Dear Resident of Salt Lake City,

My 2016-17 Budget is a fiscally responsible budget which does not raise taxes on city residents, reduce our city's workforce, or significantly increase spending. This budget supports our city employees, prioritizes our city's infrastructure and maintenance needs, funds programs important to Salt Lake City's values, and makes key investments in city government operations, all in line with the vision I laid out in my State of the City Address.

This budget is the product of work between my office, leaders of every department, and most especially our experts in the city's Finance Department led by Gina Chamness. In crafting this budget, I asked these experts to be candid about the financial state of our city and to share their expertise in helping to craft a policy driven budget which outlines for a more fiscally sound future.

While Salt Lake City is not in a financial crisis, as we continue to emerge from the Great Recession, we are facing real challenges that we must begin to address. Chief among these is the gap between ongoing revenue and ongoing expenses that has existed in our city's budget for years, as well as the increased debt service burden we will be facing for the next five years. These issues are compounded by our deferred maintenance needs and our ongoing expense responsibilities.

How we move forward this year with the FY17 budget and our economic development plan, is key to setting our city on a path to fiscal stability and economic viability. The budget includes some first steps in addressing long-term problems. These include: shifting <u>basic maintenance</u> of parks and facilities out of the competitive and strained Capital Improvement Project fund and into the general fund; increasing funding to our road fund by 50%, largely from an evaluation and prioritization of some existing funding sources; reducing our one-time funding by \$1,000,000; prioritizing realized fuel cost savings across departments to help with replacement of our aging and costly fleet; and investing in the efficiency and professional development of city employees through a new training management system.

We also must begin a conversation about our debt service burden and policy related to engaging in future debt based projects. While Salt Lake City's bonding rate remains appropriately strong, we have at a fairly regular rate over the past 20 years, issued debt to fund a number of new capital projects. Salt Lake City has borrowed directly against future sales-tax revenue; guaranteed debt on behalf of the RDA; and asked residents to fund large-scale projects through general obligation bonds. These bonds, approved by voters, have allowed the city to borrow against increases in property taxes for specific projects.

Beginning this year, and continuing for the next five years, our debt service burden as it relates to the general fund will nearly double. This increase will reduce our availability of cash-on-hand to fund new capital improvement projects.

Generating more revenue will be key to our future success in dealing with our infrastructure and maintenance issues. It is in the city's best interest for the City Council and my office to stand united in our economic development efforts and this budget includes a strategic realignment of

our city's economic agencies, including the creation of a cabinet level Department of Economic Development.

Both my office, and the City Council share the strategic priorities of addressing homelessness, improving economic development, and dealing with our infrastructure concerns. The 2016-17 Budget, deals with each of these issues and begins a long-term conversation about our city's budget and economy.

With warm regards,

acquelin M. Bishipsh

Jackie Biskuspki

Mayor

Dear Resident of Salt Lake City,

The Salt Lake City Council is tasked with adopting a balanced, prudent budget each year. It's a lengthy, detailed process and one that we take very seriously. The budget reflects public input and thoughtful deliberation on changes that impact services our City's residents and visitors rely on for a high quality of life.

The 2016-17 Annual Budget includes funding that supports areas of critical importance, and furthers the Council's Priority focus areas of: Housing & Homelessness, Economic Development, and Infrastructure funding. Without adopting a property tax increase, the Council finalized the budget with many key initiatives included. On behalf of the Salt Lake City Council, I am pleased to share several highlights of the Budget, which was adopted in June.

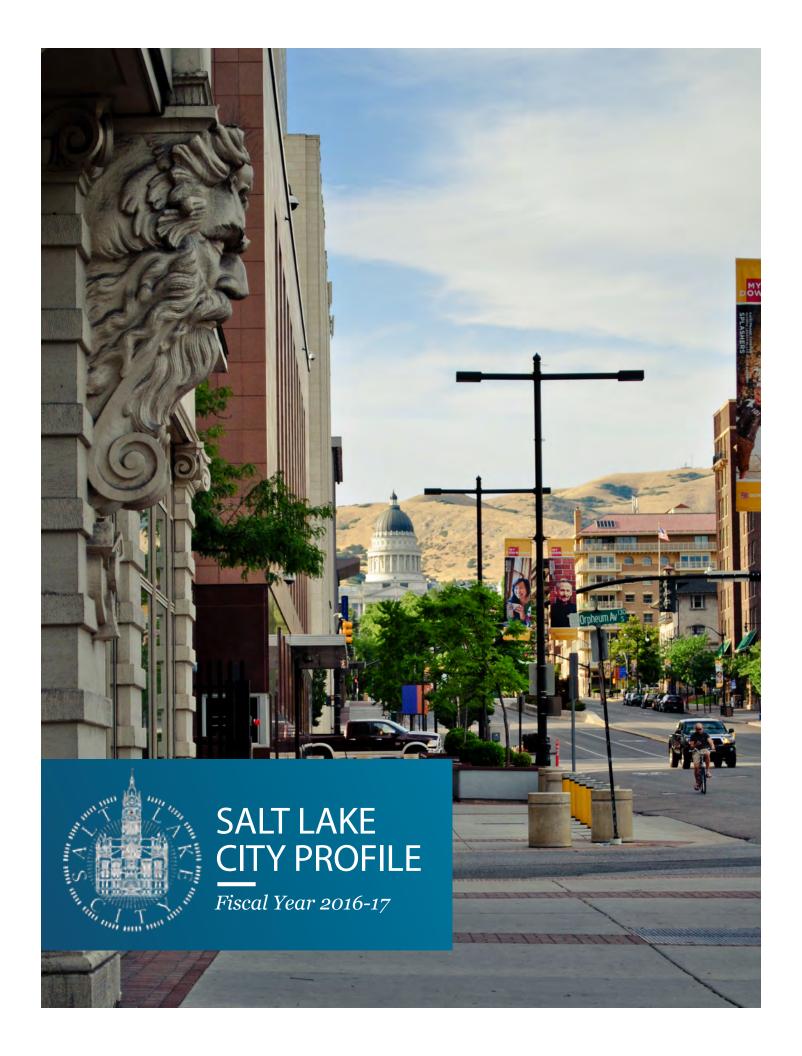

- \$605,000 for services related to addressing homelessness and improving quality of life for people experiencing homelessness, residents, and businesses in the Pioneer Park/Rio Grande area.
 - Of this, \$200,000 was added for a pilot project to purchase and operate portable bathrooms to help address public health issues. The funds are contingent on securing \$75,000 in matching funds from private sources.
 - The remaining \$405,000 was reprogrammed from a previously approved, but unused, allocation and will be used for increased police officer foot patrol in the Rio Grande neighborhood, a pilot project with Salt Lake County Behavioral Health Services, 500 West mitigation, increased capacity for "A Place for Your Stuff" which allows homeless residents to securely store belongings, enhanced day services for people experiencing homelessness, and expanding Clean Team operations around Rio Grande and 500 West downtown.
- Continued funding for the social workers within the Police Department to provide additional assistance to people experiencing homelessness.
- Added support for training of Police Department officers who work with sexual assault survivors.
- Continued funding for a forensic scientist position to ensure prompt processing of rape kits.
- Funding for 10 new dispatcher positions in the 911 Communications Bureau to reduce wait times for 911 emergency calls.
- Added funding to increase the rate of replacing dead trees as ongoing care for the City's urban forest.
- Added funding of a critical bicycle/pedestrian infrastructure to allow safe crossings at the 600 North/800 West intersection which is adjacent to the Interstate 15 off-ramp.
- Added \$300,000 for an engagement process to determine the level of public interest for a potential bond to fund open space, recreation, and other items.

- Added \$7.75 million in previously unspent one-time state funds for road improvements, including \$4 million for work on 500 South and 700 South in the City's Westside light-industrial/ warehouse district.
- Added \$200,000 to complete the installation of artwork at the Sego Lily Sugar House Park tunnel project, contingent on \$400,000 in matching private funds.

^{*} Redevelopment Agency Included in FY 2017 Other Enterprise Fund Amount.

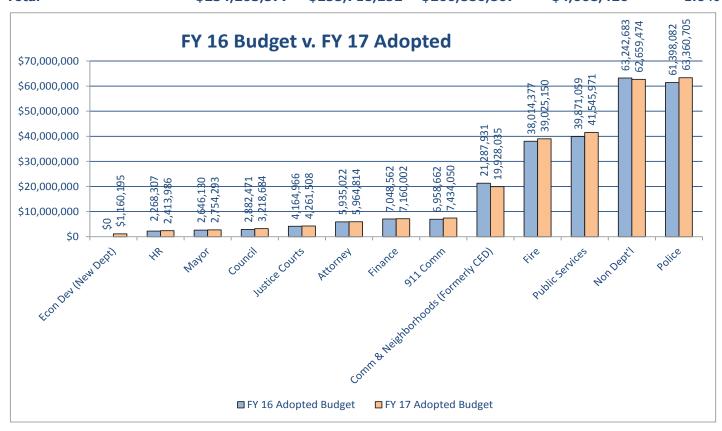

Salt Lake City's budget is comprised of several different types of funds, including General Funds, Enterprise Funds and Internal Service Funds. Enterprise funds, unlike the General Fund, are not supported by property or sales taxes. Revenues in these funds come primarily from fees charged for services provided. For instance, the Airport derives a large portion of its revenues from landing fees. It is worth note that the Airport expenditures have increased dramatically due to the Terminal Redevelopment Program that was recently started.

The City also has a number of internal service funds such as Fleet and Information Management Services. Internal service funds exist to account for the financing of goods and services provided by one City agency or department to another.

This stacked bar graph depicts the various types of revenue collected for the Salt Lake City General Fund and how some of these revenues have fluctuated over the years. Starting in FY 2016, the Other Revenues increased primarily because a new requirement that RDA related property tax be passed through the City's General Fund.

GENERAL FUND REVENUE - FY 2017 ADOPTED V. 2016 ADOPTED

General Fund Revenue	FY 16 Adopted Budget	FY 17 Adopted Budget	Increase/ Decrease	Percentage Change
Property Tax	\$81,024,111	\$83,338,778	\$2,314,667	2.9%

Property Tax Rates in Salt Lake City

ccording to Utah State code, municipalities cannot assess properties for more property tax revenue than was budgeted in the previous year, with the exception of new growth. As property values generally increase or decrease, property tax rates fluctuate accordingly. The accompanying graph demonstrates how the boom in property values in the city affected the property tax rates that were assessed during the period between approximately 2006 and 2011. Rates have remained relatively steady for about six years.

Sales Tax Revenues in Salt Lake City

The graph shown below demonstrates the decline in sales tax revenues in Salt Lake City caused by the recession, and gradual recovery the City has been experiencing.

FY 2016-17 Related Ordinance Changes and Other Budgetary Actions

REVENUE RELATED ORDINANCES

CONSOLIDATED FEE SCHEDULE ADOPTION AND CHANGES – An ordinance amending the Salt Lake City Consolidated Fee Schedule to modify various fees included therein.

IMPOUND LOT ORDINANCE CHANGE - An ordinance removing any reference to a City-owned impound lot, due to the elimination of the City's impound lot. Reference to an impound lot will remain in various other City ordinances since an impound lot function remains under contract with the State.

HAND FEE ORDINANCE - An ordinance giving Housing and Neighborhood Development (HAND) the authority to charge fees.

BUDGET ORDINANCES

BUDGET ADOPTION – An ordinance adopting the city budget, excluding the budget for the Library Fund which is separately adopted, and the employment staffing document of Salt Lake City for fiscal year 2016-17.

BUDGET ADOPTION OF SALT LAKE CITY LIBRARY – An ordinance adopting the budget for the Library Fund of Salt Lake City, Utah for FY2016-17.

TAX RATE OF SALT LAKE CITY AND THE CITY LIBRARY, INCLUDING JUDGEMENT LEVY– An ordinance adopting the rate of tax levy, including the levy for the Library Fund, upon all real and personal property within Salt Lake City made taxable by law for fiscal year 2016-17.

