## 10 Ways to Prepare Your Family for Emergencies

Salt Lake City is at high risk for a natural or man-made disaster. The following are a list of suggestions to help prepare families and neighborhoods for an emergency or disaster.

### 1) Have Emergency "Evacuation"/"Shelter in Place" Plans

- Identify escape routes from your home/work with safe places and gathering points. Ask the question – “What would we do if . . .” a particular set of emergency circumstances was to arise? Think about the possibilities of different events: flood, earthquake, winter storm, etc.
- Make considerations in you plan for family members with special needs and/or pets.

### 2) Have a Family Communications Plan

- Identify an out of state contact. After a disaster it's often easier to make a long distance call than a local call in an impacted area. Family members could call this person and relay messages about where they are and if they are ok.

### 3) Have a 96 hour "Go Kit"

- Portable 96 hour kit that is easily accessible in case you need to leave your home.
- Three day supply of non perishable food items and water (a gallon per person per day). Include a flashlight, a radio, first aid supplies, prescription medications (insulin, blood pressure, allergy, etc.), a whistle, hygiene products, batteries, clothing, and blankets.

### 4) Equip your Car

- Keep your gas tank full and a 96 hour "Go Kit" in your car.

### 5) Reduce home hazards

- Mitigate hazards at home by keeping heavy objects on lower shelves, securing bookcases and large furniture to walls and installing a water heater strap.

### 6) Prepare for Utility Disruption

- Plan for alternate sources of power and heat in case normal utility (gas and electricity) services are interrupted.

### 7) Vital Records and Documents

- Store in a safe place like a safe deposit box but keep copies in your go kit.

### 8) Get involved in neighborhood preparation programs.

- More information can be found at <http://www.slccgov.com/em>.

### 9) Insurance and Inventory

- Be aware of specific hazards that threaten your area and then check to see if you have adequate insurance to protect your family from financial loss.

### 10) Pay attention to "Alert" Notifications

- During an event listen for alert notifications and follow the instructions given. Know which radio, television stations and which web sites will have emergency information in your area.
- Sign up for emergency text message alerts from the City at [www.slcalert.com](http://www.slcalert.com).
