- 1. T-Mobile Cellular Antenna Replacement** - T-mobile, represented by Craig Chagnon of Crown Castle USA Inc, is requesting to replace an existing cellular antenna array with a larger array on an existing cellular service monopole at approximately 523 W 200 North. The monopole received Conditional Use approval in 2001 to exceed the maximum height of 60 feet, but the approval included a condition that the antenna arrays be flush mounted. The request will replace the existing antennas with a larger array that is wider and not flush mounted, and so requires a new conditional use review. The height of the tower will not be increased. The subject property is located in the TSA-UC-T (Transit Station Area, Urban Center, Transition) zoning district and is located in Council District 3, represented by Chris Wharton.
