

PLANNING PROCESS //

SUBDIVISION: STREET DEDICATION PLAT

ABOUT THE APPLICATION

Thank you for your interest in submitting a Subdivision: Street Dedication Plat application. The following packet will provide general information to get started on your project and guide you through the application process from start to finish. The package is broken down into three sections: Information about the application, a visual diagram of the application process, and the application form.

We highly encourage you to work with our Planning staff prior to submitting an application. For questions regarding any of the information listed in this packet or to set up a pre-submittal meeting please contact us at zoning@slcgov.com or give us a call at 801.535.7757.

PURPOSE & INTENT OF THE PROCESS

The purpose of this section is to establish a process for dedicating streets that are not already dedicated for public use and when no subdivision of land is proposed.

This process may be used when:

- A. Additional right of way for an existing road is proposed by the adjacent landowner;
- B. Additional right of way for an existing road is necessary to provide adequate width for public improvements when the public improvements are required as part of a land use application authorized under Title 21A or as a condition of approval for a land use application under Title 21A.
- C. A public street is proposed to access property that does not currently have access to a public street; or
- D. When a property owner is proposing to construct a public street or portion thereof on land that is currently not part of a public street.
- E. This process does not apply to the dedication of existing private streets unless the requirements of [Chapter 14.54](#) have been satisfied and after the city has accepted a private street for donation to be a public street.
- F. **A street dedication application shall be charged the same fee as a final plat.**

STREET DEDICATION PLAT STANDARDS ([20.22.030](#))

A street dedication plat shall be subject to the following standards:

- A. The proposed street to be dedicated complies with all adopted standards for public streets that apply to the classification, size, or typology for the area, property, or land use identified in the general plan or the zoning map;
- B. The land to be dedicated complies with all applicable subdivision standards in [Chapter 20.26](#);
- C. The proposed street does not create any new lots or result in any existing lot or parcel being separated or split by the proposed street. In this case, the street can only be dedicated through a subdivision plat; and
- D. The proposed street does not create parallel streets that are separated by less than 200 feet.

APPEAL OF DECISION ([20.30](#))

Any person adversely and materially affected by any final decision made by the planning director or designee may file a petition for review of the decision with the planning commission within ten (10) days after the record of decision is posted to the city's website.

Any person adversely affected by any final decision made by the Planning Commission under this chapter may file a petition for review of the decision with the Appeals Hearing Officer within ten (10) days after the decision is rendered.

CHECK	STAFF	REQUIREMENTS
		Submission Requirements for Final Plat (20.10.050.A)
		1. At the time a final plat of a subdivision is submitted to the planning director, the subdivider shall submit therewith the following documents:
<input type="radio"/>	<input type="radio"/>	a. The final plat shall be accompanied by a current property title report naming the persons whose consent is necessary for the preparation and recordation of such plat and for dedication of the streets, alleys and other public places shown on the plat, and certifying that as of the date of the preparation of the report, the persons therein named are all the persons necessary to give clear title to such subdivision;
<input type="radio"/>	<input type="radio"/>	b. If a preliminary soil report was required for the preliminary plat review, a copy of that report shall be included with the final plat. The fact that a soil report has been prepared shall be noted on the final plat and the report shall be recorded as a supporting document with the plat;
<input type="radio"/>	<input type="radio"/>	c. Environmental site assessments and remediation, if remediation was needed, as specified in Subsection 20.26.060.B.
<input type="radio"/>	<input type="radio"/>	d. The public improvement plans, agreement and bonds specified in Chapter 20.12 of this title, or successor sections; and
<input type="radio"/>	<input type="radio"/>	e. Copies of all proposed deed restrictions.
		2. Preparation and Materials on Final Plat: A digital final plat shall be submitted by the subdivider with the attributes listed below and that includes all the following information:
<input type="radio"/>	<input type="radio"/>	a. 24 inches x 36 inches in size with a minimum of ½ inch margins from the edge of the sheet;
<input type="radio"/>	<input type="radio"/>	b. The map shall be oriented with north or east at the top of the sheet, whichever orientation best accommodates the proposed subdivision;
<input type="radio"/>	<input type="radio"/>	c. A north arrow, with all labels and descriptions oriented with the north direction;
<input type="radio"/>	<input type="radio"/>	d. The actual plat drawing shall be made on a scale large enough to clearly show all details, and the workmanship on the finished drawing shall be neat, clear, and readable. The preferred scales are one-inch equals twenty feet (1" = 20') or one-inch equals thirty feet (1" = 30'), but in no cases shall the scale be smaller than one-inch equals one hundred feet (1" = 100');
<input type="radio"/>	<input type="radio"/>	e. The location of the subdivision within the city shall be shown by a small-scale vicinity map inset on the title sheet;
<input type="radio"/>	<input type="radio"/>	f. The title of each sheet of such final plat shall consist of the approved name of the subdivision at the top center and lower right-hand corner of the sheet, followed by the words "Salt Lake City". Plats filed for the purpose of showing land previously subdivided as acreage shall be conspicuously marked with the words "Reversion to Acreage";

CHECK	STAFF	REQUIREMENTS
<input type="radio"/>	<input type="radio"/>	<p>g. An accurate and complete boundary survey to second order accuracy shall be made of the land to be subdivided. A traverse of the exterior boundaries of the tract, and of each block, when computed from field measurements on the ground, shall close within a tolerance of one foot to 15,000' of perimeter;</p>
<input type="radio"/>	<input type="radio"/>	<p>h. The final plat shall show all survey and mathematical information and data necessary to locate all monuments and to locate and retrace all interior and exterior boundary lines appearing thereon, including bearing and distance of straight lines, and central angle, radius, and arc length of curves. Identify the basis of bearing between two existing monuments;</p>
<input type="radio"/>	<input type="radio"/>	<p>i. N/A - Requirement Not Applicable.</p>
<input type="radio"/>	<input type="radio"/>	<p>j. The plat shall show the right of way lines of existing and new streets with the street name and number value of the street, the width of any portion being dedicated, label all streets as private or public, and widths of any existing dedications. The widths and locations of adjacent streets and other public properties within 50' of the subdivision shall be shown. If any street in the subdivision is a continuation or an approximate continuation of an existing street, the conformity, or the amount of nonconformity of such street to such existing streets shall be accurately shown;</p>
<input type="radio"/>	<input type="radio"/>	<p>k. All easements shall be shown by fine dashed lines. The widths of all easements and sufficient ties thereto to locate the same with respect to the subdivision shall be shown. All easements shall be clearly labeled and identified;</p>
<input type="radio"/>	<input type="radio"/>	<p>l. If the subdivision is adjacent to a waterway or any portion of the subdivision is located in special flood hazard area, the map shall show the line of high water with a continuous line and shall also show with a fine continuous line any lots subject to inundation by a 1% chance flood, frequency flood, i.e., a flood having an average frequency of occurrence in the order of once in 100 years although the flood may occur in any year (the 100-year floodplain is defined by the U.S. Army Corps of Engineers).</p> <p>Land that is subject to any overlay district in Chapter 21A.34 that requires a buffer from a waterway shall be depicted on the plat where restrictions to future development apply and include appropriate notes on the plat referencing the applicable overlay district restrictions including the minimum flood elevation of all buildings;</p>
<input type="radio"/>	<input type="radio"/>	<p>m. The plat shall show fully and clearly:</p> <p>(1.) All monuments found, set, reset, replaced, or removed, stated at each point or in legend. Monument caps set by surveyor must be stamped with L.S. number or surveyor and/or company name, and date. Drawings of brass caps, showing marked and stamped data for any existing monuments and the monuments to be set, shall be included on the plat;</p>
<input type="radio"/>	<input type="radio"/>	<p>(2.) Type of boundary markers and lot markers used; and</p>
<input type="radio"/>	<input type="radio"/>	<p>(3.) Other evidence indicating the boundaries of the subdivision as found on the site;</p>

r. After review and approval by the city of the draft final plat, the subdivider shall provide the plat in a form that is acceptable to the county recorder's office for recording the plat after the plat has all required signatures. This version shall be identical to the approved draft final plat.

Public Improvement Plans ([20.10.050.B](#))

Construction plans and details, reports, studies, and permit applications for all required public improvements shall be provided at the time of final plat applications. Public improvement plans shall include all required information to address the requirements of Chapter 20.12 and any applicable provision of Chapter 20.26 and any other applicable section of the Salt Lake City Code of Ordinances, federal law, or Utah Code that regulate the construction or improvement of public infrastructure and improvements.

CHECK	STAFF	REQUIREMENTS
		Public Improvement Required (20.12.020.B)
		<i>The following are minimum improvements that the subdivider normally must agree to install at the subdivider's cost before acceptance and approval of the final subdivision plat by the city:</i>
<input type="radio"/>	<input type="radio"/>	1. Grading, curbs and gutter, paving, drainage, and drainage structures necessary for the proper use and drainage of streets and pedestrianways, and for the public safety;
<input type="radio"/>	<input type="radio"/>	2. Site grading and drainage, taking into consideration the drainage pattern of adjacent improved and unimproved property and treating upstream areas, where appropriate, as though fully improved. All site grading must conform to the specifications contained in Chapter 20.12 of this title;
<input type="radio"/>	<input type="radio"/>	3. All streets and pedestrianways must be graded, and surfaced to widths and grades shown on the improvement plans and profiles. The subdivider must improve the extension of all subdivision streets and pedestrianways to any intercepting or intersecting streets;
<input type="radio"/>	<input type="radio"/>	4. Sidewalks must be installed as shown on the improvement plans;
<input type="radio"/>	<input type="radio"/>	5. Sanitary sewer facilities connecting with the existing city sewer system must be installed to serve the subdivision, with a separate private lateral for each lot, and to grades and sizes shown on the plans;
<input type="radio"/>	<input type="radio"/>	6. Stormwater drains and detention/retention basins must be installed as shown on the plans. Long term stormwater best management practices for stormwater quality must be installed as shown on the plans and the Stormwater Pollution Prevention Plan (SWPPP). All other conditions of the SWPPP shall be completed and permits terminated;
<input type="radio"/>	<input type="radio"/>	7. Water mains and fire hydrants connecting to the water system serving the city must be installed as shown on the plans signed by the director of public utilities. Mains and individual lot services must be of sufficient size to furnish an adequate water supply for each lot or parcel in the subdivision and to provide adequate fire protection;
<input type="radio"/>	<input type="radio"/>	8. Street trees, if required, must be of a type approved by the city and planted in approved locations;
<input type="radio"/>	<input type="radio"/>	9. Street lighting facilities must be provided in accordance with city policy for the area of the city where the subdivision is located, and must be so screened as not to interfere with views from hillsides of the city;