ADOPTING MAYOR'S RECOMMENDED BUDGET AS TENTATIVE BUDGET OF SALT LAKE CITY – Adopting the Tentative Budgets of Salt Lake City, including the Tentative Budget of the Library Fund, for fiscal year 2016-17.

ADOPTING MAYOR'S RECOMMENDED BUDGET AS TENTATIVE BUDGET OF THE LOCAL BUILDING AUTHORITY (LBA) – A resolution adopting the tentative budget the Capital Projects Fund of the Local Building Authority of Salt Lake City, Utah, for the fiscal year beginning July 1, 2016 and ending June 30, 2017.

BUDGET ADOPTION OF THE LOCAL BUILDING AUTHORITY – A resolution adopting the final budget for the Capital Projects Fund of the Local Building Authority of Salt Lake City, Utah for the remainder of the fiscal year beginning July 1, 2016 and ending June 30, 2017.

HUMAN RESOURCES ISSUES

COMPENSATION PLAN ORDINANCES – Ordinances approving the compensation plan as ordinance for all appointed and non-represented employees of Salt Lake City.

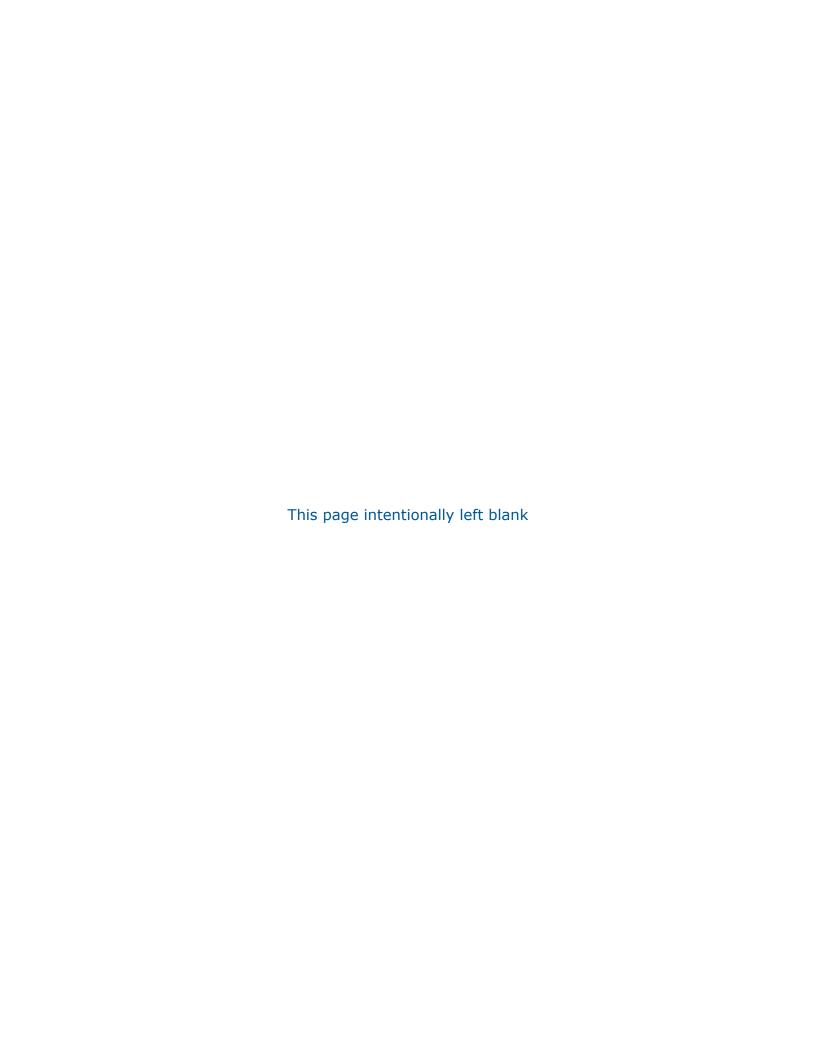

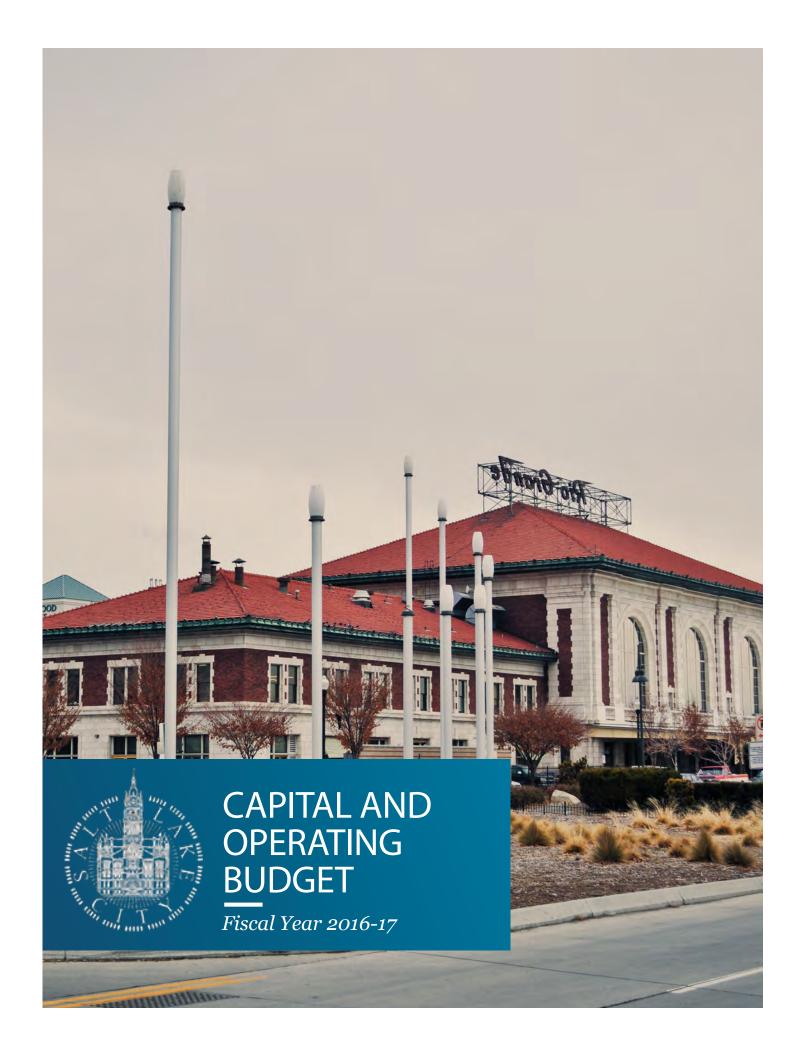

SALT LAKE CITY PROFILE / BUDGET-IN-BRIEF

MEMORANDUM OF UNDERSTANDING (MOU) ADOPTION ORDINANCE/ORDINANCES – Ordinances approving Memorandums of understanding between Salt Lake City Corporation and the American Federation of State, County, and Municipal Employees Local 1004, the International Union of Police Associations Local 75, and the International Association of Firefighters Local 1645.

OTHER ISSUES

DEPARTMENT STRUCTURE CHANGES - An ordinance amending section 2.08 and 2.04 of City ordinance, creating a Department of Economic Development and a Department of Sustainability, renaming the existing Department of Community and Economic Development and transferring other functions between departments.

CAPITAL AND OPERATING BUDGET

BUDGET SUMMARY

The FY 2016-17 represents the policy goals and management principles of a new Administration and Council. While our City is enjoying the benefits of many positive economic conditions, budget balancing challenges remain. The new Administration began the budget process for FY 2016-17 faced with a significant structural gap between existing on-going revenues and expenses. The Mayor decided early on in budget preparation that an increase in property tax rates to generate additional revenue would not be proposed. Departments were asked to identify opportunities to streamline existing processes and re-examine the work they do to improve efficiencies in order to close this gap. At the same time, departments were asked to identify their priorities for additional resources to enhance services to the City's residents.

The FY 2016-17 budget is the culmination of a City-wide effort to improve the way services are provided and preserve basic services. The budget aims to meet the needs of our residents and support the nearly 3,000 dedicated employees who provide services for the people who visit, live and work in Salt Lake City. The overall budget increases by a very modest 1%, and reflects the City's priority that core responsibilities need to be prioritized in budget making decisions.

Of particular note, the FY2016-17 budget creates new departments – a Department of Sustainability and a Department of Economic Development. Both departments elevate existing City functions to place them on equal footing with other critical city functions. Both changes reflect the long term vision of ensuring that the City remains a healthy and economically strong community where residents and visitors choose to live, work and play.

The Department of Sustainability elevates the existing division of Sustainability, currently within the portfolio of the Department of Public Services, to cabinet status. No other changes in structure or responsibility accompany this change. This change recognizes the critical role that Sustainability plays in determining the future of Salt Lake City, and ensures that Sustainability is at the forefront of the City's focus, where it has long been for our residents. This change will help city departments and employees understand and prioritize sustainability efforts in changing the way the City operates. This change will also streamline the Department of Public Services to ensure the many important priorities of that Department are given the attention they deserve.

The Department of Economic Development will be charged with aligning Salt Lake City's tremendous economic tools. Included in this new department will be the City's existing economic development staff, currently residing in the Department of Community and Economic Development, City Arts Council FTEs currently reporting to the Department of Community and Economic Development. The Department Director will be charged with coordinating economic development activities for Salt Lake City across departments and forging lasting relationships with other key economic development partners throughout the region. This department recognizes the important role of the Arts community in developing and enhancing community life and will promote the economic draw of Salt Lake City's arts community. With the opening of the Eccles Theater and the City's investment in Regent Street, we stand poised to harness and coordinate the economic driver of the Redevelopment Agency (RDA) and capitalize on the opening of the Eccles Theater with our overall economic development function citywide.

The existing Department of Community and Economic Development will be renamed to the Department of Community and Neighborhoods. (CAN) This change in name and function refocuses the department's priority on recognizing and strengthening Salt Lake City's strong sense of com-

CAPITAL AND OPERATING BUDGET

munity in its neighborhoods through transportation, engineering, planning, building, and housing.

This budget includes 6.9 new FTEs. This includes 2 positions that will help streamline the plan review process for residents and business owners and 1 position within the Police Department for gang outreach. In addition, the budget includes the addition of 3 non-funded FTEs in the 911 Dispatch Bureau to help the bureau maintain full staffing as much as possible. The remainder includes portions of FTEs currently funded 100% from RDA funds that will now be shared with the General Fund in the new Department of Economic Development.

The budget also implements increases in ongoing revenue from a variety of revenue generators that will be described immediately below in the Revenue Section.

Following is a summary of the 2016-17 Capital and Operating Budget:

Notable Changes in Salt Lake City Revenues

The majority of the City's revenue comes from three sources: property taxes \$84,530,904 (32.40%), excluding \$10,070,000 from RDA related property; sales and use taxes \$60,833,816 (23.31%); and utility franchise taxes \$29,051,786 (11.14%). All tax revenue, including Payment in Lieu of Taxes (PILOT) accounts for \$184,536,496 (70.73%) of the City's total revenue of \$260,886,867. Last budget year the total from all taxes was \$178,532,720 (70.19%) of total revenue.

The remaining revenue sources are approximately 29.21% of the City's total ongoing revenue. Regulatory license revenue is expected to total \$15,133,578, reflecting an increase of \$1,075,583. Intergovernmental revenue is projected to decrease by \$380,612 due to revenues moving to grant funding, while cemetery revenue will increase by \$83,837 due to a reclaiming of gravesites. Revenue from Public Safety is expected to decrease by \$584,212 due to a discontinuance of the Impound Lot services. This includes an expected \$50,000 to lease the Impound Lot land after its closure.

Recreational program fees are up \$151,004 due to a full year of operations and increase in projected usage of the new Regional Athletic Complex (RAC) fields, which opened during FY2016. Fines and forfeitures reflect a significant decrease of \$1,699,423 due to decreases in traffic and criminal fines, as well as parking tickets being issued. A slight increase in parking meter revenue is expected. An increase of \$90,000 in revenue from Sandy City is projected associated with a change in staffing models in the 911 Communications Bureau.

