

CONSTRUCTION UPDATE

1700 South; State Street to 700 East

**1700 South is now OPEN in both directions
between 700 East and State Street!**
We appreciate your patience during this roadway reconstruction.

Final project completion and quality control items will be ongoing through December and possibly into January (depending on weather). Remaining items include:

- Roadway striping - will occur on a dry day as soon as the temperature is warm enough to ensure the paint will adhere properly.
- Sidewalk repair - a few sections of sidewalk and pedestrian access ramps remain. This work is ongoing.
- Bus pull-out pads - concrete bus pull-outs are currently being constructed.
- Landscaping - some landscaping grading and repair is ongoing. Crews will return in the spring to complete any landscaping that is not done by the end of December.

Project Overview:

Salt Lake City reconstructed 1700 South from State Street to 500 East in concrete and from 500 East to 700 East in asphalt. This project also added new storm drain; some new water lines and service connections; new curb, gutter, and driveway approaches; wider sidewalks; bicycle lanes and enhanced crosswalks.
