

This email is to be forwarded to the parties involved in this matter and posted as part of the record of these proceedings.

By this informal email, I am memorializing the arrangements made at the hearing in this matter to provide for further citation of relevant legal authorities.

Appellant shall have until 5 p.m. on Wednesday, June 20 to provide any additional legal authority to support its argument that enforcement of a land use/sign ordinance based commonly, but not exclusively, upon complaints by citizens is unconstitutional.

If no further authority is provided by Appellant by that date and time, then the record will be closed and a decision will follow.

If authority is provided, the City will have until 5 p.m. on Friday, June 22 to respond to that authority. If the City does not respond by that time and date, the record will be closed and a decision will follow.

If the City responds, then the Appellant will have until 5 p.m. on Monday, June 25 to reply to the City's response. The record will then be closed as of that time and date. A decision will then follow, perhaps as soon as Tuesday, June 26.
