

**Consistent with Staff Recommendation (Approval with condition):** Based on the analysis and findings listed in the staff report, testimony and the proposal presented, I move that the Commission approve this application for a Certificate of Appropriateness for New Construction, subject to the condition that:

1. The detailed design approval is delegated to Staff.

**Not Consistent with Staff Recommendation (Denial):** Based on the analysis and findings listed in the staff report, testimony and the proposal presented, I move that the Commission deny this application for a Certificate of Appropriateness for New Construction, based on the following standards:

Specifically, the Commission finds that the proposed project does not comply with the review standards based on the following findings (Commissioner then states findings based on the following Standards to support the motion):

1. Standard 1: Scale and Form:

- a. Height and Width: The proposed height and width shall be visually compatible with surrounding structures and streetscape;
- b. Proportion of Principal Facades: The relationship of the width to the height of the principal elevations shall be in scale with surrounding structures and streetscape; and,
- c. Roof Shape: The roof shape of a structure shall be visually compatible with the surrounding structures and streetscape; and
- d. Scale of a Structure: The size and mass of the structure shall be visually compatible with the size and mass of surrounding structures and streetscape.

2. Standard 2: Composition of Principal Facades:

- a. Proportion of Openings: The relationship of the width to the height of windows and doors of the structure shall be visually compatible with surrounding structures and streetscape;
- b. Rhythm of Solids To Voids In Facades: The relationship of solids to voids in the facade of the structure shall be visually compatible with surrounding structures and streetscape;
- c. Rhythm of Entrance Porch And Other Projections: The relationship of entrances and other projections to sidewalks shall be visually compatible with surrounding structures and streetscape; and
- d. Relationship of Materials: The relationship of the color and texture of materials (other than paint color) of the facade shall be visually compatible with the predominant materials used in surrounding structures and streetscape.

3. Standard 3: Relationship to Street:

- a. Walls of Continuity: Facades and site structures, such as walls, fences and landscape masses, shall, when it is characteristic of the area, form continuity along a street to ensure visual compatibility with the structures, public ways and places to which such elements are visually related;
- b. Rhythm of Spacing And Structures On Streets: The relationship of a structure or object to the open space between it and adjoining structures or objects shall be visually compatible with the structures, objects, public ways and places to which it is visually related;
- c. Directional Expression of Principal Elevation: A structure shall be visually compatible with the structures, public ways and places to which it is visually related in its orientation toward the street; and
- d. Streetscape; Pedestrian Improvements: Streetscape and pedestrian improvements and any change in its appearance shall be compatible to the historic character of the landmark site or H historic preservation overlay district.

4. Standard 4: Subdivision of Lots:

The planning director shall review subdivision plats proposed for property within an H historic preservation overlay district or of a landmark site and may require changes to ensure the proposed subdivision will be compatible with the historic character of the district and/or site(s).
