

Proposed Updates to Off-Street Parking

The Salt Lake City Planning Division has been working on updating the City's regulations for "off-street parking" (does not include on-street parking). We are now at the point of presenting a second draft ordinance for the public to review and give feedback to see if we captured previous input. The draft ordinance, project details, and helpful summary sheets can be accessed through the following link: <https://www.slc.gov/planning/2019/05/24/off-street-parking/>

The changes seek to improve the ordinance to better reflect current market demands, consider community input, and align with industry best practices. Previous input has been incorporated and more feedback will make it even better.

The following are opportunities to discuss the proposed ordinance updates, or you may contact the staff person directly using the information at the bottom of this email:
