, 1994)

CHAPTER 18.50
EXISTING RESIDENTIAL HOUSING

18.50.010: TITLE:

This chapter shall be known as the *SALT LAKE CITY EXISTING RESIDENTIAL HOUSING ORDINANCE* and is referred to herein as "this chapter". (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.020: PURPOSE AND SCOPE:

A. Purpose: The purpose of this chapter is to provide for the health, safety, comfort, convenience and aesthetics of Salt Lake City and its present and future inhabitants and businesses, to protect the tax base, and to protect property values within the city, as provided by section 10-9-102, Utah Code Annotated, or its successor section, and other applicable state statutes. This purpose shall be accomplished by regulating the maintenance, repair and remodeling of residential buildings specified in this chapter existing as of the date of enactment hereof by:

1. Establishing minimum housing standards for all buildings or portions thereof used, or designed or intended to be used, for human habitation;
2. Establishing minimum standards for safety from fire and other hazards;
3. Promoting maintenance and improvement of structures by applying standards of this chapter to renovations. This chapter allows distinctions in the application of standards based on the year a structure was built, as long as a reasonable level of safety is achieved;
4. Avoiding the closure or abandonment of housing and the displacement of occupants where such can be done without sacrificing the public health, safety and welfare;
5. Providing for the administration, enforcement and penalties for this chapter.

B. Scope:

1. Application To Existing Buildings: This chapter encompasses fire safety and structural integrity of existing residential buildings. Within the structures, the scope includes equipment and facilities for light, ventilation, heating, sanitation, protection from the elements, space requirements, and for safe and sanitary maintenance.
2. Owner Occupied Versus Rental Properties: Except as specified in subsection B3 of this section, the standards of this chapter apply to the interior and exterior of all buildings, dwelling units and premises which are occupied on a rental basis. For buildings or dwelling units which are occupied solely by the owner and the owner's family, all the requirements defined as imminent danger or hazardous condition situations, and those affecting the exterior of the building and premises shall apply. Other interior standards do not apply to owner occupied dwelling units.
3. Condominiums: Repealed.
4. Application To Remodeling Of Existing Residential Buildings: This chapter shall apply to remodeling or renovation of all residential buildings existing as of the date of enactment hereof as follows:
   a. This chapter applies regardless of tenancy, regardless of the valuation of the renovations, and regardless of the date of such remodeling or renovation, unless otherwise noted in this chapter.
   b. Those buildings or portions thereof which conform with all applicable laws in effect at the time of their construction or whose fire resistive integrity and fire extinguishing systems have been adequately maintained and improved to accommodate any increase in occupant load, alteration or addition, or any change in occupancy may continue in accordance with the standards in effect at that time. This chapter shall not lessen such requirements for residential buildings which were constructed in compliance with the code in effect at the time of construction.
   c. The requirements of this chapter are minimums. During a renovation or remodeling project, whenever conditions exist which allow such work to comply with the standard of the UBC, UPC or UMC these codes shall apply.
   d. When a construction standard is omitted from this chapter, the applicable standard shall be the UBC, UMC or UPC in effect at the time the building was constructed.
   e. When the purpose of the renovation is to create new dwelling units, the UBC rather than this chapter shall apply.
5. Application To New Construction: From the date of adoption hereof, newly constructed buildings must comply with the currently adopted UBC. All additions to an existing building envelope shall comply with the most recently adopted edition of the UBC.
6. Dangerous Buildings: Residential buildings subject to section 302 of the UCADB shall be governed by the UCADB and not by this chapter. If any conflict exists between this chapter and the UCADB, the UCADB shall control.
7. Change Of Use: Any building undergoing a change which intensifies the use, as defined in the UBC and the uniform code for building conservation, shall comply with the provisions of the UBC.
8. Permits Required: Except as provided in this subsection, no building or structure regulated by this chapter shall be erected, constructed, enlarged, altered, moved, removed, converted, or demolished unless a separate permit for each building or structure has first been obtained from the building official. Except where required by state law, permits are not required for the following:
   a. Floor covering installation;
   b. Interior and exterior painting;
   c. Attaching interior finish wall coverings and similar interior finish work;
   d. Replacement of glazing except where safety glazing is required by the UBC;
   e. Patching wall surfaces;
   f. Installation of countertops and cabinets;
   g. Replacement of interior and exterior light fixtures;
   h. Replacement of electrical wall outlets and switches;
   i. Replacement of kitchen or bathroom sinks, toilets or bidets where the trap and trap arm are not replaced or extended;
   j. Replacement of faucets, washers and traps (when the trap is replaced with like installation and the trap arm and the existing vents and drain lines are not disturbed);
   k. Repair of irrigation pipelines where the backflow preventers exist or are not being replaced;
   l. Replacement of filters, bells and motors in mechanical systems;
   m. Installation of battery operated smoke detectors or one 120-volt smoke detector;
   n. Replacement of sidewalks on private property;
   o. Replacement of ventilation fans;
   p. Seasonal weatherization, as long as it does not prevent emergency egress.

C. Violations: It is unlawful for any person to:

1. Erect, construct, enlarge, alter, repair, move, improve, remove, convert, or demolish, equip, use, occupy or maintain any building or structure or cause or permit the same to be done in violation of this chapter;
2. Fail to obey a notice and order issued pursuant to this chapter;
3. Occupy, or rent for occupancy, a building that has been closed to occupancy;
4. Fail to obey an interpretation, decision or requirement of the housing advisory and appeals board within thirty (30) days, unless otherwise noted. (Ord. 70-09 § 6, 2009: Ord. 74-98 §§ 1, 2, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.030: DEFINITIONS:

A. Construction Of Terms: For the purpose of this chapter, certain terms, phrases, words, and their derivations shall be construed as specified in this section. Words used in the singular include the plural, and words used in the plural include the singular.

B. Whole Includes Part: Whenever the words "apartment house", "building", "dormitory", "dwelling unit", "habitable room", "hotel", "housing unit" or "structure" are used in this chapter such words shall be construed as if followed by the words "or any portion thereof", except for owner occupied areas as specified in subsection 18.50.020B2 of this chapter.

C. Referenced Documents: References to codes, ordinances, chapters, sections, or subsections shall include any successor to such code, ordinance, chapter, section, or subsection that has been adopted by the city.

D. Defined Terms:

ADDITION: An increase in floor area or height of a building or structure outside of the existing building envelope.

ADMINISTRATIVE HEARING OFFICER: A member of the building services and licensing staff who has been authorized by HAAB to conduct administrative hearings to establish a repair agreement between the property owner and the building official to resolve the property's deficiencies as defined by this code.

AGENT: Any person, firm, partnership, association, joint venture, corporation, or other entity who acts for or on behalf of others.

APARTMENT HOUSE: Any building which contains three (3) or more dwelling units otherwise subject to this code.

APPROVED: As to a given material, mode of construction or repair, piece of equipment or device means approved by the building official as the result of investigation and/or tests conducted by the building official, or by reason of accepted principles or tests by recognized authorities or technical or scientific organizations.

ATTIC: That portion of a building included between the upper surface of the topmost floor and the ceiling or roof above.

BASEMENT: A floor level, any part of which is more than four feet (4') below grade for more than fifty percent (50%) of the total perimeter or more than eight feet (8') below grade at any point as floor and grade are defined in the UBC.

BATHROOM: A room containing at least one of each of the following fixtures: sink, toilet, and tub or shower. It may also include a bidet.

BEDROOM: Any space designed or used for sleeping.

BOARDING HOUSE: A building other than a hotel or motel, with three (3) or more bedrooms where direct or indirect compensation for lodging and/or kitchen facilities, not located in guestrooms, or meals are provided for boarders and/or roomers not related to the head of the household by marriage, adoption or blood. Rentals must be on at least a monthly basis.

BUILDING: Any structure which is used, designed or intended to be used for human habitation.

BUILDING CLOSURE, CLOSED TO ENTRY, OR CLOSED TO UNAUTHORIZED ENTRY: A building which has been closed to occupancy.

BUILDING ENVELOPE: The space defined by existing floors, exterior walls, roof, basement and attic, but not including attached garages.

BUILDING INSPECTOR: A person designated by the building official to make inspections of buildings and properties covered by this chapter.

BUILDING OFFICIAL: The officer or other designated authority charged with the administration and enforcement of this chapter, or the officer's designee.

BUILDING SERVICES AND LICENSING: The office of the city charged with the administration of the city's building and housing ordinances.

CEILING HEIGHT: The vertical distance from the finished floor to finished ceiling or to the lowest point of the ceiling framing members. Where projections other than lighting fixtures exist below the ceiling, the height shall be measured from the projection to the finished floor.

CERTIFICATE OF OCCUPANCY: A certificate issued by the building official authorizing occupancy of a building.

CITATION DEADLINE: The date identified in the second notice of violation, including any authorized extension of time.

COMMON ROOM: A room available in congregate housing for the shared use of occupants of two (2) or more housing units. This does not include common corridors and exit passages, but does include kitchens and game rooms.

CONDOMINIUM: Property or portions thereof conforming to the definition set forth in section 57-8-3, Utah Code Annotated, 1953, as amended, or its successor.

CONGREGATE HOUSING: Any building which contains facilities for living, sleeping and sanitation, as required by this chapter, and may include facilities for eating and cooking, for occupancy by other than a family. Congregate housing includes SROs, convents, monasteries, dormitories, boarding and rooming houses, hostels, fraternity and sorority houses, but does not include shelters, jails, hospitals, nursing homes, hotels or lodging houses.

COOKING FACILITY: At a minimum, a range with stove top and oven, or alternatively, a nonportable cooktop and oven, and a sink.

CORRIDOR: A hallway that serves more than one dwelling unit.

COURT: A space, open and unobstructed to the sky, located at or above grade level and bounded on three (3) or more sides by walls of a building.

CROSS CONNECTION: Any connection or arrangement, physical or otherwise, between a potable water supply system and any plumbing fixture or any tank, receptacle, equipment or device, through which unclean or polluted water or other substances may contaminate such potable water supply system.

DWELLING UNIT: Any building or a portion thereof which contains living facilities, including provisions for sleeping, eating, cooking, and sanitation, as required by this chapter.

EFFICIENCY DWELLING UNIT: A dwelling unit containing only one habitable room with a bath and/or kitchen in the unit.

EXISTING: In existence prior to adoption hereof.

EXITWAY: A continuous and unobstructed means of egress to a public way and includes any intervening aisles, doorways, gates, corridors, exterior exit balconies, ramps, stairways, smokeproof enclosures, horizontal exits, exit passageways, exit courts and yards as these terms are defined in the UBC.

FAMILY: The same as defined in title 21A of this code.

FIRE RESISTANCE OR FIRE RESISTIVE CONSTRUCTION: Construction that resists the spread of fire, as specified in the UBC.

FIRST NOTICE: The initial notice informing the person cited that a housing violation exists.

FLOOR AREA COMPUTATION: The floor area of a habitable room excluding closets, cabinets, bathrooms, and kitchens when such kitchens are separated from the habitable room by walls or other partitions.

GARAGE: A building or portion thereof designed, used, or intended to be used for parking or storage of a motor vehicle containing flammable or combustible liquids or gas in its tank.

GLAZING: Light transmitting glass or plastic installed in windows, doors and skylights, including safety glass, but not including glass block.

HAAB: The city's housing advisory and appeals board created pursuant to title 2, chapter 2.21 of this code.

HABITABLE ROOM: A room in a building for living, sleeping, eating or cooking. Bathrooms, toilet rooms, closets, halls, storage or utility space, and similar areas are not habitable rooms.

HALL: A space used for circulating between the rooms of a building within an individual dwelling unit.

HAZARDOUS CONDITION: A condition in a residential building or dwelling unit where failure of a structural, electrical, mechanical or plumbing component system or systems is likely to occur within the next ninety six (96) hours but which has not yet occurred or which is not serious enough to be considered an "imminent danger". "Hazardous conditions" consist of any of the following:

1. All of the conditions listed under the definition of "imminent danger" if those conditions can be repaired with safety while all or the affected part of the building or unit remains occupied; or
2. "Imminent danger" conditions which have been partially secured pursuant to subsection 18.50.060B2b of this chapter;
3. Improper, missing, misused or malfunctioning electrical service or disconnect devices;
4. Cracked, displaced or missing foundations resulting in settlement and structural damage;
5. Defective or deteriorated flooring or floor supports;
6. Flooring or floor supports of insufficient size to carry imposed loads with safety;
7. Members of walls, partitions or other vertical supports that crack, split, lean, list or buckle due to defective material or deterioration where failure is likely to occur within the next ninety six (96) hours but is not likely to occur immediately;
8. Members of walls, partitions or other vertical supports that are of insufficient size to carry imposed loads with safety;
9. Members of ceilings, roofs, ceiling and roof supports, or other horizontal or vertical members which sag, split or buckle due to defective material or deterioration;
10. Inoperable toilet, bathroom sink, or bathtub or shower in a dwelling unit or congregate housing unit;
11. Lack of or inoperable kitchen sink in a dwelling unit or congregate housing unit;
12. Fireplaces or chimneys which are of insufficient size or strength to carry imposed loads with safety such that failure is likely to occur within the next ninety six (96) hours but is not likely to occur immediately;
13. Except as defined under "imminent danger" below, conditions that reduce the width, height or area of a required emergency exitway or required escape window;
14. All buildings or portions thereof which are not provided with the operable fire extinguishing systems or equipment required by city codes;
15. Buildings or portions thereof occupied for living, sleeping, cooking or dining purposes which were not designed or intended to be used for such occupancies;
16. Lack of a kitchen area equipped with a working stove, oven, sink and refrigerator unless specified otherwise by this code.

HISTORIC BUILDING: Any building or structure which has been designated for preservation by Salt Lake City pursuant to title 21A of this code or its successor, or has been listed on the National Register of Historic Places or on the Utah State Register of Historic Places, or is a contributory structure located in an historic district designated pursuant to title 21A of this code.

HOTEL: Any building containing guestrooms intended or designed to be used, rented, or hired out to be occupied, or which are occupied for sleeping purposes by guests on a daily basis.

HOTEL/MOTEL ROOM: A room or combination of rooms (suite) offered as a single unit for lodging on a daily or weekly basis.

IMMINENT DANGER: A condition in a building or dwelling unit subject to this chapter where structural, electrical, mechanical or plumbing systems have failed so that they may cause immediate death or serious injury to the building's occupants or the public. Conditions of "imminent danger" are those that are so severe and dangerous that either repairs cannot be completed immediately or it is appropriate to have the residents or other occupants leave the building or unit before the repairs have begun. "Imminent danger" consists of any of the following and other similarly serious conditions:

1. Failed or missing foundations, beams, columns, floor systems;
2. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members which sag, split or buckle and failure is likely to occur at any moment;
3. Broken water lines causing flooding which is undermining structural supports or otherwise endangering the building's integrity;
4. Leaking gas;
5. Missing flues or vent connectors resulting in exhaust gases entering the building;
6. Lack of adequate heating facilities during the months of October through April;
7. Overload of main and branch electrical distribution systems;
8. Exposed electrical wires, fuses and electrical current breakers capable of producing electrical shock or fire and readily accessible to the occupants or the public;
9. Stairs and stair components that cannot carry the loads intended and which may collapse if so loaded;
10. Contaminated water systems;
11. A complete absence of toilet facilities;
12. A complete lack of water supply or sewage disposal facilities, as a result of a failure of a building's or dwelling unit's system and not a city system failure;
13. Blocked emergency egress halls, corridors and/or doors, including accumulation or storage of materials in stairways, corridors, doors or windows, or other condition which blocks the means of egress.

INFESTATION: The presence of insects, rodents or other pests in or around a building in numbers that are or may be detrimental to the health, safety or general welfare of the occupants.

KITCHEN: A space or room used, designed or intended to be used for the preparation of food, which includes permanently installed cooking facilities.

LISTED AND LISTING: Terms referring to equipment and materials which are shown in a list published by an approved testing agency qualified and equipped for experimental testing and maintaining an adequate periodic inspection of current productions. The listing states that the material or equipment complies with accepted national standards which are approved, or standards which have been evaluated for conformity with approved standards.

MAINTENANCE: The repair, replacement and refinishing of any component of an existing structure, but does not include alteration or modification to the existing weight bearing structural components.

MINOR DEFICIENCIES: A structural, electrical, mechanical or plumbing code violation that is minor in nature and is less severe or dangerous than a "substandard condition". "Minor deficiencies" include the following, and other similarly minor conditions:

1. Interior finish wall coverings missing or in disrepair;
2. Lack of paint;
3. Dripping or leaking kitchen or bathroom faucets;
4. Soffit and fascia trim of which no more than twenty percent (20%) is weathered, missing, or loose.

MONUMENTAL STAIRS: A stairway, exceeding four feet (4') in width, at the main entrance on the exterior of a building.

MULTIPLE-FAMILY STRUCTURE: A residential building containing three (3) or more dwelling units.

NEC: The edition of the national electrical code currently adopted by the city.

NOTICE AND ORDER: A document which:

1. Provides notice of the existence of a condition covered by this chapter;
2. Orders certain actions by the owner or owner's designee; and
3. Specifies subsequent processes.

NOTICE OF COMPLIANCE: A written notice informing the person cited that the violation has been cured.

NOTIFIED PARTY: The person or persons to whom a notice and order is issued.

OCCUPANT: A person occupying or having possession of a dwelling unit.

OPENING: An exterior glazed opening capable of being closed to the weather, consisting of a window, a glazed door, or an openable glazed skylight, which opens upon a roof, yard, court, street, alley or recess from a court.

OWNER: Any person, individual, firm, corporation, associate, joint venture or partnership and its agents or assigns who has title or interest in any building, with or without accompanying actual possession, and including any person who as agent or executor, administrator, trustee or guardian of an estate has charge, care or control of any building.

PATTERN OF CIRCULATION: Any area in a room or group of rooms where the occupant is likely to walk because of the location of doors, fixtures or furniture placement when size of room restricts furniture placement. Fixtures, pipes and ducts projecting from the ceiling which are located near the middle of the room are within the pattern of circulation.

PERSON: Any individual, firm, corporation, association, joint venture or partnership and its agents or assigns.

PERSON CITED: The owner, owner's agent, tenant or occupant of any building or land or part thereof and any architect, builder, contractor, agent or other person who participates in, assists, directs or creates any situation that is contrary to the requirements of this chapter, and who received the notice of violation and is being held responsible for the violation.

PLUMBING SYSTEM: Any potable water distribution piping, and any drainage piping within or below any building, including all plumbing fixtures, traps, vents and devices appurtenant to such water distribution or drainage piping and including potable water treating or using equipment, and any lawn sprinkling system.

PREMISES: A lot, plot or parcel of land including the buildings or structures thereon.

PUBLIC WAY: Any street, alley or similar parcel of land essentially unobstructed from the ground to the sky which is deeded, dedicated, or otherwise permanently appropriated to the public for public use and which has a clear width of not less than ten feet (10').

RESIDENTIAL BUILDING: The portions of a building that contain dwelling units.

RISE: The vertical portion of a stair step.

ROOMING HOUSE: A building or group of attached or detached buildings containing in combination at least three (3) lodging units for occupancy on at least a monthly basis, with or without board, as distinguished from hotels and motels in which rentals are generally for a daily or weekly period and occupancy is by transients.

RUN: The horizontal portion of a stair step, measured from the leading edge of the stair tread to a point directly beneath the leading edge of the step directly above.

SRO (SINGLE ROOM OCCUPANCY): A congregate housing where the dwelling units have one combined sleeping and living room and may include a kitchen and/or a separate private bathroom.

SAFETY: The condition of being safe from causing harm, injury or loss.

SECOND NOTICE: The notice informing the person cited of the date that civil fines will begin to accrue if the housing violation is not corrected.

SECURED BUILDING: A building where all windows and doors are intact and lockable against unauthorized entry.

SLOPING CEILING: Any ceiling with a slope greater than one-half inch ($\frac{1}{2}$") per foot.

SMOKE DETECTOR: An approved device which senses visible or invisible particles of combustion.

SPACE, COMMON: "Common space" means shared areas available for use by the occupants of the building.

SPACE, PRIVATE: "Private space" means the portion of a dwelling unit which is for the exclusive use of the occupants of the unit.

STORY: That portion of a building included between the upper surface of any floor and the upper surface of the floor next above or the bottom surface of the roof structure.

STRUCTURE: Anything that is built or constructed for residential occupancy, or attached to a building for residential occupancy.

SUBSTANDARD CONDITION: A structural, electrical, mechanical or plumbing system condition in a residential building or dwelling unit which violates applicable codes but with maintenance or repair can be made fully safe and which does not amount to an "imminent danger" or a "hazardous condition". "Substandard conditions" include the following as well as any violations of the standards in this chapter which have not been included in the categories of "imminent danger", "hazardous condition" or "minor deficiency":

1. Deteriorated or inadequate foundations with cracking and evidence of settlement;
2. Defective or deteriorated flooring or floor supports;
3. Members of walls, partitions or other vertical supports that split, lean, list or buckle due to defective material or deterioration;
4. Members of ceilings, roofs, ceiling and roof supports, or other members that are of insufficient size to carry live and dead loads with safety;
5. Soffit and fascia trim more than twenty percent (20%) of which is weathered, missing or loose;
6. Missing, decayed, buckling or worn out roof covering;
7. Roof having more than two (2) layers of shingle type roof covering;
8. Fireplaces or chimneys which list, bulge or settle, due to defective material or deterioration;
9. Parapet wall or parapet cap bricks that are loose or missing;
10. Stair risers, treads, jacks, stringers or supports that are cracked or otherwise deteriorated or missing;
11. Plumbing which was not installed in accordance with the adopted plumbing code in effect at the time of installation or with generally accepted construction practices, has not been maintained in good condition, or is not free of cross connections or siphonage;
12. Continuous running water in a toilet, bathroom sink or kitchen sink;
13. Lack of hot or cold running water to plumbing fixtures in a dwelling unit or congregate housing structure;
14. Mechanical equipment which was not installed in accordance with codes in effect at the time of installation, or with generally accepted construction practices, or which has not been maintained in good and safe condition;
15. Inoperable heating systems during the months of May through September;
16. Inoperable air conditioning systems, when the building is supplied with such a system and lacks other adequate forms of ventilation and the air conditioning system fails to keep the air temperature below eighty five degrees Fahrenheit (85°F);
17. Damaged or missing heat ducts or missing heat duct registers;
18. Electrical wiring which was not installed in accordance with codes in effect at the time of installation or with generally accepted construction practices, has not been maintained in good condition, or is not being used in a safe manner;
19. Missing light fixtures, switches and outlet and switch cover plates;
20. Overcurrent situations such as those caused by the use of electrical extension cords and multiple light fixtures;
21. Lack of the minimum natural light and ventilation required by this chapter;
22. Room and space dimensions less than that required by this chapter;
23. Dampness of habitable rooms as evidenced by condensation or mold on ceilings, walls or floors;
24. Deteriorated, crumbling or loose plaster or stucco;
25. Deteriorated or ineffective waterproofing of exterior walls, roof, foundation or floors, including broken windows or doors;
26. Deteriorated or lack of weather protection for exterior wall coverings;
27. Broken, rotted, split or buckled exterior wall coverings or roof coverings;
28. Wood has been installed within six inches (6") of earth which is not naturally decay resistant, treated wood or wood protected by an approved barrier;
29. Infestation of insects, vermin or rodents as determined by the Salt Lake Valley health department;
30. Lack of garbage and rubbish storage and removal facilities as determined by the Salt Lake Valley health department regulations;
31. Those premises on which an accumulation of weeds, vegetation, junk, dead organic matter, debris, garbage, offal, rat harborages, stagnant water, and similar materials or conditions constitute a violation of the Salt Lake Valley health department regulations;
32. Any building, device, apparatus, equipment, combustible materials or vegetation which, in the opinion of the chief of fire department or building official, is in such a condition as to cause a fire or explosion or provide a ready fuel to augment the spread and intensity of fire or explosion arising from any cause;
33. Any fire resistive requirement of this chapter which is not met;
34. Drainage of water from roofs or yards in a manner that creates flooding or damage to a structure;
35. Any equipment or apparatus that causes excessive noise, pollution, odor or light as defined by the Salt Lake City code or Salt Lake Valley health regulations;
36. Guardrails or handrails in common areas that are missing or cannot support required loads.

TOILET ROOM: A room which contains a toilet. It may also contain a sink, but does not contain a tub or shower.

UBC: The edition of the uniform building code currently adopted by the city.

UCADB: The edition of the uniform code for the abatement of dangerous buildings currently adopted by the city.

UFC: The edition of the uniform fire code currently adopted by the city.

UMC: The edition of the uniform mechanical code currently adopted by the city.

UPC: The edition of the uniform plumbing code currently adopted by the city.

UNFIT FOR HUMAN OCCUPANCY: A condition of premises which has been found by the building official to be an "imminent danger" or "hazardous condition" situation as defined by this chapter, or which fails to meet the sanitation requirements of the Salt Lake Valley health department.

VENTILATION, NATURAL: "Natural ventilation" means any openable exterior door, window or skylight which opens upon a roof, yard, court, street or alley.

YARD: An open space, other than a court, unoccupied by any structure on the lot on which a building is situated, unobstructed from the ground to the sky. (Ord. 70-09 § 6, 2009: Ord. 1-06 § 30, 2005: Ord. 52-01 § 1, 2001: Ord. 74-98 §§ 3, 4, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.040: AUTHORITY:

A. Enforcement: The building official is authorized to enforce all the provisions of this chapter. The building official may issue and deliver citations under authority provided by state law.

B. Interpretation: The building official may render interpretations of this chapter and adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall conform to the intent and purpose of this chapter, and shall be made available in writing for public inspection upon request.

C. Alternate Materials And Methods Of Construction: This chapter is not intended to exclude any method of structural design or repair not specifically provided for in this chapter or the UBC. The building official may approve any alternate material or method of construction conforming to alternate design and methods of construction section of the UBC. (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.050: RIGHT OF ENTRY:

A. Inspection: Whenever it is necessary to make an inspection to enforce any provisions of this chapter, or whenever the building official has reasonable cause to believe a code violation exists in any building or upon any premises which makes such building or premises unsafe, dangerous or hazardous, the building official may, upon obtaining permission of the owner or other person having charge or control of the premises or dwelling unit, or upon obtaining a warrant, enter a residential property or premises to inspect it or to perform the duties imposed by this chapter. If such building or premises is occupied, the building official shall first present proper credentials and request entry. If such building or premises is unoccupied, the building official shall first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and request entry. If such entry is refused, the building official shall have recourse to every remedy provided by law to secure entry. The building official shall establish written policies which outline owner notification procedures for regular inspections and establish handling of owner notification for tenant reports of unsafe, dangerous and hazardous conditions.

B. Unoccupied Dwelling Unit: If an unoccupied dwelling unit is open and unattended and the owner or other person having charge or control of the building or premises cannot be located after reasonable effort, the building official or building official's designee may enter the building. The building official shall issue a notice and order that the dwelling unit be immediately secured or boarded against the entry of unauthorized persons.

C. Inspection Notification: In imminent danger or hazardous condition situations, or when authorization to enter has not previously been granted by a tenant, the owner shall give the tenant a minimum of twenty four (24) hours' notification of an inspection of the tenant's premises by the building official.

D. Violations: Whenever the building official has inspected a building and found violations of this chapter, the building official has the authority to commence action to cause the repair, rehabilitation or vacation of the building. The building official shall issue a notice and order to the owner(s) of the building, which shall list all violations, giving the section number and a detailed description of each, and classified by severity according to the following categories: imminent danger, hazardous condition, substandard condition, and minor deficiency situations. For each violation, or category of violation, the notice and order shall state the following, described in sections 18.50.060 through 18.50.090 of this chapter:

1. The corrective action necessary for the violation(s);
2. A time frame for compliance;
3. The appeals and administrative hearing officer process; and
4. Specific remedies the city may reasonably expect to take if the violations are not corrected. (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.060: IMMINENT DANGER SITUATIONS:

A. Determination: If the building official determines that an imminent danger exists, the building official shall take the actions specified in this section.

B. Notice And Order: The building official shall issue a notice and order containing the following:

1. A notice listing the building's or unit's violations and the reason(s) that the building official determines that such conditions constitute an imminent danger;

2. An order requiring:

a. Immediate vacation of the building or dwelling unit, or

b. The closure of that portion or system if the building official determines that a portion or system of the building or unit can be closed or otherwise secured so that the rest of the building or unit remains occupiable; and

3. An explanation of the appeal rights and processes specified in subsection E of this section.

C. Delivery Of Notice And Order: Notices and orders issued pursuant to this section shall be posted on the building entrance doors and on the entrance doors of all dwelling units affected by the notice and order. The notice and order shall also be mailed to the owner or the owner's designated agent by both certified mail, return receipt requested, and ordinary first class mail, postage prepaid, or shall be delivered by hand.

D. Notified Party Actions: Within twenty four (24) hours after the issuance of the notice and order, the notified party shall take out all required permits and cause the building or dwelling unit to be either repaired or, if repairs cannot be or are not completed within twenty four (24) hours, secured from entry as required by other portions of this code.

E. Expedited Appeal:

1. If the notified party disagrees with the notice and order and files an appeal in writing within seven (7) days of the issuance of the notice and order, the appeal shall be heard before an HAAB panel within two (2) days of receipt of the appeal.

2. The HAAB panel shall issue a written decision within two (2) days of the hearing.

3. If the notified party is dissatisfied with the HAAB panel decision, the notified party may appeal by filing a written notice with the mayor within seven (7) days of the HAAB decision.

4. The mayor or the mayor's designee shall consider the appeal on the record made before HAAB and the written appeal. The mayor or the mayor's designee may accept additional evidence only if the evidence was improperly rejected by HAAB. The mayor or the mayor's designee may, at their discretion, consider the appeal based solely on the written materials or materials presented at a publicly conducted hearing.

5. The appeal shall be considered, and the mayor or the mayor's designee shall issue a final decision within twelve (12) days of the receipt of the appeal.

6. The filing of an appeal shall not stay the requirements of the notice and order.

F. City Remedies: If the notified party fails to repair or secure the property, the city may take all appropriate remedies authorized by law including, the imposition of civil fines, obtaining any necessary authorization to enter the property to secure it from occupancy or, if the property conditions represent a threat to the public, abating the deficiency as a public nuisance or taking other appropriate actions. (Ord. 52-01 § 2, 2001: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.070: HAZARDOUS CONDITION SITUATIONS:

A. Determination: If the building inspector determines that a hazardous condition exists, the building inspector shall take the actions specified in this section.

B. Notice And Order: The building inspector shall issue a notice and order containing the following:

1. A notice listing the building's or unit's violations and the reason(s) that the building inspector determines that such conditions constitute a hazardous condition;

2. An order requiring the notified party to:

a. Take out all necessary permits and repair the hazardous condition within three (3) days, or

b. Close the building or required portions thereof to occupancy within three (3) days;

3. An explanation of the appeal rights and processes specified in subsection E of this section.

C. Delivery Of Notice And Order: Notices and orders issued pursuant to this section shall be posted on the building entrance doors and on the entrance doors of all dwelling units affected by the notice and order. The notice and order shall also be mailed to the owner or the owner's designated agent by both certified mail, return receipt requested, and ordinary first class mail, postage prepaid, or shall be delivered by hand.

D. Notified Party Actions: Within three (3) days after the issuance of the notice and order, the notified party shall take out all required permits and cause the building or dwelling unit to be either repaired or vacated and secured from entry as required by other portions of this code. The building official may extend the time for completing the required work to six (6) days from the date of issuance of the notice and order provided the required permits are taken out within three (3) days of the date of issuance of said notice and order.

E. Appeal:

1. If the notified party disagrees with the notice and order, the notified party may appeal in writing within fourteen (14) days of the issuance of the notice and order. The appeal shall be heard before an HAAB panel within thirty (30) days of receipt of the appeal.

2. Appeals under this subsection shall stay the enforcement of those items appealed on the notice and order.

3. The HAAB panel shall issue a written decision within seven (7) days of the hearing.

4. If the notified party is dissatisfied with the HAAB panel decision, the notified party may appeal by filing a written notice with the mayor within seven (7) days of the HAAB decision.

5. The mayor or the mayor's designee shall consider the appeal on the record made before HAAB and the written appeal. The mayor or the mayor's designee may accept additional evidence only if the evidence was improperly rejected by HAAB. The mayor or the mayor's designee may, at their discretion, consider the appeal based solely on the written materials or materials presented at a publicly conducted hearing.

6. The appeal shall be considered, and the mayor or the mayor's designee shall issue a final decision within twelve (12) days of the receipt of the appeal.

F. City Remedies: If the notified party fails to repair or secure the property as required, the city may take all appropriate remedies authorized by law including, the imposition of civil fines, closing all or a portion of the building, obtaining any necessary authorization to enter the property to secure it from occupancy or, if the property conditions represent a threat to the public, abating the deficiency as a public nuisance or taking other appropriate actions. (Ord. 52-01 § 3, 2001: Ord. 74-98 § 5, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.080: SUBSTANDARD CONDITION SITUATIONS:

A. Determination: If the building inspector determines that a substandard condition exists, the building inspector may take the actions specified in this section.

B. Notice And Order: The building inspector may issue a notice and order containing the following:

1. A notice listing the building's or unit's violations and the reason(s) that the building inspector determines that such conditions constitute a substandard condition;

2. An order requiring the notified party to:

a. Take out all necessary permits and repair the substandard condition within the times specified, or

b. Close the building or required portions thereof to occupancy within thirty (30) days;

3. An explanation of the appeal rights and processes specified in subsection E of this section.

C. Delivery Of Notice And Order: Notices and orders issued pursuant to this subsection shall be posted on the building entrance doors and in the common areas of the building. Notices and orders issued to vacate the premises shall be posted on all building entrance doors, common areas and on individual dwelling units. The notice and order shall also be mailed to the owner or the owner's designated agent by both certified mail, return receipt requested, and ordinary first class mail, postage prepaid, or may be delivered by hand.

D. Notified Party Actions: The notified party shall take out all required permits and cause the building or dwelling unit to be either repaired or secured from entry as required by other portions of this code within the times specified in the notice and order. If the building official determines that work is progressing appropriately and an extension is necessary, the building official may extend the times for completion of any work.

E. Appeal And Administrative Hearing:

1. If the notified party disagrees with the notice and order, the notified party may appeal in writing within thirty (30) days of the issuance of the notice and order. The appeal shall be heard before an HAAB panel within forty five (45) days of receipt of the appeal.

2. Appeals of notice and order for substandard conditions shall be first considered by an administrative hearing officer pursuant to section 18.50.120 of this chapter.

3. The HAAB panel shall issue a written decision within fourteen (14) days of the hearing.

4. If the notified party is dissatisfied with the HAAB panel decision, the notified party may appeal by filing a written notice with the mayor within fourteen (14) days of the HAAB decision.

5. The mayor or the mayor's designee shall consider the appeal on the record made before HAAB and the written appeal. The mayor or the mayor's designee may accept additional evidence only if the evidence was improperly rejected by HAAB. The mayor or the mayor's designee may, at their discretion, consider the appeal based solely on the written materials or materials presented at a publicly conducted hearing.

6. The appeal shall be considered, and the mayor or the mayor's designee shall issue a final decision within thirty (30) days of the receipt of the appeal.

7. Appeals under this subsection shall stay the enforcement of those items appealed on the notice and order.

F. City Remedies: If the notified party fails to repair or secure the property as required, the city may take all appropriate remedies authorized by law including, the imposition of civil fines, closing all or a portion of the building or securing any necessary authorization to enter the property to make repairs. (Ord. 52-01 § 4, 2001: Ord. 74-98 §§ 6, 7, 1998: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.090: MINOR DEFICIENCY SITUATIONS:

A. Determination: If the building inspector determines that a minor deficiency exists, the building inspector may take the actions specified in this section.

B. Citations: Citations may be issued for minor deficiencies. However, such citations shall be for the owner's information only and shall have no further legal force or effect. When a notice and order is issued, minor deficiencies may be included under "for owner's information only". If a property inspection reveals only minor deficiencies, the building inspector may mail a letter to the owner informing the owner of such minor deficiencies.

C. Delivery Of Notice And Order: The notice and order shall be mailed to the owner or the owner's designated agent by both certified mail, return receipt requested, and ordinary first class mail, postage prepaid, or shall be delivered by hand. If delivery of the notice and order by mail or hand delivery is not made, the notice and order shall be posted on the building entrance doors and on the entrance doors of all dwelling units affected by the notice and order.

D. Notified Party Actions: The notified party shall take out all required permits and cause the building or dwelling unit to be either repaired or secured from entry as required by other portions of this code within the times specified in the notice and order. If the building official determines that work is progressing appropriately and an extension is necessary, the building official may extend the times for completion of any work.

E. Appeal And Administrative Consideration: The appeal and administrative hearing officer processes shall be as specified in subsections 18.50.080E and F of this chapter.

F. City Remedies: If the notified party fails to make the repairs required, or fails to reach an agreement acceptable to the city for remediation, the city may record a notice of deficiency with the Salt Lake County recorder's office specifying the deficiencies. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.100: ENFORCEMENT:

A. In addition to any other remedies authorized by law or in this chapter, if the notified party fails to repair or secure the property in question, the city may pursue any one or more of the following additional remedies:

1. Notice Of Deficiency: The supervisor of housing enforcement may record with the Salt Lake County recorder's office a notice of any condition provided in sections 18.50.060 through 18.50.090 of this chapter. The notice shall be mailed to all notified parties.

2. Criminal Action: Violations of the provisions of sections 18.50.060 through 18.50.080 of this chapter may be punishable as a class B misdemeanor upon conviction.

3. Civil Action: Violations of sections 18.50.060 through 18.50.080 of this chapter may also be enforced by injunction, mandamus, abatement, civil fines or any other appropriate action in law or equity.

B. Civil fines may be imposed according to the following procedures:

1. Notice:

a. If the housing inspector finds that any provision of this chapter is being violated, the housing inspector shall provide a written notice to the property owner and to any other person determined to be responsible for such violation. The written notice shall indicate the nature of the violation and order the action necessary to correct it. Additional written notices may be provided at the housing inspector's discretion.

b. The written notice shall state what action the housing inspector intends to take if the violation is not corrected. The written notice shall include information regarding the established warning period for the indicated violations and shall serve to start any warning periods provided in this chapter.

c. Such written notice issued by the housing inspector shall be deemed sufficient and complete when served upon the person cited:

(1) Personally by the inspector or his or her representative; or by mailing, postage prepaid, by certified mail, return receipt requested, addressed to the person cited at the last known address appearing on the records of the county recorder; and

(2) By posting notice on the property where said violation(s) occurs.

d. In cases when delay in enforcement would seriously threaten the effective enforcement of this chapter, or pose a danger to the public health, safety or welfare, the housing inspector may seek enforcement without prior written notice by invoking any of the fines or remedies authorized in this chapter.

e. If the violation remains uncured within five (5) days after the expiration of the warning period, a second notice of violation shall be delivered by mail, postage prepaid, addressed to the person cited at the last known address appearing on the records of the county recorder. The second notice shall identify the date on which the civil fines shall begin to accrue.

2. Amount Of Fine: Civil fines shall accrue as follows:

a. Substandard condition violations: Twenty five dollars ($25.00) per day. If more than ten (10) substandard condition violations exist, the daily fines shall double.

b. Hazardous condition violations: Fifty dollars ($50.00) each per day.

c. Imminent danger violations: Seventy five dollars ($75.00) each per day.

d. Failure to obey an interpretation, decision or requirement of the housing advisory and appeals board: Twenty five dollars ($25.00) per day.

3. Daily Violations: Each day a violation continues after the citation deadline shall give rise to a separate civil fine.

4. Compliance: Accumulation of fines for violations, but not the obligation for payment of fines already accrued, shall stop upon correction of the violation.

5. Recurring Violations: In the case where a violation, which had been corrected, reoccurs within six (6) months of the initial correction, the city will begin enforcement of said recurring violation and fines will begin accruing after a ten (10) day warning period.

6. Appearance Before A Hearing Officer:

a. Right To Appear: Any person cited may appear before a hearing officer to appeal the amount of the fine imposed. However, no party may appear before a hearing officer until violations identified have been corrected and a notice of compliance has been issued. Appeals to the hearing officer contesting the amount of the fine imposed must be filed within thirty (30) days from the date of the notice of compliance.

b. Defense: The burden to prove any defense shall be upon the person raising such defense.

c. Responsibility: Commencement of any action to remove or reduce fines shall not relieve the responsibility of any person cited to cure the violation or to make payment of subsequently accrued civil fines nor shall it require the city to reissue any of the notices required by this chapter.

7. Appeal Of Administrative Decision: The decision of the housing inspector regarding the existence of the housing violation shall be deemed an administrative decision which may be appealed to the housing advisory and appeals board within thirty (30) days of the date of the first notice.

8. Hearing Officer Duties:

a. The mayor, or his/her designee, shall appoint such hearing officer as the mayor, or his/her designee, deems appropriate to consider matters relating to the violation of this chapter. The hearing officer shall have the authority to hear evidence relating to mitigating circumstances and to make such equitable adjustments as he/she deems appropriate, as set forth below:

(1) The hearing officer may adjust, reduce or eliminate fines or create payment plans relating to fines accrued by the person cited. In the administration of this duty, the hearing officer may reduce or eliminate fines based upon any circumstance or other equitable consideration the hearing officer finds to be applicable. In cases where the administrative process has not been followed by the division, the hearing officer has the authority to reduce or eliminate fines.

(2) Payment plans may be created by the hearing officer. Although the hearing officer has the ultimate authority in establishing the payment schedule, the minimum payment schedule provided by the department of community and economic development should be followed.

9. Dismissal Criteria:

a. If the hearing officer finds that no violation occurred and/or a violation occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may dismiss the notice of violation. Such defenses include:

(1) At the time of the receipt of the notice of violation, compliance would have violated the criminal laws of the state of Utah;

(2) Compliance with the subject ordinances would have presented an imminent and irreparable injury to persons or property.

10. Acceptance Of Hearing Officer Decision: If the hearing officer finds that a violation of this chapter occurred and no applicable defense exists, the hearing officer may, in the interest of justice and on behalf of the city, enter into an agreement for the timely or periodic payment of the applicable fine. The person cited has fourteen (14) days in which to accept the decision of the hearing officer. If the person cited does not accept the decision of the hearing officer, an agreement to modify the fine, or set up a payment schedule, the decision of the hearing officer is void and the city will attempt to collect the original amount of the fine.

11. Abatement For Correction And Payment:

a. Civil fines may be partially abated after the violation is cured and at the discretion of the hearing officer if any of the following conditions exist:

(1) Strict compliance with the notice and order would have caused an imminent and irreparable injury to persons or property.

(2) The violation and inability to cure were both caused by a force majeure event such as war, act of nature, strike or civil disturbance.

(3) A change in the actual ownership of the property was recorded with the Salt Lake County recorder's office after the first or second notice was issued and the new owner is not related by blood, marriage or common ownership to the prior owner.

(4) Such other mitigating circumstances as may be approved by the city attorney or designee.

b. If the hearing officer finds that the noticed violation occurred and no applicable defense applies, the hearing officer may, in the interest of justice and on behalf of the city, enter into an agreement for the delayed or periodic payment of the applicable fine.

c. Once a payment schedule has been developed by the hearing officer, and agreed to by the person cited, failure to submit any two (2) payments as scheduled will require payment of the entire amount of the original fine immediately. (Ord. 38-08, 2008: Ord. 6-04 § 10, 2004: Ord. 52-01 § 5, 2001: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.110: APPELLATE PROCESS DETAILS:

A. Filing Of Appeals: Appeals shall be submitted on an appeal form provided by the building official. The appellant shall state the specific order or action protested and a statement of the relief sought, along with the reasons why the order or action should be reversed, modified or otherwise set aside.

B. Failure To Appeal: Failure of any person to file an appeal in accordance with the provisions of this section shall constitute a waiver of the person's right to an appeal.

C. Inspection Of The Premises: Before any hearing is held by a HAAB panel, the panel shall inspect the building or premises involved. Prior notice of such inspection shall be given to the notified party filing the appeal, who may be present at such inspection. Upon completion of the inspection, the chairperson of the panel shall state for the record the material facts observed at the inspection, which facts shall be read at the initiation of the hearing. Failure of the notified party to provide access without good cause as determined by the building official shall not constitute a reason for the hearing to be postponed and the appeal denied.

D. Written Notice: Written notice of the time and place of panel hearings shall be mailed to the appellant in accordance with procedures adopted by HAAB.

E. Appeals Hearing: Any notified party may appear personally or authorize a designee to act in their behalf. The city and any notified party may call and examine witnesses on any relevant matter, introduce documentary and physical evidence, and cross examine opposing witnesses. Any relevant evidence shall be admitted.

F. Record: A record of the entire proceeding of all appellate hearings under this section shall be made by tape recording, or by any other means of permanent recording determined to be appropriate by HAAB. The record shall be retained on file in accordance with the city's record retention schedule. (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.120: ADMINISTRATIVE HEARING OFFICER PROCEDURES:

A. The administrative hearing officer shall hear cases deemed to be of substandard condition or minor deficiency situations. Review by the administrative hearing officer is not a provision of hazardous condition appeals, which go directly before a HAAB panel.

B. Each appeal shall first be reviewed by the administrative hearing officer no later than thirty (30) days from the date of filing of a written appeal.

C. The administrative hearing officer shall inspect the property and review the notice and order to determine if it is accurate and attempt to develop, in consultation with the appellant, possible methods of complying with the code consistent with the purposes of this chapter. The administrative hearing officer may prepare a stipulated agreement for signature by the appellant and the city.

D. The administrative hearing officer shall maintain complete and permanent records of all inspections and decisions. Resolutions of disputed issues, agreeable to the administrative hearing officer and the property owner, shall be presented at the next meeting of HAAB for its consent or modification. (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.130: APPROVAL FOR OCCUPANCY:

Following the correction of the deficiencies and prior to persons reoccupying any residential building or dwelling unit after it has been closed to occupancy, the housing/zoning officer shall issue an approval for occupancy. If a notice of deficiency has been filed with the Salt Lake County recorder's office pursuant to section 18.50.100 of this chapter, a release of the notice shall be recorded with that office. (Ord. 74-98 § 8, 1998: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.140: EXTERIOR STANDARDS:

A. Structural Repair: All roofs, floors, walls, chimneys, foundations, and other structural components shall be repaired when they no longer retain their structural integrity. Loose bricks in chimneys shall be repaired and missing chimney caps shall be replaced.

B. Exterior Surfaces: Exposed materials that require weather protection and exterior surfaces that are deteriorating shall be repaired to the extent necessary to stop damage from cold, wind, water, or dampness. The roof covering and flashing shall form an impervious membrane.

C. Drainage: All surface water shall drain away from the structure unless any potential adverse effect of the runoff is mitigated to the reasonable satisfaction of the building official.

D. Windows And Doors: Windows that are required by this chapter for light and ventilation shall be fully glazed. Window openings not required to meet light, ventilation, and egress standards may be sealed with opaque materials or removed. Broken or missing doors, door frames, windows, and window sashes shall be replaced or repaired.

E. Appendages: All awnings, fire escapes, exhaust ducts and similar appendages shall be maintained in good repair and be properly anchored.

F. House Addressing: All residential buildings shall display a street number in a prominent location on the street side of the building in such a position that the number is easily visible to approaching emergency vehicles. The numerals shall be no less than three inches (3") in height and shall be of a contrasting color to the background to which they are attached. Each individual unit within any multiple-family structure shall display a prominent identification number, not less than two inches (2") in height, which is easily visible.

G. Exterior Walkways: All sidewalks, walkways, stairs, driveways, parking spaces and similar areas shall be kept in a proper state of repair, and maintained free from hazardous conditions. (Ord. 74-98 §§ 9, 10, 1998: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.150: INTERIOR STANDARDS:

A. Showers/Tubs: Showers shall be finished to a height of seventy inches (70") above the fixture drain outlet with nonabsorbent material. Freestanding tubs with shower risers may utilize a shower curtain that totally encloses all sides of the tub.

B. Floor Coverings: All floor and stair coverings shall be maintained in a secure and substantially intact manner. This standard does not apply to area or throw rugs within dwelling units.

C. Walls And Ceilings: All walls and ceilings shall be maintained so that they are secure and intact. Surfaces shall be painted or covered with wallpaper or panelling.

D. Finishes, Washable Surfaces: In kitchens and bathrooms of congregate housing and SROs, floors and walls within fifteen inches (15") of sinks, bidets, showers, toilets, and tubs shall be finished with a nonporous material that is not adversely affected by moisture.

E. Operable Fixtures And Equipment: All fixtures, appliances, and equipment required by this code shall be maintained in safe and operable condition. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.160: DOORS, TRIM AND HARDWARE:

A. All doors, trim and hardware shall be kept in good working condition.

B. Exterior doors which are required for ingress and egress shall have locks which are keyed from the exterior and are operable from the interior without the use of a key or other special equipment or knowledge. Original locks in historic buildings are not required to be replaced if in good working condition.

C. Hinges for out swinging doors shall be equipped with nonremovable hinge pins or a mechanical interlock to preclude removal of the door from the exterior by removing the hinge pins. (Ord. 55-95 § 4 (Exh. A), 1995)

18.50.170: ENVIRONMENTAL OR SANITARY STANDARDS:

A. All premises shall be maintained clean, safe, sanitary and free from an accumulation of rubbish. Every occupant of a structure shall keep that part of the structure and exterior property which such occupant occupies, controls or uses in a clean and sanitary condition. Every owner of a structure containing a boarding and rooming house, fraternity and sorority house, dormitory, SRO or multiple-family dwelling units shall maintain, in a clean and sanitary condition, the shared or public areas of the structure and exterior property.

B. Garbage and refuse storage and removal shall meet the requirements of the Salt Lake Valley health department regulations.

C. There shall be no insect or rodent infestation in violation of the Salt Lake Valley health department regulations.

D. Asbestos, regardless of the date of installation, shall meet the requirements of the Salt Lake Valley health department regulations.

E. A room in which a toilet is located shall be separated from food preparation or storage rooms by a tight fitting door. (Ord. 1-06 § 30, 2005: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.180: SPACE AND OCCUPANCY STANDARDS:

A. Ceiling Heights:

1. Habitable Rooms: The minimum ceiling height for all habitable rooms shall be seven feet six inches (7'6"), except for kitchens, which may be seven feet zero inches (7'0"). This height may be six feet four inches (6'4") when the requirements of this chapter for emergency egress, light and ventilation are met and a one hundred twenty (120) volt electrical powered smoke detector is installed in the room. The only exception is that a smoke detector is not required in a kitchen. Projections shall be allowed to six feet zero inches (6'0") when the projection is not in the pattern of circulation and projections are not greater than twenty percent (20%) of the floor area of the room.

2. Nonhabitable Rooms Except Bathrooms: All nonhabitable rooms, except bathrooms, shall have no minimum ceiling height requirement.

3. Bathrooms And Toilet Rooms: Bathrooms and toilet rooms shall have a minimum ceiling height of six feet zero inches (6'0") with no projections below the six foot (6') minimum. The bathroom ceiling height at the back of a sink, toilet or tub without shower may be sloped to a minimum height of five feet zero inches (5'0") at the wall when the ceiling height is no less than six feet zero inches (6'0") at a point two feet zero inches (2'0") from the wall adjacent to the bathroom plumbing fixture.

4. Sloping Ceilings: In any room with a sloping ceiling, at least one-half ($^1/_2$) the floor area shall have a minimum ceiling height as required by this section. No portion of the room with a ceiling height below five feet zero inches (5'0") may be used in the floor area computation.

5. Corridors: A minimum ceiling height of six feet four inches (6'4") shall be required in corridors.

B. Room And Corridor Size:

1. Floor Area And Room Dimensions: Dwelling units shall have at least one habitable room with not less than one hundred twenty (120) square feet of floor area. Habitable rooms other than a kitchen shall have an area not less than seventy (70) square feet and shall not be less than seven feet (7') in length or width.

2. Sleeping Room Dimensions: Every room used for sleeping shall have at least seventy (70) square feet of floor area. Where more than two (2) persons occupy a room used for sleeping, the required floor area shall be increased at the rate of fifty (50) square feet for each occupant in excess of two (2).

3. Corridors: The minimum width of corridors shall be thirty six inches (36"). In dwelling units constructed prior to 1983, a minimum corridor width of thirty inches (30") shall be permitted.

C. Special Dwellings:

1. Efficiency Dwelling Units: An efficiency dwelling unit shall:

a. Have a living room of at least one hundred ninety (190) square feet of floor area. An additional one hundred (100) square feet of floor area shall be provided for each occupant in excess of two (2);

b. Have a closet;

c. Have a kitchen sink and cooking and refrigeration facilities, each having a clear working space of at least thirty inches (30") in front of the fixture or appliance;

d. Have a bathroom containing a toilet, sink and bathtub or shower.

2. Congregate Housing: Individual units in congregate housing shall have at least one room with not less than seventy (70) square feet of floor area per occupant. When individual rooms are less than one hundred twenty (120) square feet, a separate common room shall be provided of at least one hundred twenty (120) square feet for each ten (10) units, with a minimum of one common room per floor. When separate rooms are not provided with cooking facilities, the common room may be a common kitchen with a floor area as defined by the floor area computation.

D. Cooking Facilities:

1. Cooking Facilities In Dwelling Units: Each dwelling unit shall have a kitchen that supplies:

a. A range with stove top and oven, or in the alternative, a nonportable cooktop and oven. Hot plates, pans, and similar units shall not be considered as cooking facilities. All cooking appliances shall be maintained in good working condition.

b. An approved sink, with a minimum dimension of twelve inches by twelve inches by four inches (12" x 12" x 4") deep.

c. A minimum of four (4) square feet of counter space.

d. A refrigerator.

2. Cooking Facilities For Individual Units In Congregate Housing: As long as such cooking facilities do not encroach into the required floor area, required cooking facilities may be supplied in individual units, provided all of the following items are supplied:

a. A range with stove top and oven, or in the alternative, a nonportable cooktop and oven. Hot plates, pans, and similar units shall not be considered as cooking facilities and are not allowed. Portable cooking devices are not allowed in individual rooms;

b. An approved sink, with a minimum dimension of twelve inches by twelve inches by four inches (12" x 12" x 4") deep;

c. A minimum of four (4) square feet of counter space;

d. A refrigerator.

3. Common Kitchens In Congregate Housing: When cooking facilities are not provided within individual units, congregate housing shall have a common kitchen area which shall contain the following minimum facilities: a sink for each twenty (20) tenants or portion thereof, a range for each twenty (20) tenants or portion thereof, and a refrigerator for each ten (10) tenants or portion thereof. The minimum kitchen area shall be one hundred twenty (120) square feet based on the floor area computation for the first ten (10) occupants or portion thereof, and an additional thirty (30) square feet for each additional ten (10) persons or portion thereof.

E. Window Size Alterations: When window size modifications are necessary to meet light, ventilation or emergency egress, the window shall meet the most currently adopted uniform building code standard. (Ord. 74-98 §§ 11-13, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.190: LIGHT AND VENTILATION:

A. Natural Light In Habitable Rooms:

1. Every habitable room shall have at least one window facing directly to the outdoors to provide natural light. The minimum total window area shall equal one-twentieth ($^1/_{20}$) or more of the floor area of the room, with a minimum of three and one-half ($3\,^1/_2$) square feet. Special purpose rooms such as home theaters and film processing rooms shall not be subject to this requirement. Kitchens may be provided with artificial light, which shall be a minimum of 1.5 watts incandescent or 0.8 watts fluorescent per square foot of the room.

2. The glazed area of an exterior door may be used for purposes of computing window size for natural light.

3. For the purpose of meeting light or ventilation requirements, as well as emergency egress, a room may be considered as a portion of an adjoining room when one-half ($^1/_2$) of the area of the common wall is open and unobstructed and provides an opening of not less than one-tenth ($^1/_{10}$) of the floor area of the interior room or twenty five (25) square feet, whichever is greater.

B. Ventilation:

1. Habitable Rooms:

a. Except as provided in subsection B1b of this section, all habitable rooms shall be provided with natural ventilation by means of openings to the exterior which have the capability of being closed to the weather. Total openings shall have an area at least one-twentieth ($^1/_{20}$) of the floor area of the room or three and one-half ($3\,^1/_2$) square feet, whichever is greater.

b. A mechanical ventilation system shall be allowed in lieu of openings for natural ventilation. Such system shall create a positive pressure in the room and the air intake shall be connected directly to the outside and be capable of two (2) air exchanges per hour. In kitchens, the ventilation system may create negative pressure. The air intake/exhaust source shall be located at least three feet (3') above any opening which is within ten feet (10') of the air intake/exhaust.

c. Exterior doors may be used to meet natural ventilation requirements.

2. Bathrooms, Laundry Rooms, And Other Nonhabitable Areas:

a. Except as provided in subsection B2b of this section, all bathrooms and laundry rooms shall be provided with natural ventilation by means of openings to the exterior which have the capability of being closed to the weather. Such openings shall have a total area not less than one-twentieth ($^1/_{20}$) of the floor area of the room, with a minimum of one and one-half ($1\,^1/_2$) square feet.

b. A mechanical exhaust system connected directly to the outside shall be allowed in lieu of natural ventilation. The system shall be capable of providing five (5) air exchanges per hour. The exhaust air shall discharge at least three feet (3') above or ten feet (10') away from any air intake source. Toilet rooms may be ventilated with an approved recirculation fan or similar device designed to remove odors from the air.

c. Mechanical or convection venting of bathrooms into the attic shall be acceptable. Recirculating fans may be used in toilet rooms only. Bathrooms with tubs or showers shall have a convection or mechanical exhaust system.

d. Bathrooms constructed prior to 1970, which are vented with convection vent openings extending to the outside shall meet the ventilation requirement as long as the walls, ceiling and floor are not adversely affected by moisture. (Ord. 74-98 § 14, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.200: FIRE SAFETY; EGRESS:

A. Fire Safety: No hazard of fire or explosion shall be created or allowed to exist in any building, premises, equipment or apparatus.

B. Exit And Emergency Egress:

1. Every dwelling unit shall have a safe, continuous and unobstructed means of egress of a minimum height of six feet four inches (6'4") and a minimum width as per this code. The exitway shall be kept in a proper state of repair and maintained free of hazardous conditions and obstructions.

2. Every sleeping room located below the fourth story shall have at least one openable window or exterior door approved for emergency egress or rescue. The opening shall have a minimum of three and one-half ($3\frac{1}{2}$) square feet of openable space and clear opening dimensions of at least twenty inches (20") in one dimension and twenty four inches (24") in the other dimension. The escape window must open directly into a yard or exit court, or into a public street or alley. When windows are provided as a means of emergency egress or rescue, they shall have a finished sill height of not more than forty eight inches (48"). If the distance from the floor to the windowsill is more than forty eight inches (48"), a permanent ladder or platform attached to the wall or floor may be installed to meet the maximum height requirement. The ladder or platform must be approved by the city.

a. Exception 1. Where two (2) approved emergency exit doors leading from the sleeping room to separate exitways exist and minimum light and ventilation requirements are met, this subsection does not apply. Emergency exit doors shall open directly to a yard or court, or may exit through no more than one adjoining room which has a door that leads directly to a yard or court.

b. Exception 2. Where minimum light and ventilation and emergency egress requirements are met, there is no minimum sill height requirement in sleeping rooms of dwelling units constructed before 1968, which has not been altered from the original construction.

c. Exception 3. Sleeping rooms that fail to meet the sill height, window size or net openable area for the emergency egress provisions of this code may have their emergency egress deficiencies remedied, provided the rooms meet the required natural light and ventilation requirements of the housing code, by the installation of a smoke detector in each of the deficient sleeping rooms and in the hall or space immediately adjacent to and leading into the sleeping room or area. The smoke detectors shall be wired directly to the house electrical system and be provided with a battery backup.

3. For windows that are below grade, a window well shall run parallel to the width of the window and extend at least eighteen inches (18") out from the exterior face of the building. When the distance from the top of the window well to its bottom exceeds forty eight inches (48"), it shall be equipped with an approved permanently affixed ladder or stairs that are accessible with the window in the fully open position. Grates are permitted over window wells when hinged away from the structure and not weighing over fifteen (15) pounds per section of the grate.

4. Bars, grills, grates or similar devices may be installed on emergency escapes or rescue windows or doors, provided such devices are equipped with approved release mechanisms which are operable from the inside of the grate without the use of a key or special knowledge or effort.

C. Stairs And Handrails: Stairs and rails shall meet the requirements of the means of egress section of the UBC or its successor with the following modifications:

1. If there are four (4) or more risers, a handrail shall be required. Two (2) handrails shall be required when the width of the stairs is forty eight inches (48") or more. Stairways less than forty eight inches (48") in width or stairways serving one individual dwelling unit in group R, division 1 or 3 occupancy, or a group R, division 3 congregate residence may have one handrail. Handrails are not required for monumental stairs.

2. Handrails shall be placed not less than thirty inches (30") nor more than thirty eight inches (38") above the outermost edge of the tread. Handrails for existing stairs are not required to extend beyond the top or bottom stair tread.

3. Stairs shall have a maximum riser height of eight inches (8") and a minimum step run of nine inches (9"). Existing stair flights may have a maximum variation in rise and run of two inches (2") at the top and bottom of the flight. A maximum of one inch (1") variation of rise and run shall be allowed for all intermediate risers and treads. Stairs shall be level and shall comply with life safety standards as defined herein.

4. Winder, circular and spiral stairs shall comply with the UBC.

5. There shall be no minimum rise or run requirement nor maximum variation in the rise and run for stairs leading only to mechanical, storage, utility, and nonhabitable rooms in any residential structure and laundry rooms in individual dwelling units provided the stairs are structurally sound.

6. Steps shall be maintained in a safe manner. Missing steps, steps which are deteriorated to the point that a foothold is difficult to maintain, staircases which have missing boards, and/or staircases which contain boards that have lost their structural integrity shall be repaired to a safe condition.

7. Interior and exterior stairs shall have a minimum headroom height of six feet four inches (6'4"), except for stairs to mechanical or storage rooms, utility and nonhabitable rooms in any residential structure and laundry rooms in individual dwelling units, which have no minimum headroom height.

8. Stairs in the interior or exterior of an existing building where stair jacks are replaced or fifty percent (50%) of the tread or risers are replaced shall meet the requirements of the UBC, except that the minimum stair width shall be thirty inches (30") and the minimum headroom height shall be six feet four inches (6'4").

9. If because of the configuration of the horizontal and vertical distances an alternate stair configuration is more practical than the UBC requirement, or if HAAB finds that the stair rhythm is safe, HAAB may allow other configurations which are less uniform but achieve comparable safety, regardless of subsections C3 and C4 of this section.

10. A stair tread, stair support, stair riser, landing or railing which is either missing or so severely in disrepair or damaged that it cannot support its intended live and dead loads shall be repaired.

11. Interior stair landings shall have a minimum width of thirty inches (30") and a minimum length in the direction of travel of thirty inches (30").

D. Guardrails:

1. Guardrails shall be required for all balconies, porches, patios and open stairs more than thirty inches (30") above or below grade. Guardrails shall also be required for any grade change more than thirty inches (30") next to a walking surface. Guardrails shall not be less than forty two inches (42") in height, except for guardrails serving private dwelling units, which shall have a minimum height of thirty six inches (36"). Guardrails may have a minimum height of thirty six inches (36") if the building was built before 1970. Guardrails having a height less than thirty six inches (36") shall be allowed if they were installed as part of the building's original construction and are not a replacement. For structures which are on the historic register or are contributory structures located within one of the city's historic districts, height of existing and replacement guardrails may be determined based upon standards adopted by the city's historic landmark committee.

2. Guardrails shall have intermediate rails or an ornamental pattern such that there is no open area in excess of four inches (4") in diameter. The diameter of such open space may be nine inches (9") for buildings built before 1985, and six inches (6") for those built between 1985 and 1991.

E. Smoke Detector Requirements:

1. When smoke detectors are required in dwelling units by the UBC, the detectors shall be mounted on the ceiling or wall at a point centrally located in the hallway or area giving access to rooms used for sleeping. In efficiency dwelling units, the detector shall be centrally located on the ceiling or wall of the main room or sleeping room.

2. Where sleeping rooms are on an upper level, the detector shall be placed at the ceiling or wall directly above the stairway immediately outside the bedrooms. Wall mounted detectors shall be a minimum of four inches (4") and maximum of twelve inches (12") from the ceiling, but no detector shall be mounted within twelve inches (12") of any corner formed by the meeting of walls, ceilings or beams unless manufacturer's listing specifies otherwise. When activated, the detector shall provide an alarm in the dwelling unit.

3. When one or more sleeping rooms are added to or created within a structure, smoke detectors shall be installed in compliance with the manufacturer's listing and shall receive their primary power from the building wiring in compliance with the UBC.

4. All habitable rooms having a ceiling height of less than seven feet six inches (7'6") shall have installed a one hundred twenty (120) volt electrical powered smoke detector.

F. Fire Resistive Separations: Walls or ceilings separating dwelling units from each other and from hazardous uses shall be maintained in their original condition with all penetrations sealed or covered with an approved material. These separations include walls and ceilings separating a garage from a dwelling unit or common area and walls and ceilings separating furnace rooms in structures containing three (3) or more dwelling units. When fifty percent (50%) or more of a wall or ceiling is removed for any reason, the entire wall or ceiling shall be reconstructed to meet the requirements of the UBC for one hour occupancy separation. (Ord. 74-98 §§ 15-22, 1998: Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.210: PLUMBING:

A. Minimum Requirements:

1. Unless provided otherwise in this chapter, plumbing, piping and fixtures shall be in accordance with the code in effect at the time of installation.

2. Plumbing, piping and fixtures shall have no leaks and shall be maintained in good condition. All waste lines shall be connected to an approved sewer system.

3. The minimum plumbing fixtures required for dwelling units are a bathroom sink, toilet, tub or shower, and kitchen sink.

4. Cold running water shall be plumbed to each toilet. Hot and cold running water plumbed to each bathroom sink, tub, shower and kitchen sink.

5. Every sink, tub and shower shall be provided with hot water of at least one hundred ten degrees Fahrenheit (110°F) and with cold water.

6. A space without obstruction from floor to ceiling of not less than twelve inches (12") shall be in front of all toilets. Toilets shall be located in a space without obstruction from floor to ceiling of not less than twenty two inches (22") in width. No encroachments of these dimensions are permitted.

7. Where vents do not exist for plumbing fixtures meeting the applicable codes in effect at the time of their installation, vents need not be installed when the plumbing fixture or trap and trap arm is replaced providing the sewer line is not altered.

B. Water Heaters: Water heaters and boilers shall have a listed combination temperature and pressure relief valve and relief valve discharge pipe. All new installations of water heaters and boilers, when located above a finished space, shall include a safe pan with a UPC approved drain piped to an approved drainage system. Existing water heaters and boilers shall have a temperature and pressure relief valve. The valve shall have a listed discharge pipe which discharges no nearer than six inches (6") to the floor and no further than two feet (2') from the floor. A temperature and pressure relief valve shall be required for water heaters only when a water heater was designed for such valve.

C. Cross Connections: In order to protect against contamination of the water supply through cross connections, all water inlets for plumbing fixtures shall be located above the flood level rim of the fixture as defined in the UPC. Hoses or handheld shower heads shall not be attached in any manner that would permit water contamination during reverse pressure. Water supply pipes provided with an approved backflow preventer or antisiphon device as regulated in the UPC shall be permitted. Handheld shower heads shall be permitted when provided with a permanently mounted holder attached to the wall or shower pipe, or when an antisiphon device is installed. Water faucet outlets below the overflow rim of the fixture shall be permitted until the faucet is replaced. A new fixture shall not be installed where it would create a cross connection.

D. Drains:

1. Drain traps shall meet standards of the UPC. Existing traps shall be allowed as originally designed. If the trap has been modified it shall be replaced with an approved trap, and a vent shall be added as required by the UPC.

2. All open entrapped sewer lines and outlets shall be capped with an approved cap.

E. Fixture Requirements: Every kitchen sink, tub, shower and toilet shall be provided with a minimum of fifteen (15) psi of water pressure.

F. Bathrooms In Rental Dwelling Units: Each rental dwelling unit shall have a bathroom within the dwelling unit. Every toilet and bathtub or shower required by this code shall be in a room which will afford privacy to the occupant.

G. Congregate Housing:

1. The minimum plumbing fixtures required for congregate housing are a sink, toilet, and tub or shower for each ten (10) occupants or portion thereof and a kitchen sink. Bathrooms shall have installed a door with privacy lock.

2. Congregate housing that does not provide private toilets, sinks, bathtubs or showers shall have on each floor, accessible from a public corridor, at least one toilet, one sink, and one bathtub with shower or one separate shower for each ten (10) occupants or portion thereof. For each additional ten (10) occupants, or portion thereof, an additional one toilet, one sink and one bathtub or shower accessible from a public corridor shall be provided. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.220: MECHANICAL:

A. Mechanical Equipment:

1. Existing Installations: Mechanical systems lawfully in existence at the time of the adoption of this code may have their use, maintenance or repair continued if the use, maintenance or repair is in accordance with the original design and location and no hazard to life, health or property has been created by such mechanical system.

2. Compliance: All mechanical equipment shall be in accordance with the code in effect at the time of installation.

3. Maintenance: All mechanical equipment shall be properly maintained and shall be operated in a safe manner.

B. Heating:

1. Temperature: Heating shall be provided by a permanently installed heating system capable of heating all habitable rooms and bathrooms to a minimum of sixty eight degrees (68°), which shall be measured in the center of the room at a height of three feet (3') from the floor.

2. Air Return: A return air duct which serves more than one dwelling unit shall not be permitted. A duplex or multiple dwelling unit legally constructed before 1970 may have an existing common air return continued if the furnace was original installation. Existing common air return installations shall be allowed to continue when a listed smoke detector fan shutoff is installed in the return air duct of units constructed before 1985. Common air returns shall not be allowed in buildings constructed after 1985.

3. Fuel Burning Appliances:

a. Except for direct vented appliances, gas furnaces and gas water heaters shall not be permitted in bedrooms, in bathrooms or in closets accessed only from a bedroom or a bathroom. Existing furnace rooms with access only through an existing bedroom may continue to exist when a one hundred twenty (120) volt smoke detector is installed in the bedroom and relayed to a smoke detector installed in the furnace room. All combustion air is to be supplied from outside air.

b. Gas shutoff valves are required on all gas appliances. Shutoff valves shall be installed in accordance with the UMC.

c. All fireplaces, wood burning stoves, and all other appliances producing combustible gas byproducts shall be connected to an operating chimney or approved flue. All flues and vents shall be installed in compliance with EPA requirements and the requirements of the UMC in effect at the time of installation.

d. All fuel burning appliances shall be provided with combustion air per the requirements of their listing and with the UPC and UMC in effect at the time of their installation.

e. All fuel burning appliances shall be provided with listed clearances and maintained in good working condition and in accordance with their listing.

f. All ventilation fans shall be installed according to their listing and maintained in good working condition.

g. All ducts and vents shall be maintained according to original installation requirements. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.230: ELECTRICAL:

A. Safety: All electrical equipment, wiring and appliances shall be properly installed, maintained and used in a safe manner. Unless provided otherwise in this chapter, all electrical wiring and equipment shall be in accordance with the electrical code in effect at the time of installation. All conductors shall be protected by fuses or circuit breakers that are adequately sized.

B. Electrical Equipment: Electrical equipment shall not exceed the load capacity of the service and branch circuits shall have adequately sized circuit breakers or fuses.

C. Facilities Required: The following electric facilities must be furnished at a minimum and must be operable:

1. Service: The minimum main service to any dwelling unit shall be sixty (60) amperes. Existing dwelling units with electrical services less than sixty (60) amps per dwelling unit which have no special electrical service loads, such as air conditioners, ranges, heating units and clothes dryers may continue to be operated without upgrading the service.
2. Branch Circuits: Circuits supplying air conditioners, ranges, cooktops, stoves and heating appliances shall meet the requirements of the NEC. Branch circuits shall not be overfused.
3. Receptacles: Every habitable room shall contain at least two (2) electrical receptacles or one electrical light fixture and one electrical receptacle. Grounding type receptacles shall only be used when connected to a grounding system. Existing nongrounding type receptacles may be replaced with grounding type receptacles where protected by a ground fault circuit interrupter.

D. Upgrading Facilities:

1. Service: When remodeling work is done, the service must be upgraded if required by the NEC.
2. Circuits: When new circuits, outlets, switches, wiring and service panels are being installed, the installation shall meet the requirements of the NEC.
3. Receptacles: Wiring, receptacles and switches may be replaced without upgrading so long as circuits are not overloaded.

E. Lighting:

1. Dwelling Units: Every toilet room, bathroom, laundry room, furnace room, interior stairway and hall shall contain at least one permanently mounted electric light fixture.
2. Apartments, SROs And Congregate Housing:
   a. Lighting in the common areas shall be as follows: Aisles, passageways, stairwells, corridors, exitways and recesses related to and within the building complex shall be illuminated with a minimum of a forty (40) watt light bulb or equivalent for each two hundred (200) square feet of floor area; provided, that the spacing between lights shall not be greater than thirty feet (30'). Structures containing three (3) dwelling units or less shall not be required to provide exit lighting when no lighting outlet has been previously provided.
   b. Every furnace room shall contain at least one electric lighting fixture.
   c. Open parking lots and carports shall be provided with a minimum of one foot-candle of light on the parking surface during the hours of darkness. Lighting devices shall be protected by weather resistant covers and shall not cast glare on neighboring properties.

F. General:

1. All electrical panels, boxes, outlets and lighting fixtures shall have proper covers.
2. Flexible cords, as defined in the NEC, shall be used only according to their listing and shall not be installed as permanent wiring or strung across exitways. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

18.50.240: ENERGY CONSERVATION REQUIREMENTS:

A. Upgrading: Existing residential units shall be upgraded whenever any of the following events occur:

1. Whenever wallboard, plaster or other finish material is removed which exposes wall cavities of foundations, exterior walls, floors or ceilings, these spaces shall be insulated to the degree it is practical. Where attic and crawl space areas are insulated, the space shall be ventilated as per the currently adopted UBC.
2. Where insulation increases the accumulation of snow, and the snow load capacity of the roof structure is exceeded, the roof members shall be upgraded to withstand the additional loads.
3. When access is available to foundations of existing structures, foundations shall be insulated to the standard required by the applicable Utah energy code when remodeling of the structure is initiated.
4. When boarded structures are renovated for reoccupancy, the structure shall be insulated to the following standards when wall, ceiling, roof or floor cavities are open or accessible: wall, R-11; ceilings and roofs, R-32; floors, R-7. Thermal resistance "R" shall have the meaning as defined in the Utah energy code.
5. When new habitable space is created within an existing building envelope, all such spaces shall be insulated to the current Utah energy code standards.
6. All replacement windows shall be double pane. Replacement glass for structures which are on the historic register or are contributory structures located within one of the city's historic districts may be determined based upon standards adopted by the city's historic landmark committee. Replacement metal windows shall have a thermal break. Single pane replacement glass may be installed on windows not designed to accept double pane glass.
7. All exterior door replacements shall be weather stripped.
8. New mechanical equipment installed shall meet a minimum of eighty percent (80%) efficiency.
9. Except for the other applicable requirements of this chapter, when a new addition is made to an existing residential structure, only the addition shall be made to comply with current Utah energy code standards.

B. Exterior Door And Window Seals:

1. Exterior doors and windows shall be weathertight. If broken, all panes shall be replaced with glazing in compliance with the UBC.
2. All doors and windows shall be properly caulked and weatherproofed. (Ord. 68-96 § 1, 1996: Ord. 55-95 § 4 (Exh. A), 1995)

CHAPTER 18.52
MECHANICAL REGULATIONS

18.52.010: DEFINITIONS:

For the purpose of this title:

ENERGY USING EQUIPMENT: That which is designed, constructed, erected or altered to operate by the use of fuel and/or power and shall include any devices and appurtenances or appliances, materials, ducts, pipes, piping, venting, gas piping, valves, fittings, fans, blowers and burners necessary to the performance of such functions that shall create comfort heating and/or cooling or power for work services.

