

ATTACHMENT K: Public Comments

Due to the number of public comments and length of the attachment, this attachment is available in separate PDFs.

Comments are generally organized by public input cycle and by date received within that comment period. Please note that many of the comments pertain to development plans and site configuration and those are more relevant to the Planned Development and Subdivision requests that are not before the Commission for consideration at this time. However, much of the feedback pertains to the zoning/master plan amendment as well and so is provided for the Commission's consideration.

IVORY HOMES APPLICATION TO REZONE 675 NORTH F STREET
AND AMEND THE MASTER PLAN

Dear Mr. Echeverria,

When we spoke on the telephone recently I mentioned that a number of nearby residents had concerns regarding this proposed development and rezoning application. We have since come together to form The Preserve Our Avenues Zoning Coalition.

We would like to more formally introduce this group to you.

The Preserve Our Avenues Zoning Coalition is a group of concerned neighbors who have come together to oppose the proposed rezoning of 675 North F Street by Ivory Homes. The Coalition is composed of residents of the Meridien, Northpoint, Capitol Park, F Street, 12th Avenue and 13th Avenue. These are all of the streets and developments adjacent to 675 North F Street. The coalition is supported by the Meridien, Northpoint and Capitol Park HOA's, with board members from all of these HOA's serving on the Steering Committee for the coalition. As such we represent a group of around two hundred of the residents that live closest to 675 North F Street and are most impacted on a daily basis by its development.

We have engaged Charlie Luke of Luke Strategies, Inc and Craig Smith of Smith Hartvigsen to advise us and have created a Facebook page facebook.com/preserveouravenueszoning.

We are not against development of the property but believe it should be developed under the current FR-3 zoning.

Having secured the support of all our immediate neighbors in opposing this development by Ivory Homes we are now reaching out to the larger Avenues community for support. I have spoken a number of times on this subject at Greater Avenues Community Council meetings and the council featured an article in last month's Avenues newsletter "The Agenda" on this matter to increase community awareness.

In order to demonstrate broad community support in opposing this rezone we will shortly be sending a petition to all of our neighbors in the upper section of the Avenues. In the current COVID-19 crisis we did not think it wise to go door to door with a petition in the normal manner but will instead be mailing the petition together with an informational leaflet and return envelope. On completion of this petition drive it is our intention to deliver these petitions to you. At that time we will also submit a letter to you signed by all of our immediate neighbors to demonstrate their support, as well as letters from the Presidents of The Meridien HOA, The Northpoint HOA and the Capitol Park HOA opposing this rezoning.

Peter Wright 400 E Capitol Park Avenue, Apt.306, Salt Lake City, UT 84103
On behalf of The Preserve Our Avenues Zoning Coalition

Mr. Daniel Echeverria
Senior Planner

July 13, 2020

RE: Ivory Homes Application to Rezone 675 North F Street and Amend the Master Plan

Dear Mr. Echeverria,

We are pleased to deliver to you a comprehensive statement of opposition to the proposed rezoning of 675 North F Street.

This documentation is comprised of the following items:

- 1) Letters from the Presidents of The Meridien HOA, the Northpoint Estates HOA and the Capitol Park HOA, all in opposition to the proposed rezoning. These HOA's represent 124 families who live adjacent to the proposed development.
- 2) A letter signed by 230 of the residents from F Street, E Street, D Street, 12th Avenue, 13th Avenue, The Meridien, Capitol Park and Northpoint Estates. These are the residents who live closest to and are most impacted by the proposed development. We have email correspondence to verify these endorsements.
- 3) The original, signed copies of a petition that was distributed by US mail to residents of the Avenues residing north of 7th Avenue and Federal Heights. These petitions contain 1573 signatures of Avenues residents in opposition to this development. Although we only mailed petitions to residences north of 7th Avenue, you will find signatures from the lower Avenues because petitions were passed from neighbor to neighbor. We expect to receive more of these petitions and will send them along to you when we have entered and validated them.

Fifteen hundred and seventy-three signatures is an emphatic and undeniable statement that Avenues residents do not want this overly dense development and are opposed to this rezoning. Were it not for the restrictions placed on us by COVID-19, we have no doubt this number would have been even higher.

We are also aware that you will have received numerous letters from concerned Avenues residents expressing opposition to this rezoning. In addition, we both presented on this project at the Greater Avenues Community Council meeting on July 1st, where the prevailing sentiment was decidedly against this rezoning. Likewise, social media posts on our Facebook page and Nextdoor.com have also been overwhelmingly against rezoning.

In totality, we believe the residents of the Avenues have made an overwhelming case against this rezoning to FB-UN1. The city can achieve its goals of increased housing units under the current FR-3 zoning overridden by the ADU Ordinance. Rezoning to FB-UN1 is an unwarranted overreach.

