B. Uses: Uses in the AG-2 agricultural district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

Land Use	Minimum Lot Area	Minimum Lot Width
Agricultural uses	2 acres	150 feet
Kennel, public and private	5 acres	220 feet
Natural open space and conservation areas, public and private	No minimum	No minimum
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility wires, lines, pipes and poles	No minimum	No minimum
Single-family dwellings	2 acres	150 feet
Small group homes	2 acres	150 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.32.140 of this chapter	2 acres	150 feet

D. Maximum Building Height:

1. Single-Family Dwellings: Thirty feet (30').
2. Small Group Homes: Thirty feet (30').
3. Agricultural Uses: Forty five feet (45').
4. Conditional Uses: Forty five feet (45').

E. Minimum Yard Requirements For Single-Family And Group Homes:

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Thirty five feet (35').
4. Rear Yard: None.

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage For Single-Family And Group Homes: The surface coverage of the principal dwelling shall not exceed eighty percent (80%) of the buildable area for residential uses of the lot.

G. Buildable Area For Principal Dwelling: A residential structure shall not be located further than two hundred feet (200') from the front property line.

H. Required Landscape Yards: All front and corner side yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title.

I. Restrictions On Agricultural Uses: In addition to the applicable foregoing regulations, agricultural uses shall comply with the following requirements:

1. No feeding, grazing, or sheltering of livestock and poultry, whether within penned enclosures or within enclosed buildings, shall be permitted within fifty feet (50') of an existing single-family dwelling on an adjacent lot. (Ord. 12-11, 2011: Ord. 61-09 § 22, 2009: Ord. 14-00 § 3, 2000)

21A.32.054: AG-5 AGRICULTURAL DISTRICT:

A. Purpose Statement: The purpose of the AG-5 agricultural district is to preserve and protect agricultural uses in suitable portions of Salt Lake City on lots not less than five (5) acres. These regulations are also designed to minimize conflicts between agricultural and nonagricultural uses. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the AG-5 agricultural district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

Land Use	Minimum Lot Area	Minimum Lot Width
Agricultural uses	5 acres	220 feet
Natural open space and conservation areas, public and private	No minimum	No minimum
Pet cemetery	2 acres	150 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility wires, lines, pipes and poles	No minimum	No minimum
Single-family dwellings	5 acres	220 feet
Small group homes	5 acres	220 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.32.140 of this chapter	5 acres	220 feet

D. Maximum Building Height:

1. Single-Family Dwellings: Thirty feet (30').
2. Small Group Homes: Thirty feet (30').
3. Agricultural Uses: Forty five feet (45').
4. Conditional Uses: Forty five feet (45').

E. Minimum Yard Requirements:

1. Front Yard: Thirty feet (30').
2. Corner Side Yard: Thirty feet (30').
3. Interior Side Yard: Thirty five feet (35').
4. Rear Yard: None.
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Maximum Building Coverage For Single-Family And Group Homes: The surface coverage of all principal dwellings shall not exceed fifty percent (50%) of the buildable area for residential uses of the lot.

G. Buildable Area For Principal Dwelling: A residential structure shall not be located farther than two hundred feet (200') from the front property line.

H. Required Landscape Yards: All front and corner side yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title.

I. Restrictions On Agricultural Uses: In addition to the applicable foregoing regulations, agricultural uses shall comply with the following requirements:

1. No feeding, grazing, or sheltering of livestock and poultry, whether within penned enclosures or within enclosed buildings, shall be permitted within fifty feet (50') of an existing single-family dwelling on an adjacent lot. (Ord. 12-11, 2011: Ord. 61-09 § 23, 2009: Ord. 14-00 § 3, 2000)

21A.32.056: AG-20 AGRICULTURAL DISTRICT:

A. Purpose Statement: The purpose of the AG-20 agricultural district is to preserve and protect agricultural uses, on lots not less than twenty (20) acres, in suitable portions of Salt Lake City. These regulations are also designed to minimize conflicts between agricultural and nonagricultural uses. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the AG-20 agricultural district as specified in the table of permitted and conditional uses for special purpose districts found at section 21A.32.140 of this chapter are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

Land Use	**Minimum Lot Area**	**Minimum Lot Width**
Agricultural uses	20 acres	500 feet
Kennels, public and private	5 acres	220 feet
Natural open space and conservation areas, public and private	No minimum	No minimum
Pet cemetery	2 acres	150 feet
Public pedestrian pathways, trails and greenways	No minimum	No minimum
Public/private utility wires, lines, pipes and poles	No minimum	No minimum
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.32.140 of this chapter	20 acres	500 feet

D. Maximum Building Height: Building height shall be limited to forty five feet (45'). Building heights in excess of forty five feet (45') but not more than sixty five feet (65') may be approved through the conditional building and site design review process provided that the additional height is compatible with adjacent properties and does not conflict with the airport flight path protection overlay zone.

E. Minimum Yard Requirements:

1. Front Yard: Fifty feet (50').
2. Corner Side Yard: Fifty feet (50').
3. Interior Side Yard: None required.
4. Rear Yard: None required.
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Required Landscape Yards: None required.

G. Restrictions On Agricultural Uses: In addition to the applicable foregoing regulations, agricultural uses shall comply with the following requirements:

1. No feeding, grazing, or sheltering of livestock and poultry, whether within penned enclosures or within enclosed buildings, shall be permitted within fifty feet (50') of an existing single-family dwelling on an adjacent lot. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 14-00 § 3, 2000)

21A.32.060: A AIRPORT DISTRICT:

A. Purpose Statement: The purpose of the A airport district is to provide a suitable environment for the Salt Lake City International Airport and private uses that function in support of the airport facility. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the A airport district as specified in the table of permitted and conditional uses for special purpose districts found at section 21A.32.140 of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Width: No minimum lot area or lot width is required.

D. Maximum Building Height: Maximum building height shall be determined by the Salt Lake City International Airport in accordance with subsections 21A.34.040F through R of this title.

E. Minimum Yard Requirements: No minimum yards shall be required. (Ord. 12-11, 2011: Ord. 86-98 § 18, 1998: Ord. 26-95 § 2(16-5), 1995)

21A.32.070: PL PUBLIC LANDS DISTRICT:

A. Purpose Statement: The purpose of the PL public lands district is to specifically delineate areas of public use and to control the potential redevelopment of public uses, lands and facilities. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the PL public lands district, as specified in the table of permitted and conditional uses for special purpose districts found at section 21A.32.140 of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width:

Land Use	Minimum Lot Area	Minimum Lot Width
Public schools	5 acres	150 feet
Other permitted uses	20,000 square feet	75 feet

D. Maximum Building Height:

1. Local government facilities, prison or jail, government offices, arenas, stadiums, fairgrounds and exhibition halls: Seventy five feet (75'); provided, that where adjacent to a zoning district allowing greater height, the height standard of the adjacent district shall apply.
2. Other uses: Thirty five feet (35').

E. Minimum Yard Requirements:

1. Public School:
   a. Front yard: Thirty feet (30').
   b. Corner side yard: Thirty feet (30').
   c. Interior side yard: Fifty feet (50').
   d. Rear yard: One hundred feet (100').
2. Other Uses:
   a. Front yard: Thirty feet (30').
   b. Corner side yard: Thirty feet (30').
   c. Interior side yard: Twenty feet (20').
   d. Rear yard: Thirty feet (30').
3. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Required Landscape Yards: All front and corner side yards shall be maintained as landscaped yards in conformance with the requirements of chapter 21A.48 of this title.

G. Landscape Buffers: When a lot in the PL public lands district abuts a lot in a single-family or two-family residential district, landscape buffers, in accordance with the requirements of chapter 21A.48 of this title, shall be required. (Ord. 12-11, 2011: Ord. 26-95 § 2(16-6), 1995)

21A.32.075: PL-2 PUBLIC LANDS DISTRICT:

A. Purpose Statement: The purpose of the PL-2 public lands district is to specifically delineate areas of public use and to control the potential redevelopment of public uses, lands and facilities in an urban context. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the PL-2 public lands district, as specified in the table of permitted and conditional uses for special purpose districts found at section 21A.32.140 of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Area And Lot Width: No minimum lot area or lot width shall be required.

D. Maximum Building Height:

1. Local government facilities, government offices, arenas, stadiums, and exhibition halls: Seventy five feet (75') provided, that where adjacent to a zoning district allowing greater height, the height standard of the adjacent district shall apply. A modification to the maximum building height provisions of this section may be granted only through the conditional building and site design review process, subject to conformance with the standards and procedures of chapter 21A.59 of this title, and subject to compliance with the applicable master plan.
2. Other uses: Thirty five feet (35').

E. Minimum Yard Requirements:

1. Front yard: Twenty feet (20').
2. Corner side yard: Twenty feet (20').
3. Interior side yard: None.
4. Rear yard: None.

F. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

G. Required Landscape Yards: All front and corner side yards shall be maintained as landscaped yards in conformance with the requirements of chapter 21A.48 of this title.

H. Landscape Buffers: When a lot in the PL-2 public lands district abuts a lot in a single-family or two-family residential district, landscape buffers, in accordance with the requirements of chapter 21A.48 of this title, shall be required.

I. Accessory Retail Sales And Services Uses When Located Within A Principal Building: Pursuant to section 21A.32.140, "Table For Permitted And Conditional Uses For Special Purpose Districts", of this chapter, accessory retail sales and services uses, restaurants, delis and other food service uses shall be permitted subject to the following qualifying provisions:

1. Preference: Preference will be given to nonprofit organizations.
2. Maximum Floor Area: Two thousand (2,000) square feet.
3. New Business Or Location: Tenant must be opening a new business or adding a new location. Tenants are not allowed to relocate from an existing location in a commercial, downtown or gateway zoning district in the city.
4. Signage Standards For Accessory Uses:
   a. Sign Type And Size Standards:

Type Of Sign Permitted	Maximum Area Per Sign Face	Sign Face Height	Number Of Signs Permitted
Flat sign[1] (oriented to the accessory use storefront providing public pedestrian access)	0.5 square foot of sign area per linear foot of accessory use storefront with a maximum area of 20 square feet	14 inches	1 per accessory use storefront

Note:
1.Backlit awnings shall not be permitted.

   b. Illumination: Signs shall not be internally illuminated.
   c. Setback For Exterior Signs: Signs for accessory uses which have an exterior public pedestrian entrance that face a public street shall be set back a minimum of two hundred feet (200') from the public street right of way. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 73-02 § 3, 2002)

21A.32.080: I INSTITUTIONAL DISTRICT:

A. Purpose Statement: The purpose of the I institutional district is to regulate the development of larger public, semipublic and private institutional uses in a manner harmonious with surrounding uses. The uses regulated by this district are generally those having multiple buildings on a campuslike setting. Such uses are intended to be compatible with the existing scale and intensity of the neighborhood and to enhance the character of the neighborhood. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the I institutional district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Size: The following minimum lot size requirements shall apply to authorized permitted uses. Lot size requirements for conditional uses shall be determined for each conditional use.

Land Use	Minimum Lot Area	Minimum Lot Width
Places of worship	2 acres	100 feet
Other uses	20,000 square feet	100 feet

D. Maximum Building Height: Building height shall be limited to thirty five feet (35'). Building heights in excess of thirty five feet (35') but not more than seventy five feet (75') may be approved through the conditional building and site design review process; provided, that for each foot of height over thirty five feet (35'), each required yard shall be increased one foot (1').

E. Minimum Open Space: The minimum open space for any use shall not be less than forty percent (40%) of the lot area.

F. Minimum Yard Requirements:

1. Front Yard: Twenty feet (20').
2. Corner Side Yard: Twenty feet (20').

3. Interior Side Yard: Twenty feet (20').

4. Rear Yard: Twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

G. Landscape Yard Requirements: Landscape yards, as specified below, shall be required for each use in the I institutional district and shall be improved in conformance with the requirements of chapter 21A.48 of this title.

1. Front yard: Twenty feet (20').

2. Corner side yard: Twenty feet (20').

3. Interior side yard: Eight feet (8').

4. Rear yard: Eight feet (8').

H. Landscape Buffers: Landscape buffers shall be provided where a use in the I institutional district abuts a lot in a residential district, as specified in chapter 21A.48 of this title.

I. Traffic And Parking Impact: The traffic and parking characteristics of institutional uses can have a significant impact on the nearby residential neighborhoods. To ensure that these characteristics do not impair the safety or enjoyment of property in nearby areas, a traffic and parking study shall be submitted to the city in conjunction with the site plan review provisions of this title whenever an expansion of an existing use or an expansion of the mapped district is proposed. New institutional uses or expansions/intensifications of existing institutional uses shall not be permitted unless the traffic and parking study provides clear and convincing evidence that no significant impacts will occur. The zoning administrator may, upon recommendation of the development review team waive the requirement for a traffic and parking study if site conditions clearly indicate that no impact would result from the proposed development.

J. Lighting: All uses and developments shall provide adequate lighting so as to assure safety and security. Lighting installations shall not have an adverse impact on traffic safety or on surrounding properties and uses. Light sources shall be shielded to minimize light spillover onto adjacent properties. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(16-7), 1995)

21A.32.090: UI URBAN INSTITUTIONAL DISTRICT:

A. Purpose Statement: The purpose of the UI urban institutional district is to regulate the development of larger public, semipublic and private institutional uses in an urban context. The uses regulated by this district are generally those having multiple buildings on a campuslike setting, located within a developed community. Such uses are intended to be compatible with the existing scale and intensity of the neighborhood and to enhance the character of the neighborhood. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the UI urban institutional district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Size: The following minimum lot size requirements shall apply to authorized permitted uses. Lot size requirements for conditional uses shall be determined for each conditional use.

Land Use	Minimum Lot Area	Minimum Lot Width
Places of worship	20,000 square feet	100 feet
Other uses	1 acre	150 feet

D. Maximum Building Height: Building height shall be limited to seventy five feet (75'). Building heights in excess of seventy five feet (75') but not more than one hundred twenty feet (120') may be approved through the conditional building and site design review process; provided, that the additional height is supported by the master plan and compatible with the adjacent neighborhood.

E. Minimum Open Space: The minimum open space for any use shall not be less than twenty percent (20%) of the lot area.

F. Minimum Yard Requirements: For all uses other than hospitals, the minimum yard requirements shall be:

1. Front Yard: Fifteen feet (15').

2. Corner Side Yard: Fifteen feet (15').

3. Interior Side Yard: None required.

4. Rear Yard: Twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

6. Minimum Requirements May Be Altered Or Waived: Minimum yard requirements may be altered or waived by the planning commission as a planned development pursuant to the standards and procedures for planned developments set forth in chapter 21A.55, "Planned Developments", of this title.

G. Landscape Yard Requirements: Landscape yards, as specified below, shall be required for each use, except hospitals, in the UI urban institutional district and shall be improved in conformance with the requirements of chapter 21A.48, "Landscaping And Buffers", of this title.

1. Front Yard: Fifteen feet (15').

2. Corner Side Yard: Fifteen feet (15').

3. Interior Side Yard: None required.

4. Rear Yard: Ten feet (10').

5. Minimum Requirements May Be Altered Or Waived: Landscape yard requirements may be altered or waived by the planning commission as a planned development pursuant to the standards and procedures for planned developments set forth in chapter 21A.55 of this title.

H. Special Yard Requirements For Hospitals: For hospitals, the minimum yard requirements shall be:

1. Front Yard: Thirty feet (30').

2. Corner Side Yard: Thirty feet (30').

3. Interior Side Yard: Fifteen feet (15').

4. Rear Yard: Twenty five feet (25').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

I. Special Landscape Yard Requirements For Hospitals: Landscape yards, as specified below, shall be required for hospitals in the UI urban institutional district and shall be improved in conformance with the requirements of chapter 21A.48, "Landscaping And Buffers", of this title.

1. Front yard: Thirty feet (30').

2. Corner side yard: Thirty feet (30').

3. Interior side yard: Ten feet (10').

4. Rear yard: Ten feet (10').

J. Landscape Buffers: Landscape buffers shall be provided where a use in the UI urban institutional district abuts a lot in a residential district, as specified in chapter 21A.48, "Landscaping And Buffers", of this title.

K. Traffic And Parking Impact: The traffic and parking characteristics of institutional uses can have a significant impact on the nearby residential neighborhoods. To ensure that these characteristics do not impair the safety or enjoyment of property in nearby areas, a traffic and parking study shall be submitted to the city in conjunction with the site plan review provisions of this title whenever any additional parking is provided or required for an existing use or for any expansion of a mapped district is proposed. Unless the traffic and parking study provides clear and convincing evidence that no significant impacts will occur, the application shall be denied. The zoning administrator may, upon recommendation of the development review team, waive the requirement for a traffic and parking study if site conditions clearly indicate that no impact would result from the proposed development.

L. Lighting: All uses and developments shall provide adequate lighting so as to assure safety and security. On site lighting shall be located, directed or designed in such a manner as to contain and direct light and glare to the property on which it is located only. (Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 23-10 § 10, 2010: Ord. 26-95 § 2(16-8), 1995)

21A.32.100: OS OPEN SPACE DISTRICT:

A. Purpose Statement: The purpose of the OS open space district is to preserve and protect areas of public and private open space and exert a greater level of regulation over any potential redevelopment of existing open space areas. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the OS open space district, specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Size:

1. Minimum Lot Area: Ten thousand (10,000) square feet.

2. Minimum Lot Width: Fifty feet (50').

D. Maximum Building Height: Building height shall be limited to thirty five feet (35'); provided, that for each foot of height in excess of twenty feet (20'), each required yard and landscaped yard shall be increased one foot (1').

E. Minimum Yard Requirements:

1. Front Yard: Thirty feet (30').

2. Corner Side Yard: Thirty feet (30').

3. Interior Side Yard: Twenty feet (20').

4. Rear Yard: Thirty feet (30').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B, "Obstructions In Required Yards", of this title.

F. Landscape Yard Requirements: Landscape yards shall be required for each use in the OS open space district and shall be improved in conformance with the requirements of chapter 21A.48, "Landscaping And Buffers", of this title.

1. Front Yard: Thirty feet (30').

2. Corner Side Yard: Thirty feet (30').

3. Interior Side Yard: Ten feet (10').

4. Rear Yard: Ten feet (10').

G. Special Conditional Use Controls Over Communications Towers:

1. Designation Of Telecommunication Site: Within the OS open space zoning district there is set aside a telecommunication site to accommodate the erection of microwave, radio or other communication towers and related facilities, located north of Ensign Peak in Salt Lake County, Utah, and described as follows:
   a. Beginning at a point that is located S. 19° 10' 29" E. 1,533.61 feet from the northwest corner of Section 19, T.1N., R.1E., SLB&M; thence 32° 33' 21" E. 364.42 feet; thence S. 57° 26' 39" W. 2,890.15 feet; thence N. 32° 33' 21" N. 285.15 feet: thence N. 55° 52' 23" E. 2,891.23 feet to the point of beginning, containing 21.549 acres, more or less.
   b. This telecommunication site is set aside in order to promote the location of communications towers in a manageable area and to protect the aesthetics and environment of the site.
2. Special Conditional Use Standards: A conditional use may be authorized by the planning commission pursuant to the standards and procedures for conditional uses set forth in chapter 21A.54 of this title, to permit a communication tower within the established telecommunications site provided the planning commission makes the additional findings:
   a. The facility is located within the telecommunication site described above;
   b. The facilities and access roads are designed and constructed so as to minimally disturb the natural terrain; and
   c. The owner of the communications tower agrees to accommodate the multiple use of the tower where feasible.
3. Title To Site To Remain With City: Pursuant to section 69-3-1, Utah Code Annotated, or its successor, the city shall retain title to all property which it presently owns within such site.
4. Exceptions: This section shall not affect the use, operation, expansion or construction of towers and related facilities on property owned by telecommunication companies as of January 1, 1986. (Ord. 12-11, 2011: Ord. 13-04 § 11, 2004: Ord. 35-99 § 40, 1999: Ord. 26-95 § 2(16-9), 1995)

21A.32.105: NOS NATURAL OPEN SPACE DISTRICT:

A. Purpose Statement: The purpose of the NOS natural open space district is to protect and ensure stewardship over important natural open land areas of citywide or regional importance. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Definition: "Natural open space" areas are lands which are principally undeveloped with near native vegetation and may include environmentally sensitive areas; areas of geologic significance; wetlands; stream corridors; foothills; mountains; shorelands; uplands and areas of significant wildlife habitat.

C. Uses: Permitted activities in this district are limited to ecosystem management, conservation and passive recreational uses as listed in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter. (Ord. 12-11, 2011: Ord. 72-05 § 1, 2005)

21A.32.110: MH MOBILE HOME PARK DISTRICT:

A. Purpose Statement: The purpose of the MH mobile home park district is to create an environment suitable for mobile home dwelling units. This district establishes regulations for the development of sites suitable for mobile homes. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Applicability: The regulations of this district shall apply only to mobile homes, as defined in chapter 21A.62 of this title.

C. Minimum District Size: The minimum size of any MH mobile home park district shall be ten (10) acres.

D. Uses: Uses in the MH mobile home park district, as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

E. Maximum Building Height: No dwelling unit shall exceed fifteen feet (15') in height. On site recreation buildings and clubhouses shall not exceed thirty feet (30').

F. Minimum Yard Requirements:
1. Front Yard: Twenty feet (20') from the right of way line of a public street, or the edge of pavement of a private street or common access drive.
2. Corner Side Yard: Twenty feet (20') from the right of way line of a public street, or the edge of pavement of a private street or common access drive.
3. Interior Side Yard: Ten feet (10').
4. Rear Yard: Ten feet (10').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

G. Landscape Yard Requirements: Landscape yards shall be required for all dwellings and shall be improved in conformance with the requirements of chapter 21A.48 of this title.
1. Front Yard: Twenty feet (20').
2. Corner Side Yard: Twenty feet (20').
3. Interior Side Yard: Three feet (3').
4. Rear Yard: Three feet (3').

H. Peripheral Landscape Buffer: Each mobile home park shall provide a peripheral landscape buffer twenty feet (20') in width around the entire perimeter of the park. Such perimeter landscape buffer shall not include any required yard of a dwelling and shall be improved in conformance with the requirements of chapter 21A.48 of this title.

I. Maximum Density: The maximum density of any mobile home park shall not exceed ten (10) dwellings per acre.

J. Common Open Space: Common open space shall be provided for the use and enjoyment of the residents of a mobile home park. The amount of common open space provided shall equal two hundred fifty (250) square feet per dwelling unit.

K. Planned Development Review And Approval: Each mobile home park shall require subdivision approval (if fee simple lots are being created) and planned development approval (if no fee simple lots are being created), pursuant to the standards and procedures for planned developments, chapter 21A.55 of this title. The following site plan standards shall be used in considering either approval:
1. Internal streets shall not be less than twenty four feet (24') wide.
2. The configuration of the entrance road connecting the park to a public street shall be subject to site plan review.
3. All roads shall be paved.
4. Sidewalks shall be provided to accommodate pedestrian circulation needs.

L. Occupancy Requirements: Before any occupancy permit shall be granted for a mobile home dwelling, any such park shall contain not less than fifty (50) completed lots ready for occupancy.

M. Accessory Uses: Mobile home dwellings shall be subject to the following regulations on accessory uses and structures:
1. No accessory uses shall be allowed in the front yard or corner side yard, except for off street parking which may be located in the front yard only on a driveway not more than sixteen feet (16') wide.
2. Awnings open on three (3) sides may extend into interior side and rear yards, provided that such awning does not extend closer than five feet (5') to the side or rear lot lines.
3. Accessory uses and structures shall not comprise more than seventy five percent (75%) of any interior side yard or more than fifty percent (50%) of any rear yard.
4. Controls over accessory uses and structures not addressed above shall be subject to the provisions of chapter 21A.40 of this title. (Ord. 12-11, 2011: Ord. 23-10 § 11, 2010: Ord. 61-09 § 24, 2009: Ord. 26-95 § 2(16-10), 1995)

21A.32.120: EI EXTRACTIVE INDUSTRIES DISTRICT:

A. Purpose Statement: The purpose of the EI extractive industries district is to provide locational control over extractive uses and to promote the reclamation of these sites. Inherent in this purpose is the need to provide appropriate buffering adjacent to other zoning districts. This district is appropriate in areas of the city where the applicable master plans support this type of land use.

B. Uses: Uses in the EI extractive industries district, as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.32.010 of this chapter and this section.

C. Minimum Lot Size:
1. Minimum Lot Area: Ten (10) acres.
2. Minimum Lot Width: Three hundred feet (300').

D. Maximum Building Height: Seventy five feet (75').

E. Minimum Yard Requirements:
1. Front Yard: Fifty feet (50').
2. Corner Side Yard: Fifty feet (50').
3. Interior Side Yard: Thirty feet (30').
4. Rear Yard: Thirty feet (30').
5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in required yard areas subject to section 21A.36.020, table 21A.36.020B of this title.

F. Landscape Yard Requirements: The first thirty feet (30') of all required yards shall be maintained as landscape yards in conformance with the requirements of chapter 21A.48 of this title.

G. Buffer Requirements: No extraction or mining activities are permitted within one thousand feet (1,000') of property zoned in a residential district or an institutional district. In addition, landscape buffers shall be provided as required in chapter 21A.48, "Landscaping And Buffers", of this title.

H. Reclamation Plan For New And Expanded Uses: All new extractive use sites or the expansion of an existing site across property lines existing as of April 12, 1995, must submit a reclamation plan to the planning commission, indicating how the site will be reclaimed upon completion of mining activities to allow for the productive and compatible reuse of the site. The reclamation plan shall include the following items of information:
1. A grading plan showing the end state topography of the site upon completion of reclamation;
2. A revegetation plan indicating what planting will occur to reestablish vegetation on the site;
3. A drainage/hydrology plan indicating the hydrological characteristics of the site after reclamation, including the creation/modification of floodplains and wetlands;
4. A typical site plan of proposed use or uses of the site following reclamation, including the proposed zoning for the site, building locations, roads and streets, topography, parking and landscaping;
5. A financial analysis detailing all the costs of the reclamation plan; and
6. A proposed form of financial security to assure the implementation of the reclamation plan. (Ord. 12-11, 2011: Ord. 26-95 § 2(16-11), 1995)

21A.32.130: MU MIXED USE DISTRICT:

A. Purpose Statement: The purpose of the MU mixed use district is to encourage the development of areas as a mix of compatible residential and commercial uses. The district is to provide for limited commercial use opportunities within existing mixed use areas while preserving the attractiveness of the area for residential use. The district is intended to provide a higher level of control over nonresidential uses to ensure that the use and enjoyment of residential properties is not substantially diminished by nonresidential redevelopment. The intent of this district shall be achieved by designating certain nonresidential uses as conditional uses within the mixed use district and requiring future development and redevelopment to comply with established standards for compatibility and buffering as set forth in this section. The design standards are intended to facilitate walkable communities that are pedestrian and mass transit oriented while still ensuring adequate automobile access to the site.

B. Permitted Uses: Uses in the MU mixed use district as specified in section 21A.32.140, "Table Of Permitted And Conditional Uses For Special Purpose Districts", of this chapter are permitted subject to the provisions set forth in section 21A.32.010 of this chapter and this section.

C. Planned Development Review: Planned developments, which meet the intent of the ordinance, but not the specific design criteria outlined in the following subsections may be approved by the planning commission pursuant to the provisions of chapter 21A.55 of this title.

D. Minimum Lot Area And Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use	Minimum Lot Area	Minimum Lot Width
Mixed use developments, including residential and other uses allowed in the zoning district	No minimum	No minimum
Multi-family dwellings	No minimum	No minimum
Municipal service uses, including city utility uses and police and fire stations	5,000 square feet	50 feet
Natural open space and conservation areas, public and private	No minimum	No minimum
Nonresidential uses	No minimum	No minimum
Pedestrian pathways, trails and greenways	No minimum	No minimum
Places of worship less than 4 acres in size	5,000 square feet	50 feet
Public/private utility transmission wires, lines, pipes, and poles	No minimum	No minimum
Single-family attached dwellings	3,000 square feet per dwelling unit[1]	Interior: 22 feet Corner: 32 feet
Single-family detached dwellings	4,000 square feet	40 feet
Twin home	3,000 square feet per dwelling unit	20 feet
Two-family dwellings	6,000 square feet	40 feet
Utility substations and buildings	5,000 square feet	50 feet
Other permitted or conditional uses as listed in section 21A.32.140 of this chapter	5,000 square feet	50 feet

Qualifying Provisions:
1. There is no minimum lot area nor lot width required provided:

a. Parking for units shall be rear loaded and accessed from a common drive shared by all units in a particular development;
b. Driveway access shall connect to the public street in a maximum of 2 locations; and
c. No garages shall face the primary street and front yard parking shall be strictly prohibited.

E. Minimum Yard Area Requirements:

1. Single-Family Detached, Single-Family Attached, Two-Family, And Twin Home Dwellings:

a. Front yard: Ten feet (10').

b. Corner side yard: Ten feet (10').

c. Interior side yard:

(1) Corner lots: Four feet (4').

(2) Interior lots:

(A) Single-family attached: No yard is required, however if one is provided it shall not be less than four feet (4').

(B) Single-family detached, two-family and twin home dwellings: Four feet (4') on one side and ten (10) on the other.

d. Rear yard: Twenty five percent (25%) of the lot depth, but need not be more than twenty feet (20').

2. Multi-Family Dwellings, Including Mixed Use Buildings With Less Than Twenty Five Percent Nonresidential Uses:

a. Front yard: Ten feet (10') minimum.

b. Corner side yard: Ten feet (10').

c. Interior side yard: Ten feet (10').

d. Rear yard: Twenty five percent (25%) of the lot depth, but need not exceed thirty feet (30'), however, if one hundred percent (100%) of the off street parking is provided within the principal building and/or underground, the minimum required rear yard shall be fifteen feet (15').

3. Nonresidential Development, Including Mixed Uses With Greater Than Twenty Five Percent Nonresidential Uses:

a. Front yard: Ten feet (10') minimum.

b. Corner side yard: Ten feet (10').

c. Interior side yard: No setback is required.

d. Rear yard: Twenty five percent (25%) of lot depth, but need not exceed thirty feet (30').

4. Legally Existing Lots: Lots legally existing on the effective date hereof, April 7, 1998, shall be considered legal conforming lots.

5. Additions: For additions to buildings legally existing on the effective date hereof, required yards shall be no greater than the established setback line.

6. Maximum Setback: A maximum setback is required for at least seventy five percent (75%) of the building facade. The maximum setback is twenty feet (20'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director, in consultation with the transportation director, may modify this requirement if the adjacent public sidewalk is substandard and the resulting modification to the setback results in a more efficient public sidewalk. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of the ordinance.

Appeal of administrative decision is to the planning commission.

7. Parking Setback: Surface parking is prohibited in a front or corner side yard. Surface parking lots within an interior side yard shall maintain a twenty five foot (25') landscape setback from the front property line or be located behind the primary structure. Parking structures shall maintain a forty five foot (45') minimum setback from a front or corner side yard property line or be located behind the primary structure. There are no minimum or maximum setback restrictions on underground parking. The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of the ordinance.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Appeal of administrative decision is to the planning commission.

F. Maximum Building Height: The maximum building height shall not exceed forty five feet (45'), except that nonresidential buildings and mixed use buildings shall be limited by subsections F1 and F2 of this section. Buildings taller than forty five feet (45'), up to a maximum of sixty feet (60'), may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, provided that the additional height is for residential uses only.

1. Maximum Height For Nonresidential Buildings: Nonresidential buildings shall not exceed thirty feet (30') or two (2) stories, whichever is less.

2. Maximum Height Of Mixed Use Buildings Of Residential And Nonresidential Uses: Mixed use buildings shall not exceed forty five feet (45'). Nonresidential uses in a mixed use building are limited to the first two (2) stories.

G. Minimum Ground Floor Glass: The ground floor of the building elevation fronting the street on all nonresidential buildings and uses within the MU mixed use district shall contain not less than forty percent (40%) and not more than seventy percent (70%) nonreflective glass surfaces. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized as conditional building and site design review, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

1. The requirement would negatively impact the historic character of the building,

2. The requirement would negatively impact the structural stability of the building, or

3. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

H. Minimum Open Space: For residential uses and mixed uses containing residential use, not less than twenty percent (20%) of the lot area shall be maintained as open space. This open space may take the form of landscaped yards or plazas and courtyards, subject to site plan review approval.

I. Required Landscape Yards: All front and corner side yards shall be maintained as landscape yards.

J. Landscape Buffers: Where a nonresidential or mixed use lot abuts a residential or vacant lot within the MU mixed use district or any residential district, a ten foot (10') landscape buffer shall be provided subject to the improvement requirements of subsection 21A.48.080D of this title.

K. Nonresidential Use Of A Residential Structure: The conversion and remodeling of a residential structure to a nonresidential use shall be allowed only if the exterior residential character is maintained.

L. New Nonresidential Construction: Construction of a new principal building for a nonresidential use that includes the demolition of a residential structure or located between two (2) existing residential uses on the same block face shall only be approved as a conditional use pursuant to chapter 21A.54 of this title, unless located on an arterial street.

M. Entrance And Visual Access:

1. Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on any street, if the facades for all streets meet the forty percent (40%) glass requirement as outlined in subsection G of this section.

2. Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

3. Screening: All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

N. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 16-13, 2013: Ord. 15-13, 2013: Ord. 12-11, 2011: Ord. 23-10 § 12, 2010: Ord. 3-05 § 7, 2005: Ord. 64-01 § 1, 2001: Ord. 12-98 § 3, 1998)

Qualifying provisions:
1.Subject to conformance to the provisions in subsection 21A.02.050B of this title.
2.When located in a building listed on the Salt Lake City register of cultural resources.
3.When located on an arterial street.
4.Subject to Salt Lake Valley health department approval.
5.In conjunction with, and within the boundaries of, a cemetery for human remains.
6.Radio station equipment and antennas shall be required to go through the site plan review process to ensure that the color, design and location of all proposed equipment and antennas are screened or integrated into the architecture of the project and are compatible with surrounding uses.
7.When approved as part of a business park planned development pursuant to the provisions of chapter 21A.55 of this title.
8.Kennels, public or private, whether within penned enclosures or within enclosed buildings, shall not be permitted within 200 feet of an existing single-family dwelling on an adjacent lot.
9.Trails and trailheads without parking lots and directional and informational signage specific to trail usage shall be permitted.

10.Greater than 3 ambulances at location require a conditional use.
11.Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to the conditional use process.
12.Maximum of 1 monopole per property and only when it is government owned and operated for public safety purposes.
13.Subject to conformance with the provisions in section 21A.36.305, "Alcohol Related Establishments", of this title.
14.Community gardens are only allowed in the following locations: 1850 S. 700 E., Dilworth Elementary (1985 S. 2100 E.), Warm Springs Park (1020 N. Beck St.), Stratford Park (2635 S. Preston St.), 1700 S. 700 E., Cortez Water (North of the Capitol), 2850 S. Claybourne Avenue (1300 E. Eastside), and Popperton Park (360 N. 1400 E.), and are subject to the requirements in section 21A.34.130, "RCO Riparian Corridor Overlay District", of this title.

(Ord. 57-13, 2013: Ord. 65-12, 2012)

CHAPTER 21A.34
OVERLAY DISTRICTS

21A.34.010: GENERAL PROVISIONS:

A. Statement Of Intent: An overlay district is intended to provide supplemental regulations or standards pertaining to specific geographic features or land uses, wherever these are located, in addition to "base" or underlying zoning district regulations applicable within a designated area. Whenever there is a conflict between the regulations of a base zoning district and those of an overlay district, the overlay district regulations shall control.

B. Site Plan Review: Permitted uses and conditional uses in the overlay districts have the potential for adverse impacts if located and laid out on lots without careful planning. Such impacts may interfere with the use and enjoyment of adjacent property and uses. Site plan review is a process designed to address such adverse impacts and minimize them where possible. Site plan review of development proposals is required in the T transitional overlay district, the LC lowland conservancy overlay district, and the LO landfill overlay district. All uses in these districts shall be subject to the site plan review regulations contained in chapter 21A.58 of this title. (Ord. 26-95 § 2(17-0), 1995)

21A.34.020: H HISTORIC PRESERVATION OVERLAY DISTRICT:

A. Purpose Statement: In order to contribute to the welfare, prosperity and education of the people of Salt Lake City, the purpose of the H historic preservation overlay district is to:

1. Provide the means to protect and preserve areas of the city and individual structures and sites having historic, architectural or cultural significance;

2. Encourage new development, redevelopment and the subdivision of lots in historic districts that is compatible with the character of existing development of historic districts or individual landmarks;

3. Abate the destruction and demolition of historic structures;

4. Implement adopted plans of the city related to historic preservation;

5. Foster civic pride in the history of Salt Lake City;

6. Protect and enhance the attraction of the city's historic landmarks and districts for tourists and visitors;

7. Foster economic development consistent with historic preservation; and

8. Encourage social, economic and environmental sustainability.

B. Definitions:

1. Local Historic District: A geographically or thematically definable area within the H historic preservation overlay district designated by the city council pursuant to the provisions of this section, which contains buildings, structures, sites, objects, landscape features, archeological sites and works of art, or a combination thereof, that contributes to the historic preservation goals of Salt Lake City.

2. Contributing Structure: A contributing structure is a structure or site within the H historic preservation overlay district that meets the criteria outlined in subsection C10 of this section and is of moderate importance to the city, state, region or nation because it imparts artistic, historic or cultural values. A contributing structure has its major character defining features intact and although minor alterations may have occurred they are generally reversible. Historic materials may have been covered but evidence indicates they are intact.

3. Noncontributing Structure: A noncontributing structure is a structure within the H historic preservation overlay district that does not meet the criteria listed in subsection C10 of this section. The major character defining features have been so altered as to make the original and/or historic form, materials and details indistinguishable and alterations are irreversible. Noncontributing structures may also include those which are less than fifty (50) years old.

4. Landmark Site: A landmark site is any site included on the Salt Lake City register of cultural resources that meets the criteria outlined in subsection C10 of this section. Such sites are of exceptional importance to the city, state, region or nation and impart high artistic, historic or cultural values. A landmark site clearly conveys a sense of time and place and enables the public to interpret the historic character of the site.

5. New Construction: The building of a new principal building within the H historic preservation overlay district or on a landmark site.

6. Demolition: Any act or process which destroys a structure, object or property within the H historic preservation overlay district or a landmark site. (See subsection B7 of this section.)

7. Demolition, Partial: Partial demolition includes any act which destroys a portion of a structure consisting of not more than twenty five percent (25%) of the floor area of the structure, and where the portion of the structure to be demolished is not readily visible from the street. Partial demolition also includes the demolition or removal of additions or materials not of the historic period on any exterior elevation exceeding twenty five percent (25%) when the demolition is part of an act of restoring original historic elements of a structure and/or restoring a structure to its historical mass and size.

8. Thematic Designation: A collection of individual sites, buildings, structures, or features which are contained in two (2) or more geographically separate areas that are united together by historical, architectural, or aesthetic characteristics and contribute to the historic preservation goals of Salt Lake City by protecting historical, architectural, or aesthetic interest or value.

9. Historic Resource Survey: A historic resource survey is a systematic resource for identifying and evaluating the quantity and quality of historic resources for land use planning purposes following the guidelines and forms of the Utah state historic preservation office.

a. Reconnaissance level surveys (RLS) is the most basic approach for systematically documenting and evaluating historic buildings in Utah communities and involves only a visual evaluation of properties.

b. Intensive level surveys (ILS) include in depth research involving research on the property and its owners, documentation of the property's physical appearance and completion of the Utah state historic office's historic site form.

10. Design Guidelines: The design guidelines provide guidance in determining the suitability and architectural compatibility of proposed maintenance, repair, alteration or new construction while at the same time, allowing for reasonable changes that meet current needs of properties located within the historic preservation overlay district. For architects, designers, contractors and property owners, they provide guidance in planning and designing future projects. For city staff and the historic landmark commission, they provide guidance for the interpretation of the zoning ordinance standards. Design guidelines are officially adopted by city council.

C. Designation Of A Landmark Site, Local Historic District Or Thematic Designation; H Historic Preservation Overlay District:

1. Intent: Salt Lake City will consider the designation of a landmark site, or thematic designation in order to protect the best examples of historic resources which represent significant elements of the city's prehistory, history, development patterns or architecture. Designation of a local historic district must be in the best interest of the city and achieve a reasonable balance between private property rights and the public interest in preserving the city's cultural, historic, and architectural heritage. The city council shall determine that designation of a landmark site, local historic district or thematic designation is the best method of preserving a unique element of history important to understanding the prehistory or history of the area encompassed by the current Salt Lake City corporate boundaries.

2. City Council May Designate Or Amend Landmark Sites, Local Historic District Or Thematic Designations: Pursuant to the procedures in this section and the standards for general amendments in section 21A.50.050 of this title the city council may by ordinance apply the H historic preservation overlay district and:

a. Designate as a landmark site an individual building, structure or feature or an integrated group of buildings, structures or features on a single lot or site having exceptional importance to the city, state, region or nation and impart high artistic, historic or cultural values. A landmark site clearly conveys a sense of time and place and enables the public to interpret the historic character of the site;

b. Designate as a local historic district a contiguous area with a minimum district size of one "block face", as defined in section 21A.62.040 of this title, containing a number of sites, buildings, structures or features that contribute to the historic preservation goals of Salt Lake City by protecting historical, architectural, or aesthetic interest or value and constituting a distinct section of the city;

c. Designate as a thematic designation a collection of sites, buildings, structures, or features which are contained in two (2) or more geographically separate areas that are united together by historical, architectural, or aesthetic characteristics and contribute to the historic preservation goals of Salt Lake City by protecting historical, architectural, or aesthetic interest or value; and

d. Amend designations to add or remove features or property to or from a landmark site, local historic district or thematic designation.

3. Petition Initiation For Designation Of A Landmark Site, Local Historic District Or Thematic Designation:

a. Petition Initiation For H Historic Preservation Overlay District; Landmark Site: Any owner of property proposed for a landmark site, the mayor or the city council, by majority vote, may initiate a petition to consider the designation of a landmark site.

b. Petition Initiation For H Historic Preservation Overlay District; Local Historic District Or Thematic Designation: A property owner initiating such a petition shall demonstrate support of fifteen percent (15%) or more of the owners of lots or parcels within the proposed boundaries of an area to be included in the H historic preservation overlay district. The mayor or the city council, by a majority vote, may initiate a petition to consider designation of a local historic district or thematic designation. No application fee will be required for a petition initiated by a property owner.

(1) For purposes of this subsection, a lot or parcel of real property may not be included in the calculation of the required percentage unless the application is signed by owners representing a majority of ownership interest in that lot or parcel.

(2) Each lot or parcel of real property may only be counted once toward the fifteen percent (15%) minimum, regardless of the number of owner signatures obtained for that lot or parcel.

(3) Signatures obtained to demonstrate support of fifteen percent (15%) or more of the property owners within the boundary of the proposed local historic district or thematic designation must be gathered within a period of one hundred eighty (180) days as counted between the date of the first signature and the date of the last required signature.

4. Planning Director Report To The City Council: Following the initiation of a petition to designate a landmark site or a local historic district or thematic designation, the planning director shall submit a report based on the following considerations to the city council:

a. Whether a current survey meeting the standards prescribed by the state historic preservation office is available for the landmark site or the area proposed for a local historic district or thematic designation. If a suitable survey is not available, the report shall propose a strategy to gather the needed survey data.

b. The city administration will determine the priority of the petition and determine whether there is sufficient funding and staff resources available to allow the planning division to complete a community outreach process, historic resource analysis and to provide ongoing administration of the new landmark site, local historic district or thematic designation if the designation is approved by the city council. If sufficient funding is not available, the report shall include a proposed budget.

c. Whether the proposed designation is generally consistent with the purposes, goals, objectives and policies of the city as stated through its various adopted planning documents.

d. Whether the proposed designation would generally be in the public interest.

e. Whether there is probable cause to believe that the proposed landmark site, local historic district or thematic designation may be eligible for designation consistent with the purposes and designation criteria in subsection C10 of this section and the zoning map amendment criteria in section 21A.50.050, "Standards For General Amendments", of this title.

5. Community Outreach Process: Following the submission of the planning director's report and acceptance of the report by the city council, the planning division will conduct a community outreach process to inform the owners of property within the proposed boundaries of the proposed landmark site, local historic district or thematic designation about the following:

a. The designation process, including determining the level of public support, the public hearing process and final decision making process by the city council; and

b. Zoning ordinance requirements affecting properties located within the H historic preservation overlay district, adopted design guidelines, the design review process for alterations and new construction, the demolition process and the economic hardship process.

6. Determination; Level Of Public Support:

a. Following the completion of the historic landmark commission and planning commission public hearings, the planning division will deliver a public support ballot to all property owners of record within the boundary of the proposed local historic district or thematic designation.

b. Property owners of record will have thirty (30) days from the postmark date of the public support ballot to submit a response to the planning division indicating the property owner's support or nonsupport of the proposed designation.

c. A certified letter shall be mailed to all property owners within the proposed local historic district or thematic designation whose public support ballot has not been received by the planning division within fifteen (15) days from the original postmark date. This follow up letter will encourage the property owners to submit a public support ballot prior to the thirty (30) day deadline date set by the mailing of the first public support ballot.

7. Notification Of Public Support: Following the determination of the level of support for the proposed designation, the planning division will send notice of the results to all property owners within the proposed local historic district or thematic designation.

8. Public Hearing Process:

a. Historic Landmark Commission Consideration: Following the initiation of a petition to designate a landmark site or a local historic district, the historic landmark commission shall hold a public hearing and review the request by applying subsection C10, "Standards For The Designation Of A Landmark Site, Local Historic District Or Thematic Designation", of this section. Following the public hearing, the historic landmark commission shall recommend approval, approval with modifications or denial of the proposed designation and shall then submit its recommendation to the planning commission and the city council.

b. Planning Commission Consideration: Following action by the historic landmark commission, the planning commission shall hold a public hearing and shall recommend approval, approval with modifications or denial of the proposed designation based on the standards of section 21A.50.050 of this title, zoning map amendments and shall then submit its recommendation to the city council.

c. City Council Consideration: Following the transmittal of the historic landmark commission and the planning commission recommendations and the determination of public support process, the city council may hold a public hearing to consider the designation of a landmark site, local historic district or thematic designation.

(1) Designation Of A Landmark Site: The city council may, by a majority vote, designate a landmark site.

(2) Designation Of A Local Historic District Or Thematic Designation:

(A) If the number of ballots received in support exceed the number of ballots received in opposition, the city council may designate a local historic district or a thematic district by a simple majority vote.

(B) If the number of ballots received in support do not exceed the number of ballots received in opposition, the city council may only designate a local historic district or a thematic district by a super majority vote.

(3) Following Designation: Following city council designation of a landmark site, local historic district or thematic designation, all of the property located within the boundaries of the H historic preservation overlay district shall be subject to the provisions of this section. The zoning regulations will go into effect on the date of the publication of the ordinance unless otherwise noted on the adoption ordinance.

9. Notice Of Designation: Within thirty (30) days following the designation of a landmark site, local historic district or thematic designation, the city shall provide notice of the action to all owners of property within the boundaries of the H historic preservation overlay district. In addition, a notice shall be recorded in the office of the county recorder against all lots or parcels within the area added to the H historic preservation overlay district.

10. Standards For The Designation Of A Landmark Site, Local Historic District Or Thematic Designation: Each lot or parcel of property proposed as a landmark site, for inclusion in a local historic district, or for thematic designation shall be evaluated according to the following:

a. Significance in local, regional, state or national history, architecture, engineering or culture, associated with at least one of the following:

(1) Events that have made significant contribution to the important patterns of history, or

(2) Lives of persons significant in the history of the city, region, state, or nation, or

(3) The distinctive characteristics of a type, period or method of construction; or the work of a notable architect or master craftsman, or

(4) Information important in the understanding of the prehistory or history of Salt Lake City; and

b. Physical integrity in terms of location, design, setting, materials, workmanship, feeling and association as defined by the national park service for the national register of historic places;

c. The proposed local historic district or thematic designation is listed, or is eligible to be listed on the national register of historic places;

d. The proposed local historic district contains notable examples of elements of the city's history, development patterns or architecture not typically found in other local historic districts within Salt Lake City;

e. The designation is generally consistent with adopted planning policies; and

f. The designation would be in the overall public interest.

11. Factors To Consider: The following factors may be considered by the historic landmark commission and the city council to help determine whether the proposed designation of a landmark site, local historic district or thematic designation meets the criteria listed above:

a. Sites should be of such an age which would allow insight into whether a property is sufficiently important in the overall history of the community. Typically this is at least fifty (50) years but could be less if the property has exceptional importance.

b. Whether the proposed local historic district contains examples of elements of the city's history, development patterns and/or architecture that may not already be protected by other local historic districts within the city.

c. Whether designation of the proposed local historic district would add important knowledge that advances the understanding of the city's history, development patterns and/or architecture.

d. Whether approximately seventy five percent (75%) of the structures within the proposed boundaries are rated as contributing structures by the most recent applicable historic survey.

12. Boundaries Of A Proposed Landmark Site: When applying the evaluation criteria in subsection C10 of this section, the boundaries of a landmark site shall be drawn to ensure that historical associations, and/or those which best enhance the integrity of the site comprise the boundaries.

13. Boundaries Of A Proposed Local Historic District: When applying the evaluation criteria in subsection C10 of this section, the boundaries shall be drawn to ensure the local historic district:

a. Contains a significant density of documented sites, buildings, structures or features rated as contributing structures in a recent historic survey;

b. Coincides with documented historic boundaries such as early roadways, canals, subdivision plats or property lines;

c. Coincides with logical physical or manmade features and reflect recognized neighborhood boundaries; and

d. Contains nonhistoric resources or vacant land only where necessary to create appropriate boundaries to meet the criteria of subsection C10 of this section.

14. Boundaries Of A Proposed Thematic Designation: When applying the evaluation criteria of this section, the boundaries shall be drawn to ensure the thematic designation contains a collection of sites, buildings, structures, or features that are united together by historical, architectural, or aesthetic characteristics and contribute to the historic preservation goals of Salt Lake City by protecting historical, architectural, or aesthetic interest or value.

D. The Adjustment Or Expansion Of Boundaries Of An H Historic Preservation Overlay District And The Revocation Of The Designation Of Landmark Site:

1. Procedure: The procedure for the adjustment of boundaries of an H historic preservation overlay district and the revocation of the designation of a landmark site shall be the same as that outlined in subsection C of this section.

2. Criteria For Adjusting The Boundaries Of An H Historic Preservation Overlay District: Criteria for adjusting the boundaries of an H historic preservation overlay district are as follows:

a. The properties have ceased to meet the criteria for inclusion within an H historic preservation overlay district because the qualities which caused them to be originally included have been lost or destroyed, or such qualities were lost subsequent to the historic landmark commission recommendation and adoption of the district;

b. Additional information indicates that the properties do not comply with the criteria for selection of the H historic preservation overlay district as outlined in subsection C10 of this section; or

c. Additional information indicates that the inclusion of additional properties would better convey the historical and architectural integrity of the H historic preservation overlay district, provided they meet the standards outlined in subsection C10 of this section.

3. Criteria For The Expansion Of An Existing Landmark Site, Local Historic District Or Thematic Designation: A proposed expansion of an existing landmark site, local historic district or thematic designation shall be considered utilizing the provisions of subsections C10 through C14 of this section.

4. Criteria For The Revocation Of The Designation Of A Landmark Site: Criteria are as follows:

a. The property has ceased to meet the criteria for designation as a landmark site because the qualities that caused it to be originally designated have been lost or destroyed or the structure has been demolished; or

b. Additional information indicates that the landmark site does not comply with the criteria for selection of a landmark site as outlined in subsection C10 of this section; or

c. Additional information indicates that the landmark site is not of exceptional importance to the city, state, region or nation.

E. Certificate Of Appropriateness Required: After the establishment of an H historic preservation overlay district, or the designation of a landmark site, no alteration in the exterior appearance of a structure, site, object or work of art affecting the landmark site or a property within the H historic preservation overlay district shall be made or permitted to be made unless or until the application for a certificate of appropriateness has been submitted to, and approved by, the historic landmark commission, or administratively by the planning director, as applicable, pursuant to subsection F of this section. Certificates of appropriateness shall be required for:

1. Any construction needing a building permit;

2. Removal and replacement or alteration of architectural detailing, such as porch columns, railing, window moldings, cornices and siding;

3. Relocation of a structure or object on the same site or to another site;

4. Construction of additions or decks;

5. Alteration or construction of accessory structures, such as garages, etc.;

6. Alterations to windows and doors, including replacement or changes in fenestration patterns;

7. Construction or alteration of porches;

8. Masonry work including, but not limited to, tuckpointing, sandblasting and chemical cleaning;

9. The construction or alterations of site features including, but not limited to, fencing, walls, paving and grading;

10. Installation or alteration of any exterior sign;

11. Any demolition;

12. New construction; and

13. Installation of an awning over a window or door.

F. Procedure For Issuance Of Certificate Of Appropriateness:

1. Administrative Decision: Certain types of construction or demolition may be approved administratively subject to the following procedures:

a. Types Of Construction: The following may be approved by administrative decision:

(1) Minor alteration of or addition to a landmark site or contributing site and/or structure;

(2) Substantial alteration of or addition to a noncontributing site;

(3) Partial demolition of either a landmark site or a contributing structure;

(4) Demolition of an accessory structure;

(5) Demolition of a noncontributing structure; and

(6) Installation of solar energy collection systems that are not readily visible from a public right of way, as described in and pursuant to chapter 21A.40 of this title.

b. Submission Of Application: An application for a certificate of appropriateness shall be made on a form prepared by the planning director or designee, and shall be submitted to the planning division. The planning director shall make a determination of completeness pursuant to chapter 21A.10 of this title, and shall forward the application for review and decision.

c. Materials Submitted With Application: The application shall include photographs, construction drawings, and other documentation such as an architectural or massing model, window frame sections and samples deemed necessary to consider the application properly and completely.

d. Notice For Application For Demolition Of A Noncontributing Structure: An application for demolition of a noncontributing structure shall require notice for determination of noncontributing sites pursuant to chapter 21A.10 of this title.

e. Standards For Approval: The application shall be reviewed according to the standards set forth in subsections G and H of this section, whichever is applicable.

f. Review And Decision By The Planning Director: On the basis of written findings of fact, the planning director or the planning director's designee shall either approve or conditionally approve the certificate of appropriateness based on the standards in subsections G and H of this section, whichever is applicable, within thirty (30) days following receipt of a completed application. The decision of the planning director shall become effective at the time the decision is made.

g. Referral Of Application By Planning Director To Historic Landmark Commission: The planning director may refer any application to the historic landmark commission due to the complexity of the application, the significance of change to the landmark site or contributing structure in the H historic preservation overlay district, or the need for consultation for expertise regarding architectural, construction or preservation issues.

2. Historic Landmark Commission: Certain types of construction, demolition and relocation shall only be allowed to be approved by the historic landmark commission subject to the following procedures:

a. Types Of Construction: The following shall be reviewed by the historic landmark commission:

(1) Substantial alteration or addition to a landmark site or contributing structure/site;

(2) New construction of principal building in H historic preservation overlay district;

(3) Relocation of landmark site or contributing site;

(4) Demolition of landmark site or contributing site;

(5) Applications for administrative approval referred by the planning director; and

(6) Installation of solar energy collection systems that may be readily visible from a public right of way, as described in and pursuant to chapter 21A.40 of this title.

b. Submission Of Application: The procedure for an application for a certificate of appropriateness shall be the same as specified in subsection F1b of this section.

c. Materials Submitted With Application: The requirements for the materials to be submitted upon application for a certificate of appropriateness shall be the same as specified in subsection F1c of this section. Applications for a certificate of appropriateness for demolition shall also submit a reuse plan for the property.

d. Notice: Applications for a certificate of appropriateness shall require notice pursuant to chapter 21A.10 of this title.

e. Public Hearing: Applications for a certificate of appropriateness shall require a public hearing pursuant to chapter 21A.10 of this title.

f. Standards For Approval: The application shall be reviewed according to the standards set forth in subsections G through L of this section, whichever are applicable.

g. Review And Decision By The Historic Landmark Commission: The historic landmark commission shall make a decision at a regularly scheduled meeting, within sixty (60) days following receipt of a completed application, except that a review and decision on an application for a certificate of appropriateness for demolition of a landmark site or contributing structure declaring an economic hardship shall be made within one hundred twenty (120) days following receipt of a completed application.

(1) After reviewing all materials submitted for the case, the recommendation of the planning division and conducting a field inspection, if necessary, the historic landmark commission shall make written findings of fact based on the standards of approval as outlined in this subsection F through subsection L of this section, whichever are applicable.

(2) On the basis of its written findings of fact the historic landmark commission shall either approve, deny or conditionally approve the certificate of appropriateness. A decision on an application for a certificate of appropriateness for demolition of a contributing structure may be deferred for up to one year pursuant to subsections L and M of this section.

(3) The decision of the historic landmark commission shall become effective at the time the decision is made. Demolition permits for landmark sites or contributing structures shall not be issued until the appeal period has expired.

(4) Written notice of the decision of the historic landmark commission on the application, including a copy of the findings of fact, shall be sent by first class mail to the applicant within ten (10) working days following the historic landmark commission's decision.

h. Appeal Of Historic Landmark Commission Decision To Appeals Hearing Officer: The applicant, any owner of abutting property or of property located within the same H historic preservation overlay district, any recognized or registered organization pursuant to title 2, chapter 2.62 of this code, the Utah State Historical Society or the Utah Heritage Foundation, aggrieved by the historic landmark commission's decision, may object to the decision by filing a written appeal with the appeals hearing officer within ten (10) calendar days following the date on which a record of decision is issued. The filing of the appeal shall stay the decision of the historic landmark commission pending the outcome of the appeal, except that the filing of the appeal shall not stay the decision of the historic landmark commission if such decision defers a demolition request for up to one year pursuant to the provisions of subsections L and M of this section.

i. Review By City Attorney: Following the filing of an appeal to the appeals hearing officer of a decision of the historic landmark commission to deny or defer a certificate of appropriateness for demolition, the planning director shall secure an opinion of the city attorney evaluating whether the denial or deferral of a decision of the demolition would result in an unconstitutional taking of property without just compensation under the Utah and United States constitutions or otherwise violate any applicable constitutional provision, law, ordinance or regulation.

j. Appeal Of Appeals Hearing Officer Decision To District Court: Any party aggrieved by the decision of the appeals hearing officer may file a petition for review with the district court within thirty (30) days following the decision of the appeals hearing officer. The filing of an appeal of the appeals hearing officer decision shall stay the decision of the appeals hearing officer pending the outcome of the appeal, except that the filing of the appeal shall not stay the decision of the appeals hearing officer if such decision defers a demolition request for up to one year pursuant to the provisions of subsections L and M of this section.

G. Standards For Certificate Of Appropriateness For Alteration Of A Landmark Site Or Contributing Structure Including New Construction Of An Accessory Structure: In considering an application for a certificate of appropriateness for alteration of a landmark site or contributing structure, the historic landmark commission, or the planning director, for administrative decisions, shall find that the project substantially complies with all of the following general standards that pertain to the application and that the decision is in the best interest of the city:

1. A property shall be used for its historic purpose or be used for a purpose that requires minimal change to the defining characteristics of the building and its site and environment;

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided;

3. All sites, structures and objects shall be recognized as products of their own time. Alterations that have no historical basis and which seek to create a false sense of history or architecture are not allowed;

4. Alterations or additions that have acquired historic significance in their own right shall be retained and preserved;

5. Distinctive features, finishes and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved;

6. Deteriorated architectural features shall be repaired rather than replaced wherever feasible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, texture and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications of features, substantiated by historic, physical or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other structures or objects;

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible;

8. Contemporary design for alterations and additions to existing properties shall not be discouraged when such alterations and additions do not destroy significant cultural, historical, architectural or archaeological material, and such design is compatible with the size, scale, color, material and character of the property, neighborhood or environment;

9. Additions or alterations to structures and objects shall be done in such a manner that if such additions or alterations were to be removed in the future, the essential form and integrity of the structure would be unimpaired. The new work shall be differentiated from the old and shall be compatible in massing, size, scale and architectural features to protect the historic integrity of the property and its environment;

10. Certain building materials are prohibited including the following:

a. Aluminum, asbestos, or vinyl cladding when applied directly to an original or historic material.

11. Any new sign and any change in the appearance of any existing sign located on a landmark site or within the H historic preservation overlay district, which is visible from any public way or open space shall be consistent with the historic character of the landmark site or H historic preservation overlay district and shall comply with the standards outlined in chapter 21A.46 of this title.

H. Standards For Certificate Of Appropriateness Involving New Construction Or Alteration Of A Noncontributing Structure: In considering an application for a certificate of appropriateness involving new construction, or alterations of noncontributing structures, the historic landmark commission, or planning director when the application involves the alteration of a noncontributing structure, shall determine whether the project substantially complies with all of the following standards that pertain to the application, is visually compatible with surrounding structures and streetscape and is in the best interest of the city:

1. Scale And Form:

a. Height And Width: The proposed height and width shall be visually compatible with surrounding structures and streetscape;

b. Proportion Of Principal Facades: The relationship of the width to the height of the principal elevations shall be in scale with surrounding structures and streetscape;

c. Roof Shape: The roof shape of a structure shall be visually compatible with the surrounding structures and streetscape; and

d. Scale Of A Structure: The size and mass of the structures shall be visually compatible with the size and mass of surrounding structure and streetscape.

2. Composition Of Principal Facades:

a. Proportion Of Openings: The relationship of the width to the height of windows and doors of the structure shall be visually compatible with surrounding structures and streetscape;

b. Rhythm Of Solids To Voids In Facades: The relationship of solids to voids in the facade of the structure shall be visually compatible with surrounding structures and streetscape;

c. Rhythm Of Entrance Porch And Other Projections: The relationship of entrances and other projections to sidewalks shall be visually compatible with surrounding structures and streetscape; and

d. Relationship Of Materials: The relationship of the color and texture of materials (other than paint color) of the facade shall be visually compatible with the predominant materials used in surrounding structures and streetscape.

3. Relationship To Street:

a. Walls Of Continuity: Facades and site structures, such as walls, fences and landscape masses, shall, when it is characteristic of the area, form continuity along a street to ensure visual compatibility with the structures, public ways and places to which such elements are visually related;

b. Rhythm Of Spacing And Structures On Streets: The relationship of a structure or object to the open space between it and adjoining structures or objects shall be visually compatible with the structures, objects, public ways and places to which it is visually related;

c. Directional Expression Of Principal Elevation: A structure shall be visually compatible with the structures, public ways and places to which it is visually related in its orientation toward the street; and

d. Streetscape; Pedestrian Improvements: Streetscape and pedestrian improvements and any change in its appearance shall be compatible to the historic character of the landmark site or H historic preservation overlay district.

4. Subdivision Of Lots: The planning director shall review subdivision plats proposed for property within an H historic preservation overlay district or of a landmark site and may require changes to ensure the proposed subdivision will be compatible with the historic character of the district and/or site(s).

I. Standards For Certificate Of Appropriateness For Relocation Of Landmark Site Or Contributing Structure: In considering an application for a certificate of appropriateness for relocation of a landmark site or a contributing structure, the historic landmark commission shall find that the project substantially complies with the following standards:

1. The proposed relocation will abate demolition of the structure;

2. The proposed relocation will not diminish the overall physical integrity of the district or diminish the historical associations used to define the boundaries of the district;

3. The proposed relocation will not diminish the historical or architectural significance of the structure;

4. The proposed relocation will not have a detrimental effect on the structural soundness of the building or structure;

5. A professional building mover will move the building and protect it while being stored; and

6. A financial guarantee to ensure the rehabilitation of the structure once the relocation has occurred is provided to the city. The financial guarantee shall be in a form approved by the city attorney, in an amount determined by the planning director sufficient to cover the estimated cost to rehabilitate the structure as approved by the historic landmark commission and restore the grade and landscape the property from which the structure was removed in the event the land is to be left vacant once the relocation of the structure occurs.

J. Standards For Certificate Of Appropriateness For Demolition Of Landmark Site: In considering an application for a certificate of appropriateness for demolition of a landmark site, the historic landmark commission shall only approve the application upon finding that the project fully complies with one of the following standards:

1. The demolition is required to alleviate a threat to public health and safety pursuant to subsection Q of this section; or

2. The demolition is required to rectify a condition of "economic hardship", as defined and determined pursuant to the provisions of subsection K of this section.

K. Definition And Determination Of Economic Hardship: The determination of economic hardship shall require the applicant to provide evidence sufficient to demonstrate that the application of the standards and regulations of this section deprives the applicant of all reasonable economic use or return on the subject property.

1. Application For Determination Of Economic Hardship: An application for a determination of economic hardship shall be made on a form prepared by the planning director and shall be submitted to the planning division. The application must include photographs, information pertaining to the historic significance of the landmark site and all information necessary to make findings on the standards for determination of economic hardship.

2. Standards For Determination Of Economic Hardship: The historic landmark commission shall apply the following standards and make findings concerning economic hardship:

a. The applicant's knowledge of the landmark designation at the time of acquisition, or whether the property was designated subsequent to acquisition;

b. The current level of economic return on the property as considered in relation to the following:

(1) The amount paid for the property, the date of purchase, and party from whom purchased, including a description of the relationship, if any, between the owner of record or applicant, and the person from whom the property was purchased,

(2) The annual gross and net income, if any, from the property for the previous three (3) years; itemized operating and maintenance expenses for the previous three (3) years; and depreciation deduction and annual cash flow before and after debt service, if any, for the previous three (3) years,

(3) Remaining balance on any mortgage or other financing secured by the property and annual debt service, if any, during the previous three (3) years,

(4) Real estate taxes for the previous four (4) years and assessed value of the property according to the two (2) most recent assessed valuations by the Salt Lake County assessor,

(5) All appraisals obtained within the previous two (2) years by the owner or applicant in connection with the purchase, financing or ownership of the property,

(6) The fair market value of the property immediately prior to its designation as a landmark site and the fair market value of the property as a landmark site at the time the application is filed,

(7) Form of ownership or operation of the property, i.e., sole proprietorship, for profit corporation or not for profit corporation, limited partnership, joint venture, etc., and

(8) Any state or federal income tax returns on or relating to the property for the previous two (2) years;

c. The marketability of the property for sale or lease, considered in relation to any listing of the property for sale or lease, and price asked and offers received, if any, within the previous two (2) years. This determination can include testimony and relevant documents regarding:

(1) Any real estate broker or firm engaged to sell or lease the property,

(2) Reasonableness of the price or rent sought by the applicant, and

(3) Any advertisements placed for the sale or rent of the property;

d. The infeasibility of alternative uses that can earn a reasonable economic return for the property as considered in relation to the following:

(1) A report from a licensed engineer or architect with experience in rehabilitation as to the structural soundness of any structures on the property and their suitability for rehabilitation,

(2) Estimate of the cost of the proposed construction, alteration, demolition or removal, and an estimate of any additional cost that would be incurred to comply with the decision of the historic landmark commission concerning the appropriateness of proposed alterations,

(3) Estimated market value of the property in the current condition after completion of the demolition and proposed new construction; and after renovation of the existing property for continued use, and

(4) The testimony of an architect, developer, real estate consultant, appraiser, or other professional experienced in rehabilitation as to the economic feasibility of rehabilitation or reuse of the existing structure on the property;

e. Economic incentives and/or funding available to the applicant through federal, state, city, or private programs.

3. Procedure For Determination Of Economic Hardship: The historic landmark commission shall establish a three (3) person economic review panel. This panel shall be comprised of three (3) real estate and redevelopment experts knowledgeable in real estate economics in general, and more specifically, in the economics of renovation, redevelopment and other aspects of rehabilitation. The panel shall consist of one person selected by the historic landmark commission, one person selected by the applicant, and one person selected by the first two (2) appointees. If the first two (2) appointees cannot agree on a third person within thirty (30) days of the date of the initial public hearing, the third appointee shall be selected by the mayor within five (5) days after the expiration of the thirty (30) day period.

a. Review Of Evidence: All of the evidence and documentation presented to the historic landmark commission shall be made available to and reviewed by the economic review panel. The economic review panel shall convene a meeting complying with the open meetings act to review the evidence of economic hardship in relation to the standards set forth in subsection K2 of this section. The economic review panel may, at its discretion, convene a public hearing to receive testimony by any interested party; provided, that notice for such public hearing shall be in accordance with chapter 21A.10 of this title.

b. Report Of Economic Review Panel: Within forty five (45) days after the economic review panel is established, the panel shall complete an evaluation of economic hardship, applying the standards set forth in subsection K2 of this section and shall forward a written report with its findings of fact and conclusions to the historic landmark commission.

c. Historic Landmark Commission Determination Of Economic Hardship: At the next regular historic landmark commission meeting following receipt of the report of the economic review panel, the historic landmark commission shall reconvene its public hearing to take final action on the application.

(1) Finding Of Economic Hardship: If after reviewing all of the evidence, the historic landmark commission finds that the application of the standards set forth in subsection K2 of this section results in economic hardship, then the historic landmark commission shall issue a certificate of appropriateness for demolition.

(2) Denial Of Economic Hardship: If the historic landmark commission finds that the application of the standards set forth in subsection K2 of this section does not result in economic hardship then the certificate of appropriateness for demolition shall be denied.

(3) Consistency With The Economic Review Panel Report: The historic landmark commission decision shall be consistent with the conclusions reached by the economic review panel unless, based on all of the evidence and documentation presented to the historic landmark commission, the historic landmark commission finds by a vote of three-fourths ($^3/_4$) majority of a quorum present that the economic review panel acted in an arbitrary manner, or that its report was based on an erroneous finding of a material fact.

L. Standards For Certificate Of Appropriateness For Demolition Of A Contributing Structure In An H Historic Preservation Overlay District: In considering an application for a certificate of appropriateness for demolition of a contributing structure, the historic landmark commission shall determine whether the project substantially complies with the following standards:

1. Standards For Approval Of A Certificate Of Appropriateness For Demolition:

a. The physical integrity of the site as defined in subsection C10b of this section is no longer evident;

b. The streetscape within the context of the H historic preservation overlay district would not be negatively affected;

c. The demolition would not adversely affect the H historic preservation overlay district due to the surrounding noncontributing structures;

d. The base zoning of the site is incompatible with reuse of the structure;

e. The reuse plan is consistent with the standards outlined in subsection H of this section;

f. The site has not suffered from willful neglect, as evidenced by the following:

(1) Willful or negligent acts by the owner that deteriorates the structure,

(2) Failure to perform normal maintenance and repairs,

(3) Failure to diligently solicit and retain tenants, and

(4) Failure to secure and board the structure if vacant; and

g. The denial of a certificate of appropriateness for demolition would cause an "economic hardship" as defined and determined pursuant to the provisions of subsection K of this section.

2. Historic Landmark Commission Determination Of Compliance With Standards Of Approval: The historic landmark commission shall make a decision based upon compliance with the requisite number of standards in subsection L1 of this section as set forth below.

a. Approval Of Certificate Of Appropriateness For Demolition: Upon making findings that at least six (6) of the standards are met, the historic landmark commission shall approve the certificate of appropriateness for demolition.

b. Denial Of Certificate Of Appropriateness For Demolition: Upon making findings that two (2) or less of the standards are met, the historic landmark commission shall deny the certificate of appropriateness for demolition.

c. Deferral Of Decision For Up To One Year: Upon making findings that three (3) to five (5) of the standards are met, the historic landmark commission shall defer a decision for up to one year during which the applicant must conduct a bona fide effort to preserve the site pursuant to subsection M of this section.

M. Bona Fide Preservation Effort: Upon the decision of the historic landmark commission to defer the decision of a certificate of appropriateness for demolition for up to one year, the applicant must undertake bona fide efforts to preserve the structure. The one year period shall begin only when the bona fide effort has commenced. A bona fide effort shall consist of all of the following actions:

1. Marketing the property for sale or lease;

2. Filing an application for alternative funding sources for preservation, such as federal or state preservation tax credits, Utah Heritage Foundation revolving fund loans, redevelopment agency loans, etc.;

3. Filing an application for alternative uses if available or feasible, such as conditional uses, special exceptions, etc.; and

4. Obtaining written statements from licensed building contractors or architects detailing the actual costs to rehabilitate the property.

N. Final Decision For Certificate Of Appropriateness For Demolition Following One Year Deferral: Upon the completion of the one year period and if the applicant provides evidence of a bona fide preservation effort, the historic landmark commission shall make a final decision for the certificate of appropriateness for demolition pursuant to subsection F2 of this section. The historic landmark commission shall approve the certificate of appropriateness for demolition and approve, approve with modifications or deny the certificate of appropriateness for the reuse plan for new construction pursuant to subsection F2, H or P of this section.

O. Recordation Requirement For Approved Certificate Of Appropriateness For Demolition: Upon approval of a certificate of appropriateness for demolition of a landmark site or a contributing structure, the historic landmark commission shall require the applicant to provide archival quality photographs, plans or elevation drawings, as available, necessary to record the structure(s) being demolished for the purpose of providing documentation to state archives.

P. Review Of Postdemolition Plan For New Construction Or Landscape Plan And Bond Requirements For Approved Certificate Of Appropriateness For Demolition: Prior to approval of any certificate of appropriateness for demolition the historic landmark commission shall review the postdemolition plans to assure that the plans comply with the standards of subsection H of this section. If the postdemolition plan is to landscape the site, a bond shall be required to ensure the completion of the landscape plan approved by the historic landmark commission. The design standards and guidelines for the landscape plan are provided in chapter 21A.48 of this title.

1. The bond shall be issued in a form approved by the city attorney. The bond shall be in an amount determined by the building official and shall be sufficient to cover the estimated cost, to: a) restore the grade as required by title 18 of this code; b) install an automatic sprinkling system; and c) revegetate and landscape as per the approved plan.

2. The bond shall require installation of landscaping and sprinklers within six (6) months, unless the owner has obtained a building permit and commenced construction of a building or structure on the site.

Q. Exceptions Of Certificate Of Appropriateness For Demolition Of Hazardous Structures: A hazardous structure shall be exempt from the provisions governing demolition if the building official determines, in writing, that the building currently is an imminent hazard to public safety. Hazardous structures demolished under this section shall comply with subsection P of this section. Prior to the issuance of a demolition permit, the building official shall notify the planning director of the decision.

R. Expiration Of Approvals: Subject to an extension of time granted by the historic landmark commission, or in the case of an administratively approved certificate of appropriateness, the planning director or designee, no certificate of appropriateness shall be valid for a period of longer than one year unless a building permit has been issued or complete building plans have been submitted to the division of building services and licensing within that period and is thereafter diligently pursued to completion, or unless a longer time is requested and granted by the historic landmark commission or in the case of an administrative approval the planning director or designee. Any request for a time extension shall be required not less than thirty (30) days prior to the twelve (12) month time period. (Ord. 74-12, 2012)

21A.34.030: T TRANSITIONAL OVERLAY DISTRICT:

A. Purpose Statement: The purpose of T transitional overlay district is to allow for the redevelopment of certain older residential areas for limited commercial and light industrial uses. This district is intended to provide a higher level of control over such activity to ensure that the use and enjoyment of existing residential properties is not substantially diminished by future nonresidential redevelopment. The intent of this district shall be achieved by designating certain nonresidential uses as conditional uses within the overlay district and requiring future redevelopment to comply with established standards for compatibility and buffering as set forth in this section.

B. District Locational Criteria: Residential areas covered by the T transitional overlay district are characterized by:

1. A land use designation in the city's general plan identifying reuse or redevelopment for nonresidential uses;

2. The presence of external influences, such as proximity to expressways, railroad tracks and incompatible uses, which impact the long term viability of residential use; and

3. Deteriorating housing stock.

C. Permitted Uses: The uses specified as permitted uses in the table of permitted and conditional uses set forth in part III of this title for the underlying district shall be permitted uses and no other.

D. Conditional Uses: The uses specified as conditional uses in the table of permitted and conditional uses set forth in part III of this title for the underlying district shall be conditional uses. In addition to the conditional uses permitted in the underlying district, the following uses shall be allowed as conditional uses in the T transitional overlay district:

1. Light manufacturing and industrial assembly uses;

2. Warehouse and wholesale uses in which goods and materials are stored in completely enclosed buildings;

3. Offices;

4. Furniture and appliance repair shops;

5. Commercial photography studios and photofinishing laboratories;

6. Retail goods establishments;

7. Retail services establishments;

8. Medical and dental offices and clinics; and

9. Medical laboratories.

E. Minimum Lot Area: The minimum lot area for any conditional use shall be ten thousand (10,000) square feet.

F. Minimum Lot Width: The minimum lot width for any conditional use shall be sixty feet (60').

G. Maximum Building Height: The maximum building height for conditional uses shall be thirty five feet (35').

H. Site Design Criteria: The land use compatibility of a proposed conditional use shall be assessed, through the application of the following criteria in addition to the standards for conditional uses set forth in chapter 21A.54, "Conditional Uses", of this title.

1. The proposed principal building shall be located not less than twenty feet (20') from any residential dwelling;

2. Interior side yards for lots abutting residential uses shall not be less than twelve feet (12');

3. Interior side yards for lots abutting another nonresidential use shall not be less than eight feet (8');

4. Front and corner side yards shall be provided consistent with the underlying zoning district;

5. Rear yards shall not be less than twenty five feet (25');

6. Signs should be limited to one flat nonilluminated identification sign not more than six (6) square feet per fifty feet (50') of lot frontage.

I. Buffer Requirements: All conditional uses shall conform to the buffer requirements established in subsection 21A.48.100E of this title.

J. Application: The application for a conditional use in the transitional overlay district shall include information in sufficient detail so that the planning commission may judge the compatibility of the conditional use with the existing residential conditions and the adopted mixed use development policies and for the planning commission to assess the impacts to the existing neighborhood. The following specific information shall also be provided in the application:

1. The amount of employee, customer or other business related traffic (i.e., delivery and pick up) expected to be generated by the proposed use;

2. Traffic impact analysis determining the anticipated effect on contiguous streets and necessary improvements to the street network required to maintain an acceptable level of service for the neighborhood;

3. The location and design of vehicular access to the proposed use, the amount of off street parking facilities, and the location, arrangement and dimensions of loading and unloading facilities;

4. Hours of operation of the business;

5. The amount of noise, noxious odors, fumes or vibration anticipated from the proposed use;

6. Schematic elevations of all building facades indicating building materials, entries, loading docks, signage and building height;

7. Schematic landscape plan.

K. Standards: In evaluating the suitability of a proposed conditional use, the planning commission shall consider the following standards:

1. In addition to all the requirements, standards and criteria established for the transitional overlay district, each conditional use must satisfy the requirements of chapter 21A.54, "Conditional Uses", of this title.

2. The applicant has the burden of establishing to the planning commission that the proposed conditional use meets the purposes of the transitional overlay district. (Ord. 61-09 § 26, 2009: Ord. 26-95 § 2(17-2), 1995)

21A.34.040: AFPP AIRPORT FLIGHT PATH PROTECTION OVERLAY DISTRICT:

A. Purpose Statement: It is determined that a hazard to the operation of the airport endangers the lives and property of users of the Salt Lake City International Airport, and the health, safety and welfare of property or occupants of land in its vicinity. If the hazard is an obstruction or incompatible use, such hazard effectively reduces the size of the area available for landing, takeoff and maneuvering of aircraft, thus tending to destroy or impair the utility of the Salt Lake City International Airport and the public investment. Accordingly, it is declared:

1. That the creation or establishment of an airport hazard is a public nuisance and an injury to the region served by the Salt Lake City International Airport;

2. That it is necessary in the interest of the public health, public safety, and general welfare that the creation or establishment of airport hazards be prevented; and

3. That the prevention of these hazards should be accomplished, to the extent legally possible, by the exercise of the police power without compensation.

B. Title For Citation: This section shall be known and may be cited as *SALT LAKE CITY INTERNATIONAL AIRPORT ZONING ORDINANCE*.

C. Definitions: In this chapter the following terms, phrases, words and their derivations shall have the meanings as defined in this subsection:

AIR CIRCULATION SYSTEM: Any method of cooling and heating an area with all windows and/or doors closed, or with evaporative coolers and/or similar devices.

AIRPORT: The Salt Lake City International Airport.

AIRPORT ELEVATION: The highest point of the airport's usable landing area measured in feet from mean sea level.

AIRPORT HAZARD: Any structure or object or natural growth located on or in the vicinity of the airport, or any use of land near the airport, which obstructs the airspace required for the flight of aircraft in landing or takeoff at the airport, or is otherwise hazardous to such landing or takeoff of aircraft.

AIRPORT MASTER PLAN: The master plan of the airport showing the layout of existing and proposed airport facilities.

AIRPORT REFERENCE POINT: The point established as the approximate geographic center of the airport landing area.

FAA: The federal aviation administration.

HEIGHT: Is expressed in terms of mean sea level elevation unless otherwise specified.

INCOMPATIBLE USE: Any structure or use of land which, exposes residents or occupants in the vicinity of airports to unacceptable levels of aircraft noise (as defined in FAA guidelines) constitutes an airport hazard.

NONCONFORMING USE: Any preexisting structure, tree or use of land which is inconsistent with the provisions of this section or an amendment.

NONPRECISION INSTRUMENT RUNWAY: A runway having an existing instrument approach procedure utilizing air navigation facilities with only horizontal guidance or area type navigation equipment, for which straight-in nonprecision instrument approach procedure has been approved or planned, and for which no precision approach facilities are planned or indicated on an FAA planning document.

PERSON: An individual, firm, partnership, corporation, company, association, joint stock association or governmental entity. It includes a trustee, receiver, assignee or similar representative of any of the foregoing.

PRECISION INSTRUMENT RUNWAY: A runway having an existing instrument approach procedure utilizing an instrument landing system (ILS) or a precision approach radar (PAR). It shall also mean a runway for which a precision approach system is planned and is so indicated on an FAA approved airport layout plan or any other FAA approved planning document.

PRIMARY SURFACE: A surface longitudinally centered on a runway. When the runway has a specially prepared hard surface, the primary surface extends two hundred feet (200') beyond each end of such runway; but when the runway has no special prepared hard surface, or planned hard surface, the primary surface ends at each end of such runway. The width of the primary surface of a runway will be that width described in part 77, section 77.25, of the federal aviation regulations (FAR), which is incorporated by reference and made a part hereof, for the most precise approach existing or planned for either end of that runway. The elevation of any point on the primary surface is the same as the elevation of the nearest point on the runway centerline.

RUNWAY: A defined area on the airport prepared for landing and takeoff of aircraft along its length.

SOUND ATTENUATION: Special construction methods or materials supplementing general building code requirements that are designed or have the effect of insulating interior spaces from exterior noise or sound to lower decibel levels. Sound attenuation requirements of subsection V of this section, or successor subsection, must be demonstrated and satisfied on building plans, pursuant to the requirements of title 18, chapter 18.88 of this code before they can be approved by the building official.

STRUCTURE: An object constructed or installed by man, including, but without limitation, buildings, towers, smokestacks, earth formations and overhead transmission lines.

TREE: Any stationary object of natural growth.

UTILITY RUNWAY: A runway that is constructed for and intended to be used by propeller driven aircraft of twelve thousand five hundred (12,500) pounds' maximum gross weight or less.

VISUAL RUNWAY: A runway intended solely for the operation of aircraft using visual approach procedures with no straight-in instrument approach procedure, and no instrument designation indicated on an FAA approved airport layout plan or on any planning document submitted to the FAA by competent city authority.

D. Airport Master Plan And Airport Zoning Map: Airport types and airport height provisions for the airport shall be determined by and based on the most recent airport layout plan and airport zoning map, approved by the proper city airport officials and by the FAA. Any such maps so approved at the time and passage hereof shall be deemed to be as much a part of this section by this reference as if fully prescribed and detailed herein.

E. Airport Influence Zones Established; Map: In order to carry out the provisions of this section, there are created and established certain airport influence zones which include all of the land lying within the approach zones, transitional zones, horizontal zones, conical zones and airport height restriction zones. Such zones are shown on the airport zoning map on file in the office of the city planning commission, as the same appears as of the effective date hereof, and as hereinafter amended from time to time and hereinafter updated to reflect the updating changes made thereon by ordinances adopted by the city council. Such map and all references, notations and other information shown thereon are made a part of this chapter and incorporated by reference to the same extent as if said map and the information thereon were fully described and set forth herein.

F. Height Limitations In Airport Zones: Except as otherwise provided in this section, no structure or tree shall be erected, altered, allowed to grow or be maintained in any zone created by this chapter to a height in excess of the applicable height limit herein established for such zone. Additionally, structures within the M-1 light manufacturing zoning district must conform to the height regulations outlined in section 21A.28.020 of this title regarding maximum heights and site specific airport and FAA approvals.

G. Runway Larger Than Utility, Visual Approach Zone; Established: Visual approach zones for runways larger than utility are established with the inner edge coinciding with the width of the primary surface and being five hundred feet (500') wide. The approach zone expands outward uniformly to a width of one thousand five hundred feet (1,500') at a horizontal distance of five thousand feet (5,000') from the primary surface, its centerline being the continuation of the centerline of the runway.

H. Runway Larger Than Utility, Visual Approach Zone; Height Limitation: The height limitation in a runway larger than utility, visual approach zone slopes upward twenty feet (20') horizontally for each one foot (1') vertically, beginning at the end of and at the same elevation as the primary surface, and extends to a horizontal distance of five thousand feet (5,000') along the extended runway centerline.

I. Runway Larger Than Utility, Nonprecision Instrument Approach Zone; Established: Runway larger than utility with a visible minimum as low as three-fourths ($^3/_4$) mile nonprecision instrument approach zones is established, with the inner edge of this approach zone coinciding with the width of the primary surface and which is one thousand feet (1,000') wide. The approach zone expands outward uniformly to a width of sixteen thousand feet (16,000') at a horizontal distance of fifty thousand feet (50,000') from the primary surface, its centerline being the continuation of the centerline of the runway.

J. Runway Larger Than Utility, Nonprecision Instrument Approach Zone; Height Limitation: The height limitation in a runway larger than utility with a visual minimum as low as three-fourths ($^3/_4$) mile nonprecision instrument approach slopes upward fifty feet (50') horizontally for each one foot (1') vertically, beginning at the end of and at the same elevation as the primary surface, and extends to a horizontal distance of ten thousand feet (10,000') along the extended runway centerline; thence, slopes upward forty feet (40') horizontally for each one foot (1') vertically to an additional horizontal distance of forty thousand feet (40,000') along the extended runway centerline.

K. Precision Instrument Runway Approach Zone; Established: Precision instrument runway approach zones are established with the inner edge coinciding with the width of the primary surface, and being one thousand feet (1,000') wide. The approach zone expands outward uniformly to a width of sixteen thousand feet (16,000') at a horizontal distance of fifty thousand feet (50,000') from the primary surface, its centerline being the continuation of the centerline of the runway.

L. Precision Instrument Runway Approach Zone; Height Limitation: The height limitation in a precision instrument runway approach zone slopes upward fifty feet (50') horizontally for each one foot (1') vertically, beginning at the end of and at the same elevation as the primary surface, and extends to a horizontal distance of ten thousand feet (10,000') along the extended runway centerline; and thence slopes upward forty feet (40') horizontally for each one foot (1') vertically to an additional distance of forty thousand feet (40,000') along the extended runway centerline.

M. Transitional Zones; Established: Transitional zones are established as the area beneath the transitional surfaces. Transitional surfaces extend outward and upward at ninety degree (90°) angles to the runway centerline and the runway centerline extended, at a slope of seven feet (7') horizontally for each one foot (1') vertically from the sides of the primary and approach surfaces to where they intersect the horizontal and conical surfaces. Transitional zones for those portions of the precision approach zones which project through and beyond the limits of the conical surface extend a distance of five thousand feet (5,000'), measured horizontally from the edge of the approach zones and at ninety degree (90°) angles to the extended runway centerline.

N. Transitional Zones; Height Limitations: The height limitation in a transitional zone slopes upward and outward seven feet (7') horizontally for each foot vertically, beginning at the sides of and at the same elevation as the primary surface and the approach zones, and extending to a height of one hundred fifty feet (150') above the airport elevation, and is at an elevation four thousand three hundred seventy six feet (4,376') above mean sea level. In addition to the foregoing, there are established height limits sloping upward and outward seven feet (7') horizontally for each foot vertically, beginning at the sides of and at the same elevation of the approach zones and extending to where they intersect the conical surface. Where the precision instrument runway approach zone projects beyond the conical zone, height limits sloping upward and outward seven feet (7') horizontally for each foot vertically shall be maintained, beginning at the sides of and at the same elevation as precision instrument runway approach surface, and extending to a horizontal distance of five thousand feet (5,000') measured at ninety degree (90°) angles to the extended runway centerline.

O. Horizontal Zones; Established: Horizontal zones are established as that area the perimeter of which is constructed by swinging arcs of specified radii from a point on the centerline and two hundred feet (200') beyond each end of each runway and connecting the adjacent arcs by lines tangent to those arcs. The radius of each arc is five thousand feet (5,000') for all runways designated as utility or visual, and ten thousand feet (10,000') for all other runways. The radius of the arc specified for each end of a runway will have the same arithmetical value. That value will be the highest determined for either end of the runway. When a five thousand foot (5,000') arc is encompassed by tangents connecting two (2) adjacent ten thousand foot (10,000') arcs, the five thousand foot (5,000') arc shall be disregarded in determining the horizontal zone: The horizontal zone does not include the approach and transitional zones.

P. Horizontal Zones; Height Limit: The height limitation in a horizontal zone shall be one hundred fifty feet (150') above the airport elevation, and is at an elevation of four thousand three hundred seventy six feet (4,376') above mean sea level.

Q. Conical Zones; Established: Conical zones are established as the area that commences at the periphery of the horizontal zone and extend outward from there a horizontal distance of four thousand feet (4,000'). The conical zone does not include the precision instrument approach zones and the transitional zones.

R. Conical Zones; Height Limit: The height limitation of the conical zone slopes upward and outward twenty feet (20') horizontally for each foot vertically, beginning at the periphery of the horizontal zone and at one hundred fifty feet (150') above the airport elevation extending to a height of three hundred fifty feet (350') above the airport elevation.

S. Areas in More Than One Zone. An area located in more than one zone shall conform to the regulations of the zone with the more restrictive regulation or limitation.

T. Height Limitations; Conformance For Structures And Trees: Nothing in this section shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height consistent with the terms of this chapter.

U. Airport Influence Zones: Airport influence zones, as reflected on figure 3-1 of the airport's land use policy plan, which boundaries shall be reflected in the zoning map, are established as follows:

1. Airport influence zone A is that area exposed to very high levels of aircraft noise, and having specific height restrictions.
2. Airport influence zone B is that area exposed to high levels of aircraft noise, and having specific height restrictions.
3. Airport influence zone C is that area exposed to moderate levels of aircraft noise, and having specific height restrictions.
4. Airport influence zone H is that area having specific height restrictions.

V. Airport Influence Zones; Incompatible Uses: Except as provided for in this section, no structure or use of land shall be erected, altered or utilized in any airport influence zone so as to create an incompatible use as hereinafter established for such zones. To avoid the enlargement of existing nonconforming uses, defined as incompatible, compliance with these provisions will be required for the entire structure when changes of use occur. When structures, other than single-family or two-family dwellings, are remodeled or altered, only the area involved in the work must comply. The requirements of sound attenuation to various levels set forth below, are found in title 18, chapter 18.88 of this code, but are incorporated herein by reference.

1. Airport Influence Zone A: The following uses are incompatible in this zone and are prohibited:
   a. Residential uses;
   b. Commercial uses, except those constructed with air circulation systems and at least twenty five (25) dBs of sound attenuation;
   c. Institutional uses such as schools, hospitals, churches and rest homes;
   d. Hotels and motels, except those constructed with air circulation systems and at least thirty (30) dBs of sound attenuation in sleeping areas and at least twenty five (25) dBs of sound attenuation elsewhere.
2. Airport Influence Zone B: The following uses are incompatible in this zone and are prohibited:
   a. Residential uses, except residences in agricultural zones with air circulation systems and at least twenty five (25) dBs of sound attenuation;
   b. Institutional uses such as schools, hospitals, churches and rest homes, except those constructed with air circulation systems and at least twenty five (25) dBs of sound attenuation;
   c. Hotels and motels except those constructed with air circulation systems, and at least twenty five (25) dBs of sound attenuation, in sleeping areas.
3. Airport Influence Zone C: The following uses are incompatible uses in this zone and are prohibited:
   a. Residential uses, except those constructed with air circulation systems;
   b. Mobile homes, except those constructed with air circulation systems and at least twenty (20) dBs of sound attenuation;
   c. Institutional uses such as schools, hospitals, churches and rest homes, except those constructed with air circulation systems.
4. Airport Influence Zone H: The uses within zone H shall be the same as the underlying city zone.

W. Airport Influence Zones; Avigation Easements:

1. Any development on land located within airport influence zones A, B or C requires the acknowledgment of the existing prescriptive avigation easement. Such easement is the memorialization by dedication of an avigation easement by the owners, both legal and equitable, of the property to be developed. A sample of the avigation easement shall be on file with the city recorder.
2. For purposes of this action, development requiring the easement is defined as the subdivision of land (defined under title 20 of this code), and/or the new construction of improvements upon vacant land, excepting only:
   a. New construction which is proposed on improved and subdivided property where plats therefor were approved and filed of record prior to September 13, 1983, the date of conceptual approval following public hearing; and
   b. Remodeling of or additions to existing structures on improved and subdivided lots, provided no change of use is involved.
3. The requirement of an avigation easement is separate and apart from the various sound attenuation requirements that may be imposed on construction in various zones.

X. Use Restrictions; Electrical Or Visual Hazards: Notwithstanding any other provision of this section, no use may be made of land or water within any zone established by this chapter in such a manner as to:

1. Create any electrical interference with navigational signals for radio communication between the airport and the aircraft;
2. Make it difficult for pilots to distinguish airport lights and others;
3. Result in glare in the eyes of the pilots using the airport;
4. Impair visibility in the vicinity of the airport; or
5. Otherwise in any way create a hazard or endanger the landing, takeoff or maneuvering of aircraft intending to use the airport.

Y. Nonconforming Uses; Regulations Not Retroactive: The regulations prescribed in this section shall not be construed to require the removal, lowering, or other changes or alterations in any structure or tree not conforming to the regulations as of April 12, 1995, or otherwise interfere with the continuance of a nonconforming use. Nothing contained herein shall require any change in the construction, alteration or intended use of any structure, the construction or alteration of which was begun prior to April 12, 1995, and which is diligently prosecuted.

Z. Nonconforming Uses; Marking And Lighting: Notwithstanding the provisions of subsection Y of this section, or its successor, the owner of any existing nonconforming structure or tree is required to permit the installation, operation and maintenance thereon of such markers and lights as shall be deemed necessary by the airport manager, to indicate to the operators of aircraft in the vicinity of the airport the presence of such airport hazards. Such markers and light shall be installed, operated and maintained at the expense of the owner of the property involved.

AA. Permits; Future Uses: Except as specifically provided in subsections BB through DD of this section no material change shall be made in the use of land, and no structure or tree shall be erected, altered, planted or otherwise established in any zone created by this chapter, unless a permit therefor shall have been applied for and granted. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined or that the resulting use, structure or tree would conform to the regulations herein prescribed.

BB. Permits; Issuance Restrictions: No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming use, structure or tree to be made or become higher or become a greater hazard to air navigation than it was on April 12, 1995, or any amendment thereto, or than it is when the application for a permit is made.

CC. Abandoned Or Deteriorated Structures Or Trees: Whenever the building inspector determines that a nonconforming structure or tree has been abandoned or more than eighty percent (80%) torn down, physically deteriorated or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations.

DD. Hazard Marking And Lighting: Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this chapter and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the property owner at his own expense, to install, operate and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

EE. Airport Landscape Overlay District: The airport landscape overlay district shall consist of all properties located generally between Interstate 215 and the eastern boundary of the Salt Lake International Center, and between 2700 North and the Western Pacific Railroad corridor south of Interstate 80. This airport landscape overlay district is more particularly depicted on the map attached as exhibit A to ordinance 70-03.

FF. Airport Parking Lot Landscaping: All parking lots located within the airport landscaping overlay district shall comply with the following guidelines:

1. General Landscaping Performance Standards: Landscaping plans for parking lots shall be developed to reflect a balance between the responsibility of ensuring the safety and security of persons and property with the objective of creating aesthetically pleasing, environmentally sensitive landscapes. Landscaping should address city goals related to reduction of urban heat islands, visual buffering of parking lots, impacts of noise, water conservation, as well as minimization of dust, runoff and sedimentation. Landscaping shall consist of a variety of landscape materials, which may include trees, turf, ground cover, shrubs, perennials, managed water features, and rock features. Drought tolerant or resistant vegetation, which reflects the natural vegetation and geography of the region, should be used to create an aesthetically appealing landscape.

2. Reduction Of Urban Heat Islands: The following standards are intended to help mitigate the contribution to the urban heat island effect from large parking areas. Parking lot owners or operators may use a combination of any of the following methods to reduce urban heat:

   a. The total airport parking supply shall consist of a combination of surface and structured parking lots. Structured parking shall offset the area of surface parking that is otherwise required, thereby reducing the area that contributes to urban heat.

   b. Landscaping within large land use areas may be evaluated in terms of a comprehensive planned development program to consider the total landscaping within the entire development area. Landscaping may be shifted from the interior of parking lots to other areas within the developed area.

   c. Landscaping, which includes trees, shrubs, ground cover and perennials, shall be dispersed throughout parking lots to provide shade while ensuring trees are not planted at a spacing or density that will encourage wildlife use or create an aviation hazard.

   d. Shade for pedestrians shall be provided in parking lots through the use of pedestrian shelters integrated with landscaping.

   e. Interior landscaped areas shall be provided in parking lots to reduce heat, provide a visual buffer and reduce runoff.

   f. No specific ratio of trees and shrubs to landscaped area is required.

3. Visual Buffering: Landscaped buffers, not less than ten feet (10') in width, shall be provided, where feasible, between parking lots and primary entrance and exit roads. Visual screening shall be provided within landscape buffers to enhance aesthetics and reduce visibility of parked vehicles. Visual screening may consist of a combination of earth berms, shrubs, trees or other methods.

4. Water Conservation: To promote water conservation, landscape concepts shall incorporate features that use trees, shrubs, ground cover, and perennials that are drought tolerant or resistant species that can withstand dry conditions once established. The plant list developed by the city, titled "Water Conserving Plants For Salt Lake City", shall be used as the primary reference in determining drought tolerance of plants. All irrigation systems shall be designed for efficient use of potable water. Traditional turf areas should be minimized in favor of alternative landscape practices to reduce the use of water.

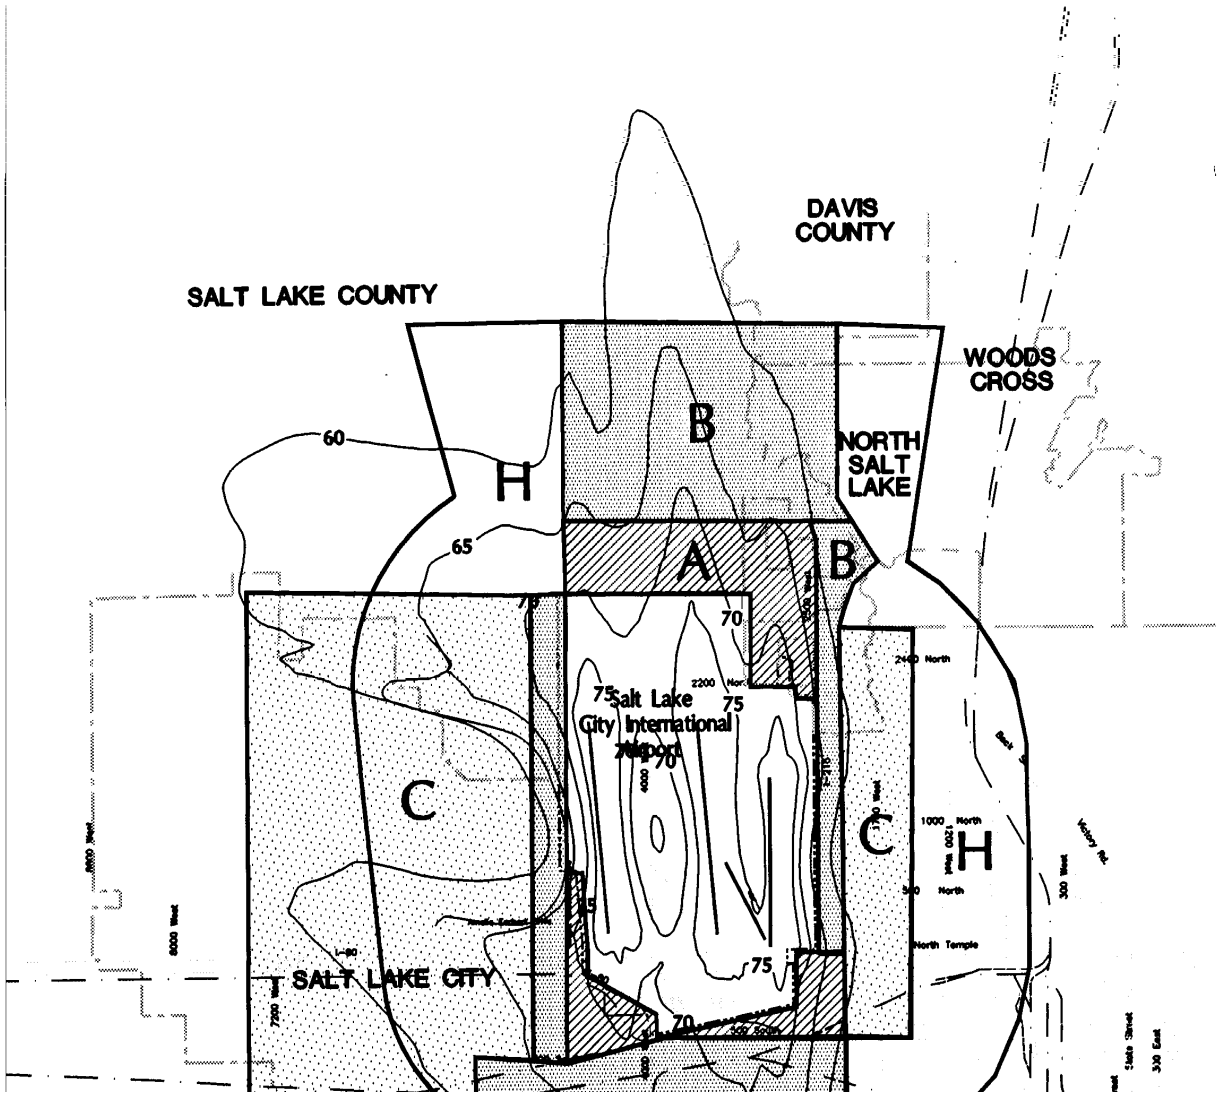
5. Temporary Parking Lots: Parking lots that are intended to be in use for three (3) years or less are exempt from parking lot landscaping requirements. Such parking lots may exist to phase the construction of other facilities and shall be removed once the facilities are completed. Temporary lots that are within the area of an approved comprehensive plan may remain in use for the duration approved in the plan. However, temporary parking lots shall still comply with applicable development standards for parking lots as outlined in section 21A.44.020 of this title. Parking lots that remain in use by the public beyond three (3) years shall be brought into compliance with these standards within twelve (12) months.

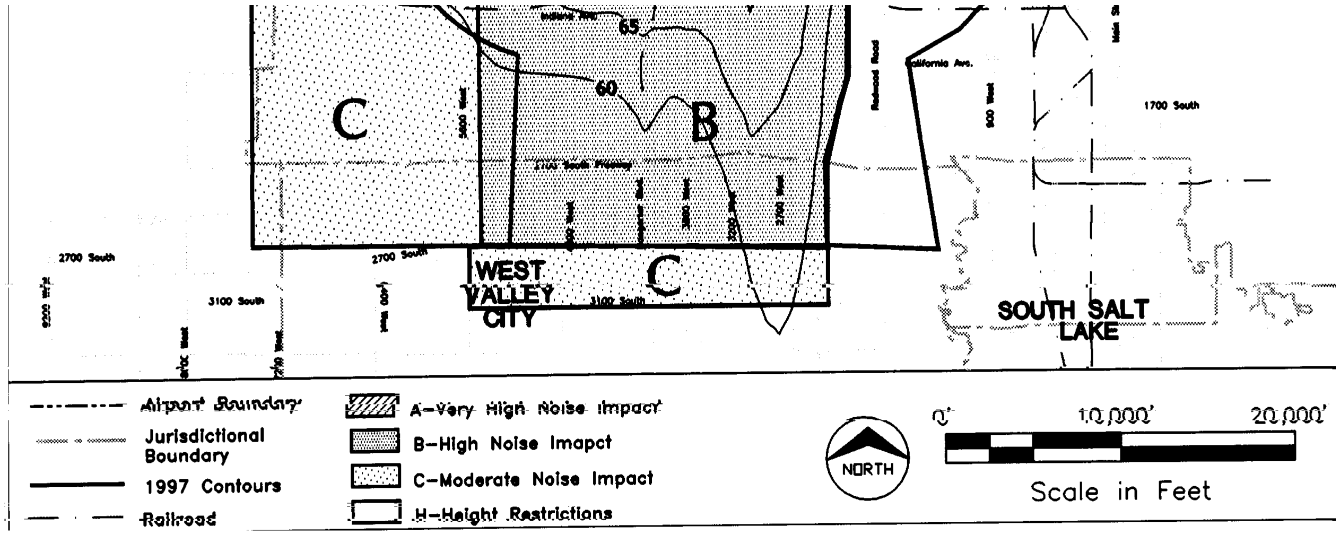
6. Operational And Maintenance Lots: Parking lots that are not available to the public for parking and are used to store vehicles, operational materials, or maintenance equipment are exempt from landscaping requirements. The portions of permanent storage lots that are adjacent to public areas shall be landscaped using acceptable landscaping principles contained herein to screen the storage area from public view.

7. Plan Approval: All landscape plans shall be coordinated with the city's development review team (DRT) and planning division, for review and comment on compliance with city ordinances and these performance standards. The planning director and director of airports shall jointly approve final landscaping plans for any airport parking lot.

GG. Conflicting Regulations: Where there exists a conflict between any of the regulations or limitations prescribed in this chapter and any other regulation applicable to the same area, whether the conflict is with respect to the height of structures or trees, the use of land, or any other matter, the more stringent limitation or requirement shall govern and prevail.

HH. Violation; Penalty: Each violation of this section shall constitute a misdemeanor and be punished as provided in section 1.12.050 of this code, or its successor section.





(Ord. 61-07 § 2, 2007: Ord. 70-03 §§ 1, 2, 2003: Ord. 26-95 § 2(17-3), 1995)

21A.34.050: LC LOWLAND CONSERVANCY OVERLAY DISTRICT:

A. Purpose Statement: It is the purpose of this district to promote the public health, safety and general welfare of the present and future residents of the city and downstream drainage areas by providing for the protection, preservation, proper maintenance, and use of the city's watercourses, lakes, ponds, floodplain and wetland areas. The requirements of this district shall supplement other applicable codes and regulations, including state and federal regulations and the Salt Lake City floodplain ordinance.

B. Lowland Protection Areas: Areas protected by the LC lowland conservancy overlay district encompass areas consisting of waterbodies such as streams, lakes, ponds and wetlands, as identified on the zoning map, and also the Jordan River and the Surplus Canal. These areas are referred to herein as lowland protection areas.

C. Lowland Protection Area Standards:

1. Setback Required: A nonbuildable setback area around the waterbodies described in subsection B of this section shall be required. The nonbuildable setback shall be fifty feet (50') for nonresidential uses and twenty five feet (25') for residential uses from the boundary line of the LC lowland conservancy overlay district as identified on the zoning map, or from the banks of the Jordan River or Surplus Canal.

2. Permitted Uses: No development or improvement to land shall be permitted within the limits of a water body. Within the setback area identified in subsection C1 of this section, permitted uses shall be limited to the following, subject to the other requirements of this district:

a. Agricultural uses, provided such uses are permitted in the underlying district and do not involve any grading, earthmoving, modification of site hydrology, removal of wetland vegetation or construction of permanent buildings/structures;

b. Open space and recreational uses that do not involve any grading, earthmoving, modification of site hydrology, removal of wetland vegetation or construction of permanent buildings/structures.

3. Conditional Uses: Within the limits of a water body, conditional uses shall be limited to those involving only limited filling, excavating or modification of existing hydrology, as listed below:

Boat docks and piers.

Boat launching ramps.

Observation decks and walkways within wetlands.

Public and private parks including wildlife and game preserves, fish and wildlife improvement projects, and nature interpretive centers.

Repair or replacement of existing utility poles, lines and towers.

Roads and bridges.

Swimming beaches.

Underground utility transmission infrastructure:

a. An appropriate plan for mitigation of any construction activities shall be prepared, and

b. Absent any state or federal regulations, a plan for creating no adverse impact should the line be abandoned shall be prepared.