MECHANICAL SYSTEM: Means and shall include, but not be limited to, any heating, comfort cooling, ventilation and refrigeration systems, or energy using equipment. (Prior code § 5-12-3)

18.52.020: UNIFORM MECHANICAL CODE ADOPTED:

The edition of the uniform mechanical code, as adopted by the Utah uniform building code commission, is adopted by Salt Lake City as an ordinance, rules and regulations of Salt Lake City subject to the amendments and exceptions thereto as hereinafter set out, one copy of which code shall be filed for use and examination by the public in the office of the city recorder. Hereafter all references in this code to the uniform mechanical code shall mean the said edition adopted by the Utah uniform building code commission. (Ord. 37-95 § 30, 1995: amended during 1/88 supplement: prior code § 5-12-1)

18.52.040: MANUAL ON RECOMMENDED GOOD PRACTICES ADOPTED:

"Recommended Good Practices For Gas Piping Appliance Installation, And Venting", Mountain Fuel Supply Company, revision of June 1980, is adopted by Salt Lake City as an ordinance, rules and regulations of the city, subject to the amendments and exceptions thereto as hereinafter set out, three (3) copies of which code have been filed for use and examination by the public in the office of the city recorder. (Prior code § 5-12-2)

18.52.050: MECHANICAL PERMIT FEES:

A. Any person desiring a permit required by this code shall, at the time of filing an application therefor, pay the fee shown on the Salt Lake City consolidated fee schedule to the city treasurer before the permit is valid. The basic fee for each permit requiring inspection is shown on the Salt Lake City consolidated fee schedule. In addition, the fee for each individual specialty item is shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

CHAPTER 18.56
PLUMBING REGULATIONS

18.56.010: UNIFORM PLUMBING CODE ADOPTED:

The uniform plumbing code, 1988 edition, published by the International Association Of Plumbing And Mechanical Officials as a code in book form, three (3) copies of which have been filed for use and examination by the public in the office of the city recorder, is hereby adopted, except as such code may be altered or modified by the provisions of the ordinances of Salt Lake City. (Amended during 1/88 supplement: prior code § 5-14-1)

18.56.020: PLUMBING SYSTEM DEFINED:

"Plumbing system" means all potable water supply and distribution pipes, all plumbing fixtures and traps, all drainage and vent pipes, and all building drains and appurtenances within the property lines of the premises except: a) fixed lawn sprinkler systems beyond backflow prevention devices, and b) building sewers and private wastewater disposal systems three feet (3') or more beyond the outside walls of buildings. Included also are potable water treating or using equipment and water heaters. (Prior code § 5-14-2)

18.56.030: WATER SUPPLY PORTION OF PLUMBING SYSTEM:

The water supply portion of the plumbing system shall be considered to extend from the meter box (or the property line in the absence of a meter) to and throughout the building, terminating at an approved backflow prevention device or devices serving fixed lawn sprinklers. Included also are fire prevention and firefighting piping and equipment. (Prior code § 5-14-3)

18.56.040: PLUMBING PERMIT FEES:

A. Before a permit shall be valid, permit fees shall be paid to the city treasurer. The basic fee for each permit requiring inspection is shown on the Salt Lake City consolidated fee schedule. In addition, the fee for each individual specialty item is shown on the Salt Lake City consolidated fee schedule.

B. Fees for fire extinguishing systems shall be paid to the city treasurer as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

18.56.050: HOT WATER CAPACITY FOR RESIDENTIAL UNITS:

All single-family residences which have central water heating units shall deliver a minimum capacity of thirty (30) gallons of one hundred forty degree Fahrenheit (140°F) water. Multiple units shall have a central water heating unit which shall deliver a minimum capacity of thirty (30) gallons of one hundred forty degree Fahrenheit (140°F) water per residential unit, when a central water heating unit is installed. (Prior code § 5-14-8)

18.56.060: LOW FLUSH TOILETS; REQUIRED FOR BUILDING PERMIT:

After the effective date hereof, no building permits shall be issued for new construction or remodeling of hotels, motels, apartment houses, dwellings or other structures which have toilets or water closets which use more than four (4) gallons of water per flush. Any toilets or water closets installed prior to said effective date shall meet the standards of this section when replaced. All fixtures installed pursuant to the provisions of this chapter shall be of a design such that the walls of the toilet or water closet bowl are thoroughly washed and contents discharged with each flush. (Prior code § 5-14-6)

18.56.070: LOW FLUSH TOILETS; ON WATERSHED PROPERTY:

After January 1, 1982, any toilets installed prior to the effective date hereof which are located on watersheds in Salt Lake County, or canyons contiguous to these watersheds, shall be replaced with toilets or water closets which meet the standards for new construction or remodeling specified in section 2-5-29 of the revised ordinances of Salt Lake County, 1965, or its successor, as amended. (Prior code § 5-14-7)

18.56.080: FLOOR DRAINS; DUAL FLANGE AND SAFE PANS REQUIRED:

All floor drains, area drains and indirect waste receptors installed on any floor level other than slab on grade shall have a dual flange and safe pans installed, with a minimum of thirty six inches (36") square of approved material, unless they are part of an original pour of concrete. (Amended during 1/88 supplement: prior code § 5-14-9)

18.56.100: SOVENT PLUMBING SYSTEMS:

"Sovent" is an engineered drainage plumbing system that does not meet conventional code requirements as found in the uniform plumbing code, 1988 edition, as adopted by section 18.56.010 of this chapter, or its successor section. The system is based on the combined hydraulic/pneumatic flow and performance characteristics of drainage plumbing products, and will be allowed for use in the city under the following provisions:

A. Certification: The proprietor(s) of the engineered system shall certify that the plans meet the design requirements and shall also certify at the completion of the installation that they have inspected the system and that the system complies with the approved plans;

B. Submittal Of Calculations: Submit hydraulic and pneumatic calculations for the proposed system before a permit is obtained;

C. Offsets: A double offset shall be installed in the stack on floor levels where no fixture or branch connections are made;

D. Deaerator Fitting: A deaerator fitting shall be located as close as possible to the base of the stack. No branch or fixture connections are permitted on this system downstream from the deaerator fitting. A full size bottom pressure relief line shall connect the deaerator fitting to the building drain at least ten (10) pipe diameters downstream from the base of the stack through a wye fitting rolled above the centerline. The full size bottom pressure relief line shall be provided with an accessible upper terminal cleanout;

E. Prohibited Attachments: Pumpout, blowout, garbage disposal, clothes washing machine, or outlets from grease traps are prohibited in this system;

F. Cleanouts: Accessible cleanouts shall be provided in all horizontal drains. Cleanouts shall be provided for each aggregate change of direction exceeding one hundred thirty five degrees (135°);

G. Conventional Plumbing: Vents from conventional plumbing and pressure equalizing line vents from a sovent system shall not connect to the sovent stack below other drainage fittings;

H. Future Alterations: No alteration may be made without prior written permission from the division of building and housing services, and no provisions for future openings will be permitted on this system. This system shall be properly identified on each installation site. All buildings of B-2 occupancies with more than eight thousand (8,000) square feet per floor shall provide at least one 4-inch waste stack and one 4-inch vent stack for any alteration or additions. (Amended during 1/88 supplement: prior code § 5-14-11)

18.56.105: MISCELLANEOUS PLUMBING REQUIREMENTS:

A. Overflow roof drains shall not be connected to the primary roof drain lines.

B. Overflow roof drains shall drain to a point where they can be easily seen for early problem detection.

C. Fill valves for fire sprinkler storage tanks shall be equipped with an approved air gap on reduced pressure backflow preventer.

D. Safe pan drains shall be no smaller than one and one-half inches ($1\frac{1}{2}$") unless first approved by the administrative authority.

E. Trough drains are prohibited unless first approved by the administrative authority.

F. Drainage for gravity dump washers shall be by direct hookup to the building drain or to a sealed sump connected to the building drain. There shall be a floor drain immediately downstream of each gravity dump washer hookup. (Added during 1/88 supplement: prior code § 5-14-12)

18.56.110: UNSANITARY CONSTRUCTION AND CONDITIONS:

Any portion of a plumbing system or any construction or work regulated by this title found or determined to be unsanitary, as defined in this title, or otherwise a menace to life, health or property, is hereby declared to be a public nuisance. (Prior code § 5-14-4)

CHAPTER 18.64
DEMOLITION

18.64.005: PURPOSE AND INTENT:

A. The purpose of the provisions in this chapter is to:

1. Promote the public welfare by maintaining the integrity and continuity of the urban fabric and economic vitality;
2. Provide an orderly and predictable process for demolition of buildings and structures;
3. Ensure demolition occurs safely;
4. Protect utilities and other infrastructure from damage during demolition;
5. Provide for enforcement of timely completion of demolition and for improvement of property following demolition to ensure the site is not detrimental to the use and enjoyment of surrounding property;
6. Provide for enforcement and maintenance of property to avoid purposeful demolition by neglect; and
7. Encourage preservation of the city's housing stock.

B. A primary intent of the city council with respect to this chapter is to avoid demolition, or partial demolition, of buildings in a manner that disrupts the character and development pattern of established neighborhood and business areas. Accordingly, the council finds that it is in the public interest to:

1. Require existing buildings to be maintained in a habitable condition until replaced by new construction, except as otherwise permitted by this code;
2. Avoid demolition of existing structures until a complete building permit application is submitted for new construction, except as otherwise provided in this chapter; and
3. Avoid creation of vacant demolition sites with minimal or no landscaping or other improvements. (Ord. 94-12, 2012)

18.64.010: PERMIT REQUIRED:

It is unlawful to demolish any building or structure in the city, or cause the same to be demolished, without first obtaining a permit for demolition of each such building or structure from the city building official as provided in this chapter. (Ord. 94-12, 2012)

18.64.020: APPLICATION FOR PERMIT:

To obtain a permit for demolition, an applicant shall submit an application in writing on a form furnished by the building official for that purpose. Each application shall:

A. Identify and describe the type of work to be performed under the permit;

B. State the address of the structure or building to be demolished;

C. Describe the building or structure to be demolished including the type of use, type of building construction, size and square footage, number of stories, and number of residential dwelling units (if any);

D. Indicate the method and location of demolished material disposal;

E. Identify the approximate date of commencement and completion of demolition;

F. Indicate if fences, barricades, scaffolds or other protections are required by any city code for the demolition and, if so, their proposed location and compliance;

G. State whether fill material will be required to restore the site to level grade after demolition and, if required, the approximate amount of fill material;

H. If the building or structure to be demolished contains any dwelling units, state whether any of the dwelling units are presently occupied; and

I. State the proposed use of the premises following demolition. If new construction is proposed following demolition, state the anticipated start date and whether any development applications have been submitted to and/or approved by the city. (Ord. 94-12, 2012)

18.64.030: FEES AND SIGNATURE; BOND:

A. The permit application shall be signed by the party or the party's authorized agent requesting the permit. A signature on the permit application constitutes a certification by the signee that the information contained in the application is true and correct.

B. The fee for a demolition permit application shall be as shown on the Salt Lake City consolidated fee schedule.

C. An additional fee for the cost of inspecting the property to determine compliance with the requirements of this chapter and to assure the property is kept free of weeds and junk materials shall be collected in the amount shown on the Salt Lake City consolidated fee schedule.

D. Except as otherwise permitted under this chapter, a performance bond shall be provided prior to issuance of a demolition permit. The bond amount shall be determined by the building official and shall be sufficient to ensure abatement of potential impacts to public health and safety, including environmental impacts resulting from demolition, general cleanup of the demolition site, and installation and maintenance of landscaping if landscaping is required under this chapter.

1. The form of the bond shall be approved by the city attorney or designee and may include any commercially reasonable method of bonding.
2. The building official may require adjustment of bond amount if the scope of work changes after demolition work has begun.
3. If the applicant fails to comply with provisions of the demolition permit and the city has any unreimbursed cost resulting from such failure, the building official or designee may call on the bond for reimbursement. After such cost has been finally determined, if the amount of the bond exceeds such cost, the remainder shall be released to the applicant. If the amount of the bond is less than the cost incurred by the city, the applicant shall be liable to the city for the difference in cost.
4. The bond shall remain in place until all required work is complete, final inspection has been approved, and a building permit for new construction on the subject property has been approved by the city. (Ord. 94-12, 2012)

18.64.040: ISSUANCE OF DEMOLITION PERMIT:

A. Except as otherwise provided in subsection D of this section, a demolition permit shall be issued only upon compliance with subsection B of this section, if applicable, and if:
1. A complete building permit application for a use replacing the demolished building or structure has been submitted to the building services and licensing division; or
2. The chief building official or fire marshal orders immediate demolition:
a. Due to an emergency as provided in chapter 18.48 of this title; or
b. Because the premises have been damaged beyond repair because of a natural disaster, fire, or other similar event; or
3. The chief building official or fire marshal authorizes immediate demolition because clearing of land is necessary to remove a nuisance as defined in section 76-10-801 et seq., Utah Code Annotated or its successor.
4. a. The chief building official or fire marshal may request that an administrative committee, appointed by the mayor, render an opinion regarding whether a particular building or structure should be demolished pursuant to the provisions of subsection A2 or A3 of this section.
b. If a committee demolition opinion is requested, information regarding the factual and legal basis for determining the propriety of the request shall be provided to the committee. The property owner shall be notified of the opinion request and may submit any information to the committee deemed relevant by the owner.
c. If after considering the factual and legal information provided, the committee recommends the building or structure should be demolished, the chief building official or fire marshal, as the case may be, shall consider such information in determining whether to authorize demolition.

B. Except as provided in subsection B1 of this section, unless a building permit has been issued for one or more new buildings or structures located on the same site as the demolished building or structure, within thirty (30) days after demolition is completed, landscaping shall be installed on the property according to the standards set forth in subsection 21A.48.100D2 of this code.
1. A bond for landscaping shall not be required when a single-family dwelling is demolished and will be replaced by a new single-family dwelling.
2. This subsection B shall apply regardless of the zoning district in which the subject property is located and any contrary provision in title 21A of this code.
3. Timely and proper installation and maintenance of landscaping shall be assured by a bond filed with the city as provided in section 18.64.030D of this chapter.
4. Required landscaping shall remain in place and shall be maintained until new construction is commenced on the subject property and may be removed to facilitate such construction. Thereafter, replacement landscaping shall be installed as may be required by this code.
5. A park strip abutting the subject property shall be maintained as provided in section 21A.48.060 of this code or its successor.
6. Notwithstanding the thirty (30) day requirement in this subsection B, installation of landscaping may be delayed due to weather conditions so long as landscaping is completed within six (6) months after demolition and the property owner escrows funds sufficient to assure installation of landscaping as determined by the building services and licensing division.

C. 1. Except as otherwise provided in section 18.64.050 of this chapter, if one or more dwelling units located in a residential zone, whether or not occupied, will be removed under a demolition permit, a housing mitigation plan shall be prepared as required in chapter 18.97 of this title prior to issuance of the permit.
2. If proposed demolition involves a landmark site, a contributing structure, or a structure located in a historic preservation overlay district, as provided in section 21A.34.020 of this code, or its successor, a demolition permit shall be issued only upon compliance with applicable provisions of that section or its successor.

D. 1. Notwithstanding contrary provisions of this section, a demolition permit for a building or structure may be issued if the community development director certifies that the land on which the building or structure is located:
a. Is subject to a master plan that envisions redevelopment of the land unless removal of the building or structure is inconsistent with the master plan;
b. Is being assembled for redevelopment purposes; and
c. Is part of a larger area being joined to create one or more larger parcels of developable land in order to implement the master plan.
2. If a building permit for new construction is not issued within eighteen (18) months after demolition occurs pursuant to subsection D1 of this section, landscaping shall be installed as provided in subsection B of this section. (Ord. 94-12, 2012)

18.64.045: DEMOLITION BY NEGLECT:

A. Except as otherwise provided in subsection B of this section, a property owner shall not neglect a building or structure to the point that the building or structure fails to substantially conform to applicable standards of the state construction code and sections 18.50.140 to 18.50.230 of this title.

B. 1. The owner of a boarded building shall maintain the exterior of the building as provided in section 18.48.250, "Exterior Maintenance", of this title or its successor.
2. The interior of a boarded building shall not be subject to the provisions of subsection A of this section but shall be maintained as provided in section 18.48.250 of this title. (Ord. 94-12, 2012)

18.64.050: RESIDENTIAL DEMOLITION PROVISIONS:

A. Except as provided in subsection B of this section, if the structure for which a demolition permit is sought contains one or more dwelling units, whether or not occupied, the building official shall consider the impact of the requested demolition on the housing stock of Salt Lake City pursuant to the provisions of this section.

B. This section shall not apply to any housing which:
1. Is a nonconforming use as provided by relevant provisions of title 21A, "Zoning", of this code; or
2. Is located on property for which an applicable master plan or the current zoning envisions exclusive nonresidential use; or
3. a. Is proposed to be demolished for health or safety reasons as provided in section 18.64.040 of this chapter or chapter 18.48 of this title or their successors.
b. Notwithstanding subsection B3a of this section, housing which is demolished for health or safety reasons, which is the result of neglect pursuant to section 18.64.045 of this chapter, shall be subject to the provisions of this section.

C. The building official, within ten (10) days after receipt of a demolition permit application, shall determine whether the requested demolition will result in:
1. Construction of one or more residential units with a net loss of one or more dwelling units; or
2. No net loss of dwelling units will occur due to the anticipated construction of new dwelling units pursuant to an approved and issued building permit for the premises where the demolition will occur.

D. 1. If subsection C2 of this section applies, the building official shall issue a finding of no residential impact and the demolition permit may be issued.
2. If subsection C1 of this section applies, the building official shall issue a finding of residential impact.

E. Upon making a finding of residential impact, the building official shall mail written notice to the owners and residents of property located within six hundred feet (600') from the property line of the lot where the proposed demolition work will take place as shown on the last equalized property tax assessment roll. Notice shall also be mailed to any affected neighborhood based organization recognized pursuant to subsection 2.60.020C of this code. The notice shall specify:
1. The property proposed for demolition,
2. The proposed replacement use,
3. The proposed housing mitigation plan,
4. The basis for the finding of residential impact, and
5. The date and time of a hearing before the housing advisory and appeals board.

F. 1. To allow time for effective consideration by the notified parties, the hearing before the HAAB shall take place not less than thirty (30) days after the finding of residential impact issued by the building official and not more than sixty (60) days after the finding.
2. The HAAB shall take evidence from the applicant and all interested parties regarding:
a. The effect of the proposed demolition and replacement use plan on:
(1) The city's housing stock,
(2) The city's employment and economic base,
(3) The character of the neighborhood where the subject property is located,
(4) The city's master plans for the area,
(5) The city's adopted housing policy, and
(6) Any other policy adopted by the city which applies to the subject property;
b. The cost and economic practicality of repairing or remodeling the structure proposed for demolition to comply with zoning requirements and with building and housing codes; and
c. The proposed method of housing mitigation, including the factual basis upon which the housing mitigation plan is premised and justified.
3. The HAAB may encourage an applicant to work with the city and interested parties to repair, remodel, preserve, or increase the city's housing stock.
4. The HAAB shall issue its decision not more than ten (10) days after the hearing.

G. 1. Notwithstanding the acceptability of a housing mitigation plan, the HAAB may order that a demolition permit not be issued for an additional period not to exceed six (6) months to allow the city and interested parties time to make further attempts to preserve the housing stock if the HAAB finds:
a. The proposed demolition and replacement use plan are likely to:
(1) Adversely impact the city's housing stock and character of the neighborhood; and
(2) Such impact is not outweighed by any positive effects on the city's economic and employment base; and
b. The structure proposed for demolition is economically practical to repair or remodel to comply with zoning requirements and building and housing codes.
2. After any additional time period ordered by the HAAB has expired, the requested permit shall be immediately issued subject to compliance with the housing mitigation plan.
3. If the HAAB does not make the findings required by this subsection G, the demolition permit shall be issued ten (10) days after the HAAB decision.

H. 1. The applicant or any person or entity required to be notified of the demolition pursuant to subsection E of this section, if aggrieved by the HAAB decision, may appeal to the mayor by filing a written notice specifying the grounds for such an appeal within ten (10) days of the HAAB decision.

2. Any other party identified in subsection H1 of this section may respond to the appeal in writing within ten (10) days of the appeal.

3. The mayor or the mayor's designee shall consider the appeal on the written record and shall issue a decision within ten (10) days of the close of any written submissions. Such decision shall be based on the criteria set forth in subsection F of this section and may be appealed within ten (10) days to a court of competent jurisdiction. (Ord. 94-12, 2012)

18.64.070: PREDEMOLITION SALVAGE PERMITS:

A. A predemolition salvage permit shall be required for removal of doors, windows, special glass, fixtures, fittings, pipes, railings, posts, panels, boards, lumber, stones, bricks, marble, or similar materials on the exterior or interior of any building prior to demolition of the structure. A predemolition salvage permit may be issued only contemporaneously with, or after, city approval of:

1. A building permit for new construction on the premises following demolition, or

2. A demolition permit.

B. A predemolition salvage permit fee shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 94-12, 2012)

18.64.080: EXPIRATION; DILIGENCE:

A. A demolition permit shall expire forty five (45) calendar days from the date of issuance, unless a completion date allowing more time is requested and approved by the building official at the time of application. A demolition permit may be renewed upon request prior to expiration with approval of the building official for one-half ($\frac{1}{2}$) of the original permit fee, provided continuous progress is being made. If a permit is allowed to expire without prior renewal, any subsequent request for reinstatement shall be accompanied by a reinstatement fee equal to the original demolition permit fee.

B. Once demolition has begun pursuant to a demolition permit, the permit holder shall diligently pursue completion of the work authorized thereunder. If such work is not diligently pursued the city may declare the bond required under subsection 18.64.030D of this chapter to be forfeited and may use the proceeds to finish demolition as provided in such section. (Ord. 94-12, 2012)

18.64.090: QUALIFICATIONS TO DO WORK:

A. It shall be unlawful for demolition work permitted under this chapter to be performed except by a wrecking and demolition contractor having a license in good standing issued by the division of occupational and professional licensing in the Utah department of commerce.

B. Salvage work under a predemolition salvage permit may be done without a contractor's license provided all other applicable conditions of this chapter are met. (Ord. 94-12, 2012)

18.64.100: DEMOLITION REQUIREMENTS:

A. Prior to the commencement of any demolition or moving, the permittee shall plug all sewer laterals at or near sidewalk lines as staked out by the department of public utilities. No excavation shall be covered until such plugging is approved by the department or by the building official. The permittee shall further ensure all utility services to the structure and/or premises have been shut off and meters removed prior to commencement of demolition work.

B. When the applicant indicates the demolition will require more than thirty (30) days to complete, and where required by the building official for the safety of the public, the applicant shall also provide plans to fence the demolition site so that it is inaccessible to unauthorized persons in a manner acceptable to the building official. The building official may waive the fencing requirement if it is determined that fencing would be inappropriate or unnecessary to protect safety or health.

C. A permit for demolition shall require that all materials comprising part of the existing structure(s), including the foundation and footings, be removed from the site. Unless otherwise approved under a building permit for redevelopment of the site, the depression caused by the removal of such debris shall be filled back and compacted to the original grade, as approved by the building official, with fill material excluding detrimental amounts of organic material or large dimension nonorganic material.

D. Permitted demolition work, including filling and leveling back to grade and removal of required pedestrian walkways and fences, shall be completed within the permit period unless the building official finds that any part of the foundation of building or site will form an integral part of a new structure to be erected on the same site for which plans have already been approved by the building services and licensing division. In such event, the building official may approve plans for appropriate adjustments to the completion time and may impose reasonable conditions including the posting of a bond, erection of fences, securing, or similar preventions to ensure the site does not create a hazard after the demolition is completed. (Ord. 94-12, 2012)

18.64.110: RELATIONSHIP TO OTHER ORDINANCE:

Provisions of this chapter shall be subordinate to any contrary specific provisions of title 21A, chapter 21A.34 of this code, dealing with demolition in historic districts, or its successor. (Ord. 94-12, 2012)

18.64.120: VIOLATIONS:

A. It is unlawful for the owner of a building or structure to violate the provisions of this chapter. Each day a violation occurs shall be a separate offense.

B. Violation of the provisions of this chapter is punishable as a class B misdemeanor or by imposing a civil penalty as provided in section 21A.20.010 et seq., of this code. (Ord. 94-12, 2012)

CHAPTER 18.68
FLOODPLAIN HAZARD PROTECTION

18.68.010: PURPOSE:

In order to promote the health, safety and general welfare of the city and the inhabitants thereof, there is hereby established a floodplain hazard regulation ordinance with development standards and regulations for land within the floodplain(s) of Salt Lake City. The floodplain(s) are potentially subject to periodic inundation which may result in loss of life and property, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base. The establishment of the floodplain hazard regulations and identification of the floodplain(s) in Salt Lake City will help owners of structures therein to qualify for federally subsidized flood insurance through the national flood insurance program. It will also serve as a guide in designing and regulating future development and construction in such areas in order to preclude and/or minimize exposure to flooding and to mitigate any damage or loss caused by such flooding. It is not the intent to use such regulation to prohibit "development" or "construction" (as defined in section 18.68.020, or its successor, of this chapter), but to ensure, as far as practicable, that development and structures are designed to be free from exposure to flooding or be floodproofed to mitigate danger and/or damage from flooding. (Ord. 72-87 § 1, 1987: prior code § 47-8-1)

18.68.020: DEFINITIONS:

For purposes of this chapter the following terms mean:

AREA OF SHALLOW FLOODING: A designated AO, AH or VO zone on the flood insurance rate map (FIRM) with a one percent (1%) or greater annual chance of flooding to an average depth of one to three feet (3') where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

AREA OF SPECIAL FLOOD HAZARD: The land in the floodplain within a community subject to a one percent (1%) or greater chance of flooding in any given year. The area is shown on the flood insurance rate map (FIRM) as zone A, AE, AH, AO, A1-99, VO, V1-30, VE or V.

BASE FLOOD: A flood having a one percent (1%) chance of being equaled or exceeded in any given year.

BASE FLOOD ELEVATION: The probable water surface elevation (in relation to mean sea level) of the base flood as determined by or approved by the city floodplain administrator.

CERTIFY OR CERTIFICATION: The specific reports, inspections and tests that are required have been performed in an appropriate manner, and such reports, inspections, tests and results comply with the applicable requirements of this chapter.

CITY FLOODPLAIN ADMINISTRATOR: The person designated by the director of the department of public utilities to direct the decision making process that aims to achieve the wise use of the city's floodplains. "Wise use" means both reduced flood losses and protection of the natural resources and function of floodplains.

CONSTRUCTION: Any manmade change to improved real property including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations located within the floodplain hazard area, whether or not the same requires building or other permits under this code.

DEVELOPMENT: Any manmade change to improved or unimproved real property including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

DRAINWAY: A natural or artificial land depression, with or without perceptible bed and banks, to which surface runoff gravitates to form a continuous or intermittent flow of water in a definite direction.

FLOOD INSURANCE RATE MAP (FIRM): The official, currently effective flood insurance rate map for Salt Lake City, Utah, as issued by the federal emergency management agency "FEMA" and any officially approved amendments (LOMCs) thereto, on which the floodplain hazard areas and the risk premium zones have been delineated.

FLOOD INSURANCE STUDY: The official report provided by the federal emergency management agency that includes flood profiles, the flood boundary floodway map, and the water surface elevation of the base flood.

FLOOD OR FLOODING: A general and temporary condition of partial or complete inundation of normally dry land area from the overflow of inland or tidal waters or the unusual and rapid accumulation or runoff of surface waters from any source.

FLOODPLAIN: Generally, a floodplain(s) is/are a relatively flat area or lowland(s) adjoining a river, stream, watercourse, ocean or lake which has been or may be covered by floodwater. Specifically, for purposes of this title, "floodplain(s)" shall be that area of the city designated within the boundaries of the official flood insurance rate map or amendments, which may be subject to periodic inundation in the event of the base flood.

FLOODPLAIN HAZARD AREA: The area containing the floodplain for a base flood in the city, as designated on the flood insurance rate map and approved amendments.

FLOODPROOFING: Any combination of structural or nonstructural additions, changes or adjustments to structures or property which reduce or eliminate flood damage to improved or unimproved real property, water and sanitary facilities, structures and their contents.

FLOODWAY: The channel of the river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood, without cumulatively increasing the water surface elevation more than a designated height.

HIGHEST ADJACENT GRADE: The highest natural elevation of the ground surface prior to construction or development next to the proposed wall of a structure.

LETTER OF MAP CHANGE (LOMC): A letter which reflects an official revision to an effective national flood insurance program map.

LEVEE SYSTEM: A flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

LICENSED ARCHITECT: An architect who is registered with the department of registration of the state of Utah.

LOWEST FLOOR: The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable nonelevation design requirements of section 60.3 of the national flood insurance program regulations.

MANUFACTURED HOME: A structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than one hundred eighty (180) consecutive days. For insurance purposes the term "manufactured home" does not include park trailers, travel trailers, and other similar vehicles.

MANUFACTURED HOME PARK OR MANUFACTURED HOME SUBDIVISION: A parcel (or contiguous parcels) of land divided into two (2) or more manufactured home lots for rent or sale.

MEAN SEA LEVEL: For purposes of the national flood insurance program, the North American vertical datum of 1988 (NAVD 88) or other datum to which base flood elevations shown on a community's flood insurance rate map are referenced.

NEW CONSTRUCTION: Structures or substantial improvement thereto for which the "start of construction" as defined in this section is commenced on or after the effective date of the ordinance codified herein.

NEW DEVELOPMENT: Any development proposal(s) and/or plan(s) submitted for approval, for which the development activities as defined in this section will commence on or after the effective date of the ordinance codified herein.

REGISTERED LAND SURVEYOR: A land surveyor who is registered with the department of registration of the state of Utah.

REGISTERED PROFESSIONAL ENGINEER: A civil engineer who is registered with the department of registration of the state of Utah.

REMEDY A VIOLATION: To bring the structure or other development into compliance with state or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages, implementing the enforcement provisions of this chapter or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

SPECIAL FLOOD HAZARD AREA (SFHA): The land in the floodplain within the community subject to a one percent (1%) or greater chance of flooding in any given year, which area may be designated as zone A, AO, AH, A1-30, AE, A99 on the FIRM.

START OF CONSTRUCTION: Applies to both new construction and substantial improvements and means:

A. Date Of Issuance: The date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within one hundred eighty (180) days of the permit date. The "actual start" means either the first placement of permanent construction of a structure or on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

B. Relocatable Office Or Structure: Start of construction for a "relocatable office building" (defined in section 18.84.010 of this title, or its successor) or other temporary structure shall be the date on which the relocatable office building is placed upon an approved site.

STRUCTURE: A walled and roofed building, temporary structure, or manufactured home that is in whole or in part aboveground.

SUBSTANTIAL IMPROVEMENTS: Any development and/or construction of a structure, the cost of which equals or exceeds either fifty percent (50%) of the market value of the structure before the development is started, or, if the development or construction is undertaken for repair of damage caused by accident or acts of God, fifty percent (50%) of the same market value of the structure before the damage occurred.

VIOLATION: The failure of a structure or other development to fully comply with these floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in CFR section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) is presumed to be in violation until such time as that documentation is provided.

WATER SURFACE ELEVATION: The height, in relation to the NAVD 88 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas. (Ord. 50-09 § 1, 2009)

18.68.030: ESTABLISHMENT OF FLOODPLAIN HAZARD AREAS:

The SFHAs within Salt Lake City have been established and identified by the federal emergency management agency (FEMA) in a scientific and engineering report entitled the "Flood Insurance Study For The City Of Salt Lake City, Utah", dated February 1, 1983, including the current effective revisions as well as flood insurance rate maps that may become effective in the future. The boundaries of the floodplain hazard areas are delineated on the effective flood insurance rate map (FIRM), including any and all LOMCs which accompanies the flood insurance study. Located within the floodplain hazard areas are areas designated as floodways. The locations of the floodways have been computed in the flood insurance study and are contained therein on flood boundary and floodway maps. The flood insurance study, accompanying FIRM and floodway maps are hereby adopted by reference and made part of this chapter. Said flood insurance study together with the FIRM and floodway maps and any amendments approved by FEMA after acceptance by the mayor as provided in section 18.68.070 of this chapter or its successor constitute the boundaries of the floodplain hazard areas governed by the supplemental regulations of this chapter. A copy of said flood insurance study together with the accompanying FIRM and floodway maps and accepted amendments shall be filed by the director of the department of public utilities and be available for public inspection. The original shall be kept for certification purposes by the city recorder. (Ord. 50-09 § 1, 2009)

18.68.040: RELATIONSHIP OF FLOODPLAIN HAZARD REGULATIONS TO ZONING USE DISTRICTS:

The floodplain hazard regulations of this chapter shall be supplemental to, and not in lieu of, the applicable zoning provisions of the use district in which the land is located and/or general provisions under title 21A of this code. Property located within said floodplain hazard area shall be developed only in conformance with the provisions set forth in this chapter. In cases of conflict between such district classifications and the floodplain hazard regulations, the most restrictive provisions shall govern. Principal, conditional and accessory uses permitted in the floodplain hazard area are those which are permitted in the underlying applicable use district in which it is located. However, additionally, all uses, whether principal or secondary, involving construction or relocation of permanent buildings or structures or placement of temporary structures or excavation or placement of fill materials shall further meet the supplemental conditions and standards set forth in this chapter. (Ord. 72-87 § 1, 1987: prior code § 47-8-3)

18.68.050: SUBDIVISION DEVELOPMENT APPROVAL PROCEDURE:

A. Each application for subdivision approval shall be submitted to the city planner and applications for building and site development permits shall be submitted to the building official. Respectively, said officials shall be responsible to:

1. Verify if the location of the proposed development or construction site or any portion thereof is situated within an SFHA as defined on the flood insurance rate map(s) as it may be amended and except where such site is located in zone A where base flow elevation data is not available or required by this chapter. (Applicants not otherwise aware of such placement should be notified of the potential application of this chapter);

2. Determine that the reviews and approvals required by this chapter have been obtained to satisfy its requirements;

3. Maintain for public inspection the following records pertaining to the provisions of this chapter:

   a. The actual elevation (in relation to mean sea level elevation) of the lowest floor (including basement) of all new or substantially improved structures, and specifying whether or not the structure includes a basement,

   b. For all new or substantially improved floodproofed structures, verification and record of the actual elevation of the lowest floor (in relation to mean sea level elevation) and the floodproofing certification required in provisions of this chapter.

B. The city planner and/or building official in the administration of this chapter shall rely on the expertise of the city floodplain administrator for technical evaluation for:

1. Identification of drainways, designated water passage areas or regulated floodways;

2. Obtain, review and utilize reliable base flood elevation data which may be or become available for assistance in administering these regulations;

3. At the request of the building official or city planner, review applications for permits within the floodplain hazard area;

4. Review, as provided below, any requests by said officials or others for interpretation of the boundaries of the floodplain hazard area where conflicts appear between the mapped boundaries and actual field conditions;

5. Review and process, as provided below, requests for amendments to the flood insurance rate map;

6. Maintain one copy of the official flood insurance rate map (FIRM) as amended;

7. Notify periodically the Utah state division of water rights, FEMA and any affected adjacent communities of alterations or relocation of any watercourse or drainway which results from permitted development when in the opinion of the city floodplain administrator the alterations or relocations are substantial in nature or effect. (Ord. 50-09 § 1, 2009)

18.68.060: APPLICATIONS AND PERMITS:

A. Subdivision Proposals: Subdivision proposals must be submitted and approved and building and/or development permit(s) for development or construction within the floodplain hazard area must be obtained before such development or construction begins. Applications for subdivision or other development shall be made to the city planner upon forms provided. Applications for building or site development permits shall be made to the building official on forms to be provided. Application forms shall require applicant to specify if any or all of the property involved in the proposal is located within the floodplain, as it appears on the flood insurance rate map as officially amended.

B. Information Required: Additionally, if the property is so situated within the floodplain, the forms shall require applicants to provide information including, but not limited to:

1. Plans in duplicate drawn to scale;

2. The nature, location, dimensions and elevations of the land involved;

3. A description and identification of existing or proposed structures, fill, storage of materials, drainways, drainage facilities and the location of the foregoing;

4. Elevation in relation to mean sea level of the lowest floor (including basement) of all structures;

5. Elevation in relation to mean sea level to which any structure has been floodproofed;

6. Type of floodproofing, if any, to be employed;

7. Certification by a registered professional engineer or licensed architect that the floodproofing methods for any structure meet the applicable floodproofing standards of section 18.68.090 of this chapter or its successor, and that the flood carrying capacity within any watercourse is maintained; and

8. Where, in the opinion of the applicant, the floodplain boundary or the base flood elevation data determined by the flood insurance study map is in error, the applicant shall have his/her professional engineer supply supporting documentation to the city floodplain administrator to verify correct boundaries and elevation data to request interpretation or amendment as provided in section 18.68.070 of this chapter or its successor. (Ord. 50-09 § 1, 2009)

18.68.070: ADMINISTRATIVE FIRM AMENDMENT:

A. Requests For Amendment Or Interpretation: Request for administrative site specific amendment(s) to the FIRM or requests for an interpretation of the FIRM boundaries based on conflicts between the mapped boundaries and actual field conditions shall be submitted to the city floodplain administrator for review. This is not to preclude the city floodplain administrator or FEMA from initiating amendments to the FIRM.

B. Supporting Documentation And Certification: Such request shall be accompanied by the applicant's supporting documentation which shall include a certification by a registered professional engineer. Such certification shall specify that in his/her professional judgment the boundaries of the FIRM, as they relate to the specific site under consideration:

1. Are incorrect; or

2. Have been or will be modified by existing or proposed improvements, etc.

C. Engineer Review: After review, if the documentation and request are found to be in order, the city floodplain administrator shall submit the request together with his/her recommendation to the federal emergency management agency to request consideration of amendment to the FIRM unless FEMA approval has already been obtained.

D. Administrative Approval Of FEMA Amendment Of FIRM: In the event FEMA, based on the request and recommendation of the city floodplain administrator and for good cause shown, approves the request and issues an amendment to the FIRM, the director of the department of public utilities shall submit two (2) copies of the FEMA amendment to the mayor for approval of administrative amendment to the official FIRM. Each amendment so approved shall be certified by the city recorder and numbered consecutively. One copy shall be retained on file with the recorder and attached to the FIRM and the second copy returned to the city floodplain administrator for attachment to the FIRM and availability for public inspection.

E. Effect Of Administrative FIRM Amendment: Any amendment to the FIRM so issued by FEMA and approved by the official executive action of the mayor under this section or its successor shall become a part of the official FIRM and shall be incorporated herein by references and have the full force and effect of this chapter as of the date of the mayor's action.

F. Issuance Of Conditional Permit Pending FIRM Amendment: After the city floodplain administrator has reviewed the request for FIRM amendment and supporting documentation and arrived at a recommendation favoring amendment, the city floodplain administrator may recommend to the city planner or building official that a conditional permit be issued pending final FEMA and executive action within the following limitations:

1. That the difference between the established base flood elevation for the site or structure and that elevation proposed as part of the FIRM amendment is less than five feet (5');

2. That the conditional permit is null and void upon FEMA's denial of the request to amend;

3. To obtain the conditional permit, an agreement must be signed by the property owners and permittee which:

   a. Acknowledges they are proceeding at their own risk,

   b. Indemnifies and releases city of and against any and all claims arising out of the event the permit becomes void, including, but not limited to, stop of work, additional fees, injunctive relief or other actions which may result,

   c. Agreement that in the event of denial of the request to amend, they will take necessary steps to floodproof the structure according to an approved alternative plan of corrective work. To secure the performance of such corrective work, a corporate surety cash bond or letter of credit in an amount equal to the city floodplain administrator's estimate of the costs of the corrective work in the alternative plan shall be submitted in a form approved by the city attorney prior to issuance of the permit;

4. No certificate of occupancy may be issued for any structure and no subdivision plat may be signed by the mayor until the FIRM amendment is approved by the mayor or the corrective work is completed. (Ord. 50-09 § 1, 2009)

18.68.080: CERTIFICATION OF ACTUAL ELEVATIONS REQUIRED:

A. Certificate: Every applicant who is issued a building permit governed by this chapter shall be required to submit to the building official a certificate of actual elevations of construction by a registered land surveyor or registered professional engineer. Said certificate shall specify the specific elevations (in relation to mean sea level) of:

1. The actual elevation of the poured footings and foundation;

2. The relationship of subsection A1 of this section to the actual elevation of the lowest floor.

The certificate shall certify that the lowest floor elevation is at or above the base flood elevation.

B. Submission: The certificate of actual elevations described above shall be submitted after the pouring of footings and foundation, but prior to the time of final inspections or request for any certificate of occupancy.

C. Waiver: The building official in his discretion may waive all or the inapplicable portion(s) of the certificate required in this chapter, if the construction work authorized by permit does not occur in or affect that portion(s) of the structure below the base flood elevation. (Ord. 72-87 § 1, 1987: prior code § 47-8-8)

18.68.090: DEVELOPMENT STANDARDS AND CRITERIA:

No final subdivision plat shall be approved nor shall any site development or building permit be issued for property located within the floodplain hazard area until the proposed development, construction, substantial improvement, or work under permit complies with the following criteria:

A. All proposals for new construction or substantial improvements to existing structures within the floodplain hazard area (including manufactured homes and temporary structures or relocatable office buildings) must be designed or modified and anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads including the effects of buoyancy and shall be constructed with materials and utility equipment resistant to flood damage.

B. All proposals for development, construction or substantial improvements (including replacements) must be provided with water supply systems or sanitary sewage systems which are designed to minimize or eliminate infiltration of floodwaters into the system and discharges from the system into floodwater. On site waste disposal systems must be located so as to avoid impairment of, or contamination from, them during flooding. All public utilities, including sewer, gas, electricity and water systems and other service facilities shall be designed, located and/or constructed to prevent water from entering or accumulating within the components during conditions of flooding. All public improvements (including, but not limited to, streets, sidewalks, curbs, and gutter), shall be designed and constructed with adequate drainage systems to minimize the containment of floodwaters on adjacent properties.

C. Building or structures and development activities shall be designed and completed on the site so as to offer minimum obstruction to the flood or floodwaters. Whenever floodwaters could be four feet (4') or more in depth and have a velocity of two feet (2') per second or greater on a site, as determined by the city floodplain administrator, buildings or structures shall be constructed and development activities shall be designed with the longitudinal axis parallel to the direction of the flood flow. So far as is practicable, buildings or structures shall be placed approximately on the same flood flow lines as those of adjoining structures.

D. No buildings, structures or earth fill shall be constructed or developed that will:

1. Cause an increase of more than one foot (1') in the probable water surface elevation in any floodplain hazard area; or
2. Result in storage or processing of flammable, explosive or dangerous materials within the floodplain hazard area.

E. No buildings, structures, substantial improvements, earth fill or other encroachments shall be constructed or developed within the regulatory floodway.

F. If a structure has been floodproofed, the elevation of such floodproofing (in relation to mean sea level) must be certified by a registered professional engineer or registered land surveyor and must also be submitted to the building official.

G. Adequate drainage paths shall be provided around structures located on slopes within any AO or AH zone to guide floodwater around and away from proposed structures.

H. Fully enclosed areas in buildings, structures, and substantial improvements below the lowest floor that are subject to flooding shall be designated to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two (2) openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot (1') above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters. (Ord. 50-09 § 1, 2009)

18.68.100: SUBDIVISIONS, NEW CONSTRUCTION AND SUBSTANTIAL IMPROVEMENTS:

A. The preliminary plat for all proposed subdivisions and other proposed new developments which are wholly or partially within the floodplain hazard area shall include base flood elevations for each lot within the floodplain hazard area.

B. All new construction and substantial improvements of residential structures within the floodplain hazard area shall have the lowest floor (including basement), elevated to or above the base flood elevation.

C. All new construction and substantial improvements of residential structures within any AO or AH zone on the FIRM shall have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the FIRM (at least 2 feet if no depth number is specified).

D. All new construction and substantial improvements of nonresidential structures within the floodplain hazard area shall have the lowest floor (including basement):

1. Elevated to or above the base flood level; or
2. Together with attendant utility and sanitary facilities, be designed and constructed in compliance with applicable building codes so that below the base flood level:
   a. The structure is watertight with walls substantially impermeable to the passage of water,
   b. Structural components have the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy,
   c. Where floodproofing is utilized to meet the standards of this subsection D, a registered professional engineer or licensed architect shall certify that the floodproofing methods comply with the building codes and are adequate, according to accepted engineering standards to withstand the flood depths, pressure, velocities, impact and uplift factors and other factors associated with the base flood. A record of said certificates (including calculations) indicating the specific elevation (in relation to mean sea level) to which said structures are floodproofed shall be maintained by the building official with the copy of the building or other permits.

E. All new construction and substantial improvements of nonresidential structures within any AO or AH zone on the FIRM shall:

1. Have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the FIRM (at least 2 feet if no depth number is specified); or
2. Together with attendant utility and sanitary facilities, be designed and constructed so as to be completely floodproofed to that level in accordance with the requirements of subsection D of this section. (Ord. 31-89 § 2, 1989: Ord. 72-87 § 1, 1987: prior code § 47-8-9(2))

18.68.110: FLOODWAYS:

Floodways located within areas of special flood hazard established in section 18.68.030 of this chapter, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and erosion potential, the following provisions shall apply:

A. Encroachments are prohibited, including fill, new construction, substantial improvements and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.

B. If the requirements of subsection A of this section are satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions.

C. Under the provisions of 44 CFR chapter 1, section 65.12, of the national flood insurance regulations, a community may permit encroachments within the adopted regulatory floodway that would result in an increase in base flood elevations, provided that the community first applies for a conditional FIRM and floodway revision through FEMA. (Ord. 4-02 § 1, 2002)

18.68.120: MANUFACTURED HOME PARK STANDARDS:

For construction of new manufactured home parks or when the expansion, repair, reconstruction or improvement of an existing manufactured home park exceeds fifty percent (50%) of the fair market value of the manufactured home park before the expansion, repair, reconstruction or improvement took place, the following standards shall apply:

A. Manufactured homes must be elevated on a permanent foundation of compacted fill or on pilings so that the lowest floor will be at or above the base flood level and be securely attached to an adequately anchored foundation system.

B. When lots or spaces are elevated on pilings, the lots or spaces must be large enough to accommodate steps. Pilings shall be placed on stable soil no more than ten feet (10') apart and reinforcements shall be provided for pilings more than six feet (6') above the ground level. (Ord. 4-02 § 1, 2002: Ord. 72-87 § 1, 1987: prior code § 47-8-9(3)(a))

18.68.130: ANCHORING OF MANUFACTURED HOMES AND CERTAIN OTHER STRUCTURES:

All manufactured homes, temporary structures and relocatable office buildings within the floodplain hazard area shall be anchored to resist flotation, collapse, lateral movement or displacement by sound engineering methods. Specific requirements shall be that:

A. All components of the anchoring system be capable of carrying a force of four thousand eight hundred (4,800) pounds, and withstand horizontal force of twenty five (25) pounds per square foot and uplift force of fifteen (15) pounds per square foot. The square footage shall be determined by the size of the manufactured home, temporary structure, or relocatable office building;

B. Any additions to a manufactured home to be similarly anchored;

C. No manufactured homes shall be placed within the regulatory floodway except within an existing manufactured home park or manufactured home subdivision. (Ord. 4-02 § 1, 2002: Ord. 72-87 § 1, 1987: prior code § 47-8-9(3)(b), (c))

18.68.140: PERMITS; WITHHOLDING, SUSPENSION OR REVOCATION:

The officials responsible for the administration of this chapter may, in writing, withhold issuance, suspend or revoke permits under their respective authority subject to this chapter, whenever good cause is shown to question the propriety of issuance, or it appears the permit is issued in error or on the basis of incorrect information supplied, or in violation of any ordinance or regulation or any provisions of this code. (Ord. 4-02 § 1, 2002: Ord. 72-87 § 1, 1987: prior code § 47-8-10)

18.68.150: WARNING AND DISCLAIMER OF LIABILITY:

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or flood heights may be increased by manmade or natural causes, including, but not limited to, ice jams and bridge openings restricted by debris. This chapter does not imply that areas outside the floodplain hazard area boundaries or land uses permitted within this district will be free from flooding or flood damages. This chapter shall not create liability on the part of Salt Lake City or any officer or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision made thereunder. (Ord. 4-02 § 1, 2002: Ord. 72-87 § 1, 1987: prior code § 47-8-11)

18.68.160: MANDATORY AND PROHIBITIONARY NATURE OF CHAPTER:

A. Violations: It is unlawful for any person, firm or corporation to intentionally perform any act prohibited by this chapter or to intentionally fail to perform any act or comply with any requirement of this chapter or to aid or abet therein, or to fail or refuse to comply with any valid order called by the specified officials responsible to administer the provisions of this chapter. No permits shall be issued to any applicant during the time he/she shall fail to correct defective work or noncomplying work or violation exists after written notice by the official responsible for the permit or their designee. Any person, firm or corporation violating any of the provisions of this chapter shall be deemed guilty of a misdemeanor.

B. Fines And Penalties: Upon conviction for such violations of this chapter, such party, if a person, shall be punishable as provided in section 1.12.050 of this code, or its successor. If such party is a corporation, association, partnership or governmental instrumentality, such party may be subject to a fine not exceeding two thousand dollars ($2,000.00) and/or imprisonment of not more than six (6) months. (Ord. 4-02 § 1, 2002: amended during 8/89 supplement: Ord. 72-87 § 1, 1987: prior code § 47-8-12)

CHAPTER 18.72
HOUSE MOVERS AND HOUSE MOVING

Article I. House Movers

18.72.010: LICENSE REQUIRED:

No person, firm or corporation shall engage in the business of moving any building or structure along, upon, over or across any street or highway within the city without first having obtained from the license office a house mover's license. The license fee for a house mover shall be one hundred dollars ($100.00) per year, or any portion thereof. payable to the city treasurer prior to January 1 of each year. (Prior code § 5-10-18)

18.72.020: LICENSE APPLICATION:

Application for a house mover's license shall be made on forms furnished by the license office. Every such applicant must be duly licensed by the public service commission of the state of Utah as a motor carrier for the moving of houses and other structures over and upon the highways of the state. Upon the filing of such application, such applicant shall deposit with the city a bond in the amount of one thousand dollars ($1,000.00), executed by the applicant and a surety company authorized to do business in this state as surety, conditioned for the payment of Salt Lake City and the public utility companies involved of such expenses as are reasonably incurred for the temporary relocation of their property to facilitate the moving of any building or structure over and upon the streets of the city by the applicant as provided in section 18.72.060, or its successor, of this chapter. The bond provided for herein shall be in lieu of the bond required by section 14.12.030 of this code, or its successor. (Prior code § 5-10-19)

18.72.030: APPLICATION; INSURANCE REQUIREMENTS:

At the time of filing the application, the applicant shall furnish to the building official written evidence that a public liability and property damage insurance policy in the amount established by section 63-30-34, Utah Code Annotated, or its successor, as maximum amounts for which a governmental entity may be held liable, shall be in force and effect during the period of the license so issued. (Prior code § 5-10-20)

18.72.040: PERMIT; FILING TIME; ISSUANCE CONDITIONS:

A. No person, firm or corporation shall move any building or structure, or any portion thereof, over, upon, along or across any street or highway within the city without first obtaining a permit from the city engineer so to do at least seventy two (72) hours in advance of the proposed moving date.

B. No house mover's permit shall be granted by the city engineer except as follows:

1. A relocation permit must be issued for the building or structure.
2. A separate application upon a form furnished by the division of building and housing services must be filed, and a separate permit obtained for moving each separate building or structure or portion of a building or structure.

C. Each application for a house mover's permit must show:

1. The kind of building or structure to be moved;
2. The street number and legal description of the property from which the building or structure is to be moved;
3. The street number and legal description of the property to which the building or structure is to be moved;
4. The proposed route over which the building or structure is to be moved, which must be approved by the city engineer;
5. The date when such building or structure is to be moved and the time within which the moving will be completed. (Prior code § 5-10-21)

18.72.050: EXISTING PERMITS:

Any person, firm or corporation holding a valid permit issued by the city to move any building and any bond filed in connection therewith in existence on the effective date of the ordinance codified herein shall be continued in effect until the effective date of the permit so issued, and no further permit or license shall be required until the expiration of such permit unless sooner revoked by the building official. (Prior code § 5-10-24)

18.72.060: NOTIFICATION TO PUBLIC UTILITIES:

A. Upon receiving an application to move a building or structure, the city engineer shall notify all public utilities and the signal division of the city which will be affected by the proposed moving.

B. It is unlawful for any house mover to interfere in any manner with any property of any public utility or any property of the city. The house mover shall give to all such utilities, to the fire alarm section of the fire department, and to the traffic signal division at least twenty four (24) hour notice before the time of commencing the moving of any building or structure. Upon receipt of such notice, the utilities shall raise or otherwise dispose of their wires or other instrumentalities in such time and manner as will not cause undue delay to the permit holder.

C. The house mover shall compensate the public utilities and the alarm and signal division of the city for making such temporary rearrangements of their property, and the house mover's bond shall be liable for the cost thereof. (Prior code § 5-10-22)

18.72.070: NOTIFICATION TO POLICE TRAFFIC DEPARTMENT:

Before any building or structure is moved over or on any public street or highway, the traffic division of the police department shall be notified by the mover at least twenty four (24) hours in advance, and they shall direct the moving at the time designated over the approved route. (Prior code § 5-10-23)

Article II. Building Relocation

18.72.080: PERMIT REQUIRED:

No person, firm or corporation shall relocate any building or structure within the city without first having obtained a permit to do so from the division. (Prior code § 5-10-1)

18.72.090: PERMIT APPLICATION:

Each application for a relocation permit shall be made to the division upon forms furnished by it, and shall set forth such information as may reasonably be required in order to carry out the purposes of the ordinance codified herein. (Prior code § 5-10-2)

18.72.100: APPLICATION; INVESTIGATION OF BUILDING:

The building official shall cause an investigation to be made of the building or structure to be relocated and of the property upon which it is to be located in order to determine whether or not the permit shall be granted. (Prior code § 5-10-5)

18.72.110: CONFORMITY WITH ZONING AND BUILDING REGULATIONS:

No relocation permit shall be issued to any person, firm or corporation to relocate any building or structure upon another lot unless such use, building or proposed conversion thereof conforms to the zoning ordinance and the building code of the city, and any other pertinent ordinances. (Prior code § 5-10-3)

18.72.120: PERMIT ISSUANCE CONDITIONS:

A. No permit shall be issued to any person, firm or corporation to relocate any building or structure:

1. Which is so constructed or in such condition as to be dangerous or unsafe; or
2. Which is infested with pests or is unsanitary; or
3. Which, if it is a dwelling or habitation, is unfit for human habitation; or
4. Which is so dilapidated, defective, unsightly or in such a condition of deterioration or disrepair that its relocation at the proposed site would create a safety or health hazard or would cause appreciable damage to or be materially detrimental to the property in the district within a radius of five hundred feet (500') from the proposed site.

B. If, in the opinion of the building official, the present use or condition of the building or structure allows practical conversion or effective repair or alteration, the building official may issue such a relocation permit if plans are submitted to him/her showing that the improvements and alterations conform to the building code and zoning ordinance and are in architectural harmony with neighboring structures.

C. In cases where a nonconforming use is to be converted to a conforming use and in determining architectural harmony with neighboring structures, both the building official and the planning director shall examine the plans submitted, and if in their opinion it is desirable the matter may be referred to the appeals hearing officer for hearing. The decision of the appeals hearing officer shall be final. (Ord. 8-12, 2012: prior code § 5-10-4)

18.72.130: ADDITIONAL TERMS AND CONDITIONS:

The building official shall, in granting any relocation permit, impose thereon such terms and conditions as he/she may determine reasonable and proper, including, but not limited to, the requirements of changes, alterations, additions or repairs to be made to or upon the building, structure or property, to the end that the relocation thereof shall not be materially detrimental or injurious to public safety or public welfare or to property within the immediate district. Such terms and conditions shall be written upon the permit or appended in writing thereto. Permits may be required for building, electrical, mechanical and plumbing work done to bring the building into code compliance. (Prior code § 5-10-6)

18.72.140: FOUNDATIONS FOR BUILDINGS:

The foundations to be used in connection with any of the buildings herein referred to shall be fully completed, inspected and approved by the building official before any such building is moved upon any foundation or moved onto the lot of the new location. (Prior code § 5-10-7)

18.72.150: PAINTING AND DOOR AND WINDOW INSTALLATION:

All such buildings shall be completed in their exterior and protected from the elements by the necessary coats of paint or other preservative. All doors and windows shall be installed within fifteen (15) days after the building is placed on its new site unless an extension of time is granted by the building official. (Prior code § 5-10-8)

18.72.160: BOND REQUIREMENTS GENERALLY:

No relocation permit shall be issued unless the applicant therefor shall first post with the building official a performance bond executed by the owner of the premises where the building or structure is to be relocated as principal and by a surety company authorized to do business in the state of Utah as surety, or a cash deposit in the amount of the required bond, such deposit to be returned on the completion of the requirements contained in the permit. Such bond shall name Salt Lake City as obligee, and shall be in an amount equal to the cost of the work required to be done in order to comply with all of the conditions of the relocation permit, as determined by the building official. Any work on the project left unfinished after six (6) months may be finished by the city working through a contractor and utilizing funds from the performance or cash bond. (Prior code § 5-10-9)

18.72.170: BOND; NOT REQUIRED WHEN:

A relocation bond need not be filed in any case where the building official shall determine that the only relocation involved is that of moving a building temporarily to the regularly occupied business premises of a house mover, or that of moving a building to adjacent property of the same owner, or to buildings or structures to be used by a governmental agency for governmental purposes, or garages to be used as individual garages and limited in size to two (2) car garages, provided such exceptions shall not apply unless the building official further finds that no security is necessary in order to assure compliance with the requirements of this chapter. (Prior code § 5-10-10)

18.72.180: BOND CONDITIONS:

Every relocation bond filed shall be conditioned as follows:

A. That each and all of the terms and conditions of the relocation permit shall be complied with to the satisfaction of the building official;

B. That all of the work required to be done pursuant to the conditions of the relocation permit shall be fully performed and completed within the six (6) months specified in the relocation permit. Such time limit may be extended for good and sufficient cause by the building official, but no such extension shall be valid unless in writing, and such extension shall not release the surety on the relocation bond. (Prior code § 5-10-11)

18.72.190: DEFAULT IN PERFORMANCE; NOTICE:

Whenever the building official shall find that a default has occurred in the performance of any term or condition of a relocation permit, written notice thereof shall be given to the principal and to the surety on the bond. Such notice shall state the nature of the default and, in case of work to be done, shall specify the work to be done and the period of time within which such work must be completed. Failure to comply with the notice of the building official shall constitute a default against said cash or surety bond. (Prior code § 5-10-12)

18.72.200: CORRECTION OF DEFAULTS; TIME LIMIT:

Upon receipt of such notice of default from the building inspector, the surety must, within the time specified therein, correct such default and in the case of work required to be performed, cause such work to be done within the time specified in the notice, and upon its failure so to do must forthwith pay to the city treasurer the face amount of its bond. (Prior code § 5-10-13)

18.72.210: CORRECTION OF DEFAULTS; CITY WORK WHEN; COSTS:

The building official shall, upon receipt of the face amount of the bond from said surety, proceed by such mode as he/she deems expedient to cause the required work to be performed and completed by contract or otherwise. Upon the completion of such work the balance, if any, of the money so paid to the city treasurer by the surety shall be returned to the surety after deducting cost of work plus twenty five percent (25%) thereof, said twenty five percent (25%) being retained by the city treasurer to cover the cost of supervision. The building official shall incur no liability other than for the expenditure of funds delivered to him/her for completion of the work. (Prior code § 5-10-14)

18.72.220: BOND TERMINATION:

The term of each relocation bond filed pursuant to this chapter shall begin upon the date of execution thereof and shall terminate upon the completion to the satisfaction of the building inspector of the performance of all of the terms and conditions of the relocation permit. Such completion shall be evidenced by a statement thereof signed by the building official. (Prior code § 5-10-16)

18.72.230: RIGHT TO ENTER PREMISES:

A. In the event of any default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged in its behalf, and the building official or any person employed or engaged in his behalf shall have the right to go upon the premises to complete the required work or to remove or demolish the building or structure as the case might be.

B. It is unlawful for the owner, his agents, or any other person after a default has occurred in the performance of the terms or conditions of a relocation permit to interfere with or obstruct the ingress or egress to or from any such premises of any authorized representative or agent of the surety or the city engaged in the work of completing, demolishing or removing any building or structure for which a relocation permit has been issued. (Prior code § 5-10-17)

18.72.240: DEMOLITION AUTHORIZED WHEN:

When any notice has been given and a default has occurred, either on the part of the principal or the surety, the building official shall have the option, in lieu of completing the work required, to demolish the building or structure and to clear, clean and restore the site. (Prior code § 5-10-15)

CHAPTER 18.76
MOBILE HOME PARKS

18.76.010: DEFINITIONS:

For the purposes of this chapter, the following definitions shall apply:

CABANA: A room enclosure erected or constructed adjacent to a mobile home for residential use by the occupant of the mobile home.

DEPENDENT RECREATIONAL VEHICLE: A unit other than a self-contained unit.

HOOKUP: The arrangement and connection of parts, circuits and materials employed in the connections required between the mobile home or recreational vehicle utility outlets and inlets and the park service connections that make the mobile home or recreational vehicle operational.

MOBILE HOME: A factory assembled structure or structures equipped with the necessary service connections and constructed to be readily mobile as a unit or units on its own running gear, and designed to be used as a dwelling unit without a permanent foundation.

MOBILE HOME PARK: A contiguous parcel of land which, after having the approval of the city planning commission, is used for the accommodation of occupied mobile homes.

MOBILE HOME SPACE OR LOT: A designated portion of a mobile home park designed for the accommodation of one mobile home and its accessory buildings or structures for the exclusive use of the occupants.

MOBILE HOME STAND OR PAD: That part of the mobile home space which has been prepared and reserved for the placement of one mobile home.

MOTOR HOME: A self-propelled vehicular unit primarily designed as a temporary dwelling for travel, recreational and vacation use.

PARK DRAINAGE SYSTEM: The entire system of drainage piping used to convey sewage and other wastes from the mobile home or recreational vehicle drainage outlet connection, at the mobile home or recreational vehicle site, to the property line connection with the sewer lateral from the main line sewer.

PARK PLUMBING SYSTEM: Means and includes, but is not limited to, the park drainage and water supply systems within the park property lines.

PARK WATER SUPPLY SYSTEM: All of the water supply piping within the park, and shall extend from the water meter to the mobile home or recreational vehicle water supply system, and shall include main and branch service lines, fixtures, devices, piping in service buildings, and appurtenances thereto.

RAMADA: Any freestanding roof or shade structure installed or erected above an occupied mobile home or any portion thereof.

RECREATIONAL VEHICLE: A vehicular unit, other than a mobile home, primarily designed as a temporary dwelling for travel, recreational and vacational use, which is either self-propelled or is mounted on or pulled by another vehicle, including, but not limited to, a travel trailer, a camp trailer, a truck camper, or a motor home.

RECREATIONAL VEHICLE PARK: A site, lot, tract or parcel of land upon which one or more recreational vehicles are parked for temporary use as living quarters.

RECREATIONAL VEHICLE SPACE: A plot of ground within a recreational vehicle park to accommodate one recreational vehicle.

RECREATIONAL VEHICLE STAND OR PAD: That part of the recreational vehicle space which has been prepared and reserved for the placement of one recreational vehicle.

SELF-CONTAINED RECREATIONAL VEHICLE: A unit which:

A. Can operate independent of connections to external sewer, water and electrical systems; and

B. Has a toilet and holding tank for liquid waste; and

C. Contains water storage facilities and may contain a lavatory, kitchen sink and/or bath facilities connected to the holding tank; provided, however, that all facilities shall be in sound operating condition, and further provided that it may be connected to external electric, water and sewer systems.

SERVICE BUILDING: A building housing separate toilet and bathing facilities for men and women and which may also have laundry facilities, flushing rim sink, and other facilities as may be required by this title, and which shall be apart from the facilities within the mobile home or recreational vehicle.

SEWER CONNECTION: All pipes, fittings and appurtenances installed to carry sewage from the mobile home or recreational vehicle drain outlet to the inlet provided in the park drainage system.

SEWER RISER PIPE: That portion of the park sewer lateral which extends vertically to the ground elevation and terminates at each mobile or recreational vehicle space.

TRAVEL TRAILER: A vehicular, portable unit, mounted on wheels, not requiring a special highway movement permit when drawn by a motorized vehicle, and:

A. Designed as a temporary dwelling for travel, recreational and vacation use; and

B. When factory equipped for the road, having a body width of not more than eight feet (8') and a body length of not more than thirty two feet (32').

WATER CONNECTION: All pipes, fittings and appurtenances from the water riser pipe connection to the water inlet connection of the mobile home or recreational vehicle.

WATER RISER PIPE: That portion of the park water supply system which extends vertically to the ground elevation and terminates at a designated point at each mobile home or recreational vehicle space. (Prior code § 5-13-1)

18.76.020: COMPLIANCE WITH ZONING PROVISIONS:

The appeals hearing officer may permit the use of land in any district for a mobile home park provided that in all cases there is compliance with the conditions in title 21A of this code. (Ord. 8-12, 2012)

18.76.030: PERMITS, LICENSE AND COMPLIANCE REQUIRED:

It is unlawful for any person to construct, maintain or operate a mobile home or recreational vehicle park within the limits of the city unless such person complies with this title and all other pertinent provisions of this code, and first obtains approval, permits and licenses as required. (Prior code § 5-13-2)

18.76.040: EXISTING PARKS:

Mobile home and recreational vehicle parks legally existing at the time of the effective date of the ordinance codified herein may continue to operate on the same basis as under nonconforming uses, as set forth in the current Salt Lake City zoning ordinance. (Prior code § 5-13-3)

18.76.050: CONSTRUCTION PERMITS REQUIRED; FEES:

Mobile home park construction permits required by the division shall be issued to properly licensed contractors as follows:

A. A general building permit fee shown on the Salt Lake City consolidated fee schedule, to be issued for pads, patio slabs, metal sheds (sheds to be installed by mobile home occupant), curb, gutter, drives, piers, sidewalks, fence or wall, per mobile home space;

B. Electric meter stands or pedestals at the rate shown on the Salt Lake City consolidated fee schedule;

C. The park plumbing system, including sewer and water risers, shall require the fee shown on the Salt Lake City consolidated fee schedule, for each space;

D. All permanent buildings, swimming pools, etc., shall have permit fees assessed at the regular and normal fee schedule;

E. Fire hydrants within the property lines shall require a permit fee shown on the Salt Lake City consolidated fee schedule, for each hydrant. (Ord. 24-11, 2011)

18.76.060: PERMIT REQUIRED BEFORE COMMENCING WORK:

Application for required permits shall be made by a duly licensed contractor and fees paid to the city treasurer before any work commences. A double fee permit shall be assessed if any work commences without first obtaining the required permit or permits. (Prior code § 5-13-9)

18.76.070: PLANS AND LOT PLACEMENT:

The location of the mobile home lot limits on the grounds shall be the same as shown on the approved plans. The degree of accuracy obtained by working with a scale on the plan and then a tape on the ground is acceptable. Mobile home lot markers shall be the responsibility of the mobile home park operator. (Prior code § 5-13-16)

18.76.080: LOT MARKERS:

The limits of each mobile home lot in a mobile home park shall be clearly marked on the ground by permanent flush stakes, markers, or other suitable means. (Prior code § 5-13-15)

18.76.090: PERMANENT BUILDING DESIGN AND CONSTRUCTION:

Every building, except a mobile home accessory building, shall be designed and constructed in accordance with this title. (Prior code § 5-13-11)

18.76.100: ADDITIONS AND REMODELING OF PARKS:

Existing mobile home and recreational vehicle parks may be enlarged or remodeled provided the addition or remodel conforms to all the provisions of this title. (Prior code § 5-13-4)

18.76.110: ACCESSORY BUILDINGS; PERMIT AND PLAN REQUIREMENTS:

Prior to the installation of accessory buildings or structures in a mobile home lot, within a mobile home park, two (2) copies of a completely dimensioned plot plan drawn to scale and in accordance with the approved development plan shall be submitted to the division and a permit obtained. The plot plan shall show the size and location of the mobile home, the identification number, and the dimensions of the approved lot space, the dimension and location of the proposed structure, and its dimensional relation to immediate mobile homes and/or structures. (Prior code § 5-13-14)

18.76.120: ACCESSORY BUILDINGS; CONSTRUCTION STANDARDS:

A. Standards Applicable: Every accessory building or structure, including, but not limited to, cabanas, ramadas, awnings, patio covers and carports, shall be constructed in accordance with the provisions of the latest ANSI standard A119.3. No building nor any portion of any building shall be supported in any manner by a mobile home.

B. Exception: Roof structures such as patio covers and awnings used as temporary shelter adjacent to a mobile home may be attached to the side of a mobile home, provided they project not more than ten feet (10') from the side of the mobile home and have at least the upper one-half ($^1/_2$) of the perimeter open or screened, with the remaining construction of nonbearing enclosing walls. (Prior code § 5-13-12)

18.76.130: CARPORTS, RAMADAS AND COVERED PATIOS:

Attached carports or ramadas shall be completely open except for necessary structural supports. Covered patios and similar structures may be enclosed, provided the construction conforms to the requirements of the latest ANSI standard A119.3, except as provided in this title. (Prior code § 5-13-13)

18.76.140: RECREATIONAL VEHICLE AREA APPROVED WHEN:

Where the mobile home park has direct access to a major highway, the appeals hearing officer may approve the use of a portion of the park as a recreational vehicle park, provided the same design standards are maintained. (Ord. 8-12, 2012)

18.76.150: UNDERGROUNDING OF UTILITIES:

The complete distribution system or collection system of any utility shall be underground. (Prior code § 5-13-22)

18.76.160: SEWER CONNECTIONS AND FEES:

All present and normally assessed fees shall be paid to the engineering department for sewer lateral connection from the property line to the sewer main line in the street. (Prior code § 5-13-8)

18.76.170: STREET SURFACING REQUIREMENTS:

All streets shall be provided with a smooth, hard and dense surface which shall be durable and well drained under normal use and weather conditions. The surface shall be maintained free of cracks and holes, and its edges shall be protected by suitable means to prevent traveling and shifting of the base. (Prior code § 5-13-17)

18.76.180: STREETLIGHTS:

Lighting shall be designed to produce a minimum of 0.1 foot-candle throughout the street system. Potentially hazardous locations, such as major street intersections and steps or stepped ramps, shall be individually illuminated with a minimum of 0.3 foot-candle. (Prior code § 5-13-18)

18.76.190: LANDSCAPING:

Portions of a mobile home lot or recreational vehicle space not occupied by a mobile home or recreational vehicle or accessory buildings or structures shall be landscaped or treated in such a manner as to eliminate dust, weeds, debris and accumulation of rubbish. (Prior code § 5-13-19)

18.76.200: UNLAWFUL AND HAZARDOUS USES:

No person shall use, permit, or cause to be used for occupancy or storage purposes in a mobile home park a mobile home which is structurally unsound, which constitutes a hazard, or which does not protect its occupants against the elements. (Prior code § 5-13-20)

18.76.210: VIOLATION; NOTICE TO DISCONTINUE:

Whenever any mobile home is being used contrary to the provisions of this chapter, the division may order such use discontinued and the mobile home to be removed, relocated, or otherwise made to conform with the provisions of this title by notice served on any person responsible for the illegal use. (Prior code § 5-13-21)

18.76.220: ENFORCEMENT OF PROVISIONS:

The division is hereby designated and authorized as the officers charged with the enforcement of this chapter. (Prior code § 5-13-10)

CHAPTER 18.80
PARKING LOT CONSTRUCTION

18.80.010: PARKING LOT DEFINED:

"Parking lot" means an open area other than a street used for the parking of more than four (4) automobiles, and available for public use, whether free, for compensation, or as an accommodation for clients or customers. (Prior code § 28-1-1)

18.80.020: PERMIT; REQUIRED FOR CONSTRUCTION; ISSUANCE CONDITIONS:

No parking lot or parking area shall be constructed without first obtaining a permit authorizing such construction. No permit shall be issued without first securing the recommendations of the city transportation engineer and the city planning commission, and no permit shall be issued until the applicant has complied with the provisions of this chapter. (Prior code § 28-1-2)

18.80.030: WALLS, SCREENING AND BUMPER CURB REQUIREMENTS:

The parking lot shall be provided with attractive walls, guardrails or screening shrubbery, at least along the street side, to limit points of ingress and egress, to prevent encroachment of parked vehicles on any sidewalk, and to improve the general appearance and, where necessary, with a bumper curb parallel with the inside of the wall or guardrail at such distance that the wheels of the motor vehicles in the parking lot are stopped prior to the motor vehicle's contact with the wall or guardrail. (Prior code § 28-1-3)

18.80.040: DRIVEWAY RESTRICTIONS:

Driveways must not exceed thirty feet (30') in width where they cross the sidewalk; adjacent driveways must be separated by an island at least twelve feet (12') in width; and driveways must be at least ten feet (10') from the property line of any intersecting street. (Prior code § 28-1-4)

18.80.050: BUILDINGS FOR ATTENDANTS:

Attendant buildings must be located far enough from the entrance to prevent congestion at the sidewalk, and must be constructed so as not to detract from the appearance of the surrounding neighborhood. Every operator of a parking lot, before constructing or reconstructing, or locating or relocating an attendant building, shall secure the approval of the city transportation engineer and the city planning director. (Prior code § 28-1-5)

18.80.060: SURFACING OF PARKING AREA:

Ground surfaces of the parking area shall be paved or hard surfaced. (Prior code § 28-1-6)

18.80.070: LIGHTING FACILITIES; REQUIRED WHEN:

Parking lots which are operated and open to use during the hours of darkness after one hour after sunset shall be provided with lights and lighting facilities that will provide 0.03 watt per square foot with incandescent light source, or 0.01 watt per square foot with either mercury vapor or fluorescent light source, but in no event less than 0.2 foot-candle average maintained illumination on the entire parking lot surface and an average ratio of six to one (6:1). (Prior code § 28-1-7)

18.80.080: LIGHTING FACILITIES; PERMIT AND PLAN REQUIRED:

Before installing the lighting facilities required by section 18.80.070 of this chapter, or its successor, and before altering or adding to any lighting facilities presently existing, the operator of a parking lot shall first make application to the building official for a permit, and shall submit with such application a detailed plan for such facilities. If it shall be found that the installation will conform to the requirements of this chapter and the electrical code, a permit shall be issued upon payment of the fee required by the electrical code covering work in commercial and industrial property. (Prior code § 28-1-8)

18.80.090: CAR CAPACITY AND MANEUVERING:

The maximum car capacity indicated on the application shall be reasonable, and the arrangement of parking facilities shall not necessitate the backing of cars onto adjoining public sidewalks, parkways, roadways or thoroughfares in conducting parking and unparking operations. (Prior code § 28-1-9)

18.80.100: CLEANUP OF WASTE AND LITTER:

Every operator of a "parking lot", as defined in this chapter, whether such operator is owner, lessee, representative or agent, shall keep such parking lot in a clean condition at all times, free from all kinds of refuse and waste material. It shall be sufficient compliance with this section to clear the parking lot from refuse and waste material once each day. (Prior code § 28-1-10)

18.80.110: ENFORCEMENT OF PROVISIONS:

It shall be the duty of the building official to enforce the provisions of this chapter with respect to lighting facilities. It shall be the duty of the board of health to enforce the provisions of this chapter as to keeping the premises in a clean condition. (Prior code § 28-1-11)

18.80.120: FAILURE TO COMPLY WITH CHAPTER PROVISIONS:

It is unlawful for any operator of a "parking lot", as defined in this chapter, whether such person is owner, lessee, representative or agent, to fail to comply with, or to violate any provision of this chapter. (Prior code § 28-1-12)

CHAPTER 18.84
RELOCATABLE OFFICE BUILDINGS

18.84.010: RELOCATABLE OFFICE BUILDING DEFINED:

"Relocatable office building" means a portable structure built on a chassis or skids, and designed to be used with or without a permanent foundation for use or occupancy for any commercial or industrial purpose when connected to water, power or utility hookups. (Prior code § 5-16-1)

18.84.020: PERMIT REQUIRED FOR INSTALLATION:

A. It is unlawful for any person, firm or corporation to locate or install a relocatable office building without first having obtained a permit to do so from the division of building and housing services.

B. Further, it is unlawful to use, maintain or occupy a temporary relocatable office building for a period longer than that provided for in either section 18.84.050 or 18.84.100 of this chapter, or to use, maintain or occupy on a permanent basis a relocatable office building that does not conform to the provisions of section 18.84.060 of this chapter, or successor sections. (Ord. 46-89 § 1, 1989: prior code § 5-16-8)

18.84.030: PERMIT; BOND REQUIRED:

Every person who obtains a permit for a relocatable office building shall post cash or a bond in the penal sum of one thousand dollars ($1,000.00), which shall be conditioned upon the permittee removing the temporary premises at the conclusion of the expiration of the permit, or, in the case of fireworks stands or trailers, post cash or a bond in the penal sum of two hundred dollars ($200.00), which shall be conditioned upon the permittee removing the temporary premises within five (5) days after the end of each of the sales periods as allowed by state law or city ordinance. (Prior code § 5-16-9)

18.84.040: PERMIT; ISSUANCE PREREQUISITES:

A. Issuance Conditions: No permit for a relocatable office building shall be issued by the division until the applicant has complied with the following conditions:

1. Submitted the structural, electrical, mechanical and plumbing plans and specifications, in duplicate, used to construct a temporary relocatable office building together with an application for a permit for such office building to the division;

2. Paid all required permit and inspection fees to the city treasurer, as required by this title;

3. Certified to the division that all the inspections required by this title have been made and that the work inspected has been approved. Such certification shall be verified by the division.

B. Exceptions: In the event a relocatable office building is constructed outside the corporate limits of the city, the division shall not require additional interior inspections of such relocatable office building at the time a permit to locate the unit within the corporate limits of the city is applied for, provided:

1. A reciprocal agreement pertaining to construction and inspection standards for relocatable office buildings is in effect between the local jurisdiction where the relocatable office building is constructed and Salt Lake City; and

2. The city has received written assurance that all the work required to be inspected by this title has been inspected and approved by the local jurisdiction in which the said relocatable office building was constructed.

C. Fireworks Stands: A permit may be granted for temporary fireworks stands or trailers which meet the provisions for sale of fireworks as contained in section 9.20.050, or its successor, of this code, as amended, and the applicable zoning ordinances. (Prior code § 5-16-2)

18.84.050: TEMPORARY USE TIME LIMITS; EXTENSIONS:

No permit issued by the division for a relocatable office building for use or occupancy for any commercial or industrial purpose shall be valid for a period of time exceeding three hundred sixty five (365) days, provided that upon a showing in writing of extreme hardship by the applicant, the division of building and housing services may, at its option, grant the applicant an extension not to exceed sixty (60) days. No more than one such permit extension may be granted for such use or occupancy of any temporary relocatable office buildings. (Prior code § 5-16-3)

18.84.060: PERMANENT USE; PERMITS AND CONDITIONS:

A. When an applicant proposes or intends to use a relocatable office building for permanent use and the building is intended for use as an office extension or a satellite office, or for any other industrial or commercial purpose, the applicant shall obtain all necessary permits and follow all other procedures required by this title for the construction of all permanent structures. Such relocatable office building designed and intended for permanent use shall be constructed in a manner consistent with all applicable building and housing codes of the city, and shall meet all zoning, traffic and licensing requirements as required by the ordinances of the city.

B. For purposes of this chapter, "permanent use" means a period of time in excess of three hundred sixty five (365) days. (Prior code § 5-16-4)

18.84.070: PERMIT; FEES:

The following fees shall be paid to the city treasurer before any permit issued under this section shall be valid:

A. Permit fee shown on the Salt Lake City consolidated fee schedule, to install a temporary relocatable office building, per unit;

B. Permit fee shown on the Salt Lake City consolidated fee schedule, for interior inspections of relocatable office buildings, per unit. (Ord. 24-11, 2011)

18.84.080: INSPECTION REQUIREMENTS; ADDITIONAL FEES:

The fees in section 18.84.070 of this chapter, or its successor, shall include inspection of service piping and/or wiring from service risers, drops or pedestals to building connections. Additional fees and inspection shall be required for power poles, temporary meters, or sewer or water connections to the city main lines. All applicable inspections required by this title shall also be made and the work inspected shall be approved before an installation permit is issued by the division. (Prior code § 5-16-6)

18.84.090: INSTALLATION AT SITE:

All temporary relocatable office buildings shall be installed on temporary blocks or stands and shall be skirted with materials approved by the division of building and housing services. (Prior code § 5-16-7)

18.84.100: CONSTRUCTION CONTINUATION USE:

Where the relocatable office building is proposed to allow the continuation or commencement of business operations during the actual construction of a permanent structure for the business, the permit for use of the relocatable office building may run for the actual length of construction subject to the following conditions:

A. The permit for the relocatable office building shall not be issued until after the permit for the new construction is issued.

B. The permit for the relocatable office building shall expire contemporaneous with the expiration of the construction permit or any extensions thereto.

C. The relocatable office building shall be removed, and its site shall be landscaped or otherwise finished in conformance with the terms of the construction building permit, within thirty (30) days of issuance of the temporary certificate of occupancy for the newly constructed building.

D. The relocatable office building shall not be occupied or used on any basis as a residence. (Ord. 46-89 § 1, 1989)

CHAPTER 18.88
SOUND ATTENUATION METHODS IN AIRPORT RESTRICTION ZONES

18.88.010: REQUIRED WHEN; PLAN REVIEW AND OCCUPANCY CONDITIONS:

A. Sound attenuation, or the use of special construction methods or materials which are designed or have the effect of insulating interior spaces from exterior noise related to aircraft activity, is required in the airport restriction zones A, B and C, as set forth in section 21.76.220, or its successor, of this code. Certain types of uses are prohibited as incompatible unless they demonstrate sound attenuation to reduce the noise by a minimum specified decibel level.

B. Where sound attenuation is required, the following plans and reports shall be submitted to the building official for review to demonstrate compliance. No plans shall be approved and no permits shall be issued for the new construction or alteration of structures located within such zones unless they comply and demonstrate the ability to perform the necessary sound attenuation. No certificate of occupancy shall be issued until actual performance demonstrates compliance, nor shall the building official approve plans or issue permits within such restrictive zones without receipt of the avigation easement in the form approved by the city attorney's office when required by section 21.76.230, or its successor, of this code. (Prior code § 5-18-1)

18.88.020: PERMITS, CERTIFICATES, REPORTS AND IMPLEMENTATION:

A. Every set of plans submitted for review to the building official for a building permit within the airport restriction zones A, B or C which requires sound attenuation shall be accompanied by a sound attenuation plan and report.

B. Such plan must be prepared by a licensed architect and must, in detail, address the following elements or measures to be taken to produce sound attenuation of at least the minimum decibel level required in the applicable zone:

1. Specification of materials;

2. Description of construction methods showing design numbers for sound transmission control rating;

3. Identification of decibel level of sound attenuation obtained by such plan.

C. The report to accompany the plan shall include:

1. A verified written statement made by the person or firm preparing the sound attenuation plan, identifying any problems in implementing the sound attenuation plan or achieving the required decibel reductions and, further stating, in his/her professional opinion, the ability of the proposed plan to achieve the decibel level sound attenuation required for the proposed structure and its use;

2. A written statement from the property owner and contractor (general or responsible subcontractor) guaranteeing that the sound attenuation measures proposed in the plan will be performed according to the specifications of said plan.

D. Prior to the issuance of a certificate of occupancy, the building official shall receive the following supplemental written report, including:

1. A certification from the responsible contractor or, in the absence thereof, the owner, certifying that the sound attenuation work described in the above plan has been completed according to the plan's specifications; together with

2. A certification from an approved testing laboratory certifying that the completed sound attenuation work achieves the required decibel levels of sound attenuation. (Prior code § 5-18-2)

CHAPTER 18.92
BUILDING CONSERVATION CODE

18.92.010: UNIFORM CODE FOR BUILDING CONSERVATION ADOPTED BY REFERENCE:

The uniform code for building conservation, 1988 edition, is adopted by the city as the ordinances, rules and regulations of the city, subject to the amendments and exceptions thereto as hereinafter set out. Three (3) copies of the code shall be filed for use and examination by the public in the office of the city recorder. (Ord. 34-90 § 1, 1990)

18.92.020: EXCEPTION TO SECTION 402(d) AMENDED:

The exception to section 402(d) of the code is amended to read as follows:

Exception: Existing corridor walls, ceilings and opening protection not in compliance with the above may be continued when the corridors and common areas are protected with an approved automatic sprinkler system. Such sprinkler system may be supplied from the domestic water supply system, provided the system is of adequate pressure, capacity and sizing for the combined domestic and sprinkler requirements. When the building or floor changes occupancy, the entire floor or building must be protected with an approved automatic sprinkler system throughout.
(Ord. 34-90 § 1, 1990)

18.92.030: SECTION 403 AMENDED:

Section 403 of the code is amended by deleting the following sentence:

Roofs, floors, walls, foundations and all structural components of buildings or structures shall be capable of resisting the forces and loads specified in chapter 23 of the building code.
(Ord. 34-90 § 1, 1990)

18.92.040: EXCEPTION ADDED TO SECTION 606(1):

An exception to section 606(1) is enacted to read as follows:

Exception: Existing nonconforming materials do not need to be surfaced with an approved fire retardant paint or finish when an automatic fire extinguishing system is installed throughout and the nonconforming materials can be substantiated as historic in character.
(Ord. 34-90 § 1, 1990)

CHAPTER 18.95
USE OF LEED STANDARDS IN CITY FUNDED CONSTRUCTION

18.95.010: PURPOSE:

The purpose of this chapter is to promote development consistent with sound environmental practices by requiring, subject to sections 18.95.040, 18.95.050, and 18.95.120 of this chapter, that applicable building projects constructed with city construction funds obtain, at a minimum: a) "silver" for city owned and operated buildings, or b) "certified" for private building projects that receive city funds. These designations shall be from the "USGBC" as defined herein. (Ord. 78-06 § 1, 2006)

18.95.020: DEFINITIONS:

As used in this chapter:

APPLICABLE BUILDING PROJECT: The construction or major renovation of a commercial, multi-family residential, or municipal building that will contain more than ten thousand (10,000) square feet of occupied space when the design contract for such project commences on or after November 17, 2006.

BOARD: The board of appeals and examiners created under chapter 18.12 of this title, hereinafter called "board".

BUILDING OFFICIAL: The director of the division of building services or the designee of the director.

CERTIFIED: The level of compliance with the leadership in energy and environmental design (LEED) standards designated as "certified" by the United States Green Building Council (USGBC).

CHIEF PROCUREMENT OFFICER: The city employee designated pursuant to subsection 3.24.040A of this code or that employee's designee pursuant to section 3.24.050 of this code, or any successor to those sections.

CITY CONSTRUCTION FUNDS: Funds that are authorized to be used for construction by the city council for use by any person or city department in order to construct an applicable building project, including, without limitation, loans, grants, and tax rebates. However, this term shall not apply to the funds of the library or redevelopment agency.

CITY ENGINEER: The city employee designated pursuant to subsection 2.08.050B of this code or that employee's designee pursuant to section 3.24.050 of this code, or any successor to those sections.

LEED STANDARD: The leadership in energy and environmental design (LEED) green building rating system for new construction and major renovations (LEED-NC) as adopted in November 2002 and revised in November 2005, the LEED green building rating system for commercial interiors (LEED-CI) as adopted in November 2002, or the LEED green building rating system for existing buildings upgrades, operations and maintenance (LEED-EB) as adopted in October 2004 and updated in July 2005.

MAJOR RENOVATION: Work that demolishes space down to the shell structure and rebuilds it with new walls, ceilings, floors and systems, when such work affects more than twenty five percent (25%) of the building's square footage, and the affected space is at least ten thousand (10,000) square feet or larger.

SILVER: The level of compliance with LEED standards designated as "silver" by the USGBC.

SUBSTANTIAL COMPLIANCE: A determination of good faith efforts to comply as further described in section 18.95.110 of this chapter.

TEMPORARY STRUCTURE: Any proposed building that is intended to be in existence for five (5) years or less or any existing building that at the time it was constructed was intended to be in existence for five (5) years or less.

USGBC: The organization known as the United States green building council. (Ord. 78-06 § 1, 2006)

18.95.030: APPLICATION:

Whenever city construction funds are used for an applicable building project, such project shall at a minimum obtain a silver certification by the USGBC in the case of a city owned building project or certified certification in the case of all other projects, subject to the exceptions, waivers, and determinations of substantial compliance provided for in this chapter. (Ord. 78-06 § 1, 2006)

18.95.040: EXCEPTIONS:

The provisions of this chapter shall not apply if the building official and either the chief procurement officer or the city engineer jointly determine in writing that any of the following circumstances exist:

A. The applicable building project will serve a specialized, limited function, such as a pump station, garage, storage building, equipment area, or other similar area, or a single-family residence;

B. The applicable building project is intended to be a temporary structure;

C. The useful life of the applicable building project does not justify whatever additional expense would be incurred to increase the building's long term efficiency;

D. The application of LEED standard factors will increase construction costs beyond the funding capacity for the project, or will require that the project's scope of work or programmatic needs be diminished to meet budget constraints;

E. The use of LEED standard factors will create an impediment to construction due to conflicts of laws, building code requirements, federal or state grant funding requirements, or other similar requirements;

F. LEED factors are not reasonably attainable due to the nature of the facilities or the schedule for construction; or

G. LEED certification will violate any other federal, state or local law, including, without limitation, other sections of this code.

If an exception is granted, the developer must agree to integrate green building practices into the design and construction of the project to the maximum extent possible and feasible. A determination that an exception does not apply may be appealed to the board. Such appeal must be submitted in writing to the board within thirty (30) days of the determination. (Ord. 78-06 § 1, 2006)

18.95.050: WAIVERS:

The denial of an exception pursuant to section 18.95.040 of this chapter does not preclude an application for waiver pursuant to this section. The board shall have the authority to grant a waiver from the requirements of this chapter only if it makes the following findings in writing:

A. Literal enforcement of this chapter would cause unreasonable hardship for the applicant that is not necessary to carry out the general purpose of this chapter;

B. There are special circumstances attached to the project that do not generally apply to other projects that are subject to this chapter;

C. The waiver would not have a substantially negative effect on the master plans, policies, and resolutions of the city and would not be contrary to the purposes of this chapter;

D. Any asserted economic hardship is not self-imposed; and

E. The spirit of this chapter will be observed and substantial justice done. (Ord. 78-06 § 1, 2006)

18.95.060: APPEAL OF CITY DECISIONS:

Any private sector developer who is denied an exception, or a determination of substantial compliance, or who is assessed a penalty by the building official and either the chief procurement officer or the city engineer, may appeal such decision in writing to the board within thirty (30) days of the decision and shall state the basis to support the relief sought. The board shall review the circumstances of the appeal and shall issue a written determination of the receipt of the appeal within thirty (30) days consistent with the requirements of this section. (Ord. 78-06 § 1, 2006)

18.95.070: APPEAL OF BOARD DECISIONS:

Any private sector developer denied a waiver by the board or denied an exception, or determination of substantial compliance, or who has had financial penalties imposed on appeal to the board under this chapter may appeal such decision by the board in writing to the mayor or the mayor's designee within thirty (30) days of the decision and shall state the basis to support the relief sought. The mayor or the mayor's designee shall review the circumstances of the appeal and shall issue a written determination within thirty (30) days of the receipt of the appeal consistent with the requirements of this section. (Ord. 78-06 § 1, 2006)

18.95.080: REQUIRED DEPOSIT:

All private sector developers, excluding nonprofit developers, who receive city funds for applicable building projects shall submit a ten thousand dollar ($10,000.00) "good faith" deposit with the city which shall be refunded upon the building project receiving the applicable level of LEED certification or after a determination of substantial compliance. (Ord. 78-06 § 1, 2006)

18.95.090: PROOF OF REGISTRATION:

Within thirty (30) days from receiving notice that the city will fund an applicable building project, all private sector developers shall submit written proof that said project is registered with the USGBC. City funds will not be dispersed until the required deposit under section 18.95.080 of this chapter and the proof of registration under this section are received by the city. (Ord. 78-06 § 1, 2006)

18.95.100: REQUEST FOR EXTENSION:

If a project is not LEED certified or has not been granted a determination of substantial compliance within one year after a temporary certificate of occupancy is issued by the city, then a private sector developer must file a written application with the city for an extension to obtain LEED certification. Said application must be filed with the city no later than three hundred ninety five (395) days after the date on which the certificate of occupancy was issued by the city. The city may grant a one year extension pursuant to this section and any additional extensions as may be necessary so long as a private sector developer is actively pursuing LEED certification. Extensions pursuant to this section shall begin on the date granted by the city. (Ord. 78-06 § 1, 2006)

18.95.110: REQUEST FOR SUBSTANTIAL COMPLIANCE:

Receipt of LEED certification from the USGBC shall be conclusive evidence of the level of certification stated therein. If certification is not received from the USGBC or is not at the level required by this chapter, a private sector developer may request that the city issue a determination that the project has substantially complied with this chapter upon a reasonable demonstration that such project as constructed is consistent with the intent of this chapter and that strict enforcement of this chapter would create an unreasonable burden in light of the needs of such project, the ability of the project owner to control cost increases, and other relevant circumstances. The request for determination of substantial compliance must contain the following information:

A. Final LEED certification application, documentation, and response from the USGBC;

B. An explanation of the efforts and accomplishments made by the private sector developer to achieve compliance with this chapter;

C. An explanation of the practical or economic infeasibility of implementing certain high performance building design or construction techniques that, if implemented, would otherwise have likely resulted in certification; and

D. Any other supporting documents the private sector developer wishes to submit. (Ord. 78-06 § 1, 2006)

18.95.120: DETERMINATION OF SUBSTANTIAL COMPLIANCE:

The building official and either the chief procurement officer or the city engineer shall review within sixty (60) days of receipt of a request for determination of substantial compliance and shall approve or deny the request based on the good faith efforts of the private sector developer to comply with this chapter. In making a determination of the good faith efforts, review of the request shall include whether the private sector developer has established the following:

A. That reasonable, appropriate, and ongoing efforts to comply with this chapter were taken; and

B. That compliance would otherwise have been obtained but for the practical or economic infeasibility of implementing high performance building design or construction techniques.

In making any such determination, cost increases due solely to aesthetic elements shall not constitute any part of a demonstration of unreasonable burden. A determination of substantial compliance pursuant to this section shall satisfy section 18.95.030 of this chapter.

If the request for determination of substantial compliance is denied, the private sector developer will be deemed to have not satisfied section 18.95.030 of this chapter and shall forfeit the "good faith" deposit under section 18.95.080 of this chapter and may be assessed an additional penalty up to the amount originally funded by the city. Any penalty assessed shall be offset by the "good faith" deposit. (Ord. 78-06 § 1, 2006)

18.95.130: PENALTY:

Any private sector developer who fails to: a) comply with this chapter, b) apply for an extension pursuant to section 18.95.100 of this chapter, or c) receive a determination of substantial compliance, shall forfeit the "good faith" deposit to the city to cover the cost and inconvenience to the city. An additional penalty may be assessed based on a direct analysis of possible LEED design credits. Given that a total of twenty six (26) LEED design credits are required for certification, the additional penalty shall be based on the following considerations:

A. If the city determines that a project could have reasonably received 21-25 LEED credits, then the private sector developer shall pay the city up to twenty five percent (25%) of the amount originally funded.

B. If the city determines that a project could have reasonably received 16-20 LEED credits, then the private sector developer shall pay the city up to fifty percent (50%) of the amount originally funded.

C. If the city determines that a project could have reasonably received 6-15 LEED credits, then the private sector developer shall pay the city up to seventy five percent (75%) of the amount originally funded.

D. If the city determines that a project could have reasonably received 0-5 LEED credits, then the private sector developer shall pay the city up to one hundred percent (100%) of the amount originally funded.

Failure to pay a penalty within ninety (90) days of written notice from the city shall result in a lien against the project. (Ord. 78-06 § 1, 2006)

18.95.140: RULE MAKING AUTHORIZATION:

The building official and either the chief procurement officer or the city engineer are authorized to issue administrative rules under this chapter. (Ord. 78-06 § 1, 2006)

18.95.150: ADMINISTRATIVE INTERPRETATIONS:

Pursuant to the authority granted under subsection 18.50.040B of this title, the building official may render interpretations of this chapter. Such interpretations shall conform with the intent and purpose of this chapter, and shall be made available in writing for public inspection upon request. (Ord. 78-06 § 1, 2006)

18.95.160: LIMITATIONS:

Nothing required under this chapter shall supersede any federal, state or local law, including, without limitation, other provisions of this code; or any contract, grant, or other funding requirement; or other standards or restrictions that may otherwise apply to an applicable building project. This chapter shall not apply whenever its application would disadvantage the city in obtaining federal funds. (Ord. 78-06 § 1, 2006)

CHAPTER 18.96
FIT PREMISES

18.96.010: TITLE:

This chapter may be referred to as the *SALT LAKE CITY FIT PREMISES ORDINANCE*. (Ord. 82-91 § 1, 1991)

18.96.020: EXCLUSIONS FROM APPLICATION OF CHAPTER:

The following arrangements are not governed by this chapter:

A. Residence at a detention, medical, geriatric, educational, counseling, or religious institution;

B. Occupancy under a contract of sale of a dwelling unit if the occupant is the purchaser;

C. Occupancy by a member of a fraternal or social organization in a building operated for the benefit of the organization;

D. Transient occupancy in a hotel, or motel (or lodgings subject to Utah code section 59-12-301); except that single room occupancy units ("SRO") shall be governed by this chapter. "SRO" means an existing housing unit with one combined sleeping and living room of at least seventy (70) square feet, but of not more than two hundred twenty (220) square feet, where the usual tenancy or occupancy of the same unit by the same person or persons is for a period of longer than one week. Such units may include a kitchen and a private bath; and

E. Occupancy by an owner of a condominium unit. (Ord. 82-91 § 1, 1991)

18.96.030: IDENTIFICATION OF OWNER AND AGENTS:

A. A property owner, or any person authorized to enter into an oral or written rental agreement on the property owner's behalf, shall disclose to the tenant in writing at or before the commencement of the tenancy the name, address and telephone number of:

1. The owner or person authorized to manage the premises; and

2. A local person authorized to act for and on behalf of the owner for the purpose of receiving notices and demands, and performing the property owner's obligations under this chapter and the rental agreement if the owner or manager reside outside of Salt Lake City.

B. A person who enters into a rental agreement and fails to comply with the requirements of this section becomes an agent of the property owner for the purposes of:

1. Receipt of notices under this chapter; and

2. Performing the obligations of the property owner under this chapter and under the rental agreement.

C. The information required to be furnished by this section shall be kept current. This section is enforceable against any successor property owner, owner, or manager.

D. Every rental property with more than one unit rented without a written agreement shall have a notice posted in a conspicuous place with the name, address and telephone number of the owner or manager and local agent as required by subsection A of this section. (Ord. 82-91 § 1, 1991)

18.96.040: PROPERTY OWNER TO DELIVER POSSESSION OF DWELLING UNIT:

A. A copy of the lease or rental agreement, rules and regulations, an inventory of the condition of the premises, a list of all appliances and furnishings and a summary of this chapter shall be given to each tenant at the time the rental agreement is entered into. The summary shall be prepared by the city for the purpose of fairly setting forth the material provisions of this chapter and shall include information about mediation resources in the Salt Lake City area and shall encourage property owners and tenants to take advantage of mediation services. The property owner shall secure and retain the tenant's signed acknowledgment that the foregoing documents have been provided to the tenant. Such acknowledgment shall be returned to the property owner no later than three (3) days after the tenant takes possession of the dwelling unit.

Before entering into a rental agreement, the property owner shall disclose to the tenant any current notice by a utility provider to terminate water, gas, electrical or other utility service to the dwelling unit or to common areas of the building, the proposed date of termination, and any current uncorrected building or health code violation included in a deficiency list or notice from the Salt Lake City building and housing services or any other government entity.

B. By explicit written agreement, a property owner and a tenant may establish a procedure whereby the tenant notifies the property owner of needed repairs, makes those repairs and deducts the cost of the repairs from the rent due and owing.

C. A property owner may allocate any duties to the tenant by explicit written agreement. Such agreement must be clear and specific, boxed, in bold type or underlined. (Ord. 82-91 § 1, 1991)

18.96.050: PROPERTY OWNER TO MAINTAIN THE PREMISES AND EACH DWELLING UNIT:

A property owner shall:

A. Comply with the requirements of applicable building, housing and health codes and city ordinances and not rent the premises unless they are safe, sanitary, and fit for human occupancy;

B. Maintain the structural integrity of the building;

C. Maintain floors in compliance with safe load bearing requirements;

D. Provide exits, emergency egress, and light and ventilation in compliance with applicable codes;

E. Maintain stairways, porches, walkways and fire escapes in sound condition;

F. Provide smoke detectors and fire extinguisher as required by code;

G. Provide operable sinks, toilets, tubs and/or showers;

H. Provide heating facilities as required by code;

I. Provide kitchen facilities as required;

J. Provide running water;

K. Provide adequate hall and stairway lighting;

L. Maintain floors, walls and ceilings in good condition;

M. Supply window screens where required by code;

N. Maintain foundation, masonry, chimneys, water heater and furnace in good working condition;

O. Prevent the accumulation of stagnant water in the interior of any premises;

P. Maintain in good and safe working order and condition all electrical, plumbing, sanitary, heating, ventilating, air conditioning, and other facilities and appliances supplied by the property owner as required by applicable codes;

Q. Provide and maintain appropriate garbage receptacles and arrange for timely garbage removal as required by code;

R. Supply electricity, and hot water at all times and heat during at least the months of October through April and as weather conditions might otherwise reasonably warrant, except where the dwelling unit is so constructed that electricity, heat or hot water is within the exclusive control of the tenant and supplied by a direct public utility connection;

S. Once proof of pest infestation has been established, be responsible for initiation of pest control measures. In no instance shall a property owner be required to apply pesticides contrary to label directions;

T. Not interrupt or disconnect utility service;

U. Provide adequate locks to exterior doors and furnish keys to tenants as required by applicable codes;

V. Maintain the dwelling unit in a reasonably insulated and weather tight condition as required by the building and housing and Utah state energy conservation codes;

W. Provide for and protect each tenant's peaceful enjoyment of the premises;

X. Ensure that repairs, decorations, alterations, or improvements, or exhibiting the dwelling unit shall not unreasonably interfere with the tenants' right to quiet enjoyment of the premises;

Y. Provide a mailbox; and

Z. Provide separate meters for each tenant for gas and electricity or include charges for utility services in the rent. (Ord. 82-91 § 1, 1991)

18.96.060: TENANT TO MAINTAIN DWELLING UNIT:

A tenant shall:

A. Comply with all appropriate requirements of the rental agreement and applicable provisions of building, housing and health codes;

B. Maintain the premises occupied in a clean and safe condition and not unreasonably burden any common area;

C. Dispose of all garbage and other waste in a clean and safe manner and avoid leaving garbage or litter in hallways, porches, patios and other common areas;

D. Maintain all plumbing fixtures in as sanitary a condition as the fixtures permit and avoid obstructing sinks, toilets, tubs, showers and other plumbing drains;

E. Use all electrical, plumbing, sanitary, heating, and other facilities and appliances in a reasonable manner;

F. Not destroy, deface, damage, impair or remove any part of the premises or knowingly permit any person to do so;

G. Promptly inform the property owner of any defective conditions or problems at the premises;

H. Not interfere with the peaceful enjoyment of the residential rental unit of another renter;

I. Upon vacation, restore the premises to their initial condition except for reasonable wear and tear or conditions caused by the property owner;

J. Be current on all payments required by the rental agreement and this chapter;

K. Not increase the number of occupants above that specified in the rental agreement without written permission of the owners;

L. Not modify or paint the premises without the express written permission of the property owner/agent;

M. Dispose of oil, car batteries, and other hazardous waste materials away from the rental premises, and in a manner prescribed by federal and local laws; and

N. Not require the owner to correct or remedy any condition caused by the renter, the renter's family or the renter's guests or invites by inappropriate use of the property during the rental term or any extension of it. (Ord. 82-91 § 1, 1991)

18.96.070: RULES AND REGULATIONS:

A property owner may adopt rules or regulations concerning the tenant's use and occupancy of the premises which become a part of the rental agreement if they apply to all tenants in the premises in a nondiscriminatory manner, do not conflict with the lease, state law or city ordinance, and are provided to the tenant before the tenant enters into the rental agreement. Rules, regulations or lease terms can, by agreement between the parties, be more favorable to the tenant than allowed by state law or city ordinance but cannot be more restrictive. Rules may be modified from time to time by the property owner. However, no rule adopted after the commencement of any rental agreement shall substantially modify the existing terms, conditions or rules without written consent of the tenant. (Ord. 82-91 § 1, 1991)

18.96.080: ACCESS:

A. A tenant shall not unreasonably withhold consent to the property owner to enter into the dwelling unit in order to make necessary or agreed repairs, decorations, alterations, or improvements; or exhibit the dwelling unit to prospective purchasers, tenants, or work people.

B. A property owner may enter the dwelling unit without consent of the tenant in case of emergency.

C. Except in case of emergency the property owner shall give the tenant at least twenty four (24) hours' notice of plans to enter and may enter only between eight o'clock (8:00) A.M. and ten o'clock (10:00) P.M.

D. A property owner has no other right of access except:

1. Pursuant to court order;
2. To make repairs requested by the tenant pursuant to sections 18.96.110 and 18.96.120 of this chapter; or
3. If the tenant has abandoned the premises as defined in section 78-36-12(3), Utah Code Annotated, or any successor provision. (Ord. 82-91 § 1, 1991)

18.96.090: PROPERTY OWNER AND TENANT REMEDIES FOR ABUSE OF ACCESS:

A. If the tenant refuses to allow lawful access, the property owner may obtain injunctive relief to compel access, or terminate the rental agreement and commence an eviction action. In either case, the property owner may recover actual damages and reasonable attorney fees.

B. If the property owner makes an unlawful entry or makes repeated demands for entry which harass the tenant, the tenant may obtain injunctive relief to prevent the recurrence of the conduct or terminate the rental agreement and vacate the premises. In either case, the tenant may recover the lesser of the actual damages or damages equal to one month's rent and reasonable attorney fees. (Ord. 82-91 § 1, 1991)

18.96.100: FAILURE TO DELIVER POSSESSION:

If the property owner fails to deliver possession of the dwelling unit to the tenant as promised in the rental agreement, rent abates until possession is delivered. Alternatively, the tenant may terminate the rental agreement by written notice to the property owner and recover all prepaid rent and security deposits and actual damages. (Ord. 82-91 § 1, 1991)

18.96.110: REPAIR OF SPECIFIED FAILURES:

In the event of the failures specified below the property owner shall take reasonable steps to begin repairing the failures within the following specified time periods after receipt of written notice of the failure delivered to the person identified in subsection 18.96.030A2 of this chapter, and complete the repairs with reasonable diligence:

A.	Inoperable toilet	24 hours
B.	Tub, shower or kitchen and bathroom sink with inoperable drain or no hot or cold water	48 hours
C.	Inoperable refrigerator or cooking range or stove	48 hours
D.	Nonfunctioning heating (during a period where heat is reasonably necessary) or electrical system	24 hours
E.	Inoperable electric fixture	72 hours
F.	Broken exterior door or inoperable or missing exterior door lock	48 hours
G.	Broken window with missing glass	96 hours
H.	Inoperable exterior lighting	96 hours
I.	Broken stair or balustrade	24 hours
J.	Inoperable or missing smoke detector required by code	24 hours
K.	Inoperable required fire sprinkler system (if smoke detectors are not present or operating)	24 hours
L.	Inoperable required fire sprinkler system (if smoke detectors are installed and operable)	96 hours
M.	Broken or leaking water pipes causing an imminent threat to life, safety or health	24 hours
N.	Other broken or leaking water pipes	72 hours
O.	Disconnection of electrical, water or natural gas service caused by property owner	24 hours

The tenant shall grant the property owner reasonable access to perform the repairs required in this section. (Ord. 82-91 § 1, 1991)

18.96.120: TENANT REPAIR AND DEDUCT:

If the property owner fails to begin making the repairs required by section 18.96.110 of this chapter, within the specified times, and the tenant is current on all rent and other payments to the property owner, the tenant may cause the repairs to be made subject to the following provisions:

A. Critical Repairs: If the repairs involve an inoperable toilet, lack of heat during a period for which heat is required, broken or leaking water pipes posing an immediate threat to life, safety or health or a complete lack of running water or disconnected gas, electric or water service, the tenant may, upon the expiration of the notice period specified in section 18.96.110 of this chapter, cause the necessary repairs to be made.

1. In making such repairs the tenant must use a licensed contractor if such a licensed contractor is required by applicable building or housing codes.
2. If a licensed contractor is required for the work, the tenant shall make reasonable efforts to obtain two (2) bids for the work and, if bids are obtained, shall contract for the work to be done by the lowest bidder.

B. Noncritical Repairs: If the required repairs are not critical repairs subject to the provisions of subsection A of this section, the tenant, after the expiration of the notice time required by section 18.96.110 of this chapter, shall give the property owner or property owner's agent identified in section 18.96.030 of this chapter a second written notice of intent to repair and deduct. This second notice shall be either delivered and served personally upon the property owner or agent or sent by both certified and regular mail.

1. The second notice shall state the nature of the problem, the date the tenant sent the first notice required by section 18.96.110 of this chapter, and the intention of the tenant to cause the repairs to be done and to deduct the cost from the rent if the property owner does not make the repairs.
2. The property owner shall begin making the required repairs within forty eight (48) hours after the hand delivery of the second notice or by the end of the second calendar day after the date of mailing of the second notice and complete the repairs with reasonable diligence.
3. If the property owner has not begun the required repairs within the time specified in subsection B2 of this section, the tenant may cause the repairs to be made.
4. In making such repairs the tenant must use a licensed contractor if such a licensed contractor is required by applicable building or housing codes.
5. If a licensed contractor is required for the work, the tenant shall make reasonable efforts to obtain two (2) bids for the work, and, if bids are obtained, shall contract for the work with the low bidder.
6. If a licensed contractor is not required for the work, the tenant may do the work on his or her own or contract for the work to be done at a reasonable cost.

C. Deductible Amount: For any repairs made pursuant to this section, the tenant may deduct from future rent the actual and reasonable cost of the repairs performed up to a maximum deduction of four hundred dollars ($400.00); provided however, tenant shall furnish all original paid receipts to the property owner.

D. Nontermination: The property owner may not terminate the tenant's tenancy for the tenant's deduction of rent for repairs made pursuant to this section nor may the property owner terminate the tenancy until the tenant's costs, not to exceed four hundred dollars ($400.00), for repairs made under this section have been offset by deducted rent.

E. Tenant Caused Damages: The repair and deduct provisions of this section shall not be applicable to any damages caused or repairs necessitated by actions of the tenant or the tenant's invited guests or other occupants of the dwelling unit. (Ord. 82-91 § 1, 1991)

18.96.130: RETALIATORY CONDUCT PROHIBITED:

A. Except as provided in this section and section 57-22-4, Utah Code Annotated, a property owner may not terminate a rental agreement or bring or threaten to bring an eviction action because the tenant has in good faith:

1. Complained of code violations at the premises to a governmental agency, elected representative or public official charged with responsibility for enforcement of a building, housing, health or similar code;
2. Complained of a building, housing, health or similar code violation or an illegal property owner practice to a community organization or the news media;
3. Sought the assistance of a community organization or the news media to remedy code violation or illegal property owner practice;
4. Requested the property owner to make repairs to the premises as required by this chapter, a building or health code, other regulation, or the residential rental agreement;
5. Become a member of a tenants' union or similar organization;
6. Testified in any court or administrative proceeding concerning the condition of the premises; or
7. Exercised any right or remedy provided by law. (Ord. 82-91 § 1, 1991)

CHAPTER 18.97
MITIGATION OF RESIDENTIAL HOUSING LOSS

18.97.010: PURPOSE:

The purpose of this chapter is to mitigate the loss of affordable housing stock due to new development with due consideration for vested or protected property rights. (Ord. 94-12, 2012)

18.97.020: HOUSING MITIGATION CONDITION PRECEDENT TO DEMOLITION OF RESIDENTIAL UNITS:

A. Housing Mitigation Plan: Except as provided in subsection B of this section, any application for a demolition permit which, if issued, will result in a loss of one or more residential units located in a residential zone; any petition for a conditional use permit to authorize or expand vehicle parking in a residential or mixed use zone; and any petition for a zoning change that would permit a nonresidential use of land, that includes within its boundaries residential dwelling units, may not be approved until a housing mitigation plan is approved by the city. The housing mitigation plan shall be proposed and submitted to the city's planning director and the director of community and economic development and shall be accompanied by a housing impact statement.

B. Exception: This section shall not apply to any housing which:

1. Is a nonconforming use as provided by relevant provisions of title 21A, "Zoning", of this code; or

2. Is located on property for which an applicable master plan or the current zoning envisions exclusive nonresidential use; or

3. a. Is proposed to be demolished for health or safety reasons as provided in section 18.64.040 or chapter 18.48 of this title or their successors.

b. Notwithstanding subsection B3a of this section, housing which is demolished for health or safety reasons, which is the result of neglect pursuant to section 18.64.045 of this title, shall be subject to the provisions of this section.

C. Housing Impact Statement: The housing impact statement shall:

1. Identify the essential adverse impacts on the residential character of the area subject of the petition;

2. Identify by address any dwelling units targeted for demolition, following the granting of the petition;

3. Separately for each dwelling unit targeted for demolition, state its current fair market value, if that unit were in a reasonable state of repair and met all applicable building, fire and health codes;

4. State the number of square feet of land zoned for residential use that would be rezoned or conditionally permitted to be used for purposes sought in the petition, other than residential housing and appurtenant uses; and

5. Specify a mitigation plan to address the loss of residential zoned land, residential units or residential character. (Ord. 94-12, 2012)

18.97.030: OPTIONS FOR MITIGATING RESIDENTIAL LOSS:

Petitioners subject to the requirements of this chapter may satisfy the need for mitigation of any residential housing unit losses by any one of the following methods:

A. Replacement Housing: The petitioner may agree, in a legal form satisfactory to the city attorney, to construct the same number of residential dwelling units proposed for demolition, within:

1. The city council district in which the land subject of the petition is located; or

2. An adjoining council district, if the mitigation site is within a one mile radius of the demolition site.

3. Any such agreement shall include adequate security to guarantee completion within two (2) years of the granting of a demolition permit.

B. Fee Based On Difference Between Housing Value And Replacement Cost: The petitioner may pay to the city housing trust fund the difference between the fair market value of the housing units planned to be eliminated or demolished and the replacement cost of building new units of similar square footage and meeting all existing building, fire and other applicable law, excluding land values.

C. Fee, Where Deteriorated Housing Exists, Not Caused By Deliberate Indifference Of Landowner:

1. Request By Petitioner For Flat Fee Consideration: In the event that a residential dwelling unit is targeted or proposed for demolition and is in a deteriorated state from natural causes, such as fire, earthquake or aged obsolescence that is not occasioned by the deliberate acts or omissions to act on the part of the petitioner or his predecessors in interest, which detrimental condition reduces a dwelling unit's fair market value or habitability as a residential dwelling unit, the petitioner may request an exemption from the above two (2) methods of mitigation from the director of the city's department of community and economic development as provided below. A judgment as to whether deterioration has occurred as the result of deliberate indifference shall be based on a preponderance of evidence.

2. Required Facts Of Natural Deterioration/Increase Fair Market Value Of Units To Be Demolished: The petitioner may submit to the director of the city's department of community and economic development every fact known to support the proposition that the residential dwelling units were not purposely allowed to deteriorate by lack of reasonable maintenance, ordinary and prudent repairs, or other acts or omissions to act. The value of the unit(s) targeted or proposed for demolition may be increased to the fair market value that the units would have, if each unit was in a state of habitability and minimally meeting applicable building codes and other applicable law, excluding land value. This enhanced value will then be applied in thus computing any housing mitigation payment provided in subsection B of this section.

3. Flat Fee Mitigation Payment: In the event that the petitioner actually and reasonably demonstrates to the city's director of community and economic development that the costs of calculating and analyzing the various methods of mitigation are unreasonably excessive in relationship to the rough estimated costs of constitutionally permitted mitigation, the department director may recommend to the city council that a flat rate be paid by the petitioner to the city's housing trust fund. This flat rate shall be a sum not in excess of three thousand three hundred twenty two dollars twenty cents ($3,322.20) per dwelling unit to be demolished. Such flat fee shall be adjusted for inflation as of January 1 of each calendar year following the initial adoption hereof, based on the consumer price index for the previous twelve (12) months, or three percent (3%), whichever result is less. (Ord. 94-12, 2012)

18.97.040: HOUSING MITIGATION JUSTIFICATION TO COUNCIL:

A. Report To City Before Rezoning Hearings: The director of the department of community and economic development, or designee, shall prepare a report justifying the method of housing mitigation recommended by the director, including the factual basis upon which it is premised and a factually based justification for the recommendation. This report shall be submitted to the planning commission in sufficient time for its deliberation concerning the advisability of effectuating the petitioner's request for a zoning change. The petitioner may, likewise, submit its proposal and the factual and legal justification for mitigation, if any, or why the director's recommendations are appropriate or should be modified. The commission shall include in its evaluation an evaluation of the adequacy of the housing loss mitigation plan, proposed by the petitioner and that recommended by director of the department of community and economic development.

B. Report To Planning Director On Conditional Use Permit Petitions: In the event of a conditional use permit, said report shall be submitted to the city's planning director. The report shall be duly evaluated, considered and included in the decision regarding any conditional use permit. The planning director, or designee, shall memorialize, in writing, the factual basis supporting any decision dealing with the housing mitigation component of any such conditional use permit and include this finding and evaluation in the file for due consideration should there be an appeal relating thereto.

C. Report To Housing Advisory And Appeals Board: A housing mitigation plan required under chapter 18.64, "Demolition", of this title shall be considered by the housing advisory and appeals board as provided in such chapter. The director of the department of community and economic development shall prepare a report justifying the method of housing mitigation recommended by the director, including the factual basis upon which it is premised and a factually based justification for the recommendation. This report shall be submitted to the housing advisory and appeals board in sufficient time for its deliberation concerning the advisability of effectuating the petitioner's request for a demolition permit. The petitioner may, likewise, submit its proposal and the factual and legal justification for mitigation, if any, or why the director's recommendations are appropriate or should be modified. The board shall include in its evaluation an evaluation of the adequacy of the housing loss mitigation plan, proposed by the petitioner and that recommended by director of the department of community and economic development. (Ord. 94-12, 2012)

18.97.050: NATURE AND REVIEW OF ALLEGED UNCONSTITUTIONAL OR ILLEGAL HOUSING LOSS MITIGATION:

Should any petitioner or other person, corporation, or entity claim that this chapter or any application of it is illegal, unconstitutional, or may constitute or effectuate an unconstitutional taking of property without appropriate compensation, either per se or as applied, the city shall be notified as soon as practicable. The provisions of title 2, chapter 2.66, "Constitutional Takings", of this code shall apply to each such claim. (Ord. 94-12, 2012)

CHAPTER 18.98
IMPACT FEES

18.98.010: FINDINGS AND AUTHORITY:

The city council (the "council") finds and determines that growth and development activity in the city will create additional demand and need for roadway facilities, publicly owned parks, open space and recreational facilities and trails, and police and fire facilities in the city, and the council finds that persons responsible for growth and development activity should pay a proportionate share of the cost of such planned facilities needed to serve the growth and development activity. The council further finds that impact fees are necessary to achieve an equitable allocation to the costs borne in the past and to be borne in the future, in comparison to the benefits already received and yet to be received. Therefore, pursuant to Utah code title 11, chapter 36, the council adopts this chapter to assess impact fees for planned facilities. The provisions of this chapter shall be liberally construed in order to carry out the purposes of the council in establishing the impact fee program. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.020: DEFINITIONS:

The following definitions shall apply for purposes of this chapter unless the context clearly requires otherwise. Terms otherwise not defined herein shall be defined by their usual and customary meanings.

ACCESSORY STRUCTURE: A subordinate building or structure, located on the same lot with the main building, occupied by or devoted to an accessory use. When an accessory structure is attached to the main building in a substantial manner, as by a wall or roof, such accessory structure shall be considered part of the main building.

ACCESSORY USE: A use that:

A. Is subordinate in area, extent and purpose to, and serves a principal use;

B. Is customarily found as an incident to such principal use;

C. Contributes to the comfort, convenience or necessity of those occupying, working at or being serviced by such principal use;

D. Is located on the same zoning lot as such principal use; and

E. Is under the same ownership or control as the principal use.

ACT: The Utah impact fees act, Utah code title 11, chapter 36, as in existence on the effective date hereof or as hereafter amended.

BUILDING PERMIT: An official document or certification which is issued by the building official of the city and which authorizes the construction, alteration, enlargement, conversion, reconstruction, remodeling, rehabilitation, erection, demolition, moving or repair of a building or structure.

CAPITAL FACILITIES: The facilities or improvements included in a capital budget.

CAPITAL FACILITIES PLAN OR THE PLAN: The capital facilities plan of the city, as amended from time to time, and supporting documents, and as adopted pursuant to Utah code section 11-36-201, as amended.

CHANGE IN USE: A. A change from commercial use to residential use; or

B. In the northwest quadrant only, a change from office or industrial use to retail use.

CITY: Salt Lake City, Utah.

CITY ENGINEER: The duly appointed and acting city engineer for the city.

COUNCIL: The municipal council of the city.

DEPARTMENT: The department of community and economic development of the city.

DEVELOPER: An individual, group of individuals, partnership, corporation, limited liability company, association, municipal corporation, state agency, or other person undertaking development activity, and their successors and assigns.

DEVELOPMENT ACTIVITY: Any construction or expansion of a building, structure or use; any change in use of a building or structure; the subdivision of land; the seeking of plat approval, planned development approval, site plan approval, lot line adjustment, or conditional use permit approval; or any other change in use of land that creates additional demand and need for public streets and roads, publicly owned parks, open space recreational facilities and trails, police or fire facilities.

DEVELOPMENT APPROVAL: Any written authorization from the city, other than a building permit, which authorizes the commencement of a development activity, including, but not limited to, plat approval, planned development approval, site plan approval, lot line adjustment, and a conditional use permit.

DIRECTOR: The director of the department of community and economic development of the city.

ENCUMBERED: To reserve, set aside, or otherwise earmark impact fees in order to pay for commitments, contractual obligations, or other liabilities incurred for planned facilities.

FEE PAYER: A person, corporation, partnership, incorporated association, or any other similar entity, or a department or bureau of any governmental entity or municipal corporation commencing a development activity which creates the demand for planned facilities and which requires the issuance of a building permit. "Fee payer" includes an applicant for an impact fee credit.

FIRE IMPACT FEE: The impact fee designated to pay for fire facilities.

HUD: The United States department of housing and urban development.

IMPACT FEE: A payment of money imposed by the city on development activity pursuant to this chapter as a condition of granting a building permit in order to pay for the planned facilities needed to serve new growth and development activity. "Impact fee" does not include a tax, a special assessment, a hookup fee, a fee for project improvements, a reasonable permit or application fee, the administrative fee for collecting and handling impact fees, the cost of reviewing independent impact fee calculations, or the administrative fee required for an appeal.

IMPACT FEE ACCOUNT OR ACCOUNT: The account or accounts established for the planned facilities for which impact fees are collected.

INDEPENDENT IMPACT FEE CALCULATION: The impact calculation or economic documentation prepared by a fee payer to support the assessment of an impact fee other than by the use of the schedule in section 18.98.190, "Appendix A; Impact Fee Schedule", of this chapter.

LOT LINE ADJUSTMENT: Shall have the same meaning as set forth in title 20, chapter 20.08 of this code.

NET POSITIVE FISCAL IMPACT: New revenue to the city in excess of the cost of the necessary infrastructure and municipal services attributable to a development activity.

NORTHWEST QUADRANT: The area bounded on the south by Interstate 80, on the west by the city limits, on the north by the city limits, and on the east by a line, running north and south, which is one thousand feet (1,000') west of and parallel to the centerline of sections 23, 26, and 35 of township 1 north, range 2 west, Salt Lake base and meridian survey.

OWNER: The owner of record of real property, or a person with an unrestricted written option to purchase property; provided, that if the real property is being purchased under a recorded real estate contract, the purchaser shall be considered the owner of the real property.

PARK IMPACT FEES: The impact fee designated to pay for publicly owned parks, open space, recreational facilities and trails.

PLANNED DEVELOPMENT OR PD: Has the same meaning as set forth in section 21A.62.040 of this code.

PLANNED FACILITIES: Roadway facilities, parks, open space and recreational facilities and trails, police and fire facilities included in the capital improvements plan of the city.

POLICE IMPACT FEE: The impact fee designated to pay for police facilities.

QUALIFYING IMPROVEMENT: Any portion of the infrastructure listed in the capital facilities plan.

RESIDENTIAL UNIT: Any building or portion thereof which contains living facilities including provisions for sleeping, cooking, eating, and sanitation, as required by the city, for not more than one family, and including site built buildings, manufactured homes and modular homes.

ROADWAY FACILITIES IMPACT FEE: The impact fee designated to pay for roadway facilities.

STANDARD OF SERVICE: The quantity and quality of service which the director has determined to be appropriate and desirable for the city. A measure of the standard of service may include, but is in no way limited to, maximum levels of congestion on city streets and roads, maximum commute times, maximum wait at stops, minimum police service capabilities, minimum fire suppression capabilities, minimum park space per capita for a variety of types of parks, minimum distance from residences to parks, and any other factors the director may deem appropriate.

STATE: The state of Utah.

WESTSIDE INDUSTRIAL AREA: The area bounded on the east by Redwood Road, on the west by the city limits, on the north by Interstate 80, and on the south by 2100 South Street. (Ord. 38-08, 2008: Ord. 6-04 § 14, 2004: Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.030: APPLICABILITY:

The collection of impact fees shall apply to all new development activity in the city unless otherwise provided herein. Until any impact fee required by this chapter has been paid in full, no building permit for any development activity shall be issued. A stop work order shall be issued on any development activity for which the applicable impact fee has not been paid in full.

A. Park impact fees shall apply only to new residential development activity.

B. The movement of a structure onto a lot shall be considered development activity and shall be subject to the impact fee provisions, unless otherwise provided herein. (Ord. 26-12, 2012)

18.98.040: SERVICE AREAS:

A. The following impact fee service areas are hereby established:

1. For the purpose of park impact fees, the service area shall be all of the incorporated area of the city, including future annexed area.

2. For the purpose of fire impact fees, the service area shall be all of the incorporated area of the city, including future annexed area.

3. For the purpose of roadway facilities impact fees, the service area shall be all of the incorporated area of the city, including future annexed area.

4. For the purpose of police impact fees, the service area shall be all of the incorporated area of the city, including future annexed area.

B. Impact fees shall be assessed only on development activity within the service area.

C. Impact fees collected within a service area shall be spent within that service area.

D. The appropriateness of the designation and boundaries of the service areas shall be reviewed periodically by the city as part of the impact fee revision process. Following such review and a public hearing, the service areas may be amended. (Ord. 26-12, 2012: Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.050: CALCULATION BASED ON FEE SCHEDULE:

Impact fees shall be calculated as follows:

A. Unless an applicant requests an independent impact fee calculation as set forth in section 18.98.160 of this chapter, the impact fees shall be calculated for the proposed development activity based on the permit allowing the use, according to the fee schedule in section 18.98.190, "Appendix A; Impact Fee Schedule", of this chapter, less any applicable offsets under section 18.98.070 of this chapter.

B. The impact fee schedule in section 18.98.190, "Appendix A; Impact Fee Schedule", of this chapter is hereby adopted and incorporated herein by reference.

C. The units of development activity specified in the fee schedule shall be interpreted as follows:

1. Residential impact fees shall be collected by unit. For the purposes of this chapter, modular or manufactured homes are considered residential.

2. Building square footage shall be measured in terms of gross floor area, which is the area included within the exterior walls of a building or portion thereof, exclusive of vent shafts and courts. The floor area of a building, or portion thereof, not provided with surrounding exterior walls shall be the usable area under the horizontal projection of the roof or floor above.

D. For categories of uses not specified in the applicable impact fee schedule, the director shall apply the category of use set forth in the applicable fee schedule that is deemed to be most similar to the proposed use.

E. If the development plan approval or permit for the proposed development activity indicates a mix of uses in the development, the impact fees shall be calculated separately for each use according to the fee schedule, and the results aggregated.

F. For an addition to or remodeling or replacement of existing structures, or for a change in use of an existing structure, the impact fee to be paid shall be the difference, if any, between:

1. The fee, if any, that would be payable for existing development activity on the site or, in the case of demolition or removal of a structure, the previous development activity on the site; provided that the demolition or removal has occurred within twelve (12) months after the date of submittal of the application for which impact fees are assessed; and

2. The fee, if any, that would be payable for the total development activity on the site for the new development.

G. Upon written request of an applicant, the director shall provide an estimate of the current fee based on the data provided by the applicant. However, the director shall not be responsible for determining, at such preliminary date, the accuracy of the information provided, nor shall such estimate provide any vested rights.

H. In any fiscal year in which an impact fee update is not conducted by the city, impact fees will be adjusted to reflect inflationary costs using the "Engineering News-Record" construction cost index as of January 1 of that fiscal year. The adjustment shall be effective on October 1 of the next fiscal year. The city shall provide notice to the public of any such adjustment sixty (60) days in advance of the effective date of such adjustment. (Ord. 27-07 § 1, 2007: Ord. 3-06 § 1, 2006: Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.060: EXEMPTIONS:

A. The following shall be exempted from the payment of all impact fees:

1. Replacement of a structure with a new structure of the same size and use at the same site or lot when a building permit for such replacement is obtained within twelve (12) months after the demolition or destruction of the prior structure or mobile home and the replacement is completed within twenty four (24) months after the granting of the building permit.

2. Alterations, expansion, enlargement, remodeling, rehabilitation, or conversion of an existing unit where no additional units are created and the use is not materially changed.

3. Construction of accessory structures that will not create significant impacts on the planned facilities.

4. Miscellaneous accessory improvements to use, including, but not limited to, fences, walls, swimming pools, and signs.

5. Demolition or moving of a structure.

6. Placing on a lot in the city a temporary construction trailer or office, but only for the life of the building permit issued for the construction served by the trailer or office.

7. Any development activity not involving the construction or placement of a structure or building, including, but not limited to, the mere subdivision of land, installation of utilities, or the use of land for limited recreational, agricultural, filling or dredging purposes, which, as demonstrated by the developer in writing to the director, will not result in a net increase in demand on facilities covered by impact fees.

B. Nonresidential construction shall be exempted from the payment of the park impact fees.

C. Properties not located in the westside industrial area or the northwest quadrant shall be exempted from the payment of roadway impact fees.

D. If, prior to the effective date hereof and in anticipation of the imposition of impact fees, the city and a developer entered into a written agreement providing for the payment of fees, the dedication of land, or the construction of planned facilities by the developer in connection with a development activity, with specific reference to improvements identified in the capital facilities plan, such development activity shall be exempted from the payment of impact fees. The units in such development may be charged a reduced fee pursuant to an independent impact fee calculation under section 18.98.160 of this chapter. The developer shall provide to the director documentation demonstrating compliance with the terms of the voluntary agreement.

E. The following housing may be exempt from the payment of impact fees, to the following extent:

1. A one hundred percent (100%) exemption shall be granted for rental housing for which the annualized rent per dwelling unit does not exceed thirty percent (30%) of the annual income of a family whose annual income equals sixty percent (60%) of the median income for Salt Lake City, as determined by HUD;

2. A one hundred percent (100%) exemption shall be granted for nonrental housing for which the annualized mortgage payment does not exceed thirty percent (30%) of the annual income of a family whose annual income equals eighty percent (80%) of the median income for Salt Lake City, as determined by HUD;

3. A seventy five percent (75%) exemption shall be granted for nonrental housing for which the annualized mortgage payment does not exceed thirty percent (30%) of the annual income of a family whose annual income equals ninety percent (90%) of the median income for Salt Lake City, as determined by HUD; and

4. A fifty percent (50%) exemption shall be granted for nonrental housing for which the annualized mortgage payment does not exceed thirty percent (30%) of the annual income of a family whose annual income equals one hundred percent (100%) of the median income for Salt Lake City, as determined by HUD.

F. The director shall determine whether a particular development activity falls within an exemption identified in this section, in any other section, or under other applicable law. Determinations of the director shall be in writing and shall be subject to the appeals procedures set forth in this chapter. (Ord. 26-12, 2012: Ord. 25-03 § 1, 2003: Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.070: OFFSETS TO IMPACT FEES:

Offsets against the impact fee that would otherwise be due for a development activity may be approved by the director in accordance with the following provisions:

A. An offset shall be granted for qualifying improvements that are required to be made by a developer as a condition of development approval.

B. Offsets shall be allowable and payable only to offset impact fees otherwise due for the same category of improvements. Unless otherwise expressly agreed to in writing by the city, offsets shall not result in reimbursement from the city or constitute a credit against future fees, and shall not constitute a liability of the city for any deficiency in the offset.

C. Offsets shall be given only for the value of any construction of improvements or contribution or dedication of land or money by a developer or his predecessor in title or interest for qualifying improvements of the same category for which an impact fee was imposed.

D. The person applying for an offset shall be responsible for providing and paying for appraisals of land and improvements, construction cost figures, and documentation of all contributions and dedications necessary to the computation of the offset claimed. The director shall not grant offsets to any person who cannot provide such documentation in such form as the director may reasonably require.

E. The value of land dedicated or donated shall be based on the appraised land value of the parent parcel on the date of transfer of ownership to the city, as determined by an MAI certified appraiser who was selected from a list of city approved appraisers provided by the director and paid for by the applicant, who used generally accepted appraisal techniques.

F. Offsets provided for qualifying improvements meeting the requirements of this section shall be valid from the date of approval until ten (10) years after the date of approval or until the last date of construction of the project, whichever occurs first.

G. The right to claim offsets shall run with the land and may be claimed only by owners of property within the development area for which the qualifying improvement was required.

H. Any claim for offsets must be made in writing, not later than the time of submittal of a building permit application or an application for another permit subsequent to development approval that is subject to impact fees. Any claim not so made shall be deemed waived. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.080: DEVELOPER AGREEMENTS FOR IMPACT FEES:

Where a development activity includes or requires a qualifying improvement, the city and the developer may agree in writing to have the developer participate in the financing or construction of part or all of the qualifying improvements. Such agreement may provide for cash reimbursements, offsets, or other appropriate compensation to the developer for the developer's participation in the financing or construction of the qualifying improvements.

The agreement shall include:

A. The estimated cost of the qualifying improvements, using the lowest responsive bid by a qualified bidder, which bid is approved by the director; or, if no bid is available, the estimated cost certified by a licensed Utah engineer and approved by the director;

B. A schedule for initiation and completion of the qualifying improvement;

C. A requirement that the qualifying improvement be designed and completed in compliance with any applicable city or state laws or regulations; and

D. Such other terms and conditions as deemed necessary by the city. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.090: CHALLENGES AND APPEALS:

A. 1. Any fee payer that has paid an impact fee may challenge the impact fee by filing:

a. An appeal pursuant to subsection B of this section;

b. A request for arbitration as provided in Utah code section 11-36-402(1), as amended; or

c. An action in district court as provided in Utah code 11-36-401(4)(c)(iii), as amended.

Such a challenge may not be initiated unless it is initiated within one year after the fee payer pays the impact fee.

2. The sole remedy for a challenge under subsection A1 of this section shall be a refund of the difference between what the fee payer paid as an impact fee and the amount the impact fee should have been if it had been correctly calculated.

3. Nothing in this section shall be construed to require a fee payer to exhaust administrative remedies with the city before filing an action in district court under subsection A1 of this section.

B. 1. Any fee payer may pay the impact fees imposed by this chapter under protest in order to obtain a building permit, and thereafter may appeal the validity or amount of such payment to the council. Appeals regarding the impact fees imposed on any development activity may only be taken by the fee payer of the property where such development activity will occur. No appeal shall be permitted unless and until the impact fees at issue have been paid.

2. Appeals shall be made by filing a written notice of appeal with the council, specifying the grounds thereof, and depositing with the council an administrative fee in the amount of fifty dollars ($50.00). The appellant shall also submit, in writing, a request for information relative to the impact fee. The council shall, within fourteen (14) calendar days after receiving the notice of appeal, hold a hearing to consider the evidence and arguments of the appellant, and shall record the hearing and retain such evidence. The council shall issue a written decision on the appeal within thirty (30) calendar days after the date the appeal was filed.

C. If, pursuant to Utah code section 11-36-402, as amended, a person submits an impact fee challenge to arbitration, the city shall not agree to participate in binding arbitration. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.100: COLLECTION:

The impact fees for all new development activity shall be calculated and collected in conjunction with the application for the first building permit for such development activity. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.110: FUND ACCOUNTING FOR IMPACT FEES:

A. The city shall establish a separate interest bearing accounting fund for each type of planned facility for which an impact fee is collected. Such fees shall be invested by the city and the yield on such fees, at the actual rate of return to the city, shall be credited to such accounting fund periodically in accordance with the accounting policies of the city, subject to a deduction by the city of a reasonable cash management fee. Such funds need not be segregated from other city monies for banking purposes. Interfund loans may be made between such accounting funds.

B. Any yield on such accounting fund into which the fees are deposited shall accrue to that fund and shall be used for the purposes specified for such fund.

C. The city shall maintain and keep financial records for each such accounting fund, showing the source and amount of all monies collected, earned and received by the fund, and each expenditure from such fund, in accordance with normal city accounting practices, and at the end of each fiscal year shall prepare a report on each such fund showing such information. The records of such fund shall be open to public inspection in the same manner as other financial records of the city.

D. Impact fees shall be expended or encumbered within six (6) years after their receipt, unless the council identifies, in writing, an extraordinary and compelling reason to hold the impact fees longer than six (6) years. Under such circumstances, the council shall establish an absolute date by which the impact fees shall be expended. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.120: REFUNDS:

A. If the city fails to expend or encumber the impact fees as required by subsection 18.98.110D of this chapter, all current owners of the property on which impact fees have been paid shall receive a pro rata refund of such impact fees. In determining whether impact fees have been expended or encumbered, impact fees shall be considered expended or encumbered on a first in, first out basis.

B. The city shall notify the owner or owners of property for which such a refund may be made, by first class mail deposited with the United States postal service, at the last known address of such property owners.

C. In order to receive such a refund, the owner or owners of the subject property must, within twelve (12) months after the mailing of such notice by the city, make a written request for a refund to the director, including a certification that such person is a record owner of the property and that he or she is entitled to the refund. The director may rely on such certification, in the absence of a written certification by another person asserting that the proposed payee is not the proper payee. If in doubt as to whom to pay such funds, the director may deposit the funds with an appropriate court for disposition as the court may determine. In that event, the city may deduct from the funds deposited an amount equal to the reasonable costs, including attorney fees, of causing the funds to be deposited with the court.

D. Any impact fees for which no application for a refund has been made within such one year period shall be retained by the city and expended on appropriate planned facilities.

E. Refunds of impact fees under this section shall include any interest earned on the impact fees by the city.

F. When the city seeks to terminate any or all components of the impact fee program, all unexpended or unencumbered impact fees from any terminated component or components, including interest earned, shall be refunded pursuant to this section. The city shall publish notice of such termination and the availability of refunds in a newspaper of general circulation at least two (2) times and shall notify all owners of property for which a refund may be made by first class mail at the last known address of such property owners. All funds available for refund shall be retained for a period of twelve (12) months following the second publication. At the end of that period, any remaining funds shall be retained by the city, but must be expended for appropriate planned facilities. This notice requirement shall not apply if there are no unexpended or unencumbered balances within the impact fee account(s) being terminated.

G. The city shall refund to a developer any impact fees paid by that developer, plus interest earned on the impact fees, if: 1) the developer does not proceed with the development activity for which the impact fees were imposed; 2) the developer files with the director a written request for the refund not later than thirty (30) calendar days after the expiration of the building permit (or any extension thereof) in connection with which the impact fees were assessed; and 3) the director determines that no impact has resulted from the contemplated development activity.

H. The city shall charge an administrative fee for verifying and computing the refund equal to the lesser of three percent (3%) of the amount of the refund or the city's actual cost of such verification and computing. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.130: USE OF FUNDS:

A. Impact fees shall be used solely for the purposes for which they were received.

B. Except as provided in subsection 18.98.120D or F of this chapter, impact fees shall not be imposed to make up for deficiencies in existing facilities serving existing developments.

C. Impact fees shall not be used for maintenance or operation.

D. Impact fees may be spent for planned facilities, including, but not limited to, planning, land acquisition, construction, engineering, architectural, permitting, financing, and administrative expenses, mitigation costs, capital equipment pertaining to planned facilities, and any other similar expenses which can be capitalized pursuant to generally accepted accounting principles.

E. Impact fees may also be used to recoup improvement costs previously incurred by the city to the extent that new growth and development activity will be served by the previously constructed improvements or incurred costs.

F. Impact fees may be used to recoup the cost of studying, analyzing, and preparing the impact fees.

G. Impact fees may be used to pay debt service on bonds or similar debt instruments issued to finance planned facilities to the extent such planned facilities serve the development activity for which the impact fees were imposed. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.140: SUPPLEMENTAL REGULATION TO OTHER FINANCING METHODS:

Except as otherwise provided herein, impact fees are in addition to any other requirements, taxes, fees, or assessments imposed by the city on development activity or the issuance of building permits or certificates of occupancy. Impact fees are intended to be consistent with the city's general plan, capital facilities plan, land development ordinances, and other city policies, ordinances and resolutions by which the city seeks to ensure the provision of capital facilities in conjunction with development activity.

In addition to the use of impact fees, the city may finance qualifying capital improvements through the issuance of bonds, the formation of assessment districts, or any other authorized mechanism, in such manner and subject to such limitations as may be provided by law. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.150: ADJUSTMENTS:

A. The director may adjust the impact fees or service areas periodically, after a study and proper notice as provided in Utah code title 11, chapter 36, as amended.

B. The director may adjust the standard impact fee in the schedule of impact fees at the time the fee is charged to:

1. Respond to unusual circumstances in specific areas.

2. Ensure that the impact fees are imposed fairly. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.160: INDEPENDENT CALCULATIONS:

A. If a fee payer desires not to have the impact fees determined according to the schedule set forth in section 18.98.190, "Appendix A; Impact Fee Schedule", of this chapter, then the fee payer shall prepare and submit to the director an independent impact fee calculation for the development activity for which a building permit is sought. The documentation submitted shall show the basis upon which the independent impact fee calculation was made. The appropriate department staff persons shall review the independent impact fee calculation and provide an analysis to the director concerning whether the independent impact fee calculation should be accepted, rejected, or accepted in part. The director may adopt, reject, or adopt in part the independent impact fee calculation based on the department's analysis and based on the specific characteristics of the development activity. The impact fees or alternative impact fees and the calculations shall be set forth in writing and shall be mailed to the fee payer.

B. Any fee payer submitting an independent impact fee calculation must pay to the city a fee to cover the cost of reviewing the independent impact fee calculation. The fee shall be an amount equal to the actual review costs incurred by the city, including the cost of any consultant services deemed necessary by the city. The city shall require the fee payer to post a cash deposit of one hundred fifty dollars ($150.00) prior to initiating the review, subject to refunding to the fee payer any portion of such deposit that exceeds actual costs of review.

C. The director shall consider the documentation submitted by the fee payer and the analysis prepared by the appropriate department staff persons, but is not required to accept such documentation or analysis. The director may require the fee payer to submit additional or different documentation for consideration. The director may adjust the impact fees on a case by case basis based on the independent impact fee calculation and the specific characteristics of the development activity. The impact fees or alternative impact fees and the calculations shall be set forth in writing and shall be mailed to the fee payer. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.170: PENALTY PROVISION:

A violation of this chapter is a class B misdemeanor. Upon conviction, the violator shall be punishable according to law; however, in addition to or in lieu of any criminal prosecution, the city shall have the power to sue in civil court to enforce the provisions of this chapter. (Ord. 23-00 § 1, 2000: Ord. 106-99 § 1, 1999)

18.98.180: EFFECTIVE DATE:

This chapter shall take effect on June 1, 2000. However, this chapter shall not apply to any development activity with respect to which the developer has, prior to June 1, 2000:

A. 1. Acquired title to or control of the property to be developed, or

2. Obtained a commitment for financing of the development activity; and

B. Submitted development plans for the development activity to the city for review.

For purposes of this section, a person acquires "control" of property when that person becomes the lessee of the property, obtains an option to purchase the property or becomes a party to a fully executed purchase contract for the property. (Ord. 23-00 § 2, 2000: Ord. 106-99 § 2, 1999)

18.98.190: APPENDIX A; IMPACT FEE SCHEDULE:

Impact fees shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

CHAPTER 18.99
HOUSING RELOCATION ASSISTANCE PROGRAM

18.99.010: PURPOSE:

The purpose of this chapter is to provide for relocation assistance to tenants of apartments in the city who are displaced from housing that has been closed by the city. It is in the public interest to reduce the amount of homelessness in the city through such assistance. (Ord. 24-98 § 1, 1998)

18.99.020: DEFINITIONS:

For the purposes of this chapter, unless otherwise apparent from the context, certain words and phrases used in this chapter are defined as follows:

AGENCY: A nonprofit corporation appointed by the housing and neighborhood development division of the city to administer the program.

APARTMENT: A room or suite of rooms which is occupied or intended or designed to be occupied by one or more tenants for living or sleeping purposes or both.

The term "apartment" shall not be construed to mean a club, group home, transitional victim home, substance abuse home, transitional home, a lodge or a fraternity/sorority house.

PROGRAM: The tenant relocation assistance program provided for in this chapter.

TENANT: Shall be limited to persons who are parties to a written rental agreement with the landlord of the apartment, and to any dependent children of such persons who reside in the apartment. (Ord. 24-98 § 1, 1998)

18.99.030: NONCITY AGENCY RESPONSIBLE FOR PROGRAM:

A. The housing and neighborhood development division of the city shall annually designate the agency to administer the program and shall review annually all relocation assistance amounts provided pursuant to the program.

B. The agency shall perform the following functions:

1. After an apartment has been ordered closed by the city, meet with the tenants of that apartment and determine the type and extent of assistance required by the tenants.

2. Provide such tenants with a listing of available apartments, make available a telephone for the use of such tenants in locating an apartment, and arrange for such tenants to see the available apartments. This provision does not obligate the city or the agency to provide transportation for tenants.

3. Issue checks to tenants or landlords, or both, as necessary to provide assistance for relocation of the tenants. (Ord. 24-98 § 1, 1998)

18.99.040: TENANT RELOCATION FEE TO NONCITY AGENCY:

A. The agency shall be paid a fee by the city for each tenant fully assisted by the program who has a written referral from the city. Such written referral is intended:

1. To assure that only eligible tenants under the program are being served by the program, and

2. To allow the city to track the money spent on the program.

B. The tenant relocation fee shall be established at a maximum amount of six hundred dollars ($600.00) for each apartment vacated, plus an additional amount not to exceed one hundred dollars ($100.00) for moving expenses for each apartment vacated.

C. Tenants will be eligible for assistance in the form of deposit fees, one time partial rent payments, moving costs, and apartment referrals. (Ord. 24-98 § 1, 1998)

18.99.050: PERSONS ELIGIBLE FOR ASSISTANCE:

A. Tenants residing in apartment buildings containing four (4) or fewer apartments closed for "substandard" or "imminent danger/hazardous conditions" are eligible for relocation assistance. A notice and order to vacate may not be issued with respect to such apartments if the landlord has signed a stipulation with the city and is, to the reasonable satisfaction of the apartment inspector of the city, working on remedying the substandard or imminent danger/hazardous conditions. Each notice and order to vacate shall specify the date (the "10 day deadline") which is ten (10) days before the date on which the apartment is required to be vacated. A tenant will be eligible for relocation assistance under this subsection only if he or she vacates the apartment after the ten (10) day deadline has passed.

B. Relocation assistance will also be available to tenants in apartment buildings containing four (4) or fewer apartments which units are closed in connection with the unit legalization process. (Ord. 24-98 § 1, 1998)

18.99.060: APPROPRIATION OF MONEY BY CITY COUNCIL:

Relocation assistance will be available only to the extent that the city council appropriates money to the relocation assistance program. The city reserves the right to seek reimbursement or compensation from the owner of any apartment which has been vacated and with respect to which the city pays any relocation assistance fees, in the amount of any tenant relocation assistance fees paid with respect to such apartment. (Ord. 24-98 § 1, 1998)

18.99.070: PRIORITY TO FAMILIES OF LOW AND EXTREMELY LOW INCOME:

In selecting the tenants to receive monies appropriated for relocation assistance, the city and the agency shall grant a priority to tenants who are members of low income families or extremely low income families, as those terms are defined from time to time in the regulations of the United States department of housing and urban development. (Ord. 24-98 § 1, 1998)

Title 19 - RESERVED

Title 20 - SUBDIVISIONS

CHAPTER 20.04
GENERAL PROVISIONS

20.04.010: TITLE FOR CITATION:

This title shall be known and cited as *TITLE 20, SUBDIVISION ORDINANCE OF SALT LAKE CITY, UTAH.* (Prior code § 42-1-1)

20.04.020: STATUTORY AUTHORITY:

This title is enacted pursuant to title 10, Utah Code Annotated, 1953, or its successor. This title is further enacted as an implementation element of the adopted Salt Lake City master plan. (Ord. 7-99 § 1, 1999: prior code § 42-1-2)

20.04.030: PURPOSE OF PROVISIONS:

The purpose of this title, and any rules, regulations and specifications hereafter adopted, is to regulate and control the design and improvement of land for all purposes within Salt Lake City in order to preserve and enhance the health, safety, welfare and amenities of the community. (Prior code § 42-1-3)

20.04.040: MASTER PLAN STANDARDS:

The master plan for Salt Lake City shall guide the use of all land within the corporate boundaries of the city. When planned community plans have been adopted for certain areas, they shall provide more detailed guidance. The size and design of lots, the nature of utilities, the design and improvement of streets, the type and intensity of land use, and the provisions for any special facilities in any subdivision shall conform to the land uses shown and the standards established in the master plan, the zoning ordinance of the city, and any planned community plans designed for the area. (Prior code § 42-1-4(1))

20.04.050: SUBDIVIDER'S RESPONSIBILITIES:

The subdivider shall prepare maps consistent with the standards contained in this title and, where applicable, to the standards contained in title 18, chapter 18.28 of this code, and will pay for the design and inspection of public improvements by the city officers as required. The subdivider shall process said maps in accordance with the regulations set forth in this title. The subdivider shall not alter the terrain or remove any vegetation from the proposed subdivision site, or engage in any site development until he has obtained a site development permit as specified in title 18, chapter 18.28 of this code, or its successor. (Prior code § 42-1-5(1))

20.04.060: PLANNING DIRECTOR POWERS AND DUTIES:

The planning director shall review the plats for design, for conformity with the master plan, for any planned community plans and the zoning ordinances of the city, and for the environmental quality of the subdivision design, and shall process the subdivision maps and reports and other actions as provided for in this title. (Prior code § 42-1-5(2))

20.04.070: CITY ENGINEER RESPONSIBILITIES:

The city engineer shall be responsible for reporting to the planning and zoning commission and the mayor as to engineering requirements including street widths, grades and alignments, and whether the proposed public improvements are consistent with the regulations contained in this title, and for the inspection and approval of all such public improvements. (Prior code § 42-1-5(3))

20.04.080: PLANNING AND ZONING COMMISSION AUTHORITY:

Except as may be specified elsewhere, the city planning and zoning commission shall:

A. Act as an advisory agency to the mayor;

B. Make investigations, reports and recommendations on proposed subdivisions or amendments as to their conformance to the master plan, site development ordinance, zoning ordinances of the city, and other pertinent documents;

C. Approve preliminary plats and, when requested by the mayor, report its actions and recommendations concerning the subdivision to the mayor. (Ord. 71-94 § 1, 1994: prior code § 42-1-5(4))

20.04.090: CITY ATTORNEY POWERS AND DUTIES:

The city attorney shall be responsible for reporting to the mayor as to the form of the final plat or other recordable instruments evidencing any action under this title. The city attorney shall certify that any lands dedicated to the public are dedicated in fee simple and that the person or persons dedicating the land are the owners of record. (Ord. 71-94 § 1, 1994: prior code § 42-1-5(5))

20.04.100: MAYOR'S POWERS AND DUTIES:

The mayor, or the mayor's designee, shall have final approval of final subdivision plats or other recordable instruments evidencing any action under this title, the establishment of requirements for and standards of design of public improvements, and the acceptance of lands and public improvements that may be proposed for dedication. (Ord. 71-94 § 1, 1994: prior code § 42-1-5(6))

20.04.110: MAPS REFERRED FOR COMMENT:

Maps of proposed subdivisions shall be referred for information and comment to all special districts, governmental boards, bureaus, utility companies, and other agencies which will provide public and private facilities and services to the subdivision, and to such other agencies which the planning director determines may be affected. (Prior code § 42-1-5(7))

20.04.120: PRESERVATION OF NATURAL FEATURES; RELATION TO OLDER SUBDIVISIONS:

A. Trees, native land cover, natural watercourses, and topography shall be preserved when possible, and the subdivision shall be so designed as to prevent excessive grading and scarring of the landscape in conformance with title 18, chapter 18.28 of this code.

