

07.09.2024

The Other Side Academy Behavioral Health Training Center Conditional Use Narrative

Project Description:

The Other Side Academy project at 630 E 100 S consists of two parts. The first is an interior remodel of the existing meetinghouse building to accommodate the expanded educational and training program of the Academy. As advised by the planning department, this portion requires a conditional use permit. The second is a multifamily residential building that will sit on a portion of the existing parking lot behind the existing structures. This is a permitted use. This fulfills the Central City Neighborhood goal to "target at-grade parking lots for mixed-use development projects."

The intent of the Academy's expanded program is to prepare and train vagrant individuals for relocation to the tiny home village on the west side of the city. The existing meetinghouse will contain the educational and training portion of the program. This will include classrooms, kitchen and dining, recreation, and offices. The interior remodel will include a redesign of the kitchen which will require an exterior freezer. This will be shielded from the street view with a brick wall wrapping it to match the existing. As advised by the planning staff, this will be handled as a minor alteration with approval by staff. Other upgrades will include removing non-compliant ramps and replacing them with compliant stairs and an ADA lift. Additional ADA compliant restrooms will be added. Interior finishes will be replaced as well.

Response to Standards on Page 2 of the Conditional Use Application:

Per Table 21A.33.020: Table of Permitted and Conditional Uses for Residential Districts, the planning department has advised that Adult Daycare is the most appropriate use which is a conditional use in the RMF-45 Zone. The use as described above provides a great service to the city by helping rehabilitate individuals suffering from various conditions and ailments that have put them on the street. This program has seen great success in this effort which will alleviate the many issues and crimes associated with homelessness in our community and as such provides a great public benefit with minimal if any detrimental impacts.

The existing meetinghouse building is an adaptive reuse project maintaining its historical presence and meaning within the city fabric. It is being refurbished and refreshed, and functionally serves the same as when it was a religious meetinghouse. There are places to gather for instruction, education, recreation, office use, and kitchen and dining.

Per 21A.54.030: Categories of Conditional Uses, Planning Commission approval will be required as the proposed project sits in a residential zoning district.

Per 21A.54.080: Standards for Conditional Uses, the use complies with the applicable provisions of the code and is compatible with the surrounding uses which are largely residential in nature, both multifamily and single-family. The functions in this existing building are complementary to the primary function of housing located in the permitted multi-family project adjacent to it on-site. Adaptive reuse projects are encouraged by the city and this use is consistent with planning policies, documents and master plan.

Application Questions:

What are the anticipated hours of operation?

7 am – 7 pm

What are the anticipated peak hours for the proposed use? Peak hours refer to the hours of the day with the highest number of customers, employees, deliveries, or activities.

8 am – 6 pm

Is there any anticipated outdoor activity associated with the use?

No.

Is there enough space on the site to provide adequate movement, queueing, and storing of vehicles? The space should be based on the anticipated trip generation of similar uses in a similar environment either in Salt Lake City or in similar cities.

The historic accesses into the site will be widened to meet requirements of fire truck movements which are the most severe due to their size. This has been reviewed with city's fire engineer and was deemed satisfactory. Personal vehicle parking is sufficient for the uses as described below.

This project is unique in that the vast majority of the occupants of The Other Side Academy program do not have vehicles since they are generally living on the street without resources to own and maintain vehicles. Most of the vehicles on the site will be used by staff who run the program housed primarily in the existing meetinghouse building. This shared use is an ideal situation to take advantage of the parking reductions allowed by Table 21A.44.050-A: Shared Parking Reduction Factors. The reduction factor is 1.3 between Multi-Family Residential and Other Non-Residential uses. In addition, the city has advised us that there is a proposed ordinance that is anticipated to pass to allow a parking reduction of 40% for adaptive reuse of existing buildings which applies to the meetinghouse building on the site.

Section 21A.44.050: Alternatives to Minimum and Maximum Parking Calculations also allows an additional reduction for Affordable Housing. Subsection D states, "Affordable & Senior Housing (Multi-Family Structures): The minimum number of required off street parking spaces for multi-family residential developments with at

least ten (10) dwelling units may be reduced by twenty-five percent (25%) if the multi-family development has: 1. A minimum of twenty-five percent (25%) of the dwelling units are restricted to residents with not greater than sixty percent (60%) area median income (AMI) for leased units." The proposed use meets this standard as the program's population is mainly homeless individuals under the 60% AMI threshold.

The same section continues, "For a development that meets any of the scenarios above, an additional reduction of up to fifteen percent (15%) may be allowed when the development is located within one-quarter mile (when measured radially in a straight line from the subject property line) of a bus stop that is serviced by the same route at least every fifteen (15) minutes during daytime hours, Monday - Saturday. The reductions for affordable and senior housing can be combined with any other allowed reductions for a combined total not to exceed eighty percent (80%)."

This project has several bus stops and different routes within a quarter mile of it's boundaries. The closest is on 100 S about 200' from its northeast property line on the same side of the street. Those within a quarter mile have been marked on the image below. The bus schedules are attached at the end of this document showing access to at least one every 15 minutes during daytime hours.

Figure 1: Bus stops within 1/4 mile of the project site

Figure 2: 1/4 mile radius circle from the project site

Parking calculations are as follows:

Use 1: Multi-family Residential – 1.25 per 2-bedroom units

(28) 2-bed units = 35.0 parking spaces

(4) 1-bed units = 4.0 parking spaces

Total = **39.0 parking spaces**

Use 2: Adult Day Care – 2 spaces per 1,000 sf

$14,388 \text{ SF} \times 2/1000 \text{ SF} = \mathbf{28.78 \text{ parking spaces}}$

Primary Calculation using Table 21A.44.050-A: Shared Parking Reduction Factors

- Total parking spaces: $39.0 + 28.78 = 67.78$ parking spaces
- Reduction factor per Table 21A.44.050-A: $67.78/1.3 = 52.14$ parking spaces. $52.14/67.77 = 0.7694$. $1.0 - 0.7694 = 23.06\%$ reduction.
- Affordable housing reduction (25%) + Proximity to bus stops reduction (15%) = 40% therefore, $52.14 \times 0.60 = 31.28$ parking spaces
- Total Provided = 34 (okay).

