Good Afternoon Carl,

I have updated the perspectives based on Kelly's comments. The perspectives done for the resubmittal were manipulated because I thought it was requested to show the historic home next to the Vine Street townhomes. Due to the nature of the street I had merged multiple photos together, this warps the perspective, and although it was attempted to make the renderings as accurate as possible, that method of collage causes some distortions. In the new perspectives I didn't manipulate the background photo. In the shared folder there is one image for the original photo (designated with WO at the end), and the image with the Vine Street townhomes superimposed in the photo. Please find the images here:

Pierre & Michelle,

I have received a further email from the adjacent owner which I wanted to draw to your attention. Please see correspondence below.

Thanks,

Carl

Carl,

This email appeared to be undelivered due to file size. I've attempted to shrink the size of the images.

Good Morning Carl,

I overlaid our site plan onto an aerial view of the area. See attached.

Hi Michelle,

Thank you for the revised perspectives. I will ensure these are forwarded to the Commission for their review. I will also forward to Kelly Badger in answer to his previous points.

I wanted to check whether you are still providing a revised / additional site plan which would confirm the footprint of the buildings either side of your site? I think I understood from Pierre that you were working on that. I look forward to that when it is available.

Thanks again,

Carl