B. The design of new subdivisions shall consider and relate to present street widths, alignments and names. (Prior code § 42-1-4(2))

20.04.130: COMMUNITY FACILITIES AND UTILITIES:

Community facilities such as schools, parks, recreation areas, etc., shall be provided in the subdivision in accordance with master plan standards and, where applicable, planned community plan standards. This title establishes procedures for the referral of proposed subdivision data to interested boards, bureaus and other governmental agencies, and utility companies, both private and public, so that the extension of community facilities and utilities may be accomplished in an orderly manner, coordinated with the development of the subdivision. In order to facilitate the acquisition of land areas required to implement this policy, the planning commission may require that the subdivider dedicate, grant easements over or otherwise reserve land for schools, parks, playgrounds, thoroughfares, utility easements, and other public purposes as specified. (Prior code § 42-1-4(3))

20.04.140: FEE SCHEDULE:

The following fees shall be charged, and the city treasurer shall collect the following fees associated with subdivision review:

A. Engineering Fees: The engineer shall charge and the city treasurer shall collect the following fees as shown on the Salt Lake City consolidated fee schedule:

1. Preliminary subdivision review fee (shall be based upon the number of lots in the original preliminary plat, whichever is higher).
2. Final subdivision engineering design review and inspection fee.
3. Main line sewer extension, engineering design, field surveying and inspection fee.

B. Planning Director Fees: The planning director shall charge, and the city treasurer shall collect the following fees:

1. The fee for review of preliminary plans, which fee shall be based upon the number of lots in the original preliminary or the approved preliminary plat, whichever is higher, upon submission of the preliminary plat, as shown on the Salt Lake City consolidated fee schedule;
2. Final approval fees for checking plat against approved preliminary plat shall be shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

CHAPTER 20.08
DEFINITIONS

20.08.010: DEFINITIONS GENERALLY:

Whenever any words or phrases used in this title are not defined in this title, but are defined in related sections of the Utah code or in the zoning ordinances of the city, such definitions are incorporated in this chapter and shall apply as though set forth herein in full, unless the context clearly indicates a contrary intention. (Prior code § 42-2-1)

20.08.020: ALLEY:

"Alley" means a street providing only secondary access to abutting property. (Prior code § 42-2-2)

20.08.025: AMENDMENT PETITION:

"Amendment petition" means a written petition to the city seeking approval for a proposed vacation, alteration or amendment of a subdivision plat, any portion of a subdivision plat, or any street, lot or alley contained in a subdivision plat. (Ord. 71-94 § 1, 1994)

20.08.030: BLOCK:

"Block" means an area of land within a subdivision entirely bounded by streets (other than alleys), freeways, railroad rights of way, natural barriers, or the exterior boundaries of the subdivision. (Prior code § 42-2-3)

20.08.040: CITY ATTORNEY:

"City attorney" means the Salt Lake City attorney. (Prior code § 42-2-4)

20.08.050: CITY ENGINEER:

"City engineer" means the Salt Lake City engineer. (Prior code § 42-2-6)

20.08.060: CITY RECORDER:

"City recorder" means the Salt Lake City recorder. (Prior code § 42-2-7)

20.08.070: COLLECTOR STREET:

"Collector street" means a street designed to collect and distribute traffic between streets and arterials. (Prior code § 42-2-8)

20.08.075: COMMERCIAL/INDUSTRIAL/AGRICULTURAL SUBDIVISION:

"Commercial/industrial/agricultural subdivision" means any subdivision of land located in any commercial, industrial or agricultural zoning district which will allow or provide for the construction of nonresidential uses in buildings which are allowed as permitted or conditional uses within the district or within an area shown in an adopted general plan for commercial, industrial or agricultural uses of varying intensities. (Ord. 71-94 § 1, 1994)

20.08.080: CONDOMINIUM:

"Condominium" means a property conforming to the definition set forth in section 57-8-3, Utah Code Annotated, 1953, or its successor. (Prior code § 42-2-9)

20.08.090: COUNTY RECORDER:

"County recorder" means the Salt Lake County recorder. (Prior code § 42-2-10)

20.08.100: CUL-DE-SAC:

"Cul-de-sac" means a local street open at only one end which has a turnaround for vehicles at the closed end. (Prior code § 42-2-11)

20.08.110: FINAL PLAT:

"Final plat" means a map, prepared in accordance with the provisions of title 57, Utah Code Annotated, 1953, and of this title, designed to be placed on record in the office of the Salt Lake County recorder. (Prior code § 42-2-12)

20.08.120: FLAG LOT:

"Flag lot" means a lot with the buildable area at a distance from a public street, and with a narrow extension or access strip to connect the buildable area to the street. (Prior code § 42-2-13)

20.08.130: FREEWAY:

"Freeway" means a divided arterial highway designed for through traffic, having grade separated intersections and full control of access. (Prior code § 42-2-14)

20.08.135: IMPROVEMENT AGREEMENT:

"Improvement agreement" means an agreement described in section 20.24.040 of this title. (Ord. 94-98 § 1, 1998)

20.08.140: INDUSTRIAL STREET:

"Industrial street" means a street which serves an industrial area and connects such area to the major street system. (Prior code § 42-2-16)

20.08.150: INTERSECTION:

"Intersection" means the place at which two (2) or more streets meet. (Prior code § 42-2-17)

20.08.160: LOCAL STREET:

"Local street" means a street which provides direct access to properties abutting that street, primarily in residential districts. (Prior code § 42-2-18)

20.08.170: LOOP STREET:

"Loop street" means a local street which intersects the same collector street at both its ends and has no intermediate intersections with through streets. (Prior code § 42-2-19)

20.08.180: LOT:

"Lot" means a parcel or portion of land established for purposes of sale, lease, finance, division of interest or separate use, separated from other lands by description on a subdivision map and/or parcel map. (Prior code § 42-2-20)

20.08.185: LOT LINE ADJUSTMENT:

"Lot line adjustment" in a subdivision means the relocation of the property boundary line between two (2) adjoining lots with the consent of the owners of record as required by this title. (Ord. 7-99 § 2, 1999: Ord. 71-94 § 1, 1994)

20.08.190: MAJOR THOROUGHFARE:

"Major thoroughfare" means a street designed to serve high volume city traffic and to act as a distributor between freeways, other arterial roads and major traffic generators. (Prior code § 42-2-21)

20.08.200: MASTER PLAN:

"Master plan" means the master plan for the future development of Salt Lake City, as adopted, and any subsequent amendments thereto. (Prior code § 42-2-22)

20.08.205: MINOR RESIDENTIAL SUBDIVISION AMENDMENT:

(Rep. by Ord. 7-99 § 3, 1999)

20.08.210: MINOR SUBDIVISION:

"Minor subdivision" means:

A. The division of real property, including condominiums and planned unit developments, into thirty (30) or fewer lots which have frontage on an existing dedicated street or on a street to be dedicated as part of the subdivision and which are not located within the foothills FR-1, FR-2, FR-3 district or FP foothills protection district;

B. The division of any real property for the creation of a commercial/industrial/agricultural subdivision. (Ord. 7-99 § 4, 1999: Ord. 71-94 § 1, 1994: prior code § 42-2-23)

20.08.220: PLANNING COMMISSION OR PLANNING AND ZONING COMMISSION:

"Planning commission" or "planning and zoning commission" means the Salt Lake City planning and zoning commission. (Prior code § 42-2-24)

20.08.230: PLANNING DIRECTOR:

"Planning director" means the director of the Salt Lake City planning and zoning division. (Prior code § 42-2-25)

20.08.240: PRELIMINARY DESIGN MAP:

"Preliminary design map" means a map to be submitted to the planning director prior to the filing of a preliminary plat to show the general characteristics of the proposed subdivision. (Prior code § 42-2-26)

20.08.250: PRELIMINARY PLAT:

"Preliminary plat" means a plat showing the design of a proposed subdivision and the existing conditions in and around the subdivision. It need not be based upon a detailed final survey of the property, except as provided in chapter 20.16 of this title; however, it shall be graphically accurate to reasonable tolerance. (Prior code § 42-2-27)

20.08.260: PUBLIC IMPROVEMENT:

"Public improvement" means street work, utilities and other facilities proposed or required to be installed within the subdivision for the general use of the subdivision lot owners and for local neighborhood or community needs. (Prior code § 42-2-28)

20.08.265: SECURITY DEVICE:

"Security device" means any of the following, in a form acceptable to the city attorney, which secures the performance of the subdivider's obligations under the improvement agreement: a) a separate payment bond and a separate performance bond provided by a corporate surety company; b) a cash bond or escrow agreement; or c) a letter of credit. (Ord. 94-98 § 2, 1998)

20.08.270: STANDARD SPECIFICATIONS:

"Standard specifications" means all the standard specifications and standard detailed drawings prepared by the responsible city departments and approved by resolution of the city council. (Prior code § 42-2-29)

20.08.280: STREET:

"Street" means all parts of a public street between the property or boundary lines, including parking, sidewalks, gutters and roadways including highways, avenues, boulevards, parkways, roads, lanes, walks, alleys, viaducts, subways, tunnels, bridges, public easements and other ways. (Ord. 71-94 § 1, 1994: prior code § 42-2-30)

20.08.290: SUBDIVIDER:

"Subdivider" means and shall be defined as any person, firm, corporation, partnership or association who causes land to be divided into a subdivision. (Prior code § 42-2-31)

20.08.300: SUBDIVISION:

"Subdivision" means any land that is divided, resubdivided or proposed to be divided into two (2) or more lots, parcels, sites, units, plots or other division of land for the purpose, whether immediate or future, for offer, sale, lease, or development either on the installment plan or upon any and all other plans, terms, and conditions. For purposes of this chapter, "subdivision" includes:

A. The division or development of land whether by deed, metes and bounds description, devise and testacy, lease, map, plat, or other recorded instruments;

B. Divisions of land for all residential and nonresidential uses, including land used or to be used for commercial, agricultural, and industrial purposes;

C. Any condominium project; and

D. Any planned development project pursuant to title 21A, chapter 21A.55 of this code. (Ord. 94-98 § 3, 1998: Ord. 71-94 § 1, 1994: prior code § 42-2-32)

20.08.305: SUBDIVISION AMENDMENT INVOLVING STREETS:

"Subdivision amendment involving streets" means a proposed change to any subdivision for which a subdivision plat has been previously approved and recorded and which results in any change to the dedicated streets from the original subdivision plat. (Ord. 7-99 § 5, 1999)

20.08.307: SUBDIVISION AMENDMENT NOT INVOLVING STREETS:

"Subdivision amendment not involving streets" means a proposed change to any subdivision, for which a subdivision or plat has been previously approved and recorded and which does not result in any change to the dedicated streets from the original subdivision plat. (Ord. 7-99 § 6, 1999)

20.08.310: SUBDIVISION COMMITTEE:

"Subdivision committee" means and includes the planning director, the city engineer and two (2) other members of the planning and zoning commission. (Prior code § 42-2-33)

20.08.320: SUBDIVISION DESIGN:

"Subdivision design" means the overall layout of the proposed subdivision, including, but not limited to, the arrangement of streets and intersections, the layout and size of lots, the widths and locations of easements and rights of way for utilities, drainage structures, sewers and the nature and location of public or semipublic facilities, programs for the preservation of natural features, and the installation of public improvements. (Prior code § 42-2-34)

CHAPTER 20.12
PRELIMINARY DESIGN MAPS

20.12.010: PRELIMINARY DESIGN MAP AND CONFERENCE:

Prior to the filing of a preliminary plat, the subdivider shall meet with and submit to the planning director three (3) copies of a preliminary design map at a scale and in detail sufficient to indicate the essential characteristics of the subdivision, including:

A. The number, size and design of lots;

B. The location and width of streets;

C. The location of any important reservations or easements;

D. The general nature and extent of grading;

E. The relation of the subdivision to all surrounding lands; and

F. Any other data necessary to enable the subdivision committee to review the proposed subdivision. (Prior code § 42-3-1)

20.12.020: SITE DEVELOPMENT PERMIT REQUIRED:

The subdivision committee, after review of the preliminary design map, shall indicate to the subdivider whether a site development permit, as specified in title 18, chapter 18.28 of this code, is required prior to the subdivider altering the terrain or vegetation on the proposed subdivision. Notwithstanding the foregoing sentence appearing to the contrary, all subdivisions within the areas defined in sections 21A.24.020 through 21A.24.040 and 21A.32.040 of this code, shall be subject to the provisions of the site development ordinance. (Prior code § 42-3-2)

CHAPTER 20.16
PRELIMINARY PLATS

20.16.010: FILING OF PLAT; NUMBER OF COPIES; IDENTIFICATION:

The subdivider shall file with the planning director ten (10) white copies and one duplicate tracing and such other copies and data as may be required of the preliminary plat of each proposed subdivision. The planning director shall indicate upon all copies of the preliminary plat and accompanying data the date of filing, which shall be the date on which all required maps, tracings and accompanying data are deposited in the office of the planning director. (Prior code § 42-4-1)

20.16.020: FEES:

At the time a preliminary plat is filed, the subdivider shall pay an application fee shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

20.16.030: PREPARATION OF MAP; CERTIFICATION OF BOUNDARIES:

The subdivider shall cause the preliminary plat of the land proposed to be subdivided to be prepared by a person authorized by state law to prepare such a map. The accuracy of the boundaries of the preliminary plat shall be certified by a registered civil engineer or licensed surveyor. (Prior code § 42-4-3)

20.16.040: SCALE OF MAP; REPRODUCTION:

The scale of a preliminary plat of a subdivision shall be not less than one inch equals one hundred feet (1" = 100'), and such map shall be clearly and legibly reproduced. (Prior code § 42-4-4)

20.16.050: VICINITY SKETCH:

A vicinity sketch at a scale of one thousand feet (1,000') or more to the inch shall be drawn on the preliminary plat. It shall show the street and tract lines and names and numbers of all existing subdivisions, and the outline and acreage of parcels of land adjacent to the proposed subdivision. (Prior code § 42-4-5)

20.16.060: INFORMATION ON MAP OR IN DATA STATEMENT:

A. The following information shall be shown on the preliminary plat or in an accompanying data statement:

1. Any subdivision containing ten (10) lots or more shall be given a name and unit number, if applicable. Such subdivision names shall not duplicate or nearly duplicate the name of any subdivision in the city or county;

2. The name and address of the record owner or owners;

3. The name and address of the subdivider; if different from the recorded owner, there shall be a statement from the recorded owner authorizing the subdivider to act;

4. The name and address of the person, firm or organization preparing the preliminary plat, and a statement indicating the recorded owner's permission to file the plat;

5. The date, north point, written and graphic scales;

6. A sufficient description to define the location and boundaries of the proposed subdivision;

7. The locations, names and existing widths and grades of adjacent streets;

8. The names and numbers of adjacent subdivisions and the names of owners of adjacent unplatted land;

9. The contours, at one foot (1') intervals, for predominant ground slopes within the subdivision between level and five percent (5%), and five foot (5') contours for predominant ground slopes within the subdivisions over five percent (5%). Such contours shall be based on the Salt Lake City datum. The closest city bench mark shall be used, and its elevation called out on the map. Bench mark information shall be obtained from the city engineer;

10. A grading plan, showing by appropriate graphic means the proposed grading of the subdivision;

11. The approximate location of all isolated trees with a trunk diameter of four inches (4") or greater, within the boundaries of the subdivision, and the outlines of groves or orchards;

12. The approximate boundaries of areas subject to inundation or storm water overflow, and the location, width and direction of flow of all watercourses;

13. The existing use or uses of the property, and the outline of any existing buildings and their locations in relation to existing or proposed street and lot lines, drawn to scale;

14. A statement of the present zoning and proposed use of the property, as well as proposed zoning changes, whether immediate or future;

15. Any proposed public areas;

16. Any proposed lands to be retained in private ownership for community use. When a subdivision contains such lands, the subdivider shall submit, with the preliminary plat, the name and articles of incorporation of the owner or organization empowered to own, maintain and pay taxes on such lands;

17. The approximate widths, locations and uses of all existing or proposed easements for drainage, sewerage and public utilities;

18. The approximate radius of each curve;

19. The approximate layout and dimensions of each lot;

20. The area of each lot to the nearest one hundred (100) square feet;

21. A statement of the water source;

22. A statement of provisions for sewerage and sewage disposal;

23. Preliminary indication of needed major storm drain facilities;

24. The locations, names, widths, approximate grades and a typical cross section of curbs, gutters, sidewalks and other improvements of the proposed street and access easements, including proposed locations of all underground utilities;

25. Any existing or proposed dedications, easements and deed restrictions;

26. A preliminary landscaping plan, including, where appropriate, measures for irrigation and maintenance;

27. The location of any of the foregoing improvements which may be required to be constructed beyond the boundaries of the subdivision shall be shown on the subdivision plat or on the vicinity map as appropriate;

28. If it is contemplated that the development will proceed by units, the boundaries of such units shall be shown on the preliminary plat. (Prior code § 42-4-6)

20.16.070: STREET NAME PRINCIPLES:

The following principles shall govern street names in a subdivision:

A. Each street which is a continuation, or an approximate continuation of any existing dedicated street shall be shown on the preliminary plat and shall be given the name of such existing street. When any street forms a portion of a proposed street previously ordered by the city to be surveyed, opened, widened or improved, the street shall be given the name established in said order.

B. The names of newly created streets of a noncontinuous or noncontiguous nature shall not duplicate or nearly duplicate the name of any streets in the city or county.

C. The words, "street", "avenue", "boulevard", "place", "way", "court" or other designation of any street shall be spelled out in full on the map and shall be subject to approval by the planning commission. (Prior code § 42-4-7)

20.16.080: ACCOMPANYING DATA STATEMENT:

Such information as cannot be conveniently shown on the preliminary plat of a subdivision shall be contained in a written statement accompanying the map. (Prior code § 42-4-8)

20.16.090: DISTRIBUTION OF PLAT FOR REVIEW AND COMMENT:

A. Within five (5) days of filing of a preliminary plat of a subdivision, the planning director shall transmit the requested number of copies of such map, together with accompanying data, to such public agencies and utilities as may be concerned. Each of the public agencies and utilities may, within twenty one (21) days after the plat has been filed, forward to the planning director a written report of its findings and recommendations thereon.

B. The planning director shall prepare a written report on the conformity of the preliminary plat to the provisions of the master plan, any applicable planned community plan, the zoning ordinance, and all other applicable requirements of this title and other ordinances and regulations of the city.

C. The city engineer shall prepare a written report of recommendations on the preliminary plat in relating to the public improvement requirements of this title. (Prior code § 42-4-9)

20.16.095: ISSUES ONLY HEARING:

A. Within thirty (30) days after the filing of a preliminary plat of a subdivision in a foothills FR-1, FR-2, FR-3 district or FP foothills protection district and any other information required, unless such time is extended by agreement with the subdivider, the planning commission shall hold a hearing. The subdivider shall make a presentation of the subdivision proposal to the planning commission. The planning staff shall present a report preliminarily identifying any issues relating to the project based on either the project's location, topography, relationship to city improvements, master plans or otherwise. Any interested party may also present their comments regarding the proposed subdivision.

B. Notice of the issues only hearing shall be mailed, at the subdivider's expense, to the owners of all land abutting the proposed subdivision and the portions of any streets to be constructed as part of the subdivision and all registered or recognized organizations pursuant to title 2, chapter 2.62 of this code or its successor. (Ord. 7-99 § 7, 1999: Ord. 71-94 § 1, 1994)

20.16.100: PLANNING COMMISSION ACTION:

Within sixty (60) days after the filing of a preliminary plat of a subdivision and any other information required, unless such time is extended by agreement with the subdivider, the planning commission shall act thereon. If the planning commission shall find that the proposed plat complies with the requirements of this chapter, it shall recommend approval of the plat. If the planning commission shall find that the proposed map does not meet the requirements of the city ordinances, it shall recommend conditional approval or disapproval of such plat. (Prior code § 42-4-10)

20.16.110: NOTICE OF COMMISSION ACTION TO SUBDIVIDER:

The planning director shall notify the subdivider, in writing, of the action taken by the city planning commission together with one copy of the preliminary plat and one copy of the planning commission's report thereon. One copy of the plat and accompanying data and the planning commission's report shall be retained in the permanent file of the planning commission. (Prior code § 42-4-11)

20.16.120: COMPLIANCE WITH ALL CITY REQUIREMENTS:

Approval of the preliminary plat shall in no way relieve the subdivider of his/her responsibility to comply with all required conditions and ordinances, and to provide the improvements and easements necessary to meet all city standards. (Prior code § 42-4-12)

20.16.130: APPEAL OF PLANNING COMMISSION DECISION:

Any person adversely affected by a final decision made by the planning commission under this chapter may appeal to the appeals hearing officer in accordance with the provisions of title 21A, chapter 21A.16 of this code. (Ord. 8-12, 2012)

CHAPTER 20.20
MINOR SUBDIVISIONS

20.20.010: APPLICABILITY OF CHAPTER:

Notwithstanding any other provisions of this title to the contrary, the procedure set forth in this chapter shall govern the processing of and the requirements pertaining to minor subdivisions. (Ord. 71-94 § 1, 1994: prior code § 42-5-1)

20.20.020: REQUIRED CONDITIONS AND IMPROVEMENTS:

A minor subdivision shall conform to the standards specified in section 20.28.010, or its successor, of this title, and shall also meet the following standards:

A. The general character of the surrounding area shall be well defined, and the minor subdivision shall conform to this general character;

B. Lots created shall conform to the applicable requirements of the zoning ordinances of the city;

C. Utility easements shall be offered for dedication as necessary;

D. Water supply and sewage disposal shall be satisfactory to the city engineer;

E. Public improvements shall be satisfactory to the planning director and city engineer. (Ord. 71-94 § 1, 1994: prior code § 42-5-5)

20.20.030: FILING OF PLAT AND INFORMATION:

The subdivider of a minor subdivision shall file an application with the planning office on a form prescribed by the city. The application shall include:

A. Twelve (12) copies of a preliminary plat drawing, showing the land to be subdivided, properly and accurately drawn to scale, and with sufficient additional information to determine the boundaries of the proposed subdivision. The plat shall be certified as accurate by a registered civil engineer or licensed surveyor;

B. The names and addresses, on gummed mailing labels, from the current county recorder's assessment rolls of the owners of all real property abutting the proposed subdivision. (Ord. 7-99 § 9, 1999: Ord. 71-94 § 1, 1994: prior code § 42-5-2)

20.20.040: SITE DEVELOPMENT PERMIT REQUIRED WHEN:

The planning director, or designee, after receiving the minor subdivision plat, shall indicate to the subdivider whether a site development permit, as specified in title 18, chapter 18.28 of this code, is required prior to the subdivider altering the terrain or vegetation on the proposed subdivision site. The site development permit will be issued at the time of planning commission approval of the minor subdivision. (Ord. 7-99 § 10, 1999: Ord. 71-94 § 1, 1994: prior code § 42-5-2)

20.20.050: CITY INTERNAL REVIEW:

The planning director, or designee, shall obtain comments regarding the application from all interested city departments or divisions. (Ord. 7-99 § 11, 1999: Ord. 71-94 § 1, 1994: prior code § 42-5-4)

20.20.060: PUBLIC NOTICE OF ADMINISTRATIVE CONSIDERATION:

A. The planning director, or designee, shall schedule the time for a public administrative consideration of the proposed minor subdivision. The administrative consideration shall not be scheduled less than fourteen (14), nor more than twenty eight (28), days after the notices required by this section have been mailed.

B. Notice of the proposed minor subdivision shall be mailed to all property owners specified in subsection 20.20.030B of this chapter or its successor.

C. The mailed notice shall include a plan or drawing of the proposed minor subdivision. The notice shall inform the notified party of the date and time of the administrative consideration of the proposed minor subdivision. The notice shall specify that if no prior objection to the administrative consideration is received, the planning director, or designee, may approve the minor subdivision. The notice shall further specify that if no objection is received within fourteen (14) days after approval at the administrative consideration, such approval shall be final.

D. For any petition filed after January 1, 1995, notice shall also be posted at least ten (10) days prior to the scheduled administrative consideration pursuant to regulations adopted by the planning director. (Ord. 61-09 § 1, 2009: Ord. 7-99 § 12, 1999: Ord. 71-94 § 1, 1994: prior code § 42-5-6)

20.20.070: ADMINISTRATIVE APPROVAL:

If no objection is received as required by section 20.20.080 of this chapter or its successor, the planning director, or designee, may, at the administrative consideration, approve the proposed minor subdivision if the planning director, or designee, finds that:

A. The minor subdivision will be in the best interests of the city;

B. All lots comply with all applicable zoning standards;

C. All necessary and required dedications are made;

D. Provisions for the construction of any required public improvements are included; and

E. The subdivision otherwise complies with all applicable laws and regulations. (Ord. 7-99 § 13, 1999: Ord. 71-94 § 1, 1994)

20.20.080: APPEAL OF ADMINISTRATIVE CONSIDERATION:

A. The petitioner or any person who objects to the planning director, or designee, administratively considering the minor subdivision may request a hearing before the planning commission by filing a written notice within fourteen (14) days after the planning director's scheduled administrative consideration.

B. The notice shall specify all reasons for the objection to the minor subdivision.

C. The planning commission shall hear testimony and make a recommendation on the minor subdivision. (Ord. 7-99 § 14, 1999: Ord. 71-94 § 1, 1994)

20.20.090: APPEAL OF PLANNING COMMISSION DECISION:

The petitioner, or any person who is aggrieved by a finding of the planning commission concerning the approval of a proposed minor subdivision and who objected to the administrative consideration, may appeal to the appeals hearing officer in accordance with the provisions of title 21A, chapter 21A.16 of this code. (Ord. 8-12, 2012)

20.20.100: PLANNING DIRECTOR FINAL APPROVAL OF RECORDABLE INSTRUMENT:

The planning director, or designee, is designated to execute for the city the final recordable instrument for any approved minor subdivision upon the planning director's or designee's satisfaction that all conditions required by law have been fulfilled. (Ord. 7-99 § 16, 1999: Ord. 71-94 § 1, 1994)

20.20.110: RECORDABLE INSTRUMENT:

A. Minor subdivisions which include the dedication or construction of streets or other public rights of way or the construction of public improvements shall be processed as a final plat and recorded on a subdivision plat map with the county recorder.

B. Minor subdivisions not involving streets, public rights of way or the construction of public improvements shall be recorded as a notice of minor subdivision approval. (Ord. 7-99 § 17, 1999: Ord. 71-94 § 1, 1994)

20.20.120: REPORT OF PLANNING DIRECTOR'S ACTIONS:

The planning director shall periodically report to the mayor and the planning commission of any action taken by the planning director, or designee, regarding minor subdivisions pursuant to this chapter. (Ord. 7-99 § 18, 1999: Ord. 71-94 § 1, 1994)

CHAPTER 20.24
FINAL PLATS

20.24.010: FILING DATE FOR FINAL PLAT:

Within eighteen (18) months after the approval or conditional approval of the preliminary plat, a subdivider shall cause his/her subdivision, or any part thereof, to be surveyed and a final plat thereof prepared in conformance with the preliminary plat as approved, including conformance with any conditions attached to such approval. The tracing and paper prints of the final plat may be approved by the mayor upon recommendation by the planning commission, the planning director, or designee, provided that written application is filed by the subdivider not less than thirty (30) days in advance of the expiration of the preliminary plat. (Ord. 7-99 § 19, 1999: prior code § 42-6-1)

20.24.020: DOCUMENTS AND DATA REQUIRED:

At the time a final plat of a subdivision is submitted to the city engineer, the subdivider shall submit therewith the following documents:

A. Calculation and traverse sheets, in a form approved by the city engineer, giving bearings, distances and coordinates of the boundary of the subdivision, and blocks and lots as shown on the final plat;

B. A no access rights certificate shall be shown on the final plat where required;

C. Design data, assumptions and computations, for proper analysis in accordance with sound engineering practice;

D. The final plat shall be accompanied by a current report naming the persons whose consent is necessary for the preparation and recordation of such plat and for dedication of the streets, alleys and other public places shown on the plat, and certifying that as of the date of the preparation of the report, the persons therein named are all the persons necessary to give clear title to such subdivision;

E. A preliminary soil report prepared by a civil engineer specializing in soil mechanics and registered by the state of Utah, based upon adequate test borings or excavations. The fact that a soil report has been prepared shall be noted on the final plat;

F. If the preliminary soil report indicates the presence of critically expansive soils or other soil problems which, if not corrected, would lead to structural defects, a soil investigation of each lot in the subdivision may be required. The soil investigation shall recommend corrective action intended to prevent structural damage;

G. The agreement and bonds specified in sections 20.24.040 and 20.24.050 of this chapter, or successor sections;

H. Three (3) copies of all proposed deed restrictions. (Prior code § 42-6-2)

20.24.030: PREPARATION AND MATERIALS OF FINAL PLAT:

A. 1. The requirements for the final plat, or drawing to be submitted, as above provided, shall consist of a sheet of approved industrial grade tracing linen or Mylar to the outside, or trim line dimensions of twenty two by thirty four inches (22 x 34") and the border line of the plat shall be drawn in heavy lines leaving a space of at least one and one-half inches ($1\frac{1}{2}$") on the left hand margin of the sheet for binding, and not less than a one-half inch ($\frac{1}{2}$") margin, in from the outside or trim line, around the other three (3) edges of the sheet. The plat shall be so drawn that the top of the sheet either faces north or west, whichever accommodates the drawing best. All lines, dimensions and markings shall be made on the tracing linen with approved waterproof black India drawing ink.

2. The actual plat drawing shall be made on a scale large enough to clearly show all details, and the workmanship on the finished drawing shall be neat, clearcut and readable. The subdivider must also furnish, in addition to the original plat or drawing, an approved and acceptable reproduction of the original plat or drawing made on tracing linen, and to the same dimension and size as the original, or shall furnish two (2) original tracings, as above provided, whichever is preferred.

3. The printing or reproduction process used shall not incur any shrinkage or distortions, and the reproduced tracing furnished shall be of good quality, to true dimension, clear and readable, and in all respects comparable to the original plat or drawing so that the lines, dimensions and markings will not rub off or smear. Both of the tracings, whether originals or one original and a reproduction, shall be signed separately by all required and authorized parties, and the final drawings or plats shall contain the information set forth in this chapter. The location of the subdivision within the city shall be shown by a small scale map on the first sheet.

B. The title of each sheet of such final plat shall consist of the approved name and unit number of the subdivision (if any) at the lower right hand corner of the sheet, followed by the words "Salt Lake City". Plats filed for the purpose of showing land previously subdivided as acreage shall be conspicuously marked with the words "Reversion to Acreage".

C. Wherever the city engineer has established a system of coordinates, the survey shall use such system. The adjoining corners of all adjoining subdivisions shall be identified by lot and block numbers, subdivision name and place of record, or other proper designation.

D. An accurate and complete boundary survey to second order accuracy shall be made of the land to be subdivided. A traverse of the exterior boundaries of the tract, and of each block, when computed from field measurements on the ground, shall close within a tolerance of one foot (1') to ten thousand feet (10,000') of perimeter.

E. The final plat shall show all survey and mathematical information and data necessary to locate all monuments and to locate and retrace all interior and exterior boundary lines appearing thereon, including bearing and distance of straight lines, and central angle, radius, and arc length of curves, and such information as may be necessary to determine the location of the centers of curves.

F. All lots and blocks and all parcels offered for dedication for any purpose shall be delineated and designated with all dimensions, boundaries and courses clearly shown and defined in every case. Parcels offered for dedication other than for streets or easements shall be designated by letter. Sufficient linear, angular and curve data shall be shown to determine readily the bearing and length of the boundary lines of every block, lot and parcel which is a part thereof. Sheets shall be so arranged that no lot is split between two (2) or more sheets and, wherever practicable, blocks in their entirety shall be shown on one sheet. No ditto marks shall be used for lot dimensions. Lot numbers shall begin with the numeral "1" and continue consecutively throughout the subdivision with no omissions or duplications.

G. The map shall show the right of way lines of each street, and the width of any portion being dedicated, and widths of any existing dedications. The widths and locations of adjacent streets and other public properties within fifty feet (50') of the subdivision shall be shown. If any street in the subdivision is a continuation or an approximate continuation of an existing street, the conformity or the amount of nonconformity of such street to such existing streets shall be accurately shown. Whenever the centerline of a street has been established or recorded, the date shall be shown on the final map.

H. The side lines of all easements shall be shown by fine dashed lines. The widths of all easements and sufficient ties thereto to definitely locate the same with respect to the subdivision shall be shown. All easements shall be clearly labeled and identified.

I. If the subdivision is adjacent to a waterway, the map shall show the line of high water with a continuous line, and shall also show with a fine continuous line any lots subject to inundation by a one percent (1%) frequency flood, i.e., a flood having an average frequency of occurrence in the order of once in one hundred (100) years although the flood may occur in any year. (The 100-year floodplain is defined by the army corps of engineers.)

J. The plat shall show fully and clearly stakes, monuments and other evidence indicating the boundaries of the subdivision as found on the site. Any monument or bench mark that is disturbed or destroyed before acceptance of all improvements, shall be replaced by the subdivider under the direction of the city engineer. The following required monuments shall be shown on the final plat:

1. The location of all monuments placed in making the survey, including a statement as to what, if any, points were reset by ties;

2. All real lot corner pipes and front lot corner pipes or offset cross marks in the concrete surface of the public sidewalk.

K. The title sheet of the map, below the title, shall show the name of the engineer or surveyor, together with the date of the survey, the scale of the map and the number of sheets. The following certificates, acknowledgments and description shall appear on the title sheet of the final maps, and such certificates may be combined where appropriate:

1. Registered, professional engineer's and/or land surveyor's "certificate of survey";

2. Owner's dedication certificate;

3. Notary public's acknowledgment;

4. A description of all property being subdivided, with reference to maps or deeds of the property as shall have been previously recorded or filed. Each reference in such description shall show a complete reference to the book and page of records of the county. The description shall also include reference to any vacated area with the vacation ordinance number indicated;

5. Such other affidavits, certificates, acknowledgments, endorsements and notarial seals as are required by law and by this chapter.

L. Prior to the filing of the final plat with the mayor, the subdivider shall file the necessary tax lien certificates and documents. (Prior code § 42-6-3)

20.24.040: PUBLIC IMPROVEMENT AGREEMENT:

A. Prior to the approval by the mayor of the final plat, the subdivider shall execute and file an agreement between the subdivider and the city, specifying the period within which the subdivider shall complete all public improvement work to the satisfaction of the city engineer, and providing that if the subdivider shall fail to complete the public improvement work within such period, the city may complete the same and recover the full cost and expense thereof from the subdivider's security device or, if not recovered therefrom, from the subdivider personally. The agreement shall also provide for inspection and testing of all public improvements and that the cost of such inspections and testing shall be paid for by the subdivider.

B. Such agreement may also provide the following:

1. Construction of the improvements in units or phases; or

2. An extension of time under conditions specified in such agreement. (Ord. 94-98 § 4, 1998: prior code § 42-6-4)

20.24.050: BOND AND SECURITY REQUIREMENTS:

A. The subdivider shall file with the city engineer, together with the improvement agreement, a security device. With the consent of the city attorney, the subdivider may, during the term of the improvement agreement, replace a security device with any other type of security device. If a corporate surety performance bond and a corporate surety payment bond are used, each shall be in an amount equal to not less than one hundred percent (100%) of the estimated cost of the public improvements. If a cash bond, escrow agreement, or letter of credit is used to secure the performance and payment obligations, the aggregate amount thereof shall be not less than one hundred percent (100%) of the estimated cost of the public improvements. The estimates of the cost of the public improvements pursuant to this subsection shall be subject to the approval of the city engineer. Except as otherwise provided hereafter, each security device shall extend for at least a one year period beyond the date the public improvements are completed and accepted by the city, as certified by the city engineer, to secure the subdivider's obligations under the improvement agreement, including, without limitation, the replacement of defective public improvements.

B. In the event the subdivider fails to complete all public improvement work in accordance with the provisions of this chapter and the improvement agreement: 1) in the case of a corporate surety performance bond, the city shall have the following options, which shall be set forth in the bond: a) the city may require the subdivider's surety to complete the work, or b) the city may complete the work and call upon the surety for reimbursement; 2) in the case of a cash bond or escrow agreement, the subdivider shall forfeit to the city such portion of the money as is necessary to pay for the costs of completion; and 3) in the case of a letter of credit, the city may draw on the letter of credit to pay for the costs of completion. The subdivider shall be liable for, and the city may draw on the security device for, the city's costs and expenses incurred in realizing on the security device and otherwise pursuing its remedies hereunder and under the improvement agreement. If the amount of the security device exceeds all costs and expenses incurred by the city, the city shall release the remainder of the security device to the subdivider after the expiration of the one year period described in subsection A of this section, and if the amount of the security device shall be less than the costs and expenses incurred by the city, the subdivider shall be personally liable to the city for such deficiency.

C. The office of the city engineer shall monitor the progress of the work. Ninety (90) days following the completion and acceptance by the city (as certified by the city engineer) of all of the public improvements work and upon the receipt by the city of any lien waivers required by the city engineer and provided that the city has not received any claims or notices of claim upon the security device pursuant to section 20.24.052 of this chapter, the city engineer shall release or consent to the release of seventy five percent (75%) of the security device to the subdivider. The remaining twenty five percent (25%) shall be held for one year from the date of completion and acceptance by the city (as certified by the city engineer) of the public improvements work to make certain that the public improvements remain in good condition during that year and to secure the subdivider's other obligations under the improvement agreement. At the end of that year and upon the receipt by the city of any lien waivers required by the city engineer, and provided that the city has not received any claims or notices of claim upon the security device pursuant to section 20.24.052 of this chapter and that the public improvements remain in good condition and the subdivider has performed the subdivider's obligations under the improvement agreement, the city engineer shall release or consent to the release of the final twenty five percent (25%) of the security device to the subdivider. All sums, if any, held by the city in the form of cash shall be returned to the subdivider without interest, the interest on such money being reimbursement to the city for the costs of supervision of the account. If the security device is a corporate surety bond, copies of the partial releases from the engineer's office shall be sent to the recorder's office for inclusion with and attachment to the bond. The foregoing provisions of this subsection shall not apply to amounts required for erosion control and slope stabilization requirements, and any release with respect to such amounts shall be made as provided in subsection E of this section and in the improvement agreement.

D. A letter of credit shall be irrevocable unless otherwise expressly consented to in writing by the city engineer. All other terms of and conditions for a letter of credit shall be the same as those required for a cash bond or escrow agreement.

E. Where a subdivider is required to provide erosion control and slope stabilization facilities in a subdivision, the estimated cost of such facilities, as approved by the city engineer, shall be set forth as a separate figure in the security device. Upon the completion and acceptance by the city engineer of such facilities, and upon the receipt by the city of any lien waivers required by the city engineer, and provided that the city has not received any claims or notices of claim upon the security device pursuant to section 20.24.052 of this chapter, fifty percent (50%) of the money held as security for such facilities shall be returned to the subdivider and fifty percent (50%) shall be retained for two (2) growing seasons to ensure that growth has taken hold and to secure the subdivider's other obligations under the improvement agreement. All dead vegetation shall be replaced through replanting at the end of the second growing season. At the end of that two (2) year period and upon receipt by the city of any lien waivers required by the city engineer, and provided that the city has not received any claims or notices of claim upon the security device pursuant to section 20.24.052 of this chapter and that the erosion control and/or slope stabilization remains acceptable to the city, the city engineer shall release or consent to the release of the final fifty percent (50%) of the security device to the subdivider. All sums, if any, held by the city in the form of cash shall be returned to the subdivider without interest, the interest on such money being reimbursement to the city for the costs of supervision of the account. If the security device is a corporate surety bond, copies of the partial release from the engineer's office shall be sent to the recorder's office for inclusion with and attachment to the bond.

F. Within twenty (20) days after entering into a contract for the construction of the public improvements, the subdivider shall file with the city engineer a copy of the payment bond required by section 14-2-1, Utah Code Annotated 1953, as amended, which section requires the obtaining of such a bond to secure payment for material furnished and labor performed under the subdivider's contract with the contractor for the public improvements. (Ord. 94-98 § 5, 1998: prior code § 42-6-5)

20.24.052: SECURITY DEVICES SECURING PAYMENT RISK:

The terms of a corporate surety payment bond held by the city as a security device shall govern claims to the corporate surety by a claimant. Subsections A through E of this section shall govern claims by claimants on any security device which is a cash bond held by the city, a letter of credit, or an escrow agreement. For purposes of this section, "claim" means a request or demand by a claimant that: a) a corporate surety pay the claimant from a corporate surety payment bond or b) that the city either: 1) pay the claimant from a cash bond, or 2) make a draw request under a letter of credit or make a request for payment under an escrow agreement. For purposes of this section, "claimant" means a person who, pursuant to contract, furnished labor, materials, supplies, or equipment with respect to the public improvements. For purposes of this section, "contractor" means the person with whom the claimant has contracted to furnish labor, materials, supplies, or equipment with respect to the public improvements. For purposes of this section, "original contractor" means the person with whom the subdivider contracted to construct the public improvements.

A. The city shall be obligated to make a payment or request a payment to be made only to the extent of monies available under the security device, and shall have no duty to defend any person in any legal action relating to a claim.

B. The city shall have no obligation to a claimant under a security device until:

1. The claimant has furnished written notice to the contractor, with a copy to the original contractor, the subdivider and the city, within ninety (90) days after having last performed labor or last furnished materials, supplies or equipment included in the claim, stating, with substantial accuracy, the amount of the claim and the name of the party to whom the materials, supplies or equipment were furnished or for whom the labor was done or performed; and

2. Not having been paid within thirty (30) days after having furnished the above notice, the claimant has sent written claim to the city, with a copy to the original contractor and the subdivider, stating that a claim is being made under the security device and enclosing a copy of the previous written notice furnished to the contractor and to the city.

C. When the claimant has satisfied the conditions in subsection B of this section, the city shall, within thirty (30) days after receipt of the claim, take the following actions:

1. Send an answer to the claimant, with a copy to the original contractor and to the subdivider, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed;

2. Pay or arrange for the payment of any undisputed amounts.

D. No suit or action shall be commenced by a claimant under a security device after the expiration of one year after the date of completion of the public improvements and acceptance thereof by the city (as certified by the city engineer). Any such suit or action shall be commenced only in a court of competent jurisdiction in Salt Lake City.

E. If the subdivider provides a security device comprising a cash bond, a letter of credit or escrow agreement, the subdivider and the contractor shall be deemed to have waived any right to sue the city because of any payment or draw made by the city under or pursuant to such security device. (Ord. 94-98 § 6, 1998)

20.24.055: NO PUBLIC RIGHT OF ACTION:

The provisions of sections 20.24.040 and 20.24.050 of this chapter, or successor sections, shall not be construed to provide any private right of action on either tort, contract, third party contract or any other basis on behalf of any property holder in the subdivision as against the city or on the security device required under section 20.24.050 of this chapter or its successor in the event that the public improvements are not constructed as required. Notwithstanding the foregoing sentence, any security device obtained pursuant to section 20.24.050 of this chapter to secure payment obligations with respect to the public improvements shall provide a private right of action to any person, at any tier, who supplies labor, material or equipment with respect to the public improvements. (Ord. 94-98 § 7, 1998: Ord. 63-87 § 1, 1987: prior code § 42-6-5.1)

20.24.060: PLANNING DIRECTOR CERTIFICATION:

The planning director shall certify in writing to the planning commission and to the city engineer that the final plat is in full conformity with all provisions of the zoning ordinance and all other applicable regulations of the city and this title. (Prior code § 42-6-6)

20.24.070: CITY ENGINEER REVIEW AND CERTIFICATION:

Upon receipt of the final plat and other data submitted therewith, the city engineer shall examine such to determine that the subdivision as shown is substantially the same as it appeared on the preliminary plat and any approved alterations thereof. If the city engineer shall determine that full conformity therewith has been made, and upon receipt of certification of conformity from the planning director as set forth in section 20.24.060 of this chapter, or its successor, the city engineer shall so certify on the plat, and shall transmit the plat to the planning commission. (Prior code § 42-6-7)

20.24.080: APPROVAL BY PLANNING DIRECTOR:

Upon receipt of the final plat, the planning director shall, within fourteen (14) days, examine the same to determine whether the plat conforms with the preliminary plat and with all changes permitted and all requirements imposed as a condition of its acceptance. If the planning director determines that the final plat conforms to the preliminary plat or the minor subdivision approval and all permitted changes or conditions, the planning director shall approve the plat for execution by the mayor. If the planning director determines that the final plat does not conform fully to the preliminary plat as approved, the planning director shall advise the subdivider of the changes or additions that must be made for approval. (Ord. 71-94 § 1, 1994: prior code § 42-6-8)

20.24.085: APPROVAL BY THE CITY ATTORNEY:

After the planning director's approval of the final plat, the city attorney shall review the final plat to determine the plat's conformity to law and the validity of any dedications granted to the city. (Ord. 71-94 § 1, 1994)

20.24.090: APPROVAL BY THE MAYOR:

After the city attorney's approval of the final plat, the mayor shall consider the plat, the plan of subdivision, and the offers of dedication. The mayor may reject any or all offers of dedication. As a condition precedent to the acceptance of any streets or easements or the approval of the subdivision, the mayor may require the subdivider, at the city's option, to either improve or agree to improve the streets and install such drainage and utility structures and services as and within the period the mayor shall specify. Such agreement shall include and have incorporated as part thereof, the plans, specifications and profiles referred to and required under section 20.24.020 of this chapter, or its successor. If the mayor determines that the plat is in conformity with the requirements of the ordinances of the city and that the mayor is satisfied with the plans of the subdivision and the city's acceptance of all offers of dedication, the mayor shall approve the plat. (Ord. 71-94 § 1, 1994: prior code § 42-6-9)

20.24.100: DISAPPROVAL OF PLAT BY MAYOR; REFILING:

If the mayor shall determine either that the plat is not in conformity with the requirements of the ordinances of the city, or that he/she is not satisfied with the plans of the subdivision, or if he/she shall reject any offer or offers of dedication, the mayor shall disapprove the plat, specifying reasons for such disapproval. Within thirty (30) days after the mayor has disapproved any plat, the subdivider may file with the city engineer a plat altered to meet the mayor's requirements. No final plat shall have any force or effect until the same has been approved by the mayor. (Prior code § 42-6-10)

20.24.110: RECORDATION WITH COUNTY:

When the mayor shall have approved the final plat, as aforesaid, and when the subdivider shall have filed with the city recorder the agreement and security device described in sections 20.24.040 and 20.24.050 of this chapter, or successor sections, and when such agreement and security device shall have been approved by the city attorney as to form, the plat shall be presented by the subdivider to the Salt Lake County recorder for recordation. (Ord. 94-98 § 8, 1998: prior code § 42-6-11)

CHAPTER 20.28
IMPROVEMENTS AND FLOOD CONTROL

20.28.010: REQUIRED IMPROVEMENTS; IMPROVEMENT AGREEMENT CONDITIONS:

A. The subdivider shall improve, or agree to improve, all streets, pedestrianways or easements in the subdivision, and adjacent streets required to serve the subdivision. No permanent improvement work shall be commenced until improvement plans and profiles have been approved by the city engineer and a subdivision agreement contract has been concluded between the subdivider and the city. Improvements shall be installed to permanent line and grade and to the satisfaction of the city engineer, and in accordance with the standard subdivision specifications contained in title 18, chapter 18.28 of this code or its successor, as adopted by the city. The cost of inspection shall be paid by the subdivider.

B. The minimum improvements which the subdivider normally shall make, or agree to make, at the cost of the subdivider, prior to acceptance and approval of the final subdivision map by the city shall be:

1. Grading, curbs and gutter, paving drainage, and drainage structures necessary for the proper use and drainage of streets and pedestrianways, and for the public safety;
2. Site grading and drainage, taking into consideration the drainage pattern of adjacent improved and unimproved property and treating upstream areas, where appropriate, as though fully improved. All site grading shall conform to the specifications contained in title 18, chapter 18.28 of this code, on site development regulations;
3. All streets and pedestrianways shall be graded, and surfaced to widths and grades shown on the improvement plans and profiles. The subdivider shall improve the extension of all subdivision streets and pedestrianways to any intercepting or intersecting streets;
4. Sidewalks shall be installed as shown on the improvement plans and profiles;
5. Sanitary sewer facilities connecting with the existing city sewer system shall be installed to serve the subdivision, with a separate private lateral for each lot, and to grades and sizes shown on the plans;
6. Stormwater drains shall be installed as shown on the plans;
7. Water mains and fire hydrants connecting to the water system serving the city shall be installed as shown on the plans signed by the city engineer. Mains and individual lot services shall be of sufficient size to furnish an adequate water supply for each lot or parcel in the subdivision and to provide adequate fire protection;
8. Street trees, if required, shall be of a type approved by the city and planted in approved locations;
9. Barricades, street signs and traffic safety devices shall be placed as required by the city engineer and city transportation engineer;
10. Street lighting facilities shall be provided in accordance with city policy for the area of the city where the subdivision is located, and shall be so screened as not to interfere with views from hillsides of the city;
11. All telephone, electric power, cable television or other wires or cables shall be placed underground. Equipment appurtenant to the underground facilities, such as surface mounted transformers, pedestal mounted terminal boxes and meter cabinets, and concealed ducts may be aboveground. The subdivider shall make necessary arrangements with the utilities involved for the installation of the underground facilities;
12. Provisions shall be made for any railroad crossings necessary to provide access to or circulation within the proposed subdivision. (Ord. 7-99 § 20, 1999: prior code § 42-8-1)

20.28.020: UNDERGROUND UTILITY INSTALLATION:

All underground utilities, sanitary sewers and storm drains installed in streets or alleys shall be constructed prior to the surfacing of such streets or alleys. Connections for all underground utilities and sanitary sewers shall be laid to such length as will obviate the necessity for disturbing the street or alley improvements, when service connections thereto are made. (Prior code § 42-8-2)

20.28.030: IMPROVEMENTS; AS BUILT PLAN FILED ON COMPLETION:

A complete improvement plan "as built" shall be filed with the city engineer upon completion of said improvements. Such as built plans shall be drawn on copies of the original tracings and certified as to accuracy and completeness by the subdivider's licensed contractor. Upon receipt and acceptance of the as built plan, the city engineer will recommend formal acceptance by the mayor. (Amended during 1/88 supplement: prior code § 42-8-3)

20.28.040: FLOOD CONTROL REQUIREMENTS:

Notwithstanding the provisions of this section and sections 20.28.010 through 20.28.030 of this chapter, or successor sections, the following requirements shall be imposed as a condition of approval of a subdivision located within a floodplain area, as defined by title 18, chapter 18.68 of this code:

A. The subdivision design shall be consistent with the need to minimize flood damage;

B. Adequate drainage must be provided so as to reduce exposure to flood hazards; and

C. All public utilities and facilities such as sewer, gas, electrical and water systems shall be located, elevated or constructed so as to minimize or eliminate flood damage. (Prior code § 42-7-14)

CHAPTER 20.29
ROUTINE AND UNCONTESTED LOT LINE ADJUSTMENTS

20.29.010: PURPOSE:

The purpose of this chapter is to enable routine and uncontested lot line adjustments between two (2) lots to be considered and approved administratively by the planning division. (Ord. 7-99 § 21, 1999)

20.29.020: APPLICABILITY:

This chapter applies to routine and uncontested lot line adjustments between two (2) legally existing agricultural, residential, commercial or industrial subdivision lots. Applications processed pursuant to this chapter shall:

A. Meet all applicable zoning requirements.

B. Receive the consenting signatures of all abutting property owners as specified in section 20.29.030 of this chapter.

C. Not affect any street right of way.

D. Not create any new lots. (Ord. 7-99 § 21, 1999)

20.29.030: GENERAL APPLICATION CONTENTS:

The application for routine and uncontested lot line adjustments shall include:

A. The signatures of approval of all abutting property owners and property owners directly across any abutting street(s) on a form provided by the planning division.

B. Six (6) copies of a preliminary plat drawing in accordance with chapter 20.16 and section 20.08.250 of this title, showing the land to be subdivided, properly and accurately drawn to scale, certified as accurate by a registered land surveyor or professional engineer.

C. A current Sidwell map (with aerial photograph and ownership lines) from the Salt Lake County recorder's office showing the entire subject area. (Ord. 7-99 § 21, 1999)

20.29.040: FEES:

The petitioners shall pay an application review fee shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

20.29.050: CITY INTERNAL REVIEW:

The planning director or designee shall review the application for completeness and for compliance to the regulations of the zoning ordinance. Upon review of the application and preliminary plat, the planning director, or designee, may either approve the lot line adjustment or forward the application through the minor subdivision process as described in chapter 20.20 of this title. (Ord. 7-99 § 21, 1999)

20.29.060: RECORDABLE INSTRUMENT:

The planning director or designee shall record a notice with the Salt Lake County recorder's office containing the legal description of each new lot and stating any conditions of approval. (Ord. 7-99 § 21, 1999)

CHAPTER 20.31
SUBDIVISION AMENDMENTS

Article I. General Provisions

20.31.010: AMENDMENT INITIATION:

The city may, with or without an amendment petition, consider any proposed vacation, alteration, or amendment of a subdivision plat, any portion of a subdivision plat, or any street, lot or alley contained in a subdivision plat pursuant to the provisions of this chapter. (Ord. 7-99 § 23, 1999)

20.31.020: PETITION FILING:

The owner of any land within a recorded subdivision may submit an amendment petition to the city planning director or designee pursuant to the provisions of this chapter. (Ord. 7-99 § 23, 1999)

20.31.030: GENERAL PETITION CONTENTS:

An amendment petition shall include:

A. A letter to the mayor requesting a subdivision plat amendment;

B. Ten (10) copies of a preliminary plat drawing showing the land to be subdivided, properly and accurately drawn to scale, certified as accurate by a registered land surveyor or professional engineer;

C. One reduced eleven inch by seventeen inch (11" x 17") or eight and one-half inch by eleven inch (8.5" x 11") copy of the preliminary plat drawing;

D. The name and address, on gummed mailing labels, of the following:

1. All owners, as shown in the last county assessment rolls, of the land contained in the entire original or previously amended subdivision plat and of all property owners within three hundred feet (300') of the property (excluding streets) that is the subject of the proposed plat change;

2. All owners, as shown in the last county assessment rolls, of land within the subdivision plat or adjacent to any street that is proposed to be closed, vacated, altered or amended;

3. The name and address of the petitioner;

4. The name and address of the chairperson(s) of the affected community council(s) of affected recognized or registered organizations pursuant to title 2, chapter 2.62 of this code or its successor; and

E. A current Sidwell map (with aerial photograph and ownership lines) from the Salt Lake County recorder's office showing the entire subdivision plat and notice area. (Ord. 7-99 § 23, 1999)

20.31.040: FEES:

The petitioners shall pay, with the amendment petition, the appropriate fees shown on the Salt Lake City consolidated fee schedule:

A. Petition filing fee;

B. Postage: The cost of postage for each mailing label as required by subsection 20.31.030D of this chapter. (Ord. 24-11, 2011)

Article II. Subdivision Amendments Not Involving Streets

20.31.050: APPLICABILITY:

Residential, commercial, industrial or agricultural subdivision amendments not involving the closure, vacation, alteration or amendment of any street or, that cannot be processed under chapter 20.29 of this title as routine and uncontested lot line adjustments, shall be processed pursuant to this article. (Ord. 7-99 § 23, 1999)

20.31.060: CITY INTERNAL REVIEW:

A. The planning director or designee shall obtain comments regarding the amendment petition from all interested city departments or divisions.

B. The division of transportation may, if the division determines that the proposed amendment petition may have an adverse material impact on traffic, require the applicant to submit a professionally prepared traffic impact study prior to the hearing on the application.

C. The departmental comments shall be transmitted to the petitioner. (Ord. 7-99 § 23, 1999)

20.31.070: STAFF REPORT:

The planning director or designee shall assign a member of the director's staff to prepare a written report regarding the amendment petition after completion of the internal review or receipt of the traffic study, whichever is later. (Ord. 7-99 § 23, 1999)

20.31.080: ADMINISTRATIVE HEARING:

A. The planning director or designee shall hold a public administrative hearing to consider the amendment petition.

B. Notice of the administrative hearing shall be mailed to all individuals and entities identified in subsection 20.31.030D of this chapter or its successor, and shall also be posted on the subject property at least ten (10) days prior to the scheduled hearing.

C. The planning director or designee shall review all city departmental comments, comments from the petitioner and other individuals and may either:

1. Approve or deny the petition based upon the standards set forth in section 20.31.090 of this chapter; or

2. Forward the amendment petition to the planning commission. (Ord. 61-09 § 2, 2009: Ord. 7-99 § 23, 1999)

20.31.090: STANDARDS FOR APPROVAL OF AMENDMENT PETITION:

An amendment petition shall be approved only if it meets all of the following requirements:

A. The amendment will be in the best interests of the city;

B. All lots comply with all applicable zoning standards;

C. All necessary and required dedications are made;

D. Provisions for the construction of any required public improvements are included;

E. The amendment complies with all applicable laws and regulations; and

F. The amendment does not materially injure the public or any person and there is good cause for the amendment. (Ord. 7-99 § 23, 1999)

20.31.100: APPEALS FROM ADMINISTRATIVE DECISION:

A. If the petitioner, or any notified individual or organization, disagrees with the planning director's decision, a written objection, clearly specifying the reasons therefor, shall be filed with the city within fourteen (14) days following the administrative hearing.

B. The objection shall be heard before the planning commission subject to the following provisions of section 20.31.120 of this chapter. (Ord. 7-99 § 23, 1999)

20.31.120: PLANNING COMMISSION HEARING:

A. The planning commission shall hold a public hearing to consider the amendment petition.

B. Notice of the planning commission hearing shall be mailed to all individuals and entities identified in subsection 20.31.030D of this chapter, or its successor, and shall also be posted on the subject property at least ten (10) days prior to the scheduled hearing.

C. The planning commission shall review all city departmental comments, comments from the petitioner and other individuals, and shall approve or deny the amendment petition with specific findings of fact, according to the standards for approval set forth in section 20.31.090 of this chapter. (Ord. 61-09 § 3, 2009: Ord. 7-99 § 23, 1999)

20.31.130: RECORDABLE INSTRUMENT:

If the amendment petition is approved, the planning director shall execute and record the final amended subdivision plat and such other documents as may be required. (Ord. 7-99 § 23, 1999)

Article III. Subdivision Amendments Involving Streets

20.31.140: PURPOSE AND AUTHORIZATION:

If the amendment petition involves closure, vacation, alteration or amendment of any street, the amendment petition shall be processed pursuant to the provisions of this article. (Ord. 7-99 § 23, 1999)

20.31.150: CITY INTERNAL REVIEW:

A. The planning director or designee shall obtain comments regarding the amendment petition from all interested city departments or divisions.

B. The division of transportation may, if the division determines that the proposed amendment petition may have an adverse material impact on traffic, require the applicant to submit a professionally prepared traffic impact study prior to the hearing on the application.

C. The departmental comments shall be transmitted to the petitioner. (Ord. 7-99 § 23, 1999)

20.31.160: STAFF REPORT:

The planning director shall assign a member of the director's staff to prepare a written report regarding the amendment petition after completion of the internal review or receipt of the traffic study, whichever is later. (Ord. 7-99 § 23, 1999)

20.31.180: PLANNING COMMISSION HEARING:

A. The planning commission shall hold a public hearing to consider the amendment petition.

B. Notice of the planning commission hearing shall be mailed to all individuals and entities identified in subsection 20.31.030D of this chapter or its successor, and shall also be posted on the subject property at least ten (10) days prior to the scheduled hearing.

C. The planning commission shall review all city departmental requirements, comments from the petitioner and other individuals, and shall approve or deny the amendment petition with specific findings of fact, according to the standards for approval set forth in section 20.31.090 of this chapter. (Ord. 61-09 § 4, 2009: Ord. 7-99 § 23, 1999)

20.31.190: CITY COUNCIL HEARING:

A. The city council shall hold a public hearing to consider the amendment petition.

B. A notice of public hearing before the Salt Lake City council shall be mailed to all individuals and entities identified in subsection 20.31.030D of this chapter, or its successor, shall be posted on the subject property at least ten (10) days prior to the scheduled administrative hearing, and shall be published once a week for four (4) consecutive weeks before the hearing in a newspaper of general circulation in the city.

C. The city council shall review all city departmental requirements, comments from the petitioner and other individuals, the recommendation of the planning commission and shall approve or deny the amendment petition with specific findings of fact, according to the standards for approval set forth in section 20.31.090 of this chapter. (Ord. 61-09 § 5, 2009: Ord. 7-99 § 23, 1999)

20.31.200: RECORDABLE INSTRUMENT:

If the amendment petition is approved by the council, the planning director shall execute and record the final amended subdivision plat and such other documents as may be required. (Ord. 7-99 § 23, 1999)

Article IV. Appeals And Enforcement

20.31.310: EXHAUSTION OF ADMINISTRATIVE REMEDIES:

No person may challenge in district court the city's actions on an amendment petition under this chapter until that person has exhausted all available administrative remedies. (Ord. 7-99 § 23, 1999)

20.31.320: APPEAL FROM PLANNING COMMISSION DECISION:

Any person adversely affected by a final decision made by the planning commission under this chapter may appeal to the appeals hearing officer in accordance with the provisions of title 21A, chapter 21A.16 of this code. (Ord. 8-12, 2012)

20.31.330: APPEALS FROM APPEALS HEARING OFFICER AND CITY COUNCIL DECISIONS:

Any person adversely affected by a final decision made by the appeals hearing officer or the city council under this chapter may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered. (Ord. 8-12, 2012)

20.31.340: ENFORCEMENT:

A. The city, in addition to any other remedy provided by law, may seek to prevent any remedy or violation of this chapter which has occurred or is about to occur by instituting a proceeding for an injunction, mandamus, abatement or any other appropriate action.

B. The city may enforce the provisions of this chapter by refusing to issue building permits. (Ord. 7-99 § 23, 1999)

20.31.350: CIVIL PENALTIES:

Any violations of the provisions of this chapter shall subject the violator to a civil penalty in the following amounts:

A. Two hundred dollars ($200.00) per day of the violation if the violation occurs in the foothills FR-1, FR-2, FR-3 district and FP foothills protection district.

B. One hundred dollars ($100.00) per day of the violation for any other violation. (Ord. 7-99 § 23, 1999)

CHAPTER 20.32
MODIFICATIONS AND APPEALS

20.32.010: MODIFICATIONS; PERMITTED WHEN; PETITION FROM SUBDIVIDER:

A. Whenever the land involved in any subdivision is of such size or shape, or is subject to such title limitations of record, or is affected by such topographical location or conditions, or is to be devoted to such use that it is impossible, impractical or undesirable in a particular case for the subdivider fully to conform to the standard specifications contained in title 18, chapter 18.28 of this code, or its successor, the planning commission may recommend and the mayor may permit such modification thereof as may be reasonably necessary if such modifications are in conformity with the spirit and purpose of this title.

B. Application for any such modification shall be made by a verified petition of the subdivider, stating fully the grounds of the application and the facts relied upon by the petitioner. Such petition shall be filed with or after the filing of the preliminary plat of the subdivision.

C. In order for the property referred to in the petition to come within the provisions of this section, it shall be necessary that the planning commission shall find the following facts with respect thereto:

1. There are special circumstances or conditions affecting said property;
2. The modification is necessary for the preservation and enjoyment of a substantial property right of the petitioner;
3. The granting of the modification will not be detrimental to the public welfare or safety, or injurious to other property in the territory in which the property is situated. (Ord. 7-99 § 24, 1999: prior code § 42-9-1)

20.32.020: MODIFICATIONS; PLANNED DEVELOPMENTS:

A. The planning commission shall review applications on planned developments, and may approve modifications of zoning ordinances as may be appropriate and necessary, in accordance with the criteria established in title 21A of this code regarding planned developments.

B. Additionally, upon an application of a planned development that desires approval as a subdivision of lots under this title, the planning commission shall review the application, pursuant to the procedure governing subdivisions, but, in its discretion, may waive portions of the requirements of this title or title 21A of this code applicable to lot area, size, minimum side yards, public road dedication and minimum road frontage setbacks upon terms or conditions as it deems appropriate and consistent with criteria set forth in title 21A of this code regarding planned developments. (Ord. 7-99 § 25, 1999: prior code § 42-9-2)

20.32.030: APPEALS:

A. Any person adversely affected by any final decision made by the mayor under section 20.32.010 of this chapter, concerning modifications to the standard subdivision specifications contained in title 18, chapter 18.28 of this code, or its successor, may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered.

B. Any person adversely affected by a final decision made by the planning commission under section 20.32.020 of this chapter, concerning modifications to a subdivision involving a planned development, may appeal to the appeals hearing officer in accordance with the provisions of title 21A, chapter 21A.16 of this code. (Ord. 8-12, 2012: Ord. 77-03 § 4, 2003: Ord. 7-99 § 26, 1999: prior code § 42-9-3)

CHAPTER 20.36
ENFORCEMENT

20.36.010: UNLAWFUL ACTS INVOLVING SALE OR LEASE OF PROPERTY:

A. No person shall offer to sell, contract to sell, sell, deed or convey any property contrary to the provisions of this title.

B. Any deed of conveyance, sale or contract to sell made contrary to the provisions of this title is voidable at the sole option of the grantee, buyer or person contracting to purchase, his/her heirs, personal representative, or trustee insolvency or bankruptcy within one year after the date of execution of the deed of conveyance, sale or contract to sell, but the deed of conveyance, sale or contract to sell is binding upon any assignee or transferee of the grantee, buyer or person contracting to purchase, other than those above enumerated, and upon the grantor, vendor or person contracting to sell, or his or her assignee, heir or devisee. (Prior code § 42-10-1)

20.36.020: VIOLATION; PENALTY:

It shall be unlawful for any person to fail to comply with the provisions of this title, and failure to comply with the provisions of this title shall constitute a class C misdemeanor. (Prior code § 42-10-2)

Title 21A - ZONING

CHAPTER 21A.02
TITLE, AUTHORITY, PURPOSE AND APPLICABILITY

21A.02.010: TITLE:

This title shall be known, cited and referred to as the *ZONING ORDINANCE OF SALT LAKE CITY, UTAH* or the *ZONING ORDINANCE*. All references to the various provisions of chapters 21A.02 through 21A.64 of this title shall be considered as references to correspondingly numbered sections and chapters of this title. (Ord. 26-95 § 2(1-1), 1995)

21A.02.020: AUTHORITY:

The city council of Salt Lake City adopts this title pursuant to the municipal land use development and management act, title 10, chapter 9, of the Utah Code Annotated or its successor, and such other authorities and provisions of Utah statutory and common law that are relevant and appropriate. (Ord. 26-95 § 2(1-2), 1995)

21A.02.030: PURPOSE AND INTENT:

The purpose of this title is to promote the health, safety, morals, convenience, order, prosperity and welfare of the present and future inhabitants of Salt Lake City, to implement the adopted plans of the city, and to carry out the purposes of the municipal land use development and management act, title 10, chapter 9, of the Utah Code Annotated or its successor, and other relevant statutes. This title is, in addition, intended to:

A. Lessen congestion in the streets or roads;

B. Secure safety from fire and other dangers;

C. Provide adequate light and air;

D. Classify land uses and distribute land development and utilization;

E. Protect the tax base;

F. Secure economy in governmental expenditures;

G. Foster the city's industrial, business and residential development; and

H. Protect the environment. (Ord. 26-95 § 2(1-3), 1995)

21A.02.040: EFFECT OF ADOPTED MASTER PLANS OR GENERAL PLANS:

All master plans or general plans adopted by the planning commission and city council for the city, or for an area of the city, shall serve as an advisory guide for land use decisions. Amendments to the text of this title or zoning map should be consistent with the purposes, goals, objectives and policies of the applicable adopted master plan or general plan of Salt Lake City. (Ord. 26-95 § 2(1-4), 1995)

21A.02.050: APPLICABILITY:

A. General Applicability: The provisions of this title shall apply to all of the land area within the corporate limits of Salt Lake City, as indicated on the zoning map as provided in chapter 21A.22 of this title. Except as expressly provided in this title, no development shall be undertaken without prior zoning approval pursuant to the provisions of this title.

B. Exemptions: The following properties, uses and structures shall, to the extent provided by law, be exempt from the regulations of this title:

1. Properties Of The State Of Utah Or Federal Government: Properties owned and occupied by the state of Utah or the United States. Where laws applicable to such properties require the property owner to take reasonable steps to comply with local regulations, this exemption shall not be construed to abrogate that requirement.

2. Utility Installations: Wires, cables, conduits, vaults, laterals, pipes, mains, valves or other similar equipment for the distribution to consumers of telephone or other communications, electricity, gas or water, or the collection of sewage or stormwater when owned, operated and/or maintained by a governmental entity or a public utility. Such installations shall comply with federal communications commission and federal aviation administration rules and regulations and those of other authorities having jurisdiction. This exemption shall not apply to section 21A.40.160, "Ground Mounted Utility Boxes", of this title.

3. Railroad Facilities: Railroad tracks, signals, bridges and similar facilities and equipment located on a railroad right of way, and maintenance and repair work on such facilities and equipment. (Ord. 21-08 § 1, 2008: Ord. 26-95 § 2(1-5), 1995)

21A.02.060: TRANSITION RULES:

A. To avoid undue hardship, nothing in this title shall be deemed to require a change in the plans, construction or designated use of any building for which a complete building permit application and appropriate fees were received prior to the effective date hereof, April 12, 1995, or any amendment hereto, unless the permit is allowed to expire. If the applicant allows the permit to expire, the applicant shall be subject to the provisions of this title. If such building permit pertains to a phase of development only, any subsequent phase for which a building permit is required shall comply with the parking and landscaping requirements of this title.

B. Any complete application for a development project that has been filed with either the planning commission, historical landmark commission, or city council shall be allowed to comply with the zoning regulations in effect at the time that the complete application was filed. At the conclusion of the applicable process, an applicant shall file for the appropriate permits and pursue them to completion. If the applicant allows the permit to expire, the applicant shall be subject to the provisions of this title. (Ord. 8-12, 2012)

CHAPTER 21A.04
TITLE STRUCTURE, INTERPRETATION AND LEGAL EFFECT

21A.04.010: ORGANIZATION OF TITLE:

This title is organized into seven (7) parts as described in subsection A of this section and includes different types of zoning districts and regulations for the use and development of land as described in subsections B and C of this section.

A. Structure Of This Title: This title consists of:

Part I	Introductory Provisions
Part II	Administration And Enforcement
Part III	Specific District Regulations
Part IV	Regulations Of General Applicability
Part V	Amendments And Special Approvals
Part VI	General Terms
Part VII	Fees

B. Types Of Zoning Districts In This Title: This title establishes three (3) types of zoning districts: 1) base zoning districts; 2) special purpose districts; and 3) overlay districts. These districts are found in part III of this title. Base zoning districts are the zoning districts that reflect the four (4) basic geographically based land use categories in the city - residential areas, commercial areas, manufacturing areas and the downtown - with appropriate regulations and development standards to govern the uses in these districts. Special purpose districts consist of regulations that address special types of land uses, such as the airport or institutional uses. Overlay districts consist of regulations that address specific subjects that may be applicable in a variety of areas in the city, such as historic areas or environmentally sensitive areas.

C. Types Of Regulations In This Title: The following types of regulations are contained in this title:

1. Land Use Regulations: Land use regulations for each base zoning district specify land uses permitted as of right, or allowed after obtaining conditional use approval. The regulations include special requirements applicable to specific uses. Land use regulations for all districts appear in part III of this title. Land use regulations may be modified by overlay districts also found in part III of this title, or by procedures in part V, "Amendments And Special Approvals", of this title.

2. Development Standards: Development standards for each zoning district include fixed dimensional standards and performance standards. Fixed dimensional standards are numerical maximum or minimum conditions which govern the development on a site. These standards are intended to promote uniformity of development in terms of the dimensions being controlled. Performance standards establish certain criteria which must be met on a site, but allow flexibility as to how those criteria can be met.

Development standards control the height, size, location and other particular aspects of structures and uses on sites intended for development. These standards also prescribe buffering requirements between districts and between certain potentially incompatible uses. Development standards for each zoning district appear in part III of this title. Development standards for base zoning districts may be modified by overlay districts which are found in part III of this title, or through procedures in part V, "Amendments And Special Approvals", of this title. The development standards in part III of this title are supplemented by additional development standards in part IV of this title. The development standards in part IV of this title also include sign regulations applicable to the zoning districts.

3. Administration: Administration includes creation of, and allocation of powers and duties to, decision making bodies and officials, requirements for zoning certificates, general application and public hearing procedures for administrative interpretations, decisions on routine and uncontested matters, appeals of administrative decisions and variances. These administrative regulations appear in part II of this title.

4. Enforcement: Enforcement contains the remedies available to the city to enforce this title. These regulations appear in part II of this title.

D. General Terms In This Title: Chapter 21A.60 of this title includes a list, with cross references, and chapter 21A.62 of this title includes definitions for terms used in this title. (Ord. 35-99 § 103, 1999: Ord. 26-95 § 2(2-1), 1995)

21A.04.020: INTERPRETATION:

The regulations contained in this title shall be interpreted and applied in accordance with the following rules:

A. Minimum Requirements: All regulations shall be construed as the minimum requirements necessary to promote the public health, safety, morals, convenience, order, prosperity and welfare of the present and future inhabitants of the city.

B. Relationship To Easements, Covenants And Other Agreements: The provisions of this title are not intended to interfere with, abrogate or require enforcement by the city of any legally enforceable easements, covenants, or other agreements between private parties that may restrict the use of land or dimensions of structures more than the provisions of this title. When the regulations of this title impose greater restrictions than are imposed by such easements, covenants or other agreements between parties, or than are required by laws or other applicable ordinances, the provisions of this title shall control.

C. Number: A word importing the singular number may be applied to plural persons and things. The use of the plural number shall include any single person or thing.

D. Tense: The present tense of a word includes the future tense as well.

E. Shall, May: The word "shall" is mandatory; the word "may" is permissive.

F. Computation Of Time: The time within which an act is to be done shall be computed by excluding the first and including the last day. If the last day is a Saturday, Sunday or legal holiday recognized by the city, that day shall be excluded.

G. Year: The word "year" shall mean any consecutive twelve (12) month period unless otherwise indicated. (Ord. 26-95 § 2(2-2), 1995)

21A.04.030: BUILDING/DEMOLITION PERMITS REQUIRED:

It is unlawful, whether acting as owner, occupant or contractor, or otherwise to erect, construct, reconstruct, alter, demolish, or change the use of any building or other structure within Salt Lake City contrary to any provisions of this title without first obtaining a building or demolition permit from the division of building services and licensing unless the proposed improvements are such that the division of building services and licensing does not require a permit. It is also unlawful for any person, whether acting as owner, occupant or contractor to install any hard surfacing material, other than sidewalks, ornamental landscaping features, or for the minor repair of existing legal hard surfaced areas on any property without first obtaining a building permit from the division of building services and licensing. It is also unlawful for any person, whether acting as an owner, occupant or contractor, to install accessory structures without first obtaining a building permit from the division of building services and licensing, unless the adopted building code excludes such accessory structure from a building permit requirement.