We respectfully ask that the Planning Division, the Planning Commission, and the City Council decide against this rezoning.

Peter Wright
Chair, Preserve Our Avenues Zoning Coalition

OPPOSITION TO IVORY HOMES REZONING APPLICATION AT 675 NORTH F STREET

June 22, 2020

Mr. Daniel Echeverria
Salt Lake City Government Offices
Planning Department
Daniel.Echeverria@slcgov.com

Dear Mr. Echevarria,

I am the Chairman of the Northpoint Estates Homeowners Association. Our neighborhood is adjacent to the property subject to the rezoning application. My wife and I are strongly opposed to the rezoning effort by Ivory Homes on F Street.

I have read the purpose statement and general provisions of the proposed FB-UN1 rezoning. Walking distance to shopping, dining, employment and other daily needs are clearly not possible at this property location. Bus service is infrequent and does not include evenings or weekends. It must be remembered that distance is not the only impediment to walking in the avenues. The streets are very steep. I would invite anyone to walk from Smith's on 6th Avenue up to Capital Park Avenue; it is a steep, arduous climb.

The FB-UN1 zoning would allow for much greater density than surrounding properties. At any one time there could be over 100 automobiles in the property designed with insufficient parking and no visitor parking. There is no street parking on Capital Park Avenue. Additionally, there does not appear to be any place on the property for snow removal.

Northpoint Estates has 50 residences on 13 acres at the top of F Street, adjacent to the property in question. The only way in or out of the Northpoint development is F Street. The added cars could create a danger to all residents in the vicinity in the event of severe storms or fires in the canyon. Item 7 of the purpose statement says that this zoning provides "safe accessible and interconnected networks for people to move around in." Safety is a huge concern for all of the current residents in Northpoint.

I have had numerous meetings and individual discussions with Northpoint residents. To my knowledge there is overwhelming opposition to this zoning change.

We feel the current zoning, allowing for 11 units plus 11 ADUs more accurately fits the reality and livability of this property's location at 675 North F Street.

Thank you for your consideration,

Bruce Johnson, Chairman, Northpoint Estates HOA
Maxine Johnson, Resident

SLC Planning Division
451 South State Street Room 406
Salt Lake City, UT 84114-5480

Dear Mr. Echeverria,

I am the President of the Capitol Park Home Owners Association (CPHOA) and represent the owners of 52 home lots that border the proposed Ivory Homes Development at Capitol Park Avenue and F Street in City Council District 3 in Salt Lake City. I am writing to make you aware that the vast majority of our homeowners are against this rezoning proposal that would allow high density development in the Avenues. Ivory's proposal represents unprecedented density in the upper Avenues and would negatively affect the quality of life in our neighborhood.

Our opposition can be summarized as follows:

1. The individuals in our neighborhood feel like this change is being steam-rolled by a large developer who has stated on multiple occasions that this is a "done deal" due to their political ties with Salt Lake City leaders. As citizens of Salt Lake City and residents of the Avenues neighborhood that will be most affected by this development, we simply want to make sure our voices are heard and our opinions considered.
2. We don't believe Ivory's story that this project is about "affordable housing". The proposed homes are well above the average cost of homes in the Avenues and we can all see this is about Ivory maximizing its profit. If the rezone is denied, then they can still build 11 homes each with an Accessory Dwelling Unit (ADU) by adhering to the legacy zoning augmented by the 2018 ADU Ordinance. Ivory appears not to be interested in this approach, probably due to reduced profits for them.
3. The ADUs present a real risk for use as nightly rentals (like Airbnb). Although nightly rentals are against city ordinances and HOA policies in Capitol Park, we have not been able to easily enforce these rules prohibiting nightly rentals in our existing neighborhood.
4. In the past, the city refused to adopt our private road because it does not conform to local regulations, yet this zoning change would add many more vehicles to the road's usage. Parking on the street would become problematic (but unavoidable). The daily number of vehicles, including delivery and contractor trucks and vans, would increase substantially and create traffic hazards on our narrow roads.

On behalf of the Capital Park subdivision I respectfully request that the Salt Lake City Planning Division recommend against permitting the approval of Ivory Homes rezoning application for 675 N F Street. Please leave our neighborhood zoned the way it was envisioned and intended to be. Maintaining the existing zoning preserves the character and the eclectic appeal of the Avenues which is an integral part of the history and legacy of Salt Lake City.

Sincerely,

Evan Deneris
President, Capitol Park Home Owners Association

[REDACTED]
[REDACTED]

Dear Mr. Echeverria,

As a resident of the Meridien and the President of its HOA, I am writing to share my concern and opposition to the rezone petition advanced by Ivory Development.

