

Amendments to Billboard Ordinance

Department of
Community and
Neighborhoods
Planning
Division

Summary of Proposal: The purpose of proposed changes to the billboard ordinance is to align more closely with recent changes to Utah state code regulating billboards. Part of that is to discontinue the city’s “billboard bank” and instead refer primarily to state code for most future billboard modification, relocation, or installation. The changes also include specifics on size, height, and spacing of billboards when not already specified in the state code.

Process: The purpose of the open house is to obtain public comment on the proposed changes and help planning staff identify concerns and issues from the public. The Salt Lake City Planning Commission will hold a public hearing at a later date where they will take public comment on the proposed ordinance changes and make a *recommendation* to the City Council. The Salt Lake City Council is the decision-making body for ordinance amendments such as this one.
