

HISTORIC PRESERVATION //

MINOR ALTERATION

ABOUT THE APPLICATION

Thank you for your interest in submitting a Historic Preservation (HP): Minor Alteration application. The following packet will provide general information to get started on your project and guide you through the application process from start to finish. The package is broken down into three sections: Information about the application, a visual diagram of the application process, and the application form.

We highly encourage you to work with our Planning staff prior to submitting an application. For questions regarding any of the information listed in this packet or to set up a pre-submittal meeting please contact us at historicpreservation@slc.gov or give us a call at 801.535.7757.

PURPOSE & INTENT OF THE PROCESS

A minor alteration includes modifications that would not change the character of a contributing building, are reversible and easy to remove, and would not compromise its contributing status. It also includes modifications to noncontributing buildings and accessory structures. Example of minor alterations are:

- Additions to a landmark site or contributing building which are not visible from the street.
- Replacement of windows and doors of a landmark site or contributing building on facades that are not visible from the street.
- Reverting a landmark site or contributing building to its original state.
- Repairs and replacements like-for-like to landmark site or contributing building.
- Any changes to a noncontributing structure or accessory structures.
- New construction or demolition of accessory structures.
- Site improvements, mechanical equipment, solar panels, and seismic upgrades.

Minor alterations may be approved administratively by Planning staff.

LANDMARK SITE

A landmark site is a site included on the Salt Lake City Register of Cultural Resources that meets the criteria outlined in the zoning ordinance. Such sites are of exceptional importance to the city, state, region, or nation and impart high artistic, historic or cultural values. It conveys a sense of time and place and enables the public to interpret the historic character of the site.

CONTRIBUTING STRUCTURE

A contributing structure is a building or a site that has importance to the city, state, region or nation because of it imparts artistic, historic or cultural values. To be considered contributing, a building or site must meet certain criteria outlined in the zoning ordinance. A contributing structure has its major character defining features intact and although minor alterations may have occurred, they are generally reversible.

NONCONTRIBUTING STRUCTURE

A noncontributing structure is a building or site that does not meet the criteria outlined in the zoning ordinance. It includes structures where major character defining features have been so irreversibly altered that the building or site no longer reflects historic form, materials, and details.

CONSULTATION
