Salt Lake City Police Department

Police Officer Return to Full Duty Release

Patient Name:	Dr. Name:
Phone:	Phone:
Supervisor:	Address:

The patient named above is a public safety professional. In order to resume their duties, the police officer you are treating must have this document reviewed and signed by you stating that they are physically capable of returning to full, active status with the Salt Lake City Police Department.

Please review the minimum qualifying duties as listed below, check each one and sign if, in your professional opinion, the police officer is capable of meeting these expectations.

Police officers must routinely and safely perform duties that include but are not limited to the following:

Return to full duty date: _____

- Moderately heavy physical activity. Required to push, pull or lift medium heavy weights. Difficult working positions. Must stand, walk or sit uncomfortably for extended periods. Moderate exposure to elements such as heat, cold, dampness, fumes, noise, dust or grease. Exposure to hostile, life-threatening situations. May be required to use physical force to include deadly force in course of assigned duties.
- Considerable exposure to stressful situations as a result of human behavior. In field operations, exposure to stress as well as occupational hazards is of considerable magnitude.
- Required to work irregular hours in addition to regularly scheduled shift on an as needed basis.
- Suppresses crime through identification and apprehension of criminals and recovery of stolen property.
- Regulates non-criminal conduct, such as traffic control, crowd control, and social relations.