Alternate Calculation: Pending Ordinance Reduction (may apply if ordinance passes)

- Reduction factor per pending ordinance on existing building: $28.78 \times 0.60 = 17.27$ parking spaces
- Reduction per 21A.44.050 for new housing: $39.0 / 1.3 = 30$
- Total parking spaces $17.27 + 30 = 47.27$ parking spaces
- Affordable housing reduction (25%) + Proximity to bus stops reduction (15%)
= 40% therefore, $47.27 \times 0.60 = 28.36$ parking spaces
- Total Provided = 34 (okay)

How will the waste generated by the use be stored and handled on site? How will it be removed from the site?

There is a dumpster enclosure provided at the rear of the site that will hold waste until it is removed by dumpster truck as needed.

What is the anticipated amount of water consumption of the proposed use?

Anticipated sanitary discharge for the building = 9,200 gallons per day
Anticipated water usage per day = 8,320 GPD

What is the anticipated level of emissions generated by the proposed use?

We don't anticipate any emissions from the building outside of normal residential exhaust and heat pump heat rejection.

Are there trees with a trunk circumference greater than 6 inches on the property that will be removed?

There are existing trees that will need to be removed to widen the access drives leading to the parking lot at the back of the site. The widening is necessary to facilitate fire-truck access. Perimeter parking lot landscaping of 15' in width is proposed to preserve the mature trees at the south side of the site providing a visual buffer for the neighboring properties on that side of the site.

What is the anticipated amount of grading required for the proposed development? Does it include the moving or removing of any pollutant or contaminant in the soil from the site?

There will be some regrading in the portion of the site where the new apartment sits to ensure all exits from the building have a gentle slope and are ADA compliant. The parking lot will be modified a little to install underground retention chambers due to the lack of storm sewer lines near the site. The grading plan has been attached below.

Will the proposed use produce any dust, odor, smoke, noise, vibrations, or use any chemicals, toxins, heat, or radiation? If so, how will the impact be addressed? Has the applicant been in contact with the regulatory agency that regulates the specific impact?

Comparatively, this project will have much less noise and other detrimental effects during construction than a traditional project. This is because the housing portion is a modular development. The structure and interiors will be mostly built in a factory which will then ship the modules to the site to be erected in a matter of days rather than months. The exterior finish materials, utility connections, and a few other items will be installed on site as necessary after the modules are placed. This method results in greatly reduced noise, dust, odors, vibrations, etc.

The modifications to the existing building are minimal and mostly interior in nature. They consist of providing ADA access and compliant restrooms to the building, upgrading some mechanical and electrical components that have outlived their useful lives, and replacing worn out finishes and fixtures. The one exterior modification will be to add an exterior freezer to the east side attached to the kitchen. This will be wrapped in a brick veneer to blend in with the rest of the building.