Watercourse relocation and minor modifications.

Within the setback area, conditional uses shall be limited to the following:

All uses listed above.

Pedestrian paths and trails.

Public and private open space that requires grading or modification of site hydrology.

Stormwater drainage and detention facilities.

4. Natural Vegetation Buffer Strip: A natural vegetation strip shall be maintained along the edge of the stream, lake, pond or wetland to minimize erosion, stabilize the stream bank, protect water quality, maintain water temperature at natural levels, preserve fish and wildlife habitat, to screen manmade structures, and also to preserve aesthetic values of the natural watercourse and wetland areas. Within the twenty five foot (25') natural vegetation strip, no buildings or structures (including paving) may be erected, except as allowed by conditional use. However, normal repair and maintenance of existing buildings and structures shall be permitted. The natural vegetation strip shall extend landward a minimum of twenty five feet (25') from the ordinary high water mark of a perennial or intermittent stream, lake or pond and the edge of a wetland. The natural vegetation strip may be interrupted to provide limited access to the water body.

Within the natural vegetation strip, trees and shrubs may be selectively pruned or removed for harvest of merchantable timber, to achieve a filtered view of the water body from the principal structure and for reasonable private access to the stream, lake, pond or wetland. Said pruning and removal activities shall ensure that a live root system stays intact to provide for stream bank stabilization and erosion control.

5. Landscape Plan Required: A landscape plan shall be submitted with each conditional use permit application for development activity within the LC lowland conservancy overlay district and contain the following:

a. A plan describing the existing vegetative cover of the property and showing those areas where the vegetation will be removed as part of the proposed construction;

b. A plan describing the proposed revegetation of disturbed areas specifying the materials to be used. The vegetation must be planned in such a way that access for stream maintenance purposes shall not be prevented; and

c. Such a plan shall be in conformance with the requirements of chapter 21A.48 of this title.

D. State And Federal Permits Required: A conditional use shall not be granted unless the applicant has first obtained a section 404 permit from the army corps of engineers and a stream alteration permit from the Utah state department of natural resources, water rights division, as applicable.

E. Conditional Use Standards: In addition to demonstrating conformance with the conditional use standards contained in chapter 21A.54 of this title, each applicant for a conditional use within the LC lowland conservancy overlay district must demonstrate conformance with the following standards:

1. The development will not detrimentally affect or destroy natural features such as ponds, streams, wetlands, and forested areas, nor impair their natural functions, but will preserve and incorporate such features into the development's site;

2. The location of natural features and the site's topography have been considered in the designing and siting of all physical improvements;

3. Adequate assurances have been received that the clearing of the site topsoil, trees, and other natural features will not occur before the commencement of building operations; only those areas approved for the placement of physical improvements may be cleared;

4. The development will not reduce the natural retention storage capacity of any watercourse, nor increase the magnitude and volume of flooding at other locations; and that in addition, the development will not increase stream velocities;

5. The soil and subsoil conditions are suitable for excavation and site preparation, and the drainage is designed to prevent erosion and environmentally deleterious surface runoff;

6. The proposed development activity will not endanger health and safety, including danger from the obstruction or diversion of flood flow;

7. The proposed development activity will not destroy valuable habitat for aquatic or other flora and fauna, adversely affect water quality or groundwater resources, increase stormwater runoff velocity so that water levels from flooding increased, or adversely impact any other natural stream, floodplain, or wetland functions, and is otherwise consistent with the intent of this title;

8. The proposed water supply and sanitation systems are adequate to prevent disease, contamination and unsanitary conditions; and

9. The availability of alternative locations not subject to flooding for the proposed use. (Ord. 45-09 § 1, 2009: Ord. 26-95 § 2(17-4), 1995)

21A.34.060: GROUNDWATER SOURCE PROTECTION OVERLAY DISTRICT:

A. Title, Applicability And Authority:

1. Title: This section shall be known as the *GROUNDWATER SOURCE PROTECTION ORDINANCE.*

2. Applicability: The provisions of this section shall be effective within the corporate boundaries of the city with respect to both city owned and noncity owned groundwater sources, and, to the fullest extent permitted by law, outside the corporate boundaries of the city with respect to city owned groundwater sources. This section establishes certain standards and restrictions intended to prevent contamination of the public drinking water supply as a result of toxic substances entering the groundwater. It shall be the responsibility of any person owning real property and/or owning or operating a business within the protective zones or recharge areas established pursuant to this section to conform and comply with the applicable provisions contained in this section. Ignorance of this section shall not excuse any violations of the provisions hereof.

3. Authority: This section is adopted pursuant to authority provided in the Utah municipal land use and development act[1], section 10-8-15, Utah Code Annotated, the Utah administrative code, R309-113, and other applicable statutory and common law of the state.

B. Purpose And Intent: The purpose of this section is to protect, preserve, and maintain existing and potential public drinking groundwater sources in order to safeguard the public health, safety and welfare of customers and other users of the city's public drinking water supply, distribution and delivery system. The intent of this section is to establish and designate drinking water source protection zones and groundwater recharge areas for all underground sources of public drinking water which enter the city's culinary drinking water supply, distribution and delivery system, whether such sources are located within, or outside of, the city's corporate boundaries. This section establishes criteria for regulating the storage, handling, use or production of hazardous waste, petroleum product and regulated substances within identified areas where groundwater is, or could be affected by the potential contaminant source. This shall be accomplished by the designation and regulation of property uses and conditions that may be maintained within such zones or areas. Unless otherwise specified, the provisions of this section apply to new development, changes or expansion of use, and/or handling, movement, and storage of hazardous waste, petroleum products and regulated substances.

The degree of protection afforded by this section is considered adequate at the present time to address the perceived actual and potential threat to underground drinking water sources. This section does not ensure that public drinking water sources will not be subject to accidental or intentional contamination, nor does it create liability on the part of the city, or an officer or employee thereof, for any damages to the public water supplies from reliance on this section or any administrative order lawfully made hereunder.

Compliance with the terms of this section shall not relieve the person subject to the terms hereof of the obligation to comply with any other applicable federal, state, regional or local regulations, rule, ordinance or requirement.

C. Definitions: Unless the context specifically indicates otherwise, the following terms used in this section shall have the following meanings:

BEST MANAGEMENT PRACTICES (BMPs): A practice or combination of practices determined to be the most effective practicable (including technological, economic, and institutional considerations) means of preventing or reducing the amount of pollution to a level compatible with water, soil, and air quality goals.

CITY: Salt Lake City Corporation.

CLOSURE: The cessation of operation of a facility, or any portion thereof, and the act of securing such facility or portion thereof to ensure protection of ground water in accordance with the appropriate state, federal, regional and local regulations applicable to the specific facility and with the provisions of this section.

COLLECTION AREA: The area surrounding a ground water source which is underlain by collection pipes, tile, tunnels, infiltration boxes, or other ground water collection devices.

CONTINUOUS TRANSIT: The nonstop movement of a mobile vehicle except for stops required by traffic laws.

COUNCIL: The Salt Lake City council.

DIRECTOR: The director of the public utilities department.

DISCHARGE: Means and includes, but shall not be limited to, spilling, leaking, seeping, pouring, injecting, emitting, emptying, disposing, releasing, or dumping regulated substances, hazardous waste or petroleum products to the soils, air, ground water, or surface waters of the city. Discharge does not include the use of a regulated substance in accordance with the appropriate use intended or specified by the manufacturer of the substances, provided that such use is not prohibited by federal, state, regional or local regulations. Discharge shall not include discharges specifically authorized by federal or state permits.

DRINKING WATER SOURCE: A drinking water spring or well supplying water which has been permitted or intended for consumptive use.

DRINKING WATER SOURCE PROTECTION ZONE (DWSP), OR PROTECTION ZONE: An area within which best management practices are mandated for restricted uses, or certain uses are prohibited, in order to protect ground water flowing to public drinking water sources, and designated as a protection zone, level 1, 2, 3 or 4, pursuant to subsection D2 of this section.

GROUND WATER: Any water which may be drawn from the ground.

GROUND WATER DIVIDE: A line on a water table on each side of which the water table slopes downward in a direction away from the line.

GROUND WATER TOT: Time of travel for ground water to a drinking water source.

HANDLE: To use, generate, process, produce, package, treat, store, or transport a regulated substance, hazardous waste or petroleum product in any fashion.

HAZARDOUS WASTE: All waste regulated under the following federal acts: the reserve conservation and recovery act, the toxic substance control act, the clean water act, the clean air act, the solid waste disposal act and the atomic energy act of 1954.

HEALTH DEPARTMENT: The Salt Lake Valley health department.

OPERATING PERMIT: A permit to operate a facility handling regulated substances, hazardous waste or petroleum products under this section. The permit will be issued by the Salt Lake City division of building services and licensing.

PCS: Potential contaminant source.

PWS: Public water system.

PETROLEUM PRODUCT: Fuels (gasoline, diesel fuel, kerosene, and mixtures of these products), lubricating oils, motor oils (new and used), hydraulic fluids, and other similar petroleum based products.

PRIMARY RECHARGE AREA: Each area by that name designated pursuant to subsection D2 of this section.

PUBLIC UTILITIES DEPARTMENT: The Salt Lake City department of public utilities.

RECHARGE AREA: Either a primary recharge area or a secondary recharge area.

RECHARGE AREA AND PROTECTION ZONE MAP: The map by that name designated in subsection D1 of this section.

REGULATED PERSON: Each person, corporation, partnership, association or other legal entity subject to the provisions of this section.

REGULATED SUBSTANCES: Substances (including degradation and interaction products) which, because of quantity, concentration, physical, chemical (including ignitability, corrosivity, reactiveness, and toxicity), infectious characteristics, radiomutagenicity, carcinogenicity, teratogenicity, bioaccumulative effect, persistence (nondegradability) in nature, or any other characteristics relevant to a particular material, may cause significant harm to human health and/or the environment (including surface and ground water, plants, and animals), including, without limitation, those substances set forth in the generic regulated substances list which is included in this section as appendix A. Regulated substances shall include those set forth in the following lists, as the same may be amended from time to time: Identification and listing of hazardous materials (40 CFR part 261, subpart D) and list of extremely hazardous substances (40 CFR part 355, appendices A and B) and which are in a form capable of entering the ground water.

RESIDENTIAL USE: Any building or structure or portion thereof that is designed for or used for residential purposes and any activity involving the use or occupancy of a lot for residential purposes. Residential use shall include those customary and accessory residential activities associated with the principal permitted use of a lot for residential purposes as set out in the zoning ordinance of the city.

SECONDARY AS SUCH RECHARGE AREA: The areas depicted on appendix C to this section.

SECONDARY CONTAINMENT: Any system that is used to provide release detection and release prevention, such as trays under containers, floor curbing or other systems designed to hold materials or liquids that may discharge from containers holding regulated substances, petroleum products or hazardous waste. Examples include a double walled tank, a double walled integral piping system, or a single walled tank or integral piping system that is protected by an enclosed concrete vault, liner, or an impervious containment area.

SEPTIC HOLDING TANK: A watertight receptacle, used to contain septic waste, the contents of which are removed and disposed of at a waste disposal facility.

SEPTIC TANK SYSTEM: A generally watertight receptacle connected to a drain field that allows liquid from the tank to enter the soil. The system is constructed to promote separation of solid and liquid components of domestic wastewater, to provide decomposition of organic matter, to store solids, and to allow clarified liquid to discharge for further treatment and disposal in a soil absorption system.

SLUDGE, OR BIOSOLIDS: The solids separated from wastewater during the wastewater treatment process.

TRAVEL TIME CONTOUR: The locus of points that form a line of any configuration in space from which ground water particles on that line theoretically take an equal amount of time to reach a given destination, such as a well or a well field, as predicted by the refined Salt Lake Valley MODFLOW/MODPATH model.

USGS: The United States geological survey.

WELL: Any excavation that is drilled, cored, bored, washed, driven, dug, jetted, or otherwise constructed for which the intended use of such excavation is the location, acquisition, development, or artificial recharge of ground water.

WELL FIELD: An area of land which contains one or more drinking water supply wells.

D. Extent And Designation Of Recharge Areas And Protection Zones:

1. Recharge Area And Protection Zone Map: The extent of the recharge areas and the protection zones may be seen on the recharge area and protection zone map, appendix C to this section. The recharge area and protection zone map is incorporated and made a part of this section. The recharge area boundary lines have been located along streets and/or section lines for convenience of assessing which prohibition and restrictions apply to a specific property. Amendments, additions, or deletions to this map may be made by the city council following public notice and after approval by the public utilities department. This notice shall be published at least thirty (30) days prior to consideration by the public utilities department.

2. Designation Of Recharge Areas And Protection Zones: The following recharge areas and protection zones are hereby designated within the city:

a. Primary recharge area, as determined by the USGS (see appendix C to this section).

b. Secondary recharge area, as determined by the USGS (see appendix C to this section).

c. Protection zone 1 shall be the area within a one hundred foot (100') radius from the margin of the collection area.

d. Protection zone 2 shall be the area within a two hundred fifty (250) day ground water TOT to the margin of the collection area, the boundary of the aquifer(s) which supplies water to the ground water source, or the ground water divide, whichever is closer.

e. Protection zone 3 shall be the area within a three (3) year TOT to the margin of the collection area, the boundary of the aquifer(s) which supplies water to the ground water source, or the ground water divide, whichever is closer.

f. Protection zone 4 shall be the area within a fifteen (15) year TOT to the margin of the collection area, the boundary of the aquifer(s) which supplies water to the ground water source, or the ground water divide, whichever is closer.

3. Determination Of Applicable Standards: In determining the location of properties and facilities within the recharge areas and protection zones depicted on the recharge area and protection zone map, the following rules shall apply:

a. Property located wholly or partially within a single recharge area or a protection zone on the overlay map shall be governed by the restrictions applicable to that recharge area or protection zone.

b. Properties located within more than one recharge area or protection zone as shown on the overlay map shall be governed by the restrictions applicable to the most restrictive protection zone.

4. Review Of Recharge Area And Protection Zone Map: The public utilities department shall review the recharge area and protection zone map at least once every five (5) years, or more frequently as determined appropriate by the public utilities department, and may recommend changes as deemed appropriate. Failure to conduct this review shall not affect the validity of the existing approved map. The basis for updating the map may include, but is not limited to, the following:

a. Changes in technical or scientific knowledge in the areas of geohydrology, hydraulics, and geology;

b. Changes in well field configuration;

c. Changes in pumping rates for the well field;

d. Development of new wells, well fields, and/or springs; or

e. Changes in water quality.

E. Uses And Restrictions Within Recharge Areas And Protection Zones:

1. Prohibitions And Restrictions: A list of uses which may constitute potential contamination sources is set forth in appendix B to this section. The list categorizes each use as either "restricted" or "prohibited" within the protection zones referenced in subsection D2 of this section, and includes BMPs, if available, for each use. Permit requests for restricted uses shall be processed as outlined in subsection F of this section. The public utilities department shall update and/or revise appendix B to this section from time to time as uses, technology, and BMPs evolve over time.

2. Discharges: No person shall discharge, or permit the discharge of any regulated substance, hazardous waste or petroleum product, whether treated or untreated, to soils, air, ground water, or surface water in any recharge area or protection zone, that may have a deleterious effect upon the ground water in the city, unless the discharge is in compliance with federal, state, and local regulations.

F. Review Of Development Plans; Permits:

1. Application: Permit applications for all new restricted uses, or expansion of an existing restricted use, shall be submitted to the Salt Lake City division of building services and licensing for review, issuance of building permits (if applicable), and issuance of an operating permit. The review process shall include referral of proposed plans and specifications to the public utilities department for review.

2. Approval Of Permit: If the public utilities department finds that the proposed use will not have an adverse impact on ground water quality, or that the potential adverse impacts can be mitigated by implementing best management practices or other strategies, the permit may be approved. If approved, all recommendations of the public utilities department shall be attached to the permit as conditions of approval.

3. Denial Of Permit: If the public utilities department determines that the proposed use may have an adverse effect upon ground water quality, and that the adverse effect cannot be adequately mitigated through use of BMPs or other methods, the permit shall be denied.

G. Management Strategies; Best Management Practices:

1. Toxic, Hazardous, And Other Materials Handling Regulations:

a. Storage Containers: All regulated substances, hazardous waste and petroleum products shall be stored in suitable containers to reduce the chance for such substances to be accidentally introduced into the environment. These storage containers shall be product tight and, except where provided elsewhere in this section, shall be provided with a means to control spillage and to contain or drainoff spillage and fire protection water discharged in the storage area. Storage containers and secondary containment areas must be covered and/or elevated to prevent the accumulation of rain or other water. Defective storage containers shall be removed from service for repair or disposal in accordance with local, state, and federal standards.

b. Secondary Containment: Secondary containment shall be constructed of a material of sufficient structural integrity and composition to contain the required capacity of liquids and not be structurally weakened as a result of contact with the discharge of the regulated substance, hazardous waste or petroleum product to be contained. The material shall be free of cracks, joints, gaps, or other imperfections which would allow leakage through the containment material.

The secondary containment system shall have sufficient capacity to contain: 1) ten percent (10%) of the volume of all containers and one hundred percent (100%) of the volume of the largest single container, whichever is greater, plus 2) the design flow rate of the automatic fire extinguishing system (for 20 minutes) for the area or room in which the storage is located. If the storage area and/or containment area are open to rainfall, the secondary containment system must also accommodate the volume of a twenty four (24) hour rainfall as determined by a 25-year storm frequency. Liquid that accumulates in the secondary containment system shall be removed in as timely a manner as necessary to prevent overflow of the system. Nonhazardous liquids may be drained in accordance with applicable local regulations. If the collected material is a hazardous waste under title 40, part 261 of the code of federal regulations, it must be managed as a hazardous waste in accordance with all applicable requirements of parts 262 through 266 of that regulation.

Vacuum suction devices, absorbent scavenger materials or other devices approved by the public utilities department, shall be present on site or available to facilitate the removal or further containment of spilled regulated substances. Devices or materials shall be available in sufficient magnitude so as to at least control and collect the total quantity of regulated substances, hazardous waste or petroleum product that the containment system is designed to contain. Emergency containers shall be present and of such capacity as to hold the total quantity of regulated substances, hazardous waste or petroleum product plus absorbent material.

c. Regulated Substances Emergency Management Plan: An emergency plan shall be prepared and filed with the health department, the city's fire department, the city' s police department, and the public utilities department indicating the procedures that will be followed in the event of the release of a regulated substance, hazardous waste or petroleum product so as to control and collect all such spilled material in such a manner as to prevent it from discharging into any storm or sanitary drains or the ground. Facilities which have had, or appear to have had, unauthorized discharges to soil or ground water shall be required by the public utilities department to submit a regulated substances management plan for the facility. The written plan will be used to demonstrate to the public utilities department that the facility owner or operator understands the procedures and has the proper equipment to handle regulated substances, hazardous waste or petroleum products within the guidelines of this section. The plan should not be implemented without the approval of the public utilities department.

d. Reporting Of Spills: Any spill of a regulated substance, hazardous waste or petroleum product in excess of the nonaggregate quantity thresholds established by the list of hazardous waste (40 CFR part 261, subpart D), 40 code of federal regulations appendix VIII - hazardous constituents and EPA designation reportable quantities and notification requirements for hazardous substances under CERCLA (40 CFR 302, effective July 3, 1986), shall be reported by telephone to the public utilities department, the health department and the local water utility within one hour of discovery of the spill. Cleanup shall commence immediately upon discovery of the spill. A full written report shall be submitted to the public utilities department, the health department and the local water utility within fifteen (15) days of discovery of the spill.

2. Best Management Practices: Under the provisions of this section, all potential contamination sources shall incorporate and utilize best management practices in their operations. BMPs that reduce the potential for spills and leaks at a site to occur and enter ground water shall be construed within the context of this section to include, but not be limited to, structural and nonstructural practices, conservation practices, and operation and maintenance procedures as specified by the Utah department of environmental quality and the U.S. environmental protection agency. BMPs outlined in appendix B to this section supplement those outlined below. It is the responsibility of the applicant to comply with the most recent, updated version of BMP provisions.

a. Underground Storage Tanks: Installation of any new underground storage tanks ("USTs") used to store regulated substances, hazardous waste or petroleum products for either residential or nonresidential activities in recharge areas and protection zones designated under subsection D2 of this section, shall require a secondary containment system for the tank and associated underground piping, and an automatic leak detection system. A permit from Utah state division of environmental remediation and response shall be required for the removal or closure of USTs. The permit shall require that leaking tanks be pumped dry and removed from the ground by a state licensed company. If removal of the UST(s) is not feasible, the lines shall be disconnected and capped and the tank shall be filled with an inert substance such as washed sand. Best management practices implementation is required for all USTs.

b. Septic Tank Systems: No person shall place, maintain, or operate on site sewage disposal from a septic tank within the primary recharge area, protection zones 1 and 2, or within three hundred feet (300') of any public street in which a public sewer is laid. Septic systems in zones 3 and 4 shall comply with the Utah state department of health "care of waste disposal regulations", parts IV and V. Nonresidential activities which have septic tank systems shall have installed a four inch (4") diameter vertical pipe with a locked cap or locked top in the top of the septic tank. This monitoring pipe shall be located in a manner which will permit ready access by public utilities department personnel to extract representative samples to check for improper/unauthorized disposal of regulated substances. A septic holding tank that does not discharge into the soil would be preferred. The contents of a septic holding tank shall be removed, as necessary, and treated or disposed of at an approved facility.

c. Sewage Collection, Transmission And Disposal: No person shall discharge treated or untreated sewage in any area not specifically designated for that purpose by the city. The owner or operators of any wastewater treatment plant, sanitary sewer, force main, gravity sewer, or lateral shall notify the public utilities department within one hour of discovering a break that may or does result in the leakage of sewage. Emergency telephone numbers will be prominently displayed on all sewage lift stations within zones 1, 2, 3, and 4, and the primary recharge area. All leaking sewage collection and transmission pipes shall be repaired or replaced. New sewage collection and transmission pipes shall be installed according to acceptable construction standards, as determined by the Utah department of environmental quality and the city, and shall have routine inspections during and after construction. No wastewater treatment plants shall be placed, maintained, or operated within protection zones 1 or 2.

d. General Stormwater Management: All future stormwater management systems to be constructed and implemented for restricted uses within the protection zones and recharge areas shall obtain permits in accordance with applicable local, state, and federal laws and regulations.

e. Deicing Salt Storage And Application: Deicing salt shall be stored on an impermeable pad and shall be covered. Deicing salt application shall use best management practices and shall evaluate substitute products and technologies.

f. Landfills: Expansion or creation of new landfills is prohibited in the primary recharge area and zones 1 and 2. Existing landfills in the primary recharge area or in protection zone 1 shall be required to comply with the provisions of Utah administration code R315-301-1 through 301-5. Landfills shall develop and implement a landfill monitoring program. The monitoring shall include the vadose zone and ground water. If the monitoring detects contamination, the following corrective measures may be required:

(1) Cover the landfill with suitable low permeability materials and minimize the application of supplemental water to reduce infiltration of moisture.

(2) Install ground water containment and treatment actions, additional monitoring, and erosion controls as required.

3. Environmental Quality Monitoring: Facilities which have had, or appear to have had, unauthorized releases to soil or ground water shall be required by the public utilities department to monitor soil and ground water in and adjacent to the facility. At the request of the public utilities department, the facility will submit a monitoring plan for public utilities department review. The plan shall be implemented with the approval of the public utilities department. Facilities that undergo closure may be required to monitor soil and ground water in and adjacent to the facility subject to closure. All costs associated with the closing and monitoring of the site will be paid for by the operator of the facility.

H. Exclusions And Exemptions:

1. Qualifying Statement: The exclusions and exemptions contained in this subsection H shall not apply to protection zone 1, i.e., sites within a one hundred foot (100') radius from a well.

2. Exclusions: The following substances are not subject to the provisions of this section provided that these substances are handled, stored, and disposed of in a manner that does not result in an unauthorized release or cause contamination of the ground water:

a. Regulated substances stored at residences that do not exceed ten (10) pounds (dry) or five (5) gallons (liquid) (except as allowed in subsection H2d of this section) and are used for personal, family, or household purposes.

b. Fertilizers, treated seed (except as noted in this section), pesticides, herbicides, erosion control products, and soil amendment, in quantities normally available at retail outlets, when stored, handled and applied in accordance with the manufacturer's instructions, label directions, and nationally recognized standards.

c. Commercial products limited to use at a commercial or industrial site solely for office or janitorial purposes when stored in total quantities of less than fifty (50) pounds for dry products, or fifty five (55) gallons for liquids.

d. Prepackaged consumer products available through retail sale to individuals for personal, family, or household use, that are properly stored.

e. Water based latex paint, or oil based finishes, in quantities normally available at retail outlets, when stored, handled and applied in accordance with the manufacturer's instructions, label directions, and nationally recognized standards.

f. Compressed gases.

g. Substances or mixtures which may pose a hazard but are labeled pursuant to the federal food, drug, and cosmetic act.

h. Substances which, in the judgment of the director, pose no hazard to ground water.

3. Continuous Transit: The transportation of any regulated substance(s), hazardous waste or petroleum products through any protection zone or recharge area shall be allowed provided that the transporting vehicle is in continuous transit.

4. Vehicular And Yard Maintenance Fuel And Lubricant Use: The use of any petroleum product solely as an operational fuel in the vehicle or yard maintenance fuel tank or as a lubricant in such a vehicle shall be exempt from the provisions of this section. These spent products shall be properly disposed of in compliance with applicable federal, state, and local regulations.

I. Enforcement, Violation And Penalties:

1. Notification Of Violation: Whenever the director finds that any regulated person has violated or is violating any provision of this section, or any order, rule or regulation issued or promulgated hereunder, the director may serve upon said regulated person a written notice of violation. Such written notice shall be served in person or by certified mail, return receipt requested. Within five (5) days after the receipt of such notice, an explanation for the violation and a plan for the satisfactory correction and prevention thereof, which shall include specific required actions, shall be submitted by the regulated person to the director. Submission of this plan in no way relieves the regulated person of liability for any violations occurring before or after receipt of the notice of violation. Nothing in this section shall limit the authority of the city to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation.

2. Consent Orders: The director is hereby empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with any regulated person responsible for noncompliance. Such orders will include specific action to be taken by the regulated person. Consent orders shall have the same force and effect as administrative orders issued pursuant to subsections I4 and I5 of this section, and shall be judicially enforceable.

3. Order To Show Cause Hearing: The director may order any regulated person which causes or contributes to violation(s) of any provisions of this section, or any order, rule or regulation issued or promulgated hereunder, to appear before the director and show cause why a proposed enforcement action should not be taken. Notice shall be served on the regulated person, which notice shall specify the time and place for the meeting, the proposed enforcement action, the reasons for such action, and a request that the regulated person show cause why this proposed enforcement action should not be taken. Such written notice shall be served in person on any authorized representative of the regulated person, or by certified mail, return receipt requested, at least seven (7) days prior to the hearing. Whether or not the regulated person appears as ordered, immediate enforcement action may be pursued following the hearing date. A show cause hearing shall not be a prerequisite for taking any other actions against the regulated person.

4. Compliance Orders: When the director finds that a regulated person has violated or continues to violate any provision of this section, or any rule or regulation issued or promulgated hereunder, he may issue an order to the regulated person responsible for the violation directing that the regulated person come into compliance within thirty (30) days. If the regulated person does not come into compliance within thirty (30) days, any and all available remedies may be pursued and service may be discontinued. Compliance orders may also contain other requirements to address noncompliance, including additional self-monitoring, and management practices designed to minimize the amount of pollutants released. A compliance order may not extend the deadline for compliance established for a federal standard or requirement, nor does a compliance order release the regulated person of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a prerequisite to taking any other action against the regulated person.

5. Cease And Desist Orders: When the director finds that a regulated person is violating any provision of this section, any rule or regulation issued or promulgated hereunder, or that the regulated person's past violations are likely to recur, the director may issue an order to the regulated person directing it to cease and desist all such violations and directing the regulated person to:

a. Immediately comply with all requirements; and

b. Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation. Issuance of a cease and desist order shall not be a prerequisite to taking any other action against the regulated person.

6. Administrative Fines:

a. Notwithstanding any other section of this chapter, any regulated person found to have violated any provision of this section, or any order, rule or regulation issued or promulgated hereunder, may be fined in an amount not greater than ten thousand dollars ($10,000.00) per day, as determined by the director in his reasonable discretion. Such fines shall be assessed on a per day, per violation basis. The city may also assess penalties as outlined in sections 21A.20.040 and 21A.20.050 of this title.

b. The city may charge a regulated person for the costs of preparing administrative enforcement actions, such as notices and orders, which charge may be assessed whether or not a fine under subsection I6a of this section is also imposed.

c. Assessments for fines and/or administrative costs may be added to the regulated person's next scheduled water service charge, and the director shall have such other collection remedies as may be available for other service charges and fees.

d. Unpaid charges, fines, assessments and penalties shall, after sixty (60) calendar days, be assessed an additional penalty of ten percent (10%) of the unpaid balance. Thereafter, interest on any unpaid balances, including penalties, shall accrue at a rate of one percent (1%) per month. A lien against the individual regulated person's property will be sought for unpaid charges, fines, and penalties.

e. Regulated persons desiring to dispute such fines or assessments must file a written request for the director to reconsider the fine or assessment, along with full payment thereof within thirty (30) days of being notified of the fine or assessment. The director shall convene a hearing on the matter within fourteen (14) days of receiving the request from the regulated person. In the event the regulated person's appeal is successful, any amounts paid by the regulated person to the city shall be returned to the regulated person, without interest.

f. The imposition of an administrative fine, assessment or other charge shall not be a prerequisite for taking any other action against the regulated person.

7. Emergency Suspensions: The director may order the immediate suspension of a regulated person's actions (after informal notice to the regulated person), whenever such suspension or shutoff is necessary in order to stop an actual or threatened discharge which reasonably appears to present or cause a risk of an imminent or substantial endangerment to the health or welfare of the city's culinary water customers. Any regulated person notified of a suspension of its activities shall immediately stop conducting such activities. In the event of a regulated person's failure to immediately comply voluntarily with the suspension order, the director shall take such steps as deemed necessary to enforce such order. The director shall allow the regulated person to recommence operations when the regulated person has demonstrated to the satisfaction of the director that the period of endangerment has passed. A regulated person that is responsible, in whole or in part, for any discharge presenting imminent endangerment, shall submit to the director a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, prior to the date of any show cause hearing under subsection I3 of this section. Nothing in this section shall be interpreted as requiring a hearing prior to any emergency suspension under this section.

8. Injunctive Relief: Whenever a regulated person has violated or continues to violate a provision of this section, or continues to violate any order, rule or regulation issued or promulgated hereunder, the city may petition any court of competent jurisdiction for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the section provision, order, rule, regulation or other requirement. In addition, the city may recover reasonable attorney fees, court costs, and other expenses of litigation by appropriate legal action against the regulated person found to have violated any provision hereof, or of any order, or any other rule or regulation issued or promulgated hereunder. Such other action as appropriate for legal and/or equitable relief may also be sought by the city. A petition for injunctive relief need not be filed as a prerequisite to taking any other action against a regulated person.

9. Civil Fine Pass Through Recovery: In the event that a regulated person releases such pollutants which cause the city to violate any conditions of any applicable laws, rules or ordinances to which the city is subject, and the city is fined or held liable regarding such violations, then such regulated person shall be fully liable for the total amount of the fines and civil penalties assessed against the city, and any administrative costs incurred.

10. Public Nuisances: Any violation of the provisions of this section, or of any order, rule or regulation issued or promulgated hereunder, is hereby declared a public nuisance and shall be corrected or abated as directed by the director. Any person(s) creating a public nuisance shall be subject to the provisions of this code governing nuisances, including reimbursing the city for any costs incurred in removing, abating or remedying said nuisance.

11. Enforcement By Other Agencies: The city may request the health department, and the health department is hereby granted the authority upon such request, to enforce or administer any and all provisions of this section and prosecute any violations thereof. To the extent of any such request, references in this section to the public utilities department and the city shall be deemed to mean the health department, and references in this section to the director shall be deemed to mean the director of the health department. In addition, the city may refer to the state of Utah or the United States government, for civil or criminal prosecution, any violations of this section which also violate applicable provisions of state or federal law, orders, administrative rules or permits. It is the intent of the city that this section shall be construed to the greatest extent possible to be consistent with the provisions of applicable county, state and/or federal laws, ordinances, rules, regulations or permits. In the event of any conflict, the more restrictive provisions shall apply.

12. Nonexclusive Remedies: The provisions of subsections I1 through I11 of this section are not exclusive remedies. The city reserves the right to take any, all, or any combination of these actions against a noncompliant regulated person. However, the city reserves the right to take other action against any regulated person when the circumstances warrant. Further, the city is empowered to take more than one enforcement action against any noncompliant regulated person. These actions may be taken concurrently.

13. Disputes; Appeals:

a. Persons objecting to the configuration of the recharge area and protection zone map, or the inclusion of specific property within any recharge areas or protection zones, or to the denial of a permit or the conditions attached hereto, or any rulings of the public utilities department under this subsection I, may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title.

b. The written appeal shall contain:

(1) Documentation of compliance, or

(2) (A) Response to specific violations cited in the cease and desist order and the remedial actions planned in order to bring the facility into compliance; and

(B) A schedule for compliance.

c. Upon receipt of the written appeal, the appeals hearing officer shall review the appeal within ten (10) days of its receipt and respond to the appellant. If the appeals hearing officer determines that the written response from the appellant is adequate and noncompliance issues are addressed, the appellant shall be notified by mail and no further action is required. If the appeals hearing officer determines that the appeal response is inadequate, the appellant may request a hearing before the appeals hearing officer. This hearing shall be held within thirty (30) days of receiving the cease and desist order. The cease and desist order shall remain in effect until the hearing is conducted.

APPENDIX A

GENERIC REGULATED SUBSTANCE LIST

Acid and basic cleaning solutions
Animal dips
Antifreeze and coolants
Arsenic and arsenic compounds
Battery acids
Bleaches and peroxide
Brake and transmission fluid
Brine solution
Casting and foundry chemicals
Caulking agents and sealants
Cleaning solvents
Corrosion and rust preventatives
Cutting fluids
Degreasing solvents
Disinfectants
Dyes
Electroplating solutions
Engraving and etching solutions
Explosives
Fertilizers
Fire extinguishing chemicals
Food processing wasters
Formaldehyde
Fuels and additives
Glues, adhesives and resins
Greases
Hydraulic fluid
Indicators
Industrial and commercial janitorial supplies
Industrial sludges and stillbottoms
Inks, printing, and photocopying chemicals
Laboratory chemicals

Liquid storage batteries
Medical, pharmaceutical, dental, veterinary, and hospital solutions
Mercury and mercury compounds
Metal finishing solutions
Oils
Painting solvents
Paints, primers, thinners, dyes, stains, wood preservatives, varnishing and cleaning compounds
Pesticides and herbicides
Photo development chemicals
Plastic resins, plasticizers and catalysts
Poisons
Polishes
Polychlorinated biphenyls (PCBs)
Pool chemicals
Processed dust and particulates
Radioactive sources
Reagents and standards
Refrigerants
Roofing chemicals and sealers
Sanitizers, disinfectants, bactericides, and algaecides
Soaps, detergents and surfactants
Solders and fluxes
Stripping compounds
Tanning industry chemicals
Transformer and capacitor oils and fluids
Wastewater
Water and wastewater treatment chemicals

APPENDIX B

USE MATRIX FOR POTENTIAL CONTAMINATION SOURCES

The following table identifies uses which have varying potentials to contaminate ground water sources. These uses have been classified according to the risk of contamination in each protection as follows:

Restricted Uses (R): The nature of the use, or some element of the use, represents a "potential contamination source". The use may be permitted only after review and approval by the division of building services and licensing after having received comments and recommendations from the public utilities department and the Salt Lake Valley health department. Approval is subject to implementation of best management practices and compliance with other reasonable conditions as may be established by these agencies.

Prohibited uses (X): The risk of contamination is very high in the specified zone. The use is not permitted.

Potential Contamination Source	Protection Zone					Related Regulations	Best Management Practice(s)
	Primary Recharge	Secondary Recharge	Zone 1	Zone 2	Zone 3 And 4		
Abandoned wells	X	X	X	X	X	UAC R655-4, 12.1 to 1.2 - requirements for abandoned wells	Shall be sealed
Agricultural pesticide, herbicide, and fertilizer storage, use, filling, and mixing areas	R	R	X	R	R	FIFRA - 40 CFR 152-157, RCRA subtitled C, Utah pesticide control act	BMP - department of agriculture
Appliance repair	R	R	X	R	R	RCRA subtitled C	
Automobile operations: - Auto body shops - Dealership maintenance departments - Engine repair - Fleet vehicle maintenance facilities - Oil and lube shops - Rustproofing facilities - Service stations with underground storage tanks - Tire shops - Vehicle rental with maintenance	R	R	X	R	R	RCRA subtitled C, UST guidelines, pretreatment, UAC R315-5 (used oil)	BMP - Salt Lake Valley health department
Beauty salons	R	R	X	R	R		
Car washes	R	R	X	R	R	Pretreatment	
Cemeteries, golf courses, parks, and plant nurseries	R	R	X	R	R	FIFRA	
Chemigation wells	R	R	X	X	R	UIC	
Concrete, asphalt, tar, and coal companies	R	R	X	R	R		
Dry cleaners (with on site chemicals)	R	R	X	X	R	RCRA subtitled C, pretreatment, BMP - Salt Lake Valley health department	
Dry cleaners (without on site chemicals)	R	R	X	R	R		
Farm operations: - Animal feed lots - Dairy farms - Farm dump sites - Farm machinery maintenance garages - Manure piles	R R X R R	R R R R R	X X X X X	X X R R X	R R R R R	UPDES - R317-8, UAC R315-5 (used oil), solid and hazardous waste, RCRA subtitled C	
Food processing, meatpacking, and slaughterhouses	R	R	X	X	R	UPDES - R317-8, pretreatment	
Fuel, oil, and heating oil distribution and storage facilities	X	R	X	R	R		
Furniture stripping, painting, and finishing	R	R	X	R	R	RCRA subtitled C	
Hospitals, medical offices, and dental offices	R	R	X	R	R	Solid and hazardous waste	
Industrial manufacturers of chemicals, pesticides, herbicides, paper products, leather products, textiles, rubber, plastics, fiberglass, silicone, glass, pharmaceuticals, and electrical equipment	X	R	X	R	R	FIFRA, RCRA subtitled C	
Junk and salvage yards							BMP - Salt Lake Valley health department
Laundromats	R	R	X	R	R	Pretreatment	
Machine shops, metal plating, heat treating, smelting, annealing, and descaling facilities	X	R	X	R	R	Pretreatment, RCRA subtitled C	
Mortuaries	R	R	X	R	R	Pretreatment	
Photo processing and print shops	R	R	X	R	R	Pretreatment	
Residential pesticide, herbicide, and fertilizer storage, use, filling, and mixing areas (except as excluded under subsection H2 of this section)	R	R	X	R	R		Follow manufacturer's directions for use and storage
RV waste disposal stations	R	R	X	X	R	UAC R392	
Salt and salt/sand piles	R	R	X	R	R		DEQ/UDOT BMP
Sand and gravel excavation and processing	R	R	X	R	R	UAC GW R317-6, UAC R313-25	
Septic tank drain field systems	X	R	X	X	R	UDWQ, individual wastewater disposal systems, UAC R317-501 through R317-513, state department of health code of waste disposal regulations - parts IV and V	
Stormwater impoundment and snow storage sites	R	R	X	R	R	UPDES	
Toxic chemical and oil pipelines	X	X	X	X	X		
Underground storage tanks	X	R	X	R	R	UAC R311-203, 205, 206	
Veterinary clinics	R	R	X	R	R	Solid and hazardous waste	

CFR	Code of federal regulations	UDSW	Utah division of solid waste
DEQ	Utah division of air quality	UDWQ	Utah division of water quality
FIFRA		UIC	
GWR		UPDES	Utah pollution discharge elimination system
RCRA	Resource conservation and recovery act	UST	Underground storage tanks
UAC	Utah administrative code

(Ord. 8-12, 2012: Ord. 1-06 § 30, 2005: Ord. 95-98 § 2, 1998)

21A.34.070: LO LANDFILL OVERLAY DISTRICT:

A. Purpose: The purpose of the LO landfill overlay district is to provide greater control over the locations of both public and private landfills and their design, use, reuse and reclamation, and to provide transitional zones adjacent to landfills facilitating the transition from landfills and landfill related uses to other types of land uses.

B. Conditional Uses: All land uses allowed in the LO landfill overlay district shall be approved through the conditional use process pursuant to chapter 21A.54 of this title.

1. Landfill Overlay District: Landfills, together with accessory sorting, recycling and composting of landfill materials, and the deposit or storage of sludge may be allowed as conditional uses in the LO landfill overlay district.

2. Transitional Area: Recycling or processing centers may be allowed as a conditional use in a landfill transitional area.

C. Prohibited Uses: Landfills and other uses which are noxious or offensive by reason of emission of odor, smoke, dust or gas, or by reason of allowing any material to escape onto adjoining property, or by reason of drawing birds, animals, or other pests onto, over, or near the use of adjoining property are prohibited in the transitional area.

D. Landfill Proximity To Residential Or Institutional Zones: No actual landfilling shall be conducted within one thousand feet (1,000') of the boundary of any residential or institutional zoning district.

E. Minimum Lot Area:

1. Landfills: No landfill shall be on a lot less than eight (8) acres in size.

2. Other Landfill Related Conditional Uses: Any other conditional uses allowed by this chapter shall be on a lot no smaller than determined appropriate pursuant to the procedures of this chapter.

F. Maximum Height: The maximum height of any landfill shall be fixed by the planning commission to mitigate potential adverse effects on adjoining properties.

G. Minimum Yard Requirements:

1. Front Yard: The minimum front yard setback shall be thirty feet (30').

2. Side Yard: The minimum side yard setback shall be ten feet (10'), which may be increased by the planning commission to mitigate potential adverse impacts between adjoining land uses.

3. Rear Yard: The minimum rear yard setback shall be ten feet (10'), which may be increased by the planning commission to mitigate potential adverse impacts between adjoining land uses.

H. Required Landscape Yard And Buffer Requirement: All conditional uses permitted by this section shall maintain the following landscaping and buffering:

1. The first thirty feet (30') of all front yards shall be maintained as landscape yards as approved by the planning commission.

2. The planning commission may require that landscaping include trees along all property lines adjacent to a public street or nonlandfill property to create a continuous linear visual buffer. Any trees required shall be at least two inches (2") caliper and spaced at thirty feet (30') on center.

I. Application Requirements: An application shall be made to the zoning administrator on a form or forms provided by the office of the zoning administrator, accompanied by the application requirements outlined in subsection 21A.54.060A of this title, as well as the following:

1. Plan for controlling and/or mitigating pests that may be attracted to the site;

2. An end use plan; and

3. A landscape plan indicating how the proposed landscaping will mitigate noise, dust, or other impacts on surrounding uses. If surrounding properties are undeveloped, the landscape plan shall address potential impacts on uses permitted within the applicable zoning districts for such undeveloped property.

J. Procedure For Approval: The planning director shall not allow any conditional use under this chapter to begin operation until the applicant documents that all approvals have been granted by all necessary county, state and federal agencies including the approval of a financial assurance plan sufficient to assure adequate closure, post closure care and corrective action of the facility and demonstration of compliance with the state of Utah division of solid and hazardous waste administrative rules.

K. Standards For Approval: The planning commission shall only approve, approve with conditions or deny a conditional use in an LO landfill overlay district based upon written findings of fact with regard to each of the standards outlined in section 21A.54.080 of this title. In addition, if the proposed conditional use involves the temporary storage, sorting, recycling, processing, composting or treatment of materials, the planning commission must find that such materials will not generally be on the property longer than one hundred eighty (180) days unless the physical or chemical processes involved in the proposed use require longer than one hundred eighty (180) days, in which case the temporary use shall be limited to such necessary times.

L. Conditions: In addition to the conditions stated above, and the standards for conditional uses outlined in section 21A.54.080 of this title the planning commission may impose conditions and limitation upon a conditional use concerning use, construction, character, location, landscaping, screening, parking, hours and days of operation and other matters that may be necessary or appropriate to prevent or minimize any adverse impact.

1. The planning commission may require that storage of materials in the transitional area be enclosed in a structure if proposed open storage or recycling of materials may have a material negative impact on a neighboring land use.

2. The planning commission shall specify such conditions in writing when approving the conditional use.

3. The violation of any conditions of approval shall constitute grounds for revocation of the conditional use approval.

M. Effective Length Of Approval: Unless extended by the zoning administrator, development plan approvals shall not be valid for a period longer than one year unless a building permit is issued and construction is diligently pursued to completion.

N. Appeal Of Decision: Any person adversely affected by the decision of the planning commission may, within thirty (30) days after the decision of the planning commission, file an appeal with the city council specifying the grounds on which the person was adversely affected. (Ord. 26-95 § 2(17-6), 1995)

21A.34.080: CHPA CAPITOL HILL PROTECTIVE AREA OVERLAY DISTRICT:

A. Purpose: The purpose of the CHPA Capitol Hill protective area overlay district is to protect the view corridor to the Utah State Capitol Building. In all zoning districts in the CHPA Capitol Hill protective area overlay district, no structure shall exceed in height the basic maximum height permitted in a particular zoning district in which the structure is located.

B. Standards: In the CHPA Capitol Hill protective area overlay district the use of special provisions, special exceptions, conditional use, or incentives related to exceeding the maximum height allowed for the underlying zoning shall be prohibited.

1. Exceptions: The provisions of this section shall not apply to restrict the height of the following:

a. Church spire, tower or belfry;

b. Chimney;

c. Elevator bulkhead;

d. A parapet wall or cornice for ornament and without windows, extending above the height limit not more than five feet (5').

C. District Location: The CHPA Capitol Hill protective area overlay district is the area surrounding the Utah State Capitol Building within the following boundaries:

Commencing at the intersection of State Street and North Temple Street, thence west along North Temple Street to Main Street thence north along Main Street to Center Street; thence northwesterly along Center Street to Girard Avenue; then east along Girard Avenue to the east edge of Memory Grove Park in City Creek Canyon; thence southerly along the east edge of said Memory Grove Park to the intersection of Ninth Avenue and A Street; thence south along A Street to Fourth Avenue; thence west along Fourth Avenue to Canyon Road; thence southerly along Canyon Road to Second Avenue; thence westerly along Second Avenue to State Street and North Temple Street, to the point of beginning.
(Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(17-7), 1995)

21A.34.090: SSSC SOUTH STATE STREET CORRIDOR OVERLAY DISTRICT:

A. Purpose: The purpose of the SSSC South State Street corridor overlay district is to acknowledge and reinforce the historical land development patterns along South State Street between 900 South and 2100 South.

B. Maximum Building Height Exemption: Buildings located within the BP business park base zoning district within the SSSC South State Street corridor overlay district may exceed the height of the base zoning district to a height not to exceed ninety feet (90').

C. Minimum Yard Requirement Exemption:

1. Front Yard: Structures located within the CC corridor commercial base zoning district and the SSSC South State Street corridor overlay district are exempted from the minimum front yard setback requirement. The required fifteen foot (15') landscaped setback applies to all other uses, including open storage and vacant land.

2. Maximum Setback: A maximum setback is required for at least thirty five percent (35%) of the building facade. The maximum setback is twenty five feet (25'). Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may waive this requirement for any addition, expansion, or intensification, which increases the floor area or parking requirement by less than fifty percent (50%) if the planning director finds the following:

a. The architecture of the addition is compatible with the architecture of the original structure or the surrounding architecture.

b. The addition is not part of a series of incremental additions intended to subvert the intent of the ordinance.

Appeal of administrative decision is to the planning commission.

3. Parking Setback: Surface parking is prohibited in a front or corner side yard. Surface parking lots within an interior side yard shall maintain a twenty five foot (25') landscape setback from the front property line or be located behind the primary structure. Parking structures shall maintain a forty five foot (45') minimum setback from a front or corner side yard property line or be located behind the primary structure. There are no minimum or maximum setback restrictions on underground parking. The planning director may modify or waive this requirement if the planning director finds the following:

a. The parking is compatible with the architecture/design of the original structure or the surrounding architecture.

b. The parking is not part of a series of incremental additions intended to subvert the intent of the ordinance.

c. The horizontal landscaping is replaced with vertical screening in the form of berms, plant materials, architectural features, fencing and/or other forms of screening.

d. The landscaped setback is consistent with the surrounding neighborhood character.

e. The overall project is consistent with section 21A.59.060 of this title.

Appeal of administrative decision is to the planning commission.

D. District Location: The South State Street corridor overlay district is the area generally aligned with the State/Main Street corridor from 900 South to 2100 South, within the following approximate boundaries referenced on the zoning map:

Commencing 165 feet east of the east right-of-way line at the intersection of 2100 South and State Street, thence north to a point 165 feet east of the right-of-way line at the intersection of 900 South and State Street, thence west to a point 165 feet west of the right-of-way line at the intersection of 900 South and Main Street, thence south to the right-of-way line at 1300 South, thence east to the east right-of-way line at the intersection of 1300 South and Main Street, thence south to the intersection of 2100 South and Main Street, thence east along the north right-of-way line on 2100 South to the point of beginning.

E. Entrance And Visual Access:

1. Minimum First Floor Glass: The first floor elevation facing a street of all new buildings or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized through the conditional building and site design review process, subject to the requirements of chapter 21A.59 of this title, and the review and approval of the planning commission. The planning director may approve a modification to this requirement if the planning director finds:

a. The requirement would negatively impact the historic character of the building,

b. The requirement would negatively impact the structural stability of the building, or

c. The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

Appeal of administrative decision is to the planning commission.

2. Facades: Provide at least one operable building entrance per elevation that faces a public street. Buildings that face multiple streets are only required to have one door on any street, if the facades for all streets meet the forty percent (40%) glass requirement as outlined in subsection E1 of this section.

3. Maximum Length: The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15').

4. Screening: All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building.

F. Parking Lot/Structure Lighting: If a parking lot/structure is adjacent to a residential zoning district or land use, the poles for the parking lot/structure security lighting are limited to sixteen feet (16') in height and the globe must be shielded to minimize light encroachment onto adjacent residential properties. Lightproof fencing is required adjacent to residential properties. (Ord. 15-13, 2013: Ord. 62-09 § 4, 2009: Ord. 61-09 § 27, 2009: Ord. 3-05 § 8, 2005: Ord. 26-95 § 2(17-8), 1995)

21A.34.100: M-1H LIGHT MANUFACTURING HEIGHT OVERLAY DISTRICT:

A. Purpose: The purpose of the M-1H light manufacturing height overlay district is to provide a location for specialized industrial buildings with a need to exceed the maximum allowable building height in the light manufacturing M-1 zoning district.

1. Overlay District Boundary Description: Between 1730 South and 2100 South and 5200 West and 5500 West Streets, more particularly described as follows:

Beginning at the southwest corner of the Pratezk Industrial Park plat 1, part of the southwest quarter of section 13, T1S, R2W, Salt Lake base and meridian; thence S 89°52'14" W 231.07 feet to a point of curve, (radius bears N 00°07'46" W); thence westerly 513.29 feet along a 5692.07 foot radius curve to the right; thence N 84°22'13" W 438.08 feet; thence N 78°52'46" W 65.00 feet to a point of curve, (radius bears N 11°07'14" E); thence northwesterly 835.44 feet along a 607.00 foot radius curve to the right; thence N 00°01'16" W 1570.24 feet to a point of curve, (radius bears N 89°58'44" E); thence northeasterly 41.58 feet along a 26.50 foot radius curve to the right; thence N 89°52'07" E 804.02 feet; thence N 89°52'14" E 105.00 feet; thence N 89°52'21" E 810.98 feet to a point of curve, (radius bears S 00°07'39" E); thence southeasterly 41.67 feet along a 26.50 foot radius curve to the right; thence S 00°01'22" E 2206.47 feet to a point of curve, (radius bears S 89°58'38" W); thence southwesterly 62.76 feet along a 40.00 foot radius curve to the right to the point of beginning.

2. Maximum Building Height: The maximum allowable building height in the M-1H overlay district shall be eighty five feet (85'). (Ord. 7-03 § 1, 2003)

21A.34.110: DMSC DOWNTOWN MAIN STREET CORE OVERLAY DISTRICT:

A. Purpose Statement: The purpose of the DMSC downtown Main Street core overlay district is to encourage the concentration of large scale fashion retailing along the city's Main Street corridor within the boundaries of the district as described in subsection B of this section.

B. District Location: The DMSC downtown Main Street core overlay district is the area bounded by the centerlines of South Temple, State Street, 500 South and West Temple Streets.

C. Permitted And Conditional Uses: The uses specified as permitted or conditional uses in the tables of permitted and conditional uses for the underlying zoning district as set forth in this part. (Ord. 4-04 § 3, 2004)

21A.34.120: YCI YALECREST COMPATIBLE INFILL OVERLAY DISTRICT:

A. Purpose Statement: The purpose of the Yalecrest compatible infill (YCI) overlay district is to establish standards for new construction, additions and alterations of principal and accessory residential structures within the Yalecrest community. The goal is to encourage compatibility between new construction, additions or alterations and the existing character and scale of the surrounding neighborhood. The YCI overlay district promotes a desirable residential neighborhood by maintaining aesthetically pleasing environments, safety, privacy, and neighborhood character. The standards allow for flexibility of design while providing compatibility with existing development patterns within the Yalecrest community.

B. Overlay District Boundary: The YCI overlay district applies to any residential property zoned residential R-1/5,000 or R-1/7,000 within the area defined by the intersecting centerlines of 1300 East, 800 South, Sunnyside Avenue (840 South), 1900 East and 1300 South Streets.

C. Building Height:

1. Maximum Building Height: All heights to be measured from established grade.

a. Pitched roofs: Twenty seven and one-half feet (27.5') measured to the midpoint of the roof (as indicated in section 21A.62.050, illustration B, of this title).

b. Mansard or flat roofs: Twenty feet (20').

c. Lots with cross slopes where the topography slopes from one side property line to the other side or corner side property line may increase the maximum building height, as measured from the downhill side face of the building at a rate of one-half foot (0.5') for each one foot (1') difference between average grades of the uphill and downhill faces of the building, up to a maximum height of thirty feet (30').

2. Maximum Exterior Wall Height Adjacent To Interior Side Yards: Eighteen and one-half feet (18.5') for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

a. Lots With Cross Slopes: Lots with cross slopes where the topography slopes from one side property line to the other side or corner side property line, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

b. Exceptions:

(1) Gable Walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(2) Dormer Walls: Dormer walls are exempt from the maximum exterior wall height if:

(A) The width of a dormer is ten feet (10') or less; and

(B) The total combined width of dormers is less than equal to fifty percent (50%) of the length of the building facade facing the interior side yard; and

(C) Dormers spaced at least eighteen inches (18") apart.

D. Front Yard Requirements: The minimum front yard shall be derived by measuring the front yards (the open, unoccupied, landscaped space between the front building lines of all developed properties) fronting the same side of the street within three hundred feet (300') of the subject property but in no case shall the measurements extend across intervening streets. The minimum required front yard shall be equal to the average of the smallest fifty percent (50%) of front yards measured. For example, if ten (10) developed properties are located along the same side of the street within three hundred feet (300') of the subject property, the required minimum front yard is equal to the average of the five (5) (10 x 50% = 5) smallest front yards.

E. Accessory Structures:

1. Maximum Height For Accessory Structures With A Pitched Roof: Fifteen feet (15').

2. Noncomplying Detached Garages: An existing noncomplying detached garage located in the rear yard may be rebuilt or expanded at its existing location to a maximum size of four hundred forty (440) square feet subject to the approval of the development review team (DRT).

3. Garages Located In Front Of The House: No detached garage shall be constructed forward of the "front line of the building" (as defined in section 21A.62.040 of this title), unless a new garage is constructed to replace an existing garage. In this case, the new garage shall be constructed in the same location with the same dimensions as the garage being replaced.

4. Maximum Garage Door Height: Eight and one-half feet (8.5').

F. Standards For Attached Garages:

1. Located Behind Or In Line With The Front Line Of The Building: No attached garage shall be constructed forward of the "front line of the building" (as defined in section 21A.62.040 of this title), unless a new garage is constructed to replace an existing garage. In this case, the new garage shall be constructed in the same location with the same dimensions as the garage being replaced.

2. Width Of An Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front facade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors up to a maximum of three feet (3').

3. Maximum Garage Door Height: Eight and one-half feet (8.5').

G. Special Exception For Garages: A garage built into a hillside and located forward of the front line of the building may be allowed as a special exception granted by the planning commission, subject to the following standards:

1. The rear and side yards cannot be reasonably accessed for the purpose of parking.

2. Because of the topography of the lot it is impossible to construct a garage and satisfy the standards of the YCI.

3. The ceiling elevation of the garage is below the elevation of the first or main floor of the house.

4. The garage meets all applicable yard requirements. (Ord. 82-12, 2012: Ord. 73-11, 2011: Ord. 44-05 § 1, 2005)

21A.34.130: RCO RIPARIAN CORRIDOR OVERLAY DISTRICT[2]:

A. General Provisions:

1. Purpose Statement: The purpose of the RCO riparian corridor overlay district is to minimize erosion and stabilize stream banks, improve water quality, preserve fish and wildlife habitat, moderate stream temperatures, reduce potential for flood damage, as well as preserve the natural aesthetic value of streams and wetland areas of the city. This overlay district is intended to provide protection for the following aboveground streams, stream corridors and associated wetlands east of the Interstate 215 Highway: City Creek, Red Butte Creek, Emigration Creek, Parleys Creek, and Jordan River. Where these streams flow through areas already developed on the effective date of this section (January 15, 2008), the RCO is intended to achieve a reasonable balance between the dual nature of these areas: natural streams and developed land uses.

2. District Location: The RCO district applies to that portion of any lot or parcel of land located between the annual high water level (AHWL) of City Creek, Red Butte Creek, Emigration Creek, Parleys Creek and the Jordan River, where not located belowground, and a line which is one hundred feet (100') along a horizontal plane from the AHWL. The RCO district does not apply to any lot or parcel where a stream, with respect to such lot or parcel, is located entirely belowground in a pipe or covered channel.

3. Applicability: The RCO district regulations set forth in this section supplement regulations in the underlying base zoning district. RCO regulations shall govern any use or development conducted within the RCO district unless specifically exempted under the provisions of this section or another provision of this title.

a. An RCO permit is supplementary to any land use permit authorized under this title.

b. Canals and irrigation ditches are not subject to this section.

c. The surplus canal and watercourses west of Interstate 215 are regulated under section 21A.34.050, "LC Lowland Conservancy Overlay District", of this chapter and are not subject to this section.

4. Relationship To Other Laws: The requirements of the RCO district shall apply in addition to any other applicable federal, state, county, or city law or regulation.

a. Any use or development within the RCO district shall conform to applicable provisions of title 20, "Subdivisions", of this code and this title. Compliance with the requirements of this section shall not relieve a landowner from compliance with other applicable provisions of this title except as expressly otherwise set forth in this section.

b. If a landowner obtains a permit for a use or development located within the RCO district that is entirely within the jurisdiction of a federal or state government agency or Salt Lake County, then the landowner shall also apply for a riparian protection permit. If the relevant federal, state, or county agency approves the use or development as in compliance with the agency's requirements, then the city shall issue the riparian protection permit subject to compliance with the federal, state, or county approval and shall not independently review the use or development for compliance with this section.

c. If any portion of a proposed use or development is outside the jurisdiction of a federal, state, or county agency, then the applicant shall comply with the provisions of this section and shall obtain a riparian protection permit if required under the provisions of this section.

d. Salt Lake County shall not be required to obtain a riparian protection permit for any county flood control activity authorized by the Utah code within or along a stream in the RCO district. However, Salt Lake County shall obtain a riparian protection permit for any stream restoration and nonflood control development or other use conducted by the county which is located within the RCO district.

e. Any person who leases federal or state land, or any appurtenant structure or building located within the RCO district shall obtain a riparian protection permit if required under the provisions of this section.

f. A city department or agency that conducts a use or development within the RCO district shall follow the requirements of this section and obtain a riparian protection permit if required for such use or development.

g. The department of public utilities shall develop general permits as needed to address routine channel maintenance, possible emergency situations, and similar activities. These general permits shall provide how a particular use or development shall be conducted to avoid adverse stream corridor impacts and shall include required mitigation and restoration measures consistent with the provisions of this section. The process for reviewing and approving a general permit application shall be the same for a public or private person or entity.

B. Decision Making Authority:

1. Public Utilities Director: The public utilities director shall be responsible for implementing and administering the provisions of this section. The public utilities director:

a. May authorize a minor exemption and reasonable use exception to the provisions of this section as set forth, respectively, in subsections C5 and C6 of this section;

b. May render an administrative interpretation of any provision in this section pursuant to the procedures set forth in chapter 21A.12 of this title;

c. May not make any decision involving land use, zoning, subdivision, legal conformity in a zoning district, historic preservation, restoration, rehabilitation, or demolition of any structure except as expressly set forth in this section;

d. Shall expedite the permit review process if an applicant reasonably demonstrates imminent danger to individuals or property is associated with the subject land;

e. May adopt reasonable regulations, including approval of general permits, to implement the provisions of this section; and

f. May designate one or more staff persons within the department to carry out these responsibilities. Wherever this section refers to the director, such reference shall also include the director's designee.

2. Public Utilities Advisory Committee: Pursuant to the authority granted in subsection 2.40.110I of this code, the public utility advisory committee shall hear and decide any appeal arising from a final decision granting or denying a riparian protection permit pursuant to procedures set forth in chapter 21A.16 of this title.

3. Appeal Of Decision: Any person adversely affected by any decision of the public utilities advisory committee may, within thirty (30) days after the decision is made, present to the district court a petition specifying the grounds on which the person was adversely affected.

C. Review Process And Procedures: An application for a riparian protection permit shall be considered and processed as set forth in this subsection.

1. Riparian Protection Permit Application: A complete application shall be submitted to the department of public utilities and shall contain at least the following information submitted by the applicant, unless certain information is determined by the public utilities director to be inapplicable or unnecessary to evaluate the application under the provisions of this section. The public utilities director may determine, consistent with the requirements of this section, other application matters such as the scale, quality, and details shown on maps and plans, and the number of application copies required for submittal.

a. The applicant's name, address, telephone number and interest in the land;

b. The landowner's name, address and telephone number, if different than the applicant, and the owner's signed consent to the filing of the application;

c. The street address and legal description of the subject land;

d. The zoning classification, boundaries of base and overlay zoning districts, and present use of the subject land;

e. A complete description of the use or development for which a riparian protection permit is requested;

f. Plan view and cross sections of the site which show:

(1) The riparian corridor boundary with respect to the subject land;

(2) The annual high water line and each setback line from the AHWL (area A, 25 feet; area B, 50 feet; and area C, 100 feet), elevation, and slope;

(3) The location and setback of existing and proposed buildings and structures;

(4) Existing and proposed grades;

(5) Any nonnative or invasive vegetation identified by location, type, and size, including any area where invasive vegetation is proposed for removal;

(6) 100-year floodplain, past flood hazard areas, geological faults, high liquefaction areas, and slopes thirty percent (30%) or greater;

(7) Habitat of any known threatened or endangered species of aquatic and terrestrial flora or fauna, if required by the public utilities director;

(8) If wetlands exist on the subject land, a wetlands delineation approved by the U.S. army corps of engineers; and

(9) Such other and further information or documentation as the public utilities director may reasonably deem necessary for proper consideration of a particular application, including, but not limited to, geotechnical and hydrological reports required under subsection E8 of this section.

2. Riparian Corridor Delineation: The riparian corridor shall be delineated at the annual high water level.

a. When the annual high water level cannot be found, the top of the channel bank may be substituted if approved by the public utilities director.

b. A boundary location or delineation required under this section shall be prepared by a licensed professional hydraulic engineer, hydrologist, wetlands scientist, fluvial geomorphologist, another equivalent qualified environmental science professional, or the public utilities department.

c. Any wetland delineation within a stream corridor shall be approved by the U.S. army corps of engineers prior to submittal of the delineation to the public utilities director.

d. If a wetland exists within and extends beyond the one hundred feet (100') of the riparian corridor, the outermost edge of the wetland shall be the outer edge of the riparian corridor.

3. Determination Of Completeness: Upon receipt of an application for a riparian protection permit, the public utilities director shall make a determination of completeness of the application pursuant to section 21A.10.010 of this title.

4. Notice Of Applications For Additional Approvals: Whenever in connection with an application for a riparian protection permit, an applicant is requesting another type of approval, such as a building permit, subdivision, conditional use permit, variance, special exception, or change in zoning or land use, each required notice shall include a reference to all other requested approvals.

5. Minor Exceptions Authorized: Minor exceptions to the provisions of this section may be approved by the public utilities director as provided in this subsection. A minor exception may not authorize an exception to a prohibited land use.

a. Criteria: A minor exception shall be approved only if the public utilities director finds the exception:

(1) Is of a technical nature (i.e., relief from a dimensional or design standard);

(2) Will not authorize a deviation of more than ten percent (10%) from an otherwise applicable numerical standard;

(3) Is required to compensate for some unusual aspect of the site or proposed use or development generally not shared by landowners in the vicinity;

(4) Supports a goal or objective consistent with any RCO master plan as may be adopted, subsequent restoration efforts, or the purpose of this section;

(5) Will protect sensitive natural resources or better integrate development with the riparian environment;

(6) Will avoid filling, grading, and construction of retaining walls; and

(7) Is not likely to:

(A) Interfere with the use and enjoyment of adjacent land;

(B) Create a danger to public health or safety, particularly from flooding or erosion damage;

(C) Change stream bank stability or increase the likelihood of erosion; or

(D) Affect water quality.

b. Conditions May Be Required: In granting a minor exception, the public utilities director may attach any conditions necessary to meet the intent of this section. Any performance bond required by such conditions shall be administered as provided in this title and any other applicable provision of this code.

c. Time Limit: The public utilities director shall prescribe a time limit within which action under the minor exception shall begin. Failure to begin such action within the established time limit shall void the minor exception.

d. Burden Of Proof: The applicant shall have the burden of providing evidence to support a minor exception request.

6. Reasonable Use Exception: If a landowner believes application of the provisions of this section would deny all reasonable economic use of the owner's lot or parcel of land, the owner may request a reasonable use exception pursuant to this subsection. A request for a reasonable use exception shall be made to the public utilities director and shall include basis for the owner's reasonable use exception request and any information set forth in title 2, chapter 2.66 of this code which the public utilities director deems relevant to the request.

a. Criteria: The public utilities director shall approve a request for a reasonable use exception when all of the following criteria are met:

(1) The application of the provisions of this section would deny all reasonable economic use of the land;

(2) No other reasonable economic use of the land would have less impact on the riparian corridor area;

(3) The impact to the riparian corridor area resulting from granting the reasonable economic use request is the minimum necessary to allow for reasonable economic use of the land;

(4) The inability of the applicant to derive reasonable economic use of the land is not the result of actions by the applicant or the applicant's predecessor;

(5) The reasonable economic use exception mitigates the loss of riparian corridor area functions to the extent reasonably feasible under the facts of the application; and

(6) The reasonable economic use exception only authorizes a permitted or conditional use authorized by the underlying district and conforms to other applicable requirements of this title to the extent reasonably feasible under the facts of the application.

b. Burden Of Proof: The applicant shall have the burden of providing evidence to support a reasonable economic use exception request.

7. Action By Public Utilities Director: Following review of a complete application for a riparian protection permit, and any request for a minor exception or reasonable use exception, the director shall, pursuant to provisions of this section: a) approve the permit; b) approve the permit subject to specific modifications; or c) deny the permit. A riparian protection permit for the proposed use or development shall be approved if the public utilities director determines such action is in accord with the provisions of this section and meets the following criteria:

a. Construction associated with the use or development is not reasonably anticipated to result in the discharge of sediment or soil into any storm drain, wetland, water body, or onto an adjacent lot or parcel; and

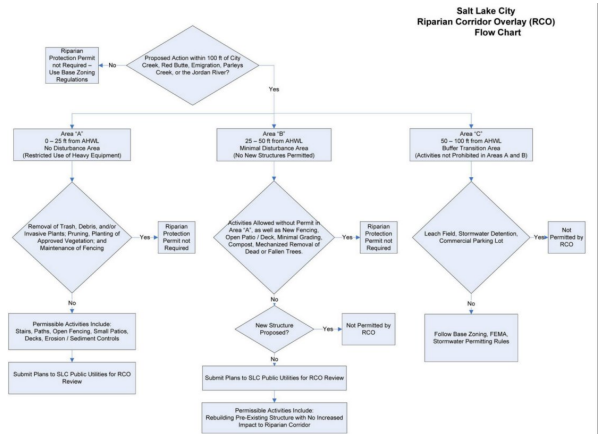
b. Except as otherwise required under a reasonable use exception, the proposed use or development:

(1) Will result in equal or better protection for the riparian corridor area, considering the provisions of this section, as reasonably determined by the public utilities director; and

(2) Will not occupy more than fifty percent (50%) of the total area within areas A and B described in subsection D2 of this section.

8. Appeal Of Decision: Any person adversely affected by a final decision of the public utilities director may within thirty (30) days after such decision appeal to the public utility advisory committee as provided in subsection B2 of this section.

9. Application Process Flow Chart: The riparian corridor permit application process is conceptually illustrated in table 21A.34.130-1 of this subsection C9. The provisions of this section shall prevail over any conflict with the flow chart.



D. Permitted Uses:

1. In General: No person shall engage in any ground disturbing use or development on a lot or parcel that will remove, fill, dredge, clear, destroy, armor, terrace, or otherwise alter the RCO district through manipulation of soil or other material except as allowed by:

a. This section and, where required by this section, the public utilities director; or

b. The U.S. army corps of engineers, Salt Lake County flood control, the Utah state engineer, or any other government agency with jurisdiction over land in the RCO district to the extent provided in subsection A4 of this section.

2. Permitted Use Areas; Developed Land: The following use areas are hereby established for developed lots or parcels within the RCO district as shown on illustration A of this subsection:

a. Area A: A "no disturbance area" located between the annual high water line and twenty five feet (25') from the AHWL;

b. Area B: A "structure limit area" located between twenty five (25) and fifty feet (50') from the AHWL; and

c. Area C: A "buffer transition area" located between fifty (50) and one hundred feet (100') from the AHWL.

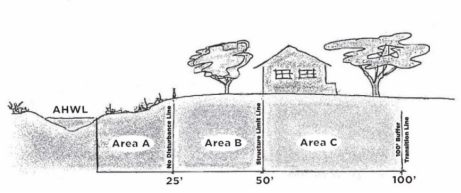


Illustration A
100 Foot Riparian Corridor

3. Permitted Use Area; Undeveloped Land: On a one acre or larger undeveloped lot or parcel within the RCO district, area A, the "no disturbance area" described above, shall be extended to one hundred feet (100') from the AHWL.

4. Permitted Use Table; Developed Land: Permitted uses allowed on a developed lot or parcel within the RCO district are shown on table 21A.34.130-2 of this subsection D4. Uses allowed by right are indicated by the letter "P"; uses which require a riparian protection permit are indicated by the letters "RPP"; and prohibited uses are indicated by a blank space.

   a. Any use or development not shown on this table shall be prohibited unless authorized by a provision of this section or another applicable provision of this title.

   b. Table 21A.34.130-2 of this subsection D4 is a summary of the provisions in this subsection D. The text of this section shall control over anything contrary shown on the table.

TABLE 21A.34.130-2
USES ALLOWED BY AREA ON DEVELOPED LOTS

Use	Area A	Area B	Area C	Comments
Maintenance and use of any lawfully established use, development, or structure existing on January 15, 2008; any use, development, or structure established thereafter shall be authorized only as provided in this section	P	P	P	See subsection D6 of this section
Any action not constituting development or a ground disturbing activity except as otherwise set forth on this table	P	P	P	
Maintenance of existing lawn and garden areas	P	P	P	
Herbicide, pesticide and fertilizer application in accordance with best management practices	P	P	P	
Replanting noninvasive vegetation	P	P	P	
Maintenance tree pruning	P	P	P	
Minor ground disturbing activity	RPP	P	P	See subsections D7 and E1b of this section
Manual removal of trash, storm debris, and fallen, dead, or diseased trees	P	P	P	
Invasive plant removal	P	P	P	
Planting noninvasive vegetation	P	P	P	
Maintenance of existing fence or structure	P	P	P	
Pruning or tree removal within utility easement by responsible entity	P	P	P	
Tree removal and replacement	P	P	P	Permitted with some exceptions; see subsection E4 of this section
Activities approved by U.S. army corps of engineers or state engineer	P	P	P	See subsection D7g of this section
Open fence, new	P	P	P	See subsections D8 and E1b of this section
Open patio/deck	RPP	P	P	
Minimal grading		P	P	See subsection D8 of this section
Compost from yard debris		P	P	
Mechanized removal of fallen, dead, or diseased trees		P	P	
Use or development allowed by underlying district			P	See subsection D9 of this section
Commercial parking lot				Not permitted; see subsection D9 of this section
Leach field, stormwater retention pond, and detention basin				
Public utilities work	RPP/P	RPP/P	RPP/P	See subsection D11 of this section
New construction or maintenance of access stairs, landscape walls, and paths	RPP	P	P	See subsection E1 of this section, particularly subsection E1b of this section for permitted new construction
Low impact stream crossing	RPP			
Maintenance of existing irrigation and flood control devices	P	RPP	RPP	
Installation and maintenance of erosion control devices	RPP	RPP	RPP	
Building replacement and expansion	RPP	RPP	P	See subsection E2 of this section

Trail on publicly owned right of way	RPP	RPP	P	See subsection E9 of this section

5. Permitted Use Table; Undeveloped Land: Permitted uses allowed on an undeveloped lot or parcel within the RCO district are shown on table 21A.34.130-3 of this subsection D5. Uses allowed by right are indicated by the letter "P"; uses which require a riparian protection permit are indicated by the letters "RPP"; and prohibited uses are indicated by a blank space.

   a. Any use or development not shown on this table shall be prohibited unless authorized by a provision of this section or another applicable provision of this title.

   b. Table 21A.34.130-3 of this subsection D5 is a summary of the provisions in this subsection D. The text of this section shall control over anything contrary shown on the table.

TABLE 21A.34.130-3
USES ALLOWED ON UNDEVELOPED LAND

Use	Area A (100 Foot Setback Area)	Comments
Maintenance and use of any lawfully established structure or use existing on January 15, 2008; any use, development, or structure established thereafter shall be authorized only as provided in this section	P	See subsection D6 of this section
Any action not constituting development or a ground disturbing activity except as otherwise set forth on this table	P	
Maintenance of existing lawn and garden areas	P	
Herbicide, pesticide and fertilizer application in accordance with best management practices	P	
Replanting noninvasive vegetation	P	
Maintenance tree pruning	P	
Minor ground disturbing activity	P	See subsections D7, E1b and E4 of this section
Manual removal of trash, storm debris, and fallen, dead, or diseased trees	P	
Pruning or tree removal within utility easement by responsible entity	P	
Tree removal or replacement	P	
Invasive plant removal	P	
Planting noninvasive vegetation	P	
Maintenance of existing fence or structure	P	
Activities approved by U.S. army corps of engineers or state engineer	P	See subsection D7g of this section
Commercial parking lot		Not permitted; see subsection D9 of this section
Leach field, stormwater retention pond, and detention basin		
Public utilities work	RPP/P	See subsection D11 of this section
Trail on publicly owned right of way	RPP	See subsection E9 of this section

6. Uses Allowed By Right On Developed Land; All Areas: The following uses may be conducted on a lot or parcel within area A, B, or C without a riparian protection permit:

   a. Maintenance and use of any lawfully established structure or use existing on January 15, 2008; any use, development, or structure established thereafter shall be authorized only as provided in this section;

   b. Maintenance of lawns and gardens, including benches and pathways;

   c. Application of herbicide, pesticide, and fertilizer, subject to applicable state and federal regulations and in accordance with best management practices identified by the department of public utilities;

   d. Replanting of vegetation with noninvasive species identified by the public utilities director;

   e. Maintenance pruning of existing trees; and

   f. Any other activity which is not a development or other ground disturbing activity.

7. Uses Allowed By Right On Developed Or Undeveloped Land; Area A: The following minor ground disturbing activities shall be allowed by right in a residential district on a developed or undeveloped lot or parcel within area A without a riparian protection permit:

   a. Manual removal of trash, storm debris, and fallen, diseased, or dead trees or other vegetation by the landowner;

   b. Pruning or removal of trees within a utility easement by the responsible entity;

   c. Tree removal and replacement as provided in subsection E4 of this section;

   d. Removal of invasive plants;

   e. Planting of noninvasive vegetation shown on a list of approved and prohibited vegetation within riparian protection areas published by the department of public utilities and/or the urban forester;

   f. Maintenance of an existing fence or structure within the original footprint if:

      (1) Further stream bank armoring is not required; and

      (2) Soil is not unstable due to steep slope movement; and

   g. Construction activities approved by the U.S. army corps of engineers under the federal clean water act or the river and harbors act, or by the Utah state engineer under the stream alteration permit program as set forth in subsection A4 of this section.

8. Uses Allowed By Right On Developed Land; Area B: Uses allowed within area B on a developed lot or parcel without a riparian protection permit include:

   a. Any use described in subsection D4 of this section;

   b. Open fencing approved under a general permit promulgated by the public utilities director;

   c. Construction of open patios which do not involve an existing grade change of more than two feet (2') and decks which are not higher than two feet (2') above grade;

   d. Minimal grading;

   e. Compost from yard debris; and

   f. Mechanized removal of fallen, dead, or diseased trees as provided in subsection E4 of this section.

9. Uses Allowed By Right On Developed Land; Area C: Uses allowed within area C on a developed lot or parcel without a riparian protection permit include any use or development allowed by the underlying district or as set forth in subsections D7 and D8, or E1b of this section, except a leach field, stormwater retention pond, detention basin, or commercial parking lot.

10. Uses Allowed By Right On Undeveloped Land: Uses allowed on undeveloped land shall be as authorized by the underlying base zoning district, except within residential districts, the research park district, public lands districts, and the institutional and urban institutional district. Within such districts the following shall apply:

a. The one hundred foot (100') nondisturbance area requirement as described in subsection D3 of this section; and

b. The use and development standards set forth in subsection E of this section.

11. Public Utilities Work: In addition to the uses listed on the foregoing tables, the city may complete work within the RCO district as provided in this subsection.

a. Emergency Work: Emergency work to protect an immediate threat to life or land is allowed without a riparian protection permit.

(1) The city department undertaking the work shall notify the public utilities director of activity within twenty four (24) hours thereafter.

(2) Any stream channel or riparian area damaged as a result of city work shall be restored. The department of public utilities shall issue a riparian protection permit for such restoration work and shall inspect and approve the work undertaken.

(3) Temporary emergency structures, sandbags, and other emergency related materials shall be removed from the site in a timely manner.

b. Other Work: The following work may be undertaken within a riparian corridor protection area subject to the issuance of a riparian protection permit as provided in this subsection:

(1) Matters of public safety;

(2) Work to protect life or property in an emergency;

(3) Flood control;

(4) Channel or riparian restoration;

(5) Maintenance, including storm drainage system, irrigation structures, utility and street work;

(6) Public utilities projects approved by the department of public utilities, including, but not limited to, new utility or street work; bridge maintenance, repair, replacement, or new construction; public trails, such as bike and pedestrian paths located on publicly owned land;

(7) Public gathering places such as amphitheaters and gazebos located on publicly owned land;

(8) Maintenance access roads; and

(9) Utility service devices such as stormwater lift stations and irrigation structures.

c. Equipment: Plans submitted for a riparian protection permit shall include a description of equipment to be used for any work proposed. Such equipment shall be sufficiently sized for the task and chosen to minimize any impact to a stream channel and the riparian corridor area.

d. Construction Design Standards: The department of public utilities shall develop construction design standards applicable to projects approved under this subsection.

E. Use And Development Standards: Other uses and development standards within the RCO district shall be conducted as provided in this subsection and shall be consistent with any RCO master plan as may be adopted.

1. Area A: Development within area A shall conform to the standards set forth in this subsection.

a. Developed Lot In A Residential District: On a developed lot in a residential district, no new construction shall occur closer than twenty five feet (25') to the annual high water level, except as permitted by this subsection.

b. Allowed Minor Ground Disturbing Activities: The following activities shall be allowed in a residential district within area A if heavy equipment is not used and as provided by a riparian protection permit:

(1) New construction or maintenance of access stairs, landscape walls; and/or paths between vertical levels within area A and no more than one per level in terraced areas;

(2) An open permeable patio or deck not located within a streambed and constructed in a manner that:

(A) Will not impede any high water flow above the AHWL;

(B) Does not change existing grade; and

(C) Is not greater than one hundred fifty (150) square feet;

(3) Low impact stream crossings;

(4) Construction of open fences, beyond the AHWL in any area within the RCO district, if approved by the public utilities director or as authorized by a general permit promulgated by the director;

(5) Maintenance of existing irrigation and flood control devices; and

(6) Installation and maintenance of erosion control devices, approved, if necessary, by the U.S. army corps of engineers, Salt Lake County flood control, the Utah state engineer or any other government authority with jurisdiction. Such erosion controls may include armoring, if, as reasonably determined by the approving authority:

(A) The armoring is authorized or required by the public utilities director and/or one or more of the foregoing government authorities;

(B) The armoring is necessary to protect the structural integrity of an existing structure on the land or significant loss of land area due to erosion;

(C) The landowner has reasonably exhausted less intrusive methods to prevent significant land damage;

(D) The armoring is placed only where necessary to prevent significant land damage in the foreseeable future; and

(E) The proposed armoring will not negatively impact other adjacent or downstream land.

2. Area B: Replacement, rebuilding, or expansion of a building within areas A and B shall conform to the standards set forth in this subsection.

a. Replacement Buildings: Replacement or rebuilding of a preexisting structure in area A and/or B shall require a riparian protection permit and is allowed, consistent with the continuation of nonconforming uses and noncomplying structures as set forth in section 21A.38.050 of this title, if:

(1) The structure replaces a preexisting structure with the same type of structure or a structure of lesser impact pursuant to underlying zoning district standards;

(2) No portion of the footprint of the new structure is any nearer to the AHWL than the nearest point of the preexisting structure to the AHWL;

(3) The total square footage of the portion of the footprint of the new structure to be located within area A and/or B does not exceed the total square footage of the footprint of the old structure as it was located within area A and/or B;

(4) The new structure:

(A) Does not require further armoring of the stream bank; and

(B) Is not located in any unstable area due to movement of a steep slope, unstable soils, or geological activity along a fault that will not support the structural footprint; and

(C) Complies with applicable requirements of the underlying zoning district and any other applicable city regulation except as otherwise set forth in this section.

b. Building Expansion: Notwithstanding any other provision of this title to the contrary, an existing structure (not including a deck, patio, or similar structure) may be expanded by up to twenty five percent (25%) in area A or B as provided by a riparian protection permit if such expansion does not result in any structure being built closer to the AHWL than any portion of the existing structure.

(1) The foregoing rule shall also apply to a replacement structure.

(2) As a tradeoff for allowing expansion or replacement with a larger structure, the public utilities director shall require, as a condition of the riparian protection permit, that the landowner spend five percent (5%) of the project cost on stream bank restoration or specify a minimum number of linear feet of stream bank that shall be restored based on the size of the expansion and consistent with any RCO master plan as may be adopted and any subsequent restoration project applicable to the entire stream corridor.

3. Use Of Heavy Equipment In Areas A And B: Heavy equipment may be used in areas A and B as provided by a riparian protection permit issued pursuant to standards promulgated by the public utilities director to minimize and mitigate impacts from the use thereof, and subject to any applicable federal, state, and county requirements.

4. Tree Removal And Replacement: Trees located in area A, B, or C which are fallen, diseased, or dead, or which are less than two inches (2") in caliper, may be removed without a riparian protection permit so long as replacement trees are planted in the same area.

a. Trees which are removed shall be replaced as follows:

(1) For trees six inches (6") in caliper or less: One to one (1:1);

(2) For trees six (6) to eight inches (8") in caliper: Two to one (2:1); and

(3) For trees eight inches (8") or greater in caliper: Three to one (3:1).

(4) Any replacement tree which does not survive for at least one year shall be replaced again.

b. Removal of live trees is prohibited without approval from the public utilities director. In determining whether a live tree should be removed, the director shall consult with the zoning administrator and the urban forester.

c. Replacement trees shall be an approved species and size shown on the list of approved and prohibited vegetation within riparian protection areas published by department of public utilities and/or the urban forester and shall have the following minimum size:

(1) Deciduous trees shall have a minimum trunk size of two inches (2") in caliper, and

(2) Evergreen trees shall have a minimum size of five feet (5') in height.

d. Any tree which is more than two inches (2") in caliper shall not be removed unless authorized by a riparian protection permit.

e. The director may promulgate a general permit for tree stump removal in any area within the RCO district. Removal of any tree stump located within twenty five feet (25') of the annual high water line shall be approved by the urban forester.

5. Development On Undeveloped Residential Lots Or Parcels: Development on an undeveloped residential lot or parcel which is one acre or larger and located within area A, B, or C shall meet the requirements of this subsection.

a. The no disturbance setback for such lots shall be increased to one hundred feet (100').

(1) If the depth of the lot or parcel is less than two hundred feet (200'), then the setback shall be reduced by the ratio of the actual lot depth to two hundred feet (200').

(2) The development potential (density) located within area B and C may be transferred to the balance of the subject lot or parcel and the minimum lot size in the zoning district may be reduced by the zoning administrator, on advice and consultation with the public utilities director, to accommodate such additional density. In the alternative, the development potential (density) may be applied to an adjacent lot or parcel within the control or ownership of the applicant.

b. When a new structure is proposed to be constructed on a lot or parcel with a reduced setback as a result of this subsection, the zoning administrator, on advice and consultation with the public utilities director, may reduce required front and side yard setbacks by a factor of twenty five percent (25%); provided, however, that the setback shall not be reduced by more than the ratio calculated under subsection E5a(2) of this section.

c. In all cases the minimum nondisturbance setback shall be at least fifty feet (50').

6. Development In Nonresidential Districts: A required setback on a lot or parcel located in a nonresidential district may be reduced to allow development within twenty five feet (25') of a stream if the stream is daylighted as provided in subsection E7 of this section.

7. Incentives For Stream Bank Restoration Or Daylighting In Nonresidential Districts: Any applicant for a project that daylights a stream or completes a city approved stream bank restoration program for at least fifty feet (50') along a stream in a riparian corridor shall be allowed to build within twenty five feet (25') of the AHWL, subject to a riparian protection permit approved by the public utilities director, so long as the applicant:

a. Incorporates best practice stormwater management facilities to reduce water pollution as specified by the public utilities director;

b. Agrees to monitor and control trash, litter, and other pollutants along the stream; and

c. Installs an amenity in the corridor such as a plaza, benches, trail, and/or sidewalk that is open to and accessible by the public.

8. Steep Slope And Soil Stability Standards: As part of a riparian protection permit, the public utilities director may require a geotechnical report and impose greater setbacks for structures or buildings from the structure limit line to ensure safety. When unstable soils are suspected, regardless of the slope, the public utilities director may require a geotechnical report, increase the no disturbance line, and impose greater setbacks for a structure or building from the structure limit line to ensure safety.

a. Replacement or repair of an existing retaining structure shall require a riparian protection permit.

b. Each proposed project shall be reviewed on an individual basis.

9. Trails: Trails may be established along a publicly owned right of way within any area located in the RCO district.

a. A riparian protection permit shall be required for a trail located in area A.

b. Public access to private land adjoining a stream channel shall be prohibited unless authorized by the landowner or pursuant to an access easement.

F. Definitions: For the purpose of this section the following words and terms shall be defined as set forth below and shall apply in addition to the terms defined in chapter 21A.62 of this title:

ANNUAL HIGH WATER LEVEL (AHWL): The average (mean) elevation of City Creek, Red Butte Creek, Emigration Creek, Parleys Creek, and the Jordan River occurring during a calendar year as indicated by fresh silt or sand deposits, the presence of litter and debris, or other characteristics indicative of a high water level.

ARMORING: Material such as rock, concrete or stone filled gabion baskets placed along a stream bank to prevent erosion.

BANK: The confining sides of a natural stream channel, including the adjacent complex that provides stability, erosion resistance, and aquatic habitat.

BEST MANAGEMENT PRACTICES (Also Known As BMPs): The utilization of methods, techniques, or products demonstrated to be the most effective and reliable in minimizing adverse impacts on water bodies and the adjacent stream corridors.

CHANNEL: The bed and banks of a natural stream or river.

DAYLIGHTING: Restoring a piped drainage system to an open, natural condition.

DEVELOPMENT: The carrying out of any building activity, the making of any material change in the use or appearance of any structure or land, or the dividing of land into parcels by any person. The following activities or uses shall be taken for the purposes of these regulations to involve "development":

1. The construction of any principal building or structure;

2. Increase in the intensity of use of land, such as an increase in the number of dwelling units or an increase in nonresidential use intensity that requires additional parking;

3. Alteration of a shore or bank of a creek, pond, river, stream, lake or other waterway;

4. Commencement of drilling (except to obtain soil samples), the driving of piles, or excavation on a parcel of land;

5. Demolition of a structure;

6. Clearing of land as an adjunct of construction, including clearing or removal of vegetation and including any significant disturbance of vegetation or soil manipulation;

7. Deposit of refuse, solid or liquid waste, or fill on a parcel of land; and

8. For the purpose of this section, any ground disturbing activity.

The following operations or uses shall not be taken for the purpose of these regulations to involve "development":

1. Work by a highway or road agency or railroad company for the maintenance of a road or railroad track, if the work is carried out on land within the boundaries of the right of way;

2. Utility installations as stated in subsection 21A.02.050B of this title;

3. Landscaping for residential uses; and

4. Work involving the maintenance of existing landscaped areas and existing rights of way such as setbacks and other planting areas.

EROSION: The process by which a ground surface is worn away by wind, water, ice, gravity, artificial means, or land disturbance.

EROSION CONTROL: A construction method, structure, or other measure undertaken to limit the detachment or movement of soil, rock fragments, or vegetation by water, wind, ice, and/or gravity.

FLOOD HAZARD AREA: An area with a high flood potential as determined by the federal emergency management agency.

FLOODPLAIN: The area likely to be inundated by water when the flow within a stream channel exceeds bank full discharge stage.

FOOTPRINT: The area under a structure at ground or grade level.

GENERAL PERMIT: A permit for a category of uses with similar characteristics authorized by the public utilities director.

GRADING: Any act by which soil is cleared, stripped, moved, leveled, stockpiled, or any combination thereof, and includes the conditions that result from that act.

GROUND DISTURBING ACTIVITY: Removing, filling, dredging, clearing, destroying, armoring, terracing or otherwise altering an area through manipulation of soil or other material.

HABITAT: The physical environment utilized by a particular species, or species population.

HEAVY EQUIPMENT: A vehicle or machine designed for construction or earthmoving work including, but not limited to, a backhoe, bulldozer, compactor, crane, dump truck, excavator, front loader, grader, scraper, skid-steer loader, or tractor.

HIGH LIQUEFACTION POTENTIAL: Soil conditions where an earthquake with a fifty percent (50%) probability of occurring within a 100-year period will be strong enough to cause liquefaction.

INVASIVE SPECIES: A usually nonnative species that is highly successful in a new habitat and whose presence is significantly detrimental to native species.

LEACH FIELD: A porous soil area, through which septic tank leach lines run, emptying treated waste.

LIQUEFACTION: The strength and stiffness of saturated soil is reduced by earthquake shaking.

LOW IMPACT STREAM CROSSING: A walkway which does not impede the flow of water in a stream channel during a period of high water flow.

MINIMAL GRADING: Movement of soil with hand tools which does not change the existing elevation by more than one foot (1').

NATIVE VEGETATION: One or more plant species indigenous to a particular area.

NO DISTURBANCE LINE: That line which is located twenty five feet (25') from the AHWL as shown on illustration A of this section.

ONE HUNDRED FOOT BUFFER LINE: That line located one hundred feet (100') from the AHWL as shown on illustration A of this section.

100-YEAR FLOODPLAIN: An area adjoining a river or stream likely to be inundated during a flood having a magnitude expected to be equaled or exceeded once in one hundred (100) years on average.

OPEN FENCE: An artificially constructed barrier that allows light transmission and visibility through at least fifty percent (50%) of the fence.

OPEN PERMEABLE PATIO OR DECK: A patio or deck which does not impede the flow of water in a stream channel during a period of high water flow.

OVERLAY DISTRICT: See section 21A.62.040 of this title.

PUBLIC UTILITIES DIRECTOR: The duly appointed individual serving as director of the Salt Lake City department of public utilities.

RIPARIAN AREA: An area including a stream channel or wetland, and the adjacent land where the vegetation complex and microclimate conditions are products of the combined presence and influence of perennial and/or intermittent water, associated high water tables, and soils that exhibit some wetness characteristics.

RIPARIAN CORRIDOR: A one hundred foot (100') wide stream corridor measured from the annual high water level (AHWL) of the adjacent stream or wetland, which has a total width of at least two hundred feet (200') plus the width of the streambed plus any adjacent wetland.

RIPARIAN PROTECTION PERMIT: A permit issued by the public utilities director containing conditions which regulate or prohibit development under the provisions of this section.

RIPARIAN SETBACK: The area between the annual high water level of a stream and a line parallel to the stream which is a defined distance from the AHWL.

STORMWATER DETENTION BASIN: An artificial flow control structure used to contain floodwater for a limited period of time to provide protection for areas downstream during peak periods of rain or melting snow.

STREAM: City Creek, Red Butte Creek, Emigration Creek, Parleys Creek and the Jordan River.

STREAM CORRIDOR: A stream and adjacent land within a defined distance from the stream.

STRUCTURE: Anything constructed or erected with a fixed location on the ground or in/over the water bodies in the city. Structure includes, but is not limited to, buildings, fences, walls, signs, and piers and docks, along with any objects permanently attached to the structure.

STRUCTURE LIMIT LINE: That line which is located fifty feet (50') from the AHWL as shown on illustration A of this section.

UNSTABLE SOIL: Soil on a slope of greater than thirty percent (30%) which is likely to move unless stability measures are undertaken to prevent such movement.

WETLAND: Those areas inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas.

G. Measurements:

1. All distances noted in this section shall be measured along a horizontal plane from the annual high water level to the applicable riparian boundary line, property line, edge of building or structure, or other point. These distances are not measured by following the topography of the land. Consequently, on steeply sloped topography the measured overground distance may not accurately reflect the distances specified in the permits and conditions specified in this section.

2. When any distance measurement results in a fractional number, the required distance shall be measured to the nearest foot. Any fraction less than one-half foot ($^1/_2$') shall be disregarded and fractions of one-half foot ($^1/_2$') or larger shall be included in the measurement.

3. When measuring a required minimum distance, the measurement shall be made at the shortest distance between the two (2) points and perpendicular to the riparian setback line. (Ord. 62-08 § 1 (Exh. A), 2008: Ord. 3-08 § 3, 2008)

Footnotes - Click any footnote link to go back to its reference.
Footnote 1: UCA § 10-9-102.
Footnote 2: The riparian corridor overlay district shall be applied to all property located within 100 feet of the annual high water level of the aboveground portions of City Creek, Red Butte Creek, Emigration Creek, Parleys Creek, and the Jordan River. The riparian corridor overlay district shall not apply to any other stream corridor. Any RCO designation shown on the Salt Lake City zoning map which is contrary to the foregoing shall be and hereby is removed from such map.

CHAPTER 21A.35
CHARACTER CONSERVATION DISTRICTS

21A.35.010: PURPOSE:

The city recognizes the substantial aesthetic, environmental and economic importance of its neighborhoods and commercial districts. The purpose of this chapter is to establish policies, regulations and standards to protect neighborhood character and to ensure that development in a character conservation district is compatible and enhances the quality and character of Salt Lake City. The intent of this chapter is to promote the general welfare of the public of the city through the protection, conservation, preservation, enhancement, perpetuation and use of structures, sites and areas that are characteristic to each of the unique areas of Salt Lake City.

A. Specific purposes of character conservation districts for residential neighborhoods and commercial districts are as follows:

1. To protect and strengthen desirable and unique physical features, design characteristics, and recognized identity and charm.

2. To promote and provide for economic revitalization.

3. To protect and enhance the livability of the city.

4. To reduce conflict and prevent blighting caused by incompatible and insensitive development and to promote new compatible development.

5. To stabilize property values.

6. To provide residents and property owners with a planning tool for future development.

7. To promote and retain affordable housing.

8. To encourage and strengthen civic pride. (Ord. 73-12, 2012)

21A.35.020: APPLICABILITY:

The regulations set forth in this chapter shall apply to properties located within the boundaries designated as a character conservation district on the Salt Lake City zoning map. In the case of conflict between the character conservation district standards and other requirements contained in other chapters of the zoning ordinance, the standards of the character conservation district shall prevail. (Ord. 73-12, 2012)

21A.35.030: GENERAL PROVISIONS:

A. Establishment By Ordinance: Each character conservation district must be established by a separate character conservation district ordinance. The city council shall approve a character conservation district ordinance in accordance with this chapter.

B. Special Review Procedure: If the planning director determines that, due to the sensitivity of the area, or due to the nature of the proposed regulations for the area, a special administrative procedure needs to be established for the review of proposed work in a character conservation district, such a procedure may be incorporated into the character conservation district ordinance before it is approved by the city council.

C. Administrative Review Of Projects Subject To Adopted Character Conservation District Standards: Following administrative review of an application subject to the standards of an adopted character conservation district, staff shall approve, conditionally approve or refer the application to the historic landmark commission for consideration. (Ord. 73-12, 2012)

21A.35.040: REQUEST FOR A FEASIBILITY STUDY:

A. An application for a character conservation district feasibility study may be filed with the planning director on an application form furnished by the planning division. The following are those who are authorized to submit an application:

1. The mayor;

2. A majority of the city council; or

3. Property owners with fifteen percent (15%) support of the property owners within the proposed district. A property owner or owners would have six (6) months to collect signatures and submit an application to the city. The six (6) month time period begins when the first signature is obtained. There is no fee for the application.

B. An application for a character conservation feasibility study prepared by the proposed district area or their authorized agent must include the following:

1. A list of the names, site address and mailing address of all property owners in the area of request.

2. A list of all neighborhood associations or other organizations representing the interests of property owners in the area of request. This list should include information as to the number of members and the officers' names, mailing addresses, and phone numbers.

3. A statement of justification. This statement should:

a. Identify the factors which make the area of request eligible for character conservation district classification as per the determination of eligibility in this chapter; and

b. Explain in detail how and why such a classification would be in the best interest of the city as a whole.

4. A written description of the character defining features of the area as seen from the public right of way. Character defining features may include, but are not limited to, architecture or architectural features, mass and scale of buildings, streetscape, building orientation, landscaping, types of signs, sidewalk improvements, public art, or other items that contribute to the overall character of the area. Photographs of the area to be considered as a character conservation district should also be included for reference. (Ord. 73-12, 2012)

21A.35.050: REVIEW OF FEASIBILITY STUDY AND INITIATION OF AN APPLICATION:

A. When a character conservation district feasibility study is initiated in accordance with this chapter, the planning director shall determine the eligibility of the area for character conservation district classification in accordance with this section.

B. The planning director's determination of eligibility must be based on a consideration of the standards in this subsection. The boundaries or designated area for a character conservation district shall satisfy all of the following criteria:

1. The area must contain at least one "block face" (as defined in this title) for all character conservation districts proposed in residential zoning districts.

2. Commercial areas should contain one block face when feasible and must contain all properties located at the intersecting corners of streets that are proposed to be included in the character conservation district boundary.

3. The area must be either "stable" or "stabilizing" as those terms are defined in this title.

4. The area must contain significant "character defining features" as defined in this title.

5. The area must have a distinctive atmosphere or character which can be identified and conserved by protecting or enhancing its character defining features.

C. If the planning director upon the advice of the historic landmark commission determines that the area is not eligible for character conservation district classification, the planning director shall notify the applicant of this fact in writing. Notice shall be mailed to the address shown on the application. The decision of the planning director that an area is not eligible for character conservation district classification may be appealed in accordance with chapter 21A.16 of this title.

D. An appeal under this chapter is made in accordance with chapter 21A.16 of this title. The request must be filed within ten (10) days of the date written notice is given to the applicant of the planning director's decision. In considering the appeal, the sole issue shall be whether or not the planning director erred in their determination of eligibility, and, in this connection, the commission shall consider the same standards that were required to be considered by the planning director in making their determination.

E. If it is determined by the final appeal authority that the area is not eligible for character conservation district classification, no further applications for character conservation district classification may be considered for the area of request for one year from the date of its decision.

F. If the planning director determines that the area is eligible for character conservation district classification, the planning director shall prepare a statement of the estimated financial cost to prepare the district plan and design standards.

G. After the planning director determines that an area is eligible for character conservation district classification, notice of the pending request will be sent to all those affected by the proposed character conservation district in accordance with the requirements for mailing notice of a proposed zoning map amendment as outlined in chapter 21A.10 of this title.

1. Within thirty (30) days of the postmark of the notice, each property owner will have an option to notify the planning division in writing if the property owner or owners object or wish to opt out as part of the proposed character conservation district.

2. In the event that a simple majority of the property owners choose to opt out of the proposed character conservation district area, then the proposed request shall not move forward and a subsequent request cannot be considered for one year.

3. For the purposes of this subsection, one vote will be counted for each property.

H. The estimated financial cost and the results of the notification as outlined above shall be presented to the city council member whose district encompasses the proposed character conservation district. A petition for a zoning map amendment shall be initiated with no fee subject to the following:

1. A funding source for the preparation of the plan and design standards is identified; and

2. A majority of the city council supports the application.

I. If the petition is approved by a majority of the city council, then the planning director shall notify all owners of property within the boundaries of the character conservation district that the petition for the character conservation district has been initiated. (Ord. 73-12, 2012)

21A.35.060: DISTRICT PLAN AND DESIGN STANDARDS FORMULATION AND REVIEW:

A. If the area is determined to be eligible for character conservation district classification pursuant to this chapter, the planning director shall schedule a public meeting for the purpose of informing property owners in the proposed district of the nature of the pending request. The planning director shall send mailed notice of the time and place of the meeting in accordance with chapter 21A.10 of this title.

B. The planning division shall prepare a draft district plan and design standards for the proposed district based on the information and character defining features found in the feasibility study with input from owners and residents of the proposed character conservation district.

C. The draft district plan and design standards must include at a minimum (or note the inapplicability), the following elements governing the physical characteristics and features of all property (public or private) within the proposed character conservation district:

1. Building height and number of stories.

2. Building size and massing.

3. Lot size and lot coverage.

4. Front and side yard setbacks.

5. Roof line and pitch.

6. Parking and hardscape covering.

D. In addition, the draft district plan and design standards may include, but are not limited to, the following elements:

1. Building orientation.

2. General site planning (primary or accessory structures).

3. Density.

4. Demolition.

5. Floor area ratio.

6. Signage.

7. Garage (residential or commercial) entrance location.

8. Entrance and street lighting.

9. Driveway, curbs, curb cuts and sidewalks.

10. Utility boxes and trash receptacles.

11. Street furniture.

12. Building relocation.

13. Right of way designs that exceed current city standards.

E. Once the draft plan and design standards are developed, a public hearing before the planning commission will be scheduled to receive public comment regarding the plan. The planning director shall send written notice of the public hearing in accordance with chapter 21A.10 of this title. (Ord. 73-12, 2012)

21A.35.070: CHARACTER CONSERVATION DISTRICT PLAN AND DESIGN STANDARDS ORDINANCE REVIEW:

A. Staff Report: A staff report evaluating the application for establishment of the character conservation district shall be prepared by the planning division.

B. Public Hearing By Historic Landmark Commission: The historic landmark commission shall schedule and hold a public hearing on the application in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10 of this title.

C. Public Hearing By Planning Commission: The planning commission shall schedule and hold a public hearing on the application in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10 of this title.

D. Planning Commission Recommendation: Following the public hearing, the planning commission shall recommend approval or denial of the proposed amendment or the approval of some modification of the amendment and shall then submit its recommendation to the city council.

E. Measuring Support: Prior to the city council public hearing, support for the character conservation district shall be measured by the following process:

1. A vote of all affected property owners shall be taken following the public hearings with the historic landmark commission and planning commission.

2. The planning division shall send ballots to each property owner within the boundaries of the character conservation district requesting that each property owner indicate whether or not they support the designation of the proposed character conservation district.

3. To ensure all property owners receive notice, the planning division shall follow up with a written certified mailing for properties who have not responded to the original thirty (30) day notice.

4. There shall be one vote per property and the results of the vote shall be based on the number of votes received.

F. Public Hearing By City Council: The city council shall schedule and hold a public hearing to consider the proposed amendment in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10 of this title.

G. City Council Action: At the public hearing, the city council may adopt the proposed creation of a character conservation district, adopt the proposed character conservation district with modifications, or deny the proposed character conservation district. However, no additional land may be added to the boundaries of the character conservation district, without new notice and hearing.

H. Designation Of The Character Conservation District:

1. If the number of ballots received in support exceed the number of ballots in opposition, the city council may designate a character conservation district by simply majority vote.

2. If the number of ballots received in support do not exceed the number of ballots in opposition, the city council may only designate a character conservation district by a super majority vote.

I. Amendments To District Boundaries Or Standards: Amendments to the character conservation district boundaries or standards shall be processed in the same manner as a new application according to the process in the chapter. (Ord. 73-12, 2012)

21A.35.080: CHARACTER CONSERVATION DISTRICT STANDARDS:

A decision to create a character conservation district is a matter committed to the legislative discretion of the city council and is not controlled by any one standard.

A. In making its decision concerning creation of a character conservation district, the city council should consider the following factors:

1. The proposed character conservation district is an established area with shared distinguishing characteristics, which may include architecture, geography, development, services, and interests.

2. The proposed character conservation district is a logical neighborhood unit with a closely settled development pattern on similar sized parcels. (Ord. 73-12, 2012)

21A.35.090: ADJUSTMENT OR REPEAL OF A CHARACTER CONSERVATION DISTRICT:

The procedure to repeal or adjust the boundaries of a character conservation district shall be the same as that outlined for the designation of a character conservation district. (Ord. 73-12, 2012)

CHAPTER 21A.36
GENERAL PROVISIONS

21A.36.010: USE OF LAND AND BUILDINGS:

The following rules shall apply to the use of land and buildings in each zoning district:

A. Enclosed Business Activity: All business activity, service, storage, merchandise, display, repair, processing, assembly and manufacturing shall be conducted wholly within an enclosed building except where specifically provided otherwise. Permitted off street parking lots, off street loading facilities, and outdoor sales in zoning districts where such outdoor sales are permitted, need not be enclosed.

B. One Principal Building Per Lot: Not more than one principal building shall be located on any lot, except that:

1. Lots in the SR-3, RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, CB, CS, CC, CSHBD, CG, RP, BP, MU, M-1, M-2, A, I and UI districts may have more than one principal building on a lot, subject to all of the principal nonresidential buildings being occupied by one use, or all principal residential and nonresidential buildings having frontage on a public street and subject to site plan review approval, pursuant to chapter 21A.58 of this title; and

2. More than one principal building may be permitted on a lot in all zoning districts other than those identified in subsection B1 of this section, or when the principal buildings are occupied by more than one use, when authorized in conjunction with an approved planned development pursuant to chapter 21A.55 of this title. All land uses shall front a public street unless specifically exempted from this requirement by other provisions of this title.

C. Frontage Of Lot On Public Street: All lots shall front on a public street unless specifically exempted from this requirement by other provisions of this title.

D. Hazardous Waste Prohibition: It is unlawful to permanently store or dispose of hazardous waste within Salt Lake City except for incineration of hazardous waste as allowed in the industrial M-2 zoning district.

E. Flag Lots In Nonresidential Districts: In the CG, BP, RP, M-1 and M-2 districts, flag lots shall be permitted, subject to subdivision regulations; provided, that:

1. As part of new subdivisions or through the planned development process only when the flag lot is proposed at the rear of an existing parcel;

2. The flag lot access strip shall have a minimum of twenty four feet (24') of frontage on a public street; and

3. The city subdivision review process determines the following:

a. It is not desirable or necessary to extend a public street to access the parcel, and

b. The existing lot and site layout is not conducive to private street development. (Ord. 23-10 § 14, 2010: Ord. 61-09 § 31, 2009: Ord. 71-04 § 5, 2004: Ord. 35-99 § 45, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(18-1), 1995)

21A.36.020: CONFORMANCE WITH LOT AND BULK CONTROLS:

A. Conformance With District Requirements: No structure or lot shall be developed, used or occupied unless it meets the lot area, lot width, yards, building height, and other requirements established in the applicable district regulations, except where specifically established otherwise elsewhere in this title.

