

Salt Lake City Sustainable Community Development Code Project **Bundle 3 Draft Amendments**

December 2010

Project Goal

- To identify Salt Lake City's sustainability goals and incorporate sustainability provisions into its land development codes
- Project directed by Vicki Bennett, Director of Division of Sustainability and the Environment in consultation with Planning Division

Vicki.bennett@slcgov.com

Local Sustainability Programs

Usual Focus: Gov't Operations

- ❖ Hybrid fleets
- ❖ Compact fluorescent bulbs
- ❖ Mass transit
- ❖ Green city buildings
- ❖ Purchase renewable power
- ❖ Recycling programs

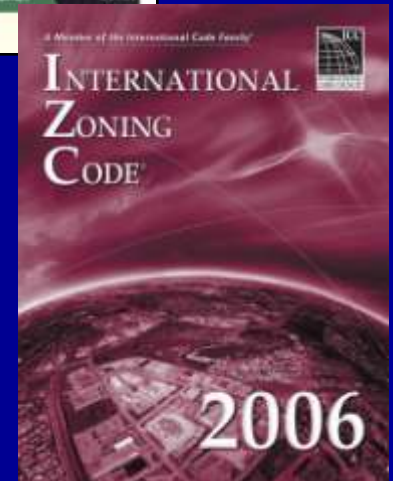

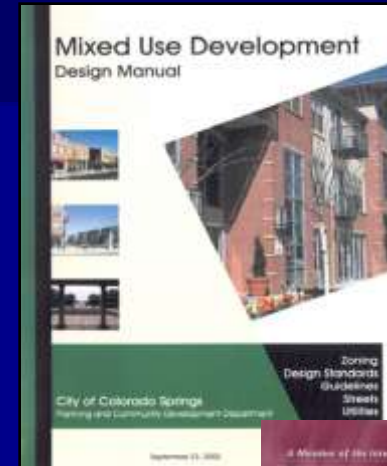

Local Sustainability Programs

WHAT'S MISSING??

Little focus on:

- ❖ **Development patterns/private development**
- ❖ **Comprehensive plans**
- ❖ **Development codes**

WHY DO DEVELOPMENT PATTERNS AND CODES MATTER??

- 100 million more of us by 2043!!
- 70 million new housing units
- Burn calories, not fossil fuels!

Implementing Sustainability Principles Through Zoning

THINK B~I~G

- ❖ Remove **Barriers**

Eliminate bans on solar panels/wind turbines

- ❖ Create **Incentives**

Density bonuses for affordable housing

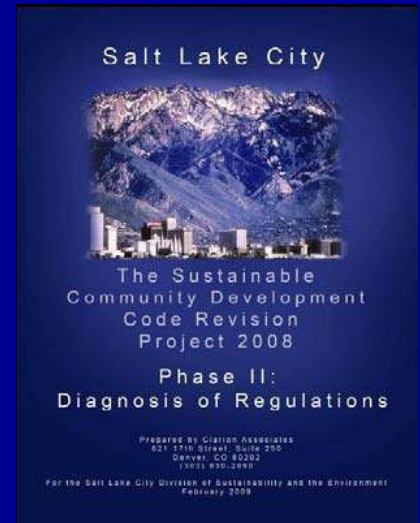

- ❖ Fill Regulatory **Gaps**

Mandatory water-conserving landscaping

Project Introduction

- **Phase 1:** Inventory of city sustainability goals and initiatives (August 2008)
<http://www.slccgreen.com/CodeRevision.htm>
- **Phase 2:** Prepare diagnosis--ID gaps between goals and land use regulations (February 2009)
- **Phase 3: Draft targeted sustainable code revisions (2009-2010)**

Salt Lake City's Sustainability Topics

1. Climate Change and Air Quality
2. **Water Quality and Conservation**
3. Alternative Energy Production and Energy Conservation
4. **Mobility and Transportation**
5. Urban Forestry
6. **Housing Accessibility and Diversity**
7. Community Health and Safety
8. **Food Production and Nutrition**
9. Recycling and Waste Reduction
10. **Open Space, Parks, and Trails**

Bundle # 1 Amendments

1. **Transit-Oriented Development District**
 - ◆ **Transit Station Area ordinance adopted by city council**
2. **Accessory Dwelling Units (PC)**
3. **Alternative Energy Systems (CC)**
4. **Mobility and Connectivity (Staff)**
5. **Urban Agriculture (CC)**

Bundle #2 Amendments

- 1. Water-Efficient Landscape Standards (CC)**
- 2. Parks and Open Space (Staff)**
- 3. Tree Protection (CC)**
- 4. Recycling and Waste Reduction (Staff)**

Bundle #3 Amendments

1. **Parking Options & Transportation Demand Management**
2. **Outdoor Lighting**
3. **Recycling and Waste Reduction**
4. **Housing Diversity**

Parking & TDM

- Targeted parking reductions/maximums
- Car pool parking incentives
- Credit for on-street parking
- Shared parking
- Trip reduction requirements for large developments (menu of options)

Outdoor Lighting

- **3 lighting zones - sets a lighting budget for each use type in each zone**
- **Sets a limits on brightness of fixtures**
- **Outdoor lighting “turn – off”**

Recycling and Waste Reduction

- Require space for recycling/refuse in new commercial/business/mixed-use developments
- Require centralized neighborhood recycling stations in new residential developments

Recycling and Waste Reduction

- Use incentives to encourage conversion of parking spaces to accommodate recycling facility
- Require recycling in construction and with deconstruction

Housing Diversity

- Provide a diversity of housing (sizes, types, # of bedrooms) in new SF and MF developments
- Offer incentives (additional density, fee waiver, & expedited review) for building affordable housing

Next Steps...

- **Further engagement of citizens and groups**
- **Adoption process through the Planning Commission**
- **City Council hearings and adoption**