Interfund reimbursement is expected to increase by \$268,305 due to an increase in Administrative Fees charged to City Enterprise and Internal Service Funds, as well as reimbursements from projects for the Arts Council. Revenue from the HIVE Pass program is expected to decrease by \$750,000 due to a decline in citizen program participation. Miscellaneous income is expected to decrease by \$327,734 due to decreases in utility reimbursements for City Buildings.

Transfers are projected to increase \$1,666,547. This increase includes: a transfer from the Risk Fund of \$1,740,307 to recapture insurance payments from 2014 and a transfer

from the donation fund for Parks maintenance. An additional transfer from Sustainability to the General Fund of \$39,000 will offset a decrease in Solar Permit Fee revenues.

Changes in Revenue Sources Resulting from Policy and Ordinance Changes

Judgment Levy - A Judgment Levy of \$611,187 was approved. Judgment levies are one-time property tax levies meant to offset unexpected reductions in property tax from the prior year.

New Growth – Based on the increase in personal property tax actual values in the previous year, the budget includes a total of \$1,742,250 for new growth.

Solar Permit Fee Revenue – The budget includes the suspension of a fee currently charged to homeowners for solar panel installment in order to encourage further use of this sustainable priority. The estimated loss in revenue of \$39,000 will be replaced this year with a transfer from the Energy and Environment portion of the Refuse Fund, which funds the activities of Sustainability.

Sales Tax - an increase in sales tax revenue of \$2,850,000 is expected due to continued growth.

Parking Tax – Parking tax revenue is expected to increase by \$381,000. This tax will be collected at the Eccles Theater parking facility upon opening, as well as other RDA owned parking facilities.

Changes in revenue associated with Parking Enforcement and Collection – the Administration is recognizing a number of changes in revenue associated with staffing changes in parking enforcement. Additional compliance staff formerly at the impound lot will be available for parking enforcement tasks generating an additional \$400,200. More detail on changes associated with the impound lot are included in the next section.

Parking Ticket Collections – as a result of a change in state law during the 2016 legislative session, Salt Lake City will now be able to utilize the Office of State Debt Collection to collect on certain delinquent accounts. We expect an increase in revenue as a result of these collection efforts in the amount of \$350,000.

Transfer from the donation fund for Parks Maintenance – over time, approximately \$70,000 has been donated to the City for parks maintenance and beautification. The administration is proposing to transfer these donated funds to the General Fund to be used for Parks Maintenance projects in a newly created line item for parks maintenance projects.

CPI Adjustment – a 2% inflationary increase on all charges and services was added in the amount of \$335,595.

Other Revenue / One- Time Sources

Transfer from Risk Fund—A one-time transfer to the General Fund of \$1,740,307 from the Insurance and Risk Internal Service Fund was approved. In FY 2014, the City's portion of health insurance premium was transferred, from each fund in which payroll deductions are taken, to the Risk Fund during a health insurance holiday time period when neither a deduction from employees nor a contribution from the City was needed. Funds will be returned to the payroll fund from

CAPITAL AND OPERATING BUDGET

which they came, and the General Fund's portion is listed above. This transfer is intended to be one-time.

One Time Permits- One time revenues for permits will generate \$4,300,000 in revenue. This one time permit revenue includes the Terminal Redevelopment Project at the Airport and Google Fiber.

Forgiveness on Parking Tickets – An increase in parking ticket revenue of \$320,251 was approved from a one-time reduction of outstanding unpaid parking fines in exchange for a donation of cash or canned goods. The program would run from August 1 through October 30, 2016. The average citation will be reduced by approximately \$110 for a settlement of \$73 per citation.

Vehicle Sales – A one-time increase of \$211,000 for vehicle sales will result with the closure of the impound lot.

Notable Changes in Salt Lake City Expenses

Salt Lake City is a service driven organization. As a result, our largest budget item is personnel costs. In the General Fund, approximately 66% of the FY 2015-16 budget was allocated to payroll and related personnel costs. As a result of salary changes and insurance costs, the City's expenditures for FY 2016-17 will increase by \$3,312,316.

Health Insurance

Salt Lake City offers one self-insured medical plan: Summit STAR - a High Deductible Health Plan (HDHP). The medical plan is administered by Public Employees Health Plan (PEHP). The City has realized significant savings in the last five years - largely due to the implementation of high deductible health plan. The implementation of a single provider network (in 2011) has also been a significant source of savings for employees and the City. The City continues to realize substantial savings as the result of our effective and cost-savings relationship with our healthcare providers.

Utah Retirement Systems (URS) requires the City's medical plan reserve be maintained at a level to cover claims for a minimum of 55 days and a maximum of 100 days of premiums. Having been in deficit status as of June 30, 2011, the medical plan reserve balance ended with a positive \$4,776,735 as of June 30, 2015. The reserve is for last fiscal year was \$5,995,383 on June 30, 2016.

This year the proposed budget includes a premium increase of 6.61% to the STAR plan. The increase is associated with an increase in the cost of claims, increasing costs overall and cost from newly developed, expensive drugs. Also included in the budget this year, as in prior years, is a proposal to front-load employee's Health Savings Accounts (HSA). The proposed City HSA contribution will fund one-half of the deductible for the STAR plan - \$750 for singles and \$1500 for doubles and families. The contribution will be placed into a health savings account or medical flex account. As before, the City will continue to pay 95% of the total Summit Star medical premium.

Additional proposed enhancements to the STAR plan this year adds additional therapy hours in our current Autism benefit, adds acupuncture coverage along with mental health and drug coverage for gender dysphoria. Also, added is a pilot program covering bariatric surgery.

Compensation

The budget includes a compensation package for City employees which totals approximately \$2.3 million. This increase is comprised of the following:

- For non-represented employees, the budget includes a one and a quarter (1.25%) general increase to the base hourly wage or salary of each employee.
- For represented employees, the budget includes funding for proficiency pay increases based upon employee anniversary (compensation) dates and the number of calendar years completed by each employee in their respective job title. The projected cost for these pay increases is approximately \$500,000. The budget also includes funding for a one and a quarter (1.25%) general increase to the base hourly wage of each employee based upon tentative agreements reached with each bargaining unit. These tentative agreements are subject to the ratification process found in the Collective Bargaining Resolution.
- Finally, as recommended by the Citizens' Compensation Advisory Committee, the budget includes market adjustments for certain benchmarked employee groups in the City who lag significantly behind market pay rates by more than 5%. The projected costs for market adjustments are approximately \$166,000.

DEPARTMENTAL AND PROGRAM CHANGES

Capital Improvement Program

The Capital Improvement Fund is used for payment of sales tax bond debt service and other infrastructure improvements including streets, sidewalks, city buildings, curb, gutter, street lighting, parks, open space, trails and bicycle facilities. More information on specific projects funded in FY 2016-17 can be found in the Capital Improvement Section of the Budget Book.

As anticipated, the percentage of the CIP budget dedicated to debt service increases this year. The increase in debt service that will continue for the next several years highlights the need to focus on infrastructure priorities when determining CIP projects.

The budget includes a General Fund contribution to the Capital Improvement Fund of approximately \$16.9 million. The FY 2016-17 CIP exceeds \$250 million with the inclusion of various projects funded by the Redevelopment Agency of Salt Lake City, the Department of Airports, Public Utilities, federal and state partnerships, Class "C" Fund, Impact Fees and the General Fund.

The budget also recognizes two additional one –time funding sources for capital improvement totaling \$7.75 million. This includes \$4 million dedicated to 500/700 South from the State of Utah, and \$3.75 million for roadways improvement, also from state funds and passed through Salt Lake County.

Impound Lot Changes

For many years the City has maintained its own impound operation for the secure storage of vehicles impounded by our Police department and/or our Compliance Program. In years past,

CAPITAL AND OPERATING BUDGET

impound operations were an unregulated industry. In an effort to provide residents with consistency and professional practices, the City operated its own impound lot. Today impound operations are regulated by state law.

Salt Lake City is currently the only jurisdiction in the State of Utah that still owns and operates an impound lot. All other municipalities use a rotation of tow companies for their impounding needs. Tow companies enter into contracts with a jurisdiction in need of towing and impounding services to perform those services. Using a rotation model, the "next" company on the rotation list would be called when a vehicle needs to be impounded. Instead of towing the vehicle to the City impound lot, the tow company tows the vehicle to their impound lot. The storage fees remain the same because they are regulated by the state.

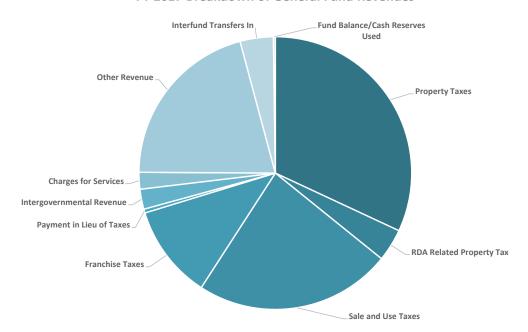

Over time, the City has seen a significant decrease in usage of the impound lot. Preliminary revenue estimates for the FY 2016-17 budget illustrated that without any change in existing process, revenue associated with the impound lot would decrease by \$360,000, meaning that the operation of the impound lot would cost the General Fund approximately \$335,000 annually.

Recognizing this reality, the City closed the impound lot. Three currently vacant positions were eliminated and other positions transferred to Compliance Enforcement and Public Services Administration. Overall, this resulted in a net positive change to the General Fund of approximately \$164,337 in the first year. On an on-going basis the cost of this change will approximately breakeven.

The Local Building Authority of Salt Lake City

The Local Building Authority of Salt Lake City (LBA) was created in 2011 as a mechanism for issuing debt and financing construction of essential purpose stand-alone facilities within the City.

The LBA structure is most useful for essential purpose stand-alone facilities, such as libraries, while sales tax bonds are useful without regard to the nature of the project. Consequently, projects suitable for LBA financing should be considered for that type of financing in order to decrease the overall demand on the City's limited sales tax bond capacity. Most recently, the LBA was utilized to bond for Fire Station construction needs.

The City's LBA operates similarly to the now dormant Municipal Building Authority of Salt Lake City (MBA). The LBA is a separate entity that is governed by the Salt Lake City Council acting as the LBA Board. As such, each fiscal year a budget for the LBA Fund is adopted separately from the Salt Lake City Budget.

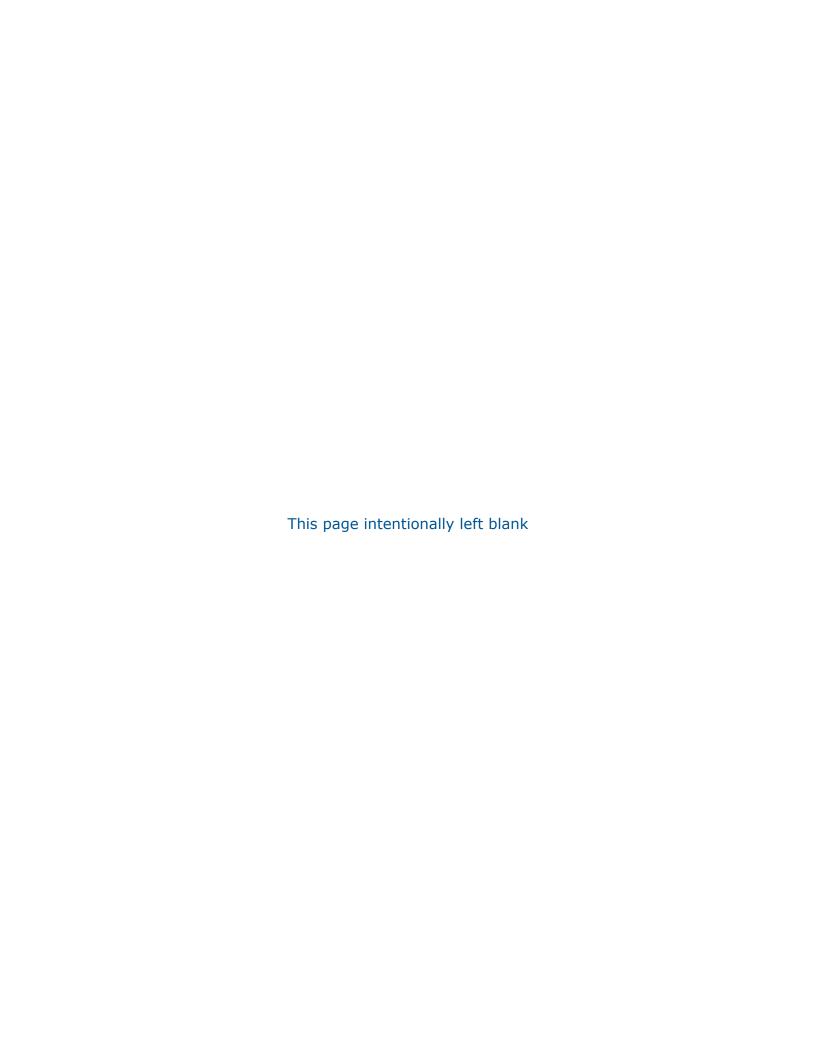

INTERFUND TRANSFER BUDGETS

Salt Lake City makes transfers to and from its different funds. These transfers provide resources for each fund to accomplish the purpose for which the fund was established. Some examples of types of transactions are transfers from the General Fund to the Capital Projects Fund to pay for large capital items, transfers to the Fleet Fund to cover the costs associated with replacement and repair of vehicles or transfers from the Capital Projects Fund to the Debt Service Fund to cover costs associated with financing large projects. The following table outlines the details of these intergovernmental transfers.