I moved to the Meridien understanding that the 3.2 acres across the street would likely be developed at some point. I don't oppose the site being developed, but do believe that it should be done so under the existing FR-3 foothills zoning designation. This is not an argument about density, rather about the importance of infill zoning matching the surrounding zones to ensure aesthetic consistency of the neighborhood.

I also have concerns about the intensity of the rezone petition without regard to the realities of the neighborhood. We don't have adequate public transportation access in the upper Avenues to support a large, dense development. Individual vehicle use will be necessary due to the elevation and distance from grocery shopping and dining. This will bring roughly 90 or more automobiles to the development, impacting surrounding residents. Such intensive spot up zoning should only occur when the surrounding area has the necessary infrastructure to support it.

One irony in this petition is that the proposed development will require access to Capitol Park Avenue, which is a private street partially owned and maintained by The Meridien HOA. Salt Lake City denied requests from the street owners to cede Capitol Park Avenue to Salt Lake City, since the street was not constructed according to Salt Lake City streets requirements. The fact that the City is already concerned about the private street design should be included in any discussion about adding up to forty new residences on a street that is not built to City standards.

My final point to impart is the issue of density and the Meridien and its neighboring Annex that is currently being remodeled within the existing RMF-35 zone. Both of these structures were part of the old VA Hospital. Both are historic, existing structures. The density in these historic structures should not be compared with Ivory's request for additional density. Ivory, or any developer of the 3.2 acre site will already be able to build 11 residences under FR-3, which could be doubled using the City's ADU ordinance. Those 3.2 acres can provide a dense development using the current FR-3 zoning, which would be more intense than what is currently there, but would not over build the property.

Please let me know if you have any questions, and please preserve our Avenues zoning.

Sincerely,

Todd Jensen

Daniel,

We have a few people who we think
 used their place of work
 also, 400 E Capitol Park Ave #406 should
 be apt #407 to pass Google Maps
 Not enough time to fix all today

Mr Echeverria,

We have a few addresses that did not validate in Google Maps. We threw out those ^{valid addresses} not in District 3, but we still have a few bad addresses. We suspect that they are from transcription errors. We only had ~ 100 bad addresses at last check, but it has been a bit rushed today...