In any residential district, on a lot legally established prior to April 12, 1995, a single-family dwelling may be erected regardless of the size of the lot, subject to complying with all yard area requirements of the R-1/5,000 district. Legal conforming lots in nonresidential districts shall be approved for any permitted use or conditional use allowed in the zoning district subject to complying with all yard area requirements of the district in which the lot is located.

B. Obstructions In Required Yards: Accessory uses and structures, and projections of the principal structure, may be located in a required yard only as indicated ("X") in table 21A.36.020B of this section. No portion of an obstruction authorized in table 21A.36.020B of this section shall extend beyond the authorized projection. Dimensions shall be measured from the finished surface of the building or structure.

TABLE 21A.36.020B
OBSTRUCTIONS IN REQUIRED YARDS[1]

Type Of Structure Or Use Obstruction	Front And Corner Side Yards	Side Yard	Rear Yard
Accessory buildings subject to the provisions of chapter 21A.40 of this title, and located at least 1 foot from the side property line except for the FP and FR districts where no accessory building is permitted in any yard. Accessory buildings shall be at least 10 feet from a principal residential building on an adjacent lot		X[3]	X
Arbors and trellises not to exceed 12 feet in height or 120 square feet in residential districts. This requirement shall also apply to nonresidential districts unless otherwise authorized	X	X	X
Architectural ornament not elsewhere regulated projecting not more than 4 inches	X	X	X
Awnings and canopies, extending not more than $2^1/_2$ feet into front, corner side, or side yards and not more than 5 feet into rear yards allowed in residential districts only	X	X	X
Balconies projecting not more than 5 feet			X
Basketball hoop and backboard on or adjacent to permitted driveways	X	X	X
Bay windows which are 1 story high, not more than 10 feet long, project 2 feet or less and are located not less than 4 feet from a lot line	X	X	X
Below grade encroachments[2]	X	X	X
Breezeways and open porches			X
Central air conditioning systems, heating, ventilating, pool and filtering equipment, the outside elements shall be located not less than 4 feet from a lot line. Structures less than 4 feet from the property line shall be reviewed as a special exception according to the provisions of section 21A.52.030 of this title		X	X
Changes of established grade for commercial or industrial uses in zones, where conditionally or otherwise permitted, the grade is changed to accommodate site retention or detention requirements	X	X	X
Changes of established grade of 4 feet or less except for the FP and FR districts which shall be subject to the provisions of subsection 21A.24.010P of this title. (All grade changes located on a property line shall be supported by a retaining wall.) For properties outside of the H historic preservation overlay, changes of established grade greater than 4 feet are special exceptions subject to the standards and factors in chapter 21A.52 of this title	X	X	X
Chimneys projecting 2 feet or less into the yard must be located not less than 2 feet from a lot line		X	X
Decks (open) 2 feet high or less	X	X	X
Eaves, not including gutters projecting 2 feet or less into the yard. 4 foot eave may project into a 20 foot yard area	X	X	X
Fallout shelters (completely underground), conforming to applicable civil defense regulations and located not less than 4 feet from a lot line			X
Fences or walls subject to applicable height restrictions of chapter 21A.40 of this title	X	X	X
Fire escapes projecting 4 feet or less			X
Flagpoles:			
Residential districts: 1 permanent flagpole per street frontage	X	X	X
Nonresidential districts: 3 flagpoles per street frontage	X	X	X
Subject to provisions of table 21A.36.020C of this section			
Ground mounted utility boxes subject to the provisions of section 21A.40.160 of this title	X	X	X
Ham radio antennas subject to provisions of subsection 21A.40.090D of this title			X
Landscaping, including decorative berms 4 feet or less in height with no grade change along any property line, provided that if such landscaping obstructs the visibility of an intersection the city may require its pruning or removal	X	X	X
Laundry drying equipment (clothesline and poles)			X
Parking, carports and covered parking spaces except as otherwise expressly authorized by section 21A.44.050, table 21A.44.050 of this title			X
Patios on grade	X	X	X
Patios on grade (attached, covered and unenclosed) maintaining a minimum 15 foot setback from the rear property line			X
Porches (attached, covered and unenclosed) projecting 5 feet or less			X
Recreational (playground) equipment			X
Refuse dumpster			X
Removable ramp for persons with disabilities (when approved as a special exception)	X	X	X
Satellite dish antennas		X	X
Signs, subject to the provisions of chapter 21A.46 of this title	X	X	X

Steps and required landings 4 feet or less above or below grade which are necessary for access to a permitted building and located not less than 4 feet from a lot line	X	X	X
Swimming pools (measured to the water line), tennis courts, game courts, and similar uses shall not be located less than 10 feet from a property line		X	X
Window mounted refrigerated air conditioners and evaporative "swamp" coolers located at least 2 feet from the property line. Window mounted refrigerated air conditioner units and "swamp" coolers less than 2 feet from the property line shall be reviewed as a special exception according to the provisions of section 21A.52.030 of this title	X	X	X
Window wells not over 6 feet in width and projecting not more than 3 feet from structure	X	X	X

Notes:
1. "X" denotes where obstructions are allowed.
2. Below grade encroachments (encroachments which are completely below grade where the surface grade remains intact and where the below grade encroachment is not visible from the surface) into required yards shall be treated as a special exception in accordance with the procedures set forth in chapter 21A.52 of this title.
3. The accessory structure shall be located wholly behind the primary structure on the property.

C. Height Exceptions: Exceptions to the maximum building height in all zoning districts are allowed as indicated in table 21A.36.020C of this section.

TABLE 21A.36.020C
HEIGHT EXCEPTIONS

Type	Extent Above Maximum Building Height Allowed By The District	Applicable Districts
Chimney	As required by local, state or federal regulations	All zoning districts
Church steeples or spires	No limit	All zoning districts
Elevator/stairway tower or bulkhead	16 feet	All commercial, manufacturing, downtown, RO, R-MU, RMF-45, RMF-75, RP, BP, I, UI, A, PL and PL-2 districts
Flagpole	Maximum height of the zoning district in which the flagpole is located or 60 feet, whichever is less. Conditional use approval is required for additional height	All zoning districts
Mechanical equipment parapet wall	5 feet	All zoning districts, other than the FP, FR-1, FR-2, FR-3, and open space districts

D. Front And Corner Side Yard Driveways: A driveway leading to a properly located garage or parking area shall be permitted in a required front or corner side yard area. No portion of the front or corner side yard as required in this title, except for these approved driveways, shall be hard surfaced or graveled in a manner that will encourage or make possible the parking of automobiles. Except for entrance and exit driveways leading to properly located parking areas, no curb cuts or driveways are permitted. (Ord. 82-12, 2012: Ord. 73-11, 2011: Ord. 19-11, 2011: Ord. 62-09 § 4, 2009: Ord. 21-08 § 7 (Exh. F), 2008: Ord. 20-06 § 1, 2006: Ord. 13-04 §§ 13, 14 (Exhs. G, H), 2004: Ord. 73-02 § 6 (Exh. C), 2002: Ord. 59-02 § 1, 2002: Ord. 35-99 §§ 46 _ 48, 1999: Ord. 30-98 § 3, 1998: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(18-2), 1995)

21A.36.030: HOME OCCUPATIONS:

A. Purpose: The purpose of this section is to permit the establishment of home occupations in all residential districts and within legal conforming single-family, duplex, and multi-family dwellings within all commercial and nonresidential districts and ensure that the home occupations are compatible with the district in which they are located, having no negative impacts upon the surrounding neighborhood. Home occupations are intended to promote local and sustainable economic growth and development.

B. Permitted Home Occupations: All home occupations not specifically listed as prohibited may be permitted subject to their compliance with the standards specified in subsection G of this section.

C. Home Occupations Prohibited: The following businesses, regardless of their conformance with the standards in subsection G of this section, are prohibited as home occupations:

1. Auto repairs;
2. Kennels;
3. Welding shops or machine shops;
4. Large appliance/electronics or equipment repair or service (washers, dryers, refrigerators and other appliances or equipment that are too large to be carried in 1 individual's arms);
5. Truck hauling;
6. Deliveries;
7. Stables;
8. Bottling plant;
9. Commercial bakery;
10. Industrial assembly;
11. Laboratory, medical, dental, optical;
12. Laboratory, testing; and
13. Any occupation which is offensive or noxious by reason of the emission of odor, smoke, gas, dust, vibration, magnetic or electrical interference, noise, or other similar impacts extending beyond the property line of the lot where the occupation is located is prohibited.

D. Application: Applications for home occupations shall be filed with the Salt Lake City business licensing department. The applications shall include the following information:

1. A complete description of the type of business proposed including the location of the storage and operations area for the home occupation;
2. The expected hours of operation of the business;
3. The expected number of clients per hour and total expected number of clients visiting the home per day.

E. License Required: It is unlawful for any person, firm, corporation, or association to engage in a "home occupation" as defined in chapter 21A.62 of this title without first obtaining a license pursuant to the provisions of title 5, chapter 5.02 of this code. Prior to issuance of said license, the criteria set forth in this title must be satisfied and all applicable fees shall be paid. All home occupation permits shall be valid for one year, and may be renewed annually, provided there have been no reported violations, subject to subsection I of this section.

F. Determination Of Completeness: Upon receipt of an application for a home occupation, the zoning administrator shall make a determination of completeness pursuant to section 21A.10.010 of this title.

G. Standards: All home occupations shall comply with the following standards:

1. The home occupation must be clearly incidental and secondary to the primary use of the dwelling for residential purposes;
2. The dwelling unit must be the principal place of residence for the person(s) conducting the home occupation;
3. The area of the residence, used for home occupations shall remain in character with the rest of the home except for such minor alterations necessary to conduct an approved home occupation;
4. The home occupation shall not be conducted in, nor in any way use, carport, or any portion of the yard. A home occupation may use a garage or other fully enclosed accessory structure provided all other standards in this section are met. As per section 21A.36.200 of this chapter, a home occupation license to distribute produce grown on the premises for off premises sales may be conducted in the rear yard and include the use of accessory buildings but may not occupy required parking areas;
5. The home occupation work conducted at the residence shall not involve more than one employee from outside of the home, persons lawfully living in the residence may be employed;
6. Except for those vehicles identified by this chapter (urban farms), and the applicant's personal transportation, there shall be no vehicles or equipment stored outdoors, which would not normally be found at a residence. Service vehicles defined as an "automobile" in chapter 21A.62 of this title which double as a personal vehicle such as taxicabs, limousine, or other vehicles used for mobile businesses and used for off site services may only be parked on site in a legal parking area;
7. Delivery of merchandise, goods, or equipment, to the site of the home occupation, shall be made by a vehicle typically employed in residential deliveries. No deliveries to the site of the home occupation by semitractor/trailer truck shall be permitted. Loading and deliveries to the site of the home occupation shall be limited to the hours of eight o'clock (8:00) A.M. and six o'clock (6:00) P.M.;
8. No mechanical or electrical apparatus, equipment or tools shall be permitted in the home occupation except those which are commonly associated with a residential use or as are customary to home crafts, and which do not exceed two hundred twenty (220) volts;
9. Tools, items, equipment or occupations which are offensive or noxious by reason of the emission of odor, smoke, gas, dust, vibration, magnetic or electrical interference, noise, or other similar impacts extending beyond the property line of the lot where the occupation is located, are prohibited. Tools, items, and equipment used for the operation and maintenance of an urban farm must comply with those storage requirements itemized by section 21A.36.200 of this chapter;
10. Stock in trade, inventory or other merchandise shall be allowed to be kept only in the interior space of the dwelling;
11. No outdoor storage is permitted in conjunction with the occupation other than produce for off premises sales, outlined in subsection G4 of this section;
12. Home occupations involving visitations from pedestrian or vehicular traffic shall only be conducted between the hours of eight o'clock (8:00) A.M. and ten o'clock (10:00) P.M.;
13. Any home occupation requiring client(s) visitation shall not occur at a frequency of greater than two (2) clients per hour, and no more than one client may be served at one time and not more than one place of vehicular parking shall be occupied by a client at any time. Client(s) shall include one or more person(s) with a unified interest in visiting the home occupation at one specific time;
14. Only one nonilluminated nameplate, with a maximum sign face as specified in chapter 21A.46 of this title, stating the name of the business or occupant and mounted flat against the building, shall be allowed. Except for the permitted nameplate, the home occupation shall not make or require any internal alterations, other than those necessary for an approved home occupation, nor any external alterations to the residence that creates the appearance of a commercial operation, nor shall the home occupation provide any visible evidence from the exterior that the building is being used for any other purpose than that of a residence; and
15. Direct retail sales are prohibited. Incidental or secondary sales ensuing from the services provided in conjunction with the home occupation are permitted. Limited sales or distribution of produce grown from an urban farm shall be permitted as specified by section 21A.36.200 of this chapter.

H. Decision By The Zoning Administrator: The zoning administrator shall issue a permit for the home occupation if they find that:

1. The provisions of this title are satisfied;
2. The home occupation will be in keeping with the character of the neighborhood and will not adversely affect the desirability or stability of the neighborhood;
3. The home occupation does not diminish the use and enjoyment of adjacent properties or create an adverse parking impact on adjacent streets or properties;
4. The home occupation will not negatively impact the future use of the property as a residence;
5. The home occupation will not adversely affect the public health, safety or welfare; and
6. The home occupation conforms with all fire, building, plumbing, electrical and health codes.

I. Loss Of Home Occupation Use: The zoning administrator may terminate any home occupation use upon making findings that support either or both of the following conclusions:

1. Any of the required licenses or permits necessary for the operation of the business have been revoked or suspended; or
2. Any of the provisions of this title have been violated.

J. Termination Of Home Occupation:

1. The licensee shall be responsible for the operation of the licensed premises in conformance with this code. Any business license issued by the city may be suspended or revoked per the provisions of title 5, chapter 5.02 of this code.

K. Appeals:

1. Any termination of a home occupation may be appealed pursuant to the provisions of title 5, chapter 5.02 of this code as if the termination were a business license revocation.
2. Any person adversely affected by the denial or issuance of a permit for a home occupation may appeal that decision to the appeals hearing officer pursuant to chapter 21A.16 of this title.

L. Existing Home Occupation Licenses: Existing licenses for home occupations which were legal under the prior zoning ordinance regulating home occupations but which are not permitted under this title are subject to the provisions of chapter 21A.38 of this title.

M. Nontransferability: Permits for home occupations are personal to the applicant, nontransferable and do not run with the land. (Ord. 3-13, 2013)

21A.36.040: RESIDENT HEALTHCARE FACILITIES:

A "resident healthcare facility" as defined in chapter 21A.62 of this title, shall be permitted as of right in the RMF-30, RMF-35, RMF-45, RMF-75, RB, R-MU-35, R-MU-45, R-MU, RO, and MU districts provided it complies with all of the requirements of the particular zoning district, the general standards set forth in this part and all other applicable requirements of this title and of this code, including business licensing requirements. (Ord. 10-10 § 4, 2010)

21A.36.050: ASSISTED LIVING FACILITIES:

An "assisted living facility" as defined in chapter 21A.62 of this title, shall be permitted in the RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, and MU districts provided it complies with all of the requirements of the particular zoning district, the general standards set forth in this part and all other applicable requirements of this title and of this code, including business licensing requirements. If the assisted living facility is an apartment building, the facility shall not exceed the density allowed in the base zoning district. If the assisted living facility is a rooming house, for the purpose of calculating the density allowed under the base zoning district, three (3) boarders shall constitute one dwelling unit. (Ord. 10-10 § 5, 2010)

21A.36.060: NURSING CARE FACILITIES:

A "nursing care facility" as defined in chapter 21A.62 of this title, shall be permitted in the RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, and MU districts provided it complies with all of the requirements of the particular zoning district, the general standards set forth in this part and all other applicable requirements of this title. (Ord. 10-10 § 6, 2010)

21A.36.070: GROUP HOMES:

A. Purpose Statement: The purpose of this section is to permit the establishment of group homes for "persons with disabilities" as defined in chapter 21A.62 of this title, subject to licensing procedures and, where appropriate, conditional use standards.

B. License Required: No group home for persons with disabilities shall be established, operated or maintained within the city without a valid license issued by the Utah state division of licensing, department of human services, and without a valid business license issued by the Salt Lake City business license office.

C. Small Group Homes; Authorized As Permitted Uses: Small group homes shall be permitted pursuant to subsection B of this section in the FR-1, FR-2, FR-3, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3, R-2, RMF-30, RMF-35, RMF-45, RMF-75, RB, R-MU-35, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, AG, AG-2, AG-5, and MU districts provided:

1. No small group home shall be located within eight hundred feet (800') of another group home; and
2. Small group homes established in the RB and RO districts shall be located above the ground floor.

D. Large Group Homes; Authorized As Conditional Uses: Large group homes, as either principal or accessory uses, may be allowed, as conditional uses pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-30, RMF-35, RMF-45, RMF-75, RB, R-MU-35, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, G-MU, and MU districts provided:

1. No large group home shall be located within eight hundred feet (800') of another group home; and
2. Large group homes established in the RB and RO districts shall be located above the ground floor. (Ord. 10-10 § 7, 2010: Ord. 20-06 § 1, 2006: Ord. 71-04 §§ 9, 10, 2004: Ord. 14-00 § 6, 2000: Ord. 38-99 § 1, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(18-7), 1995)

21A.36.080: TRANSITIONAL VICTIM HOMES:

A. Purpose Statement: The purpose of this section is to permit the establishment of transitional victim homes for the physically abused as defined in chapter 21A.62 of this title, subject to licensing procedures and, where appropriate, conditional use standards.

B. License Required: No transitional victim home for the physically abused shall be established, operated or maintained within the city without a valid license issued by the Utah state division of licensing, department of human services, and without a valid business license issued by the Salt Lake City business license office.

C. Small Transitional Victim Homes Authorized As Permitted Uses: Small transitional victim homes shall be permitted as either principal or accessory uses pursuant to subsection B of this section in the RMF-75, R-MU, RO, and MU districts provided:

1. No small transitional victim home shall be located within eight hundred feet (800') of another transitional victim home, residential substance abuse treatment home or transitional treatment home.
2. Small transitional victim homes established in RO districts shall be located above the ground floor.

D. Small Transitional Victim Homes Authorized As Conditional Uses: Small transitional victim homes, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-35, RMF-45, R-MU-35, R-MU-45, CC, CG, D-2, D-3, and G-MU districts provided:

1. No small transitional victim home shall be located within eight hundred feet (800') of another transitional victim home, residential substance abuse treatment home or transitional treatment home.

E. Large Transitional Victim Homes Authorized As Conditional Uses: Large transitional victim homes, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-45, RMF-75, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, G-MU, and MU districts provided:

1. No large transitional victim home shall be located within eight hundred feet (800') of another transitional victim home, residential substance abuse treatment home, transitional treatment home or community correctional facility; and
2. Large transitional victim homes established in RO districts shall be located above the ground floor. (Ord. 10-10 § 8, 2010: Ord. 2-09 § 8, 2009)

21A.36.090: TRANSITIONAL TREATMENT HOMES:

A. Purpose Statement: The purpose of this section is to permit the establishment of transitional treatment homes for "persons with disabilities" as defined in chapter 21A.62 of this title, subject to licensing procedures and, where appropriate, conditional use standards.

B. License Required: No transitional treatment home for persons with disabilities shall be established, operated or maintained within the city without a valid license issued by the Utah state division of licensing, department of human services, and without a valid business license issued by the Salt Lake City business licensing office.

C. Small Transitional Treatment Homes Authorized As Conditional Uses: Small transitional treatment homes, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, G-MU, and MU districts provided:

1. No small transitional treatment home shall be located within eight hundred feet (800') of another transitional treatment home, residential substance abuse treatment home, transitional victim home or community correctional facility; and
2. A small transitional treatment home established in the RO district shall be located above the ground floor.

D. Large Transitional Treatment Homes Authorized As Conditional Uses: Large transitional treatment homes may be allowed as either principal or accessory uses, as a conditional use pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-45, RMF-75, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, G-MU, and MU districts provided:

1. No large transitional treatment home shall be located within eight hundred feet (800') of another transitional treatment home, residential substance abuse treatment home, transitional victim home or community correctional facility; and
2. A large transitional treatment home established in the RO district shall be located above the ground floor. (Ord. 10-10 § 9, 2010: Ord. 2-09 § 9, 2009)

21A.36.100: RESIDENTIAL SUBSTANCE ABUSE TREATMENT HOMES:

A. Purpose Statement: The purpose of this section is to permit the establishment of residential substance abuse treatment homes for the addicted as defined in chapter 21A.62 of this title, subject to licensing procedures and, where appropriate, conditional use standards.

B. License Required: No residential substance abuse treatment home shall be established, operated or maintained within the city without a valid license issued by the Utah state division of licensing, department of human services, and without a valid business license issued by the Salt Lake City business licensing office.

C. Small Residential Substance Abuse Treatment Homes Authorized As Permitted Uses: Small residential substance abuse treatment homes shall be permitted as either principal or accessory uses pursuant to subsection B of this section in the RMF-75, R-MU-35, R-MU-45, R-MU, RO, and MU districts provided:

1. No small residential substance abuse treatment home shall be located within eight hundred feet (800') of another residential substance abuse treatment home, transitional victim home or transitional treatment home; and
2. A small residential substance abuse treatment home established in RO districts shall be located above the ground floor.

D. Small Residential Substance Abuse Treatment Homes Authorized As Conditional Uses: Small residential substance abuse treatment homes, as either principal or accessory uses, may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-35, RMF-45, CC, CG, D-2, D-3 and G-MU districts provided:

1. No small residential substance abuse treatment home shall be located within eight hundred feet (800') of another residential substance abuse treatment home, transitional victim home, transitional treatment home or community correctional facility.

E. Large Residential Substance Abuse Treatment Homes Authorized As Conditional Uses: Large residential substance abuse treatment homes, as either principal or accessory uses, may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in the RMF-45, RMF-75, R-MU-45, R-MU, RO, CC, CG, D-2, D-3, G-MU, and MU districts provided:

1. No large residential substance abuse treatment home shall be located within eight hundred feet (800') of another residential substance abuse treatment home, transitional victim home, transitional treatment home or community correctional facility; and
2. A small residential substance abuse treatment home established in RO districts shall be located above the ground floor. (Ord. 10-10 § 10, 2010: Ord. 2-09 § 10, 2009)

21A.36.110: COMMUNITY CORRECTIONAL FACILITY:

A. Purpose Statement: The purpose of this section is to permit the establishment of a "community correctional facility" as defined in chapter 21A.62 of this title, subject to the provisions of this section that provide a community involvement process and site selection criteria to address the health and safety of the community including neighboring properties and facility residents.

B. State And City Licensing: No community correctional facility shall be established, operated or maintained within the city without a valid license or operating contract issued by the Utah state division of licensing or department of corrections or other appropriate state agency, and without obtaining a Salt Lake City business license. For types of uses that do not require a state license, the applicant shall provide evidence from the state of Utah indicating that the state does not require a license for the particular facility.

C. Small Community Correctional Facility Authorized As Conditional Use: A "small community correctional facility" means a "community correctional facility" as defined in chapter 21A.62 of this title that provides temporary occupancy for up to thirty (30) individuals exclusive of staff. Small community correctional facilities, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, pursuant to subsections B, E and F of this section and pursuant to sections 21A.26.080 and 21A.28.040 of this title.

D. Large Community Correctional Facility Authorized As Conditional Use: A "large community correctional facility" means a "community correctional facility" as defined in chapter 21A.62 of this title that provides temporary occupancy for more than thirty (30) individuals exclusive of staff. Large community correctional facilities, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsections B, E and F of this section and pursuant to section 21A.28.040 of this title.

E. Community Correctional Facility Authorized As Conditional Use: Community correctional facilities, as either principal or accessory uses, may be allowed as a conditional use, pursuant to the provisions of chapter 21A.54 of this title, pursuant to this subsection and subsections B, C, and F of this section, and pursuant to sections 21A.26.080 and 21A.28.040 of this title, subject to the following requirements and provisions:

1. Program Description Required: The applicant must provide a detailed description of the treatment program, operations, management and security plans of the facility, with the amount of information satisfactory to the planning director, which clearly indicate that the facility will operate as a "community correctional facility" as defined in chapter 21A.62 of this title and consistent with the purpose statement in this section.
2. Site Selection Standards:
   a. A small community correctional facility shall not be located within one-half ($\frac{1}{2}$) mile of any residential zoning district boundary.
   b. A large community correctional facility shall only be located within an M-1 light industrial zoning district and be located west of Interstate 215. A large community correctional facility shall not be located within one-half ($\frac{1}{2}$) mile of any residential zoning district boundary.
   c. Each community correctional facility shall not be closer than one-half ($\frac{1}{2}$) mile from any other community correctional facility.

d. No community correctional facility shall be located within one-half (1/2) mile of any public or private K _ 12 school, place of worship, public library, nursery school as a principal not ancillary or accessory use or children's daycare center as a principal not ancillary or accessory use, publicly owned playground or park. The establishment of such land uses within the specified spacing criteria after the occupancy of a community correctional facility shall not create nonconformity or be the sole cause for denial of a conditional use permit for the expansion of an existing authorized facility.

e. Spacing requirements are measured in a straight line at the closest point from property line to property line.

f. The site has reasonable access to transit.

3. Site Design Standards: The applicant shall provide site plan and conditional use application information that evidences that adequate setbacks and buffers between the property lines and any structures or fenced compounds enclosing usable areas of the facility are provided. Additional setbacks and buffer areas may be established by the planning commission to mitigate any determined potential impacts. Additional setback for buffer areas may include visitor parking, landscaping, storm drain detention basins exclusive of required landscaped setbacks. Any required fencing or walls as a condition of approval must be nonclimbable fencing or walls of a design approved as part of the conditional use approval.

4. Operational Limits:

a. A community correctional facility may provide ancillary, temporary occupancy for individuals placed as part of, or in lieu of, confinement, rehabilitation, or treatment as such ancillary, temporary occupancy is described in section 21A.62.040 of this title. A community correctional facility's ancillary population shall remain less than twenty five percent (25%) of the facility's entire resident population.

b. Community correctional facilities are for temporary occupancy. Residents shall not reside for a period greater than thirty six (36) months, excluding ancillary residents who shall not reside for a period greater than six (6) months.

F. Conditions Of Approval: An applicant's failure to comply with the conditions of the conditional use approval or with any standards provided herein shall be grounds for revocation, suspension or modification of the conditions or the approval by the planning commission.

Following the planning commission approval of a conditional use for a community correctional facility, the applicant shall submit to the planning director the most current operational and incident reports submitted to the state department of corrections every twelve (12) months. In addition to the state reports the applicant shall describe the effectiveness of any impact mitigation strategies required as part of the conditional use approval.

G. Authority To Modify Regulations: In approving any community correctional facility, the planning commission may change, alter, modify or waive any provisions of this section as they apply to the proposed development. No such change, alteration, modification or waiver shall be approved unless the planning commission finds that the proposed development:

1. Will support the reconstruction and reuse of an existing structure and site in a manner that will not violate the purposes of the standards for which a community correctional facility may be approved pursuant to this section. (Ord. 2-09 § 1, 2009)

21A.36.120: ADULT DAYCARE CENTER:

An adult daycare center, as defined in chapter 21A.62 of this title, may be permitted as follows:

A. Permitted Use: An adult daycare center is a permitted use in the R-MU-35, R-MU-45, R-MU, RO, CN, CB, CS, CC, CSHBD, CG, M-1, D-1, D-2, D-3, I, UI, and MU districts.

B. Conditional Use: An adult daycare center may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title, in the RMF-45 and RMF-75 districts. (Ord. 10-10 § 11, 2010: Ord. 71-04 § 17, 2004: Ord. 26-95 § 2(18-12), 1995)

21A.36.130: CHILD DAYCARE:

Child daycare shall be permitted pursuant to the following provisions:

A. Nonregistered Home Daycare: Nonregistered home daycare, limited to no more than two (2) children, excluding the provider's children, is permitted in the home of the care provider in the FR-1/43,560, FR-2/21,780, FR-3/12,000, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3, R-2, RMF-30, RMF-35, RMF-45, RMF-75, RB, R-MU-35, R-MU-45, R-MU, RO, and MU districts and within legal conforming single-family, duplex, and multi-family dwellings within commercial and nonresidential districts excluding M-1 and M-2 districts. A business revenue license or home occupation conditional use approval shall not be required.

B. Registered Home Daycare Or Registered Home Preschool: A registered home daycare or registered home preschool as defined in chapter 21A.62 of this title, may be allowed as an accessory use in the FR-1/43,560, FR-2/21,780, FR-3/12,000, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3, R-2, RMF-30, RMF-35, RMF-45, RMF-75, RB, R-MU-35, R-MU-45, R-MU, RO, and MU districts and within legal conforming single-family, duplex, and multi-family dwellings within commercial and nonresidential districts excluding M-1 and M-2 districts as a home occupation special exception pursuant to the provisions of chapter 21A.52 of this title. The permittee shall also obtain appropriate licensing where applicable from the state pursuant to the Utah Code Annotated, 1953.

1. Permit; Application: An application for a residential home daycare or preschool must be submitted to the zoning administrator. As a part of the application, the applicant must submit the following documentation:

a. The number of children and employees; both total for the day and the expected maximum number to be on the premises at any given time;

b. The hours and days of operation;

c. Proof of appropriate licensing from the state, where applicable, or basis upon which exemption therefrom is claimed; and

d. The names, addresses, and signatures of record property owners abutting the applicant's property and those across the street(s).

2. Standards: All residential home daycare or preschools shall be subject to the standards set forth in chapter 21A.52 of this title and subject to the following specific standards:

a. The applicant resides at the home in which the business will be conducted;

b. At no time shall the applicant provide home daycare or home preschool services for a group of children exceeding the maximum specified for such facility;

c. The outdoor play area for the home daycare or home preschool shall be located in the rear or side yards of the home for the protection and safety of the children and for the protection of the neighborhood;

d. The use of the home for the services of providing childcare shall be clearly incidental and secondary to the use of the dwelling for residential purposes and shall not change the character of the home or the neighborhood;

e. The care and supervision of the children shall be conducted in a manner which is not a public nuisance to the neighborhood;

f. There shall be no advertising of such occupation, business or service, no window or other signs or displays;

g. No employees other than persons lawfully living in the dwelling;

h. No use of any accessory dwellings for daycare purposes;

i. No play or yard equipment located in the front yard; and

j. It is unlawful for any person to engage in a "registered home daycare or registered home preschool" as defined in section 21A.62.040 of this title without first obtaining a license pursuant to the provisions of title 5, chapter 5.04 of this code. Prior to issuance of said license, the criteria set forth in this title must be satisfied and all applicable fees shall be paid. All home occupation business licenses shall be valid for one year, and may be renewed annually, provided there have been no reported violations, subject to subsection 21A.36.030I of this chapter.

C. Child Daycare Center: A child daycare center as defined in chapter 21A.62 of this title, may be permitted as follows:

1. Permitted Use: A child daycare center is a permitted use in the RMF-75, R-MU-35, R-MU-45, R-MU, RB, RO, CN, CB, CC, CS, CSHBD, CG, D-1, D-2, D-3, M-1, I, UI, BP, RP, A, PL and PL-2 districts.

2. Conditional Use: A child daycare center may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title, in the R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3, R-2, RMF-30, RMF-35 and RMF-45 districts.

a. Site Requirements:

(1) Minimum Lot Size: Twenty thousand (20,000) square feet.

(2) Location Requirements: The child daycare use shall be addressed on and oriented to an arterial street as shown on the city's major street plan.

(3) Rear Yard Playground Equipment: All outside playground equipment shall be located only in the rear yard.

(4) Landscape Buffering: Any outside area where children are allowed must be fenced with a solid fence at least six feet (6') high. At least ten feet (10') from the fence to the interior portion of the property shall be landscaped in such a way that the area cannot be used by the patrons.

b. Signage: Signs are limited to either one nonilluminated low profile identification sign, or one "flat sign" as defined in chapter 21A.46 of this title. The size of the sign shall be determined as part of the conditional use approval.

c. Prohibitions:

(1) Residential Demolition: No existing building containing a residential dwelling unit may be demolished to allow for the construction of a new conditional use facility for child daycare under this section.

(2) Residential Conversion: The conversion of any existing residential structure or a conditional use allowed under this section shall not permit any major exterior or interior alterations of the building to be made which render the building substantially incompatible with the return to its use as a residence.

(3) No Variances: The planning commission shall not approve a childcare conditional use pursuant to this section if the appeals hearing officer would be required to grant a variance from any zoning condition.

(4) Six Hundred Feet Proximity: No conditional use allowed under this section may be within six hundred feet (600') on the same street frontage as another conditional use allowed under this section.

d. Application: The application for a child daycare center shall include, in addition to application submission requirements of chapter 21A.54 of this title, the following information:

(1) The number of children, employees, staff or volunteers; both total for the day and the expected maximum number to be on the premises at any given time;

(2) The hours and days of operation;

(3) The proposed signage; and

(4) The number, location and dimensions of any dropoff or pick up areas for either private transportation or public transportation.

e. Standards: Standards for approval shall include, in addition to standards of chapter 21A.54 of this title, the following:

(1) Specific Standards For Child Daycare Conditional Uses:

(A) The lot is of sufficient size to accommodate all required parking in the side and rear yards, or to the rear of the required landscaped setback in the front yard;

(B) The dropoff and pick up area is designed in a manner that vehicles do not back into a public street or the stacking or queuing of vehicles will not interrupt traffic flow on the public street; and

(C) The signage is appropriate for the area. (Ord. 8-12, 2012: Ord. 10-10 § 2, 2010: Ord. 52-06 § 1, 2006: Ord. 71-04 §§ 18 - 20, 2004: Ord. 73-02 § 7, 2002: Ord. 35-99 §§ 51, 52, 1999: Ord. 26-95 § 2(18-13), 1995)

21A.36.140: SEXUALLY ORIENTED BUSINESSES:

A. Purpose Statement: The purpose of this section is to establish reasonable and uniform regulation to prevent the concentration of sexually oriented businesses or their location in areas deleterious to the community of Salt Lake City and to regulate the signage of such businesses to control the adverse effects of such signage and to prevent their inappropriate exposure to the community. The provisions of this section are to be construed as a regulation of time, place, and manner of the operation of these businesses consistent with the limitation provided by provisions of the United States and Utah constitutions.

B. Zoning Districts In Which Sexually Oriented Businesses Are Permitted: Subject to the additional restrictions set forth in this title, sexually oriented businesses, as listed on the tables of permitted uses set forth in part III of this title, for each zoning district or category of districts, shall be permitted in the following zoning districts pursuant to conditional site plan review by the planning commission as provided in subsection D of this section:

1. CG general commercial district;

2. M-1 light manufacturing district; and

3. M-2 heavy manufacturing district.

C. Nonconforming Sexually Oriented Businesses: For the purposes of this title, a legal nonconforming sexually oriented business may not be enlarged, expanded, or extended to occupy all or a part of another structure or site or be extended to occupy additional space or square footage within the same structure that it did not occupy pursuant to Salt Lake City approval.

1. A valid, existing sexually oriented business shall not be deemed nonconforming for purposes of this subsection C as the result of the subsequent location of a use specified in subsection F1, F2, or F3 of this section.

D. Sexually Oriented Businesses Conditional Site Plan Review Required: The planning commission shall conduct a conditional site plan review for all sexually oriented businesses within the guidelines set forth in both this chapter and all other applicable sections of this zoning ordinance. The following list identifies the circumstances that shall require that a sexually oriented business come before the planning commission for conditional site plan review:

1. A project where new construction and site development of a sexually oriented business is involved;

2. A project where the conversion of a structure(s) into a sexually oriented business is being considered; or

3. A project where an existing sexually oriented business is contemplating an addition or expansion that would have at least one or more of the following effects:

a. Alteration of traffic flows by way of ingress, egress, or within the site itself.

b. Alteration or rearrangement of on site parking which results in a reduction or increase in the number of parking spaces or placement within a required yard area.

c. Addition to structure that increases the existing floor area.

d. The construction of additional off street parking areas to support a sexually oriented business.

e. Alteration of existing signage, including the location and/or design. An alteration shall not be interpreted to include changing the text or copy on signs that are designed to accommodate changeable copy.

4. If a sexually oriented business does not fall under any of the categories listed in subsections D1 through D3 of this section, it shall not be subject to planning commission review; however, it shall comply with all distance and signage requirements as specified for sexually oriented businesses in this code, including, without limitation, subsections F1 through F4 of this section.

E. Application For Sexually Oriented Business Conditional Site Plan Review: Applications for conditional site plan review may be obtained from the city license authority and should be returned to the same when completed. The application for a conditional site plan review shall be filed with the city license authority on the same day that the application for a sexually oriented business license, if applicable, is filed with the license authority. The application for a conditional site plan review shall include the items listed in section 21A.58.060 of this title.

F. Standards For Sexually Oriented Business Conditional Site Plan Review: The planning commission shall conduct a conditional site plan review for sexually oriented businesses for compliance with the following standards:

1. Required Distance From Other Uses: No sexually oriented business shall be located within a one thousand foot (1,000') radius of any place of worship, park, school, residential zoning district, residential use, or licensed child daycare center, as measured in a straight line, without regard to intervening structures, streets or other barriers from the nearest point of the property line of the school, park, place of worship, residential zoning district, residential use, or licensed child daycare center, to the nearest point of the property line of the sexually oriented business. For the purpose of this section, "park" shall include any public recreation or public open space that operates as a public gathering place, including a park, playground, swimming pool, golf course, athletic field, plaza, square, library grounds, and/or designated trail.

2. Required Distance From Gateway Corridors: No sexually oriented business shall be permitted to locate within one hundred sixty five feet (165') of any gateway corridor identified in subsection F6 of this section, as measured in a straight line, without regard to intervening structures, streets or other barriers, from the nearest point of the gateway corridor street right of way line to the nearest point of the property line of the sexually oriented business. If any block shall be surrounded on all four (4) sides by a designated gateway, then no sexually oriented business shall be permitted in that block.

3. Required Distance From Landmark Sites: No sexually oriented business shall be permitted within a three hundred thirty foot (330') radius of any landmark site. The distance shall be measured from the nearest point of the property line of the landmark site to the nearest point of the property line of the sexually oriented business without regard to intervening structures, streets or other barriers.

4. Concentration Prohibited: No sexually oriented businesses shall be allowed within a one thousand foot (1,000') radius of another sexually oriented business. The distance shall be measured from the nearest point of the property line of the existing sexually oriented business to the nearest point of the property line of the proposed sexually oriented business without regard to intervening structures, streets or other barriers.

5. Sign Regulations: Sexually oriented business signs shall be limited as follows:

a. No more than one sign shall be allowed on sexually oriented business premises;

b. No sign on the sexually oriented business premises shall be allowed to exceed eighteen (18) square feet;

c. No animation shall be permitted on or around any sexually oriented business sign or on the exterior walls or roof of the premises;

d. No descriptive art or designs depicting any activity related to, or inferring, the nature of the business shall be allowed on any sexually oriented business sign which shall contain alphanumeric copy only;

e. Only flat wall signs shall be permitted for any sexually oriented business;

f. Painted signs or painted wall advertising shall not be allowed; and

g. Other than the signs specifically allowed by this title, the sexually oriented business shall not construct or allow to be constructed any temporary sign, banner, light, or other device designed to draw attention to the business location.

6. Gateway Corridors: For the purposes of regulating sexually oriented businesses, gateway corridors shall include:

a. Beck Street from the northern city limits becoming 300 West Street to 900 South Street;

b. 600 South Street from 200 East Street to 500 West Street;

c. 500 South Street from 200 East Street to 500 West Street;

d. Main Street from 700 South Street to North Temple Street;

e. State Street from 600 South Street to North Temple Street;

f. West Temple Street from 900 South Street to North Temple Street;

g. 400 West from 900 South Street to Beck Street;

h. 500 West from 600 South Street to North Temple Street;

i. 400 South from 900 West to 200 East;

j. 200 West from 900 South to 700 South; and

k. 700 South from 200 West to Main Street.

7. Modifications May Be Required: The planning commission may require modifications to a proposed sexually oriented business conditional site plan as it relates to traffic and parking, site layout, environmental protection, landscaping, and signage in order to achieve the objectives set forth in section 21A.58.040 of this title.

G. Payment Of Fee: The application shall be accompanied by the application fee shown on the Salt Lake City consolidated fee schedule, plus the cost of first class postage for required notification mailing. No application shall be considered complete unless accompanied by fee payment.

H. Repealed.

I. Public Hearing Notice Requirements: The planning commission shall hold at least one public hearing to review, consider and approve, approve with conditions, or deny a conditional site plan review application after public notification pursuant to chapter 21A.10 of this title.

J. Completion Of Review Process: The city shall complete its review process within thirty (30) days of the day a complete sexually oriented business conditional site plan review application is filed. (Ord. 62-11, 2011: Ord. 24-11, 2011)

21A.36.150: FRATERNITIES AND SORORITIES:

A. Purpose Statement: The purpose of the provisions of this section is to regulate the establishment and operation of fraternities and sororities in residential areas of the city in order to ensure their compatibility with the character of existing residential neighborhoods adjacent to a university and to preserve the peacefulness and privacy of residents.

B. Area In Which Permitted: A fraternity or sorority house occupied exclusively by the faculty or students of any college or university (together with appropriate supervisory personnel) and supervised by the authorities thereof shall only be established within the following boundaries:

Commencing at the southeast corner of Butler Avenue and University Street said point also being the northwest corner of Lot 1 Block 4 Federal Heights Subdivision, a subdivision of the Northwest $^1/_4$ Section 4, T.1.S., R.1.E. SLB&M and running north 89°58'3" east 50 feet; thence southeasterly along a 220 foot radius curve to the right 86.34 feet to the northeast corner Lot 5 said Block 4; thence south 22°27'30" west 146.5 feet to the center line of a 14 foot alley; thence southeasterly along a 73.5 foot radius curve to the right (along the center line of said alley) 28.51 feet; thence south 45°1'57" east along the center line of said alley 224.48 feet to the center line of an east-west running alley; thence north 89°57'30" east along the center line of said alley 305.56 feet more or less to the east line of Butler Avenue; thence northwesterly along a 149 foot radius curve to the left (the east line of Butler Avenue) 70.12 feet more or less to the northwest corner of Lot 57 Block 3 Federal Heights Subdivision; thence north 68°12'52" east 180 feet more or less to the center line of an existing alley; thence southeasterly along a 460.75 foot radius curve to the left (center line of said alley) 113.57 feet; thence north 10°8'59" east 135.0 feet to the south line of Federal Way; thence easterly along 325.75 foot radius curve to the left 58.12 feet to the west line of Wolcott Street; thence north 89°58'3" east 228.8 feet along the south line of Federal Way to the center line of an existing alley; thence south along the center line of the existing alley 325.00 feet to the north line of 100 South Street; thence west along the north line of 100 South Street 730.56 feet to the southwest corner of Lot 33 Block 4 Federal Heights Subdivision; thence north 70°46'57" west 112.71 feet; thence northwesterly along a 38.0 foot radius curve to the right 29.72 feet to a point on the east line of University Street said point being 52.85 feet south of the northwest corner Lot 38 Block 4 Federal Heights Subdivision; thence north 0°2'30" west 385.28 feet to the point of beginning.

C. Supervision Defined: The phrase "supervised by the authorities" of the college or university, as used in this section, and as also applicable to any existing fraternity or sorority house outside the boundaries set forth above which may have a nonconforming use right, shall be defined to require the following:

1. On or before September 1 of each year, and at such other times as the planning director may deem such a certification appropriate, each college or university having students or faculty residing in a fraternity or sorority house shall certify to the city, by filing a declaration with the planning director, that the college or university has promulgated, adopted and is monitoring compliance with rules concerning fraternity or sorority houses. All rules concerning fraternity or sorority houses promulgated and adopted by any college or university pursuant to this section shall, at a minimum, require the following:

a. No one under twenty one (21) years of age shall be allowed to consume alcoholic beverages on the premises of any fraternity or sorority (the term "premises" shall include all areas owned, controlled or routinely used by the fraternity or sorority, including parking areas);

b. No charge shall be levied for the purchase of alcoholic beverages consumed on the premises;

c. No admission charge shall be levied at any activity on the premises of any fraternity or sorority at which alcoholic beverages are consumed;

d. No funds of any fraternity or sorority shall be used to purchase alcoholic beverages and that no collection of funds shall be made by any fraternity or sorority, or any members thereof, for the purposes of purchasing alcoholic beverages to be consumed on the premises of any fraternity or sorority;

e. At any activity on the premises of any fraternity or sorority where alcoholic beverages are consumed, there shall be food and alternative nonalcoholic beverages readily and visibly available for consumption;

f. Except with respect to certain philanthropic activities as defined by the relevant college or university, only individuals bearing: 1) a personal invitation issued in advance, 2) an admission ticket issued in advance, or 3) identification of membership in the fraternity/sorority system of the relevant college or university shall be allowed to attend any activity on the premises of a fraternity or sorority;

g. At any "philanthropic" function on the premises benefiting a recognized nonprofit organization sponsored by the fraternity or sorority, no alcohol may be present, sold or consumed;

h. At any gathering, other than for a regularly scheduled chapter meeting or a regularly scheduled meal time, involving sixty (60) or more people on the premises of any fraternity or sorority, at which alcoholic beverages are served or consumed, the hosting fraternity/sorority shall hire uniformed category 1 or 2 peace officers employed by the relevant college or university or the city in reasonable numbers, as may be determined by the relevant college or university, to assist in checking admission, checking identification and monitoring compliance with all applicable city and county ordinances, state laws and college or university regulations, and, furthermore, that a representative of at least twenty one (21) years of age from the hosting fraternity or sorority's house corporation be present at all times during such a gathering;

i. No activities on the premises of any fraternity or sorority shall occur before eight o'clock (8:00) A.M. and activities shall close before eleven o'clock (11:00) P.M. on all nights except Friday, Saturday and the day before any legal holiday, on which day such activities shall close by twelve o'clock (12:00) midnight;

j. No band performances, amplified music or other activities shall take place outside on the premises of any fraternity or sorority between the hours of ten o'clock (10:00) P.M. and nine o'clock (9:00) A.M. and any activities taken place outside or inside the premises of any fraternity or sorority at other times shall otherwise comply with all applicable city and county ordinances, state laws, and college or university regulations;

k. No public lewd, obscene, or licentious activities will be sponsored or permitted on the premises by the fraternity or sorority;

l. After any activity on the premises of any fraternity or sorority, the sponsoring entity must clean the exterior of the fraternity or sorority's property and all nearby property on which debris or garbage from the activity has been deposited by ten o'clock (10:00) A.M. the following morning;

m. Each fraternity or sorority chapter shall have in place a risk management policy; and

n. The appearance and landscaping of the premises of any fraternity or sorority shall be accomplished and maintained in a manner that is harmonious with the residential character of the surrounding neighborhood.

D. Twenty Four Hour Telephone Line Required: Any college or university having students or faculty residing on the premises of any fraternity or sorority shall maintain a twenty four (24) hour telephone line for purposes of:

1. Receiving complaints regarding a fraternity or sorority's failure to abide by any applicable city or county ordinances, state laws, or college or university regulations and maintaining a permanent log thereof; and

2. Dispatching the appropriate university or law enforcement personnel regarding enforcement of college or university rules and regulations, but reserving to the city police department primary law enforcement duties.

E. Effect On Existing Penal Provisions: Nothing in this section defining supervision shall be deemed to amend or modify any penal provision(s) of county, city or state law. Any college or university having students or faculty residing on the premises of any fraternity or sorority shall provide, at its own expense or at the expense of the fraternity and sorority houses, a two (2) officer roving police patrol in the area occupied by the college or university's fraternities and sororities between the hours of nine o'clock (9:00) P.M. and one o'clock (1:00) A.M. on Friday and Saturday evenings during the college's or university's academic year, which patrol shall be in radio contact with the dispatcher provided for the foregoing subsection and which shall, as its sole responsibility, be responsible for monitoring compliance by all such fraternities and sororities with all applicable city and county ordinances, state laws, and college or university regulations. (Ord. 81-97 § 1, 1997: Ord. 26-95 § 2(18-15), 1995)

21A.36.160: MOBILE BUSINESSES:

A. Mobile Food Business Allowed:

1. Persons selling food or beverages from mobile food businesses may do so by use of private property only, unless otherwise permitted under title 5, chapter 5.69 of this code. Use of private property by mobile food businesses shall be arranged with the real property owner and proof of such property owner authorization shall be required prior to the issuance of a business license.

2. Mobile food businesses are allowed only within the SNB, CN, CB, CS, CC, CSHBD, CG, TC-75, TSA, M-1, M-2, D-1, D-2, D-3, D-4, G-MU, RP, BP, UI, MH, MU, R-MU, R-MU-35, and R-MU-45 zones, in accordance with the provisions of this section.

3. Provisions found in this section shall not apply to vending carts, mobile ice cream vendors, seasonal farm stands and other temporary merchants or uses that are specifically authorized by this title or other city ordinances.

B. Business License And Fees Required: No mobile food business shall continue in operation unless the holder thereof has paid an annual business regulatory fee and has met all applicable requirements as set forth in section 5.04.070 of this code, or its successor section for each mobile food business.

C. Separate Applications: Separate business license applications may be required for each mobile food business. Separate business license fees shall be required for each mobile food business vehicle operating under one business license.

D. Business Activity To Be Temporary: All business activity related to mobile food businesses shall be of a temporary nature subject to the requirements below:

1. A mobile food truck may not park in one individual location for more than twelve (12) hours during any twenty four (24) hour period.
2. The mobile food truck shall be occupied by the owner or operator thereof at all times.
3. No overnight parking is allowed.

E. Location And Placement Requirements: The business operating location must be on private property, on city streets as defined in title 5, chapter 5.69 of this code, within the specified zones, or as otherwise authorized by applicable city ordinance, subject to the requirements below:

1. Parking on a park strip, or otherwise landscaped area is not allowed.
2. A mobile food business shall park on a hard surface. Alternatives to asphalt and cement may be approved by the transportation engineer if the applicant is able to demonstrate that the alternative will not result in the accumulation of debris on the city right of way.
3. Mobile food business vehicles must be parked so that neither the vehicle nor the customers block driveways of existing buildings or uses, or in such a manner as to create a traffic hazard.
4. No mobile food business shall occupy required parking stalls of the primary use.
5. No mobile food business shall interfere with the internal parking lot circulation.
6. Mobile food businesses shall not use the public right of way unless otherwise allowed by ordinance.
7. Any auxiliary power required for the operation of the mobile food truck shall be self-contained. No use of public or private power sources are allowed without providing written consent from the owner.
8. Unless licensed prior to January 1, 2013, a parked mobile food business shall conform to all requirements in the Salt Lake City vehicle idling ordinances (title 12, chapter 12.58 of this code).
9. All materials generated from a mobile food business that are to be disposed of should be disposed of properly. It is illegal to discharge or dispose of any substance, material, food, or waste into the storm drain system. (Sections 17.84.100, prohibition of discharge into storm drain system; 17.36.220, prohibition against opening manhole covers, of this code.)
10. Mobile food businesses shall comply with all other applicable city ordinances.

Provisions found in this section shall not apply to downtown vendors, vending carts, mobile ice cream vendors, seasonal farm stands and other temporary merchants or uses that are specifically authorized by this title or other city ordinances.

F. Design And Operation Guidelines: Mobile food trucks operating in the public right of way shall comply with the following design requirements:

1. Mobile food truck vehicles shall be designed to meet all applicable Salt Lake Valley health department requirements relating to the handling and distribution of food.
2. The mobile food truck shall not have a drive-through.
3. Mobile food truck vehicles shall be kept in good operating condition, no peeling paint or rust shall be visible.
4. No mobile food truck vehicle operating in the public right of way shall operate within the same block face as another mobile food vendor at any one time.
5. No mobile food truck vehicle shall operate within one hundred feet (100') on the same linear block face of a door to a restaurant, mobile food vendor, food cart, or city authorized special event selling food, except:
   a. The above requirement may be waived if the application is submitted with the written consent of the proprietor of such restaurant or shop. The consent shall be on forms deemed appropriate by the business license administrator. Such waiver shall not exempt the applicant from compliance with the other location and distance restrictions of this section.
6. All grounds utilized by a mobile food business shall at all times be maintained in a clean and attractive condition.
7. Trash and recycling containers shall be provided for use of the business patrons.
8. Mobile food businesses shall source local products when available.
9. Any enclosures or canopy extensions must be integrated into the design of the mobile food business vehicle and must not project onto the public sidewalk or any other part of the public right of way not authorized by the transportation division.

G. Signs: No signs shall be used to advertise the conduct of a mobile food business at the premises other than that which is physically attached to the vehicle, except temporary signs authorized by section 21A.46.055 of this title.

H. Professional And Personal Services Prohibited: The performance of professional or personal services for sale shall not be provided from a mobile food business.

I. Approved Kitchen: If the mobile food business includes an area for food preparation and/or sale, it must be approved by the Salt Lake Valley health department. (Ord. 24-12, 2012)

21A.36.161: MOBILE FOOD COURTS:

A. Mobile Food Courts A Conditional Use:

1. Operating a mobile food court is unlawful without first obtaining conditional use approval subject to the qualifying provisions written below as well as those in chapter 21A.54 of this title.
2. Mobile food courts are allowed by administrative conditional use approval only within the M-1, M-2, D-1, D-2, D-3, D-4, G-MU, in accordance with the provisions of this chapter.
3. Provisions found in this section shall apply to mobile food businesses, vending carts, and seasonal farm stands that are specifically authorized by this title or other city ordinances.

B. Qualifying Provisions:

1. A mobile food court is required to be on a parcel of at least two thousand (2,000) square feet in size.
2. No less than two (2) and no more than ten (10) individual mobile food businesses or other authorized vendors are allowed on a parcel.
3. No participating mobile food business or other authorized vendor shall continue in operation at the mobile food court unless the holder thereof has paid an annual business regulatory fee as set forth in section 5.04.070 of this code, or its successor section.
4. All requirements of chapter 21A.48, "Landscaping And Buffers", of this title and section 21A.36.020, "Conformance With Lot And Bulk Controls", of this chapter, or their successor chapter or section shall be met prior to the issuance of a permit.
5. Mobile food courts are for the sale of food products only. Retail sale of nonfood items is not permitted.
6. A master sign plan for the mobile food court shall be submitted for review and approval as part of the conditional use process. The plan shall provide information relating to permanent signs for the court, as well as individual signs for each business.
7. All the proposed activities will be conducted on private property owned or otherwise controlled by the applicant and none of the activities will occur on any public right of way.
8. The proposed mobile food court will not impede pedestrian or vehicular traffic in the public way.
9. The proposed mobile food court complies with all conditions pertaining to any existing variances, conditional uses or other approvals granted for the property.
10. All activities associated with a mobile food court must comply with all Salt Lake Valley health department requirements.
11. A detailed site plan demonstrating the following is required:
    a. The location and orientation of each vendor pad.
    b. The location of any paving, trash enclosures, landscaping, planters, fencing, canopies, umbrellas or other table covers, barriers or any other site requirement by the international building code, or health department.
    c. The location of all existing and proposed activities on site.
    d. The circulation of all pedestrian and vehicle traffic on the site.
    e. The mobile food court shall not occupy required parking stalls of any primary use of the site.
12. Live music will not be performed nor loudspeakers played in the mobile food court area unless the decibel level is within conformance with the Salt Lake City noise control ordinance. title 9, chapter 9.28 of this code.
13. Parking for a mobile food court is required at a ratio of two (2) stalls per mobile food business. This requirement may be waived by the planning commission as part of the conditional use process. No additional parking is required in the D-1, D-2, D-3, D-4, G-MU, CSHBD1, CSHBD2, R-MU, R-MU-35, R-MU-45, MU, G-MU, TC-75 and TSA zones. Hard surface paving at the vehicular entrance to the mobile food court, and for each individual mobile food business is required. Alternatives to asphalt and cement may be approved as part of the conditional use process if the applicant is able to demonstrate that the alternative will not result in the accumulation of mud or debris on the city right of way. (Ord. 24-12, 2012)

21A.36.170: REUSE OF CHURCH AND SCHOOL BUILDINGS:

A. Change Of Use: In the PL, PL-2, I, UI or any residential district, a change of use of any church or school to a use that is allowed as a permitted use or conditional use in the zoning district may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title.

B. Temporary Use Of Closed Schools And Churches; Authorized As Conditional Use: The temporary use of closed schools and churches may be allowed as a conditional use pursuant to the provisions of chapter 21A.54 of this title, in FR-1, FR-2, FR-3, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3, RMF-30, RMF-35, RMF-45, RMF-75, R-MU-35 and R-MU-45 residential districts; provided, that:

1. Use: The temporary use is for office space or educational purposes for public or private charities.
2. Application: The application for a temporary use of a closed school or church shall include, in addition to the application submission requirements of chapter 21A.54 of this title, the following information:
   a. Building Plans: As part of the application, the applicant shall provide a site plan drawn to scale showing existing structures, auxiliary buildings, existing parking and landscaping, and any proposed changes to the site. In converting the existing facility to the proposed conditional use, no major exterior or interior alterations of the building shall be made which render the building incompatible with a return to its use as a school or church; and
   b. Use Plan: A proposed use plan including:
      (1) Hours and days of operation,
      (2) Evidence of noise, odor or vibration emissions,
      (3) Evidence of the number of classes, including hours taught, days taught, and the expected class size,
      (4) Average number of clients per day and the frequency of turnover of the clients, and
      (5) Number of employees, staff or volunteers, both total and expected to be on the premises at any given time.
3. Prohibition: No provision of this section shall be construed to allow any use in a closed school or church for retail, residential or industrial purposes, or any use involving any type of correctional or institutional facility.
4. Ownership: The school board or church shall remain the owner of the property during the period of time for which the conditional use is granted and any change of ownership away from the school board or church shall immediately cause the conditional use to terminate.
5. Automatic Termination Of Use: If the school board or church group determines that no future public or religious use will be made of the building as a public school or church, the conditional use as granted under this section shall immediately cease and the property shall thereafter be used only for uses permitted in the zoning district.
6. Temporary Use: The conditional use provided by this section shall be temporary only. The time of such use shall be subject to the decision of the planning commission based on its consideration of the criteria specified in subsection B7 of this section. The planning commission may authorize the conditional use for a period not to exceed five (5) years, which may be renewed for additional periods not in excess of five (5) years.
7. Termination For Excess Use: If the planning commission determines that the conditional use is being used substantially in excess of the plan for use submitted pursuant to subsection B2b of this section, the planning commission may, after an informal hearing, revoke the conditional use if it determines that the excess use is having a negative impact on the neighborhood. (Ord. 71-04 § 21, 2004: Ord. 73-02 § 8, 2002: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(18-17), 1995)

21A.36.180: ENVIRONMENTAL PERFORMANCE STANDARDS:

A. Purpose: The purpose of environmental performance standards is to help ensure that the activities and processes employed by any use protect the of the environment, and the use and enjoyment of nearby properties by limiting the emission of potentially harmful noise, vibration, air pollution, odor and other forms of environmental impacts.

B. Scope Of Regulation: Any use established in any district after April 12, 1995, shall be operated as to comply with applicable performance standards governing noise, vibration, air pollution, odors, fire and explosion hazards and toxic substances. No use already established on April 12, 1995, shall be altered, enlarged, expanded or modified as to conflict with the performance standards applicable to such uses.

C. Review By Other Agencies: In determining the compliance of any proposed use with applicable performance standards pursuant to this section, the zoning administrator may require an applicant for a zoning certificate to obtain review and comments upon the application as proposed from state and county agencies listed on the table below, or their successor agencies, as deemed necessary. See table of concurrent regulatory agencies below:

TABLE OF CURRENT REGULATORY AGENCIES

Environmental Category	Agency(ies)
Noise	Salt Lake Valley health regulation noise control
Air pollution	Salt Lake Valley health regulation air pollution control
	State of Utah division of air quality
Odors	Salt Lake Valley health regulation air pollution control
Toxic substances	Salt Lake Valley health regulations solid waste management facilities
	State of Utah division of solid and hazardous waste
Water pollution	State of Utah division of water quality
	State of Utah division of drinking water
Radiation hazards	State of Utah division of radiation control

(Ord. 1-06 § 30, 2005: Ord. 26-95 § 2(18-18), 1995)

21A.36.190: RESIDENTIAL BUILDING STANDARDS FOR LEGAL CONFORMING SINGLE-FAMILY DETACHED DWELLINGS, TWO-FAMILY DWELLINGS AND TWIN HOMES IN NONRESIDENTIAL ZONING DISTRICTS:

Any new single-family detached dwelling, two-family dwelling or twin home that is replacing a legal conforming single-family, two-family or twin home, in a nonresidential zoning district shall comply with the following standards:

A. Front Facade Controls: To maintain architectural harmony and primary orientation along the street, all buildings shall be required to include an entrance door, and such other features as windows, balconies, porches, and other such architectural features in the front facade of the building, totaling not less than ten percent (10%) of the front facade elevation area, excluding any area used for roof structures. For buildings constructed on a corner lot, only one front facade is required in either the front or corner side facade of the building.

B. Basement Structures: All dwellings must have at least one full story aboveground. Residential structures built into a hillside with less than all elevations exposed may be approved through the site plan review process.

C. Residential Building Foundation Standard: Each dwelling shall have poured concrete footings, the top of which must be placed below the applicable frost line. Except as otherwise authorized by the planning director and the chief building official in foothill districts, each dwelling shall have a site built concrete or masonry foundation/perimeter skirting constructed around the entire perimeter with interior supports as necessary to meet applicable building codes and adopted seismic loading requirements. The dwelling shall be permanently tied to the foundation system in accordance with applicable building codes and adequately weatherproofed.

D. Entrance Landing: At each exit door, there must be a concrete or wood landing that is a minimum of thirty six inches by thirty six inches (36" x 36"), constructed to meet the minimum requirements of the uniform building code with adequate foundation support and permanent attachment to the building.

E. Placement Of A Replacement Structure: Placement of a replacement structure on the existing lot should be consistent with the front yard setbacks of the existing residential structures on the street. Front yard setback must be in line with the average setback of the other principal buildings on the same block face, but not less than fifteen feet (15') from the front property line. For purposes of determining the average setback, steps under three feet (3') in height and eaves projecting three feet (3') or less may project into the required front yard.

F. Scale And Mass Of The Replacement Structure: The scale and mass of the replacement structure should be compatible with that of the existing adjacent residential structures and not exceed twenty five percent (25%) of the structure it is replacing. Replacement structures which exceed twenty five percent (25%) of the original footprint may be allowed as a conditional use subject to the provisions of chapter 21A.54 of this title. (Ord. 63-03 § 3, 2003)

21A.36.200: QUALIFYING PROVISIONS FOR AN URBAN FARM:

A. Accessory Buildings: Accessory buildings associated with urban farms are subject to the standards in chapter 21A.40, "Accessory Uses, Buildings And Structures", of this title and the requirements of the international building code. Structures, such as coops and pens, associated with the keeping and raising of animals, livestock, and poultry must meet the requirements of title 8, chapter 8.08, "Keeping Animals, Livestock And Poultry", of this code and are subject to the requirements of the adopted building code, when applicable.

B. Riparian Corridor: Urban farms proposed in a riparian corridor, as defined in section 21A.34.130 of this title, shall be subject to all rules and regulations therein.

C. Storage Requirements: All flammables, pesticides and fertilizers shall be stored in accordance with the regulations of the uniform fire code and Utah state department of agriculture or successor agency. At a minimum, any area where such materials are stored shall have a continuous concrete floor and lip which is tall enough to contain one hundred ten percent (110%) of the volume of all the materials stored in the area. No pesticides, chemical fertilizers or other hazardous materials shall be stored outside of buildings.

D. Disposal Requirements: All flammables, pesticides, fertilizers and other hazardous wastes should be disposed of according to federal and state requirements.

E. Large Vehicles: No vehicles in excess of five (5) tons shall be kept, stored or parked on the property, except that such vehicles may be on the property as necessary for completion of grading performed in accordance with a grading permit issued by the city building services division.

F. Hours Of Operation: All urban farm related uses shall operate only during daylight hours, except for irrigation.

G. Irrigation Systems: Sufficient irrigation shall be provided to cover all needs of the urban farm. Irrigation systems designed for water conservation such as, but not limited to, hand watering, and drip irrigation are strongly encouraged.

H. Delivery And Pick Up: In single-family and two-family zones, delivery and pick up of products is allowed provided pick up times are staggered so that only one patron is on site at a time.

I. Parking: Unless otherwise approved by the transportation division, parking for employees, and patrons of the urban farm shall be provided on site, at a rate of two (2) parking stalls per acre with a minimum of one ADA stall, unless within a single-family or two-family zoning district. All vehicular circulation, staging, and parking shall be on a hard surface.

J. On Site Sales And Events: Products produced or grown on urban farms may be donated or sold on site provided the following requirements are met:

1. The sales stand may not exceed one hundred fifty (150) square feet in size.
2. Signs are allowed as temporary portable signs subject to the regulations in section 21A.46.055 of this title. Signs must be removed immediately following the sale each day.
3. All necessary city business licenses shall be obtained prior to the sale.
4. Sales stands must be set back a minimum of ten feet (10') from the edge of pavement of a city street.
5. The sales stand shall be a nonpermanent structure, and must be removed immediately following the sale.
6. Perishable foods must be stored in a vermin proof area or container when the facility is closed.

K. Fencing: Fencing of urban farms shall comply with the standards in section 21A.40.120, "Regulation Of Fences, Walls And Hedges", of this title.

L. License: A business license is required for an urban farm. When the urban farm is accessory to a residential use, a home occupation license is required.

M. Demolition Of A Single-Family Dwelling: No more than one single-family dwelling may be demolished for an urban farm. Any proposed demolition is subject to all requirements in section 18.64.050, "Residential Demolition Provisions", of this code. (Ord. 21-11, 2011)

21A.36.210: QUALIFYING PROVISIONS FOR A COMMUNITY GARDEN:

A. Accessory Buildings: Accessory buildings associated with community gardens are subject to the standards in chapter 21A.40, "Accessory Uses, Buildings And Structures", of this title and the requirements of the international building code. Structures, such as coops and pens, associated with the keeping and raising of animals, livestock, and poultry must meet with the requirements of title 8, chapter 8.08, "Keeping Animals, Livestock And Poultry", of this code and are subject to the requirements of the adopted building code, when applicable.

B. Riparian Corridor: Community gardens proposed in a riparian corridor, as defined in section 21A.34.130 of this title shall be subject to all rules and regulations therein.

C. Disposal Requirements: All flammables, pesticides, fertilizers and other hazardous wastes should be disposed of according to federal and state requirements.

D. Hours Of Operation: Community gardens shall conform with title 9, chapter 9.28, "Noise Control", of this code and other applicable county health department regulations.

E. Large Vehicles: No vehicles in excess of five (5) tons shall be kept or stored on the property, except that such vehicles may be on the property as necessary for completion of grading performed in accordance with a grading permit issued by the city building services division.

F. Irrigation: Sufficient irrigation shall be provided to cover all needs of the community garden. Irrigation systems designed for water conservation such as, but not limited to, hand watering, and drip irrigation are strongly encouraged.

G. Parking: Unless otherwise required by the transportation division, community gardens shall be exempt from the off street parking requirements of chapter 21A.44, "Off Street Parking And Loading", of this title. All vehicular circulation, staging, and parking provided shall be on a hard surfaced area. Any on street parking is to comply with the existing roadway status.

H. On Site Sales And Events: Owners and producers associated with community gardens may conduct educational or promotional events, and sell locally grown products on site provided the following requirements are met:

1. The sale or event is directly linked to the community garden. No external events such as a reception or sales of products and goods not generally associated with a community garden are allowed, unless the event is otherwise allowed in the zone by the zoning ordinance.
2. Signs are allowed as temporary portable signs subject to the regulations in section 21A.46.055 of this title. Signs must be removed immediately following the sale or event each day.
3. All required city business licenses and permits shall be obtained prior to the sale or event.
4. Sales stands and exhibits are not allowed within the public right of way except in an area abutting a community garden.
5. The sales stand and exhibits shall be nonpermanent structures, and must be removed immediately following the sale or event.
6. Perishable foods must be stored in a vermin proof area or container when the facility is closed.

I. Fencing: Fencing of community gardens will comply with the standards in section 21A.40.120, "Regulation Of Fences, Walls And Hedges", of this title.

J. Demolition Of A Single-Family Dwelling: No more than one single-family dwelling may be demolished for a community garden. Any proposed demolition is subject to all requirements in section 18.64.050, "Residential Demolition Provisions", of this code. (Ord. 21-11, 2011)

21A.36.220: QUALIFYING PROVISIONS FOR A SEASONAL FARM STAND:

A. Duration: Business activity associated with a seasonal farm stand shall be of a temporary nature.

B. Right Of Way: No seasonal farm stand is allowed within the public right of way.

C. Third Party Location: No business activity shall take place on the premises of a third party without first receiving written permission from the property owner.

D. Parking: Unless approved by the transportation division, if the seasonal farm stand is located within an existing parking lot, it shall not remove or encroach upon required off street parking or loading areas for other uses on the site or impede access to parking or loading areas. All vehicular circulation, staging, and parking provided shall be on a hard surfaced area. Any on street parking shall comply with the existing roadway status.

E. Setback: Seasonal farm stands must be set back a minimum of ten feet (10') from the edge of pavement of a city street.

F. Size: A seasonal farm stand may not exceed one hundred (100) square feet in size.

G. Food Preparation: Food preparation is prohibited at farm stands.

H. Signs: Signs for a seasonal farm stand are allowed as temporary portable signs subject to the regulations in section 21A.46.055 of this title. Signs are not allowed to be placed more than fifty feet (50') from the stand location.

I. Sales: Food crops and/or nonfood, ornamental crops, such as flowers grown locally are allowed to be sold at a seasonal food stand. Prepackaged "shelf stable" foods produced in close proximity to the farm stand may be sold as well, provided they are fully labeled and produced in an approved health department or Utah state department of agriculture facility.

J. Animals: No live animals, birds, or fowl shall be kept or allowed within twenty feet (20') of any area where food is stored or held for sale. This requirement does not apply to guide dogs, signal dogs, or service dogs.

K. Garbage: All garbage and refuse shall be stored and disposed of in accordance with established health department standards.

L. Storage: Perishable foods must be stored in a vermin proof area or container when the facility is closed. (Ord. 21-11, 2011)

21A.36.230: QUALIFYING PROVISIONS FOR A SOLAR ARRAY:

A. Setbacks: A solar array shall meet all minimum setback requirements for the zone in which it is located. In no case shall a solar array be located less than six feet (6') from a property line or other structure.

B. Height: A solar array shall not exceed twenty feet (20') in height measured from established grade.

C. Landscape Buffer: No landscaped buffer yards shall be required on a site with a solar array as a principal use.

D. Code Compliance: Solar arrays are subject to review for compliance with all applicable international building and electrical code requirements by the Salt Lake City building services division.

E. Solar Easements: Solar easements are not a requirement for city approval; nonetheless, a property owner who has installed or intends to install a solar array may negotiate a solar easement with adjacent property owners to ensure perpetual sun on the property. Any easement agreed upon must be recorded by the county recorder.

F. Electrical Wires: All electrical wires associated with a solar array, shall be located underground except for wires connecting to the electrical distribution grid.

G. Nonmaintained Or Abandoned Arrays: The building official may require each nonmaintained or abandoned solar array to be removed from the premises when such a system has not been repaired or put into use by the owner, person having control or person receiving benefit of such structure within thirty (30) calendar days after notice of nonmaintenance or abandonment is given to the owner, person having control or person receiving the benefit of such structure. The city may require a performance bond or other means of financial assurance to guarantee removal of abandoned structures.

H. Utility Interconnection: No solar array shall be installed that does not meet the requirements of Rocky Mountain Power for an interconnected customer owned generator. Off grid systems shall be exempt from this requirement.

I. Off Street Parking And Loading: No additional parking is required for a solar array; however, a solar array may not replace or hinder existing required parking and loading. (Ord. 21-11, 2011)

21A.36.240: QUALIFYING PROVISIONS FOR A LARGE WIND ENERGY SYSTEM:

A. Total Height: The total height of the large wind energy system shall be limited to ninety meters (90 m) above existing grade or by FAA regulations, whichever dictates a lower height.

B. Minimum Lot Size: Two (2) acres.

C. Setbacks: A tower in a large wind energy system must be set back at least 1.25 times its total height from any property boundary, must be within the buildable area of the lot and at least 1.25 times its total height from any overhead utility power line.

D. Noise: Noise emitted from the large wind energy system shall not exceed maximum sound levels set forth in title 9, chapter 9.28, "Noise Control", of this code.

E. Blade Clearance: The vertical distance from existing grade to the tip of a wind generator blade when the blade is at its lowest point must be at least fifteen feet (15').

F. Electrical Wires: All electrical wires associated with a large wind energy system, other than wires necessary to connect the wind turbine to the tower wiring, the tower wiring to the disconnect junction box, and the grounding wires shall be located underground.

G. Lighting: Lighting of tower(s) and turbine(s) is prohibited except where required by the federal aviation administration.

H. Appearance, Color, And Finish: The wind turbine and tower shall remain painted or finished the color or finish that was originally applied by the manufacturer.

I. Signs: All signs are prohibited, other than the manufacturer's or installer's identification, appropriate warning signs, or owner identification on a wind turbine, tower, building, or other associated structure.

J. Utility Interconnection: No large wind energy system shall be installed that does not meet the requirements of local utility providers for an interconnected customer owned generator. Off grid systems shall be exempt from this requirement.

K. Nonmaintained Or Abandoned Facilities: The building official may require each nonmaintained or abandoned large wind energy system to be removed from the premises at the cost of the owner when such a system has not been repaired or put into use by the owner, person having control or person receiving benefit of such structure within thirty (30) calendar days after notice of nonmaintenance or abandonment is given to the owner, person having control or person receiving the benefit of such structure. The city may require a performance bond or other means of financial assurance to guarantee removal of abandoned structures.

L. Off Street Parking Or Loading Requirements: None. A large wind energy system shall not remove or encroach upon required parking or loading areas for other uses on the site or access to such parking or loading areas. (Ord. 21-11, 2011)

21A.36.300: ALCOHOL RELATED ESTABLISHMENTS:

A. Purpose Statement: The purpose of this section is to permit the establishment of taverns, social clubs, dining clubs, brewpubs, and microbreweries as defined in chapter 21A.62 of this title, subject to licensing procedures, and where appropriate, conditional use standards.

B. License Required: No tavern, social club, dining club, brewpub, or microbrewery shall be established, operated, or maintained within the city without a valid license issued by the Utah state division of licensing, and without a valid business license issued by the city.

C. Taverns, Social Clubs, Dining Clubs, Brewpubs, And Microbreweries; Authorized As Permitted Uses: Taverns, social clubs, brewpubs, dining clubs and microbreweries shall be permitted pursuant to subsection B of this section in zoning districts noted in the tables of permitted and conditional uses.

D. Taverns, Social Clubs, Dining Clubs, Brewpubs, And Microbreweries; Authorized As Conditional Uses: Taverns, social clubs, dining clubs, brewpubs, and microbreweries may be allowed as conditional uses pursuant to the provisions of chapter 21A.54 of this title, and pursuant to subsection B of this section in zoning districts noted in the tables of permitted and conditional uses provided the following standards are achieved:

1. In approving a conditional use permit for a tavern, social club, dining club, brewpub, or microbrewery, the planning commission shall:
   a. Require that a security and operations plan be prepared by the applicant and approved by the Salt Lake City police department and the building official, and filed with the city recorder's office, which shall include:
      (1) A complaint-response community relations program; and
      (2) A provision for a representative of the tavern, social club, dining club, brewpub, or microbrewery to meet with neighbors upon request in order to attempt to resolve any neighborhood complaints regarding the operations on the business premises;
      (3) Design and construction requirements to ensure that any sound level originating within the premises, measured within fifteen feet (15') from an exterior wall or door thereof, does not exceed the maximum permissible sound level set forth for the applicable zoning district in chapter 9.28 of this code;
      (4) A provision stating that live entertainment shall only be located within an enclosed building subject to the foregoing sound limit;
      (5) Prohibiting electronically amplified sound in any exterior portion of the premises;
      (6) Designation of a location for smoking tobacco outdoors in conformance with state law;
      (7) A provision stating that any trash strewn on the premises be collected and deposited in a trash receptacle by six o'clock (6:00) A.M. the following day, including any smoking and parking lot areas; and
      (8) A provision stating that portable trash receptacles on the premises be emptied daily and automated receptacles be emptied at least weekly. Automated receptacles shall be located only within a city approved trash storage area; and
      (9) A parking management plan which shall include consideration of the impact of parking on surrounding neighborhoods;
   b. Require a review and approval of the site and floor plan proposed for the premises by the Salt Lake City police department. Such review may require design features for the purpose of reducing alcohol related problems such as consumption by minors, driving under the influence, and public drunkenness;
   c. Require buffering where a tavern, social club, dining club, brewpub, or microbrewery abuts a residentially zoned parcel. Said buffering shall include vegetative landscaping or walls along any property line or within any required yard area on the lot where the premises are located;
   d. Require that landscaping be located, and be of a type, that cannot be used as a hiding place; and
   e. Require that the exterior of the premises be maintained free of graffiti, including the main building, any accessory buildings or structures, and all signs. Graffiti shall be removed from the exterior of the premises within forty eight (48) hours, weather permitting.
2. If necessary to meet the standards for approval of a conditional use set forth in section 21A.54.080 of this title, the following conditions may be imposed:
   a. Limit the size and kind of signage located on the outside of any building in conformance with chapter 21A.46 of this title;
   b. Require parking area lighting to produce a minimum foot-candle that provides safe lighting for pedestrians, but does not intrude on residents' enjoyment of their homes; and
   c. Consider the proposed location of an outdoor smoking area in the security and operations plan and the potential effect on neighboring residences, businesses, and buildings and designating a new area if the potential effects of the area in the security and operations plan appear to adversely affect neighboring residences, businesses, and buildings.

E. Minimum Area: In the CN and RB zoning districts, an alcohol related establishment shall only be allowed if such zoning district in which the alcohol related establishment is proposed is at least one-half ($^1/_2$) acre in contiguous area.

F. Concentration Prohibited: In the CN and RB zoning districts, not more than one alcohol related establishment as noted in the table of permitted and conditional uses shall be located within six hundred feet (600') of another alcohol related establishment as measured linearly without regard to intervening structures from the nearest point on the property line of one establishment to the nearest point on the property line of the second establishment. In CB zoning districts, not more than one social club, dining club, brewpub, or tavern shall be located within three hundred fifty feet (350') of another alcohol related establishment as measured linearly without regard to intervening structures from the nearest point of the property line of one establishment to the nearest point on the property line of the second establishment. (Ord. 65-12, 2012)

CHAPTER 21A.38
NONCONFORMING USES AND NONCOMPLYING STRUCTURES

21A.38.010: PURPOSE STATEMENT AND INTENT:

A. Purpose: The purpose of this chapter is to regulate the continued existence of:

1. Legal nonconforming principal and accessory uses, which do not conform to the use regulations of this title in the zoning districts in which such uses are located; and

2. Legally constructed noncomplying buildings, structures and property improvements, that do not comply with the applicable bulk and/or yard area regulations of this title in the zoning districts in which such buildings or structures are located.

B. Intent: The intent of this chapter is to allow continued use of legal nonconforming uses and noncomplying structures, while at the same time protecting existing conforming development and furthering orderly development and improvement of the community. Certain nonconformities are permissible as is their continued use so long as in their particular location they are not detrimental to the surrounding neighborhood.

1. Uses of nonconforming and noncomplying buildings, structures or land which are compatible and complement existing or planned development patterns, should be allowed to continue. Improvement for better integration into the surrounding neighborhood should be sought as much as possible.

2. Nonconforming and noncomplying situations which hinder the attainment of the city's master plan, create a nuisance, or are a hazard to a community or neighborhood, should be eliminated or brought into compliance with the provisions of this title. (Ord. 15-05 § 1, 2005)

21A.38.020: SCOPE OF REGULATIONS:

This chapter applies to nonconforming uses, noncomplying structures and noncomplying lots. (Ord. 15-05 § 1, 2005)

21A.38.030: DETERMINATION OF NONCONFORMING USE STATUS:

A. Burden Of Owner To Establish Legality Of Nonconforming Use: The burden of establishing that any nonconforming use lawfully exists under the provisions of this title shall, in all cases, be the owner's burden and not the city's. Building permits, business licenses and similar documentation may be considered as evidence establishing the legality of use.

B. Determination Of Nonconforming Status: The zoning administrator shall determine the nonconforming use or noncomplying structure status of properties pursuant to the provisions of this chapter. (Ord. 15-05 § 1, 2005)

21A.38.040: NONCONFORMING PARKING, SIGNS AND LANDSCAPING:

Nonconforming parking, signs and landscaping, as accessory uses, are regulated by the provisions set forth in chapters 21A.44, 21A.46 and 21A.48 of this title. (Ord. 15-05 § 1, 2005)

21A.38.050: AUTHORITY TO CONTINUE:

A. Continuation Of Nonconforming Use: A nonconforming use that lawfully occupies a structure or lot may be continued so long as it remains otherwise lawful, subject to the standards and limitations in this chapter.

B. Continuation Of Noncomplying Structure: A noncomplying structure that was legally constructed on the effective date of any amendment to this title, that makes the structure not comply with the applicable bulk regulations and/or with the standards for front yards, side yards, rear yards, buffer yards, lot area, lot coverage, height, floor area of structures, driveways or open space for the district in which the structure is located may be used and maintained, subject to the standards and limitations in this chapter. (Ord. 15-05 § 1, 2005)

21A.38.060: ORDINARY REPAIR AND MAINTENANCE AND STRUCTURAL SAFETY:

Normal maintenance and incidental repair may be performed on a complying structure which contains a nonconforming use or on a noncomplying structure. This section shall not be construed to authorize any violation of section 21A.38.080 or 21A.38.090 of this chapter. This section shall not prevent the strengthening or restoration to a safe condition of a structure in accordance with an order of the building official who declares a structure to be unsafe and orders its restoration to a safe condition. (Ord. 15-05 § 1, 2005)

21A.38.070: ABANDONMENT OR LOSS OF NONCONFORMING USE:

A. Abandonment Of Nonconforming Use: A nonconforming use of land or of a structure in a district that is discontinued or remains vacant for a continuous period of one year shall be presumed to be abandoned and shall not thereafter be reestablished or resumed. Any subsequent use or occupancy of the structure or site must conform with the regulations for the district in which it is located.

B. Rebuttal Of Presumption Of Abandonment: The presumption of abandonment may be rebutted upon a showing, to the satisfaction of the zoning administrator, that during such period the owner of the land or structure: 1) has been maintaining the land and structure in accordance with the building code and did not intend to discontinue the use, or 2) has been actively and continuously marketing the land or structure for sale or lease, with the use, or 3) has been engaged in other activities evidencing an intent not to abandon.

C. Calculation Of Period Of Discontinuance: Any period of such discontinuance caused by government actions, without any contributing fault by the nonconforming user, shall not be considered in calculating the length of discontinuance pursuant to subsection A of this section. (Ord. 15-05 § 1, 2005)

21A.38.080: MOVING, ENLARGING OR ALTERING NONCONFORMING USES OF LAND AND STRUCTURES:

No nonconforming use may be moved, enlarged or altered and no nonconforming use of land may occupy additional land, except as provided in this section.

A. Enlargement: A nonconforming use may not be enlarged, expanded or extended to occupy all or a part of another structure or site that it did not occupy on the effective date of any amendment to this title that makes the use nonconforming. A nonconforming use for the purposes of this section may be extended within the same structure or as an addition to the same structure, provided the enlargement does not increase the need for additional hard surface parking than is existing on the property.

1. Reoccupation Or Enlargement Of A Structure With A More Intensive Nonconforming Use: Whenever expansion of a nonconforming use exceeds fifty percent (50%) of the original use at the time the use became nonconforming; a nonconforming use expansion requires additional off street parking than existing on the site; or a nonconforming use changes to a more intensive nonconforming use, such expansions shall only be approved as a conditional use subject to the requirements of chapter 21A.54, "Conditional Uses", of this title and applicable specific conditional use standards and/or site and design review standards provided in this section:

a. Specific Conditional Use Standards: The planning commission may grant a conditional use permit for the enlargement of a structure containing a nonconforming use, provision of additional parking area for a nonconforming use or the reoccupation of a structure with a nonconforming use that is more intensive, excepting uses which are only permitted as a conditional use in the heavy manufacturing district (M-2) of this title located within any residential, mixed use, commercial or nonresidential zoning district, subject to consideration of the following standards:

(1) The condition and economic life of the building is such that near future demolition is not likely to occur;

(2) The use provides reuse of buildings with architectural or historic value;

(3) The use supports walk to work or live-work opportunities;

(4) The use provides an appropriate scale of neighborhood or community level of services;

(5) The enlargement will not create any additional noncompliance with zoning standards except for building modifications for life safety concerns;

(6) The enlargement and reuse of the structure would not substantially change the character of the neighborhood; and/or

(7) The use is not in conflict with any other current, local or state development standards (i.e., floodplain hazard protection, fault line hazards, ground water source protection, airport flight path protection, environmental performance standards, and hazardous waste prohibition).

b. Site And Design Review Standards: Whenever an expansion or intensification of a nonconforming use is located within residentially zoned property or abuts residentially zoned property the following site and design review standards shall be reviewed as part of the conditional use approval process:

(1) Building Orientation: The development shall orient to the street, not an interior courtyard or parking lot. The primary access shall be oriented to the pedestrian and have at least one operable building entrance that faces a public street. Residential uses shall meet the standards for subsections 21A.24.010H, "Side Entry Buildings", and 21A.24.010I, "Front Facade Controls", of this title;

(2) Facade: For nonresidential uses, street oriented facades shall maintain detailing and glass in sufficient quantities to facilitate pedestrian interest and interaction:

(A) Minimum First Floor Glass: The first floor elevation facing a street of all new building additions or buildings in which the property owner is modifying the size of windows on the front facade, shall not have less than forty percent (40%) glass surfaces. All first floor glass shall be nonreflective. Display windows that are three-dimensional and are at least two feet (2') deep are permitted and may be counted toward the forty percent (40%) glass requirement. Exceptions to this requirement may be authorized by the planning commission as part of the conditional use site and design review procedure, if the planning commission finds:

(i) The requirement would negatively impact the historic character of the building,

(ii) The requirement would negatively impact the structural stability of the building, or

(iii) The ground level of the building is occupied by residential uses, in which case the forty percent (40%) glass requirement may be reduced to twenty five percent (25%).

(B) Maximum Length: Architectural detailing shall emphasize the pedestrian level of the building. The maximum length of any blank wall uninterrupted by windows, doors, art or architectural detailing at the first floor level shall be fifteen feet (15');

(3) Parking Lots: Parking lots shall be appropriately screened and landscaped to minimize their impact on the neighborhood. Lightproof fencing is required adjacent to residential properties. Parking lot lighting shall be shielded to eliminate excessive glare or light into adjacent neighborhoods. The poles for parking lot lighting are limited to sixteen feet (16') in height from finished grade;

(4) Screening: Dumpsters and loading docks shall be appropriately screened or located within the structure. All building equipment and service areas, including on grade and roof mechanical equipment and transformers that are readily visible from the public right of way, shall be screened from public view. These elements shall be sited to minimize their visibility and impact, or enclosed as to appear to be an integral part of the architectural design of the building; and

(5) Signs: Signage for residential uses shall meet sign standards for subsection 21A.46.080B, "Sign Regulations For Multi-Family Residential Districts", of this title. Signage for nonresidential uses shall emphasize a pedestrian scale and shall meet the sign standards of subsection 21A.46.090A4, "Sign Type, Size And Height Standards For The CN Districts", of this title. Exceptions to this requirement may be authorized by the planning commission as part of the conditional use site and design review procedure, if the planning commission finds that maintaining the nonconforming sign does not negatively impact the neighborhood character.

c. Limitations On Development: Any conditional use authorized for the reoccupation or enlargement of a structure with a more intensive use shall be limited to the following criteria:

(1) No additional lot area may be added to the subject nonconforming property;

(2) No enlargement of a nonconforming principal structure shall involve the razing of more than fifty percent (50%) of the existing building footprint; and

(3) Any nonconforming property with an existing mix of residential and nonresidential uses with more than two (2) existing dwelling units shall provide for a mixed use development with no reduction in the number of dwelling units.

B. Exterior Or Interior Remodeling Or Improvements To Structure: Exterior or interior remodeling or improvements to a structure containing a nonconforming use shall be allowed provided the improvements do not increase the parking requirement.

C. Relocation Of Structure: A structure containing a nonconforming use may not be moved unless the use shall thereafter conform to the regulations of the zoning district into which the structure is moved.

D. Change Of Nonconforming Nonresidential Use To Another Nonconforming Use: Upon application to the zoning administrator, a nonconforming use may be changed to another nonconforming use of the same or similar land use type as defined in chapter 21A.62 of this title. Whenever any nonconforming nonresidential use is changed to a less intensive nonconforming nonresidential use, such use shall not be changed back to a more intensive nonconforming nonresidential use. For purposes of this section, a more intensive nonresidential use is determined when the existing hard surfaced parking available on site does not provide the required number of parking stalls. Whenever any nonconforming nonresidential use is changed to a conforming use, such use shall not later be changed to a nonconforming use.

E. Destruction Of Structure With Nonconforming Use: No structure containing a legal nonconforming use may be reconstructed for a nonconforming use, except in the manner provided in subsections E1 and E2 of this section or unless required by law. Restoration of a damaged or destroyed structure with a nonconforming use shall be started within one year and diligently pursued to completion. Any delay in starting such restoration that is caused by government actions and without contributing fault by the owner, may, upon application to and determination by the zoning administrator, be deducted in calculating the starting date of restoration.

1. Destruction Of Structure To The Extent Of Fifty Percent: If a structure that contains a legal nonconforming use is destroyed to the extent of fifty percent (50%) by fire or natural calamity, or is voluntarily razed, the nonconforming use may be resumed, and the structure restored. The determination of the extent of damage or destruction under this subsection shall be determined by the building official and based on the ratio of the estimated cost of restoring the structure to its condition before the damage or destruction to the estimated cost of duplicating the entire structure as it existed prior to the damage or destruction. The estimate shall be based on the current issue of "Building Standards" published by the International Conference of Building Officials.

2. Destruction Of Structure Greater Than Fifty Percent: If a structure that contains a legal nonconforming use is destroyed, greater than fifty percent (50%), by fire or natural calamity, the nonconforming use may be resumed, and the structure may be restored to accommodate the nonconforming use subject to subsections E2a and E2b of this section.

a. Nonconforming Residential Uses: The zoning administrator may authorize the reconstruction and reestablishment of a legal nonconforming residential structure subject to consideration of the following:

(1) Compliance with all other current, local or state development standards (e.g., floodplain hazard protection, fault line hazards, groundwater source protection, airport flight path protection, environmental performance standards, and hazardous waste prohibition); and/or

(2) The reconstruction will not increase the number of units.

b. Nonconforming Nonresidential Uses: The planning commission may authorize as a special exception the reconstruction and reestablishment of a legal nonconforming nonresidential use structure subject to consideration of the following:

(1) Reconstruction plans shall be reviewed to consider the feasibility of site redesign to better meet underlying zoning district standards without a reduction in type or intensity of use of the property;

(2) Compliance with all other current, local or state development standards (e.g., floodplain hazard protection, fault line hazards, groundwater source protection, airport flight path protection, environmental performance standards, and hazardous waste prohibition);

(3) The reconstruction and reuse of the structure would not change the character of the neighborhood by using construction materials which did not exist previously on the building. Other building materials should not be used, unless the materials are compatible with the neighborhood; and/or

(4) Consideration of the enforcement history of the property regarding any continual public nuisance generated by the nonconforming use activity. (Ord. 73-11, 2011: Ord. 14-06 § 1, 2006: Ord. 15-05 § 1, 2005)

21A.38.090: NONCOMPLYING STRUCTURES:

No noncomplying structure may be moved, enlarged or altered, except in the manner provided in this section or unless required by law.

A. Repair, Maintenance, Alterations And Enlargement: Any noncomplying structure may be repaired, maintained, altered or enlarged, except that no such repair, maintenance, alteration or enlargement shall either create any new noncompliance or increase the degree of the existing noncompliance of all or any part of such structure.

B. Moving: A noncomplying structure shall not be moved in whole or in part, for any distance whatsoever, to any other location on the same or any other lot unless the entire structure shall thereafter conform to the regulations of the zoning district in which it is located after being moved.

C. Damage Or Partial Destruction Of Noncomplying Structure:

1. Restoration: If a noncomplying structure is damaged or destroyed by fire or natural calamity, the structure may be restored, or, if a noncomplying structure is voluntarily razed to the extent of seventy five percent (75%), the structure may be restored if restoration is started within one year and diligently pursued to completion. Any delay in starting such restoration that is caused by government actions and without contributing fault by the owner, may, upon application to and determination by the zoning administrator, be deducted in calculating the starting date of restoration.

2. Destruction Of Noncomplying Structure With Nonconforming Use: No legal nonconforming structure containing a nonconforming use may be reconstructed, except in the manner provided in subsections C2a and C2b of this section or unless required by law. Restoration of a damaged or destroyed noncomplying structure with a nonconforming use shall be started within one year and diligently pursued to completion. Any delay in starting such restoration that is caused by government actions and without contributing fault by the owner, may, upon application to and determination by the zoning administrator, be deducted in calculating the starting date of restoration.

a. Destruction Of Structure To The Extent Of Fifty Percent: If a noncomplying structure that contains a nonconforming use is destroyed to the extent of fifty percent (50%) by fire or natural calamity, or is voluntarily razed or destroyed by other means, the nonconforming use may be resumed, and the structure restored. The determination of the extent of damage or destruction under this subsection shall be determined by the zoning administrator and based on the ratio of the estimated cost of restoring the structure to its condition before the damage or destruction to the estimated cost of duplicating the entire structure as it existed prior to the damage or destruction. The estimate shall be based on the current issue of "Building Standards" published by the International Conference Of Building Officials (ICBO).

b. Destruction Of Structure Greater Than Fifty Percent: If a noncomplying structure that contains a legal nonconforming use is destroyed, greater than fifty percent (50%), by fire or natural calamity, the nonconforming use may be resumed, and the structure may be restored to accommodate the nonconforming use subject to subsections C2b(1) and C2b(2) of this section.

(1) Nonconforming Residential Use: The zoning administrator may authorize the reconstruction and reestablishment of a legal noncomplying residential structure with a nonconforming residential use subject to consideration of the following:

(A) Compliance with all other current, local or state development standards (e.g., floodplain hazard protection, fault line hazards, groundwater source protection, airport flight path protection, environmental performance standards, and hazardous waste prohibition); and/or

(B) The reconstruction will not increase the number of units.

(2) Nonconforming Nonresidential Uses: The planning commission may authorize as a special exception the reconstruction and reestablishment of a legal noncomplying structure with a nonconforming nonresidential use subject to consideration of the following:

(A) Reconstruction plans shall be reviewed through the site plan review process to consider the feasibility of site redesign to better meet underlying zoning district standards without a reduction in type or intensity of use of the property;

(B) Compliance with all other current, local or state development standards (e.g., floodplain hazard protection, fault line hazards, groundwater source protection, airport flight path protection, environmental performance standards, and hazardous waste prohibition);

(C) The reconstruction and reuse of the structure would not change the character of the neighborhood by using construction materials which did not exist previously on the building. Other building materials should not be used, unless the materials are compatible with the neighborhood; and/or

(D) Consideration of the enforcement history of the property regarding any continual public nuisance generated by the nonconforming use activity. (Ord. 73-11, 2011: Ord. 14-06 § 1, 2006: Ord. 15-05 § 1, 2005)

21A.38.100: NONCOMPLYING LOTS:

A lot that is noncomplying as to lot area or lot frontage that was in legal existence on the effective date of any amendment to this title that makes the existing lot noncomplying shall be considered a legal complying lot. Legal complying lots in residential districts shall be approved for the development of a single-family dwelling regardless of the size of the lot subject to complying with all yard area requirements of the R-1/5,000 district. Legal complying lots in residential districts shall be approved for any permitted use or conditional use allowed in the zoning district, other than a single-family dwelling, subject to complying with all lot area and minimum yard requirements of the district in which the lot is located. Legal complying lots in nonresidential districts shall be approved for any permitted use or conditional use allowed in the zoning district subject to complying with all yard requirements of the district in which the lot is located. (Ord. 15-05 § 1, 2005)

21A.38.110: NONCONFORMING ACCESSORY USES AND NONCOMPLYING ACCESSORY STRUCTURES:

The continued existence of a nonconforming accessory use and a noncomplying accessory structure shall be subject to the provisions governing principal nonconforming uses and noncomplying structures set forth in sections 21A.38.080 and 21A.38.090 of this chapter. (Ord. 15-05 § 1, 2005)

21A.38.120: LEGAL CONFORMING SINGLE-FAMILY DETACHED DWELLINGS, TWO-FAMILY DWELLINGS, AND TWIN HOMES:

Any single-family detached dwelling, two-family dwelling, or twin home, except those located in M-1 and M-2 zoning districts, that is in legal existence shall be considered legal conforming.

Subject to complying with all other current, local or state development standards, legal conforming status shall authorize alterations, extensions/additions, and replacement of the single-family detached dwelling, two-family dwelling, or twin home.

In zoning districts other than M-1 and M-2, which do not allow detached single-family dwelling units, two-family dwelling units or twin homes, the replacement structure may exceed the original footprint of the existing structure by twenty five percent (25%) when the structure has been destroyed by fire, voluntary demolition or natural calamity. Replacement structures which exceed twenty five percent (25%) of the original footprint, or the replacement of a single-family detached dwelling, two-family dwelling or twin home in an M-1 or M-2 zoning district may be allowed as a conditional use subject to the provisions of chapter 21A.54 of this title.

The replacement structure shall not project into a required yard beyond any encroachment established by the structure being replaced. All replacement structures in nonresidential zones are subject to the provisions of section 21A.36.190, "Residential Building Standards For Legal Conforming Single-Family Detached Dwellings, Two-Family Dwellings And Twin Homes In Nonresidential Zoning Districts", of this title.

When replacing a legal conforming single-family detached dwelling, two-family dwelling or twin home, the number of new parking stalls provided shall be equal to or more than the number of parking stalls being replaced. (Ord. 15-05 § 1, 2005)

21A.38.130: RESERVED:

(Ord. 15-05 § 1, 2005)

21A.38.140: APPEAL:

Any person adversely affected by a final decision made by the zoning administrator determining the status of a nonconforming use or noncomplying structure may appeal the decision to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012)

21A.38.150: TERMINATION BY AMORTIZATION UPON DECISION OF APPEALS HEARING OFFICER:

The appeals hearing officer may require the termination of a nonconforming use, except billboards, under any plan providing a formula establishing a reasonable time period during which the owner can recover or amortize the amount of the owner's investment in the nonconforming use, if any, as determined by the zoning administrator. The appeals hearing officer may initiate a review for amortization of nonconforming uses upon a petition filed by the mayor or city council, in accordance with the following standards and procedures and consistent with the municipal land use, development, and management act, title 10, chapter 9a, of the Utah Code Annotated and shall mail written notice to the owner and occupant of the property:

A. Initiation Of Termination Procedure: Appeals hearing officer review of a use determined to be nonconforming pursuant to the provisions of this section, for the purpose of establishing an amortization plan for termination of the use, shall first require a report from the zoning administrator to the appeals hearing officer. The zoning administrator's report shall determine the nonconforming use, provide a history of the site and outline the standards for determining an amortization period.

B. Notice To Nonconforming User: Upon receipt of the report of the zoning administrator, recommending the establishment of an amortization plan for a nonconforming use, the appeals hearing officer shall mail the report and plan to the owner and occupant(s) of the nonconforming use, giving notice of the appeals hearing officer's intent to hold a hearing to consider the request in accordance with the standards and procedures set forth in chapter 21A.10 of this title.

C. Appeals Hearing Officer Review: The appeals hearing officer shall hold a noticed hearing within a reasonable time, following the procedures established in chapter 21A.10 of this title, on the request for amortization of the nonconforming use. Upon the conclusion of the hearing, the appeals hearing officer shall determine whether the nonconforming use should be amortized within a definite period of time.

D. Standards For Determining Amortization Period: The appeals hearing officer shall determine the appropriate amortization period upon the consideration of evidence presented by the zoning administrator and the owner of the nonconforming use that is sufficient to make findings regarding the following factors:

1. The general character of the area surrounding the nonconforming use;

2. The zoning classification and use(s) of nearby property;

3. The extent to which property values are adversely affected by the nonconforming use;

4. The owner's actual amount of investment in the property on the effective date of nonconformance, less any investment required by other applicable laws and regulations;

5. The amount of loss, if any, that would be suffered by the owner upon termination of the use; and

6. The extent to which the amortization period will further the public health, safety and welfare.

E. Appeal: Any person adversely affected by a final decision of the appeals hearing officer may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered. (Ord. 8-12, 2012)

21A.38.160: NONCONFORMITY OF TAVERNS, BREWPUBS, MICROBREWERIES OR SOCIAL CLUBS:

A legally existing brewpub, microbrewery, social club, or tavern license, as defined in title 6, chapter 6.08 of this code, shall not be deemed nonconforming for purposes of expansion, reconstruction or licensing (as long as the use is permitted in the base zoning district) if the only reason for such nonconformity is due to the subsequent location of a school, church or park within the spacing requirements as specified under city ordinances. (Ord. 64-12, 2012: Ord. 15-05 § 1, 2005)

CHAPTER 21A.40
ACCESSORY USES, BUILDINGS AND STRUCTURES

21A.40.010: PURPOSE STATEMENT:

This chapter is intended to provide general regulations, applicable to all zoning districts, for accessory uses, buildings and structures which are customarily incidental and subordinate to the principal use and which are located on the same lot. It is further intended to provide specific standards for certain accessory uses, buildings and structures. (Ord. 26-95 § 2(20-0), 1995)

21A.40.020: GENERAL AUTHORIZATION:

Except as otherwise expressly provided or limited in this chapter, accessory uses, buildings and structures, as defined in chapter 21A.62 of this title, are permitted in any zoning district in connection with any principal use lawfully existing within such district; provided, that such accessory uses and structures conform to all applicable requirements of this title. Any accessory use, building or structure may be approved in conjunction with the approval of the principal use. (Ord. 26-95 § 2(20-1), 1995)

21A.40.030: ZONING COMPLIANCE REQUIRED:

No accessory use, building or structure shall be established or constructed unless it complies with the zoning ordinance and proper building permits, if required, have been obtained. Accessory buildings associated with keeping animals, bees, livestock and poultry are not subject to this chapter or the building coverage limits of the respective zoning district but are subject to the provisions of title 8, "Animals", of this code. (Ord. 20-11, 2011)

21A.40.040: USE LIMITATIONS:

In addition to the applicable use limitations of the district regulations, no accessory use, building or structure shall be permitted unless it complies with the restrictions set forth below:

A. An accessory use, building or structure shall be incidental and subordinate to the principal use or structure in area, extent and purpose;

B. An accessory use, building or structure shall be under the same ownership or control as the principal use or structure, and shall be, except as otherwise expressly authorized by the provisions of this title, located on the same lot as the principal use or structure;

C. No accessory use, building or structure shall be established or constructed before the principal use is in operation or the structure is under construction in accordance with these regulations; and

D. No sign, except as expressly authorized by this chapter or by the provisions of chapter 21A.46 of this title, shall be maintained in connection with an accessory use or structure. (Ord. 26-95 § 2(20-3), 1995)

21A.40.050: GENERAL YARD, BULK AND HEIGHT LIMITATIONS:

All accessory buildings permitted by this chapter shall be subject to the following general requirements:

A. Location Of Accessory Buildings In Required Yards:

1. Front Yards: Accessory buildings are prohibited in any required front yard and shall be set back at least as far as the principal building when the principal building exceeds the required front yard setback. Notwithstanding the foregoing, hoop houses and cold frame structures up to twenty four inches (24") in height may be placed in a front yard.

2. Corner Lots: No accessory building on a corner lot shall be closer to the street than the distance required for corner side yards. At no time, however, shall an accessory building be closer than twenty feet (20') to a public sidewalk or public pedestrianway and the accessory building shall be set back at least as far as the principal building. Notwithstanding the foregoing, hoop houses and cold frame structures up to twenty four inches (24") in height may be placed in a corner side yard.

3. Side Yards: Accessory buildings are prohibited in any required interior side yard; however, hoop houses, greenhouses, and cold frame structures associated solely with growing food and/or plants are allowed in an interior side yard but no closer than one foot (1') to the corresponding lot line. If an addition to residential buildings results in an existing accessory building being located in a side yard, the existing accessory building shall be permitted to remain, subject to maintaining a four foot (4') separation from the side of the accessory building to the side of the residential building, as required in subsection A4b of this section.

4. Rear Yards: Location of accessory buildings in a rear yard shall be as follows:

a. In residential districts, no accessory building shall be closer than one foot (1') to a side or rear lot line except when sharing a common wall with an accessory building on an adjacent lot. In nonresidential districts, buildings may be built to side or rear lot lines in rear yards, provided the building complies with all applicable requirements of the adopted building code.

b. No portion of the accessory building shall be built closer than four feet (4') to any portion of the principal building; excluding cold frames associated solely with growing food and/or plants.

c. Garages on two (2) or more properties that are intended to provide accessory building use for the primary occupants of the properties, in which the garage is located, may be constructed in the rear yards, as a single structure subject to compliance with adopted building code regulations and the size limits for accessory buildings on each property as indicated herein.

5. Accessory Or Principal Lot: No portion of an accessory building on either an accessory or principal lot may be built closer than ten feet (10') to any portion of a principal residential building on an adjacent lot when that adjacent lot is in a residential zoning district; excluding hoop houses, greenhouses, and cold frames associated solely with growing food and/or plants.

B. Maximum Coverage:

1. Yard Coverage:

a. In residential districts, any portion of an accessory building, excluding hoop houses, greenhouses, and cold frames associated solely with growing food and/or plants, shall occupy not more than fifty percent (50%) of the total area located between the rear facade of the principal building and the rear lot line.

b. The combined coverage for all hoop houses, greenhouses, and cold frames shall not exceed ten percent (10%) when located on vacant lots or, when located on a lot with a principal building, shall not exceed fifteen percent (15%) of the total area located between the rear facade of the principal building and the rear lot line plus the side yard area between the front and rear facades of the principal building.

2. Building Coverage:

a. In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings, excluding hoop houses, greenhouses, and cold frames associated solely with growing food and/or plants, shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of seven hundred twenty (720) square feet for a single-family dwelling and one thousand (1,000) square feet for a two-family dwelling. The maximum footprint for a primary accessory structure within the SR-1A is limited to four hundred eighty (480) square feet with an additional one hundred twenty (120) square feet allowed for a secondary accessory structure. Notwithstanding the size of the footprint of the principal building, at least four hundred eighty (480) square feet of accessory building coverage shall be allowed subject to the compliance with subsection B1 of this section.

b. The combined coverage for all hoop houses, greenhouses, and cold frames shall not exceed thirty five percent (35%) of the building footprint of the principal structure.

C. Maximum Height Of Accessory Buildings/Structures:

1. Accessory To Residential Uses In The FP District, RMF Districts, RB, R-MU Districts, SNB And The RO District: The height of accessory buildings/structures in residential districts are measured from established grade and shall conform to the following:

a. The height of accessory buildings with flat roofs shall not exceed twelve feet (12');

b. The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured to the midpoint of the roof; and

c. Accessory buildings with greater building height may be approved as a special exception, pursuant to chapter 21A.52 of this title.

2. Accessory To Residential Uses In The FR, R-1 Districts, R-2 District And SR Districts: The height of accessory buildings/structures in the FR districts, R-1 districts, R-2 district and SR districts shall conform to the following:

a. The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); nine feet (9') measured from established grade in the SR-1A;

b. The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. In the SR-1A the height of accessory buildings with pitched roofs shall not exceed fourteen feet (14'); and

c. Accessory buildings with greater building height may be approved as a special exception, pursuant to chapter 21A.52 of this title, if the proposed accessory building is in keeping with other accessory buildings on the block face. (Ord. 82-12, 2012: Ord. 59-12, 2012: Ord. 51-11, 2011: Ord. 20-11, 2011)

21A.40.052: ACCESSORY USES ON ACCESSORY LOTS:

(Rep. by Ord. 61-11, 2011)

21A.40.060: DRIVE-THROUGH SERVICE WINDOW REGULATIONS:

Drive-through service windows may be authorized as accessory uses to permitted uses or conditional uses as listed on the tables of permitted and conditional uses set forth in part III of this title, specific district regulations for residential, commercial, manufacturing and downtown districts, when developed in accordance with the following standards:

A. Site Plan Required: A site plan shall be submitted and approved for all proposed accessory drive-through service windows in accordance with the procedures and requirements of chapter 21A.58 of this title.