			TRANSF	ERS TO

DEBT

The City's debt policy is defined by State statute with the goal of maintaining the City's "Aaa/ AAA" general obligation bond ratings, as rated by Moody's and Fitch respectively, or other rating agencies. Accordingly, the City will continually monitor all outstanding debt issues, as well as trends in key economic, demographic and financial data, including a periodic review of important debt ratios and debt indicators. The City will make all debt service payments in a timely and accurate manner. The City will fully comply with all IRS arbitrage rebate requirements and the bonds' post issuance compliance regulations. In the preparation of official statements or other bond related documents, the City will follow a policy of full and complete disclosure of its financial and legal conditions.

The City's practice is to also adhere to the following guidelines:

- 1. State law limits general obligation bonded debt use for general purposes to 4 percent of the adjusted fair market value of the City's taxable property.
- 2. State law also limits general obligation bonded debt for water, sewer and lighting purposes to 4 percent of the adjusted fair market value of the property plus any unused portion of the amount available for general purposes.
- 3. The City combines a pay-as-you-go strategy with long-term financing to keep the debt burden sufficiently low to merit the "Aaa/AAA" general obligation bond ratings and to provide sufficient available debt capacity in an emergency.
- 4. The City limits debt to projects that cannot be reasonably funded in a single year and to terms that are consistent with the useful life of the project being undertaken.
- 5. The City seeks the least costly financing available. All debt commitments are reviewed centrally by the City Treasurer who looks for opportunities to combine issues or for alternative methods that will achieve the lowest possible interest rates and other borrowing costs.
- 6. The City will continually analyze whether it would be advantageous to refund bond issues based on market and budgetary conditions.
- 7. The City will issue Tax and Revenue Anticipation Notes only for the purpose of meeting short-term cash flow liquidity needs. In order to exempt the notes from arbitrage rebate, the sizing of the notes and the timing of cash flows will meet the "safe harbor" provisions of Federal Tax Code.
- 8. The City will invest bond and note proceeds as well as all funds that are pledged or dedicated to the payment of debt service on those bonds or notes either in accordance with the terms of the borrowing instruments, or if silent or less restrictive, then according to the terms and conditions of the Utah State Money Management Act and Rules of the State Money Management Council.

- 9. The City will maintain outstanding debt at a level such that revenues are equal to or greater than 200% of the maximum annual debt service.
- 10.The City currently has \$140,590,000 of outstanding general obligation debt. This is well below the 4 percent (of fair market value) statutory limits, which places the City's general obligation borrowing limit at \$1,090,899,716. The City currently does not use general obligation debt for water, sewer or lighting purposes. However, the full 8% may be used for water, sewer and electric purposes but if it is so used, then no general obligation bonds may be issued in excess of 8% for any purpose.

Computation of Legal Debt Margin

(in millions, as of June 30, 2016)

Legal Debt Margin:	General Purposes 4%	Water, sewer, and lighting, 4%	Total 8%
General Obligation Debt Limit	\$1,090	\$1,090	\$2,180
Less Outstanding General Obligation Bonds	(141)	-	(141)
Legal Debt Margin	\$949	\$1,090	\$2,039

2014 Fair market value of property -- \$27,272

Source: Utah State Property Tax Division

SIGNIFICANT FUTURE DEBT PLANS

Lease Revenue Bonds, Sales and Excise Tax Revenue Bonds

Although not definitive, City administration continuously evaluates the City's funding of its Capital Improvement Program, and proceeds of lease revenue bonds and additional bonds will be considered as one of the sources for funding the City's capital infrastructure.

Special Assessment Area (SAA)

The City has no short-term plans to issue assessment area bonds.

Other Future Considerations

The City has launched the Terminal Redevelopment Program at the Salt Lake City International Airport. Construction on the \$1.8 billion program began in July 2014 and will continue in phases through 2024. The new terminal building will be completed in 2020. The program will create a single terminal, concourses, parking and support facilities. The program is expected to address seismic risk, provide right-sized facilities, solve operational issues, improve customer service, and accommodate growth while maintaining the Airport's competitive cost. Much of this project is expected to be financed with airport revenue bonds to be issued by the City beginning in calendar year 2017.

FY 2016-17 REVENUE

This section includes a general discussion of the City's major revenue sources. The City has eight major funds which include: General Fund, Golf Fund, Refuse Fund, Water Fund, Sewer Fund, Storm Water Fund, Street Lighting Fund, and Airport Fund. These funds and their major revenue sources are discussed below. The discussion of each major revenue source includes a performance history and general information concerning revenue projections.

REVENUE POLICIES

- 1. The City will project its annual revenue through an analytical process and will adopt its budget using conservative estimates and long term forecasting.
- 2. The City will minimize the use of one-time revenue to fund programs incurring ongoing costs.
- 3. Once taxes and fees are assessed, the City will aggressively collect all revenues due.
- 4. The City will pursue abatement programs and other ways to reduce the effect of taxes and fees on those least able to pay.
- 5. To the extent that the City's revenue base is insufficient to fund current services, the City will: first, continue to look for ways to reduce the cost of government services; second, consider reducing the level of government services; and third, consider new user fees or increases in existing fees. Should these three alternatives fail to offer a suitable solution, the City will increase tax rates as a last resort.
- 6. The City will review the budget for those programs that can be reasonably funded by user fees. This review will result in a policy that defines cost, specifies a percentage of the cost to be offset by a fee, and establishes a rationale for the percentage. When establishing these programs, the City will consider:
 - Market pricing;
 - Increased costs associated with rate changes;
 - The ability of users to pay;
 - The ability of individuals to make choices between using the service and paying the fee, or not using the service;
 - Other policy considerations. (For example, setting fines high enough to serve as a deterrent; or pricing fees to even out demand for services.)
- 7. The City will adjust user fee rates annually based on an analysis of the criteria established in policy six above. The City will pursue frequent small increases as opposed to infrequent large increases.
- 8. The City will consider revenue initiatives consistent with the following:

- Find alternatives that address service demands created by the City's large daytime population;
- Find alternatives that allocate an equitable portion of service costs to tax-exempt institutions;
- Find alternatives to formulas which use residential population to distribute key revenues such as sales tax and gasoline tax; and
- Pursue opportunities for citizen volunteerism and public/private partnerships.

FORECASTING METHODOLOGY

Salt Lake City revenue forecasts are compiled using historical, time-series, trend, and simulation models. The models primarily focus on past experiences and trends, but modifications are made based upon simulations reflecting anticipated economic activities and proposed initiatives. The model simulates projected revenues based upon anticipated economic growth, anticipated fee or tax increases, as well as any new initiatives being proposed.

The City has several revenue auditors that track and report regularly on revenue collections and projections. Projections are monitored for precision and revisions are made throughout the year. This information is used to help forecast the upcoming year's revenue.

As part of the City's modeling efforts, year-to-date cumulative revenue collections are monitored and compared to previous years to identify changes in revenue streams that may indicate areas of concern.

GENERAL FUND

The General Fund is the principal fund of the City and is used to account for resources traditionally associated with governments which are not required to be accounted for in another fund. The General Fund accounts for the normal activities of the City (i.e., police, fire, public works, parks, community development, general government, etc.). These activities are funded through taxes, fees, fines and forfeitures, and charges for services. Taxes are the largest source of revenue in the General Fund.

The majority of the City's General Fund revenue comes from three sources, property taxes \$84,530,904 (32.4%), sales taxes \$60,883,816 (23.31%), and franchise taxes \$29,051,786 (11.14%). Those sources are impacted by local and national economic trends and activities. Major increases or decreases in any one of these three taxes have a significant impact on City operations.

General Fund Revenue Summary

PROPERTY TAX

Property tax revenue is Salt Lake City's principal source of General Fund revenue, providing 36.34% of total projected revenue in FY 2016-17. Property tax revenue is projected to increase in FY 2016-17.

Salt Lake County calculates the Certified Tax Rate and expected revenue for each taxing entity. State Tax Code requires taxing entities to adopt the county's property tax revenue forecast as their own, unless they go through the truth-in-taxation process and raise the rate above the certified rate.

Property Tax Revenue

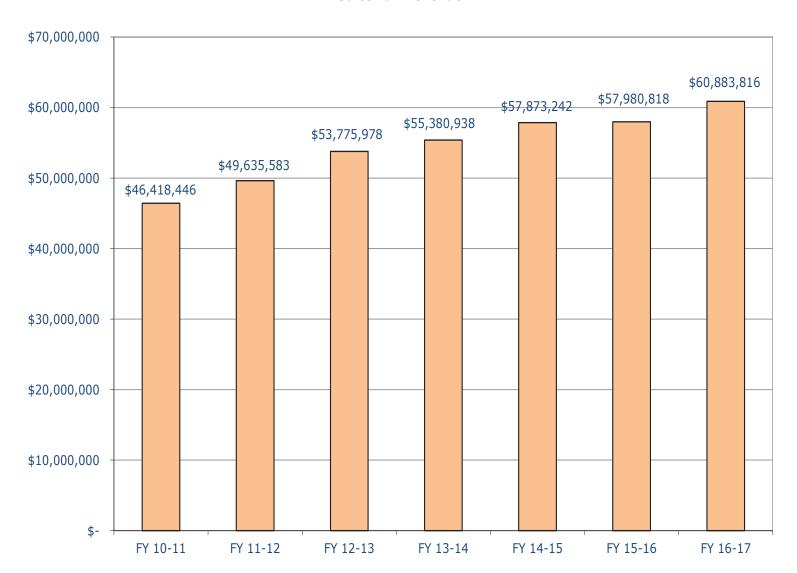

SALES TAX

Sales tax revenue is Salt Lake City's second largest source of General Fund revenue, providing 23.39% of total projected revenue in FY 2016-17. Sales tax revenue is projected to increase in FY 2016-17 as the economy improves slowly. Sales tax revenue is forecast using time-series and trend analysis in conjunction with various modeling scenarios which anticipate economic events that may impact the City. The forecast includes comparing the State of Utah's projections with City's projections to determine if the City's are reasonable.

Sales Tax Revenue

FRANCHISE TAX

Franchise tax revenue is Salt Lake City's third largest source of General Fund revenue, providing 11.16% of projected General Fund revenue in FY 2016-17. Franchise tax revenue is expected to increase. Franchise tax revenue is forecast using time-series and trend analysis, as well as input from utility company representatives.

Franchise Tax Revenue

REFUSE ENTERPRISE FUND

The Refuse Enterprise Fund Class has two funds:

- Operations Fund
- Environmental & Energy Fund

Revenue for the Operations Fund comes from refuse collection fees, inter-fund reimbursements and miscellaneous revenue. City residents are charged refuse collection fees based on the type and size of an individual resident's refuse can(s). These fees are calculated to recover the fund's operational costs when combined with the other sources of revenue described above. Operations Fund revenue is forecasted based on known factors such as the number of refuse cans in service, along with scheduled events such as equipment replacement and changes in contractual agreements.