Projects located within the boundaries of a historic preservation overlay district, or on a landmark site shall submit an application for certificate of appropriateness for all improvements regardless of any building permit requirements. (Ord. 11-10 § 3, 2010)

CHAPTER 21A.06
DECISION MAKING BODIES AND OFFICIALS

21A.06.010: SUMMARY OF AUTHORITY:

The city decision making bodies and officials described in this chapter, without limitation upon such authority as each may possess by law, have responsibility for implementing and administering this title in the manner described in sections 21A.06.020 through 21A.06.070 of this chapter. Other city departments also have specific responsibilities related to this title and are identified in the appropriate sections. (Ord. 26-95 § 2(3-1), 1995)

21A.06.020: CITY COUNCIL; JURISDICTION AND AUTHORITY:

The city council has the following powers and duties in connection with the implementation of this title:

A. Adopt, amend or reject a proposed general plan for all or part of the area within the city;

B. Initiate amendments to the text of this title and to the zoning map pursuant to the provisions of section 21A.50.020 of this title;

C. Consider and adopt, reject or modify amendments to the text of this title and to the zoning map pursuant to the provisions of sections 21A.50.030 and 21A.50.040 of this title;

D. Establish a fee schedule for applications for a zoning certificate, zoning amendments, special approvals and any other type of approval required by the provisions of this title; and

E. Take such other actions which are legislative in nature and which are not delegated to other bodies which may be desirable and necessary to implement the provisions of this title. (Ord. 83-96 § 1, 1996: Ord. 26-95 § 2(3-2), 1995)

21A.06.030: PLANNING COMMISSION:

A. Creation: The planning commission is created pursuant to the enabling authority granted by the municipal land use development and management act of the Utah code.

B. Jurisdiction And Authority: The planning commission shall have the following powers and duties in connection with the implementation of this title:

1. Prepare and recommend to the city council for adoption, a comprehensive, general plan and amendments to the general plan for the present and future needs of the city and the growth and development of the land within the city or any part of the city;

2. Make comprehensive surveys and studies of the existing conditions and trends of growth and of the probable future requirements of the city and its residents as part of the preparation of the general plan;

3. Initiate amendments to the text of this title and to the zoning map pursuant to the provisions of section 21A.50.020 of this title;

4. Review, evaluate and make recommendations to the city council on proposed amendments to this title pursuant to the procedures and standards set forth in sections 21A.50.030 and 21A.50.040 of this title;

5. Review, hear and decide applications for conditional uses, including planned developments, pursuant to the procedures and standards set forth in chapters 21A.54, "Conditional Uses", 21A.55, "Planned Developments", and 21A.59, "Conditional Building And Site Design Review", of this title;

6. Hear and decide appeals from administrative hearing decisions of the planning director;

7. Hear and decide applications for subdivision amendments and approvals pursuant to the municipal land use development and management act, title 10, chapter 9a of the Utah Code Annotated;

8. Authorize special exceptions to the terms of this title pursuant to the procedures and standards set forth in chapter 21A.52, "Special Exceptions", of this title; and

9. Make determinations regarding the existence, expansion or modification of nonconforming uses and noncomplying structures pursuant to the procedures and standards set forth in chapter 21A.38, "Nonconforming Uses And Noncomplying Structures", of this title.

C. Membership: The planning commission shall consist of at least nine (9) up to a maximum of eleven (11) voting members, appointed by the mayor with the advice and consent of the city council from among qualified electors of the city in a manner providing balanced geographic, professional, neighborhood and community interests representation. The director of the planning division (or the planning director's designated representative) shall serve as an ex officio member without vote. Voting members may serve a maximum of two (2) consecutive full terms of four (4) years each. The mayor shall appoint a new commission member to fill any vacancy that might arise and such appointment shall not be included in the determination of any person's eligibility to serve two (2) consecutive full terms.

D. Officers: The planning commission shall annually elect a chair and a vice chair who shall serve for a term of one year each. The chair or vice chair may not be elected to serve consecutive terms in the same office. The secretary of the planning commission shall be designated by the planning director.

E. Meetings: The planning commission shall meet at least once each month.

F. Record Of Proceedings: The proceedings of each meeting and public hearing shall be recorded on audio equipment. Records of confidential executive sessions shall be kept in compliance with the government records access and management act. The audio recording of each meeting shall be kept for a minimum of sixty (60) days. Upon the written request of any interested person, such audio recording shall be kept for a reasonable period of time beyond the sixty (60) day period, as determined by the planning commission. Copies of the tapes of such proceedings may be provided, if requested, at the expense of the requesting party. The commission shall keep written minutes of its proceedings and records of all of its examinations and official actions.

G. Quorum And Vote: No business shall be conducted at a meeting of the planning commission without at least a quorum constituted by the majority of the appointed voting members. All actions of the planning commission shall be represented by a vote of the membership. A simple majority of the voting members present at the meeting at which a quorum is present shall be required for any action taken. The decision of the planning commission shall become effective upon the posting of the record of decision.

H. Public Hearings: The planning commission shall schedule and give public notice of all public hearings pursuant to the provisions of chapter 21A.10, "General Application And Public Hearing Procedures", of this title.

I. Conflicts Of Interest: No member of the planning commission shall participate in or be present at the hearing or disposition of any matter in which that member has any conflict of interest prohibited by title 2, chapter 2.44 of this code. The planning commission may, by majority vote of the members present, allow a member, otherwise required to leave due to a conflict, to be present if required by special or unusual circumstances.

J. Removal Of A Member: Any member of the planning commission may be removed by the mayor for violation of this title or any policies and procedures adopted by the planning commission following receipt by the mayor of a written complaint filed against the member. If requested by the member, the mayor shall provide the member with a public hearing conducted by a hearing officer appointed by the mayor.

K. Policies And Procedures: The planning commission shall adopt policies and procedures for the conduct of its meetings, the processing of applications and for any other purposes considered necessary for its proper functioning. (Ord. 15-13, 2013: Ord. 70-12, 2012)

21A.06.040: APPEALS HEARING OFFICER:

A. Creation: The position of appeals hearing officer is created pursuant to the enabling authority granted by the municipal land use, development, and management act, section 10-9a-701 of the Utah Code Annotated.

B. Jurisdiction And Authority: The appeals hearing officer shall have the following powers and duties in connection with the implementation of this title:

1. Hear and decide appeals from any administrative decision made by the zoning administrator in the administration or the enforcement of this title pursuant to the procedures and standards set forth in chapter 21A.16, "Appeals Of Administrative Decisions", of this title;

2. Authorize variances from the terms of this title pursuant to the procedures and standards set forth in chapter 21A.18, "Variances", of this title;

3. Hear and decide appeals of any administrative decision made by the historic landmark commission pursuant to the procedures and standards set forth in section 21A.34.020, "H Historic Preservation Overlay District", of this title;

4. Hear and decide appeals from decisions made by the planning commission concerning subdivisions or subdivision amendments pursuant to the procedures and standards set forth in title 20, "Subdivisions", of this code; and

5. Hear and decide appeals from administrative decisions made by the planning commission pursuant to the procedures and standards set forth in this title.

C. Qualifications: The appeals hearing officer shall be appointed by the mayor with the advice and consent of the city council. The mayor may appoint more than one appeals hearing officer, but only one appeals hearing officer shall consider and decide upon any matter properly presented for appeals hearing officer review. The appeals hearing officer may serve a maximum of two (2) consecutive full terms of five (5) years each. The appeals hearing officer shall either be law trained or have significant experience with land use laws and the requirements and operations of administrative hearing processes.

D. Conflict Of Interest: The appeals hearing officer shall not participate in any appeal in which the appeals hearing officer has a conflict of interest prohibited by title 2, chapter 2.44 of this code.

E. Removal Of The Appeals Hearing Officer: The appeals hearing officer may be removed by the mayor for violation of this title or any policies and procedures adopted by the planning director following receipt by the mayor of a written complaint filed against the appeals hearing officer. If requested by the appeals hearing officer, the mayor shall provide the appeals hearing officer with a public hearing conducted by a hearing officer appointed by the mayor. (Ord. 61-12, 2012)

21A.06.050: HISTORIC LANDMARK COMMISSION:

A. Creation: The historic landmark commission is created pursuant to the enabling authority granted by the historic district act, section 11-18-1 et seq., of the Utah Code Annotated, 1953.

B. Jurisdiction And Authority: The historic landmark commission shall:

1. Review and approve or deny an application for a certificate of appropriateness pursuant to the provisions of chapter 21A.34 of this title;
2. Participate in public education programs to increase public awareness of the value of historic, architectural and cultural preservation;
3. Review and approve or deny applications for the demolition of structures in the H historic preservation overlay district pursuant to chapter 21A.34 of this title;
4. Recommend to the planning commission the boundaries for the establishment of an H historic preservation overlay district and landmark sites;
5. Make recommendations when requested by the planning commission, the hearing officer or the city council, as appropriate, on applications for zoning amendments and conditional uses involving H historic preservation overlay districts and landmark sites;
6. Review and approve or deny certain special exceptions for properties located within an H historic preservation overlay district. The certain special exceptions are listed as follows:
   a. Building wall height;
   b. Accessory structure wall height;
   c. Accessory structure square footage;
   d. Fence height;
   e. Overall building and accessory structure height;
   f. Signs pursuant to section 21A.46.070 of this title; and
   g. Any modification to bulk and lot regulations of the underlying zoning district where it is found that the underlying zoning would not be compatible with the historic district and/or landmark site.
7. Make recommendations to the planning commission in connection with the preparation of the general plan of the city; and
8. Make recommendations to the city council on policies and ordinances that may encourage preservation of buildings and related structures of historical and architectural significance.

C. Membership: The historic landmark commission shall consist of not less than seven (7) nor more than eleven (11) voting members appointed by the mayor, with the advice and consent of the city council in a manner providing balanced geographic, professional, neighborhood and community interests representation. Voting members of the commission may serve a maximum of two (2) consecutive full terms of four (4) years each. The mayor shall appoint a new commission member to fill any vacancy that might arise and such appointment shall not be included in the determination of any person's eligibility to serve two (2) consecutive full terms.

D. Qualifications Of Members: Each voting member shall be a resident of the city interested in preservation and knowledgeable about the heritage of the city. Members shall be selected so as to ideally provide representation from the following groups of experts and interested parties whenever a qualified candidate exists:

1. At least two (2) architects, and
2. Citizens at large possessing preservation related experience in archeology, architecture, architectural history, construction, history, folk studies, law, public history, real estate, real estate appraisal, or urban planning.

E. Officers: The historic landmark commission shall annually elect a chair and a vice chair who shall serve for a term of one year each. The chair or vice chair may be elected to serve consecutive terms in the same office. The secretary of the historic landmark commission shall be designated by the planning director.

F. Meetings: The historic landmark commission shall meet at least once per month or as needed.

G. Record Of Proceedings: The proceedings of each meeting and public hearing shall be recorded on audio equipment. Records of confidential executive sessions shall be kept in compliance with the Utah state government records access and management act (GRAMA). The historic landmark commission shall keep written minutes of its proceedings and records of all of its examinations and official actions.

H. Quorum And Vote: No business shall be conducted at a meeting of the historic landmark commission without a quorum. A majority of the voting members of the historic landmark commission constitutes a quorum. All actions of the historic landmark commission shall be represented by a vote of the membership. A simple majority of the voting members present at a meeting at which a quorum is present shall be required for any action taken. The decision of the historic landmark commission shall become effective upon the posting of the record of decision.

I. Public Hearings: The historic landmark commission shall schedule and give public notice of all public hearings pursuant to the provisions of chapter 21A.10 of this title.

J. Removal Of A Member: Any member of the historic landmark commission may be removed by the mayor for violation of this title or any policies and procedures adopted by the historic landmark commission following receipt by the mayor of a written complaint filed against the member.

K. Policies And Procedures: The historic landmark commission shall adopt policies and procedures for the conduct of its meetings, the processing of applications and for any other purposes considered necessary for its proper functioning. (Ord. 74-12, 2012)

21A.06.060: ZONING ADMINISTRATOR:

Primary responsibility for administering and enforcing this title shall be delegated to the planning official. Except as otherwise specifically provided in this title, the director may designate a staff person or staff persons in the division to carry out these responsibilities. The staff person(s) to whom such administrative and enforcement functions are assigned shall be referred to in this title as the "zoning administrator". (Ord. 61-11, 2011)

21A.06.070: DEVELOPMENT REVIEW TEAM (DRT):

The development review team shall consist of a designated representative from all city departments and/or divisions involved in the development review/approval process, including, but not limited to, the department of community and economic development, the department of public services, the police department, the fire department and the department of public utilities, and shall be responsible for advising the zoning administrator in the zoning administrator's administration of the site plan review process pursuant to the provisions of chapter 21A.58 of this title. (Ord. 38-08, 2008: Ord. 6-04 § 15, 2004: Ord. 26-95 § 2(3-7), 1995)

CHAPTER 21A.08
ZONING CERTIFICATE

21A.08.010: PURPOSE STATEMENT:

The zoning certificate serves two (2) general purposes. First, it provides a means to document the review of plans for conformance with this title. Second, because the certificate must be filed along with all other applications submitted in connection with a specific development proposal, it provides an ongoing record of actions taken with respect to the authorized use of a particular parcel or site. Because the certificate serves as a vehicle for routine plan review by the zoning administrator prior to special reviews by other decision making bodies, it avoids needless special reviews of incomplete plans. (Ord. 62-09 § 10, 2009)

21A.08.020: AUTHORITY TO ISSUE ZONING CERTIFICATE:

The zoning administrator shall have authority to issue zoning certificates, but only in accordance with the provisions of this chapter. (Ord. 62-09 § 10, 2009)

21A.08.030: ZONING CERTIFICATE REQUIREMENT:

Except as otherwise expressly required herein upon April 12, 1995, a zoning certificate shall be required for the following:

A. Building Permit: Any new principal building development activity requiring a building permit.

B. Change Of Land Use Type: Any change of land use type.

C. Increased Parking Or Landscaping Requirements: Any modification to a property or development that requires an increase in parking or landscaping requirements. (Ord. 62-09 § 10, 2009)

21A.08.040: APPLICATION FOR ZONING CERTIFICATE:

Application for a zoning certificate may be made only by the owner of the property or building or the property owner's authorized agent for which the zoning certificate is sought. The application shall be made to the zoning administrator on a form or forms provided by the office of the zoning administrator. A record of all zoning certificates issued shall be kept on file in the office of the zoning administrator.

A. Application Requirements For Building Permits Or Change In Land Use Type: Each application for a zoning certificate for any new principal building permit, an increased parking requirement, an increased landscaping requirement or change of land use type shall be accompanied by the following:

1. A statement describing:
   a. The type of structure containing the use, if any,
   b. The exact nature of the most recent use of such structure or lot,
   c. The exact nature of the proposed use of the structure or lot, and
   d. The number of off street parking and loading spaces currently provided on the zoning lot;
2. A site plan, drawn to scale and fully dimensioned, including:
   a. The topography, actual shape and dimensions of the lots to be built upon or used,
   b. The exact size and location on the lot of the existing and proposed buildings, structures, and accessory buildings,
   c. The existing and intended use of each building or part of a building,
   d. The number of dwelling units the building is designed to accommodate,
   e. The number and location of off street parking stalls to be provided,
   f. The location and design of loading docks and facilities, and
   g. Such other information with regard to the lot and neighboring lots as may be necessary for the enforcement of this title. (Ord. 62-09 § 10, 2009)

21A.08.050: WAIVER OF REQUIREMENTS:

The zoning administrator shall waive any or all of the submittal requirements of section 21A.08.040 of this chapter, if information necessary to create a zoning certificate exists in existing city records including, but not limited to, building permit, business licensing, appeals hearing officer records, and board of adjustment records. (Ord. 8-12, 2012)

21A.08.060: REVOCATION OF ZONING CERTIFICATE:

A. Authority: A zoning certificate may be revoked by the zoning administrator in accordance with the provisions of this section, if the recipient of the certificate fails to develop or maintain the property in accordance with the plans submitted, the requirements of this title, or any additional requirements lawfully imposed in connection with the issuance of the zoning certificate.

B. Notice: Before a zoning certificate may be revoked, written notice of the decision to revoke shall be given to the certificate holder. The notice shall inform the certificate holder of the grounds for the revocation and advise the certificate holder that the revocation shall be effective thirty (30) days from the date of the notice unless before the revocation date, the certificate holder either: 1) demonstrates to the satisfaction of the zoning administrator compliance with the requirements of the zoning certificate; or 2) files an appeal of the zoning administrator's decision to revoke pursuant to subsection D of this section.

C. Effect Of Revocation: No person may continue to make use of land or buildings in the manner authorized by any zoning certificate after such certificate has been revoked in accordance with this section.

D. Appeal: Any person adversely affected by a final decision of the zoning administrator to revoke a zoning certificate may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012: Ord. 26-95 § 2(4-6), 1995)

CHAPTER 21A.10
GENERAL APPLICATION AND PUBLIC HEARING PROCEDURES

21A.10.010: GENERAL APPLICATION PROCEDURES:

All applications required by the provisions of this title shall be processed in accordance with the following procedures:

A. Determination Of Completeness Of Application: After receipt of an application, the zoning administrator shall determine whether the application is complete. If the zoning administrator determines that the application is not complete, the zoning administrator shall notify the applicant in writing, specifying the deficiencies of the application, including any additional information which must be supplied and advising the applicant that no further action will be taken by the city on the application until the deficiencies are corrected.

B. Consultation With Neighborhood Organizations: In order for an application to be determined complete, the applicant must include, when required by title 2, chapter 2.62 of this code, a signed statement from the appropriate neighborhood organization that the applicant has met with that organization and explained the development proposal for which approval is being sought. The signed statement shall be on a form provided by the zoning administrator.

C. Remedy Of Deficiencies: If the applicant fails to correct the specified deficiencies within thirty (30) days of the notification of deficiency, the application for development approval shall be deemed withdrawn and will be returned to the applicant. Application fees shall not be refunded.

D. Extensions Of Time: The zoning administrator, upon written request, may, for good cause shown and without any notice or hearing, grant extensions of any time limit imposed on an applicant or permittee by this title. An extension of time may also be granted by any body acting pursuant to this title unless this title expressly provides otherwise. The total period of time granted by such extension or extensions shall not exceed twice the length of the original period.

E. Fees: The application shall be accompanied by all the fees shown on the Salt Lake City consolidated fee schedule. The applicant shall also be responsible for payment of all fees established for providing the public notice required by section 21A.10.020 of this chapter, in accordance with the fee schedule, including costs of mailing, preparation of mailing labels and all other costs relating to notification. (Ord. 24-11, 2011)

21A.10.020: PUBLIC HEARING NOTICE REQUIREMENTS:

Providing all of the information necessary for notice of all public hearings required under this title shall be the responsibility of the applicant and shall be in the form established by the zoning administrator and subject to the approval of the zoning administrator pursuant to the standards of this section.

A. Public Hearing Required: Projects requiring a public hearing as required by this title shall be held after the following public notification:

1. Mailing For Public Hearing: Notice by first class mail shall be provided:

   a. A minimum of twelve (12) calendar days in advance of the public hearing;

   b. To all owners and tenants of the land as shown on the Salt Lake City geographic information system records. Mailing labels shall be generated by the city at the time of application submittal and created using the Salt Lake City geographic information system records unless as stated otherwise in this title. A list of parties entitled to notice pursuant to chapter 21A.56 of this title shall be provided by the applicant with the application; and

   c. Within three hundred feet (300') from the periphery of land subject to the application, inclusive of streets and rights of way, or one thousand feet (1,000') of the periphery of the land subject to application for sexually oriented businesses requiring conditional site plan review pursuant to chapter 21A.36 of this title.

2. Notification To Recognized And Registered Organizations: The city shall give e-mail notification, or other form of notification chosen by the planning director, a minimum of twelve (12) calendar days in advance of the public hearing to any organization which is entitled to receive notice pursuant to title 2, chapter 2.62 of this code.

3. Contents Of Mailing Notice For Public Hearing: The first class mailing notice for any public hearing required pursuant to this title shall generally describe the subject matter of the application and the date, time and place of the public hearing, and the place where such application may be inspected by the public. The notice shall also advise that interested parties may appear at the public hearing and be heard with respect to the application.

4. Posting For Public Hearing: The land subject to an application for a public hearing shall be posted by the city with a sign giving notice of the public hearing, providing the date of the hearing including contact information for more information, at least ten (10) calendar days in advance of the public hearing.

   a. Location: One notice shall be posted for each five hundred feet (500') of frontage, or portion thereof, along a public street. At least one sign shall be posted on each public street. The sign(s) shall be located on the property subject to the request or petition and shall be set back no more than twenty five feet (25') from the front property line and shall be visible from the street. Where the land does not have frontage on a public street, signs shall be erected on the nearest street right of way with an attached notation indicating generally the direction and distance to the land subject to the application.

   b. Removal: If the sign is removed through no fault of the applicant before the hearing, such removal shall not be deemed a failure to comply with the standards, or be grounds to challenge the validity of any decision made on the application.

   c. Exemption: This posting requirement shall not apply to applications for amendments involving an H historic preservation overlay district, applications for an administrative certificate of appropriateness or applications for comprehensive rezonings of areas involving multiple parcels of land, including boundaries of a historic district, or for text amendments to this title.

5. Publication: As required by state law, at least twelve (12) calendar days in advance of the first public hearing for an application for an amendment to the text of this title or other processes as required by state law, the city shall publish a notice of such public hearing in a newspaper of general circulation in Salt Lake City.

B. Special Noticing Requirements For Administrative Approvals:

1. Conditional Building And Site Design Review: The planning commission shall consider requests for conditional building and site design review at a public hearing if there is an expression of interest after providing notice as follows:

   a. Notification: The city shall provide written notice by first class mail a minimum of twelve (12) calendar days in advance of the requested action to all owners of the land and tenants subject to the application, as shown on the Salt Lake City geographic information system records, adjacent to and contiguous with the land subject to the application. Recognized and registered organizations are also entitled to receive notice pursuant to title 2, chapter 2.62 of this code by e-mail or other form chosen by the planning director.

   At the end of the twelve (12) calendar day notice period, if there are requests for a public hearing, the planning commission will schedule a public hearing and consider the issue; if there are no requests for a public hearing, the planning director may decide the issue administratively.

2. Determination Of Noncontributing Status Within An H Historic Preservation Overlay District: Prior to the approval of an administrative decision for a certificate of appropriateness for demolition of a noncontributing structure, the city shall provide written notice by first class mail a minimum of twelve (12) calendar days of the determination of noncontributing status of the property to all owners of the land and tenants, within eighty five feet (85') of the land subject to the application as shown on the Salt Lake City geographic information system records. At the end of the twelve (12) day notice period, the planning director shall either issue a certificate of appropriateness for demolition or refer the application to the historic landmark commission.

3. Notice Of Application For Special Exceptions: Prior to the approval of an administrative decision for special exceptions as authorized in chapter 21A.52 of this title, the planning director shall provide written notice by first class mail a minimum of twelve (12) days in advance of the requested action to all abutting property owners and tenants of the land subject to the application, as shown on the Salt Lake City geographic information system records.

   a. Contents Of The Mailing Notice Of Application: The notice for mailing shall generally describe the subject matter of the application, the place where such application may be inspected by the public, the date when the planning director will authorize a final administrative decision, and include the procedures to appeal an administrative decision set forth in chapter 21A.16 of this title. (Ord. 62-11, 2011)

21A.10.030: PUBLIC HEARING PROCEDURES:

A public hearing held pursuant to the provisions of this title shall comply with the following procedures:

A. Scheduling The Public Hearing: An application requiring a public hearing shall be scheduled to be heard within a reasonable time in light of the complexity of the application and available staff resources, and by the applicable public notice standards under this title or such time as is mutually agreed upon between the applicant and the decision making body.

B. Examination And Copying Of Application And Other Documents: Upon reasonable request, and during normal business hours, any person may examine an application and materials submitted in support of or in opposition to an application in the appropriate city office. Copies of such materials shall be made available at reasonable cost.

C. Conduct Of Public Hearing:

1. Rights Of All Persons: Any person may appear at a public hearing and submit evidence, either individually or as a representative of a person or an organization. Each person who appears at a public hearing shall be identified, state an address, and if appearing on behalf of a person or an organization, state the name and mailing address of the person or organization being represented.

2. Exclusion Of Testimony: The body conducting the public hearing may exclude testimony or evidence that it finds to be irrelevant, immaterial, unduly repetitious, or otherwise inadmissible.

3. Proffers Of Testimony: In the event any testimony or evidence is excluded as irrelevant, immaterial or unduly repetitious, the person offering such testimony or evidence shall have an opportunity to offer a proffer in regard to such testimony or evidence for the record. Such proffer shall be made at the public hearing.

4. Continuance Of Public Hearing: The body or officer conducting the public hearing may, upon the body's or officer's own motion, continue the public hearing or meeting to a fixed date, time and place. Two-thirds ($^2/_3$) of the voting members present at the hearing or meeting at which a quorum is present shall be required for a continuance, unless it is an administrative hearing. An applicant may request and be granted one continuance; however, all subsequent continuances shall be granted at the discretion of the body or officer conducting the public hearing only upon good cause shown.

D. Withdrawal Of Application: An applicant may withdraw an application at any time prior to the action on the application by the decision making body or officer. Application fees, however, shall not be refundable if a staff report on the application has already been prepared or notice of a public hearing on the application has already been mailed, posted or published pursuant to the provisions of section 21A.10.020 of this chapter.

E. Record Of Public Hearing Or Meeting:

1. Recording Of Public Hearing: Except where required otherwise by statute, the body or officer conducting the public hearing shall record the public hearing by any appropriate means. A copy of the public hearing record may be acquired upon request to the zoning administrator and payment of a fee to cover the cost of duplication of the record.

2. The Record: The minutes, tape recordings, all applications, exhibits, papers and reports submitted in any proceeding before the decision making body or officer, and the decision of the decision making body or officer shall constitute the record.

3. Location Of Record And Inspection: All records of decision making bodies or officers shall be public records, open for inspection at the offices of the decision making body or officer during normal business hours and upon reasonable request.

F. General Procedures For Findings And Decisions:

1. General: Action shall be taken in compliance with any time limits established in this title and as promptly as possible in consideration of the interests of the citizens of Salt Lake City and the applicant, and shall include a clear statement of approval, approval with conditions or disapproval.

2. Findings: Except for the city council, whose decision shall be made by motion or ordinance as appropriate, all decisions shall be in writing and shall include at least the following elements:

   a. A summary of the information presented before the decision making body or officer;

   b. A summary of all documentary evidence submitted into the record to the decision making body or officer and which the decision making body or officer considered in making the decision;

   c. A statement of the general purpose of this title, the specific purpose of the district where the use is or would be located, and the standards relevant to the application;

   d. A statement of specific findings of fact or other factors considered, whichever is appropriate, and a statement of the basis upon which such facts were determined, with specific reference to the relevant standards set forth in this title; and

   e. A statement of approval, approval with conditions or disapproval.

G. Notification: The record of decision notifying the applicant of the decision of the decision making body or officer shall be sent within ten (10) days of the decision. A copy of the decision shall also be made available to the applicant at the offices of the decision making body or officer during normal business hours, within a reasonable period of time after the decision. The date of the record of decision will begin the permitted time frame for an appeal of the decision making body. (Ord. 69-09 § 5, 2009)

CHAPTER 21A.12
ADMINISTRATIVE INTERPRETATIONS

21A.12.010: PURPOSE STATEMENT:

The interpretation authority established by this chapter is intended to recognize that the provisions of this title, though detailed and extensive, cannot, as a practical matter, address every specific situation to which these provisions may have to be applied. Many of these situations can be resolved or clarified by interpreting the specific provisions of this title in light of the general and specific purposes for which those provisions were enacted. This interpretation authority is administrative rather than legislative. It is intended only to allow authoritative application of the provisions of this title to specific cases. It is not intended to add to or change the essential content of this title. (Ord. 26-95 § 2(6-1), 1995)

21A.12.020: SCOPE OF ZONING ADMINISTRATOR AUTHORITY:

The zoning administrator, subject to the procedures, standards and limitations of this chapter, may render interpretations, including use interpretations, of the provisions of this title and of any rule or regulation issued pursuant to it. (Ord. 26-95 § 2(6-2), 1995)

21A.12.030: PERSONS ENTITLED TO SEEK INTERPRETATIONS:

Applications for interpretations may be filed only by a property owner having need for an interpretation or by the property owner's authorized agent. (Ord. 26-95 § 2(6-3), 1995)

21A.12.040: PROCEDURES:

A. Application: An application for an interpretation of this title shall be filed on a form provided by the zoning administrator and shall contain at least the following information:

1. Provisions: The specific provision or provisions of this title for which an interpretation is sought;
2. Facts: The facts of the specific situation giving rise to the request for an interpretation;
3. Interpretation: The precise interpretation claimed by the applicant to be correct;
4. Statement: When a use interpretation is sought, a statement of what use permitted under the current zoning classification of the property that the applicant claims either includes the proposed use, or is most similar to the proposed use; and
5. Evidence: When a use interpretation is sought, documents, statements, and other evidence demonstrating that the proposed use will comply with all use limitations established for the district in which it is proposed to be located.
6. Fees: Nonrefundable fees shown on the Salt Lake City consolidated fee schedule shall accompany the application.
7. Notification To Recognized And Registered Organizations: The city shall give notification, by e-mail or other form chosen by the planning director to any organization which is entitled to receive notice pursuant to title 2, chapter 2.62 of this code, that a use interpretation has been determined.

B. Action On Application: The zoning administrator shall send the zoning administrator's written interpretation to the applicant stating any specific precedent or other reasons, or analysis upon which the determination is based.

C. Records: A record of decisions on all applications for interpretations of this title shall be kept on file in the office of the zoning administrator.

D. Appeal: Any person adversely affected by a final decision made by the zoning administrator interpreting a provision of this title may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012: Ord. 62-11, 2011: Ord. 24-11, 2011)

21A.12.050: STANDARDS FOR USE INTERPRETATIONS:

The following standards shall govern the zoning administrator, and the appeals hearing officer on appeals from the zoning administrator, in issuing use interpretations:

A. Any use defined in chapter 21A.62 of this title, shall be interpreted as defined;

B. Any use specifically listed without a "P" or "C" designated in the table of permitted and conditional uses for a district shall not be allowed in that zoning district;

C. No use interpretation shall allow a proposed use in a district unless evidence is presented demonstrating that the proposed use will comply with the development standards established for that particular district;

D. No use interpretation shall allow any use in a particular district unless such use is substantially similar to the uses allowed in that district and is more similar to such uses than to uses allowed in a less restrictive district;

E. If the proposed use is most similar to a conditional use authorized in the district in which it is proposed to be located, any use interpretation allowing such use shall require that it may be approved only as a conditional use pursuant to chapter 21A.54 of this title; and

F. No use interpretation shall permit the establishment of any use that would be inconsistent with the statement of purpose of that zoning district. (Ord. 8-12, 2012)

21A.12.060: EFFECT OF USE INTERPRETATIONS:

A use interpretation finding a particular use to be a permitted use or a conditional use shall not authorize the establishment of such use nor the development, construction, reconstruction, alteration or moving of any building or structure. It shall merely authorize the preparation, filing, and processing of applications for any approvals and permits that may be required by the codes and ordinances of the city including, but not limited to, a zoning certificate, a building permit, a certificate of occupancy, subdivision approval, and site plan approval. (Ord. 26-95 § 2(6-6), 1995)

21A.12.070: LIMITATIONS ON USE INTERPRETATIONS:

A use interpretation finding a particular use to be a permitted use or a conditional use in a particular district shall be deemed to authorize only that particular use in the district and such use interpretation shall not be deemed to authorize any other allegedly similar use for which a separate use interpretation has not been issued. (Ord. 26-95 § 2(6-7), 1995)

CHAPTER 21A.14
ROUTINE AND UNCONTESTED MATTERS

(Rep. by Ord. 73-11, 2011)

CHAPTER 21A.16
APPEALS OF ADMINISTRATIVE DECISIONS

21A.16.010: AUTHORITY:

As described in section 21A.06.040 of this title, the appeals hearing officer shall hear and decide appeals alleging an error in any administrative decision made by the zoning administrator or the administrative hearing officer in the administration or enforcement of this title, as well as administrative decisions of the historic landmark commission; and the planning commission.

In addition, the appeals hearing officer shall hear and decide applications for variances as per chapter 21A.18 of this title. (Ord. 61-12, 2012)

21A.16.020: PARTIES ENTITLED TO APPEAL:

An applicant or any other person or entity adversely affected by a decision administering or interpreting this title may appeal to the appeals hearing officer. (Ord. 31-12, 2012)

21A.16.030: PROCEDURE:

Appeals of administrative decisions by the zoning administrator, historic landmark commission or planning commission to the appeals hearing officer shall be taken in accordance with the following procedures:

A. Filing Of Appeal: An appeal shall be made in writing within ten (10) days of the administrative decision by the zoning administrator, historic landmark commission or planning commission and shall be filed with the zoning administrator. The appeal shall specify the decision appealed, the alleged error made in connection with the decision being appealed, and the reasons the appellant claims the decision to be in error, including every theory of relief that can be presented in district court.

B. Fees: Nonrefundable application and hearing fees shown on the Salt Lake City consolidated fee schedule shall accompany the appeal.

C. Stay Of Proceedings: An appeal to the appeals hearing officer shall stay all further proceedings concerning the matter about which the appealed order, requirement, decision, determination, or interpretation was made unless the zoning administrator certifies in writing to the appeals hearing officer, after the appeal has been filed, that a stay would, in the zoning administrator's opinion, be against the best interest of the city.

D. Notice Required:

1. Public Hearing: Upon receipt of an appeal of an administrative decision by the zoning administrator, the appeals hearing officer shall schedule and hold a public hearing in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10 of this title.
2. Notice Of Appeals Of Administrative Decisions Of The Historic Landmark Commission Or Planning Commission: Appeals from a decision of the historic landmark commission or planning commission are based on evidence in the record. Therefore, testimony at the appeal meeting shall be limited to the appellant and the respondent.
   a. Upon receipt of an appeal of a decision by the historic landmark commission or planning commission the appeals hearing officer shall schedule a public meeting to hear arguments by the appellant and respondent. Notification of the date, time and place of the meeting shall be given to the appellant and respondent a minimum of twelve (12) calendar days in advance of the meeting.
   b. The city shall give e-mail notification, or other form of notification chosen by the appeals hearing officer, a minimum of twelve (12) calendar days in advance of the hearing to any organization entitled to receive notice pursuant to title 2, chapter 2.62 of this code.

E. Standard Of Review:

1. The standard of review for an appeal, other than as provided in subsection E2 of this section, shall be de novo. The appeals hearing officer shall review the matter appealed anew, based upon applicable procedures and standards for approval, and shall give no deference to the decision below.
2. An appeal from a decision of the historic landmark commission or planning commission shall be based on the record made below.
   a. No new evidence shall be heard by the appeals hearing officer unless such evidence was improperly excluded from consideration below.
   b. The appeals hearing officer shall review the decision based upon applicable standards and shall determine its correctness.
   c. The appeals hearing officer shall uphold the decision unless it is not supported by substantial evidence in the record or it violates a law, statute, or ordinance in effect when the decision was made.

F. Burden Of Proof: The appellant has the burden of proving the decision appealed is incorrect.

G. Action By The Appeals Hearing Officer: The appeals hearing officer shall render a written decision on the appeal. Such decision may reverse or affirm, wholly or in part, or may modify the administrative decision. A decision by the appeals hearing officer shall become effective on the date the decision is rendered.

H. Notification Of Decision: Notification of the decision of the appeals hearing officer shall be sent by mail to all parties to the appeal within ten (10) days of the appeals hearing officer's decision.

I. Record Of Proceedings: The proceedings of each appeal hearing shall be recorded on audio equipment. The audio recording of each appeal hearing shall be kept for a minimum of sixty (60) days. Upon the written request of any interested person, such audio recording shall be kept for a reasonable period of time beyond the sixty (60) day period, as determined by the appeals hearing officer. Copies of the tapes of such hearings may be provided, if requested, at the expense of the requesting party. The appeals hearing officer may have the appeal proceedings contemporaneously transcribed by a court reporter.

J. Appeals: Any person adversely affected by a final decision made by the appeals hearing officer may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered.

K. Policies And Procedures: The planning director shall adopt policies and procedures, consistent with the provisions of this section, for processing appeals, the conduct of an appeal hearing, and for any other purpose considered necessary to properly consider an appeal. (Ord. 61-12, 2012)

21A.16.040: APPEAL OF DECISION:

Any person adversely affected by a final decision made by the appeals hearing officer may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered. (Ord. 8-12, 2012)

21A.16.050: STAY OF DECISION:

The appeals hearing officer may stay the issuance of any permits or approvals based on its decision for thirty (30) days or until the decision of the district court in any appeal of the decision. (Ord. 8-12, 2012)

CHAPTER 21A.18
VARIANCES

21A.18.010: PURPOSE STATEMENT:

The variance procedures are intended to provide a narrowly circumscribed means by which relief may be granted from unforeseen particular applications of this title that create unreasonable hardships. When such hardships may be more appropriately remedied, if at all, pursuant to other provisions of this title, the variance procedure is inappropriate. (Ord. 26-95 § 2(9-1), 1995)

21A.18.020: AUTHORITY:

As described in section 21A.06.040 of this title, the appeals hearing officer may grant variances from the provisions of this title only in compliance with the procedures set forth in section 21A.18.040 of this chapter and only in accordance with each of the standards enumerated in section 21A.18.060 of this chapter. (Ord. 8-12, 2012)

21A.18.030: PARTIES ENTITLED TO SEEK VARIANCES:

Applications for variances may be filed by an owner of the property affected or by the property owner's authorized agent. All applications for variances shall be filed on forms approved by the zoning administrator. (Ord. 26-95 § 2(9-3), 1995)

21A.18.040: PROCEDURES:

A. Application: An application for a variance shall be filed with the zoning administrator and shall include the following items and information unless determined inapplicable by the zoning administrator:

1. Written Information:

a. The property owner's name and address and the owner's signed consent to the filing of the application;

b. The applicant's name and address, if different than the owner, and the applicant's interest in the subject property;

c. The names and addresses of all professional consultants, if any, advising the applicant with respect to the application;

d. The address and legal description of the subject property;

e. Sidwell map numbers identifying the property; and

f. Noticing and posting requirements shall be met as specified in chapter 21A.10 of this title.

2. Graphic Information:

a. A site plan drawn to scale identifying all property lines, structures, including primary and accessory structures, fences, right of way, and their respective distances from the property lines;

b. An elevation drawing to scale showing all elevations of existing and proposed structures;

c. When the variance involves building height a streetscape plan showing the height of the buildings on both sides of the street to the nearest intersection;

d. When the variance involves grade changes, a topographical drawing prepared by a licensed surveyor shall be included. The existing topography shall be shown in dashed lines at two foot (2') intervals and the proposed grade shall be shown in solid lines at two foot (2') intervals. All retaining walls shall be identified and the height shall be shown on the plan relative to the proposed grades. Retaining walls shall be designed by a structural engineer licensed to practice in the state; and

e. When a variance request involves setbacks or height or grade changes a complete landscape plan shall be provided. Plans shall show landscape design and identify all species and caliper of proposed plants.

3. Variance Information:

a. The specific feature or features of the proposed use, construction or development that require a variance;

b. The specific provision of this title from which the variance is sought and the precise variance being sought;

c. A statement of the characteristics of the subject property that prevent compliance with the provisions of this title and result in unnecessary hardship;

d. A statement of the minimum variation of the provisions of this title that would be necessary to permit the proposed use, construction or development;

e. An explanation of how the application satisfies each standard set forth in section 21A.18.060 of this chapter; and

f. Any other information identified by the zoning administrator to be pertinent to the requested variance.

B. Fees: Nonrefundable application and hearing fees shown on the Salt Lake City consolidated fee schedule shall accompany the application for a variance.

C. Hearing: Upon receipt of a complete application for a variance, the appeals hearing officer shall hold a hearing with notice in accordance with the requirements of chapter 21A.10 of this title.

D. Action By Appeals Hearing Officer: Upon the close of the hearing the appeals hearing officer shall render its decision, granting, granting with conditions, or denying the variance.

E. Special Procedures In Connection With Other Applications: Whenever a variance is needed in addition to a zoning amendment or a conditional use, the zoning administrator shall not schedule a hearing on the variance until a final approval has been rendered on these other applications by the planning commission or the city council, as applicable. (Ord. 8-12, 2012: Ord. 62-11, 2011: Ord. 61-11, 2011: Ord. 24-11, 2011)

21A.18.050: PROHIBITED VARIANCES:

The appeals hearing officer shall not grant a variance that:

A. Is intended as a temporary measure only;

B. Is greater than the minimum variation necessary to relieve the unnecessary hardship demonstrated by the applicant; or

C. Authorizes uses not allowed by law (i.e., a "use variance"). (Ord. 8-12, 2012)

21A.18.060: STANDARDS FOR VARIANCES:

Subject to the prohibitions set forth in section 21A.18.050 of this chapter, and subject to the other provisions of this chapter, the appeals hearing officer may grant a variance from the terms of this title only if:

A. General Standards:

1. Literal enforcement of this title would cause an unreasonable hardship for the applicant that is not necessary to carry out the general purpose of this title;

2. There are special circumstances attached to the property that do not generally apply to other properties in the same zoning district;

3. Granting the variance is essential to the enjoyment of a substantial property right possessed by other property in the same district;

4. The variance will not substantially affect the general plan of the city and will not be contrary to the public interest; and

5. The spirit of this title is observed and substantial justice done.

B. Circumstances Peculiar To Property: In determining whether or not enforcement of this title would cause unreasonable hardship under subsection A of this section, the appeals hearing officer may not find an unreasonable hardship unless:

1. The alleged hardship is related to the size, shape or topography of the property for which the variance is sought; and

2. The alleged hardship comes from circumstances peculiar to the property, not from conditions that are general to the neighborhood.

C. Self-Imposed Or Economic Hardship: In determining whether or not enforcement of this title would cause unreasonable hardship under subsection A of this section, the appeals hearing officer may not find an unreasonable hardship if the hardship is self-imposed or economic.

D. Special Circumstances: In determining whether or not there are special circumstances attached to the property under subsection A of this section, the appeals hearing officer may find that special circumstances exist only if:

1. The special circumstances relate to the alleged hardship; and

2. The special circumstances deprive the property of privileges granted to other properties in the same zoning district. (Ord. 8-12, 2012)

21A.18.070: VARIANCE LESS THAN REQUESTED:

A variance less than or different than that requested may be authorized when the record supports the applicant's right to some relief but not to the relief requested. (Ord. 26-95 § 2(9-7), 1995)

21A.18.080: CONDITIONS ON VARIANCES:

In authorizing a variance, the appeals hearing officer may impose such conditions regarding the location, character and other features of the proposed structure or use as it may deem necessary in the public interest to mitigate any harmful effects of the variance or that will serve the purpose of the standard or requirement that is waived or modified. The appeals hearing officer may require a guarantee or bond to ensure that the conditions imposed will be followed. These conditions shall be expressly set forth in the appeals hearing officer's motion granting the variance. Violation of any condition or limitation on the grant of a variance shall be a violation of this title and shall constitute grounds for revocation of the variance. (Ord. 8-12, 2012)

21A.18.090: EFFECT OF GRANTING A VARIANCE:

The granting of a variance shall not authorize the establishment or extension of any use, nor the development, construction, reconstruction, alteration or moving of any building or structure but shall merely authorize the preparation, filing and processing of applications for any permits and approval that may be required by the regulations of the city, including, but not limited to, a zoning certificate, a building permit, a certificate of occupancy, subdivision approval, and site plan approval. (Ord. 26-95 § 2(9-9), 1995)

21A.18.100: LIMITATIONS ON VARIANCES:

Subject to an extension of time granted upon application to the planning director no variance shall be valid for a period longer than one year unless a building permit is issued or complete building plans have been submitted to the division of building services and licensing within that period. The planning director may grant an extension of a variance for up to one additional year when the applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact. Extension requests must be submitted prior to the expiration of the variance. (Ord. 11-10 § 4, 2010)

21A.18.110: APPEAL OF DECISION:

Any person adversely affected by a final decision made by the appeals hearing officer may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered. (Ord. 8-12, 2012)

21A.18.120: STAY OF DECISION:

The appeals hearing officer may stay the issuance of any permits or approval based on its decision for thirty (30) days or until the decision of the district court in any appeal of the decision. (Ord. 8-12, 2012)

CHAPTER 21A.20
ENFORCEMENT

21A.20.010: DEFINED TERMS:

In this chapter, the words, terms, phrases and their derivatives shall have the meanings as stated and defined in this chapter.

CITATION DEADLINE: The date identified in the second notice of violation, including any authorized extension of time.

FIRST NOTICE: The initial notice informing the person cited that a zoning violation exists.

NOTICE OF COMPLIANCE: A written notice informing the person cited that the violation has been cured.

PERSON CITED: The owner, owner's agent, tenant or occupant of any building or land or part thereof and any architect, builder, contractor, agent or other person who participates in, assists, directs or creates any situation that is contrary to the requirements of this title, and who received the notice of violation and is being held responsible for the violation.

SECOND NOTICE: The notice informing the person cited of the date that civil fines will begin to accrue if the zoning violation is not corrected. (Ord. 35-99 § 10, 1999)

21A.20.020: COMPLAINTS REGARDING VIOLATIONS:

The supervisor of zoning enforcement or designee may investigate any complaint alleging a violation of this title and take such action as is warranted in accordance with the procedures set forth in this chapter. (Ord. 35-99 § 10, 1999)

21A.20.030: PROCEDURES UPON DISCOVERY OF VIOLATIONS:

A. If the supervisor of zoning enforcement finds that any provision of this title is being violated, the supervisor of zoning enforcement may provide a written notice to the property owner and any other person determined to be responsible for such violation. The written notice shall indicate the nature of the violation and order the action necessary to correct it. Additional written notices may be provided at the supervisor of zoning enforcement's discretion.

B. The written notice shall state what action the supervisor of zoning enforcement intends to take if the violation is not corrected. The written notice shall include information regarding the established warning period for the indicated violations and shall serve to start any warning periods provided in this chapter.

C. Such written notice issued by the supervisor of zoning enforcement shall be deemed sufficient and complete when served upon the owner or occupant:

1. Personally by the inspector or his or her representative; or by mailing, postage prepaid, by certified mail, return receipt requested, addressed to the owner or occupant at the last known address appearing on the records of the county recorder; and
2. By posting notice on the property where said violation(s) occur.

D. In cases when delay in enforcement would seriously threaten the effective enforcement of this title, or pose a danger to the public health, safety or welfare, the supervisor of zoning enforcement may seek enforcement without prior written notice by invoking any of the fines or remedies authorized in section 21A.20.050 of this chapter.

E. If the violation remains uncured within five (5) days of the expiration of the warning period, a second notice of violation shall be delivered by mailing, postage prepaid, addressed to the person cited at the last known address appearing on the records of the county recorder. The second notice shall serve to start the civil fines. (Ord. 35-99 § 10, 1999)

21A.20.040: FINES FOR VIOLATIONS:

A. Violations of the provisions of this title or failure to comply with any of its requirements shall be punishable as a class B misdemeanor upon conviction.

B. This title may also be enforced by injunction, mandamus, abatement, civil fines or any other appropriate action in law or equity.

C. Each day that any violation continues after the citation deadline shall be considered a separate offense for purposes of the fines and remedies available to the city.

D. Accumulation of fines for violations, but not the obligation for payment of fines already accrued, shall stop upon correction of the violation.

E. Any one or more of the fines and remedies identified herein may be used to enforce this title. (Ord. 35-99 § 10, 1999)

21A.20.050: CIVIL FINES:

If the violations are not corrected by the citation deadline, civil fines shall accrue at twenty five dollars ($25.00) a day per violation for properties in residential zoning districts and one hundred dollars ($100.00) per day per violation for properties in nonresidential zoning districts. (Ord. 35-99 § 10, 1999)

21A.20.060: DAILY VIOLATIONS:

Each day a violation continues after the citation deadline shall give rise to a separate civil fine. (Ord. 35-99 § 10, 1999)

21A.20.070: COMPLIANCE:

The city may use such lawful means as are available to obtain compliance and to collect the amount of any fines accrued, including costs and attorney fees. (Ord. 35-99 § 10, 1999)

21A.20.080: RECURRING VIOLATIONS:

In the case where a violation, which had been corrected, reoccurs within six (6) months of the initial correction, the city will begin enforcement of said recurring violation and fines will begin accruing after a ten (10) day warning period. (Ord. 35-99 § 10, 1999)

21A.20.090: APPEARANCE BEFORE A HEARING OFFICER:

A. Right To Appear: Any person cited may appear before a hearing officer to appeal the amount of the fine imposed. However, no party may appear before a hearing officer until violations identified have been corrected and a notice of compliance has been issued. Appeals to the hearing officer contesting the amount of the fine imposed, must be filed within thirty (30) days from the date of the notice of compliance.

B. Defense: The burden to prove any defense shall be upon the person raising such defense.

C. Responsibility: Commencement of any action to remove or reduce fines shall not relieve the responsibility of any person cited to cure the violation or make payment of subsequently accrued civil fines nor shall it require the city to reissue any of the notices required by this chapter. (Ord. 35-99 § 10, 1999)

21A.20.100: APPEAL OF ADMINISTRATIVE DECISION:

The decision of the supervisor of zoning enforcement regarding the existence of a zoning violation shall be deemed an administrative decision which may be appealed to the appeals hearing officer within thirty (30) days of the date of the first notice. (Ord. 8-12, 2012)

21A.20.110: HEARING OFFICER DUTIES:

A. The mayor, or his/her designee, shall appoint such hearing officers as the mayor, or his/her designee, deems appropriate to consider matters relating to the violation of this title. The hearing officer shall have the authority to hear evidence relating to mitigating circumstances and to make such equitable adjustments as he/she deems appropriate, as set forth below:

1. The hearing officer may adjust, reduce or eliminate fines or create payment plans relating to fines accrued by the person cited. In the administration of this duty, the hearing officer may reduce or eliminate fines based upon any circumstance or other equitable consideration the hearing officer finds to be applicable. In cases where the administrative process has not been followed by the division, the hearing officer has the authority to reduce or eliminate fines.

2. Payment plans may be created by the hearing officer. Although the hearing officer has the ultimate authority in establishing the payment schedule, the minimum payment schedule provided by the department of community and economic development should be followed. (Ord. 38-08, 2008: Ord. 6-04 § 16, 2004: Ord. 35-99 § 10, 1999)

21A.20.120: DISMISSAL CRITERIA:

A. If the hearing officer finds that no violation occurred and/or a violation occurred but one or more of the defenses set forth in this section is applicable, the hearing officer may dismiss the notice of violation. Such defenses are:

1. At the time of the receipt of the notice of violation, compliance would have violated the criminal laws of the state;

2. Compliance with the subject ordinances would have presented an imminent and irreparable injury to persons or property. (Ord. 35-99 § 10, 1999)

21A.20.130: ACCEPTANCE OF HEARING OFFICER DECISION:

If the hearing officer finds that a violation of this title occurred and no applicable defense exists, the hearing officer may, in the interest of justice and on behalf of the city, enter into an agreement for the timely or periodic payment of the applicable fine. The person cited has fourteen (14) days in which to accept the decision of the hearing officer. If the person cited does not accept the decision of the hearing officer, any agreement to modify the fine or set up a payment schedule by the hearing officer is void and the city will attempt to collect the original amount of the fine. (Ord. 35-99 § 10, 1999)

21A.20.140: ABATEMENT FOR CORRECTION AND PAYMENT:

A. Civil fines may be partially abated after the violation is cured and at the discretion of a hearing officer if any of the following conditions exist:

1. The violation includes landscaping in which case the time for payment and correction of landscaping violations may be abated from October 15 through the next April 1 or such other times as caused by weather conditions adverse to successful landscaping.

2. Strict compliance with the notice and order would have caused an imminent and irreparable injury to persons or property.

3. The violation and inability to cure were both caused by a force majeure event such as war, act of nature, strike or civil disturbance.

4. A change in the actual ownership of the property was recorded with the Salt Lake County recorder's office after the first or second notice was issued and the new owner is not related by blood, marriage or common ownership to the prior owner.

5. Such other mitigating circumstances as may be approved by the city attorney or designee.

B. If the hearing officer finds that the noticed violation occurred and no applicable defense applies, the hearing officer may, in the interest of justice and on behalf of the city, enter into an agreement for the delayed or periodic payment of the applicable fine.

C. Once a payment schedule has been developed by the hearing officer, and agreed to by the person cited, failure to submit any two (2) payments as scheduled would require payment of the entire amount of the original fine immediately. (Ord. 35-99 § 10, 1999)

CHAPTER 21A.22
ZONING DISTRICTS, MAP AND BOUNDARIES

21A.22.010: ZONING DISTRICTS:

In order to carry out the purposes of this title, Salt Lake City is divided into the following zoning districts:

Section Reference		District Name
A.	Residential Districts:	
	21A.24.020	FR-1/43,560 foothills estate residential district
	21A.24.030	FR-2/21,780 foothills residential district
	21A.24.040	FR-3/12,000 foothills residential district
	21A.24.050	R-1/12,000 single-family residential district
	21A.24.060	R-1/7,000 single-family residential district
	21A.24.070	R-1/5,000 single-family residential district
	21A.24.080	SR-1 and SR-1A special development pattern residential district
	21A.24.090	SR-2 (Reserved)
	21A.24.100	SR-3 special development pattern residential district
	21A.24.110	R-2 single- and two-family residential district
	21A.24.120	RMF-30 low density multi-family residential district
	21A.24.130	RMF-35 moderate density multi-family residential district
	21A.24.140	RMF-45 moderate/high density multi-family residential district
	21A.24.150	RMF-75 high density multi-family residential district
	21A.24.160	RB residential/business district
	21A.24.164	R-MU-35 residential/mixed use district
	21A.24.168	R-MU-45 residential/mixed use district
	21A.24.170	R-MU residential/mixed use district
	21A.24.180	RO residential/office district
B.	Commercial Districts:	
	21A.26.020	CN neighborhood commercial district
	21A.26.025	SNB small neighborhood business district
	21A.26.030	CB community business district
	21A.26.040	CS community shopping district
	21A.26.050	CC corridor commercial district
	21A.26.060	CSHBD Sugar House business district
	21A.26.070	CG general commercial district
	21A.26.077	TC-75 transit corridor district
	21A.26.078	TSA transit station area district
C.	Manufacturing Districts:	
	21A.28.020	M-1 light manufacturing district
	21A.28.030	M-2 heavy manufacturing district
D.	Downtown Districts And Gateway Districts:	
	Downtown districts:	
	21A.30.020	D-1 central business district
	21A.30.030	D-2 downtown support district
	21A.30.040	D-3 downtown warehouse/residential district
	21A.30.045	D-4 downtown secondary central business district
	Gateway districts:	
	21A.31.020	G-MU gateway-mixed use district
E.	Special Purpose Districts:	
	21A.32.020	RP research park district
	21A.32.030	BP business park district
	21A.32.040	FP foothills protection district
	21A.32.050	AG agricultural district
	21A.32.052	AG-2 agricultural district

	21A.32.054	AG-5 agricultural district
	21A.32.056	AG-20 agricultural district
	21A.32.060	A airport district
	21A.32.070	PL public lands district
	21A.32.075	PL-2 public lands district
	21A.32.080	I institutional district
	21A.32.090	UI urban institutional district
	21A.32.100	OS open space district
	21A.32.105	NOS natural open space district
	21A.32.110	MH mobile home park district
	21A.32.120	EI extractive industries district
	21A.32.130	MU mixed use district
F.	Overlay Districts:	
	21A.34.020	H historic preservation overlay district
	21A.34.030	T transitional overlay district
	21A.34.040	AFPP airport flight path protection overlay district
	21A.34.050	LC lowland conservancy overlay district
	21A.34.060	Groundwater source protection overlay district
	21A.34.070	LO landfill overlay district
	21A.34.080	CHPA capitol hill protective area overlay district
	21A.34.090	SSSC South State Street corridor overlay district
	21A.34.100	M-1H light manufacturing height overlay district
	21A.34.110	DMSC downtown Main Street core overlay district
	21A.34.120	YCI Yalecrest compatible infill overlay district
	21A.34.130	RCO riparian corridor overlay district
G.	Character Conservation Districts:	
	21A.35.010	Purpose

(Ord. 73-12, 2012: Ord. 59-12, 2012: Ord. 59-10, 2010: Ord. 3-08, 2008: Ord. 26-06, 2006: Ord. 76-05, 2005: Ord. 72-05, 2005: Ord. 44-05, 2005: Ord. 71-04, 2004: Ord. 4-04, 2004: Ord. 7-03 § 1, 2003: Ord. 73-02 § 1, 2002: Ord. 14-00 § 1, 2000: Ord. 95-98 § 1, 1998: Ord. 83-98 §§ 3, 6, 1998: Ord. 26-95 § 2(11-1), 1995)

21A.22.020: ZONING MAP:

A. Official Map: The boundaries of the districts listed in section 21A.22.010 of this chapter, are set forth on the zoning map entitled "Salt Lake City zoning district map" (the "zoning map") which is made a part of this title. Official copies of the zoning map are on file in the office of the zoning administrator. The zoning map, including all notations and revisions, is an integral part of this title.

B. Nonestoppel: The failure to post or record any zoning amendment adopted by subsequent ordinance onto the zoning map shall not estop the city from enforcing the zoning district adopted by the subsequent ordinance.

C. Entire City Zoned: It is the intent of this title that the entire area of Salt Lake City, including all land and water areas, rivers, streets, alleys, railroads and other rights of way, be included in the districts established by this title and shown on the zoning map. Any area not shown on the zoning map as being included in any district shall be deemed to be in the R-1/12,000 single-family residential district. (Ord. 26-95 § 2(11-2), 1995)

21A.22.030: BOUNDARIES:

In the event that uncertainties exist with respect to the intended boundaries of the various districts as shown on the zoning map, the following rules shall apply:

A. Centerlines And Right Of Way Lines As Boundaries: Where the designation of a boundary line on the zoning map coincides with the edge of a street, alley, waterway or other right of way, the centerline of such right of way line shall be construed to be the boundary of the district.

B. Property Lines As Boundaries: Where a district boundary coincides with the location of a property line, as recorded by the Salt Lake County recorder as of April 12, 1995, the property line shall be construed to be the boundary of the district.

C. Scaled Lines As Boundaries: Where the district boundaries do not coincide with the location of rights of way or property lines, the district boundary shall be determined by measuring such boundary lines through the use of the map scale as shown on the zoning map. If a district boundary splits a parcel at a depth of less than thirty feet (30') or an average of thirty feet (30') in the case of irregular shaped parcel, then the entire parcel is considered zoned the majority district that covers the parcel.

D. Clarification Of Map Interpretation: The zoning administrator shall hear and decide all applications for interpretation of district boundary lines shown on the zoning map pursuant to the provisions of chapter 21A.12 of this title. The zoning administrator shall have the authority only to interpret boundary lines, not to change the location of district boundary lines or to rezone property. (Ord. 62-09 § 15, 2009)

CHAPTER 21A.24
RESIDENTIAL DISTRICTS

21A.24.010: GENERAL PROVISIONS:

A. Statement Of Intent: The residential districts are intended to provide a range of housing choices to meet the needs of Salt Lake City's citizens, to offer a balance of housing types and densities, to preserve and maintain the city's neighborhoods as safe and convenient places to live, to promote the harmonious development of residential communities, to ensure compatible infill development, and to help implement adopted plans.

B. Site Plan Review: In certain districts, permitted uses and conditional uses have the potential for adverse impacts if located and laid out without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. Site plan review is not required for single-family, two-family and twin home dwellings unless they are approved as a conditional use. All other uses shall be subject to the site plan review regulations contained in chapter 21A.58 of this title.

C. Permitted Uses: The uses specified as permitted uses, in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted provided that they comply with all requirements of this chapter, the general standards set forth in part IV of this title and all other applicable requirements of this title.

D. Conditional Uses: The uses specified as conditional uses in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter shall be allowed provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title.

E. Obnoxious Or Offensive Uses: No use of land shall be permitted which is obnoxious or offensive by reason of odor, dust, smoke, vapors, noise, light, vibration or refuse matter.

F. Accessory Lots, Accessory Uses, Buildings And Structures: Accessory lots, accessory uses, buildings and structures are allowed in the residential districts subject to the requirements of this chapter, section 21A.36.020, table 21A.36.020B, section 21A.36.030 of this title, and the provisions of chapter 21A.40 of this title.

G. Flag Lots In Residential Districts: Flag lots are a permitted use only as part of a new subdivision in the FP, FR-1, FR-2 and FR-3 districts. Flag lots in all other residential districts, unless being approved through the planned development process, may be allowed as a conditional use pursuant to chapter 21A.55 of this title, provided that the planning commission finds the flag lot proposal to be compatible with the existing pattern of property development of the surrounding area. The planning commission shall also make findings on the standards listed in subsections G1 through G14 of this section:

1. In residential districts other than new subdivisions in the FP, FR-1, FR-2, FR-3 districts, flag lots shall be approved only when one flag lot is proposed at the rear of an existing lot, unless being approved through the planned development process;
2. Flag lots shall be used exclusively to provide lots for single-family residential dwellings;
3. All lot and yard requirements applicable to flag lots shall apply to the main body of the flag lot. For flag lots, the front yard shall begin at the point where the access strip joins the main body of the lot;
4. Except for the special provisions contained in this subsection G, the creation of a flag lot shall not result in a violation of required lot area, lot width, yards or other applicable provisions of this title;
5. Flag lots shall have a minimum lot depth of one hundred feet (100') measured from the point where the access strip joins the main body of the lot;
6. The flag lot access strip shall have minimum of twenty four feet (24') of frontage on a public street. No portion of the flag lot access strip shall measure less than twenty four feet (24') in width between the street right of way line and main body of the lot. A minimum sixteen foot (16') wide hard surfaced driveway shall be provided along the entire length of the access strip. A four foot (4') minimum landscape yard shall be provided on each side of the driveway. (See illustration in chapter 21A.62 of this title.);
7. Flag lots, including the access strip, shall be held in fee simple ownership;
8. The minimum lot area of a flag lot shall not be less than 1.5 times the minimum lot area of the applicable district. The lot area calculation excludes the lot access strip;
9. The minimum required side yard for a single-story building on a flag lot is ten feet (10'). If any portion of the structure exceeds one story in height, all side yard setbacks shall meet the required rear yard setback of the underlying zoning district. The planning commission may increase the side or rear yard setback where there is a topographic change between lots;
10. Both the flag lot and any remnant property resulting from the creation of a flag lot (including existing buildings and structures) shall meet the minimum lot area, width, frontage, setback, parking and all other applicable zoning requirements of the underlying zoning district;
11. Any garage, whether attached to or detached from the main building, shall be located in the buildable area of the lot;
12. Accessory buildings other than garages may be located in the rear yard area, however, planning commission approval is required for any accessory building that requires a building permit;
13. A four foot (4') wide landscaped strip is required along both side property lines from the front to rear lot lines;
14. Reflective house numbers shall be posted at the front of the access strip;
15. In addition to any other provisions that may apply, the creation of a flag lot is considered a subdivision and shall be subject to applicable subdivision regulations and processes.

H. Side Entry Buildings: To provide for adequate air, light and separation between buildings, greater yard requirements are necessary for buildings whose principal means of entry is located along an interior side yard. For all such buildings, the side yard shall not be less than twelve feet (12'), eight feet (8') of which shall be devoted to landscape area.

I. Front Facade Controls: To maintain architectural harmony and primary orientation along the street, all buildings shall be required to include an entrance door, and such other features as windows, balconies, porches, and other such architectural features in the front facade of the building, totaling not less than ten percent (10%) of the front facade elevation area, excluding any area used for roof structures. For buildings constructed on a corner lot, only one front facade is required in either the front or corner side facade of the building.

1. Exceptions: Properties located in the FP zone are exempt from the front facade control requirement.

J. Basement Structures: All dwellings must have at least one full story aboveground. Residential structures built into a hillside with less than all elevations exposed may be approved through the site plan review process.

K. Lighting: On site lighting shall be located, directed or designed in such a manner as to contain and direct light and glare only to the property on which it is located.

L. Parking And Loading: All uses in the residential districts shall comply with the provisions governing off street parking in chapter 21A.44 of this title.

M. Signs: All uses in the residential districts shall comply with the provisions governing signs in chapter 21A.46 of this title.

N. Front And Corner Side Yard Landscaping: All required front and corner yards should be maintained as landscape yards. In addition, all uses in residential districts shall comply with the provisions governing landscaping in chapter 21A.48 of this title.

O. Landscaping And Revegetation: Installation of all required landscaping shall begin no later than one month after a certificate of occupancy; except that if a certificate of occupancy is issued between October 15 and the following April 1, installation of the landscaping shall begin no later than April 30. Landscaping shall be substantially completed within nine (9) months after a certificate of occupancy is issued.

P. Special Foothills Regulations: The FP foothills protection district, section 21A.32.040 of this title, and the FR-1/43,560, FR-2/21,780 and FR-3/12,000 districts shall be subject to the regulations of this subsection, other general provisions for residential districts, and the district regulations of each district.

1. Special Building Height Controls: Uses and buildings in the FR-1/43,560, FR-2/21,780, FR-3/12,000 and FP districts shall conform to the following special height regulations:

   a. In the FR-1 district, the maximum building height shall be thirty five feet (35') measured from established grade. The front and rear vertical building wall height shall not exceed thirty one feet (31') measured from finished grade. On a corner lot, roof gable ends which face onto either the front or corner side yard, but not both, are permitted to the height of thirty five feet (35') measured from established grade.

   b. In the FR-2, FR-3 and FP districts, the maximum building height shall be twenty eight feet (28') measured from established grade. The front and rear vertical building walls shall not exceed twenty five feet (25') measured from finished grade. On a corner lot, roof gable ends which face onto either the front or corner side yard, but not both, are permitted to a height of twenty eight feet (28').

   c. All building heights for initial construction of a building in a foothill zone shall be measured from the established grade. Up to four feet (4') of fill (or 6 feet within the buildable area of the lot) may be added on top of the established grade in order to bring the exposed portion of the lower story of a single exterior wall of building into compliance with the definition of a basement when the majority of that lower level of that exterior wall already complies with this definition. The height of any subsequent structural modification or addition to a building shall be measured from the finished grade existing at the time a building permit is requested.

2. Height Special Exception: The planning commission, as a special exception to the height regulations of the applicable district, may approve a permit to exceed the maximum building height but shall not have the authority to grant additional stories. To grant a height special exception the planning commission must find the proposed plan:

   a. Is a design better suited to the site than can be achieved by strict compliance to these regulations; and

   b. Satisfies the following criteria:

      (1) The topography of the lot presents difficulties for construction when the foothill height limitations are applied,

      (2) The structure has been designed for the topographic conditions existing on the particular lot, and

      (3) The impact of additional height on neighboring properties has been identified and reasonably mitigated.

   c. In making these considerations the planning commission can consider the size of the lot upon which the structure is proposed.

   d. The burden of proof is upon the applicant to submit sufficient data to persuade the planning commission that the criteria have been satisfied.

   e. The planning commission may deny an application for a height special exception if:

      (1) The architectural plans submitted are designed for structures on level, or nearly level, ground, and the design is transposed to hillside lots requiring support foundations such that the structure exceeds the height limits of these regulations;

      (2) The additional height can be reduced by modifying the design of the structure through the use of stepping or terracing or by altering the placement of the structure on the lot;

      (3) The additional height will substantially impair the views from adjacent lots, and the impairment can be avoided by modification; or

      (4) The proposal is not in keeping with the character of the neighborhood.

3. Design Regulations: The following design regulations shall also apply:

   a. Exterior Building Colors: The exterior of any building or structure shall blend with the natural materials and predominant colors and hues of the surrounding foothills. Colors permitted include grays, browns, greens, tans and other earth tones. White or bright colors shall be limited to window casings, doors, eaves and other trim areas.

   b. Exterior Building Glass: Windows and other glass surfaces shall have an outdoor visible light reflective value no more than eighteen percent (18%) as defined and measured by ASTM E308-90 or its successor.

   c. Roof Materials And Colors: Roof colors shall be earth tones. White, bright and reflective materials are prohibited from roofs. Tile, slate, architectural asphalt shingles and fire retardant wood are permitted as roofing materials.

   d. Mechanical Equipment: Mechanical equipment including, without limitation, swamp coolers, air conditioning equipment, heat pumps, vents, blowers and fans shall be screened from view or painted to match the building color adjacent to the equipment. Roof mounted mechanical equipment, excluding solar panels which are subject to section 21A.40.190 of this title, shall not extend above the highest roof ridgeline.

4. Satellite Antennas: In addition to the regulations contained in chapter 21A.40 of this title, satellite antennas shall be painted nonreflective black or other dark earth tone colors.

5. Exterior Lighting: Floodlighting of buildings and structures is prohibited. Exterior lighting shall be architecturally integrated decorative lighting. Yard areas may be lit only with "directional" lighting and no direct light beam may impact any other property, except for security lights intended to be activated only at limited times as necessary for immediate security.

6. Grade Changes: No grading shall be permitted prior to the issuance of a building permit. The grade of any lot shall not be altered above or below established grade more than four feet (4') at any point for the construction of any structure or improvement except:

   a. Within the buildable area. Proposals to modify established grade more than six feet (6') shall be reviewed as a special exception subject to the standards in chapter 21A.52 of this title. Grade change transition areas between a yard area and the buildable area shall be within the buildable area;

   b. Within the front, corner side, side and rear yard areas, proposals to modify established grade more than four feet (4') shall be reviewed as a special exception subject to the standards found in chapter 21A.52 of this title; and

   c. As necessary to construct driveway access from the street to the garage or parking area grade changes and/or retaining walls up to six feet (6') from the established grade shall be reviewed as a special exception subject to the standards in chapter 21A.52 of this title.

7. Grading: Unauthorized grading and other surface disturbing activities are prohibited in all undevelopable areas within the lot or the subdivision. Prior to any grading or other surface disturbing activity on the property, the undevelopable areas shall be clearly delineated by temporary fencing or flagging. Any flagging stakes used to delineate undevelopable areas there shall be a minimum of four feet (4') above grade and no more than twenty five feet (25') apart.

8. Retaining Walls: All cuts and fills in excess of two feet (2') shall be supported by retaining walls if required by the zoning administrator. Any stacking of rocks to create a rock wall in excess of a thirty percent (30%) slope, that is intended to retain soil, shall be considered a retaining wall. No retaining wall may exceed four feet (4') in height above the established grade except as provided in subsections P6a, P6b and P6c of this section. In a terrace of retaining walls, each four foot (4') vertical retaining wall must be separated by a minimum of three (3) horizontal feet, and any six foot (6') retaining wall must be separated from any other retaining wall by a minimum of five (5) horizontal feet. The horizontal area between terraced retaining walls shall be landscaped with vegetation. All retaining walls, in excess of four feet (4') in height shall be approved by an engineer licensed by the state, and the engineer's approval shall be consistent with the provisions of a geotechnical report. The zoning administrator may require an engineer's approval for retaining walls less than four feet (4') that there are sufficient risk factors, such as slope, soil stability, or proximity to structures on adjacent property.

9. Roads And Driveways: To ensure that private roads and driveways minimize impact on the natural landscape, plans for the design and improvement of roads and driveways shall be subject to review and approval by the city engineer and fire department as a condition of building permit issuance. Design standards and guidelines for private roads and driveways shall include the following:

   a. Driveways which serve more than one parcel are encouraged as a method of reducing unnecessary grading, paving, and site disturbance. The drive approach for driveways which serve more than one parcel shall not exceed the standard widths for drive approaches as specified by the Salt Lake City transportation division.

   b. Driveway approaches shall not be located within six feet (6') of any side property line. Exceptions may be considered by the development review team, based on the driveway slope and dimension, slope of the roadway or lot, location of existing drive approaches serving abutting properties, and proposed uses.

      (1) Driveway approaches shall maintain a twelve foot (12') separation from another drive approach. Drive approaches shall be located ten feet (10') from a corner property line or five feet (5') from the termination of a corner curb radius, whichever is greater. Drive approaches located along a designated right turn lane shall maintain a fifty foot (50') setback from the termination of a corner curb radius. Exceptions to those requirements may be approved by the development review team.

   c. A driveway shall not exceed sixteen percent (16%) average slope with standard vertical curve transitions from the property line to a legal parking space.

      (1) The cross slope of driveways should not exceed four percent (4%).

   d. Driveway approaches shall maintain a five foot (5') offset from power poles, fire hydrants, trees or any other roadside hazards. Exceptions to the requirement may be approved by the development review team.

   e. Sight obstructions along driveways shall maintain a ten foot (10') wide by ten foot (10') deep sight distance triangle as noted in figure 21A.62.050I of this title. Obstructions in the required sight distance triangle shall generally not exceed thirty inches (30") in height. Exceptions may be approved by the development review team based upon location and type of material.

10. Fence Restrictions: Fences and walls shall only be constructed after first obtaining a building permit subject to the standards of this section.

   a. Site Plan Submittal: As part of the site plan review process, a fencing plan shall be submitted which shall show:

      (1) Any specific subdivision approval conditions regarding fencing;

      (2) Material specifications and illustrations necessary to determine compliance with specific approval limitation and the standards of this section.

   b. Field Fencing Of Designated Undevelopable Areas: Fencing on areas identified as undevelopable areas or transitional areas on any subdivision granted preliminary approval by the planning commission after November 4, 1994, or any lot previously platted which identifies undevelopable areas or transitional areas shall be limited to the following standards unless subdivision approval granted prior to November 4, 1994, included specific fencing requirements which are more restrictive. The more restrictive requirement shall apply.

      (1) Low visibility see through fencing shall consist of flat black colored steel "T" posts and not more than four (4) strands of nonbarbed steel wire, strung at even vertical spacing between such "T" post, and erected to a height of not more than forty two inches (42") above the natural ground surface.

      (2) When fencing lot boundary lines, vegetation or native brush shall not be cleared so as to create a visible demarcation form off site.

      (3) The existing surface of the ground shall not be changed by grading activities when erecting boundary fences.

      (4) Fence materials and designs must not create a hazard for big game wildlife species.

      (5) No field fencing shall be erected in conflict with pedestrian easements dedicated to Salt Lake City.

   c. Buildable Area Fencing: Fencing on any portion of a lot identified as buildable area or required side yard on any subdivision granted preliminary approval by the planning commission after November 4, 1994, or any lot previously platted which identifies undevelopable area or transitional areas shall be limited to the following standards unless subdivision approval granted prior to November 4, 1994, includes specific fencing requirements which are more restrictive. The more restrictive requirement shall apply.

      (1) Open, see through fencing constructed of tubular steel, wrought iron or similar materials, finished with a flat black, nonreflective finish constructed to a height of six feet (6') or less; or

      (2) Sight obscuring or privacy type fencing shall be of earth tone colors, or similar materials to the primary dwelling, and located in a way which screens private outdoor living spaces from off site view.

   d. Front Yard Fencing: Walls and fences located within the front yards and along roadways shall not exceed a maximum of forty two inches (42") in height.

11. Utilities: To the maximum extent practical, all utilities shall be placed within existing road rights of way and front yard setbacks. For lots platted after September 4, 1992, all water, sewer, electrical, telephone, cable television and other utilities shall be placed underground, except that transformers, pedestals and other appurtenances which are normally located aboveground in connection with the underground installations are permitted. All areas disturbed by the installation of underground utilities shall be revegetated in conformance with the regulations of this subsection, and chapter 21A.48 of this title. Temporary or emergency utilities may be erected and maintained aboveground for no more than four (4) months.

12. Landscaping And Revegetation: Installation of all required landscaping shall begin no later than one month after a certificate of occupancy; except that if the certificate of occupancy is issued between October 15 and the following April 1, installation of the landscaping shall begin no later than April 30. Landscaping shall be substantially completed within nine (9) months after a certificate of occupancy is issued. Landscaping shall conform to the requirements of chapter 21A.48 of this title, and shall also conform to the following requirements:

   a. Front Yards And Side Yards: Front yards, corner side yards and interior side yards shall be completely landscaped except for driveways, walkways and patios/decks.

   b. Disturbed Areas: All other areas disturbed during construction shall be either landscaped or revegetated to a natural state.

   c. Undevelopable Areas: Lawns or gardens are prohibited in the undevelopable areas. Native and drought tolerant plant species established in undevelopable areas may be enhanced by irrigation and supplemental planting as approved by the zoning administrator, provided the zoning administrator finds that such supplemental planting is in keeping with the natural conditions.

13. Applicability To Existing Buildings And Structures: Colors and building materials on existing structures may be maintained and/or repaired with materials and colors similar to those existing before the enactment of this title. Such colors and materials may only be modified to bring them into closer compliance with subsection P3 of this section. The provisions of this subsection shall apply to additions to existing buildings and structures within the FR-1/43,560, FR-2/21,780, FR-3/12,000 and FP districts. Additions after April 12, 1995, to buildings and structures existing prior to April 12, 1995, shall conform to all provisions of this subsection, except that building colors and materials may match the original building or structure.

Q. Restrictions On Community Gardens[1]: Repealed.

R. Accessory Storage: Unless otherwise specified, all accessory storage in residential districts shall be located within enclosed buildings. Firewood and the temporary storage of materials for construction activity in progress on the premises shall be excepted. Ordinary household recycling storage and household garbage container storage is also permitted outdoors. RV parking and storage shall conform to subsection 21A.44.020K of this title.

S. Public Utilities In Residential Districts:

1. Conditional Use Required: Where not otherwise authorized by this title and after conditional use approval by the planning commission pursuant to chapter 21A.54 of this title, land in a residential district may be used for a public utility building, electrical substation, or radio or television relay station, including necessary towers, and other similar public utilities; provided, that in all such cases the planning commission finds that:

   a. It is essential in order to provide the area with adequate electrical, gas, telephone, television or radio service;

   b. Due to certain peculiar conditions, the facility could not be located outside the residentially zoned district and properly serve the city;

   c. The building and site are designed to conform to the residential character of the district;

   d. All yard spaces as required for permitted uses in the district are provided;

   e. Adequate screening is provided by landscaping and fencing where the facility is not within a building;

   f. Such other conditions are met as may be deemed necessary by the planning commission to protect the character of the residential district.

2. Prohibited Uses: The planning commission shall not permit a privately owned or operated commercial radio or television tower or station in any residential district.

T. Adaptive Reuse Of A Landmark Building In Residential Districts:

1. Purpose Statement: The purpose of the adaptive reuse of a landmark site in a residential district is to preserve landmark sites as defined in subsection 21A.34.020B4 of this title. In some instances these sites have outlived their original use due to economic conditions, size of the building, and/or a substantial degree of deterioration of the historic property. Such sites, however, still contribute to the welfare, property and education of the people of Salt Lake City because of their historic, architectural or cultural significance. The planning commission shall consider the allowance of a nonresidential use of a landmark site in a residential district according to the qualifying provisions outlined in subsection T2a of this section and pursuant to chapter 21A.54 of this title, in order to ensure that the residential character of the surrounding environment is preserved.

2. Conditional Use Required: Where authorized by this title as shown in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, landmark sites in any residential district may be used for certain nonresidential uses.

a. Qualifying Provisions: In order to qualify for conditional use review by the planning commission under section 21A.54.080, "Standards For Conditional Uses", of this title, the applicant must demonstrate compliance with the following:

(1) The building is designated as a landmark site on the Salt Lake City register of cultural resources. The designation process must be completed prior to the city accepting a conditional use application for the structure unless the planning director determines that it is in the best interest of the city to process the designation and conditional use applications together.

(2) The landmark building shall have a minimum of seven thousand (7,000) square feet of floor area, excluding accessory buildings.

(3) The new use will require minimal change as these features are important in defining the overall historic character of the building and environment.

(4) The use is conducive to the preservation of the landmark site.

(5) Significant archaeological resources affected by the project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

(6) The use is compatible with the surrounding residential neighborhood.

(7) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize the property shall be preserved.

(8) The use does not result in the removal of residential characteristics of the structure or site including mature landscaping.

(9) The change in use from residential to nonresidential is necessary due to the excessive size of the landmark site for residential uses allowed in the residential district, and/or demonstration that the building cannot reasonably be used for its original intended use.

(10) The proposed use will not have a material net cumulative adverse impact on the neighborhood or the city as a whole by considering the following:

(A) The spatial distribution of:

(i) Business licenses issued for properties located within three hundred feet (300') of any property line and the block frontage on both sides of the street between 100 series addresses; and

(ii) Previously approved conditional uses for nonresidential uses in landmark sites within the same planning community, as shown on a map of planning communities maintained by the zoning administrator.

(B) Impacts on neighboring properties including, but not limited to:

(i) Traffic;

(ii) Parking;

(iii) Signs;

(iv) Lighting;

(v) Removal of landscaping; and

(vi) For the purposes of evaluating subsections T2a(10)(B)(i) through T2a(10)(B)(v) of this section, professionally prepared impact studies shall not be required unless specifically requested by the zoning administrator;

(vii) Noise, fumes or odors;

b. Credit For On Street Parking: Some or all of the off street parking spaces required in section 21A.44.060 of this title may be met by the provision of on street spaces. Such credit shall require the site plan review approval. Requests for on street parking shall meet the following requirements:

(1) All on street parking facilities shall be designed in conformance with the standards established by the city transportation engineer;

(2) Prior to approving any requests for on street parking, the development review team shall determine that the proposed on street parking will not materially adversely impact traffic movements and related public street functions; and

(3) Credit for on street parking shall be limited to the number of spaces provided along the street frontage adjacent to the use.

U. Dwelling Unit Occupancy: A dwelling unit may not be occupied by more than one "family" as defined in chapter 21A.62 of this title.

V. Residential Building Foundation Standard: Each dwelling shall have poured concrete footings, the top of which must be placed below the applicable frost line. Except as otherwise authorized by the planning director and the chief building official in foothill districts, each dwelling shall have a site built concrete or masonry foundation/perimeter skirting constructed around the entire perimeter with interior supports as necessary to meet applicable building codes and adopted seismic loading requirements. The dwelling shall be permanently tied to the foundation system in accordance with applicable building codes and adequately weatherproofed.

W. Entrance Landing: At each exit door, there must be a concrete or wood landing that is a minimum of thirty six inches by thirty six inches (36" x 36"), constructed to meet the minimum requirements of the uniform building code with adequate foundation support and permanent attachment to the building.

X. Compliance With Noise Regulations Required: Any construction work in residential zoning districts shall comply with section 9.28.040, "Noises Prohibited", of this code. (Ord. 82-12, 2012: Ord. 30-12, 2012: Ord. 73-11, 2011: Ord. 21-11, 2011: Ord. 20-11, 2011: Ord. 23-10 § 1, 2010: Ord. 45-07 § 7, 2007: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 13-04 § 2, 2004: Ord. 70-02 §§ 1 - 3, 2002: Ord. 5-02 § 1, 2002: Ord. 20-01 §§ 1 - 3, 2001: Ord. 62-00 § 1, 2000: Ord. 35-99 §§ 11 - 15, 1999: Ord. 30-98 § 1, 1998: Ord. 51-97 § 1, 1997: Ord. 88-95 § 2 (Exh. A), 1995: Ord. 26-95 § 2(12-0), 1995)

21A.24.020: FR-1/43,560 FOOTHILLS ESTATE RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the FR-1/43,560 foothills estate residential district is to promote environmentally sensitive and visually compatible development of lots not less than forty three thousand five hundred sixty (43,560) square feet in size, suitable for foothills locations as indicated in the applicable community master plan. The district is intended to minimize flooding, erosion, and other environmental hazards; to protect the natural scenic character of foothill areas by limiting development; to promote the safety and well being of present and future residents of foothill areas; to protect wildlife habitat; and to ensure the efficient expenditure of public funds.

B. Uses: Uses in the FR-1/43,560 foothills estate residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter, including subsection 21A.24.010P of this chapter, and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	43,560 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	43,560 square feet	140 feet
Utility substations and buildings	43,560 square feet	140 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	43,560 square feet	140 feet

D. Maximum Building Height: See subsections 21A.24.010P1 and P2 of this chapter.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

2. Corner Side Yard: The minimum depth of the corner side yard for all principal buildings shall be equal to the average of the existing buildings on the block face. Where there are no other existing buildings on the block face, the minimum depth shall be twenty feet (20'). Where the minimum corner side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

3. Interior Side Yard: Twenty feet (20').

4. Rear Yard: Forty feet (40').

5. Accessory Buildings And Structures In Yards: No accessory building may be located within any required yard, regardless of any other regulations in this title. Accessory structures (other than accessory buildings) are permitted subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed twenty five percent (25%) of the lot area.

G. Slope Restrictions: For lots subdivided after November 4, 1994, no building shall be constructed on any portion of the site that exceeds a thirty percent (30%) slope. All faces of buildings and structures shall be set back from any nonbuildable area line, as shown on the plat if any, a minimum of ten feet (10') and an average of twenty feet (20').

H. Unauthorized Site Work Prohibited: No grading, excavation, building, removal of vegetation or other site work shall be allowed without specific authorization. Site work not authorized by a building permit shall be permitted only upon issuance of a site development permit in conformance with the requirements of the site development ordinance, unless the proposed work is specifically exempt from the site development ordinance.

I. Landscape Plan: A landscape plan conforming to the requirements of chapter 21A.48 of this title shall be required.

J. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed sixty five thousand three hundred forty (65,340) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

K. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 26-95 § 2(12-1), 1995)

21A.24.030: FR-2/21,780 FOOTHILLS RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the FR-2/21,780 foothills residential district is to promote environmentally sensitive and visually compatible development of lots not less than twenty one thousand seven hundred eighty (21,780) square feet in size, suitable for foothills locations as indicated in the applicable community master plan. The district is intended to minimize flooding, erosion, and other environmental hazards; to protect the natural scenic character of foothill areas by limiting development; to promote the safety and well being of present and future residents of foothill areas; to protect wildlife habitat; and to ensure the efficient expenditure of public funds.

B. Uses: Uses in the FR-2/21,780 foothills residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter, including subsection 21A.24.010P of this chapter, and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	43,560 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	21,780 square feet	100 feet
Utility substations and buildings	21,780 square feet	100 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	21,780 square feet	100 feet

D. Maximum Building Height: See subsections 21A.24.010P1 and P2 of this chapter.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.
2. Corner Side Yard: The minimum depth of the corner side yard for all principal buildings shall be equal to the average of the existing buildings on the block face. Where there are no other existing buildings on the block face, the minimum depth shall be twenty feet (20'). Where the minimum corner side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.
3. Interior Side Yard: Twenty feet (20').
4. Rear Yard: Forty feet (40').
5. Accessory Buildings And Structures In Yards: No accessory building may be located within any required yard, regardless of any other regulations in this title. Accessory structures (other than accessory buildings) are permitted subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed twenty five percent (25%) of the lot area.

G. Slope Restrictions: For lots subdivided after November 4, 1994, no building shall be constructed on any portion of the site that exceeds a thirty percent (30%) slope. All faces of buildings and structures shall be set back from any nonbuildable area line, as shown on the plat if any, a minimum of ten feet (10') and an average of twenty feet (20').

H. Unauthorized Site Work Prohibited: No grading, excavation, building, removal of vegetation or other site work shall be allowed without specific authorization. Site work not authorized by a building permit shall be permitted only upon issuance of a site development permit in conformance with the requirements of the site development ordinance.

I. Landscape Plan: A landscape plan conforming to the requirements of chapter 21A.48 of this title, shall be required.

J. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed thirty two thousand six hundred seventy (32,670) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;
2. The configuration of the lot is compatible with other lots on the same block face; and
3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

K. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 26-95 § 2(12-2), 1995)

21A.24.040: FR-3/12,000 FOOTHILLS RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the FR-3/12,000 foothills residential district is to promote environmentally sensitive and visually compatible development of lots not less than twelve thousand (12,000) square feet in size, suitable for foothills locations as indicated in the applicable community master plan. The district is intended to minimize flooding, erosion, and other environmental hazards; to protect the natural scenic character of foothill areas by limiting development; to promote the safety and well being of present and future residents of foothill areas; to protect wildlife habitat; and to ensure the efficient expenditure of public funds. The FR-3/12,000 foothills residential district is intended for application in most areas of foothills development existing as of April 12, 1995.

B. Uses: Uses in the FR-3/12,000 foothills residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter, including subsection 21A.24.010P of this chapter, and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	12,000 square feet	Interior: 80 feet Corner: 100 feet
Utility substations and buildings	12,000 square feet	Interior: 80 feet Corner: 100 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	12,000 square feet	Interior: 80 feet Corner: 100 feet

D. Maximum Building Height: See subsections 21A.24.010P1 and P2 of this chapter.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.
2. Corner Side Yard: The minimum depth of the corner side yard for all principal buildings shall be equal to the average of the existing buildings on the block face. Where there are no other existing buildings on the block face, the minimum depth shall be twenty feet (20'). Where the minimum corner side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.
3. Interior Side Yard: Ten feet (10') (if a side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail).
4. Rear Yard: Thirty five feet (35').
5. Accessory Buildings And Structures In Yards: No accessory building may be located in any required yard, regardless of any other regulations in this title. Accessory structures (other than accessory buildings) are permitted subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed thirty five percent (35%) of the lot area.

G. Slope Restrictions: For lots subdivided after November 4, 1994, no building shall be constructed on any portion of the site that exceeds a thirty percent (30%) slope. All faces of buildings and structures shall be set back from any nonbuildable area line, as shown on the plat if any, a minimum of ten feet (10') and an average of twenty feet (20').

H. Unauthorized Site Work Prohibited: No grading, excavation, building, removal of vegetation or other site work shall be allowed without specific authorization of the building official. Site work not authorized by a building permit shall be permitted only upon issuance of a site development permit in conformance with the requirements of the site development ordinance.

I. Landscape Plan: A landscape plan conforming to the requirements of chapter 21A.48 of this title shall be required.

J. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed eighteen thousand (18,000) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;
2. The configuration of the lot is compatible with other lots on the same block face; and
3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

K. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 13-04 § 3, 2004: Ord. 35-99 § 16, 1999: Ord. 26-95 § 2(12-3), 1995)

21A.24.050: R-1/12,000 SINGLE-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the R-1/12,000 single-family residential district is to provide for conventional single-family residential neighborhoods with lots twelve thousand (12,000) square feet in size or larger. This district is appropriate in areas of the city as identified in the applicable community master plan. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the R-1/12,000 single-family residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width

Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	12,000 square feet	Interior: 80 feet Corner: 100 feet
Utility substations and buildings	12,000 square feet	Interior: 80 feet Corner: 100 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	12,000 square feet	Interior: 80 feet Corner: 100 feet

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:

   a. Twenty eight feet (28') measured to the ridge of the roof; or

   b. The average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be twenty feet (20').

3. Maximum exterior wall height adjacent to interior side yards shall be twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

   a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

   b. Exceptions:

      (1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

      (2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

      (A) The width of a dormer is ten feet (10') or less; and

      (B) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

      (C) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

   b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

2. Corner Side Yard: The minimum depth of the corner side yard for all principal buildings shall be equal to the average of the existing buildings on the block face. Where there are no other existing buildings on the block face, the minimum depth shall be twenty feet (20'). Where the minimum corner side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

3. Interior Side Yard:

   a. Corner lots: Eight feet (8').

   b. Interior lots: Eight feet (8') on one side and ten feet (10') on the other.

4. Rear Yard: Twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed thirty five percent (35%) of the lot area.

G. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed eighteen thousand (18,000) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 35-99 § 17, 1999: Ord. 26-95 § 2(12-4), 1995)

21A.24.060: R-1/7,000 SINGLE-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the R-1/7,000 single-family residential district is to provide for conventional single-family residential neighborhoods with lots not less than seven thousand (7,000) square feet in size. This district is appropriate in areas of the city as identified in the applicable community master plan. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the R-1/7,000 single-family residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	7,000 square feet	50 feet
Utility substations and buildings	7,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	7,000 square feet	50 feet

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:

   a. Twenty eight feet (28') measured to the ridge of the roof; or

   b. The average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be twenty feet (20').

3. Maximum exterior wall height adjacent to interior side yards shall be twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

   a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

   b. Exceptions:

      (1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

      (2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

      (A) The width of a dormer is ten feet (10') or less; and

      (B) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

      (C) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

   b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

2. Corner Side Yard: The minimum depth of the corner side yard for all principal buildings shall be equal to the average of the existing buildings on the block face. Where there are no other existing buildings on the block face, the minimum depth shall be twenty feet (20'). Where the minimum corner side yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

3. Interior Side Yard:

a. Corner lots: Six feet (6').

b. Interior lots: Six feet (6') on one side and ten feet (10') on the other.

4. Rear Yard: Twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area.

G. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed ten thousand five hundred (10,500) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 26-95 § 2(12-5), 1995)

21A.24.070: R-1/5,000 SINGLE-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the R-1/5,000 single-family residential district is to provide for conventional single-family residential neighborhoods on lots not less than five thousand (5,000) square feet in size. This district is appropriate in areas of the city as identified in the applicable community master plan. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the R-1/5,000 single-family residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	5,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:

a. Twenty eight feet (28') measured to the ridge of the roof; or

b. The average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be twenty feet (20').

3. Maximum exterior wall height adjacent to interior side yards shall be twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

b. Exceptions:

(1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

(A) The width of a dormer is ten feet (10') or less; and

(B) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

(C) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the building.

2. Corner Side Yard: Ten feet (10').

3. Interior Side Yard:

a. Corner lots: Four feet (4').

b. Interior lots: Four feet (4') on one side and ten feet (10') on the other.

4. Rear Yard: Twenty five percent (25%) of the lot depth, or twenty feet (20'), whichever is less.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot.

G. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed seven thousand five hundred (7,500) square feet. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Standards For Attached Garages: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 26-95 § 2(12-6), 1995)

21A.24.080: SR-1 AND SR-1A SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT:

In this chapter and the associated zoning map, the SR-1 district is divided into two (2) subareas for the purpose of defining design criteria. In other portions of this text, the SR-1 and SR-1A are jointly referred to as the SR-1 district because all other standards in the zoning ordinance are the same.

A. Purpose Statement: The purpose of the SR-1 special development pattern residential district is to maintain the unique character of older predominantly single-family and two-family dwelling neighborhoods that display a variety of yards, lot sizes and bulk characteristics. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the SR-1 special development pattern residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet

Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwellings	4,000 square feet per dwelling unit	25 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

D. Maximum Building Height: Maximum building height limits vary, depending upon the location. The following regulations apply for each area within the SR-1 district:

1. Pitched Roofs: The maximum height of buildings with pitched roofs shall be:

a. SR-1: Twenty eight feet (28') measured to the ridge of the roof, or the average height of other principal buildings on the block face.

b. SR-1A: Twenty three feet (23') measured to the ridge of the roof, or the average height of other principal buildings on the block face.

2. Flat Roofs: The maximum height of a flat roof building shall be:

a. SR-1: Twenty feet (20').

b. SR-1A: Sixteen feet (16').

3. Exterior Walls: Maximum exterior wall height adjacent to interior side yards:

a. SR-1: Twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard.

b. SR-1A: Sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.

c. In both the SR-1 and SR-1A districts, the exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

(1) Cross Slopes: For lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

(2) Exceptions:

(A) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(B) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

(i) The width of a dormer is ten feet (10') or less; and

(ii) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

(iii) Dormers are spaced at least eighteen inches (18") apart.

4. Initial Construction: Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Stepped Buildings: Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. Additional Building Height:

a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard:

a. SR-1: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.

b. SR-1A: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are four (4) or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding one property with the smallest front yard setback and excluding the one property with the largest front yard setback. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard depth is specified in the recorded subdivision plat, the requirement specified therein shall prevail. For buildings legally existing on April 12, 1995, the required front yard depth shall be no greater than the established setback line of the existing building.

2. Corner Side Yard:

a. SR-1: Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.

b. SR-1A: Ten feet (10').

3. Interior Side Yard:

a. Twin Home Dwellings: No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. Other Uses:

(1) Corner lots: Four feet (4').

(2) Interior lots:

(A) SR-1: Four feet (4') on one side and ten feet (10') on the other.

(B) SR-1A: Four feet (4') on one side and ten feet (10') on the other.

(i) Where the width of a lot is forty seven feet (47') or narrower, the total minimum side yard setbacks shall be equal to thirty percent (30%) of the lot width with one side being four feet (4') and the other side being thirty percent (30%) of the lot width minus four feet (4') rounded to the nearest whole number.

(ii) Where a lot is twenty seven feet (27') or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

(iii) Where required side yard setbacks are less than four feet (4') and ten feet (10') an addition, remodel or new construction shall be no closer than ten feet (10') to a primary structure on an adjacent property. The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').

4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", and section 21A.40.050 of this title.

a. SR-1A:

(1) Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.

(2) Primary accessory building: One accessory building may have up to the following dimensions:

(A) A footprint of up to four hundred eighty (480) square feet, subject to compliance with subsection 21A.40.050B1 of this title.

(B) Roof peak/ridge height of up to fourteen feet (14') above the existing grade.

(C) A flat roof height limit of nine feet (9') above the existing grade.

(D) An exterior wall height of nine feet (9') above the existing grade.

(i) Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

(3) Secondary accessory buildings: All other accessory buildings shall have the following dimensions:

(A) Roof peak/ridge height of up to ten feet (10') above the existing grade.

(B) Flat roof height limit of eight feet (8') above the existing grade.

(C) An exterior wall height of eight feet (8') above the existing grade.

(D) Secondary accessory buildings may be attached to the primary accessory buildings so long as all buildings conform to the required wall and roof ridge height restrictions.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming.

G. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed one hundred fifty percent (150%) of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Standards For Attached Garages: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 26-06 § 1, 2006: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(12-7), 1995)

21A.24.090: SR-2:

Reserved. (Ord. 26-95 § 2(12-8), 1995)

21A.24.100: SR-3 SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the SR-3 special development pattern residential district is to provide lot, bulk and use regulations, including a variety of housing types, in scale with the character of development located within the interior portions of city blocks. Uses are intended to be compatible with the existing scale, density and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood. This is a medium density zoning district. Off site parking facilities in this district to supply required parking for new development may be approved as part of the conditional use process.

B. Uses: Uses in the SR-3 special development pattern residential district as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter, and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings[1] and twin home dwellings	1,500 square feet per dwelling unit	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	2,000 square feet	Interior: 30 feet Corner: 40 feet
Two-family dwellings	3,000 square feet	Interior: 44 feet Corner: 54 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	2,000 square feet	Interior: 30 feet Corner: 40 feet

Qualifying Provisions:
1.Not more than 6 dwellings may be attached together.

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:

a. Twenty eight feet (28') measured to the ridge of the roof; or

b. The average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be twenty feet (20').

3. Maximum exterior wall height adjacent to interior side yards shall be twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

b. Exceptions:

(1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

(A) The width of a dormer is ten feet (10') or less; and

(B) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

(C) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be ten feet (10'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

2. Corner Side Yard: Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.

3. Interior Side Yard:

a. Single-family detached dwellings: Four feet (4').

b. Single-family attached and twin home dwellings: When abutting a single-family dwelling, a four foot (4') yard is required, otherwise no interior yard is required. Where a yard is provided, it shall be not less than four feet (4').

4. Rear Yard: Twenty percent (20%) of the lot depth but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area for detached dwellings and seventy percent (70%) for attached dwellings. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming.

G. Special Parking Provisions: On site parking requirements shall be one stall per dwelling unit. Off site parking facilities may be authorized as a conditional use to satisfy the parking requirements of this title, as established in subsection 21A.44.020L of this title.

H. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed two hundred percent (200%) of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

I. Standards For Attached Garages: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 13-04 § 4, 2004: Ord. 88-95 § 2 (Exh. A), 1995: Ord. 26-95 § 2(12-9), 1995)

21A.24.110: R-2 SINGLE- AND TWO-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the R-2 single- and two-family residential district is to preserve and protect for single-family dwellings the character of existing neighborhoods which exhibit a mix of single- and two-family dwellings by controlling the concentration of two-family dwelling units. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play and to promote sustainable and compatible development patterns.

B. Uses: Uses in the R-2 single- and two-family residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwellings	4,000 square feet per dwelling	25 feet
Two-family dwellings[1]	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

Qualifying Provisions:
1.In subdivisions approved after April 12, 1995, no more than 2 lots may be used for such dwellings located adjacent to one another and no more than 3 such dwellings may be located on the same block face.

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:

a. Twenty eight feet (28') measured to the ridge of the roof; or

b. The average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be twenty feet (20').

3. Maximum exterior wall height adjacent to interior side yards shall be twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

b. Exceptions:

(1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

(A) The width of a dormer is ten feet (10') or less; and

(B) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

(C) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested. Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. a. For properties outside of the H historic preservation overlay district, additional building height may be granted as a special exception by the planning commission subject to the special exception standards in chapter 21A.52 of this title and if the proposed building height is in keeping with the development pattern on the block face. The planning commission will approve, approve with conditions, or deny the request pursuant to chapter 21A.52 of this title.

b. Requests for additional building height for properties located in an H historic preservation overlay district shall be reviewed by the historic landmarks commission which may grant such requests subject to the provisions of section 21A.34.020 of this title.

E. Minimum Yard Requirements:

1. Front Yard: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail.

2. Corner Side Yard: Ten feet (10').

3. Interior Side Yard:

a. Twin home dwellings: No side yard is required along one side lot line. A ten foot (10') side yard is required along the other.

b. Other uses: Four feet (4'); provided, that on interior lots one yard must be at least ten feet (10').

4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed forty five percent (45%) of the lot for two-family dwellings and forty percent (40%) for single-family dwellings. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming.

G. Maximum Lot Size: With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the office of the Salt Lake County recorder, the maximum size of a new lot shall not exceed one hundred fifty percent (150%) of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Standards For Attached Garages: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors. (Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 26-95 § 2(12-10), 1995)

21A.24.120: RMF-30 LOW DENSITY MULTI-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the RMF-30 low density multi-family residential district is to provide an environment suitable for a variety of housing types of a low density nature, including single-family, two-family, and multi-family dwellings, with a maximum height of thirty feet (30'). This district is appropriate in areas where the applicable master plan policies recommend multi-family housing with a density of less than fifteen (15) dwelling units per acre. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the RMF-30 low density multi-family residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings	9,000 square feet[1]	80 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings (3 or more)	3,000 square feet per unit	Interior: 25 feet Corner: 35 feet
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwelling	4,000 square feet per unit	25 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

Qualifying Provisions:
1.9,000 square foot minimum for 3 dwelling units plus 3,000 square feet for each additional dwelling unit.

D. Maximum Building Height: The maximum building height permitted in this district is thirty feet (30').

E. Minimum Yard Requirements:

1. Front Yard: Twenty feet (20').

2. Corner Side Yard: Ten feet (10').

3. Interior Side Yard:

a. Single-family detached and two-family dwellings:

(1) Interior lots: Four feet (4') on one side and ten feet (10') on the other.

(2) Corner lots: Four feet (4').

b. Single-family attached: No yard is required, however if one is provided it shall not be less than four feet (4').

c. Twin home dwelling: No yard is required along one side lot line. A ten foot (10') yard is required on the other.

d. Multi-family dwelling: Ten feet (10') on each side.

e. All other permitted and conditional uses: Ten feet (10') on each side.

4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than twenty feet (20') and need not exceed twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Required Landscape Yards: The front and corner side yards shall be maintained as landscape yards.

G. Maximum Building Coverage:

1. Single-Family Detached: The surface coverage of all principal and accessory buildings shall not exceed forty five percent (45%) of the lot area.

2. Single-Family Attached Dwellings: The surface coverage of all principal and accessory buildings shall not exceed fifty percent (50%) of the lot area.

3. Two-Family And Twin Home Dwellings: The surface coverage of all principal and accessory buildings shall not exceed fifty percent (50%) of the lot area.

4. Multi-Family Dwellings: The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area.

5. Existing Dwellings: For dwellings existing on April 12, 1995, the coverage of such existing buildings shall be considered legally conforming.

6. Nonresidential Land Uses: The surface coverage of all principal and accessory buildings shall not exceed fifty percent (50%) of the lot area.

H. Landscape Buffers: For multiple-family uses where a lot abuts a lot in a single-family or two-family residential district, a landscape buffer shall be provided in accordance with chapter 21A.48 of this title. (Ord. 12-11, 2011: Ord. 62-09 §§ 5, 8, 2009: Ord. 61-09 § 6, 2009: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(12-11), 1995)

21A.24.130: RMF-35 MODERATE DENSITY MULTI-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the RMF-35 moderate density multi-family residential district is to provide an environment suitable for a variety of moderate density housing types, including single-family, two-family, and multi-family dwellings with a maximum height of thirty five feet (35'). This district is appropriate in areas where the applicable master plan policies recommend a density of less than thirty (30) dwelling units per acre. This district includes other uses that are typically found in a multi-family residential neighborhood of this density for the purpose of serving the neighborhood. Uses are intended to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the RMF-35 moderate density multi-family residential district, as specified in the table of permitted and conditional uses for residential districts found at section 21A.24.190 of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width

Multi-family dwellings (3 through 11 units)	9,000 square feet[1]	80 feet
Multi-family dwellings (12 or more units)	26,000 square feet[1]	80 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings (3 or more)	3,000 square feet	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwellings	4,000 square feet	25 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

Qualifying provisions:
1.9,000 square feet for 3 units, plus 2,000 square feet for each additional dwelling unit up to and including 11 units. 26,000 square feet for 12 units, plus 1,000 square feet for each additional dwelling unit up to 1 acre. For developments greater than 1 acre 1,500 square feet for each dwelling unit is required.

D. Maximum Building Height: The maximum building height permitted in this district is thirty five feet (35').

E. Minimum Yard Requirements:

1. Front Yard: Twenty feet (20').
2. Corner Side Yard: Ten feet (10').
3. Interior Side Yard:
   a. Single-family detached and two-family dwellings:
      (1) Interior lots: Four feet (4') on one side and ten feet (10') on the other.
      (2) Corner lots: Four feet (4').
   b. Single-family attached: No yard is required, however, if one is provided it shall not be less than four feet (4').
   c. Twin home dwelling: No yard is required along one side lot line while a ten foot (10') yard is required on the other.
   d. Multi-family dwellings:
      (1) Interior lots: Side yard shall be at least ten feet (10').
   e. All other permitted and conditional uses: Ten feet (10') on each side.
4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than twenty feet (20') and need not exceed twenty five feet (25').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.
6. Existing Yards: For buildings legally existing on April 12, 1995, the required yard shall be no greater than the established setback line of the existing building unless the proposed yard encroachment is to accommodate additional units. New principal buildings must conform to current yard area requirements, unless the new principal two-family dwelling or twin home has legal conforming status as outlined in section 21A.38.120 of this title.

F. Required Landscape Yards: The front yard, corner side and, for interior multi-family lots, one of the interior side yards shall be maintained as landscape yards.

G. Maximum Building Coverage:

1. Single-Family Detached: The surface coverage of all principal and accessory buildings shall not exceed forty five percent (45%) of the lot area.
2. Single-Family Attached Dwellings: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.
3. Two-Family And Twin Home Dwellings: The surface coverage of all principal and accessory buildings shall not exceed fifty percent (50%) of the lot area.
4. Multi-Family Dwellings: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.
5. Existing Dwellings: For dwellings existing on April 12, 1995, the coverage of such existing buildings shall be considered legally conforming.
6. Nonresidential Land Uses: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.

H. Landscape Buffers: Where a lot abuts a lot in a single-family or two-family residential district, a landscape buffer shall be provided in accordance with chapter 21A.48 of this title. (Ord. 12-11, 2011: Ord. 62-09 §§ 6, 9, 2009: Ord. 61-09 § 7, 2009: Ord. 35-99 §§ 18, 19, 1999: Ord. 26-95 § 2(12-12), 1995)

21A.24.140: RMF-45 MODERATE/HIGH DENSITY MULTI-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the RMF-45 moderate/high density multi-family residential district is to provide an environment suitable for multi-family dwellings of a moderate/high density with a maximum building height of forty five feet (45'). This district is appropriate in areas where the applicable master plan policies recommend a density of less than forty three (43) dwelling units per acre. This district includes other uses that are typically found in a multi-family residential neighborhood of this density for the purpose of serving the neighborhood. Such uses are designed to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the RMF-45 moderate/high density multi-family residential district, as specified in table of permitted and conditional uses for residential districts found at section 21A.24.190 of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings (3 to 14 units)	9,000 square feet[1]	80 feet
Multi-family dwellings (15 or more)	21,000 square feet[1]	80 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings	3,000 square feet	Interior: 22 feet Corner: 32 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	10,000 square feet	80 feet

Qualifying provisions:
1.9,000 square feet for 3 units, plus 1,000 square feet for each additional dwelling unit up to and including 14 units. 21,000 square feet for 15 units, plus 800 square feet for each additional dwelling unit up to 1 acre. For developments greater than 1 acre 1,000 square feet for each dwelling unit is required.

D. Maximum Building Height: The maximum building height permitted in this district is forty five feet (45').

E. Minimum Yard Requirements:

1. Front Yard: Twenty percent (20%) of lot depth, but need not exceed twenty five feet (25'). For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the existing yard.
2. Corner Side Yard:
   a. Single-family attached dwellings: Ten feet (10').
   b. Multi-family dwellings: Twenty feet (20').
   c. All other permitted and conditional uses: Twenty feet (20').
3. Interior Side Yard:
   a. Single-family attached dwelling: No yard is required, however if one is provided it shall not be less than four feet (4').
   b. Multi-family dwellings: The minimum yard shall be eight feet (8'); provided, that no principal building is erected within ten feet (10') of a building on an adjacent lot.
   c. All other permitted and conditional uses: Ten feet (10') on each side.
4. Rear Yard: The rear yard shall be twenty five percent (25%) of the lot depth, but need not exceed thirty feet (30').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Required Landscape Yards: The front yard, corner side and, for interior lots, one of the interior side yards shall be maintained as a landscape yard except that single-family attached dwellings, no interior side yard shall be required.

G. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.

H. Landscape Buffers: Where a lot abuts a lot in a single-family or two-family residential district, a landscape buffer shall be provided in accordance with chapter 21A.48, "Landscaping And Buffers", of this title. (Ord. 12-11, 2011: Ord. 62-09 § 7, 2009: Ord. 26-95 § 2(12-13), 1995)

21A.24.150: RMF-75 HIGH DENSITY MULTI-FAMILY RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the RMF-75 high density multi-family residential district is to provide an environment suitable for high density multi-family dwellings. This district is appropriate in areas where the applicable master plan policies recommend a maximum density less than eighty five (85) dwelling units per acre. This district includes other uses that are typically found in a multi-family residential neighborhood of this density for the purpose of serving the neighborhood. Such uses are designed to be compatible with the existing scale and intensity of the neighborhood. The standards for the district are intended to provide for safe and comfortable places to live and play, promote sustainable and compatible development patterns and to preserve the existing character of the neighborhood.

B. Uses: Uses in the RMF-75 high density multi-family residential district as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings (3 to 14 units)	9,000 square feet[2]	80 feet
Multi-family dwellings (15 or more)	19,000 square feet[2]	100 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Off site parking facilities	10,000 square feet	50 feet
Places of worship less than 4 acres in size	12,000 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached (3 or more)	2,000 square feet[1]	Interior: 16 feet End unit: 20 feet Corner: 22 feet
Single-family detached dwellings	5,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	20,000 square feet	100 feet

Qualifying provisions:
1.3 unit minimum.
2.9,000 square feet for 3 units, plus 800 square feet for each additional unit up to and including 14 units. 19,000 square feet for 15 units, plus 350 square feet for each additional unit up to 1 acre. For development greater than 1 acre, 500 square feet for each dwelling unit is required.

D. Maximum Building Height: The maximum building height permitted in this district is seventy five feet (75').

E. Minimum Yard Requirements:

1. Front Yard: Twenty five feet (25'), except single-family detached or attached, fifteen feet (15').
2. Corner Side Yard: Twenty five feet (25'), except single-family detached or attached, fifteen feet (15').
3. Interior Side Yard: Fifteen feet (15'), except for single-family detached, four feet (4'), or attached, four feet (4') for end units, no setback for attached units.
4. Rear Yard: The rear yard shall be twenty five percent (25%) of the lot depth, but need not exceed thirty feet (30').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Required Landscape Yards: The required front yard, corner side and, for interior lots, one of the interior side yards shall be maintained as a landscape yard.

G. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.

H. Landscape Buffers: Where a lot abuts a lot in a single-family or two-family residential district, a landscape buffer shall be provided in accordance with chapter 21A.48, "Landscaping And Buffers", of this title. (Ord. 12-11, 2011: Ord. 11-05 § 1, 2005: Ord. 26-95 § 2(12-14), 1995)

21A.24.160: RB RESIDENTIAL/BUSINESS DISTRICT:

A. Purpose Statement: The purpose of the RB residential/business district is to create vibrant small scale retail, service, and office uses oriented to the local area within residential neighborhoods along higher volume streets. Development is intended to be oriented to the street and pedestrian, while acknowledging the need for automobile access and parking. This district is appropriate in areas where supported by applicable master plans. The standards for the district are intended to promote appropriate scaled building and site design that focuses on compatibility with existing uses.

B. Uses: Uses in the RB residential/business district as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Planned Development Review: Planned developments, which meet the intent of the ordinance, but not the specific design criteria outlined in the following subsections, may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
A single dwelling unit located above first floor retail or office uses	Included in principal use	Included in principal use
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Offices, when located within an existing building originally designed for residential use	5,000 square feet	50 feet
Places of worship less than 4 acres in size	5,000 square feet	50 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Retail goods establishments, when located within an existing building originally designed for residential use	5,000 square feet	50 feet
Retail service establishments, when located within an existing building originally designed for residential use	5,000 square feet	50 feet
Single-family detached dwellings	5,000 square feet	50 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

E. Maximum Building Height: The maximum building height permitted in this district is thirty feet (30').

F. Minimum Yard Requirements:

1. Front Yard: Twenty percent (20%) of lot depth, but need not exceed twenty five feet (25'). For buildings legally existing on April 12, 1995, the front yard shall be no greater than the existing yard.
2. Corner Side Yard: Ten feet (10'). For buildings legally existing on April 12, 1995, the corner side yard shall be no greater than the existing yard.
3. Interior Side Yard: Six feet (6'); provided, that on interior lots one yard must be at least ten feet (10'). For buildings legally existing on April 12, 1995, the required yard shall be no greater than the existing yard.
4. Rear Yard: Twenty five percent (25%) of the lot depth, but the yard need not exceed thirty feet (30').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.
6. Parking In Required Yard Area: No parking is allowed within the front or corner side yard.

G. Required Landscape Yards: All front and corner side yards shall be maintained as landscape yards.

H. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed fifty percent (50%) of the lot area.

I. Design Standards: All principal buildings constructed or remodeled after April 12, 1995, shall conform to the following design standards:

1. All roofs shall be of a hip or gable design, except additions or expansions to existing buildings may be of the same roof design as the original building;
2. The remodeling of residential buildings for retail or office use shall be allowed only if the residential character of the exterior is maintained;
3. The front building elevation shall contain not more than fifty percent (50%) glass;
4. Special sign regulations of chapter 21A.46, "Signs", of this title;
5. Building orientation shall be to the front or corner side yard;
6. Building additions shall consist of materials, color and exterior building design consistent with the existing structure, unless the entire structure is resurfaced; and
7. No parking is allowed within the front or corner side yard.

J. New Nonresidential Construction: Construction of a new principal building, parking lot or addition to an existing building for a nonresidential use that includes the demolition of a residential structure shall only be approved as a conditional use pursuant to chapter 21A.54, "Conditional Uses", of this title and subject to the design standards of subsection I of this section; provided, that in such cases the planning commission finds that the applicant has adequately demonstrated the following:

1. The location of the residential structure is impacted by surrounding nonresidential structures to the extent that it does not function as a contributing residential element to the residential-business neighborhood (RB district); and

2. The property is isolated from other residential structures and does not relate to other residential structures within the residential-business neighborhood (RB district); and

3. The design and condition of the residential structure is such that it does not make a material contribution to the residential character of the neighborhood.

K. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 12-11, 2011: Ord. 23-10 § 2, 2010: Ord. 61-09 § 8, 2009: Ord. 3-05 § 3, 2005: Ord. 8-97 §§ 1, 2, 1997: Ord. 26-95 § 2(12-15), 1995)

21A.24.164: R-MU-35 RESIDENTIAL/MIXED USE DISTRICT:

A. Purpose Statement: The purpose of the R-MU-35 residential/mixed use district is to provide areas within the city for mixed use development that promote residential urban neighborhoods containing residential, retail, service commercial and small scale office uses. This district is appropriate in areas where the applicable master plan policies recommend mixed use with a residential density less than thirty (30) dwelling units per acre. The standards for the district reinforce the mixed use character of the area and promote appropriately scaled development that is pedestrian oriented. This zone is intended to provide a buffer for lower density residential uses and nearby collector, arterial streets and higher intensity land uses.

B. Uses: Uses in the R-MU-35 residential/mixed use district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings (3 to 11)	9,000 square feet[1]	80 feet
Multi-family dwellings (12 or more)	26,000 square feet[1]	80 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Nonresidential uses	No minimum	No minimum
Places of worship less than 4 acres in size	12,000 square feet	140 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings (3 or more)	3,000 square feet per unit	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwellings	4,000 square feet per unit	25 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

Qualifying provisions:
1.9,000 square feet for 3 units, plus 2,000 square feet for each additional dwelling unit up to and including 11 dwelling units. 26,000 square feet for 12 units, plus 1,000 square feet for each additional dwelling unit up to 1 acre. For developments greater than 1 acre, 1,500 square feet for each dwelling unit is required.

A modification to the density regulations in this subsection may be granted as a conditional use, subject to conformance with the standards and procedures of chapter 21A.54, "Conditional Uses", of this title and supported by the applicable master plan. Such conditional uses shall also be subject to design review.

D. Minimum Yard Requirements:

1. Single-Family Detached Dwellings:

   a. Front yard: Fifteen feet (15').

   b. Corner side yard: Ten feet (10').

   c. Interior side yard:

      (1) Corner lots: Four feet (4').

      (2) Interior lots: Four feet (4') on one side and ten feet (10') on the other.

   d. Rear yard: Twenty five percent (25%) of the lot depth, but need not be more than twenty feet (20').

2. Single-Family Attached, Two-Family And Twin Home Dwellings:

   a. Front yard: Minimum five feet (5'). Maximum fifteen feet (15').

   b. Corner side yard: Minimum five feet (5'). Maximum fifteen feet (15').

   c. Interior side yard:

      (1) Single-family attached: No yard is required, however if one is provided it shall not be less than four feet (4').

      (2) Two-family:

      (A) Interior lot: Four feet (4') on one side and ten feet (10') on the other.

      (B) Corner lot: Four feet (4').

      (3) Twin home: No yard is required along one side lot line. A ten foot (10') yard is required on the other.

   d. Rear yard: Twenty five percent (25%) of lot depth or twenty five feet (25'), whichever is less.

3. Multi-Family Dwellings And Any Other Residential Uses:

   a. Front yard: No setback is required. Maximum fifteen feet (15').

   b. Corner side yard: No setback is required. Maximum fifteen feet (15').

   c. Interior side yard: No setback is required.

   d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').

4. Nonresidential Development:

   a. Front yard: No setback is required. Maximum fifteen feet (15').

   b. Corner side yard: No setback is required. Maximum fifteen feet (15').

   c. Interior side yard: No setback is required.

   d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').

5. Legal Lots: Lots legally existing on the effective date hereof, April 12, 1995, shall be considered legal conforming lots.

6. Landscaping: For multiple-unit residential uses, nonresidential and mixed uses, no yards or landscaped setbacks are required; however any setback provided, up to fifteen feet (15'), shall be landscaped. If parking is located in the front or corner side yard of the building, then a fifteen foot (15') landscaped setback is required.

7. Required Yards For Legally Existing Buildings: For buildings legally existing on the effective date hereof, required yards shall be no greater than the established setback line.

E. Maximum Building Height: The maximum building height shall not exceed thirty five feet (35'), except that nonresidential buildings and uses shall be limited by subsections E1 and E2 of this section. Buildings taller than thirty five feet (35'), up to a maximum of forty five feet (45'), may be authorized through the conditional building and site design review process; and provided, that the proposed height is supported by the applicable master plan.

1. Maximum height for nonresidential buildings: Twenty feet (20').

2. Maximum floor area coverage of nonresidential uses in mixed use buildings of residential and nonresidential uses: One floor.

F. Minimum Open Space: For residential uses and mixed uses containing residential uses, not less than twenty percent (20%) of the lot area shall be maintained as open space. This open space may take the form of landscaped yards or plazas, balconies and courtyards, subject to site plan review approval.

G. Landscape Yards: All front and corner side yards provided, up to fifteen feet (15') in depth, shall be maintained as a landscape yard in conformance with chapter 21A.48, "Landscaping And Buffers", of this title.

H. Landscape Buffers: Where a lot in the R-MU-35 district abuts a lot in a single-family or two-family residential district, landscape buffers shall be provided as required in chapter 21A.48, "Landscaping And Buffers", of this title. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 61-09 §§ 9, 29, 2009: Ord. 71-04 § 1 (Exh. A), 2004)

21A.24.168: R-MU-45 RESIDENTIAL/MIXED USE DISTRICT:

A. Purpose Statement: The purpose of the R-MU-45 residential/mixed use district is to provide areas within the city for mixed use development that promotes residential urban neighborhoods containing residential, retail, service commercial and small scale office uses. This district is appropriate in areas where the applicable master plan policies recommend mixed use with a residential density less than forty four (44) dwelling units per acre. The standards for the district reinforce the mixed use character of the area and promote appropriately scaled development that is pedestrian oriented.

B. Uses: Uses in the R-MU-45 residential/mixed use district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings (3 to 14)	9,000 square feet[1]	50 feet
Multi-family dwellings (15 or more)	20,000 square feet[1]	80 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum

Nonresidential uses	No minimum	No minimum
Places of worship less than 4 acres in size	5,000 square feet	50 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings (3 or more)	3,000 square feet per unit	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	4,000 square feet	50 feet
Twin home dwellings	3,000 square feet per unit	20 feet
Two-family dwellings	6,000 square feet	40 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

Qualifying provisions:
1.9,000 square feet for 3 units, plus 1,000 square feet for each additional dwelling unit up to and including 14 dwelling units. 21,000 square feet for 15 units, plus 800 square feet for each additional dwelling unit up to 1 acre. For developments greater than 1 acre, 1,000 square feet for each dwelling unit is required.

A modification to the density regulations in this subsection may be granted as a conditional use, subject to conformance with the standards and procedures of chapter 21A.54, "Conditional Uses", of this title and supported by the applicable master plan. Such conditional uses shall also be subject to design review.

D. Minimum Yard Requirements:

1. Single-Family Detached Dwellings:
   a. Front yard: Fifteen feet (15').
   b. Corner side yard: Ten feet (10').
   c. Interior side yard:
      (1) Corner lots: Four feet (4').
      (2) Interior lots: Four feet (4') on one side and ten feet (10') on the other.
   d. Rear yard: Twenty five percent (25%) of the lot depth, but need not be more than twenty feet (20').
2. Single-Family Attached, Two-Family And Twin Home Dwellings:
   a. Front yard: Minimum five feet (5'). Maximum fifteen feet (15').
   b. Corner side yard: Minimum five feet (5'). Maximum fifteen feet (15').
   c. Interior side yard:
      (1) Single-family attached: No yard is required, however if one is provided it shall not be less than four feet (4').
      (2) Two-family:
      (A) Interior lot: Four feet (4') on one side and ten feet (10') on the other.
      (B) Corner lot: Four feet (4').
      (3) Twin home: No yard is required along one side lot line. A ten foot (10') yard is required on the other.
   d. Rear yard: Twenty five percent (25%) of lot depth or twenty five feet (25'), whichever is less.
3. Multi-Family Dwellings And Any Other Residential Uses:
   a. Front yard: No setback is required. Maximum fifteen feet (15').
   b. Corner side yard: No setback is required. Maximum fifteen feet (15').
   c. Interior side yard: No setback is required.
   d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').
4. Nonresidential Development:
   a. Front yard: No setback is required. Maximum fifteen feet (15').
   b. Corner side yard: No setback is required. Maximum fifteen feet (15').
   c. Interior side yard: No setback is required.
   d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').
5. Legal Conforming Lots: Lots legally existing on the effective date hereof, April 12, 1995, shall be considered legal conforming lots.
6. Landscaping: For multiple-unit residential uses, nonresidential and mixed uses, no yards or landscaped setbacks are required; however any setback provided, up to fifteen feet (15'), shall be landscaped. If parking is located in the front or corner side yard of the building, then a fifteen foot (15') landscaped setback is required.
7. Required Yards For Legally Existing Buildings: For buildings legally existing on the effective date hereof, required yards shall be no greater than the established setback line.

E. Maximum Building Height: The maximum building height shall not exceed forty five feet (45'), except that nonresidential buildings and uses shall be limited by subsections E1 and E2 of this section. Buildings taller than forty five feet (45'), up to a maximum of seventy five feet (75'), may be authorized through the conditional building and site design review process and provided, that the proposed height is supported by the applicable master plan.

1. Maximum height for nonresidential buildings: Twenty feet (20').
2. Maximum floor area coverage of nonresidential uses in mixed use buildings of residential and nonresidential uses: One floor.

F. Minimum Open Space: For residential uses and mixed uses containing residential uses, not less than twenty percent (20%) of the lot area shall be maintained as open space. This open space may take the form of landscaped yards or plazas, balconies and courtyards, subject to site plan review approval.

G. Landscape Yards: All front and corner side yards provided, up to fifteen feet (15') in depth, shall be maintained as a landscape yard in conformance with chapter 21A.48, "Landscaping And Buffers", of this title.

H. Landscape Buffers: Where a lot in the R-MU-45 district abuts a lot in a single-family or two-family residential district, landscape buffers shall be provided as required in chapter 21A.48, "Landscaping And Buffers", of this title. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 61-09 §§ 10, 30, 2009: Ord. 71-04 § 2 (Exh. B), 2004)

21A.24.170: R-MU RESIDENTIAL/MIXED USE DISTRICT:

A. Purpose Statement: The purpose of the R-MU residential/mixed use district is to reinforce the mixed use character of the area and encourage the development of areas as high density residential urban neighborhoods containing retail, service commercial, and small scale office uses. This district is appropriate in areas of the city where the applicable master plans support high density, mixed use development. The standards for the district are intended to facilitate the creation of a walkable urban neighborhood with an emphasis on pedestrian scale activity while acknowledging the need for transit and automobile access.

B. Uses: Uses in the R-MU residential/mixed use district as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Planned Development Review: Planned developments, which meet the intent of the ordinance, but not the specific design criteria outlined in the following subsections, may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings	No minimum lot area required	50 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Nonresidential uses	No minimum	No minimum
Places of worship less than 4 acres in size	5,000 square feet	50 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family attached dwellings	3,000 square feet per dwelling unit	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	5,000 square feet	50 feet
Twin home dwellings	4,000 square feet per dwelling unit	25 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 square feet	50 feet

E. Minimum Yard Requirements:

1. Single-Family Detached Dwellings:
   a. Front yard: Fifteen feet (15').
   b. Corner side yard: Ten feet (10').
   c. Interior side yard:

(1) Corner lots: Four feet (4').

(2) Interior lots: Four feet (4') on one side and ten feet (10') on the other.

d. Rear yard: Twenty five percent (25%) of the lot depth, but need not be more than twenty feet (20').

2. Single-Family Attached, Two-Family And Twin Home Dwellings:

a. Front yard: Fifteen feet (15').

b. Corner side yard: Ten feet (10').

c. Interior side yard:

(1) Single-family attached: No yard is required, however if one is provided it shall not be less than four feet (4').

(2) Two-family:

(A) Interior lot: Four feet (4') on one side and ten feet (10') on the other.

(B) Corner lot: Four feet (4').

(3) Twin home: No yard is required along one side lot line. A ten foot (10') yard is required on the other.

d. Rear yard: Twenty five percent (25%) of lot depth or twenty five feet (25'), whichever is less.

3. Multi-Family Dwellings And Any Other Residential Uses:

a. Front yard: No setback is required.

b. Corner side yard: No setback is required.

c. Interior side yard: No setback is required.

d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').

4. Nonresidential Development:

a. Front yard: No setback is required.

b. Corner side yard: No setback is required.

c. Interior side yard: No setback is required.

d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').

5. Existing Lots: Lots legally existing on the effective date hereof, April 12, 1995, shall be considered legal conforming lots.

6. Minimum Lot Area Exemptions: For multiple-unit residential uses, nonresidential and mixed uses, no minimum lot area is required. In addition, no yards or landscaped setbacks are required; except where interior side yards are provided, they shall not be less than four feet (4').

7. Existing Buildings: For buildings legally existing on the effective date hereof, required yards shall be no greater than the established setback line.

8. Maximum Setback: A maximum setback is required for at least twenty five percent (25%) of the building facade. The maximum setback is ten feet (10') greater than the minimum setback or fifteen feet (15') if no minimum setback is required. Exceptions to this requirement may be authorized as conditional building and site design review, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of the ordinance.

Appeal of administrative decision is to the planning commission.

9. Parking Setback: Surface parking is prohibited in a front or corner side yard. Surface parking lots within an interior side yard shall maintain a thirty foot (30') landscape setback from the front property line or be located behind the primary structure. Parking structures shall maintain a forty five foot (45') minimum setback from a front or corner side yard property line or be located behind the primary structure. There are no minimum or maximum setback restrictions on underground parking. The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of the ordinance.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Appeal of administrative decision is to the planning commission.

F. Maximum Building Height: The maximum building height shall not exceed seventy five feet (75'), except that nonresidential buildings and uses shall be limited by subsections F1 and F2 of this section. Buildings taller than seventy five feet (75'), up to a maximum of one hundred twenty five feet (125'), may be authorized through the conditional building and site design review process and provided, that the proposed height is located within the one hundred twenty five foot (125') height zone of the height map of the east downtown master plan.

1. Maximum height for nonresidential buildings: Forty five feet (45').

2. Maximum floor area coverage of nonresidential uses in mixed use buildings of residential and nonresidential uses: Three (3) floors.

G. Minimum Open Space: For residential uses and mixed uses containing residential use, not less than twenty percent (20%) of the lot area shall be maintained as open space. This open space may take the form of landscape yards or plazas and courtyards, subject to site plan review approval.

H. Landscape Yards: All front and corner side yards provided shall be maintained as a landscape yard in conformance with chapter 21A.48, "Landscaping And Buffers", of this title.

I. Landscape Buffers: Where a lot in the R-MU district abuts a lot in a single-family or two-family residential district, landscape buffers shall be provided as required in chapter 21A.48, "Landscaping And Buffers", of this title.

J. Entrance And Visual Access:

1. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may approve a modification to this requirement, if the planning director finds:

a. The requirement would negatively impact the historic character of the building,

b. The requirement would negatively impact the structural stability of the building, or

c. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

2. Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on any street, if the facades for all streets meet the forty percent (40%) glass requirement as outlined in subsection J1 of this section.

3. Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

4. Screening: All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

K. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 23-10 § 3, 2010: Ord. 61-09 § 11, 2009: Ord. 3-05 § 4, 2005: Ord. 26-95 § 2(12-16), 1995)

21A.24.180: RO RESIDENTIAL/OFFICE DISTRICT:

A. Purpose Statement: The RO residential/office district is intended to provide a suitable environment for a combination of residential dwellings and office use. This district is appropriate in areas of the city where the applicable master plans support high density mixed use development. The standards encourage the conversion of historic structures to office uses for the purpose of preserving the structure and promote new development that is appropriately scaled and compatible with the surrounding neighborhood.

B. Uses: Uses in the RO residential/office district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Multi-family dwellings	No minimum	100 feet
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Offices, as specified in section 21A.24.190 of this chapter	20,000 square feet	100 feet
Offices, as specified in subsection I of this section	5,000 square feet to 20,000 square feet	50 feet
Places of worship less than 4 acres in size	12,000 square feet	80 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Single-family residences	5,000 square feet	50 feet
Two-family dwellings	8,000 square feet	50 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	20,000 square feet	100 feet

D. Maximum Building Height: The maximum building height permitted in this district is sixty feet (60') except:

1. The height for single-family dwellings and two-family dwellings shall be thirty feet (30'); and

2. If the property abuts a zoning district with a greater maximum building height, then the maximum height in the RO district shall be ninety feet (90').

E. Minimum Yard Requirements:

1. Multi-Family Dwellings And Offices On Greater Than Twenty Thousand Square Foot Lot Area:

a. Front Yard: Twenty five feet (25').

b. Corner Side Yard: Twenty five feet (25').

c. Interior Side Yard: Fifteen feet (15').

d. Rear Yard: The rear yard shall be twenty five percent (25%) of the lot depth, but need not exceed thirty feet (30').

2. Single-Family, Two-Family Dwellings, And Offices On Lots Less Than Twenty Thousand Square Feet:

a. Front Yard: Twenty feet (20').

b. Corner Side Yard: Ten feet (10').

c. Interior Side Yard:

(1) Corner lots: Ten feet (10').

(2) Interior lots: Four feet (4') on one side and ten feet (10') on the other.

d. Rear Yard: The rear yard shall be twenty five percent (25%) of the lot depth, but need not exceed thirty feet (30').

3. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

F. Required Landscape Yards: The front yard, corner side and, for interior lots, one of the interior side yards shall be maintained as a landscape yard.

G. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed sixty percent (60%) of the lot area.

H. Landscape Buffers: Where a lot in the RO district abuts a lot in a single-family or two-family residential district, a landscape buffer shall be provided in accordance with chapter 21A.48 of this title.

I. Offices In Existing Buildings On Lots Less Than Twenty Thousand Square Feet: Offices occupying existing buildings are permitted on a five thousand (5,000) square foot minimum lot. Additions to existing buildings that are greater than fifty percent (50%) of the existing building footprint or that exceed the height of the existing building shall be subject to conditional building and site design review. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 61-09 § 12, 2009: Ord. 19-01 §§ 1 - 5, 2001: Ord. 26-95 § 2(12-17), 1995)

21A.24.190: TABLE OF PERMITTED AND CONDITIONAL USES FOR RESIDENTIAL DISTRICTS:

Legend:	C =	Conditional	P =	Permitted

	Permitted And Conditional Uses, By District Residential Districts

Veterinary offices																		P[3]	P[6]
Wireless telecommunications facilities (see section 21A.40.090, table 21A.40.090E of this title)																			

Qualifying provisions:
1.A single apartment unit may be located above first floor retail/office.
2.Provided that no more than 2 two-family buildings are located adjacent to one another and no more than 3 such dwellings are located along the same block face (within subdivisions approved after April 12, 1995).
3.Subject to conformance with the provisions of subsection 21A.24.170E of this chapter.
4.Construction for a nonresidential use shall be subject to all provisions of subsections 21A.24.160I and J of this chapter.
5.See subsection 21A.02.050B of this title for utility regulations.
6.Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to a conditional building and site design review.
7.Subject to conformance to the provisions in section 21A.02.050 of this title.
8.Subject to conformance with the provisions of subsection 21A.24.010T of this chapter.
9.Subject to conformance with the provisions of section 21A.36.300, "Alcohol Related Establishments", of this title.
10.In areas zoned as residential business (RB), the total square footage, including patio space, of businesses that serve alcoholic beverages as a primary revenue source shall not exceed 2,200 square feet in total. Total square footage will include a maximum 1,750 square feet of floor space within a business and a maximum of 450 square feet in an outdoor patio area.

(Ord. 15-13, 2013: Ord. 65-12, 2012)

CHAPTER 21A.26
COMMERCIAL DISTRICTS

21A.26.010: GENERAL PROVISIONS:

A. Statement Of Intent: Salt Lake City commercial districts are intended to enhance the economic vitality of the specific commercial districts and the city as a whole, encourage sustainable and profitable businesses, create dynamic and vital business districts, and implement the adopted development policies of the city. The zoning districts differ in the range and intensity of uses to reflect the diverse nature of the commercial areas within the city. Some zoning districts encourage commercial development that supports residential neighborhoods while other zoning districts promote community and regional commercial areas. Each zoning district includes standards and land uses that are intended to provide certainty to property owners, business owners and neighbors about what is allowed and to enhance employment opportunities, encourage efficient use of land and to enhance property values and the tax base. The standards are intended to allow development flexibility within parameters that support the purpose statement of the individual zoning districts and promote the desired character for the commercial area.

B. Site Plan Review: In certain districts, permitted uses and conditional uses have the potential for adverse impacts if located and laid out without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. Site plan review is required for all conditional uses, and all permitted uses except single-family dwellings, two-family dwellings and twin homes. All uses in these districts shall be subject to the site plan review regulations contained in chapter 21A.58 of this title.

C. Impact Controls And General Restrictions In The Commercial Districts:

1. Refuse Control: Temporary storage of refuse materials shall be limited to that produced on the premises. Refuse containers must be covered and shall be stored within completely enclosed buildings or screened in conformance with the requirements of chapter 21A.48 of this title. For buildings existing as of April 12, 1995, this screening provision shall be required if the floor area or parking requirements are increased by twenty five percent (25%) or more by an expansion to the building or change in the type of land use.

2. Lighting: On site lighting shall be located, directed or designed in such a manner as to contain and direct light and glare to the property on which it is located only.

3. Outdoor Sales, Display Or Storage: "Outdoor storage" and "outdoor sales and display", as defined in chapter 21A.62 of this title, are allowed where specifically authorized in the table of permitted and conditional uses in section 21A.26.080 of this chapter. These uses shall also conform to the following:

   a. The outdoor sales or display of merchandise shall not encroach into areas of required parking;

   b. The outdoor sales or display of merchandise shall not be located in any required yard area within the lot;

   c. The outdoor sales or display of merchandise shall not include the use of banners, pennants, or strings of pennants;

   d. Outdoor storage shall be required to be fully screened with opaque fencing not to exceed seven feet (7) in height; and

   e. Outdoor sales and display and outdoor storage shall also be permitted when part of an authorized temporary use as established in chapter 21A.42 of this title.

D. Permitted Uses: The uses specified as permitted uses in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter are permitted provided that they comply with all requirements of this chapter, the general standards set forth in part IV of this title, and all other applicable requirements of this title.

E. Conditional Uses: The uses specified as conditional uses in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter shall be allowed in the commercial districts provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title.

F. Accessory Uses, Buildings And Structures: Accessory uses and structures are permitted in the commercial districts subject to the requirements of this chapter, subsection 21A.36.020B, section 21A.36.030, and chapter 21A.40 of this title.

G. Off Street Parking And Loading: The parking and loading requirements for the commercial districts are set forth in chapter 21A.44 of this title.

H. Landscaping And Buffering: The landscaping and buffering requirements for the commercial districts shall be as specified in chapter 21A.48, including section 21A.48.110, of this title.

I. Signs: Signs shall be allowed in the commercial districts in accordance with provisions of chapter 21A.46 of this title.

J. Modifications To Maximum Height: Additions to the maximum height due to the natural topography of the site may be approved pursuant to the following procedures and standards:

1. Modifications Of Ten Percent Or Less Of Maximum Height:

   a. The planning commission may approve, as a special exception, additional height not exceeding ten percent (10%) of the maximum height pursuant to the standards and procedures of chapter 21A.52 of this title. Specific conditions for approval are found in chapter 21A.52 of this title.

2. Modifications Of More Than Ten Percent Of Maximum Height:

   a. Conditional Building And Site Design Review: Through conditional building and site design review for properties on a sloping lot in commercial zoning districts, pursuant to chapter 21A.59 of this title, the planning commission, or in the case of an administrative approval the planning director or designee, may allow additional building height of more than ten percent (10%) of the maximum height, but not more than one additional story, if the first floor of the building exceeds twenty thousand (20,000) square feet. The additional story shall not be exposed on more than fifty percent (50%) of the total building elevations.

K. Bed And Breakfast Establishments And Reception Centers In Landmark Sites In The CN Neighborhood Commercial And CB Community Business Districts:

1. Conditional Use Required: Where not otherwise authorized by this title and after conditional use approval by the planning commission pursuant to chapter 21A.54 of this title, landmark sites in a CN or CB district may be used for a bed and breakfast establishment or reception center subject to the following standards:

   a. Standards: In addition to the standards for conditional uses, section 21A.54.080 of this title, the planning commission shall find the following:

      (1) The structure is designated as a landmark site on the Salt Lake City register of cultural resources. The designation process must be completed prior to the city accepting a conditional use application for the structure unless the planning director determines that it is in the best interest of the city to process the designation and conditional use applications at the same time because of the risk of probable demolition;

      (2) The use is conducive to the preservation of the landmark site;

      (3) The use is compatible with the surrounding residential neighborhood; and

      (4) The use does not result in the removal of residential characteristics of the structure (if the structure is a residential structure), including mature landscaping.

   b. Condition Of Approval: A preservation easement in favor of the city shall be placed upon the landmark site. (Ord. 15-13, 2013: Ord. 73-11, 2011: Ord. 12-11, 2011: Ord. 35-99 §§ 22, 23, 1999: Ord. 88-95 (Exh. A), 1995: Ord. 26-95 § 2(13-0), 1995)

21A.26.020: CN NEIGHBORHOOD COMMERCIAL DISTRICT:

A. Purpose Statement: The CN neighborhood commercial district is intended to provide for small scale, low intensity commercial uses that can be located within and serve residential neighborhoods. This district is appropriate in areas where supported by applicable master plans and along local streets that are served by multiple transportation modes, such as pedestrian, bicycle, transit and automobiles. The standards for the district are intended to reinforce the historic scale and ambiance of traditional neighborhood retail that is oriented toward the pedestrian while ensuring adequate transit and automobile access. Uses are restricted in size to promote local orientation and to limit adverse impacts on nearby residential areas.

B. Uses: Uses in the CN neighborhood commercial district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.36.010 of this title and this section.

C. Planned Development Review: Planned developments, which meet the intent of the ordinance, but not the specific design criteria outlined in the following subsections, may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Lot Size Requirements: No minimum lot area or lot width is required. No lot shall be larger than sixteen thousand five hundred (16,500) square feet.

E. Maximum District Size: The total area of a contiguously mapped CN district shall not exceed ninety thousand (90,000) square feet, excluding all land in public rights of way.

F. Minimum Yard Requirements:

1. Front Or Corner Side Yard: A fifteen foot (15') minimum front or corner side yard shall be required. Exceptions to this requirement may be authorized as conditional building and site design review, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission.

2. Interior Side Yard: None required.

3. Rear Yard: Ten feet (10').

4. Buffer Yards: Any lot abutting a lot in a residential district shall conform to the buffer yard requirements of chapter 21A.48 of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

6. Maximum Setback: A maximum setback is required for at least sixty five percent (65%) of the building facade. The maximum setback is twenty five feet (25'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of the ordinance.

Appeal of administrative decision is to the planning commission.

7. Parking Setback: Surface parking is prohibited in a front or corner side yard. Surface parking lots within an interior side yard shall maintain a thirty foot (30') landscape setback from the front property line or be located behind the primary structure. Parking structures shall maintain a forty five foot (45') minimum setback from a front or corner side yard property line or be located behind the primary structure. There are no minimum or maximum setback restrictions on underground parking. The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of the ordinance.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Appeal of administrative decision is to the planning commission.

G. Landscape Yard Requirements: Front and corner side yards shall be maintained as landscape yards. Subject to site plan review approval, part or all of the landscape yard may be a patio or plaza, conforming to the requirements of section 21A.48.090 of this title.

H. Maximum Height: Twenty five feet (25').

I. Entrance And Visual Access:

1. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

a. The requirement would negatively impact the historic character of the building, or

b. The requirement would negatively impact the structural stability of the building.

Appeal of administrative decision is to the planning commission.

2. Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on any street, if the facades for all streets meet the forty percent (40%) glass requirement as outlined in subsection I1 of this section.

3. Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

4. Screening: All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

J. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for the parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 15-13, 2013: Ord. 59-12, 2012: Ord. 23-10 § 4, 2010: Ord. 61-09 § 14, 2009: Ord. 3-05 § 5, 2005: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(13-1), 1995)

21A.26.025: SNB SMALL NEIGHBORHOOD BUSINESS DISTRICT:

A. Purpose Statement: The purpose of the small neighborhood business zoning district is to provide areas for small commercial uses to be located adjacent to residential land uses, including midblock. This district will preserve and enhance older commercial structures and storefront character by allowing a variety of commercial uses and placing more strict regulations on new construction and major additions to existing buildings. The regulations are intended to restrict the size and scale of the commercial uses in order to mitigate negative impacts to adjacent residential development and encourage pedestrian oriented development. This zoning district is appropriate in places where it is supported by a community master plan, small area master plan or other adopted city policies.

B. Uses: Uses in the SNB small neighborhood business district as specified in the table of permitted and conditional uses:

PERMITTED AND CONDITIONAL USES, BY
DISTRICT RESIDENTIAL DISTRICTS

Legend:

C =	Conditional	P =	Permitted

Use	SNB
Residential:	
Accessory guest and servants' quarters	
Accessory uses on accessory lots	
Assisted living facility, large	
Assisted living facility, small	P
Dormitories, fraternities, sororities (see section 21A.36.150 of this title)	
Group home, large (see section 21A.36.070 of this title)	
Group home, small (see section 21A.36.070 of this title)	P
Manufactured home	P
Mixed use developments, including residential and other uses allowed in the zoning district	P[1]
Multiple-family dwellings	P
Nursing care facility (see section 21A.36.060 of this title)	
Resident healthcare facility (see section 21A.36.040 of this title)	
Residential substance abuse treatment home, large	
Residential substance abuse treatment home, small	
Rooming (boarding) house	
Single-family attached dwellings	P
Single-family detached dwellings	P
Transitional treatment home, large (see section 21A.36.090 of this title)	
Transitional treatment home, small (see section 21A.36.090 of this title)	
Transitional victim home, large (see section 21A.36.080 of this title)	
Transitional victim home, small (see section 21A.36.080 of this title)	
Twin home dwellings	P
Two-family dwellings	P
Office and related uses:	
Financial institutions with drive-through facilities	
Financial institutions without drive-through facilities	
Medical and dental clinics and offices	
Municipal service uses, including city utility uses and police and fire stations	C
Offices, excluding medical and dental clinics and offices	P
Recreation, cultural and entertainment:	
Art galleries	P
Art studio	P
Community and recreation centers, public and private on lots less than 4 acres in size	
Community gardens as defined in chapter 21A.62 of this title and as regulated by subsection 21A.24.010Q of this title	P
Live performance theaters	

Movie theaters	
Natural open space and conservation areas on lots less than 4 acres in size	P
Parks and playgrounds, public and private, less than 4 acres in size	
Pedestrian pathways, trails and greenways	P
Social clubs/tavern/brewpub; 2,500 square feet or less in floor area	
Studio, dance, music, art classes type	P
Retail sales and service:	
"Gas station" (may include accessory convenience retail and/or minor repairs) as defined in chapter 21A.62 of this title	
Health and fitness facility	P
Restaurants, without drive-through facilities	
Retail goods establishments	P[2]
Retail service establishments	P[2]
Institutional:	
Adult daycare center	
Child daycare center	
Daycare, registered home daycare or preschool	P
Governmental uses and facilities	C
Library	C
Museum	P
Places of worship on lots less than 4 acres in size	C
School, music conservatory	
Schools, professional and vocational	
Seminaries and religious institutes	C
Commercial:	
Laboratory, medical, dental, optical	
Plant and garden shop, with outdoor retail sales area	P
Miscellaneous:	
Accessory uses, except those that are otherwise specifically regulated in this chapter, or elsewhere in this title	P
Bed and breakfast (in landmark site)	P
Bed and breakfast inn	
Bed and breakfast manor	
Crematorium	
Farmers' market	
Funeral home	
House museum in landmark sites (see subsection 21A.24.010T of this title)	C
Offices and reception centers in landmark sites (see subsection 21A.24.010T of this title)	C
Park and ride parking, shared with church parking lot on arterial street	
Parking, off site (to support nonconforming uses)	
Parking, off site facilities (accessory to permitted uses)	
Public/private utility buildings and structures	P[3]
Public/private utility transmission wires, lines, pipes and poles[5]	P
Reuse of church and school buildings	
Veterinary offices	
Wireless telecommunications facilities (see section 21A.40.090, table 21A.40.090E of this title)	C

Qualifying provisions:
1. Residential units may be located above or below first floor retail/office.
2. Construction for a nonresidential use shall be subject to all provisions of subsections 21A.24.160I and J of this title.
3. See subsection 21A.02.050B of this title for utility regulations.

C. Conditional Building And Site Design Review:

1. Projects which meet the intent of this section, but not the specific design criteria outlined in the following subsections, may be approved by the planning commission pursuant to the provisions of chapter 21A.59 of this title.

D. Minimum Lot Area And Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Dwelling unit, located above first floor retail or office uses	Included in principal use	Included in principal use
Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
Natural open space and conservation areas, public and private	No minimum	No minimum
Places of worship less than 4 acres in size	5,000 square feet	50 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility transmission wires, lines, pipes and poles	No minimum	No minimum
Retail goods establishments, when located within an existing building originally designed for residential use	5,000 square feet	50 feet
Retail service establishments, when located within an existing building originally designed for residential use	5,000 square feet	50 feet
Single-family detached dwellings	5,000 square feet	50 feet
Two-family dwellings	8,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.24.190 of this title	5,000 square feet	50 feet

E. Maximum District Size:

1. Sixteen thousand (16,000) square feet.

F. Yard Requirements:

1. Front And Corner Side Yard: Front and corner side yard setbacks shall be equal to the required yard areas of the abutting zoning district along the block face. When the property abuts more than one zone the more restrictive requirement shall apply.

2. Interior Side Yard: Interior side yard equal to the required yard areas of the abutting zoning district along the block face. When the property abuts more than one zone the more restrictive requirement shall apply.

3. Rear Yard: Rear yard setbacks shall be equal to the required yard areas of the abutting zoning district along the block face. When the property abuts more than one zoning district the more restrictive requirement shall apply.

4. Buffer Yards: Any lot abutting a lot in a residential district shall conform to the buffer yard requirements of chapter 21A.48, "Landscaping And Buffers", of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

6. Parking In Required Yard Area: No parking is allowed within the front or corner side yard.

G. Landscape Yard Requirements:

1. Front and corner side yards shall be maintained as landscape yards. Subject to site plan review approval, part or the entire landscape yard may be a patio or plaza, conforming to the requirements of section 21A.48.090 of this title.

H. Maximum Height:

1. Twenty five feet (25'). However, in no instance shall the height exceed the maximum height of any abutting residential zoning district along the block face.

I. Maximum Height Of Accessory Structures:

1. Refer to subsection 21A.40.050C of this title.

J. Hours Of Operation:

1. Businesses in the SNB zone shall be open to the general public no earlier than seven o'clock (7:00) A.M. and no later than ten o'clock (10:00) P.M.

K. Minimum First Floor Glass:

1. The first floor elevation of all new facades facing a street, or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. The window face of display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title. The planning director may approve a modification to this requirement if the planning director finds:

a. The requirement would negatively impact the historic character of the building, or

b. The requirement would negatively impact the structural stability of the building.

c. This requirement would not be required for first floor residential development.

L. Facade Articulation:

1. Structures of greater than thirty feet (30') in width shall consist of one of the following design features:

a. The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall not exceed seventy five percent (75%) of the building facade.

b. Changes of color, texture, or material, either horizontally or vertically, at intervals of not less than ten feet (10') and not more than twenty feet (20').

c. A repeating pattern of wall recesses and projections, such as bays, offsets, reveals or projecting ribs, that has a relief of at least eight inches (8").

M. Primary Entrance Design:

1. Primary entrance design shall consist of at least three (3) of the following design elements at the primary entrance, so that the primary entrance is architecturally prominent and clearly visible from the abutting street. Alternatives to these standards may be reviewed by the planning director:

a. Architectural details such as arches, friezes, tile work, canopies, or awnings.

b. Integral planters or wing walls that incorporate landscape or seating.

c. Enhanced exterior light fixtures such as wall sconces, light coves with concealed light sources, or decorative pedestal lights.

d. A repeating pattern of pilasters projecting from the facade wall by a minimum of eight inches (8") or architectural or decorative columns.

e. Recessed entrances that include a minimum step back of two feet (2') from the primary facade and that include glass on the sidewalls.

f. All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building. Refer to section 21A.48.120 of this title for refuse dumpster screening requirements.