B. Traffic Circulation Requirements:

1. Only one driveway providing vehicular access to and from the drive-through window or service area shall be provided from any local street, as defined in the city's major street plan;

2. The driveway providing access to the service windows shall be at least fifty feet (50') from the back of the curb of an intersecting street measured to the centerline of the proposed driveway;

3. The amount of stacking space for automobiles awaiting service shall be at least five (5) spaces on site per service window based on single line stacking; and

4. Internal traffic circulation patterns on the lot shall be adequate to keep traffic from backing into a street or blocking access to any required parking spaces located on the lot.

C. Noise Levels: Noise emitted from drive-through service windows and related features (such as remote ordering equipment at outdoor menu boards at fast food restaurants) shall not exceed the levels as established by the Salt Lake Valley health department. (Ord. 1-06 § 30, 2005: Ord. 35-99 §§ 58, 59, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(20-5), 1995)

21A.40.065: OUTDOOR DINING:

Outdoor dining, in conjunction with a licensed indoor restaurant, tavern, brewpub, microbrewery, social club, market, deli, and other retail sales establishment that sell food or drinks, is allowed within the buildable lot area, in all zoning districts where such uses are allowed, as either a permitted or conditional use.

Outdoor dining, in conjunction with a licensed indoor restaurant, tavern, brewpub, microbrewery, social club, market, deli, and other retail sales establishment that sell food or drinks, is allowed within the required landscaped yard or buffer area, in all commercial and manufacturing zoning districts where such uses are allowed, excepting the RB, CN, MU and R-MU zones, subject to the following conditions:

A. All requirements of chapter 21A.48 and section 21A.36.020 of this title are met.

B. All required business, health and other regulatory licenses for the adjoining indoor restaurant, tavern, brewpub, microbrewery, social clubs, market, deli, and other retail sales establishment that sell food or drinks, have been secured.

C. A detailed site plan demonstrating the following:

1. All the proposed outdoor dining activities will be conducted on private property owned or otherwise controlled by the applicant and that none of the activities will occur on any publicly owned rights of way unless separate approval for the use of any such public rights of way has been obtained from the city;

2. The location of any paving, landscaping, planters, fencing, canopies, umbrellas or other table covers or barriers surrounding the area;

3. The proposed outdoor dining will not impede pedestrian or vehicular traffic; and

4. The main entry has a control point as required by state liquor laws.

D. The proposed outdoor dining complies with all conditions pertaining to any existing variances, conditional uses or other approvals granted for property.

E. Live music will not be performed nor loudspeakers played in the outdoor dining area unless the decibel level is within conformance with the Salt Lake City noise control ordinance, title 9, chapter 9.28 of this code.

F. No additional parking is required unless the seating capacity is being increased by more than five hundred (500) square feet. Parking for outdoor dining areas in excess of five hundred (500) square feet is required at a ratio of three (3) stalls per one thousand (1,000) square feet of outdoor dining area. This requirement may be waived as a special exception, subject to chapter 21A.52 of this title, or if the outdoor dining is approved as part of a conditional use, chapter 21A.54 of this title. No additional parking is required in the D-1, D-2, D-3, D-4 or G-MU zone. (Ord. 64-12, 2012: Ord. 13-04 § 19, 2004: Ord. 12-01 § 1, 2001)

21A.40.070: MOTOR FUEL PUMP REGULATIONS:

When established pursuant to uses permitted or conditional within the applicable district regulations, all motor fuel pumps shall conform to the requirements below:

A. Location: No motor fuel pumps or islands shall be erected closer than twelve feet (12') to any lot line, required landscape yard, front or side yard or within any "sight distance triangle" as defined in chapter 21A.62 of this title.

B. Safety Curbs Required: All uses for which motor fuel pumps or islands shall be made a part, shall erect a safety curb around the perimeter of all paved areas. All such curbs shall be of approved construction. The curbs shall be located so that no vehicle overhangs any public right of way or adjoining property.

C. Gas Pumps At Convenience Food Stores: In addition to the requirements of subsections A and B of this section, the location of motor fuel pumps at convenience food stores shall be approved by the zoning administrator, where the location of such pumps satisfies the following criteria:

1. Pumps should be visible to the motorist on the street;

2. Pumps should be visible from the store;

3. Pumps should be located on the site in a manner which does not interfere with easy access into or egress from the site at established driveway entrances;

4. Pumps should be located and oriented so all cars in line for motor fuel can be accommodated on site and not block the sidewalk, the street, or any other portion of the public right of way;

5. Pumps should be so located to avoid conflict between cars going to motor fuel pumps and those going to parking spaces. On site circulation should be clearly marked and must reflect established design standards for moving aisles, parking dimensions, and turning radii;

6. Pump location, and vehicular access to and exit from pumps, should not conflict with established pedestrian or bicycle approaches to the store; and

7. Lighting shall be oriented so as not to cast direct light onto adjacent properties. (Ord. 26-95 § 2(20-6), 1995)

21A.40.080: ACCESSORY STORAGE OF FLAMMABLE LIQUIDS:

Storage of flammable liquids shall be permitted as accessory to a permitted or conditional use subject to the following conditions:

A. Storage facilities shall not be located in any required landscaped area;

B. Storage facilities shall not be located in a manner that will interfere with parking and vehicular circulation areas; and

C. The location and size of flammable liquid storage facilities shall be subject to Salt Lake City fire department approval. (Ord. 26-95 § 2(20-7), 1995)

21A.40.090: ANTENNA REGULATIONS:

All antennas shall comply with the following regulations and all other ordinances of the city and any pertinent regulations of the federal communications commission and the federal aviation administration:

A. TV Antennas: TV antennas shall be permitted in any zoning district, subject to the following restrictions:

1. In residential districts, one rooftop antenna shall be permitted per dwelling;

2. In nonresidential districts, more than one rooftop TV antenna shall be permitted per structure;

3. The maximum dimension, whether height, length or diameter, of any TV antenna shall not exceed ten feet (10'); and

4. Each TV antenna shall be located on that portion of a hip, gable or gambrel roof which does not face a public street. On flat roofs an antenna shall be located to minimize public view.

B. Satellite Dish Antennas: Satellite dish antennas shall be permitted in any zoning district, provided that they meet the criteria set forth below:

1. Residential Districts: No more than one satellite dish antenna may be installed per dwelling unit.

a. A ground mounted satellite dish antenna in residential districts shall not be larger than sixty six inches (66") in diameter and the maximum height of the dish and support structure shall not exceed eight feet (8').

b. Satellite dish antennas eighteen inches (18") or less in diameter shall be allowed on the roof.

2. Nonresidential Districts:

a. Roof, wall or ground mounted satellite dish antennas are permitted.

b. Rooftop antennas shall be screened. Ground mounted antennas shall be located in the rear yard or behind the building.

3. Nameplates Only: No satellite dish shall contain any sign or advertising material, except for an identification nameplate.

C. Communication Towers: Communication towers are permitted in certain nonresidential districts. Refer to the tables of permitted and conditional uses set forth in part III of this title for the applicable district regulations.

D. Amateur Radio Facilities With Surface Area Exceeding Ten Square Feet: Any antenna and antenna support having a combined surface area greater than ten (10) square feet or having any single dimension exceeding twelve feet (12') that is capable of transmitting as well as receiving signals and is licensed by the federal communications commission as an amateur radio facility shall be permitted as an accessory use, but only in compliance with the regulations set forth below:

1. Number Limited: No more than one such antenna or antenna support structure with a surface area greater than ten (10) square feet or any single dimension exceeding twelve feet (12') may be located on any lot.

2. Height Limited: No such antenna and its support structure shall, if ground mounted, exceed seventy five feet (75') in height or, if attached to a building pursuant to subsection D3 of this section, the height therein specified.

3. Attachment To Buildings Limited: No such antenna or its support structure shall be attached to a principal or accessory structure unless all of the following conditions are satisfied:

a. Height: The antenna and its support structure shall not extend more than twenty feet (20') above the highest point of the building on which it is mounted.

b. Mounting: The antenna and its support structure shall not be attached to or mounted upon any building appurtenance, such as a chimney. The antenna and its support structure shall not be mounted or attached to the front or corner side of any principal building facing a street, including any portion of the building roof facing any street. The antenna and its support structure shall be designed to withstand a wind force of eighty (80) miles per hour without the use of supporting guywires.

c. Grounding: The antenna and its support structure shall be bonded to a grounding rod.

d. Other Standards: The antenna and its support structure shall satisfy such other design and construction standards as the zoning administrator determines are necessary to ensure safe construction and maintenance of the antenna and its support structure.

e. Special Exception For Increased Height: Any person desiring to erect an amateur ("ham") radio antenna in excess of seventy five feet (75') shall file an application for a special exception with the zoning administrator pursuant to chapter 21A.52 of this title. In addition to the other application regulations, the application shall specify the details and dimensions of the proposed antenna and its supporting structures and shall further specify why the applicant contends that such a design and height are necessary to accommodate reasonably amateur radio communication. The zoning administrator shall approve the proposed design and height unless the zoning administrator finds that a different design and height which is less violative of the city's demonstrated health, safety or aesthetic considerations also accommodates reasonably amateur radio communication and, further, that the alternative design and height are the minimum practicable regulation necessary to accomplish the city's actual and demonstrated legitimate purposes. The burden of proving the acceptability of the alternative design shall be on the city.

E. Wireless Telecommunications Facilities; Low Power Radio Services Facilities: The purpose of this section is to address planning issues brought on by the rapid growth in demand for low power radio services. This section distinguishes low power radio from other broadcasting type telecommunication technologies and establishes provisions that deal with issues of demand, visual mitigation, noise, engineering, residential impacts, health, safety and facility siting. The requirements of this section apply to both commercial and private low power radio services. Low power radio services facilities include "cellular" or "PCS" (personal communications system) communications and paging systems.

1. Uses: The uses specified in table 21A.40.090E of this section, indicate which facility types are allowed as either a permitted or conditional use within specific zoning districts. Low power radio service facilities may be an accessory use, secondary use or principal use.

a. Administrative Consideration Of Conditional Uses: Applications for low power wireless telecommunication facilities that are listed as conditional uses shall be reviewed according to the procedures set forth in section 21A.54.155 of this title.

TABLE 21A.40.090E
WIRELESS TELECOMMUNICATIONS FACILITIES

			Monopole With Antennas And Antenna Support Structure Less Than 2 Feet Wide[3]		Monopole With Antennas And Antenna Support Structure Greater Than 2 Feet Wide[3]

EI	P	P	P	C	C	C	
MU	P	C					

Notes:
P Permitted use
C Conditional use
1. Allowed as a permitted use on a residential building consisting of 4 or more attached dwelling units and on nonresidential buildings. Zoning administrator approval is required to assure compliance to subsection E2a of this section.
2. New telecommunications towers are allowed outside the telecommunication corridor in the OS zone for public safety purposes only.
3. Collocation of a wireless telecommunication facility is allowed per subsection E4 of this section.

2. Facility Types: Low power radio services facilities are characterized by the type or location of the antenna structure. There are seven (7) general types of such antenna structures: wall mounted antennas; roof mounted antennas; monopoles with antennas and antenna support structure less than two feet (2') in width; monopoles with antennas and antenna support structure greater than two feet (2') in width; lattice towers; stealth antennas; and utility pole mounted antennas. Standards for the installation of each type of antenna are as follows:

a. Wall Mounted Antenna: The following provisions apply to wall mounted antennas:

(1) Wall mounted antennas shall not extend above the wall line of the building or extend more than four feet (4') horizontally from the face of the building.

(2) Antennas, equipment and the supporting structure shall be painted to match the color of the building or structure of the background against which they are most commonly seen. Antennas and the supporting structures on buildings should be architecturally compatible with the building. Whip antennas are not allowed on a wall mounted antenna structure.

(3) Antennas mounted directly on existing parapet walls, penthouses, or mechanical equipment rooms, with no portion of the antenna extending above the roofline of such structures, shall be considered a wall mounted antenna.

b. Roof Mounted Antenna: The following provisions apply to roof mounted antennas:

(1) Roof mounted antennas shall be allowed on top of existing penthouses or mechanical equipment rooms and shall not extend more than eight feet (8') above the existing roofline of the penthouse or mechanical equipment room.

(2) For antennas not mounted on a penthouse or mechanical equipment room, the antennas shall be mounted at least five feet (5') from the exterior wall of a building. For antennas mounted between five (5) and ten feet (10') from the exterior wall, the maximum height of a roof mounted antenna is directly proportional to the distance the antenna is set back from the exterior wall up to a maximum height of ten feet (10') above the roofline of the building to which the antenna is attached. Antennas shall be mounted at least five feet (5') behind any parapet wall. For antennas mounted between five (5) and ten feet (10') behind a parapet wall, the maximum height of the antenna is directly proportional to the distance the antenna is set back from the wall up to a maximum of ten feet (10') as measured from the top of the parapet wall. The antennas shall not extend more than fifteen feet (15') above the roofline of the building itself unless approved as a conditional use (see subsection 21A.62.050H of this title).

(3) Roof mounted antennas are permitted only on a flat roof.

c. Monopole With Antennas And Support Structure Less Than Two Feet In Width: The total of each individual antenna structure mounted on a monopole shall not exceed two feet (2') in width. The maximum height of each individual antenna shall not exceed ten feet (10') in height (see subsection 21A.62.050G of this title). In the case of collocation, when there is more than one antenna located on a monopole, all additional antenna structures shall not exceed the above referenced dimensions. No such antenna shall be located within one hundred sixty five feet (165') of a residential zone other than the R-MU district.

d. Monopole With Antennas And Antenna Support Structure Greater Than Two Feet In Width: The maximum visible width of individual antennas and antenna mounting structures on a monopole shall not exceed eight feet (8') in height or thirteen feet (13') in width as viewed looking directly at the monopole at same elevation as the antennas and antenna mounting structure (see subsection 21A.62.050F of this title). In the case of collocation, when there is more than one antenna located on a monopole, all additional antenna structures shall not individually exceed the above referenced dimensions. No such monopole shall be located within three hundred thirty feet (330') of a residential zone other than the R-MU district.

e. Lattice Tower: The maximum visible width of individual antennas and antenna mounting structures on a lattice tower shall not exceed eight feet (8') in height or thirteen feet (13') in width (see subsection 21A.62.050E of this title). No such lattice tower shall be located within three hundred thirty feet (330') of a residential zone.

f. Stealth Antennas:

(1) A telecommunication antenna completely disguised as another object or otherwise concealed from view thereby concealing the intended use and appearance of the facility, shall be allowed in all zoning districts subject to meeting the provisions contained in section 21A.36.020, tables 21A.36.020B and 21A.36.020C of this title. The antenna shall conform to the dimensions of the object it is being disguised as and the location of the stealth facility shall be in concert with its surrounding. Examples of stealth facilities include, but are not limited to, flagpoles, light pole standards or architectural elements such as dormers, steeples and chimneys. Final determination regarding stealth poles shall be made by the planning director based on these standards. The electrical equipment shall be located in accordance with subsection E3 of this section.

(2) Antennas Located Within Existing Structures Where There Is No Exterior Evidence Of The Antennas: Antennas located within an existing structure constructed prior to the effective date hereof shall be a permitted use in all zoning districts provided that:

(A) There shall not be any exterior evidence of the antenna or support structure.

(B) The electrical equipment structure shall be located within the existing structure with no exterior evidence of existence, or in compliance with the location requirements as noted in subsection E3 of this section.

g. Utility Pole Mounted Antenna: Antennas on utility poles and associated electrical equipment shall be allowed subject to the following standards:

(1) Antennas:

(A) The antennas shall be located either on an existing utility pole or on a replacement pole in the public right of way, or in a rear yard utility easement.

(B) On an existing pole, the antennas shall not extend more than ten feet (10') above the top of the pole.

(C) The antennas, including the mounting structure, shall not exceed thirty inches (30") in diameter to be considered a permitted use. Antennas with an outside diameter greater than thirty inches (30") shall be a conditional use.

(D) Antennas located in the public right of way shall be a permitted use and shall comply with the standards listed above.

(E) Conditional use approval is required for antennas located in a rear yard utility easement in all residential, CN neighborhood commercial, PL public lands, PL-2 public lands, CB community business, I institutional, and OS open space zoning districts. Antennas located in a rear yard utility easement in all other zoning districts shall be a permitted use and shall comply with the standards listed above.

(2) General Provisions:

(A) The application shall include the signature of the authorized agent of the owner of the utility pole.

(B) Antennas and equipment boxes on the utility poles shall be painted to match the pole to which it is attached to minimize visual impacts.

(C) Generators or noise producing venting systems shall not be used.

(D) Lighting for aircraft is prohibited except where required by federal law.

(E) Electrical and utility cables between the utility pole and electrical boxes shall be placed underground.

(F) Facilities in the public right of way shall be subject to any applicable franchise fees or lease agreements required by the city.

3. Electrical Equipment:

a. Electrical Equipment Located In The Public Right Of Way, Front Yard Or Side Yard: Electrical equipment in the public right of way shall either be attached directly to the utility pole or placed underground.

If the electrical equipment is attached to the pole, the boxes shall not be larger than thirty six inches (36") in height, twelve inches (12") deep and no wider than twenty inches (20"). No more than five (5) such boxes shall be mounted on the utility pole to which it is attached (excluding the power meter and network interface box). The boxes shall be stacked vertically, one above the other, and shall be at least ten feet (10') above the ground. The power meter and network interface box may be installed below the ten foot (10') level.

Electrical equipment in the required front or side yard shall be placed underground.

Electrical equipment placed underground or on a utility pole in the public right of way shall comply with the requirements of the Salt Lake City engineering and transportation divisions.

b. Electrical Equipment Located On Private Property: Electrical equipment shall be located in the rear yard, interior side yard, or within the buildable area on a given parcel. In the case of a parcel with an existing building, the electrical equipment shall not be located between the front and/or corner facades of the building and the street.

Electrical equipment located in a residential zoning district, shall not exceed a width of four feet (4'), a depth of three feet (3'), or a height of four feet (4') to be considered a permitted use.

Electrical equipment located in a CN, PL, PL-2, CB, I or OS zoning district shall not exceed a width of six feet (6'), a depth of three feet (3'), or a height of six feet (6') to be considered a permitted use.

Electrical equipment exceeding the dimensions listed above shall be reviewed administratively as a routine and uncontested special exception per chapter 21A.52 of this title.

Applications not receiving the consenting signatures of all property owners as required by chapter 21A.52 of this title shall be processed as a conditional use, pursuant to the standards set forth in this title.

The electrical equipment shall be subject to the maximum lot coverage requirements in the underlying zoning district.

4. Collocation: Collocation of a wireless telecommunication facility on a previously approved wireless telecommunication service facility such as an existing building, structure, or antenna support structure, is allowed as a permitted use, provided:

a. No increase in the height of the existing wireless telecommunication support structure is proposed;

b. All aspects of the collocation improvements must be located within the previously approved fenced (lease) area;

c. Compliance with the corresponding provisions set forth in this subsection E.

5. Height Limit: The height limit for monopoles and lattice towers shall be limited as per table 21A.40.090E of this section.

6. Location And Minimum Setbacks: Monopoles with antennas and antenna support structure less than two feet (2') in width, monopoles with antennas and antenna support structure greater than two feet (2') in width and lattice towers shall be allowed only in the rear yard area of any lot. These structures shall not be located in a required landscaped area, buffer area or required parking area.

7. Area Limitations For Wall And Roof Mounted Antennas: A combination of both roof and wall mounted antennas are allowed on a building. The total area for all wall and roof mounted antennas and supporting structures combined shall not exceed the lesser of sixty (60) square feet or five percent (5%) of the gross square footage of each exterior wall of a building. The total area is the sum of each individual antenna face and the visible portion of the supporting structure as viewed when looking directly at the face of the building. The total area for a roof mounted antenna shall apply to the closest exterior wall (see subsection 21A.62.050J of this title).

8. Roof And Wall Mounted Antennas On Noncomplying Buildings That Exceed The Maximum Height Limit Of The Zoning District: If a building exceeds the maximum allowable height of the zoning district, roof or wall mounted antennas may be attached to the portion of the building that extends above the maximum height limit of the zoning district, if said antenna is listed as a permitted use in table 21A.40.090E of this section.

9. Additional Conditional Use Requirements: In addition to conditional use standards outlined in chapter 21A.54 of this title, the following shall be considered by the planning commission:

a. Compatibility of the proposed structure with the height and mass of existing buildings and utility structures;

b. Whether collocation of the antenna on the other existing structures in the same vicinity such as other towers, buildings, water towers, utility poles, etc., is possible without significantly impacting antenna transmission or reception;

c. The location of the antenna in relation to existing vegetation, topography and buildings to obtain the best visual screening;

d. Whether the spacing between monopoles and lattice towers creates detrimental impacts to adjoining properties.

10. Accessory Buildings To Antenna Structures: Accessory buildings to antenna structures must comply with the required setback, height and landscaping requirements of the zoning district in which they are located. Monopoles shall be fenced with a six foot (6') chainlink fence and the climbing pegs removed from the lower twenty feet (20') of the monopole. All power lines on the lot leading to the accessory building and antenna structure shall be underground.

11. Historic District: Any antenna proposed for a location within a historic district or on landmark site is subject to approval through the historic landmarks commission as contained in chapter 21A.34 of this title.

12. Permission Required For Antennas And Mounting Structures On Or Over A Public Right Of Way: Antennas and mounting structures encroaching on or over the public sidewalk or on or over a public right of way shall be subject to obtaining permission from the city pursuant to the city's rights of way encroachment policy.

13. Location On City Owned Property Or Land Zoned As Open Space: Telecommunication facilities proposed to be located on city owned property or on any property located within an open space zoning district or subject to the city's open space lands program must obtain approvals from appropriate agencies governing such properties.

14. Nonmaintained Or Abandoned Facilities: The building official may require each nonmaintained or abandoned low power radio services antenna to be removed from the building or premises when such an antenna has not been repaired or put into use by the owner, person having control or person receiving benefit of such structure within thirty (30) calendar days after notice of nonmaintenance or abandonment is given to the owner, person having control or person receiving the benefit of such structure. (Ord. 55-11, 2011: Ord. 10-10 § 12, 2010: Ord. 73-02 §§ 9 (Exh. D) _ 11, 2002: Ord. 81-01 § 1, 2001: Ord. 11-01 § 1, 2001: Ord. 14-00 § 7, 2000: Ord. 3-00 § 1, 2000: Ord. 93-99 §§ 1 _ 4, 1999: Ord. 35-99 §§ 60 _ 62, 1999: amended during 5/96 supplement: Ord. 5-96 § 1, 1996: Ord. 26-95 § 2(20-8), 1995)

21A.40.100: RECYCLING CONTAINER REGULATIONS:

Recycling containers shall be permitted in any zoning district as accessory uses to permitted principal uses. They may be stored outdoors, in yard areas as specified below. The purpose of the following regulations is to promote recycling through increased convenience and ensure the neat appearance of recycling containers so that they do not impact aesthetic values of the community. Recycling containers located in single-family and two-family residential districts shall be subject to the accessory storage limits of subsection 21A.24.010R of this title.

A. Multi-Family Residential Districts: In multi-family residential districts, recycling containers shall be either located in an enclosed principal building, accessory building or the rear yard and shall be designed and operated to accommodate on site recycling only.

B. Nonresidential Districts: In nonresidential districts or for nonresidential uses in residential districts recycling containers may be located, designed and operated to accommodate the recycling activities of both on site and off site users.

C. Screening And Site Location:

1. Landscaping and screening of recycling containers shall be provided in a manner that improves their appearance without obscuring their visibility. Landscaping and screening requirements shall be established on a case by case basis as part of the site plan review process pursuant to chapter 21A.58 of this title. In districts where site plan review is not required, no landscaping or screening will be required.

2. Recycling containers shall not be located within any required landscape yard or landscape buffer.

D. Maximum Area Of Recycling Containers: As accessory uses/structures, the area of the lot used for recycling containers shall not exceed two thousand (2,000) square feet for nonresidential districts, one thousand (1,000) square feet for multi-family residential districts and one thousand (1,000) square feet for nonresidential uses in residential districts. Recycling containers comprising more than the maximum lot area shall be considered recycling collection stations, and will be subject to use limitations of the applicable district regulations.

E. Maximum Size Of Recycling Containers: The maximum size of a recycling container shall be four hundred (400) square feet in area, fifty feet (50') in length, six feet (6') in height, and eight feet (8') in width.

F. Maintenance: All recycling containers shall be maintained in a clean and safe condition and free of litter.

G. Advertising: Recycling containers shall not be used for advertising. The maximum sign area to be used for identification and instructions shall be ten (10) square feet.

H. Reverse Vending Machines: Reverse vending machines shall not be permitted in residential districts, except as accessory uses to nonresidential uses. (Ord. 26-95 § 2(20-9), 1995)

21A.40.110: AUTOMATIC AMUSEMENT DEVICES:

(Rep. by Ord. 73-11, 2011)

21A.40.120: REGULATION OF FENCES, WALLS AND HEDGES:

A. Purpose: Fences, walls and hedges serve properties by providing privacy and security, defining private space and enhancing the design of individual sites. Fences also affect the public by impacting the visual image of the streetscape and the overall character of neighborhoods. The purpose of these regulations is to achieve a balance between the private concerns for privacy and site design and the public concerns for enhancement of the community appearance, and to ensure the provision of adequate light, air and public safety.

B. Location: All fences, walls or hedges shall be erected entirely within the property lines of the property they are intended to serve.

C. Building Permit Required:

1. A no fee building permit shall be obtained prior to construction of any fence that does not exceed six feet (6') in height and is not made of concrete or masonry or does not require structural review under the international building code regulations. The permit is to ensure compliance with adopted regulations.

2. A building permit and fee are required for fences and walls which exceed six feet (6') in height and all fences or walls of any height that are constructed under the international building code. The permit is to ensure compliance with all zoning ordinance standards and requirements (location, height, types of materials) as well as to ensure the structural integrity of the pilasters and foundation system which will be verified by plan review and site inspection.

3. The application for a permit must include plans identifying the location and height of the proposed fence or wall. If the fence or wall is constructed of masonry or concrete of any height or exceeds six feet (6') in height, construction details showing horizontal and vertical reinforcement and foundation details shall be shown on the plans.

4. The building permit fee for a fence will be a general permit fee based on construction costs or valuation of the work.

5. Construction of any fence in the following districts shall also comply with the additional fencing regulations found in the following subsections of this title:

a. FP foothills protection district (21A.32.040I),

b. H historic preservation overlay district (21A.34.020E), and

c. Foothill residential FR-1, FR-2 and FR-3 districts (21A.24.010F).

D. Design Requirements:

1. Residential districts (chapter 21A.24, "Residential Districts", of this title):

a. Allowed Materials: Fences and walls shall be made of high quality, durable materials that require low maintenance. Acceptable materials for a fence include chainlink, wood, brick, masonry block, stone, tubular steel, wrought iron, vinyl, composite/recycled materials (hardy board) or other manufactured material or combination of materials commonly used for fencing.

b. Prohibited Materials: Fences and walls shall not be made of or contain:

(1) Scrap materials such as scrap lumber and scrap metal.

(2) Materials not typically used or designated/manufactured for fencing such as metal roofing panels, corrugated or sheet metal, tarps or plywood.

2. Nonresidential districts (chapters 21A.26 through 21A.34 of this title: commercial districts, manufacturing districts, downtown districts, gateway districts, special purpose districts and overlay districts):

a. Allowed Materials: Fences and walls shall be made of high quality, durable materials that require minimal maintenance. Acceptable materials for fencing in nonresidential districts include, but are not limited to, chainlink, prewoven chainlink with slats, wood, brick, tilt-up concrete, masonry block, stone, metal, composite/recycled materials or other manufactured materials or combination of materials commonly used for fencing.

b. Prohibited Materials: Fences or walls in nonresidential districts shall not be constructed of or contain:

(1) Scrap materials such as scrap lumber and scrap metal.

(2) Materials not typically used or designated/manufactured for fencing such as metal roofing panels, corrugated or sheet metal, tarps or plywood.

E. Height Restrictions:

1. Standard for residential zoning districts: No fence, wall or hedge shall be erected to a height in excess of four feet (4') between the front property line and the front facade of the principal structure.

2. Standards for all zoning districts:

a. Corner Lots; Sight Distance Triangle: No solid fence, wall or hedge shall be erected to a height in excess of three feet (3') if the fence, wall or hedge is located within the sight distance triangle extending thirty feet (30') of the intersection of the right of way lines on any corner lot as noted in section 21A.62.050, illustration I of this title.

b. Corner Side, Side, Rear Yards; Sight Distance Triangle: Fences, walls or hedges may be erected in any required corner side yard (extending to a point in line with the front facade of the principal structure), side yard or rear yard to a height not to exceed six feet (6'). The zoning administrator may require either increased fence setback or lower fence height along corner side yards to provide adequate line of sight for driveways and alleys.

c. Intersection Of Driveway Or Alley Within Public Way; Sight Distance Triangle: Solid fences, walls and hedges located near the intersection of a driveway or an alley within the public way shall not exceed thirty inches (30") in height within a ten foot (10') wide by ten foot (10') deep sight distance triangle as defined in section 21A.62.050, illustration I of this title.

d. Sight Distance Triangle And See Through Fences: Within the area defined as a sight distance triangle, see through fences that are at least fifty percent (50%) open shall be allowed to a height of four feet (4').

e. Alternative Design Solutions: To provide adequate line of sight for driveways and alleys, the zoning administrator, in consulting with the development review team, may require alternative design solutions, including, but not restricted to, requiring increased fence setback and/or lower fence height, to mitigate safety concerns created by the location of buildings, grade change or other preexisting conditions.

f. Measuring: Measuring the height of a fence shall be from the "finished grade" of the site as defined in section 21A.62.040 of this title.

g. Special Exception Approval Standards: The planning commission or historic landmark commission may approve taller fencing if it is found that the extra height is necessary for the security of the property in question as defined in chapter 21A.52 of this title.

F. General Requirements:

1. Except when constructed of materials that have been designed or manufactured to remain untreated, all fences or walls shall periodically be treated with paint or chemicals so as to retard deterioration.

2. Fences or walls shall be constructed with good workmanship and shall be secured to the ground or supporting area in a substantial manner and engineered so that the structure of columns or posts and the material used for the intervening panels are adequately constructed to support the materials and withstand wind loads.

3. All fences or walls (including entrance and exit gates) shall be maintained in good repair, free of graffiti, structurally sound, so as to not pose a threat to public health, safety, and welfare.

G. Exceptions: Pillars shall be allowed to extend up to eighteen inches (18") above the allowable height of a fence or wall; provided, that the pillars shall have a maximum diameter or width of no more than eighteen inches (18"); and provided, that the pillars shall have a minimum spacing of no less than six feet (6'), measured face to face.

H. Encroachments: Encroachments into the "sight distance triangle" for driveways as defined and illustrated in chapter 21A.62 of this title, may be approved by the zoning administrator. This regulation shall also apply to sight distance triangles for alleys.

I. Barbed Wire Fences:

1. Permitted Use: Barbed wire fencing is allowed as a permitted use in the AG, AG-2, AG-5, AG-20, A, CG, M-1, M-2 and D-2 districts.

2. Special Exception: Barbed wire fencing may be approved for nonresidential uses as a special exception pursuant to chapter 21A.52 of this title, in all zoning districts except for those listed above as permitted uses. The planning commission may approve as special exceptions, the placement of barbed wire fences, for security reasons, or for the keeping out of animals around nonresidential properties, transformer stations, microwave stations, construction sites or other similar publicly necessary or dangerous sites, provided the requested fence is not in any residential district and is not on or near the property line of a lot which is occupied as a place of residence.

3. Location Requirements: Barbed wire fencing shall not be allowed in required front yard setbacks nor along frontages on streets defined as gateway streets in Salt Lake City's adopted urban design element master plan.

4. Special Design Regulations: No strand of barbed wire shall be permitted less than six feet (6') high. No more than three (3) strands of barbed wire are permitted. The barbed wire strands shall not slant outward from the fence more than sixty degrees (60°) from a vertical line. No barbed wire strand shall project over public property. If the barbed wire proposed slants outward over adjoining private property the applicant must submit written consent from adjoining property owner agreeing to such a projection over the property line.

5. Special Exception Approval Standards: The planning commission may approve, as a special exception, the building permit for a barbed wire fence if it is found that the applicant has shown that the fence is reasonably necessary for security in that it protects people from dangerous sites and conditions such as transformer stations, microwave stations or construction sites.

J. Razor Wire Fences:

1. Special Exception: Razor wire fencing may be approved for nonresidential uses as a special exception pursuant to chapter 21A.52 of this title, in the A, CG, D-2, M-1 and M-2 zoning districts. The planning commission may approve as a special exception the placement of razor wire fences, for security reasons, around commercial or industrial uses, transformer stations, microwave stations, or other similar public necessity or dangerous sites; provided, that the requested fence is not on the property line of a lot which is occupied as a place of residence.

2. Location Requirements: Razor wire fencing shall not be allowed in required front or corner side yard setback.

3. Special Design Regulations: No strand of razor wire shall be permitted on a fence that is less than seven feet (7') high. Razor wire coils shall not exceed eighteen inches (18") in diameter and must slant inward from the fence to which the razor wire is being attached.

4. Special Exception Approval Standards: The planning commission may approve razor wire fencing if the commission finds that the applicant has shown that razor wire is necessary for the security of the property in question.

K. Exemption: The A airport district is exempt from all zoning ordinance fence regulations. The department of airports has administrative authority to regulate and approve fencing within the A airport district. All fencing that the department of airports requires of its clients within the A district is subject to review and approval by the airport.

L. Electric Security Fences:

1. Permitted Use: Electric security fences are allowed as a permitted use in the M-1 and M-2 zones. Electric security fences on parcels or lots that abut a residential zone are prohibited.

2. Special Exception: Electric security fences on parcels or lots adjacent to a commercial zone may be approved as a special exception pursuant to the requirements in chapter 21A.52 of this title.

3. Location Requirements: Electric security fences shall not be allowed in required front yard setbacks or on frontages adjacent to residentially zoned properties.

4. Compliance With Adopted Building Codes: Electric security fences shall be constructed or installed in conformance with all applicable construction codes.

5. Perimeter Fence Or Wall: No electric security fence shall be installed or used unless it is fully enclosed by a nonelectrical fence or wall that is not less than six feet (6') in height. There shall be at least one foot (1') of spacing between the electric security fence and the perimeter fence or wall.

6. Staging Area: All entries to a site shall have a buffer area that allows on site staging prior to passing the perimeter barrier. The site shall be large enough to accommodate a vehicle completely outside of the public right of way.

7. Height: Electric security fences shall have a maximum height of ten feet (10').

8. Warning Signs: Electric security fences shall be clearly identified with warning signs that read: "Warning-Electric Fence" at intervals of not greater than sixty feet (60'). Signs shall comply with requirements in chapter 21A.46, "Signs", of this title.

9. Security Box: Electric security fences shall have a small, wall mounted safe or box that holds building keys for police, firefighters and EMTs to retrieve in emergencies. (Ord. 82-12, 2012: Ord. 73-11, 2011: Ord. 60-11, 2011: Ord. 24-11, 2011)

21A.40.130: ACCESS FOR PERSONS WITH DISABILITIES:

Building permits for an uncovered vertical wheelchair lift, or for an uncovered access ramp, for persons with disabilities, under four feet (4') in height, or any other form of uncovered access, for persons with disabilities, under four feet (4') in height, that encroaches into required yard areas, may be approved by the zoning administrator as a permitted accessory structure. Covered ramps or other access structures for persons with disabilities that encroach into required yard areas, shall be approved, pursuant to chapter 21A.52 of this title. Application for a special exception for an access structure for persons with disabilities shall not require the payment of any application fees. (Ord. 20-06 § 1, 2006: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(20-12), 1995)

21A.40.140: JUNK VEHICLES AND MATERIALS:

It is unlawful for any property owner or tenant to cause or permit any unlicensed, inoperable, unused or abandoned vehicles or vehicle parts to be in or upon any premises unless the premises is licensed for such use. Open storage of the following materials shall also be prohibited in or upon any premises unless the premises is licensed for such use: junk, scrap metal, used or scrap lumber, wastepaper products, discarded building materials, machinery or machinery parts, interior household furniture, appliances, tree limbs and cuttings, landscape debris, garbage, refuse, trash, rubbish, hazardous waste, industrial waste, construction and demolition waste, sludge, liquid or semiliquid waste; other spent, useless, worthless or discarded materials, or materials stored or accumulated for the purpose of discarding materials that have served their original purpose. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(20-13), 1995)

21A.40.150: SEASONAL FARM STANDS:

Seasonal farm stands may be approved by the zoning administrator as a permitted accessory use in the AG-2, AG-5 and AG-20 districts during the spring and summer. Such use shall be limited to a period between April and October. Seasonal farm stand sales are limited to produce and products produced or grown on the premises. No accessory structure shall be displayed obstructing the "sight distance triangle" as defined in chapter 21A.62 of this title. (Ord. 14-00 § 9, 2000)

21A.40.160: GROUND MOUNTED UTILITY BOXES:

A. Compliance With Regulations Required: All ground mounted utility boxes shall be subject to the following regulations unless exempted within section 21A.02.050, "Applicability", of this title or where limited by other provisions of this title.

B. Definition: "Ground mounted utility boxes" shall mean such facilities, including pedestals, boxes, vaults, cabinets, meters or other ground mounted facilities and associated equipment used for the transmission or operation of underground public utilities.

C. Allowed Use: Ground mounted utility boxes proposed as follows, shall be allowed in all zoning districts:

1. Subterranean utility boxes located entirely on private property.

2. Utility boxes located entirely within an enclosed building or structure.

3. Ground mounted equipment required to serve a single commercial customer located behind minimum setback or within five feet (5') of a building.

4. Utility boxes for essential public uses such as traffic control boxes, installed by or with permission of Salt Lake City Corporation.

5. Ground mounted utility boxes located within the front line public utility easement or on private property within a private easement which is mutually acceptable to both the property owner and the utility. The equipment shall not be located within two feet (2') of the sidewalk.

D. Conditional Use: Conditional use review is required for all ground mounted utility boxes not specifically addressed in subsection C of this section. Applications shall be reviewed administratively by the planning director or an assigned designee subject to the following criteria:

1. Location: Utility boxes shall be located and designed to reduce its visual and environmental impacts on the surrounding properties.

2. Spacing: Utility boxes shall be spaced in such a manner as to limit the visual and environmental impact of the boxes on neighboring properties. The planning director may limit the number of boxes allowed on a specific site to meet this standard.

3. Setbacks: The planning director may modify the setback of the utility box to reduce the visual and environmental impact of the box when viewed from the street or an adjacent property. The setback variation will be a function of the site constraints, the size of the proposed box and the setbacks of adjacent properties and structures.

4. Screening: To the greatest extent possible, utility boxes shall be screened from view of adjacent properties and city rights of way. Utility boxes and their associated screening shall be integral to the design of the primary building on site and address crime prevention through environmental design (CPTED) principles by maintaining solid or opaque screening materials.

5. Design: Utility box design shall reflect the urban character and pedestrian orientation of the area where it is located.

6. View: The location shall not block views within sight distance angles of sidewalks, driveways and intersections, or hinder pedestrian or vehicular circulation on the site.

7. Certificate Of Appropriateness: Any ground mounted utility box located within an area subject to section 21A.34.020, "H Historic Preservation Overlay District", of this title shall require certificate of appropriateness review and approval with respect to location and screening materials. (Ord. 29-10, 2010)

21A.40.170: CREMATORIUMS:

Crematoriums may be approved where allowed by the applicable table(s) of permitted and conditional uses only when associated with a licensed funeral home, mortuary or dedicated animal cremation service. When reviewing the application for a crematorium, the planning commission or administrative hearing officer will consider the following factors for approval:

A. The crematorium shall emit no visible emissions or odor.

B. Noise emitted from the crematorium shall not exceed maximum sound levels set forth in title 9, chapter 9.28, "Noise Control", of this code.

C. All activity relating to the dead shall be handled discretely and screened from public view to the maximum extent possible, including delivery and storage of the remains.

D. The crematorium shall not be used for the disposal of any waste materials, including medical or industrial.

E. In the case of pet crematoriums, the use shall be for the preparation and cremation of pets only.

F. The crematorium shall receive all necessary approvals from applicable state and federal agencies.

G. The crematorium use shall be consistent with all adopted city ordinances and master plans.

H. The crematorium use shall be associated with a licensed funeral home for human cremation, or a dedicated animal cremation service for animal cremation.

I. A licensed funeral home or mortuary operating an approved crematorium may perform cremation services for other licensed funeral homes or mortuaries. (Ord. 19-10 § 2, 2010)

21A.40.180: SMALL WIND ENERGY SYSTEMS:

A. Standards: All small wind energy systems shall comply with the following requirements. If there is any conflict between the provisions of this section and any other requirements of the zoning, site development, and subdivision ordinances, the zoning administrator shall determine which requirements apply to the project in order to achieve the highest level of neighborhood compatibility.

1. Setback: The base of the tower shall be set back from all property lines, public rights of way, and public utility lines a distance equal to the total extended height plus five feet (5'). If the small wind energy system is on a roof, the total extended height is equal to the roof height and tower height. A tower may be allowed closer to a property line than its total extended height if the abutting property owner(s) grants written permission and the installation poses no interference with public utility lines or public road and rail rights of way. Guywires and other support devices shall be set back at least five feet (5') from all property lines.

2. Tower Height: Where the total extended height meets the sound and setback requirements of this section (see subsection A1 of this section), there shall be no specific height limitation, except as imposed by federal aviation administration (FAA) regulations per subsection A10 of this section.

3. Sound: Sound produced by the turbine under normal operating conditions, as measured at the property line of any adjacent property improved with a dwelling unit at the time of the issuance of the zoning certificate, shall not exceed fifty five (55) dBA for any period of time. The fifty five (55) dBA sound level may be exceeded during short term events out of the owner's control such as utility outages and/or severe windstorms.

4. Appearance, Color, And Finish: Colors permitted include grays, browns, greens, tans and other earth tones. Bright, luminescent, or neon colors are prohibited.

5. Clearance: The blade tip or vane of any small wind energy system shall have a minimum ground clearance of fifteen feet (15') as measured at the lowest point of the arc of the blades. Blades on small wind energy systems in residential districts shall not exceed twenty percent (20%) of tower height. All portions of the system shall maintain a clearance from power utility lines as required by the Utah high voltage line safety act.

6. Signage Prohibited: All signs on a wind generator, tower, building, or other structure associated with a small wind energy system visible from any public road, other than the manufacturer's or installer's identification, appropriate warning signs, or owner identification, shall be prohibited.

7. Lighting: No illumination of the turbine or tower shall be allowed unless required by the federal aviation administration (FAA).

8. Access: No foot pegs, rungs, or other climbing aids shall be allowed below twelve feet (12') on a freestanding tower. For lattice or guyed towers, sheets of metal or wood or similar barriers shall be fastened to the bottom tower section such that it cannot readily be climbed.

9. Requirement For Engineered Drawings: Building permit applications for small wind energy systems shall be accompanied by standard drawings of the wind turbine structure and stamped engineered drawings (by an engineer licensed by the state of Utah) of the tower, base, footings, and/or foundation as provided by the manufacturer.

10. Compliance With FAA Regulations: No small wind energy system shall be constructed, altered, or maintained so as to project above any of the imaginary airspace surfaces described in FAR part 77 of the FAA guidance on airspace protection or other current FAA regulations governing airspace protection.

11. Compliance With Building And Electrical Codes: Small wind energy systems and all associated components shall comply with all applicable building and electrical codes adopted by Salt Lake City and the state of Utah.

12. Utility Notification: No small wind energy system shall be installed until evidence has been submitted to the city that the relevant electric utility company has been informed of the customer's intent to install an interconnected customer owned generator. Off grid systems shall be exempt from this requirement.

13. Abandonment: If a wind turbine is inoperable for six (6) consecutive months the owner shall be notified by Salt Lake City that they must, within six (6) months of receiving the notice, restore their system to operating condition or remove the wind turbine from the tower. If the owner(s) fails to restore their system to operating condition within the six (6) month time frame, then the owner shall be required, at his expense, to remove the wind turbine from the tower for safety reasons.

14. Off Street Parking Or Loading Requirements: A small wind energy system shall not remove or encroach upon required parking or loading areas for other uses on the site or access to such parking or loading areas.

15. Exceptions: Small wind energy systems are prohibited in the open space OS and natural open space NOS zoning districts. (Ord. 20-11, 2011)

21A.40.190: SMALL SOLAR ENERGY COLLECTION SYSTEMS:

A. Standards: All small solar energy collection systems shall comply with the following requirements except as provided in subsection B of this section relating to small solar energy collection systems in the historic preservation overlay districts. Per section 21A.34.020 of this title the historic landmark commission or staff have authority to modify the setbacks, location and height to ensure compliance with the overlay district regulations. Excluding subsection B of this section, if there is any conflict between the provisions of this subsection and any other requirements of the zoning, site development, and subdivision ordinances, the zoning administrator shall determine which requirements apply to the project in order to achieve the highest level of neighborhood compatibility.

1. Setbacks, Location, And Height:

a. A small solar energy collection system shall be located a minimum of six feet (6') from all property lines and other structures, except the structure on which it is mounted.

b. A small solar energy collection system may be located on an accessory structure, including legal accessory structures located less than six feet (6') from a property line.

c. A small solar energy collection system shall not exceed by more than three feet (3') the maximum building height (based on the type of building - principal or accessory - the system is located on) permitted in the zoning district in which it is located or shall not extend more than twelve feet (12') above the roofline of the structure upon which it is mounted, whichever is less.

d. A development proposed to have a small solar energy collection system located on the roof or attached to a structure, or an application to establish a system on an existing structure, shall provide a structural certification as part of the building permit application.

2. Coverage: A small solar energy collection system mounted to the roof of a building shall not exceed ninety percent (90%) of the total roof area of the building upon which it is installed. A system constructed as a separate accessory structure on the ground shall count toward the total building and yard coverage limits for the lot on which it is located.

3. Code Compliance: Small solar energy collection systems shall comply with all applicable building and electrical codes contained in the international building code adopted by Salt Lake City.

4. Solar Easements: A property owner who has installed or intends to install a small solar energy collection system shall be responsible for negotiating with other property owners in the vicinity for any desired solar easement to protect solar access for the system and shall record the easement with the Salt Lake County recorder.

5. Off Street Parking And Loading Requirements: Small solar energy collection systems shall not remove or encroach upon required parking or loading areas for other uses on the site or access to such parking or loading areas.

B. Small Solar Collection Systems And Historic Preservation Overlay Districts Or Landmark Sites:

1. General: In addition to meeting the standards set forth in this section, all applications to install a small solar collection system within the historic preservation overlay district shall obtain a certificate of appropriateness prior to installation. Small solar collection systems shall be allowed in accordance with the location priorities detailed in subsection B3 of this section. If there is any conflict between the provisions of this subsection B, and any other requirements of this section, the provisions of this subsection B shall take precedence.

2. Installation Standards: The small solar energy collection system shall be installed in a location and manner on the building or lot that is least visible and obtrusive and in such a way that causes the least impact to the historic integrity and character of the historic building, structure, site or district while maintaining efficient operation of the solar device. The system must be installed in such a manner that it can be removed and not damage the historic building, structure, or site it is associated with.

3. Small Solar Collection System Location Priorities: In approving appropriate locations and manner of installation, consideration shall include the following locations in the priority order they are set forth below. The method of installation approved shall be the least visible from a public right of way, not including alleys, and most compatible with the character defining features of the historic building, structure, or site. Systems proposed for locations in subsections B3a through B3d of this section, which are not readily visible from a public right of way may be reviewed administratively as set forth in subsection 21A.34.020F1, "Administrative Decision", of this title. Systems proposed for locations in subsections B3e and B3f of this section, which may be visible from a public right of way shall be reviewed by the historic landmark commission in accordance with the procedures set forth in subsection 21A.34.020F2, "Historic Landmark Commission", of this title.

a. Rear yard in a location not readily visible from a public right of way.

b. On accessory buildings or structures in a location not readily visible from a public right of way.

c. In a side yard in a location not readily visible from a public right of way.

d. On the principal building in a location not readily visible from a public right of way.

e. On the principal building in a location that may be visible from a public right of way, but not on the structure's front facade.

f. On the front facade of the principal building in a location most compatible with the character defining features of the structure. (Ord. 20-11, 2011)

21A.40.200: ACCESSORY DWELLING UNITS:

Accessory dwelling units, as defined in chapter 21A.62 of this title, shall be subject to the following:

A. Purpose Statement: The purposes of the accessory dwelling unit provisions are to:

1. Create new housing units while respecting the look and scale of single-dwelling development;

2. Increase the housing stock of existing neighborhoods in a manner that is less intense than alternatives;

3. Allow more efficient use of existing housing stock, public infrastructure, and the embodied energy contained within existing structures;

4. Provide a mix of housing options that responds to changing family needs and smaller households;

5. Offer a means for residents, particularly seniors, single parents, and families with grown children, to remain in their homes and neighborhoods, and obtain extra income, security, companionship, and services;

6. Promote a broader range of affordable housing;

7. Provide opportunity for work force housing in developed and new neighborhoods, close to places of work, thus reducing greenhouse gas emissions and reducing fossil fuel consumption through less car commuting;

8. Support transit oriented development and reduce auto usage by increasing density near transit stops; and

9. Support the economic viability of historic properties and the city's historic preservation goals by allowing accessory residential uses in historic structures.

B. Applicability: An accessory dwelling unit may be incorporated within or added onto an existing house, garage, or other accessory structure, or may be built as a separate, detached structure on a lot where a single-family dwelling exists. Accessory dwelling units are allowed in the following residential zone districts: FR-1/43,560, FR-2/21,780, FR-3/12,000, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-1A, SR-2, SR-3, R-2, RMF-30, RMF-35, RMF-45, and RMF-75 subject to the provisions of this section.

C. Owner Occupant: For the purposes of this title, "owner occupant" shall mean the following:

1. An individual who:

a. Possesses, as shown by a recorded deed, fifty percent (50%) or more ownership in a dwelling unit; and

b. Occupies the dwelling unit with a bona fide intent to make it his or her primary residence; or

2. An individual who:

a. Is a trustor of a family trust which:

(1) Possesses fee title ownership to a dwelling unit;

(2) Was created for estate planning purposes by one or more trustors of the trust; and

b. Occupies the dwelling unit owned by the family trust with a bona fide intent to make it his or her primary residence. Each living trustor of the trust shall so occupy the dwelling unit except for a trustor who temporarily resides elsewhere due to a disability or infirmity. In such event, the dwelling unit shall nevertheless be the domicile of the trustor during the trustor's temporary absence.

3. Even if a person meets the requirements of subsection C1 or C2 of this section, such person shall not be deemed an owner occupant if the property on which the dwelling unit is located has more than one owner and all owners of the property do not occupy the dwelling unit with a bona fide intent to make the dwelling unit their primary residence.

a. A claim by the city that a person is not an owner occupant may be rebutted only by documentation, submitted to the community and economic development department, showing such person has a bona fide intent to make the dwelling unit his or her primary residence. Such intent shall be shown by:

(1) Documents for any loan presently applicable to the property where the dwelling unit is located which name the person as a borrower;

(2) Tax returns which show the person has claimed income, deductions, or depreciation from the property;

(3) Rental documents and agreements with any tenant who occupies the dwelling unit, including an accessory apartment;

(4) Insurance, utility, appraisal, or other contractual documents related to the property which name the person as the property owner; and

(5) Documents which show the person is a full time resident of Utah for Utah state income tax purposes.

b. Any person who fails, upon request of the community and economic development department, to provide any of the documents set forth in subsection C3a of this section or who provides a document showing that ownership of a dwelling unit is shared among persons who do not all occupy the dwelling unit shall mean for the purpose of this title that such person shall not be deemed an "owner occupant" of the dwelling unit in question.

4. The provisions of subsection C3 of this section shall apply to any person who began a period of owner occupancy after September 1, 2012, regardless of when the person purchased the property.

D. Standards: Accessory dwelling units shall conform to the following purpose statement and requirements:

1. Purpose: These design and development standards are intended to ensure that accessory dwelling units are:

a. Compatible with the desired character and livability of the residential zoning districts;

b. Compatible with the historic district and landmark resources of the city;

c. Compatible with the general building scales and placement of structures to allow sharing of common space on the lot, such as yards and driveways; and

d. Smaller in size than the principal dwelling on the site.

2. General Requirements:

a. Owner Occupant Requirement: Accessory dwelling units shall only be permitted when an owner occupant lives on the property within either the principal dwelling or accessory dwelling unit. Owner occupancy shall not be required when:

(1) The owner has a bona fide, temporary absence of three (3) years or less for activities such as military service, temporary job assignments, sabbaticals, or voluntary service (indefinite periods of absence from the dwelling shall not qualify for this exception); or

(2) The owner is placed in a hospital, nursing home, assisted living facility or other similar facility that provides regular medical care, excluding retirement living facilities or communities.

b. Deed Restriction: A lot approved for development with an accessory dwelling unit shall have a deed restriction, the form of which shall be approved by the city attorney, filed with the county recorder's office indicating such owner occupied requirement of the property prior to issuance of a final certificate of occupancy for the accessory dwelling unit by the city. Such deed restriction shall run with the land until the accessory dwelling unit is abandoned or revoked.

c. One Per Lot: One accessory dwelling unit is permitted per residential lot.

d. Underlying Zoning Applies: Unless specifically provided otherwise in this section, accessory dwelling units are subject to the regulations for a principal building of the underlying zoning district with regard to lot and bulk standards, such as building and wall height, setbacks, yard requirements, and building coverage.

(1) The requirements of section 21A.40.050 of this chapter, which govern all nonresidential accessory structures, do not apply to accessory dwelling units; and

(2) Accessory dwelling units may have the same building setbacks as that allowed in the zoning district for the principal dwelling on the property. An existing accessory structure whose setbacks do not meet the setback requirements for a dwelling as noted above may be converted into an accessory dwelling unit but any noncomplying setbacks may not become more noncomplying.

e. Existing Development On Lot: A single-family dwelling shall exist on the lot or will be constructed in conjunction with the accessory dwelling unit.

f. Internal, Attached, Or Detached: While accessory dwelling units are allowed only in conjunction with a principal dwelling on a lot, the unit may be built internal to, attached to, or as a separate unit detached from the principal dwelling.

g. Minimum Lot Area: Within permissible zoning districts, the minimum lot area required for an accessory dwelling unit shall be:

(1) Internal: For accessory dwelling units located within the principal single-family structure, no minimum lot area is required;

(2) Attached: For accessory dwelling units located within an addition to the single-family structure, no minimum lot area is required; or

(3) Detached: For accessory dwelling units located within a detached structure, a minimum lot area of five thousand (5,000) square feet is required.

h. Building Code Compliance: Accessory dwelling units are subject to compliance with current building code at time of permit approval.

i. Public Utilities: No structure that is not connected to the public water and sanitary sewer systems shall have an accessory dwelling unit.

j. Multi-Family Districts With Single-Family Dwelling On Lot: A lot located within a multi-family zoning district that is currently built out with a single-family detached dwelling and does not have the required minimum amount of land to add additional units pursuant to the multi-family zoning district requirement, one accessory dwelling unit may be permitted.

k. Not A Unit Of Density: Accessory dwelling units are not considered a unit of density and therefore are not included in the density calculation for residential property.

l. Rooming House: Neither dwelling unit may be used as a "rooming house" as defined by section 21A.62.040 of this title.

m. Home Occupations: Home occupations listed in subsection 21A.36.030B, "Permitted Home Occupations", of this title may be conducted in an accessory dwelling unit. Those home occupations listed in section 21A.36.030 of this title under "conditional home occupations" are explicitly not allowed in accessory dwelling units in order to maintain the residential nature of the dwelling unit.

n. Historic Preservation Overlay District: Accessory dwelling units located in an H historic preservation overlay district are subject to the applicable regulations and review processes of section 21A.34.020 of this title, including the related guidelines and standards as adopted by Salt Lake City to ensure compatible building and preservation of historic resources.

o. Fixed Transit Stop: The property on which an accessory dwelling unit is permitted shall be located in whole or in part within a one-half ($\frac{1}{2}$) mile radius of an operational fixed transit stop (i.e., commuter rail, light rail, streetcar, etc.).

p. Windows: In an accessory dwelling unit that does not comply with the setback regulations for a single-family dwelling, the placement of windows within the accessory dwelling unit shall not be allowed within ten feet (10') of a side yard or rear yard property line, except under the following conditions:

(1) Windows adjacent to a rear yard property line may be allowed within ten feet (10') of the rear yard property line if the rear yard abuts an alley, or

(2) Windows located within ten feet (10') of a property line may be allowed if the bottom of the windowsill is located at least six feet (6') above the corresponding floor plate.

3. Methods Of Creation: An accessory dwelling unit may only be created through one or more of the following methods:

a. Converting existing living area within a principal structure, such as a basement or attic space;

b. Adding floor area to a principal structure;

c. Constructing a new single-family detached dwelling unit structure with an internal or detached accessory dwelling unit;

d. Converting or adding onto an existing accessory structure on a lot, such as to a garage or other outbuilding, where no required parking for the principal dwelling is eliminated by the accessory dwelling unit; or

e. Constructing a new accessory dwelling unit within a separate detached structure in compliance with applicable lot coverage regulations.

4. Size Of Accessory Dwelling Unit: The maximum size of an accessory dwelling unit may be no more than fifty percent (50%) of the gross square footage of the principal dwelling unit or six hundred fifty (650) square feet whichever is less. The minimum size of an accessory dwelling unit is that size specified and required by the adopted building code of the city.

5. Ownership: An accessory dwelling unit shall not be sold separately or subdivided from the principal dwelling unit or lot.

6. Number Of Residents: The total number of residents that may reside in an accessory dwelling unit may not exceed the number that is allowed for a "family" as defined in section 21A.62.040, "Definitions Of Terms", of this title.

7. Parking:

a. An accessory dwelling unit that contains a studio or single bedroom, one additional on site parking space is required.

b. An accessory dwelling unit that contains two (2) or more bedrooms, two (2) additional on site parking spaces are required.

c. The city transportation director may approve a request to waive, or modify the dimensions of, the accessory dwelling unit parking space upon finding that the parking requirement for the principal dwelling is met, and

(1) Adequate on street parking in the immediate vicinity is available to serve the accessory dwelling unit and will not cause congestion in the area; or

(2) The accessory dwelling unit is located within one-fourth ($^1/_4$) mile of a fixed transit line or an arterial street with a designated bus route.

d. The city transportation director may allow tandem parking, within a legal location behind an existing on site parking space, to meet the accessory dwelling unit parking requirement so long as the parking space requirement is met for the principal dwelling.

8. Location Of Entrance To Accessory Dwelling Unit:

a. Internal Or Attached Units: Accessory dwelling units that are internal to or attached to a principal dwelling may take access from an existing entrance on a street-facing front facade of the principal dwelling. No new entrances may be added to the front facade of a principal dwelling for an accessory dwelling unit unless such access is located at least twenty feet (20') behind the front facade of the principal dwelling unit.

b. Detached Units: Accessory dwelling units that are detached from the principal dwelling:

(1) May utilize an existing street-facing front facade entrance as long as the entrance is located a minimum of twenty feet (20') behind the front facade of the principal dwelling, or install a new entrance to the existing or new detached structure for the purpose of serving the accessory dwelling unit as long as the entrance is facing the rear or side of lot.

(2) Shall be located no closer than thirty feet (30') from the front property line and shall take access from an alley when one is present and accessible.

c. Corner Lots: On corner lots, existing entrances on the street-facing sides may be used for an accessory dwelling unit, but any new entrance shall be located facing toward the rear property line or interior side yard, or toward the back of the principal dwelling.

d. H Historic Preservation Overlay District: When accessory dwelling units are proposed in an H historic preservation overlay district, the regulations and design guidelines governing these properties in section 21A.34.020 of this title shall take precedence over the location of entrance provisions above.

e. Side Entrance Exemption: Side entrance for an accessory dwelling unit shall not be subject to compliance with subsection 21A.24.010H, "Side Entry Buildings", of this title.

9. Exterior Design:

a. Within An H Historic Preservation Overlay District: Accessory dwelling units located within an H historic preservation overlay district shall meet the process, regulations, and applicable design guidelines in section 21A.34.020 of this title.

b. Outside H Historic Preservation Overlay District Or Historic Landmark Site: Accessory dwelling units shall be regulated by the following exterior design standards:

(1) The maximum height of a detached accessory dwelling unit shall not exceed the principal structure; and

(2) An accessory dwelling unit shall be designed and constructed to be compatible with the principal structure.

10. Registration: Accessory dwelling units shall be registered with the city to evaluate whether the accessory dwelling unit initially meets applicable requirements; to ensure that the accessory dwelling unit meets health and safety requirements; to ensure that the property owner is aware of all city regulations governing accessory dwelling units; to ensure that the distribution and location of accessory dwelling units is known, to assist the city in assessing housing supply and demand; and to fulfill the accessory dwelling units purpose statement listed above. To accomplish this, property owners seeking to establish an accessory dwelling unit shall comply with the following:

a. Building Permit: Apply for and obtain a building permit for the proposed accessory dwelling unit, regardless of method of creation;

b. Inspection: Ensure accessory dwelling unit is constructed, inspected, and approved in compliance with current building code; and

c. Business License: Apply for and obtain an annual business license for the accessory dwelling unit in accordance with the applicable provisions of the city.

11. Occupancy: No accessory dwelling unit shall be occupied until the property owner obtains a business license for the accessory dwelling unit from the city. (Ord. 62-12, 2012)

CHAPTER 21A.42
TEMPORARY USES

21A.42.010: PURPOSE STATEMENT:

This chapter is intended to provide general regulations, applicable in all zoning districts, for uses and structures which have only a seasonal or temporary duration, such as uses and structures associated with carnivals and fairs, the Christmas season, or the construction period of a real estate development. (Ord. 26-95 § 2(21-0), 1995)

21A.42.020: APPLICABILITY:

This chapter is intended to regulate all temporary uses conducted on private property. Temporary uses of vending carts shall only be allowed in zones where vending carts are allowed as a permitted use and only where the vending carts are associated with an outdoor sales event or special event. Art festivals, neighborhood fairs and other similar activities, authorized by other city regulations to operate on public property or within the public way, are not subject to the provisions of this chapter. (Ord. 23-02 § 2, 2002: Ord. 26-95 § 2(21-1), 1995)

21A.42.030: AUTHORITY:

The zoning administrator may authorize temporary uses as defined in chapter 21A.62 of this title, and as hereinafter specified in accordance with the following provisions. (Ord. 26-95 § 2(21-2), 1995)

21A.42.040: NO CONTENT BASED DISCRIMINATION:

In applying the provisions of this chapter, the zoning administrator shall not consider the content, except legally prohibited obscenity, of any activity which the applicant claims to be protected by the first amendment to the constitution of the United States or article I, section 15 of the constitution of Utah. Regulation of such constitutionally protected activities by the issuance of temporary use permits for temporary uses shall be limited to time, place and manner, restrictions necessary to protect the legitimate governmental purposes recognized by this title. (Ord. 62-09 § 13, 2009: Ord. 26-95 § 2(21-3), 1995)

21A.42.050: PROCESS FOR CONSTITUTIONALLY PROTECTED TEMPORARY USES:

A. Notification To City: If an applicant for a building permit for a temporary use claims that the activity is protected by the first amendment to the constitution of the United States or article I, section 15 of the constitution of Utah, and that the process specified in this chapter for considering the temporary use is insufficiently expeditious or unreasonably burdensome, the applicant shall notify the zoning administrator of the timetable which the applicant claims is necessary to process the application and any burdens which the applicant claims to be unreasonable.

B. Implementation Of Expedited Process: The zoning administrator shall consult with the city attorney and establish an expedited or otherwise modified process for considering the application in a manner and under such schedules as may be necessary to meet any constitutional requirements affording protection to the activity. (Ord. 62-09 § 12, 2009: Ord. 26-95 § 2(21-4), 1995)

21A.42.060: TEMPORARY USE PERMIT REQUIRED; SPECIAL STANDARDS FOR ISSUANCE AND REVOCATION:

A temporary use permit is required for temporary uses, in accordance with the following standards set forth below:

A. Application: An application shall be submitted to the zoning administrator. Every application for a temporary use shall include a site plan, traffic plan, including the date, time, location and anticipated attendance of a temporary event or use, anticipated access routes, ingress and egress for emergency vehicles, and available parking in the vicinity, and the application shall be submitted to the zoning administrator at least thirty (30) calendar days before the scheduled date that the temporary event or use is to take place unless the zoning administrator approves a shorter application deadline.

B. Fees: The application for a temporary use shall be accompanied by the fee shown on the Salt Lake City consolidated fee schedule.

C. Approval: A temporary use permit for a temporary use may be issued by the zoning administrator; provided, that the applicant meets all applicable requirements of this chapter and any other requirements deemed necessary by the zoning administrator to ensure that the temporary use will not have a detrimental impact upon other properties.

D. Basis For Permit Denial: A temporary use permit shall be denied if the zoning administrator determines that the public health, safety or welfare would be impaired, or if the applicant has not adequately addressed traffic and parking issues associated with the proposed use.

E. Conditional Permit: A temporary use permit for a temporary use may be conditioned upon such special requirements as the zoning administrator may determine are necessary to achieve the purposes of this title and to protect the public health, safety and welfare.

F. Revocation Of Permit: A temporary use permit shall be revoked by the zoning administrator pursuant to the procedures of section 21A.08.060 of this title, if any of the standards and conditions imposed pursuant to such permit, are violated.

G. Appeal: Any person adversely affected by a final decision of the zoning administrator may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012: Ord. 24-11, 2011)

21A.42.070: PERMITTED TEMPORARY USES:

Subject to the specific regulations and time limits and to the other applicable regulations of the zoning district in which the use is permitted, the following temporary uses shall be permitted in the zoning districts specified, upon a finding by the zoning administrator that the parcel upon which the temporary use will be located is adequate in size, that there are adequate parking provisions and traffic access, and that the applicant has agreed to comply with such other conditions as the zoning administrator deems necessary to ensure that the temporary use will not have any material detrimental impact upon other properties:

A. Outdoor Sales Of Plant Products During Spring And Summer: Outdoor sales of plant products during the spring and summer are permitted in the CN, CB, CS, CC, CSHBD, CG, D-2, M-1, M-2, and I districts. Such use shall be limited to a period between April and October. No tree or temporary structure shall be displayed obstructing the "sight distance triangle" as defined in chapter 21A.62 of this title.

B. Christmas Tree And Other Seasonal Item Sales: Christmas tree and other seasonal item sales are permitted in the CN, CB, CC, CS, CSHBD, CG, D-2, D-3, M-1, and M-2 districts. Such use shall be limited to a period not to exceed forty five (45) days, per calendar year. Display of Christmas trees need not comply with the yard requirements of this title. No tree shall be displayed obstructing the "sight distance triangle" as defined in chapter 21A.62 of this title.

C. Festivals, Bazaars, Outdoor Sale Events, Carnivals, Circuses And Other Special Events: Festivals, bazaars, outdoor sale events, carnivals, circuses and other special events are permitted in any commercial, manufacturing, institutional and downtown districts. Such use shall be limited to a period not to exceed fourteen (14) days. Such use need not comply with the yard requirements of this title except that structures or equipment that might block the view of operators of motor vehicles on any public or private street shall not be located within the "sight distance triangle" defined in chapter 21A.62 of this title. Such use need not comply with the maximum height requirements of this title. The concessionaire responsible for the operation of any such festival, bazaar, outdoor sale event, carnival or circus shall submit at least ten (10) calendar days in advance of the event date a site layout displaying adequate ingress and egress plan for emergency vehicles with no dead end aisles.

D. Farmers' Markets: Farmers' markets are permitted in all commercial districts, except the CN district and in all downtown districts. Such use shall be limited to the period from June through October. Such uses need not comply with the yard requirements of this title except that structures or equipment that might block the view of operators of motor vehicles on any public or private street and shall not be located within the "sight distance triangle" defined in chapter 21A.62 of this title. Such uses need not comply with the maximum height requirements of this title. The person responsible for the operation of any such farmers' market shall submit at least ten (10) calendar days in advance of the event date a site layout displaying adequate ingress and egress plan for emergency vehicles.

E. Movie/Film Locations: Movie/film locations are allowed in all zoning districts subject to the obtaining of a filming permit pursuant to title 3, chapter 3.50 of this code.

F. Tents: Tents smaller than two hundred (200) square feet and canopies smaller than four hundred (400) square feet, associated with a business that is legally licensed as a permanent business or a temporary business as outlined in this chapter, are permitted in all nonresidential districts. No tent shall be allowed to remain for a period of more than two (2) days longer than the period during which the use with which it is associated is allowed to remain, or a maximum of forty five (45) days, per calendar year. Tents larger than two hundred (200) square feet and canopies larger than four hundred (400) square feet, associated with a business that is legally licensed as a permanent business or a temporary business as outlined in this chapter, are permitted in all commercial, manufacturing, downtown and special purpose zoning districts. No tent shall be allowed to remain for a period of more than two (2) days longer than the period during which the use with which it is associated is allowed to remain, or a maximum of forty five (45) days, per calendar year.

The zoning administrator may approve tents or canopies in the commercial, manufacturing, downtown and special purpose zoning districts for a period not to exceed one hundred eighty (180) days, per calendar year, subject to the review and approval or denial of the development review team, if the tent or canopy also meets the parking requirements for the intended use and upon receiving a positive recommendation from the Salt Lake City transportation division, public utilities department, business licensing division, fire department, police department and historic landmark commission (when located within a historic district or on a landmark site).

Unless waived in writing by the zoning administrator, every tent shall comply with the bulk and yard requirements of the district in which it is located.

Tents smaller than two hundred (200) square feet and canopies smaller than four hundred (400) square feet are permitted in all residential districts, without a permit, for personal home use or homeowner hosted function, for a period of not more than fifteen (15) days per calendar year. Tents larger than two hundred (200) square feet and canopies larger than four hundred (400) square feet are permitted in all residential districts, with a fire department permit, for personal home use, for a period of not more than fifteen (15) days. For legal business uses located in a residential district, tents or canopies may be allowed for a period not to exceed forty five (45) days per calendar year, provided that the application for the tent or canopy also meets the parking requirements for the intended use and is supported by a positive recommendation from the Salt Lake City transportation division, public utilities department, business licensing division, fire department, and police department. In addition, when the tent or canopy is proposed to be located in a historic district or on a landmark site, the application must be accompanied by a certificate of appropriateness.

For purposes of this regulation, "canopies" are defined as a tent structure that is open on more than seventy five percent (75%) of its sides.

G. Construction Trailers And Temporary Contractor's Storage Yards: In conjunction with development during the construction period, trailers serving as contractor's offices and temporary on site storage yards for construction materials are permitted. Such facilities shall not be located in any required front yard on the site. When, due to site constraints, location outside of the required front yards is not feasible, the location of such facilities may be approved by the zoning administrator. Temporary construction facilities shall be removed upon the completion of construction.

H. Outdoor Sales Of Fireworks: Outdoor sales of fireworks are permitted in any commercial, manufacturing or the downtown D-2 district from temporary stands or trailers only subject to the requirements of title 18 of this code.

I. Relocatable Offices: Relocatable offices as defined in chapter 21A.62 of this title, are permitted in all zoning districts that permit offices subject to the requirements of title 18 of this code.

J. Bus Shelters, Kiosks And Other Temporary Buildings: Bus shelters, kiosks and other temporary buildings are permitted in all commercial, manufacturing and downtown districts. Such uses shall be limited to a period not to exceed six (6) months. Such facilities shall not be located in any required yard or any required parking area and sales from these facilities shall be prohibited.

K. Snow Cones And Shaved Ice Huts: Snow cone and shaved ice huts are permitted in the CB, CC, CN, CS, CG, CSHBD, M-1, M-2, D-1, D-2, D-3, D-4, G-MU, RP, BP, and MU zoning districts between the dates of May 15 and September 15 of each calendar year. Such facilities shall not be located in any required yard area or any required parking area. Their placement shall not interfere with pedestrian access to other businesses on the site. The building should be located to minimize any light or noise impacts on adjacent residential properties. The temporary buildings shall be limited to: 1) Snowie models: eight (8) or twelve foot (12') kiosk, or 2) Sno Shack models: Sno Shack building, Sno Shack 2000, Sno Shack concession, or 3) equivalent, as determined by the zoning administrator. Inflated signs, banners or other signage exceeding the regulations of the applicable zoning districts are specifically prohibited. (Ord. 28-06 § 1, 2006: Ord. 18-05 § 1, 2005: Ord. 3-04 § 1, 2004: Ord. 61-03 §§ 1, 2, 2003: Ord. 14-00 § 10, 2000: Ord. 35-99 § 65, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(21-6), 1995)

21A.42.080: BULK AND YARD REGULATIONS:

Except as expressly provided otherwise in section 21A.42.070 of this chapter, every temporary use shall comply with the bulk and yard requirements of the district in which the temporary use is located. (Ord. 26-95 § 2(21-7), 1995)

21A.42.090: USE LIMITATIONS:

A. General Limitations: Every temporary use shall comply with the use limitations applicable in the district in which it is located as well as with the limitations made applicable to specified temporary uses by section 21A.42.070 of this chapter.

B. Hours And Days Of Operation: No temporary use shall be operated during any hours or on any days of the week except as designated by the zoning administrator, in the temporary use permit required by section 21A.42.060 of this chapter, on the basis of the nature of the temporary use and the character of the adjacent and surrounding area.

C. Traffic: No temporary use shall be permitted if additional vehicular traffic reasonably expected to be generated by such temporary use would have undue detrimental effects on adjacent and surrounding streets and uses.

D. Sign Limitations: Temporary signs may be permitted in accordance with the procedures and requirements of chapter 21A.46 of this title.

E. Parking: Before approving any temporary use, the zoning administrator shall make an assessment of the total number of off street parking spaces that will be reasonably required in connection with the proposed temporary use, on the basis of the particular use, its intensity, and the availability of other parking facilities in the area. No temporary use shall be authorized that would, in the opinion of the zoning administrator, reduce the amount of required off street parking spaces available for a use in connection with permanent uses located on the same zoning lot. (Ord. 62-09 § 14, 2009)

CHAPTER 21A.44
OFF STREET PARKING AND LOADING

21A.44.010: PURPOSE AND SCOPE OF OFF STREET PARKING AND LOADING REQUIREMENTS:

A. Purpose Statement: The requirements of this chapter are intended to promote the orderly use of land and buildings by identifying minimum and maximum standards for accessory parking and loading facilities that will promote safe and convenient vehicular transportation and movement of goods. These requirements are also intended to help lessen traffic congestion and promote public health and welfare through a cleaner environment by reducing the number of vehicle trips. Encouraging nonmotorized transportation and relating parking requirements to the local land use/transportation system are consistent with the objectives of this chapter.

B. Scope Of Regulations: The off street parking and loading provisions of this title shall apply to all buildings and structures erected and all uses of land established after April 12, 1995.

C. Intensification Of Use: When the intensity of any building, structure or premises is increased through the addition of dwelling units, gross floor area, seating capacity, or other units of measurement specified herein for required parking, additional parking shall be provided in the amount by which the requirements for the intensified use exceed those for the existing use.

D. Change In Use: When the use of an existing building or structure is changed to a different type of use, parking shall be provided in the amount required for such new use. However, if an existing building or structure was established prior to the effective date hereof, any increase in required parking shall be limited to the amount by which the new use exceeds the existing use except in the downtown D-1, D-2 and D-3 districts where a change of use shall not require additional parking or loading facilities.

E. Existing Parking And Loading Facilities: If parking and loading facilities are below these requirements, they shall not be further reduced.

F. Voluntary Provision Of Additional Parking And Loading Facilities: The voluntary establishment of off street parking spaces or loading facilities in excess of the requirements of this title to serve any use shall be permitted; provided, that all regulations herein governing the location, design and operation of such facilities are satisfied. For single-family detached dwellings and uses in the downtown D-1 district voluntary additional off street parking spaces or loading facilities are permitted subject to the maximum limits specified in subsections 21A.44.040C1c through C1e of this chapter.

G. Damage Or Destruction: For any conforming or nonconforming use which is involuntarily damaged or destroyed by fire, collapse, explosion or other cause, and which is reconstructed, reestablished or repaired, off street parking or loading facilities in compliance with the requirements of this chapter need not be provided, except that parking or loading facilities equivalent to any maintained at the time of such damage or destruction shall be restored or continued in operation. It shall not be necessary to restore or maintain parking or loading facilities in excess of those required by this title for equivalent new uses or construction.

H. Submission Of A Site Plan: Any application for a building permit shall include a site plan, drawn to scale and fully dimensioned, showing any off street parking or loading facilities to be provided in compliance with this title.

I. Parking Lots With Noncomplying Setbacks: A parking lot existing prior to April 12, 1995, that is noncomplying with respect to landscaped setbacks, may be reconstructed, subject to the following requirements:

1. Compliance with subsection E of this section; and

2. Development shall be reviewed through the site plan review process to consider the feasibility of redesign of parking layout to provide required landscaped setbacks without a reduction in the number of existing parking stalls. (Ord. 60-08 § 2, 2008: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(22-1), 1995)

21A.44.020: GENERAL OFF STREET PARKING REQUIREMENTS:

A. Location Of Parking Spaces: All parking spaces required to serve buildings or uses erected or established after the effective date hereof shall be located on the same lot as the building or use served, except that off site parking spaces to serve nonresidential uses, and as accessory to permitted uses in residential districts, may be permitted in districts which designate off site parking spaces as permitted or conditional uses.

B. Access: All off street parking facilities shall be designed with appropriate means of vehicular access to a street or alley in a manner which will least interfere with traffic movement. Parking lots in excess of five (5) spaces shall be designed to allow vehicles to enter and exit the lot in a forward direction. All vehicular access roads/driveways shall be maintained as hard surface.

C. Utilization Of Required Parking Spaces: Except as otherwise provided in this section, required accessory off street parking facilities provided for uses listed in section 21A.44.060 of this chapter shall be solely for the parking of passenger automobiles of guests, patrons, occupants, or employees of such uses.

D. Parking For Persons With Disabilities: Any parking area to be used by the general public shall provide parking spaces designated and located to adequately accommodate persons with disabilities and these shall be clearly marked as such. Parking spaces for persons with disabilities shall be located in close proximity to the principal building. The designation of parking spaces for persons with disabilities shall constitute consent by the property owner to the enforcement of the restricted use of such spaces to motorists with disabilities by the city. Parking spaces for persons with disabilities shall conform to the standards of the Americans with disabilities act. The number of required parking spaces accessible to persons with disabilities shall be as follows:

Required Minimum Total In Parking Lot Spaces	Number Of Accessible Spaces
1 to 25	1
26 to 50	2
51 to 75	3
76 to 100	4
101 to 150	5
151 to 200	6
201 to 300	7
301 to 400	8
401 to 500	9
501 to 1,000	2 percent of total
1,001 and over	20, plus 1 for each 100 over 1,000

E. Off Street Parking Dimensions:

1. The dimensions for parking stalls and associated aisles are established by the transportation division and are set forth in table 21A.44.020 of this section.

2. The following modifications and additions to the dimensions set forth in table 21A.44.020 of this section shall apply:

a. Parking stalls located adjacent to walls or columns shall be one foot (1') wider to accommodate door opening clearance and vehicle maneuverability;

b. Requests for parking angles other than those shown on table 21A.44.020 of this section (including parking angles between 0 degrees and 45 degrees, and between 75 degrees and 90 degrees) may be approved by the city transportation engineer; and

c. If a public alley is used as a parking aisle for single-family dwellings, two-family dwellings or twin homes, additional space shall be required on the lot to provide the full width of aisle as required on table 21A.44.020 of this section. The parking design for all other uses shall not require backing into an alley or right of way.

TABLE 21A.44.020
OFF STREET PARKING DIMENSIONS

Parking Angle	Stall Width	Vehicle Projection	Aisle Width	Wall To Wall Module Width	Interlock Reduction	Overhang Allowance

OFFSTREET PARKING DIMENSIONS

F. Design And Maintenance: Parking lots shall be designed to ensure safe and easy ingress, egress and movement through the interior of the lot. The number of curb cuts onto major roads should be minimized. Shared access driveways between adjacent sites are encouraged. Parking lot islands should be provided on the interior of the parking lot to help direct traffic flow and to provide landscaped areas within such lots.

1. Design Elements: Parking lots shall be designed in accordance with applicable city codes, ordinances and guidelines with respect to:

   a. Minimum distances between curb cuts;

   b. Proximity of curb cuts to intersections;

   c. Provisions for shared driveways;

   d. Location, quantity and design of landscaped islands; and

   e. Design of parking lot interior circulation system.

2. Plan: The design of parking facilities shall be subject to the approval of the development review team and shall conform to the standards developed by the city transportation engineer.

3. Landscaping And Screening: Landscaping and screening shall be provided in accordance with the requirements of chapter 21A.48 of this title.

4. Lighting: Where a parking area or parking lot is illuminated, direct rays of light shall not shine into adjoining property or into a street.

5. Signs: Accessory signs shall be permitted on parking areas in accordance with the provisions specified in chapter 21A.46 of this title.

6. Parking Lot Surface: All open parking areas or lots shall be improved and maintained as hard surface.

7. Driveway Standards:

   a. Driveway Location: In nonresidential districts, the minimum distance between curb cuts shall be twelve feet (12'). In residential districts, driveways shall be six feet (6') from abutting property lines and ten feet (10') from street corner property lines.

   b. Driveway Widths: In front and corner side yards, driveway widths shall not exceed twenty two feet (22') in SR-1 and SR-3 residential districts. In all other districts, the driveways in front and corner side yards shall not exceed thirty feet (30') in width, unless a wider driveway is approved through the site plan review process.

   c. Shared Driveways: Shared driveways, where two (2) or more properties share one driveway access, may be permitted by the development review team.

   d. Circular Driveways: Circular driveways that connect to a driveway extending to a legal parking location shall be constructed of concrete, brick pavers, block or other hard surface material, other than asphalt. The circular driveway shall be situated such that the street front edge is situated parallel to the property line, shall be set back at least fifteen feet (15') from the property line, shall not be wider than twelve feet (12') in width, and shall not be used for overnight parking.

   e. Driveway Surface: All driveways providing access to parking areas or lots shall be improved and maintained as hard surface.

8. Pedestrian Access: All surface parking lots in excess of thirty (30) parking stalls shall provide a clear pedestrian pathway from the parking lot to the entry of the building or the public sidewalk.

9. Vehicle And Equipment Storage: In CG, M-1, M-2 and EI zoning districts, vehicle and equipment storage may be allowed without hard surfacing as a special exception provided:

   a. The lot is used for long term vehicle storage, not for regular parking and/or maneuvering.

   b. The vehicles stored are large and/or on tracks that could destroy normal hard surfacing.

   c. The parking surface is compacted with six inches (6") of road base and other semihard material with long lasting dust control chemical applied annually.

   d. A hard surfaced wash bay is installed to wash wheels to prevent tracking of mud and sand onto the public way.

   e. A minimum of fifty feet (50') paved driveway from the public street property line.

   f. City traffic engineer's approval.

G. Interpreting Calculation Of Fractional Parking Spaces: When determination of the number of off street parking spaces required by this title results in a requirement of a fractional space, any fraction of less than one-half ($^1/_2$) may be disregarded, while a fraction of one-half ($^1/_2$) or more, shall be counted as one parking space.

Parking space requirements based on the number of employees or users shall be based on the maximum number of employees or users on the premises at any one time.

H. Parking For Low Density Residential Districts: The following restrictions shall apply to single-family detached, single-family attached and two-family dwellings in the FP, FR-1/43,560, FR-2/21,700, FR-3/12,000, R-1/12,000, R-1/7,000, R-1/5,000, SR-1, SR-3 and R-2 districts:

1. Parking on driveways located between the front and corner side lot line and the building line shall not be allowed for satisfying the requirements of section 21A.44.060 of this chapter.

2. The provisions of parking spaces elsewhere on the lot shall conform to the other applicable requirements of this chapter. Requirements for garages shall be as specified in chapter 21A.40 of this title.

3. No parkway shall be used for parking.

4. A maximum of four (4) outdoor parking spaces shall be permitted per lot. Recreational vehicle parking, where permitted, shall be included in this maximum.

5. Parking on an adjacent lot shall be permitted as an accessory use for conforming residential uses, when the accessory lot abuts the principal lot, within FR-1, FR-2, FR-3, R-1/5,000, R-1/7,000, R-1/12,000, R-2, SR-1 and SR-3 zones, subject to the property owner combining the two (2) properties into a single parcel. The term "conforming residential uses", for the purpose of this section, does not include legal conforming two-family and twin homes, nor nonconforming uses.

I. Legalization Of Converted Garages And Associated Front Yard Parking In Residential Zoning Districts: The intent of this section is to facilitate the legalization of attached garages that have been converted to living space without building permits and without replacing parking in a legal location on the lot. Attached garages converted prior to April 12, 1995, including the associated front yard parking, may be legalized subject to obtaining a building permit for all building modifications associated with converting the garage to living space. The building services and licensing division shall inspect the conversion for substantial life safety compliance. Additional requirements include the following:

1. The driveway leading to the converted garage shall not be removed without replacing the same number of parking stalls in a location that is authorized by this title.

2. The driveway shall not be wider than the original garage unless a permit is issued to extend a driveway into the side or rear yard for additional parking. No other portion of the front yard may be used for parking.

3. Parking on the driveway in the front yard is restricted to passenger vehicles only.

J. Special Parking Provisions For The D-1, D-2 Or D-3 District:

1. Intent: The intent of this subsection is to establish short term parking requirements within the Main Street retail core area and to limit required parking increases resulting from a change in use.

2. Applicability: The regulations of subsections J3 and J4 of this section shall apply to parking structures or lots located within, or partially within, the Main Street retail core area, as defined in subsection 21A.30.020G2 of this title. These regulations shall also apply to parking structures or lots established to serve uses located wholly or partially within the area defined in subsection 21A.30.020G2 of this title. The regulations of this subsection shall apply to all uses in the downtown D-1, D-2 and D-3 districts.

3. Short Term Parking Requirements: That number of parking spaces required to serve retail goods or retail service establishments located within the Main Street retail core area shall be designated as short term parking spaces (i.e., for less than one day). These spaces shall be at the retail level (not necessarily the ground level) of a parking structure, or the spaces closest to the retail use shall be designated for short term parking.

4. Change Of Use: Any legally established use in the D-1, D-2 or D-3 district may be changed to any other legal use without providing any additional off street parking, provided that the change of use does not require any expansion to the existing principal structure greater than one thousand (1,000) square feet.

K. Recreational Vehicle Parking: The parking of recreational vehicles shall conform to the standards set forth below:

1. Standards:

a. Recreational vehicle parking spaces shall be in addition to, and not in lieu of, other required off street parking spaces.

b. Recreational vehicle parking is prohibited in the front yard.

c. Recreational vehicle parking is permitted in any enclosed structure conforming to building code and zoning requirements for the zoning district in which it is located.

d. Recreational vehicle parking in side or rear yards may be permitted subject to the following conditions:

(1) Recreational vehicle parking permitted for each residence shall be limited to one motor home or travel trailer and a total of two (2) recreational vehicles of any type;

(2) Recreational vehicles may be parked in the rear yard only on an adequate hard surfaced pad with access provided by either a hard surfaced driveway, hard surfaced drive strips or an access drive constructed of turf block materials with an irrigation system; and

(3) Recreational vehicle parking shall be allowed in side yards only if the rear yard cannot be reasonably accessed, and in a side yard other than the driveway side yard only if the driveway side yard cannot reasonably be used for such additional parking. The existence of a fence or other structure which is not part of a building shall not constitute a lack of rear yard access. Topographical factors, the existence of mature trees or the existence of properly permitted and constructed structures precluding rear yard parking is sufficient to establish a lack of rear yard access.

(4) Side yard parking shall only be permitted subject to the following conditions:

(A) The parking area for the recreational vehicle must be a hard surface of either concrete, asphalt, or turf block;

(B) The recreational vehicle parking space shall not interfere with access to other required parking for the structure;

(C) Access to the recreational vehicle parking from the existing driveway on the property shall have an access taper from the existing driveway and be hard surfaced;

(D) The access or transition area from the existing driveway to the recreational vehicle parking space shall not be used for any parking;

(E) The recreational vehicle parking space shall be screened from the front or street side at the setback line of the existing principal building with a six foot (6') high sightproof fence with a gate for access; and

(F) The recreational vehicle parking space shall be screened on the side yard with a six foot (6') high sightproof fence or equivalent vertical vegetation.

(5) No parked recreational vehicle shall be used for storage of goods, materials or equipment other than those which are reasonably and customarily associated with the recreational vehicle.

(6) All recreational vehicles must be stored in a safe and secure manner. Any tie downs, tarpaulins or ropes must be secured from flapping in windy conditions.

(7) Recreational vehicles shall not be occupied as a dwelling while parked on the property.

L. Off Site Parking Facilities: Off site parking facilities may, in districts where they are specifically allowed as permitted or conditional uses, be used to satisfy the requirements of this title for off street parking, subject to the following requirements:

1. The maximum distance between the proposed use and the closest point of the off site parking facility shall not exceed five hundred feet (500'). However, in the D-1 district, such distance shall not exceed one thousand two hundred feet (1,200').

2. Projects requiring off site, shared, and/or alternative parking in areas of the city where a UI zoning district abuts a D-1 district, the following apply:

a. For a project located within a UI district, the area available for off site, shared, and/or alternative parking shall not exceed five hundred feet (500') within the UI district unless the D-1 district is located within one thousand two hundred feet (1,200'), in which case the area available for off site, shared, and/or alternative parking may extend up to one thousand two hundred feet (1,200') from the project in the direction of the D-1 district;

b. For a project located within a D-1 district, the area available for off site, shared, and/or alternative parking shall not exceed one thousand two hundred feet (1,200'); however, if the UI district is located within one thousand two hundred feet (1,200'), the area available for off site, shared, and/or alternative parking shall not extend into the UI district more than five hundred feet (500');

c. The maximum distance between the proposed use and the off site, shared, and/or alternative parking shall be measured radially from the closest property line of the proposed use to the closest property line of the off site, shared, and/or alternative parking;

d. Parking stalls shall not be counted more than once in off site, shared, and/or alternative parking plans for different facilities, except where different plans comply with off site, shared, and/or alternative parking regulations due to hours of operation, days of usage, or other reasons.

3. Off site parking to support uses in the CB, CN, RB, SNB, MU, R-MU, R-MU-35 and R-MU-45 zones need not comply with the maximum five hundred foot (500') distance limitation, provided the applicant can demonstrate that a viable plan to transport patrons or employees has been developed.

4. Off site parking facilities shall be under the same ownership or leasehold interest as the lot occupied by the building or use to which the parking facilities are accessory. Private possession of off street parking facilities may be either by deed or by long term lease. The deed or lease shall require the owner and/or heirs, successors or assigns to maintain the required number of parking facilities for the duration of five (5) years' minimum contractual relationship. The city shall be notified when the contract is terminated. If for any reason the lease is terminated during the five (5) year minimum contractual period, the lessee shall either replace the parking being lost through the terminated lease, or obtain approval for alternative parking requirements, section 21A.44.030 of this chapter. Pursuant to obtaining a building permit or conditional use permit, documentation of the off site parking facility shall be recorded against both the principal use property and the property to be used for off site parking.

M. Parking Exemptions For Pedestrian Friendly Development:

1. In the CB, CN, RB, SNB, MU, R-MU, R-MU-35 and R-MU-45 zoning districts, businesses may be granted a partial exemption from off street parking requirements if they satisfy the criteria set forth below.

2. For any business that has pedestrian friendly amenities, such as bike racks, baby buggy parking areas, benches or other similar pedestrian oriented amenities, which are located within one hundred feet (100') of the entrance to the business, either on public or private property, the first two thousand five hundred (2,500) square feet of the building area shall be excluded from parking calculations and exempt from parking requirements. Any such pedestrian oriented amenities must be permanently affixed to the property and shall be installed and maintained at the property owner or business owner's expense. Any pedestrian oriented amenities to be located on public property may only be installed pursuant to authorization granted by appropriate city officials, and upon proof of adequate insurance coverage to protect the city from liability.

3. For any business which meets the criteria set forth in subsection M2 of this section, and which also has time limited on street parking of two (2) hours or less ending at six o'clock (6:00) P.M. located within the commercially zoned area and within one hundred feet (100') of the entrance to the business, the first three thousand five hundred (3,500) square feet of the building area shall be excluded from parking calculations and exempt from parking requirements. Any request to change unlimited on street parking to time limited on street parking must be reviewed and approved by appropriate city officials.

4. For any business which meets the criteria set forth in subsection M2 of this section and which also has angular parking spaces which provide traffic calming and provide shorter unprotected crossing distances by narrowing the roadway, and which parking spaces are located within the commercially zoned area and within one hundred feet (100') of the entrance to the business, the first three thousand five hundred (3,500) square feet of building area shall be excluded from parking calculations and exempt from parking requirements. Any request to create angular on street parking spaces where such parking does not now exist, must be reviewed and approved by appropriate city officials.

5. For any business which meets the criteria set forth in subsections M2, M3 and M4 of this section, the first five thousand (5,000) square feet of building area shall be excluded from parking calculations and exempt from parking requirements. (Ord. 59-12, 2012: Ord. 73-11, 2011: Ord. 62-09 § 16, 2009: Ord. 60-08 §§ 3, 4, 2008: Ord. 20-06 § 1, 2006: Ord. 3-05 § 11, 2005: Ord. 35-99 §§ 66 - nbsp;70, 1999: Ord. 30-98 § 6, 1998: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(22-2), 1995)

21A.44.030: ALTERNATIVE PARKING REQUIREMENTS:

Alternative parking requirements may be allowed for certain uses to prevent land from being devoted unnecessarily to parking spaces when other parking solutions respond better to the parking needs of the property, the enjoyment of neighboring property rights and the general neighborhood compatibility. These alternative parking requirements are intended to allow a reduced number of required off street parking stalls when there is documentation that actual parking demand is less than the number required by section 21A.44.060, table 21A.44.060F of this chapter; when special circumstances justify satisfying a portion of a parking requirement by means other than on site parking; or when reduction in required parking spaces is otherwise approved.

A. Types Of Alternative Parking Requirements: In considering a request for alternative parking requirements pursuant to this section the following actions may be taken:

1. Uses For Which An Alternative Parking Requirement May Be Allowed: The zoning administrator may authorize an alternative parking requirement for any use meeting the criteria set forth in subsection B4 of this section.

2. Modification Of Parking Geometries: The zoning administrator may authorize parking geometry configurations other than those normally required by city code or policy if such parking geometries have been approved, and the reasons therefor explained in writing, by the city transportation engineer.

3. Alternatives To On Site Parking: The zoning administrator may consider the following alternatives to on site parking:

a. Leased parking;

b. Shared parking;

c. Off site parking;

d. An employer sponsored employee vanpool;

e. An employer sponsored public transportation program. (Note: See also subsections 21A.44.020L and 21A.44.060E of this chapter. These alternatives to on site parking are not subject to the alternative parking requirements outlined in this section.)

B. Procedure: All requests for alternative parking requirements shall be processed in accordance with the provisions of chapter 21A.52 of this title.

1. Application: In addition to the materials required by chapter 21A.52 of this title, the applicant for an alternative parking requirement must also submit:

a. A written statement specifying the alternative parking requirement requested and the rationale supporting the application;

b. A professionally prepared parking study for alternative parking requirements requested for unique nonresidential uses and intensified parking reuse;

c. A site plan of the entire alternative parking property drawn to scale at a minimum of one inch equals thirty feet (1" = 30') showing the proposed parking plan.

2. Notice And Hearing: As a special exception, all requests for alternative parking requirements shall require a public notice and a public hearing in conformance with the requirements of chapter 21A.10 of this title.

3. City Internal Review:

a. The zoning administrator shall obtain comments regarding the application from all interested city departments or divisions.

b. The city transportation engineer may, if it determines that the proposal may have an adverse material impact on traffic, require the applicant to submit a professionally prepared traffic impact study prior to the hearing on the application.

c. The zoning administrator may require a professionally prepared parking study where deemed appropriate for applications for unique residential populations and single room occupancy residential uses.

4. General Standards And Considerations For Alternative Parking Requirements: Requests for alternative parking requirements shall be granted in accordance with the standards and considerations for special exceptions in section 21A.52.060 of this title. In addition, an application for an alternative parking requirement shall be granted only if the following findings are determined:

a. That the proposed parking plan will satisfy the anticipated parking demand for the use up to the maximum number specified in table 21A.44.060F, "Schedule Of Minimum Off Street Parking Requirements", of this chapter;

b. That the proposed parking plan does not have a material adverse impact on adjacent or neighboring properties;

c. That the proposed parking plan includes mitigation strategies for any potential impact on adjacent or neighboring properties; and

d. That the proposed alternative parking requirement is consistent with applicable city master plans and is in the best interest of the city.

C. Limitation On Period Of Alternative Parking Requirement: Alternative parking requirements granted pursuant to this chapter do not run with the land and are limited to the conditions under which approval is granted. Any material change in the design or use of any building or structure which increases the demand for parking or any material change in the alternative parking provisions from information provided in the original application shall invalidate and nullify any granted alternative parking requirement. Such material changes may be approved only by the city pursuant to the provisions of this section. The authorization of alternative parking requirement shall survive the sale of the property, and the zoning administrator is authorized to certify such continuation, if the sale makes no material change in the design or use of any building or structure which increases the demand for parking nor makes any material change in the alternative parking provisions from information provided in the original application. (Ord. 60-08 § 5, 2008: Ord. 26-95 § 2(22-3), 1995)

21A.44.040: TRANSPORTATION DEMAND MANAGEMENT:

Because the purposes and intent of this title include the lessening of congestion on the streets and roads, as well as generally protecting the public health, safety and welfare, specific standards and regulations are outlined which are intended to reduce traffic congestion and environmental pollution associated with vehicular transportation. The standards and regulations established are intended to be components of an overall transportation demand management plan.

A. Bicycle Parking Requirements: Encouraging the use of bicycles is an important nonmotorized transportation alternative and a component of a transportation demand management program.

1. Required Bicycle Parking Spaces: The minimum number of bicycle parking spaces provided for any use shall be five percent (5%) of the vehicular parking spaces required for such use.

2. Design Standards For Bicycle Parking Spaces: Bicycle parking spaces shall be:

a. Located on the same lot as the principal use;

b. Located to prevent damage to bicycles by cars;

c. In a convenient, highly visible, active, well lighted area;

d. Located so as not to interfere with pedestrian movements;

e. As near the principal entrance of the building as practical;

f. Located to provide safe access from the spaces to the right of way or bicycle lane;

g. Consistent with the surroundings in color and design and incorporated, whenever possible, into buildings or street furniture design;

h. Designed to allow each bicycle to be supported by its frame;

i. Designed to allow the frame and wheels of each bicycle to be secured against theft;

j. Designed to avoid damage to the bicycles;

k. Anchored to resist rust or corrosion, or removal by vandalism;

l. Designed to accommodate a range of bicycle shapes and sizes and facilitate easy locking without interfering with adjacent bicycles.

3. Waiver Of Requirement: If after at least one year from the time that the bicycle parking has been provided to satisfy the requirements of this title, the property owner documents to the zoning administrator that cycling has been promoted within the company and that the bicycle parking provided is not being used in good weather, the zoning administrator shall waive all or part of the bicycle parking requirement.

B. Car Pool Parking Incentives: The following regulations are intended to encourage the use of car pooling to increase vehicle occupancy and reduce traffic volumes and congestion:

1. Applicability: The regulations of this subsection shall apply to all nonresidential buildings or uses constructed after April 12, 1995, that employ one hundred (100) or more people. This shall include multiuse buildings and lots which collectively employ one hundred (100) or more people with buildings constructed after the adoption date of this title, April 12, 1995.

2. Reserved Parking Spaces: Each use subject to the requirements of this subsection shall devote ten percent (10%) of the total number of employee parking spaces for vehicles participating in a car pool program. Car pool parking spaces shall be located to provide superior convenience. The number of employee parking spaces shall be based on one parking stall for each two (2) employees on the highest shift.

3. Submission Of Car Pool Parking Plan: Each use subject to the requirements of this subsection shall submit a plan of the employee parking spaces reserved for car pooling to the development review team for review and approval. The plan shall:

a. Specify the total number of employee parking spaces provided;

b. Indicate the number and location of parking spaces reserved for car pooling; and

c. Include a copy of the car pool program which identifies the individuals participating in the car pool program.

4. Delineation Of Car Pool Parking Spaces: Car pool parking spaces shall be marked by sign or marking on the pavement to identify that the use of the spaces is reserved for the car pool program.

5. Waiver Of Requirement: If after at least one year from the time that the parking stalls reserved for car pooling vehicles have been provided to satisfy the requirements of this title, the property owner documents to the zoning administrator that car pooling has been promoted within the company and that the parking stalls reserved for car pooling vehicles are not being used, the zoning administrator may waive all or part of the car pooling parking requirement.

C. Special Minimum And Maximum Parking For Certain Districts: The regulations of this subsection are intended to reduce traffic volumes, energy consumption, pollution and encourage multi-modal transit in certain zoning districts by reducing the minimum number of parking spaces required, and in some cases, limiting the maximum number of parking spaces allowed. The districts subject to these special controls are districts where alternative forms of transportation exist. The districts subject to these special controls shall be subject to the requirements of section 21A.44.060 of this chapter, only to the extent specifically established in this subsection.

1. D-1 District:

a. Minimum Parking Required; Nonresidential Uses: The minimum number of parking spaces required for nonresidential uses shall be as follows:

(1) No parking is required for the first twenty five thousand (25,000) square feet of floor area.

(2) One space shall be required per one thousand (1,000) square feet of gross floor area in excess of twenty five thousand (25,000) square feet.

b. Minimum Parking Required; Residential Uses: One-half ($^1/_2$) parking space shall be required for each dwelling unit.

c. Parking Allowed; Nonresidential Uses: The number of parking stalls provided for any nonresidential use, other than retail sales and service uses, shall not exceed the amount permitted in the following four (4) phase schedule:

(1) Phase One: No parking maximum is specified. Phase one commences at the adoption date hereof, April 12, 1995, and remains in effect for two (2) years.

(2) Phase Two: Parking maximum ratio of four (4) parking stalls for each one thousand (1,000) square feet of gross floor area. Phase two shall commence at the end of phase one and shall remain in effect for two (2) years.

(3) Phase Three: Parking maximum ratio of three (3) parking stalls for each one thousand (1,000) square feet of gross floor area. Phase three shall commence at the end of phase two and shall remain in effect for two (2) years.

(4) Phase Four: Parking maximum ratio of two and one-half ($2^1/_2$) parking stalls for each one thousand (1,000) square feet of gross floor area. Phase four shall commence at the end of phase three and shall remain in effect permanently from that time.

(5) Phasing Process: The process of enacting phases two, three and four shall include a review and decision process that will involve receiving a recommendation from the city's contract manager of the downtown improvement district, a recommendation from the planning commission and a public hearing before the city council, prior to a final city council decision to enact the next phase. The decision to enact a subsequent phase shall include an analysis of alternative modes of transportation, air quality regulations, land use development, traffic congestion and specifically, the status of the proposed light rail transit system. A subsequent phase shall only be enacted with an affirmative vote by the city council.

d. Maximum Parking Allowed; Retail Sale And Service Uses: The maximum parking for retail sales and service uses shall not exceed four (4) parking stalls for each one thousand (1,000) square feet of gross floor area. Implementation of this maximum parking requirement shall commence two (2) years from the adoption date hereof, April 12, 1995, and shall remain in effect permanently from that time.

e. Maximum Parking Allowed; Residential Uses: The maximum parking for residential uses shall not exceed two (2) parking stalls for each residential unit.

f. Exemption From Maximum Parking: Exemptions from the maximum parking requirements in this subsection C1 may be authorized as a conditional use pursuant to the procedures and standards of chapter 21A.54 of this title. Additionally, the applicant must demonstrate that additional parking is necessary to support a specific land use and that additional on site parking is the most feasible means of supplying the parking demand.

2. R-MU District:

a. For single-family and two-family residential uses in the R-MU district, one parking stall shall be required for each unit. For multiple-family residential uses in the R-MU district, one-half ($^1/_2$) parking space shall be provided for each dwelling unit.

b. Credit for on street parking may be granted, as provided in subsection D of this section.

3. CN And CB Districts:

a. For residential uses in the CN and CB districts, not less than one parking space shall be provided for each dwelling unit.

b. Credit for on street parking may be granted, as provided in subsection D of this section.

4. G-MU, D-3, And D-4 Districts:

a. For residential uses in the G-MU, D-3 and D-4 districts, not less than one parking space shall be provided for each dwelling unit.

b. For buildings that have ten (10) or more residential units with at least twenty percent (20%) of the units as either affordable, senior housing, or assisted living units shall be allowed to have a minimum of one-half ($^1/_2$) of a parking space provided for each dwelling unit.

5. G-MU And D-3 Districts:

a. For nonresidential uses in the G-MU and D-3 districts, no off street parking shall be required for the first five thousand (5,000) square feet of floor area. For all uses with more than five thousand (5,000) square feet, the parking requirement shall be one space per one thousand (1,000) square feet of gross floor area, including the initial five thousand (5,000) square feet.

6. D-4 District:

a. For nonresidential uses in the D-4 district, no off street parking shall be required for the first twenty five thousand (25,000) square feet of floor area. For all uses with more than twenty five thousand (25,000) square feet, the parking requirement shall be one space per one thousand (1,000) square feet of gross floor area, which shall not include the initial twenty five thousand (25,000) square feet.

7. TC-75 District:

a. For nonresidential uses in the TC-75 district, no off street parking shall be required for the first five thousand (5,000) square feet of floor area. For all nonresidential uses with more than five thousand (5,000) square feet, the parking requirement shall be one space per one thousand (1,000) square feet of gross floor area, including the initial five thousand (5,000) square feet.

b. All residential parking requirements listed in table 21A.44.060F of this chapter are reduced by fifty percent (50%) within the TC-75 zoning district.

8. TSA District:

a. There are no minimum off street parking requirements in the core area as identified in section 21A.26.078 of this title.

b. The minimum off street parking requirement in a transition area as identified in section 21A.26.078 of this title shall be equal to fifty percent (50%) of the requirement in section 21A.44.060 of this chapter.

c. The maximum off street parking allowed shall be as follows:

(1) Residential Uses: One stall per dwelling unit in the core area and 1.5 stalls per dwelling unit in the transition area.

(2) All Other Uses: Three (3) stalls for every one thousand (1,000) square feet of net floor space in the core and transition areas.

(3) Mixed Use Developments: The maximum off street parking requirements for mixed use developments shall be calculated based on the above ratios for each different type of use that may occupy the building.

D. Credit For On Street Parking: This subsection is intended to reduce the amount of unnecessary parking spaces and to encourage pedestrian activity as an alternative means of transportation. Credit for on street parking shall be allowed only within the RB, R-MU, CN, CB, CSHBD, D-1, D-2 and D-3 districts. Some or all of the off street parking spaces required in section 21A.44.060 of this chapter may be met by the provision of on street spaces. Such credit shall require the site plan review approval. Requests for on street parking shall meet the following requirements:

1. All on street parking facilities shall be designed in conformance with the standards established by the city transportation engineer;

2. Prior to approving any requests for on street parking, the development review team shall determine that the proposed on street parking will not materially adversely impact traffic movements and related public street functions; and

3. Credit for on street parking shall be limited to the number of spaces provided along the street frontage adjacent to the use. (Ord. 59-10, 2010: Ord. 76-05 § 2, 2005: Ord. 35-99 §§ 71, 72, 1999: Ord. 83-98 § 8, 1998: Ord. 26-95 § 2(22-4), 1995)

21A.44.050: PARKING RESTRICTIONS WITHIN YARDS:

A. Regulations, Form Of Restrictions: Within the various chapters of this title, there are regulations that restrict the use of certain yards for off street parking. These regulations can take the form of restrictions against parking in required yards, landscape yard restrictions, or landscape buffer restrictions.

B. Front Yard Parking: Front yard parking may be allowed as a special exception when the rear or side yards cannot be reasonably accessed and it is impossible to build an attached garage that conforms to yard area and setback requirements, subject to the following conditions:

1. The hard surfaced parking area be limited to nine feet (9') wide by twenty feet (20') deep;

2. A minimum twenty foot (20') setback from the front of the dwelling to the front property line exists so that vehicles will not project into the public right of way; and

3. Parking on the hard surfaced area is restricted to passenger vehicles only.

C. Parking Restrictions Within Yards: To make the use of this title more convenient, table 21A.44.050 of this section has been compiled to provide a comprehensive listing of those districts where restrictions exist on the location of parking in yards.