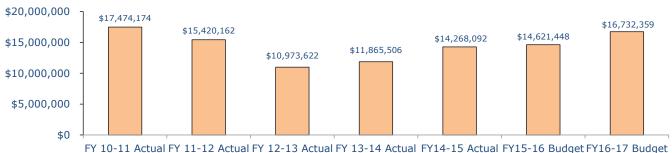

The refuse collection fees will remain unchanged. No fee increases are proposed for FY16-17.

Voluntary residential curbside glass recycling, which was introduced in FY12-13, continues to be offered. Those using this service are charged a separate monthly fee; no fee increase is proposed for FY16-17.

The Environmental & Energy Fund receives a dividend from the Landfill (Salt Lake Valley Solid Waste Management Facility / SLVSWMF) Landfill on an ongoing basis. As the Landfill garbage tonnage has decreased in recent years, so has the related dividend to its partners. This is the primary source of revenue for this fund. Revenues from recycling proceeds have been eliminated for the FY16-17 budget year due to a significant downturn in the global recycling market prices. Capital projects for this fund, as approved by the City Council, can be financed by the \$5,500,000 portion of the \$7,000,000 one-time distribution from the Landfill which was received during FY10-11.

The Environmental & Energy Fund received a one-time transfer of \$1,500,000 from the Operations Fund. These funds are part of the \$7,000,000 Landfill distribution funds received back in FY10-11. These funds will be used to fund ongoing operations for the Environmental & Energy Fund.

GOLF ENTERPRISE FUND

The Golf Enterprise Fund accounts for the operation of the City's seven public golf courses; Bonneville, Forest Dale, Glendale, Mountain Dell Canyon, Mountain Dell Lake, Nibley Park and Rose Park.

Revenue in this fund is generated by user fees including green fees, CIP \$1 fees, cart rental fees, range ball fees, merchandise purchases, lessons, concessionaire rental fees, etc. Revenue is projected based on historical patterns and forecasts of trends in the local market area.

The FY17 Golf Fund budget includes additional revenue of \$44,603 from a recommended cart fee increase of \$0.50, effective January 2017. In addition, the recommended budget includes \$93,000 for the revenue impact of CIP projects expected to be completed by the end of the 2016 calendar year.

WATER UTILITY FUND

The Water Utility Fund operates as an enterprise fund selling treated water to customers to generate revenue in support the services it provides. Although the sale of water is the main or core function, the Water Utility also boasts a successful Water Conservation and Watershed program. The Watershed Program helps keep thousands of acres pristine so we can continue to provide some of the nation's best tasting water and preserve the natural beauty of our local mountains. The summer time rates, adopted by the City several years ago, encourage wise use of water and ensure that this resource will be available in times of scarcity. The Water Utility continues to provide water at one of the lowest rates in the Country.

The FY 2016-17 proposed revenue budget of \$72,205,119 contains a 4% rate increase distributed within a four tiered rate structure as determined by the Utility Advisory Board. The rate increase should generate an additional \$2.6 million which will be used to cover a \$1.5 million increases in the price of water purchased from the Metropolitan Water District, special studies that impact the capital management, and continued investments in the water system. Interest income and impact fees are unchanged. The Utility continues to budget conservatively estimating revenue on an average water year or weather year when forecasting water sales. Impact fees continue to grow although the budget remains static. A review of the rate structure and of impact fees is planned for the fiscal year.

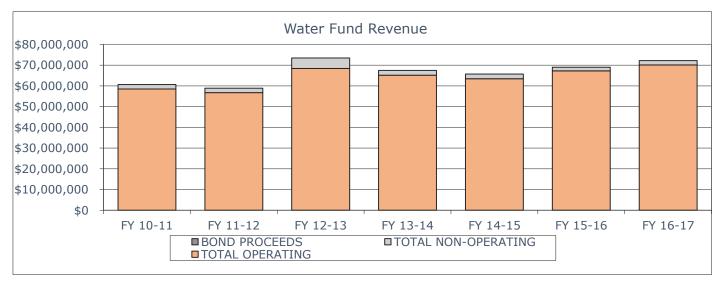

The Metropolitan Water District sells additional treated water to the Water Utility each year. The Utility typically uses about 51,000 acre feet of water or 16.6 billion gallons primarily for Salt Lake County customers. In FY 2016-17 the Utility expects a 10% increase in the price of water purchased from Metropolitan Water and similar increases for the next several years.

The Water Utility plans to use \$9.6 million in reserve funds to cover capital improvements in FY 2016-17. See bar chart below.

SEWER UTILITY FUND

The Sewer Utility Fund operates as the second largest enterprise fund of four funds that Public Utilities operates. The Sewer Utility is an ecological counter-balance to the Water Utility System, ensuring that waste byproducts from City water customers are handled both ecologically and sustainably within the regulatory requirements set by E.P.A and State regulations. New Regulations from the State Department of Water Quality (DWQ) requiring nutrient removal in the treatment process will be fully implemented within the next several years. A new phosphorus rule has been adopted and will require the Waste Water Treatment Plant to build new equipment to meet a 2025 implementation deadline. The Department has planned for this and other expected nutrient changes to retrofit and redesign the current system. Over the next five years the Department plans to invest \$141.3 million on the reclamation process infrastructure; other potential regulations on the horizon could require additional investments of over \$100 million. The Department is proactively planning and assessing the impact as needs of new anticipated regulations affecting all reclamation systems throughout the Country.

The proposed FY 2016-17 revenue budget of \$89,739,188 for the Sewer Utility will include bond proceeds of \$63.6 million and a rate increase of 12% or \$2.7 million. The Sewer Utility will invest \$7.3 million of reserve funds toward capital improvements. Sewer charges are expected to be \$25.2 million. Bonding in 2016-17 will be needed for \$34.5 million in reclamation plant upgrades, \$26.8 million in collection line upgrades, and \$1.8 million for master planning and predesign to meet the mandated phosphorus nutrient regulations. Other revenues are not expected to change.

The Sewer Utility Fund last issued \$24 million in new bonds in 2012-13 with a portion of the issue used to refund other debt to obtain a lower interest rate and debt service payments. Use of bonding provides adequate funding while helping to keep Sewer rates low compared to other similar local and national cities.

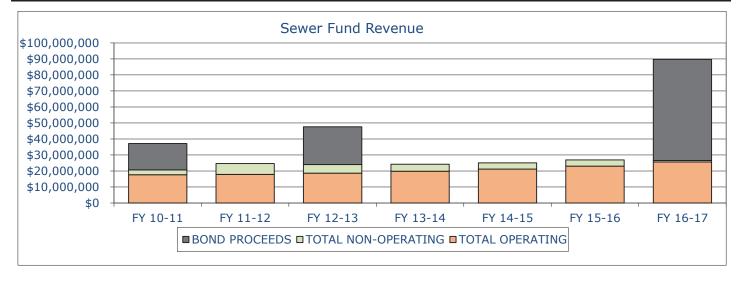

Other revenue sources, such as interest income and impact fees, are budgeted conservatively and may generate more or less revenue than reflected in the budget. Impact fees are growing steadily based on actual revenues while interest income remains neutral. Cash reserves mayl continue to decrease as construction projects are completed and bond proceeds are spent. Rate increases are projected for the next several years based on the capital needs of an old biological system and in anticipation of nutrient regulations. See bar chart for revenue comparison information.

The Sewer Utility capital budget is significantly more than previous years. Capital improvement needs drive budget increase in three main areas: a) \$35.7 million in reclamation plant upgrades, b) \$23.5 million in master plan collection line capacity enlargements accelerated by the Airport construction and Prison relocation, and c) \$1.8 million in initial Federal and State Nutrient project design.

STORM WATER FUND

The Storm Water Utility Fund manages storm runoff and other drainage / stream concerns that impact our City. The storm water system provides a systematic retention and safe runoff protection from potential flooding of City businesses and residents due to snow pack or storm events. The Storm Water Fund became part of the Public Utility Department in 1991 to renovate system inadequacies. A new GIS (Geographic Information System) review shows that we have 342.3 miles of storm water lines in the system. The Department works hand in hand with City Street Sweeping to help keep storm drains clear of all types of debris and ready to handle potential flood events. Storm Water Utility Fund rates are the least changeable of all the Utility funds and rates are not expected to change. Rates are based on the size of impervious areas for runoff potential.

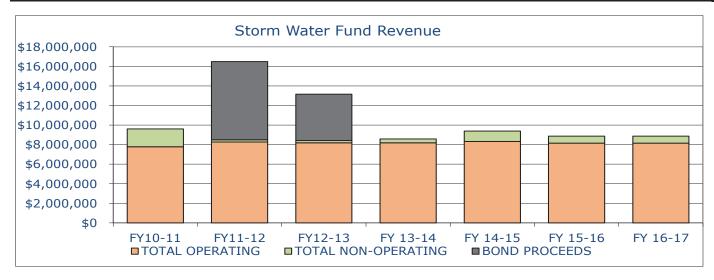

The proposed \$8,867,000 for FY 2016-17 is the same revenue as projected for the last four budget request years. There are \$448,000 earmarked for the City's Riparian Corridor projects or creeks and streams as this item has become an extension of the Storm Drainage System. No new bonds are anticipated for this fund. The Department may anticipate increasing Storm Water fees if major capital project costs exceed reserves.

As is shown by the bar chart below, the operating revenue for the Storm Water Fund is simple to project and anticipate because rates vary little from month to month. For FY 2016-17 the Storm Water Utility is expected to earn just over \$8 million in fees with no changes in interest income, other revenues or impact fees. Actual past revenue for interest was down but impact fee actual revenue is up and may surpass the budget as the economy continues to improve.

Storm Water will spend \$5.5 million on various capital projects including Riparian Corridor work with our urban streams to improve the stream banks and natural fauna. Storm Water continues to participate with the Sewer Fund on the finalization of Oil Drain remediation sharing a portion of the costs associated with the project.

STREET LIGHTING FUND

Street Lighting became the newest utility enterprise fund on January 1, 2013. Street lighting fees are based on units called equivalent residential units (ERU) which are determined front footage of the property. The fee for base level, city-wide lighting services is \$3.73 per ERU per month. The fee for base level service has not changed since the utility began in 2013.

As of July 2016 the Street Lighting Utility began providing Enhanced Street Lighting Services to special assessment areas. An additional enhanced lighting fee of \$5.67 per ERU per month applies to existing residential neighborhoods with enhanced decorative, high efficiency lights with no significant, urgent improvement needs. An additional enhanced lighting fee of \$15.94 per ERU per month applies to existing residential neighborhoods with existing enhanced decorative lights that are in need of large, urgent improvements. Lastly, an enhanced lighting fee of \$43.82 per ERU per month applies to commercial areas with existing enhanced decorative, multi-lamp light fixtures in need of urgent improvements.

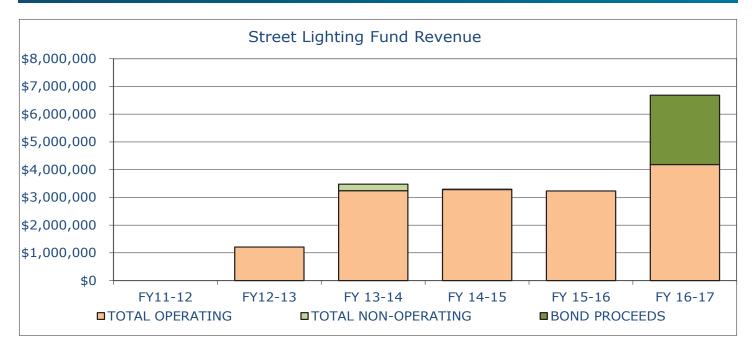

The Street Lighting Utility is helping to upgrade street lighting by improving energy efficiency, improving the street lighting infrastructure, and lighting the streets at night for the City. Businesses, schools, and residents all share the cost of keeping City streets safe. Base Lighting revenue for fiscal 2016-17 remains budgeted at \$3,200,000 million. The new Enhanced Lighting Fees will add an additional \$984,371 of revenue giving a combined total of \$4,184,371. Cash reserves are anticipated to decrease by \$12,025.

