AGENDA

SUGAR HOUSE DESIGN STANDARDS

The City Planning Division is considering amendments to the Sugar House Business District (CSHBD) zone that would apply additional design standards to development in the zone. Design standards include such things as glass, use, and building material requirements. Currently, there are a limited number of design standards for small developments in Sugar House, whereas large developments have many more standards to comply with. The proposed additional design standards are meant to bridge this gap and help ensure that new small buildings support a high quality pedestrian oriented environment in Sugar House.
