Deb & Nora,

Please forward and post as appropriate.

Thanks,

Carl

Subject: Landmarks mtg in re 454-466 E So Temple

My wife and I own and live in an historic home on South Temple, and care deeply about the future of this once wonderful street. Someone left a broadsheet on our door yesterday urging our attendance at tonight's Landmark Commission meeting, and our support of their position on precisely what should be built (evidently instead of something else that's in the works) on the now vacant lot at 500 E x So Temple. Unfortunately, neither of us can be in attendance tonight.

I am disturbed by the anonymity of the overlong, too late, and too specific counterproposal to a project that is not described or referenced. I'd love to contact them to see what it's really all about. I found next to nothing on the internet about the proposal to be discussed tonight, and nothing at all about any opposition to it, so for all I know, it's a wonderful and appropriate design. For all I know, the authors of the last minute handout are a bunch of cranks and busybodies. Wish I could be there, where and when, perhaps, all will be revealed. Guess I'll have to hope the Tribune covers the discussion. Or that the opposing party gets it together to inform residents and neighbors about both sides of the issue.