The Department has retained a maintenance firm to handle lighting upgrades and general routine maintenance which helps keep costs low and efficiency high. Street Lighting has a very narrow capital budget intended to upgrade and maintain energy efficiency with a simple but effective use of \$2,320,721 for capital improvements. The Department has two dedicated employees to manage this service although support within Public Utilities provides a much greater functional strength than the numbers indicate.

AIRPORT ENTERPRISE FUND

The Salt Lake City Department of Airports manages Salt Lake City International Airport (SLCIA), Tooele Valley Airport and South Valley Regional Airport (SRVA) in West Jordan.

Salt Lake City International Airport serves a multi-state region and consists of three air carrier runways and a general aviation runway. There are 3 terminals, 5 concourses and 81 aircraft parking positions. Serving over 21 million passengers annually, it is classified as a large hub airport.

Tooele Valley Airport is a general aviation reliever airport to SLCIA. It has one runway and support services are on-demand only. South Valley Regional Airport is also a general aviation reliever airport. It also has one runway and is a base for a Utah National Guard military helicopter unit.

The Department of Airports is an enterprise fund. It is not supported by property taxes, general funds of local governments or special district taxes. Capital funding requirements for FY2017 are met from earnings, passenger facility charges, customer facility charges, Federal Aviation Administration grants under the Airport Improvement Program, and State grants.

MAJOR SOURCES OF AIRPORT FUND REVENUE

Revenues are forecast by reviewing and analyzing lease agreements, operating costs, capital projects, product inflation and passenger levels.

A major source of revenue (41%) is generated from the airlines. Air carriers pay on a cost-of-service basis for the services they receive. Rates are set annually based on direct operating

cost, cost of capital, and an amortization on asset investment. The formula used for this system is considered a hybrid structure in the aviation industry and is based on the ten year airline use agreement (AUA) that went into effective on July 1, 2014. It provides \$1 per enplaned passenger revenue sharing, not to exceed 30% of net remaining revenue, and is credited to the air carriers on a monthly basis. Enplaned passengers are projected to increased 2.9% in FY2016 when compared to prior year and are projected to decrease 1.6% for the FY2017 budget.

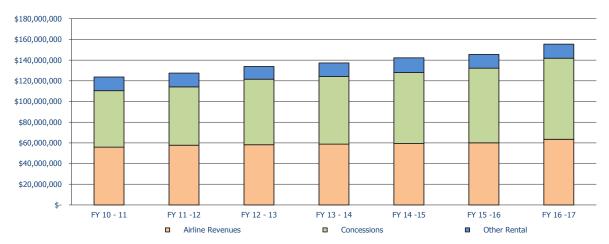

The second major source of revenue (50%) is generated from the Airport concessions. This includes revenue from food and retail concessions as well as car rental and parking fees. Retail concessions, and food and beverage are projected to be higher when compared to FY16 forecast even with fewer passengers projected for FY17. Parking revenue is projected to increase based on continued growth in parking and new parking programs. Remaining revenues are generated through cost recovery of ground transportation costs, and lease contracts on buildings, office space and hangars. The Airport also receives a portion of the State aviation fuel tax.

In FY2012, the Airport began collecting customer facility charges (CFC) in order to fund a new rental car facility. These charges increased from \$4 to \$5 in FY2013 and will remain at \$5 for FY2017. The customer facility charges will meet the financial requirements to build the rental car service and quick turnaround facilities, plus the portion of the garage related to rental cars.

FUND BALANCE

The City's fund balance policy for the General Fund is defined by the general practice of the City Council and the Administration over the last several years. The following legal and general guidelines provide the basis for the fund balance policy:

- 1. Utah Code 10-6-116(4) and 10-6-116(2) indicates that only the "fund balance in excess of five percent of total revenues of the General Fund may be utilized for budget purposes." Five percent of total revenues must be maintained as a minimum fund balance. The maximum in the General Fund may not exceed twenty-five percent of the total estimated revenue of the General Fund.
- 2. All non-general fund funds may accumulate fund balances without limitations except that internal service funds are encouraged to maintain no more than five percent of cash reserves in fund balance. It is likely that any amount over five percent will be utilized for budget purposes.
- 3. Appropriations in the final budgets may not be made for any fund in excess of the estimated expendable revenues for the budget year. In other words, deficits in any fund are illegal. (Utah Code 17-36-17(1); 10-6-117(1); 10-5-114; 17a-1-416(1). The State Auditor has taken the position that a deficit fund balance in one or more funds, created by expenditures being made in excess of those budgets, is an illegally created debt and in violation of the Utah Constitution, Section XIV. As such, the following fiscal year's budget should include sufficient revenues to eliminate the illegal deficit. Deficits arising from emergencies are not illegal and may be retired over five years.
- 4. The City will maintain an available fund balance in the General Fund equal to ten percent of total revenues.
- 5. Subject to the Utah Code limitations of use, fund balance may be appropriated during budget amendments for prior year encumbrances, and may be appropriated for current obligations of the City that were not fully expensed in the prior fiscal year and were not officially encumbered.
- 6. Subject to the Utah Code limitations of use, fund balance may be appropriated for the purchase of real property or the construction of buildings, etc. where there is the assumption that the City is trading an asset for another asset.

BUDGETING BASIS

The City uses the modified accrual basis of budgeting and accounting for the following funds:

- General Fund
- Capital Projects Fund
- Special Revenue Fund
- Debt Service Fund

Under the modified accrual basis, revenue is recognized when it is measurable and available. For example, sales tax revenue is recognized when the retailer collects it as long as the City receives it within two months after collection. Expenditures are recognized at the time the City

makes a commitment to pay. Once the City makes a commitment to pay, funds are "earmarked" and a purchase order is issued. Although the money is committed through the accounting system, the City is not legally liable for payment until services or goods are received and deemed acceptable. The schedules for these funds also contain beginning and ending fund balance figures.

Enterprise Funds and Internal Service Funds operate on a full accrual basis accounting system wherein revenue is recorded when earned and expenditures are recorded when incurred, regardless of when the cash is actually received or disbursed. The City budgets for these funds on a non-GAAP cash basis, therefore you will see a budget for capital expenditures and not for depreciation.

FUND DESCRIPTIONS

GENERAL FUND SUMMARY - The General Fund is used to budget and account for traditional government services such as Police, Fire, and Public Services. The General Fund also contains all financial resources not required to be accounted for in other funds.

CAPITAL PROJECTS FUND SUMMARY - The Capital Projects Fund is used to account for non enterprise fund resources for construction, major repair or renovation of city property. The construction, repair, or renovation may require more than one budgetary cycle to complete. The Capital Projects Fund remaining appropriation does not lapse at year end and projects are closed when completed.

SPECIAL REVENUE FUNDS - Special revenue funds are used to account for certain assessments, fees, grant funds, and other special revenue legally restricted for specific purposes. The City budgets for the following special revenue funds:

- Community Development Block Grant Operating Fund This fund accounts for monies received by the City as a federal grantee participant in the Community Development Block Grant (CDBG) program. Those CDBG monies that are accounted for in the Capital Projects fund are not included in this summary. This schedule is organized by project.
- **Donations Fund** This fund consists of monies from private donations for special projects.
- **E911 Dispatch Fund** This fund accounts for monies received for operation and maintenance of the Emergency 911 Dispatch system. Telephone users are assessed monthly fees for the E911 service.
- Miscellaneous Grants Operating Fund This fund accounts for grant monies received from various government agencies such as HOME and State Emergency Services. When receiving the monies, the City is the grantee.
- Miscellaneous Special Service Districts Fund (Downtown Economic Development)

 -This fund contains special assessment taxes collected from businesses in the Central
 Business District (approximately 200 East to 300 West and South Temple to 400 South).

 The monies in this fund are dedicated to downtown projects or improvements.
- Other Special Revenue Funds These funds are used to account for the City's weed abatement, demolition, and awards and incentive bank program.

FINANCIAL POLICIES

- 1. The weed abatement fund includes costs associated with enforcement of the City's weed removal ordinance.
- 2. The demolition fund includes costs associated with demolition of deteriorated housing units. When the City pays to remove weeds or to demolish a housing unit on private property, a lien is placed on the property to recover the costs associated with the weed removal or demolition.
- **Street Lighting Special Assessments Fund** This fund accounts for monies associated with the installation and operation of streetlights in special lighting districts where property owners share in the cost of the additional lighting.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise. The intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where it has been decided that a periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The City budgets for the following enterprise funds:

- **Airport Authority Fund** User fees are charged to airlines, car rental agencies, airport concessionaires, etc.
- Golf Fund Participants in golf pay fees that underwrite the cost of providing these services.
- **Refuse Collection Fund** A weekly trash pickup service is provided to the residents of Salt Lake City. Additionally, residents receive an annual curb side pickup designed for large or oversized debris as well as leaf bag removal, weed removal, street sweeping, urban forestry debris removal, and weekly curbside recycling pickup. This fund also provides funding support for the Sustainability & the Environment program located within the Department of Public Services. Sustainability & the Environment is tasked with recycling outreach, open space management and general City related environmental management.
- **Sewer Utility Fund** Sewer service is provided to the residents of Salt Lake City.
- **Storm Water Utility Fund** Drainage service is provided to the residents of Salt Lake City.
- **Water Utility Fund** Water service is provided to the residents of Salt Lake City and some residents of Salt Lake County.
- **Street Lighting Fund** Various levels of street lighting are provided to residents and businesses of Salt Lake City.
- Housing Loans Fund These funds account for loan repayments for housing rehabilitation loans provided to eligible participants of the housing loans and grants program. This fund accounts for the City's Housing Demonstration Fund projects.

INTERNAL SERVICE FUNDS

Internal service funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the city. The City budgets for the following internal service funds:

- **Fleet Management Fund** This fund accounts for the financing of vehicle management services. The Fleet Management program provides vehicles and maintenance for the city on a cost-reimbursement basis. This fund does not provide services to the Airport. It only provides maintenance services for Public Utilities.
- **Governmental Immunity Fund** This fund accounts for the financing of general liability coverage for the City against legal claims.
- **Information Management Services Fund** This fund accounts for the financing of data processing and telephone administration services.
- Insurance and Risk Management Fund –This fund accounts for the financing of services related to employee health, accident, and long-term disability insurance, and unemployment benefits managed by the Human Resources Management Division. This fund also includes the City's Risk Manager and related insurance services, and worker's compensation programs managed by the City Attorney's Office. Worker compensation claims are handled through a contract third party administrator.

DEBT SERVICE FUND

The debt service fund is used to account for all general obligation and revenue bonds proceeds and expenses associated with servicing debt of those funds that use the modified accrual basis of accounting.

SPECIAL IMPROVEMENT DISTRICT FUND

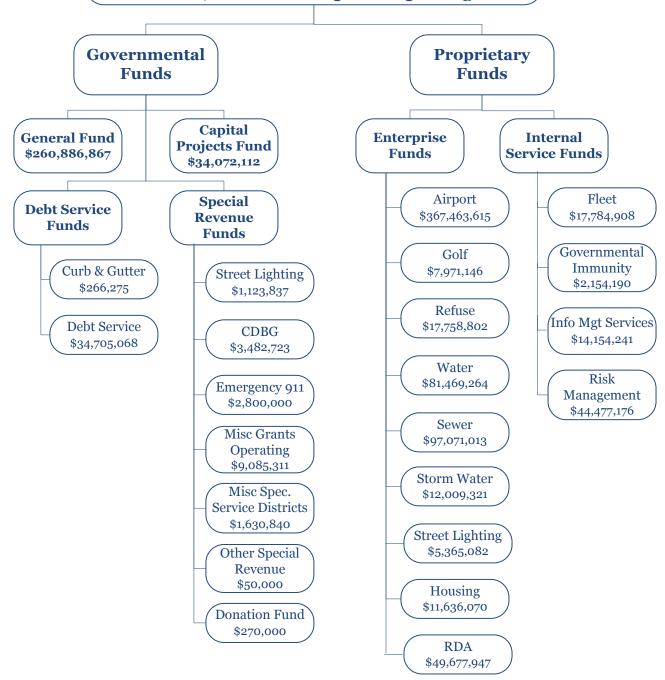

This fund accounts for debts associated with special service districts, including curb and gutter repair, and water main and sewer extensions.