TABLE 21A.44.050
PARKING RESTRICTIONS WITHIN YARDS

Zoning Districts	Front Yard	Corner Side Yard	Interior Side Yard	Rear Yard
Residential districts:				
Single/two-family residential districts: FR-1 to SR-1	Parking not permitted between front lot line and the front wall of the principal building	Parking not permitted between front lot line and the front wall of the principal building	Parking permitted. In the FR districts parking not permitted within 6 feet of interior side lot line	Parking permitted
SR-3	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
RMF-30	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
RMF-35	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots, except for single-family attached lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
RMF-45	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots, except for single-family attached lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
RMF-75	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
RB	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
R-MU-35	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots, except for single-family attached lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
R-MU-45	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots, except for single-family attached lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
R-MU	Parking not permitted within 15 feet of the front lot line	Parking not permitted within 15 feet of the corner lot line	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
RO	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line when abutting a single- or two-family district. Parking not permitted within 1 of the side yards of interior lots, except for single-family attached lots	Parking not permitted within 10 feet of the rear lot line when abutting a single- or two-family district
Commercial, manufacturing, gateway and downtown districts:				
CN	Parking not permitted	Parking not permitted	Parking not permitted within 7 feet of the side lot line when abutting residential district	Parking not permitted within 7 feet of the rear lot line when abutting residential district
CB	No yard required. If yard is provided, parking not permitted within 15 feet of the front lot line	No yard required. If yard is provided, parking not permitted within 15 feet of the corner side lot line	Parking not permitted within 7 feet of the side lot line when abutting residential district	Parking not permitted within 7 feet of the rear lot line when abutting residential district
CS	Parking not permitted within 15 feet of front lot line	Parking not permitted within 15 feet of corner side lot line	Parking not permitted within 15 feet of the side lot line when abutting residential district	Parking not permitted within 15 feet of the rear lot line when abutting residential district
CC	Parking not permitted within 15 feet of front lot line	Parking not permitted within 15 feet of front lot line	Parking not permitted within 7 feet of the side lot line when abutting residential district	Parking not permitted within 7 feet of the rear lot line when abutting residential district
CSHBD	Parking not permitted within 7 feet of front lot line	Parking not permitted within 7 feet of corner side lot line	No yard required. If yard is provided, parking not permitted within 7 feet of side lot line when abutting residential district	No yard required. If yard is provided, parking not permitted within 7 feet of rear lot line when abutting residential district
CG	Parking not permitted within 10 feet of front lot line	Parking not permitted within 10 feet of side lot line	Parking not permitted within 15 feet of the side lot line when abutting residential district	Parking not permitted within 15 feet of the rear lot line when abutting residential district
M-1	Parking not permitted	Parking not permitted	Parking not permitted within 15 feet of the side lot line when abutting residential district	Parking not permitted within 15 feet of the rear lot line when abutting residential district
M-2	Parking not permitted within 15 feet of front lot line	Parking not permitted within 15 feet of corner side lot line	Parking not permitted within 50 feet of the side lot line when abutting residential district	Parking not permitted within 50 feet of the rear lot line when abutting residential district
D-1	Parking restrictions within yards for the D-1 zone are found in section 21A.30.020, "D-1 Central Business District", of this title			
D-2	Parking permitted	Parking permitted	Parking permitted	Parking permitted
D-3[1]	Parking not permitted within 15 feet of front lot line	Parking not permitted within 15 feet of corner side lot line	Parking permitted	Parking permitted
D-4	In block corner areas, structure and surface parking permitted only behind a principal building; in mid block areas, surface parking permitted only behind a principal building and parking structures must have retail goods/service establishments, offices or restaurants on ground floor along the street; no restrictions on underground parking		Parking permitted	Parking permitted
G-MU	In block corner areas, structure and surface parking permitted only behind a principal building; in mid block areas, surface parking permitted only behind a principal building and parking structures must have retail goods/service establishments, offices or restaurants on ground floor along the street; no restrictions on underground parking		Parking permitted	Parking permitted
Special purpose districts:				
RP	Parking not permitted	Parking not permitted	Parking not permitted within 30 feet of the side lot line when abutting residential district. Parking not permitted within 8 feet of any side lot line	Parking not permitted within 30 feet of the rear lot line when abutting residential district. Parking not permitted within 8 feet of any rear lot line
BP	Parking not permitted	Parking not permitted	Parking not permitted within 30 feet of the side lot line when abutting residential district. Parking not permitted within 8 feet of any side lot line	Parking not permitted within 30 feet of the rear lot line when abutting residential district. Parking not permitted within 8 feet of any rear lot line
FP	Parking not permitted	Parking not permitted	Parking not permitted within 6 feet of side lot line	Parking permitted
AG	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
AG-2	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
AG-5	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
AG-20	Parking not permitted	Parking not permitted	Parking permitted	Parking permitted
A	Parking permitted	Parking permitted	Parking permitted	Parking permitted
PL	Parking not permitted	Parking not permitted	Parking permitted. Parking not permitted within 10 feet if it abuts a residential district	Parking permitted. Parking not permitted within 10 feet if it abuts a residential district
PL-2	Parking not permitted	Parking not permitted	Parking permitted. Parking not permitted within 10 feet if it abuts a residential district	Parking permitted. Parking not permitted within 10 feet if it abuts a residential district
I	Parking not permitted	Parking not permitted	Parking not permitted within 15 feet of the side lot line when abutting residential district	Parking not permitted within 15 feet of the rear lot line when abutting residential district
UI[2]	Parking not permitted within 15 feet of the front lot line	Parking not permitted within 15 feet of a corner side lot line	Parking permitted. Parking not permitted within 15 feet of lot line when abutting single- and two-family districts	Parking not permitted within 10 feet of the rear lot line. Parking not permitted within 15 feet of lot line when abutting single- and two-family districts
OS	Parking not permitted	Parking not permitted	Parking not permitted within 10 feet of the side lot line	Parking not permitted within 10 feet of the rear lot line
MH	Parking not permitted	Parking not permitted	Parking not permitted within 20 feet of the side lot line	Parking not permitted within 20 feet of the rear lot line
EI	Parking not permitted within 10 feet of the front lot line	Parking not permitted within 30 feet of the corner side lot line	Parking not permitted within 30 feet of the side lot line	Parking not permitted within 20 feet of the rear lot line
MU	Parking not permitted	Parking not permitted between front lot line and building line	Parking not permitted within 1 of the side yards of interior lots	Parking permitted

Notes:
1.Minimum open space of 20 percent lot area may impact parking location.
2.Hospitals in the UI zone: Parking is not permitted within 30 feet of a front and corner side yard, or within 10 feet of an interior side and rear yard.

(Ord. 83-12, 2012: Ord. 71-04 § 22 (Exh. E), 2004: Ord. 73-02 § 12 (Exh. E), 2002: Ord. 14-00 § 11, 2000: Ord. 35-99 §§ 73, 74, 1999: Ord. 83-98 § 9 (Exh. E), 1998: Ord. 12-98 § 6, 1998: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(22-5), 1995)

21A.44.060: NUMBER OF OFF STREET PARKING SPACES REQUIRED:

A. Parking Requirement: The number of off street parking spaces provided shall be in accordance with table 21A.44.060F, "Schedule Of Minimum Off Street Parking Requirements", of this section, except that properties located in the D-1 downtown district shall also meet the specific parking requirements for the D-1 downtown district provided in subsection 21A.44.040C of this chapter.

B. Determination Of Required Number Of Parking Spaces For Uses Not Specified Herein: In the event this title does not specify the number of parking spaces for a specific use, the zoning administrator shall determine the number of spaces required. In making this determination, the zoning administrator shall consider the following criteria:

1. The number of parking spaces required for a use listed in table 21A.44.060F of this section that is the most similar to the proposed use in terms of the parked vehicles that are anticipated to be generated;

2. The square footage to be occupied by the proposed use; and

3. The number of employees and patrons that are anticipated for the proposed use.

C. Exemption For Calculation Of Required Parking Spaces: Nonresidential uses in buildings less than one thousand (1,000) square feet and located on a lot in the commercial districts or the downtown districts (D-2 and D-3 only) shall be exempt from the requirement of providing off street parking. The exemption shall be applied to the least generating use on the lot. Only one exemption shall be allowed per lot.

D. Exception To Parking Requirements: The zoning administrator may approve an alternative parking requirement as outlined in section 21A.44.030 of this chapter.

E. Shared Parking: Where multiple uses share the same off street parking facilities, reduced total demand for parking spaces may result due to differences in parking demand for each use during the course of the day. The following schedule of shared parking is provided indicating how shared parking for certain uses can be used to reduce the total parking required for shared parking facilities:

TABLE 21A.44.060E
SCHEDULE OF SHARED PARKING

	Weekdays			Weekends		
General Land Use Classification	Midnight-7:00 A.M.	7:00 A.M.-6:00 P.M.	6:00 P.M.-Midnight	Midnight-7:00 A.M.	7:00 A.M.-6:00 P.M.	6:00 P.M.-Midnight
College and university	15%	100%	85%	5%	50%	75%
Community centers	0%	30%	75%	0%	100%	80%
Hotel	100%	65%	100%	100%	65%	100%
Office and industrial	5%	100%	5%	0%	5%	0%
Place of worship	0%	30%	50%	0%	100%	75%
Residential	100%	50%	80%	100%	75%	75%
Restaurant	50%	70%	100%	70%	45%	100%
Retail	0%	100%	80%	0%	100%	60%
Schools, elementary and secondary	5%	100%	75%	0%	25%	10%
Theater/entertainment	5%	20%	100%	5%	50%	100%

1. Determining The Total Requirements For Shared Parking Facilities: For each applicable general land use category, calculate the number of spaces required for a use if it were the only use (refer to the schedule of minimum off street parking requirements). Use those figures for each land use to calculate the number of spaces required for each time period for each use (6 time periods per use). For each time period, add the number of spaces required for all applicable land uses to obtain a grand total for each of the six (6) time periods. Select the time period with the highest total parking requirement and use that total as the shared parking requirement.

F. Use Of Excess Parking And Ride Lots: In zoning districts where park and ride lots are allowed as either a permitted or conditional use, parking in excess of the minimum required may be used for park and ride lot use. Park and ride lots may occupy surplus parking as determined in table 21A.44.060E, "Schedule Of Shared Parking", of this section.

TABLE 21A.44.060F
SCHEDULE OF MINIMUM OFF STREET
PARKING REQUIREMENTS

Each principal building or use shall have the following minimum number of parking spaces:

Residential:	
Bed and breakfast establishment	1 parking space per room
Congregate care facility	1 parking space for each living unit containing 2 or more bedrooms $^3/_4$ parking space for each 1 bedroom living unit
Eleemosynary facility	1 parking space for each family, plus 1 parking space for every 4 individual bedrooms, plus 1 parking space for every 2 support staff on the busiest shift
Fraternity, sorority or dormitory	1 parking space for each 2 residents, plus 1 parking space for each 3 full time employees. Note: The specific college or university may impose additional parking requirements
Group home	1 parking space per home and 1 parking space for every 2 support staff present during the busiest shift
Hotel or motel	1 parking space for each 2 separate rooms, plus 1 space for each dwelling unit
Multiple-family dwellings	2 parking spaces for each dwelling unit containing 2 or more bedrooms 1 parking space for 1 bedroom and efficiency dwelling $^1/_2$ parking space for single room occupancy dwellings (600 square foot maximum) $^1/_2$ parking space for each dwelling unit in the R-MU, D-1, D-2 and D-3 zones
Rooming house	1 parking space for each 2 persons for whom rooming accommodations are provided
Single-family attached dwellings (row house and townhouse) and single-family detached dwellings	1 parking space for each dwelling unit in the SR-3 zone 1 parking space for each dwelling in the D-1, D-2 and D-3 zones 2 parking spaces for each dwelling unit in all other zones where residential uses are allowed 4 outdoor parking spaces maximum for single-family detached dwellings
Transitional treatment home or community correctional facility	1 parking space for each 4 residents and 1 parking space for every 2 support staff present during the busiest shift
Two-family dwellings and twin home dwellings	2 parking spaces for each dwelling unit
Institutional:	
Assisted living facility	1 parking space for each 4 employees, plus 1 parking space for each 6 infirmary or nursing home beds, plus 1 parking space for each 4 rooming units, plus 1 parking space for each 3 dwelling units
Auditorium; accessory to a church, school, university or other institution	1 space for each 5 seats in the main auditorium or assembly hall
Daycare, child and adult	2 spaces per 1,000 square feet of gross floor area
Funeral services	1 space per 4 seats in parlor plus 1 space per 2 employees plus 1 space per vehicle used in connection with the business
Homeless shelters	1 parking space for each employee
Hospital	1.80 parking spaces per hospital bed
Places of worship	1 parking space for each 5 seats in the main auditorium or assembly hall
Sanitarium, nursing care facility	1 parking space for each 6 beds for which accommodations are offered, plus 1 parking space for each 4 employees other than doctors, plus 1 parking space for each 3 dwelling units
Schools:	
K-8th grades	1 parking space for each 3 faculty members and other full time employees
Senior high school	1 parking space for each 3 faculty members, plus 1 parking space for each 3 full time employees, plus 1 parking space for each 10 students
College/university, general	1 parking space for each 3 faculty members, plus 1 parking space for each 3 full time employees, plus 1 parking space for each 10 students
Vocational/trade school	1 space per 1 employee plus 1 space for each 3 students based on the maximum number of students attending classes on the premises at any time
Recreation, cultural, and entertainment[1]:	
Art gallery/museum/house museum	1 space per 1,000 square feet of gross floor area
Bowling alley	2 spaces per lane
Club/lodge	6 spaces per 1,000 square feet of gross floor area
Dance/music studio	1 space for every 1 employee
Gym/health club/recreation facilities	3 spaces per 1,000 square feet of gross floor area
Library	1 space per 1,000 square feet of gross floor area
Sports arena/stadium	1 space per 10 seats
Swimming pool, skating rink or natatorium	1 space per 5 seats and 3 spaces per 1,000 square feet of gross floor area
Tennis court	2 spaces per court
Theater, movie and live	1 space per 4 seats
Commercial/manufacturing:	
Bus facility, intermodal transit passenger hub	1 space per 2 employees plus 1 space per bus
Durable goods, furniture, appliances, etc.	1 space per 500 square feet of gross floor area
General manufacturing	1 space per 3 employees plus 1 space per company vehicle
Radio/TV station	3 spaces per 1,000 square feet
Warehouse	2 spaces per 1,000 square feet of gross floor area for the first 10,000 square feet plus $^1/_2$ space per 2,000 square feet for the remaining space. Office area parking requirements shall be calculated separately based on office parking rates.
Wholesale distribution	1 space per 1,000 square feet of gross floor area for the first 10,000 square feet, plus $^1/_2$ space per 2,000 square feet of floor area for the remaining space. Office area parking requirements shall be calculated separately based on office parking rates.
Retail goods and services[1]:	
Auto repair	1 space per service bay plus 3 stalls per 1,000 square feet for office and retail areas
Car wash	3 stacked spaces per bay or stall, plus 5 stacking spaces for automated facility
Drive-through facility	5 stacking spaces on site per cashier, teller or similar employee transacting business directly with drive-through customers at any given time in addition to the parking required for that specific land use
Outdoor display of live plant materials	1 parking space per 1,000 square feet of display area
Outdoor display of merchandise for sale, other than live plant materials	2 parking spaces per 1,000 square feet of display area
Restaurants, taverns and social clubs	2 spaces per 1,000 square feet gross floor area
Retail goods establishment	2 spaces per 1,000 square feet gross floor area
Retail service establishment	2 spaces per 1,000 square feet gross floor area
Retail shopping center over 55,000 square feet gross floor area	2 spaces per 1,000 square feet gross floor area
Office and related uses:	
Financial establishments	2 spaces per 1,000 square feet
General office	3 spaces per 1,000 square feet gross floor area for the main floor plus $1^1/_4$ spaces per 1,000 square feet gross floor area for each additional level, including the basement
Laboratory	2 spaces per 1,000 square feet of gross floor area for the first 10,000 square feet plus $^1/_2$ space per 2,000 square feet for the remaining space. Office area parking requirements shall be calculated separately based on office parking rates.
Medical/dental offices	5 spaces per 1,000 square feet gross floor area
Miscellaneous:	
Kennels (public) or public stables	1 space per 2 employees
All other uses	3 spaces per 1,000 square feet

Note:

1.Any business classified above as "recreational, cultural, and entertainment" or as "retail goods and services", which meets the requirements of subsection 21A.44.020M of this chapter, shall be entitled to an exemption from the city's off street parking requirements to the extent authorized therein.

(Ord. 64-12, 2012: Ord. 27-10, 2010: Ord. 2-09 § 11, 2009: Ord. 60-08 §§ 6, 7, 8 (Exhs. A, B), 2008: Ord. 13-04 § 20 (Exh. I), 2004: Ord. 6-03 § 2 (Exh. B), 2003: Ord. 5-02 § 3, 2002: Ord. 14-00 § 12, 2000: Ord. 35-99 § 75, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(22-6), 1995)

21A.44.070: GENERAL OFF STREET LOADING REQUIREMENTS:

A. Location: All required loading berths and maneuvering areas shall be located on the same lot as the use served. All motor vehicle loading berths which abut a residential district or an intervening alley, separating a residential district from a business, commercial or industrial district, shall be screened according to the standards contained in chapter 21A.48 of this title.

No permitted or required loading berth shall be located within thirty feet (30') of the nearest point of intersection of any two (2) streets. No loading berth shall be located in a required front yard.

B. Access: Each required off street loading berth shall be designed with appropriate means of vehicular access to a street or alley in a manner which will eliminate or minimize conflicts with traffic movement, and shall be subject to approval by the development review team and the city transportation engineer. Maneuvering and backing space to the loading dock shall be accommodated on site when possible.

C. Utilization Of Off Street Loading Areas: Space allocated to any off street loading use shall not be used to satisfy the space requirements for any off street parking.

D. Size: Unless otherwise specified, a required off street loading berth shall be at least ten feet (10') in width by at least thirty five feet (35') in length for short berths, and twelve feet (12') in width by at least fifty feet (50') in length for long berths exclusive of aisle and maneuvering space. Maneuvering aprons of appropriate width and orientation shall be provided and will be subject to approval by the development review team and the city transportation engineer.

E. Vertical Clearance: All loading areas shall have a vertical clearance of at least fourteen feet (14').

F. Design And Maintenance:

1. Design Of Loading Areas: All loading areas shall be oriented away from adjacent residential or other incompatible uses.
2. Plan: The design of loading areas shall be subject to the approval of the development review team and the city transportation engineer.
3. Landscaping And Screening: Landscaping and screening shall be provided in accordance with the requirements of chapter 21A.48 of this title.
4. Lighting: Any lighting used to illuminate loading areas shall be down lit away from residential properties and public streets in such a way as not to create a nuisance.

5. Cleaning And Maintenance: Except in the industrial (M-1 and M-2), general commercial (CG) and downtown (D) districts, no cleaning or maintenance of loading areas utilizing motorized equipment may be performed between ten o'clock (10:00) P.M. and seven o'clock (7:00) A.M. each day, except for snow removal.

6. Signs: Accessory signs shall be permitted on loading areas in accordance with the provisions specified in chapter 21A.46 of this title.

7. Loading Area Surface: Loading area surfaces shall be hard surfaced and drained to dispose of all surface water and to provide effective drainage without allowing the water to cross the sidewalk or driveway. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(22-7), 1995)

21A.44.080: SPECIFIC OFF STREET LOADING REQUIREMENTS:

Off street loading facilities for new developments shall be provided at the rate specified for a particular use in table 21A.44.080 of this section. The zoning administrator may waive any off street loading requirement with a recommendation of the development review team.

TABLE 21A.44.080
SCHEDULE OF OFF STREET LOADING REQUIREMENTS

Use	Gross Floor Area[1] (Square Feet)	Number Of Berths And Size[2,3]
Hotels, institutions and institutional living	50,000 - 100,000	1 short
	Each additional 100,000	1 short
Industrial uses	5,000 - 10,000	1 short
	10,001 - 40,000	1 long
	40,001 - 100,000	2 long
	Each additional 100,000	1 long
Multi-family	100,000 - 200,000	1 short
	Each additional 200,000	1 short
Office uses	50,000 - 100,000	1 short
	Each additional 100,000 up to 500,000	1 short
	Each additional 500,000	1 short
Retail/commercial	25,000 - 40,000	1 short
	40,000 - 100,000	1 long
	Each additional 100,000	1 long

Notes:
1.Gross floor area refers to buildings or structures on premises.
2.Loading dock requirement is cumulative.
3.Berth (loading dock) dimensions:
Short: 10 feet wide x 35 feet deep
Long: 12 feet wide x 50 feet deep

(Ord. 26-95 § 2(22-8), 1995)

CHAPTER 21A.46
SIGNS

21A.46.010: PURPOSE STATEMENT:

A. Purpose: The regulations of this chapter are intended to:

1. Eliminate potential hazards to motorists and pedestrians by requiring that signs are designed, constructed, installed and maintained in a manner that promotes the public health, safety and general welfare of the citizens of Salt Lake City;

2. Encourage signs which, by their good design, are integrated with and harmonious to the buildings and sites, including landscaping, which they occupy;

3. Encourage sign legibility through the elimination of excessive and confusing sign displays;

4. Preserve and improve the appearance of the city as a place in which to live and to work, and create an attraction to nonresidents to come to visit or trade;

5. Allow each individual business to clearly identify itself and the nature of its business in such a manner as to become the hallmark of the business which will create a distinctive appearance and also enhance the city's character;

6. Safeguard and enhance property values;

7. Protect public and private investment in buildings and open space; and

8. Permit on premises signs as provided by the specific zoning district sign regulations included in this chapter. (Ord. 13-04 § 22, 2004: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.020: DEFINITIONS:

A. Word Usage And Interpretation:

1. In this chapter, the words, terms, phrases and their derivatives shall have the meanings as stated and defined in this chapter.

2. Words not defined in this chapter but defined in chapter 21A.62 of this title, or in the building code as adopted by the city in title 18 of this code, shall have those definitions.

B. Defined Terms: For the purposes of this chapter, sign types and related terms shall be defined as follows:

A-FRAME SIGN: A temporary and/or portable sign constructed with two (2) sides attached at the top allowing the sign to stand in an upright position.

ALTERATION, SIGN: "Sign alteration" means a change or rearrangement of the parts or design of a sign, whether by extending on a side, by increasing in area or height, or the moving from one location or position to another, or adding or deleting words from the copy, or changing the size of the letters or figures comprising the copy. Alterations shall not be interpreted to include changing the text or copy on outdoor advertising signs, theater signs, outdoor bulletin or other similar signs which are designed to accommodate changeable copy.

ANIMATED SIGN: A sign, excluding an electronic changeable copy sign, which involves motion or rotation of any part by mechanical or artificial means or which displays flashing or intermittent lights.

AWNING: A structure constructed of fabric or metal placed so as to extend outward from the building, providing a protective shield for doors, windows and other openings, with supports extending back to the building, supported entirely by the building. The maximum vertical drape of the front valance is limited to one foot (1').

AWNING SIGN: A sign that is painted on or otherwise made part of the awning material. (See figure 21A.46.020 at the end of this section.) Signage is limited to the vertical portions of the awning; the sides and the front valance. No signage shall protrude beyond the vertical face.

BACKLIT AWNING SIGN: A sign made of translucent material with illumination from behind. A backlit awning is considered a form of flat sign and is subject to the regulations thereof.

BALLOON: A temporary sign comprised of an inflated nonporous object filled with air or other gas affixed to a building or lot for the purpose of attracting attention.

BANNER, PUBLIC EVENT: "Public event banner" means a banner pertaining to festivals or events, as permitted in title 3, chapter 3.50 of this code, which is installed as a temporary sign.

BANNER, SECURED: "Secured banner" means a temporary sign intended to be hung on a frame, secured at the top and the bottom on all corners, applied to plastic or fabric of any kind, excluding official flags and emblems of political organizations.

BANNER, UNSECURED: "Unsecured banner" means a temporary sign on plastic or fabric of any kind which is not secured in the manner described in the definition of a "secured banner".

BENCH SIGN: A sign located on the back of a bench.

BILLBOARD (OUTDOOR ADVERTISING SIGN): A form of an off premises sign. A freestanding ground sign located on industrial, commercial or residential property if the sign is designed or intended to direct attention to a business, product or service that is not sold, offered or existing on the property where the sign is located. (See figure 21A.46.020 at the end of this section.)

BUILDING FACE: Any single side of a building. Signs regulated by building face can be located on a maximum of four (4) faces of a building.

BUILDING OR HOUSE NUMBERS SIGN: A flat sign which identifies the address of the property.

BUILDING PLAQUE SIGN: A plaque designating names of buildings, occupants and/or date of erection and other items such as architect, contractor, or others involved in the building's creation, cut into or attached to a building surface and measuring no more than four (4) square feet in area, with a maximum six inch (6") projection from the building.

BUILDING SECURITY SIGN: A sign indicating the existence of an electronic or staffed security system on the site or warning against trespass on the site.

BUILDING SIGN: Any sign attached to a building and which is not supported by, or attached to, the ground. Examples of building signs include: awning sign; backlit awning sign; building or house numbers sign; building plaque sign; flat sign; marquee sign; nameplate sign; projecting building sign; roof sign; wall sign; window sign.

CANOPY: A structure constructed of fabric or other material placed so as to extend outward from the building, providing a protective shield for doors, windows and other openings, with supports extending to the ground as well as attached to the building.

CANOPY, DRIVE-THROUGH: "Drive-through canopy" means a freestanding roof structure over drive-through facilities such as a gasoline pump island.

CANOPY, DRIVE-THROUGH, SIGN: "Drive-through canopy sign" means a flat sign that is painted or attached to a drive-through canopy which does not extend above or below the canopy facade.

CANOPY SIGN: A sign that is painted or otherwise made part of the canopy material. Signage is limited to the vertical portions of the canopy; the sides and the front valance. No signage shall protrude beyond the vertical face.

CLEARANCE (Of A Sign): The smallest vertical distance between the grade beneath the sign and the bottom of the sign, including framework and embellishments, extending over that grade.

CONSTRUCTION SIGN: A temporary sign identifying the contractor, architect, designer or other affiliated organization responsible for the construction of a new project.

DEVELOPMENT ENTRY SIGN: A permanent sign used to identify the main entrance of a development of at least ten (10) acres containing multiple lots and/or multiple (principal) buildings.

DIRECTIONAL OR INFORMATIONAL SIGN (PRIVATE): An on premises sign designed to guide vehicular and/or pedestrian traffic by using such words as "entrance", "exit", "parking", "one-way" or similar directional instruction, and which may include the identification of the building or use, but may not include any advertising message.

DIRECTORY SIGN: A sign on which the names and locations of occupants or the use of a building or property are identified, but which does not include any advertising message.

ELECTRONIC CHANGEABLE COPY SIGN: A sign containing a computer generated message such as a public service, time, temperature and date, or a message center or reader board, where different copy changes of a public service or commercial nature are shown on the same lamp bank or message facility. The term "electronic changeable copy sign" shall not be defined as a type of "animated sign" if the message displayed is fully readable within three (3) seconds.

EXTERNALLY ILLUMINATED SIGN: A sign made legible in the absence of daylight by devices external to the sign which reflect or project light upon it.

FLAG, CORPORATE: "Corporate flag" means a flag identifying the name and/or logo of the business or corporation on the premises where the flag is displayed.

FLAG, OFFICIAL: "Official flag" means a flag of a government or governmental agency.

FLAG, PENNANT: Any geometric shaped cloth, fabric, or other lightweight material normally fastened to a stringer which is secured or tethered so as to allow movement of the sign caused by movement of the atmosphere. A sign, with or without a logo, made of flexible materials suspended from one or two (2) corners, used in combination with other such signs to create the impression of a line.

FLAT SIGN: A sign erected parallel to and attached to the outside wall of a building and extending not more than twenty four inches (24") from such wall, with messages or copy on the face only. (See figure 21A.46.020 at the end of this section.)

FREESTANDING SIGN: A sign supported by one or more upright poles or braces placed in or upon the ground surface and not attached to any building. Examples of freestanding signs are a monument sign and a pole sign.

GARAGE/YARD SALE SIGN: A temporary sign on residential property and used to identify a garage or yard sale on the premises.

GAS PRICE SIGN: An on premises sign advertising the price of gasoline other than the information attached to the gasoline pump.

GAS PUMP SIGN: Price, gallons, octane and other customary information relating to gasoline sales appearing on a gasoline pump.

GOVERNMENT SIGN: Any temporary or permanent sign erected and maintained for any official governmental purpose.

HEIGHT (Of A Sign): The largest vertical distance between the highest point of the sign and the grade of the land beneath the sign. When the land slopes down from the street and the sign is located at the setback line, the height is measured from the adjacent street (top of curb).

HEIGHT, SIGN FACE: "Sign face height" means the maximum vertical distance between the top and the bottom of a sign face.

HISTORICAL MARKER: A type of memorial sign limited in content to the identification of an historical building or structure or the site of an historical event.

ILLEGAL SIGN: Any sign erected after the effective date hereof which does not comply with the provisions of these sign regulations, or a sign that was illegal prior to the adoption of said ordinance, that has not been subsequently legalized.

INTERIOR SIGN: A sign located within the building oriented to the interior space of the building.

INTERNALLY ILLUMINATED SIGN: A sign which has characters, letters, figures, designs or outlines internally illuminated by electric lights, luminous tubes or other means as a part of the sign proper.

KIOSK: A structure which is used for the posting of temporary signs.

LETTER SIGN: A type of flat sign consisting of letters placed directly on the building face.

LOGO: A business trademark or symbol.

MARQUEE: A permanent roofed structure which extends outward from the face of the building and is designed to meet all provisions of the current Salt Lake City adopted building code and other specifications as outlined in this chapter. Where specifications as outlined in this chapter are different from the provisions of the Salt Lake City adopted building code, the more restrictive shall apply.

MARQUEE SIGN: A sign attached to a marquee. (See figure 21A.46.020 at the end of this section.)

MEMORIAL SIGN: A sign acknowledging a person, place, event or structure.

MONUMENT SIGN: A freestanding sign whose sign face extends to the ground or to a base. (See figure 21A.46.020 at the end of this section.)

NAMEPLATE SIGN: A sign indicating the name and/or occupation of a person or persons residing on the premises or legally occupying the premises, or indicating a home occupation legally existing on the premises.

NEIGHBORHOOD IDENTIFICATION SIGN: A sign located in the public right of way which identifies the name of a particular neighborhood.

NEON PUBLIC PARKING SIGN: A standardized parking identification/entry sign as shown in figure 21A.46.020 of this section that is approved under contract with the Salt Lake City transportation division. The sign may be attached to a building as a projecting sign or stand alone as a freestanding sign.

NEW DEVELOPMENT SIGN: A temporary sign used to identify a new development being constructed.

NONCONFORMING SIGN: Any sign or structure or portion thereof which was lawfully erected in compliance with applicable regulations of the city and maintained prior to April 12, 1995, and which fails to conform to the sign regulations of this chapter and all other applicable standards and restrictions of this title.

OFF PREMISES SIGN: A sign which directs attention to a business, commodity, service, entertainment or attraction sold or offered at a location other than the premises on which the sign is erected.

ON PREMISES SIGN: A sign which directs attention to a business, commodity, service, entertainment or attraction sold or offered on the premises on which the sign is erected.

OPEN AIR MALL: A building or buildings that are designed to function like a traditional shopping mall, but do not have a ceiling or roof.

OUTDOOR ADVERTISING SIGN: See definition of "Billboard (Outdoor Advertising Sign)".

PARK BANNER SIGN: A banner hung from either an existing light pole standard or on a pole erected specifically for the purpose of accommodating a banner. A park banner sign includes verbiage and/or design that relates to either a permanent venue within a park or provides a means of identifying the specific park itself. A "park banner sign" does not include any banner that contains verbiage or symbols that relate to or otherwise identify a temporary event.

POLE SIGN: A freestanding sign other than a monument sign, erected and maintained on a mast(s) or pole(s) and not attached to any building. (See figure 21A.46.020 at the end of this section.)

POLITICAL SIGN: A temporary sign advertising a candidate or candidates for public elective office or soliciting votes in support of or against any proposition or issue at any general, primary, special, school or any other election decided by ballot or a temporary sign expressing political opinion.

PORTABLE SIGN: A temporary sign not permanently anchored or secured to either a building or the ground, but usually anchored or secured to a trailer, vehicle (where the primary purpose of the vehicle is to advertise) or frame capable of being moved from place to place.

PREMISES: A lot with its appurtenances and buildings that functions as a unit.

PROJECTING BUILDING SIGN: A sign attached to a building or other structure whose sign face is displayed perpendicular or at an angle to the building wall.

PROJECTING BUSINESS STOREFRONT SIGN: A sign attached to a building or other structure whose sign face is displayed perpendicular or at an angle to the building wall. Said signs shall contain only the name of the business and/or associated corporate logo.

PROJECTING PARKING ENTRY SIGN: A sign attached to a building or other structure whose sign face is displayed perpendicular or at an angle to the building wall. Said signs shall contain only the words or symbol signifying the entry to a parking lot or structure.

PUBLIC SAFETY SIGN: A sign designed to warn people of potentially dangerous or hazardous situations. Forms of public safety signs include: traffic safety signs, electrical hazard warnings, geologic hazard markers, etc.

REAL ESTATE SIGN: A temporary sign related to the property upon which it is located and offering such property for sale or lease.

ROOF SIGN: A sign erected on the roof of a building and constructed so as to appear as an extension of the building facade. (See figure 21A.46.020 at the end of this section.)

SHOPPING CENTER IDENTIFICATION SIGN: A pole, monument or flat sign used to identify a shopping center development consisting of two (2) or more stores. A shopping center identification sign may include electronic or other changeable copy.

SIGN: An object, device or structure, or part thereof, situated outdoors or indoors which is used to advertise, identify, display, direct or attract attention to an object, person, institution, organization, business, product, service, event or location by any means, including words, letters, figures, designs, symbols, fixtures, colors, illumination or projected images. The term "sign" shall include the sign structure, supports, lighting system and any attachments, ornaments or other features used to attract attention. The term "sign" does not include the flag or emblem of any nation, organization of nations, state, county, city; or works of art which in no way identify a product or business logo.

SIGN FACE: That part of the sign that is or can be used to identify, to advertise, to communicate information, or for visual representation which attracts the attention of the public for any purpose. The term "sign face" includes any background or surrounding material, panel, trim or ornamentation, color and direct or self-illumination that differentiates the sign from the building, structure, backdrop surface or object upon or against which it is placed. The term "sign face" does not include any portion of the support structure for the sign; provided, that no message, symbol or any of the previously described elements of a sign face is placed on or designed as part of the support structure. See subsection 21A.46.070W of this chapter.

SIGN FACE AREA: The surface of the sign face. (See figure 21A.46.020 at the end of this section.)

SIGN GRAPHICS: Any lettering, numerals, figures, designs, symbols or other drawings or images used to create a sign.

SIGN MAINTENANCE: The maintenance of a sign in a safe, presentable and good condition including the replacement of defective parts, repainting, cleaning, and other acts required for the maintenance of the sign.

SIGN MASTER PLAN AGREEMENT: An agreement outlining sign criteria to be used on private property but not oriented to a public street. The criteria should include, but is not limited to, the discussion of types, sizes and materials of construction of signs.

SIGN STRUCTURE OR SUPPORT: Any structure that supports or is capable of supporting a sign, including decorative cover.

SNIPE SIGN: A sign for which a permit has not been obtained which is attached to a public utility pole, service pole, supports for another sign or fences, trees, etc.

SPECIAL EVENT SIGN: A temporary sign accessory to a use that identifies special events or activities. A special event sign shall not include real estate signs, garage/yard sale signs or other types of accessory signs.

STADIUM: A confined but open air facility designed to accommodate athletic events or other large gatherings.

STOREFRONT: A face of a building fronting on a street or having public pedestrian access.

TEMPORARY SIGN: Any exterior sign, banner, pennant, valance or advertising display constructed of paper, cloth, canvas, light fabric, cardboard, wallboard or other light materials, with or without light frames, intended to be displayed for a short period of time. Examples of temporary signs include: an A-frame sign; balloon; secured banner; unsecured banner; public event banner; garage/yard sale sign; political sign; real estate sign; special event sign.

VEHICULAR SIGN: A sign on a vehicle which is visible from the public right of way where the primary purpose of the vehicle is not to advertise a product or to direct people to a business.

VENDING MACHINE SIGN: Any sign fastened to or painted to a vending machine which directly relates to the product contained in the machine.

VISIBLE: Capable of being seen, whether or not any item of information is legible, without visual aid, by a person of normal visual acuity.

WALL SIGN: A sign that is painted on a building wall containing the name of the business and/or its logo.

WINDOW SIGN: A sign inside of or attached to the interior of a transparent glazed surface (window or door) oriented to the outside of the building. A display window that does not include signs shall not be considered a sign.

21A.46.030: GENERAL SIGN PERMIT REQUIREMENTS:

A. Sign Permit Required: Except where exempted by the provisions of this chapter, it is unlawful for any person to erect, construct, enlarge, locate or alter any sign or change the text of any on or off premises sign within the city contrary to any provisions of this chapter without first obtaining a sign permit from the building official. No sign shall be erected, constructed, reconstructed, located or altered until the site plan for such sign has been approved and a sign permit issued by the building official. Such permits shall be issued only to state licensed contractors unless specifically exempted by the state.

B. Application Requirements: All applications for sign permits shall be accompanied by a site plan and an elevation drawing. The site plan shall be in duplicate on a minimum eight and one-half by eleven inch ($8\frac{1}{2}$ x 11") paper. The site plan information shall be drawn to scale and dimensioned, and shall convey sufficient information so that the zoning administrator can determine whether the proposed sign will conform with the provisions of this chapter and the applicable provisions of the Salt Lake City building code.

1. Site Plan Drawing Requirements: The site plan drawing shall show the size of the sign and its location with relationship to the following features of the site:
   a. Property lines;
   b. Existing and proposed buildings or other structures;
   c. Barrier curbs;
   d. Parking areas;
   e. Landscaped areas; and
   f. "Clear view" areas on corners, driveways or intersections.
2. Elevation Drawing Requirements: Specifically, the elevation drawing shall show the following information:
   a. Type of sign;
   b. Sign location in relation to nearest property line;
   c. Sign face design if an on premises sign;
   d. Sign height;
   e. Sign face area; and
   f. Illumination specification.

C. Sign Permit Fee Required: The sign permit applicant shall pay the fee shown on the Salt Lake City consolidated fee schedule.

D. Plan Checking Fee: A plan checking fee shown on the Salt Lake City consolidated fee schedule shall be paid to the building official for every sign permit issued. Where plans are incomplete, or changed so as to require additional plan checking, an additional plan checking fee may be charged at the rate shown on the Salt Lake City consolidated fee schedule.

E. Inspection Tag Fee: An inspection tag fee shown on the Salt Lake City consolidated fee schedule shall be paid to the building official for each inspection tag issued.

F. Double Fee Required: In the event that work is started prior to obtaining a permit, the fee for a sign permit may be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work, nor from any other penalties prescribed herein.

G. Expiration Of Application: An application for which no permit is issued within thirty (30) days following the date of application shall expire and plans submitted for checking may thereafter be destroyed by the zoning administrator. The zoning administrator may extend the time for action by the applicant for a period not exceeding a total of ninety (90) days from the date of application upon written request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan checking fee.

H. Insurance Required For Structures And Signs Overhanging Public Property: No structure or sign overhanging public property shall be erected, reerected, located or relocated or enlarged or modified structurally, or change ownership, without first receiving the approval of the city property manager and submitting a certificate of insurance as specified by the Salt Lake City attorney's office. Information concerning insurance requirements is available at the office of the zoning administrator.

I. Permission Required For Signs And Marquees On Or Over Public Right Of Way: Except for portable signs authorized pursuant to section 21A.46.055 of this chapter, signs, marquees and other structures encroaching on or over the public sidewalk or on or over a public right of way shall obtain permission from the city pursuant to the city's rights of way encroachment policy. (Ord. 24-11, 2011)

21A.46.040: EXEMPT SIGNS:

The following signs and sign related activities are exempt from all regulations in this chapter, subject to the following provisions:

A. Building Or House Numbers Sign: One building or house numbers sign per street address as long as the sign is not more than two (2) square feet in area.

B. Building Plaque Sign: One building plaque sign per address.

C. Building Security Sign: Building security signs whose sign faces are no more than one square foot in area and limited to no more than four (4) building security signs per lot.

D. Flag, Official: An official flag which does not project over a property line.

E. Gas Pump Sign: Gas pump sign.

F. Gasoline Price Signs: Gasoline price signs not exceeding fifty (50) square feet as long as they comply with all other applicable provisions of this title. These are permitted in addition to the maximum size limits listed in the sign regulations tables for each zoning district.

G. Interior Sign: Interior sign.

H. Political Sign: Political signs with a face of sixteen (16) square feet or less subject to maintaining a five foot (5') setback.

I. Public Event Banner[1]: Public event banner.

J. Public Safety Signs: As long as they are no more than six (6) square feet in area.

K. Routine Maintenance Of Sign: Routine sign maintenance or changing of lettering or parts of signs designed to be regularly changed.

L. Vending Machine Sign: Vending machine sign.

M. Murals: All or any portion of painted artwork which would not constitute a sign under this chapter.

N. Portable Signs: Portable signs as authorized pursuant to section 21A.46.055 of this chapter. (Ord. 5-05 § 2, 2005: Ord. 78-03 § 2, 2003: Ord. 53-00 § 2, 2000: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.050: SIGNS EXEMPT FROM PERMITS AND PERMIT FEES:

Signs legally existing on or before April 12, 1995, shall be exempt from the sign permit fee. All signs listed in section 21A.46.040 of this chapter, except gasoline price signs which are in compliance with all provisions of this chapter, are exempt from permits and permit fees. Nameplates, garage sale and real estate signs, which are in compliance with all provisions of this chapter, are also exempt from permits and permit fees. (Ord. 35-99 § 76, 1999: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.052: SIGNS EXEMPT FROM SPECIFIC CRITERIA EXCEPT FEES AND PERMITS:

Signs within open air malls, stadiums or other enclosed spaces that do not have a roof, but are otherwise physically confined and separated from the public street right of way are required to obtain sign permits and pay fees to ensure public safety and compliance with the city's building code. Such signs are subject to sign ordinance regulations unless a sign master plan agreement was specifically considered as part of a planned development as outlined in chapter 21A.55 of this title or was specifically authorized through the conditional building and site design review process as outlined in chapter 21A.59 of this title. The sign master plan agreement shall only be authorized for signage within the open air mall or stadium that is not oriented to the public street. Signage oriented to a public street or to a surface parking lot is specifically not exempt from sign ordinance requirements and not subject to modification through a sign master plan agreement. (Ord. 23-10 § 15, 2010)

21A.46.055: TEMPORARY PORTABLE SIGNS:

Pursuant to the terms and conditions set forth in this section, attended portable signs shall be allowed on public property in residential/business (RB), residential/mixed use (R-MU), neighborhood commercial (CN), community business (CB), community shopping (CS), corridor commercial (CC), Sugar House business (CSHBD), general commercial (CG), light manufacturing (M-1), heavy manufacturing (M-2), central business (D-1), downtown support (D-2), downtown warehouse/residential (D-3), downtown secondary central business (D-4), gateway-mixed use (G-MU) and business park (BP) zoning districts.

A. Size: The maximum size of such portable signs shall not exceed three feet (3') in height and two feet (2') in width on a sidewalk. Illumination and other attached decorations or objects on such signs are prohibited.

B. Location: Within the zoning districts identified above, any person may display a freestanding portable sign on the city owned right of way (sidewalk or park strip) but not in the roadway. Signs may not be attached to any utility poles, traffic signs, newsracks or any other item or fixture in the public way. The usable sidewalk space must remain unobstructed. Unobstructed sidewalk space must be at least ten feet (10') wide on Main Street between South Temple and 400 South; and where available, eight feet (8') wide in the D-1, D-3, D-4 and G-MU districts. In all other applicable areas a minimum of six feet (6') of unobstructed space is required. In addition, any portable sign may not be placed in any location that would obstruct any ADA accessible feature.

C. Construction: All portable signs must be built so as to be reasonably stable and to withstand expected wind and other weather elements.

D. Attended Portable Signs: An "attended portable sign" is a portable sign placed by a person who, either in person or through a representative, at all times while the sign is in the public right of way, remains either: 1) within twenty five feet (25') of the sign or 2) on the first floor of a building whose front entrance is within twenty five feet (25') of the sign or which has windows providing a view of the portable sign from within the building. Salt Lake City reserves the right to request the removal or relocation of a portable sign to accommodate construction activity within the public right of way.

Portable signs that are attended by a representative shall be permitted only on the "block face" (as defined in section 21A.62.040 of this title) on which the business being advertised is located and on up to two (2) block faces intersecting and contiguous with the block face on which such business is located, provided that the portable sign is located within a zoning district which permits said signs. Within the downtown and gateway zoning districts, a "block face" shall be defined as all of the lots facing one side of a street between two (2) intersecting collector and/or arterial streets. (Ord. 85-06 § 1, 2006: Ord. 5-05 § 3, 2005: Ord. 78-03 § 3, 2003)

21A.46.060: SIGNS SPECIFICALLY PROHIBITED IN ALL ZONING DISTRICTS:

The following exterior signs, in addition to all other signs not expressly permitted by this chapter, are prohibited in all zoning districts and shall not be erected:

A. Animated signs excluding public service signs;

B. Any snipe sign;

C. Balloons;

D. Bench signs;

E. Portable signs, except where specifically permitted by district sign regulations;

F. Signs overhanging the property line other than signs that are permitted under the sign regulations applicable to each zoning district;

G. Signs which are structurally unsafe, hazardous or violate the uniform building code or the fire code;

H. Signs located near streets which imitate or are easily confused with official traffic signs and use words such as "stop", "look", "danger", "go slow", "caution" or "warning", except where such words are part of the name of a business or are accessory to parking lots;

I. Painted signs which do not meet the definition of wall signs; and

J. Pennant flags. (Ord. 61-11, 2011)

21A.46.070: GENERAL STANDARDS:

A. Construction Standards:

1. Applicable Regulations: All signs erected in the city after April 12, 1995, shall comply with the current standards of the national electrical code, and adopted building code, all provisions of this chapter and any other applicable provisions of this title or other applicable regulations.
2. Engineering Required: All sign permit applications for freestanding signs shall be engineered to conform with the applicable provisions of the adopted building code and, where required by the building official, shall be accompanied by an engineering drawing stamped and signed by a structural engineer licensed by the state attesting to the adequacy of the proposed construction of the sign and its supports.

B. Ownership Shown On Signs: The name of the sign owner and sign erector of all signs shall be in plain and public view. Signs not carrying such an imprint will be presumed to be owned by the owner of the property on which the sign is located.

C. Clearance Between Sign And Ground: A minimum clearance of ten feet (10') shall be provided between the ground and the bottom of any pole, projecting sign or flag.

D. Signs Not To Constitute A Traffic Hazard: No sign shall be erected along any streets in such a manner as to obstruct free and clear vision; or at any location where by reason of its position, shape, color or words, it may interfere with, obstruct the view of or be confused with any authorized traffic sign, signal or device or block visibility for driveway ingress or egress. (See also subsection 21A.46.060B of this chapter.)

E. Repair Of Building Facades: A building facade damaged as the result of the removal, repair, replacement or installation of any signs shall be repaired by the property owner within thirty (30) calendar days from the date of the damage.

F. Maintenance Of Signs: Every sign shall be kept in good maintenance and repair. The ground space within a radius of ten feet (10') from the base of any freestanding sign shall be kept free and clear of all weeds, rubbish and flammable material. The building official shall inspect and enforce this section pursuant to the provisions of section 21A.46.150 of this chapter.

G. Sign Removal: Signs identifying a discontinued use on the property shall be removed from the property within thirty (30) calendar days of the time the use was discontinued.

H. Moving To New Location: No sign erected before April 12, 1995, shall be moved or enlarged or replaced unless it be made to comply with provisions of this chapter.

I. Lights And Lighted Signs: No spotlight, floodlight or lighted sign shall be installed in any way which will permit the rays of such sign's light to penetrate beyond the property on which such light or lighted sign is located in such a manner as to constitute a nuisance. Signs alleged to be a nuisance, by reason of light, by the neighboring property owners or tenants shall be subject to the zoning administrator's review to consider the validity of the nuisance complaint. If the sign is determined to be a nuisance, by reason of light, by the zoning administrator, the owner of the sign shall be required by the zoning administrator to take the appropriate corrective action.

J. Height And Elevation Of Building Signs: The height and elevation of building signs shall conform with the following provisions:

1. Awning Signs: Awning signs shall not be located above the second floor level of the building.
2. Flat Signs: Flat signs may extend a maximum of two feet (2') above the roofline or parapet wall of the building on which they are located.
3. Marquee And Canopy Signs: Marquee and canopy signs shall not be located above the main entry level of the premises.
4. Nameplates: Nameplates shall not be located above the first floor level of the building.
5. Projecting Building Signs: A projecting building sign shall not exceed the top of the vertical building wall on which it is located.
6. Projecting Business Storefront Signs: A projecting business storefront sign shall be located at the main pedestrian entry level of the building.
7. Projecting Parking Entry Signs: A projecting parking entry sign shall be located at the parking entry level of the building.

8. Roof Signs: The height of the sign face of roof signs shall not exceed twenty percent (20%) of the height of the building or ten feet (10'), whichever is less.

9. Wall Signs: Wall signs may extend to the top of the vertical building wall.

10. Window Signs: In the RB, RO, R-MU, CN and CB districts only, window signs shall not be located above the first floor. In other districts where window signs are allowed, they may be located on all floors.

11. Outdoor Television Monitor: Shall not be located above the second floor of the building.

K. Signs On Public Property: Except for portable signs authorized pursuant to section 21A.46.055 of this chapter, no sign shall be located on publicly owned land or inside street rights of way, except signs erected by permission of an authorized public agency.

L. Extension Of Building Signs: The following building signs shall be allowed to extend beyond the face of buildings or structures in conformance with the following provisions:

1. Flat Signs: A flat sign, with no copy visible from the sides, may extend a maximum of two feet (2') from the face of the building, even when the extension extends over the public right of way, subject to the city's right of way encroachment policy.

2. Projecting Building Signs: Projecting building signs may extend a maximum of six feet (6') from the face of the building but shall not extend over a public right of way, except in the D-1 and D-4 zones as allowed in section 21A.46.110 of this chapter.

3. Awning/Canopy And Marquee Signs: As authorized in other sections of this chapter.

M. Roof Signs: Roof signs shall conform to the following standards:

1. The height of the sign face of roof signs shall not exceed twenty percent (20%) of the height of the building or ten feet (10'), whichever is less;

2. No guywires, braces or secondary supports visible from the ground shall be used;

3. Roof signs shall be designed to appear as extensions of the exterior building wall as shown in figure 21A.46.020 of this chapter or be located on the elevator/mechanical penthouse or, on buildings taller than one hundred feet (100'), may be located on blank walls at the highest inhabitable level; and

4. Roof signs shall not exceed the maximum permitted height for the zoning district in which it is located.

N. Marquees: Marquees designed to project over public property shall:

1. Frontage Requirement: Extend across a major portion of the building entrance.

2. Height Limitation: Be located on the main entry level of the premises.

3. Thickness: Have a vertical face height or cross section dimension not exceeding three feet (3').

4. Clearance: Have a clearance of at least ten feet (10') above the sidewalk.

5. Projection: Extend a maximum of twelve feet (12') from the face of the building but must not project closer than two feet (2') to the back of the curb.

6. Location: Be so located as not to interfere with the operation of any exterior standpipe or to obstruct the clear passage of stairways or exits from the building.

7. Shelter: In order to provide pedestrian shelter, a marquee shall have its first six feet (6') of projection form a rectangle with the sides ninety degrees (90°) to the building face and the plane at least six feet (6') from the building parallel with the front property line. The remaining projection of the marquee can assume a configuration compatible with the architecture of the building.

O. Marquee Signs: Signs attached to an approved marquee, as specified in subsection N of this section, may extend over public property a maximum of twelve inches (12") from the face of the marquee. Copy is allowed on the sides of the marquee. Signs placed within or below the ceiling of a marquee shall not extend beyond the marquee face and shall be placed within the vertical plane of the marquee. Within a commercial or downtown district, a permanent sign or letters may be attached to the top of, or fascia of, or within or below the ceiling of an approved marquee, subject to the following standards:

1. Vertical Dimension: Overall vertical dimensions of the combined sign and marquee shall not exceed five feet (5').

2. Height Of Sign: The height of the sign or letters shall not exceed two feet (2').

3. No Side Copy: Signs attached to marquees shall have no copy on the side portion of the sign.

4. Clearance: Signs attached to marquees shall maintain the minimum ten foot (10') clearance required for the marquee.

P. New Development Sign: New development signs shall be permitted during construction through initial occupancy of ninety five percent (95%) of floor space for a nonresidential development and through ninety five percent (95%) initial unit occupancy for a residential development. New development signs shall be removed upon two (2) years of use, regardless of the level of occupancy. See sections 21A.46.080, 21A.46.090, 21A.46.100, 21A.46.110 and 21A.46.120 of this chapter for zoning district limitations on size, height and location of new development signs.

Q. Temporary Signs: Temporary signs shall comply with the following standards:

1. Required Setback: All temporary signs shall be set back five feet (5') from all property lines, except where displayed as building signs on buildings set back less than five feet (5') or where the sign setback is otherwise specified in this title.

2. Display Period And Removal: Temporary signs shall be permitted in accordance with the standards set forth below for display period and removal, unless specified otherwise in this title:

Sign Type[1]	Display Period	Removal Required 3 Days After
Construction impact area mitigation sign	Per city guidelines[2]	Per city guidelines[2]
Construction sign	Duration of construction	Completion
Garage/yard sale sign	2 sales per year (7 days maximum per sale)	End of sale
Political sign	No limit	Election/voting day
Public event banner (on public property)	Per city guidelines	Per city guidelines
Real estate sign	Duration of listing	Closing/lease commencement date
Special event	Duration of event	End of event
Vacancy sign	Duration of vacancy	Date of lease or of purchase and sale contract

Notes:
1.See sections 21A.46.080, 21A.46.090, 21A.46.100, 21A.46.110 and 21A.46.120 of this chapter for zoning district limitations on the size, height and location of temporary signs.
2.See section 21A.46.180, "Construction Impact Area Mitigation Signs", of this chapter.

R. Flags Of Fraternal, Religious Or Civic Organizations: Flags of fraternal, religious and civic organizations are permitted as on premises signs, but shall not exceed thirty (30) square feet in area.

S. Official Flags: Official flags shall not project over a property line, except within the D-1 and D-4 zoning districts, where official flags are allowed to project up to eight feet (8') across the property line, but not within two feet (2') of the curb line. The pole support must be attached directly to the building and located so that all portions of the flag clear the pedestrian level of the building. Flags shall not interfere with street trees, light poles, utility lines, etc., and shall maintain a ten foot (10') clearance from the sidewalk.

T. Freeway Height Exception: The height of on premises pole signs located on properties adjacent to I-15, I-80, I-215 and the 2100 South Expressway (State Route 201) may be increased to a height of twenty five feet (25') above the pavement grade of the adjacent freeway if the sign is freeway oriented and located within three hundred feet (300') of the freeway.

U. Freeway Frontage: Freeways shall be considered street frontage for signage purposes. Pole and monument signs approved on freeway frontage shall be limited to seventy five percent (75%) of the maximum size allowed for the zone. Reduced size pole and monument signs shall be interchangeable with other pole and monument signs on the same site.

V. Historic District Signs: The historic landmark commission may authorize, as a special exception, modification to an existing sign or the size or placement of a new sign in a historic district or on a landmark site if the applicant can demonstrate that the location, size and/or design of the proposed sign is compatible with the design period or theme of the historic structure or district and/or will cause less physical damage to the historically significant structure.

W. Sign Area Determination: Sign face area square footage shall be determined as follows:

1. Flat Signs (Excluding Letter Signs And Backlit Awnings) And Wall Signs: The entire surface of the sign face shall be measured.

2. Backlit Awnings And Letter Signs: A polygon, not to exceed eight (8) sides, shall be drawn around the copy area to enclose as nearly as possible the space covered by the copy.

3. All Signs: Words, symbols, letters, images, logos and all other designs that are intended to convey a message shall be included in calculating the sign face area. Colors, stripes and other designs that are not intended to convey a message shall not be included. (Ord. 73-11, 2011: Ord. 62-09 § 2, 2009: Ord. 77-08 § 1, 2008: Ord. 5-05 § 4, 2005: Ord. 13-04 § 23, 2004: Ord. 78-03 § 4, 2003: Ord. 62-03 § 1, 2003: Ord. 61-00 §§ 3 _ 6, 2000: Ord. 53-00 § 4, 2000: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.075: NEON PUBLIC PARKING SIGNS:

Neon public parking signs are permitted under contract with the Salt Lake City transportation division as part of the neon public parking sign program provided they comply with section 21A.46.030 and subsections 21A.46.070A through I of this chapter. Neon public parking signs are not regulated by the specific zoning district sign regulations and are not limited by, nor do they limit the number of signs otherwise allowed in a zoning district. Neon public parking signs shall comply with the following:

A. Location: Neon public parking signs are permitted on, or near, parking facilities allowed as permitted or conditional uses in nonresidential zoning districts within the area bound by 200 North Street, 300 East Street, 900 South Street, and I-15; and the area bound by 200 North, I-15, 600 North, and 200 West.

B. Dimensions And Design: Neon public parking signs shall be dimensioned and designed as shown in figure 21A.46.020 of this chapter.

C. Height And Elevation: The height and elevation of neon public parking signs shall conform to the following provisions:

1. Projecting Neon Public Parking Signs: A projecting neon public parking sign shall be located at the parking entry level of the building.

2. Freestanding Neon Public Parking Signs: A minimum clearance of ten feet (10') shall be provided between the ground and the bottom of the sign face of the neon public parking sign. A neon public parking sign shall not exceed fifteen feet (15') in height.

D. Minimum Setback: No minimum setback shall be required for neon public parking signs. Neon public parking signs encroaching on or over the public right of way shall obtain permission from the city pursuant to the city's rights of way encroachment policy.

E. Number Of Neon Public Parking Signs Permitted: Neon public parking signs are limited to one per driveway or parking lot entry.

F. Neon Public Parking Signs On Public Property: The Salt Lake City transportation and engineering divisions may approve neon public parking signs, with any necessary support structure, on publicly owned land or on public rights of way pursuant to the city's rights of way encroachment policy. All necessary building and electrical permits must be obtained for the sign.

G. Neon Public Parking Signs In Historic Districts: A neon public parking sign proposed in a historic preservation overlay district, or on a structure or site listed on the Salt Lake City register of cultural resources, shall require review and approval by the historic landmark commission or Salt Lake City planning director or designee in accordance with section 21A.34.020 of this title. (Ord. 67-04 § 3, 2004)

21A.46.080: SIGN REGULATIONS FOR RESIDENTIAL DISTRICTS:

The following regulations shall apply to signs permitted in the residential districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For Single-Family And Two-Family Residential Districts:

1. Purpose: Signage in the single-family and two-family residential districts should be used for purposes typically accessory to single-family and two-family residential use and which do not impact neighboring residences. The sign regulations of these districts are intended to limit the type, number, size and duration of signage permitted in single-family or two-family residential districts in order to prevent the creation of nuisances and impacts on the use and enjoyment of surrounding residential property.

2. Applicability: Regulations in subsection A3 of this section shall apply to districts which are either entirely or predominantly single-family residential in character. The districts that shall be subject to these regulations are the FR-1, FR-2, FR-3, R-1/12,000, R-1/7,000, R-1/5,000, R-2, SR-1 and SR-3 districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE FR-1, FR-2, FR-3, R-1/12,000, R-1/7,000, R-1/5,000, R-2, SR-1 AND SR-3 DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[3]	Number Of Signs Permitted
Construction sign	16 square feet	4 feet	1 per street frontage
Development entry sign[2]	50 square feet	4 feet	1 per entry; 2 maximum
Flat and monument signs for permitted/conditional nonresidential uses[2,4]	24 square feet each	4 feet[3]	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet	1 per street frontage
Nameplate	1 square foot	n/a	1 per dwelling
New development sign[1] (new subdivision only)	120 square feet per sign; up to a total of 160 square feet	10 feet	1 per street frontage; 2 maximum
Political sign	8 square feet	4 feet	No limit
Private directional sign	8 square feet	4 feet	No limit
Public safety sign	8 square feet	6 feet	No limit
Real estate sign	8 square feet	4 feet	1 per street frontage
Signs for nonconforming businesses (see subsection A4a of this section)	See subsection A4a of this section	See subsection A4a of this section	See subsection A4a of this section
Special event sign	16 square feet	6 feet	1 per street frontage

Notes:
1.10 foot setback required.
2.Monument and development signs shall have a 5 foot setback, unless integrated into the fence structure. Height requirements for fence apply.
3.For height limits on building sign, see subsection 21A.46.070J of this chapter.
4.Backlit awnings excluded.

4. Supplementary Regulations:

a. Signs For Nonconforming Business Uses: Signs for permitted nonconforming business uses shall conform to subsection 21A.46.090A4 of this chapter, sign regulations for the CN district.

b. Illumination: Signs for residential uses shall not be internally illuminated, except for new development signs and development entry signs.

B. Sign Regulations For Multi-Family Residential Districts:

1. Purpose: Signage in the multi-family districts should allow for appropriate identification of multi-family buildings. The purpose of these regulations is to protect the residential living environment of residents while providing for appropriate building identification and other forms of signage consistent with the needs of multi-family residents.

2. Applicability: Regulations in subsection B3 of this section shall apply to all uses within the RMF-30, RMF-35, RMF-45 and RMF-75 districts. The regulations apply to each multi-family building, whether on a separate lot of record, or as part of a multi-family development which may have multiple buildings on a lot. Regulations on new development signs and development entry signs shall apply to the lot, regardless of the number of buildings on the lot.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE RMF-30, RMF-35, RMF-45 AND RMF-75 DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[3]	Number Of Signs Permitted
Construction sign	16 square feet	4 feet	1 per street frontage
Development entry sign[2]	50 square feet	4 feet	1 per entry; 2 maximum
Flat sign for residential uses[4,5]	10 square feet	See note 3	1 per street frontage
Flat signs for permitted/ conditional nonresidential uses[2,5]	24 square feet	See note 3	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet	1 per street frontage
Marquee sign[4]	10 square feet	See note 3	1 per building
Monument sign[2,4]	24 square feet	4 feet	1 per lot
Nameplate	2 square feet	n/a	1 per building entry
New development sign[1]	80 square feet	10 feet	1 per street frontage
Political sign	16 square feet	4 feet	No limit
Private directional sign	8 square feet	4 feet	No limit
Public safety sign	8 square feet	6 feet	No limit
Real estate sign	8 square feet	4 feet	1 per street frontage
Signs for nonconforming businesses (see subsection B4a of this section)	See subsection B4a of this section	See subsection B4a of this section	See subsection B4a of this section
Special event sign	16 square feet	6 feet	1 per street frontage

Notes:
1.10 foot setback required.
2.Monument signs shall have a 5 foot setback unless integrated into the fence structure. Height requirements for fence apply.
3.For height limits on building signs, see subsection 21A.46.070J of this chapter.
4.Shall not be permitted for one- through seven-family dwellings.
5.Backlit awnings excluded.

4. Supplementary Regulations:

a. Nonconforming Business Uses: Signs for permitted nonconforming business uses shall conform to subsection 21A.46.090A4 of this chapter, sign regulations for the CN district.

b. Illumination: Illuminated signs for multi-family buildings or developments shall be limited to new development signs, development entry signs, flat signs, marquee signs and monument signs.

C. Sign Regulations For The RB And RO Districts:

1. Purpose: The purpose of sign regulations for the RB and RO districts is to establish standards that allow for modest commercial signage while protecting the predominant residential character of these districts.

2. Applicability: Regulations in subsections C3 and C5 of this section, respectively, shall apply to all uses within the RB and RO districts. These regulations apply to each lot, regardless of the number of buildings on a lot.

3. Sign Type, Size And Height Regulations:

STANDARDS FOR THE RB DISTRICT

Type Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback	Number Of Signs Permitted Per Sign Type
Awning sign/ canopy sign	10 square feet (sign area only)	See note 1	May extend 6 feet from face of building, but shall not extend across a property line	1 per first floor door/window
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face
Construction sign	32 square feet	4 feet	5 feet	1 per street frontage
Development entry sign[2]	50 square feet	8 feet	10 feet	1 per entry; 2 maximum
Flat sign[3]	20 square feet	See note 1	n/a	1 per lot
Garage/yard sale sign	6 square feet	4 feet	5 feet	1 per street frontage
Monument sign[2]	24 square feet	4 feet	5 feet	1 per lot
Nameplate	2 square feet	See note 1	n/a	1 per building entry
New development sign	80 square feet	10 feet	10 feet	1 per street frontage
Political sign	16 square feet	4 feet	5 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	5 feet	No limit
Real estate sign	8 square feet	4 feet	5 feet	1 per street frontage
Window sign	6 square feet	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Monument signs shall have a 5 foot setback unless integrated into the fence structure. Height requirements for fence apply.
3.Backlit awnings excluded.

4. Illumination: Illuminated signs in the RB district shall be limited to development entry signs, flat signs, window signs and monument signs.

5. Sign Type, Size And Height Regulations For The RO District:

STANDARDS FOR THE RO DISTRICT

Type Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback	Number Of Signs Permitted Per Sign Type
Awning sign/ canopy sign	10 square feet (sign area only)	See note 1	May extend 6 feet from face of building, but shall not extend across a property line	1 per first floor door/window

Construction sign	32 square feet	4 feet	5 feet	1 per street frontage
Development entry sign[2]	50 square feet	8 feet	10 feet	1 per entry; 2 maximum
Flat sign[3,4]	6 square feet for each 50 feet of building frontage or major portion thereof	See note 1	n/a	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet	5 feet	1 per street frontage
Monument sign[2]	32 square feet	4 feet	5 feet	1 per street frontage
Nameplate	2 square feet	See note 1	n/a	1 per building entry
New development sign	80 square feet	10 feet	10 feet	1 per street frontage
Political sign	16 square feet	4 feet	5 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	5 feet	No limit
Real estate sign	16 square feet	6 feet	5 feet	1 per street frontage
Window sign	6 square feet	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Monument signs shall have a 5 foot setback unless integrated into the fence structure. Height requirements for fence apply.
3.Storefront flat signs limited to locations on the lower 2 floors.
4.Backlit awnings excluded.

(Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.090: SIGN REGULATIONS FOR MIXED USE AND COMMERCIAL DISTRICTS:

The following regulations shall apply to signs permitted in the residential mixed use, mixed use and commercial districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The R-MU-35, R-MU-45, R-MU, MU, SNB, CN And CB Districts:

1. Purpose: Signage in the R-MU-35, R-MU-45, R-MU, MU, SNB, CN and CB districts should be appropriate for small scale commercial uses and business districts. These districts are located in proximity to residential areas or, in the case of the R-MU-35, R-MU-45, R-MU and MU districts, contain a residential/commercial mix of uses. The sign regulations for these districts are intended to permit signage that is appropriate for small scale commercial uses and business districts, with minimum impacts on nearby residential uses.

2. Applicability: Regulations in subsections A3, A4 and A5 of this section, respectively, shall apply to all uses within the R-MU-35, R-MU-45, R-MU, MU, CN and CB districts.

3. Sign Type, Size And Height Standards For The R-MU-35, R-MU-45, R-MU And MU Districts:

STANDARDS FOR THE R-MU-35, R-MU-45, R-MU AND MU DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[4]
Awning sign/ canopy sign	1 square foot per linear foot of storefront; building total not to exceed 40 square feet (sign area only)	See note 1	May extend 6 feet from face of building 2 feet from back of curb[6]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	32 square feet	8 feet	5 feet	1 per street frontage	None
Flat sign (general building orientation)[8]	1 square foot per linear foot of building frontage[5]	See note 1	n/a	1 sign per building frontage	None
Flat sign (storefront orientation)[7,8]	1 square foot per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Garage/yard sale sign	6 square feet	4 feet	5 feet	1 per street frontage	None
Monument and pole signs:					
Monument sign[3]	100 square feet	12 feet	5 feet	1 per street frontage	1 sign per street frontage
Pole sign (1 acre minimum)	75 square feet	25 feet	15 feet and a 6 foot maximum projection	1 per street frontage	
Nameplate	2 square feet	See note 1	n/a	1 per building entry	None
New development sign	80 square feet	10 feet	5 feet	1 per street frontage	None
Political sign	16 square feet	6 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	16 square feet	6 feet	5 feet	1 per street frontage	None
Window sign	25% of window area of each use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.Monument signs shall have a 5 foot setback, unless integrated into the fence structure. Height requirements for fence apply.
4.The total number of signs permitted from the sign types combined.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.
7.Storefront flat signs limited to locations on the lower 2 floors.
8.Backlit awnings excluded.

4. Sign Type, Size And Height Standards For The CN District:

STANDARDS FOR THE CN DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning sign/ canopy sign	1 square foot per linear foot of storefront; building total not to exceed 40 square feet (sign area only)	See note 1	May extend 6 feet from face of building, but shall not extend across a property line	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	32 square feet	8 feet	5 feet	2 per building	None
Flat sign (storefront orientation)[5]	1 square foot per linear foot of store frontage[4]	See note 1	n/a	1 per business or storefront	None
Monument sign	75 square feet	5 feet	5 feet	1 per street frontage	None
Nameplate	2 square feet	See note 1	n/a	1 per building entry	None
New development sign	80 square feet	10 feet	5 feet	1 per development	None
Political sign	16 square feet	6 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	16 square feet	6 feet	5 feet	1 per street frontage	None
Wall or flat sign (general building orientation)	1 square foot per linear foot of building frontage[4]	See note 1	n/a	1 per building frontage	None
Window sign	25% of window area of each use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
5.Storefront flat signs limited to locations on the lower 2 floors.

5. Sign Type, Size And Height Standards For The CB District:

STANDARDS FOR THE CB DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[4]
Awning sign/ canopy sign	1 square foot per linear foot of storefront; building total not to exceed 40 square feet (sign area only)	See note 1	May extend 6 feet from face of building[6]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	1 per street frontage
Construction sign	32 square feet	8 feet	5 feet	2 per building	None
Flat sign (storefront orientation)[7]	1 square foot per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign[3]	100 square feet	6 feet 12 feet 20 feet (1 acre mini-mum)	5 feet 10 feet 10 feet	1 per street frontage	1 per street frontage
Pole sign[3] (1 acre minimum)	75 square feet for a single business. 100 square feet for multiple businesses	25 feet	15 feet and a maximum 6 foot projection	1 per street frontage	
Nameplate	2 square feet	See note 1	n/a	1 per building entry	None
New development sign	80 square feet	10 feet	5 feet	1 per development	None

Political sign	16 square feet	6 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	16 square feet	6 feet	5 feet	1 per street frontage	None
Wall or flat sign (general building orientation)	1 square foot per linear foot of building frontage[5]	See note 1	n/a	1 sign per building frontage	None
Window sign	25% of window area of each use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.Pole and monument signs shall be permitted only when located in or adjacent to a required landscaped setback.
4.The total number of signs permitted from the sign types combined.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.
7.Storefront flat signs limited to locations on the lower 2 floors.

6. Sign Type, Size And Height Standards For The SNB Districts:

STANDARDS FOR THE SNB DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback	Number Of Signs Permitted Per Sign Type
Awning sign/ canopy sign[3]	10 square feet (sign area only)	See note 1	May extend 5 feet from face of building, but shall not extend across a property line	1 per first floor door/window
Construction sign	16 square feet	4 feet	3 feet	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet	3 feet	1 per street frontage
Nameplate	2 square feet	See note 1	n/a	1 per building entry
Political sign	10 square feet	4 feet	5 feet	No limit
Private directional sign	6 square feet	4 feet	3 feet	No limit
Projecting business storefront sign	4 square feet per side; 8 square feet total	Sign face limited to 2 feet in height[1]	May extend 4 feet from the face of the building, but no more than 2 feet from back of curb[2]	1 per street frontage
Public safety sign	8 square feet	6 feet	5 feet	No limit
Real estate sign	8 square feet	4 feet	5 feet	1 per street frontage
Window sign	4 square feet	See note 1	n/a	Not to exceed 25% of the window area or compromise the "visible" qualities of a window, see section 21A.46.020 of this chapter for definition

Notes:
1. For height limits on building signs, see subsection 21A.46.070J of this chapter.
2. Public property lease and insurance required for projection over property line.
3. Signs on awnings may only face parallel or perpendicular to the building, see sign illustrations for an example.

B. Sign Regulations For The CS District:

1. Purpose: Signage in the CS district should be appropriate for the type of coordinated commercial development the CS district was established to promote. The sign regulations for this district are intended to encourage coordinated signage between multiple buildings/uses on a site, achieve consistency of materials, and integrate signage with landscape and architectural design expressions.

2. Applicability: Regulations in subsection B4 of this section shall apply to all uses within the CS district.

3. Applicability Of Planned Development Regulations To Signage: As provided in section 21A.26.040 of this title, all development within the CS district, including signage, shall be subject to the planned development provisions set forth in chapter 21A.55 of this title. Any change in signage subsequent to planned development approval is allowed subject to compliance with the provisions of this title or the specific requirements of the planned development approval.

4. Sign Type, Size And Height Standards:

STANDARDS FOR THE CS DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[4]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning sign/ canopy sign	1 square foot per linear foot of storefront; building total not to exceed 40 square feet (sign area only)	See note 1	May extend 6 feet from face of building, but shall not extend across a property line	1 per first floor door/ window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	10 feet	2 per building	None
Flat sign (storefront orientation)[6]	1 square foot per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign[2]	100 square feet	12 feet 6 feet	10 feet 5 feet	1 per pad site	1 per pad site
Pole sign[2]	75 square feet	25 feet	At the approved landscape setback with a 6 foot projection, but shall not extend across a property line	1 per pad site	
Nameplate	2 square feet	See note 1	n/a	1 per building entry	None
New development sign	200 square feet per sign	12 feet	10 feet	1 per street frontage	None
Political sign	32 square feet	8 feet	10 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	10 feet	No limit	None
Real estate sign	64 square feet	12 feet	10 feet	1 per building	None
Shopping center identification sign	200 square feet	25 feet	10 feet	1 per street frontage	None
Wall or flat sign (general building orientation)	1 square foot per linear foot of building frontage[5]	See note 1	n/a	1 per building frontage	None
Window sign	25% of total frontage window area per floor	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Permitted only for freestanding buildings within shopping centers.
3.The total number of signs permitted from the sign types combined.
4.Not applicable to temporary signs mounted as flat signs.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Storefront flat signs limited to locations on the lower 2 floors.

5. Supplementary Regulations:

a. Sign Structures: Structures supporting monument and shopping center identification signs shall be compatible with exterior materials used in building exteriors within the shopping center.

b. Landscape: Freestanding signs shall be located within landscaped areas not less than two hundred (200) square feet in size. Planting within such landscaped areas shall be approved by the zoning administrator.

c. Items Of Information: Shopping center identification signs shall be limited to the name of the shopping center and the names of tenants or businesses located in the shopping center.

C. Sign Regulations For The CC District:

1. Purpose: Signage in the CC district should be appropriate for lot by lot commercial development on smaller parcels along highly traveled roadways. The regulations for this district are intended to: a) promote traffic safety by enhancing visual clarity for passing motorists; b) enhance the aesthetics of business areas within the CC district; c) coordinate signage and landscape requirements of the CC district; and d) relate the physical dimensions of signs to the scale of buildings and lots within the district.

2. Applicability: Regulations in subsection C3 of this section shall apply to all lots within the CC district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE CC DISTRICT

Types Of Signs Permitted Per Use	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awnings/canopy signs	1 square foot per linear foot of storefront; building total not to exceed 40 square feet (sign area only)	See note 1	10 feet	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	5 feet	1 per street frontage	None
Flat sign (storefront orientation)[6]	1.5 square feet per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign[4]	100 square feet	6 feet 12 feet 20 feet (1 acre minimum)	None 5 feet	1 per street frontage	1 per street frontage
Pole sign[4]	75 square feet for a single business, 100 square feet for multiple businesses	25 feet	15 feet and a maximum 6 foot projection	1 per street frontage	
Nameplate	2 square feet	See note 1	n/a	1 per building entry	None
New development sign	80 square feet	12 feet	5 feet	1 per development	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	64 square feet	12 feet	5 feet	1 per street frontage	None

Wall or flat sign (general building orientation)	1 square foot per linear foot of building frontage[5]	See note 1	n/a	1 per building frontage	None
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.See subsection C4a of this section.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Storefront flat signs limited to locations on the lower 2 floors.

4. Supplementary Regulations:

a. Lot Frontage Requirements: A minimum lot frontage of one hundred feet (100') shall be required for pole signs or monument signs.

D. Sign Regulations For The CSHBD And CG Districts:

1. Purpose: Sign regulations for the CSHBD and CG districts are established to respond to the existing diversity in signage characteristics within these districts. Although these districts differ in terms of use and bulk regulations, they are seen as having similar needs for signage and are, therefore, treated the same with respect to sign controls.

2. Applicability: Regulations in subsections D3 and D4 of this section, respectively, shall apply to all lots within the CSHBD and CG districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE CSHBD DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building 2 feet from back of curb[5]	1 per first floor door/window
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face
Construction sign	64 square feet	12 feet	None	1 per street frontage
Flat sign (storefront orientation)[6]	2 square feet per linear foot of store frontage[4]	See note 1	n/a	1 per business or storefront
Marquee sign	1 square foot per linear foot of store frontage	See note 1	See subsection 21A.46.070O of this chapter	1 per storefront
Monument sign[3]	100 square feet	20 feet	None	1 per street frontage
Nameplate	2 square feet	See note 1	n/a	1 per building entry
New development sign	80 square feet	12 feet	None	1 per development
Pole sign[3]	75 square feet for a single business, 100 square feet for multiple businesses	25 feet	No extension across a property line is permitted	1 per street frontage
Political sign	32 square feet	8 feet	None	No limit
Private directional sign	8 square feet	4 feet	None	No limit
Projecting building sign	0.5 square foot per linear foot of street frontage; not to exceed 40 square feet	See note 1	May extend 6 feet from face of building, but shall not cross a property line	1 per street frontage
Public safety sign	8 square feet	6 feet	None	No limit
Real estate sign	64 square feet	12 feet	None	1 per street frontage
Wall sign or flat sign (general building orientation)	1 square foot per linear foot of building face[4]	See note 1	n/a	1 per building face
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.See subsection D6a of this section.
4.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
5.Public property lease and insurance required for projection over property line.
6.Storefront flat signs limited to locations on the lower 2 floors.

4. Sign Type, Size And Height Standards:

STANDARDS FOR THE CG DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building, but shall not cross a property line	1 per first floor door/window
Canopy, drive-through	40% of canopy face if signage is on 2 faces. 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face
Construction sign	64 square feet	12 feet	5 feet	1 per street frontage
Flat sign (storefront orientation)[5]	2 square feet per linear foot of store frontage[4]	See note 1	n/a	1 per business or storefront
Marquee sign	1 square foot per linear foot of store frontage	See note 1	See subsection 21A.46.070O of this chapter	1 per storefront
Monument sign[3]	1 square foot per linear foot of street frontage	20 feet 8 feet	4 feet None	1 per street frontage
Nameplate	2 square feet	See note 1	n/a	1 per building entry
New development sign	200 square feet	12 feet	5 feet	1 per street frontage
Pole sign[3]	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	35 feet	10 feet with a maximum 6 foot projection. No extension across a property line is permitted	1 per street frontage
Political sign	32 square feet	8 feet	5 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	5 feet	No limit
Real estate sign	64 square feet	12 feet	5 feet	1 per street frontage
Sexually oriented business signs	See section 21A.36.140 of this title			
Wall sign or flat sign (general building orientation)	1 square foot per linear foot of building face[4]	See note 1	n/a	1 per building face
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.See subsection D6a of this section.
4.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
5.Storefront flat signs limited to locations on the lower 2 floors.

5. Sign Type, Size And Height Standards For The New Automotive Dealership Localized Alternative Sign Overlay District: For purposes of this localized alternative sign overlay district only, the following definitions shall apply:

BUSINESS: Each of the following shall constitute a separate business or storefront: new automobile franchise, service business for new automobile franchise, parts business, manufacturer certified used automobile business in conjunction with new automobile franchise, cafe, car wash, and such other separate business units operated on the property and affiliated with the new automotive dealership business operating on the property.

PROPERTY: That certain real property constituting approximately eleven (11) acres located at 1530 South and 500 West, Salt Lake City, and more particularly described as Sidwell parcel number 15-13-152-002.

STANDARDS FOR THE NEW AUTOMOBILE DEALERSHIP
LOCALIZED ALTERNATIVE SIGN OVERLAY DISTRICT[1]

Types Of Signs Permitted	Maximum Area Of Signage	Maximum Height Of Freestanding Signs[2]	Minimum Setback[3]	Number Of Signs Permitted Per Sign Type
Flat sign (storefront orientation)[5]	2 square feet per linear foot of store frontage[4]	See note 2	n/a	1 per business or storefront
Pole sign	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	35 feet or 25 feet above pavement grade of the adjacent freeway per subsection 21A.46.070T of this chapter	10 feet with a maximum 6 feet projection. No extension across a property line is permitted	1 per each 150 linear feet of street frontage with each sign separated by at least 100 feet, provided that a manufacturer franchise be displayed only once on a pole sign on the property
Wall sign or flat sign (general building orientation)	1 square foot per linear foot of building face[4]	See note 2	n/a[4]	1 per building face

Notes:
1. All other sign types and standards not specifically listed in the automobile dealership overlay shall be regulated under the standards within the applicable zoning district.
2. For height limits on building signs, see subsection 21A.46.070J of this chapter.
3. Not applicable to temporary signs mounted as flat signs.
4. A multiple franchise automobile dealership may combine the square footage total of both the storefront orientation and the general building orientation flat and wall signs, subject to a maximum combined area of signage not to exceed 3 square feet per linear foot of building face.
5. Storefront flat signs limited to locations on the lower 2 floors.

6. Supplementary Regulations:

a. Lot Frontage Requirements: A minimum lot frontage of one hundred feet (100') shall be required for pole signs or monument signs. (Ord. 59-12, 2012: Ord. 23-10 § 15, 2010: Ord. 71-04 §§ 23, 24 (Exh. F), 2004: Ord. 17-04 § 3 (Exh. B), 2004: Ord. 14-03 §§ 1, 2, 2003: Ord. 53-00 §§ 6-9, 2000: Ord. 35-99 §§ 77, 78, 1999: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.095: SIGN REGULATIONS FOR TRANSIT CORRIDOR AND TRANSIT STATION AREA DISTRICTS:

The following regulations shall apply to signs permitted in transit corridor and transit station area districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The TC-75 Transit Corridor District And TSA Transit Station Area District:

1. Purpose: Sign regulations for the TC-75 and TSA districts are intended to provide for appropriate signage oriented primarily to pedestrian and mass transit traffic.

2. Applicability: Regulations in subsection A3 of this section shall apply to all lots within the TC-75 and TSA districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE TRANSIT CORRIDOR DISTRICT (TC-75)
AND TRANSIT STATION AREA DISTRICT (TSA)

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building, but no more than 2 feet from back of curb[6]	1 per street frontage	None
Construction sign	64 square feet	12 feet	5 feet or on construction fence	2 per building	None
Flat sign (general building orientation)	1.5 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	None
Flat sign (storefront orientation)[4]	1.5 square feet per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Marquee sign	Subject only to subsection 21A.46.070O of this chapter			1 per storefront	None
Monument sign	100 square feet	12 feet	None	1 per street frontage	
Nameplate, identifying building name	3 square feet	8 feet	n/a	1 per building	None
New development sign	80 square feet	12 feet	5 feet	1 per development	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Projecting business storefront sign	4 square feet per side; 8 square feet total	Sign face limited to 2 feet in height[1]	May extend 4 feet from the face of the building, but no more than 2 feet from back of curb[6]	1 per business entry to the street	None
Projecting parking entry sign	4 square feet per side; 8 square feet total	See note 1. Sign face limited to 2 feet in height	May extend 4 feet from the face of the building, but no more than 2 feet from back of curb[6]	1 per driveway or parking lot entry	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	64 square feet	12 feet	5 feet	1 per building	None
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.

(Ord. 59-10, 2010)

21A.46.100: SIGN REGULATIONS FOR MANUFACTURING DISTRICTS:

The following regulations shall apply to signs permitted in the manufacturing districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The M-1 And M-2 Manufacturing Districts:

1. Purpose: Sign regulations for the M-1 and M-2 districts are intended to provide for appropriate identification of industrial and manufacturing uses. Signage should enhance the aesthetics of the districts, rather than clutter the area. Supportive commercial signage should be in scale with industrial signage.

2. Applicability: Regulations in subsection A3 of this section shall apply to all lots within the M-1 and M-2 districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE M-1 AND M-2 DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building, but shall not cross a property line	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces; 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	10 feet	1 per street frontage	None
Development entry sign	160 square feet maximum per sign; 200 square feet total for 2 signs	10 feet	10 feet		1 per street frontage
Flat sign (storefront orientation)[4]	2 square feet per linear foot of store frontage[6]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign[5]	1 square foot per linear foot of street frontage	5 feet 10 feet	5 feet 10 feet	1 per street frontage	1 sign per street frontage
Pole sign[5]	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	25 feet	15 feet	1 per street frontage	
New development sign	160 square feet per sign; 200 square feet total	12 feet	10 feet	1 per street frontage	None
Political sign	32 square feet	8 feet	10 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	10 feet	No limit	None
Real estate sign	64 square feet	12 feet	10 feet	1 per street frontage	None
Sexually oriented business signs	See section 21A.36.140 of this title				
Wall sign or flat sign[4]	1.5 square feet per linear foot of each building face	See note 1	n/a	1 per building face	None
Window sign	25% of total frontage window area per floor	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.See subsection A4a of this section.
6.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.

4. Supplementary Regulations:

a. Lot Frontage Requirements: A minimum lot frontage of one hundred feet (100') shall be required for pole signs or monument signs. (Ord. 17-04 § 4 (Exh. C), 2004: Ord. 13-04 § 24 (Exh. J), 2004: Ord. 35-99 § 79, 1999: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.110: SIGN REGULATIONS FOR DOWNTOWN DISTRICTS:

The following regulations shall apply to signs permitted in the downtown districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The D-1 And D-4 Downtown Districts:

1. Purpose: Signage in the D-1 and D-4 downtown districts should reflect the unique character of the downtown as a regional center for commercial, cultural, entertainment and civic activity. Sign regulations for these districts are intended to allow for the design of signage that complements the downtown's dynamic physical and functional characteristics.

2. Applicability: Regulations in subsection A3a of this section shall apply to all uses within the D-1 and D-4 districts.

3. Sign Type, Size And Height Standards:

a. D-1 And D-4 Districts:

STANDARDS FOR THE D-1 AND D-4 DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building but not within 2 feet of the back of curb[6]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces; 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Canopy signs	1 square foot per linear foot of storefront (sign area only); 20 square feet maximum per canopy	See note 1	May extend from face of building but not within 2 feet of the back of curb[6]	1 per first floor building entry	None
Construction sign	64 square feet	12 feet	5 feet	1 per storefront	None
Corporate flag	32 square feet	See subsection A4c of this section	8 feet from face of building but not within 2 feet of the back of curb[6]	1 per 50 feet of street frontage, 50 foot minimum street frontage required	2 per street frontage
Flat sign (general building orientation)	4 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	None
Flat sign (storefront orientation)[4]	2 square feet per linear foot of each store frontage[5]	See note 1	n/a	1 per business storefront	None
Marquee sign	Subject only to subsection 21A.46.070O of this chapter	See subsection 21A.46.070O of this chapter	See subsection 21A.46.070O of this chapter[6]	1 per storefront	None
Monument, pole, and projecting building signs:					
Monument sign	1 square foot per linear foot of street frontage	20 feet	None	1 per street frontage	1 sign per street frontage
Pole sign	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	45 feet	None, but shall not extend across a property line	1 per street frontage	

Projecting building sign	125 square feet per side; 250 square feet total	See note 1. (See subsection A4b of this section)	May extend 6 feet from face of building but not within 2 feet of the back of curb[6]	1 per street frontage (See subsection A4b of this section)	
Nameplate, building	3 square feet	8 square feet	None	1 per building	None
New development sign	200 square feet	12 feet	5 feet	1 per street frontage	None
Outdoor television monitor[4,7]	62 square feet	See note 1. Sign face limited to 8 feet in height	None	1 per building	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Projecting business storefront sign	9 square feet per side; 18 square feet total	See note 1. Sign face limited to 4 feet in height	May extend 4 feet from face of building but not within 2 feet of the back of curb[6]	1 per public business entry to the street	None
Projecting parking entry sign	9 square feet; 18 square feet total	See note 1. Sign face limited to 4 feet in height	May extend 4 feet from face of building but not within 2 feet of the back of curb[6]	1 per driveway or parking lot entry	None
Public safety sign	8 square feet	6 square feet	None	No limit	None
Real estate sign	32 square feet	8 feet	None	1 per street frontage	None
Roof signs	4 square feet per linear foot of building face or 6 square feet per linear foot of building face on buildings taller than 100 feet	See note 1	n/a	1 per street frontage	None
Window sign	25% of total frontage window area per use	No limit	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs and outdoor television monitors limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.
7.Allowed in conjunction with television stations only and are allowed only if the building contains a permanent broadcast studio for the television station of at least 15,000 square feet.

b. Sports Arena Located On The Block Between South Temple And 100 South Between 300 And 400 West Streets:

STANDARDS FOR THE SPORTS ARENA LOCATED ON THE
BLOCK BETWEEN SOUTH TEMPLE AND 100 SOUTH
BETWEEN 300 AND 400 WEST STREETS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building but not within 2 feet from back of curb[6]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces; 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	5 feet	1 per storefront	None
Flat sign (general building orientation)	4 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	None
Flat sign (storefront orientation)[4]	2 square feet per linear foot of each store frontage[5]	See note 1	n/a	3 per business storefront	None
Marquee sign	Subject only to subsection 21A.46.070O of this chapter	See subsection 21A.46.070O of this chapter	See subsection 21A.46.070O of this chapter	1 per storefront	None
Monument and pole signs:					
Monument sign	1 square foot per linear foot of street frontage	20 feet	None	1 per street frontage	1 sign per street frontage
Pole sign	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	45 feet	None, but shall not extend across a property line	1 per street frontage	
Nameplate, building	3 square feet	8 square feet	None	1 per building	None
New development sign	200 square feet	12 feet	5 feet	1 per street frontage	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 square feet	None	No limit	None
Real estate sign	32 square feet	8 feet	None	1 per street frontage	None
Roof signs	4 square feet per linear foot of building face or 6 square feet per linear foot of building face on buildings taller than 100 feet	See note 1	n/a	1 per street frontage	None
Window sign	25% of total frontage window area per use 90% of total frontage window area (interior or exterior) for sports arena events, not to exceed 3 months in duration for each calendar year[7]	No limit	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.
7.Verbiage and/or corporate logos are limited to on premises advertising of sports arena events only and are limited to 10 percent of the window coverage.

4. Supplementary Regulations:

a. Sign Setbacks: All freestanding signs shall be set back not less than five feet (5') from the front or corner side lot line. In the case of pole signs, this setback requirement shall be applied to the sign support structure, allowing the sign itself to extend to the front lot line if adequate ground clearance is provided as required in this title.

b. Projecting Building Signs: Projecting building signs are allowed for the following uses only:

(1) Theaters (live or cinematic theaters with business frontage and direct access to the street);

(2) Anchor retail (large retailers with over 35,000 square feet of usable floor area) or shopping centers or malls (containing multiple stores with a combined commercial/retail floor area of over 100,000 square feet);

(3) Historic buildings as outlined in subsection 21A.46.070V of this chapter.

Businesses using projecting building signs may not also use projecting business storefront signs. The content of a projecting building sign is limited to the building, business or shopping center name and logo.

c. Corporate Flags: The pole support must be attached directly to the building and located so that all portions of the flag clear the pedestrian level of the building. Flags shall not interfere with street trees, light poles, utility lines, etc., and shall maintain a ten foot (10') clearance from the sidewalk. Corporate flags may be additionally anchored at the bottom with a cable, chain, rope or other nonrigid device, to prevent excessive movement. However, if more than one structural support is provided, the flag shall be considered a fabric "projecting sign".

B. Sign Regulations For The D-2 District:

1. Purpose: Sign regulations for the D-2 district are intended to respond to the existing diversity in signage characteristics within this district. The D-2 district is supportive of the D-1 district and reflects a similar purpose as the center for business and culture for the region.

2. Applicability: Regulations in subsection B3 of this section shall apply to all uses within the D-2 district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE D-2 DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning/canopy sign	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building 2 feet from back of curb[7]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces; 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	5 feet	1 per street frontage	None
Flat sign (storefront orientation)[4]	2 square feet per linear foot of each store frontage[5]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign[6]	1 square foot per linear foot of street frontage	20 feet	None	1 per street frontage	1 sign per street frontage
Pole sign[6]	1 square foot per linear foot of street frontage; 200 square feet maximum for a single business, 300 square feet maximum for multiple businesses	45 feet	None, but shall not extend across a property line	1 per street frontage	
Nameplate, building	3 square feet	8 square feet	None	1 per building	None
New development sign	200 square feet	12 feet	5 feet	1 per street frontage	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	64 square feet	12 feet	5 feet	1 per street frontage	None
Wall sign or flat sign (general building orientation)	4 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	None
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit	n/a

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.See subsection B4a of this section.
7.Public property lease and insurance required for projection over property line.

4. Supplementary Regulations:

a. Lot Frontage Requirements: A minimum lot frontage of one hundred feet (100') shall be required for pole signs or monument signs.

C. Sign Regulations For The D-3 Downtown Residential/Warehouse District:

1. Purpose: Signage in the D-3 district should respond to the special character of the area resulting from the presence of existing warehouse buildings, some of which are historically significant, and the mix of residential and commercial uses allowed in the district. Consistent with the intent of the district to preserve the existing buildings while promoting new uses within them, signage within the district should contribute to the vitality of the area without detracting from the significance of the architecture. The sign regulations for this district are designed to allow for the identification of uses within the district but to restrain the size and location of signs in order to complement the architectural characteristics of buildings.

2. Applicability: Regulations in subsection C3 of this section shall apply to all uses within the D-3 district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE D-3 DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning/canopy signs	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building 2 feet from back of curb[5]	1 per first floor door/window	None
Canopy, drive-through	40% of canopy face if signage is on 2 faces; 20% of canopy face if signs are on 4 faces	See note 1	n/a	1 per canopy face	None
Construction sign	64 square feet	12 feet	5 feet	2 per building	None
Flat sign (storefront orientation)[4]	1.5 square feet per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Monument and pole signs:					
Monument sign	100 square feet	12 feet	None	1 per street frontage	1 sign per street frontage
Pole sign	75 square feet for a single business; 100 square feet for multiple businesses	25 feet	None, but shall not extend across a property line	1 per street frontage	
Nameplate, building	3 square feet	8 square feet	n/a	1 per building	None
New development sign	80 square feet	12 feet	5 feet	1 per development	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	64 square feet	12 feet	5 feet	1 per building	None
Wall sign or flat sign (general building orientation)	1.5 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.

(Ord. 19-11, 2011: Ord. 10-10 § 14, 2010: Ord. 62-09 § 1, 2009: Ord. 80-04 § 1 (Exh. A), 2004: Ord. 68-04 § 1, 2004: Ord. 62-03 § 2, 2003: Ord. 28-01 §§ 3, 4, 2001: Ord. 61-00 §§ 7, 8, 2000: Ord. 53-00 § 10, 2000: Ord. 35-99 § 80, 1999: Ord. 83-98 § 10, 1998: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.115: SIGN REGULATIONS FOR GATEWAY DISTRICTS:

The following regulations shall apply to signs permitted in the gateway districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The G-MU Gateway District:

1. Purpose: Signage in the G-MU gateway district should reflect the unique character of the gateway as a mixture of residential, commercial and industrial uses within an urban neighborhood atmosphere. Sign regulations for this district are intended to allow for the design of signage that complements the gateway's dynamic physical and functional characteristics.

2. Applicability: Regulations in subsection A3 of this section shall apply to all uses within the G-MU district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE GATEWAY DISTRICT (G-MU)

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[3]
Awning	1 square foot per linear foot of storefront (sign area only)	See note 1	May extend 6 feet from face of building but not within 2 feet of the back of curb[6]	1 per first floor door/window	None
Canopy signs	1 square foot per linear foot of storefront (sign area only) 20 square feet maximum per canopy	See note 1	May extend from face of building but not within 2 feet of the back of curb[6]	1 per first floor building entry	None
Construction sign	64 square feet	12 feet	5 feet	2 per building	None
Corporate flag	32 square feet	See subsection A4b of this section	May extend 8 feet from the face of building but not within 2 feet of the back of curb[6]	1 per 50 feet of street frontage. 50 foot minimum street frontage required	2 per street frontage
Flat sign (general building orientation)	1.5 square feet per linear foot of building face[5]	See note 1	n/a	1 per building face	None
Flat sign (storefront orientation)[4]	1.5 square feet per linear foot of store frontage[5]	See note 1	n/a	1 per business or storefront	None
Marquee sign	Subject only to subsection 21A.46.070O of this chapter			1 per storefront	None
Monument and projecting building signs:					
Monument sign	100 square feet	12 feet	None	1 per street frontage	1 sign per street frontage
Projecting building sign	125 square feet per side; 250 square feet total	See note 1. (See subsection A4a of this section)	May extend 6 feet from the face of building but not within 2 feet of the back of the curb[6]	1 per street frontage (See subsection A4a of this section)	
Nameplate, identifying building name	3 square feet	8 feet	n/a	1 per building	None
New development sign	80 square feet	12 feet	5 feet	1 per development	None
Political sign	32 square feet	8 feet	5 feet	No limit	None
Private directional sign	8 square feet	4 feet	5 feet	No limit	None
Projecting business storefront sign	9 square feet per side; 18 square feet total	See note 1. Sign face limited to 4 feet in height	May extend 4 feet from the face of building but not within 2 feet of the back of the curb[6]	1 per public business entry to the street	None
Projecting parking entry sign	9 square feet; 18 square feet total	See note 1. Sign face limited to 4 feet in height	May extend 4 feet from face of building but not within 2 feet of the back of curb[6]	1 per driveway or parking lot entry	None
Public safety sign	8 square feet	6 feet	5 feet	No limit	None
Real estate sign	64 square feet	12 feet	5 feet	1 per building	None
Window sign	25% of total frontage window area per use	See note 1	n/a	No limit	None

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.The total number of signs permitted from the sign types combined.
4.Storefront flat signs limited to locations on the lower 2 floors.
5.A single-tenant building may combine the square footage total of both the storefront orientation and the general building orientation flat signs to construct 1 larger sign.
6.Public property lease and insurance required for projection over property line.

4. Specific Signs:

a. Projecting Building Signs: Projecting building signs are allowed for the following uses only:

(1) Theaters (live or cinematic theaters with business frontage and direct access to the street),

(2) Anchor retail (large retailers with over 35,000 square feet of usable floor area) or shopping centers or malls (containing multiple stores with a combined commercial/retail floor area of over 100,000 square feet),

(3) Historic buildings as outlined in subsection 21A.46.070V of this chapter.

Businesses using projecting building signs may not also use projecting business storefront signs. The content of a projecting building sign is limited to the building, business or shopping center name and logo.

b. Corporate Flags: The pole support must be attached directly to the building and located so that all portions of the flag shall not interfere with the street trees, light poles, utility lines, etc., and shall maintain a ten foot (10') clearance from the sidewalk. Corporate flags may be additionally anchored at the bottom with a cable, chain, rope or other nonrigid device, to prevent excessive movement. However, if more than one structural support is provided, the flag shall be considered a fabric "projecting sign". (Ord. 68-01 §§ 1, 2, 2001: Ord. 53-00 § 11, 2000: Ord. 83-98 § 11 (Exh. F), 1998)

21A.46.120: SIGN REGULATIONS FOR SPECIAL PURPOSE DISTRICTS:

The following regulations shall apply to signs permitted in the special purpose districts. Any sign not expressly permitted by these district regulations is prohibited.

A. Sign Regulations For The RP And BP Districts:

1. Purpose: Signage in the RP and BP districts should respond to the campus like setting promoted by these districts, with signage functioning principally to identify building occupants. Freestanding signs should accent the landscape and building signs should accent the buildings.

2. Applicability: Regulations in subsection A3 of this section shall apply to lots within the RP and BP districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE RP AND BP DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Construction sign	64 square feet	12 feet	10 feet	1 per street frontage
Development entry sign	160 square feet maximum per sign; 200 square feet for 2 signs	10 feet	10 feet	1 per street frontage
Flat sign[3,4]	1 square foot per linear foot of building frontage	See note 1	n/a	1 per business storefront
Monument sign	60 square feet	5 feet	10 feet	1 per street frontage

Nameplate	2 square feet	n/a	n/a	1 per building entry
New development sign	160 square feet maximum per sign; 200 square feet for 2 signs	12 feet	10 feet	1 per street frontage
Political sign	32 square feet	8 feet	10 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	10 feet	No limit
Real estate sign	32 square feet	8 feet	10 feet	1 per street frontage
Window sign	12 square feet	See note 1	n/a	No limit

General Provision:
Research and business parks may have private sign regulations. Sign regulations in this section are not intended to relieve the applicant from compliance with private research or business park regulations.

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.Storefront flat signs limited to locations on the lower 2 floors.
4.Backlit awnings excluded.

B. Sign Regulations For The FP District:

1. Purpose: In recognition of the need to protect the visual character of foothill areas, sign regulations for the FP district are intended to limit the use of signage to the minimum level required for single-family residential use.

2. Applicability: Regulations in subsection B3 of this section shall apply to all lots within the FP district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE FP DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height	Number Of Signs Permitted Per Use
Construction sign	16 square feet	6 feet[1]	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet[1]	1 per street frontage
Nameplate	1 square foot	n/a	1 per dwelling
Political sign	8 square feet	4 feet[1]	No limit
Private directional sign	8 square feet	4 feet[1]	No limit
Public safety sign	8 square feet	6 feet[1]	No limit
Real estate sign	8 square feet	4 feet[1]	1 per street frontage
Special event sign	16 square feet	6 feet[1]	1 per street frontage

Note:
1.A 5 foot setback is required.

4. Illumination: No illumination of signs shall be permitted.

C. Sign Regulations For The AG, AG-2, AG-5, And AG-20 Districts:

1. Purpose: Signage in the AG, AG-2, AG-5 and AG-20 districts should be limited to signage appropriate for single-family residential and agricultural uses.

2. Applicability: Regulations in subsection C3 of this section shall apply to all lots within the AG, AG-2, AG-5 and AG-20 districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE AG, AG-2, AG-5 AND AG-20 DISTRICTS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height	Number Of Signs Permitted Per Use
Construction sign	16 square feet	4 feet[1]	1 per street frontage
Garage/yard sale sign	6 square feet	4 feet[1]	1 per street frontage
Nameplate	1 square foot	n/a	1 per dwelling
Political sign	8 square feet	4 feet[1]	No limit
Private directional sign	8 square feet	4 feet[1]	No limit
Public safety sign	8 square feet	6 feet[1]	No limit
Real estate sign	8 square feet	4 feet[1]	1 per street frontage
Signs advertising agricultural uses and/or products grown on site	16 square feet	8 feet[1]	1 per street frontage
Special event sign	16 square feet	6 feet[1]	1 per street frontage

Note:
1.A 5 foot setback is required.

4. Illumination: No illumination of signs shall be permitted.

D. Sign Regulations For The A Airport District:

1. Purpose: Signage in the A district should respond to the airport setting promoted by this district, with signage functioning principally to identify building occupants. Freestanding signs should accent the landscape and building signs should accent the buildings.

2. Applicability: Regulations in subsection D3 of this section shall apply to all lots within the A districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE A DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Awning/canopy sign	1 square foot per linear foot of storefront (sign area only)		May extend 6 feet from face of building	1 per first floor door/window
Construction sign	64 square feet	12 feet	10 feet	2 per tenant
Development entry sign	200 square feet	10 feet	10 feet	1 per street frontage
Monument sign	100 square feet	12 feet	10 feet	1 per business/ storefront
New development sign	160 square feet maximum per sign; 200 square feet for 2 signs	12 feet	10 feet	1 per street frontage
Pole sign	50 square feet	25 feet	10 feet	1 per business
Political sign	32 square feet	8 feet	10 feet	No limit
Private directional sign	8 square feet	4 feet	n/a	No limit
Public safety sign	8 square feet	6 feet	10 feet	No limit
Real estate sign	16 square feet	8 feet	10 feet	1 per building
Wall or flat sign	2 square feet per linear foot of building frontage	See note 1	n/a	2 per tenant
Window sign	12 square feet	2 feet	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.

E. Sign Regulations For The UI, PL, PL-2, I And OS Districts:

1. Purpose: Sign regulations for the PL, PL-2, I, UI and OS districts are established to control signage for public and semipublic uses and facilities. These regulations are intended to respond to larger campus type settings as well as development on individual lots.

2. Applicability: Regulations in subsections E3, E4 and E5 of this section, respectively, shall apply to all lots within the UI, PL, PL-2, I and OS districts.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE UI DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Construction sign	32 square feet	8 feet	10 feet	1 per street frontage
Development entry sign	40 square feet each	8 feet	10 feet	1 per street frontage
Flat sign	0.5 square foot per linear foot of building frontage	See note 1	n/a	1 for each frontage of each use
Monument sign	60 square feet	8 feet	10 feet	1 per street frontage
Nameplates	2 square feet	See note 1	n/a	1 per building entry

New development sign	160 square feet maximum per sign; 200 square feet for 2 signs	8 feet	10 feet	1 per street frontage
Political sign	16 square feet	8 feet	10 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	10 feet	No limit
Real estate sign	32 square feet	8 feet	10 feet	1 per street frontage
Window sign	12 square feet	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.

4. Sign Type, Size And Height Standards For The PL, PL-2 And I Districts:

a. Standards For The PL, PL-2 And I Districts:

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Construction sign	32 square feet	8 feet	10 feet	1 per street frontage
Development entry sign	40 square feet per sign	8 feet	10 feet	1 per street frontage
Flat sign	0.5 square foot per linear foot of building frontage	See note 1	n/a	1 for each frontage of each use
Monument sign	60 square feet	8 feet	10 feet	1 per building frontage
Nameplates	2 square feet	See note 1	n/a	1 per building entry
New development sign	160 square feet maximum per sign; 200 square feet for 2 signs	8 feet	10 feet	1 per street frontage
Political sign	16 square feet	8 feet	10 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	10 feet	No limit
Real estate sign	32 square feet	8 feet	10 feet	1 per street frontage
Window sign	12 square feet	See note 1	n/a	No limit

Notes:
1.For height limits on building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.

b. Standards For The Ballpark Located On The Southeast Corner Of 1300 South And West Temple: Flat signs, construction signs, political signs, real estate signs, new development signs, window signs, public safety signs, and nameplates shall comply with the table for standards for the PL, PL-2 and I districts.

The design, materials, and colors for all signs must be compatible with the ballpark on the corner of 1300 South and West Temple subject to the approval of the Salt Lake City urban design committee.

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Awning signs	1 square foot per linear foot of awning	See note 1	May extend 6 feet from face of building, 2 feet from back of curb face[5]	1 per first floor door/window and not to extend beyond 1 foot on each side of the door or window width
Monument signs[3,4]	60 square feet of total sign face area including a base. The base shall be 25% of the sign height	8 feet	10 feet	1 per building frontage
Pole signs (triangle frame structure)	180 square feet per gross sign face. 540 square feet for the structure	30 feet	No sign projection over the property line	1 pole sign which allows 4 sign panels per sign face, 1 of which may be an electronic changeable copy sign[4] and 1 logo sign (12 total signs for the triangular pole sign)
Private directional signs[3]	8 square feet of total sign face area including a base. The base shall be 25% of the sign height	4 feet	2 feet behind property lines	2 per driveway approach and as necessary for pedestrian direction

Notes:
1.For limits on the height of building signs, see subsection 21A.46.070J of this chapter.
2.Not applicable to temporary signs mounted as flat signs.
3.Modified from the standards for the PL, PL-2 and I districts and required for the ballpark overlay district.
4.Electronic changeable copy signs shall only be permitted on arterial street frontages. Electronic changeable copy signs/panels shall not exceed 50 square feet.
5.Public property lease and insurance required for projection over property line.

c. Library Square Located On The Block Between 400 South And 500 South Between 200 East And 300 East Streets:

STANDARDS FOR LIBRARY SQUARE
LOCATED ON THE BLOCK BETWEEN 400 AND 500 SOUTH
BETWEEN 200 AND 300 EAST STREETS

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback	Number Of Signs Permitted
Flat sign (general building orientation)	2 square feet per linear foot of building face	See note 1	n/a	1 per building face
Monument sign	60 square feet	8 feet	5 feet	1 per street frontage
Special event light pole sign[2]	See note 4	May not exceed the height of the light pole	n/a	2 per light pole
Special event sign[2]	Sign may cover up to 60 percent of the total building face[3]	See note 1	n/a	1 per street frontage
Window signs	12 square feet[5]	No limit	n/a	No limit

Notes:
1. For height limits on building signs, see subsection 21A.46.070J of this chapter.
2. Special event signs may hang during the entirety of a special event and may be installed 3 weeks prior to the event. Special event signage shall be removed from the building within 7 days of the end of the event.
3. Amount only allowed on buildings where the majority of the building houses a museum. For those buildings where the majority of the building is utilized as a library only 25 percent of the building may be covered with this type of signage. Signs shall only advertise for on premises activities and events.
4. Special event light pole signs must not act as a barrier to pedestrian movement and must advertise for events on premises. They shall not extend more than 18 inches from the light pole and shall not extend higher than the light poles. Signs shall only advertise for on premises activities and events.
5. Amount only allowed on buildings where the majority of the building houses a museum. For those buildings where the majority of the building is utilized as a library these types of signs are not allowed.