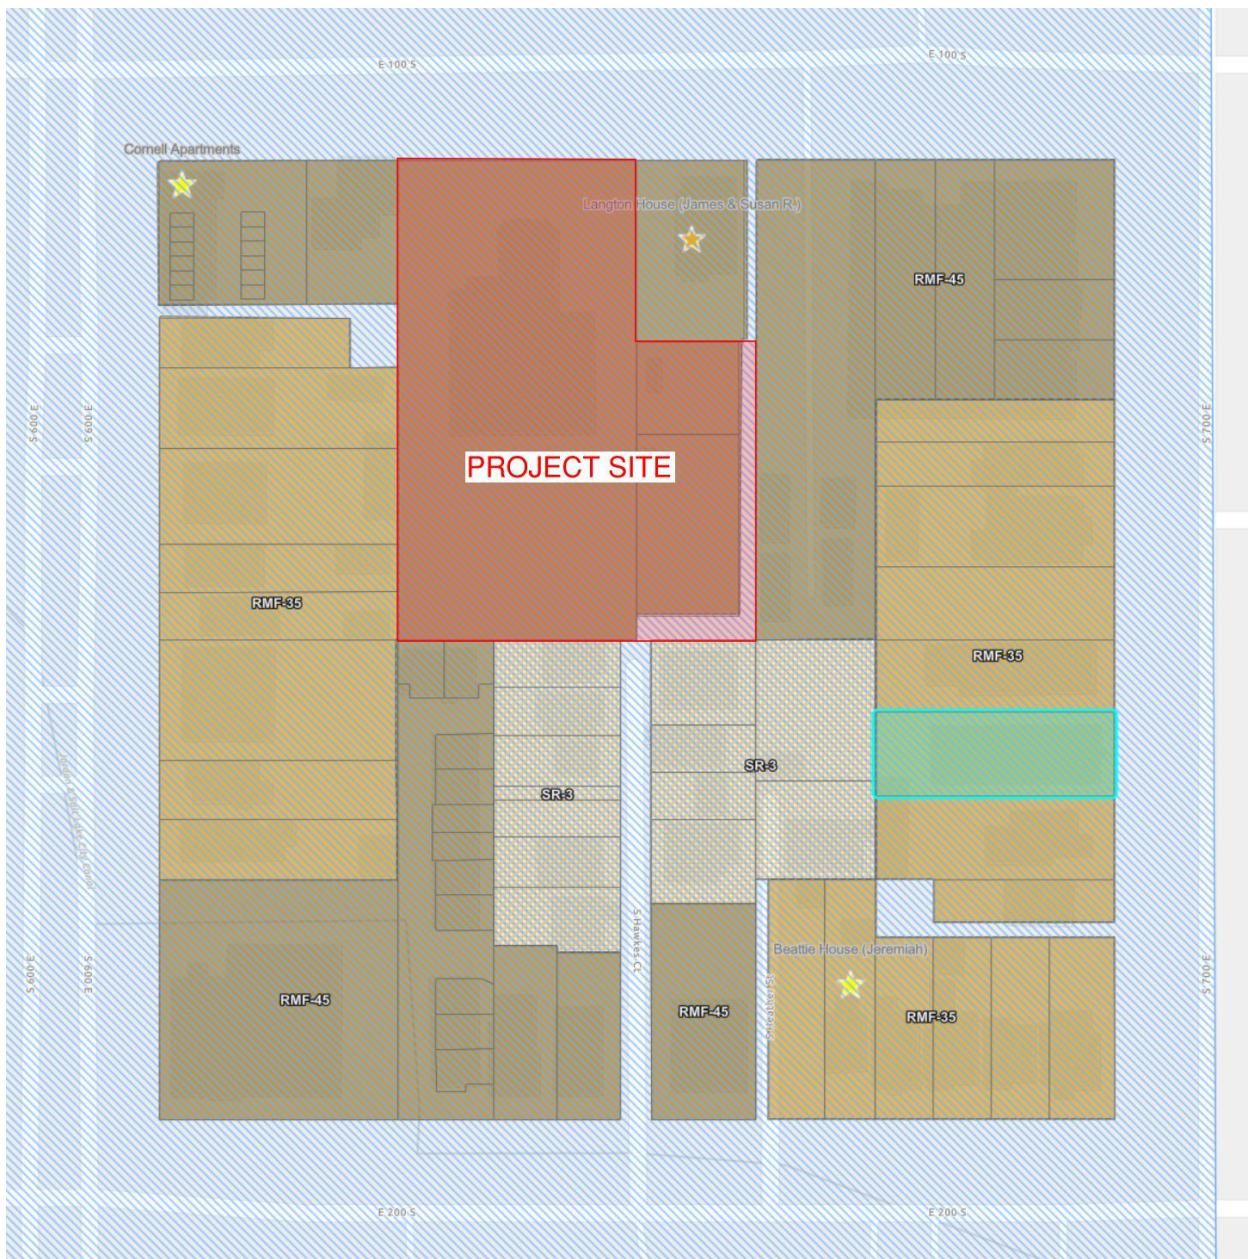

There aren't any known contaminants on the site. Dust will be mitigated by keeping the exposed soil moist. The foundations are traditional shallow spread footings since there is no basement. This minimizes vibrations typically associated with deep foundation structures or deep excavations. Most of the exterior finishes (brick, fiber-cement board, and metal panels) installed on site are factory finished which keeps odors to a minimum. Smoke, chemicals, toxins, heat and radiation are not anticipated.

Are the locations of all utility needs identified on the site plan and located to avoid creating a hazardous situation? Have utility providers been made aware of the proposed use and is there any information about utility needs?

The utility plan has addressed DRC comments and has the required separations between utility lines (see attachment). In addition, the power company has been engaged as well as internet providers.

What are the land uses adjacent to the property (abutting and across-the-street properties)?

The property is in a RMF-45 zone. The property to the east is in the same zone with a 4-story housing project on the site and parking area immediately adjacent to the proposed building. To the south is a SR3 zone with 2-story apartments and houses. The southwestern corner of the site is in the same RMF-45 zone as the project site and has a 3-story apartment building. The west side of the site abuts an RMF-35 zone with 3 to 3-1/2 story historic apartments. The northwest corner of the site once again is an extension of the RMF-45 zone. It has a single-story retail/service type building. See the zoning map below.

Are exterior lights located and shielded to direct light away from adjacent uses and downwards (not directed to the sky)?

Exterior lights are placed to illuminate the parking area and walkways outside the building and keep light trespass on adjacent uses low. Exterior fixtures are dark sky compliant.

Are there access conflicts caused by the location or proximity of walkways, sidewalks, driveways, public streets, or public spaces? Are there access conflicts caused by any proposed or existing structure on the property or adjacent to the property?

The accesses into the site will remain as they have been historically, except they will be improved by widening to provide adequate fire-truck access. The existing

structure on the site will essentially remain as is. No conflicts with walkways or streets are present. Neither are there any conflicts with structures on or adjacent to the property. The proposed building meets the required zoning setbacks.

How will the proposed use be separated from adjacent land uses? What screening or buffering features will be provided to reduce any impact identified in these questions?

The existing building will remain in the fabric of the street front and block as it has for the last 80 years. The proposed building meets the required zoning and code setbacks with existing fencing. New landscaping surrounding the proposed building will beautify what is currently a deteriorating asphalt parking lot for any neighboring properties with views into the project site.

EXISTING CONDITIONS PLAN

100 SOUTH

This is the preferred site plan. The parking lot landscaping is handled with a 15' perimeter landscaping buffer. On its east side we are about 18" shy of the full 15', therefore we're asking for an exception for that small shortage.