A schedule of revenue sources and budgeted uses for the major funds and fund types follows on the next two pages. This information includes any usage of fund balance.

SALT LAKE CITY FUND STRUCTURE

All City Appropriated Funds FY 2017 Council Adopted Exp Budget

Historical Budget Development Processes

Development of the budget is accomplished through four separate, but interrelated processes. Two of the processes – policy review and budget development – are administered by the Policy and Budget Division of the Finance Department. The Housing and Neighborhood Development Division (HAND) in the Community and Neighborhoods Department administers the other two processes, the Capital Improvements Program (CIP), and the Community Development Block Grant (CDBG) appropriation.

These processes resulted in a budget for the fiscal year beginning July 1, 2016, and ending June 30, 2017. In May the budget was presented to the City Council for review, and public hearings were held on May 17th and 24th and June 7th. These public hearings were continued until the Council adopted the budget in June. On August 9th, the final budget and tax rate was adopted, following the required truth-in-taxation public hearing.

The certified tax rate is the property tax rate that provides the same amount of ad valorem property tax revenue as was budgeted for in the prior year, plus new growth, but exclusive of revenue from collections from redemptions, interest, and penalties. The certified tax rate is calculated as follows: the amount of property tax revenue budgeted last tax year from current real and personal property divided by the adjusted estimate of assessed valuation for the same properties in the current tax year.

The assessed valuation is adjusted for three items: the amount of revenue taken by the Redevelopment Agency, the five year average collection rate, and an estimate of adjustments due to appeals.

The City receives increased property tax revenue only from new growth. New growth means the difference between the increase in taxable value of the taxing entity from the previous calendar year to the current year; minus the amount of increase to locally assessed real property taxable values resulting from factoring (corrective action taken because of mistakes in previous years assessments), reappraisal, or any other adjustments, such as changes in the tax laws.

Policy review and budget development are described below. The CDBG and CIP processes and policies are described in the Capital Improvements section.

The review of programs, services, and budgets does not end with the City Council's adoption of the budget. Review is ongoing throughout the fiscal year. Perpetual review and budget amendments allow the City to continuously improve programs and services.

Budget Review Process

In preparation for fiscal year 2016-17, all City departments reviewed and updated their business plan for the next year at the department, division and program level. Planning and funding requests are meant to address specific goals and objectives related to the City's goals, and areas of focus. Decision makers expect the budgeted resources are necessary to achieve these goals and objectives.

Potential budget changes for the upcoming fiscal year, based goals and service needs were presented to the Mayor in March and April, and discussions were held regarding program and division level funding. The Mayor's Recommended Budget for FY 2016-17 was presented to the City Council in early May.

Legislative Review

The City Council held budget review meetings with each department and for each fund. The Council reviewed current service levels and any recommended increases or decreases. Council staff helped the City Council identify budget issues and possible adjustments in the budget.

The City Council held a public hearing and a truth-in-taxation hearing as required by State Statute prior to adoption of the budget and the property tax rate.

Public Participation

Public participation plays a key role in the City's budget process. During budget preparation, a public hearing is held regarding proposed Community Development Block Grant funding, which is helpful in determining final administrative recommendations and the Council appropriations. The City Council heard public comments on the Mayor's Recommended FY 2016-17 budget in the City Council Chambers.

Budget Administration

Salt Lake City administers its budgets in accordance with the Utah State Municipal Fiscal Procedures Act. Adherence to the provisions of the Act ensures compliance with state law and sound financial practice.

Expenditure of adopted budgets is controlled through the City's computerized Accounting System (One Solution). This system verifies availability of funds whenever a department requests a voucher payment or requests a purchase order. The system may verify at the appropriation, division, or major expenditure category level (for example, personal services, operating and maintenance charges for services, capital outlay, etc.). If an expenditure is charged against a category which does not have adequate remaining funds, the expenditure is rejected by the automated system and the department is notified of the deficiency. The department may then propose a budget revision, and/or shift funds to correct the deficiency.

Adjustments to departmental and fund budgets are allowed, by amendment, throughout the fiscal period. If an amendment is requested which will increase the total budget of a fund, or will shift budgeted amounts between funds or departments, state law requires that a public hearing be held to allow the City Council to receive comments regarding the requested changes. The Council then amends the budget or rejects the request for amendment by majority vote. From time to time, money will be shifted within a fund or department budget. These adjustments do not affect the total budget and, therefore, require neither a public hearing nor City Council approval. The approval of the department director and the budget director is sufficient to complete this type of adjustment.

BUDGET DEVELOPMENT CALENDAR FISCAL YEAR 2016-17

Salt Lake City Council Fiscal Year 2016-17 Legislative Intent Statements

- **A. Administration Metrics and Reporting** (Note: The Council may also consider formalizing these items in the Reporting Ordinance.)
 - i. Metrics in conjunction with the annual budget. It is the intent of the Council that department metrics be included with the annual budget, and updated annually. The metrics of interest are items that measure the effectiveness of the City's service delivery, or track a department's progress towards specific goals. The Council welcomes the inclusion of existing measurements and is not asking that new systems and metrics be developed in all cases. However, in cases where tracking these metrics requires increased resources, the Council will consider these requests highly important.
 - **ii. Six-month check-in with new and interim Department directors.** It is the intent of the Council to request mid-year briefings (in December or January) with all new Directors of the City's departments. The Administration is invited to include an Administrative report on the activities and direction of various City departments with new, vacant (or interim) department directors.
 - **Public Services.** It is the intent of the Council to request that the Administration report back mid-year (in December or January) how funding will be achieved to cover the prioritized list of maintenance needs at City facilities, parks, and other open space properties within the Public Services budget, so that adequate funds can be built into the FY 2017-2018 base budget.
 - **iv. Golf Revenue for FY2016-17.** It is the intent of the Council to request that the Administration provide interim Golf Fund revenue updates to help the Council assess the results of new initiatives, like demand-based pricing, and decide whether the FY2016-17 Golf revenue budget should be adjusted. This would make most sense as a written-only update in August/September, to be followed by a full, indepth briefing in October/November, after the various revenue-enhancing strategies have been in place for most of the golf season. Key metrics expected in this briefing would include:
 - The total number of rounds and revenue at each course.
 - The revenue per round at each course.
 - Expenses at each course, including potential maintenance increases as a result of any additional play.
 - **v. Wingpointe Golf Course**. It is the intent of the Council to request that the Administration report the findings of its review of Wingpointe's viability when these become available. It might make sense to present these in conjunction with the August/September written update on FY2016-17 Golf revenue, above.
 - **vi. Golf Future Revenue Projections for future budgets.** It is the intent of the Council that in future budgets, Golf Fund revenue projections be based on actual rounds played during the previous fiscal year.

FINANCIAL POLICIES

- **vii. Arts Council.** It is the intent of the Council to request the Administration report back with a more in-depth review of Arts Council funding at the conclusion of the 2016 Twilight Concert Series. The review would include key measurements from the season, the outside consultant's study findings, and other information provided by the Administration that would help the Council evaluate whether to add funds to the Arts Council operating budget. It is the intent of the Council to consider this information in the context of the City's overall economic development goals.
- **B. Fleet Fund Financial Sustainability**. It is the intent of the Council to request that the Administration report back during the first Council meeting in November on a plan to achieve financial sustainability of the Fleet Fund.
- **C. Impound Lot.** It is the intent of the Council that effective consumer protection be part of any City contract with private providers for towing and impound services. Recognizing that contracts are the purview of the Administration, the Council provides the following policy guidance on consumer protection.
 - i. Every contracted towing and/or impound business must offer to potential clients a printed copy of a fee schedule before providing services. This fee schedule also must be posted in a prominent location at the vehicle storage facility and on tow trucks. The fee schedule must:
 - specify a Total Maximum Fees and Charges price which includes the first day of storage (subsequent days of storage would be charged in accordance with State code); and
 - include an itemized list of any fees that are not regulated in State code that the business may choose to apply in any particular case.
 - ii. The vehicle storage facility would:
 - accept payment offered in cash or by major credit card, and maintain cash on hand to make change.
 - post the telephone number of the City office designated to handle consumer protection issues;
 - maintain personnel authorized to provide information to vehicle owners 24 hours each day (including weekends), as well as personnel who can respond within one hour of a request for release of any vehicle to its owner.
 - provide adequate visitor parking.
 - iii. Each tow operator would provide to the City E-911 dispatcher within 1 hour of arriving at the impound area, a report that includes the following:
 - The vehicle's description, including its vehicle identification number and license number or other identification number issued by a state agency;
 - The name of the person, firm or corporation impounding or towing the vehicle;
 - The date, time, and location of the vehicle's removal;

- Reason(s) for removal of the vehicle;
- The location where the subject vehicle will be kept; and
- A telephone number, staffed twenty-four (24) hours a day, which an owner can call to arrange for release of the vehicle.
- D. Cost Analysis for Development Review Team (DRT) services. It is the intent of the Council to request that the Administration conduct an analysis of the City's costs for Development Review Team services as a first step in cost-justification for potential fee-setting. After review of the cost analysis, the Council may wish to reach out to key users of the service for feedback on advantages and disadvantages of cost-recovery for the use of DRT.
- **E. Clean Team & Green Team.** It is the intent of the Council to request that the Administration:
 - i. work with the Downtown Alliance to identify potential grant funding opportunities for job programs;
 - ii. encourage the Alliance to seek funding to ensure the operation of these programs on an ongoing basis; and
 - iii. help the Alliance identify City application opportunities and programs (for example, CDBG, CIP, RDA, general fund) to assure that Alliance proposals can be considered in the context of the full budgets for each of these areas.

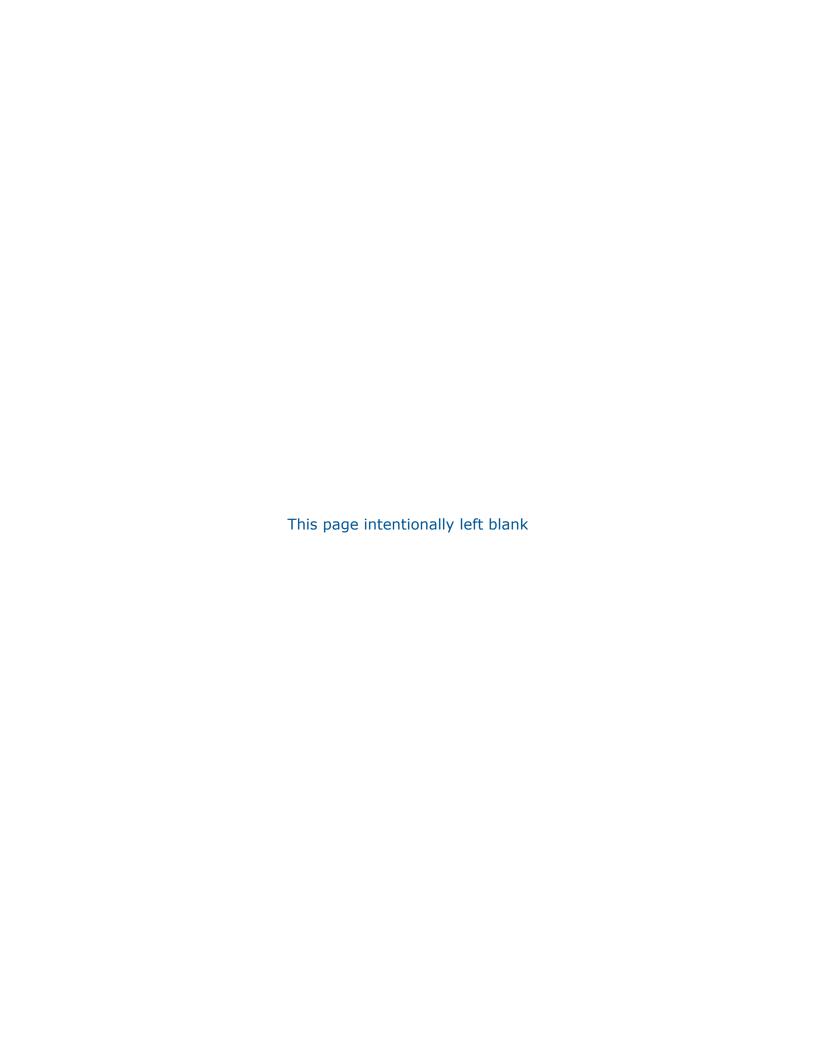

Note: It is the Council's understanding that the base funding amount needed for the <u>Clean</u> Team in 2016-17 will be found within existing operational budgets and that the \$25,000 added in key changes will be specific to the homeless proposal in the Rio Grande neighborhood.