N. Exterior Lighting:

1. Exterior lighting for structures in the SNB zone shall have the following qualities in addition to lighting requirements found in subsection 21A.24.010K of this title.

a. Exterior lighting shall be down directed and shielded from adjacent properties.

b. All exterior and interior lighting features that are readily visible from the exterior shall not strobe, flash, or flicker.

O. New Nonresidential Construction:

1. Construction of a new principal building, parking lot or addition to an existing building for a nonresidential use that includes the demolition of a commercial structure or a structure containing residential units may only be approved through a conditional building and site design review process pursuant to chapter 21A.59 of this title and subject to the design standards of subsection I of this section; provided, that in such cases the planning commission finds that the applicant has adequately demonstrated the following:

a. The replacement use for properties containing residential units will include an equal or greater number of residential units; and

b. The structure is isolated from other structures and does not relate to other structures within the residential-business neighborhood. For purpose of this section, an isolated structure is a structure that does not meet the development pattern of the block face or block faces for corner properties; and

c. The design and condition of the structure is such that it does not make a material contribution to the character of the neighborhood. A structure is considered to make a material contribution when it is similar in scale, height, width, and solid to void ratio of openings in the principal street facing facade.

P. Enlargement Of A Structure: The enlargement by square footage of an existing structure may be approved by an administrative hearing officer only if all of the following conditions are met:

1. Use is permitted in the zone.

2. The proposed use is compatible to the neighborhood in terms of development intensity, building configuration, building height, and building bulk.

3. The traffic generated by the proposed expansion is similar to that generated by the existing use or off street parking is available for the additional square footage.

4. The use will not be detrimental to the existing character of development in the immediate neighborhood or endanger the public health, safety, or general welfare. (Ord. 64-12, 2012: Ord. 59-12, 2012)

21A.26.030: CB COMMUNITY BUSINESS DISTRICT:

A. Purpose Statement: The CB community business district is intended to provide for the close integration of moderately sized commercial areas with adjacent residential neighborhoods. The design guidelines are intended to facilitate retail that is pedestrian in its orientation and scale, while also acknowledging the importance of transit and automobile access to the site.

B. Uses: Uses in the CB community business district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Planned Development Review: Planned developments, which meet the intent of the ordinance, but not the specific design criteria outlined in the following subsections, may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Lot Size Requirements: No minimum lot area or lot width is required, however any lot exceeding four (4) acres in size shall be allowed only through the conditional building and site design review process.

E. Maximum Building Size: Any building having a fifteen thousand (15,000) gross square foot floor area of the first floor or a total floor area of twenty thousand (20,000) gross square feet or more, shall be allowed only through the conditional building and site design review process. An unfinished basement used only for storage or parking shall be allowed in addition to the total square footage.

F. Minimum Yard Requirements:

1. Front Or Corner Side Yard: No minimum yard is required. If a front yard is provided, it shall comply with all provisions of this title applicable to front or corner side yards, including landscaping, fencing, and obstructions.

2. Interior Side Yard: None required.

3. Rear Yard: Ten feet (10').

4. Buffer Yards: Any lot abutting a lot in a residential district shall conform to the buffer yard requirements of chapter 21A.48 of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

6. Maximum Setback: A maximum setback is required for at least seventy five percent (75%) of the building facade. The maximum setback is fifteen feet (15'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of the ordinance.

Appeal of administrative decision is to the planning commission.

7. Parking Setback: Surface parking is prohibited in a front or corner side yard. Surface parking lots within an interior side yard shall maintain a twenty foot (20') landscape setback from the front property line or be located behind the primary structure. Parking structures shall maintain a thirty five foot (35') minimum setback from a front or corner side yard property line or be located behind the primary structure. There are no minimum or maximum setback restrictions on underground parking. The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of the ordinance.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Appeal of administrative decision is to the planning commission.

G. Landscape Yard Requirements: If a front or corner side yard is provided, such yard shall be maintained as a landscape yard. The landscape yard can take the form of a patio or plaza, subject to site plan review approval.

H. Maximum Height: Thirty feet (30').

I. Entrance And Visual Access:

1. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

a. The requirement would negatively impact the historic character of the building,

b. The requirement would negatively impact the structural stability of the building, or

c. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

2. Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on any street, if the facades for all streets meet the forty percent (40%) glass requirement as outlined in subsection I1 of this section.

3. Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

4. Screening: All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

J. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for the parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 15-13, 2013)

21A.26.040: CS COMMUNITY SHOPPING DISTRICT:

A. Purpose Statement: The purpose of the CS community shopping district is to provide an environment for vibrant, efficient and attractive shopping center development at a community level scale while promoting compatibility with adjacent neighborhoods through design standards. This district provides economic development opportunities through a mix of land uses, including retail sales and services, entertainment, office and residential. This district is appropriate in areas where supported by applicable master plans, along city and state arterial streets and where the mass and scale of development is compatible with adjacent land uses. Development is intended to be oriented toward the pedestrian while accommodating other transportation modes.

B. Uses: Uses in the CS community shopping district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Planned Development Review: All new construction of principal buildings, uses, or additions that increases the floor area and/or parking requirement by twenty five percent (25%) in the CS community shopping district may be approved only as a planned development in conformance with the provisions of chapter 21A.55 of this title.

D. Minimum Lot Size:

1. Minimum lot area: Sixty thousand (60,000) square feet, excluding shopping center pad sites.

2. Minimum lot width: One hundred fifty feet (150').

E. Minimum Yard Requirements:

1. Front And Corner Side Yard: Thirty feet (30').

2. Interior Side Yard: Fifteen feet (15').

3. Rear Yard: Thirty feet (30').

4. Buffer Yards: All lots abutting property in a residential district shall conform to the buffer yard requirements of chapter 21A.48 of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

F. Landscape Yard Requirements: A landscape yard of fifteen feet (15') shall be required on all front and corner side yards, conforming to the requirements of section 21A.48.090 of this title.

G. Maximum Height: No building shall exceed forty five feet (45').

H. Access Restrictions: To maintain safe traffic conditions, lots in the CS community shopping district shall not exceed one driveway per one hundred fifty feet (150') of frontage on arterial or major collector streets. The location of driveways shall be subject to review by the development review team through the site plan review process.

I. Effect Of Planned Development On Minimum Standards: Pursuant to chapter 21A.55 of this title, the planning commission may modify the standards set forth in subsections D through H of this section in the approval of planned developments within this district. (Ord. 12-11, 2011: Ord. 23-10 § 6, 2010: Ord. 61-09 § 16, 2009: Ord. 35-99 § 24, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(13-3), 1995)

21A.26.050: CC CORRIDOR COMMERCIAL DISTRICT:

A. Purpose Statement: The purpose of the CC corridor commercial district is to provide an environment for efficient and attractive commercial development with a local and regional market area along arterial and major collector streets while promoting compatibility with adjacent neighborhoods through design standards. This district provides economic development opportunities through a mix of land uses, including retail sales and services, entertainment, office and residential. Safe, convenient and inviting connections that provide access to businesses from public sidewalks, bike paths and streets are necessary. Access should follow a hierarchy that places the pedestrian first, bicycle second and automobile third. This district is appropriate in areas where supported by applicable master plans. The standards are intended to promote a safe and aesthetically pleasing environment to all users.

B. Uses: Uses in the CC corridor commercial district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Minimum Lot Size:

1. Minimum lot area: Ten thousand (10,000) square feet.

2. Minimum lot width: Seventy five feet (75').

D. Minimum Yard Requirements:

1. Front And Corner Side Yards: Fifteen feet (15').

2. Interior Side Yards: None required.

3. Rear Yards: Ten feet (10').

4. Buffer Yards: All lots abutting property in a residential district shall conform to the buffer yard requirement of chapter 21A.48 of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

E. Landscape Yard Requirements: A landscape yard of fifteen feet (15') shall be required on all front and corner side yards, conforming to the requirements of section 21A.48.090 and subsection 21A.48.100C of this title.

F. Maximum Height: No building shall exceed thirty feet (30'). Buildings higher than thirty feet (30') may be allowed in accordance with the provisions of subsections F1 and F2 of this section.

1. Procedure For Modification: A modification to the height regulations in this subsection F may be granted through the conditional building and site design review process in conformance with the provisions of chapter 21A.59 of this title. In evaluating an application submitted pursuant to this section, the planning commission shall find that the increased height will result in improved site layout and amenities.

2. Landscaping: If an additional floor is approved, increased landscaping shall be provided over and above that which is normally required for landscape yards, landscape buffer yards, and parking lot perimeter and interior landscaping. The amount of increased landscaping shall be equal to ten percent (10%) of the area of the additional floor.

3. Maximum Additional Height: Additional height shall be limited to fifteen feet (15'). (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 61-09 § 17, 2009: Ord. 3-01 § 1, 2001: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(13-4), 1995)

21A.26.060: CSHBD SUGAR HOUSE BUSINESS DISTRICT (CSHBD1 AND CSHBD2):

In this chapter and the associated zoning map, the CSHBD zone is divided into two (2) subareas for the purpose of defining design criteria. In other portions of this text, the CSHBD1 and CSHBD2 zones are jointly referred to as the CSHBD zone because all other standards in the zoning ordinance are the same.

A. Purpose Statement: The purpose of the CSHBD Sugar House business district is to promote a walkable community with a transit oriented, mixed use town center that can support a twenty four (24) hour population. The CSHBD provides for residential, commercial and office use opportunities, with incentives for high density residential land use in a manner compatible with the existing form and function of the Sugar House master plan and the Sugar House business district.

B. Uses: Uses in the CSHBD Sugar House business district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter are permitted, subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Conformance With Adopted Business District Design Guideline Handbook: All new construction of principal buildings and additions that increase the off street parking requirement shall be subject to and shall conform with the adopted business district design guidelines handbook located as an appendix section in the Sugar House master plan.

D. Conditional Building And Site Design Review: All new construction of principal buildings that exceed fifty feet (50') in height in the CSHBD1 district or thirty feet (30') in height in the CSHBD2 district or twenty thousand (20,000) square feet in size in either district shall be subject to conditional building and site design review. The planning commission has the authority to approve projects through the conditional building and site design review process. Conditional building and site design review shall be approved in conformance with the business district design guideline handbook and the provisions of chapter 21A.59 of this title.

E. Minimum Lot Size: No minimum lot area or width is required.

F. Minimum Yard Requirements:

1. Front And Corner Side Yards: No minimum yard is required.

2. Maximum Setback: The maximum setback is fifteen feet (15'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk, and/or the modification conforms with the business district design guidelines handbook. Appeal of an administrative decision is to the planning commission.

3. Interior Side Yards: None required.

4. Rear Yards: No minimum yard is required.

5. Buffer Yards: All lots abutting a lot in a residential district shall conform to the buffer yards and landscape requirements of chapter 21A.48 of this title. In addition, for those structures located on properties zoned CSHBD that abut properties in a low density, single-family residential zone, every three feet (3') in building height above thirty feet (30'), shall be required a corresponding one foot (1') setback from the property line at grade. This additional required setback area can be used for landscaping or parking.

G. Maximum Height: Maximum height limits vary, depending upon location and land use. The following regulations shall apply for each area within the CSHBD zone:

1. CSHBD1:

a. The maximum building height in the CSHBD1 zone shall not exceed thirty feet (30') for those buildings used exclusively for nonresidential purposes.

b. Additional building square footage may be obtained up to a maximum building height of one hundred five feet (105'); however, for each additional floor of nonresidential use above thirty feet (30'), one floor of residential use is required.

c. The residential component may be transferred off site to another property within the CSHBD zoning district in accordance with the provisions of subsection K of this section. If the required residential component is transferred off site, the maximum nonresidential building height allowed shall be seventy five feet (75'). Any building with a height in excess of seventy five feet (75') shall be subject to the requirements of subsection G1d of this section.

d. Maximum building height may be obtained to one hundred five feet (105') for any building subject to at least ninety percent (90%) of all parking for said building being provided as structured parking, and in the case of a nonresidential building, the developer shall provide off site residential development that is equal to or greater than the square footage of the nonresidential building that exceeds thirty feet (30') in height.

2. CSHBD2:

a. The maximum building height in the CSHBD2 zone shall not exceed thirty feet (30') for those buildings used exclusively for nonresidential purposes.

b. Additional square footage may be obtained up to a maximum building height of sixty feet (60'); however, for each additional floor of nonresidential use above thirty feet (30'), one floor of residential use is required.

c. The residential component may be transferred off site to another property within the CSHBD zoning district in accordance with the provisions of subsection K of this section. If the residential component is transferred "off site", the maximum nonresidential building height allowed shall be forty five feet (45').

d. Buildings used exclusively for residential purposes may be built to a maximum height of sixty feet (60').

3. Stepback Requirement: In the CSHBD1 and CSHBD2 zoning districts, floors rising above thirty feet (30') in height shall be stepped back fifteen (15) horizontal feet from the building foundation at grade, in those areas abutting low density, single-family residential development and/or public streets.

H. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade within the CSHBD Sugar House business district zones, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site review process subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement, if the planning director finds:

1. The requirement would negatively impact the historic character of the building; or

2. The requirement would negatively impact the structural stability of the building; or

3. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%). Appeal of administrative decision is to the planning commission.

I. Mechanical Equipment: Rooftop mechanical equipment should be screened with architecturally integrated elements of the building.

J. First Floor/Street Level Requirements: The first floor or street level space of all buildings within this area shall be required to provide uses consisting of residential, retail goods establishments, retail service establishments, public service portions of businesses, restaurants, taverns/brewpubs, social clubs, art galleries, theaters or performing art facilities.

K. Residential Requirement For Mixed Use Developments: For those mixed use developments requiring a residential component, the residential portion of the development shall be as follows:

1. Located in the same building as noted in subsection G of this section, or

2. May be located on a different property in the area zoned CSHBD. For such off site residential configuration, the amount of residential development required is equal to the total amount of square footage obtained for the nonresidential floors rising in excess of thirty feet (30'), less any square footage of the required fifteen foot (15') stepback noted in subsection G of this section. In addition, prior to the issuance of a building permit for the nonresidential structure, the applicant must identify specifically where the residential structure will be located in the area zoned CSHBD and enter into a development agreement with the city to ensure the construction of the residential structure in a timely manner. In such cases where the residential use is built off site, one of the following shall apply:

a. Construction of the off site residential use must be progressing beyond the footings and foundation stage, prior to the nonresidential portion of the development obtaining a certificate of occupancy, or

b. A financial assurance that construction of the off site residential use will commence within two (2) years of receiving a certificate of occupancy for the nonresidential component of the development. The financial assurance shall be in an amount equal to fifty percent (50%) of the construction valuation for the residential component of the development by the building official. The city shall call the financial assurance and deposit the proceeds in the city's housing trust fund if construction has not commenced within two (2) years of the issuance of the certificate of occupancy for the nonresidential component of the development. The financial assurance shall be in an amount equal to fifty percent (50%) of the construction valuation for the residential component of the development as determined by the building official. The city shall call the financial assurance and deposit the proceeds in the city's housing trust fund if construction has not commenced within two (2) years of the issuance of the certificate of occupancy for the nonresidential component of the development. (Ord. 64-12, 2012: Ord. 89-05 § 5, 2005: Ord. 35-99 §§ 25, 26, 1999: Ord. 26-95 § 2(13-5), 1995)

21A.26.070: CG GENERAL COMMERCIAL DISTRICT:

A. Purpose Statement: The purpose of the CG general commercial district is to provide an environment for a variety of commercial uses, some of which involve the outdoor display/storage of merchandise or materials. This district provides economic development opportunities through a mix of land uses, including retail sales and services, entertainment, office, residential, heavy commercial and low intensities of manufacturing and warehouse uses. This district is appropriate in locations where supported by applicable master plans and along major arterials. Safe, convenient and inviting connections that provide access to businesses from public sidewalks, bike paths and streets are necessary. Access should follow a hierarchy that places the pedestrian first, bicycle second and automobile third. The standards are intended to create a safe and aesthetically pleasing commercial environment for all users.

B. Uses: Uses in the CG general commercial district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Minimum Lot Size:

1. Minimum Lot Area: Ten thousand (10,000) square feet.

2. Minimum Lot Width: Sixty feet (60').

3. Existing Lots: Lots legally existing prior to April 12, 1995, shall be considered legal conforming lots.

D. Minimum Yard Requirements:

1. Front Yard: Ten feet (10').

2. Corner Side Yard: Ten feet (10').

3. Interior Side Yard: None required.

4. Rear Yard: Ten feet (10').

5. Buffer Yard: All lots abutting residential property shall conform to the buffer yard requirements of chapter 21A.48 of this title.

6. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

E. Landscape Yard Requirements: A landscape yard of ten feet (10') shall be required on all front or corner side yards, conforming to the requirements of section 21A.48.090 of this title.

F. Maximum Height: No building shall exceed sixty feet (60'). Buildings higher than sixty feet (60') may be allowed in accordance with the provisions of subsections F1 and F2 of this section.

1. Procedure For Modification: A modification to the height regulations in this subsection F may be granted through the conditional building and site design review process in conformance with the provisions of chapter 21A.59 of this title. In evaluating an application submitted pursuant to this section, the planning commission or in the case of an administrative approval the planning director or designee, shall find that the increased height will result in improved site layout and amenities.

2. Landscaping: If additional floors are approved, increased landscaping shall be provided over and above that which is normally required for landscape yards, landscape buffer yards, and parking lot perimeter and interior landscaping. The amount of increased landscaping shall be equal to ten percent (10%) of the area of the additional floors.

3. Maximum Additional Height: Additional height shall be limited to thirty feet (30'). (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 61-09 § 18, 2009: Ord. 3-01 § 2, 2001: Ord. 35-99 § 27, 1999: Ord. 26-95 § 2(13-6), 1995)

21A.26.077: TC-75 TRANSIT CORRIDOR DISTRICT:

A. Purpose Statement: The purpose of the TC-75 transit corridor district is to create transit oriented neighborhoods near stations along major transit corridors with a high residential density that promotes commercial and economic growth, increases transit ridership and improves the vitality of the community. The primary focus is to increase residential density through development that takes advantage of the proximity to transit and creates a sustainable, transit oriented neighborhood. The standards for the district are intended to create a pedestrian friendly environment and to emphasize that pedestrian and mass transit access is the primary focus of development.

B. Uses: Uses in the TC-75 transit corridor district as specified in section 21A.26.080, "Table Of Permitted And Conditional Uses For Commercial Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.26.010 of this chapter and this section.

C. Planned Development Review: Planned developments, which meet the intent of this section, but not the specific design criteria outlined in the following subsections may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Minimum Lot Size:

1. Minimum lot area: Ten thousand (10,000) square feet.

2. Minimum lot width: Fifty feet (50').

E. Minimum Yard Requirements:

1. Front And Corner Side Yards: Fifteen feet (15'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. Exceptions to the minimum setback are limited to the two (2) lower levels of the building only; the main tower of the building must maintain the minimum setback. Exceptions are limited to structural elements that enhance the pedestrian experience of the space such as, but not limited to, patio covers, building entry canopies, etc.

2. Interior Side Yards: None required.

3. Rear Yards: None required.

4. Buffer Yards: All lots abutting property in a residential district shall conform to the buffer yard requirement of chapter 21A.48 of this title.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.

6. Maximum Building Setback: Twenty five feet (25'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The majority of the ground level facade of a building shall be placed parallel, and not at an angle, to the street. Where an arcade facing the street is provided, the maximum setback for the building shall be measured to the supporting beams for the arcade or the facade of the upper floors, not the facade of the arcade level. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of this section.

Any appeal of an administrative decision made pursuant to this subsection E6 may be made to the planning commission.

F. Landscape Yard Requirements: A landscape yard of fifteen feet (15') shall be required on all front and corner side yards, conforming to the requirements of section 21A.48.090 and subsection 21A.48.100C of this title, except as authorized through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

G. Maximum Nonresidential Building Height: The maximum building height in the TC-75 zoning district shall not exceed thirty feet (30') for those buildings used exclusively for nonresidential purposes.

1. Additional building square footage may be allowed up to a maximum building height of seventy five feet (75') (or to a building height of 125 feet through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title and conformity with applicable master plan policy) provided that for each additional floor of nonresidential use above thirty feet (30'), the equivalent amount of square footage, inclusive of the first thirty feet (30'), is required to be built as residential square footage.

2. The residential component may be transferred off site to another property in the TC-75 zoning district along the 400 South Street frontage generally located between 200 East and 925 East. For such off site residential configuration, the amount of residential development required is equal to the square footage of the total amount of square footage obtained for the nonresidential floors rising in the total project.

3. For those developments where the required residential component is transferred off site, prior to the issuance of a building permit for the nonresidential structure, the applicant must identify specifically where the residential structure will be located in the area zoned TC-75 along the 400 South Street corridor generally located between 200 East and 900 East and enter into a development agreement with the city to ensure the construction of the residential structure in a timely manner. In such cases where the residential use is built off site, one of the following shall apply:

a. Construction of the off site residential use must be progressing beyond the footings and foundation stage, prior to the nonresidential portion of the development obtaining a certificate of occupancy, or

b. A financial assurance that construction of the off site residential use will commence within two (2) years of receiving a certificate of occupancy for the nonresidential component of the development. The financial assurance shall be in an amount equal to fifty percent (50%) of the construction valuation for the residential component of the development as determined by the building official. The city shall call the financial assurance and deposit the proceeds in the city's housing trust fund if construction has not commenced within two (2) years of the issuance of the certificate of occupancy for the nonresidential component of the development.

4. Maximum building height may be obtained to one hundred twenty five feet (125') for any building subject to at least ninety percent (90%) of all parking for said building being provided as structured parking.

H. Maximum Residential Building Height: No residential building, or mixed use building shall exceed seventy five feet (75') in height. Building heights in excess of seventy five feet (75'), but not more than one hundred twenty five feet (125') may be approved through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title and conformity with applicable master plan policy.

1. Maximum building height may be obtained to one hundred twenty five feet (125') where at least ninety percent (90%) of all parking for said building is provided as structured parking.

2. The ground floor shall include either nonresidential uses or public service portions of residential buildings.

I. Restrictions On Parking Lots And Structures: The following regulations shall apply to surface or aboveground parking facilities:

1. Block Corner Areas: Within block corner areas, surface parking lots and structures shall be located behind principal buildings, or at least sixty feet (60') from front and corner side lot lines.

2. Mid Block Areas: Within the mid block areas, parking structures shall be located behind principal buildings, or above the first level, or at least thirty feet (30') from front and corner side lot lines. A modification to this requirement may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title. Parking structures located above the first level and less than thirty feet (30') from a front or corner side yard shall meet the following:

a. Retail goods/service establishments, offices and/or restaurants shall be provided on the first floor adjacent to the front or corner side lot line.

b. Levels of parking above the first level facing the front or corner side lot line shall have floors and/or facades that are horizontal, not sloped.

Mid block surface parking lots shall have a twenty five foot (25') landscaped setback.

3. Accessory And Commercial Parking Structures: Accessory parking structures, built prior to the principal use, and commercial parking structures, shall be permitted through the conditional building and site design review process with the approval of the planning commission pursuant to the provisions of chapter 21A.59 of this title.

4. Belowground Parking Facilities: No special design and setback restrictions shall apply to belowground parking facilities.

5. Landscape Requirements: Surface parking lots shall meet interior landscape requirements as outlined in chapter 21A.48 of this title.

6. Waiver: The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of this section.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Any appeal of an administrative decision made pursuant to this subsection I6 may be made to the planning commission.

7. Conditional Building And Site Design Review: A modification to the restrictions on parking lots and structures provisions of this section may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission.

J. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings, or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. There must be visual clearance behind the glass for a minimum of two feet (2'). All first floor glass shall be nonreflective. The reflectivity in glass shall be limited to eighteen percent (18%) as defined by ASTA standards. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

1. The requirement would negatively impact the historic character of the building, or

2. The requirement would negatively impact the structural stability of the building.

3. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Any appeal of an administrative decision made pursuant to this subsection may be made to the planning commission.

K. Doors And Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on either street, if the facades for both streets meet the forty percent (40%) glass requirement as outlined in subsection J of this section.

L. Maximum Length Of Blank Walls: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

M. Density: There is no maximum residential density. (Ord. 15-13, 2013)

21A.26.078: TSA TRANSIT STATION AREA DISTRICT:

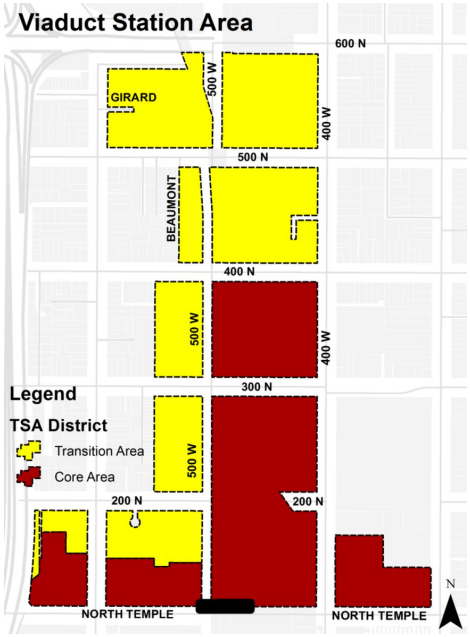
A. Purpose Statement: The purpose of the TSA transit station area district is to provide an environment for efficient and attractive transit and pedestrian oriented commercial, residential and mixed use development around transit stations. Redevelopment, infill development and increased development on underutilized parcels should include uses that allow them to function as part of a walkable, mixed use district. Existing uses that are complementary to the district, and economically and physically viable, should be integrated into the form and function of a compact, mixed use pedestrian oriented neighborhood. Each transit station is categorized into a station type. These typologies are used to establish appropriate zoning regulations for similar station areas. Each station area will typically have two (2) subsections: the core area and the transition area. Due to the nature of the area around specific stations, the restrictions of overlay zoning districts, and the neighborhood vision, not all station areas are required to have a core area and a transition area.

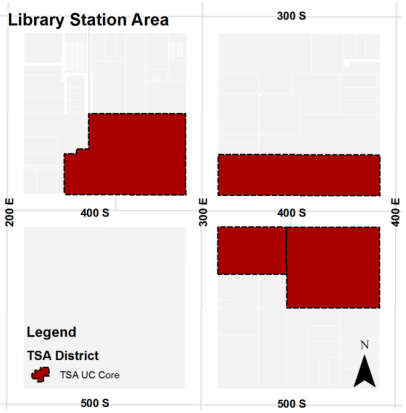
1. Core Area: The purpose of the core area is to provide areas for comparatively intense land development with a mix of land uses incorporating the principles of sustainable, transit oriented development and to enhance the area closest to a transit station as a lively, people oriented place. The core area is generally within a one-fourth ($^1/_4$) mile walk of a transit station platform. The core area may mix ground floor retail, office, commercial and residential space in order to activate the public realm. Buildings in this area should have minimal setbacks to encourage active outdoor use adjacent to the sidewalk, such as outdoor dining and patios that reflect the desired character of the area. Building facades should be varied and articulated, include storefronts adjacent to the street, windows on the street level, and have clearly defined entrances to provide visual interest to pedestrians. Buildings should be a minimum of two (2) or three (3) stories in height, depending on location, in order to define the street edge. Arcades, bays, and balconies are encouraged. The configuration of buildings must balance the needs of all modes of circulation with the safety and comfort of pedestrians and bicyclists. A vertical mix of uses, with office and residential above ground floor commercial uses is encouraged. A minimum of thirty (30) dwelling units per acre is encouraged within the core.

2. Transition Area: The purpose of the transition area is to provide areas for a moderate level of land development intensity that incorporates the principles of sustainable transit oriented development. The transition area is intended to provide an important support base to the core area and transit ridership as well as buffer surrounding neighborhoods from the intensity of the core area. These areas reinforce the viability of the core area and provide opportunities for a range of housing types at different densities. Transition areas are generally located within one-half ($^1/_2$) mile from the station platform, but may vary based on the character of the area. Transition areas typically serve the surrounding neighborhood; include a broad range of building forms that house a mix of compatible land uses. The minimum desired density is ten (10) dwelling units per acre. Commercial uses may include office, retail, restaurant and other commercial land uses that are necessary to create mixed use neighborhoods. Commercial uses can be clustered around intersections and along block faces to create neighborhood nodes.

B. Station Area Types: A station area typology is the use of characteristics, such as building types, mix of land use, transit service and street network to create generalizations about an area that can be used to define a common vision for development of a transit station area. Each typology recognizes the important difference among places and destinations and takes into account the local context of a station and its surroundings. Each station area typically will include a core area, where the most intense development will occur, and a transition area, which is intended to create a buffer area between the core and those areas with generally lower intensities and densities. Prior to classifying a transit station into a specific type, a specific area plan must be adopted by the city council prior to applying this zoning district to a geographic area. Only those stations that have an adopted plan that is supported by the regulations in this section will be classified. Refer to the official Salt Lake City zoning map to determine the zoning of the land within each station area.

1. Urban Center Station (TSA-UC): An urban center station contains the highest relative intensity level and mix of uses. The type of station area is meant to support Downtown Salt Lake and not compete with it in terms of building scale and use. The intensity level of the area is characterized by a twenty four (24) hour population, active streetscapes, defined street walls and the presence of multiple types of public transit or as a node where several rail transit lines converge. Development generally occurs on vacant parcels or through redevelopment of underutilized parcels. The station area has a compact, dense, interconnected and walkable development pattern. Large scale development occurs closer to the station platforms; and is scaled back as it gets closer to less intense areas. Building forms vary, but are typically oriented to the pedestrian, are multiple stories in height, and contain a horizontal and vertical mix of land uses. Buildings up to ten (10) stories in height are allowed in the core, while buildings in the transition zone are approximately half that size. The station area contains a number of regional attractions, such as destination retail, employment, dining and entertainment and a high level of pedestrian activity. A variety of dense housing options exist. Development includes civic amenities, such as public gathering places. Uses that help implement the vision for the station and that area commonly found in an intense urban area are appropriate. The following stations are considered an urban center type of station: North Temple Viaduct Transfer Station and the Library Station.

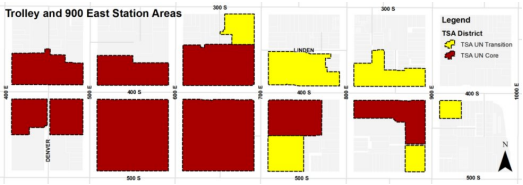




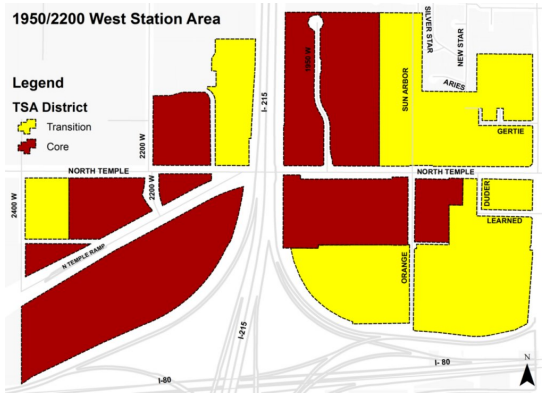
2. Urban Neighborhood Station (TSA-UN): An evolving and flexible development pattern defines an urban neighborhood station area. Development generally happens as infill on vacant parcels or redevelopment of underutilized parcels. These stations evolve in established residential areas where initial changes may add density and intensity in compact building forms that blend in with the residential character of the area. Urban neighborhoods consist of multilevel buildings that are generally lower scale than what is found in the urban center station area. The desired mix of uses would include ground floor commercial or office uses with the intent of creating a lively, active, and safe streetscape. A mix of building types are possible, ranging from single use structures to mixed use buildings. Residential uses are generally located above the first floor, although they can be located on the ground floor in certain situations. The highest residential densities and most intense land uses are generally located closest to the station platform. Urban neighborhoods are served by at least two (2) forms of transit, including light rail and bus service. The uses serve the surrounding neighborhood with nearby destinations and have the potential to attract people from other neighborhoods.

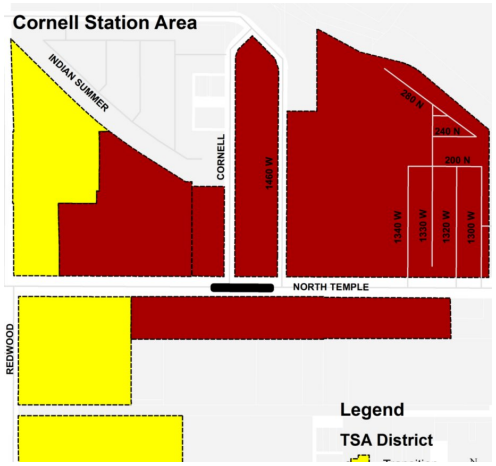
In some urban neighborhood station areas, a linear development pattern along commercial streets that intersect the transit corridor defines a neighborhood main street. Neighborhood main streets are approximately two (2) blocks long, with two (2) 4-story buildings located close to the sidewalk. The ground floors of buildings are typically occupied by active uses, such as retail or restaurants.

The following stations are considered to be urban neighborhood stations: 800 West, Trolley (600 East) and 900 East light rail stations.

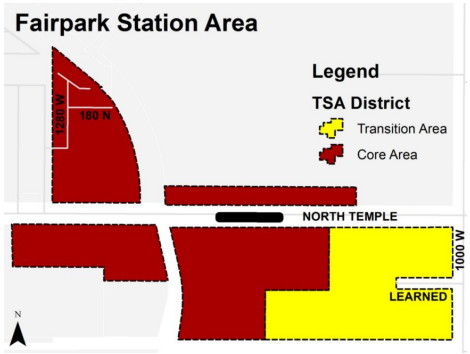


3. Mixed Use Employment Center Station (TSA-MUEC): A mixed use employment station is an area with a high concentration of jobs that attract people from the entire region. These areas generally start with a campus style development pattern and are dominated by a single type of use that generally employs a high number of people. Buildings are often large scale in nature and may have large footprints. New development occurs on vacant parcels. Redevelopment occurs on surface parking lots, underutilized land, or as additions to existing buildings as businesses expand. The primary mode of circulation is by automobile, but the area is served by at least two (2) types of mass transit which provides alternative modes of transportation for employees. Land uses that support the employment centers such as retail sales and service and restaurants are located throughout the station area and should occupy ground floor space in multi-story buildings oriented to the pedestrian and transit user. A mix of housing types and sizes are appropriate to provide employees with the choice to live close to where they work. Building types should trend toward more flexible building types over time. The area is likely to have large blocks and lacks a consistent street network. Connectivity for all modes of travel is important due to the limited street network. The following stations are considered to be mixed use employment center stations: 1950 West, 2200 West, and the Cornell light rail stations.





4. Special Purpose Station (TSA-SP): The special purpose station is typically centered on a specific land use or large scale regional activity. These areas are generally served by a mix of transit options, usually light rail or bus. New development is limited due to the nature of the primary function of the area, but redevelopment of underutilized parcels is likely to occur. Land uses such as restaurants and retail support the dominant land use and attract people to the area. A mix of housing types and sizes are appropriate in certain situations. Future development should be aimed at increasing the overall intensity and frequency of use in the station area by adding a mix of uses that can be arranged and designed to be compatible with the primary use. The following stations are considered to be special purpose stations: Fairpark light rail station.



C. Review Process: The intent of the review process is to make the process for desirable development easy to realize in a relatively quick time frame. The review process focuses on building forms and their relationship to adjacent buildings, the public street, transit and other public spaces. The review process for all new development and redevelopment within the transit station area zoning district is based on the development score which is generated by the "Transit Station Area Development Guidelines" hereby adopted by reference. The construction of new buildings require a development score. The following types of development are required to go through this review process:

Any addition of one thousand (1,000) square feet or more that extend a street facing building facade or are located to the side of a building and are visible from a public space; or

Additions that increase the height of an existing building or change the existing roofline;

Additions to the rear of buildings that are not adjacent to a public street, trail or other public space are not required to obtain a development score but must comply with all other applicable regulations. Signs, fences, accessory structures and any other structure or addition not listed in this section are not required to obtain a development score.

1. Presubmittal Conference: All applicants for development within the transit station area zoning district are required to attend a presubmittal conference with the planning division. The purpose of the presubmittal conference is to notify the applicant of the goals of the station area plans, the standards in this section, and the review and approval process.

2. Development Review Application: After a presubmittal conference, the developer can submit a development review application. This application and all submittal requirements will be used to determine the development score. The application shall include a score sheet on which the development guidelines and their assigned values are indicated and two (2) checklists: one for the applicant's use and one for the planning division's use.

3. Application Review: Table 21A.26.078C of this section summarizes the application review process. All applications shall be processed as follows:

a. Tier 1 Planning Commission Review: If a project is assigned a score less than 50 points, the project can only be approved by the planning commission through the conditional building and site design review process in chapter 21A.59 of this title. Once the applicant receives written notice of their score, they will be given thirty (30) days to notify the planning division of their intention to proceed with the project through the conditional building and site design review process or make necessary plan adjustments to increase their development score to the minimum level in order to go through an administrative hearing process.

b. Tier 2 Administrative Hearing: A project that has a development score between 50 and 99 points is eligible for an administrative hearing. Any project being reviewed at an administrative hearing shall be reviewed using the standards found in section 21A.59.060, "Standards For Design Review", of this title.

(1) Notice And Posting Requirements: Notice of the administrative hearing shall be done in accordance with subsection 21A.10.020B1, "Conditional Building And Site Design Review", of this title.

(2) Administrative Hearing: After consideration of the information received from the applicant and any other interested party, the planning director, or designee may approve, approve with conditions, deny or refer the matter to the planning commission.

(3) Appeals Of Administrative Hearing Decision: Any person aggrieved by the decision made by the planning director or designee at an administrative hearing may appeal the decision to the Salt Lake City planning commission by filing notice of appeal within ten (10) days after the record of decision is published. The notice shall state the reason(s) for the appeal. Reason(s) for the appeal shall be based upon procedural error, the development score of the project or the criteria set forth in section 21A.59.060, "Standards For Design Review", of this title.

c. Tier 3 Administrative Review: The planning director has the authority to approve a project scoring 100 points or more without holding a public hearing. The project shall be allowed to go through the standard building permit process. A public hearing is not required because the project incorporates adequate design guidelines or development incentives to be deemed compliant with the vision for the station area.

TABLE 21A.26.078C APPLICATION REVIEW

Development Score	Review Process
0 - 49 points	Planning commission conditional building and site design review process
50 - 99 points	Administrative hearing process
100 or more points	Administrative review

D. Development Score: The purpose of the development score is to allow flexibility for designers while implementing the city's vision of the applicable station area plans and the purpose of this zoning district. The development score measures the level of compatibility between a proposed project and the station area plan. A "station area plan" is a development, land use, urban design and place making policy document for the area around a specific transit station. The development score is based on the design guidelines and development incentives in the "Transit Station Area Development Guidelines" book, hereby adopted by reference. The "Transit Station Area Development Guidelines" shall be amended following the adopted procedures for zoning text amendments in chapter 21A.50, "Amendments", of this title. Each design guideline is assigned a value.

1. Formulating The Score: The development score is formulated by calculating all of the development guideline values for a particular project. Each design guideline and incentive is given a value based on its importance. Some guidelines are considered more important and carry a higher value than others. The planning director shall evaluate each project in the transit station area zone and assign a development score. The development standards in subsection G of this section and the design standards in subsection J of this section shall be complied with by all projects and are not calculated in the development score.

2. Using The Score: Every development is required to meet a minimum development score. The minimum score represents a percentage of the total points possible.

3. Project Review: A development score shall be assigned to all projects within the transit station area zoning district after a complete development review application is submitted. The planning director shall provide, in writing, a copy of the review checklist and explanation of the outcome of the score to the applicant within thirty (30) days of submitting a complete application.

4. Appeals: An applicant may appeal the development score to the planning commission. In hearing the appeal, the planning commission shall hold a public hearing in accordance with section 21A.10.030 of this title. In deciding the appeal, the planning commission shall base its decision on its interpretation of the design guidelines, the development score and whether the project complies with the goals of the applicable station area plans and the purposes of the TSA zoning district.

E. Certificate Of Occupancy: Prior to issuing a certificate of occupancy, a project shall be inspected by the city to determine if the project substantially complies with the development score and, if applicable, any conditions of approval required by the planning commission, administrative hearing officer or planning director. If the project does not receive final approval at the inspection, the project must be brought into compliance with the development score and, if applicable, any conditions of approval required by the planning commission, administrative hearing officer or planning director.

F. Prohibited Uses: The intent of this section is to identify those land uses that are not compatible with transit oriented development due to the nature of the use, the land requirements of the use, or the potential impacts of the use. Uses listed in table 21A.26.078F of this section and that have an "X" in a box next to the specific land use, indicates it is prohibited. Any use not listed, but is substantially similar to a use listed, shall be prohibited. All other uses are permitted.

TABLE 21A.26.078F PROHIBITED USES

Use	Urban Center		Urban Neighborhood		Mixed Use Employment Center		Special Purpose	
	Core	Transition	Core	Transition	Core	Transition	Core	Transition
Airport	X	X	X	X	X	X	X	X

1. Existing Uses And Buildings: A use located within a station area legally existing at the time that this zoning district was adopted, but listed as a prohibited use in this subsection F, shall be considered a legal nonconforming use. A structure legally existing at the time this section was adopted, but not conforming to the standards in this chapter, shall be considered a legal noncomplying structure. Any legal nonconforming use or legal noncomplying structure is subject to chapter 21A.38 of this title.

G. Development Standards:

1. Intent: The purpose of the following development standards is to promote an intense and efficient use of land at increased densities in the station areas. The development standards are intended to create a safe and pleasant environment near transit stations by encouraging an intensive area of mixed use development and activities, pedestrian amenities and by limiting conflicts between vehicles and pedestrians. Development standards are intended to create a reasonably continuous building edge that defines the exterior spatial enclosure of the street or open space and protect adjacent low density residential zoning districts. With some exceptions, buildings line a street at or near the public right of way to the greatest extent possible.

2. Application: The dimensional requirements of this section apply to all new buildings and developments as well as additions to existing buildings. The following development standards apply to the core and transition areas of all station types:

a. Building Height: The minimum and maximum building heights are found in table 21A.26.078G2a, "Building Height Regulations", of this section. Height limits are intended to control the overall scale of buildings, the compatibility with adjacent development, and the composition of the urban form of the block. Minimum building heights in the core area relate to the width of the street, with a minimum ratio of one foot (1') of building height for every three feet (3') of street width. Building height is measured from the finished grade to the highest point of the building. The following exceptions apply:

(1) The minimum building height applies to all structures that are adjacent to a public or private street. The building shall meet the minimum building height for at least ten percent (10%) of the width of the street facing building wall.

(2) Elevator shafts, parapet walls, and other projections are permitted subject to subsection 21A.36.020C, "Height Exceptions", of this title.

(3) Projects that achieve a development score that qualifies for administrative review are eligible for an increase in height. The increase shall be limited to one story of habitable space. The height of the additional story shall be equal to or less than the average height of the other stories in the building.

TABLE 21A.26.078G2a
BUILDING HEIGHT REGULATIONS

	Minimum Height[1]	Maximum Height
Urban center:		
Core	30'	90' [2]
Transition	25'	60'

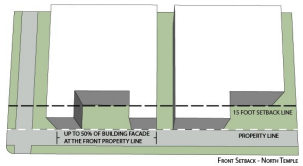
Urban neighborhood:		
Core	25'	75'
Transition	0'	50'
Mixed use employment center:		
Core	25'	75'
Transition	0'	60'
Special purpose:		
Core	25'	75'
Transition	0'	60'

Notes:
1. Minimum building heights apply to those properties with frontage on the street where fixed rail transit is located.
2. Buildings with a roof that has at least 2 sloping planes may be allowed up to 105 feet. The additional height may include habitable space.

b. Setbacks: Required building setbacks promote streetscapes that are consistent with the desired character of the street and various station typologies and its core and transition areas. Building setbacks create a safe environment that is inviting to pedestrians and transit users and maintain light, air and potential privacy for adjacent residential uses. In some instances, the setbacks limit the building envelope where the existing development pattern would be negatively impacted by taller buildings.

(1) Front And Corner Yard Setback: Except as indicated below, there is no minimum setback. If a setback is provided, at least fifty percent (50%) of the street-facing building facade shall be located within five feet (5') of the front property line unless a larger setback is required below. All portions of a front yard not occupied by building, driveways, walkways or other similar feature must be completely landscaped or include an active outdoor use, such as outdoor dining, plazas or other similar outdoor use with the space not dedicated to active outdoor use completely landscaped. Parking, drive aisles or other paved areas for motor vehicles are prohibited. Walls up to three feet (3') in height, patios and other similar elements intended to activate the sidewalk can be located to the property line.

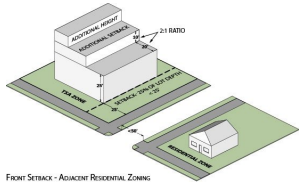
(A) North Temple Boulevard: The front yard setback along North Temple Boulevard shall be fifteen feet (15') for a minimum of fifty percent (50%) of the width of the street-facing facade. Up to fifty percent (50%) of a street-facing facade may encroach up to the front property line. In this case, the area not occupied by the building footprint must be landscaped or include active outdoor use, such as outdoor dining, plazas, courtyards or other similar usable public space or use. Setbacks over fifteen feet (15') are not allowed. In locations where there is not a minimum sidewalk width of ten feet (10'), additional sidewalk width shall be installed by the developer so there is a minimum width of ten feet (10') when a new building is constructed or with additions that increase the gross building square footage by more than fifty percent (50%).



Front Setback - North Temple

(B) 400 South/University Boulevard: The front yard setback along 400 South/University Boulevard shall be a minimum of fifteen feet (15'). In locations where there is not a minimum sidewalk width of ten feet (10'), additional sidewalk width shall be installed by the developer so there is a minimum width of ten feet (10') when a new building is constructed or with additions that increase the gross building square footage by more than fifty percent (50%).

(C) Streets With A Right Of Way Of Fifty Feet Or Less: When located on a street with a right of way fifty feet (50') or less with an R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district on either side of the street, a minimum setback of twenty five percent (25%) of the lot depth but no more than twenty five feet (25') is required. For buildings taller than twenty five feet (25'), the setback shall increase two feet (2') for every foot of height above twenty five feet (25') in height. Buildings may be stepped so taller portions of the building are farther away from the front property line.



Front Setback - Adjacent Residential Zoning

(D) Special Front Yard Setback Provisions For Properties That Front On 300 South, 500 South Or 600 East: For properties that front on 300 South, 500 South or 600 East, the front yard setback shall be equal to the average front yard setback for properties located along the same block face.

(2) Side Yard Setback:

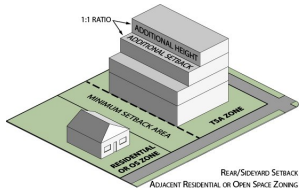
(A) Drive aisles are allowed in the side yard setback. In the transition subarea, parking is allowed in the side yard subject to subsection L of this section.

(B) Side yard setback when adjacent to certain zoning districts:

(i) Core Area: A minimum of twenty five feet (25') in the core area. When adjacent to an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district, the minimum side yard setback shall be increased one foot (1') for every one foot (1') increase in height above twenty five feet (25'). When a property in an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district is separated from a TSA zoned property by an alley, the additional setback for height above twenty five feet (25') applies and shall be measured from the property line of the TSA zoned property. Buildings may be stepped so taller portions of a building are farther away from the side property line. The horizontal measurement of the step shall be equal to the vertical measurement of the taller portion of the building.

(ii) Transition Area: A minimum of fifteen feet (15') in the transition area. When adjacent to an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district, the minimum side yard setback shall be increased one foot (1') for every one foot (1') increase in height above fifteen feet (15'). When a property in an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district is separated from a TSA zoned property by an alley, the additional setback for height above fifteen feet (15') applies and shall be measured from the property line of the TSA zoned property. Buildings may be stepped so taller portions of a building are farther away from the rear property line. The horizontal measurement of the step shall be equal to the vertical measurement of the taller portion of the building.

(iii) Side Yard Setback When Adjacent To Other Uses Or Districts: No minimum side yard required.



Rear/Sideyard Setback
Adjacent Residential or Open Space Zoning

(3) Rear Yard Setback:

(A) Core area: A minimum of twenty five feet (25'). When adjacent to an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district, the minimum rear yard setback shall be increased one foot (1') for every one foot (1') increase in height above twenty five feet (25'). When a property in an OS, R-1, R-2, SR, RMF-30, RMF-35 or RMF-45 zoning district is separated from a TSA zoned property by an alley, the additional setback for height above twenty five feet (25') applies and shall be measured from the property line of the TSA zoned property. Buildings may be stepped so taller portions of a building are farther away from the rear property line. The horizontal measurement of the step shall be equal to the vertical measurement of the taller portion of the building.

(B) Transition area: A minimum of twenty five feet (25'). When adjacent to an OS, R-1, R-2, SR, RMF-30 or RMF-35 zoning district, the minimum rear yard setback shall be increased one foot (1') for every one foot (1') increase in height above twenty five feet (25'). When a property in an OS, R-1, R-2, SR, RMF-30 or RMF-35 zoning district is separated from a TSA zoned property by an alley, the additional setback for height above twenty five feet (25') applies and shall be measured from the property line of the TSA zoned property. Buildings may be stepped so taller portions of a building are farther away from the rear property line. The horizontal measurement of the step shall be equal to the vertical measurement of the taller portion of the building.

(4) Special Setback Provisions For Properties Adjacent To Jordan River: For properties that are adjacent to the Jordan River, the building setback from the Jordan River shall be fifty feet (50'), measured from the annual high water line as defined in section 21A.34.130 of this title. For buildings over fifty feet (50') in height, the setback shall increase one foot (1') for every foot in height over fifty feet (50') up to a maximum of seventy five feet (75'). Portions of buildings over fifty feet (50') in height may be stepped back to comply with this standard.

c. Minimum Lot Area And Street Frontage Requirements:

(1) The minimum lot area applies to all new subdivisions of land and shall not be used to calculate residential density.

(2) Any legally existing lot may be developed without having to comply with the minimum lot size requirements.

(3) The minimum lot area for all areas of the TSA zoning district is two thousand five hundred (2,500) square feet.

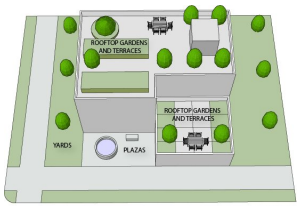
(4) All subdivisions of land or combination of parcels must have a minimum of forty feet (40') of street frontage.

d. Open Space: In order to provide space for passive and active recreation, public and private use, offset storm drainage due to nonpermeable surfaces and as an amenity to individual developments and their residents, employees and customers, open space is required for all new developments.

(1) Core Area:

(A) Within the core area, open space may include landscaped yards, patios, public plazas, pocket parks, courtyards, rooftop and terrace gardens and other similar types of open space amenity.

(B) A minimum of ten percent (10%) of the land area up to five thousand (5,000) square feet.



OPEN SPACE

(2) Transition Area:

(A) Within the transition area, open space may include landscaped yards, patios, public plazas, pocket parks, courtyards, rooftop gardens and terraces, community gardens and other similar types of amenities.

(B) The minimum open space requirement is ten percent (10%) of the land area up to two thousand five hundred (2,500) square feet.

(3) Access To Open Space: All required open space shall be accessible to the users of the building(s).

e. Circulation And Connectivity: Development within the station area shall be easily accessible from public spaces and provide safe and efficient options for all modes of travel. Circulation networks, whether public or private, require adequate street, pedestrian and bicycle connections to provide access to development. The internal circulation network shall be easily recognizable, formalized and interconnected.

(1) All parking lots shall comply with the standards in section 21A.44.020, "General Off Street Parking Requirements", of this title.

(2) Parking is prohibited between the street-facing building line and any front or corner side property line. This shall include any drive aisle that is not perpendicular to the front or corner side property line.

H. Residential Densities:

1. Core area: No maximum.

2. Transition area: No maximum.

I. Accessory Structures: No accessory structure shall be located in a required front yard or between the primary building and a property line adjacent to a public street.

J. Design Standards:

1. Purpose: Design standards create the fundamental characteristics of a transit oriented district and the basic design elements required for a successful transit station area. Design standards are intended to provide a safe and interesting walkable environment by connecting ground floor uses adjacent to the sidewalk areas, by encouraging the continuity of retail and service uses, providing surveillance opportunities on the street and public open spaces and framing the street by bringing portions of buildings up to the sidewalk. All buildings shall be designed for the context and character of the project and how they interact visually, functionally, and socially with the context of the public environment.

2. Application: The following design standards apply to all projects within the core and transition areas of all station area types:

a. Building Walls Adjacent To A Street: Street-facing building facades shall provide architectural variety and scale. Changes in plane, color, texture, materials, scale of materials, patterns, art, or other architectural detailing are acceptable methods to create variety and scale. Building walls parallel to a public street and greater than thirty feet (30') in length shall be broken up by architectural features such as bay windows, recessed entrances or windows, balconies, cornices, columns, or other similar architectural features. The architectural feature may be either recessed or project a minimum of twelve inches (12").

ARCHITECTURAL VARIETY AND SCALE

b. Ground Floor Building Materials: Other than ground windows and doors, eighty percent (80%) of the remaining ground floor wall area shall be clad in durable materials. Durable materials include brick, masonry, textured or patterned concrete and/or cut stone. Other materials may be used as accent or trim provided they cover twenty percent (20%) or less of the ground floor adjacent to a street.

c. Ground Floor Glass And Transparency: All street-facing elevations of a development shall be designed so that the first floor street-facing facade has at least sixty percent (60%) clear glass between three (3) and eight feet (8') above grade to allow pedestrians to view activities inside the building or lighted display windows. There must be visual clearance behind the glass for a minimum of two feet (2'). Three-dimensional display windows at least two feet (2') deep are permitted and may be counted toward the sixty percent (60%) glass requirement. Ground floor windows of commercial uses shall be kept clear at night, free from any window covering, with internal illumination. When ground floor glass conflicts with the internal function of the building, other means shall be used to activate the sidewalk, such as display windows, public art, architectural ornamentation or detailing or other similar treatment. The first floor elevation facing a street of all new buildings, or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than sixty percent (60%) glass surfaces. The reflectivity in glass shall be limited to eighteen percent (18%) as defined by ASTA standards. The planning director may approve a modification to this requirement if the planning director finds:

(1) The requirement would negatively affect the historic character of the building, or

(2) The requirement would negatively affect the structural stability of the building.

(3) The ground level of the building is occupied by residential uses, in which case the sixty percent (60%) glass requirement may be reduced to forty percent (40%).

Any appeal of an administrative decision made pursuant to this subsection may be made to the planning commission.

d. Building Entrances: The intent of regulating building entrances is to promote security on the street and public spaces by providing frequent points of access and sources of activity. Functional entrances to nonresidential uses should be located at an average of seventy five feet (75') or less from one another. At least one operable building entrance per elevation facing a public street shall be provided. Each ground floor leasable space is required to have an operable entrance facing the street and a walkway to the sidewalk. If a plaza or open space is provided as part of the development, a minimum of one entrance opening onto the plaza or open space shall be provided. This entrance shall be counted toward the spacing of functional entrances identified in this section and may count as the primary entrance to the building. All street-facing building entrances shall be functional entrances and shall not be limited to emergency or employee entrances.

e. Ground Floor Residential Uses: The interior floor elevation of ground floor residential units in the core area shall be a minimum of two feet (2') and a maximum of five feet (5') above grade. Dwelling units located on the ground floor and facing a public or private street shall have a minimum of one primary entrance facing the street in the core area. The facades of all buildings in the core and transition areas with ground floor residential uses shall feature elements that signal habitation such as windows, entrances, stairs, porches, bay windows, and balconies that are visible from the public street. Attached single-family dwellings, townhomes, row houses, and other similar housing types shall have a primary entrance facing the street for each unit adjacent to a street. Units may have their primary entrance located on a courtyard, mid block walkway, or other similar area if the street-facing facades have a primary entrance facing the street.

f. Parking Structures: The intent of regulating parking structures is to minimize the visual impact of the structure and the cars parking within it, and to reduce their impact on the ground floors adjacent to public sidewalks and streets. Parking structures are permitted within the core and transition areas provided:

(1) The ground floor of parking structures adjacent to a public street shall include an active use other than parking such as office, retail, residential leasing office, restaurant, etc. Parking is permitted behind the ground floor uses. If the ground floor does not include active use, then the structure must be set back behind a building or be a minimum of sixty feet (60') from a property line adjacent to a public street or sidewalk.

(2) The levels of parking above the first level facing the front or corner side lot line shall have horizontal floors and/or facades and not sloped.

(3) The levels of parking above the second level shall be designed to effectively screen the vehicles so they are not readily visible from an adjacent street.

(4) Below grade parking structures for structures with ground floor residential uses may extend a maximum of five feet (5') above the existing grade provided the above grade portion is screened with vegetation or architectural feature(s).

g. Mechanical Equipment: All roof mounted mechanical and electrical equipment, communication antennas or dishes shall be enclosed, screened, organized, designed and located to be out of view from streets and public spaces. The parapet or enclosure shall be equal to or greater than the height of the equipment to be screened to reduce equipment noise and odors, and other impacts onto adjacent uses and maintain the integrity of overall architectural character and scale of the building. Mechanical equipment may be located on the ground provided it is behind the building, screened and not located in a required rear yard or side yard setback. Utility boxes are subject to section 21A.40.160, "Ground Mounted Utility Boxes", of this title.

h. Service Areas: Service areas, loading docks, refuse containers and similar areas shall be fully screened from public view. All screening enclosures viewable from the street shall be either incorporated into the building architecture or shall incorporate building materials and detailing compatible with the building being served. All screening devices shall be a minimum of one foot (1') higher than the object being screened. Dumpsters must be located a minimum of twenty five feet (25') from any building on an adjacent lot that contains a residential dwelling or be located inside of an enclosed building.

K. Multiple Buildings On A Single Parcel: Multiple principal buildings on a single parcel are permitted provided each principal building meets the requirements of this chapter and each principal building obtained a separate development score. New principal buildings can be located toward the rear of a parcel provided there is an existing or additional new principal building that complies with the front yard building setbacks. If one principal building receives a development score lower than other principal buildings on the site, the project shall be processed based on the lowest development score obtained.

L. Parking: The purpose of this subsection is to provide locations for off street parking. All off street surface parking lots should be located so that they are compatible with pedestrian oriented streets. New uses and development or redevelopment within this district shall comply with the requirements of this subsection.

1. Surface Parking Lots And Structures On Corner Properties: On corner properties, surface parking lots and structures shall be located behind principal buildings or at least sixty feet (60') from a front and corner side lot lines. Only one driveway and drive aisle is permitted per street frontage and the access point shall be located a minimum of one hundred feet (100') from the intersection of the front and corner side property lines. If the front or corner side property line is less than one hundred feet (100') in length, then the drive approach shall be located within twenty feet (20') of the side or rear property line.

2. Surface Parking In The Core Area: Surface parking lots in the core area are required to be located behind the principal building or to the side of a principal building.

a. Requirements: When located to the side of a building, the parking lot shall be:

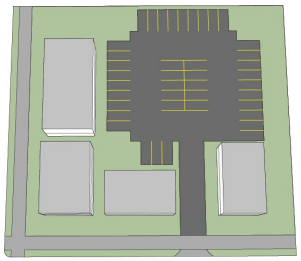
(1) Set back a minimum of thirty feet (30') from a property line adjacent to a public street. The space between the parking lot and the property line adjacent to a public street shall be landscaped or activated with outdoor dining, plazas or similar feature.

(2) Screened with a landscaped hedge or wall that is at least thirty six inches (36") above grade and no taller than forty two inches (42") above grade. Landscaping berms are not permitted.

(3) The parking lot shall be no wider than what is required for two (2) rows of parking and one drive aisle as indicated in section 21A.44.020, table 21A.44.020 of this title.

b. One Driveway And Drive Aisle Per Street Frontage: Only one driveway and drive aisle is permitted per street frontage and the access point shall be located a minimum of one hundred feet (100') from the intersection of the front and corner side property lines. If the front or corner side property line is less than one hundred feet (100') in length, then the drive approach shall be located within twenty feet (20') of the side or rear property line.

c. Surface Parking Lots As A Principal Use: Surface parking lots as a principal use located on a lot that has frontage on a public street are prohibited.



PARKING - CORE AREA

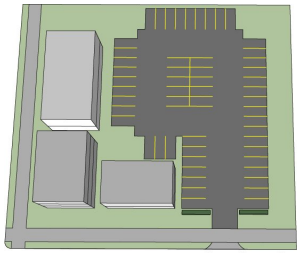
3. Surface Parking In The Transition Area: Surface parking lots in the transition area are required to be located behind the principal building or to the side of a principal building.

a. Requirements: When located to the side of a principal building, the parking lot shall be:

(1) Set back so that no portion of the parking area other than the driveway is closer to the street than the front wall setback of the building. In cases where the front wall of the building is located within five feet (5') of a property line adjacent to a street, the parking lot shall be set back a minimum of eight feet (8'). The space between the parking lot and the property line adjacent to a street shall be landscaped or activated with outdoor dining, plazas or similar feature.

(2) Screened with a landscaped hedge or wall that is at least thirty six inches (36") above grade and no taller than forty two inches (42") above grade. Landscaping berms are not permitted.

b. Surface Parking Lots As A Principal Use: Surface parking lots as a principal use located on a lot that has frontage on a public street are prohibited.



PARKING - TRANSITION AREA

4. Walkways Through Parking Lots: Parking lots with more than fifteen (15) stalls shall provide a pedestrian walkway through the parking lot to the primary building entrance or a sidewalk providing access to a primary building entrance. One walkway must be provided for every three (3) drive aisles. Walkways shall be curb separated from the parking areas and a minimum of five feet (5') wide. Vehicles shall not overhang the walkway. Parking lot landscaping requirements in chapter 21A.48 of this title shall be included on the side of the walkway. Where the walkway crosses a drive aisle, a crosswalk that is clearly identified by a change in color, material, or similar technique shall be used.

5. Surface Parking Lots As The Principal Use: Surface parking lots that are the principal use are permitted in the TSA zoning district provided the following standards are complied with:

a. The surface parking lot does not have street frontage on the street where the fixed rail transit is located.

b. The surface parking lot is set back a minimum of fifteen feet (15') from any property line adjacent to a public street.

c. The parking area is screened by a wall or landscaping that is a minimum of thirty six inches (36") and a maximum of forty eight inches (48") tall.

6. Other Applicable Standards: All other standards in chapter 21A.44, "Off Street Parking And Loading", of this title shall apply.

M. Conflicting Regulations: In cases where the regulations of this section conflict with another section of this zoning ordinance, this section shall take precedence except in situations where the conflict is related to the use of the property, in which case the more restrictive regulation takes precedence. In station areas within an overlay district, the overlay district shall take precedence.

N. Developments Over Five Acres:

1. Intent: Large scale developments have the potential to function as a self-contained mixed use neighborhood and could have both positive and negative impacts on nearby properties. All developments over five (5) acres in size shall be designed and planned to include a series of blocks and a network of public or private streets that connects to the existing public streets in the area and to adjacent development and neighborhoods. Buildings should be oriented to this street network. Regulating block size is necessary to provide development sites that are oriented to the pedestrian while accommodating other modes of transportation. A street network is required to ensure adequate circulation for pedestrians, bicycles, automobiles and service vehicles through the site, to adjacent sites and the public streets.

2. Application: These standards are in addition to all other applicable standards. In situations where the standards in this section conflict with a standard in another section, the standard in this section shall take precedence. A separate development score is required for each new principal building in a development over five (5) acres. A development over five (5) acres shall be subject to the applicable review process based on the lowest development score assigned to an individual building in the development.

a. Block Layout: The intent of regulating block size and dimension is to create a development pattern where all principal buildings have their primary facades facing a street, whether public or private. All developments over five (5) acres in size shall be designed to include a series of blocks based on the standards below:

(1) The maximum perimeter dimension of any block shall be one thousand six hundred feet (1,600'). The maximum length of any individual block face shall be four hundred forty feet (440').

(2) The maximum perimeter dimension of a block may be increased to two thousand four hundred (2,400) linear feet, and the maximum length of any block face increased to six hundred feet (600') provided a mid block pedestrian network is included. The mid block pedestrian network must be a minimum of twenty feet (20') wide and include pedestrian amenities such as lighting, benches, and other similar features. The mid block walkway shall connect to at least two (2) block faces or be extended to the property line to allow for future extension. The standards in subsection J2 of this section apply to building walls adjacent to a mid block walkway.

b. Housing Proximity To Transit: Developments that include housing should cluster the housing so a minimum of fifty percent (50%) of the housing is located within one-fourth ($^1/_4$) mile walking distance of a transit platform.

c. Connectivity To Public Streets, Sidewalks, And Bicycle Lanes: In order to ensure that the development will be fully integrated into the transit station area, that safe and efficient travelways are provided, and to limit the impact on the primary transit street and other adjacent streets, the internal circulation system, including private streets, drive aisles, sidewalks and bicycle lanes shall connect to the public street, sidewalks and bicycle lanes. All new streets shall be designed as a "complete street" defined as a street that provides dedicated space for pedestrians, bicyclists and automobiles.

d. Vehicle Access: Regulating access to private property from public streets is necessary for integrating private development and public spaces. Limiting the number of access points and spacing between access points reduces areas of conflict between vehicles, pedestrians and bicycles. Maximum access widths promote a development pattern that is oriented to pedestrians and bicyclists while accommodating vehicles.

(1) Access points located on public streets intended for vehicles shall be spaced a minimum of one hundred feet (100') apart.

(2) No property shall have more than one vehicle access point for every two hundred (200) linear feet of frontage on a public street.

(3) No access drive shall be greater than twenty four feet (24') wide.

(4) The location of all vehicle access points is subject to approval from the transportation division of the city. The standards of this section may be modified by the transportation division when, in the opinion of the director of the transportation division, a different design would improve the overall safety for all modes of transportation or improve the efficiency of the transportation network.

e. Internal Circulation: Internal circulation systems allow for vehicles, pedestrians and bicyclists to move safely and efficiently throughout a development site. A logical, simple and well designed internal circulation system that connects with adjacent circulation networks provides room for vehicles, safe walking paths for pedestrians through the parking lot and the site to the public way, and well marked routes for bicycles traveling from public spaces to bicycle parking areas within a site. All new developments over five (5) acres are required to submit an internal circulation network plan.

(1) Travel Lanes That Connect Parking Areas With A Public Street: All internal vehicle travel lanes that connect internal parking areas with a public street shall be designed to meet the minimum requirements in section 21A.44.020 of this title.

(2) Design Speed: The internal circulation system shall be designed to move vehicles at speeds of twenty (20) miles per hour or less.

(3) Future Access To Adjacent Properties And Rights Of Way: All internal drive aisles, sidewalks, and paths shall be extended to property lines to allow for future cross access to adjacent properties when the adjacent property is undeveloped and to rights of way.

(4) Centerlines: The centerline of all internal streets shall be in line with the centerline of a street on the opposite side of an intersecting street unless the intersecting street is divided by a median. Offset streets shall be a minimum of two hundred feet (200') apart, measured from centerline to centerline.

(5) Publicly Dedicated Streets: Any street that is to be publicly dedicated shall meet the city's minimum construction and design standards (including street lighting, park strip, street trees, etc.).

(6) Pedestrian Routes: Pedestrian routes that provide safe, comfortable, clear and direct access throughout the development shall be provided. Pedestrian paths shall be bordered by residential fronts, green space, active open space, or commercial storefronts.

(7) Bicycle Paths: A coordinated system of bicycle paths should be provided.

(8) Approval; Modification Of Standards: The internal circulation network is subject to approval from the transportation division of the city. The standards of this section may be modified by the transportation division when, in the opinion of the director of the transportation division, a different design would improve the overall safety for all modes of transportation or improve the efficiency of the transportation network.

f. Parking: Parking may be provided along any private street within a development over five (5) acres. The parking shall be counted toward the applicable off street parking standard when provided on private streets. All parking areas and stalls must comply with the parking lane widths identified in section 21A.44.020, table 21A.44.020 of this title.

g. Open Space: In order to provide space for passive and active recreation, public and private gatherings, offset storm drainage due to nonpermeable surfaces and as an amenity to individual developments and their residents, employees and customers, usable open space is required for all new developments.

(1) Required: In the core and transition areas of all station areas, a minimum of ten percent (10%) of the site, up to fifteen thousand (15,000) square feet, shall be devoted to open space. "Usable open space" is defined as landscaped areas, plazas, outdoor dining areas, terraces, rooftop gardens, stormwater retention areas, and any other similar type of area.

(2) Connectivity To Adjacent Open Space: When adjacent to public open space, parks, trails and pathways, open space on developments over five (5) acres in size are encouraged to provide access to the public open space.

h. Landscaping: All areas not occupied by buildings, plazas, terraces, patios, parking areas, or other similar feature shall be landscaped. If a project is developed in phases, only those areas in a phase that is under construction shall be landscaped. Landscaping in future phases shall be installed as those phases develop. Areas in future phases may be used as community gardens or other active open space until such time as development of that phase begins. (Ord. 66-12, 2012)

21A.26.080: TABLE OF PERMITTED AND CONDITIONAL USES FOR COMMERCIAL DISTRICTS:

Legend:	C =	Conditional	P =	Permitted

	Permitted And Conditional Uses By District						
Use	CN	CB	CS[1]	CC	CSHBD[1]	CG	TC-75

	Wireless telecommunications facility (see section 21A.40.090, table 21A.40.090E of this title)							

Qualifying provisions:
1.Development in the CS district shall be subject to planned development approval pursuant to the provisions of chapter 21A.55 of this title. Certain developments in the CSHBD zone shall be subject to the conditional building and site design review process pursuant to the provisions of subsection 21A.26.060D of this chapter and chapter 21A.59 of this title.
2.Subject to conformance to the provisions in subsection 21A.02.050B of this title for utility regulations.
3.When located in a building listed on the Salt Lake City register of cultural resources (see subsection 21A.24.010T of this title and subsection 21A.26.010K of this chapter).
4.Subject to Salt Lake Valley health department approval.
5.Pursuant to the requirements set forth in section 21A.36.140 of this title.
6.Subject to location restrictions as per section 21A.36.190 of this title.
7.Greater than 3 ambulances at location require a conditional use.
8.Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to the conditional uses process.
9.A community correctional facility is considered an institutional use and any such facility located within an airport noise overlay zone is subject to the land use and sound attenuation standards for institutional uses of the applicable airport overlay zone within chapter 21A.34 of this title.
10.No check cashing/payday loan business shall be located closer than $^{1}/_{2}$ mile of other check cashing/payday loan businesses.
11.Mixed use developments within the CN zoning district may include single-family and duplex dwellings.
12.Subject to conformance with the provisions of section 21A.36.300, "Alcohol Related Establishments", of this title.
13.In areas zoned as neighborhood commercial (CN) or community business (CB), the total square footage, including patio space, of businesses that serve alcoholic beverages as a primary revenue source shall not exceed 2,200 square feet in total. Total square footage will include a maximum 1,750 square feet of floor space within a business and a maximum of 450 square feet in an outdoor patio area.

(Ord. 65-12, 2012)

CHAPTER 21A.28
MANUFACTURING DISTRICTS

21A.28.010: GENERAL PROVISIONS:

A. Statement Of Intent: The manufacturing districts are intended to provide appropriate locations for manufacturing, fabrication, processing, packaging, distribution, storage, shipping and other transportation activities contributing to the economic base of the city; to enhance employment opportunities; to encourage the efficient use of land; to enhance property values and the tax base; to improve the design quality of industrial areas; and to help implement adopted plans.

B. Impact Controls And General Restrictions In The Manufacturing Districts:

1. Refuse Control: Refuse containers must be covered and shall be stored within completely enclosed buildings or screened in conformance with the requirements of chapter 21A.48 of this title.

2. Lighting: On site lighting shall be located, directed or designed in such a manner as to contain and direct light and glare only to the property on which it is located.

3. Outdoor Sales, Display Or Storage: "Outdoor sales and display" and "outdoor storage", as defined in chapter 21A.62 of this title, are allowed where specifically authorized in the table of permitted and conditional uses in section 21A.28.040 of this chapter. These uses shall conform to the following:

a. The outdoor sales display of merchandise, and outdoor storage of equipment shall not:

(1) Encroach into areas of required parking;

(2) Be located in any required yard area within the lot; or

(3) Include the use of banners, pennants or strings of pennants.

b. Outdoor storage of auto bodies, or other metal, glass bottles, rags, rubber, paper or other articles commonly known as junk, in the M-1 and M-2 districts shall be screened by a solid wall or fence (including solid entrance and exit gates) not less than seven feet (7') nor more than ten feet (10') in height. The outdoor storage shall not be stacked higher than the enclosing wall or fence. Fencing location shall not encroach into any sight distance triangle.

c. Outdoor sales and display and outdoor storage shall also be permitted when part of an authorized temporary use, as established in chapter 21A.42 of this title.

C. Permitted Uses: The uses specified as permitted uses, in the table of permitted and conditional uses for manufacturing districts found in section 21A.28.040 of this chapter, are permitted, provided that they comply with all requirements of this chapter, the general standards set forth in part IV of this title, and all other applicable requirements of this title.

D. Conditional Uses: The uses specified as conditional uses, in section 21A.28.040, "Table Of Permitted And Conditional Uses For Manufacturing Districts", of this chapter, shall be allowed in the manufacturing districts provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title.

E. Accessory Uses: Accessory uses such as restaurants, cafeterias, doctors'/nurses' offices and daycare facilities that are provided for the use and convenience of employees/occupants of the principal use are allowed, provided they are located within the principal building. Accessory uses integral to the operation of the principal use are permitted within separate accessory buildings and structures. Storage of flammable liquids that are accessory to a principal use shall be permitted subject to fire department approval. The requirements of chapter 21A.40 of this title shall also apply.

F. Off Street Parking And Loading: All uses in the manufacturing districts shall comply with the provisions governing off street parking and loading in chapter 21A.44 of this title.

G. Landscaping And Buffering: All uses in the manufacturing districts shall comply with the provisions governing landscaping and buffering in chapter 21A.48 of this title, including section 21A.48.110 of this title.

H. Signs: Signs shall be allowed in the manufacturing districts in accordance with provisions of chapter 21A.46 of this title.

I. Environmental Performance Standards: All uses in the manufacturing districts shall conform to the environmental performance standards in section 21A.36.180 of this title. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(14-0), 1995)

21A.28.020: M-1 LIGHT MANUFACTURING DISTRICT:

A. Purpose Statement: The purpose of the M-1 light manufacturing district is to provide an environment for light industrial uses that produce no appreciable impact on adjacent properties and desire a clean attractive industrial setting. This zone is appropriate in locations that are supported by the applicable master plan policies adopted by the city. This district is intended to provide areas in the city that generate employment opportunities and to promote economic development. The uses include other types of land uses that support and provide service to manufacturing and industrial uses. Safe, convenient and inviting connections that provide access to businesses from public sidewalks, bike paths and streets are necessary and to be provided in an equal way. Certain land uses are prohibited in order to preserve land for manufacturing uses.

B. Uses: Uses in the M-1 light manufacturing district as specified in section 21A.28.040, "Table Of Permitted And Conditional Uses For Manufacturing Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.28.010 of this chapter.

C. Minimum Lot Size:

1. Minimum Lot Area: Twenty thousand (20,000) square feet.

2. Minimum Lot Width: Eighty feet (80').

3. Existing Lots: Lots legally existing as of April 12, 1995, shall be considered legal conforming lots.

D. Minimum Yard Requirements:

1. Front Yard: Fifteen feet (15').

2. Corner Side Yard: Fifteen feet (15').

3. Interior Side Yard: None required.

4. Rear Yard: None required.

5. Accessory Uses, Buildings And Structures In Yards: Accessory uses, buildings and structures may be located in a required yard area subject to section 21A.36.020, table 21A.36.020B of this title.

E. Landscape Yard Requirements:

1. Front And Corner Side Yards: All required front and corner side yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title.

2. Buffer Yards: All lots abutting a lot in a residential district shall conform to the buffer yard requirements of chapter 21A.48 of this title.

