

CONSTRUCTION NOTICE

SALT LAKE CITY & COUNTY BUILDING

September 15, 2016

Status update:

Abstract Masonry is working on the tower, levels 9 – 13. The first delivery of replacement sandstone was received last week. Protech coatings has begun removal the existing coating on the balconies. Carver Sheet Metal is working on fabrication of the flashings for level 2 on the scaffold. Glass Images continues to work on repairing the tower windows.

Grant Mackay is continuing the stone removal in the basement for the seismic upgrade. Currently they are working in the southwest quadrant.

Upcoming activities:

- WW Construction will begin forming, reinforcing and placing concrete for the new receiving system in the basement next week.
- A stone delivery is expected around 9/29/2016.

Parking impacts: None planned at this time