5. Sign Type, Size And Height Standards For The OS District:

STANDARDS FOR THE OS DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Minimum Setback[2]	Number Of Signs Permitted
Construction sign	24 square feet	8 feet	10 feet	1 per street frontage
Development entry sign	32 square feet each	4 feet	10 feet	1 per street frontage
Flat sign	0.5 square foot per linear foot of building frontage; total not to exceed 60 square feet	No limit	n/a	1 for each frontage of each use
Monument sign	60 square feet	8 feet	10 feet	1 per building frontage
Monument sign in parks 28 acres or greater[3]	60 square feet	10 feet	10 feet	1 per building frontage
New development sign	160 square feet maximum per sign; 200 square feet for 2 signs	8 feet	10 feet	1 per street frontage
Park banner sign, park identity banner[3,4,5]	12 square feet	18 feet	10 feet	1 set of 3 signs per 5 acres of park land relating to the specific park
Park banner sign, permanent venue[3,4]	12 square feet	18 feet	10 feet	1 set of 3 banners per permanent venue
Political sign	16 square feet	8 feet	10 feet	No limit
Private directional sign	8 square feet	4 feet	5 feet	No limit
Public safety sign	8 square feet	6 feet	10 feet	No limit
Real estate sign	24 square feet	8 feet	10 feet	1 per street frontage
Window sign	12 square feet	See note 1	n/a	No limit

Notes:
1. For height limits on building signs, see subsection 21A.46.070J of this chapter.
2. Not applicable to temporary signs mounted as flat signs.
3. Allowed only in parks 28 acres or larger, and does not apply to public property used for cemeteries, golf courses, riverbanks, trails or natural open space areas.
4. Park banner signs must be grouped within an 18 foot radius.
5. Park banner signs must have a consistent design.

6. Illumination: Illuminated signs shall be limited to flat signs, monument signs, window signs, and development entry signs.

F. Sign Regulations For The MH Mobile Home Park District:

1. Purpose: Signage for the MH district should be limited to situations typically accessory to single-family dwellings within a mobile home development. The sign regulations of this district are intended to limit the number, size and duration of signage in order to prevent the creation of nuisance impacts on the use and enjoyment of surrounding property.

2. Applicability: Regulations in subsection F3 of this section shall apply to all land within the MH district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE MH DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height	Number Of Signs Permitted
Construction sign	8 square feet	4 feet[1]	1 per dwelling
Development entry sign[2]	40 square feet	8 feet[1]	1 per entry
Garage/yard sale sign	6 square feet	4 feet[1]	1 per dwelling
Monument sign[2]	60 square feet	8 feet	1 per street frontage
Nameplate	1 square foot	6 feet	1 per dwelling
New development sign	160 square feet maximum per sign; 200 square feet total	10 feet[1]	1 per public street frontage
Political sign	8 square feet	4 feet[1]	No limit
Private directional sign	8 square feet	4 feet[1]	No limit
Public safety sign	8 square feet	6 feet	No limit
Real estate sign	8 square feet	4 feet[1]	1 per dwelling
Special event sign	16 square feet	6 feet[1]	1 per building

Notes:
1.A 5 foot setback is required.
2.Shall have a 5 foot setback, unless integrated into the fence structure. Height requirements for fence apply.

4. Illumination: Signs for residential uses shall not be internally illuminated, except for new development signs and development entry signs.

G. Sign Regulations For The EI Extractive Industries District:

1. Purpose: Sign regulations for the EI district are intended to provide for appropriate identification for mining/extractive industries. The principal need for signage in this district is the identification of the use, including entry into the site.

2. Applicability: Regulations in subsection G3 of this section shall apply to all lots within the EI district.

3. Sign Type, Size And Height Standards:

STANDARDS FOR THE EI DISTRICT

Types Of Signs Permitted	Maximum Area Per Sign Face	Maximum Height Of Freestanding Signs[1]	Number Of Signs Permitted Per Sign Type	Limit On Combined Number Of Signs[2]
Construction sign	32 square feet	8 feet	1 per street frontage	None
Development entry sign	20 square feet per linear foot of street frontage; 100 square feet maximum	8 feet	1 per street frontage	None
Flat sign	2 square feet per linear foot of building frontage	See note 1	1 per building frontage	1 per building frontage
Monument sign	60 square feet	8 feet	1 per street frontage	None
Pole sign	50 square feet	30 feet	1 per street frontage	None
Political sign	16 square feet	4 feet	No limit	None
Private directional sign	8 square feet	4 feet	No limit	None
Public safety sign	8 square feet	6 feet	No limit	None
Real estate sign	32 square feet	8 feet	1 per street frontage	None
Wall sign	1 square foot per linear foot of building frontage; not to exceed 60 square feet	See note 1	1 per building frontage	1 per building frontage
Window sign	25% of total frontage window area per building	See note 1	No limit	None

Notes:
1. For limits on height of building signs, see subsection 21A.46.070J of this chapter.
2. The total number of signs permitted from the sign types combined.

4. Supplementary Regulations:

a. Sign Setbacks: A pole sign shall be set back thirty feet (30') from the property line with a six foot (6') maximum projection into the setback. All other freestanding signs shall be set back not less than five feet (5') from any property line. (Ord. 75-12, 2012: Ord. 19-11, 2011: Ord. 80-05 § 1 (Exh. A), 2005: Ord. 73-02 §§ 13, 14 (Exh. F), 2002: Ord. 53-00 § 5, 2000: Ord. 14-00 §§ 13, 14, 2000: Ord. 35-99 §§ 81-83, 1999: Ord. 44-98 § 2, 1998: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.130: LOCALIZED ALTERNATIVE SIGN OVERLAY DISTRICT:

A. Purpose: Large scale land uses (such as a shopping center, an office park, a special purpose district use such as the airport, or large institutions such as universities or medical centers having a multibuilding campus) have common design elements that can be complemented and enhanced through the use of special signage. Localized alternative sign overlay districts allow for the creation of special sign regulations to meet the needs of these situations.

B. Applicability: These regulations shall be applicable to sites two (2) acres or larger in the following districts:

RP district
CG district
CS district
A district
UI district
BP district
I district
PL district
PL-2 district

These regulations shall also apply to stadiums, arenas, convention centers on sites larger than two (2) acres, in the following districts:

D-1 district
D-2 district
D-3 district
D-4 district

C. Submission Of Overlay District Regulations: In order to give effect to the purpose set forth in subsection A of this section, a localized alternative sign overlay district pertaining only to a particular center, campus or district may be proposed as an alternative to the sign regulations that would otherwise be applicable under this chapter.

D. Effect Of Overlay District: If a localized alternative sign overlay district is established, the sign standards and limitations established within that district shall govern.

E. Application Procedure: Persons seeking to establish a localized alternative sign overlay district pursuant to this section shall submit the regulations proposed for the overlay district to the zoning administrator, together with any additional material the zoning administrator requests. This shall be considered an amendment to this title and zoning map and review and approval shall follow normal amendment procedures pursuant to chapter 21A.50 of this title. Following adoption of the overlay district by the city council, the regulations of the district shall apply uniformly to all properties located within the boundaries of the overlay district.

F. Changes To Approved Localized Alternative Sign Overlay Districts: An alternative localized sign overlay district which has been properly established may be amended or modified only upon submission and approval of another zoning amendment application pursuant to chapter 21A.50 of this title. (Ord. 73-02 § 15, 2002: Ord. 28-01 § 1, 2001: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.140: NONCONFORMING SIGNS:

A. Moving, Extensions Or Alterations: A nonconforming sign shall not be reconstructed, raised, moved, replaced, extended, altered or enlarged unless the sign is changed so as to conform to all provisions of this chapter. Alterations shall also mean the changing of the text or message of the sign as a result of a change in use of the property. Alterations shall not be interpreted to include changing the text or copy on outdoor advertising signs, theater signs, outdoor bulletins or other similar signs which are designed to accommodate changeable copy.

B. Unsafe Signs: See subsection 21A.46.150F of this chapter.

C. Restoration Conditions: Nonconforming signs which have been allowed to deteriorate or which have been damaged by fire, explosion, act of God or act of a public enemy, or damaged by any other cause, to the extent of more than sixty percent (60%) of their replacement value shall, if repaired or rebuilt, be repaired or rebuilt in conformity with the regulations of this chapter, or shall be removed. (Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.150: PERMITS, INSPECTION AND ENFORCEMENT:

A. Enforcement By Building Official: The building official shall have the authority to enforce these sign regulations. In the performance of that duty, the building official may:

1. Issue Permits: Issue permits to construct, alter or repair signs which conform to the provisions of this chapter;

2. Determine Conformance: Ascertain that all signs, construction, and all reconstruction or modifications of existing signs are built or constructed or modified in conformance with the provisions of these sign regulations and all other regulations incorporated herein by reference;

3. Require Inspection Tags: Require that each sign located in the city requiring a sign permit have affixed to the sign or its supports a current inspection tag visible from the sidewalk or nearest convenient location. This inspection tag shall be issued pursuant to the procedures for sign inspections, set forth in subsection B of this section;

4. Issue Citations And Complaints: Issue citations and/or file complaints against violators of these sign regulations;

5. Confiscate Signs: Confiscate signs located on public property in accordance with the provisions of subsection H of this section.

B. Inspection Requirements: The building official shall have the authority to inspect signs as follows:

1. Initial Inspection After Construction: The building official shall make an initial inspection prior to footings being poured on a freestanding sign, and upon the completion of construction, erection, re-erection or remodeling of any sign for which a permit has been issued and an inspection request is made.

2. Issuance Of Inspection Tag: Upon completion of the sign inspection, the building official shall issue the appropriate inspection tag to the owner or sign contractor if the sign is found to conform to the provisions of this chapter. The presence of a current inspection tag shall serve as certification that the sign to which it is affixed conforms to the provisions of this chapter at the time of its erection and tagging.

3. Tag Data: Each sign inspection tag shall include the permit number and shall be recorded in the office of the building official as to the sign type, size, cost of construction, date of sign permit, and owner's and sign contractor's name and address.

4. Tag Installation: The inspection tag shall be installed by the sign owner, or sign contractor taking out the permit.

5. Inspection: The building official shall conduct an inspection of signs. If the building official finds any sign which has no visible inspection tag, has a visible inspection tag but is in need of repair, or violates any provision of this chapter, the building official may take the necessary legal action as specified in subsections D through I of this section.

C. Legal Actions Authorized: The building official may take any appropriate action or institute any proceeding in any case where any sign is erected, constructed, reconstructed, altered, repaired, converted or maintained, or in any case where any sign is used in violation of these sign regulations or any other city ordinance, in order to accomplish the following purposes:

1. To prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance or use of a sign; and

2. To restrain, to correct, or to abate such violation.

D. Notice Of Violation: The building official may provide written notice of violation by registered mail to the owner of the property where the sign is located or person having charge or control or benefit of any sign found by the building official to be unsafe or dangerous, or in violation of these sign regulations or of any other city ordinance.

E. Nonmaintained Or Abandoned Signs: The building official may require each nonmaintained or abandoned sign to be removed from the building or premises when such sign has not been repaired or put into use by the owner, person having control or person receiving benefit of such structure within thirty (30) calendar days after notice of nonmaintenance or abandonment is given to the owner, person having control or person receiving the benefit of such structure.

F. Unsafe Or Dangerous Signs: If an unsafe or dangerous sign is not repaired or made safe within five (5) working days after the building official gives notice pursuant to subsection D of this section, the building inspector may abate and remove the sign, and the person having charge, control or benefit of any such sign shall pay to the city the costs incurred in such removal within thirty (30) calendar days after written notice is mailed to such person.

G. Illegal Signs: If an illegal sign is not brought into compliance with the provisions of these sign regulations within thirty (30) working days after the building official gives notice pursuant to subsection D of this section, the building inspector may abate and remove the sign, and the owner, person having charge, control or benefit of any such sign shall pay to the city the costs incurred in such removal within thirty (30) calendar days after written notice is mailed to such person.

H. Confiscation Of Signs: The building official shall immediately confiscate any sign located on public property in violation of these sign regulations or any other city ordinances. Confiscated signs shall be stored at a location determined by the building official for a period of thirty (30) days, during which time the owner or person having charge, control or benefit of the confiscated sign may redeem the sign after payment of fifty dollars ($50.00) and any applicable civil fines established pursuant to chapter 21A.20 of this title. The city shall not be liable for damages incurred to signs as a result of their confiscation. In addition to civil penalties sign owners and persons having charge, control or benefit of any sign erected in violation of this chapter shall be liable for any damages caused to public property, public facilities or public utilities by reason of the placement, attachment and/or removal of such unlawful signs. Signs not redeemed within thirty (30) days shall be destroyed.

I. Violation/Penalty: Any person whether acting as owner or occupant of the premises involved, or contractor, or otherwise, who violates or refuses to comply with any of the provisions of this chapter shall be guilty of a misdemeanor and, upon conviction, shall be punished as provided in section 1.12.050 of this code. A separate offense shall be deemed to be committed on each day an offense occurs or continues. (Ord. 35-99 §§ 84, 85, 1999: Ord. 88-95 § 1 (Exh. A), 1995)

21A.46.160: BILLBOARDS:

A. Purpose Statement: This section is intended to limit the maximum number of billboards in Salt Lake City to no greater than the current number. This chapter further provides reasonable processes and methods for the replacement or relocation of existing nonconforming billboards to areas of the city where they will have less negative impact on the goals and policies of the city which promote the enhancement of the city's gateways, views, vistas and related urban design elements of the city's master plans.

B. Definitions: The definitions in this section apply in addition to those in section 21A.46.020 of this chapter.

BILLBOARD: A form of an off premises sign. A freestanding ground sign located on industrial, commercial or residential property if the sign is designed or intended to direct attention to a business, product or service that is not sold, offered or existing on the property where the sign is located.

BILLBOARD BANK: An accounting system established by the city to keep track of the number and square footage of nonconforming billboards removed pursuant to this chapter.

BILLBOARD CREDIT: An entry into a billboard owner's billboard bank account that shows the number and square footage of demolished nonconforming billboards.

BILLBOARD OWNER: The owner of a billboard in Salt Lake City.

DWELL TIME: The length of time that elapses between text, images, or graphics on an electronic billboard or electronic sign.

ELECTRONIC BILLBOARD: Any off premises sign, video display, projected image, or similar device with text, images, or graphics generated by solid state electronic components. Electronic billboards include, but are not limited to, billboards that use light emitting diodes (LED), plasma displays, fiber optics, or other technology that results in bright, high resolution text, images, and graphics.

ELECTRONIC SIGN: Any on premises sign, video display, projected image, or similar device with text, images, or graphics generated by solid state electronic components. Electronic signs include, but are not limited to, signs that use light emitting diodes (LED), plasma displays, fiber optics, or other technology that results in bright, high resolution text, images, and graphics.

EXISTING BILLBOARD: A billboard which was constructed, maintained and in use or for which a permit for construction was issued as of July 13, 1993.

FOOT-CANDLE: The English unit of measurement for luminance, which is equal to one lumen, incident upon an area of one square foot.

GATEWAY: The following streets or highways within Salt Lake City:

1. Interstate 80;
2. Interstate 215;
3. Interstate 15;
4. 4000 West;
5. 5600 West;
6. 2100 South Street from Interstate 15 to 1300 East;
7. The 2100 South Expressway from I-15 west to the city limit;
8. Foothill Drive from Guardsman Way to Interstate 80;
9. 400 South from Interstate 15 to 800 East;
10. 500 South from Interstate 15 to 700 East;
11. 600 South from Interstate 15 to 700 East;
12. 300 West from 900 North to 900 South;
13. North Temple from Main Street to Interstate 80;
14. Main Street from North Temple to 2100 South Street;
15. State Street from South Temple to 2100 South; and
16. 600 North from 800 West to 300 West.

ILLUMINANCE: The intensity of light falling on a subsurface at a defined distance from the source.

MOTION: The depiction of movement or change of position of text, images, or graphics. Motion shall include, but not be limited to, visual effects such as dissolving and fading text and images, running sequential text, graphic bursts, lighting that resembles zooming, twinkling, or sparkling, changes in light or color, transitory bursts of light intensity, moving patterns or bands of light, expanding or contracting shapes, and similar actions.

NEW BILLBOARD: A billboard for which a permit to construct is issued after December 31, 1993.

NONCONFORMING BILLBOARD: An existing billboard which is located in a zoning district or otherwise situated in a way which would not be permitted by the provisions of this chapter.

SPECIAL GATEWAY: The following streets or highways within Salt Lake City:

1. North Temple between 600 West and 2200 West;
2. 400 South between 200 East and 800 East;
3. State Street between 600 South and 2100 South; and
4. Main Street between 600 South and 2100 South.

TEMPORARY EMBELLISHMENT: An extension of the billboard resulting in increased square footage as part of an artistic design to convey a specific message or advertisement.

TWIRL TIME: The time it takes for static text, images, and graphics on an electronic billboard or electronic sign to change to a different text, images, or graphics on a subsequent sign face.

C. Limit On The Total Number Of Billboards: No greater number of billboards shall be allowed in Salt Lake City than the number of existing billboards.

D. Permit Required For Removal Of Nonconforming Billboards:

1. Permit: Nonconforming billboards may be removed by the billboard owner only after obtaining a permit for the demolition of the nonconforming billboard.

2. Application: Application for demolition shall be on a form provided by the zoning administrator.

3. Fee: The fee for demolishing a nonconforming billboard shall be as shown on the Salt Lake City consolidated fee schedule.

E. Credits For Nonconforming Billboard Removal: After a nonconforming billboard is demolished pursuant to a permit issued under subsection D1 of this section, or its successor, the city shall create a billboard bank account for the billboard owner. The account shall show the date of the removal and the zoning district of the demolished nonconforming billboard. The account shall reflect billboard credits for the billboard and its square footage. Demolition of a conforming billboard shall not result in any billboard credit.

F. Priority For Removal Of Nonconforming Billboards: Nonconforming billboards shall be removed subject to the following priority schedule:

1. Billboards in districts zoned residential, historic, residential R-MU or downtown D-1, D-3 and D-4 shall be removed first;

2. Billboards in districts zoned commercial CN or CB, or gateway or on gateways shall be removed second;

3. Billboards which are nonconforming for any other reason shall be removed last; and

4. A billboard owner may demolish nonconforming billboards of a lower priority before removing billboards in a higher priority; however, the billboard credits for removing the lower priority billboard shall not become effective for use in constructing a new billboard until two (2) billboards specified in subsection F1 of this section, or its successor, with a total square footage equal to or greater than the lower priority billboard, are credited in the billboard owner's billboard bank account. If a billboard owner has no subsection F1 of this section, or its successor, nonconforming billboards, two (2) subsection F2 of this section, or its successor, priority billboards may be credited in the billboard owner's billboard bank account to effectuate the billboard credits of a subsection F3 of this section, or its successor, billboard to allow the construction of a new billboard. For the purposes of this section, the two (2) higher priority billboards credited in the billboard bank account can be used only once to effectuate the billboard credits for a lower priority billboard.

G. Life Of Billboard Credits: Any billboard credits not used within thirty six (36) months of their creation shall expire and be of no further value or use except that lower priority credits effectuated pursuant to subsection F4 of this section, or its successor, shall expire and be of no further value or use within sixty (60) months of their initial creation.

H. Billboard Credits Transferable: A billboard owner may sell or otherwise transfer a billboard and/or billboard credits. Transferred billboard credits which are not effective because of the priority provisions of subsection F of this section, or its successor, shall not become effective for their new owner until they would have become effective for the original owner. The transfer of any billboard credits do not extend their thirty six (36) month life provided in subsection G of this section, or its successor.

I. Double Faced Billboards: Demolition of a nonconforming billboard that has two (2) advertising faces shall receive billboard credits for the square footage on each face, but only as one billboard.

J. New Billboard Construction: It is unlawful to construct a new billboard other than pursuant to the terms of this chapter. In the event of a conflict between this chapter and any other provision in this code, the provisions of this chapter shall prevail.

K. Permitted Zoning Districts: New billboards may be constructed only in the area identified on the official billboard map.

L. New Billboard Permits:

1. Application: Anyone desiring to construct a new billboard shall file an application on a form provided by the zoning administrator.

2. Fees: The fees for a new billboard construction permit shall be:

a. Building permit and plan review fees required by the uniform building code as adopted by the city; and

b. Inspection tag fees as shown on the Salt Lake City consolidated fee schedule.

M. Use Of Billboard Credits:

1. A new billboard permit shall only be issued if the applicant has billboard credits of a sufficient number of square feet and billboards to allow construction of the new billboard.

2. When the permit for the construction of a new billboard is issued, the zoning administrator shall deduct from the billboard owner's billboard bank account:

a. The square footage of the new billboard; and

b. The number of billboards whose square footage was used to allow the new billboard construction.

3. If the new billboard uses less than the entire available billboard credits considering both the number of billboards and square footage, any remaining square footage shall remain in the billboard bank.

N. New Billboards Prohibited On Gateways: Except as provided in subsection O of this section, or its successor, no new billboard may be constructed within six hundred feet (600') of the right of way of any gateway.

O. Special Gateway Provisions:

1. If a nonconforming billboard is demolished within a special gateway, the billboard owner may construct a new billboard along the same special gateway in a zoning district equal to or less restrictive than that from which the nonconforming billboard was removed and subject to subsections P, Q, R and S of this section, provided that the size of the new billboard does not exceed the amount of billboard credits in the special gateway billboard bank.
2. The demolition of a nonconforming billboard pursuant to this section shall not accrue billboard credits within the general billboard bank. Credits for a billboard demolished or constructed within a special gateway shall be tracked within a separate bank account for each special gateway. A permit for the construction of a new billboard pursuant to this section must be taken out within thirty six (36) months of the demolition of the nonconforming billboard.

P. Maximum Size: The maximum size of the advertising area of any new billboard shall not exceed fifteen feet (15') in height and fifty feet (50') in width.

Q. Temporary Embellishments:

1. Temporary embellishments shall not exceed ten percent (10%) of the advertising face of any billboard, and shall not exceed five feet (5') in height above the billboard structure.
2. No temporary embellishment shall be maintained on a billboard more than twelve (12) months.

R. Height: The highest point of any new billboard, excluding temporary embellishments shall not be more than:

1. Forty five feet (45') above the existing grade; or
2. If a street within one hundred feet (100') of the billboard, measured from the street at the point at which the billboard is perpendicular to the street, is on a different grade than the new billboard, twenty five feet (25') above the pavement elevation of the street.
3. If the provisions of subsection R2 of this section, or its successor subsection, apply to more than one street, the new billboard may be the higher of the two (2) heights.

S. Minimum Setback Requirements: All freestanding billboards shall be subject to pole sign setback requirements listed for the district in which the billboard is located. In the absence of setback standards for a particular district, freestanding billboards shall maintain a setback of not less than five feet (5') from the front or corner side lot line. This setback requirement shall be applied to all parts of the billboard, not just the sign support structure.

T. Spacing:

1. Small Signs: Billboards with an advertising face three hundred (300) square feet or less in size shall not be located closer than three hundred (300) linear feet from any other small billboard or eight hundred feet (800') from a large billboard on the same side of the street;
2. Large Signs: Billboards with an advertising face greater than three hundred (300) square feet in size shall not be located closer than eight hundred (800) linear feet from any other billboard, small or large, on the same side of the street.
3. Electronic Billboards: Electronic billboards shall not be located closer than one thousand six hundred (1,600) linear feet from any other electronic billboard on the same or opposite side of the street.

U. Electronic Billboards:

1. Prohibitions: Except as provided in subsection U2 of this section, after the effective date of this subsection U:
   a. No electronic billboard shall be constructed or reconstructed for any reason, and
   b. The conversion, remodeling, or rehabilitation of any existing billboard to an electronic format is prohibited.
2. Standards When Construction/Conversion Required By Law: If after the effective date of this subsection U the city is required by law to allow construction of a new electronic billboard, or to allow conversion of an existing billboard to an electronic format, any such electronic billboard shall be operated pursuant to the following standards:
   a. Any motion of any kind is prohibited on an electronic sign face. Electronic billboards shall have only static text, images, and graphics.
      (1) The dwell time of any text, image, or display on an electronic billboard may not exceed more than once every eight (8) seconds. Twirl time between subsequent text, images, or display shall not exceed one-fourth (0.25) second.
      (2) The illumination of any electronic billboard shall not increase the ambient lighting level more than three-tenths (0.3) foot-candle when measured by a foot-candle meter perpendicular to the electronic billboard face at:
         (A) One hundred fifty feet (150') for an electronic billboard with a surface area of not more than two hundred forty two (242) square feet;
         (B) Two hundred feet (200') for an electronic billboard with a surface area greater than two hundred forty two (242) square feet but not more than three hundred seventy eight (378) square feet;
         (C) Two hundred fifty feet (250') for an electronic billboard with a surface area greater than three hundred seventy eight (378) square feet but not more than six hundred seventy two (672) square feet; and
         (D) Three hundred fifty feet (350') for an electronic billboard with a surface area greater than six hundred seventy two (672) square feet.
   b. Electronic billboards may not be illuminated or lit between the hours of twelve o'clock (12:00) midnight and six o'clock (6:00) A.M. if they are located in, or within six hundred feet (600') of a residential, mixed use, downtown, Sugar House business district, gateway, neighborhood commercial, community business, or community shopping center zoning district.
   c. Controls shall be provided as follows:
      (1) All electronic billboards shall be equipped with an automatic dimmer control or other mechanism that automatically controls the sign's brightness and display period as provided above.
      (2) Prior to approval of any permit to operate an electronic billboard, the applicant shall certify that the sign has been tested and complies with the motion, dwell time, brightness, and other requirements herein.
      (3) The owner and/or operator of an electronic billboard shall submit an annual report to the city certifying that the sign complies with the motion, dwell time, brightness, and other requirements herein.

V. Landscaping In Residential And Commercial CN And CB Zoning Districts: Properties in any residential zone and commercial CN or CB zones on which a billboard is the only structure shall be landscaped as required by sections 21A.26.020 and 21A.26.030 and chapter 21A.48 of this title, or its successor chapter. No portion of such property shall be hard or gravel surfaced.

W. Landscaping In Other Zoning Districts: Property in all districts other than as specified in subsection V of this section, or its successor subsection, upon which a billboard is the only structure, shall be landscaped from the front of the property to the deepest interior point of the billboard for fifty (50) linear feet along the street frontage distributed, to the maximum extent possible, evenly on each side of the billboard.

X. Xeriscape Alternative: If all the properties adjacent to and across any street from the property for which billboard landscaping is required pursuant to subsection W of this section, or its successor subsection, are not developed or, if a water line for irrigation does not exist on the property or in the street right of way adjacent to such property, the zoning administrator may authorize xeriscaping as an alternative for the required landscaping.

Y. Existing Billboard Landscaping: Existing billboards shall comply with the landscaping provisions of this section on or before January 1, 1996.

Z. Compliance With Tree Stewardship Ordinance: Construction, demolition or maintenance of billboards shall comply with the provisions of the Salt Lake City tree stewardship ordinance.

AA. Subdivision Registration: To the extent that the lease or other acquisition of land for the site of a new billboard may be determined to be a subdivision pursuant to state statute no subdivision plat shall be required and the zoning administrator is authorized to approve, make minor subsequent amendments to, and record as necessary, such subdivision.

BB. Special Provisions:

1. Applicability: The provisions of this section shall apply to specified billboards located:
   a. Four (4) existing billboards between 1500 North and 1800 North adjacent to the west side of Interstate 15; and
   b. One existing billboard on the east side of Victory Road at approximately 1100 North.
2. General Applicability: Except as modified by this section, all other provisions of this chapter shall apply to the five (5) specified billboards.
3. Special Priority: The five (5) specified billboards shall be considered as gateway billboards for the purposes of the priority provisions of subsection F of this section, or its successor subsection.
4. Landscaping: The five (5) specified billboards shall be landscaped pursuant to the provisions of subsection W of this section, or its successor subsection.

CC. State Mandated Relocation Of Billboards: Except as otherwise authorized herein, existing billboards may not be relocated except as mandated by the requirements of Utah state law. (Ord. 4-12, 2012: Ord. 24-11, 2011)

21A.46.170: STREET BANNERS ON UTILITY POLES IN THE PUBLIC WAY:

A. Purpose: The purpose of this section is to designate the use of certain utility poles for the display of street banners to benefit local neighborhoods and the city as a whole by allowing street banners for the limited purpose of encouraging and promoting community identity, community organizations, and community events. In allowing this limited signage on utility poles, in certain designated locations, the city does not intend to create a public forum, but rather intends to create a limited or nonpublic forum for the purposes set forth herein.

B. Definitions:

APPLICANT: Any person or organization that makes application for a street banner permit as described herein.

COMMUNITY EVENT: A significant occurrence, happening, or activity in a given local neighborhood at a given place and time of specific and limited duration.

COMMUNITY ORGANIZATION: A city recognized, community based organization, as defined in section 2.60.020 of this code, or a local nonprofit 501(c)(3) tax exempt status organization.

COORDINATED STREET BANNER PROGRAM: A program described in subsection G of this section.

LOGO: A business trademark or symbol.

SIGN: A "sign" as defined in section 21A.46.020 of this chapter.

STREET BANNER: A temporary secured banner to be located along designated arterial or collector streets as shown on the adopted "Salt Lake City transportation master plan (major street plan: roadway functional classification)" map, or along Terminal Drive at the Salt Lake City International Airport, and displayed on a utility pole located in the public way.

C. Authority To Display: In order to encourage and promote community identity, community organizations, and community events, an eligible participant, as defined herein, may, after applying for and receiving a permit to do so, place street banners on existing utility poles in the public way.

D. Eligible Participants: The city will accept applications for a permit to display street banners only from community organizations, city and county government, the state of Utah, or from governmentally owned educational institutions. Applications for political and for profit promotional street banners will not be accepted. Street banners may be placed on existing utility poles in the public way or on public property only for the limited purpose of promoting and encouraging community identity, community organizations, or community events. Street banners located within the boundaries of a coordinated street banner program shall be managed by the respective coordinated street banner program administrators.

E. Approved Display Areas:

1. Approved Areas: Street banners may be placed on any existing utility poles that are located along designated arterial or collector streets according to the adopted "Salt Lake City transportation master plan (major street plan: roadway functional classification)" map, or on utility poles along Terminal Drive at the Salt Lake City International Airport, if done in compliance with the requirements of this section.
2. Location:
   a. Placement of street banners within locations identified on the "Salt Lake City transportation master plan (major street plan: roadway functional classification)" map, or on utility poles along Terminal Drive at the Salt Lake City International Airport, must be reviewed in relationship to proximity and use of other existing or proposed street banners and their sponsoring institutions. In certain locations, such banner uses may have the potential for adverse impacts if located without careful planning. Such impacts may interfere with the enjoyment of adjacent property and uses.
   b. Street banners approved and managed by a coordinated street banner program shall be located within the boundaries of the program's specified management area.

F. Display Content And Design:

1. Allowable Displays: The following displays are permitted on street banners:
   a. Advertisements or promotions of community organizations;
   b. Advertisements or promotions of community events;
   c. Advertisements or promotions of activities sponsored by the city, Salt Lake County, the state of Utah, or a governmentally owned educational institution;
   d. Advertisements or promotions of community events that are commercially sponsored;
   e. Welcome messages, such as those for class reunions, conventions, conferences, athletic tournaments, or local winners of major events;

f. Advertisements or promotions of sales and fundraising events for youth organizations, community organizations, and community service organizations for their program support; or

g. Nonpartisan and noncandidate voting information.

2. Nonallowable Displays: The following displays are not permitted on street banners:

a. Personal messages;

b. Promotion of a commercial for profit enterprise, activity, or event;

c. Advertisements for clubs, churches or for profit organizations promoting an event with an admission charge;

d. Advertisements for religious organizations with a message not described in subsection F1 of this section;

e. Messages of political parties or political groups that are not described in subsection F1 of this section; or

f. Advertisements of clubs or organizations for events that are primarily open only to members of those clubs or organizations.

G. Management Of Coordinated Street Banner Programs: The city may enter into agreements with community, government, or educational organizations to manage a coordinated street banner program within a specified geographic area. Coordinated street banner programs shall be subject to requirements as set forth herein. Such agreements must be approved by the city and may establish regulations governing the application, approval, and placement of street banners within the geographic area specified by the agreement.

H. Application For Permit:

1. Street Banners To Be Located Outside The Boundaries Of A Coordinated Street Banner Program: Any person or entity who desires to display street banners to be located outside of the boundaries of a coordinated street banner program shall submit an application to the city transportation division. An application form must be submitted to the transportation division not more than six (6) months nor less than two (2) months before the first date the street banners are proposed to be displayed and must contain the following:

a. The name, address, and telephone number of the applicant, or if an organization, the name, address and telephone number of a contact person;

b. The name, address, and telephone number of any licensed contractor hired to place or remove street banners;

c. A photograph, drawing, or other visual representation of the proposed street banners;

d. The proposed number of street banners and the proposed locations where the street banners will be placed;

e. The proposed dates for placement and removal of the street banners;

f. If the city does not own the real property or the utility pole upon which a street banner is proposed to be placed, evidence of written permission from the owner consenting to such placement; and

g. An application fee as shown on the Salt Lake City consolidated fee schedule.

2. Street Banners To Be Located Within The Boundaries Of A Coordinated Street Banner Program: Any person or entity who desires to display street banners within the boundaries of a coordinated street banner program shall submit an application to the managing entity of the coordinated street banner program. The applicant shall submit any payment or fee required by the coordinated street banner program.

I. Standards For Granting Of The Permit: A street banner permit application shall be reviewed and a permit issued by the city transportation division on a first come, first served basis upon a determination that the application has been properly completed, and that:

1. The location and placement of the street banners will not endanger public safety, including motorists and pedestrians, by interfering with street lighting, obstructing traffic signs or other control devices, or otherwise creating dangerous distractions; and

2. The street banners would comply with all other requirements of this section.

J. Time For Approval Or Disapproval Of Application: Within thirty (30) days after receiving the application for a permit, the city transportation division shall grant, modify, or deny the permit request.

K. Judicial Review Of Denial: Any person adversely affected by the granting or denial of the permit may appeal such decision to a court of competent jurisdiction after receiving notice of the decision. The decision granting or denying the permit shall be effective on the date of written notice issued by the city transportation division.

L. Street Banner And Hardware Standards:

1. Materials: Street banners must be constructed of a material that can withstand the normal and reasonably expected forces of nature for the period of time they are displayed. Torn or damaged street banners shall not be hung and shall be promptly replaced by the applicant if they are torn or damaged after being hung.

2. Dimensions:

a. The street banners shall not exceed an overall length of ninety six inches (96") and a width of thirty inches (30"). There shall be a six inch (6") sleeve at the top of the street banner to slide over the bracket. The bottom shall have a two inch (2") hem, and the sides shall have a minimum hem of 0.75 inch. There shall be two (2) grommets at the bottom of the street banner. The graphic area shall not exceed twenty six inches by eighty eight inches (26" x 88").

b. Promotional street banners may carry a sponsor's logo. The sponsor logo is limited to the bottom twenty percent (20%) of the banner. Sponsor information shall not exceed six inches (6") in height.

3. Banner Hanging Hardware: Any hardware installed on utility poles to hold banners must first be approved by the city transportation division. All street banners and hardware shall be installed such that the top of the street banner is at least eighteen feet (18') above the ground. If the street banner hangs over the trafficway, the top of the banner must be at least twenty two feet (22') above the ground. If the city does not own the utility pole or if the utility pole is not on city property, installation must be approved by the pole owner.

M. Duration Of Display: The street banners may be permitted to be in place for a period of at least seven (7) days but not more than thirty (30) days. As long as no other applicant has applied for permission to place street banners in the same location, that initial thirty (30) day maximum display period may be extended for additional periods of thirty (30) days. Notwithstanding the foregoing, the city may order that street banners be removed prior to the expiration of any permit period, if such street banners are determined to constitute a safety hazard, blight, or otherwise not meet the requirements of this section. The city reserves the right to remove street banners after the display period expires. If the applicant does not remove the street banners, the city may remove them and may charge the applicant for the cost of such removal.

N. Installation, Maintenance And Removal: Street banners and any hardware necessary to display them may be installed only by a licensed contractor approved by the city. Except as may be otherwise determined by the city, the applicant is responsible for all costs associated with installation, maintenance, and removal of street banners and any hardware necessary to display them. The applicant is also responsible for any damage that may occur to the street banners, hardware, or utility poles while the street banners are being installed, displayed, or removed. The applicant shall immediately replace, repair or clean, as applicable, damaged or dirty street banners. At the expiration of the permit period, the applicant shall remove the street banners within five (5) business days. After installation, any hardware installed on utility poles shall become the property of the city and shall remain on the utility poles after removal of the street banners unless the city transportation division instructs the applicant to remove the hardware.

O. Local Street Banners: Nothing in this section shall apply to: 1) holiday decorations (such as lights, wreaths, garlands, or similar decorations) attached to utility poles, or 2) banners on utility poles located on local streets as shown on the adopted "Salt Lake City transportation master plan (major street plan: roadway functional classification)" map that provide information about localized community events such as block parties, street fairs, or neighborhood celebrations and that contain no commercial content.

P. Effect Of Invalidity: If any portion of this section is determined to be illegal, invalid, unconstitutional, or superseded, in whole or in part, this entire section shall forthwith be voided and terminated, subject to the following provisions: 1) in the event of a judicial, regulatory, or administrative determination that all or some part of this section is illegal, invalid, unconstitutional, or superseded, such action shall be effective as of the date of a final appealable court order; and 2) in the event of any state or federal legislative action that renders any portion of this section illegal, invalid, unconstitutional, or superseded, such action shall be effective as of the effective date of such legislative action. (Ord. 24-11, 2011)

21A.46.180: CONSTRUCTION IMPACT AREA MITIGATION SIGNS:

A. Purpose: The purpose of this section is to designate the use of certain temporary signs deemed necessary to offset the impact of building demolition activity and/or construction activity. Additional temporary signage for impacted businesses will benefit local neighborhoods and the city as a whole by promoting business identity and informing the public of continued business operations while demolition and construction activity is ongoing.

B. Nonpublic Forum: In allowing limited temporary signage in certain designated locations, the city does not intend to create a public forum, but rather intends to create a limited or nonpublic forum for the purposes set forth herein.

C. Definitions:

APPLICANT: Any person or organization located within a designated construction impact area that makes application for a construction impact area mitigation sign permit as described herein.

CITY ADMINISTRATION: The community and economic development director with consultation with the planning director, transportation director and city engineer.

CONSTRUCTION IMPACT AREA: A specific location designated by the mayor or the mayor's designee likely to be impacted by temporary construction activities that are anticipated to occur for a period greater than six (6) months and which activities will likely disrupt pedestrian and/or vehicular traffic in such a manner to negatively affect nearby business activities. A construction impact area designation shall be effective for no longer than eighteen (18) months, unless extended by the mayor or mayor's designee for good cause.

CONSTRUCTION IMPACT AREA MITIGATION SIGN: A temporary sign that informs the public a business is open during the period of nearby construction activity.

D. Approval Of Construction Impact Areas: In order to encourage and promote business identity during periods of construction activity, the mayor or mayor's designee may recognize via a public meeting, business areas that are impacted by construction activity.

E. Authority To Display: The designation of a construction impact area authorizes the city administration to develop guidelines limiting sign types, size and location for permitting temporary construction impact area mitigation signs within affected business areas.

F. Construction Impact Area Mitigation Signs: Construction impact area mitigation signs are subject to the following minimum standards in addition to any administrative implementing guidelines developed for a specific construction impact area:

1. Signs for a business with a storefront:

a. Quantity of signs allowed is one banner or A-frame sign per business establishment with a storefront on a street within a designated construction impact area.

b. Size of banner or A-frame signs is limited to sixteen (16) square feet in area.

c. Additional window signs are limited to twenty five percent (25%) of the window area above the base zoning sign area allowed.

2. Signs for a building with multiple businesses without individual storefronts:

a. Quantity of signs allowed is a single banner sign or A-frame sign for the entire building.

b. Size of signs is limited to thirty two (32) square feet in area.

c. Additional window signs are limited to twenty five percent (25%) of the window area above the base zoning sign area allowed.

3. Directional signs identifying parking and businesses open are limited to eight (8) square feet in area and the location is subject to transportation division approval and subject to subsection 21A.46.070D of this chapter.

4. All temporary signs within the public way must be placed in a manner as not to damage roadway and sidewalk surfaces.

5. Duration of display period is up to six (6) months from building permit issuance and is intended to terminate coincidentally with the end of the construction impact. Administrative renewal of a permitted temporary sign is limited to six (6) month periods.

G. Location Of Construction Impact Area Mitigation Signs: The location where temporary signs are permitted can be varied subject to demolition and construction activity within a designated construction impact area. The determination of specific areas is a function of the administrative group given authority to allow temporary signage. Sign locations are also subject to the following criteria for safety purposes:

1. Signs, particularly A-frames, can only be located in a manner that they do not pose a hazard or block the free flow of pedestrian or vehicular travel in the public right of way.

2. Signs on sidewalks should not preclude normal pedestrian passage and should not be located such that they block more than half of the clear walking width or leave less than four feet (4') of passage width to maintain accessibility.

3. Signs in the public right of way cannot be placed in a manner that they preclude drivers within intersections or driveways from having sufficient sight ability of oncoming traffic to maneuver safely.

4. Any approved sign allowed on the public right of way is subject to modification or revocation for public safety purposes.

H. Effect On Overlay Districts: Construction impact mitigation signs are not subject to the requirements and standards of overlay districts established in chapter 21A.34 of this title. (Ord. 77-08 § 2, 2008)

CHAPTER 21A.48
LANDSCAPING AND BUFFERS

21A.48.010: PURPOSE STATEMENT:

The landscaping and buffering requirements specified in this chapter are intended to foster aesthetically pleasing development which will protect and preserve the appearance, character, health, safety and welfare of the community. These regulations are intended to increase the compatibility of adjacent uses and, in doing so, minimize the harmful impacts of noise, dust and other debris, motor vehicle headlight glare or other artificial light intrusions, and other objectionable activities or impacts conducted or created by an adjoining or nearby use, thereby fostering compatibility among different land uses. These regulations are also intended to preserve, enhance and expand the urban forest and promote the prudent use of water and energy resources. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-1), 1995)

21A.48.020: ENFORCEMENT OF LANDSCAPE REQUIREMENTS:

Wherever the submission and approval of a landscape plan is required by this title, such landscape plan shall be an integral part of any application for a building permit and occupancy permit. No permit shall be issued without city approval of a landscape plan as required herein. The requirements of this chapter may be modified by the zoning administrator, on a case by case basis, in response to input from the city police department regarding the effects of required landscaping on crime prevention. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-2), 1995)

21A.48.030: LANDSCAPE PLAN:

A. Landscape Plan Required: A landscape plan shall be required whenever landscaping or alteration of landscaping is required by this title. Such landscape plan shall be drawn in conformance with the requirements specified in this chapter. Landscape plans must be approved by the zoning administrator prior to the issuance of a building permit. Landscape plans for planned developments or conditional uses, or other uses requiring site plan review approval shall be reviewed and approved by the development review team. The construction of detached single-family residences and two-family residences shall be exempt from this landscape plan requirement, except for dwellings in the FP, FR-1 and FR-2 districts, which shall conform to the requirements of this chapter.

B. Content Of Landscape Plan: All landscape plans submitted for approval shall contain the following information, unless specifically waived by the zoning administrator:

1. The location and dimensions of all existing and proposed structures, property lines, easements, parking lots and drives, roadways and rights of way, sidewalks, bicycle paths, ground signs, refuse disposal and recycling areas, bicycle parking areas, fences, freestanding electrical equipment, tot lots and other recreational facilities, and other freestanding structural features as determined necessary by the zoning administrator;
2. The location, quantity, size and name, both botanical and common names, of all proposed plants;
3. The location, size and common names, of all existing plants including trees and other plants in the parkway, and indicating plants to be retained and removed;
4. The location of existing buildings, structures and plants on adjacent property within twenty feet (20') of the site, as determined necessary by the zoning administrator;
5. Existing and proposed grading of the site indicating contours at two foot (2') intervals. Proposed berming shall be indicated using one foot (1') contour intervals;
6. Elevations of all fences and retaining walls proposed for location on the site;
7. Elevations, cross sections and other details as determined necessary by the zoning administrator;
8. Water efficient irrigation system (separate plan required);
9. Summary data indicating the area of the site in the following classifications:
    a. Total area and percentage of the site in landscape area,
    b. Total area and percentage of the site in turf grasses, and
    c. Total area and percentage of the site in drought tolerant plant species. (Ord. 45-07 § 1, 2007: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-3), 1995)

21A.48.040: SELECTION, INSTALLATION AND MAINTENANCE OF PLANT MATERIALS:

A. Selection: Plants used in conformance with the provisions of this chapter shall be of good quality, and capable of withstanding the extremes of individual site microclimates. Size and density of plants both at the time of planting and at maturity, are additional criteria which shall be considered by the zoning administrator when approving plants. The use of drought tolerant plants is preferred when appropriate to site conditions.

B. Installation: All landscaping shall be installed in accordance with the current planting procedures established by the American Association of Nurserymen. The installation of all plants required by this chapter may be delayed until the next optimal planting season, as determined by the zoning administrator.

C. Maintenance:

1. Responsibility: The owner of the premises shall be responsible for the maintenance, repair and replacement of all landscaping materials and barriers, including refuse disposal areas, as may be required by the provisions of this chapter.
2. Landscaping Materials: All landscaping materials shall be maintained in good condition so as to present a healthy, neat and orderly appearance, and plants not in this condition shall be replaced when necessary and shall be kept free of refuse and debris.
3. Fences, Walls And Hedges: Fences, walls and hedges shall be maintained in good repair.
4. Irrigation Systems: Irrigation systems shall be maintained in good operating condition to promote the conservation of water. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-4), 1995)

21A.48.050: DESIGN STANDARDS AND GUIDELINES:

Landscape plans shall be prepared based on the following design standards and guidelines. Design standards are numerically measurable design requirements that can be definitively evaluated for compliance. Design guidelines are not precisely measurable, but compliance can be determined through the evaluation process of landscape plan review. The evaluation and approval of landscape plans shall be based on compliance with both the design standards and guidelines.

A. Design Standards At Time Of Planting:

1. Deciduous Trees: All deciduous trees shall have a minimum trunk size of two inches (2") in caliper, unless otherwise specified.
2. Evergreen Trees: All evergreen trees shall have a minimum size of five feet (5') in height, unless otherwise specified.
3. Ornamental Trees: All ornamental trees shall have a minimum trunk size of one and one-half inches ($1^{1}/_{2}$") in caliper, unless otherwise specified.
4. Shrubs: All shrubs shall have a minimum height or spread of eighteen inches (18") depending on the plant's natural growth habit, unless otherwise specified. Plants in five (5) gallon containers will generally comply with this standard.
5. Drought Tolerant Species: Site conditions in Salt Lake City are generally arid, and the selection of plant species suited to dry conditions is appropriate. To promote water conservation, not less than eighty percent (80%) of the trees and eighty percent (80%) of the shrubs used on a site shall be drought tolerant species that can withstand dry conditions once established. The city has compiled a list titled "Water Conserving Plants For Salt Lake City", that may be locally available.
6. Existing Street Trees: The removal of trees within the street right of way is prohibited without the approval of the zoning administrator in consultation with the urban forester.

B. Design Guidelines:

1. Scale And Nature Of Landscaping Material: The scale and nature of landscaping materials shall be appropriate to the size of the structures. Large scale buildings, for example, should generally be complemented by larger scale plants.
2. Selection Of Plants: Plants shall be selected for form, texture, color, pattern of growth and adaptability to local conditions.
3. Evergreens: Evergreens should be incorporated into the landscape treatment of a site, particularly in those areas where screening and buffer is required.
4. Softening Of Walls And Fences: Plants shall be placed intermittently against long expanses of building walls, fences, and other barriers to create a softening effect.
5. Planting Beds: Planting beds may be mulched with bark chips, decorative stone, or similar materials. Mulch shall not be used as a substitute for plants.
6. Detention/Retention Basins And Ponds: Detention/retention basins and ponds shall be landscaped. Such landscaping may include shade and ornamental trees, evergreens, shrubbery, hedges, turf, ground cover and/or other plant materials.
7. Water Conservation: Landscape design pursuant to the requirements of this chapter must recognize the climatic limitations of the Salt Lake City area and the need for water conservation. While irrigation systems are required for certain landscape areas, and may be desirable for other applications, all irrigation systems shall be designed for efficient use of water.
8. Turf Grasses: Turf grasses should be used in areas with less than a fifty percent (50%) slope to prevent the runoff of irrigation water.
9. Energy Conservation: Plant placement shall be designed to reduce the energy consumption needs of the development.
    a. Deciduous trees should be placed on the south and west sides of buildings to provide shade from the summer sun.
    b. Evergreens and other plant materials should be concentrated on the north side of buildings to dissipate the effect of winter winds.
10. Preservation Of Existing Plants: Existing plants should be incorporated into the landscape treatment of a site as required herein or as required by the site plan review process found in chapter 21A.58 of this title. Trees in the public right of way shall not be removed without the approval of the zoning administrator and urban forester.
11. Berming: Earthen berms and existing topographic features should be, whenever determined practical by the zoning administrator, incorporated into the landscape treatment of a site, particularly when combined with plant material to facilitate screening. (Ord. 45-07 § 2, 2007: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-5), 1995)

21A.48.060: PARK STRIP LANDSCAPING:

A. Intent: The intent of these requirements is to maintain the appearance of park strips, protect the users of park strips by prohibiting the use of materials that may cause harm or injury to pedestrians or vehicles, provide for safe and convenient access across park strips to and from vehicles that may park at the curb, expand landscape design flexibility while not unreasonably inhibiting access for repair and maintenance of public utilities, encourage water conservation through the use of water conserving plants and generally to improve environmental conditions along the city's streets.

B. Applicability: The requirements of this section shall apply to all "park strips", defined as the ground area within the street right of way situated between the back of curb and the sidewalk or, if there is no sidewalk, the back of curb and the right of way line.

1. Properties With Curbs And Gutters: These standards apply to all properties in the city, including vacant lots, that have street curb and/or gutter. Owners of property on streets that do not have curb and gutter are not required to maintain formal landscaping within the public right of way.
2. D-1 District And Beautification Districts: These requirements shall not apply to lots in the D-1 district, which shall be subject to the provisions of subsection 21A.48.100D of this chapter and to official beautification districts where exceptions to park strip standards are approved pursuant to subsection E2 of this section.
3. Discretionary Authority: The zoning administrator may modify the standards of this section to better achieve its intent and address site specific conditions such as, among other things, steep grades between the curb and sidewalk or the presence of canals or drainage channels.

C. General Landscape Requirements:

1. Property Owner Responsibility: All park strips shall be landscaped by the abutting property owner, in conformance with the provisions of this section. For permits involving new construction of a principal building, the contractor shall be responsible for landscaping the park strips as part of the building permit. In general, this landscaping will involve improving the ground surface of the park strip with plant material, or hard surface treatments where permitted. Park strip trees shall also be provided as required herein.
2. Maintenance: All park strip landscaping shall be maintained in a safe and well kept condition by the abutting property owner. Trash, other debris, and noxious weeds shall not be allowed to collect or grow in these areas.
3. Watering: Sufficient water shall be provided for vegetative ground cover, annuals, perennials, shrubs and trees to keep them in a healthy condition.

D. Park Strip Trees:

1. Spacing And Size: Park strip trees, when required, shall be provided at the equivalent of at least one tree for each thirty feet (30') of street frontage and may be clustered or spaced linearly as deemed appropriate by the urban forester. Tree size shall be a minimum of two inch (2") caliper (measured at a point 6 inches above the soil line) at time of planting.
2. Tree Grates: If new trees are proposed in a park strip in which the area surrounding the tree will have an impervious surface, tree wells with grates shall be provided which have dimensions adequate to accommodate the recommended tree species.
3. Permit And Planting: No tree shall be planted in a park strip without first obtaining a permit from the urban forestry division of the Salt Lake City public services department (section 2.26.210 of this code). Tree species and location shall be approved by the urban forester.
4. Tree Maintenance: Planting and maintenance of trees shall be done in conformance with the Salt Lake City urban forestry standards and specifications which are available and shall be administered and enforced through the urban forestry office. No work (pruning, removal, etc.) shall be performed on street trees without first obtaining a permit from the urban forestry office.

E. Park Strip Ground Surface Treatment:

1. Plant Coverage: The intent of the park strip landscaping standards is that thirty three percent (33%) or more of the park strip surface be covered with vegetation within three (3) years of planting or when planting has reached maturity, whichever comes first. For lots with two (2) or more street frontages, this standard shall be applied separately to each adjacent park strip on each street frontage. In new park strips, or when replacing landscaping in existing park strips, it is recommended that water conserving plants constitute at least eighty percent (80%) of all plants used.
2. Annual Or Perennial Flowering Plants: If the entire park strip is planted with annual or perennial flowering plants, it shall be the property owner's responsibility to ensure that erosion does not deposit soil or other material on sidewalks or in the street.
3. Organic Mulch: Materials such as bark, shredded plant material, and compost, may be used as water conserving mulch for plants and may also be used as the only material in portions of a park strip.
4. Gravel, Rocks, And Boulders: Gravel, rocks, and boulders, may be used on portions of the park strip. Large diameter rocks and boulders shall be kept a minimum of eighteen inches (18") away from existing street trees. Organic mulch or gravel, as approved by the urban forester, shall be used near existing street trees.
5. Paving Materials: Paving materials, limited to poured concrete, concrete pavers, brick pavers, or natural stone pavers, may be used in portions of a park strip subject to the following limitations:

a. Paving Materials Near Existing Street Trees: Poured concrete shall not be placed in any park strip with existing street trees. Other paving materials shall be kept a minimum of eighteen inches (18") away from existing street trees. Organic mulch or gravel, as approved by the urban forester, shall be used near existing street trees.

b. Twenty Four Inch Wide Park Strips: Except as specified above, any paving material may be used in one hundred percent (100%) of a park strip that is twenty four inches (24") or less in width. If poured concrete is used, it shall be finished with a stamped pattern resembling brick or natural stone or scored with another decorative pattern to distinguish it from the adjacent sidewalk.

c. Thirty Six Inch Wide Park Strips: In park strips that are thirty six inches (36") or less in width, brick pavers, concrete pavers, or natural stone pavers may be used in one hundred percent (100%) of the surface area. Poured concrete shall not be used except for carriageways as outlined below. The use of plants in combination with paving materials is encouraged.

d. Park Strips Over Thirty Six Inches Wide: In park strips over thirty six inches (36") in width, the combination of all paving materials, gravel, rocks, and boulders shall not exceed sixty seven percent (67%) of the total park strip surface area. Poured concrete shall not be used except for carriageways as outlined below.

6. Carriageways: In order to provide for safe and convenient access across park strips to and from vehicles that may park at the curb, carriageways (walkways between the curb and sidewalk) through planted area are encouraged. The material of carriageways may be poured concrete, concrete pavers, brick pavers, or flat, natural stone paving materials such as flagstone or a combination of these materials. If poured concrete is used, the carriageway shall be not more than four feet (4') in width and shall be located so as to provide the most direct route from the curb to the sidewalk. The area of carriageways shall be included in calculating the percentage of inorganic material in the park strip.

7. Prohibited Materials: Materials prohibited in park strips referenced in table 21A.48.060 of this section include asphalt, concrete, thorn bearing plants (flowering shrubs, such as roses, may be authorized by the zoning administrator), ground cover which exceeds eighteen inches (18") in height at maturity, shrubs which create visual barriers, and structural encroachments. These materials are prohibited for the reasons stated below:

a. Asphalt And Concrete: Asphalt is inconsistent with the city's urban design policy, and deteriorates quicker than pavers. Asphalt in park strips also reduces roadway access definition and encourages people to drive over the curb.

One of the primary uses of park strips is to provide an area for installation of public utilities. Concrete is more difficult and expensive to remove and replace than pavers if these utilities require maintenance or replacement. (See exceptions in subsections E4 and E6 of this section.)

b. Thorn Bearing Plants: Plants which have thorns, spines, or other sharp, rigid parts are hazardous to pedestrians and bicyclists, and are difficult to walk across. Limited use of thorn bearing flowers, such as roses, may be acceptable subject to the approval of the zoning administrator.

c. Continuous Plantings Of Ground Cover And Shrubs Which Exceed Eighteen Inches In Height At Maturity: Continuous plantings of ground cover and shrubs which exceed eighteen inches (18") in height at maturity are hazardous to pedestrians, pets, children on riding toys, and vehicles due to sight distance problems, are difficult to walk across, create visual barriers which promote crime, and limit access to the sidewalk from vehicles parked adjacent to the park strip.

d. Retaining Walls, Fences, Steps, And Other Similar Structural Encroachments: Retaining walls, fences, steps, and other similar structural encroachments in park strips are prohibited unless they are specifically approved through the city revocable permit and review process (not an automatic approval). These structural encroachments are generally prohibited because they limit access from the street to sidewalks and create obstructions to, and increase the cost of, performing maintenance of public improvements and utilities within the park strip.

e. Plants And Objects Within Sight Distance Areas: Except for street trees, no plant, boulder, monument, or other object which is over eighteen inches (18") in height shall be planted or located within sight distance areas.

f. Turf And Gravel On Steep Park Strips: Turf and gravel are not permitted in park strips with a slope greater than three to one (3:1) (3 feet horizontal distance to 1 foot vertical distance). Turf is difficult to mow on steep slopes and gravel will migrate down the slope and collect in the gutter. Larger rocks or boulders used on steep park strips shall be buried in the ground to a depth equal to at least one-third ($^1/_3$) of the rock or boulder's average dimension in order to anchor them into the slope.

8. Exceptions To Park Strip Standards: Exceptions to the park strip policies established herein shall be limited to the following:

a. Beautification District: Salt Lake City currently has two (2) approved beautification districts, one located downtown and one in the Sugar House business district area. In both beautification districts, materials other than vegetation have been approved. Additional beautification districts could be approved by the planning commission. Areas where alternative park strip materials could be considered include identifiable nonresidential areas. The beautification district concept is not intended to respond to one or two (2) properties but an identifiable district. The beautification district concept is not generally applicable to residential areas where a predominant design theme consisting of vegetation has been established.

b. Nonconforming Provision: All vegetation located in park strips prior to November 5, 1992, may be maintained subject to city transportation division approval for sight distance and public way safety requirements.

c. Poured Concrete: Due to maintenance and irrigation difficulties associated with narrow park strips, poured concrete may be used in park strips that are twenty four inches (24") or less in width but shall be finished with a stamped pattern resembling brick or natural stone or scored with another decorative pattern to distinguish it from the adjacent sidewalk. Poured concrete may also be used for carriageways that are four feet (4') or less in width. Poured concrete shall not be used in park strips which contain existing street trees.

TABLE 21A.48.060
PARK STRIP DESIGN STANDARDS

Park Strip Materials	Standards	
Annual and perennial flowering plants	Permitted _ not to exceed 18 inches in height at maturity when located within sight distance areas at street intersections, alleys, or driveways. Annuals and perennials, up to 36 inches in height, may be used as individual specimens or accent plants when not located within sight distance areas. These plants shall not be planted at a spacing that would result in a visual barrier between the street and sidewalk.	
Carriageways providing access to street	Permitted _ carriageways not to exceed 4 feet wide if they are poured concrete.	
Evergreen ground cover	Permitted _ less than 18 inches in height at maturity.	
Inorganic materials including pervious materials (gravel, stone, and boulders) or paving materials (limited to brick, concrete, or natural stone pavers)	Park strips 36 inches or less: Permitted in 100 percent of the park strip surface area. The use of plants in combination with these materials is encouraged. Park strips over 36 inches in width: Permitted either as water conserving mulch for plants or may also be used alone on portions of a park strip. Paving materials shall be kept a minimum of 18 inches away from existing street trees.	
Organic mulch such as bark, shredded plant material, or compost	Permitted and encouraged to conserve water around plants. May also be used as the only material on portions of the park strip.	
Shrubs	Not permitted as a continuous hedge or when located within sight distance areas at street intersections, alleys, or driveways. Permitted, up to 36 inches in height, as individual specimens or accent plants when not located within sight distance areas. Shrubs shall not be planted at a spacing that would result in a visual barrier between the street and sidewalk. (See subsection F of this section.)	
Trees	Permitted _ see subsection D of this section.	
Turf	Permitted on slopes less than 3:1 (3 feet horizontal to 1 foot vertical).	
Water	Sufficient water shall be provided to keep all plants in a healthy condition.	
Prohibited materials	*	Asphalt.
	*	Poured concrete, except in park strips under 24 inches in width or for carriageways less than 4 feet in width. If used in park strips that are 24 inches or less in width, concrete shall be finished with a stamped pattern resembling brick or natural stone or scored with another decorative pattern to distinguish it from the adjacent sidewalk.
	*	Thorn bearing plants.
	*	Structural encroachments.
	*	Plants (except trees), boulders, and other objects over 18 inches in height in sight distance areas.
	*	The total coverage of all organic mulch and inorganic material used without plants shall not exceed 67 percent of the park strip surface area.

F. Clarifying Provisions For Table 21A.48.060 Of This Section:

1. Ground Cover: "Ground covers" are defined as any perennial evergreen plant species that does not exceed eighteen inches (18") in height at maturity and will spread to form a uniform "mat". "Perennial" is defined as a plant having a life span of more than two (2) years. "Evergreen" is defined as a plant having foliage that remains on the plant throughout the year.

2. Perennial Flowering Plants: Perennial flowering plants are flowering plants which have a life span of more than two (2) years but which become dormant each fall, losing all foliage, and generate new foliage and flowering buds the following spring and summer from the dormant root system.

3. Annual Flowering Plants: Annual flowering plants are flowering plants which have a life span of only one growing season outdoors.

4. Shrubs: Shrubs are generally long lived woody plants that may be either evergreen or deciduous. They differ from ground covers in that they are generally over eighteen inches (18") tall and do not generally form a uniform mat. Shrubs shall not be planted at a spacing that will form a mass or hedge which creates a visual barrier between the street and sidewalk. The appropriate use of shrubs in park strips is as accent or specimen plants. Shrubs shall not be planted within street intersection, alley, or driveway sight distance areas. Shrubs may be planted outside sight distance areas but shall not exceed thirty six inches (36") in height at maturity.

5. Height Of Rocks And Boulders: Rocks and boulders placed in park strips shall not exceed eighteen inches (18") in height above grade. (Ord. 20-00 §§ 1-3, 2000: Ord. 35-99 § 86, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-6), 1995)

21A.48.070: PARKING LOT OR VEHICLE SALES OR LEASE LOTS LANDSCAPING:

A. Applicability: All hard surfaced parking lots or hard surfaced vehicle sales or lease lots, for passenger cars and light trucks, with fifteen (15) or more parking spaces shall provide landscaping in accordance with the provisions of this section. Smaller parking lots shall not be required to provide landscaping other than yard area landscaping and landscaped buffer requirements as specified in other sections of this title.

B. Interior Parking Lot And Vehicle Sales Or Lease Lots Landscaping:

1. Area Required: Not less than five percent (5%) of the interior of a parking lot or vehicle sales or lease lots shall be devoted to landscaping. Landscaping areas located along the perimeter of a parking lot or vehicle sales or lease lots beyond the curb or edge of pavement of the lot shall not be included toward satisfying this requirement.

2. Landscaped Areas: The landscaped areas defined in subsection B1 of this section shall be improved in conformance with the following:

a. Dispersion: Interior parking lot or vehicle sales or lease lots landscaping areas shall be dispersed throughout the parking lot or vehicle sales or lease lots.

b. Minimum Size: Interior parking lot or vehicle sales or lease lots landscaping areas shall be a minimum of one hundred twenty (120) square feet in area and shall be a minimum of five feet (5') in width, as measured from back of curb to back of curb.

c. Landscape Material: The plants used to improve the landscape areas defined above shall conform to the following:

(1) Type: The primary plant materials used in parking lots or vehicle sales or lease lots shall be shade tree species in conformance with applicable provisions of subsections 21A.48.050A and B of this chapter. Ornamental trees, shrubbery, hedges, and other plants may be used to supplement the shade tree plantings, but shall not be the sole contribution to such landscaping;

(2) Quantity: One shade tree shall be provided for every one hundred twenty (120) square feet of landscaping area;

(3) Ground Cover: A minimum of fifty percent (50%) of every interior parking lot or vehicle sales or lease lots landscaping area shall be planted with an approved ground cover in the appropriate density to achieve complete cover within two (2) years, as determined by the zoning administrator.

3. Exceptions: In the CG, M-1, M-2 and EI districts, hard surfaced areas used as operational yard areas for trucks, trailers and other incidental vehicles, other than passenger automobiles and light trucks, and which are not parking lots for employees, clients, and customers, are exempt from the parking lot interior landscaping standards.

C. Perimeter Parking Lot Landscaping:

1. Applicability: Where a parking lot is located within a required yard, or within twenty feet (20') of a lot line, perimeter landscaping shall be required along the corresponding edge of the parking lot in conformance with the provisions in table 21A.48.070G of this section. Perimeter landscaping for vehicle sales or lease lots shall include rear and interior side yard landscaping only. Front and corner side yard landscaping for vehicle sales or lease lots shall be provided as specified in each zoning district. Where both landscape buffers and parking lot landscaping is required, the more restrictive requirement shall apply.

2. Landscape Area: Where perimeter landscaping is required, it shall be provided within landscape areas at least seven feet (7') in width, as measured from the back of the parking lot curb and extending any parking space overhang area.

3. Required Improvements: Within the landscape area required above, landscape improvements shall be required as established in table 21A.48.070G of this section.

D. Parking Lot Fencing: Fences along parking lot perimeters may be required through the site plan review process pursuant to the provisions of chapter 21A.58 of this title or when required by the zoning administrator to satisfy buffer requirements outlined in section 21A.48.080 of this chapter.

E. Parking Lot Curb Controls: Six inch (6") poured concrete curb controls shall be constructed around all required landscaping on the perimeter and within parking lots.

F. Discretionary Authority: The zoning administrator may modify requirements of this section to better achieve the intent of this section and address site specific conditions. These modifications shall be limited to the location of required plants and shall not permit a reduction in the required total number of plants.

G. Landscape Improvements Table:

TABLE 21A.48.070G
REQUIRED PERIMETER PARKING LOT
LANDSCAPE IMPROVEMENTS

General Intent: The landscape requirements identified in this table provide for the enhancement of parking lots by recognizing two (2) distinct conditions. The first is where parking lots are located within front and corner side yards, and a uniform scheme of landscaping is required to protect the aesthetics along public streets. The second condition is where parking lots are located within rear and interior side yards, and minimum requirements for beautification of both residential and nonresidential uses are the city's goal. The intent is to require a higher level of landscaping for residential uses (principally multi-family uses) than for nonresidential uses. The improvements established in this table are required only for parking lots with fifteen (15) or more spaces and where the lot is located within a required yard or within twenty feet (20') of a lot line. The reduction of impacts between dissimilar uses is addressed by section 21A.48.080 of this chapter. Where both parking lot landscaping and landscape buffers are required, the more restrictive shall apply.

Required Landscaping	Front And Corner Side Yards	
Shade trees	1 tree per 50 feet of yard length, measured to the nearest whole number (in addition to required parkway trees)	
Shrubs	1 shrub per 3 feet, on center along 100 percent of the yard length. Shrubs with mature height not more than 3 feet unless a lower shrub height is specifically required in this chapter for front yard areas	
Ground cover	Landscape area outside of shrub masses shall be established in turf or other ground cover	
Required Landscaping	Rear And Interior Side Yards	
	Residential Use (Including Institutional Residential Uses)	Nonresidential Use
Shade trees	1 tree per 30 feet of yard length, measured to the nearest whole number	1 tree per 50 feet of yard length, measured to the nearest whole number
Shrubs	1 shrub per 3 feet, on center along 100 percent of the yard length. Shrubs shall have a mature height not less than 3 feet	1 shrub per 3 feet, on center along 50 percent of the yard length. Shrubs shall have a mature height of not less than 3 feet

Ground cover	Landscape area outside of shrub masses shall be established as per section 21A.48.090 of this chapter	Landscape area outside of shrub masses shall be established as per section 21A.48.090 of this chapter

H. Landscaping Performance Standards For Airport District (A): Parking lot landscaping in airport district shall comply with the specifications set forth in subsections 21A.34.040EE and FF of this title. (Ord. 45-07 § 3 (Exh. A), 2007: Ord. 70-03 §§ 3, 4, 2003: Ord. 35-99 §§ 87, 88, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-7), 1995)

21A.48.080: LANDSCAPE BUFFERS:

A. Applicability: The regulations of this section shall establish the dimensions and improvement requirements of landscape buffers as required for transitions between dissimilar uses.

B. General Restrictions: Landscape buffers shall be reserved for planting and fencing as required within this section. No parking, driveways, sidewalks, accessory buildings or other impervious surfaces shall be permitted, unless specifically authorized through the site plan review process. Landscape buffers may be located within required yards or required landscape yards as established in the applicable district regulations. Where both landscape buffers and parking lot landscaping is required the more restrictive shall apply.

C. Size Of Landscape Buffers: The minimum size of landscape buffers for various situations is set forth below:

1. RMF-30, RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, MU, PL, PL-2 And OS Districts: Lots in the RMF-30, RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, MU, PL, PL-2 or OS districts which abut a lot in a single-family or two-family residential district, shall provide a ten foot (10') wide landscape buffer.
2. RB District: A landscape buffer is not required for lots in an RB district which abut a lot in a residential district.
3. CN, CB, CC And CSHBD Districts: Lots in the CN, CB, CC or CSHBD districts which abut a lot in a residential district shall provide a seven foot (7') landscape buffer.
4. CS And CG Districts: Lots in the CS or CG districts which abut a lot in a residential district shall provide a fifteen foot (15') landscape buffer.
5. M-1 District: Lots in the M-1 district which abut a lot in a residential district shall provide a fifteen foot (15') landscape buffer.
6. M-2 District: Lots in the M-2 district which abut a lot in a residential district shall provide a fifty foot (50') landscape buffer.
7. RP And BP Districts: Lots in the RP or BP districts which abut a lot in a residential district shall provide a thirty foot (30') landscape buffer.
8. I Institutional District: Lots in the I institutional district which abut a lot in a residential district shall provide a landscape buffer fifteen feet (15') in width or equal to the average height of the facade of the principal building facing the buffer, whichever is greater.
9. UI Urban Institutional District: Lots in the UI urban institutional district which abut a lot in a single-family or two-family residential district shall provide a fifteen foot (15') landscape buffer.
10. MH Mobile Home District: A landscape buffer of twenty feet (20') in width shall be provided around the perimeter of each mobile home park.
11. EI Extractive Industry And LO Landfill Overlay Districts: A landscape buffer of thirty feet (30') shall be provided around the perimeter of each use.
12. TC-75 District: Lots in the TC-75 district which abut a lot in a residential district, shall provide a ten foot (10') landscaped buffer.

D. Improvement Of Landscape Buffers: Required planting and fencing shall be installed in conformance with the following provisions:

1. RMF-30, RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, MU, PL, PL-2 And OS Districts: In the RMF-30, RMF-35, RMF-45, RMF-75, R-MU-35, R-MU-45, R-MU, RO, MU, PL, PL-2 and OS districts, the following improvements shall be provided:
   a. Shade trees shall be planted at the rate of one tree for every thirty (30) linear feet of landscape buffer.
   b. A continuous evergreen or deciduous shrub hedge shall be planted along the entire length of landscape buffer. This shrub hedge shall have a mature height of not less than four feet (4').
   c. A fence not exceeding six feet (6') in height may be combined with the shrub hedge, subject to the approval of the zoning administrator.
   d. Landscape yards shall be maintained per section 21A.48.090 of this chapter.
2. CN, CB, CC And CSHBD Districts: In the CN, CB, CC and CSHBD districts, the following improvements shall be provided:
   a. Shade trees shall be planted at the rate of one tree for every thirty (30) linear feet of landscape buffer;
   b. Shrubs, having a mature height of not less than four feet (4'), shall be planted along the entire length of the landscape buffer;
   c. Landscape yards shall be maintained per section 21A.48.090 of this chapter; and
   d. A solid fence between four (4) and six feet (6') in height shall be erected along the property line unless waived by the zoning administrator.
3. CS, CG, M-1, I, UI, MH, RP And BP Districts: In the CS, CG, M-1, I, UI, MH, RP and BP districts, the following improvements shall be provided:
   a. Shade trees shall be planted at the rate of one tree per twenty five (25) linear feet along the entire length of the landscape yard. Shade trees may be clustered subject to the site plan review approval. Evergreen trees may be substituted for a portion of the shade trees;
   b. Shrub masses, at least two (2) rows deep and with shrubs alternately spaced, shall be provided along the entire length of the landscape yard. Shrubs shall reach a mature height of not less than four feet (4');
   c. Landscape yards shall be maintained per section 21A.48.090 of this chapter; and
   d. A solid fence six feet (6') in height shall be located on the property line along the required landscape buffer unless waived by the zoning administrator.
4. M-2 District: In the M-2 district, the following improvements shall be provided:
   a. Shade trees shall be planted at a rate of one tree for every twenty feet (20') of length of the landscape buffer. Shade trees may be grouped or clustered, subject to site plan review approval. Evergreen trees may be used as substitutes for some of the shade trees.
   b. Shrub masses, at least two (2) rows deep and with shrubs alternately spaced, shall be provided along seventy five percent (75%) of the length of the landscape yard. Shrubs shall reach a mature height of not less than four feet (4').
   c. Landscape yards shall be maintained per section 21A.48.090 of this chapter.
5. EI And LO Districts: Each use in the EI and LO districts must submit a landscape plan to the zoning administrator indicating how the proposed landscaping will mitigate noise, dust or other impacts on surrounding and nearby uses. (Ord. 45-07 § 4, 2007: Ord. 76-05 § 3, 2005: Ord. 71-04 §§ 25, 26, 2004: Ord. 13-04 §§ 28, 29, 2004: Ord. 73-02 §§ 16, 17, 2002: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-8), 1995)

21A.48.090: LANDSCAPE YARDS:

Landscape yards are yards devoted exclusively to landscaping except, however, that driveways and sidewalks needed to serve the use and buildings on the lot may be located within a required landscape yard. As used in this chapter, the term "landscaping" shall be defined as set forth in section 21A.62.040, "Definitions", of this title. No specific improvements are required within landscape yards, except that all landscape areas shall be maintained with at least one-third ($\frac{1}{3}$) of the yard(s) area covered by vegetation, which may include trees, shrubs, grasses, annual or perennial plants and vegetable plants. Vegetable plants shall be limited to a maximum height of twenty four inches (24"). Mulches such as organic mulch, gravel, rocks and boulders shall be a minimum depth of three inches (3") or more, dependent on the material used, to control weeds and erosion in unplanted areas and between plants, and that these aforementioned items at all times cover any installed weed block barriers that cover the ground surface.

A. Bond Requirement: All developers and/or contractors shall be required to post a bond with the city for the total amount of the landscaping contract for all multi-family dwellings and commercial development. (Ord. 45-07 § 5, 2007: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-9), 1995)

21A.48.100: SPECIAL LANDSCAPE REGULATIONS:

In addition to the foregoing requirements, special landscape regulations shall apply to certain zoning districts. These regulations are established below:

A. FP Foothills Protection District:

1. Landscape Plan Required: A landscape plan, conforming to sections 21A.48.030 and 21A.48.050 of this chapter, shall be required for all uses within this district. This plan shall delineate the proposed revegetation of disturbed areas of the site, and road/driveway areas. The landscape plan shall extend one hundred feet (100') beyond the disturbed site area and twenty five feet (25') beyond the limits of grading for roads/driveways, but need not include any portions of the site designated as undevelopable unless these areas are disturbed.
2. Maximum Disturbed Area: The maximum disturbed area shall not exceed ten percent (10%) of the total site area.
3. Tree Preservation And Replacement: Existing trees over two inches (2") in caliper that are removed from the site to accommodate development shall be replaced. Whenever microclimate conditions make it practical, the proportion of replacement tree species shall be the same as the trees removed.
4. Limits On Turf: To help promote the intent of this district by minimizing the impact on the natural landscape, the area of turf grasses shall not exceed thirty percent (30%) of the area to be landscaped and shall not encroach into undevelopable areas.
5. Slope Revegetation: All slopes graded or otherwise disturbed shall be restored/replanted. Restored vegetation shall consist of native or adapted grasses, herbaceous perennials, or woody trees and shrubs as appropriate for slope, soil and microclimate conditions.
6. Irrigation: Irrigation shall be installed to provide needed water for at least the first two (2) years of growth to establish revegetation of natural areas. Irrigation for areas of turf and ornamental landscaping shall be provided at the discretion of the property owner, however, all systems shall be subject to the review and approval of the zoning administrator.
7. Erosion Protection: As a condition of site plan approval, a plan for erosion protection shall be submitted with the landscape plan.

B. FR-1 And FR-2 Foothills Residence Districts:

1. Landscape Plan Required: A landscape plan, conforming to sections 21A.48.030 and 21A.48.050 of this chapter, shall be required for all uses within this district. This plan shall delineate the proposed revegetation of disturbed site areas.
2. Tree Preservation And Replacement: Existing trees over two inches (2") in caliper that are removed from the site to accommodate development shall be replaced. Whenever microclimate conditions make it practical, the proportion of replacement tree species shall be the same as the trees removed.
3. Slope Revegetation: All slopes graded or otherwise disturbed shall be restored/replanted. Restored vegetation shall consist of native or adapted grasses, herbaceous perennials, or woody trees and shrubs as appropriate for slope and microclimate conditions.
4. Irrigation: Irrigation shall be installed to provide needed water for at least the first two (2) years of growth to establish revegetation of natural areas. Irrigation for areas of turf and ornamental landscaping shall be provided at the discretion of the property owner, however, all systems shall be subject to city review and approval.
5. Erosion Protection: As a condition of site plan approval, a plan for erosion protection shall be submitted with the landscape plan.

C. CC Commercial District:

1. Special Front Yard Landscaping: Special front yard landscaping shall be required in conformance with the following:
   a. The first fifteen feet (15') of lot depth shall be devoted to landscaping. Driveways and sidewalks may be located within this area to serve the building and use on the lot;
   b. Shrubs limited to a height of not more than three feet (3') shall be provided at the rate of one shrub for every two feet (2') of lot width. A mix of shrub species is recommended, and at least forty percent (40%) of the shrubs must be evergreen;
   c. Trees shall be provided at the rate of one tree for every twenty five feet (25') of lot width, rounded to the nearest whole number. Evergreen trees or shade trees may be substituted with ornamental trees, subject to the review and approval of the development review team; and
   d. Areas not planted with shrubs or trees shall be maintained in turf or as vegetative ground cover. A drought tolerant ground cover is recommended.
2. Irrigation: Permanent irrigation shall be installed and used as needed to maintain plant material in a healthy state.
3. Maintenance: Landscaping shall be installed and maintained in substantial conformance with the approved landscape plan. Landscaping shall be kept free of weeds and litter.

D. D-1 Central Business District And D-4 Downtown Secondary Central Business District:

1. Right Of Way Landscaping: The principal area of focus for landscaping in the D-1 and D-4 districts shall be along sidewalks and parkways. Landscaping on private property shall be subject to the regulations below and in the D-1 and D-4 districts.
   a. Location: Landscape areas shall be located a minimum of two feet (2') from back of the street curb and shall be located in conformance with the adopted beautification plan for an approved beautification district. If the beautification plan does not address the site in question, the location of landscape areas shall be determined through the site plan review process.
   b. Trees: Shade trees shall be planted as specified through the site plan review process.
   c. Shrubs/Ground Cover: The ground surface of the landscape area may be suitable for the planting of shrubs, ground cover or flowers depending on use and pedestrian patterns. Tree grates or other improvements may be required to facilitate pedestrian circulation along the street. The ground surface shall be determined by the beautification plan, or in the absence of specific direction from the plan, the site plan review process.

2. Landscaping For Vacant Lots: Special landscaping shall be required on those lots becoming vacant, where no replacement use is proposed, in conformance with the following:

a. Landscape Yard Requirement: A landscape yard of fifteen feet (15') shall be required as measured from any point along all property lines. Fencing, pursuant to section 21A.40.120 of this title, can be used as an element of the overall landscaping plan, however, shall not be used in lieu of the landscaping requirements of this section. The purpose of any fencing on downtown lots is for aesthetic value only, and shall consist of wrought iron or other similar material (no chainlink). Fencing shall be open so as not to create a visual barrier, and shall be limited to a maximum of four feet (4') in height, with the exception of a fence located within thirty feet (30') of the intersection of front property lines on any corner lot as noted in subsection 21A.40.120E of this title. The approval of a final landscape plan, that includes a fencing element, shall be delegated to the building official with the input of the planning director, to determine if the fencing materials, location, and height are compatible with adjacent properties in a given setting.

b. Trees: Shade trees shall be provided at the rate of one tree per thirty feet (30') of yard length, rounded up to the nearest whole number.

c. Shrubs: Shrubs shall be provided at the rate of one plant for every three feet (3') of yard length, evenly spaced, limited to a height of not more than three feet (3'). All plants shall be drought tolerant; consult the Salt Lake City water wise plant list for suggestions. At least forty percent (40%) of the plants must be evergreen.

d. Ground Cover: Areas not planted with shrubs and trees shall be maintained in drought tolerant vegetative ground cover.

e. Irrigation: Permanent irrigation shall be installed and used as needed to maintain plant materials in a healthy state.

f. Maintenance: Landscaping shall be installed and maintained in conformance with the approved landscape plan. Landscaping shall be kept free of weeds and litter.

E. Transitional Overlay District: All conditional uses in the transitional overlay district shall conform to the following landscape/buffer requirements. Permitted uses shall be exempt from these requirements.

1. Landscaped Front And Corner Side Yard: All front and corner side yards shall be maintained as landscape yards. The improvement of such landscape yards shall be consistent with the character of the residential neighborhood.

2. Landscaped Interior Side Yard: Where the interior side yard abuts a residential use, a landscape yard eight feet (8') in width shall be provided. This landscape yard shall be improved as set forth below:

a. A six foot (6') high solid fence or wall shall be constructed from the front yard setback line to the rear lot line. The outside edge of this fence or wall shall be located no less than seven feet (7') from the side lot line. The requirement for a fence or wall may be waived by the zoning administrator if the building elevation facing the residential property is of a design not requiring screening by a fence or wall;

b. Deciduous shade trees shall be planted within the landscape yard. One tree per thirty (30) linear feet of landscape yard shall be required, although the spacing of trees may be arranged in an informal manner;

c. A continuous row of shrubs (deciduous or evergreen) shall be planted along the entire length of the landscape yard. The size of the shrubs shall not be less than four feet (4') in height at the time of maturity. The spacing of shrubs shall not be greater than five feet (5') on center. Shrubs must be set back from the side lot line at least four feet (4') on center; and

d. Landscape yards shall be maintained per section 21A.48.090 of this chapter.

3. Landscaped Rear Yard: Where the rear yard abuts a residential use, a solid fence or wall shall be constructed along the entire length of the rear lot line. The requirement for a fence or wall may be waived if conditions on the lot, including landscape screening within the rear yard, eliminate the need for a fence or wall. (Ord. 45-07 § 6, 2007: Ord. 65-05 § 4, 2005: Ord. 13-04 § 30, 2004: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-10), 1995)

21A.48.110: FREEWAY SCENIC LANDSCAPE SETBACK:

A. Purpose Statement: Freeway scenic landscape setbacks shall be established along all federal interstate highways to enhance the visual appearance of Salt Lake City, reduce visual distractions to motorists and promote the general health, safety and welfare of Salt Lake City.

B. Applicability: Freeway scenic landscape setbacks shall be required for all lots abutting an interstate highway that are subdivided after April 12, 1995, for construction of a principal building, or for a twenty five percent (25%) floor area increase of a principal building, or for any new use of a previously undeveloped site or twenty five percent (25%) expansion of an existing use on a developed site, in all zones except single-family, R-2 single- and two-family residential districts.

C. Scenic Landscape Location: Freeway scenic landscape setbacks shall be located directly adjacent to an interstate highway right of way line. For applicable properties adjacent to an interstate highway, a scenic landscape setback shall be provided along the full length of its frontage along such interstate highway.

D. Size Of Scenic Landscape Setback: For lots platted after April 12, 1995, scenic landscape setbacks shall be twenty feet (20') in width. For lots existing as of April 12, 1995, the width of the scenic setback may be reduced, upon approval of the zoning administrator, if such reduction is necessary to achieve the required off street parking. The width of the scenic landscape setback shall not be less than ten feet (10').

E. Planting Of Scenic Landscape Setback: All scenic landscape setbacks shall be planted to achieve a significant vegetative screen. To accomplish this, the following planting shall be required within a scenic landscape setback.

1. Shade Trees: One shade tree shall be planted for each three hundred (300) square feet of setback area.

2. Evergreen Trees: Evergreen trees may be substituted for one hundred percent (100%) of the shade trees required in subsection E1 of this section, where microclimate conditions support the use of evergreen trees, subject to the approval of the zoning administrator.

3. Ornamental Trees: Ornamental trees, having a mature canopy size less than thirty feet (30'), may be substituted for up to thirty percent (30%) of the shade trees required in subsection E1 of this section.

4. Large Shrubs: Large shrubs may be substituted for up to ten percent (10%) of the shade trees required in subsection E1 of this section. Three (3) large shrubs shall be planted for each shade tree substitution.

5. Ground Cover: To promote water conservation and the visual character of the native landscape, scenic landscape setbacks shall use native grasses, wildflowers and shrubs for the establishment of ground cover. In areas with greater exposure to sun and drought conditions, herbaceous perennials and shrubs will be used to create a native ground cover.

F. Drought Tolerant Material: All of the plant material used shall be drought tolerant species conforming to the current list maintained by the zoning administrator, or as otherwise approved.

G. Irrigation: A permanent water efficient irrigation system shall be installed within each scenic landscape setback.

H. Waiver Of Requirements: Some or all of the requirements of this section may be waived by the zoning administrator if conformance with such will not benefit the visual appearance of the city or the general public welfare. Specifically, the zoning administrator may waive the requirement where property abuts interstate highway bridges and underpasses and where the change of grade/elevation would not allow for views of the scenic landscape setback. (Ord. 61-11, 2011: Ord. 73-02 § 18, 2002: Ord. 83-98 § 15, 1998: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-11), 1995)

21A.48.120: SCREENING OF REFUSE DISPOSAL DUMPSTERS:

All refuse disposal dumpsters, except those located in the CG, M-2, LO and EI districts shall be screened on all sides by a solid wood fence, masonry wall or an equivalent opaque material to a height of not less than six feet (6') but not more than eight feet (8'). This requirement shall not apply to recycling containers and devices. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-12), 1995)

21A.48.130: INNOVATIVE LANDSCAPING:

Innovative landscaping design is encouraged and shall be considered as a positive attribute in connection with any request for a variation from the requirements of this chapter. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-13), 1995)

21A.48.140: CHANGES TO APPROVED LANDSCAPE PLANS:

Any change or deviation to an approved landscape plan shall require the approval of the zoning administrator. Changes which do not conform to this chapter shall be subject to the procedures for a variance as established in chapter 21A.18 of this title. Landscape improvements made to a lot that are not in conformance with an approved landscape plan shall be a violation of this title, and subject to the fines and penalties established herein. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-14), 1995)

21A.48.150: AUTOMOBILE SALES ESTABLISHMENTS:

In the absence of more restrictive regulations of the applicable zoning district, automobile sales and lease establishments shall be required to provide a five foot (5') landscape front and corner side yard. (Ord. 35-99 § 89, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-15), 1995)

21A.48.160: APPEAL:

Any person adversely affected by a final decision of the zoning administrator on a landscaping or buffer requirement may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012)

21A.48.170: LANDSCAPING PROVIDED AS A CONDITION OF BUILDING PERMIT ISSUANCE:

The landscaping required by this chapter shall be provided as a condition of building permit issuance for any addition, expansion or intensification of a property that increases the floor area and/or parking requirement by fifty percent (50%) or more. The zoning administrator may waive the landscaping requirement if an existing building is located in an area of the lot that is required to be landscaped and compliance with the landscaping requirements of this chapter necessitates removing all or a portion of an existing building. (Ord. 13-04 § 31, 2004: Ord. 35-99 § 90, 1999: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(24-17), 1995)

CHAPTER 21A.50
AMENDMENTS

21A.50.010: PURPOSE STATEMENT:

The purpose of this chapter is to provide standards and procedures for making amendments to the text of this title and to the zoning map. This amendment process is not intended to relieve particular hardships nor to confer special privileges or rights upon any person, but only to make adjustments necessary in light of changed conditions or changes in public policy. (Ord. 26-95 § 2(25-0), 1995)

21A.50.020: AUTHORITY:

The text of this title and the zoning map may be amended by the passage of an ordinance adopted by the city council in accordance with the procedures set forth in this chapter. (Ord. 26-95 § 2(25-1), 1995)

21A.50.030: INITIATION:

Amendments to the text of this title or to the zoning map may be initiated by filing an application for an amendment addressed to the planning commission. Applications for amendments may be initiated by the mayor, a city council member, a planning commissioner, or the owner of the property included in the application, or the property owner's authorized agent. Applications related to H historic preservation overlay districts or landmark sites shall be initiated as provided in chapter 21A.34 of this title. (Ord. 74-12, 2012)

21A.50.040: PROCEDURE:

An amendment to the text of this title or to the zoning map initiated by any of the methods described in section 21A.50.030 of this chapter shall be processed in accordance with the following procedures:

A. Application: An application shall be made to the zoning administrator on a form or forms provided by the office of the zoning administrator, which shall include at least the following information:

1. A statement of the text amendment or map amendment describing the purpose for the amendment and the exact language, boundaries and zoning district;

2. Street address and legal description of the property;

3. A complete description of the proposed use of the property where appropriate;

4. Site plans drawn to scale (where applicable); and

5. Related materials or data supporting the application as may be determined by the applicant and the zoning administrator.

B. Fees: The application for an amendment shall be accompanied by the fee shown on the Salt Lake City consolidated fee schedule. Applications filed by a city council member, a planning commissioner or the mayor shall not require the payment of any fees.

C. Determination Of Completeness: Upon receipt of an application for an amendment, the zoning administrator shall make a determination of completeness pursuant to section 21A.10.010, "General Application Procedures", of this title.

D. Staff Report: A staff report evaluating the amendment application shall be prepared by the planning director.

E. Planning Commission Public Hearing: The planning commission shall schedule and hold a public hearing on the completed application in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10, "General Application And Public Hearing Procedures", of this title.

F. Planning Commission Decision: Following the public hearing, the planning commission shall recommend approval or denial of the proposed amendment or the approval of some modification of the amendment and shall then submit its recommendation to the city council.

G. City Council Hearing: The city council shall schedule and hold a public hearing to consider the proposed amendment in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10, "General Application And Public Hearing Procedures", of this title.

H. City Council Decision: Following the hearing, the city council may adopt the proposed amendment, adopt the proposed amendment with modifications, or deny the proposed amendment. However, no additional land may be zoned to a different classification than was contained in the public notice, and no land may be rezoned to a less restricted classification, without new notice and hearing. (Ord. 62-11, 2011: Ord. 24-11, 2011)

21A.50.050: STANDARDS FOR GENERAL AMENDMENTS:

A decision to amend the text of this title or the zoning map by general amendment is a matter committed to the legislative discretion of the city council and is not controlled by any one standard.

A. In making its decision concerning a proposed text amendment, the city council should consider the following factors:

1. Whether a proposed text amendment is consistent with the purposes, goals, objectives, and policies of the city as stated through its various adopted planning documents;
2. Whether a proposed text amendment furthers the specific purpose statements of the zoning ordinance;
3. Whether a proposed text amendment is consistent with the purposes and provisions of any applicable overlay zoning districts which may impose additional standards; and
4. The extent to which a proposed text amendment implements best current, professional practices of urban planning and design.

B. In making a decision to amend the zoning map, the city council should consider the following:

1. Whether a proposed map amendment is consistent with the purposes, goals, objectives, and policies of the city as stated through its various adopted planning documents;
2. Whether a proposed map amendment furthers the specific purpose statements of the zoning ordinance;
3. The extent to which a proposed map amendment will affect adjacent properties;
4. Whether a proposed map amendment is consistent with the purposes and provisions of any applicable overlay zoning districts which may impose additional standards; and
5. The adequacy of public facilities and services intended to serve the subject property, including, but not limited to, roadways, parks and recreational facilities, police and fire protection, schools, stormwater drainage systems, water supplies, and wastewater and refuse collection. (Ord. 60-09 § 1, 2009)

21A.50.060: LIMITATION ON AMENDMENTS:

No application for an amendment to this title shall be considered by the city council or the planning commission within one year of the withdrawal by the applicant or final decision of the city council upon a prior application covering substantially the same subject or substantially the same property. This determination shall be made by the zoning administrator upon receipt of an application pursuant to section 21A.50.030 of this chapter. This provision shall not restrict the mayor, a city council member or a planning commissioner from proposing any text amendment or change in the boundaries of any of the districts in this title at any time. (Ord. 26-95 § 2(25-5), 1995)

21A.50.070: APPEAL OF DECISION:

Any party adversely affected by the decision of the city council may, within thirty (30) days after such decision, file an appeal to the district court pursuant the municipal land use development and management act, section 10-9-1001, of the Utah Code Annotated. (Ord. 26-95 § 2(25-6), 1995)

CHAPTER 21A.52
SPECIAL EXCEPTIONS

21A.52.010: PURPOSE STATEMENT:

The planning commission or historic landmark commission may delegate its authority as necessary to the planning director to make a determination regarding special exceptions. The planning director may approve the special exceptions authorized by this title in accordance with the procedures and standards set out in this chapter and other regulations applicable to the district in which the subject property is located. (Ord. 73-11, 2011)

21A.52.020: DEFINITION:

A "special exception" is an activity or use incidental to or in addition to the principal use(s) permitted in a zoning district or an adjustment to a fixed dimension standard permitted as exceptions to the requirements of this title of less potential impact than a conditional use but which requires a careful review of such factors as location, design, configuration and/or impacts to determine the desirability of authorizing its establishment on any given site. (Ord. 73-11, 2011)

21A.52.030: SPECIAL EXCEPTIONS AUTHORIZED:

A. In addition to any other special exceptions authorized elsewhere in this title, the following special exceptions are authorized under the provisions of this title:

1. Accessory building height, including wall height, in excess of the permitted height provided:
   a. The extra height is for architectural purposes only, such as a steep roof to match existing primary structure or neighborhood character.
   b. The extra height is to be used for storage of household goods or truss webbing and not to create a second level.
   c. No windows are located in the roof or on the second level unless it is a design feature only.
   d. No commercial use is made of the structure or residential use unless it complies with the accessory dwelling unit regulations in this title.
2. Accessory structures in the front yard of double frontage lots, which do not have any rear yard provided:
   a. The required sight visibility triangle shall be maintained at all times.
   b. The structure meets all other size and height limits governed by the zoning ordinance.
3. Additional height for fences, walls or similar structures may be granted to exceed the height limits established for fences and walls in chapter 21A.40 of this title if it is determined that there will be no negative impacts upon the established character of the affected neighborhood and streetscape, maintenance of public and private views, and matters of public safety. Approval of fences, walls and other similar structures may be granted under the following circumstances subject to compliance with other applicable requirements:
   a. Exceeding the allowable height limits; provided, that the fence, wall or structure is constructed of wrought iron, tubular steel or other similar material, and that the open, spatial and nonstructural area of the fence, wall or other similar structure constitutes at least eighty percent (80%) of its total area;
   b. Exceeding the allowable height limits within thirty feet (30') of the intersection of front property lines on any corner lot; unless the city's traffic engineer determines that permitting the additional height would cause an unsafe traffic condition;
   c. Incorporation of ornamental features or architectural embellishments which extend above the allowable height limits;
   d. Exceeding the allowable height limits, when erected around schools and approved recreational uses which require special height considerations;
   e. Exceeding the allowable height limits, in cases where it is determined that a negative impact occurs because of levels of noise, pollution, light or other encroachments on the rights to privacy, safety, security and aesthetics;
   f. Keeping within the character of the neighborhood and urban design of the city;
   g. Avoiding a walled-in effect in the front yard of any property in a residential district where the clear character of the neighborhood in front yard areas is one of open spaces from property to property; or
   h. Posing a safety hazard when there is a driveway on the petitioner's property or neighbor's property adjacent to the proposed fence, wall or similar structure.
4. Additional building height in commercial districts are subject to the standards in chapter 21A.26 of this title.
5. Additional foothills building height, including wall height, shall comply with the standards in chapter 21A.24 of this title.
6. Additional residential building height, including wall height, in the R-1 districts, R-2 districts and SR districts shall comply with the standards in chapter 21A.24 of this title.
7. Alternative parking requests shall comply with the standards and considerations of chapter 21A.44 of this title.
8. Barbed wire fences may be approved subject to the regulations of chapter 21A.40 of this title.
9. Conditional home occupations subject to the regulations and conditions of chapter 21A.36 of this title.
10. Dividing existing lots containing two (2) or more separate residential structures into separate lots that would not meet lot size, frontage width or setbacks provided:
    a. The residential structures for the proposed lot split already exist and were constructed legally.
    b. The planning director agrees and is willing to approve a minor subdivision application.
    c. Required parking equal to the parking requirement that existed at the time that each dwelling unit was constructed.
11. Front yard parking shall comply with the standards found in chapter 21A.44 of this title.
12. Grade changes and retaining walls are subject to the regulations and standards of chapter 21A.36 of this title.
13. Ground mounted central air conditioning compressors or systems, heating, ventilating, pool and filtering equipment located in required side and rear yards within four feet (4') of the property line. The mechanical equipment shall comply with applicable Salt Lake County health department noise standards.
14. Hobby shop, art studio, exercise room or a dressing room adjacent to a swimming pool, or other similar uses in an accessory structure, subject to the following conditions:
    a. The height of the accessory structure shall not exceed the height limit established by the underlying zoning district unless a special exception allowing additional height is allowed.
    b. If an accessory building is located within ten feet (10') of a property line, no windows shall be allowed in the walls adjacent to the property lines.
    c. If the accessory building is detached, it must be located in the rear yard.
    d. The total covered area for an accessory building shall not exceed fifty percent (50%) of the building footprint of the principal structure, subject to all accessory building size limitations.

15. In line additions to existing residential or commercial buildings, which are noncomplying as to yard area or height regulations provided:

a. The addition follows the existing building line and does not create any new noncompliance.

b. No additional dwelling units are added to the structure.

c. The addition is a legitimate architectural addition with rooflines and exterior materials designed to be compatible with the original structure.

16. Operation of registered home daycare or registered home preschool facility in residential districts subject to the standards of chapter 21A.36 of this title.

17. Outdoor dining in required front, rear and side yards subject to the regulations and standards of chapter 21A.40 of this title.

18. Razor wire fencing may be approved subject to the regulations and standards in chapter 21A.40 of this title.

19. Replacement or reconstruction of any existing noncomplying segment of a residential or commercial structure or full replacement of a noncomplying accessory structure provided:

a. The owner documents that the new construction does not encroach farther into any required rear yard than the structure being replaced.

b. The addition or replacement is compatible in design, size and architectural style with the remaining or previous structure.

20. Underground building encroachments into the front, side, rear and corner side yard setbacks provided the addition is totally underground and there is no visual evidence that such an encroachment exists.

21. Window mounted refrigerated air conditioner and evaporative swamp coolers located in required front, corner, side and rear yards within two feet (2') of a property line shall comply with applicable Salt Lake County health department noise standards.

22. Legalization of excess dwelling units may be granted subject to the following requirements and standards:

a. Purpose: The purpose of this subsection is to implement the existing Salt Lake City community housing plan. This plan emphasizes maintaining existing housing stock in a safe manner that contributes to the vitality and sustainability of neighborhoods within the city. This subsection provides a process that gives owners of property with one or more excess dwelling units not recognized by the city an opportunity to legalize such units based on the standards set forth in this subsection.

b. Review Standards: A dwelling unit that is proposed to be legalized pursuant to this subsection shall comply with the following standards:

(1) The dwelling unit existed prior to April 12, 1995. In order to determine whether a dwelling unit was in existence prior to April 12, 1995, the unit owner shall provide documentation thereof which may include any of the following:

(A) Copies of lease or rental agreements, lease or rent payments, or other similar documentation showing a transaction between the unit owner and tenants;

(B) Evidence indicating that prior to April 12, 1995, the city issued a building permit, business license, zoning certificate, or other permit relating to the dwelling unit in question;

(C) Utility records indicating existence of a dwelling unit;

(D) Historic surveys recognized by the planning director as being performed by a trained professional in historic preservation;

(E) Notarized affidavits from a past tenant, neighbor, previous owner, or other individual who has knowledge about the dwelling unit;

(F) Polk, Cole, or phone directories that indicate existence of the dwelling unit (but not necessarily that the unit was occupied); and

(G) Any other documentation that indicates the existence of the dwelling unit that the owner is willing to place into a public record.

(2) The dwelling unit has been maintained as a separate dwelling unit since April 12, 1995. In order to determine if a unit has been maintained as a separate dwelling unit, the following may be considered:

(A) Evidence listed in subsection A22b(1) of this section indicates that the unit has been occupied at least once every five (5) calendar years.

(B) Evidence that the unit was marketed for occupancy if the unit was unoccupied for more than five (5) consecutive years.

(C) If evidence of maintaining a separate dwelling unit as required by subsections A22b(2)(A) and A22b(2)(B) of this section cannot be established, documentation of construction upgrades may be provided in lieu thereof.

(D) Evidence that the unit was referenced as a separate dwelling unit at least once every five (5) years.

(3) The property where the dwelling unit is located:

(A) Can accommodate on site parking as required by this title, or

(B) Is located within one-fourth ($^1/_4$) mile radius of a fixed rail transit stop or bus stop in service at the time of legalization.

(4) There is no history of zoning violations occurring on the property. To determine if there is a history of zoning violations, the city shall only consider violations documented by official city records for which the current unit owner is responsible.

c. Conditions Of Approval: Any unit legalization approved after September 1, 2011, shall be subject to the following conditions:

(1) The unit owner shall apply for participation in the city's landlord tenant program within ninety (90) days of special exception approval.

(2) The unit owner shall allow the city's building official or designee to inspect the dwelling unit to determine whether the unit substantially complies with basic life safety requirements as provided in title 18, chapter 18.50, "Existing Residential Housing", of this code. Such inspection shall occur within one hundred eighty (180) days of special exception approval or as mutually agreed by the unit owner and the city. After such inspection, the unit owner shall make necessary corrections within one hundred eighty (180) days or as mutually agreed by the unit owner and the city.

d. Application: In addition to the application requirements in this chapter, an applicant shall submit documentation showing compliance with the standards set forth in subsection A22b of this section.

e. Expiration: The provisions of this subsection A22 shall expire on September 1, 2013, and shall have no further force or effect unless earlier amended, modified, or repealed. After the expiration date, any dwelling unit that is not officially recognized by the city, except units included within a complete unit legalization application submitted to the city prior to the expiration date, shall only be recognized in accordance with chapter 21A.38, "Nonconforming Uses And Noncomplying Structures", of this title. (Ord. 63-12, 2012: Ord. 73-11, 2011)

21A.52.040: PROCEDURE:

A. An application for a special exception shall be processed in accordance with the following procedures:

1. Application: An application may be made by the owner of the subject property or the owner's authorized agent to the planning director on a form or forms provided by the planning director, which shall include at least the following information, unless deemed unnecessary by the planning director:

a. The applicant's name, address, telephone number, e-mail address and interest in the subject property;

b. The owner's name, address and telephone number, if different than the applicant, and the owner's signed consent to the filing of the application;

c. The street address and legal description of the subject property;

d. The Salt Lake County property tax number;

e. The proposed title of the project and the names, addresses and telephone numbers of the architect, landscape architect, planner or engineer on the project;

f. A complete description of the proposed special exception;

g. A plan or drawing drawn to a scale of one inch equals twenty feet (1" = 20') or larger which includes the following information:

(1) Actual dimensions of the lot,

(2) Exact sizes and location of all existing and proposed buildings or other structures,

(3) Driveways,

(4) Parking spaces,

(5) Safety curbs,

(6) Landscaping,

(7) Location of trash receptacles, and

(8) Drainage features;

h. Traffic impact analysis;

i. Such other and further information or documentation as the planning director may deem necessary or appropriate for a full and proper consideration and disposition of the particular application.

2. Determination Of Completeness: Upon receipt of an application for a special exception, the planning director shall make a determination of completeness pursuant to chapter 21A.10 of this title, and that the applicant has submitted all of the information necessary to satisfy the notification requirements of chapter 21A.10 of this title.

3. Fee: The application for a special exception shall be accompanied by the fee established on the fee schedule, chapter 21A.64 of this title.

4. Notice: A notice of application for a special exception shall be provided in accordance with chapter 21A.10 of this title.

5. Approval Process: The approval process for a special exception as listed in this title is a two (2) tiered process as follows:

a. Review And Decision By The Planning Director: On the basis of written findings of fact, the planning director or the planning director's designee shall either approve, deny or conditionally approve an application for a special exception based on the standards in this chapter. The decision of the planning director shall become effective at the time the decision is made.

b. Referral Of Application By Planning Director To Planning Commission: The planning director or the planning director's designee may refer any application to the planning commission due to the complexity of the application, the significance in change to the property or the surrounding area. (Ord. 73-11, 2011)

21A.52.050: COORDINATED REVIEW AND APPROVAL OF APPLICATIONS:

Whenever an application for a special exception requires a variance, the applicant shall indicate that fact on the application and shall first file a variance application with the appeals hearing officer. The special exception shall then be reviewed after a public hearing by the appeals hearing officer on the variance request. (Ord. 8-12, 2012)

21A.52.060: GENERAL STANDARDS AND CONSIDERATIONS FOR SPECIAL EXCEPTIONS:

No application for a special exception shall be approved unless the planning commission or the planning director determines that the proposed special exception is appropriate in the location proposed based upon its consideration of the general standards set forth below and, where applicable, the specific conditions for certain special exceptions.

A. Compliance With Zoning Ordinance And District Purposes: The proposed use and development will be in harmony with the general and specific purposes for which this title was enacted and for which the regulations of the district were established.

B. No Substantial Impairment Of Property Value: The proposed use and development will not substantially diminish or impair the value of the property within the neighborhood in which it is located.

C. No Undue Adverse Impact: The proposed use and development will not have a material adverse effect upon the character of the area or the public health, safety and general welfare.

D. Compatible With Surrounding Development: The proposed special exception will be constructed, arranged and operated so as to be compatible with the use and development of neighboring property in accordance with the applicable district regulations.

E. No Destruction Of Significant Features: The proposed use and development will not result in the destruction, loss or damage of natural, scenic or historic features of significant importance.

F. No Material Pollution Of Environment: The proposed use and development will not cause material air, water, soil or noise pollution or other types of pollution.