F. Maximum Height:

1. No building shall exceed sixty five feet (65') except that emission free distillation column structures, necessary for manufacture processing purposes, shall be permitted up to the most restrictive federal aviation administration imposed minimal approach surface elevations, or one hundred twenty feet (120') maximum, whichever is less. Said approach surface elevation will be determined by the Salt Lake City department of airports at the proposed locations of the distillation column structure. Any proposed development in the airport flight path protection (AFPP) overlay district, as outlined in section 21A.34.040 of this title, will require approval of the department of airports prior to issuance of a building permit. All proposed development within the AFPP overlay district which exceeds fifty feet (50') will also require site specific approval from the federal aviation administration.

2. In the M-1 zoning districts located west of the Salt Lake City International Airport and north of Interstate 80 (I-80), buildings may exceed sixty five feet (65') in height subject to the conditional building and site design review standards and procedures of chapter 21A.59 of this title. In no case shall any building exceed eighty five feet (85'). (Ord. 12-11, 2011: Ord. 78-10, 2010: Ord. 61-07 § 1, 2007: Ord. 26-95 § 2(14-1), 1995)

21A.28.030: M-2 HEAVY MANUFACTURING DISTRICT:

A. Purpose Statement: The purpose of the M-2 heavy manufacturing district is to provide an environment for larger and more intensive industrial uses that do not require, and may not be appropriate for, a nuisance free environment. This zone is appropriate in locations that are supported by the applicable master plan policies adopted by the city. This district is intended to provide areas in the city that generate employment opportunities and to promote economic development. The uses include other types of land uses that support and provide service to manufacturing and industrial uses. Due to the nature of uses allowed in this zone, land uses that may be adversely impacted by heavy manufacturing activities are not permitted. Certain land uses are prohibited in order to preserve land for manufacturing uses. Safe, convenient and inviting connections that provide access to businesses from public sidewalks, bike paths and streets are necessary and to be provided in an equal way.

B. Uses: Uses in the M-2 heavy manufacturing district as specified in the section 21A.28.040, "Table Of Permitted And Conditional Uses For Manufacturing Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.28.010 of this chapter.

C. Minimum Lot Size:

1. Minimum Lot Area: Twenty thousand (20,000) square feet.

2. Minimum Lot Width: Eighty feet (80').

3. Existing Lots: Lots established prior to April 12, 1995, shall be considered legal conforming lots.

D. Minimum Yard Requirements:

1. Front Yard: Twenty five feet (25').

2. Corner Side Yard: Fifteen feet (15').

3. Interior Side Yard: Twenty feet (20').

4. Rear Yard: Thirty five feet (35').

5. Accessory Uses, Buildings And Structures In Yards: Accessory uses, buildings and structures may be located in a required yard area subject to section 21A.36.020, table 21A.36.020B of this title.

E. Landscape Yard Requirements: The first twenty five feet (25') of all required front yards and the first fifteen feet (15') of all required corner side yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title, including section 21A.48.110 of this title.

F. Maximum Height: No building shall exceed eighty feet (80'), except that chimneys and smokestacks shall be permitted up to one hundred twenty feet (120') in height. (Ord. 12-11, 2011: Ord. 35-99 §§ 30, 31, 1999: Ord. 26-95 § 2(14-6), 1995)

21A.28.040: TABLE OF PERMITTED AND CONDITIONAL USES FOR MANUFACTURING DISTRICTS:

Legend:	C =	Conditional	P =	Permitted

	Permitted And Conditional Uses By District	
Use	**M-1**	**M-2**
Office and related uses:		
Financial institutions with or without drive-through facilities	P	
Offices, medical and nonmedical	P	
Retail sales and services:		
Automobile and truck repair	P	P
Automobile and truck sales and rental (including large truck)	P	P
Automobile parts sales	P	P

Building materials distribution	P	P
Communication services	P	P
Convenience store	P	P
Electronic repair shop	P	
Equipment rental	P	P
Furniture repair shop	P	P
Laundry, dry cleaning and dyeing	P	P
Package delivery facility	P	P
Recreational vehicle sales and service	P	P
Restaurants with or without drive-through facilities	P	
Retail goods establishments with or without drive-through facilities	P	P
Tire distribution retail/wholesale	P	P
Truck repair, large	P	P
Upholstery shop	P	P
Institutional:		
Adult daycare center	P	P
Child daycare center	P	P
Community correctional facility, large (see section 21A.36.110 of this title)	C[8]	
Community correctional facility, small (see section 21A.36.110 of this title)	C[8]	
Local government facilities	P	P
Museum	P	C
Music conservatory	P	C
Places of worship	C	
Schools, professional and vocational (with outdoor activities)	P	
Schools, professional and vocational (without outdoor activities)	P	P
Seminaries, religious institutes	P	C
Commercial:		
Blacksmith shops	P	P
Carpet cleaning	P	P
Commercial laundry, linen service and dry cleaning establishments	P	P
Diaper service	P	P
Gas station (sales and/or minor repair)	P	P
Greenhouse for food and plant production	P	
Heavy equipment (rental)	P	P
Heavy equipment (sales and service)	P	P
Precision equipment repair	P	P
Welding shop	P	P
Manufacturing:		
Bottling plant	P	P
Brewery	P	P
Cabinetmaking/woodworking mills	P	P
Chemical manufacturing and storage		C
Commercial bakery	P	P
Concrete manufacturing	C	P
Distillery	P	P
Drop forge industry		P
Explosive manufacturing and storage		C
Flammable liquids or gases, heating fuel distribution and storage		P
Food processing	P	P
Grain elevator		P
Heavy manufacturing		P
Incinerator, medical waste/hazardous waste		C
Industrial assembly	P	P
Laboratory, medical, dental, optical	P	P
Laboratory, testing	P	P
Light manufacturing	P	P
Moving and storage	P	P
Outdoor storage, public	P	P
Paint manufacturing		P
Photo finishing lab	P	P
Printing plant	P	
Publishing company	P	P
Railroad freight terminal facility[4]	C	C
Railroad repair shop		P
Recycling collection station	P	P
Recycling processing center (indoor)	P	P
Recycling processing center (outdoor)	C	P
Refinery of petroleum products		C
Rock, sand and gravel storage and distribution	C	P
Sign painting/fabrication	P	P
Truck freight terminal	P	P
Warehousing	P	P
Wholesale distributors	P	P
Winery	P	P
Recreation, cultural and entertainment:		
Art gallery	P	C
Art studio	P	C
Brewpub	C[6,10]	C[6,10]
Commercial indoor recreation	P	P
Commercial outdoor recreation	P	P
Commercial video arcade	P	P
Community and recreation centers	P	C
Dance studios	P	C
Live performance theaters	P	C
Microbrewery	C[6,10]	C[6,10]
Movie theaters	P	C
Natural open space and conservation areas	P	P
Pedestrian pathways, trails, and greenways	P	P
Sexually oriented business[5]	P	P

Social club	C[6,10]	C[6,10]
Tavern	C[6,10]	C[6,10]
Miscellaneous:		
Accessory uses, except those that are otherwise specifically regulated in this chapter, or elsewhere in this title	P	P
Agricultural use	P	P
Ambulance services, dispatching, staging and maintenance utilizing indoor and outdoor operations	P	P
Animal cremation service	P	P
Animal pound, kennel and veterinary offices offering general overnight boarding	P	P
Automobile salvage and recycling (indoor)	P	P
Automobile salvage and recycling (outdoor)	C	P
Bus line terminals	P	P
Bus line yards and repair facilities		P
Check cashing/payday loan business	P[9]	
Communication towers	P	P
Communication towers, exceeding the maximum building height	C	C
Community garden	P	P
Contractor's yard/office (with exterior storage)	P	P
Crematorium	P	P
Display room; wholesale	P	P
Funeral home	P	P
Hotel or motel	P	
House museum in landmark sites (see subsection 21A.24.010T of this title)	C	C
Impound lot	P	P
Large wind energy system	P	P
Limousine service	P	P
Living quarters for caretaker or security guard, limited to uses on lots 1 acre in size or larger and is accessory to a principal use allowed by the zoning district	C	C
Motion picture studio	P	P
Off site parking	P	P
Offices and reception centers in landmark sites (see subsection 21A.24.010T of this title)	C	C[7]
Outdoor storage and display	P	P
Park and ride lots	P	P
Park and ride, parking shared with existing use	P	P
Pet cemeteries[2]	P	
Poultry farm or processing plant		P
Public/private electric generation facility[3]	C	C
Public/private utility buildings and structures	P	P
Public/private utility transmission wires, lines, pipes and poles[1]	P	P
Radio, television station	P	P
Railroad "spur" delivery facility	P	P
Raising of furbearing animals	C	P
Seasonal farm stand	P	P
Sewage treatment plant	C	C
Slaughterhouses	C	P
Solar array	P	P
Solid waste transfer station	C	C
Stockyards	C	P
Taxicab operation; dispatching, staging and maintenance	P	P
Urban farm	P	P
Vehicle auction establishment	P	P
Vending carts on private property as per title 5, chapter 5.65 of this code	P	P
Wireless telecommunications facility (see section 21A.40.090, table 21A.40.090E of this title)		

Qualifying provisions:
1.See subsection 21A.02.050B of this title for utility regulations.
2.Subject to Salt Lake Valley health department approval.
3.Electric generating facilities shall be located within 2,640 feet of an existing 138 kV or larger electric power transmission line.
4.No railroad freight terminal facility may be located within a 5 mile radius of any other existing railroad freight terminal facility.
5.Pursuant to the requirements set forth in section 21A.36.140 of this title.
6.If a place of worship is located within 600 feet of a tavern, private club, brewpub or microbrewery, a written waiver of spacing requirements is required as a condition of approval.
7.Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to the conditional use process.
8.A community correctional facility is considered an institutional use and any such facility located within an airport noise overlay zone is subject to the land use and sound attenuation standards for institutional uses of the applicable airport overlay zone within chapter 21A.34 of this title.
9.No check cashing/payday loan business shall be located closer than $\frac{1}{2}$ mile of other check cashing/payday loan businesses.
10.Subject to conformance with the provisions in section 21A.36.300, "Alcohol Related Establishments", of this title.

(Ord. 65-12, 2012)

CHAPTER 21A.30
DOWNTOWN DISTRICTS

21A.30.010: GENERAL PROVISIONS:

A. Statement Of Intent: The downtown districts are intended to provide use, bulk, urban design and other controls and regulations appropriate to the commercial core of the city and adjacent areas in order to enhance employment opportunities; to encourage the efficient use of land; to enhance property values; to improve the design quality of downtown areas; to create a unique downtown center which fosters the arts, entertainment, financial, office, retail and governmental activities; to provide safety and security; encourage permitted residential uses within the downtown area; and to help implement adopted plans.

B. Site Plan Review; Design Review: In certain districts, permitted uses and conditional uses have the potential for adverse impacts if located and laid out on lots without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. Design review is a process which addresses elements of urban design.

Site plan review, pursuant to chapter 21A.58 of this title, for all of the downtown districts, D-1, D-2, D-3 and D-4 is required to protect the local economy, maintain safe traffic conditions, maintain the environment, and assure harmonious land-use relationships between commercial uses and more sensitive land uses in affected areas.

Design review is necessary to implement the policies of the urban design plan as adopted by the city council. Design review shall apply only to conditional uses in the D-1 and D-4 districts. In the D-1 district, the conditional use process is used to evaluate and resolve urban design issues related to the downtown area.

C. Development Review Steps In The Downtown Districts: The process for review of development proposals in the downtown districts is illustrated in the diagram set forth in section 21A.30.070 of this chapter. The specific procedures involving conditional use approval and site plan review are set forth in part V of this title.

All proposed uses shall be subject to site plan review. For conditional uses in the D-1 district, the petition will be forwarded to the planning commission for approval.

D. Impact Controls And General Restrictions In The Downtown Districts:

1. Refuse Control: Refuse containers must be covered and shall be stored within completely enclosed buildings or screened in conformance with the requirements of chapter 21A.48 of this title. For buildings existing as of April 12, 1995, this screening provision shall be required if the floor area or parking requirements are increased by twenty five percent (25%) or more by an expansion to the building or change in the type of land use.

2. Lighting: On site lighting, including parking lot lighting and illuminated signs, shall be located, directed or designed in such a manner so as not to create glare on adjacent properties.

E. Outdoor Sales, Display And Storage: "Outdoor sales and display" and "outdoor storage", as defined in chapter 21A.62 of this title, are allowed where specifically authorized in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter. These uses shall conform to the following:

1. The outdoor sales or display of merchandise shall not encroach into areas of required parking;

2. The outdoor sales or display of merchandise shall not be located in any required yard area within the lot;

3. The outdoor sales or display of merchandise shall not include the use of banners, pennants or strings of pennants;

4. Outdoor storage shall be allowed only where specifically authorized in the applicable district regulation and shall be required to be fully screened with opaque fencing not to exceed eight feet (8') in height; and

5. Outdoor sales and display and outdoor storage shall also be permitted when part of an authorized temporary use as established in chapter 21A.42 of this title.

F. Permitted Uses: The uses specified as permitted uses in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter are permitted; provided, that they comply with all requirements of this chapter, the general standards set forth in part IV of this title, and all other applicable requirements of this title.

G. Conditional Uses: The uses specified as conditional uses in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter, shall be permitted in the downtown districts provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title, including the design review process established in this chapter.

H. Off Street Parking And Loading: All uses in the downtown districts shall comply with the provisions governing off street parking and loading in chapter 21A.44 of this title.

I. Landscaping And Buffering: All uses in the downtown districts shall comply with the provisions governing landscaping and buffering in chapter 21A.48 of this title, including section 21A.48.100 of said chapter.

J. Signs: Signs shall be allowed in the downtown districts in accordance with provisions of chapter 21A.46 of this title.

K. Environmental Performance Standards: All uses in the downtown districts shall conform to the environmental performance standards in section 21A.36.180 of this title. (Ord. 83-98 § 1, 1998: Ord. 26-95 § 2(15-0), 1995)

21A.30.020: D-1 CENTRAL BUSINESS DISTRICT:

A. Purpose Statement: The purpose of the D-1 central business district is to provide for commercial and economic development within Salt Lake City's most urban and intense areas. A broad range of uses, including very high density housing, are intended to foster a twenty four (24) hour activity environment consistent with the area's function as the business, office, retail, entertainment, cultural and tourist center of the region. Development is intended to be very intense with high lot coverage and large buildings that are placed close together while being oriented toward the pedestrian with a strong emphasis on a safe and attractive streetscape and preserving the urban nature of the downtown area. This district is appropriate in areas where supported by applicable master plans. The standards are intended to achieve established objectives for urban design, pedestrian amenities and land use control.

B. Uses: Uses in the D-1 central business district as specified in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.30.010 of this chapter. In addition, all conditional uses in the D-1 district shall be subject to design evaluation and approval by the planning commission.

C. Organization Of District Regulations: In addition to regulations that apply to the D-1 central business district as a whole, three (3) sets of regulations are contained in this district that apply to specific geographical areas:

1. Special Controls Over Block Corners: These regulations apply only to properties within a specified distance from street intersections, as established in subsection E of this section.
2. Special Controls Over Mid Block Areas: These regulations apply only to the intervening property between block corner properties, as established in subsection F of this section.
3. Special Controls Over The Main Street Retail Core: These regulations apply only to the Main Street retail core area, as established in subsection G of this section. The regulations governing block corners and mid block areas also apply to the Main Street retail core.

D. D-1 District General Regulations: The regulations established in this section apply to the D-1 district as a whole.

1. Minimum Lot Size: No minimum lot area or lot width is required, except in block corner areas as specified in subsection E5 of this section.
2. Yard Requirements:
   a. Front and corner side yards: No minimum yards are required, however, no yard shall exceed five feet (5') except as authorized through the conditional building and site design review process. Such conditional building and site design reviews shall be subject to the requirements of chapter 21A.59 of this title. Where an entire block frontage is under one ownership, the setback for that block frontage shall not exceed twenty five feet (25'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title.
   b. Interior side and rear yards: None required.
3. Restrictions On Parking Lots And Structures: An excessive influence of at or above ground parking lots and structures can negatively impact the urban design objectives of the D-1 district. To control such impacts, the following regulations shall apply to at or above ground parking facilities:
   a. Within block corner areas and on Main Street, parking lots and structures shall be located behind principal buildings, or at least seventy five feet (75') from front and corner side lot lines.
   b. Within the mid block areas, parking lots and structures shall conform to the following:
      (1) Retail goods/service establishments, offices and/or restaurants shall be provided on the first floor adjacent to the front or corner side lot line. The facades of such first floor shall be compatible and consistent with the associated retail or office portion of the building and other retail uses in the area.
      (2) Levels of parking above the first level facing the front or corner side lot line shall have floors/facades that are horizontal, not sloped.
   c. Accessory parking structures built prior to the principal use, and commercial parking structures, shall be permitted as conditional uses with the approval of the planning commission pursuant to the provisions of chapter 21A.54 of this title.
   d. No special restrictions shall apply to belowground parking facilities.
   e. Parking lots, proposed as a principal use to facilitate a building demolition, shall be permitted as a conditional use with the approval of the planning commission pursuant to the provisions of chapter 21A.54 of this title, where it is found that the parking lot is:
      (1) Associated with a proposed principal land use; or
      (2) Shown to be necessary for an existing adjacent land use(s). Demand shall be demonstrated through affidavits or executed lease agreements for off site parking. Said lot shall be located within five hundred feet (500') of the principal use(s) that it is proposed to serve, and shall not exceed more than fifty percent (50%) of the required parking stall count for said use(s); or
      (3) Not associated with a principal land use or a specific increase in parking demand. The applicant shall document to the planning commission's satisfaction that there is a need for more commercial parking in a given area and, if so, it must participate in the overall downtown token program.
4. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade within the D-1 central business district shall be at least forty percent (40%) glass surfaces, except that in the Main Street retail core where this requirement shall be sixty percent (60%). All first floor glass in the Main Street retail core shall be nonreflective type glass. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title. The planning director may approve a modification to this requirement, if the planning director finds:
   a. The requirement would negatively impact the historic character of the building, or
   b. The requirement would negatively impact the structural stability of the building.
   c. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).
   Appeal of administrative decision is to the planning commission.
5. Interior Plazas, Atriums And Galleries: Interior plazas, atriums and galleries shall be permitted throughout the D-1 central business district.
6. Location Of Service Areas: All loading docks, refuse disposal areas and other service activities shall be located on block interiors away from view of any public street. Exceptions to this requirement may be approved through the site plan review process when a permit applicant demonstrates that it is not feasible to accommodate these activities on the block interior. If such activities are permitted adjacent to a public street, a visual screening design approved by the zoning administrator shall be required.
7. Landscape Requirements: All buildings constructed after April 12, 1995, shall conform to the special landscape requirements applicable to the D-1 central business district as contained in chapter 21A.48 of this title.
8. Mid Block Walkways: As part of the city's plan for the downtown area, it is intended that mid block walkways be provided to facilitate pedestrian movement within the area. To delineate the public need for such walkways, the city has formulated an official plan for their location and implementation, which is on file at the planning division office. All buildings constructed after the effective date hereof within the D-1 central business district shall conform to this officially adopted plan for mid block walkways.
9. Landscape Requirements For Demolition Sites: Vacant lots, resulting from demolition activities where no replacement use is proposed, shall conform to chapter 21A.48 of this title, special landscape requirements applicable to the D-1 central business district.

E. Special Controls Over Block Corners:

1. Intent: Special controls shall apply to land at block corners to encourage greater commercial vitality in the downtown by focusing a higher level of development intensity at street intersections. Control over the intensity of development on blocks is needed due to the large size of blocks and streets and the resulting effects on pedestrian/vehicular circulation and business activity.
2. Block Corner: "Block corner" means the ninety degree (90°) intersection of private property adjacent to the intersection of two (2) public street rights of way both of which are at least one hundred thirty two feet (132') wide.
3. Corner Building: "Corner building" means a building, the structure of which rises above the ground within one hundred feet (100') of a block corner on the street face and one hundred feet (100') in depth.
4. Application: For corner buildings, the provisions of this subsection shall extend to one hundred sixty five feet (165') from the block corner on the street face and one hundred sixty five feet (165') in depth.
5. Lot Size And Shape: The size and shape of the lot shall conform to the following. Lots existing prior to April 12, 1995, which do not meet these requirements shall be exempt.
   a. Minimum lot area: Ten thousand (10,000) square feet.
   b. Minimum lot width: One hundred feet (100').
6. Height Regulations: No corner building shall be less than one hundred feet (100') nor more than three hundred seventy five feet (375') in height. The minimum one hundred foot (100') high portion of the building shall be located not farther than five feet (5') from the lot line along front and corner lot lines. Buildings higher than three hundred seventy five feet (375') may be allowed in accordance with the provisions of subsections E6a and E6b of this section.
   a. Conditions For Taller Corner Buildings: Corner buildings may exceed the three hundred seventy five foot (375') height limit provided they conform to the following requirements:
      (1) To minimize excessive building mass at higher elevations and preserve scenic views, some or all of the building mass over the three hundred seventy five foot (375') height level shall be subject to additional setback, as determined appropriate through the conditional building and site design review process.
      (2) Not less than one percent (1%) of the building construction budget shall be used for enhanced amenities, including art visible to the public, enhanced design elements of the exterior of the building or exterior spaces available to the public for cultural or recreational activities. The property owner shall not be required to exceed one hundred thousand dollars ($100,000.00) in required amenities.
      (3) The operation of uses within the building, including accessory parking facilities, shall comply with the adopted traffic demand management guidelines administered by the city traffic engineer.
   b. Additional Standards For Certain Height Modifications:
      (1) The first one hundred feet (100') of height shall not be set back from the street front more than five feet (5') except that setbacks above the first fifty feet (50') may be approved through the conditional building and site design review process.
      (2) Modifying the height will achieve the preservation of a landmark site or contributing structure in an H historic preservation overlay district.
      (3) Modifying the height will allow interim service commercial uses to support the downtown community.
   c. Conditional Building And Site Design Approval: A modification to the height regulations in subsection E6a of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

F. Special Controls Over Mid Block Areas:

1. Intent: Special controls shall apply to land located at the middle of blocks. Such controls are needed to establish coordinated levels of development intensity and to promote better pedestrian and vehicular circulation.
2. Area Of Applicability: The controls established under this subsection shall apply to:
   a. Buildings constructed after April 12, 1995; and
   b. All intervening land between block corner properties, as established in subsection E2 of this section.
3. Height Regulations: No building shall be more than one hundred feet (100') in height; provided, that taller buildings may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title.

G. Special Controls Over The Main Street Retail Core:

1. Intent: Special controls shall apply to land located within the Main Street retail core area to preserve and enhance the viability of retail uses within the downtown area. The regulations of this subsection shall be in addition to the requirements of subsections E and F of this section.
2. Area Of Applicability: The controls established in this subsection shall apply to property developed or redeveloped after April 12, 1995, when located along any block face on the following streets:
   a. Main Street between South Temple Street and 400 South Street;
   b. 100 South Street between West Temple Street and State Street;
   c. 200 South Street between West Temple Street and State Street; and
   d. 300 South Street between West Temple Street and State Street.
3. First Floor Retail Required: The first floor space of all buildings within this area shall be required to provide uses consisting of retail goods establishments, retail service establishments or restaurants, public service portions of businesses, department stores, art galleries, motion picture theaters or performing arts facilities.
4. Restrictions On Driveways: Driveways shall not be permitted along Main Street, but shall be permitted along other streets within the Main Street retail core area, provided they are located at least eighty feet (80') from the intersection of two (2) street right of way lines. (Ord. 15-13, 2013)

21A.30.030: D-2 DOWNTOWN SUPPORT DISTRICT:

A. Purpose Statement: The purpose of the D-2 downtown support commercial district is to provide an area that fosters the development of a sustainable urban neighborhood that accommodates commercial, office, residential and other uses that relate to and support the central business district. Development within the D-2 downtown support commercial district is intended to be less intensive than that of the central business district, with high lot coverage and buildings placed close to the sidewalk. This district is appropriate in areas where supported by applicable master plans. Design standards are intended to promote pedestrian oriented development with a strong emphasis on a safe and attractive streetscape.

B. Uses: Uses in the D-2 downtown support district, as specified in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.30.010 of this chapter and this section.

C. Lot Size Requirements: No minimum lot area or lot width shall be required.

D. Maximum Building Height: No building shall exceed sixty five feet (65'). Buildings taller than sixty five feet (65') but less than one hundred twenty feet (120') may be authorized through the conditional building and site design process, subject to the requirements of chapter 21A.59 of this title.

E. Minimum Yard Requirements: None required. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(15-2), 1995)

21A.30.040: D-3 DOWNTOWN WAREHOUSE/RESIDENTIAL DISTRICT:

A. Purpose Statement: The purpose of the D-3 downtown warehouse/residential district is to provide for the reuse of existing warehouse buildings for multi-family and mixed use while also allowing for continued retail, office and warehouse use within the district. The reuse of existing buildings and the construction of new buildings are to be done as multi-family residential or mixed use developments containing retail or office uses on the lower floors and residential on the upper floors. This district is appropriate in areas where supported by applicable master plans. The standards are intended to create a unique and sustainable downtown neighborhood with a strong emphasis on urban design, adaptive reuse of existing buildings, alternative forms of transportation and pedestrian orientation.

B. Uses: Uses in the D-3 downtown warehouse/residential district as specified in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter, are permitted subject to the provisions of this chapter and other applicable provisions of this title.

C. Controls Over Mixed Use: The concept of mixed use is central to the nature of the D-3 downtown warehouse/residential district. To ensure that mixed use developments provide for on site compatibility as well as neighborhood compatibility, the change of land use type or an increase in floor area by twenty five percent (25%) of existing principal buildings and the construction of buildings for new uses after April 12, 1995, shall conform to the following provisions. Construction related to the rehabilitation including remodeling or modification of existing uses, or the change of use to a similar use, shall not be subject to these provisions:

1. Buildings containing commercial/office uses located above the second story shall incorporate multi-family dwellings, boarding house, bed and breakfast, or hotel uses in the amount of at least fifty percent (50%) of the total floor area of the building;

2. Commercial/office uses shall be permitted as the sole use in two-story buildings only; and

3. Commercial/office uses in buildings of three (3) stories or more without multi-family dwellings shall be allowed only as a conditional use and then only when the applicant has demonstrated that the proposed location is not suitable for multi-family residential use.

D. Lot Size Requirements: No minimum lot area or lot width shall be required.

E. Maximum Building Height: No building shall exceed seventy five feet (75'). Buildings taller than seventy five feet (75') but less than ninety feet (90') may be authorized through the conditional building and site design review process, provided the additional height is supported by the applicable master plan, the overall square footage of the buildings is greater than fifty percent (50%) residential use, and subject to the requirements of chapter 21A.59 of this title.

F. Minimum Yard Requirements: None required, except for surface parking lots which are required to be set back from the front and corner side yard property lines fifteen feet (15').

G. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade within the D-3 downtown warehouse/residential district, shall be at least forty percent (40%) glass surfaces. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title. The planning director may approve a modification to this requirement, if the planning director finds:

1. The requirement would negatively impact the historic character of the building, or

2. The requirement would negatively impact the structural stability of the building.

3. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

H. Mid Block Walkways: As a part of the city's plan for the downtown area, it is intended that mid block walkways be provided to facilitate pedestrian movement within the area. To delineate the public need for such walkways, the city has formulated an official plan for their location and implementation, which is on file at the planning division office. All buildings constructed within the D-3 downtown district shall conform to this plan for mid block walkways.

I. Special Provisions:

1. All new buildings constructed in the D-3 downtown district shall have a minimum of seventy percent (70%) of the exterior material of brick, masonry, textured or patterned concrete and/or cut stone. The seventy percent (70%) includes the windows of the building.

a. Except for minor building designs (e.g., soffit, fascia) the following materials are only allowed under the conditional building and site design review process: EIFS, vinyl, tilt-up concrete panels, corrugated metal and aluminum siding and other materials.

b. Two-dimensional curtain wall veneer of glass, spandrel glass or metal as a primary building material is prohibited.

c. The fenestration of all new construction shall be three-dimensional (e.g., recessed windows, protruding cornices, etc.).

2. Notwithstanding the residential parking requirements, any building that has ten (10) or more residential units with at least twenty percent (20%) of the units as either affordable, senior housing, or assisted living units shall be allowed to have a minimum of one-half ($^1/_2$) of a parking space provided for each dwelling unit.

3. A modification to the special provisions of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

J. Minimum Open Space: All lots containing dwelling units shall provide common open space in the amount of twenty percent (20%) of the lot area. This common open space may take the form of ground level plazas, interior atriums, landscape areas, roof gardens and decks on top of buildings or other such forms of open space available for the common use by residents of the property. (Ord. 15-13, 2013)

21A.30.045: D-4 DOWNTOWN SECONDARY CENTRAL BUSINESS DISTRICT:

A. Purpose Statement: The purpose of the D-4 secondary central business district is to foster an environment consistent with the area's function as a housing, entertainment, cultural, convention, business, and retail section of the city that supports the central business district. Development is intended to support the regional venues in the district, such as the Salt Palace Convention Center, and to be less intense than in the central business district. This district is appropriate in areas where supported by applicable master plans. The standards are intended to achieve established objectives for urban and historic design, pedestrian amenities, and land use control, particularly in relation to retail commercial uses.

B. Uses: Uses in the D-4 secondary central business district as specified in section 21A.30.050, "Table Of Permitted And Conditional Uses For Downtown Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.30.010 of this chapter. In addition, all conditional uses in the D-4 district shall be subject to design evaluation and approval by the planning commission.

C. D-4 District General Regulations:

1. Minimum Lot Size: No minimum lot area or lot width is required.

2. Yard Requirements:

a. Front and corner side yards: No minimum yards are required, however, no yard shall exceed five feet (5') except as authorized through the conditional building and site design review process. Such designs shall be subject to the requirements of chapter 21A.59 of this title. Where an entire block frontage is under one ownership, the setback for that block frontage shall not exceed twenty five feet (25'). Exceptions to this requirement may be authorized through the conditional building and site design review process subject to the requirements of chapter 21A.59 of this title.

b. Interior side and rear yards: None required.

3. Restrictions On Parking Lots And Structures: An excessive influence of at or above ground parking lots and structures can negatively impact the urban design objectives of the D-4 district. To control such impacts, the following regulations shall apply to at or above ground parking facilities:

a. Within block corner areas, structures shall be located behind principal buildings, or at least seventy five feet (75') from front and corner side lot lines.

b. Within the mid block areas, parking structures shall be located behind principal buildings, or at least thirty feet (30') from front and corner side lot lines. A modification to this requirement may be granted as a conditional use, subject to conformance with the standards and procedures of chapter 21A.54 of this title. Parking structures shall meet the following:

(1) Retail goods/service establishments, offices and/or restaurants shall be provided on the first floor adjacent to the front or corner side lot line. The facades of such first floor shall be compatible and consistent with the associated retail or office portion of the building and other retail uses in the area.

(2) Levels of parking above the first level facing the front or corner side lot line shall have floors/facades that are horizontal, not sloped.

(3) Mid block surface parking lots shall have a fifteen foot (15') landscaped setback.

c. Accessory parking structures built prior to the principal use, and commercial parking structures, shall be permitted as conditional uses with the approval of the planning commission pursuant to the provisions of chapter 21A.54 of this title.

d. No special restrictions shall apply to belowground parking facilities.

e. At grade (surface) parking facilities shall be set back behind the principal building and shall be set back at least seventy five feet (75') from front and corner side lot lines and landscaped in a way that minimizes visual impacts.

4. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade within the D-4 secondary central business district, shall be at least forty percent (40%) glass surfaces. All first floor glass shall be nonreflective type glass. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title. The planning director may approve a modification to this requirement, if the planning director finds:

a. The requirement would negatively impact the historic character of the building; or

b. The requirement would negatively impact the structural stability of the building.

c. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

5. Interior Plazas, Atriums And Galleries: Interior plazas, atriums and galleries shall be permitted throughout the D-4 secondary central business district.

6. Location Of Service Areas: All loading docks, refuse disposal areas and other service activities shall be located on block interiors away from view of any public street. Exceptions to this requirement may be approved through the site plan review process when a permit applicant demonstrates that it is not feasible to accommodate these activities on the block interior. If such activities are permitted adjacent to a public street, a visual screening design approved by the zoning administrator shall be required.

7. Landscape Requirements: All buildings constructed after April 12, 1995, shall conform to the special landscape requirements applicable to the D-4 secondary central business district as contained in chapter 21A.48 of this title.

8. Maximum Building Height: No building shall exceed seventy five feet (75'). Buildings taller than seventy five feet (75') but less than one hundred twenty feet (120') may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title.

9. Mid Block Walkways: As a part of the city's plan for the downtown area, it is intended that mid block walkways be provided to facilitate pedestrian movement within the area. To delineate the public need for such walkways, the city has formulated an official plan for their location and implementation, which is on file at the planning division office. All buildings constructed after the effective date hereof within the D-4 downtown district shall conform to this plan for mid block walkways.

10. Mid Block Streets: Developments constructing mid block streets, either privately owned with a public easement or publicly dedicated, that are desired by an applicable master plan:

a. May use a portion or all of the overhead and underground right of way of the new mid block street as part of their developable area irrespective of lot lines, subject to design review and approval of the planning commission.

b. May increase the height of the building on the remaining abutting parcel, subject to the conditional building and site design review process in conformance with the standards and procedures of chapter 21A.59 of this title.

11. Exception To Parking Requirements: Notwithstanding the residential parking requirements, any building that has ten (10) or more residential units with at least twenty percent (20%) of the units as either affordable, senior housing, or assisted living units shall be allowed to have a minimum of one-half ($^1/_2$) of a parking space provided for each dwelling unit. (Ord. 15-13, 2013)

21A.30.050: TABLE OF PERMITTED AND CONDITIONAL USES FOR DOWNTOWN DISTRICTS:

Legend:	C =	Conditional	P =	Permitted

	Permitted And Conditional Uses By District

Use	D-1	D-2	D-3	D-4
Residential:				
Eleemosynary facilities	P	P	P	P
Group home, large (see section 21A.36.070 of this title)		C	C	
Group home, small (see section 21A.36.070 of this title) above or below first story office, retail and commercial use or on the first story, as defined in the adopted building code where the unit is not located adjacent to the street frontage	P	P	P	P
Homeless shelter			C	
Mixed use developments, including residential and other uses allowed in the zoning district	P	P	P	P

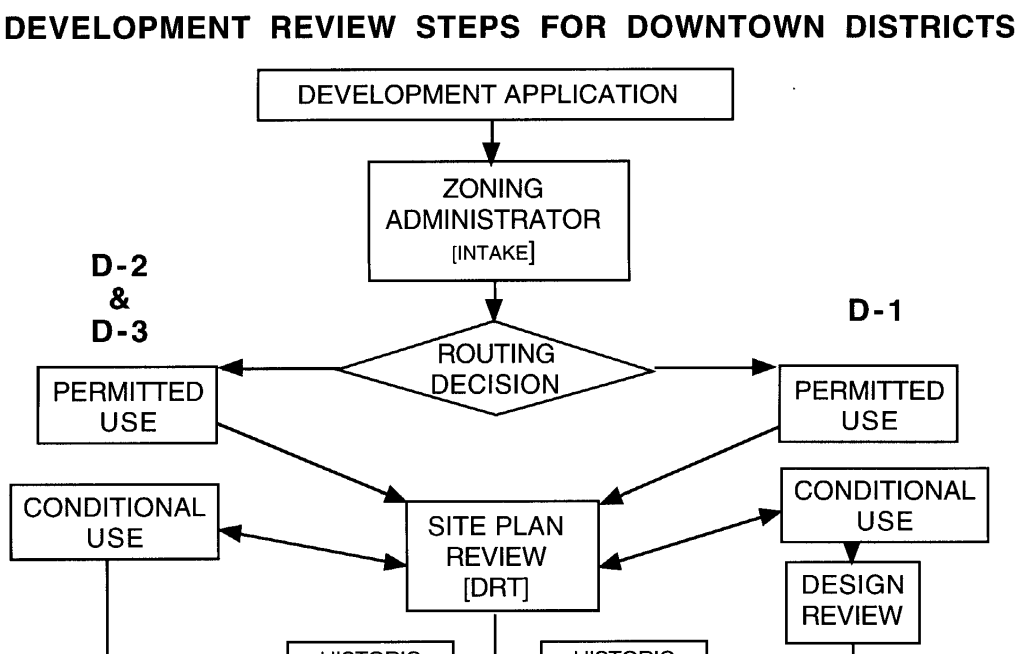
Qualifying provisions:
1.Subject to conformance to the provisions in subsection 21A.02.050B of this title.
2.Radio station equipment and antennas shall be required to go through the site plan review process to ensure that the color, design and location of all proposed equipment and antennas are screened or integrated into the architecture of the project and are compatible with surrounding uses.
3.Uses allowed only within the boundaries and subject to the provisions of the downtown Main Street core overlay district (section 21A.34.110 of this title).
4.Any car wash located within 165 feet (including streets) of a residential use shall only be permitted as a conditional use.
5.Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to the conditional use process.
6.No check cashing/payday loan business shall be located closer than $^1/_2$ mile of other check cashing/payday loan businesses.
7.Subject to conformance with the provisions in section 21A.36.300, "Alcohol Related Establishments", of this title.

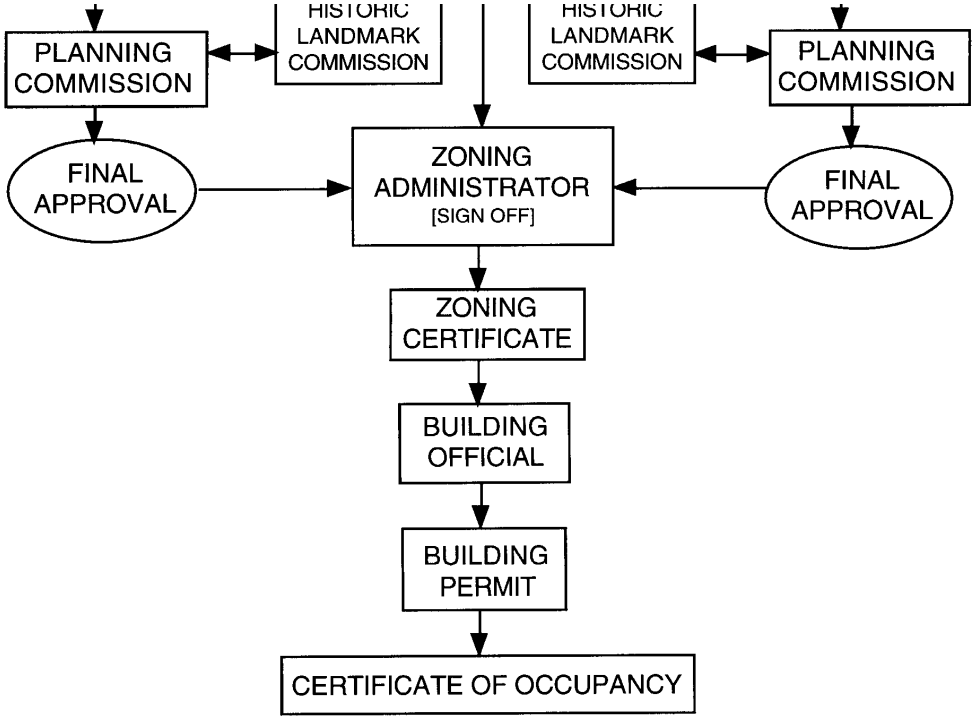
(Ord. 65-12, 2012)

21A.30.060: SUMMARY TABLE OF YARD AND BULK REQUIREMENTS; DOWNTOWN DISTRICTS:

(Rep. by Ord. 19-11, 2011)

21A.30.070: DOWNTOWN DISTRICTS DEVELOPMENT APPROVAL PROCESS:





(Ord. 26-95 § 2(15-6), 1995)

CHAPTER 21A.31
GATEWAY DISTRICTS

21A.30.045: D-4 DOWNTOWN SECONDARY CENTRAL BUSINESS DISTRICT:

A. Statement Of Intent: The gateway districts are intended to provide controlled and compatible settings for residential, commercial, and industrial developments, and implement the objectives of the adopted gateway development master plan through district regulations that reinforce the mixed use character of the area and encourage the development of urban neighborhoods containing supportive retail, service commercial, office, industrial uses and high density residential.

B. Uses: Uses in the gateway district as specified in section 21A.31.050, "Table Of Permitted And Conditional Uses In The Gateway District", of this chapter, are permitted subject to the general provisions set forth in this section.

C. Permitted Uses: The uses specified as permitted uses, in section 21A.31.050, "Table Of Permitted And Conditional Uses In The Gateway District", of this chapter are permitted; provided, that they comply with all requirements of this chapter, the general standards set forth in part IV of this title, and all other applicable requirements of this title.

D. Conditional Uses: The uses specified as conditional uses in section 21A.31.050, "Table Of Permitted And Conditional Uses In The Gateway District", of this chapter, shall be permitted in the gateway district provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title, including the urban design evaluation and/or the conditional building and site design review process established in this chapter and chapter 21A.59 of this title.

E. Site Plan Review; Design Review: In certain districts, permitted uses and conditional uses have the potential for adverse impacts if located and oriented on lots without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. The design may also be evaluated to address elements of urban design.

Site plan review, pursuant to chapter 21A.58 of this title, for all of the gateway districts, is required to protect the local economy, maintain safe traffic conditions, maintain the environment, and assure harmonious land-use relationships between commercial uses and more sensitive land uses in affected areas.

Design evaluation is necessary to implement the policies of the urban design plan as adopted by the city council. Design review shall apply to conditional uses in the gateway district. In the gateway district, the conditional building and site design review process is used to evaluate and resolve urban design.

F. Mid Block Walkways: As a part of the city's plan for the downtown area, it is intended that mid block walkways be provided to facilitate pedestrian movement within the area. To delineate the public need for such walkways, the city has formulated an official plan for their location and implementation, which is on file at the planning division office. All buildings constructed after the effective date hereof within the G-MU gateway-mixed use district shall conform to this plan for mid block walkways.

G. Location Of Service Areas: All loading docks and other service activities shall be located on block interiors away from view of any public street. Exceptions to this requirement may be approved through the site plan review process when a permit applicant demonstrates that it is not feasible to accommodate these activities on the block interior. If such activities are permitted adjacent to a public street, a visual screening design approved by the zoning administrator shall be required.

H. Restrictions On Parking Lots And Structures: The following regulations shall apply to surface or aboveground parking facilities:

1. Block Corner Areas: Within block corner areas, surface parking lots and structures shall be located behind principal buildings, or at least seventy five feet (75') from front and corner side lot lines.
2. Mid Block Areas: Within the mid block areas, parking structures shall be located behind principal buildings, or at least thirty feet (30') from front and corner side lot lines. A modification to this requirement may be granted as a conditional use, subject to conformance with the standards and procedures of chapter 21A.54 of this title. Parking structures shall meet the following:
   a. Retail goods/service establishments, offices and/or restaurants shall be provided on the first floor adjacent to the front or corner side lot line. The facades of such first floors shall be compatible and consistent with the associated retail or office portion of the building and other retail uses in the area.
   b. Levels of parking above the first level facing the front or corner side lot line shall have floors and/or facades that are horizontal, not sloped.
   c. Mid block surface parking lots shall have a fifteen foot (15') landscaped setback.
3. Accessory And Commercial Parking Structures: Accessory parking structures built prior to the principal use, and commercial parking structures, shall be permitted as conditional uses with the approval of the planning commission pursuant to the provisions of chapter 21A.54 of this title.
4. Belowground Parking Facilities: No special design and setback restrictions shall apply to belowground parking facilities.
5. Height Requirements: The minimum height for a parking structure shall be forty five feet (45'). The maximum height shall not exceed seventy five feet (75').
6. Site Plan Review: Parking structures shall be required to go through the site plan review process.
7. Landscape Requirements: Surface parking lots shall have a landscaped setback of at least twenty feet (20') and meet interior landscaped requirements as outlined in chapter 21A.48 of this title.
8. Conditional Building And Site Design Approval: A modification to the restrictions on parking lots and structures provisions of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title. Such conditional uses shall also be subject to urban design evaluation.

I. Impact Controls And General Restrictions:

1. Refuse Control: Refuse containers must be covered and shall be stored within completely enclosed buildings or screened in conformance with the requirements of chapter 21A.48 of this title. For buildings existing as of April 12, 1995, this screening provision shall be required if the floor area or parking requirements are increased by twenty five percent (25%) or more by an expansion to the building or change in the type of land use.
2. Lighting: On site lighting, including parking lot lighting and illuminated signs, shall be located, directed or designed in a manner to prevent glare on adjacent properties.

J. Outdoor Sales, Display And Storage: "Outdoor sales and display" and "outdoor storage", as defined in chapter 21A.62 of this title, are allowed where specifically authorized in section 21A.31.050, "Table Of Permitted And Conditional Uses In The Gateway District", of this chapter. These uses shall conform to the following:

1. Outdoor sales and display and outdoor storage may also be permitted when part of an authorized temporary use as established in chapter 21A.42 of this title;
2. The outdoor permanent sales or display of merchandise shall not encroach into areas of required parking;
3. The outdoor permanent sales or display of merchandise shall not be located in any required yard area within the lot;
4. The outdoor sales or display of merchandise shall not include the use of banners, pennants or strings of pennants; and

5. Outdoor storage shall be allowed only where specifically authorized in the applicable district regulation and shall be required to be fully screened with opaque fencing not to exceed eight feet (8') in height.

K. Off Street Parking And Loading: All uses in the gateway district shall comply with the provisions governing off street parking and loading in chapter 21A.44 of this title.

1. Notwithstanding the residential parking requirements, any building that has ten (10) or more residential units with at least twenty percent (20%) of the units as either affordable, senior housing, or assisted living units shall be allowed to have a minimum of one-half ($^1/_2$) of a parking space provided for each dwelling unit.

L. Environmental Performance Standards: All uses in the gateway district shall conform to the environmental performance standards in section 21A.36.180 of this title.

M. Wall Or Fencing: All uses in the gateway district shall comply with the provisions governing fences, walls and hedges in section 21A.40.120 of this title.

N. Affordable Housing:

1. Notwithstanding the minimum height requirements identified above, any buildings that have ten (10) or more residential units with at least twenty percent (20%) of the units as affordable shall be allowed to have a minimum building height of thirty feet (30').

2. Affordable housing units within a market rate development shall be integrated throughout the project in an architectural manner.

O. Accessory Uses, Buildings And Structures: Accessory uses and structures are permitted in the gateway district subject to the requirements of this chapter, chapter 21A.36, subsection 21A.36.020B, section 21A.36.030, and chapter 21A.40 of this title.

P. Urban Design: The urban design standards are intended to foster the creation of a rich urban environment that accommodates growth and is compatible with existing buildings and uses in the area. All general development and site plans shall be designed to complement the surrounding existing contiguous (historic) development. The following design standards will provide human scale through change, contrast, intricacy, color and materials where the lower levels of buildings face public streets and sidewalks. They will also spatially define the street space in order to concentrate pedestrian activity, create a clear urban character and promote visibility of commercial activities at the ground level. The standards will also encourage diversity through the use of building forms and materials, while respecting the patterns, styles and methods of construction traditionally used in the gateway area.

The following urban design standards will be reviewed as part of the site plan review process, with assistance from planning division staff as necessary:

1. Architectural Character And Materials:

a. A differentiated base (on a building over 45 feet high) will provide human scale through change, contrast, and intricacy in facade form, color and/or material where the lower levels of the building face the sidewalk(s) and street(s). Scaling elements such as insets and projections serve to break up flat or monotonous facades, and respond to older nearby buildings. Therefore, all buildings in the gateway districts are subject to the following standards:

(1) All buildings over forty five feet (45') in height shall be designed with a base that is differentiated from the remainder of the building. The base shall be between one and three (3) stories in height, be visible from pedestrian view, and appropriately scaled to the surrounding contiguous historic buildings. The base shall include fenestration that distinguishes the lower from upper floors. Insets and/or projections are encouraged.

(2) All new buildings in the gateway district shall have a minimum of seventy percent (70%) of the exterior material (excluding windows) be brick, masonry, textured or patterned concrete and/or cut stone. With the exception of minor building elements (e.g., soffit, fascia) the following materials are allowed only through the conditional building and site design review process: EIFS, tilt-up concrete panels, corrugated metal, vinyl and aluminum siding, and other materials.

(3) All buildings which have been altered over seventy five percent (75%) on the exterior facade shall comply with the exterior material requirement for new construction. Buildings older than fifty (50) years are exempt from this requirement if alterations are consistent with the existing architecture.

(4) Two-dimensional curtain wall veneer of glass, spandrel glass or metal as a primary building material is prohibited. The fenestration of all new construction shall be three-dimensional (e.g., recessed windows, protruding cornice, etc.).

b. The climate in Salt Lake City is such that in the summer months shade is preferred, and in the winter months protection from snow is preferred. By providing the pedestrian with a sidewalk that is enjoyable to use year round, a pedestrian oriented neighborhood is encouraged. Therefore, new construction in the gateway area is subject to the following standards:

(1) Arcades are permitted in the gateway district, but where an arcade extends over the public way, a revocable permit is required. Where an arcade is on private property facing the street, the maximum setback for the building shall be measured to the supporting beams for the arcade or the facade of the upper floors, not the facade of the arcade level.

(2) Awnings and/or marquees, with or without signage, are required over entry doors which are set back from the property line and may be allowed, under revocable permit, when an entry is at a property line.

(3) Awnings, with or without signage, are permitted over ground level windows. Where awnings extend out over the public way, a revocable permit is required.

2. Windows And Building Fenestration:

a. Buildings whose exteriors are smooth, and do not provide any three-dimensional details or fenestration are not appropriate in the gateway district. Recessed windows will eliminate flat, sterile elevations. Highly reflective materials are distracting, and focus attention away from the positive qualities of the gateway district. Therefore, all buildings in the gateway districts are subject to the following standards:

(1) Buildings with completely smooth exterior surfaces shall not be permitted, all new construction shall have three-dimensional details on the exterior that includes cornices, windowsills, headers and similar features.

(2) All windows shall be recessed from the exterior wall a minimum of three inches (3"). Bay windows, projecting windows, and balcony doors are exempt from this requirement.

(3) The reflectivity of the glass used in the windows shall be limited to eighteen percent (18%) as defined by the ASTA standard.

3. Entrance And Visual Access:

a. The intent in the gateway district is to encourage pedestrian activity between the public street/sidewalk and buildings. Sidewalks shall provide continuous, uninterrupted interest to the pedestrian by providing visual interest and/or amenities. The gateway environment will benefit with increased pedestrian activity; this activity will only occur if opportunities are provided that make walking to a destination a preferred and an enjoyable pursuit. The use of blank building facade walls is discouraged. Therefore, all buildings in the gateway area are subject to the following standards:

(1) Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade within the gateway district shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

(A) The requirement would negatively impact the historic character of the building, or

(B) The requirement would negatively impact the structural stability of the building.

(C) The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

(2) Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on either street, if the facades for both streets meet the forty percent (40%) glass requirement.

(3) Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

(4) Screening: All building equipment and service areas, including on-grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

4. Building Lines And Front Area Requirements:

a. A continuity of building frontage adjacent and parallel to the street encourages a more active involvement between building uses and pedestrians. Leftover or ambiguous open space that has no apparent use or sense of place will not contribute positively to an active street life. Therefore, all buildings in the gateway district are subject to the following standard:

(1) The majority of the ground level facade of a building shall be placed parallel, and not at an angle, to the street.

5. Public Amenities And Public Art:

a. Amenities and works of art enhance quality of life as well as visual interest. Public amenities and public art encourage pedestrian activity and contribute to the pedestrian experience. A cohesive, unified lighting and amenity policy will help give the gateway district its own distinctive identity. Therefore, public amenities and public art are subject to the following standards:

(1) Sidewalks and street lamps installed in the public right of way shall be of the type specified in the sidewalk/street lighting policy document.

(2) Public art (which may include artists' work integrated into the design of the building and landscaping, sculpture, painting, murals, glass, mixed media or work by artisans), that is accessible or directly viewable to the general public shall be included in all projects requiring conditional building and site design review approval for a site or design standard. The plan to incorporate public art shall be reviewed by the Salt Lake art design board.

6. Conditional Building And Site Design Review Approval: A modification to the urban design provisions of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

Q. Definitions: For the purposes of this section, the following terms shall have the following meanings:

AFFORDABLE HOUSING: Housing which persons of income below the county area median are able to afford. See definitions of Moderate Income, Low Income and Very Low Income.

BLOCK FACE: Structures that appear on one of four (4) sides of a block, the structures along a street that are between two (2) other streets.

CONTIGUOUS: Next in sequence, touching or connected throughout an unbroken sequence.

FACADE: The front of a building, or any other "face" of a building on a street or courtyard given special architectural treatment.

FENESTRATION: The arrangement, proportioning and design of windows and doors in a building, an opening in a surface.

LOW INCOME: Between fifty percent (50%) and eighty percent (80%) of the county area median income.

MASSING: The principal part or main body of matter, bulk.

MODERATE INCOME: Between eighty percent (80%) and one hundred twenty percent (120%) of the county area median income.

PROPORTION: The relation of one part to another or to the whole with respect to magnitude, quantity or degree.

PROPORTIONAL: Corresponding in size, degree or intensity, having the same or a constant ratio.

REMODEL: To alter the structure of, remake.

SCALE: A proportion between two (2) sets of dimensions.

STREETSCAPE: A general description of all structures along a street frontage that may include: multiple buildings, benches, works of art, and landscaping.

VERY LOW INCOME: At or below fifty percent (50%) of the county area median income. (Ord. 15-13, 2013: Ord. 83-98 § 6 (Exh. D), 1998)

21A.31.020: G-MU GATEWAY-MIXED USE DISTRICT:

A. Purpose Statement: The G-MU gateway-mixed use district is intended to implement the objectives of the adopted gateway development master plan and encourage the mixture of residential, commercial and assembly uses within an urban neighborhood atmosphere. The 200 South corridor is intended to encourage commercial development on an urban scale and the 500 West corridor is intended to be a primary residential corridor from North Temple to 400 South. Development in this district is intended to create an urban neighborhood that provides employment and economic development opportunities that are oriented toward the pedestrian with a strong emphasis on a safe and attractive streetscape. The standards are intended to achieve established objectives for urban and historic design, pedestrian amenities and land use regulation.

B. Uses: Uses in the G-MU gateway-mixed use district as specified in section 21A.31.050, "Table Of Permitted And Conditional Uses In The Gateway District", of this chapter are permitted subject to the general provisions set forth in section 21A.31.010 of this chapter and this section.

C. Planned Development Review: All new construction of principal buildings, uses, or additions that increase the floor area and/or parking requirement by twenty five percent (25%) in the G-MU gateway-mixed use district may be approved only as a planned development in conformance with the provisions of chapter 21A.55 of this title.

D. Special Provisions:

1. Commercial Uses, 200 South: All buildings fronting 200 South shall have commercial uses that may include retail goods/services establishments, offices, restaurants, art galleries, motion picture theaters or performing arts facilities shall be provided on the first floor adjacent to the front or corner side lot line. The facades of such first floor shall be compatible and consistent with the associated retail or office portion of the building and other retail uses in the area.

2. Residential Units, 500 West: Buildings fronting on 500 West shall be required to have residential units occupying a minimum of fifty percent (50%) of the structure's gross square footage.

3. Mid Block Street Development: Developments constructing mid block streets, either privately owned with a public easement or publicly dedicated, that are desired by an applicable master plan:

a. May use a portion or all of the overhead and underground right of way of the new mid block street as part of their developable area irrespective of lot lines, subject to design evaluation and approval of the planning commission.

b. May increase the height of the building on the remaining abutting parcel, subject to conformance with the standards and procedures of chapter 21A.59, "Conditional Building And Site Design Review", of this title.

4. Conditional Building And Site Design Reviews: A modification to the special provisions of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

E. Building Height: The minimum building height shall be forty five feet (45') and the 200 South Street corridor shall have a minimum height of twenty five feet (25'). The maximum building height shall not exceed seventy five feet (75') except buildings with nonflat roofs (e.g., pitched, shed, mansard, gabled or hipped roofs) may be allowed, up to a maximum of ninety feet (90') (subject to subsection I of this section). The additional building height may incorporate habitable space.

1. Conditional Building And Site Design Review: A modification to the minimum building height or to the maximum building height (up to 120 feet) provisions of this section may be granted through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title, and subject to compliance to the applicable master plan.

2. Height Exceptions: Spires, tower, or decorative noninhabitable elements shall have a maximum height of ninety feet (90') and with conditional building and site design review approval may exceed the maximum height, subject to conformance with the standards and procedures of chapter 21A.59 of this title.

F. Minimum Lot Area And Lot Width: None required.

G. Minimum Yard Requirements: No minimum setback requirements. There is not a maximum front yard or corner side yard setback except that a minimum of twenty five percent (25%) of the length of the facade of a principal building shall be set back no farther than five feet (5') from the street right of way line. Surface parking lots shall have a fifteen foot (15') landscape setback from the front property line.

H. Signs: Signs shall be allowed in the gateway districts in accordance with provisions of chapter 21A.46 of this title.

I. Affordable Housing: Notwithstanding the maximum height requirements identified above, any buildings that have at least ten (10) or more residential units with at least twenty percent (20%) of the units as affordable shall be allowed a maximum building height of ninety feet (90'). The affordable units shall be integrated throughout the project in an architectural manner. (Ord. 15-13, 2013)

21A.31.050: TABLE OF PERMITTED AND CONDITIONAL USES IN THE GATEWAY DISTRICT:

Legend:	C =	Conditional	P =	Permitted

	Permitted And Conditional Uses By District
Use	**G-MU**
Residential:	
Eleemosynary facilities	P
Group home, large (see section 21A.36.070 of this title)	C
Group home, small (see section 21A.36.070 of this title) above or below first story office, retail and commercial uses or on the first story, as defined in the adopted building code where the unit is not located adjacent to the street frontage	P
Living quarters for caretaker or security guard	P
Multiple-family dwellings	P
Residential substance abuse treatment home, large (see section 21A.36.100 of this title)	C
Residential substance abuse treatment home, small (see section 21A.36.100 of this title)	C
Single-family residence - attached	P
Transitional treatment home, large (see section 21A.36.090 of this title)	C
Transitional treatment home, small (see section 21A.36.090 of this title)	C
Transitional victim home, large (see section 21A.36.080 of this title)	C
Transitional victim home, small (see section 21A.36.080 of this title)	C
Office and related uses:	
Financial institutions, with drive-through facilities	C
Financial institutions, without drive-through facilities	P
Medical and dental clinics	P
Offices	P
Veterinary office, operating entirely within an enclosed building and keeping animals overnight only for treatment purposes	
Retail sales and services:	
Auction sales (indoor)	P
Automobile repair, major (indoor)	P
Automobile repair, major (outdoor)	
Automobile repair, minor (indoor)	P
Automobile repair, minor (outdoor)	
Automobile sales/rental and service (indoor)	P
Automobile sales/rental and service (outdoor)	
Boat/recreational vehicle sales and service (indoor)	P
Boat/recreational vehicle sales and service (outdoor)	
Car wash	C
Conventional department store	P
Electronic repair shop	P
Equipment rental, indoor and outdoor	P
Furniture repair shop	
"Gas station" (may include accessory convenience retail and/or minor repairs as defined in chapter 21A.62 of this title)	C
Health and fitness facility	P
Mass merchandising store	P
Merchandise display rooms	P
Pawnshop	
Restaurants, with drive-through facilities	
Restaurants, without drive-through facilities	P
Retail goods establishments	P
Retail services establishments	P
Specialty store	P
Superstore and hypermarket	P
Upholstery shop	C
Value retail/membership wholesale	
Institutional:	
Adult daycare center	P
Child daycare center	P
Colleges and universities	P
Community and recreation centers	P
Government facilities (excluding those of an industrial nature and prisons)	P
Libraries	P
Museum	P
Music conservatory	P
Places of worship	P
School, professional and vocational	P
Schools, K - 12 private	P
Schools, K - 12 public	P
Seminaries and religious institutes	P
Commercial and manufacturing:	
Bakery, commercial	
Blacksmith shop	
Blood donation centers, commercial and not accessory to a hospital or medical clinic	
Bottling plant	
Cabinet and woodworking mills	
Carpet cleaning	P
Industrial assembly	C
Laboratory; medical, dental, optical	P
Miniwarehouse	C
Motion picture studio	C
Moving and storage	
Photo finishing lab	P
Plant and garden shop, with outdoor retail sales area	C
Printing plant	C
Publishing company	P
Sign painting/fabrication (indoor)	
Truck freight terminal	
Warehouse	C

Welding shop	
Wholesale distributors	C
Recreation, cultural and entertainment:	
Amusement park	C
Arenas, stadiums	P
Art galleries	P
Artists' lofts and studios	P
Botanical gardens	P
Brewpub (indoor)	P[2]
Brewpub (outdoor)	C[2]
Commercial indoor recreation	P
Commercial outdoor recreation	C
Commercial video arcade	P
Dance studio	P
Dining club (indoor)	P[2]
Dining club (outdoor)	C[2]
Live performance theaters	P
Miniature golf	P
Motion picture theaters	P
Movie theaters	P
Museums	P
Park (public and private)	P
Performance arts facilities	P
Private recreational facilities	P
Social club (indoor)	P[2]
Social club (outdoor)	C[2]
Tavern (indoor)	P[2]
Tavern (outdoor)	C[2]
Zoological park	C
Miscellaneous:	
Accessory uses, except those that are otherwise specifically regulated in this chapter, or elsewhere in this title	P
Ambulance services, dispatching, staging and maintenance conducted entirely within an enclosed building	C
Amphitheater	P
Auditorium	P
Auto salvage and recycling (indoor)	C
Bed and breakfast	P
Bed and breakfast inn	P
Bed and breakfast manor	P
Bus line terminal	C
Bus line yards and repair facilities	C
Commercial parking garage, lot or deck	C
Communication towers	P
Communication towers, exceeding the maximum building height	C
Community garden	P
Contractor's yard/office (with exterior storage)	C
Emergency response and medical service facilities including fire stations and living quarters	C
Farmers' market	P
Flea market (indoor)	P
Funeral home	
Graphic/design business	P
Heliports, accessory	C
Hotels and motels	P
Large wind energy system	
Limousine service	
Microbreweries	
Off site parking	P
Outdoor sales and display	C
Park and ride lots	C
Park and ride, parking shared with existing use	P
Precision equipment repair shops	
Public/private utility buildings and structures	P[1]
Public/private utility transmission wires, lines, pipes and poles	C
Radio stations	C
Railroad passenger station	C
Railroad "spur" delivery facility	C
Recycling collection station	
Reverse vending machines	
Seasonal farm stand	P
Social service missions and charity dining halls	C
Solar array	P
Street vendors (see title 5, chapter 5.64 of this code)	
Taxicab facilities, dispatching, staging and maintenance	
Television station	C
Temporary labor hiring office	P
Urban farm	P
Vending carts on private property as per title 5, chapter 5.65 of this code	P
Wireless telecommunications facilities (see section 21A.40.090, table 21A.40.090E of this title)	

Qualifying provisions:
1.Subject to conformance to the provisions in subsection 21A.02.050B of this title.
2.Subject to conformance with the provisions in section 21A.36.300, "Alcohol Related Establishments", of this title.

No conditional use permit shall be granted for any property which abuts a residential zoning district, except for places of worship, public/private utilities and related facilities, residential facilities for persons with a disability, planned developments and educational facilities.

(Ord. 65-12, 2012)

CHAPTER 21A.32
SPECIAL PURPOSE DISTRICTS

21A.32.010: GENERAL PROVISIONS:

A. Statement Of Intent: Certain geographic areas of the city contain land uses or platting patterns that do not fit traditional zoning classifications (e.g., residential, commercial, industrial) or uniform bulk regulations. These areas currently contain special land uses (e.g., airports or medical centers) which have a unique character, or contain mixed land uses which are difficult to regulate using uniform bulk and density standards. Because these areas have unique land uses, platting patterns and resources, special districts are needed to respond to these conditions. These special purpose districts are further intended to maintain the integrity of these areas, allow for greater flexibility in site design, and achieve the specialized goals for these areas.

B. Site Plan Review: In certain districts, permitted uses and conditional uses have the potential for adverse impacts if located and laid out without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. Site plan review of development proposals is required in the RP, BP, FP, PL, PL-2, I, UI, MH and MU districts. All uses in these districts shall be subject to the site plan review regulations contained in chapter 21A.58 of this title.

C. Permitted Uses: The uses specified as permitted uses in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted provided that they comply with all requirements of this chapter, the general standards set forth in part IV of this title and all other applicable requirements of this title.

D. Conditional Uses: The uses specified as conditional uses, in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, shall be allowed in the special purpose districts provided they are approved pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, and comply with all other applicable requirements of this title.

E. Accessory Uses, Buildings And Structures: Accessory uses, buildings and structures are allowed in special purpose districts subject to the requirements of this chapter, section 21A.36.020, table 21A.36.020B and chapter 21A.40 of this title.

F. Environmental Performance Standards: All uses shall conform to the environmental performance standards established in section 21A.36.180 of this title.

G. Off Street Parking And Loading: The parking and loading requirements for the special purpose districts are set forth in chapter 21A.44 of this title.

H. Signs: Signs shall be allowed in the special purpose districts in accordance with provisions of chapter 21A.46 of this title. (Ord. 73-02 § 2, 2002: Ord. 35-99 § 39, 1999: Ord. 12-98 § 2, 1998: Ord. 26-95 § 2(16-0), 1995)

21A.32.020: RP RESEARCH PARK DISTRICT:

A. Purpose Statement: The purpose of the RP research park district is to provide a campuslike environment for high technology research and development uses and related activities and to create employment centers that may benefit from being located near the University Of Utah. This district is appropriate in areas of the city where the applicable master plans support this type of land use. The standards promote development that is intended to create an environment that is compatible with nearby areas.

B. Uses: Uses in the RP research park district as specified in the table of permitted and conditional uses for special purpose districts found at section 21A.32.140 of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

1. Minimum lot area: Forty thousand (40,000) square feet.
2. Minimum lot width: One hundred fifty feet (150').

D. Maximum Building Height: Building height shall be limited to forty five feet (45'). Building heights in excess of forty five feet (45') but less than seventy five feet (75') may be approved through the conditional building and site design review process; provided, that the additional height is supported by the master plan and compatible with the adjacent neighborhood.

E. Minimum Open Space: The minimum open space for any use shall not be less than thirty percent (30%) of the lot area.

F. Minimum Yard Requirements:

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Twenty feet (20').
4. Rear Yard: Twenty five feet (25').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

G. Attached Buildings On Separate Lots: Buildings on separate lots of record that are attached by a common wall along the interior side lot line may be permitted, subject to the site plan review approval pursuant to the provisions of chapter 21A.58 of this title. Where such buildings are authorized, the requirement for interior side yards in subsection F3 of this section shall be waived.

H. Landscape Yard Requirements: All of the minimum yard requirements shall be maintained as landscape yards. All landscape yards shall comply with the requirements of chapter 21A.48 of this title.

1. Front yard: Thirty feet (30').
2. Corner side yard: Thirty feet (30').
3. Interior side yard: Eight feet (8'). Where a common access drive serves two (2) adjacent lots and extends along the side lot line to parking facilities in the rear of the lot, this landscape yard may be reduced or eliminated if the reduction or elimination is compensated for by increasing another landscape yard, subject to site plan review approval.
4. Rear yard: Eight feet (8').

I. Landscape Buffer: Where a lot in the RP research park district abuts a lot in a residential district, a landscape buffer shall be provided in conformance with the requirements of chapter 21A.48 of this title.

J. Other District Regulations: In addition to the foregoing regulations, all uses shall comply with the following requirements:

1. Enclosed Operations: All principal uses shall take place within entirely enclosed buildings.
2. Outdoor Storage: No outdoor storage shall be permitted.
3. Nuisance Impacts: Uses and processes shall be limited to those that do not create a nuisance to the use and enjoyment of adjacent property due to odor, dust, smoke, gases, vapors, noise, light, vibration, refuse matter or water carried waste. The use of explosive or radioactive materials, or any other hazardous materials, shall conform to all applicable state or federal regulations. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(16-1), 1995)

21A.32.030: BP BUSINESS PARK DISTRICT:

A. Purpose Statement: The purpose of the BP business park district is to provide an attractive environment for modern offices, light assembly and warehouse development and to create employment and economic development opportunities within the city in a campuslike setting. This district is appropriate in areas of the city where the applicable master plans support this type of land use. The standards promote development that is intended to create an environment that is compatible with nearby, existing developed areas.

B. Uses: Uses in the BP business park district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

1. Minimum Lot Area: Twenty thousand (20,000) square feet.
2. Minimum Lot Width: One hundred feet (100').

D. Maximum Building Height: No building shall exceed sixty feet (60') in height.

E. Minimum Open Space: The minimum open space for any use shall not be less than thirty percent (30%) of the lot area.

F. Minimum Yard Requirements:

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Twenty feet (20').
4. Rear Yard: Twenty five feet (25').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

G. Landscape Yard Requirements: All or a portion of the yards required shall be maintained as landscape yards. All landscape yards shall comply with the requirements of chapter 21A.48 of this title.

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Eight feet (8').
4. Rear Yard: Eight feet (8').

H. Landscape Buffers: Where a lot in the BP business park district abuts a lot in a residential district, landscape buffers shall be required in conformance with chapter 21A.48 of this title.

I. Other District Regulations: In addition to the foregoing regulations, all uses shall comply with the following requirements:

1. Enclosed Operations: All principal uses shall take place within entirely enclosed buildings.
2. Outdoor Storage: Accessory outdoor storage shall be screened with a solid fence and approved through the site plan review process.
3. Nuisance Impacts: Uses and processes shall be limited to those that do not create a nuisance to the use and enjoyment of adjacent property due to odor, dust, smoke, gases, vapors, noise, light, vibration, refuse matter or water carried waste. The use of explosive or radioactive materials, or any other hazardous materials, shall conform to all applicable state or federal regulations.
4. Property Zoned Business Park: When a property zoned business park abuts, or is across the street from, an AG-2 or AG-5 zoning district the following standards shall apply:
   a. Buildings shall be prohibited within one hundred feet (100') of the adjacent property line;
   b. Parking lots shall be prohibited within fifty feet (50') of the adjacent property line; and
   c. The portion of the lot located between the adjacent property line and the parking lot or building shall be improved in the form of a landscaped buffer with a minimum five foot (5') berm and shall comply with the provisions of subsection 21A.48.080D3 of this title. (Ord. 12-11, 2011: Ord. 61-09 § 20, 2009: Ord. 14-00 § 2, 2000: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(16-2), 1995)

21A.32.040: FP FOOTHILLS PROTECTION DISTRICT:

A. Purpose Statement: The purpose of the FP foothills protection district is to protect the foothill areas from intensive development in order to protect the scenic value of these areas, wildlife habitats and to minimize flooding and erosion. This district is appropriate in areas where supported by applicable master plans.

B. Uses: Uses in the FP foothills protection district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Special Foothills Regulations: The regulations contained in subsection 21A.24.010P of this title, shall apply to the FP foothills protection district.

D. Minimum Lot Area And Lot Width: Any use, except trailheads, in the FP foothills protection district shall comply with the following lot area and width requirements:

1. Minimum lot area: Sixteen (16) acres.
2. Minimum lot width: One hundred forty feet (140').

E. Maximum Building Height: See subsection 21A.24.010P of this title for special foothills regulations governing building height.

F. Minimum Yard Requirements: No principal or accessory building shall be located within twenty feet (20') of the front or corner side lot line nor shall any principal or accessory building be located within seventy five feet (75') of any side or rear lot line. Accessory structures (other than accessory buildings) shall conform to section 21A.36.020, table 21A.36.020B of this title.

G. Maximum Disturbed Area: The disturbed site area shall not exceed two (2) acres. For the purposes of this district, "disturbed areas" shall be defined as areas of grading and removal of existing vegetation for principal and accessory buildings and areas to be hard surfaced.

H. Slope Restrictions: To protect the visual and environmental quality of foothill areas, no building shall be constructed on any portion of the site that exceeds a thirty percent (30%) slope for lots in subdivisions granted preliminary approval by the planning commission after November 4, 1994.

I. Fence Restrictions: Fences and walls shall only be constructed after first obtaining a building permit subject to the standards of this subsection.

1. Site Plan Submittal: As a part of the site plan review process, a fencing plan shall be submitted which shall show:
   a. Any specific subdivision approval conditions regarding fencing;
   b. Material specifications and illustrations necessary to determine compliance with specific subdivision approval limitations and the standards of this section.
2. Field Fencing Of Designated Undevelopable Areas: Fencing on areas identified as undevelopable areas or transitional areas on any subdivision granted preliminary approval by the planning commission after November 4, 1994, or any lot previously platted which identifies undevelopable areas or transitional areas shall be limited to the following standards unless subdivision approval granted prior to November 4, 1994, included specific fencing requirements which are more restrictive. The more restrictive requirement shall apply.
   a. A low visibility see through fence shall consist of flat black colored steel "T" posts and not more than four (4) strands of nonbarbed steel wire, strung at even vertical spacing on the "T" post, and erected to a height of not more than forty two inches (42") above the natural ground surface.
   b. When fencing lot boundary lines, vegetation or native brush shall not be cleared so as to create a visible demarcation from off site.
   c. The existing surface of the ground shall not be changed by grading activities when erecting boundary fences.
   d. Fence materials and designs must not create a hazard for big game wildlife species.
   e. No field fencing shall be erected in conflict with pedestrian easements dedicated to Salt Lake City.
3. Buildable Area Fencing: Fencing on any portions of a lot identified as buildable area or required side yard on any subdivision granted preliminary approval by the planning commission after November 4, 1994, or any lot previously platted which identifies undevelopable areas or transitional areas shall be limited to the following standards unless subdivision approval granted prior to November 4, 1994, includes specific fencing requirements which are more restrictive. The more restrictive requirement shall apply.
   a. An open, see through fence shall be constructed of tubular steel, wrought iron or similar materials, finished with a flat black, nonreflective finish constructed to a height of six feet (6') or less; or
   b. A sight obscuring or privacy type fence shall be of earth tone colors, or similar materials to the primary dwelling, and located in a way to screen private outdoor living spaces from off site view.
4. Front Or Corner Side Yard Fencing: Walls and fences located within the front or corner side yards or along dedicated roads shall not exceed a maximum of forty two inches (42") in height. (Ord. 12-11, 2011: Ord. 26-95 § 2(16-3), 1995)

21A.32.050: AG AGRICULTURAL DISTRICT:

A. Purpose Statement: The purpose of the AG agricultural district is to preserve and protect agricultural uses in suitable portions of Salt Lake City until these lands can be developed for the most appropriate use. These regulations are also designed to minimize conflicts between agricultural and nonagricultural uses. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the AG agricultural district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

Land Use	Minimum Lot Area	Minimum Lot Width
Agricultural uses	5 acres	100 feet
Conditional uses	5,000 square feet	50 feet
Single-family dwellings	10,000 square feet	100 feet
Small group homes	10,000 square feet	100 feet

D. Maximum Building Height:

1. Single-Family Dwellings: Thirty feet (30').
2. Small Group Homes: Thirty feet (30').
3. Agricultural Uses: Forty five feet (45').
4. Conditional Uses: Forty five feet (45').

E. Minimum Yard Requirements:

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Twenty feet (20').
4. Rear Yard: Thirty feet (30').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Required Landscape Yards: All front and corner side yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title.

G. Restrictions On Agricultural Uses: In addition to the applicable foregoing regulations, agricultural uses shall comply with the following requirements:

1. Agricultural uses shall not include commercial operations involving retail sales to the general public, except for seasonal farm stands.
2. No feeding, grazing, or sheltering of livestock and poultry, whether within penned enclosures or within enclosed buildings, shall be permitted within one hundred feet (100') of an existing single-family dwelling on an adjacent lot.
3. Stockyards, feed yards, slaughterhouses and rendering plants shall not be permitted. (Ord. 12-11, 2011: Ord. 61-09 § 21, 2009: Ord. 26-95 § 2(16-4), 1995)

21A.32.052: AG-2 AGRICULTURAL DISTRICT:

A. Purpose Statement: The purpose of the AG-2 agricultural district is to preserve and protect agricultural uses in suitable portions of Salt Lake City on lots not less than two (2) acres. These regulations are also designed to minimize conflicts between agricultural and nonagricultural uses. This district is appropriate in areas of the city where the applicable master plans support this type of land use.