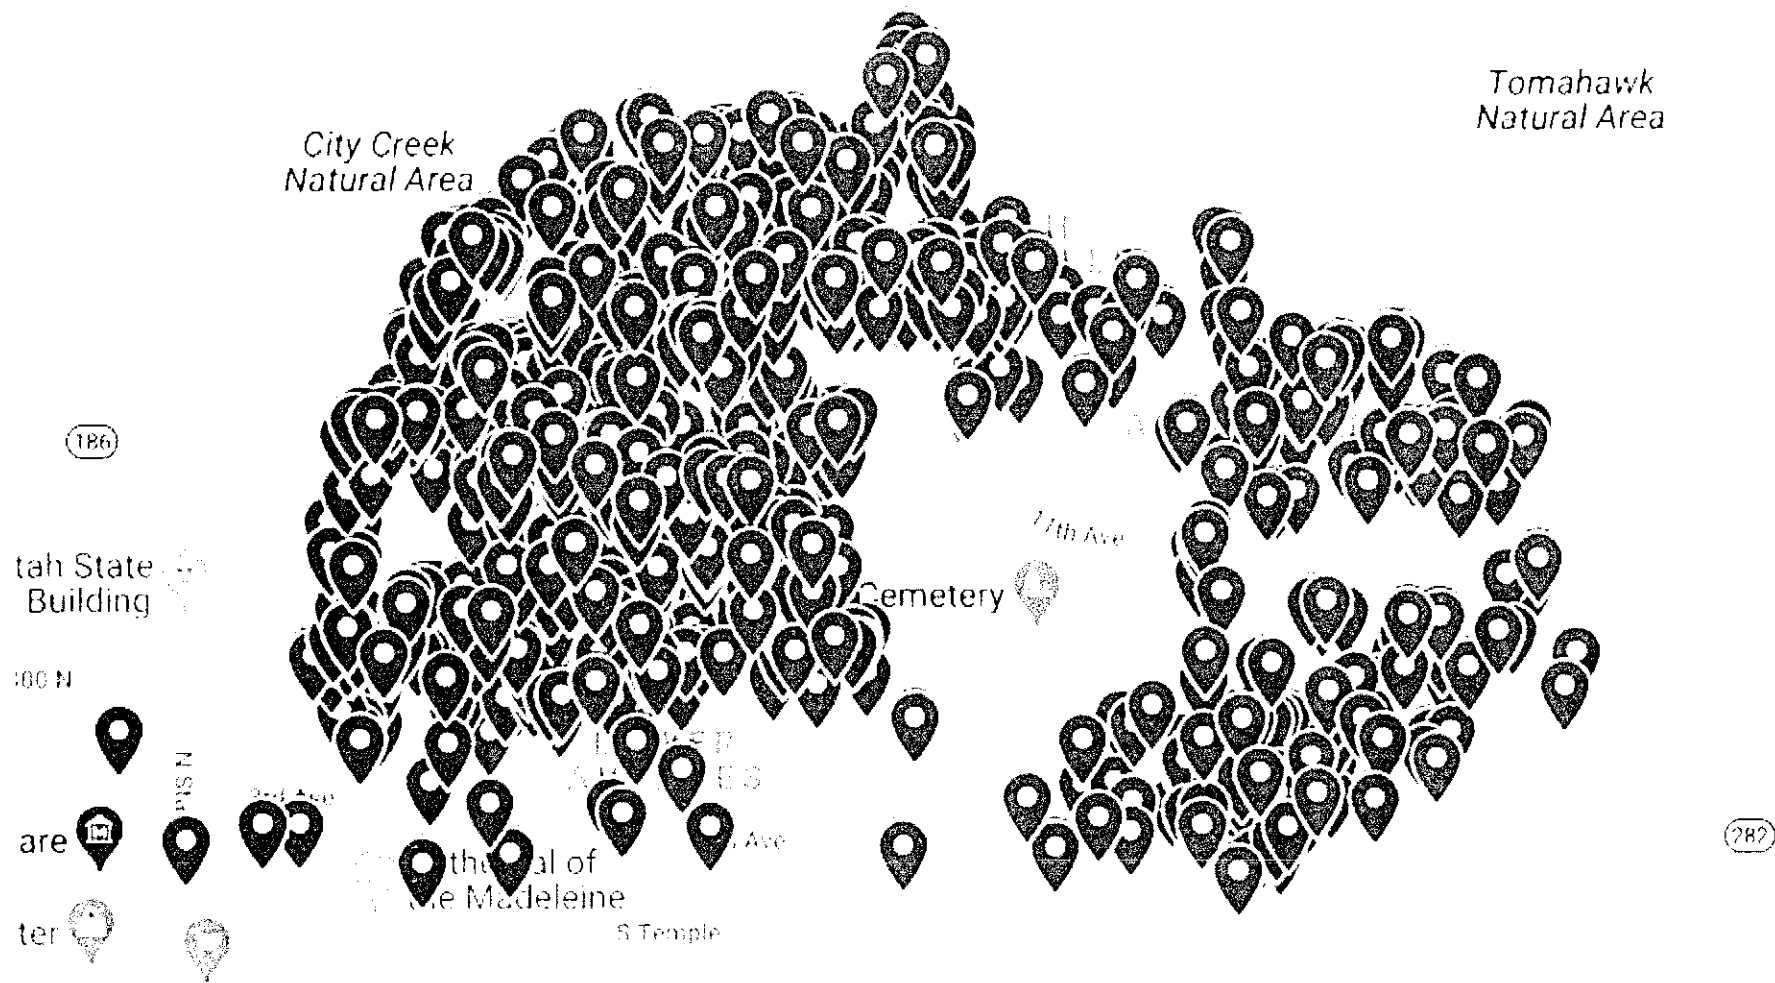

Thanks,

Alan B Hayer
POAZC Secretary

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

Dear Planning Dept.,
I fully support ~~our~~ and agree with
our neighbors who are concerned about
the many problems associated with
excessive habitation density in the
Avenues. Any planning should reflect the
actual capacity of this historic district
to absorb additional housing.

Thank you -

D. Kidzat

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UNT classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UNT classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UNT classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

This is two days after the mass evacuation at Saratoga Springs due to wild fire! It could happen up here, and the dense population proposed for 13th F ~~area~~ would endanger us even more. FR-3 works for us!! km

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

DATE: 30-June-2020

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

Janet L. Henrie - " " " " , " " - 

Our home in Federal Heights is approximately 115 years old (built in 1905). It has stood the test of time historically. It enhances the neighborhood today as much as it did in 1905! I do not believe that ^{the} proposed rezoning and related develop at 675 North F Street will stand the historical test of time. What will it look like 30, 60, 90 years from now ??? Similar such developments, 20 to 40 years ago, are now a blight to these neighborhoods. We must preserve the historical and aesthetic integrity of that beautiful and historical neighborhood!

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UNI classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.

PETITION TO THE SALT LAKE CITY PLANNING DEPARTMENT

We, the undersigned residents of the Avenues, do hereby object to the application by Ivory Homes (Record No. PLNPCM2020-00335) to rezone the undeveloped plot at 675 North F Street together with the proposed change to the Avenues Master Plan. While not opposed to appropriate development we believe this should be done under the current FR-3 zoning that has served the Avenues well for many years. We believe the FB-UN1 classification is too dense for the neighborhood's aesthetics, environmental sensitivity and existing infrastructure.