(X) SITE PLAN KEYED NOTES:

- 1 INSTALL CURB AND GUTTER. SEE DETAIL 1 ON SHEET C400.
- 2 INSTALL SIDEWALK. SEE DETAIL 2 ON SHEET C400.
- 3 INSTALL ASPHALT AND BASE. SEE DETAIL 3 ON SHEET C400.
- 4 INSTALL ADA RAMP PER DETAIL 4 SHEET C400.
- 5 INSTALL DETECTABLE WARNING SURFACE PER DETAIL 4 SHEET C400.
- 6 DUMPSTER ENCLOSURE. SEE LANDSCAPE PLANS FOR DETAILS. SEE DETAIL 5 SHEET C400 FOR CONCRETE PAD SECTION
- 7 PAVEMENT STRIPING
- 8 INSTALL MODULAR BLOCK RETAINING WALL. REFER TO ARCHITECTURAL & STRUCTURAL PLANS FOR ADDITIONAL DETAILS.
- 9 INSTALL TYPE P CURB. SEE DETAIL 7 ON SHEET C400
- 10 INSTALL RELEASE CURB. SEE DETAIL 8 ON SHEET C400

PAVING LEGEND

- CONCRETE SIDEWALK PAVEMENT PER DETAIL 3 ON SHEET C400
- ASPHALT PAVEMENT PER DETAIL 3 SHEET C400
- RELEASE CURB PER DETAIL 8 SHEET C400

Parking calculations are as follows:

Use 1: Multi-family Residential - 1.25 per 2-bedroom units
(28) 2-bed units = 35.0 parking spaces
(4) 1-bed units = 4.0 parking spaces
Total = **39.0 parking spaces**

Use 2: Adult Day Care - 2 spaces per 1,000 sf
14,388 SF x 2/1000 SF = **28.78 parking spaces**

Primary Calculation using Table 21A.44.050-A: Shared Parking Reduction Factors

- Total parking spaces: 39.0 + 28.78 = 67.78 parking spaces
- Reduction factor per Table 21A.44.050-A: 67.78/1.3 = 52.14 parking spaces.
 $52.14/67.77 = 0.7694$. $1.0 - 0.7694 = 23.06\%$ reduction.
- Affordable housing reduction (25%) + Proximity to bus stops reduction (15%) = 40% therefore, $52.14 \times 0.60 = 31.28$ parking spaces
- Total Provided = 34 (okay).

Alternate Calculation: Pending Ordinance Reduction (may apply if ordinance passes)

- Reduction factor per pending ordinance on existing building: 28.78 x 0.60 = 17.27 parking spaces
- Reduction per 21A.44.050 for new housing: $39.0/1.3 = 30$
- Total parking spaces $17.27 + 30 = 47.27$ parking spaces
- Affordable housing reduction (25%) + Proximity to bus stops reduction (15%) = 40% therefore, $47.27 \times 0.60 = 28.36$ parking spaces
- Total Provided = 34 (okay)

***NOTE:**
CONTRACTOR TO VERIFY THE LOCATION OF ALL EXISTING UTILITIES PRIOR TO BEGINNING CONSTRUCTION.

This figure is a detailed civil engineering plan for a property located at 100 South. The plan shows a complex network of underground pipes, valves, and utility connections. Key features include:

- Water Supply:** A main line labeled "170.25' 6" PVC-S=1.00%" (INV: 4365.55) enters from the top left. It branches into several lines, including one to a "WATER VAULT" (INV: 4371.59) and another to a "ROW LINE TYP".
- Drainage and Sewerage:** A large network of pipes, including PVC and Copper, is shown throughout the property. Specific segments include "11.17' 6" PVC-S=1.00%" (INV: 4374.88), "169.15' 8" PVC-S=0.98%" (INV: 4371.58), and "19.92' 6" PVC-S=1.00%" (INV: 4371.63).
- Utilities:** The plan includes connections for "STUB FOR BUILDING CONNECTION" (multiple locations), "CLEANOUT" points (e.g., SS#10, SS#11, SS#13, SS#18), and a "FIRE HYDRANT" (INV: 4369.82).
- Structures:** A "Drainage Chamber" is indicated with the note "SEE SHEET C200 FOR DRAINAGE CHAMBER INFORMATION". Other structures include "4' MH SD#1" (INV: 4371.95) and "48"x36" CB SD#2" (INV: 4369.82).
- Landmarks:** The plan shows property boundaries marked as "PROPERTY LINE TYP" and includes several trees and shrubs.

The vertical axis on the right side of the plan ranges from 4 to 15, likely representing elevation or depth levels.

LEGEND- FLOOR PLANS

The logo features the lowercase letters 'e4h' in a large, white, sans-serif font. Above 'e4h', the words 'ENVIRONMENTS FOR HEALTH' are stacked in a smaller, white, sans-serif font. To the right of 'e4h', the word 'ARCHITECTURE' is written vertically in a large, bold, orange, sans-serif font.

GENERAL NOTES- FLOOR PLANS

1. DO NOT SCALE DRAWINGS. IF DIMENSIONS ARE IN QUESTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING CLARIFICATIONS FROM THE ARCHITECT.
 2. DIMENSIONS SHOWN ON THE FLOOR PLANS ARE FROM CENTERLINE OF COLUMNS TO FACE OF FINISH INTERIOR WALLS AND TO OUTSIDE FACE OF EXTERIOR WALLS UNLESS OTHERWISE INDICATED OR DETAILED.
 3. DIMENSIONS AT DOOR AND WINDOW OPENINGS ARE TO ROUGH OPENING UNLESS OTHERWISE NOTED. MASONRY PLAN DIMENSIONS ARE NOMINAL.
 4. PIPING LOCATED ABOVE GRADE AND INSIDE THE BUILDING SHALL BE CONCEALED IN FURRED SPACES WITH THE EXCEPTION OF PIPING IN STAIRWAYS, EQUIPMENT ROOMS, SHELL SPACES, AND MEP SUPPORT SPACES. THE CONTRACTOR SHALL COORDINATE WITH OTHER TRADES TO PROVIDE FURRING FOR PIPING INSTALLED IN FINISHED AREAS.
 5. REFER TO LIFE SAFETY PLANS FOR RATING REQUIREMENTS OF PARTITIONS AND DOORS.
 6. CAULK AT JUNCTURE OF INTERIOR FACES OF DOOR FRAMES, VIEW WINDOW FRAMES, EXT. WINDOW FRAMES, CABINET WORK AND CASEWORK WITH ADJACENT MATERIALS EVEN THOUGH JOINT MAY NOT BE VISIBLE.
 7. PROVIDE BLOCKING FOR ALL WALL-MOUNTED ACCESSORIES, EQUIPMENT AND CABINETRY.

REFERENCED NOTES

- 01 NEW FLOOR FRAMING AND SUBFLOOR PER STRUCTURAL (HATCHED AREA IN PLAN).
- 02 NEW STAIRS PER STRUCTURAL.
- 03 VERIFY EXISTING COLUMN.
- 01 NEW 90" x 96" OPENING, HEADER PER STRUCTURAL. WRAP WITH GYP BD AND MATCH FINISH OF SURROUNDING WALL.
- 02 ROLL DOWN SHUTTER, COUNTER HEIGHT SILL.
- 02 ALIGN NEW WALL WITH FACE OF EXISTING WALL OR COLUMN, TYP.
- 04 NEW BATHROOM, FINISHES BY OTHERS.
- 06 NEW KITCHEN LAYOUT PER KITCHEN DESIGNER. FINISHES BY OTHERS.
- 0.01 NEW CEILING MOUNTED PROJECTION SCREEN.
- 1.01 PROVIDE NEW WASHER AND DRYER CONNECTIONS PER LAYOUT.
- 2.01 FURNITURE AND EQUIPMENT LAYOUT FOR REFERENCE, N.I.C., TYP.
- 3.05 NEW KIT BUILT WALK-IN FREEZER WITH CMU SHELL.
- 4.01 NEW PLATFORM LIFT, BASIS OF DESIGN: BRUNO VPL-3300B UNENCLOSED.
- 2.01 NEW HI-LO ADA ACCESSIBLE DRINKING FOUNTAINS.
- 6.01 TABLETOP PROJECTOR, VERIFY A/V AND POWER CONNECTION.
- 6.04 PROVIDE POWER AND DATA FOR NEW WORKSTATIONS.