G. Compliance With Standards: The proposed use and development complies with all additional standards imposed on it pursuant to this chapter. (Ord. 73-11, 2011)

21A.52.070: CONDITIONS ON SPECIAL EXCEPTIONS:

Conditions and limitations necessary or appropriate to prevent or minimize adverse effects upon other property and improvements in the vicinity of the special exception or upon public facilities and services may be imposed on each application. These conditions may include, but are not limited to, conditions concerning use, construction, operation, character, location, landscaping, screening and other matters relating to the purposes and objectives of this title. Such conditions shall be expressly set forth in the approval record of the special exception. (Ord. 73-11, 2011)

21A.52.080: RELATION OF SPECIAL EXCEPTION:

A special exception shall be deemed to relate to, and be for the benefit of, the use and lot in question rather than the owner or operator of such use or lot. (Ord. 73-11, 2011)

21A.52.090: AMENDMENTS TO SPECIAL EXCEPTIONS:

A special exception may be amended, varied or altered only pursuant to the procedures and subject to the standards and limitations provided in this chapter for its original approval. (Ord. 73-11, 2011)

21A.52.100: EXTENSIONS OF TIME:

Subject to an extension of time granted upon application to the planning director, no special exception shall be valid for a period longer than one year unless a building permit is issued or complete building plans have been submitted to the division of building services and licensing within that period. The planning director may grant an extension of a special exception for up to one additional year when the applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact. Extension requests must be submitted to the planning director in writing prior to the expiration of the exception. (Ord. 73-11, 2011)

21A.52.110: AUTHORITY TO INSPECT:

The planning director or their designee shall have the authority to inspect all properties for compliance with special exception conditions as often as necessary to assure continued compliance. (Ord. 73-11, 2011)

21A.52.120: APPEAL OF DECISION:

A. Any party aggrieved by a decision of the planning director may appeal the decision to the planning commission pursuant to the provisions in chapter 21A.16 of this title.

B. Any party aggrieved by a decision of the planning commission on an application for a special exception may file an appeal to the appeals hearing officer within ten (10) days of the date of the decision. The filing of the appeal shall not stay the decision of the planning commission pending the outcome of the appeal, unless the planning commission takes specific action to stay a decision. (Ord. 31-12, 2012)

21A.52.130: REVOCATION OF SPECIAL EXCEPTIONS:

Violation of any such condition or limitation shall be a violation of this title and shall constitute grounds for revocation of the special exception. If the planning director determines that the conditions of a special exception or other applicable provisions of this title are not met, the planning director may initiate action to revoke a special exception.

A. Notice: Notice of a hearing by the planning commission to consider revocation shall be given pursuant to the requirements of chapter 21A.10 of this title. The notice shall inform the holder of the special exception of the grounds for the revocation and set a hearing date.

B. Public Hearing: The scheduled hearing shall conform to the requirements of chapter 21A.10 of this title.

C. Planning Commission Decision: Following the hearing, the planning commission shall decide whether or not to revoke the special exception in accordance with the findings and decisions in chapter 21A.10 of this title. (Ord. 73-11, 2011)

21A.52.140: EFFECT ON DENIAL OF SPECIAL EXCEPTION:

No application for a special exception shall be considered by the planning commission or the planning commission's designee within one year of a final decision upon a prior application covering substantially the same subject on substantially the same property if the prior application was denied and not appealed. (Ord. 73-11, 2011)

CHAPTER 21A.54
CONDITIONAL USES

21A.54.010: PURPOSE STATEMENT:

A. A conditional use is a land use which, because of its unique characteristics or potential impact on the municipality, surrounding neighbors or adjacent land uses, may not be compatible or may be compatible only if certain conditions are required that mitigate or eliminate the negative impacts. Conditional uses are allowed unless appropriate conditions cannot be applied which, in the judgment of the planning commission, or administrative hearing officer, would mitigate adverse impacts that may arise by introducing a conditional use on the particular site.

B. Approval of a conditional use requires review of its location, design, configuration, and impact to determine the desirability of allowing it on a site. Whether the use is appropriate requires weighing of public need and benefit against the local impact, taking into account the applicant's proposals to mitigate adverse impacts through site planning, development techniques, and public improvements. (Ord. 14-12, 2012)

21A.54.020: AUTHORITY:

The planning commission, or in the case of administrative conditional uses, the planning director or designee, may, in accordance with the procedures and standards set out in this chapter and other regulations applicable to the district in which the property is located, approve uses listed as conditional uses in the tables of permitted and conditional uses of this title for each category of zoning district or districts. (Ord. 14-12, 2012)

21A.54.030: CATEGORIES OF CONDITIONAL USES:

Conditional uses shall consist of the following categories of uses:

A. Conditional use applications considered and decided by the planning director or designee as an administrative conditional use pursuant to section 21A.54.155 of this chapter.

B. All other conditional use applications which shall be considered and decided by the planning commission. (Ord. 14-12, 2012)

21A.54.040: SITE PLAN REVIEW REQUIRED:

(Rep. by Ord. 14-12, 2012)

21A.54.050: INITIATION:

An application for a conditional use may be filed with the planning director by the owner of the subject property or by an authorized agent. (Ord. 14-12, 2012)

21A.54.060: PROCEDURES:

A. Application: A complete application shall contain at least the following information submitted by the applicant, unless certain information is determined by the planning director to be inapplicable or unnecessary to appropriately evaluate the application:

1. The applicant's name, address, telephone number, and interest in the property;
2. The property owner's name, address, and telephone number, if different than the applicant, and the property owner's signed consent to the filing of the application;
3. The street address and legal description of the subject property;
4. The zoning classification, zoning district boundaries, and present use of the subject property;
5. A complete description of the proposed conditional use;
6. Site plans, as required pursuant to section 21A.58.060 of this title;
7. Traffic impact analysis, where required by the city transportation division;
8. A signed statement that the applicant has met with and explained the proposed conditional use to the appropriate neighborhood organization entitled to receive notice pursuant to title 2, chapter 2.62 of this code;
9. Mailing labels and a fee to cover postage for all persons required to be notified of the public hearing on the proposed conditional use pursuant to chapter 21A.10 of this title; and
10. Other information or documentation the planning director may deem necessary for proper review and analysis of a particular application. Information which may be required under this subsection A10 shall not apply to a determination of completeness under subsection B of this section.

B. Determination Of Completeness: Upon receipt of an application for a conditional use, the planning director shall make a determination of completeness of the application pursuant to section 21A.10.010 of this title.

C. Fees: The application for a conditional use shall be accompanied by the fee established on the Salt Lake City consolidated fee schedule.

D. Staff Report: Once the planning director has determined that the application is complete, a staff report evaluating the conditional use application shall be prepared by the planning division and forwarded to the applicant and the planning commission, or, in the case of administrative conditional uses, the planning director or designee.

E. Public Hearing: The planning commission, or, in the case of administrative conditional uses, the planning director or designee shall schedule and hold a public hearing on the proposed conditional use in accordance with the standards and procedures for conduct of the public hearing set forth in chapter 21A.10 of this title. (See section 21A.54.155 of this chapter for additional procedures for public hearings in connection with administrative conditional uses.)

F. Notice Of Applications For Additional Approvals: Whenever, in connection with the application for a conditional use approval, the applicant is requesting other types of approvals, as required by this title, all required notices shall include reference to the request for the conditional use as well as for all other applicable approvals.

G. Planning Commission And Planning Director Or Designee Action: At the conclusion of the public hearing, the planning commission, or, in the case of administrative conditional uses, the planning director or designee shall either:

1. Approve the conditional use;

2. Approve the conditional use subject to specific modifications; or

3. Deny the conditional use. (Ord. 14-12, 2012)

21A.54.070: SEQUENCE OF APPROVAL OF APPLICATIONS FOR BOTH A CONDITIONAL USE AND A VARIANCE:

Whenever the applicant indicates pursuant to section 21A.54.060 of this chapter that a variance will be necessary in connection with the proposed conditional use, the applicant shall at the time of filing the application for a conditional use, file an application for a variance with the appeals hearing officer.

A. Combined Review: Upon the filing of a combined application for a conditional use and a variance, at the initiation of the planning commission or the appeals hearing officer, the commission and the officer may hold a joint session to consider the conditional use and the variance applications simultaneously.

B. Actions By Planning Commission And Appeals Hearing Officer: Regardless of whether the planning commission and appeals hearing officer conduct their respective reviews in a combined session or separately, the appeals hearing officer shall not take any action on the application for a variance until the planning commission shall first act to recommend approval or disapproval of the application for the conditional use. (Ord. 61-12, 2012)

21A.54.080: STANDARDS FOR CONDITIONAL USES:

A conditional use shall be approved if reasonable conditions are proposed, or can be imposed, to mitigate the reasonably anticipated detrimental effects of the proposed use in accordance with applicable standards set forth in this section. If the reasonably anticipated detrimental effects of a proposed conditional use cannot be substantially mitigated by the proposal or the imposition of reasonable conditions to achieve compliance with applicable standards, the conditional use shall be denied.

A. Approval Standards: A conditional use shall be approved unless the planning commission, or in the case of administrative conditional uses, the planning director or designee, concludes that the following standards cannot be met:

1. The use complies with applicable provisions of this title;

2. The use is compatible, or with conditions of approval can be made compatible, with surrounding uses;

3. The use is consistent with applicable adopted city planning policies, documents, and master plans; and

4. The anticipated detrimental effects of a proposed use can be mitigated by the imposition of reasonable conditions.

B. Detrimental Effects Determination: In analyzing the anticipated detrimental effects of a proposed use, the planning commission, or in the case of administrative conditional uses, the planning director or designee, shall determine compliance with each of the following:

1. This title specifically authorizes the use where it is located;

2. The use is consistent with applicable policies set forth in adopted citywide, community, and small area master plans and future land use maps;

3. The use is well suited to the character of the site, and adjacent uses as shown by an analysis of the intensity, size, and scale of the use compared to existing uses in the surrounding area;

4. The mass, scale, style, design, and architectural detailing of the surrounding structures as they relate to the proposed have been considered;

5. Access points and driveways are designed to minimize grading of natural topography, direct vehicular traffic onto major streets, and not impede traffic flows;

6. The internal circulation system is designed to mitigate adverse impacts on adjacent property from motorized, nonmotorized, and pedestrian traffic;

7. The site is designed to enable access and circulation for pedestrian and bicycles;

8. Access to the site does not unreasonably impact the service level of any abutting or adjacent street;

9. The location and design of off street parking complies with applicable standards of this code;

10. Utility capacity is sufficient to support the use at normal service levels;

11. The use is appropriately screened, buffered, or separated from adjoining dissimilar uses to mitigate potential use conflicts;

12. The use meets city sustainability plans, does not significantly impact the quality of surrounding air and water, encroach into a river or stream, or introduce any hazard or environmental damage to any adjacent property, including cigarette smoke;

13. The hours of operation and delivery of the use are compatible with surrounding uses;

14. Signs and lighting are compatible with, and do not negatively impact surrounding uses; and

15. The proposed use does not undermine preservation of historic resources and structures.

C. Conditions Imposed: The planning commission, or in the case of administrative conditional uses, the planning director or the director's designee, may impose on a conditional use any conditions necessary to address the foregoing factors which may include, but are not limited to:

1. Conditions on the scope of the use; its character, location, hours and methods of operation, architecture, signage, construction, landscaping, access, loading and parking, sanitation, drainage and utilities, fencing and screening, and setbacks; and

2. Conditions needed to mitigate any natural hazards; assure public safety; address environmental impacts; and mitigate dust, fumes, smoke, odor, noise, vibrations; chemicals, toxins, pathogens, gases, heat, light, and radiation.

D. Denial Of Conditional Use: A proposed conditional use shall be denied if:

1. The proposed use is unlawful; or

2. The reasonably anticipated detrimental effects of the proposed conditional use cannot be substantially mitigated as proposed in the conditional use application or by the imposition of reasonable conditions to achieve compliance with applicable standards set forth in this section.

E. Notice Of Decision: The planning commission, or in the case of administrative conditional uses, the planning director or designee, shall provide written notice of the decision, including all conditions imposed, to the applicant and local community council within ten (10) days of the final action. If the conditional use is approved, this notice shall be recorded against the property by the city recorder. (Ord. 14-12, 2012)

21A.54.090: CONDITIONAL USE REVOCATION:

A. Conditions Of Revocation: The holder of a conditional use shall be responsible for the operation of the use in conformance with the ordinances of the city. Any conditional use approved by the city may be suspended or revoked by the mayor or the planning commission, upon a finding by the mayor or the planning commission of a violation of any of the following with respect to the holder of the use or its operator or agent:

1. A change in the conditional use approval made without authorization or an amendment; or

2. Noncompliance with the conditions prescribed upon approval of the conditional use or with representations by the applicant as to the nature of the conditional use to be conducted; or

3. Operation of the conditional use in a manner that creates a nuisance for neighboring persons or property.

B. Notice: Written notice of a decision to suspend or revoke the conditional use shall be sent to the holder of the conditional use and posted on the planning division website unless an appeal is filed. If an existing business license is associated with the use, action to suspend or revoke such license shall be undertaken as provided in title 5, chapter 5.02 of this code. (Ord. 14-12, 2012)

21A.54.100: NO PRESUMPTION OF APPROVAL:

The listing of a conditional use in any table of permitted and conditional uses found in this title does not constitute an assurance or presumption that such conditional use will be approved. Rather, each proposed conditional use shall be evaluated on an individual basis, in relation to its compliance with the standards and factors set forth in this chapter and with the standards for the zoning district in which it is located, in order to determine whether the conditional use is appropriate at a particular location. (Ord. 14-12, 2012)

21A.54.110: EFFECT OF APPROVAL OF CONDITIONAL USE:

The approval of a proposed conditional use by the planning commission, or, in the case of administrative conditional uses, the planning director or designee, shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure, but shall merely authorize the preparation, filing and processing of applications for any permits or approvals that may be required by the regulations of the city, including, but not limited to, a building permit, certificate of occupancy and subdivision approval. (Ord. 69-06 § 5, 2006: Ord. 26-95 § 2(27-11), 1995)

21A.54.120: LIMITATIONS ON CONDITIONAL USE APPROVAL:

Subject to an extension of time granted by the planning commission, or, in the case of administrative conditional uses, the planning director or designee, no conditional use shall be valid for a period longer than one year unless a building permit has been issued or complete building plans have been submitted to the division of building services and licensing within that period and is thereafter diligently pursued to completion, or unless a certificate of occupancy is issued and a use commenced within that period, or unless a longer time is requested and granted by the planning commission, or, in the case of administrative conditional uses, the planning director or designee. Any request for a time extension shall be required not less than thirty (30) days prior to the twelve (12) month time period. The approval of a proposed conditional use by the planning commission, or, in the case of administrative conditional uses, the planning director or designee, shall authorize only the particular use for which it was issued. (Ord. 11-10 § 6, 2010)

21A.54.130: CONDITIONAL USE RELATED TO THE LAND:

A conditional use is transferable with the title to the underlying property so that an applicant may convey or assign an approved use without losing the approval. The applicant may not transfer the use from the property for which the approval was granted. If the applicant changes the use on the property, the existing conditional use shall be deemed a voluntary termination thereof. (Ord. 14-12, 2012)

21A.54.135: ALTERATIONS OR MODIFICATIONS TO A CONDITIONAL USE:

A. Nonconforming Conditional Use: Any modification to a legally nonconforming land use listed as a conditional use under current zoning regulations shall be approved subject to the provisions of this chapter if the floor area increases by more than twenty five percent (25%) of the gross floor area, or one thousand (1,000) gross square feet, whichever is less and/or the parking requirement increases as required by this title.

B. Administrative Review: A modification to an existing legal conditional use that increases the floor area by less than twenty five percent (25%) of the gross floor area or one thousand (1,000) gross square feet, whichever is less may be approved by the planning director without a public hearing.

C. New Conditional Use Review Required: A modification to an existing legal conditional use that increases the floor area by more than twenty five percent (25%) of the gross floor area or one thousand (1,000) gross square feet, whichever is less, shall be reviewed as a new conditional use pursuant to the requirements and standards of this chapter. (Ord. 14-12, 2012)

21A.54.140: CONDITIONAL USE APPROVALS AND PLANNED DEVELOPMENTS:

When a development is proposed as a planned development pursuant to the procedures in chapter 21A.55 of this title and also includes an application for conditional use approval, the planning commission shall consider the planned development application and the conditional use application together. If a new conditional use is proposed after a planned development has been approved pursuant to chapter 21A.55 of this title, the proposed conditional use shall be reviewed and approved, approved with conditions, approved with modifications, or denied under the standards set forth in section 21A.54.080 of this chapter. (Ord. 14-12, 2012)

21A.54.150: PLANNED DEVELOPMENTS[2]:

(Rep. by Ord. 23-10 § 19, 2010)

21A.54.155: ADMINISTRATIVELY APPROVED CONDITIONAL USES:

A. Purpose: The purpose of this section is to establish an administrative hearing process for certain categories of low impact conditional uses as authorized by subsection 21A.54.030B of this chapter.

B. Administrative Review: Conditional uses that are authorized to be reviewed administratively are:

1. Applications for low power wireless telecommunication facilities that are listed as conditional uses in subsection 21A.40.090E of this title;
2. Public/private utility buildings and structures in residential and nonresidential zoning districts that are listed as conditional uses;
3. Any conditional use identified in the tables of permitted and conditional uses for each zoning district, except those uses that:
   a. Are located within a residential zoning district;
   b. Abut a residential zoning district or residential use; or
   c. Require planned development approval.

C. Approval Standards: Administrative conditional use applications shall be subject to the standards set forth in section 21A.54.080 of this chapter.

D. Notice: Notice of a proposed conditional use shall be given pursuant to subsection 21A.10.020B of this title.

E. Administrative Hearing:

1. At the administrative hearing, the planning director or designee may decline to hear or decide the request and forward the application for planning commission consideration if it is determined that there is neighborhood opposition, if the applicant has failed to adequately address the conditional use standards, or for any other reason at the discretion of the planning director or designee.
2. If the planning director or designee conducts the administrative hearing, after consideration of information received from the applicant and concerned residents, the planning director or designee may approve, approve with conditions, or deny the conditional use request in accordance with the standards for conditional uses listed in section 21A.54.080 of this chapter and any specific standards listed in this title that regulate the particular use. (Ord. 14-12, 2012)

21A.54.156: APPEAL OF ADMINISTRATIVE DECISION:

Any person adversely affected by a decision made by the planning director or designee at an administrative hearing may appeal that decision to the Salt Lake City planning commission by filing notice of an appeal within ten (10) days after the date of the written administrative decision. The notice of appeal shall specify, in detail, the reason(s) for the appeal. Reasons for the appeal shall be based upon a procedural error, noncompliance with the standards for conditional uses listed in section 21A.54.080 of this chapter, or any specific standards listed in this title that regulate the particular use. (Ord. 14-12, 2012)

21A.54.160: APPEAL OF PLANNING COMMISSION DECISION:

Any person adversely affected by a final decision of the planning commission on an application for a conditional use may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. Notwithstanding section 21A.16.030 of this title, the filing of the appeal shall not stay the decision of the planning commission pending the outcome of the appeal, unless the planning commission takes specific action to stay a decision. (Ord. 8-12, 2012)

21A.54.170: APPEAL OF APPEALS HEARING OFFICER DECISION:

Any person adversely affected by a final decision of the appeals hearing officer on an appeal from a planning commission decision may file a petition for review of the decision with the district court within thirty (30) days after the decision is rendered. (Ord. 8-12, 2012)

CHAPTER 21A.55
PLANNED DEVELOPMENTS

21A.55.010: PURPOSE STATEMENT:

A planned development is intended to encourage the efficient use of land and resources, promoting greater efficiency in public and utility services and encouraging innovation in the planning and building of all types of development. Further, a planned development implements the purpose statement of the zoning district in which the project is located, utilizing an alternative approach to the design of the property and related physical facilities. A planned development will result in a more enhanced product than would be achievable through strict application of land use regulations, while enabling the development to be compatible and congruous with adjacent and nearby land developments. Through the flexibility of the planned development regulations, the city seeks to achieve any of the following specific objectives:

A. Combination and coordination of architectural styles, building forms, building materials, and building relationships;

B. Preservation and enhancement of desirable site characteristics such as natural topography, vegetation and geologic features, and the prevention of soil erosion;

C. Preservation of buildings which are architecturally or historically significant or contribute to the character of the city;

D. Use of design, landscape, or architectural features to create a pleasing environment;

E. Inclusion of special development amenities that are in the interest of the general public;

F. Elimination of blighted structures or incompatible uses through redevelopment or rehabilitation;

G. Inclusion of affordable housing with market rate housing; or

H. Utilization of "green" building techniques in development. (Ord. 23-10 § 21, 2010)

21A.55.020: AUTHORITY:

The planning commission may approve planned developments for uses listed in the tables of permitted and conditional uses for each category of zoning district or districts. The approval shall be in accordance with the standards and procedures set forth in this chapter and other regulations applicable to the district in which the property is located. (Ord. 23-10 § 21, 2010)

21A.55.030: AUTHORITY TO MODIFY REGULATIONS:

In approving any planned development, the planning commission may change, alter, modify or waive any provisions of this title or of the city's subdivision regulations as they apply to the proposed planned development; however, additional building height may not be approved in the FR, R-1, SR, or R-2 zoning districts. In zoning districts other than the FR, R-1, SR, or R-2 districts, the planning commission may approve up to five feet (5') maximum of additional building height in accordance with the provisions of this title if it further achieves one or more of the objectives in section 21A.55.010 of this chapter. (Ord. 23-10 § 21, 2010)

21A.55.040: LIMITATION:

No change, alteration, modification or waiver authorized by section 21A.55.030 of this chapter shall authorize a change in the uses permitted in any district or a modification with respect to any standard established by this chapter, or a modification with respect to any standard in a zoning district made specifically applicable to planned developments, unless such regulations expressly authorize such a change, alteration, modification or waiver. (Ord. 23-10 § 21, 2010)

21A.55.050: STANDARDS FOR PLANNED DEVELOPMENTS:

The planning commission may approve, approve with conditions, or deny a planned development based upon written findings of fact according to each of the following standards. It is the responsibility of the applicant to provide written and graphic evidence demonstrating compliance with the following standards:

A. Planned Development Objectives: The planned development shall meet the purpose statement for a planned development (section 21A.55.010 of this chapter) and will achieve at least one of the objectives stated in said section;

B. Master Plan And Zoning Ordinance Compliance: The proposed planned development shall be:

1. Consistent with any adopted policy set forth in the citywide, community, and/or small area master plan and future land use map applicable to the site where the planned development will be located, and
2. Allowed by the zone where the planned development will be located or by another applicable provision of this title.

C. Compatibility: The proposed planned development shall be compatible with the character of the site, adjacent properties, and existing development within the vicinity of the site where the use will be located. In determining compatibility, the planning commission shall consider:

1. Whether the street or other means of access to the site provide the necessary ingress/egress without materially degrading the service level on such street/access or any adjacent street/access;
2. Whether the planned development and its location will create unusual pedestrian or vehicle traffic patterns or volumes that would not be expected, based on:
   a. Orientation of driveways and whether they direct traffic to major or local streets, and, if directed to local streets, the impact on the safety, purpose, and character of these streets;
   b. Parking area locations and size, and whether parking plans are likely to encourage street side parking for the planned development which will adversely impact the reasonable use of adjacent property;
   c. Hours of peak traffic to the proposed planned development and whether such traffic will unreasonably impair the use and enjoyment of adjacent property.
3. Whether the internal circulation system of the proposed planned development will be designed to mitigate adverse impacts on adjacent property from motorized, nonmotorized, and pedestrian traffic;
4. Whether existing or proposed utility and public services will be adequate to support the proposed planned development at normal service levels and will be designed in a manner to avoid adverse impacts on adjacent land uses, public services, and utility resources;
5. Whether appropriate buffering or other mitigation measures, such as, but not limited to, landscaping, setbacks, building location, sound attenuation, odor control, will be provided to protect adjacent land uses from excessive light, noise, odor and visual impacts and other unusual disturbances from trash collection, deliveries, and mechanical equipment resulting from the proposed planned development; and
6. Whether the intensity, size, and scale of the proposed planned development is compatible with adjacent properties.

If a proposed conditional use will result in new construction or substantial remodeling of a commercial or mixed used development, the design of the premises where the use will be located shall conform to the conditional building and site design review standards set forth in chapter 21A.59 of this title.

D. Landscaping: Existing mature vegetation on a given parcel for development shall be maintained. Additional or new landscaping shall be appropriate for the scale of the development, and shall primarily consist of drought tolerant species;

E. Preservation: The proposed planned development shall preserve any historical, architectural, and environmental features of the property;

F. Compliance With Other Applicable Regulations: The proposed planned development shall comply with any other applicable code or ordinance requirement. (Ord. 23-10 § 21, 2010)

21A.55.060: MINIMUM AREA:

A planned development proposed for any parcel or tract of land under single ownership or control in certain zoning districts shall have a minimum net lot area as set forth in table 21A.55.060 of this section.

TABLE 21A.55.060
PLANNED DEVELOPMENTS

District	Minimum Planned Development Size
Residential districts:	
FR-1/43,560 Foothills estate residential district	5 acres
FR-2/21,780 Foothills residential district	5 acres
FR-3/12,000 Foothills residential district	5 acres
R-1/12,000 Single-family residential district	24,000 square feet
R-1/7,000 Single-family residential district	14,000 square feet
R-1/5,000 Single-family residential district	10,000 square feet
SR-1 and SR-1A Special development pattern residential district	10,000 square feet
SR-2 Reserved	_
SR-3 Special development pattern residential district	4,000 square feet
R-2 Single- and two-family residential district	10,000 square feet
RMF-30 Low density multi-family residential district	9,000 square feet
RMF-35 Moderate density multi-family residential district	9,000 square feet
RMF-45 Moderate/high density multi-family residential district	9,000 square feet
RMF-75 High density multi-family residential district	9,000 square feet
RB Residential/business district	No minimum required
R-MU-35 Residential/mixed use district	9,000 square feet
R-MU-45 Residential/mixed use district	9,000 square feet
R-MU Residential/mixed use district	No minimum required
RO Residential/office district	No minimum required
Commercial districts:	
CN Neighborhood commercial district	No minimum required
CB Community business district	No minimum required
CS Community shopping district	No minimum required
CC Corridor commercial district	No minimum required
CSHBD Sugar House business district	No minimum required
CG General commercial district	No minimum required
TC-75 Transit corridor district	No minimum required
Manufacturing districts:	
M-1 Light manufacturing district	No minimum required
M-2 Heavy manufacturing district	No minimum required
Downtown districts:	
D-1 Central business district	No minimum required
D-2 Downtown support district	No minimum required
D-3 Downtown warehouse/residential district	No minimum required
D-4 Downtown secondary central business district	No minimum required
Special purpose districts:	
RP Research park district	No minimum required
BP Business park district	No minimum required
FP Foothills protection district	32 acres
AG Agricultural district	10 acres
AG-2 Agricultural district	4 acres
AG-5 Agricultural district	10 acres
AG-20 Agricultural district	40 acres
A Airport district	No minimum required
PL Public lands district	No minimum required
PL-2 Public lands district	No minimum required
I Institutional district	No minimum required
UI Urban institutional district	No minimum required
OS Open space district	No minimum required
MH Mobile home park district	No minimum required
EI Extractive industries district	No minimum required
MU Mixed use district	No minimum required

(Ord. 23-10 § 21, 2010)

21A.55.070: DENSITY LIMITATIONS:

Residential planned developments shall not exceed the density limitation of the zoning district where the planned development is proposed. The calculation of planned development density may include open space that is provided as an amenity to the planned development. Public or private roadways located within or adjacent to a planned development shall not be included in the planned development area for the purpose of calculating density. (Ord. 23-10 § 21, 2010)

21A.55.080: CONSIDERATION OF REDUCED WIDTH STREET DEDICATION:

A residential planned development application may include a request to dedicate the street to Salt Lake City for perpetual use by the public. The request will be reviewed and evaluated individually by appropriate departments, including transportation, engineering, public utilities, public services and fire. Each department reviewer will consider the adequacy of the design and physical improvements proposed by the developer and will make a recommendation for approval or describe required changes. Items such as adequate vehicular access, public safety access, pedestrian and bicycle access, adequate parking, and urban design elements will be considered as part of this review. A synopsis will be incorporated into the staff report for review and decision by the planning commission. (Ord. 23-10 § 21, 2010)

21A.55.090: SPECIFIC STANDARDS FOR PLANNED DEVELOPMENT IN CERTAIN ZONING DISTRICTS:

Planned developments within the TC-75, RB, R-MU, MU, CN, CB, CSHBD districts, South State Street corridor overlay district and CS district (when the CS district is adjacent to an area of more than 60 percent residential zoning located within 300 feet of the subject parcel to be developed, either on the same block or across the street), may be approved subject to consideration of the following general conceptual guidelines (a positive finding for each is not required):

A. The development shall be primarily oriented to the street, not an interior courtyard or parking lot;

B. The primary access shall be oriented to the pedestrian and mass transit;

C. The facade shall maintain detailing and glass in sufficient quantities to facilitate pedestrian interest and interaction;

D. Architectural detailing shall emphasize the pedestrian level of the building;

E. Parking lots shall be appropriately screened and landscaped to minimize their impact on the neighborhood;

F. Parking lot lighting shall be shielded to eliminate excessive glare or light into adjacent neighborhoods;

G. Dumpsters and loading docks shall be appropriately screened or located within the structure; and

H. Signage shall emphasize the pedestrian/mass transit orientation. (Ord. 23-10 § 21, 2010)

21A.55.100: PERIMETER SETBACK:

If the planned development abuts a residential lot or a lot in a residential zoning district whose side and rear yard setback requirements are greater than the planned development lot's requirements, then the side and rear yard setback requirements of the subject planned development parcel shall be equal to the side and rear yard setback requirements of the abutting residentially used property or residentially zoned parcel. (Ord. 23-10 § 21, 2010)

21A.55.110: DEVELOPMENT PLAN:

The applicant must file an application for planned development approval with the zoning administrator.

A. Application Requirements: The planned development application shall be submitted on a form provided by the zoning administrator accompanied by such number of copies of documents as the zoning administrator may require for processing of the application, and shall include at least the following information set forth below:

1. General Information:

a. The applicant's name, address, telephone number and interest in the property;

b. The owner's name, address and telephone number, if different than the applicant, and the owner's signed consent to the filing of the application;

c. The street address and legal description of the subject property;

d. The zoning classification, zoning district boundaries and present use of the subject property;

e. A vicinity map with north arrow, scale, and date, indicating the zoning classifications and current uses of properties within eighty five feet (85') (exclusive of intervening streets and alleys) of the subject property;

f. The proposed title of the project and the names, addresses and telephone numbers of the architect, landscape architect, planner or engineer on the project; and

g. A signed statement that the applicant has met with and explained the proposed conditional use to the appropriate neighborhood organization entitled to receive notice pursuant to title 2, chapter 2.62 of this code.

2. Planned Development Plan: A planned development plan at a scale of twenty feet to the inch (20' = 1") or larger, unless otherwise approved by the zoning administrator, setting forth at least the following, unless waived by the zoning administrator:

a. The location, dimensions and total area of the site;

b. The location, dimensions, floor area, type of construction and use of each proposed building or structure;

c. The number, the size and type of dwelling units in each building, and the overall dwelling unit density;

d. The proposed treatment of open spaces and the exterior surfaces of all structures, with sketches of proposed landscaping and structures, including typical elevations;

e. Architectural graphics, if requested by the zoning administrator, including typical floor plans and elevations, profiles and cross sections;

f. The number, location and dimensions of parking spaces and loading docks, with means of ingress and egress;

g. The proposed traffic circulation pattern within the area of the development, including the location and description of public improvements to be installed, including any streets and access easements;

h. A traffic impact analysis (if required by the city transportation division);

i. The location and purpose of any existing or proposed dedication or easement;

j. The general drainage plan for the development tract;

k. The location and dimensions of adjacent properties, abutting public rights of way and easements, and utilities serving the site;

l. Significant topographical or physical features of the site, including existing trees;

m. Soils and subsurface conditions, if requested;

n. The location and proposed treatment of any historical structure or other historical design element or feature;

o. One copy of the development plan colored or shaded (unmounted) for legibility and presentation at public meetings; and

p. A reduction of the development plan to eight and one-half by eleven inches ($8\frac{1}{2}$ x 11"). The reduction need not include any area outside the property lines of the subject site.

3. Plat Of Survey: A plat of survey of the parcel of land, lot, lots, block, blocks, or parts or portions thereof, drawn to scale, showing the actual dimensions of the parcel, lot, lots, block, blocks, or portions thereof, according to the registered or recorded plat of such land.

4. Preliminary Subdivision Plat, If Required: A preliminary subdivision plat showing that the planned development consists of and is conterminous with a single lot described in a recorded subdivision plat, or a proposed resubdivision or consolidation to create a single lot or separate lots of record in suitable form ready for review.

5. Additional Information: The application shall also contain the following information as well as such additional information, drawings, plans or documentation as may be requested by the zoning administrator or the planning commission if determined necessary or appropriate for a full and proper consideration and disposition of the application:

a. When the proposed planned development includes provisions for common open space or recreational facilities, a statement describing the provision to be made for the care and maintenance of such open space or recreational facilities;

b. A written statement showing the relationship of the proposed planned development to any adopted general plan of the city;

c. A written statement with supporting graphics showing how the proposed planned development is compatible with other property in the neighborhood.

B. Review Procedure: Upon the review of a planned development application, the applicable city department/division shall notify the applicant of any deficiencies and/or modifications necessary to complete the application.

1. Public Hearing: Upon receiving site plan review and recommendation from the applicable city department(s)/division(s), and completing a staff report, the planning commission shall hold a public hearing to review the planned development application in accordance with the standards and procedures set forth in chapter 21A.10 of this title.

2. Planning Commission Action: Following the public hearing, the planning commission shall decide, on the basis of the standards contained in section 21A.55.050 of this chapter whether to approve, approve with modifications or conditions, or deny the application.

3. Notification Of Decision: The planning director shall notify the applicant of the decision of the planning commission in writing, accompanied by one copy of the submitted plans marked to show such decision and a copy of the motion approving, approving with modifications, or denying the development plan application. (Ord. 23-10 § 21, 2010)

21A.55.120: APPEAL OF THE PLANNING COMMISSION DECISION:

Any person adversely affected by a final decision of the planning commission on an application for a planned development may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. Notwithstanding section 21A.16.030 of this title, the filing of the appeal shall not stay the decision of the planning commission pending the outcome of the appeal, unless the planning commission takes specific action to stay a decision. (Ord. 8-12, 2012)

21A.55.130: TIME LIMIT ON APPROVED PLANNED DEVELOPMENT:

No planned development approval shall be valid for a period longer than one year unless a building permit has been issued or complete building plans have been submitted to the division of building services and licensing. The planning commission may grant an extension of a planned development for up to one additional year when the applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact. Extension requests must be submitted prior to the expiration of the planned development approval. (Ord. 23-10 § 21, 2010)

21A.55.140: EFFECT OF APPROVAL OF PLANNED DEVELOPMENT:

The approval of a proposed planned development by the planning commission shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure, but shall authorize the preparation, filing and processing of applications for any permits or approvals that may be required by the regulations of the city, including, but not limited to, a building permit, a certificate of occupancy and subdivision approval. (Ord. 23-10 § 21, 2010)

21A.55.150: REGULATION DURING AND FOLLOWING COMPLETION OF DEVELOPMENT:

Following planned development approval, the development plan, rather than any other provision of this title, shall constitute the use, parking, loading, sign, bulk, space and yard regulations applicable to the subject property, and no use or development, other than home occupation and temporary uses, not allowed by the development plan shall be permitted within the area of the planned development. (Ord. 23-10 § 21, 2010)

21A.55.160: MODIFICATIONS TO DEVELOPMENT PLAN:

A. New Application Required For Modifications And Amendments: No substantial modification or amendment shall be made in the construction, development or use without a new application under the provisions of this title. Minor modifications or amendments may be made subject to written approval of the planning director and the date for completion may be extended by the planning commission upon recommendation of the planning director.

B. Minor Modifications: The planning director may authorize minor modifications to the approved development plan pursuant to the provisions for modifications to an approved site plan as set forth in chapter 21A.58 of this title, when such modifications appear necessary in light of technical or engineering considerations. Such minor modifications shall be limited to the following elements:

1. Adjusting the distance as shown on the approved development plan between any one structure or group of structures, and any other structure or group of structures, or any vehicular circulation element or any boundary of the site;

2. Adjusting the location of any open space;

3. Adjusting any final grade;

4. Altering the types of landscaping elements and their arrangement within the required landscaping buffer area;

5. Signs;

6. Relocation or construction of accessory structures; or

7. Additions which comply with the lot and bulk requirements of the underlying zone.

Such minor modifications shall be consistent with the intent and purpose of this title and the development plan as approved pursuant to this chapter, and shall be the minimum necessary to overcome the particular difficulty and shall not be approved if such modifications would result in a violation of any standard or requirement of this title.

C. Major Modifications: Any modifications to the approved development plan not authorized by subsection B of this section shall be considered to be a major modification. The planning commission shall give notice to all property owners consistent with notification requirements located in chapter 21A.10 of this title. The planning commission may approve an application for a major modification to the approved development plan, not requiring a modification of written conditions of approval or recorded easements, upon finding that any changes in the plan as approved will be in substantial conformity with the approved development plan. If the commission determines that a major modification is not in substantial conformity with the approved development plan, then the commission shall review the request in accordance with the procedures set forth in this section. (Ord. 23-10 § 21, 2010)

21A.55.170: DISCLOSURE OF PRIVATE INFRASTRUCTURE COSTS FOR PLANNED DEVELOPMENTS:

Planned developments, approved under this title after January 1, 1997, shall include provisions for disclosure of future private infrastructure maintenance and placement costs to unit owners.

A. Infrastructure Maintenance Estimates: Using generally accepted accounting principles, the developer of any planned development shall calculate an initial estimate of the costs for maintenance and capital improvements of all infrastructure for the planned development including roads, sidewalks, curbs, gutters, water and sewer pipes and related facilities, drainage systems, landscaped or paved common areas and other similar facilities ("infrastructure"), for a period of sixty (60) years following the recording of the subdivision plat or the estimated date of first unit occupancy of the planned development, whichever is later.

B. Initial Estimate Disclosure: The following measures shall be incorporated in planned developments to assure that owners and future owners have received adequate disclosure of potential infrastructure maintenance and replacement costs:

1. The cost estimate shall be recorded with and referenced on the recorded plat for any planned development. The initial disclosure estimate shall cover all private infrastructure items and shall be prepared for six (6) increments of ten (10) years each.

2. The recorded plat shall also contain a statement entitled "notice to purchasers" disclosing that the infrastructure is privately owned and that the maintenance, repair, replacement and operation of the infrastructure is the responsibility of the property owners and will not be assumed by the city.

3. The cost estimate shall be specifically and separately disclosed to the purchaser of any property in the planned development, upon initial purchase and also upon all future purchases for the duration of the sixty (60) year period.

C. Yearly Maintenance Statements: The entity responsible for the operation and maintenance of the infrastructure shall, at least once each calendar year, notify all property owners in the planned development of the estimated yearly expenditures for maintenance, repair, operation or replacement of infrastructure, and at least once each calendar year shall notify all property owners of the actual expenditures incurred, and shall specify the reason(s) for any variance between the estimated expenditures and the actual expenditures.

D. Maintenance Responsibilities: The property owners in a planned development shall be collectively and individually responsible, on a pro rata basis, for operating, maintaining, repairing and replacing infrastructure to the extent necessary to ensure that access to the planned development is available to the city for emergency and other services and to ensure that the condition of the private infrastructure allows for the city's continued and uninterrupted operation of public facilities to which the private infrastructure may be connected or to which it may be adjacent. (Ord. 23-10 § 21, 2010)

CHAPTER 21A.56
CONDOMINIUM APPROVAL PROCEDURE

21A.56.010: PURPOSE OF PROVISIONS:

This chapter establishes procedures for the review and approval of condominium projects to ensure they comply with applicable Salt Lake City ordinances and state laws. (Ord. 25-98 § 1, 1998)

21A.56.020: DEFINITIONS:

For the purposes of this chapter:

BUILDING OFFICIAL: The director of the division of building services and licensing or such person as the director shall designate.

COMMON AREAS AND FACILITIES: The property and improvements of the condominium project conforming to the definition set forth in section 57-8-7, Utah Code Annotated, 1975, as amended or its successor.

CONDOMINIUM, CONDOMINIUM PROJECT, OR CONDOMINIUM UNIT: Property or portions thereof conforming to the definition set forth in section 57-8-3, Utah Code Annotated, 1975, as amended or its successor.

CONDOMINIUM OWNERSHIP ACT OF 1975: The provisions of chapter 8 of title 57 of Utah Code Annotated, as amended in 1975.

CONVERSION: A proposed change in the type of ownership of a parcel or parcels of land together with the existing attached structure from single ownership of said parcel, such as an apartment house, into that defined as a condominium project involving separate ownership of individual units combined with joint collective ownership of common areas.

PLANNING OFFICIAL: The director of the planning division or such person as the director may designate.

PLAT: "Record of survey map" as defined in section 57-8-13, Utah Code Annotated, 1975, as amended or its successor. (Ord. 25-98 § 1, 1998)

21A.56.030: APPLICABILITY OF PROVISIONS:

The procedures and requirements of this chapter apply to the processing and approval of condominium record of survey maps for condominium projects. Such provisions shall supplement zoning, site development, health, building or other ordinances which may be applicable to the condominium project, and shall apply to the approval of projects involving new construction, as well as projects involving the conversion of existing structures. In addition, projects which involve dedication of real property to the ownership and use of the public shall also be considered subdivisions and require compliance with applicable provisions of title 20 of this code. (Ord. 25-98 § 1, 1998)

21A.56.040: PROPOSED PROJECT; APPLICATION; FEES:

A. Information Required: The owner or developer of a proposed condominium project desiring approval shall file both a preliminary application and a final application with the Salt Lake City planning division on forms prescribed by the city together with:

1. Six (6) copies of the proposed map, accurately drawn to scale, as required by section 57-8-13, Utah Code Annotated, 1975, as amended or its successor, which shall be made by a registered Utah land surveyor. Such map shall set forth: a) the angular and linear data along the exterior boundaries of the property; b) the linear measurement and location, with reference to the exterior boundaries, of the building or buildings; c) the diagrammatic floor plans of the buildings, including identifying number or symbol; d) the elevations of the finished or unfinished interior surfaces of the floors and ceilings and the linear measurements of the finished or unfinished interior surfaces of the perimeter walls, and the lateral extensions of every unit; e) a distinguishing number or symbol for every physical unit identified on the record of survey map; f) the limited common and common areas and intended use/uses.

2. Two (2) copies of the proposed condominium bylaws and declarations, including itemizing those facilities which will be commonly owned and maintained by the owners, and the plan for providing long term funding, as required by city ordinance. The declaration shall also contain the following:

a. A statement that the homeowners' association may regulate, limit, or prohibit rentals of condominium units;

b. A statement that the homeowners' association may require the rental of condominium units to be conducted through the homeowners' association or a designated management company, and may require that all lease agreements be reviewed and approved by the homeowners' association or the management company, that any tenants be screened and approved by the homeowners' association or the management company prior to renting the condominium, and that the approval of the homeowners' association or the management company shall not be unreasonably withheld;

c. A statement that prior to renting any condominium unit, the condominium owner and the tenant shall execute a written lease agreement which shall include the following provisions:

(1) The tenant shall agree to comply with all of the terms and conditions of the condominium declaration and bylaws;

(2) The tenant shall agree not to allow or commit any nuisance, waste, unlawful or illegal act upon the premises; and

(3) The owner and the tenant shall acknowledge that the homeowners' association is an intended third party beneficiary of the lease agreement, that the homeowners' association shall have the right to enforce compliance with the condominium declaration and bylaws and to abate any nuisance, waste, unlawful or illegal activity upon the premises; and that the homeowners' association shall be entitled to exercise all of the owner's rights and remedies under the lease agreement to do so;

d. A statement requiring that prior to a tenant's occupancy of a condominium unit, the condominium owner must provide to the homeowners' association the name, address and telephone number of the tenant and a copy of the written lease agreement;

e. A statement that the homeowners' association shall have the right and the obligation to enforce compliance with the condominium declaration and bylaws against any owner and/or occupant of any condominium unit, and shall have all rights and remedies available under state or local law, in addition to its rights and remedies as a third party beneficiary under any lease agreement, to enforce such compliance.

3. Noticing requirements shall be met as specified in chapter 21A.10 of this title.

4. Where conversion of an existing building is proposed, a property report must be prepared consistent with the requirements of section 18.32.050 of this code (adopted building code appendix; nonconforming building conversion), and submitted as part of the application, together with a plan for proposed improvements, renovations or repairs to existing structures/facility.

5. Where conversion of an existing residential building is proposed, proof of notice to occupants shall be required before final approval. The notice shall include the estimated purchase price of the units, and information regarding proposed improvements. The notice shall describe any financing packages or economic incentives being offered to tenants to assist in unit purchase. The notice shall also include a date occupants must vacate or purchase, said date shall be no earlier than ninety (90) days after service of the notice. Relocation information for the tenants, specifying available housing relocation resource agencies, and a plan of any services to be voluntarily provided by the owner/developer, shall be included in the notice.

B. Filing Fees: To assist the city in defraying costs incurred in review of the project, fees shall be submitted with each application as shown on the Salt Lake City consolidated fee schedule.

C. Determination Of Complete Application: The application for either preliminary or final condominium approval shall not be considered complete until all required fees are paid to the city by the applicant and the planning staff has reviewed the material and determined that the material is adequate and correctly details the condominium request. If the application is found to be incomplete, the staff will inform the applicant of the necessary additional information. (Ord. 62-11, 2011: Ord. 61-11, 2011: Ord. 24-11, 2011)

21A.56.050: NEW CONSTRUCTION PROCESS:

A. Zoning Administrator Duties And Responsibility: The zoning administrator shall perform a zoning compliance review and report the findings to the building official and the planning official. The review shall document the site plan compliance under the zoning ordinance.

B. Building Official Duties And Responsibility: The building official shall obtain the zoning compliance review from the zoning administrator. The building official shall review plans for new construction to determine if such plans conform with applicable building codes.

C. Planning Official Duties And Responsibility: The planning official shall review the application, the zoning compliance review and related documents to determine compliance with requirements of Utah condominium ownership act of 1975 and applicable provisions of this part.

D. Preliminary Approval Procedures:

1. Public Hearing Required: No condominium project shall be approved without a public hearing. The planning official shall schedule the time for, and hold an administrative public hearing to consider the condominium application. Noticing requirements shall be met as specified in chapter 21A.10 of this title.

2. Planning Official Action: The planning official, or designee, may grant preliminary approval, with or without conditions, or may deny the proposal at the administrative hearing.

3. Building Official Action: No building permit for a proposed condominium project shall be issued without preliminary approval from the planning official. The building official, or designee, may approve the plans and issue applicable permits for construction. The issuance of building permits shall serve as evidence of preliminary condominium approval.

E. Final Approval Procedures: No condominium shall have final approval, or shall said units be sold, until the plat has been recorded with the Salt Lake County recorder.

1. Planning Official Approval: Upon receipt of the final record of survey map, the planning official shall examine the plat to determine whether the plat conforms with the preliminary plat and all conditions of approval. The planning official shall approve and sign the plat.

2. Building Official Approval: The building official shall conduct a final inspection of the building and shall approve and sign the plat.

3. City Attorney Approval: The city attorney shall advise the mayor as to the form of the final plat and other recordable documents. The city attorney shall certify that any lands dedicated to the public are dedicated in fee simple and that the applicant is the owner of record. The city attorney shall approve and sign the plat.

4. Mayor Approval: The mayor shall examine the plat to determine conformity with the requirements of the ordinances of the city and may approve the record of survey map. No final plat shall have any force or effect until it has been approved by the mayor and recorded with the Salt Lake County recorder. (Ord. 62-11, 2011: Ord. 25-98 § 1, 1998)

21A.56.060: CONDOMINIUM CONVERSION PROCESS:

A. Building Official Duties And Responsibility:

1. Property Report Required: In the case of a proposed conversion to condominium of an existing building, the building official shall review the property report prepared in response to section 18.32.050 of this code governing building conversions, and any plans for renovation and improvement to determine compliance with applicable codes or ordinances. The building official may require revision and resubmission of the property report if a determination is made that required information is missing.

2. Inspection Required: The building official shall require inspection of the property. Any items identified, either through the inspection or in the property report, as needing repair or replacement within five (5) years, shall be included on the list of required improvements.

3. Disclosure: The building official shall identify any building conditions to be disclosed on the record of survey map.

B. Planning Official Duties And Responsibility:

1. Coordination Of Review: The planning official shall review the application material submitted for accuracy and completeness and transmit the submittal to pertinent departments for review and comment.

2. Consistent With State Law: The planning official shall review the application and related documents to determine compliance with requirements of the Utah condominium ownership act of 1975 and applicable provisions of this part.

3. Previous Conditions: The planning official shall review applicable conditions on the use or building imposed by ordinances, variances, and conditional uses.

4. Site Improvements: The planning official shall review the proposed building and site plans and shall have the authority to require additional improvements to be made to the existing site including, but not limited to, landscaping, exterior repairs, and improvements to common areas. This review shall include an analysis of the parking, including internal circulation issues, such as surfacing and control curbs. The analysis shall also include the number of existing parking stalls, noting any deviation from current standards. Based upon this information, the planning official may require construction of additional parking stalls on the site, or may require reasonable alternative parking solutions as outlined in section 21A.44.030, "Alternative Parking Requirements", of this title. Any additional parking developed on site or alternative parking solutions may not increase the parking impacts on neighboring properties, and will not develop existing common areas used as open space or green space. Additionally any remodeling proposal which increases the number of bedrooms would require compliance with existing parking requirements. The total number of parking stalls available to the owners of the project shall be disclosed on the condominium plat.

5. Staff Report: The planning official shall direct city staff in the preparation of a written report, describing the recommended improvements to the building, the site and the surrounding public way. The report will summarize the above referenced review detailing any noted deficiencies.

C. Preliminary Approval Procedures:

1. Public Hearing Required: No condominium conversion project shall be approved without a public hearing. The planning director shall schedule the time for an administrative public hearing to consider the condominium conversion application. Notice for the public hearing shall be pursuant to chapter 21A.10 of this title.

2. Building Official Action: The building official shall identify any improvements, repairs or replacements which must be made to bring the structure into compliance with applicable building codes. The building official may recommend denial until existing code violations identified are corrected, or may recommend preliminary approval, subject to violations being corrected prior to final approval.

3. Planning Official Action: The planning official shall consider the public benefits of condominium ownership to the community and balance those benefits against the loss of rental housing. The planning official, or designee, may grant preliminary approval, with or without conditions, or may deny the proposal at the administrative hearing.

4. Planning Commission Consideration: The planning official may, because of project complexity or public concern, determine that a public hearing before the planning commission is required. The planning commission shall schedule and hold a public hearing in accordance with standards and procedures set forth in chapter 21A.10 of this title. Following the public hearing, the planning commission shall grant preliminary approval, with or without conditions, or deny the application.

D. Final Approval Procedures: No condominium shall have final approval until the record of survey map has been recorded with the Salt Lake County recorder.

1. Planning Official Approval: Upon receipt of the final record of survey map, and final application and fees, the planning official shall examine the plat to determine whether the plat conforms with the preliminary plat and all conditions of approval. The planning official shall approve and sign the plat.

2. Building Official Approval: The building official shall conduct a final inspection on the structure to determine completion of any planned or required repairs and improvements. The building official may recommend final approval subject to completion of required work, provided the applicant files a performance bond in an amount equal to the estimated cost to correct conditions of approval. The building official shall approve and sign the plat.

3. City Attorney Approval: The city attorney shall advise the mayor as to the form of the final plat and other recordable documents. The city attorney shall certify that any lands dedicated to the public are dedicated in fee simple and that the applicant is the owner of record. The city attorney shall approve and sign the plat.

4. Mayor Approval: The mayor shall examine the plat to determine conformity with the requirements of the ordinances of the city and may approve the record of survey map. No final plat shall have any force or effect until it has been approved and signed by the mayor and recorded with the Salt Lake County recorder. (Ord. 62-11, 2011: Ord. 70-09 § 1, 2009: Ord. 25-98 § 1, 1998)

21A.56.070: APPEAL OF ADMINISTRATIVE DECISIONS:

Any person adversely affected by the administrative decision of the planning official may, within ten (10) days after such decision, file an appeal to the planning commission. The appeal shall specify any alleged error made by the planning official. The planning commission shall schedule a public hearing for consideration of the merits of the appeal at its earliest convenience. (Ord. 25-98 § 1, 1998)

21A.56.080: APPEAL OF PLANNING COMMISSION DECISIONS:

Any person adversely affected by a final decision of the planning commission may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title. (Ord. 8-12, 2012)

21A.56.090: ANNUAL REPORT TO THE PLANNING COMMISSION:

At the end of each fiscal year, the planning division shall provide a report to the planning commission identifying the number of condominium conversions, including the number of units involved, which have occurred during the prior year. (Ord. 25-98 § 1, 1998)

CHAPTER 21A.58
SITE PLAN REVIEW

21A.58.010: PURPOSE STATEMENT:

The intent of these site plan review regulations is to promote the safe and efficient use of land, to contribute to an orderly and harmonious appearance in the city and to further enhance the value of property. This process is intended to supplement the review and administrative procedures which are carried out under this title or other city ordinances and regulations. The site plan review process is intended to help ensure that newly developed properties and redeveloped properties are compatible with adjacent development and that traffic, public safety, overcrowding, and environmental problems are minimized to the greatest extent possible. More specifically, the purpose of the site plan review process is to provide for a review of:

A. A project's compatibility with its environment and with other land uses and buildings existing in the surrounding area;

B. The quantity, quality, utility, size and type of a project's required open space and proposed landscaping improvements;

C. The ability of a project's traffic circulation system to provide for the convenient and safe internal and external movement of vehicles and pedestrians;

D. The quantity, quality, utility and type of a project's required community facilities; and

E. The location and adequacy of a project's provision for drainage and utilities. (Ord. 26-95 § 2(29-1), 1995)

21A.58.020: AUTHORITY:

Site plan review shall be required pursuant to the provisions of this chapter for uses as specified in section 21A.58.030 of this chapter before zoning certificates, building permits or certificates of occupancy may be issued.

A. The zoning administrator shall approve site plans upon consideration of all comments received from city departments. The zoning administrator shall be assisted in administering the site plan review process by the development review team (DRT).

B. The zoning administrator may waive the requirements for site plan review for additions to existing buildings, structures, or uses if, in the zoning administrator's opinion, such additions do not substantially impact adjacent properties. (Ord. 26-95 § 2(29-2), 1995)

21A.58.030: SCOPE OF APPLICATION:

A. Permitted Uses: Site plan review approval shall be required for approval of all permitted uses other than detached single-family and two-family/twin home dwellings as a condition to receiving a zoning certificate if that permitted use involves the following:

1. Development of a new principal building;
2. Change of land use type;
3. An increased parking requirement;
4. An increased landscaping requirement; or
5. Development activities identified in various sections of this title that are specifically subject to site plan review.

B. Conditional Uses: Site plan review shall be required for all conditional uses in all zoning districts.

C. Accessory Uses: Site plan review shall not be required for accessory uses and structures (as defined in chapter 21A.40, "Accessory Uses, Buildings And Structures", of this title). Such uses shall be reviewed in conjunction with the review of principal buildings when such accessory structures are proposed to be approved at the same time as the principal building. (Ord. 26-95 § 2(29-3), 1995)

21A.58.040: SCOPE OF MODIFICATIONS AUTHORIZED:

The authority of the zoning administrator through the site plan review process to require modification of a proposed site plan shall be limited to the following elements in order to achieve the objectives set forth below:

A. Traffic And Parking:

1. Minimizing dangerous traffic movements.
2. Promoting the smooth and efficient flow of traffic in accordance with standards in the "Institute Of Traffic Engineers' Transportation And Traffic Engineering Handbook", and other local sources of authority as adopted by resolution.
3. Optimizing the efficient use of parking facilities through provisions for adequate interior circulation, parking stalls and travel aisles.

B. Site Layout:

1. Promoting compatibility with adjacent and nearby properties.
2. Preserving and protecting valuable natural features and amenities to the greatest extent practical.
3. Promoting the efficient provision of public services.

C. Environmental Protection:

1. Preserving existing healthy and long lived trees wherever economically feasible.
2. Designing drainage facilities to promote the use and preservation of natural watercourse and patterns of drainage.
3. Minimizing alterations to existing topography.
4. Protecting important views and vistas as identified in adopted plans.

D. Landscaping:

1. Promoting the use of plant material compatible with the climate of the region and microclimate conditions on the site.
2. Ensuring that plant material can be maintained for long term health and continued growth.
3. Maximizing water and energy conservation through the appropriate use of plant materials.
4. Ensuring that the arrangement of required landscaping produces the optimal visual effect.

E. Signage:

1. Ensuring that the location, size and orientation of signage do not impair the visibility of or distract motorists.
2. Ensuring that the location, size and orientation of signage minimize obstructions and hazards to pedestrians. (Ord. 26-95 § 2(29-4), 1995)

21A.58.050: DEVELOPMENT REVIEW TEAM (DRT):

The zoning administrator shall be assisted in conducting site plan review by the development review team (DRT).

A. Membership: The development review team shall consist of a designated representative from each of the city departments or department divisions, as necessary, including, but not limited to, the following:

1. Department of community and economic development;
2. Department of public services;
3. Police department;
4. Fire department;
5. Department of public utilities.

B. Coordination Of Review: The zoning administrator, or the zoning administrator's designee, shall serve as the chair of the development review team and shall coordinate its review of proposals. (Ord. 38-08, 2008: Ord. 6-04 § 17, 2004: Ord. 26-95 § 2(29-5), 1995)

21A.58.060: APPLICATION REQUIREMENTS:

Each application for site plan review shall include six (6) copies of a site plan, drawn to a scale of twenty feet (20') to the inch or such other scale as the zoning administrator shall deem appropriate. Plans shall be submitted with every application for site plan approval and shall contain the following information:

A. The applicant's name, address, telephone number and interest in the property;

B. The owner's name, address and telephone number, if different than the applicant, and the owner's signed consent to the filing of the application;

C. The street address, tax parcel number and legal description of the subject property;

D. The zoning classification, zoning district boundaries and present use of the subject property;

E. A vicinity map with north arrow, scale and date, indicating the zoning classifications and current uses of properties within eighty five feet (85') of the subject property (exclusive of intervening streets and alleys);

F. The proposed title of the project and the names, addresses and telephone numbers of the architect, landscape architect, planner or engineer on the project, and a signature panel for zoning administrator approval;

G. The boundaries of the subject property, all existing property lines, setback lines, existing streets, buildings, watercourses, waterways or lakes, wetlands, and other existing physical features in or adjoining the project;

H. Topographic survey, showing the elevation of streets, alleys, buildings, structures, watercourses and their names. The topography shall be shown by adequate spot elevations. The finished grade for the entire site shall be shown as well as the first floor elevation of all buildings. Additionally, on all site plans the following information must be provided:

1. Significant topographical or physical features of the site, including existing trees;

2. The elevation of the curb (if existing or proposed) in front of each lot shall be indicated; and

3. Elevations of the top of bank and toe of slope, slope ratio of fill, and limits of fill, including access, shall be indicated;

I. The location and size of sanitary and storm sewers, water, gas, telephone, electric and other utility lines, culverts and other underground structures in or affecting the project, including existing and proposed facilities and easements for these facilities. In the case of city owned utilities, such information shall be provided to the applicant by the department of community and economic development and/or department of public utilities;

J. The location, dimensions and character of construction of proposed streets, alleys, loading areas (including numbers of parking and loading spaces), outdoor lighting systems, storm drainage and sanitary facilities, sidewalks, curbs and gutters and all curb cuts. Where necessary to meet the purposes and intent of this chapter, such information shall be provided for the site. Additional area may also be required to be shown to indicate connections or proposed connections to major utilities;

K. The location of all proposed buildings and structures, accessory and principal, showing the number of stories and height, dwelling type, if applicable, major elevations and the total square footage of the floor area by proposed use;

L. The location, height, type and material of all fences and walls;

M. The location, character, size, height and orientation of proposed signs, as proposed to be erected in accordance with chapter 21A.46 of this title, and elevations of buildings showing signs to be placed on exterior walls. Signs which are approved in accordance with this chapter shall be considered a part of the approved site plan;

N. The proposed nature and manner of grading of the site, including proposed treatment of slopes in excess of ten percent (10%) to prevent soil erosion and excessive runoff;

O. The location of dumpsters or other outdoor trash receptacles;

P. The location and dimensions of proposed recreation areas, open spaces and other required amenities and improvements;

Q. A tabulation of the total number of acres in the project and the percentage and acreage thereof proposed to be allocated to off street parking, open space, parks and other reservations;

R. A tabulation of the total number of dwelling units in the project and the overall project density in dwelling units per gross acre (for residential projects);

S. The proposed and required off street parking and loading areas, including parking and access for persons with disabilities, as specified in the Utah adopted building code; and

T. Landscape plans subject to the standards contained in chapter 21A.48 of this title.

The zoning administrator may waive any of the above listed requirements upon making a determination that such requirements are unnecessary due to the scope and nature of the proposed development. (Ord. 38-08, 2008: Ord. 20-06 § 1, 2006: Ord. 13-04 § 39, 2004: Ord. 6-04 § 18, 2004: Ord. 35-99 § 100, 1999: Ord. 77-97 § 17, 1997: Ord. 26-95 § 2(29-6), 1995)

21A.58.070: STANDARDS FOR SITE PLAN REVIEW:

In addition to standards provided in other sections of this title for specific types of approval, the following standards shall be applied to all applications for site plan review:

A. Lighting: All developments shall provide adequate lighting so as to assure safety and security. Lighting installations shall not have an adverse impact on traffic safety or on the surrounding area. Light sources shall be shielded, and shall not shine onto adjacent properties.

B. Stormwater Drainage: Provisions for storm surface drainage shall be in accordance with the design standards of the department of public utilities indicating location, size, types and grades of sewers, drainage structures, ditches, and connection to existing drainage system. Disposition of storm or natural waters both on and off the site shall be provided in such a manner as not to have a detrimental effect on the property of others or the public right of way.

C. Utilities: Provision of hookups to public utilities shall be the responsibility of the applicant and connections shall be installed in accordance with the standards of the department of public utilities. All connections shall be shown on the site plan.

D. Public Safety: The Salt Lake Valley health department shall be invited to review all site plans for treatment of bulk trash disposal. The police department and the fire department shall review all site plans to determine adequacy of access and other aspects of public safety.

E. General Plan Conformity: The planning division shall review site plans for all applications for conditional uses (including planned developments) and conditional building and site design reviews with reference to adopted plans and the conformity of the site plans with the objectives and policies of the adopted plans. (Ord. 15-13, 2013: Ord. 1-06 § 30, 2005: Ord. 26-95 § 2(29-7), 1995)

21A.58.080: PROCEDURES FOR SITE PLAN REVIEW:

A. Preapplication Conference: Before filing an application for approval of a site plan, landscape plan and other applicable plans, the applicant is encouraged to confer with the DRT regarding the general proposal. Such action does not require formal application fees, or filing of a site plan, or landscape plan and is not to be construed as an application for formal approval. No representation made by the zoning administrator, the DRT or other city departments during such conference shall be binding upon the city with respect to an application subsequently submitted.

B. Fees: Every site plan application shall be accompanied by the fee shown on the Salt Lake City consolidated fee schedule.

C. Submission Of Final Site Plan, Landscape Plan And Other Plans; Review And Approval:

1. DRT Review: After the site plan, landscape plan, other applicable plans and related materials and fees have been submitted pursuant to section 21A.58.060 of this chapter, and the application has been determined by the zoning administrator to be complete pursuant to section 21A.10.010 of this title, the application shall be reviewed and processed through the development review team (DRT) in coordination with the appropriate city departments. If the plan is approved, the zoning administrator shall certify approval on the site plan and state the conditions of such approval, if any. If the plan is disapproved, the zoning administrator shall indicate reasons in writing to the applicant.

2. Appeal Of Zoning Administrator Decision: Any person adversely affected by a final decision of the zoning administrator on a site plan may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title.

3. Certification By Zoning Administrator: The decisions of the zoning administrator approving the application shall be noted on all copies of the site plan, landscape plan and other applicable plans to be retained in the record, including any changes or conditions required as part of the site plan approval. One such copy shall be returned to the applicant, and others retained as required for records or further action by the zoning administrator or other affected agencies of the city.

4. Building Permits: Building permits shall be issued in accordance with approved plans. A copy of the approved site plan shall be retained in the records of the office of the division of building services and licensing and all building and occupancy permits shall conform to the provisions of the approved site plans.

5. Amendments Or Modifications To Approved Site Plans: Amendments or modifications to approved site plans and/or landscape plans must be submitted to the zoning administrator. Such modifications shall be submitted in accordance with the procedures and requirements of this chapter and shall be distributed to the appropriate departments for review. The zoning administrator may waive this requirement if the zoning administrator determines that such modification of the original site plan and/or landscape plan has no significant impact upon the original proposal and still remains in conformance with zoning standards and regulations.

6. Time Limit On Approval: Approval of the site plan, landscape plan and other applicable plans shall be void unless a building permit has been issued or complete building plans have been submitted to the division of building services and licensing one year from the date of approval. The planning director may grant an extension of a site plan approval for up to one additional year when the applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact. Extension requests must be submitted to the planning director in writing prior to the expiration of the site plan approval.

7. Stop Work Order: A stop work order may be put on the project if any improvements required are not consistent with the approved site plan, landscape plan or other applicable plans.

8. Maintenance Guarantee: When any improvement is to be accepted for dedication, maintenance or operation by the city, the applicant shall be required to provide financial security (acceptable to the city attorney) in the amount of ten percent (10%) of the total construction costs of the project to cover the costs of any defects which may occur in such improvements within two (2) years after the date of acceptance by the city. The director of community and economic development or director of public utilities or other city official shall be responsible for determining when such financial security shall be required. (Ord. 8-12, 2012: Ord. 24-11, 2011)

21A.58.090: SKETCH PLAN REVIEW:

The development review administrator or designee may accept a sketch plan and other documentation prior to the formal submittal of plans for building permit review to determine the required standard for front or corner side yard; building height and wall height for a principal structure, width and placement of attached garages; and the location, building height and footprint of accessory structures. The sketch plan review process may be utilized for properties located in the FR, R-1, R-2 and SR districts. The submittal shall incorporate sufficient documentation for the development review administrator or designee to determine the zoning standards that will be applicable to developing the specific site. This preliminary zoning review intends to provide information and guidance to the project designer and is not to be construed as an application or approval of site or building plans. Subsequent building permit applications must comply with all applicable Salt Lake City development requirements. (Ord. 90-05 § 2 (Exh. B), 2005)

CHAPTER 21A.59
CONDITIONAL BUILDING AND SITE DESIGN REVIEW

21A.59.010: PURPOSE STATEMENT:

The intent of building and site design review regulations is to provide for the flexible implementation of the specific design requirements set forth within individual zoning districts. The purpose statement of each zoning district provides the philosophical approach to defining that flexibility. This process is intended to supplement the review and administrative procedures which are carried out under this title or other city ordinances and regulations. The conditional building and site design review process is intended to help ensure that newly developed properties and redeveloped properties are designed to encourage pedestrian access, circulation and orientation while acknowledging the need for transit and automobile access. (Ord. 15-13, 2013)

21A.59.020: AUTHORITY:

Design review shall be required pursuant to the provisions of this chapter for uses as specified within individual zoning districts before zoning certificates, building permits or certificates of occupancy may be issued.

A. The planning commission shall approve design criteria upon consideration of comments received from city departments and determining whether modification of specific design regulations meets the intent of the individual zoning district.

B. The planning commission may modify individual design requirements for specific projects if they find that the intent of the basic design criteria of the zoning district has been met. (Ord. 15-13, 2013)

21A.59.030: SCOPE OF APPLICATION:

Design review approval shall be required for all permitted uses, conditional uses and accessory uses when specifically authorized and referenced by individual zoning districts. (Ord. 15-13, 2013)

21A.59.040: SCOPE OF MODIFICATIONS AUTHORIZED:

The authority of the planning commission through the design review process shall be limited to modification of the specific element referenced within each zoning district. In the TSA zoning district, the planning commission or administrative hearing officer, shall have the authority to determine if a proposal generally complies with the transit station area development guidelines and may make modifications to the building and site design proposal to ensure compliance. (Ord. 15-13, 2013)

21A.59.050: APPLICATION REQUIREMENTS:

Each application for design review shall include the same information as required for site plan review as identified in section 21A.58.060 of this title. (Ord. 15-13, 2013)

21A.59.060: STANDARDS FOR DESIGN REVIEW:

In addition to standards provided in other sections of this title for specific types of approval, the following standards shall be applied to all applications for design review:

A. Development shall be primarily oriented to the street, not an interior courtyard or parking lot.

B. Primary access shall be oriented to the pedestrian and mass transit.

C. Building facades shall include detailing and glass in sufficient quantities to facilitate pedestrian interest and interaction.

D. Architectural detailing shall be included on the ground floor to emphasize the pedestrian level of the building.

E. Parking lots shall be appropriately screened and landscaped to minimize their impact on adjacent neighborhoods. Parking lot lighting shall be shielded to eliminate excessive glare or light into adjacent neighborhoods.

F. Parking and on site circulation shall be provided with an emphasis on making safe pedestrian connections to the street or other pedestrian facilities.

G. Dumpsters and loading docks shall be appropriately screened or located within the structure.

H. Signage shall emphasize the pedestrian/mass transit orientation.

I. Lighting shall meet the lighting levels and design requirements set forth in chapter 4 of the Salt Lake City lighting master plan dated May 2006.

J. Streetscape improvements shall be provided as follows:

1. One street tree chosen from the street tree list consistent with the city's urban forestry guidelines and with the approval of the city's urban forester shall be placed for each thirty feet (30') of property frontage on a street. Existing street trees removed as the result of a development project shall be replaced by the developer with trees approved by the city's urban forester.
2. Landscaping material shall be selected that will assure eighty percent (80%) ground coverage occurs within three (3) years.
3. Hardscape (paving material) shall be utilized to designate public spaces. Permitted materials include unit masonry, scored and colored concrete, grasscrete, or combinations of the above.
4. Outdoor storage areas shall be screened from view from adjacent public rights of way. Loading facilities shall be screened and buffered when adjacent to residentially zoned land and any public street.
5. Landscaping design shall include a variety of deciduous and/or evergreen trees, and shrubs and flowering plant species well adapted to the local climate.

K. The following additional standards shall apply to any large scale developments with a gross floor area exceeding sixty thousand (60,000) square feet:

1. The orientation and scale of the development shall conform to the following requirements:
   a. Large building masses shall be divided into heights and sizes that relate to human scale by incorporating changes in building mass or direction, sheltering roofs, a distinct pattern of divisions on surfaces, windows, trees, and small scale lighting.
   b. No new buildings or contiguous groups of buildings shall exceed a combined contiguous building length of three hundred feet (300').
2. Public spaces shall be provided as follows:
   a. One square foot of plaza, park, or public space shall be required for every ten (10) square feet of gross building floor area.
   b. Plazas or public spaces shall incorporate at least three (3) of the five (5) following elements:
      (1) Sitting space of at least one sitting space for each two hundred fifty (250) square feet shall be included in the plaza. Seating shall be a minimum of sixteen inches (16") in height and thirty inches (30") in width. Ledge benches shall have a minimum depth of thirty inches (30");
      (2) A mixture of areas that provide shade;
      (3) Trees in proportion to the space at a minimum of one tree per eight hundred (800) square feet, at least two inch (2") caliper when planted;
      (4) Water features or public art; and/or
      (5) Outdoor eating areas.

L. Any new development shall comply with the intent of the purpose statement of the zoning district and specific design regulations found within the zoning district in which the project is located as well as adopted master plan policies, the city's adopted "urban design element" and design guidelines governing the specific area of the proposed development. Where there is a conflict between the standards found in this section and other adopted plans and regulations, the more restrictive regulations shall control. (Ord. 15-13, 2013)

21A.59.065: STANDARDS FOR DESIGN REVIEW FOR HEIGHT:

In addition to standards provided in section 21A.59.060 of this chapter, the following standards shall be applied to all applications for conditional building and design review regarding height:

A. The roofline contains architectural features that give it a distinctive form or skyline, or the rooftop is designed for purposes such as rooftop gardens, common space for building occupants or the public, viewing platforms, shading or daylighting structures, renewable energy systems, heliports, and other similar uses, and provided that such uses are not otherwise prohibited.

B. There is architectural detailing at the cornice level, when appropriate to the architectural style of the building.

C. Lighting highlights the architectural detailing of the entire building but shall not exceed the maximum lighting standards as further described elsewhere in this title. (Ord. 15-13, 2013)

21A.59.070: PROCEDURES FOR DESIGN REVIEW:

A. Fees: Every design review application shall be accompanied by a fee as established in the fee schedule, chapter 21A.64 of this title.

B. Submission Of Final Plans; Review And Approval:

1. Planning Commission Review: After the plans and related materials and fees have been submitted pursuant to section 21A.59.050 of this chapter, and the application has been determined by the planning director to be complete pursuant to section 21A.10.010 of this title, the application shall be reviewed and processed through the planning commission in coordination with the appropriate city departments. If the plan is approved, the planning director shall certify approval and state the conditions of such approval, if any. If the design is disapproved, the planning director shall indicate reasons for such in writing to the applicant.
2. Appeal Of Planning Commission Decision: Any person adversely affected by a final decision of the planning commission may appeal to the appeals hearing officer in accordance with the provisions of chapter 21A.16 of this title.
3. Certification By Planning Commission: The decisions of the planning commission approving the application shall be noted on all copies of applicable plans to be retained in the record, including any changes or conditions required as part of the design review approval. One such copy shall be returned to the applicant, and others retained as required for records or further action by the planning commission or other affected agencies of the city.
4. Building Permits: Building permits shall be issued in accordance with approved plans. A copy of the approved plan shall be retained in the records of the office of the division of building services and licensing and all building and occupancy permits shall conform to the provisions of the approved design review.
5. Amendments Or Modifications To Approved Design Review: Amendments or modifications to approved design review must be submitted to the planning director. Such modifications shall be submitted in accordance with the procedures and requirements of this chapter and shall be distributed to the appropriate departments for review. The planning director may waive this requirement if the planning director determines that such modification of the original design review has no significant impact upon the original proposal and still remains in conformance with design concepts approved by the planning commission.
6. Time Limit On Approval: Approval of design review shall be void unless a building permit has been issued or complete building plans have been submitted to the division of building services and licensing within two (2) years from the date of approval. The planning director may grant an extension of a design review approval for up to one additional year when the applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact. Extension requests must be submitted to the planning director in writing prior to the expiration of the design review approval. (Ord. 15-13, 2013)

21A.59.080: BUILDING AND SITE DESIGN REVIEW AND CONDITIONAL USES:

When a development is proposed which requires building and site design review along with a conditional use approval, the planning commission shall review the applications together. The proposed applications shall be reviewed and approved, approved with conditions, approved with modifications, or denied. (Ord. 15-13, 2013)

CHAPTER 21A.60
LIST OF TERMS

21A.60.010: PURPOSE:

This chapter is provided as a convenience to the reader for use in determining which terms are defined in chapter 21A.62 of this title. Where noted, references are made to other chapters of this title which contain defined terms. (Ord. 26-95 § 2(30-1), 1995)

21A.60.020: LIST OF DEFINED TERMS:

A-frame sign. See chapter 21A.46 of this title.

Abutting.

Access taper.

Accessory building or structure.

Accessory dwelling unit.

Accessory guest and servants' quarters.

Accessory lot.

Accessory structure. See Accessory building or structure.

Accessory use.

Adaptive reuse of a landmark building.

Administrative decision.

Agricultural use.

Air circulation system. See section 21A.34.040 of this title.

Airport. See section 21A.34.040 of this title.

Airport elevation. See section 21A.34.040 of this title.

Airport hazard. See section 21A.34.040 of this title.

Airport master plan. See section 21A.34.040 of this title.

Airport reference point. See section 21A.34.040 of this title.

Alcohol, liquor store.

Alcohol related establishment.

Alley.

Alteration.

Alteration, sign. See chapter 21A.46 of this title.

Alternative parking property.

Amusement park.

Ancillary mechanical equipment.

Animal cremation service.

Animal pound.

Animated sign. See chapter 21A.46 of this title.

Antenna.

Antenna, low power radio service.

Antenna, low power radio service - monopole with antennas and antenna support structures greater than two feet (2') in width.

Antenna, low power radio service - monopole with antennas and antenna support structures less than two feet (2') in width.

Antenna, roof mounted.

Antenna, satellite dish.

Antenna, stealth.

Antenna, TV.

Antenna, wall mounted.

Antenna, whip.

Apartment. See Dwelling, multi-family.

Appeals hearing officer.

Arcade.

Architecturally incompatible.

Art gallery.

Art studio.

Assisted living facility (large).

Assisted living facility (small).

Auditorium.

Automatic amusement device.

Automobile.

Automobile repair, major.

Automobile repair, minor.

Automobile salvage and recycling.

Awning. See chapter 21A.46 of this title.

Awning sign. See chapter 21A.46 of this title.

Backlit awning sign. See chapter 21A.46 of this title.

Bakery, commercial.

Balloon. See chapter 21A.46 of this title.

Banner, public event. See chapter 21A.46 of this title.

Banner, secured. See chapter 21A.46 of this title.

Banner, unsecured. See chapter 21A.46 of this title.

Base zoning district.

Basement.

Bed and breakfast.

Bed and breakfast inn.

Bed and breakfast manor.

Bench sign. See chapter 21A.46 of this title.

Billboard. See subsection 21A.46.160B of this title.

Billboard (outdoor advertising sign). See chapter 21A.46 of this title.

Billboard bank. See subsection 21A.46.160B of this title.

Billboard credit. See subsection 21A.46.160B of this title.

Billboard owner. See subsection 21A.46.160B of this title.

Block.

Block corner.

Block face.

Boarding house.

Brewery.

Brewpub.

Buffer yard. See Landscape buffer.

Buildable area.

Building.

Building, accessory. See Accessory building or structure.

Building connection.

Building coverage.

Building face. See chapter 21A.46 of this title.

Building, front line of.

Building line.

Building material distributor.

Building official.

Building or house numbers sign. See chapter 21A.46 of this title.

Building plaque sign. See chapter 21A.46 of this title.

Building, principal.

Building, public.

Building security sign. See chapter 21A.46 of this title.

Building sign. See chapter 21A.46 of this title.

Bulk.

Business.

Business, mobile.

Business park.

Canopy. See chapter 21A.46 of this title.

Canopy, drive-through. See chapter 21A.46 of this title.

Canopy, drive-through, sign. See chapter 21A.46 of this title.

Canopy sign. See chapter 21A.46 of this title.

Car pool.

Carport.

Cemetery.

Certificate of appropriateness.

Certificate of occupancy.

Certificate, zoning.

Change of use.

Character conservation district feasibility study.

Character defining features.

Charity dining hall.

Check cashing/payday loan business.

Chemical manufacturing.

City council.

Clearance (of a sign). See chapter 21A.46 of this title.

Cold frame.

College or university.

Commercial districts.

Commercial indoor recreation.

Commercial laundry.

Commercial outdoor recreation.

Commercial service establishment.

Commercial vehicle.

Commercial video arcade.

Common areas, space and facilities.

Communication tower.

Community correctional facility.

Community garden.

Community recreation center.

Compatibility.

Compatible design.

Compatible land use.

Complete demolition.

Composting.

Concept development plan.

Concrete manufacturing.

Conditional building and site design review.

Conditional use.

Condominium - condominium project and condominium unit.

Condominium ownership act of 1975. See chapter 21A.56 of this title.

Condominium ownership act of 1975 or act.

Condominium unit. See Condominium - condominium project and condominium unit.

Consensus.

Construction period.

Construction sign. See chapter 21A.46 of this title.

Contractor's yard/office.

Conversion.

Corner building.

Corner lot. See Lot, corner.

Corner side yard. See Yard, corner side.

Crematorium.

Dance studio.

Daycare.

Daycare center, adult.

Daycare center, child.

Daycare, nonregistered home.

Daycare, registered home daycare or preschool.

Decibel.

Development.

Development entry sign. See chapter 21A.46 of this title.

Development pattern.

Dining club.

Directional or informational sign (private). See chapter 21A.46 of this title.

Directory sign. See chapter 21A.46 of this title.

Disabled. See Persons with disabilities.

Distillery.

District plan and design standards.

Dormer.

Drive-through window.

Dwell time. See subsection 21A.46.160B of this title.

Dwelling.

Dwelling, manufactured home.

Dwelling, modular home. See Dwelling, manufactured home.

Dwelling, multi-family.

Dwelling, single-family.

Dwelling, single-family attached.

Dwelling, single-room occupancy.

Dwelling, twin home.

Dwelling, two-family.

Dwelling unit. See Dwelling.

Electric generation facility, public/private.

Electronic billboard. See subsection 21A.46.160B of this title.

Electronic changeable copy sign. See chapter 21A.46 of this title.

Electronic repair shop.

Electronic sign. See subsection 21A.46.160B of this title.

Eleemosynary facility.

Elevation area.

Elevation area, first floor.

Emergency medical service facility.

Equipment rental.

Equipment rental, heavy.

Evergreen.

Excess dwelling unit.

Existing billboard. See subsection 21A.46.160B of this title.

Existing/established subdivision.

Explosive manufacturing.

Externally illuminated sign. See chapter 21A.46 of this title.

Extractive industry.

FAA. See section 21A.34.040 of this title.

Family.

Farmers' market.

Fee schedule.

Fence.

Fence, electric security.

Fence, opaque or solid.

Fence, open.

Financial institution.

Fixed dimensional standards.

Flag, corporate. See chapter 21A.46 of this title.

Flag lot.

Flag, official. See chapter 21A.46 of this title.

Flag, pennant. See chapter 21A.46 of this title.

Flammable liquids or gases, heating fuel distribution.

Flat sign. See chapter 21A.46 of this title.

Flea market (indoor).

Flea market (outdoor).

Floor. See Story (floor).

Floor area, gross.

Floor area, usable.

Foot-candle. See subsection 21A.46.160B of this title.

Fraternity/sorority house.

Freestanding sign. See chapter 21A.46 of this title.

Front yard. See Yard, front.

Fuel center.

Funeral home or mortuary.

Garage.

Garage, attached.

Garage/yard sale sign. See chapter 21A.46 of this title.

Gas price sign. See chapter 21A.46 of this title.

Gas pump sign. See chapter 21A.46 of this title.

Gas station.

Gateway. See subsection 21A.46.160B of this title.

General plan.

Government sign. See chapter 21A.46 of this title.

Government uses.

Grade, established.

Grade, finished.

Grade, natural.

Greenhouse.

Gross floor area. See Floor area, gross.

Ground cover.

Group home, large.

Group home, small.

Guest.

Hard surfaced.

Health and fitness facility.

Health hazard.

Height. See section 21A.34.040 of this title.

Height, building - in the FR, FP, R-1, R-2 and SR districts.

Height, building - outside FR, FP, R-1, R-2 and SR districts.

Height, exterior wall.

Height (of a sign). See chapter 21A.46 of this title.

Height, sign face. See chapter 21A.46 of this title.

Heliport.

Historic buildings or sites.

Historic landmark commission.

Historic site. See Landmark site.

Historical marker. See chapter 21A.46 of this title.

Home occupation.

Homeless shelter.

Hoop house.

Hospital.

Hotel/motel room.

House museum.

Illegal sign. See chapter 21A.46 of this title.

Illuminance. See subsection 21A.46.160B of this title.

Impact statement.

Incinerator, medical waste/hazardous waste.

Incompatible use. See section 21A.34.040 of this title.

Industrial assembly use.

Infill.

Institution.

Interior side yard. See Yard, interior side.

Interior sign. See chapter 21A.46 of this title.

Intermodal transit passenger hub.

Internally illuminated sign. See chapter 21A.46 of this title.

Interpretation.

Interpretation, use.

Jail.

Jewelry fabrication.

Kennel, public or private.

Kiosk. See chapter 21A.46 of this title.

Laboratory, medical, dental, optical.

Land use.

Land use type (similar land use type).

Landfill.

Landfill, commercial.

Landfill, construction debris.

Landfill, end use plan.

Landfill, municipal.

Landmark site.

Landscape area.

Landscape buffer.

Landscape plan.

Landscape yard.

Landscaping.

Lattice tower.

Legal conforming.

Letter sign. See chapter 21A.46 of this title.

Limousine service.

Locally grown.

Lodging house.

Logo. See chapter 21A.46 of this title.

Lot.

Lot area.

Lot area, net.

Lot assemblage.

Lot, corner.

Lot depth.

Lot, flag. See Flag lot.

Lot, interior.

Lot line, corner side.

Lot line, front.

Lot line, interior side.

Lot line, rear.

Lot, nonconforming.

Lot width.

Low power radio services facility or wireless telecommunications facility.

Major streets.

Manufactured home. See Dwelling, manufactured home.

Manufacturing, heavy.

Manufacturing, light.

Marquee. See chapter 21A.46 of this title.

Marquee sign. See chapter 21A.46 of this title.

Master plan.

Medical/dental office or clinic.

Medical nursing school.

Memorial sign. See chapter 21A.46 of this title.

Microbrewery.

Mid block area.

Miniwarehouse.

Mobile food business.

Mobile food court.

Mobile food trailer.

Mobile food truck.

Mobile home.

Monument sign. See chapter 21A.46 of this title.

Motel/hotel.

Motion. See subsection 21A.46.160B of this title.

Municipal services.

Museum.

Nameplate sign. See chapter 21A.46 of this title.

Neighborhood identification sign. See chapter 21A.46 of this title.

Neon public parking sign. See chapter 21A.46 of this title.

New billboard. See subsection 21A.46.160B of this title.

New construction.

New development sign. See chapter 21A.46 of this title.

Noncomplying structure.

Nonconforming billboard. See subsection 21A.46.160B of this title.

Nonconforming lot.

Nonconforming sign. See chapter 21A.46 of this title.

Nonconforming use. See also section 21A.34.040 of this title.

Nonconformity.

Nonprecision instrument runway. See section 21A.34.040 of this title.

Nursing care facility.

Obstruction.

Off premises sign. See chapter 21A.46 of this title.

Off site.

Off street parking.

Office use.

On premises sign. See chapter 21A.46 of this title.

Open air mall. See chapter 21A.46 of this title.

Open space.

Outdoor advertising sign. See chapter 21A.46 of this title.

Outdoor sales and display.

Outdoor storage.

Outdoor storage, public.

Outdoor television monitor.

Overlay district.

Owner occupant.

Parcel.

Park and ride lot.

Park banner sign. See chapter 21A.46 of this title.

Park, public.

Park strip.

Park strip landscaping.

Parking facility, shared.

Parking garage, commercial.

Parking, intensified reuse.

Parking, leased - alternative parking.

Parking lot.

Parking, off site.

Parking, off site - alternative parking.

Parking, shared.

Parking space.

Parking study - alternative parking.

Patio.

Pawnshop.

Pedestrian connection.

Perennial.

Performance standards.

Performing arts production facility.

Person. See also section 21A.34.040 of this title.

Persons with disabilities.

Pet cemetery.

Philanthropic use.

Pitched roof.

Place of worship.

Planned development.

Planning commission.

Planning official.

Planting season.

Plaza.

Pole sign. See chapter 21A.46 of this title.

Political sign. See chapter 21A.46 of this title.

Portable sign. See chapter 21A.46 of this title.

Precision instrument repair shop.

Precision instrument runway. See section 21A.34.040 of this title.

Premises. See chapter 21A.46 of this title.

Prepared food, takeout.

Primary surface. See section 21A.34.040 of this title.

Printing plant.

Private recreational facility.

Projecting building sign. See chapter 21A.46 of this title.

Projecting business storefront sign. See chapter 21A.46 of this title.

Projecting parking entry sign. See chapter 21A.46 of this title.

Public/private utility buildings and structures.

Public safety sign. See chapter 21A.46 of this title.

Public transportation, employer sponsored.

Publishing company.

Quality of life.

Railroad freight terminal facility.

Real estate sign. See chapter 21A.46 of this title.

Rear yard. See Yard, rear.

Reception center.

Record of survey map.

Recreation vehicle park.

Recycling collection station.

Recycling container.

Recycling processing center.

Relocatable office building.

Resident healthcare facility.

Residential districts.

Residential structure.

Residential substance abuse treatment home, large.

Residential substance abuse treatment home, small.

Restaurant.

Retail goods establishment.

Retail services establishment.

Retaining wall.

Reverse vending machine.

Roof sign. See chapter 21A.46 of this title.

Rooming house.

Runway. See section 21A.34.040 of this title.

Sanatorium.

Schools, professional and vocational.

Schools, public or private.

Seasonal farm stand.

Seasonal item sales.

Setback. See Yard.

Sewage treatment plant.

Sexually oriented business.

Shopping center.

Shopping center identification sign. See chapter 21A.46 of this title.

Shopping center pad site.

Side yard. See Yard, side.

Sight distance triangle.

Sign. See chapter 21A.46 of this title.

Sign face. See chapter 21A.46 of this title.

Sign face area. See chapter 21A.46 of this title.

Sign graphics. See chapter 21A.46 of this title.

Sign maintenance. See chapter 21A.46 of this title.

Sign master plan agreement. See chapter 21A.46 of this title.

Sign structure or support. See chapter 21A.46 of this title.

Single-family dwelling. See Dwelling, single-family.

Site development permit.

Site plan.

Sketch plan review.

Sludge.

Snipe sign. See chapter 21A.46 of this title.

Snow cone and shaved ice hut.

Social club.

Social service mission.

Solar array.

Solar energy collection system, small.

Solid waste transfer station.

Sound attenuation. See section 21A.34.040 of this title.

Special event sign. See chapter 21A.46 of this title.

Special gateway. See subsection 21A.46.160B of this title.

Special purpose districts.

Spot zoning.

Stabilizing.

Stable.

Stable, private.

Stable, public.

Stadium. See chapter 21A.46 of this title.

Store, conventional department.

Store, fashion oriented department.

Store, mass merchandising.

Store, specialty.

Store, specialty fashion department.

Store, superstore and hypermarket.

Store, warehouse club.

Storefront. See chapter 21A.46 of this title.

Story (floor).

Story, half.

Street.

Street frontage.

Street trees.

Streetscape.

Structural alteration.

Structure. See also section 21A.34.040 of this title.

Structure, accessory. See Accessory building or structure.

Subdivision.

TV antenna. See Antenna, TV.

Tavern.

Temporary embellishment. See subsection 21A.46.160B of this title.

Temporary sign. See chapter 21A.46 of this title.

Temporary use.

Testing laboratory.

Transitional treatment home, large.

Transitional treatment home, small.

Transitional victim home, large.

Transitional victim home, small.

Tree. See section 21A.34.040 of this title.

Trellis.

Truck repair, large.

Truck stop.

Twirl time. See subsection 21A.46.160B of this title.

Two-family dwelling. See Dwelling, two-family.

Undevelopable area.

Unique residential population.

Unit.

Unit legalization, implied permit.

Unit legalization permit.

Unit legalization, substantial compliance with life and safety codes.

Upholstery shop.

Urban agriculture.

Urban farm.

Use, principal.

Use, unique nonresidential.

Used or occupied.

Utility runway. See section 21A.34.040 of this title.

Vacant lot.

Vanpool.

Vanpool, employer sponsored.

Variance.

Vegetation.

Vehicular sign. See chapter 21A.46 of this title.

Vending cart.

Vending machine sign. See chapter 21A.46 of this title.

Vertical clearance.

Veterinary office, large.

Veterinary office, small.

Visible. See chapter 21A.46 of this title.

Visual runway. See section 21A.34.040 of this title.

Wall sign. See chapter 21A.46 of this title.

Warehouse.

Water body/waterway.

Wholesale distributors.

Wind energy system, large.

Wind energy system, small.

Window sign. See chapter 21A.46 of this title.

Winery.

Yard.

Yard, corner side.

Yard, front.

Yard, interior side.

Yard, rear.

Yard, side. See Yard, interior side.

Zoning administrator.

Zoning districts.

Zoning lot. See Lot.

Zoning map. (Ord. 15-13, 2013: Ord. 82-12, 2012: Ord. 73-12, 2012: Ord. 65-12, 2012: Ord. 63-12, 2012: Ord. 62-12, 2012: Ord. 30-12, 2012: Ord. 24-12, 2012: Ord. 8-12, 2012: Ord. 61-11, 2011: Ord. 60-11, 2011: Ord. 55-11, 2011: Ord. 24-11, 2011: Ord. 21-11, 2011: Ord. 20-11, 2011: Ord. 19-11, 2011: Ord. 27-10, 2010: Ord. 19-10 § 1, 2010: Ord. 62-09 § 4, 2009: Ord. 7-09, 2009: Ord. 2-09, 2009: Ord. 61-08, 2008: Ord. 2-08, 2008: Ord. 68-06, 2006: Ord. 63-06, 2006: Ord. 20-06 § 1, 2006: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 89-05, 2005: Ord. 76-05, 2005: Ord. 15-05, 2005: Ord. 4-04 §§ 4, 5, 2004: Ord. 62-03, 2003: Ord. 61-03, 2003: Ord. 6-03 § 3, 2003: Ord. 50-02 § 2, 2002: Ord. 23-02 § 8, 2002: Ord. 5-02, 2002: Ord. 2-02, 2002: Ord. 84-01 §§ 1, 2, 2001: Ord. 64-01 § 3, 2001: Ord. 20-00 §§ 4, 5, 2000: Ord. 14-00 §§ 17, 18, 2000: Ord. 35-99 § 101, 1999: Ord. 30-98 § 7, 1998: Ord. 12-98 § 8, 1998: Ord. 8-97 § 3, 1997: amended during 5/96 supplement: Ord. 26-95 § 2(30-2), 1995)

CHAPTER 21A.62
DEFINITIONS

21A.62.010: DEFINITIONS GENERALLY:

For the purposes of this title, certain terms and words are defined and are used in this title in that defined context. Any words in this title not defined in this chapter shall be as defined in "Webster's Collegiate Dictionary". (Ord. 26-95 § 2(31-1), 1995)

21A.62.020: ADDITIONAL DEFINITIONS:

Additional definitions relating to specific portions of this title are found in chapters 21A.34 and 21A.46 of this title. (Ord. 26-95 § 2(31-2), 1995)

21A.62.030: RULES FOR GENERIC DEFINITIONS:

A. Purpose Of Generic Definitions: Certain terms in this chapter are defined to be inclusive of many uses in order to eliminate overly detailed listings of uses in the zoning districts established by this title. These terms are referred to in this title as "generic" definitions. Examples of generic definitions used in this title are "retail goods establishment", "commercial indoor recreation" and "light manufacturing".

B. Components Of Generic Definition: A generic definition has three (3) components: 1) a brief listing of examples of uses intended to be included within the scope of the definition; 2) an identification (where appropriate) of certain uses which are not meant to be included by the term; and 3) a statement that for the purposes of each zoning district, any other uses specifically listed within the particular zoning district shall not be construed as falling within the generic definition.

C. Uses Not Listed Or Not Within Scope Of Generic Definition: A use which is not specifically listed on the table of permitted and conditional uses for a zoning district, or which does not fall within a generic definition as defined in this chapter, or as interpreted by the zoning administrator pursuant to chapter 21A.12 of this title, is prohibited. (Ord. 26-95 § 2(31-3), 1995)

21A.62.040: DEFINITIONS OF TERMS:

For the purposes of this title, the following terms shall have the following meanings:

ABUTTING: Adjacent or contiguous including property separated by an alley, a private right of way or a utility strip.

ACCESS TAPER: The transitional portion of a drive access that connects a driveway to a parking pad located within a side yard.

ACCESSORY BUILDING OR STRUCTURE: A subordinate building or structure, located on the same lot with the main building, occupied by or devoted to an accessory use. When an accessory building or structure is attached to the main building in a substantial manner, as by a wall or roof, such accessory building shall be considered part of the main building.

ACCESSORY DWELLING UNIT: A residential unit that is located on the same lot as a single-family dwelling unit, either internal to or attached to the single-family unit or in a detached structure. The accessory dwelling unit shall be a complete housekeeping unit with a shared or separate entrance, and separate kitchen, sleeping area, closet space, and bathroom facilities.

ACCESSORY GUEST AND SERVANTS' QUARTERS: Accessory living quarters with or without kitchen facilities located on the same lot as the principal use and meeting all yard and bulk requirements of the applicable district.

ACCESSORY LOT: A lot adjoining a principal lot under a single ownership.

ACCESSORY STRUCTURE: See definition of Accessory Building Or Structure.

ACCESSORY USE: A use that:

A. Is subordinate in area, extent and purpose to, and serves a principal use;

B. Is customarily found as an incident to such principal use;

C. Contributes to the comfort, convenience or necessity of those occupying, working at or being serviced by such principal use;

D. Is, except as otherwise expressly authorized by the provisions of this title, located on the same zoning lot as such principal use; and

E. Is under the same ownership or control as the principal use.

ADAPTIVE REUSE OF A LANDMARK BUILDING: The process of reusing a building for a purpose other than which it was built or designed for. This tool is designed for the preservation of landmark buildings in residential areas whose original use is no longer feasible due to size. Churches, schools, or large single-family homes are typically candidates for this process.

ADMINISTRATIVE DECISION: Any order, requirement, decision, determination or interpretation made by the zoning administrator in the administration or the enforcement of this title.

AGRICULTURAL USE: The use of a tract of land for growing crops in the open, dairying, pasturage, horticulture, floriculture, general farming uses and necessary accessory uses, including the structures necessary for carrying out farming operations; provided, however, such agricultural use shall not include the following uses:

A. Commercial operations or accessory uses which involve retail sales to the general public unless the use is specifically permitted by this title; and

B. The feeding of garbage to animals, the raising of poultry or furbearing animals as a principal use, or the operation or maintenance of commercial stockyards, or feed yards, slaughterhouses or rendering facilities.

ALCOHOL, LIQUOR STORE: A facility for the sale of package liquor located on premises owned or leased by the state of Utah and operated by state employees. Referred to as a "state store" as defined in title 32B, Utah code, as amended.

ALCOHOL RELATED ESTABLISHMENT: Tavern, social club, dining club, brewpub, or microbrewery.

ALLEY: A public or private right of way that affords a service access to abutting property.

ALTERATION: As applied to a building or structure, means a change or rearrangement in the structural parts or in the exit facilities, or an enlargement, whether by extending on a side, by increasing in height, or the moving from one location or position to another.

ALTERNATIVE PARKING PROPERTY: The property for which an alternative parking requirement pursuant to section 21A.44.030 of this title is proposed.

AMUSEMENT PARK: A commercial facility or operation that primarily offers entertainment in the form of rides and games.

ANCILLARY MECHANICAL EQUIPMENT: Supplemental equipment, attached or detached, including, but not limited to, equipment for the provision of services for heat, ventilation, air conditioning, electricity, plumbing, telephone and television.

ANIMAL CREMATION SERVICE: A service dedicated to the disposition of dead animal remains by means of cremation that may also provide necessary goods and services for the memorialization of the animal if requested.

ANIMAL POUND: A public or licensed private facility to temporarily detain and/or dispose of stray dogs, cats and other animals.

ANTENNA: Any system of wires, poles, rods, reflecting disks, or similar devices used for the transmission or reception of electromagnetic waves external to or attached to the exterior of any building.

ANTENNA, LOW POWER RADIO SERVICE: "Low power radio service antenna" means a transmitting or receiving device used in telecommunications that radiates or captures radio signals.

ANTENNA, LOW POWER RADIO SERVICE - MONOPOLE WITH ANTENNAS AND ANTENNA SUPPORT STRUCTURES GREATER THAN TWO FEET IN WIDTH: "Low power radio service antenna - monopole with antennas and antenna support structures greater than two feet in width" means a self-supporting monopole tower on which antennas and antenna support structures exceeding two feet (2') in width are placed. The antenna and antenna support structures may not exceed thirteen feet (13') in width or eight feet (8') in height.

ANTENNA, LOW POWER RADIO SERVICE - MONOPOLE WITH ANTENNAS AND ANTENNA SUPPORT STRUCTURES LESS THAN TWO FEET IN WIDTH: "Low power radio service antenna - monopole with antennas and antenna support structures less than two feet in width" means a monopole with antennas and antenna support structures not exceeding two feet (2') in width. Antennas and antenna support structures may not exceed ten feet (10') in height.

ANTENNA, ROOF MOUNTED: "Roof mounted antenna" means an antenna or series of individual antennas mounted on a flat roof, mechanical room or penthouse of a building.

ANTENNA, SATELLITE DISH: "Satellite dish antenna" means a type of antenna capable of receiving, among other signals, television transmission signals, and which has a disk shaped receiving device, excluding wall mountable antennas with a surface size less than four hundred (400) square inches, projecting no more than two feet (2').

ANTENNA, STEALTH: An antenna completely disguised as another object, or otherwise concealed from view, thereby concealing the intended use and appearance of the facility. Examples of stealth facilities include, but are not limited to, flagpoles, light pole standards or architectural elements such as dormers, steeples and chimneys.

ANTENNA, TV: "TV antenna" means a type of antenna used to receive television transmission signals, but which is not a satellite dish antenna.

ANTENNA, WALL MOUNTED: "Wall mounted antenna" means an antenna or series of individual antennas mounted against the vertical wall of a building.

ANTENNA, WHIP: "Whip antenna" means an antenna that is cylindrical in shape. Whip antennas can be directional or omnidirectional and vary in size depending upon the frequency and gain for which they are designed.

APARTMENT: See definition of Dwelling, Multi-Family.

APPEALS HEARING OFFICER: The appeals hearing officer of Salt Lake City, Utah.

ARCADE: Range of arches supporting a roofed area along with a column structure, plain or decorated over a walkway adjacent to or abutting a row of retail stores on one side or both.

ARCHITECTURALLY INCOMPATIBLE: Buildings or structures which are incongruous with adjacent and nearby development due to dissimilarities in style, materials, proportions, size, shape and/or other architectural or site design features.

ART GALLERY: An establishment engaged in the sale, loan or display of paintings, sculpture or other works of art. The term "art gallery" does not include libraries or museums.

ART STUDIO: A building or portion of a building where an artist or photographer creates works of art.

ASSISTED LIVING FACILITY (LARGE): A facility licensed by the state of Utah that provides a combination of housing and personalized healthcare designed to respond to the individual needs of more than six (6) individuals who require help with the activities of daily living, such as meal preparation, personal grooming, housekeeping, medication, etc. Care is provided in a professionally managed group living environment in a way that promotes maximum independence and dignity for each resident.

ASSISTED LIVING FACILITY (SMALL): A facility licensed by the state of Utah that provides a combination of housing and personalized healthcare designed to respond to the individual needs of up to six (6) individuals who require help with the activities of daily living, such as meal preparation, personal grooming, housekeeping, medication, etc. Care is provided in a professionally managed group living environment in a way that promotes maximum independence and dignity for each resident.

AUDITORIUM: A multipurpose assembly facility that is designed to accommodate conventions, live performances, trade shows, sports events and other such events.

AUTOMATIC AMUSEMENT DEVICE: Any machine, apparatus or device which, upon the insertion of a coin, token or similar object, operates or may be operated as a game or contest of skill or amusement and for the play of which a fee is charged, or a device similar to any such machine, apparatus or device which has been manufactured, altered or modified so that operation is controlled without the insertion of a coin, token or similar object. The term does not include coin operated televisions, ride machines designed primarily for the amusement of children, or vending machines not incorporating features of gambling or skill.

AUTOMOBILE: Any vehicle propelled by its own motor and operating on ordinary roads. As used herein, the term includes passenger cars, light trucks (1 ton or less), motorcycles, recreation vehicles and the like.

AUTOMOBILE REPAIR, MAJOR: "Major automobile repair" means any use principally engaged in repairing of automobiles, including any activities excluded in the definition of Automobile Repair, Minor.

AUTOMOBILE REPAIR, MINOR: "Minor automobile repair" means a use engaged in the repair of automobiles involving the use of three (3) or fewer mechanics' service bays, where all repairs are performed within an enclosed building, and where not more than ten (10) automobiles, plus one automobile per employee, are parked on site at any one time including, but not limited to, those permitted as gas stations. Auto body repairs and drive train repair are excluded from this definition.

AUTOMOBILE SALVAGE AND RECYCLING: The dismantling of automobiles, including the collection and storage of parts for resale, and/or the storage of inoperative automobiles for future salvage or sale. Such activities may be conducted outdoors or within fully enclosed buildings.

BAKERY, COMMERCIAL: "Commercial bakery" means a use involving the baking of food products for sale principally to the wholesale trade, not directly to the consumer.

BASE ZONING DISTRICT: A zoning district that reflects the four (4) basic geographically based land use categories in the city - residential areas, commercial areas, manufacturing areas and the downtown - with appropriate regulations and development standards to govern the uses in these districts.

BASEMENT: A story wherein each exterior wall is fifty percent (50%) or more below grade. For purposes of establishing building height, a basement shall not count toward the maximum number of stories allowed. The exposed portion of the basement wall shall not exceed five feet (5').

BED AND BREAKFAST: A building constructed originally as a single-family dwelling that is occupied by the property owner who offers lodging in up to seven (7) rooms on a nightly or weekly basis to paying guests. A bed and breakfast may provide breakfast to overnight guests only and shall not provide other meals.

BED AND BREAKFAST INN: A building that is designed to accommodate up to eighteen (18) rooms for lodging on a nightly or weekly basis to paying guests. A bed and breakfast inn may provide breakfast from internal kitchen facilities to overnight guests and their guests only other than meals that are occasionally catered from off site establishments. The owner of the bed and breakfast inn may prepare meals on site or receive catered meals for private use.

BED AND BREAKFAST MANOR: A building designed to accommodate up to thirty (30) rooms for lodging on a nightly or weekly basis to paying guests. A bed and breakfast manor may provide breakfast from internal kitchen facilities to overnight guests and their guests only other than meals that are occasionally catered from off site establishments. The owner of the bed and breakfast manor may prepare meals on site or receive catered meals for private use. Restaurants operating in conjunction with a bed and breakfast manor must be approved under a separate restaurant license.

BLOCK: An area or bounded by a public alley or street on all sides.

BLOCK CORNER: The ninety degree (90°) intersection of private property adjacent to the intersection of two (2) public street rights of way both of which are at least one hundred thirty two feet (132') wide. When applied to corner buildings, the provisions of this definition shall extend to one hundred sixty five feet (165') from the block corner on the street face and one hundred sixty five feet (165') in depth.

BLOCK FACE: All of the lots facing one side of a street between two (2) intersecting streets. Corner properties shall be considered part of two (2) block faces, one for each of the two (2) intersecting streets. In no case shall a block face exceed one thousand feet (1,000').

BOARDING HOUSE: A building other than a hotel or motel, with three (3) or more bedrooms where direct or indirect compensation for lodging and/or kitchen facilities, not occupied in guestrooms, or meals are provided for boarders and/or roomers not related to the head of the household by marriage, adoption, or blood. Rentals must be on at least a monthly basis.

BREWERY: A business establishment that manufactures beer, heavy beer, or malt liquor for off premises consumption, not to include those alcoholic beverages produced in a distillery or winery.

BREWPUB: A restaurant type establishment that also has a beer brewery, producing beer in batch sizes not less than seven (7) U.S. barrels (31 gallons), on the same property which produces only enough beer for sale and consumption on site or for retail carryout sale in containers holding less than two liters (2 l) or for wholesale as outlined in subsections D and E of this definition. Automated bottle or canning production is prohibited. At least fifty percent (50%) of the beer sold shall be brewed on the premises. Revenue from food sales shall constitute at least fifty percent (50%) of the total business revenues, excluding retail carryout sales of beer. Brewpubs are limited to a total brewing capacity of two thousand five hundred (2,500) barrels per year or one hundred twenty (120) barrels of fermentation at any one time, whichever is less. Brewpubs may sell beer in keg (larger than 2 liters) containers for the following purposes and in the following amounts:

A. An unlimited number of kegs (not to exceed 2,500 barrel capacity) for "brew fests" which, for the purpose of this definition, means events, the primary purpose of which is the exposition of beers brewed by brewpubs and microbreweries, which include the participation of at least three (3) such brewers;

B. No more than one hundred (100) kegs per year (not to exceed 2,500 barrel capacity) to events sponsored by charitable organizations exempt from federal income tax pursuant to 26 USC, section 501(c)(3) or its successor; and

C. No more than one hundred (100) kegs per year (not to exceed 2,500 barrel capacity) to events operating under a single event license from the state and the city where the purpose of the event is not for commercial profit and where the beer is not wholesaled to the event sponsor but is, instead, dispensed by employees of the brewpub;

D. Unlimited distribution to other restaurants of same ownership or control (not to exceed 2,500 barrel capacity). "Ownership or control" means more than fifty percent (50%) ownership in the actual business or controlling interest in any management partnership; and

E. No more than five hundred (500) barrels for wholesale distribution (not to exceed 2,500 barrel capacity).

BUFFER YARD: See definition of Landscape Buffer.

BUILDABLE AREA: The portion of the lot remaining after required yards have been provided and after the limitations of any pertinent environmental regulations have been applied. Buildings may be placed in any part of the buildable area, but if there are limitations on percent of the lot which may be covered by buildings, some open space may be required within the buildable area.

BUILDING: A structure with a roof, intended for shelter or enclosure.

BUILDING, ACCESSORY: See definition of Accessory Building Or Structure.