<input type="checkbox"/>	<input type="checkbox"/>	<p>10. All natural gas lines, and telephone, electric power, cable television or other wires or cables must be placed underground. Equipment appurtenant to the underground facilities, such as surface mounted transformers, pedestal mounted terminal boxes and meter cabinets, and concealed ducts may be above ground subject to compliance with Section 21A.40.160, "Ground Mounted Utility Boxes", of this code or its successor. The subdivider shall make necessary arrangements with the utilities involved for the installation of the underground facilities. All installed utilities must meet the minimum separation requirements as shown on the plans; and</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>11. Provisions must be made for any railroad crossings necessary to provide access to or circulation within the proposed subdivision.</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>Public Improvements Statement of Compliance (20.12.020.C) All public improvements required by this section or provided by the subdivider must be documented in the public improvement plans that show all public improvements are constructed to comply with all applicable provisions of the Salt Lake City Code of Ordinances, referenced standards adopted by the city, and any applicable federal standard or Utah Code. All public improvements required by this section that are shown in the public improvement plans shall meet the applicable standards, which include:</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>1. American Public Works Association Manual of Standard Specifications and Manual of Standard Plans 2017 edition;</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>2. Standard Practices for Salt Lake City Public Utilities (January 2010) or its successor;</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>3. Any standard or reference to a standard specifically identified in the Salt Lake City Code of Ordinances;</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>4. Any applicable standard that has been adopted by the State of Utah; and</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>5. Any applicable federal standard.</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>Time and Phasing of Public Improvements (20.12.030) The subdivider may propose a timing and phasing plan for installation of public improvement that complies with this section.</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>A. All public improvements must be installed in each respective phase of the subdivision or future subdivisions.</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>B. All public improvements must be designed such that the first phase has the capacity to accommodate the capacity of future phases.</p>
<input type="checkbox"/>	<input type="checkbox"/>	<p>C. The subdivider shall include a phasing plan that details how each aspect of the subdivision will be platted and subdivided and the anticipated public improvements for each phase.</p>

CHECK	STAFF	REQUIREMENTS
<input type="checkbox"/>	<input type="checkbox"/>	D. The subdivider shall provide an overall concept plan for required public improvements, indicate on the plan what public improvements will be included in each phase, and enough information to demonstrate that the capacity is sufficient for all phases of the subdivision.
<input type="checkbox"/>	<input type="checkbox"/>	E. The public improvement plan must acknowledge that if a subdivision standard or public improvement requirement changes before future phases are platted or constructed, the future phases must comply with those future improvements.
<input type="checkbox"/>	<input type="checkbox"/>	F. Any monument or benchmark that is disturbed or destroyed before acceptance of all improvements, must be replaced by the subdivider under the direction of the city engineer.
		Subdivision Improvement Construction Agreement (20.12.050) (Completed or as a draft, including all information requirements listed below).
<input type="checkbox"/>	<input type="checkbox"/>	A. Before the approval by the mayor of the final plat, and if public infrastructure improvements were conditions of preliminary approval, the subdivider shall execute and file a subdivision improvement construction agreement between the subdivider and the city, specifying the period within which the subdivider must complete all public infrastructure improvement work to the satisfaction of the city engineer, and providing that if the subdivider shall fail to complete the public improvement work within such period, the city may complete the same and recover the full cost and expense thereof from the subdivider's security device. The subdivision improvement construction agreement must also provide for inspection and testing of all public infrastructure improvements and require the subdivider to pay the cost of such inspections and testing.
<input type="checkbox"/>	<input type="checkbox"/>	B. The subdivision improvement construction agreement may also provide for the following: <ol style="list-style-type: none"> 1. Construction of the public infrastructure improvements in units or phases; or 2. An extension of time under the conditions specified in this agreement.
<input type="checkbox"/>	<input type="checkbox"/>	Bond and Security Agreement (20.12.060) (Must be finalized before plat will be signed by Public Utilities and Engineering). <i>The subdivider shall file with the city engineer, together with the subdivision improvement construction agreement, a security device in the manner and as described in the subdivision improvement construction agreement.</i>
<input type="checkbox"/>	<input type="checkbox"/>	Demonstrated compliance with all applicable Subdivision Standards in Chapter 20.26. Note: The applicant is responsible for identifying all Subdivision Design Standards that may not be applicable to their application. As part of the review process, the Planning Division is responsible for reviewing the specific Subdivision Design Standards and determine if the standard is applicable.