FLOOR PLAN- LEVEL 1

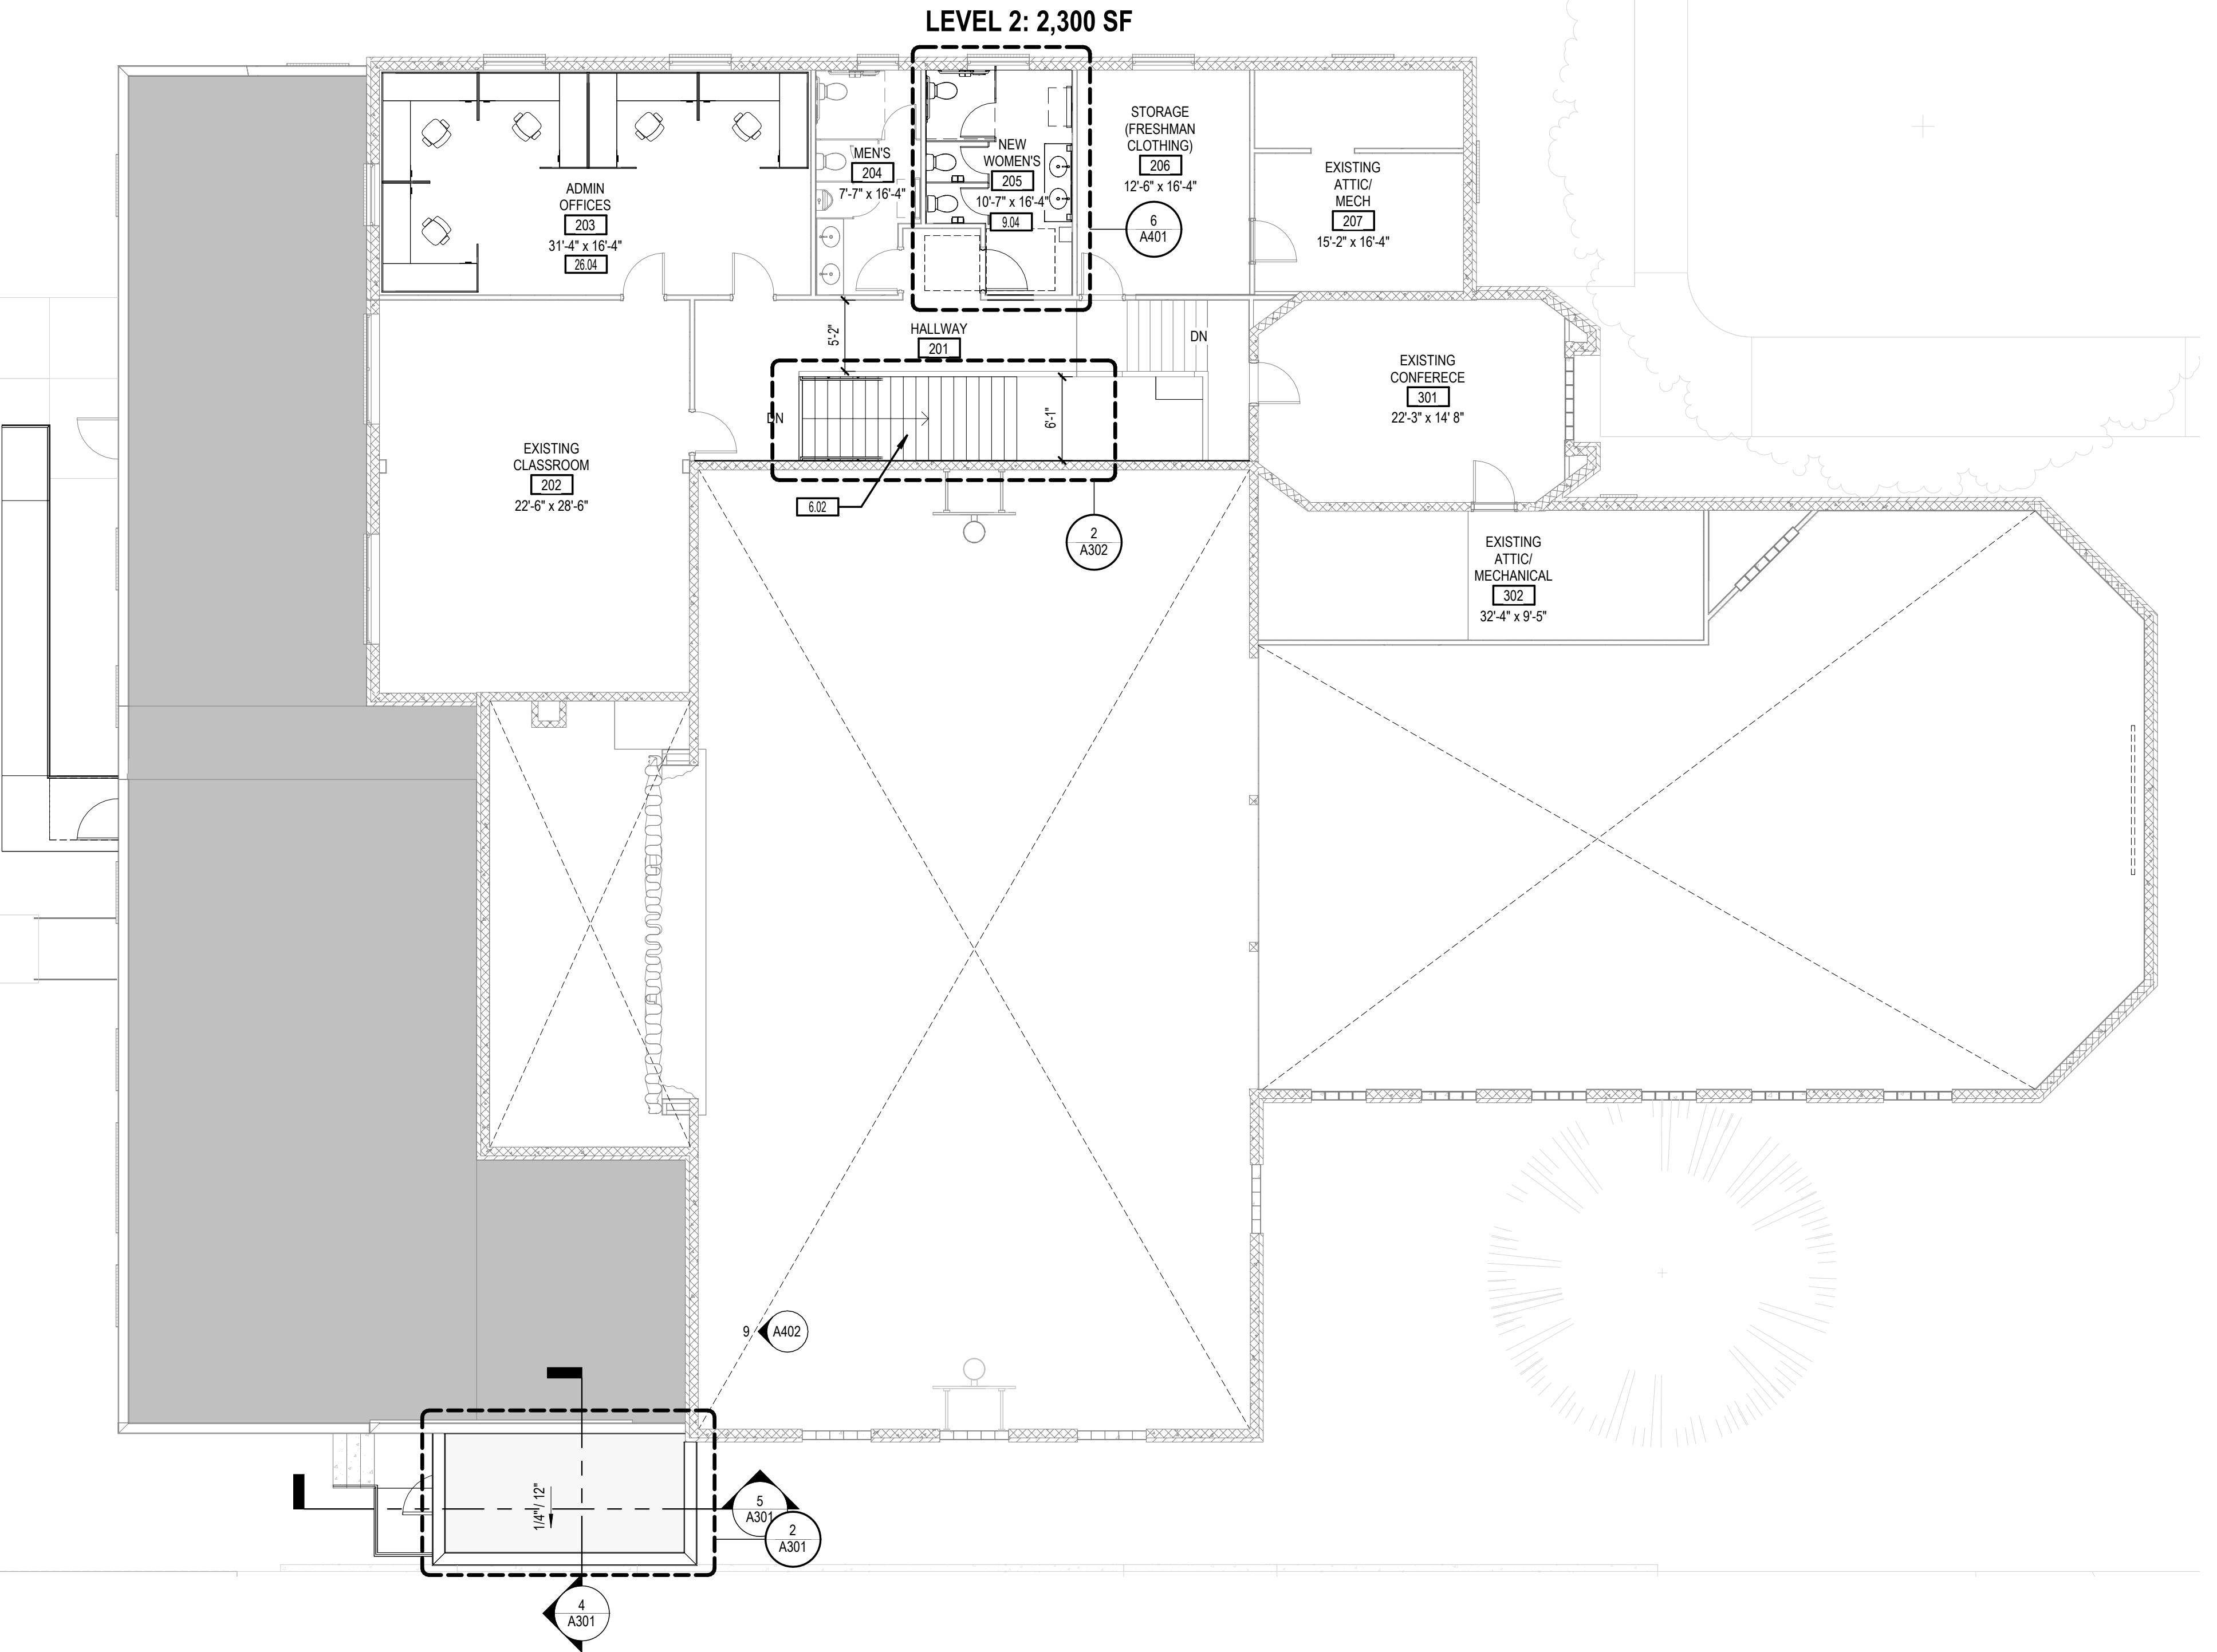

FLOOR PLAN- LEVEL 1

This detailed architectural floor plan illustrates the layout of a large institutional facility, likely a correctional or rehabilitation center. The plan includes various functional areas such as classrooms, dormitory-style accommodations, a cafeteria, a gymnasium, and a stage area. Key rooms include:

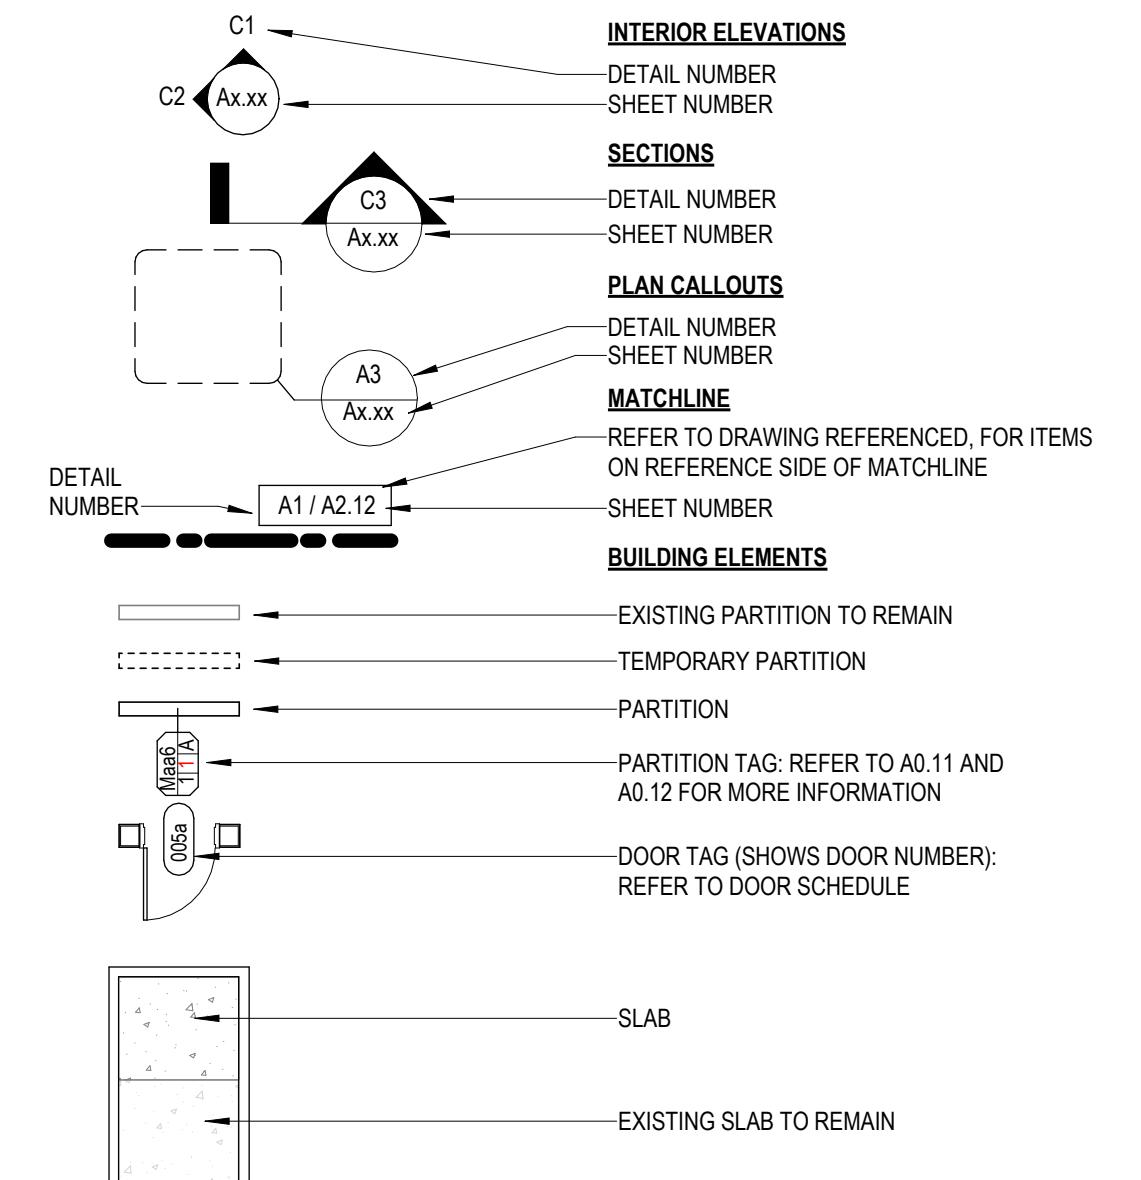

- Classrooms:** CLASSROOM (012) 17' x 15'-8", CLASSROOM (SOCIAL ENTERPRISE ROOM) (002) 24'-5" x 16'-3".
- Hallways:** LOWER HALLWAY (001), UPPER HALLWAY (108) 100'-0" x 4'-6", STAIRS (109).
- Bathrooms:** WOMENS (009) 11'-2" x 16'-3", NEW MENS (010) 11'-8" x 16'-3", MENTAL THERAPY (011) 11'-8" x 16'-3".
- Storage:** OUTDOOR STORAGE (000) 12'-4" x 5'-9", STORAGE (003) 4' x 6'-4", JANIT (007) 4'-4" x 6'-1", STORAGE (008) 8'0", W/D (11.01), D/M (11.01).
- Support Areas:** COACH'S OFFICE (004) 17' x 9'-6", LAUNDRY (005) 17' x 11', CONFERENCE/DINING ROOM (109) 25'-0" x 28'-0", KITCHEN (107A) 21'-9" x 12'-9", WALK-IN FREEZER (107B) 14' x 6'.
- Public Areas:** TV ROOM (006) 15' x 23', STAGE (106) 15'-2" x 32'-6", GYM (105) 40' x 69'-8", FOYER (101) 14'-10" x 24'-8", VESTIBULE (100) 7' x 14', OFFICE (INTERVIEW/INTAKE) (103) 17' x 9'-4", TRAINING/MEETING HALL (104) 64'-4" x 32'-3".
- Staircases:** DN (Down), UP (Up), 11'-7" 3/4", 14.01, 22.01.
- Emergency Exits:** A401, A302, A402, A301.

The plan also features several dashed lines and arrows indicating circulation paths and specific access points. The overall layout is designed for efficiency and safety, with clear delineations between private and public spaces.

HOW TO USE THIS SCHEDULE

Determine your timepoint based on when you want to leave or when you want to arrive. Read across for your destination and down for your time and direction of travel. A route map is provided to help you relate to the timepoints shown. Weekday, Saturday & Sunday schedules differ from one another.

UTA SERVICE DIRECTORY

- General Information, Schedules, Trip Planning and Customer Feedback: 801-RIDE-UTA (801-743-3882)
- Outside Salt Lake County call 888-RIDE-UTA (888-743-3882)
- For 24 hour automated service for next bus available use option 1. Have stop number and 3 digit route number (use 0 or 00 if number is not 3 digits).
- Pass By Mail Information 801-287-2204
- For Employment information please visit <http://www.rideuta.com/careers/>
- Travel Training 801-287-2275

LOST AND FOUND

Weber/South Davis: 801-626-1207 option 3
Utah County: 801-227-8923
Salt Lake County: 801-287-4664

FARES

Exact Fare is required. Fares are subject to change.

ACCESSIBLE SERVICE

Wheelchair accessible buses are available on all routes. Alternate format schedules are available upon request. Telephone communication for deaf/hearing impaired persons is available by dialing 711.

TRANSFERS

Upon payment of a fare, a transfer is good for travel in any direction, including return trip, for two (2) hours until the time cut. The value of a transfer towards a fare on a more expensive service is the regular cash fare.

BIKES ON BUSES

The Bikes on Buses service is available on all buses, except Paratransit.

HOLIDAYS

Please check rideuta.com for holiday service information.

SNOW ROUTING

Please check rideuta.com/snow for information.

220

Highland Dr/1300 East

HOW TO USE THIS SCHEDULE

Determine your timepoint based on when you want to leave or when you want to arrive. Read across for your destination and down for your time and direction of travel. A route map is provided to help you relate to the timepoints shown. Weekday, Saturday & Sunday schedules differ from one another.

UTA SERVICE DIRECTORY

- General Information, Schedules, Trip Planning and Customer Feedback: 801-RIDE-UTA (801-743-3882)
- Outside Salt Lake County call 888-RIDE-UTA (888-743-3882)
- For 24 hour automated service for next bus available use option 1. Have stop number and 3 digit route number (use 0 or 00 if number is not 3 digits).
- Pass By Mail Information 801-287-2204
- For Employment information please visit <http://www.rideuta.com/careers/>
- Travel Training 801-287-2275

LOST AND FOUND

Weber/South Davis: 801-626-1207 option 3
Utah County: 801-227-8923
Salt Lake County: 801-287-4664

FARES

Exact Fare is required. Fares are subject to change.

ACCESSIBLE SERVICE

Wheelchair accessible buses are available on all routes. Alternate format schedules are available upon request. Telephone communication for deaf/hearing impaired persons is available by dialing 711.

TRANSFERS

Upon payment of a fare, a transfer is good for travel in any direction, including return trip, for two (2) hours until the time cut. The value of a transfer towards a fare on a more expensive service is the regular cash fare.

BIKES ON BUSES

The Bikes on Buses service is available on all buses, except Paratransit.

HOLIDAYS

Please check [rideuta.com](http://www.rideuta.com) for holiday service information.

SNOW ROUTING

Please check [rideuta.com/snow](http://www.rideuta.com/snow) for information.