BUILDING CONNECTION: Two (2) or more buildings which are connected in a substantial manner or by common interior space including internal pedestrian circulation. Where two (2) buildings are attached in this manner, they shall be considered a single building and shall be subject to all yard requirements of a single building. Determination of building connection shall be through the site plan review process.

BUILDING COVERAGE: That percentage of the lot covered by principal or accessory buildings.

BUILDING, FRONT LINE OF: "Front line of building" means the line of that face of the building nearest the front or corner side lot line of the lot. This face includes sun parlors, bay windows, and covered and/or uncovered porches, whether enclosed or unenclosed, but does not include uncovered steps less than four feet (4') above grade.

BUILDING LINE: A line dividing a required yard from other portions of a lot.

BUILDING MATERIAL DISTRIBUTOR: A type of wholesale distributor supplying the building materials industry, but excluding retail outlets conducted in a warehouse format.

BUILDING OFFICIAL: The building official of the department of community and economic development.

BUILDING, PRINCIPAL: "Principal building" means a building that is used primarily for the conduct of the principal use.

BUILDING, PUBLIC: "Public building" means a building owned and operated, or owned and intended to be operated by a public agency of the United States Of America or the state of Utah, or any of its subdivisions.

BULK: The size and setbacks of the buildings or structures and the location of same with respect to one another, and including: a) height and area of buildings; b) location of exterior walls in relation to lot lines, streets or other buildings; c) all open spaces allocated to buildings; d) amount of lot area required for each dwelling unit; and e) lot coverage.

BUSINESS: Any occupation, employment or enterprise which occupies time, attention, labor and/or materials for compensation whether or not merchandise is exhibited or sold, or services are offered.

BUSINESS, MOBILE: "Mobile business" means a business that conducts all or part of its operations on premises other than its own. The term "mobile business" shall not include any business involved in construction, home or building improvement, landscape construction, surveying or medical related activities, including veterinary services. The simple delivery of goods shall not constitute a mobile business.

BUSINESS PARK: A business district planned and developed as an optimal environment for business occupants while maintaining compatibility with the surrounding community.

CAR POOL: A mode of transportation where two (2) or more persons share a car ride to or from work.

CARPORT: A garage not completely enclosed by walls or doors. For the purpose of this title, a carport shall be subject to all of the regulations prescribed for a garage.

CEMETERY: Land used or intended to be used for the burial of the dead and dedicated for cemetery purposes, including columbariums, crematories, mausoleums, and mortuaries when operated in conjunction with and within the boundaries of such cemetery.

CERTIFICATE OF APPROPRIATENESS: A certification by the historic landmark commission stating that proposed work on historic property is compatible with the historic character of the property and of the historic preservation overlay district in which it is located.

CERTIFICATE OF OCCUPANCY: An official authorization to occupy a structure as issued by the building official.

CERTIFICATE, ZONING: "Zoning certificate" means a written certification that a structure, use or parcel of land is, or will be, in compliance with the requirements of this title.

CHANGE OF USE: The replacement of an existing use by a new use, or a change in the nature of an existing use which does not increase the size, occupancy, or site requirements. A change of ownership, tenancy, name or management, or a change in product or service within the same use classification where the previous nature of the use, line of business, or other function is substantially unchanged is not a change of use. The conversion of existing residential units to condominiums is not a change of use. (See also definition of Land Use Type (Similar Land Use Type).)

CHARACTER CONSERVATION DISTRICT FEASIBILITY STUDY: A study conducted by the proposed district area or their authorized agent to determine whether or not a particular area of the city is eligible for character conservation district classification. The study is typically a summary report or white paper developed for the proposed character conservation district and there is no specific format.

CHARACTER DEFINING FEATURES: May include, but are not limited to, architecture or architectural features, mass and scale of buildings, streetscape, building orientation, landscaping or other items that contribute to the overall character of the area.

CHARITY DINING HALL: A sit down dining facility operated by a nonprofit organization to feed, without charge, the needy and the homeless.

CHECK CASHING/PAYDAY LOAN BUSINESS: A business that conducts transactions of cashing a check for consideration or extending a deferred deposit loan and shall include any other similar types of businesses licensed by the state pursuant to the check cashing registration act. The term check cashing shall not include fully automated stand alone services located inside of an existing building, so long as the automated service incorporates no signage in the windows or outside of the building.

CHEMICAL MANUFACTURING: A use engaged in making chemical products from raw or partially finished materials, but excluding chemical wholesale distributors.

CITY COUNCIL: The city council of Salt Lake City, Utah.

COLD FRAME: An unheated outdoor accessory structure typically consisting of, but not limited to, a wooden or concrete frame and a top of glass or clear plastic, used for protecting seedlings and plants from the cold.

COLLEGE OR UNIVERSITY: An institution accredited by the state providing full time or part time education beyond the high school level for a BA, BS or associate degree, including any lodging rooms or housing for students or faculty. (See also definitions of Schools.)

COMMERCIAL DISTRICTS: Those districts listed in subsection 21A.22.010B of this title.

COMMERCIAL INDOOR RECREATION: Public or private recreation facilities, tennis or other racquet courts, swimming pools, bowling alleys, skating rinks, or similar uses which are enclosed in buildings and are operated on a commercial or membership basis primarily for the use of persons who do not reside on the same lot as that on which the recreational use is located. The term "commercial indoor recreation" shall include any accessory uses, such as snack bars, pro shops, and locker rooms, which are designed and intended primarily for the use of patrons of the principal recreational use. The term "commercial indoor recreation" shall not include theaters, cultural facilities, commercial recreation centers, massage parlors, or any use which is otherwise listed specifically in the table of permitted and conditional uses found at the end of each chapter in part III of this title for each category of zoning district or districts.

COMMERCIAL LAUNDRY: An establishment primarily engaged in the provision of laundering, dry cleaning, or dyeing services other than retail services establishments. Typical uses include bulk laundry and cleaning plants, diaper services, and linen supply services.

COMMERCIAL OUTDOOR RECREATION: Public or private golf courses, golf driving ranges, swimming pools, tennis courts, ball fields, ball courts, fishing piers, skateboarding courses, water slides, mechanical rides, go-cart or motorcycle courses, raceways, drag strips, stadiums, marinas, overnight camping, or gun firing ranges, which are not enclosed in buildings and are operated on a commercial or membership basis primarily for the use of persons who do not reside on the same lot as that on which the recreational use is located. The term "commercial outdoor recreation" shall include any accessory uses, such as snack bars, pro shops, and clubhouses which are designed and intended primarily for the use of patrons of the principal recreational use.

COMMERCIAL SERVICE ESTABLISHMENT: A building, property, or activity, of which the principal use or purpose is the provision of services for the installation and repair, on or off site, of equipment and facilities that support principal and accessory uses to commercial and consumer users. Commercial services establishment shall not include any use or other type of establishment which is otherwise listed specifically in the table of permitted and conditional uses found at the end of each chapter of part III of this title for each category of zoning district or districts.

COMMERCIAL VEHICLE: A vehicle which exceeds one ton capacity and taxis. This shall include, but not be limited to, the following: buses, dump trucks, limousines, roll back tow trucks, stake body trucks, step vans, taxis, tow trucks and tractor trailers.

COMMERCIAL VIDEO ARCADE: A principal use that contains ten (10) or more automatic amusement devices.

COMMON AREAS, SPACE AND FACILITIES: The property and improvements of the condominium project, or portions thereof, conforming to the definition set forth in section 57-8-3, Utah Code Annotated, 1953, as amended, or its successor. (See chapter 21A.56 of this title.)

COMMUNICATION TOWER: A tower structure used for transmitting a broadcast signal or for receiving a broadcast signal (or other signal) for retransmission. A communication tower does not include "ham" radio transmission antenna.

COMMUNITY CORRECTIONAL FACILITY: An institutional facility licensed by or contracted by the state of Utah to provide temporary occupancy for previously incarcerated persons or parole violators, which assists such persons in making a transition from a correctional institution environment to independent living. Such facility may also provide ancillary, temporary occupancy for individuals placed as part of, or in lieu of, confinement, rehabilitation, or treatment in a correctional institution. A community correctional facility may include a halfway house, work release center or any other domiciliary facility for persons released from any penal or correctional facility but still in the custody of the city, county or public agency and youth care centers or other facilities authorized to accept youth offenders. A community correctional facility includes a facility for the judicially required detention or incarceration of people who are under twenty four (24) hour supervision by sworn officers except when on an approved leave, confinement of offenders where force may be used to restrain them if they attempt to leave the institution without authorization, twenty four (24) hour supervision and confinement for youth offenders committed to the division for custody and rehabilitation, or services for parole violating offenders and/or noncompliant probationers.

COMMUNITY GARDEN: An area of land managed and maintained by an identifiable group of community members used to grow and harvest food crops and/or nonfood, ornamental crops such as flowers, for personal or group use, consumption, donation, or sale, or for educational purposes. Generally operated as not for profit, limited sales and events may also occur on the site to fund the gardening activities and other charitable purposes. Private use of private land (not intended to benefit the community at large) and horticultural activities by the city on city owned land do not constitute community garden use.

COMMUNITY RECREATION CENTER: A place, structure, area, or other facility used for and providing social or recreational programs generally open to the public and designed to accommodate and serve segments of the community.

COMPATIBILITY: Capability of existing together in harmony.

COMPATIBLE DESIGN: The visual relationship between adjacent and nearby buildings and the immediate streetscape, in terms of a consistency of materials, colors, building elements, building mass, and other constructed elements of the urban environment, is such that abrupt or severe differences are avoided.

COMPATIBLE LAND USE: A use of land and/or building(s) that, in terms of development intensity, building coverage, design, bulk and occupancy, traffic generation, parking requirements, access and circulation, site improvements, and public facilities and service demands, is consistent with and similar to neighboring uses and does not adversely affect the quality of life of persons in surrounding or nearby buildings.

COMPLETE DEMOLITION: Any act or process that destroys or removes seventy five percent (75%) or more of the exterior walls and/or total floor area of a structure, improvement or object.

COMPOSTING: A method of solid waste management whereby the organic component of the waste stream is biologically decomposed under controlled conditions to a state in which the end product or compost can be safely handled, stored or applied to the land without adversely affecting human health or the environment.

CONCEPT DEVELOPMENT PLAN: A conceptual plan submitted for review and comment in order to obtain guidance from the city regarding how city requirements would apply to a proposed planned development.

CONCRETE MANUFACTURING: A use engaged in making and delivering "ready mix" type concrete from batch plant operations. This use excludes cement manufacturing, such as portland cement, which is an ingredient in concrete manufacturing.

CONDITIONAL BUILDING AND SITE DESIGN REVIEW: A design that is allowed only after review and approval by the planning commission which includes a comprehensive evaluation of a development and its impact on neighboring properties and the community as a whole, from the standpoint of site and landscape design, height, setbacks, front facade glass, architecture, materials, colors, lighting and signs in accordance with a set of adopted criteria and standards.

CONDITIONAL USE: A land use that because of its unique characteristics or potential impact on the municipality, surrounding neighbors or adjacent land uses may not be compatible in some area or may be compatible only if certain conditions are required that mitigate or eliminate the detrimental impacts.

CONDOMINIUM - CONDOMINIUM PROJECT AND CONDOMINIUM UNIT: Property or portions thereof conforming to the definitions set forth in section 57-8-3, Utah Code Annotated, 1953, as amended, or its successor. (See chapter 21A.56 of this title.)

CONDOMINIUM OWNERSHIP ACT OF 1975 OR ACT: The provisions of chapter 8 of title 57 of Utah Code Annotated, as amended in 1975. (See chapter 21A.56 of this title.)

CONDOMINIUM UNIT: See definition of Condominium - Condominium Project And Condominium Unit.

CONSENSUS: General agreement characterized by the absence of sustained and substantial opposition to issues by the concerned interests and by a process that involves seeking to take into account the views of all parties concerned and to reconcile any conflicting arguments. Consensus does not imply unanimity.

CONSTRUCTION PERIOD: The time period between when the building permit is obtained and the certificate of occupancy is issued.

CONTRACTOR'S YARD/OFFICE: A use that provides construction businesses with a base of operations that can include office space and indoor/outdoor storage of construction equipment or materials used by the construction business. This use excludes salvage or recycling operations.

CONVERSION: A proposed change in the type of ownership of a parcel or parcels of land, together with the existing attached structures, from single ownership of said parcel, such as an apartment house or multi-family dwelling, into that defined as a condominium project or other ownership arrangement involving separate ownership of individual units combined with joint collective ownership of common areas, facilities or elements. (See chapter 21A.56 of this title.)

CORNER BUILDING: A building, the structure of which rises above the ground within one hundred feet (100') of a block corner on the street face and one hundred feet (100') in depth.

CORNER LOT: See definition of Lot, Corner.

CORNER SIDE YARD: See definition of Yard, Corner Side.

CREMATORIUM: A. As applied to funeral homes or mortuaries: A dedicated area within a licensed funeral home or mortuary building, or an accessory building of a licensed funeral home or mortuary, wherein human remains are cremated in a cremation retort.

B. As applied to pets: A dedicated area within a building approved for animal cremation service or an accessory building of an approved animal cremation service use wherein dead animals are cremated in a cremation retort.

DANCE STUDIO: A use engaged in the instruction of dance.

DAYCARE: Persons, associations, corporations, institutions or agencies providing on a regular basis care and supervision (regardless of educational emphasis) to children under fourteen (14) years of age, in lieu of care and supervision ordinarily provided by parents in their own homes, with or without charge, are engaged in providing child "daycare" for purposes of this title. Such providers and their facilities shall be classified as defined herein and shall be subject to the applicable provisions of title 5, title 9, chapters 9.08 through 9.20, 9.28 through 9.40, and title 14, chapter 14.36 of this code, this title, and applicable state law.

DAYCARE CENTER, ADULT: "Adult daycare center" means a nonmedical facility for the daytime care of adults who, due to advanced age, handicap or impairment, require assistance and/or supervision during the day by staff.

DAYCARE CENTER, CHILD: "Child daycare center" means an establishment providing care and maintenance to seven (7) or more children at any one time of any age separated from their parents or guardians.

DAYCARE, NONREGISTERED HOME: "Nonregistered home daycare" means a person who uses his/her principal place of residence to provide daycare for no more than two (2) children.

DAYCARE, REGISTERED HOME DAYCARE OR PRESCHOOL: "Registered home daycare or preschool daycare" means the use of a principal place of residence to provide educational or daycare opportunities for children under age seven (7) in small groups. The group size at any given time shall not exceed eight (8), including the provider's own children under age seven (7).

DECIBEL: A logarithmic and dimensionless unit of measure of ten (10) used to describe the amplitude of sound. Decibel is denoted as "dB".

DEVELOPMENT: The carrying out of any building activity, the making of any material change in the use or appearance of any structure or land, or the dividing of land into parcels by any person. The following activities or uses shall be taken for the purposes of these regulations to involve "development":

A. The construction of any principal building or structure;

B. Increase in the intensity of use of land, such as an increase in the number of dwelling units or an increase in nonresidential use intensity that requires additional parking;

C. Alteration of a shore or bank of a pond, river, stream, lake or other waterway;

D. Commencement of drilling (except to obtain soil samples), the driving of piles, or excavation on a parcel of land;

E. Demolition of a structure;

F. Clearing of land as an adjunct of construction, including clearing or removal of vegetation and including any significant disturbance of vegetation or soil manipulation; and

G. Deposit of refuse, solid or liquid waste, or fill on a parcel of land.

The following operations or uses shall not be taken for the purpose of these regulations to involve "development":

A. Work by a highway or road agency or railroad company for the maintenance of a road or railroad track, if the work is carried out on land within the boundaries of the right of way;

B. Utility installations as stated in subsection 21A.02.050B of this title;

C. Landscaping for residential uses; and

D. Work involving the maintenance of existing landscaped areas and existing rights of way such as setbacks and other planting areas.

DEVELOPMENT PATTERN: The development pattern standard applies to principal building height and wall height, attached garage placement and width, detached garage placement, height, wall height, and footprint size. A development pattern shall be established when three (3) or more existing structures are identified to establish the pattern, or in the case that three (3) structures constitutes more than fifty percent (50%) of the structures on the block face fifty percent (50%) of the structures shall establish a pattern.

DINING CLUB: A business establishment as defined in title 32B, Utah Code, as amended.

DISABLED: See definition of Persons With Disabilities.

DISTILLERY: A business establishment that manufactures distilled, spirituous beverages for off premises consumption, not to include those alcoholic beverages produced in a brewery or winery.

DISTRICT PLAN AND DESIGN STANDARDS: Proposed design standards and provides for review of site plans in character conservation districts, to ensure that the character and distinctive features of these districts are maintained and reinforced by new construction.

DORMER: An extension built out from a sloping roof to accommodate a vertical window. A dormer has a small gabled or shed roof, and is secondary to the primary roof. A dormer is contained entirely within the primary roof structure.

DRIVE-THROUGH WINDOW: A facility which accommodates patrons' automobiles and from which the occupants of the automobiles may make purchases or transact business.

DWELLING: A building or portion thereof, which is designated for residential purposes of a family for occupancy on a monthly basis and which is a self-contained unit with kitchen and bathroom facilities. The term "dwelling" excludes living space within hotels, bed and breakfast establishments, apartment hotels, boarding houses and lodging houses.

DWELLING, MANUFACTURED HOME: "Manufactured home dwelling" means a dwelling transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation. A manufactured home dwelling shall be connected to all utilities required for permanent dwellings and shall be certified under the national manufactured housing construction and safety standards act of 1974. A manufactured home dwelling is a type of manufactured home that is considered a single-family dwelling for the purposes of this title. (See definition of Mobile Home.) A modular home is a type of manufactured home that is a dwelling transported in one or more sections that is fixed to a permanent site built foundation and connected to all utilities required for a permanent dwelling. The dwelling shall have a minimum roof pitch of three to twelve (3:12) and the nongable roof ends shall have a minimum overhang of twelve inches (12"). The dwelling shall also meet all uniform building code regulations and have a minimum width of twenty feet (20'). A "modular home dwelling" is a type of manufactured home that is considered a single-family dwelling for the purposes of this title.

DWELLING, MODULAR HOME: See definition of Dwelling, Manufactured Home.

DWELLING, MULTI-FAMILY: "Multi-family dwelling" means a building containing three (3) or more dwellings on a single lot. For purposes of determining whether a lot is a multiple-family dwelling use, the following considerations shall apply:

A. Multiple-family dwelling uses may involve dwelling units intended to be rented and maintained under central ownership or management, or cooperative apartments, condominiums and the like.

B. Any multiple-family dwelling in which dwelling units are available for rental or lease for periods of less than one month shall be considered a hotel/motel.

DWELLING, SINGLE-FAMILY: "Single-family dwelling" means a detached building containing only one dwelling unit surrounded by yards that is built on site or is a modular home dwelling that resembles site built dwellings. Mobile homes, travel trailers, housing mounted on self-propelled or drawn vehicles, tents, or other forms of temporary housing or portable housing are not included in this definition. All living areas of a single-family dwelling shall be accessible and occupied by the entire family.

DWELLING, SINGLE-FAMILY ATTACHED: "Single-family attached dwelling" means a dwelling unit that is attached via a common party side wall to at least one other such dwelling and where at least three (3) such dwellings are connected together.

DWELLING, SINGLE ROOM OCCUPANCY: "Single room occupancy dwelling" means a residential dwelling facility containing individual, self-contained, dwelling units none of which may exceed five hundred (500) square feet in size.

DWELLING, TWIN HOME: "Twin home dwelling" means a building containing one dwelling separated from one other dwelling by a vertical party wall. Such a dwelling shall be located on its own individual lot.

DWELLING, TWO-FAMILY: "Two-family dwelling" means a detached building containing two (2) dwelling units on a single lot.

DWELLING UNIT: See definition of Dwelling.

ELECTRIC GENERATION FACILITY, PUBLIC/PRIVATE: "Public/private electric generation facility" means an electric generating facility that uses natural gas, coal, solar energy, steam, wind or other means to produce electricity for exclusive delivery to the local or regional high voltage electric transmission grid.

ELECTRONIC REPAIR SHOP: A use engaged in the consumer repair services of household electronic items and appliances.

ELEEMOSYNARY FACILITY: A facility operated by a nonprofit charitable organization or government entity to provide temporary housing and assistance to individuals who suffer from and are being treated for trauma, injury or disease and/or their family members. Eleemosynary facilities are traditionally not funded wholly by government but are usually supported by philanthropic, corporate and private funding. The term "eleemosynary facilities" shall not include places of worship, social and community services organizations, homeless shelters, community dining halls, group homes, transitional treatment homes, transitional victim homes, residential substance abuse treatment homes and other similar nonprofit organizations.

ELEVATION AREA: The area or portion thereof (in square feet) of an architectural elevation of one side of a building.

ELEVATION AREA, FIRST FLOOR: "First floor elevation area" means the elevation area or portion thereof (in square feet) of the first or ground floor (story) of one side of a building.

EMERGENCY MEDICAL SERVICE FACILITY: A facility or licensed healthcare provider providing emergency medical or dental or similar examination, diagnosis, treatment and care on an outpatient basis only. An emergency medical service facility shall not provide twenty four (24) hour service unless it meets all zoning requirements applicable to hospitals.

EQUIPMENT RENTAL: A type of use involving the rental of equipment, excluding heavy construction vehicles and equipment, in which all operations are contained within fully enclosed buildings.

EQUIPMENT RENTAL, HEAVY: "Heavy equipment rental" means a type of use involving the rental of equipment, including heavy construction vehicles and equipment, in which all operations are not contained within fully enclosed buildings.

EVERGREEN: A plant having foliage that remains on the plant throughout the year.

EXCESS DWELLING UNIT: A dwelling unit which is not permitted by zoning regulations applicable to the property where the unit is located and which is not a legal nonconforming use recognized by the city.

EXISTING/ESTABLISHED SUBDIVISION: Any subdivision for which a plat has been approved by the city and recorded prior to the effective date hereof.

EXPLOSIVE MANUFACTURING: A use engaged in making explosive devices, but excluding explosive materials wholesale distributors.

EXTRACTIVE INDUSTRY: An establishment engaged in the on site extraction of surface or subsurface mineral products or natural resources. Typical extractive industries are quarries, barrow pits, sand and gravel operations, oil and gas extraction, and mining operations.

FAMILY: A. One or more persons related by blood, marriage, adoption, or legal guardianship, including foster children, living together as a single housekeeping unit in a dwelling unit; or

B. A group of not more than three (3) persons not related by blood, marriage, adoption, or legal guardianship living together as a single housekeeping unit in a dwelling unit; or

C. Two (2) unrelated persons and their children living together as a single housekeeping unit in a dwelling unit.

The term "family" shall not be construed to mean a club, group home, transitional victim home, substance abuse home, transitional home, a lodge or a fraternity/sorority house.

FARMERS' MARKET: An establishment for the sale of fresh produce and related food items, which may have outdoor storage and sales. A farmers' market may provide space for one or more vendors.

FEE SCHEDULE: The Salt Lake City consolidated fee schedule which, among other things, shows the fees required in connection with applications for a zoning amendment, a special exception, a conditional use, a zoning certificate, a certificate of occupancy, sign certificate, or any other type of approval required by the provisions of this title. The fee schedule is available from the zoning administrator.

FENCE: A structure erected to provide privacy or security which defines a private space and may enhance the design of individual sites. A wall or similar barrier shall be deemed a fence.

FENCE, ELECTRIC SECURITY: "Electric security fence" means a fence designed to protect a property or properties from intrusion by means of conducting an electric current along one or more wires thereof so that a person or animal touching any such wire or wires will receive an electric shock.

FENCE, OPAQUE OR SOLID: An artificially constructed solid or opaque barrier that blocks the transmission of at least ninety five percent (95%) of light and visibility through the fence, and is erected to screen areas from public streets and abutting properties.

FENCE, OPEN: An artificially constructed barrier that blocks the transmission of a maximum of fifty percent (50%) of light and visibility through the fence, and is erected to separate private property from public rights of way and abutting properties.

FINANCIAL INSTITUTION: A building, property or activity, the principal use or purpose of which is the provision of financial services, including, but not limited to, banks, facilities for automated teller machines (ATMs), credit unions, savings and loan institutions, stock brokerages and mortgage companies. "Financial institution" shall not include any use or other type of institution which is otherwise listed in the table of permitted and conditional uses for each category of zoning district or districts under this title.

FIXED DIMENSIONAL STANDARDS: Numerical maximum or minimum conditions which govern the development on a site.

FLAG LOT: A lot of irregular configuration in which an access strip (a strip of land of a width less than the required lot width) connects the main body of the lot to the street frontage. (See illustration in section 21A.62.050 of this chapter.)

FLAMMABLE LIQUIDS OR GASES, HEATING FUEL DISTRIBUTION: A type of wholesale distributor engaged in supplying flammable liquids, gases and/or heating fuel. This use does not include the accessory storage of such substances on site.

FLEA MARKET (INDOOR): "Indoor flea market" means a building devoted to the indoor sales of new and used merchandise by independent vendors with individual stalls, tables, or other spaces.

FLEA MARKET (OUTDOOR): "Outdoor flea market" means an outdoor area devoted to the periodic outdoor sales of new and used merchandise by independent vendors with individual stalls, tables, or other spaces.

FLOOR: See definition of Story (Floor).

FLOOR AREA, GROSS: "Gross floor area" (for determining size of establishment) means the sum of the gross horizontal area of all floors of the building measured from the exterior face of the exterior walls or from the centerline of walls separating two (2) buildings. The floor area of a building shall include basement floor area, penthouses, attic space having headroom of seven feet (7') or more, interior balconies and mezzanines, enclosed porches, and floor area devoted to accessory uses. Space devoted to open air off street parking or loading shall not be included in floor area.

The floor area of structures devoted to bulk storage of materials including, but not limited to, grain elevators and petroleum storage tanks, shall be determined on the basis of height in feet (i.e., 10 feet in height shall equal 1 floor).

FLOOR AREA, USABLE: "Usable floor area" (for determining off street parking and loading requirements) means the sum of the gross horizontal areas of all floors of the building, as measured from the outside of the exterior walls, devoted to the principal use, including accessory storage areas located within selling or working space such as counters, racks, or closets, and any floor area devoted to retailing activities, to the production or processing of goods or to business or professional offices. Floor area for the purposes of measurement for off street parking spaces shall not include:

A. Floor area devoted primarily to mechanical equipment or unfinished storage areas;

B. Floor area devoted to off street parking or loading facilities, including aisles, ramps, and maneuvering space.

FRATERNITY/SORORITY HOUSE: A building which is occupied only by a group of university or college students who receive lodging and/or meals on the premises in exchange for compensation, and are associated together in a fraternity/sorority that is officially recognized by the university or college and that has a national affiliation.

FRONT YARD: See definition of Yard, Front.

FUEL CENTER: A subordinate building site located on the same site as a principal building/use for the sale and dispensing of motor fuels or other petroleum products and the sale of convenience retail.

FUNERAL HOME OR MORTUARY: An establishment where the activities necessary for the care and custody of the dead, including: refrigeration, embalming; cremation; other necessary care; viewings; wakes; funerals; and other rites and ceremonies consistent with the proper final disposition of the dead, are conducted.

GARAGE: A building, or portion thereof, used to store or keep a motor vehicle.

GARAGE, ATTACHED: "Attached garage" means an accessory building which has a roof or wall of which fifty percent (50%) or more is attached and in common with a dwelling. Where the accessory building is attached to a dwelling in this manner, it shall be considered part of the dwelling and shall be subject to all yard requirements of the main building.

GAS STATION: A principal building site and structures for the sale and dispensing of motor fuels or other petroleum products and the sale of convenience retail. A gas station may include minor auto repair and car wash facilities when such uses are listed as a permitted or conditional use.

GENERAL PLAN: The comprehensive plan for Salt Lake City adopted by the city council.

GOVERNMENT USES: State or federal government operations providing services from specialized facilities, such as the highway department maintenance/construction, state police and federal bureau of investigation, etc. State or federal operations providing services from nonspecialized facilities shall be considered office uses.

GRADE, ESTABLISHED: The grade of a property prior to the most recent proposed development or construction activity. On developed lots, the zoning administrator shall estimate established grade if not readily apparent, by referencing elevations at points where the developed area appears to meet the undeveloped portions of the land. The estimated grade shall tie into the elevation and slopes of adjoining properties without creating a need for new retaining wall, abrupt differences in the visual slope and elevation of the land, or redirecting the flow of runoff water.

GRADE, FINISHED: "Finished grade" means the final grade of a site after reconfiguring grades according to an approved site plan related to the most recent building permit activity on a site.

GRADE, NATURAL: The elevation of the surface of the ground which has been created through the action of natural forces and has not resulted from manmade cuts, fills, excavation grading or similar earthmoving processes.

GREENHOUSE: A temporary or permanent accessory structure typically made of, but not limited to, glass, plastic, or fiberglass in which plants are cultivated.

GROSS FLOOR AREA: See definition of Floor Area, Gross.

GROUND COVER: Any perennial evergreen plant material species that generally does not exceed twelve inches (12") in height and covers one hundred percent (100%) of the ground all year.

GROUP HOME, LARGE: "Large group home" means a residential facility set up as a single housekeeping unit and shared by seven (7) or more unrelated persons, exclusive of staff, who require assistance and supervision. A large group home is licensed by the state of Utah and provides counseling, therapy and specialized treatment, along with habilitation or rehabilitation services for physically or mentally disabled persons. A large group home shall not include persons who are diagnosed with a substance abuse problem or who are staying in the home as a result of criminal offenses.

GROUP HOME, SMALL: "Small group home" means a residential facility set up as a single housekeeping unit and shared by up to six (6) unrelated persons, exclusive of staff, who require assistance and supervision. A small group home is licensed by the state of Utah and provides counseling, therapy and specialized treatment, along with habilitation or rehabilitation services for physically or mentally disabled persons. A small group home shall not include persons who are diagnosed with a substance abuse problem or who are staying in the home as a result of criminal offenses.

GUEST: Any person hiring or occupying a room for living or sleeping purposes.

HARD SURFACED: A concrete, asphalt surface, brick, stone or turf block.

HEALTH AND FITNESS FACILITY: A business or membership organization providing exercise facilities and/or nonmedical personal services to patrons, including, but not limited to, gymnasiums (except facilities owned by a governmental entity), private clubs (athletic, health, or recreational), reducing salons, tanning salons, and weight control establishments.

HEALTH HAZARD: A classification of a chemical for which there is statistically significant evidence based on a generally accepted study conducted in accordance with established scientific principles that acute or chronic health effects may occur in exposed persons. The term "health hazard" includes chemicals which are carcinogens, toxic or highly toxic agents, reproductive toxins, irritants, corrosives, sensitizers, hepatotoxins, nephrotoxins, neurotoxins, agents which act on the hematopoietic system, and agents which damage the lungs, skin, eyes or mucous membranes.

HEIGHT, BUILDING - IN THE FR, FP, R-1, R-2, AND SR DISTRICTS: The vertical distance between the top of the roof and established grade at any given point of building coverage.

HEIGHT, BUILDING - OUTSIDE FR, FP, R-1, R-2 AND SR DISTRICTS: The vertical distance, measured from the average elevation of the finished grade at each face of the building, to the highest point of the coping of a flat roof or to the deck line of a mansard roof or to the average height of the highest gable of a pitch or hip roof (see illustration in section 21A.62.050 of this chapter).

HEIGHT, EXTERIOR WALL: The vertical distance of any building wall measured from finished grade to the top of the wall plate.

HELIPORT: A facility or structure that is intended or used for the landing and takeoff of rotary wing aircraft, but not including the regular repair or maintenance of such aircraft or the sale of goods or materials to users of such aircraft.

HISTORIC BUILDINGS OR SITES: Those buildings or sites listed on the national register of historic places.

HISTORIC LANDMARK COMMISSION: The historic landmark commission of Salt Lake City, Utah. (See section 21A.06.050 of this title.)

HISTORIC SITE: See definition of Landmark Site.

HOME OCCUPATION: A business, profession, occupation, or trade conducted for gain or support and located and conducted within a dwelling unit, which use is accessory, incidental and secondary to the use of the building for dwelling purposes and does not change the essential residential character of appearance of such building and subject to the regulations set forth in section 21A.36.030 of this title.

HOMELESS SHELTER: A building or portion thereof in which sleeping accommodations are provided on an emergency basis for the temporarily homeless.

HOOP HOUSE: A temporary or permanent accessory structure typically made of, but not limited to, piping or other material covered with translucent plastic, constructed in a "half round" or "hoop" shape, for the purposes of growing plants. A hoop house is considered more temporary than a greenhouse.

HOSPITAL: An institution licensed by the state of Utah specializing in giving clinical, temporary, or emergency services of a medical or surgical nature to human patients.

HOTEL/MOTEL ROOM: A room or combination of rooms (suite) offered as a single unit for lodging on a daily or weekly basis.

HOUSE MUSEUM: A dwelling unit which is converted from its original principal use as a dwelling unit to a staffed institution dedicated to educational, aesthetic or historic purposes. Such museum should include a staff who commands an appropriate body of special knowledge necessary to convey the historical, aesthetic or architectural attributes of the building and its collections to the general public. Such staff should also have the ability to reach museological decisions consonant with the experience of his or her peers and have access to and acquaintance with the literature of the field. Such museum should maintain either regular hours or be available for appointed visits such that access is reasonably convenient to the public.

IMPACT STATEMENT: A statement containing an analysis of a project's potential impact on the environment, traffic, aesthetics, schools, and/or municipal costs and revenues, as well as comments on how the development fits into the general plan of Salt Lake City.

INCINERATOR, MEDICAL WASTE/HAZARDOUS WASTE: "Medical waste/hazardous waste incinerator" means a device using heat, for the reduction of medical/hazardous waste materials, as defined by the state of Utah division of solid and hazardous waste.

INDUSTRIAL ASSEMBLY USE: An industrial use engaged in the fabrication of finished or partially finished products from component parts produced off site. Assembly use shall not entail metal stamping, food processing, chemical processing or painting other than painting that is accessory to the assembly use.

INFILL: New development that occurs within an already developed area where building patterns and lot platting are already established.

INSTITUTION: An organization or establishment providing religious, educational, charitable, medical, cultural or governmental services.

INTERIOR SIDE YARD: See definition of Yard, Interior Side.

INTERMODAL TRANSIT PASSENGER HUB: A publicly owned and operated central transit passenger transfer facility servicing rail, bus, shuttle, limousine, taxis, bicyclists and pedestrians and may include, but is not limited to, the following complementary land uses such as offices, restaurants, retail sales and services, bus line terminals, bus line yards and repair facilities, limousine service and taxicab facilities.

INTERPRETATION: An administrative decision regarding the general provisions of this title to specific cases. Interpretations shall not include administrative decisions that will affect a permitted use, conditional use or nonconforming use.

INTERPRETATION, USE: "Use interpretation" means an administrative decision of this title related to specific cases which affect permitted use or conditional use provisions within a specific district and affect nonconforming uses.

JAIL: A place for lawful confinement of persons. For the purpose of this title, a jail shall not include community correctional facilities and mental hospitals. A jail includes a facility for the judicially required detention or incarceration of people who are under twenty four (24) hour supervision by sworn officers, and confinement of offenders where force may be used to restrain them if they attempt to leave the institution without authorization.

JEWELRY FABRICATION: The production of jewelry from component materials, diamond cutting and related activities.

KENNEL, PUBLIC OR PRIVATE: The keeping of more than two (2) dogs and/or two (2) cats that are more than six (6) months old. A third dog or cat may be allowed if a pet rescue permit has been approved under section 8.04.130 of this code.

LABORATORY, MEDICAL, DENTAL, OPTICAL: "Medical, dental and optical laboratory" means a laboratory processing on or off site orders limited to medical testing and precision fabrication of dental/optical articles worn by patients.

LAND USE: The conduct of an activity, or the performance of a function or operation, on a site or in a building or facility for the purpose for which the land or building is occupied, or maintained, arranged, designed or intended.

LAND USE TYPE (SIMILAR LAND USE TYPE): "Land use types" shall be considered to be similar land use types if both uses are allowed in the same zoning district or in the same or more restrictive zoning district within the commercial zoning category or in the same or more restrictive district within the manufacturing zoning category and the change from one land use type to another similar land use type does not increase the parking requirement. If the proposed land use type is a conditional use it will be subject to the conditional use process.

LANDFILL: A municipal, commercial or construction debris disposal facility where solid waste is placed in or on the land and which is not a land treatment facility. The term "landfill" does not include facilities where solid waste is applied onto or incorporated into the soil surface for the purpose of biodegradation.

LANDFILL, COMMERCIAL: "Commercial landfill" means a commercial landfill which receives any nonhazardous solid waste for disposal. A commercial landfill does not include a landfill that is solely under contract with a local government within the state to dispose of nonhazardous solid waste generated within the boundaries of the local government.

LANDFILL, CONSTRUCTION DEBRIS: "Construction debris landfill" means a landfill that is to receive only construction/demolition waste, yard waste, inert waste or dead animals, but excluding inert demolition waste used as fill material.

LANDFILL, END USE PLAN: "End use plan landfill" means a plan showing how the site will be reused/reclaimed upon completion of landfill activities to allow for the productive and compatible reuse of the site.

LANDFILL, MUNICIPAL: "Municipal landfill" means a municipal landfill or a commercial landfill solely under contract with a local government taking municipal waste generated within the boundaries of the local government.

LANDMARK SITE: A building or site of historic importance designated by the city council.

LANDSCAPE AREA: That portion of a lot devoted exclusively to landscaping, except that streets, drives and sidewalks may be located within such area to provide reasonable access.

LANDSCAPE BUFFER: An area of natural or planted vegetation adjoining or surrounding a land use and unoccupied in its entirety by any building, structure, paving or portion of such land use, for the purposes of screening and softening the effects of the land use.

LANDSCAPE PLAN: The plan for landscaping required pursuant to chapter 21A.48 of this title.

LANDSCAPE YARD: That portion of a lot required to be maintained in landscape area.

LANDSCAPING: The improvement of a lot, parcel or tract of land with grass, shrubs and trees. Landscaping may include pedestrian walks, flowerbeds, ornamental objects such as fountains, statuary, and other similar natural and artificial objects designed and arranged to produce an aesthetically pleasing effect.

LATTICE TOWER: A self-supporting multiple sided, open steel frame structure used to support telecommunications equipment.

LEGAL CONFORMING: A status conferred by a provision of this title which shall be limited to the regulation(s) contained within that provision. Legal conforming status allows the reconstruction of a destroyed use/structure to its level of use intensity and building bulk before destruction.

LIMOUSINE SERVICE: A use that provides personal vehicular transportation for a fee, and operating by appointment only.

LOCALLY GROWN: Food crops and/or nonfood, ornamental crops, such as flowers that are grown within the state of Utah.

LODGING HOUSE: A residential structure that provides lodging with or without meals, is available for monthly occupancy only, and which makes no provision for cooking in any of the rooms occupied by paying guests.

LOT: A piece of land identified on a plat of record or in a deed of record of Salt Lake County and of sufficient area and dimensions to meet district requirements for width, area, use and coverage, and to provide such yards and open space as are required and has been approved as a lot through the subdivision process. A lot may consist of combinations of adjacent individual lots and/or portions of lots so recorded; except that no division or combination of any residual lot, portion of lot, or parcel shall be created which does not meet the requirements of this title and the subdivision regulations of the city.

LOT AREA: The total area within the property lines of the lot plus one-half ($^1/_2$) the right of way area of an adjacent public alley.

LOT AREA, NET: "Net lot area" means the area within the property lines of a lot, excluding any right of way area of an adjacent public alley.

LOT ASSEMBLAGE: Acquisition of two (2) or more contiguous lots by the same owner(s) that may or may not be consolidated into a single parcel.

LOT, CORNER: "Corner lot" means a lot which has two (2) adjacent sides abutting on public streets, serving more than two (2) lots, provided the interior angle at the intersection of such two (2) sides is less than one hundred thirty five degrees (135°).

LOT DEPTH: The mean horizontal distance between the front lot line and the rear lot line of a lot, measured within the lot boundaries.

LOT, FLAG: See definition of Flag Lot.

LOT, INTERIOR: "Interior lot" means a lot other than a corner lot.

LOT LINE, CORNER SIDE: "Corner side lot line" means any lot line between the front and rear lot lines which abuts a public street.

LOT LINE, FRONT: "Front lot line" means that boundary of a lot which is along an existing or dedicated public street, or where no public street exists, is along a public way. On corner lots, the property owner shall declare the front lot line and corner side yard line on a building permit application. In the case of landlocked land, the front lot line shall be the lot line that faces the access to the lot.

LOT LINE, INTERIOR SIDE: "Interior side lot line" means any lot line between the front and rear lot lines which does not abut a public street.

LOT LINE, REAR: "Rear lot line" means that boundary of a lot which is most distant from, and is, or is most nearly, parallel to, the front lot line.

LOT, NONCONFORMING: "Nonconforming lot" means a lot which lawfully existed prior to the effective date hereof, or any amendment thereto, but which fails to conform to the lot regulations of the zoning district in which it is located.

LOT WIDTH: The horizontal distance between the side lot lines measured at the required front yard setback.

LOWER POWER RADIO SERVICES FACILITY OR WIRELESS TELECOMMUNICATIONS FACILITY: An unmanned structure which consists of equipment used primarily for the transmission, reception or transfer of voice or data through radio wave or (wireless) transmissions. Such sites typically require the construction of transmission support structures to which antenna equipment is attached. Low power radio services facilities include "cellular" or "PCS" (personal communications system) communications and paging systems.

MAJOR STREETS: Those streets identified as major streets on city map 19372.

MANUFACTURED HOME: See definition of Dwelling, Manufactured Home.

MANUFACTURING, HEAVY: "Heavy manufacturing" means the assembly, fabrication, or processing of goods and materials using processes that ordinarily have greater than average impacts on the environment, or that ordinarily have significant impacts on the use and enjoyment of adjacent property in terms of noise, smoke, fumes, odors, glare, or health and safety hazards, or that otherwise do not constitute "light manufacturing". Heavy manufacturing generally includes processing and fabrication of large or bulky products, products made from extracted or raw materials, or products involving flammable or explosive materials and processes which require extensive floor areas or land areas for the fabrication and/or incidental storage of the products. The term "heavy manufacturing" shall include uses such as refineries and chemical manufacturing. The term "heavy manufacturing" shall not include any use which is otherwise listed specifically in the table of permitted and conditional uses for the category of zoning district or districts under this title.

MANUFACTURING, LIGHT: "Light manufacturing" means the assembly, fabrication or processing of goods and materials using processes that ordinarily do not create noise, smoke, fumes, odors, glare, or health or safety hazards outside of the building or lot where such assembly, fabrication or processing takes place or where such processes are housed entirely within a building. Light manufacturing generally includes processing and fabrication of finished products, predominantly from previously prepared materials, and includes processes which do not require extensive floor areas or land areas. The term "light manufacturing" shall include uses such as electronic equipment production and printing plants. The term "light manufacturing" shall not include any use which is otherwise listed specifically in the table of permitted and conditional uses for the category of zoning district or districts under this title.

MASTER PLAN: A portion of the long range general plan for Salt Lake City as adopted by the city council.

MEDICAL/DENTAL OFFICE OR CLINIC: A facility dedicated exclusively to providing medical, dental or similar examination, diagnosis, treatment, care and related healthcare services by licensed healthcare providers and other healthcare professionals practicing medicine as a group on persons on an outpatient basis. No portion of the facility may be used to provide on site inpatient care, overnight care, or twenty four (24) hour operations, unless it is in compliance with all ordinances applicable to hospitals. Laboratory facilities shall be accessory only and shall be utilized for on site care.

MEDICAL NURSING SCHOOL: A professional school with facilities for teaching and training individuals for the nursing profession and that awards a degree for individuals who complete the nursing curriculum.

MICROBREWERY: A brewpub which, in addition to retail sale and consumption on site, markets beer wholesale in an amount not to exceed sixty thousand (60,000) barrels (31 gallons) per year. Revenue from food sales must constitute at least fifty percent (50%) of the total business revenues, excluding wholesale and retail carryout sales of beer.

MID BLOCK AREA: An area of development not deemed to be a block corner.

MINIWAREHOUSE: A retail service establishment providing off site storage space to residents and businesses, offering convenience storage and limited warehousing services primarily for personal effects and household goods within enclosed structures having individual access, but excluding use as workshops, hobby shops, manufacturing or commercial activity.

MOBILE FOOD BUSINESS: A business that serves food or beverages from a self-contained unit either motorized or in a trailer on wheels, and conducts all or part of its operations on premises other than its own and is readily movable, without disassembling, for transport to another location. The term "mobile food business" shall not include vending carts or mobile ice cream vendors.

MOBILE FOOD COURT: A parcel of land where two (2) or more mobile food businesses congregate to offer food or beverages for sale to the public. Any cluster of more than one mobile food business, vending cart and seasonal farm stand, located on the same parcel of land shall be considered a mobile food court.

MOBILE FOOD TRAILER: A mobile food business that serves food or beverages from a nonmotorized vehicle that is normally pulled behind a motorized vehicle. The term "mobile food trailer" shall not include vending carts, mobile food trucks or mobile ice cream vendors.

MOBILE FOOD TRUCK: A mobile food business that serves food or beverages from an enclosed self-contained motorized vehicle. The term "mobile food truck" shall not include vending carts, mobile food trailers or mobile ice cream vendors.

MOBILE HOME: A transportable, factory built home, designed as a year round residential dwelling and built prior to June 15, 1976, the effective date of the national manufactured housing construction and safety standards act of 1974. The following are not included in the mobile home definition:

A. Travel trailers, motor homes, camping trailers, or other recreational vehicles.

B. Manufactured and modular housing designed to be set on a permanent foundation.

MOTEL/HOTEL: A building or buildings in which lodging units are offered for persons, for compensation by the day or the week.

MUNICIPAL SERVICES: City or county government operations and governmental authorities providing services from specialized facilities, such as police service, street/highway department maintenance/construction, fire protection, sewer and water services, etc. City or county operations and governmental authorities providing services from nonspecialized facilities shall be considered office uses.

MUSEUM: An institution for the acquisition, preservation, study and exhibition of works of artistic, historical or scientific value and for which any sales relating to such exhibits are incidental and accessory to the exhibits presented.

NEW CONSTRUCTION: On site erection, fabrication or installation of any building, structure, facility or addition thereto.

NONCOMPLYING STRUCTURE: Buildings and structures that serve complying land uses which were legally established on the effective date of any amendment to this title that makes the structure not comply with the applicable yard area, height and/or bulk regulations of this title.

NONCONFORMING LOT: A parcel of land which was legally established on the effective date of any amendment to this title that made the lot noncomplying that has less lot area, frontage or dimensions than required in the district in which it is located.

NONCONFORMING USE: Any building or land legally occupied by a use at the time of passage of the ordinance codified herein or amendment thereto which does not conform after passage of said ordinance or amendment thereto with the use regulations of the district in which located.

NONCONFORMITY: The presence of any nonconforming use or noncomplying structure.

NURSING CARE FACILITY: A healthcare facility, other than a hospital, constructed, licensed and operated to provide patient living accommodations, twenty four (24) hour staff availability, and at least two (2) of the following patient services: a) a selection of patient care services, under the direction and supervision of a registered nurse, ranging from continuous medical, skilled nursing, psychological or other professional therapies to intermittent health related or paraprofessional personal care services; b) a structured, supportive social living environment based on a professionally designed and supervised treatment plan, oriented to the individual's habilitation or rehabilitation needs; or c) a supervised living environment that provides support, training or assistance with individual activities of daily living.

OBSTRUCTION: A structure or appurtenance to a building that is located or projects into a required yard. Allowed obstructions are listed in section 21A.36.020 of this title.

OFF SITE: A lot that is separate from the principal use.

OFF STREET PARKING: Parking provided on private or public property, excluding public rights of way.

OFFICE USE: A type of business use, which may or may not offer services to the public, that is engaged in the processing, manipulation or application of business information or professional expertise. An office use is not materially involved in fabricating, assembling or warehousing of physical products for the retail or wholesale market, nor is an office engaged in the repair of products or retail services. Examples of professional offices include accounting, investment services, architecture, engineering, legal services and real estate services. Unless otherwise specified, office use shall include doctors' and dentists' offices. Office use shall not include any use or other type of establishment which is otherwise specifically listed in the table of permitted and conditional uses for the applicable zoning districts.

OPEN SPACE: Any area of a lot which is completely free and unobstructed from any structure or parking areas. Landscaping, walkways, uncovered patio areas, light poles and other ornamental features shall not be considered as obstructions for purposes of this definition. Driveways that provide access to parking lots shall not be considered as an obstruction subject to the driveways not exceeding twenty percent (20%) of any required yard area that they provide access through.

OUTDOOR SALES AND DISPLAY: The use of open areas of the lot for sales or display of finished products for sale to the consuming public. Outdoor sales and display shall include accessory sales/display areas, such as auto accessory items at a gas station, as well as principal sales/display areas, such as the sales yard of garden center. Outdoor sales and display shall not include items sold in bulk quantities (e.g., sand, gravel, lumber), merchandise inventory not intended for immediate sale, or items not typically sold to the consuming public (e.g., pallets, construction equipment and supplies, industrial products).

OUTDOOR STORAGE: The use of open areas of the lot for the storage of items used for nonretail or industrial trade, the storage of merchandise inventory, and the storage of bulk materials such as sand, gravel, and other building materials. Outdoor storage shall also include contractors' yards and salvage or recycling areas.

OUTDOOR STORAGE, PUBLIC: The use of open areas of the lot for the storage of private personal property including recreational vehicles, automobiles and other personal equipment. This use category does not include or allow the storage of junk as defined in section 21A.40.140 of this title.

OUTDOOR TELEVISION MONITOR: An outdoor large screen television monitor that displays material generated and/or produced by an on site television station. The material displayed shall be the television station's primary broadcast feed or rebroadcast news, sports and/or public affairs broadcasts, and shall not be in conflict with the federal communication commission's (FCC) community standards that apply to broadcasts from the television station between the hours of six o'clock (6:00) A.M. and twelve o'clock (12:00) midnight (regardless of the time of day that such material is displayed on the outdoor television monitor). The material displayed must be the television station's primary broadcast feed or rebroadcast news, sports and/or public affairs broadcasts to the general public (except between the hours of 12:00 midnight and 6:00 A.M. where daytime programming, consistent with community standards, may be substituted). Outdoor television monitors may not be illuminated to a brightness that causes undue glare or interference with adjacent properties. Sound emanating from the outdoor television monitor may not exceed Salt Lake City or county health standards.

OVERLAY DISTRICT: A zoning district pertaining to particular geographic features or land uses imposing supplemental requirements and standards in addition to those provided in the base or underlying zoning district. Boundaries of overlay districts are shown on the zoning map or on special maps referenced in the text.

OWNER OCCUPANT: See section 21A.40.200 of this title.

PARCEL: A continuous area of real property, or lot, which is legally described and accurately drawn on the plat of such property and recorded with Salt Lake County. See definition of Lot.

PARK AND RIDE LOT: The use of a lot for parking as an adjunct to mass transit.

PARK, PUBLIC: "Public park" means a park, playground, swimming pool, golf course or athletic field within the city which is under operation or management of the city's park department.

PARK STRIP: The landscape area within a public way located between the back of street curb and the sidewalk, or in the absence of a sidewalk, the right of way line.

PARK STRIP LANDSCAPING: The improvement of property within the street right of way situated between the back of curb and the sidewalk or, if there is no sidewalk, the back of curb and the right of way line, through the addition of plants and other organic and inorganic materials harmoniously combined to produce an effect appropriate for adjacent uses and compatible with the neighborhood. Park strip landscaping includes trees and may also include a combination of lawn, other perennial ground cover, flowering annuals and perennials, specimen shrubs, and inorganic material.

PARKING FACILITY, SHARED: "Shared parking facility" means a parking lot or garage used for shared parking by two (2) or more businesses or uses.

PARKING GARAGE, COMMERCIAL: "Commercial parking garage" means a structure used for parking or storage of automobiles, generally available to the public, and involving payment of a charge for such parking or storage. A garage used solely in conjunction with multiple-family housing or a hotel shall not be construed to be a commercial garage, but rather a permitted accessory structure and use, even though not on the same premises as the multiple-family housing or motel/hotel.

PARKING, INTENSIFIED REUSE: "Intensified reuse parking" means the change of the use of a building or structure, the past or present use of which may or may not be legally nonconforming as to parking, to a use which would require a greater number of parking stalls available on site which would otherwise be required pursuant to table 21A.44.060F of this title. Intensified parking reuse shall not include residential uses in residential zoning districts other than single room occupancy residential uses and unique residential populations.

PARKING, LEASED-ALTERNATIVE PARKING: "Leased parking-alternative parking" means the lease, for a period of not less than five (5) years, of parking spaces not required for any other use and located within five hundred feet (500') measured between a public entrance to the alternative parking property place of pedestrian egress from the leased parking along the shortest public pedestrian or vehicle way, except that in the downtown D-1 district the distance to the leased parking may be up to one thousand two hundred feet (1,200') measured between a public entrance to the alternative parking property and a place of pedestrian egress from the leased parking along the shortest public pedestrian or vehicle way.

PARKING LOT: A paved, open area on a lot used for the parking of more than four (4) automobiles whether free, for compensation, or as an accommodation for clients and customers.

PARKING, OFF SITE: "Off site parking" means the use of a lot for required parking that is separate from the lot of the principal use.

PARKING, OFF SITE-ALTERNATIVE PARKING: "Off site parking-alternative parking" means parking under the same ownership as the alternative parking property located within five hundred feet (500') of the alternative parking property, or within the one thousand two hundred feet (1,200') in a downtown D-1 district, measured between a public entrance to the alternative parking property and a place of pedestrian egress from the off site parking along the shortest public pedestrian or vehicle way, and which parking is not required or dedicated for another use.

PARKING, SHARED: "Shared parking" means off street parking facilities on one lot shared by multiple uses because the total demand for parking spaces is reduced due to the differences in parking demand for each use during specific periods of the day.

PARKING SPACE: Space within a parking area of certain dimensions as defined in chapter 21A.44 of this title, exclusive of access drives, aisles, ramps, columns, for the storage of one passenger automobile or commercial vehicle under two (2) ton capacity.

PARKING STUDY-ALTERNATIVE PARKING: A study prepared by a licensed professional traffic engineer specifically addressing the parking demand generated by a use for which an alternative parking requirement is sought and which provides the city information necessary to determine whether the requested alternative parking requirement will have a material negative impact to adjacent or neighboring properties and be in the best interests of the city.

PATIO: A paved surface on an earthen/stone base that is not more than two feet (2') above established grade, designed for pedestrian use.

PAWNSHOP: A commercial establishment which lends money at interest in exchange for valuable personal property left with it as security.

PEDESTRIAN CONNECTION: A right of way intended for pedestrian movement/activity, including, but not limited to, sidewalks, internal walkways, external and internal arcades, and plazas.

PERENNIAL: A plant having a life span more than two (2) years.

PERFORMANCE STANDARDS: Standards which establish certain criteria which must be met on a site, but allow flexibility as to how those criteria can be met.

PERFORMING ARTS PRODUCTION FACILITY: A mixed use facility housing the elements needed to support a performing arts organization. Such facility should include space for the design and construction of stage components; costume and prop design and construction, administrative support, rehearsal space, storage space, and other functions associated either with an on site or off site live performance theater.

PERSON: A firm, association, authority, organization, partnership, company or corporation as well as an individual.

PERSONS WITH DISABILITIES: The city adopts the definition of "disabled" from the Americans with disabilities act, the rehabilitation act, title 8 of the civil rights act and all other applicable federal and state laws.

PET CEMETERY: A place designated for the burial of a dead animal where burial rights are sold.

PHILANTHROPIC USE: An office or meeting hall used exclusively by a nonprofit public service organization.

PITCHED ROOF: The covering on the top of a structure, serving to protect against rain, snow, sunlight, wind, and extremes of temperature, having a minimum pitch or slope of a two foot (2') rise over a twelve foot (12') run.

PLACE OF WORSHIP: A church, synagogue, temple, mosque or other place of religious worship, including any accessory use or structure used for religious worship.

PLANNED DEVELOPMENT: A type of land development that requires more planning flexibility than is otherwise allowed under a strict application of zoning requirements and/or lot configuration, in order to create a development that achieves/implements adopted development policies/goals of the city. A planned development is controlled by a single landowner or by a group of landowners in common agreement as to control, to be developed as a single entity, the character of which is compatible with adjacent parcels and the intent of the zoning district or districts in which it is located. The planned development maintains the same density that is permitted by the underlying zone.

PLANNING COMMISSION: The planning commission of Salt Lake City, Utah.

PLANNING OFFICIAL: The director of the planning division of the department of community and economic development, or his/her designee.

PLANTING SEASON: That period during which a particular species of vegetation may be planted for maximum survivability and healthy growth.

PLAZA: An open area which is available to the public for walking, seating and eating.

PRECISION INSTRUMENT REPAIR SHOP: A shop that provides repair services for industrial, commercial, research, and similar establishments. Precision instrument repair does not include consumer repair services for individuals and households for items such as watches or jewelry, household appliances, musical instruments, cameras, and household electronic equipment.

PREPARED FOOD, TAKEOUT: "Takeout prepared food" means a retail sales establishment which prepares food for consumption off site only.

PRINTING PLANT: A commercial establishment which contracts with persons for the printing and binding of written works. The term "printing plant" shall not include a publishing company or a retail copy or reproduction shop.

PRIVATE RECREATIONAL FACILITY: A golf course, swimming pool, tennis club or other recreational facility under private control, operation or management which functions as the principal use of the property.

PUBLIC/PRIVATE UTILITY BUILDINGS AND STRUCTURES: Buildings or structures used in conjunction with the provision of public or private utilities.

PUBLIC TRANSPORTATION, EMPLOYER SPONSORED: "Employer sponsored public transportation" means a program offering free or substantially discounted passes on the Utah transit authority to employees.

PUBLISHING COMPANY: A company whose business is the editing and publishing of works of authors. The term "publishing company" shall not include a printing plant, unless it is only accessory to the publishing business.

QUALITY OF LIFE: The attributes or amenities that combine to make an area a desirable place to live or work, including, but not limited to, the availability of political, educational, and social support systems; good relations among constituent groups; a safe and healthy physical environment; and economic opportunities for both individuals and businesses.

RAILROAD FREIGHT TERMINAL FACILITY: A major railroad track yard area for primary use by railroad employees for regional scale interstate mainline oriented intermodal freight transfers of: a) multimodal (sea, rail, truck transport) self-contained cargo containers from train to train, train to semitruck trailer, and semitruck trailer to train loading; and b) for new motor vehicle train transports to semitruck trailer transports for regional distribution purposes. No breakdown of self-contained cargo containers occurs at intermodal railroad freight terminal facilities.

REAR YARD: See definition of Yard, Rear.

RECEPTION CENTER: A facility which leases the premises for hosting weddings and other private events. The term "reception center" shall not include uses whose primary function is a restaurant or banquet hall.

RECORD OF SURVEY MAP: The map as defined in section 57-8-3(18), Utah Code Annotated, 1953, as amended, or its successor. (See chapter 21A.56 of this title.)

RECREATION VEHICLE PARK: A business that provides space for living in a recreational vehicle (camper, travel trailer or motor home), on a daily or weekly basis. A recreational vehicle park may include accessory uses such as a convenience store, gasoline pumps and recreation amenities, such as swimming pools, tennis courts, etc., for the convenience of persons living in the park.

RECYCLING COLLECTION STATION: A use, often accessory in nature, providing designated containers for the collection, sorting and temporary storage of recoverable resources (such as paper, glass, metal and plastic products) until they are transported to separate processing facilities.

RECYCLING CONTAINER: An enclosed or semienclosed container used for the temporary storage of recyclable materials until such materials can be efficiently collected and processed.

RECYCLING PROCESSING CENTER: A facility to temporarily store, sort, recycle, process, compost or treat materials (such as paper, glass, metal and plastic products) to return them to a condition in which they can be reused for production or transported to another approved site for permanent storage, landfilling or further processing. Recycling processing center does not include automobile salvage and recycling.

RELOCATABLE OFFICE BUILDING: A portable structure built temporarily on a chassis or skids, and designed to be used with or without a permanent foundation for use or occupancy for any commercial or industrial purpose when connected to water, power or utility hookups. (See subsection 21A.42.070I of this title.)

RESIDENT HEALTHCARE FACILITY: A facility licensed by the state of Utah which provides protected living arrangements for two (2) or more persons who because of minor disabilities cannot, or choose not to, remain alone in their own home. The facility may serve the elderly, persons with minor mental or physical disabilities, or any other persons who are ambulatory or mobile and do not require continuous nursing care or services provided by another category of licensed health facility. The resident healthcare facility shall be considered the resident's principal place of residence.

RESIDENTIAL DISTRICTS: Those districts listed in subsection 21A.22.010A of this title.

RESIDENTIAL STRUCTURE: For the purposes of the RB zoning district means a structure that has maintained the original residential exterior without significant structural modifications. (False facades are not considered a significant structural modification.)

RESIDENTIAL SUBSTANCE ABUSE TREATMENT HOME, LARGE: "Large residential substance abuse treatment home" means a residential facility for seven (7) or more unrelated persons, exclusive of staff, and licensed by the state of Utah, that provides twenty four (24) hour staff supervision and may include a peer support structure to help applicants acquire and strengthen the social and behavioral skills necessary to live independently in the community. A large residential substance abuse treatment home provides supervision, counseling and therapy through a temporary living arrangement and provides specialized treatment, habilitation or rehabilitation services for persons with alcohol, narcotic drug or chemical dependencies.

RESIDENTIAL SUBSTANCE ABUSE TREATMENT HOME, SMALL: "Small residential substance abuse treatment home" means a residential facility for up to six (6) unrelated persons, exclusive of staff, and licensed by the state of Utah, that provides twenty four (24) hour staff supervision and may include a peer support structure to help applicants acquire and strengthen the social and behavioral skills necessary to live independently in the community. A small residential substance abuse treatment home provides supervision, counseling and therapy through a temporary living arrangement and provides specialized treatment, habilitation or rehabilitation services for persons with alcohol, narcotic drug or chemical dependencies.

RESTAURANT: An establishment where food and drink are prepared, served, and consumed, mostly within the principal building.

RETAIL GOODS ESTABLISHMENT: A building, property or activity, the principal use or purpose of which is the sale of physical goods, products or merchandise directly to the consumer. Retail goods establishment shall not include any use or other type of establishment which is otherwise listed specifically in the table of permitted and conditional uses found at the end of each chapter of part III of this title for the category of zoning district or districts.

RETAIL SERVICES ESTABLISHMENT: A building, property or activity, the principal use or purpose of which is the provision of personal services directly to the consumer. The term "retail services establishment" shall include, but shall not be limited to, barbershops, beauty parlors, laundry and dry cleaning establishments (plant off premises), tailoring shops, shoe repair shops and the like. Retail services establishment shall not include any use or other type of establishment which is otherwise listed specifically in the table of permitted and conditional uses found at the end of each chapter of part III of this title for each category of zoning district or districts.

RETAINING WALL: A wall designed to resist the lateral displacement of soil or other materials.

REVERSE VENDING MACHINE: A machine designed to pay cash to customers in exchange for the deposit of used beverage cans and/or bottles for recycling.

ROOMING HOUSE: A building or group of attached or detached buildings containing in combination at least three (3) lodging units for occupancy on at least a monthly basis, with or without board, as distinguished from hotels and motels in which rentals are generally for daily or weekly periods and occupancy is by transients.

SANATORIUM: A health facility or institution for the inpatient treatment and recuperation of persons suffering from physical or mental disorders, providing qualified medical, professional and nursing staff. A sanatorium shall not include facilities for the criminally insane.

SCHOOLS, PROFESSIONAL AND VOCATIONAL: "Professional and vocational schools" means schools offering occupational and vocational training, the courses of which are not generally transferable toward a bachelor's degree.

SCHOOLS, PUBLIC OR PRIVATE: "Public or private schools" means an institution of learning or instruction primarily catering to minors, whether public or private, which is licensed at such facility by either the city or the state of Utah. The definition includes nursery schools, kindergarten, elementary schools, junior high schools, middle high schools, senior high schools or any special institution of learning under the jurisdiction of the state department of education, but not including professional and vocational schools, charm schools, dancing schools, music schools or similar limited schools nor public or private universities or colleges.

SEASONAL FARM STAND: A sales table, area, or kiosk of food crops and/or nonfood, an ornamental crop, such as flowers, that is located off premises from the location where the food was grown, or when located in any agricultural district, and operates during the time of year coinciding with the growing season.

SEASONAL ITEM SALES: Items that are identified with individual holidays or celebrations relating to the four (4) seasons: spring, summer, autumn or winter (such as a winter festival or harvest festival). Such items include, but are not limited to, Valentine's Day or Easter items, Halloween pumpkin, or Christmas tree sales. Independence Day and Pioneer Day fireworks are governed independently in this code. Prepared food is not a seasonal item, however fresh farm produce, sold within the intermountain region harvest season, is allowed. Food pertaining to farmers' markets and farm sales are regulated separately.

SETBACK: See definition of Yard.

SEWAGE TREATMENT PLANT: A licensed facility that purifies sanitary sewer effluent to a minimum level as established by state and/or federal environmental protection agencies.

SEXUALLY ORIENTED BUSINESS: Any business for which a sexually oriented business license is required as an adult business, nude entertainment business, or as a seminude dancing bar, pursuant to the sexually oriented business licensing requirements in title 5, chapter 5.61 of this code. (See section 21A.36.140 of this title.)

SHOPPING CENTER: A concentration of related commercial establishments with one or more major anchor tenants, shared parking, and unified architectural and site design. A shopping center normally has single or coordinated ownership/operations/management control and may include pad site as well as architecturally connected units.

SHOPPING CENTER PAD SITE: A separate parcel of land designated in the shopping center plan as a building site. The pad site may not be owned by the shopping center owner.

SIDE YARD: See definition of Yard, Side.

SIGHT DISTANCE TRIANGLE: A triangular area formed by a diagonal line connecting two (2) points located on intersecting right of way lines (or a right of way line and the edge of a driveway). For both residential driveways and nonresidential driveways, the points shall be determined through the site plan review process by the development review team. The purpose of the sight distance triangle is to define an area in which vision obstructions are prohibited. (See illustration in section 21A.62.050 of this chapter.)

SINGLE-FAMILY DWELLING: See definition of Dwelling, Single-Family.

SITE DEVELOPMENT PERMIT: A permit for earthwork or site preparation required pursuant to title 18, chapter 18.28 of this code.

SITE PLAN: An accurately scaled plan that illustrates the existing conditions on a land parcel and the details of a proposed development.

SKETCH PLAN REVIEW: A preliminary review process administered by the development review administrator or designee for the purpose of determining the required standard for front or corner side yard; building height and wall height, width and placement of attached garages; and the location, building height and footprint of accessory structures prior to the formal submittal of plans to obtain a building permit.

SLUDGE: Any solid, semisolid or liquid waste, including grit and screenings generated from a municipal, commercial or industrial wastewater treatment plant or water supply treatment plant or air pollution control facility or any other such use having similar characteristics.

SNOW CONE AND SHAVED ICE HUT: A temporary building designed to accommodate the sales of flavored ice only.

SOCIAL CLUB: A business establishment as defined in title 32B, Utah Code, as amended.

SOCIAL SERVICE MISSION: An establishment that provides social services other than on site housing facilities.

SOLAR ARRAY: A principal use of a packaged interconnected assembly of solar cells used to transform solar energy into thermal, chemical, or electrical energy. A solar array uses solar energy for any or all of the following purposes: a) water heating, b) space heating or cooling, and c) power generation.

SOLAR ENERGY COLLECTION SYSTEM, SMALL: "Small solar energy collection system" shall mean an accessory structure that is roof mounted, wall mounted, or ground mounted panel, the primary purpose of which is to provide for the collection, inversion, storage, and distribution of solar energy for electricity generation, space heating, space cooling, or water heating of buildings located on the same property.

SOLID WASTE TRANSFER STATION: A facility used to combine and compact loads of solid waste into larger units of waste, which are then loaded onto trucks for delivery to landfill sites.

SPECIAL PURPOSE DISTRICTS: Zoning districts which require regulations that address special types of land uses, such as the airport or institutional uses.

SPOT ZONING: The process of singling out a small parcel of land for a use classification materially different and inconsistent with the surrounding area and the adopted city master plan, for the sole benefit of the owner of that property and to the detriment of the rights of other property owners.

STABILIZING: The area is expected to become stable through continued reinvestment, maintenance, or remodeling.

STABLE: The area is expected to remain substantially the same with continued maintenance of the property. While some changes in structures, land uses, and densities may occur, all such changes are expected to be compatible with surrounding development and in accordance with the adopted master plan policies and adopted zoning regulations. Other items that can determine the stability of an area include, but are not limited to, the following: property values, number of demolition or building permits issued.

STABLE, PRIVATE: A detached building for the keeping of horses owned by the occupants of the premises and not kept for remuneration, hire or sale.

STABLE, PUBLIC: A building or land where animals are kept for remuneration, hire, sale, boarding, riding or show.

STORE, CONVENTIONAL DEPARTMENT: A retail business which offers a broad range of merchandise lines at moderate level price points, consisting of primarily apparel and home goods. No merchandise line predominates and goods are displayed in a departmentalized format. Customer assistance is provided in each department, but checkout facilities can be either departmentalized or centralized. These stores are typically over one hundred thousand (100,000) square feet in size. Examples include, but are not limited to, Kohls, J.C. Penney and Mervyn's, as such stores are typically configured as of January 13, 2004.

STORE, FASHION ORIENTED DEPARTMENT: A retail business which offers more specialized lines of merchandise than conventional department stores, with an emphasis on apparel merchandise. The merchandise is displayed in separate departments, with over forty percent (40%) of sales area devoted to the sale of apparel, shoes, cosmetics and accessories related to personal care and appearance. Fashion oriented department stores sell goods which are primarily nationally advertised brands, they may sell appliances which are usually serviced by other companies, and often offer limited lines of merchandise through seasonal or special catalogs. These stores provide checkout service and customer assistance (salespersons) within each department. These stores are typically over one hundred thousand (100,000) square feet in size. Examples include, but are not limited to, Meier & Frank, Bloomingdales, Macy's, Dillards, Marshall Fields, Bon Marche, Broadway, Broadway Southwest, Robinsons/May, as such stores are typically configured as of January 13, 2004.

STORE, MASS MERCHANDISING: A retail business selling a variety of merchandise, including apparel and home goods, at generally lower price points. Mass merchandising stores have fast turnover and high volume retailing with centralized checkout stations. Generally, shopping carts are available to customers and there is reduced customer assistance within each department but customer assistance may occur in departments for special promotions or where appropriate for product demonstration, legal compliance or security purposes. These stores typically exceed eighty thousand (80,000) square feet in size. Examples include, but are not limited to, Wal-Mart, K-Mart, Target, Fred Meyer and ShopKo, as such stores are typically configured as of January 13, 2004.

STORE, SPECIALTY: A retail business specializing in a broad range of a single category of goods at competitive prices. The categories usually included are home improvement, consumer music and electronics, office supply, auto aftermarket, computers, toys, books, home/bed/bath, pet supply, craft/hobby, or sporting goods. They often have departments, centralized and/or exit checkout stations and operate in various physical formats. These stores typically range from twenty thousand (20,000) to one hundred thousand (100,000) square feet in size. Examples include, but are not limited to, The Home Depot, OfficeMax, Toys"R"Us, PetsMart, Michaels, Bed, Bath & Beyond, Borders Books, Barnes & Noble, Circuit City, Galyan's, Sports Authority, Pep Boys, and CompUSA, as such stores are typically configured as of January 13, 2004.

STORE, SPECIALTY FASHION DEPARTMENT: A retail business which specializes in high end merchandise in the categories of apparel, fashion accessories, jewelry, and limited items for the home and housewares. These stores feature exclusive offerings of merchandise, high levels of customer service and amenities, and higher price points. Specialty fashion department stores provide checkout service and customer assistance (salespersons) within each department and often offer specialized customer services such as valet parking, exclusive dressing rooms and personal shoppers. These stores typically range from eighty thousand (80,000) to one hundred thirty thousand (130,000) square feet in size. Examples include, but are not limited to, Lord & Taylor, Neiman Marcus, Nordstrom, Saks Fifth Avenue, as such stores are typically configured as of January 13, 2004.

STORE, SUPERSTORE AND HYPERMARKET: A retail business primarily engaged in retailing a general line of groceries in combination with general lines of new merchandise, such as apparel, furniture, and appliances, sold at discount prices. They have centralized exit checkout stations, and utilize shopping carts for customers. These stores typically range from one hundred twenty thousand (120,000) to one hundred eighty thousand (180,000) square feet in size. Examples include, but are not limited to, Wal-Mart Supercenter, Meijer's, Fred Meyer (with grocery) and Super Target, as such stores are typically configured as of January 13, 2004.

STORE, WAREHOUSE CLUB: A retail business requiring patron membership, and selling packaged and bulk foods and general merchandise. They are characterized by high volume and a restricted line of popular merchandise in a no frills environment. They have centralized exit checkout stations, and utilize shopping carts for customers. These stores typically range from one hundred twenty thousand (120,000) to one hundred fifty thousand (150,000) square feet in size. Examples include, but are not limited to, BJ's Wholesale Club, Costco, and Sam's Club, as such stores are typically configured as of January 13, 2004.

STORY (FLOOR): The vertical distance between the finished floor of one level and the finished floor of the level above or below.

STORY, HALF: "Half story" means the portion of a building which contains habitable living space within the roof structure of a shed, hip or gable roof. The portion of a building which contains habitable living space within the roof structure of a mansard, gambrel or flat roof constitutes one full story, not one-half ($^1/_2$) story.

STREET: A vehicularway which may also serve for all or part of its width as a way for pedestrian traffic, whether called street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place, alley, mall or otherwise designated.

STREET FRONTAGE: All of the property fronting on one side of the street between intersecting streets, or between a street and a waterway, a dead end street, or a political subdivision boundary, and having unrestricted vehicular and pedestrian access to the street. For the purpose of regulating signs or flags, "street frontage" means an entire lot fronting on a portion of the street.

STREET TREES: Trees located in the landscape area within a public way located between the back of the street curb and the sidewalk, or in absence of the sidewalk, the right of way line.

STREETSCAPE: All public rights of way, all front yards to the plane of the front of the house, and on corner lots, all side yards to the plane of the side of the house.

STRUCTURAL ALTERATION: Any change in the supporting members of a structure, such as foundations, bearing walls or bearing partitions, columns, beams or girder, or any substantial change in the roof.

STRUCTURE: Anything constructed or erected with a fixed location on the ground or in/over the water bodies in the city. Structure includes, but is not limited to, buildings, fences, walls, signs, and piers and docks, along with any objects permanently attached to the structure.

STRUCTURE, ACCESSORY: See definition of Accessory Building Or Structure.

SUBDIVISION: Any land that is divided, resubdivided or proposed to be divided into two (2) or more lots, parcels, sites, units, plots, or other division of land for the purpose, whether immediate or future, for offer, sale, lease, or development either on the installment plan or upon any and all other plans, terms, and conditions.

TV ANTENNA: See definition of Antenna, TV.

TAVERN: A business establishment as defined in title 32B, Utah code, as amended.

TEMPORARY USE: A use intended for limited duration as defined for each type of temporary use in chapter 21A.42 of this title.

TESTING LABORATORY: A use engaged in determining the physical qualities of construction, medical or manufactured materials. This use does not include research laboratories engaged in scientific experimentation.

TRANSITIONAL TREATMENT HOME, LARGE: "Large transitional treatment home" means a residential facility for seven (7) or more unrelated persons, exclusive of staff, and licensed by the state of Utah, that provides twenty four (24) hour staff supervision and a peer support structure to help applicants acquire and strengthen the social and behavioral skills necessary to live independently in the community. Such programs provide supervision, counseling and therapy through a temporary living arrangement and provide specialized treatment, habilitation or rehabilitation services for persons with emotional, psychological, developmental, behavioral dysfunctions or impairments. A large transitional treatment home shall not include any persons referred by the Utah state department of corrections.

TRANSITIONAL TREATMENT HOME, SMALL: "Small transitional treatment home" means a residential facility for up to six (6) unrelated persons, exclusive of staff, and licensed by the state of Utah, that provides twenty four (24) hour staff supervision and a peer support structure to help applicants acquire and strengthen the social and behavioral skills necessary to live independently in the community. Such programs provide supervision, counseling and therapy through a temporary living arrangement and provide specialized treatment, habilitation or rehabilitation services for persons with emotional, psychological, developmental, behavioral dysfunctions or impairments. A small transitional treatment home shall not include any persons referred by the Utah state department of corrections.

TRANSITIONAL VICTIM HOME, LARGE: "Large transitional victim home" means a residential facility for seven (7) or more unrelated persons, exclusive of staff, and licensed by the state of Utah as a residential support facility. A large transitional victim home provides twenty four (24) hour care and peer support to help victims of abuse or crime. A large transitional victim home arranges for or provides the necessities of life and protective services to individuals or families who are experiencing a temporary dislocation or emergency which prevents them from providing these services for themselves or for their families. Treatment is not a necessary component of residential support services, however, care shall be made available on request.

TRANSITIONAL VICTIM HOME, SMALL: "Small transitional victim home" means a residential facility for up to six (6) unrelated persons, exclusive of staff, and licensed by the state of Utah as a residential support facility. A small transitional victim home provides twenty four (24) hour care and peer support to help victims of abuse or crime. A small transitional victim home arranges for or provides the necessities of life and protective services to individuals or families who are experiencing a temporary dislocation or emergency which prevents them from providing these services for themselves or for their families. Treatment is not a necessary component of residential support services, however, care shall be made available on request.

TRELLIS: A frame of latticework designed to support plants.

TRUCK REPAIR, LARGE: "Large truck repair" means a use engaged in the repair of trucks that are in excess of one ton in size.

TRUCK STOP: A building site and structures where the business of maintenance, servicing, storage or repair of trucks, tractor-trailer rigs, eighteen (18) wheel tractor-trailer rigs, buses and similar commercial or freight vehicles is conducted, including the sale and dispensing of motor fuel or other petroleum products and the sale of accessories or equipment for trucks and similar commercial vehicles. A truck stop may also include overnight sleeping accommodations and restaurant facilities.

TWO-FAMILY DWELLING: See definition of Dwelling, Two-Family.

UNDEVELOPABLE AREA: The portion of a lot that is unusable for or not adaptable to the normal uses made of the property, which may include areas covered by water, areas that are excessively steep, included in certain types of easements, or otherwise not suitable for development, including areas designated on a plat as undevelopable.

UNIQUE RESIDENTIAL POPULATION: Occupants of a residential facility who are unlikely to drive automobiles requiring parking spaces for reasons such as age, or physical or mental disabilities.

UNIT: The physical elements or space or time period of a condominium project which are to be owned or used separately, and excludes common areas and facilities as defined in section 57-8-3, Utah Code Annotated, 1953, as amended, or its successor. (See chapter 21A.56 of this title.)

UNIT LEGALIZATION, IMPLIED PERMIT: A permit for construction which either specifically is for the construction of a particular number of units in excess of what should have been allowed or which references that the structure has a number of units in excess of what should have been allowed or the city's continuous issuance of an apartment business revenue license for a number of units in excess of what should have been allowed.

UNIT LEGALIZATION PERMIT: A permit issued for building improvements required to obtain a unit legalization zoning certificate by the city.

UNIT LEGALIZATION, SUBSTANTIAL COMPLIANCE WITH LIFE AND SAFETY CODES: All units, and the building in which they are located, are constructed and maintained in such a manner that they are not an imminent threat to the life, safety or health of the occupants or the public.

UPHOLSTERY SHOP: A business specializing in the upholstery of furniture for individual customers for residential, office or business use, but excluding upholstery for automobile use.

URBAN AGRICULTURE: A general term meaning the growing of plants, including food products, and the raising of animals in and around cities. Urban farms and community gardens with their accessory buildings, farm stands, farmers' markets, and garden stands are components of urban agriculture.

URBAN FARM: A farm where food is cultivated, processed and distributed in or around a residential or commercial area. Urban farming is generally practiced for income earning or food producing activities.

USE, PRINCIPAL: "Principal use" means the main use of land and/or buildings on a lot as distinguished from an accessory use.

USE, UNIQUE NONRESIDENTIAL: "Unique nonresidential use" means the nonresidential use of a building resulting in a documented need for fewer parking stalls than would otherwise be required by chapter 21A.44 of this title, due to the building's particular design, size, use, or other factors and unique characteristics.

USED OR OCCUPIED: Include the words intended, designed or arranged to be used or occupied.

VACANT LOT: A lot in an established area or neighborhood which at the present time contains no structures or other aboveground improvements. In new residential subdivisions, lots which contain no structures or other aboveground improvements shall be considered vacant, as opposed to undeveloped land, when ninety percent (90%) or more of the total number of lots in the subdivision have been built upon and the remaining lots are scattered throughout the subdivision.

VANPOOL: A mode of transportation where two (2) or more persons share a ride in a van to or from work.

VANPOOL, EMPLOYER SPONSORED: "Employer sponsored vanpool" means a program offered by a business or in conjunction with the Utah transit authority to provide a multipassenger van for employee transportation.

VARIANCE: A reasonable deviation from those provisions regulating the size or area of a lot or parcel of land, or the size, area, bulk or location of a building or structure under this title and authorized according to the procedures set forth in chapter 21A.18 of this title.

VEGETATION: Living plant material including, but not limited to, trees, shrubs, flowers, grasses, herbs and ground cover.

VENDING CART: Includes any nonmotorized mobile device or pushcart from which limited types of products, as listed in title 5, chapter 5.65 of this code, are sold or offered for sale directly to any consumer, where the point of sale is conducted at the cart, where the duration of the sale is longer than fourteen (14) days and where the vending cart meets the requirements of title 5, chapter 5.65 of this code for the conducting of business in a specified permit operating area approved by the city.

VERTICAL CLEARANCE: Clear space between floor grade level and ceiling height.

VETERINARY OFFICE, LARGE: "Large veterinary office" means a veterinary facility that serves large animals, either wild or domesticated, such as sheep, goats, cows, pigs, horses, llamas, wildcats, bears or other similarly sized animals.

VETERINARY OFFICE, SMALL: "Small veterinary office" means a veterinary facility that serves only small animals such as dogs, cats, birds, rabbits, reptiles, rodents and other similarly sized animals.

WAREHOUSE: A structure, or part thereof, or area used principally for the storage of goods and merchandise.

WATER BODY/WATERWAY: A natural or manmade body of water such as a lake, river, creek, stream, canal, or other channel over which water flows at least periodically.

WHOLESALE DISTRIBUTORS: A business that maintains an inventory of materials, supplies and goods related to one or more industries and sells bulk quantities of materials, supplies and goods from its inventory to companies within the industry. A wholesale distributor is not a retail goods establishment.

WIND ENERGY SYSTEM, LARGE: A "large wind energy system" is a wind energy conversion system consisting of a wind turbine or group of wind turbines, tower, and associated control or conversion electronics, which has rated capacity of more than one hundred (100) kW.

WIND ENERGY SYSTEM, SMALL: "Small wind energy system" means an accessory structure defined as a wind energy conversion system consisting of a wind turbine, a tower, and associated control or conversion electronics that has a rated capacity of not more than one hundred (100) kilowatts (kW) and that is intended to generate electricity primarily for buildings and/or uses on the same property, thereby reducing on site consumption of utility power.

WINERY: A business establishment that manufactures alcoholic beverages from the fermented juice of grapes, fruits, or other liquid bearing plants for off premises consumption, not to include those alcoholic beverages produced in a brewery or distillery.

YARD: On the same zoning lot with a use, building or structure, an open space which is unoccupied and unobstructed from its ground level to the sky, except as otherwise permitted herein. A yard extends along a lot line, and to a depth or width specified in the yard requirements for the zoning district in which such zoning lot is located.

YARD, CORNER SIDE: "Corner side yard" means a yard on a corner lot extending between front yard setback line and the rear lot line and between the corner side lot line and the required corner side yard setback line.

YARD, FRONT: "Front yard" means a yard extending between side lot lines and between the front lot line and the required front yard setback line.

YARD, INTERIOR SIDE: "Interior side yard" means a yard extending between the front and rear yard setback lines and between the interior side lot line and the required interior side yard setback line.

YARD, REAR: "Rear yard" means a yard extending between the two (2) interior side lot lines from the rear lot line to the required rear yard setback line. In the case of corner lots, the rear yard shall extend from the interior side lot line to the front yard or corner side yard setback line.

YARD, SIDE: See definition of Yard, Interior Side.

ZONING ADMINISTRATOR: The director of the planning division of the department of community and economic development or his/her designee.

ZONING DISTRICTS: Areas of the city designated in the text of this title in which requirements and standards for the use of land and buildings are prescribed.

ZONING LOT: See definition of Lot.

ZONING MAP: A map or series of maps delineating the boundaries of all zoning districts and overlay districts in the city. (Ord. 15-13, 2013: Ord. 82-12, 2012: Ord. 73-12, 2012: Ord. 65-12, 2012: Ord. 63-12, 2012: Ord. 62-12, 2012: Ord. 30-12, 2012: Ord. 24-12, 2012: Ord. 8-12, 2012: Ord. 61-11, 2011: Ord. 60-11, 2011: Ord. 55-11, 2011: Ord. 24-11, 2011: Ord. 21-11, 2011: Ord. 20-11, 2011: Ord. 19-11, 2011: Ord. 27-10, 2010: Ord. 23-10 § 22, 2010: Ord. 19-10 § 1, 2010: Ord. 70-09 § 2, 2009: Ord. 62-09 § 4, 2009: Ord. 7-09 § 1, 2009: Ord. 2-09 §§ 4 _ 6, 2009: Ord. 61-08 § 3, 2008: Ord. 60-08 § 1, 2008: Ord. 38-08, 2008: Ord. 2-08 § 6, 2008: Ord. 68-06 § 1, 2006: Ord. 52-06 § 2, 2006: Ord. 20-06 § 1, 2006: Ord. 13-06 § 1, 2006: Ord. 90-05 § 2 (Exh. B), 2005: Ord. 89-05 § 9, 2005: Ord. 77-05 § 1, 2005: Ord. 76-05 § 10, 2005: Ord. 15-05 §§ 3, 4, 2005: Ord. 72-04 § 2, 2004: Ord. 6-04 § 20, 2004: Ord. 4-04 §§ 6, 7, 2004: Ord. 62-03 § 3, 2003: Ord. 61-03 § 3, 2003: Ord. 6-03 § 4, 2003: Ord. 50-02 § 2, 2002: Ord. 23-02 § 8, 2002: Ord. 5-02 § 4, 2002: Ord. 2-02 § 2, 2002: Ord. 84-01 § 2, 2001: Ord. 64-01 § 4, 2001: Ord. 20-01 § 4, 2001: Ord. 54-00 § 3, 2000: Ord. 20-00 §§ 4, 5, 2000: Ord. 14-00 §§ 16 _ 18, 2000: Ord. 35-99 § 102, 1999: Ord. 30-98 § 7, 1998: Ord. 12-98 § 8, 1998: Ord. 8-97 § 3, 1997: amended during 5/96 supplement: Ord. 88-95 § 1 (Exh. A), 1995: Ord. 84-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(31-4), 1995)

21A.62.050: ILLUSTRATIONS OF SELECTED DEFINITIONS:

The definitions listed below are illustrated on the following pages:

A. Building Height In Foothills Districts, R-1 Districts, R-2 District And SR Districts.

B. Building Height (Outside Foothills Districts, R-1 Districts, R-2 District And SR Districts).

C. Flag Lot.

D. Landscape Area.

E. Lattice Tower.

F. Monopole With Antennas And Antenna Support Structures Greater Than Two Feet In Width.

ILLUSTRATION A
BUILDING HEIGHT IN FOOTHILLS DISTRICTS,
R-1 DISTRICTS, R-2 DISTRICT AND SR DISTRICTS

Finished Grade:
The final grade of a site after reconfiguring grades according to an approved site plan related to the most recent building permit activity on a site.

Established Grade:
The grade of a property prior to the most recent proposed development or construction activity. On developed lots, the zoning administrator shall estimate established grade if not readily apparent, by referencing elevations at points where the developed area appears to meet the undeveloped portions of the land. The estimated grade shall tie into the elevation and slopes of adjoining properties without creating a need for new retaining wall, abrupt differences in the visual slope and elevation of the land, or redirecting the flow of runoff water.

Finished Grade:
The final grade of a site after reconfiguring grades according to an approved regrading site plan related to the initial most recent building permit activity on a site.

Established Grade:
The grade of a property prior to the most recent proposed development or construction activity. On developed lots, the Zoning Administrator shall estimate established grade if not readily apparent, by referencing elevations at points where the developed area appears to meet the undeveloped portions of the land. The estimated grade shall tie into the elevation and slopes of adjoining properties without creating a need for new retaining wall, abrupt differences in the visual slope and elevation of the land, or redirecting the flow of run-off water.

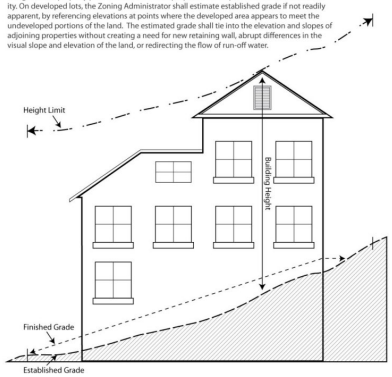

ILLUSTRATION - B

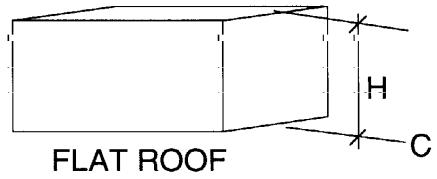
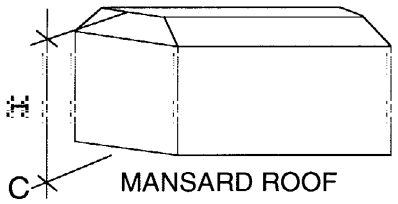
BUILDING HEIGHT (OUTSIDE FOOTHILL DISTRICTS)



DEFINITION :

Building Height

The vertical distance measured from the average elevation of the finished lot grade at each face of the building, to the highest point of the coping of a flat roof; the deck line of a mansard roof, or the average height of the gable on a pitched, gambrel, hip or shed roof.



H : Height of Building

All fees shall be as shown on the Salt Lake City consolidated fee schedule. (Ord. 24-11, 2011)

Title 22 - LOCAL EMERGENCIES

CHAPTER 22.01
PURPOSE

22.01.010: PURPOSE OF TITLE:

The purpose of this title is to enable the city to prepare for and respond quickly and effectively to emergencies threatening lives, property, public health, welfare and/or safety within the city's jurisdiction. This title is to be liberally construed to achieve that purpose to the full extent of statutory and constitutional authority. (Ord. 54-13, 2013)

CHAPTER 22.02
DEFINITIONS

22.02.010: DEFINITIONS OF WORDS AND PHRASES:

DISASTER: A situation causing, or threatening to cause, widespread damage, social disruption, or injury or loss of life, or property, resulting from attack, internal disturbance, natural phenomenon or technological hazard.

EMERGENCY INTERIM SUCCESSOR: A person designated to exercise the emergency powers and discharge the emergency duties of an office when the person legally exercising those powers and duties of the office is unavailable.

LOCAL EMERGENCY: A condition which requires that emergency assistance be provided by the city to save lives and protect property within its jurisdiction in response to an emergency or disaster, or to avoid or reduce the threat of a disaster.

PLACE OF GOVERNANCE: The physical location where the powers of an office are being exercised.

TECHNOLOGICAL HAZARD: Any hazardous material accident, mine accident, train derailment, truck wreck, or crash, radiation incident, pollution, structural fire or explosion.

UNAVAILABLE: Either: a) not physically present at the place of governance or not able to be communicated with for two (2) hours or b) mentally or physically impaired, during a disaster that seriously disrupts normal government operations, provided that if a vacancy exists in the office of the mayor pursuant to section 2.04.060 of this code, the provisions of section 2.04.060 of this code shall prevail over the provisions of this chapter. "Unavailable" does not include a person who is reachable by telephone, radio or any electronic means. (Ord. 54-13, 2013)

CHAPTER 22.03
LOCAL EMERGENCIES; PROCEDURES

22.03.010: PROCLAMATION:

A. The mayor (or the mayor's emergency interim successor as provided in section 22.03.040 of this chapter) may declare a local emergency by proclamation. The proclamation shall state: 1) the nature of the local emergency; 2) the area or areas of the city that are affected or threatened; and 3) the conditions which caused the local emergency.

B. If the mayor is not personally present to sign the proclamation of local emergency and the mayor orally or by electronic message directs another person to sign the proclamation on his or her behalf, such person shall sign the proclamation with the mayor's name followed with the notation "By Direction of the Mayor" and the other person's signature and printed name. (Ord. 54-13, 2013)

22.03.020: EFFECTIVENESS AND CONTINUATION OR RENEWAL OF LOCAL EMERGENCY:

A proclamation of local emergency is effective upon signature and continues in effect until it expires by its terms or is rescinded, continued, or renewed. A local emergency shall not be adopted, continued, or renewed for a period in excess of thirty (30) days except by or with the consent of the city council expressed by resolution. Any proclamation or resolution adopting, rescinding, continuing, or renewing a local emergency shall be filed promptly with the city recorder. Public notice shall be given by the best practicable means under the circumstances. (Ord. 54-13, 2013: Ord. 76-08 § 2, 2008)

22.03.030: POWERS IN A LOCAL EMERGENCY:

In conjunction with a proclamation of local emergency and while a proclamation of local emergency is in effect, the mayor (or the mayor's emergency interim successor) may exercise the following powers by proclamation:

A. Issue such orders as are imminently necessary for the protection of life and property, including those authorized in chapter 4 of title 63K, Utah Code Annotated or any successor provisions;

B. Utilize all available resources of the city as reasonably necessary to manage the local emergency;

C. Employ measures and give direction to local officers and agencies which are reasonable and necessary to secure compliance;

D. If necessary for the preservation of life, order the evacuation of people from any stricken or threatened part of the city, provided that if the mayor or his or her emergency interim successor is unavailable the city's police chief (or the police chief's emergency interim successor) may issue an urgent order for evacuation, if the evacuation is necessary for the preservation of life and does not exceed thirty six (36) hours. Once the mayor (or the mayor's emergency interim successor) becomes available, the mayor (or the mayor's emergency interim successor) may ratify, modify or revoke the order given by the chief of police (or the chief's emergency interim successor);

E. Control ingress and egress to and from any part of the city, including controlling the movement of persons within an emergency or disaster area and ordering the occupancy or evacuation of premises in such area;

F. Clear or remove debris or wreckage that is an immediate threat to public health, public safety, or private property;

G. Invoke the provisions of any mutual aid agreements entered into by the city;

H. Request assistance of political subdivisions participating in the statewide mutual aid system, pursuant to the statewide mutual aid act, Utah Code Annotated sections 53-2-501 to 53-2-510 or any successor provisions;

I. Adopt a curfew upon all or any portion of the city thereby requiring all persons in designated curfew areas to forthwith remove themselves from the public streets, alleys, parks or other public places during the specified times; provided, however, that physicians, nurses and ambulance operators performing medical services, utility personnel performing essential public services, firefighters and city authorized or requested law enforcement officers and personnel may be exempted from such curfew;

J. Close any business establishment anywhere within the city for the period of the emergency, which businesses may include, but are not limited to, those selling or dispensing intoxicating liquors or beer; gasoline or other flammable liquids or combustible products; or other products creating a potential of personal harm or property damage, except as prohibited by Utah Code Annotated section 63K-4-405, or any successoral provision with respect to firearms and ammunition;

K. Close all social clubs or taverns or portions thereof where the consumption of intoxicating liquor and/or beer is permitted;

L. Discontinue the sale of intoxicating liquor and/or beer;

M. Designate any public street, thoroughfare, alley, park or vehicle parking areas closed to motor, bicycle, and pedestrian traffic;

N. Call upon regular and auxiliary fire or law enforcement agencies and organizations, within or without the city, to assist in preserving and keeping the peace within the city;

O. Suspend temporarily specific provisions of Salt Lake City ordinances, policies, or executive orders, during the local emergency, if compliance with such provisions would prevent, hinder, or delay action necessary to cope with the local emergency, subject to superior state and federal constitutions, laws, or regulations. (Ord. 54-13, 2013: Ord. 64-12, 2012: Ord. 76-08 § 2, 2008)

22.03.040: EMERGENCY INTERIM SUCCESSION:

Notwithstanding any other provision of law except section 2.04.060 of this code, if the mayor is unavailable, an emergency interim successor shall exercise the powers and duties of the mayor according to the order of succession designated by the mayor. If the mayor or any other city government officer has not designated an emergency interim successor, the order of succession shall be: a) the mayor, b) the mayor's chief of staff, c) the chair of the city council, and d) the city's police chief. An emergency interim successor shall exercise the powers of the mayor only until the mayor or a person earlier in the order of succession is no longer unavailable. If any other city official is unavailable, an emergency interim successor shall exercise such official's powers as provided by Utah Code Annotated section 63K-1-401 or any successoral provision. (Ord. 54-13, 2013: Ord. 39-10, 2010)

22.03.050: DETERMINATION OF UNAVAILABILITY:

A. In the event of a dispute as to whether the mayor is unavailable for purposes of this chapter, a determination shall be made by the city attorney (or the city attorney's emergency interim successor). In the case of all other executive branch officials for whom emergency interim successors have been designated, the determination of unavailability in the case of dispute shall be made by the mayor (or the mayor's emergency interim successor). The decision by the mayor or the city attorney or their emergency interim successors, as the case may be, shall be final. A determination of unavailability shall be promptly filed with the city recorder.

B. All other factual disputes arising under this chapter concerning an executive branch official shall be adjudicated by the mayor (or the mayor's emergency interim successor) except those factual disputes concerning the mayor (or the mayor's emergency interim successor), which shall be adjudicated by the city attorney (or the city attorney's emergency interim successor). The decision by the mayor or the city attorney or their emergency interim successors, as the case may be, shall be final. Any such decision shall be promptly filed with the city recorder. (Ord. 54-13, 2013: Ord. 76-08 § 2, 2008)

22.03.060: EFFECTIVE DATE, FILING AND PUBLIC NOTICE:

All orders, rules and regulations promulgated pursuant to section 22.03.030 of this chapter shall become effective immediately upon filing with the city recorder. Public notice shall be given by the best practicable means available under the circumstances. (Ord. 54-13, 2013)

22.03.070: TEMPORARY EMERGENCY LOCATION FOR THE PRINCIPAL OFFICE:

A. Whenever, due to emergency resulting from the effects or imminent threat of a disaster, it becomes imprudent, inexpedient or impossible to conduct the affairs of the city government or any individual office, department, division, or public body of city government at its current principal office or place of governance, the mayor (or the mayor's emergency interim successor) may, by proclamation declare an emergency temporary location for the principal office of such office or place of governance, department, division or public body, either within or without the jurisdiction of the city, but within Utah.

B. Any proclamation of temporary emergency location of the principal office of the city council shall remain in effect until such time as a new location is established by the city council.

C. During the time that any proclamation of temporary emergency location of the principal office or place of governance remains in effect, all official acts required by law to be performed at the principal office or place of governance by any official or authority of the city, including the convening and meeting of the city council in regular, extraordinary, emergency or special session, shall be as valid and binding as when performed at the normal location of the principal office or place of governance. (Ord. 54-13, 2013: Ord. 76-08 § 2, 2008)

22.03.080: PENALTY FOR VIOLATION OF EMERGENCY PROCLAMATION, RULE OR ORDER:

Except as provided with respect to violations of chapter 22.04 of this title, the violation of a proclamation declaring a local emergency, a subsequent proclamation exercising emergency powers, or any order or rule issued pursuant to this chapter, or an order or directive given by police, fire or other emergency services personnel pursuant to authority resulting from this chapter is a class B misdemeanor and punishable as provided by section 1.12.050 of this code or any successor provision. (Ord. 54-13, 2013)

CHAPTER 22.04
PRICE CONTROLS DURING LOCAL EMERGENCY

22.04.010: DEFINITIONS:

The following definitions apply for purposes of this chapter:

CONSUMER: A person who acquires a good or service for consumption.

EMERGENCY TERRITORY: The geographical area:

A. For which there has been a state of local emergency declared; and

B. That is directly affected by the events giving rise to the state of local emergency.

"Emergency territory" does not include a geographical area that is affected by the events giving rise to a state of local emergency only by economic market forces.

EXCESSIVE PRICE: A price for a good or service that exceeds by more than ten percent (10%) the average price charged by that person for that good or service in the thirty (30) day period immediately preceding the day on which the state of emergency is declared.

GOOD: Any personal property displayed, held, or offered for sale by a merchant that is necessary for consumption or use as a direct result of events giving rise to a state of emergency.

RETAIL: The level of distribution where a good or service is typically sold directly, or otherwise provided, to a member of the public who is an end user and does not resell the good or service.

SERVICE: Any activity that is performed in whole or in part for the purpose of financial gain including, but not limited to, personal service, professional service, rental, leasing, or licensing for use that is necessary for consumption or use as a direct result of events giving rise to a state of emergency, provided that "service" shall not include the rental of private residential property. (Ord. 54-13, 2013)

22.04.020: EXCESSIVE PRICE PROHIBITED:

Excessive prices are prohibited as follows:

A. Except as provided in subsection B of this section, if a state of local emergency exists, a person may not charge a consumer an excessive price for goods or services sold or provided at retail during the time period for which a state of local emergency declared by the city exists within the emergency territory.

B. A person may charge an excessive price if:

1. That person's cost of obtaining the good or providing the service exceeds the average cost to the person obtaining the good or providing the service in the thirty (30) day period immediately preceding the day on which the state of local emergency is declared; and

2. The price charged for the good or service does not exceed the sum of:

a. Ten percent (10%) above the total cost to that person of obtaining the good or providing the service; and

b. The person's customary markup.

C. Upon request of the business licensing division or the city attorney's office, a person allegedly charging an excessive price under this section shall provide documentation to the city attorney's office that the person is in compliance with this section.

D. If a good or service has not been sold by a person during the thirty (30) day period immediately preceding the day on which the state of local emergency is declared, a price is not excessive if it does not exceed thirty percent (30%) above the person's total cost of obtaining the good or providing the service. (Ord. 54-13, 2013)

22.04.030: ENFORCEMENT; PENALTY:

Enforcement shall be as follows:

A. To enforce this chapter, business licensing may commence a proceeding following the procedures set forth in section 5.02.260 of this code.

B. In determining whether to issue a cease and desist order; suspend or revoke a business license; or impose civil penalties against a person who violates this section, the hearing examiner shall consider:

1. The person's cost of doing business not accounted for in the cost to the person of the good or service, including costs associated with a decrease in the supply available to a person who relies on a high volume of sales;

2. The person's efforts to comply with this chapter;

3. Whether the average price charged by the person during the thirty (30) day period immediately preceding the day on which the date of local emergency is declared is artificially deflated because the good or service was on sale for lower price than the person customarily charges for the good or service; and

4. Any other factor that the hearing examiner considers appropriate; and

5. In the case of a suspension or revocation of a business license, whether such suspension or rejection shall begin after the state of local emergency has ended.

C. 1. If the hearing examiner finds that a person has violated, or is violating, section 22.04.020 of this chapter the hearing examiner may:

a. Issue a cease and desist order; and/or

b. Subject to subsection C2 of this section, either impose an administrative fine of up to one thousand dollars ($1,000.00) for each violation of section 22.04.020 of this chapter or revoke or suspend the person's business license.

2. Each instance of charging an excessive price under section 22.04.020 of this chapter constitutes a separate violation, but in no case shall any administrative fine imposed under subsection C1 of this section exceed ten thousand dollars ($10,000.00) per day.

D. The city may sue in a court of competent jurisdiction to enforce an order under subsection C of this section.

E. In a suit brought under subsection C of this section, if the city prevails, the court may award the city:

1. Court costs;

2. Attorney fees; and

3. The city's costs incurred in the investigation of the violation of this section. (Ord. 54-13, 2013)

22.04.040: NONAPPLICABILITY:

The provisions of this chapter shall not apply to any part of the city encompassed by a state of emergency declared by the governor of Utah or the president of the United States Of America while such state of emergency declared by the governor or the president remains in effect. (Ord. 54-13, 2013)

CHAPTER 22.05
DISASTER SERVICE VOLUNTEER LEAVE

22.05.010: DEFINITIONS:

As used in this chapter:

CERTIFIED DISASTER SERVICE VOLUNTEER: Any person who has completed the necessary training for and has been certified as a disaster service specialist by the American Red Cross.

CITY: Any city office, officer, official, department, board, commission, institution, bureau, agency, division, or unit of the city, including those within the legislative branch of the city government.

DISASTER: Any disaster designated at level III or higher in the American National Red Cross regulations and procedures.

VOLUNTEER ORGANIZATION: A member of the National Volunteer Organizations Active In Disasters. (Ord. 54-13, 2013)

22.05.020: LEAVE OF ABSENCE; REQUEST FOR LEAVE; APPROVAL BY CITY:

A. A city employee who is a certified disaster service volunteer may be granted leave from work with pay for an aggregate of up to twelve (12) workdays, consecutively or nonconsecutively, in any twelve (12) month period to participate in disaster relief services for a volunteer organization in connection with any disaster, upon the request of the volunteer organization for such employee's services.

B. A city employee requesting leave under this chapter shall file a written request with the employee's supervisor, which includes:

1. The anticipated duration of the leave of absence;

2. The type of service the employee is to provide on behalf of the volunteer organization;

3. The nature and location of the disaster where the employee's services will be provided; and

4. A copy of the written request for the employee's services from an official of the volunteer organization.

C. Nothing contained in this chapter shall be construed to require the city to grant a city employee's request for voluntary disaster service leave if the city determines, in its sole discretion, that the grant of leave would pose a hardship on the city. (Ord. 54-13, 2013)

CHAPTER 22.06
BUILDING OCCUPANCY RESUMPTION PROGRAM

22.06.010: ESTABLISHMENT OF THE BUILDING OCCUPANCY RESUMPTION PROGRAM:

There is hereby established a voluntary building occupancy resumption program ("BORP") through which participants who satisfy the requirements set forth in this chapter can provide for the accelerated inspection and reoccupancy of their building after a significant earthquake that results in damage to buildings. (Ord. 46-13, 2013)

22.06.020: DEFINITIONS:

The terms below have the following meanings when used in this chapter:

APPROVED INSPECTOR: An inspector who has been approved by the city for the roles of: a) reviewing and signing off on those portions of the applicant's BORP plan pertinent to the inspector's area of expertise, and b) performing inspections of appropriate qualifying buildings subsequent to a triggering event.

BORP: Building occupancy resumption program.

BORP CERTIFICATE OF APPROVAL: A certificate issued by the city to the building owner upon approval of the BORP plan pertaining to that particular building.

BORP LIST: The city's list of buildings that have a current BORP certificate of approval and are eligible for inspection by approved inspectors subsequent to a triggering event.

BORP PLAN: A package of information pertaining to a particular building that has been prepared for the purpose of determining whether that building will be included on the city's BORP list.

TRIGGERING EVENT: An earthquake large enough to create a declared state of emergency within the city. (Ord. 46-13, 2013)

22.06.030: ADMINISTRATION:

The BORP program will be administered by the city's building official or by the building official's designee. (Ord. 46-13, 2013)

22.06.040: ADOPTION OF RULES AND REGULATIONS:

The building official or designee may adopt rules and regulations approved by the mayor to implement the provisions of this chapter. Such rules and regulations shall not conflict with this chapter or any other law effective within the boundaries of Salt Lake City. (Ord. 46-13, 2013)

22.06.050: PARTICIPATION IN THE BORP PLAN:

Applicants desiring to add a particular building to the city's BORP list may petition for the inclusion of the building by submitting a BORP plan to the city's building official or designee for review and approval. The building will only be added to the city's BORP list if the building official or designee determines the submitted BORP plan satisfies all requirements set forth in this chapter and in any rules or regulations adopted by the building official or designee in accordance with section 22.06.040 of this chapter. (Ord. 46-13, 2013)

22.06.060: IMPLEMENTATION OF BORP INSPECTIONS:

Upon the occurrence of a triggering event, any building that is included on the city's BORP list may be inspected by the appropriate approved inspectors pursuant to the approved procedures as set forth in this chapter and in any rules and regulations adopted by the building official or designee in accordance with section 22.06.040 of this chapter. (Ord. 46-13, 2013)

22.06.070: TERMINATION OF BORP PLAN ELIGIBILITY:

A building may be removed from the city's BORP list for one or more of the following reasons:

A. The period of BORP list eligibility specified in the rules and regulations adopted by the building official or designee in accordance with section 22.06.040 of this chapter has expired, and the applicant has not submitted any requisite renewal form required by such rules and regulations; or

B. The approved inspectors who participated in the review and preparation of the BORP plan are no longer available to provide necessary inspections. (Ord. 46-13, 2013)