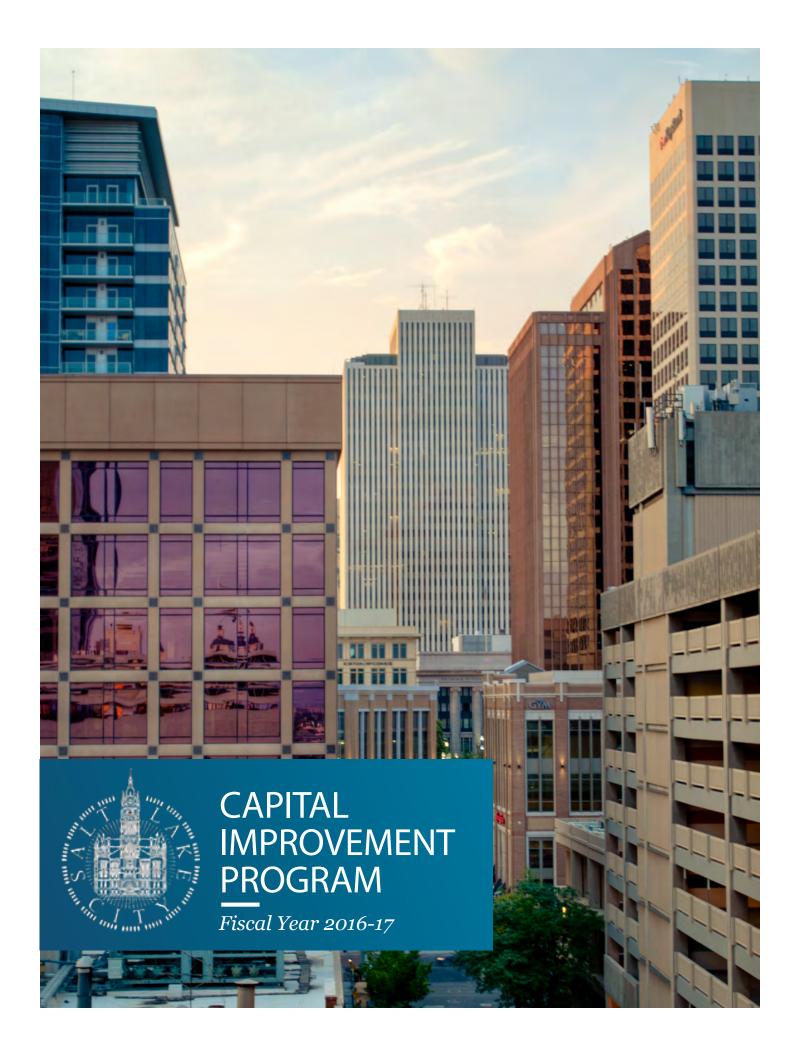

- **F. EDCU Contract.** It is the intent of the Council to request that the new Economic Development Director review the City's goals with EDCU and prepare an evaluation of whether the City's overall economic development needs would be served best by continuing the contract or by deploying these resources in another manner. It is the intent of the Council to request that this evaluation be provided in conjunction with the Mayor's Recommended FY 2017-2018 Budget.
- **G. Briefing on PERF Study,** *Defining Success in Responding to Sexual Violence*. It is the intent of the Council to request that once the Police Executive Research Forum (PERF) study is available, the Administration provide a written report which highlights the study's evaluation how the Salt Lake City Police Department responds to sexual violence.
- H. Periodic Study of Public Safety Compensation. It is the intent of the Council to request that every three years, the Administration fund an independent study of compensation for public safety employees in the Police and Fire Departments. The study should include a rigorous analysis of job complexity before data collection, using input from discussions with union representatives to collaboratively determine appropriate criteria, comparable cities and scope. The Council requests the Administration include funding for this item in the FY 2019 annual budget.

- I. Fireworks Air Quality Threshold Ordinance. It is the intent of the Council that for any fireworks shows organized & funded 100% by City funds be canceled depending on air quality measurements and public health concerns, similar to firework bans depending on fire danger and public safety considerations. In addition, the Administration could also urge event organizers to self-regulate and adjust to prevent impacts to air quality, and impose regulations or conditions to the award of Signature Event funds.
- J. RDA Finance position. It is the intent of the Council that, based on the staffing addition in the Finance Department, the Administration would share a monthly financial report of RDA expenditures. The Council and Administration may also schedule a mid-year briefing to review the reports.

Capital Improvement Program

Overview

Salt Lake City's Capital Improvement Program (CIP) is a multi-year planning program of capital expenditures needed to replace or expand the City's public infrastructure. The construction and/or rehabilitation of streets, sidewalks, bridges, parks, public buildings, waterworks, and airport facilities are typical projects funded within CIP.

Two elements guide the City in determining the annual schedule of infrastructure improvements and budgets. These include the current fiscal year's capital budget and the 10 Year Impact Fee Facilities Plan. This document details the City's infrastructure needs that could be addressed with general, enterprise and impact fee funds, and establishes a program to address those needs within the City's ability to pay.

Salt Lake City's FY 2016-17 budget appropriates \$396,326,945 for CIP, utilizing General Funds, Community Development Block Grant (CDBG) Funds, Class "C" Funds, Impact Fee Funds, Redevelopment Agency of Salt Lake City Funds, Enterprise Funds, and other public and private funds.

The FY 2016-17 CIP proposals received the benefit of review by the Community Development Capital Improvement Program Board, consisting of community residents, City Staff and Mayor Jackie Biskupski. The Salt Lake City Council considers their input in determining which projects will be recommended for funding in this budget. The Enterprise Fund recommendations are consistent with each respective business plan. These plans were developed in cooperation with the respective advisory boards and endorsed by the Administration. The Redevelopment Agency of Salt Lake City fund recommendations are consistent with Board policy. All grant related CIP recommendations are consistent with applicable federal guidelines and endorsed by the Administration.

General Fund Contribution for Capital Improvement Program

The City Council, with the Administration, has adopted debt and capital policies to guide the City's Capital Improvement Program. Particular attention was placed on City debt policies and determination of the amount of general fund revenue to be allocated to the CIP on an on-going annual basis. Highlights of Salt Lake City's CIP policies include:

- Allocation of General Fund revenues for capital improvements on an annual basis will be determined as a percentage of General Fund revenue.
 - The City's FY 2016-17 budget includes \$16,523,528 of general fund revenue to CIP.
- Revenues received from the sale of real property will go to the unappropriated balance of the Capital Fund and the revenue will be reserved for future use.
 - The City Council and Administration support funding CIP with one-time monies received from the sale of real property, as well as CIP funds remaining from projects completed under budget.
- Capital improvement projects financed through the issuance of bonded debt will have a debt service no longer than the useful life of the project.
 - The City Council and the Administration have consistently supported this policy.

Seek out partnerships for completing capital projects.

The City actively seeks contributions to the CIP from other public and private entities. Other local and federal governmental agencies continue to provide funding for infrastructure improvements in collaboration with the City.

	Debt Ratio Benchmark	(S	Salt Lake City's
Low	Moderate	High	Current Ratios
\$1,000	\$1,000 to	> \$2,500	\$831
	\$2,500		
<3%	3-6%	>6%	0.59%
<3%	3-6%	>6%	2.79%
<5%	5-15%	>15%	7.34%
	\$1,000 <3% <3%	\$1,000 \$1,000 to \$2,500 <3% 3-6%	\$1,000 \$1,000 to > \$2,500 \$2,500 <3% 3-6% >6% <3% 3-6% >6%

Debt Ratio Benchmarks

The City periodically reviews debt ratio benchmarks obtained from credit rating agencies that identify the low, moderate and high debt ratios for local governments. The numbers in the table above show that Salt Lake City's current debt ratios are in the low range.

General Fund, Class "C" Fund, Impact Fee Fund, Community Development Block Grant (CDBG) Fund, the Redevelopment Agency of Salt Lake City Funds and Enterprise Funds

Various funding sources contribute on an annual basis to the City's CIP. Salt Lake City's FY 2016-17 CIP includes a general fund budget of \$16,523,528 for new infrastructure improvements; Class "C" One-time Funding budget of \$3,750,000; a Class "C" budget of \$3,750,000; an Impact Fee fund budget of \$6,167,165; an Other Fund budget of \$5,279,705; a Surplus Land Fund of \$310,104; a CDBG CIP budget of \$1,340,515 for infrastructure improvements within CDBG income eligible areas; a Redevelopment Agency of Salt Lake City budget of \$8,953,208; and Enterprise Fund budgets totaling \$350,252,720.

Major Projects

Local Street Reconstruction, ADA Improvements and Sidewalk Rehabilitation

Local Street Reconstruction, ADA improvements and sidewalk rehabilitation capital improvement proposed budget total appropriation of \$13.4 million. Of this amount the budget appropriates \$4,400,000 of general fund, \$7,500,000 of One-time Class "C" fund and Class "C" fund and \$1,500,000 of Impact Fee funds for the reconstruction and rehabilitation of deteriorated streets citywide. Funds are appropriated this fiscal year for citywide projects in sidewalk rehabilitation

and ADA improvements that include curb cuts, pedestrian accessibility ramps and physical access corner rehabilitation.

Parks, Trails and Open Space

Parks, Trails and Open Space capital improvement proposed budget total appropriation of \$5.8 million from various funding sources. Projects include various improvements at Liberty Park, Regional Athletic Complex and a new park in the downtown area.

Transportation Infrastructure

Transportation infrastructure capital improvement proposed budget total appropriation of \$2.5 million from various funding sources. Projects include traffic signal upgrades and transportation safety improvements; Citywide Traffic Signal Synchronization and bus stop enhancements.

Public Facilities

Public Facilities capital improvement proposed budget total appropriation of \$1 million. Projects include HVAC replacement and Sports Courts repair at the Sorenson Multicultural Center and an atrium roof deck replacement at The Leonardo.

Redevelopment Agency of Salt Lake City Funds

The Redevelopment Agency of Salt Lake City with an \$8,953,208 allocation from various funding sources continues to provide additional infrastructure improvements to Salt Lake City.

Enterprise Funds

The City's enterprise functions – Airport, Water, Sewer, Storm Water, Refuse Collection and Golf – are by nature, very capital intensive. The budgets for these activities reflect the need to maintain the integrity and capacity of the current capital infrastructure and their functions.

Airport Enterprise Fund

The Airport CIP consists of \$252,452,300 of Airport improvements in FY 2016-17. Of this amount, approximately \$4,740,000 is appropriated for multiple Concourse Restroom Renovations consisting of demolition, repairs to floor and wall finishes, plumbing/piping repairs, and installation of new plumbing fixtures; Approximately \$18 million for various Pavement Rehabilitation projects; \$109 million Terminal Redevelopment Program to provide ongoing architecture, engineering, construction administration, construction trade procurement, construction, testing, commissioning, and management of the TRP.

Golf Enterprise Fund

Golf capital improvement proposed budget total appropriation of \$200,000. This amount includes emergency annual capital needs including equipment.

Water Utility Enterprise Fund

Water Utility capital improvement proposed budget total appropriation of \$18 million. This amount includes \$1.5 million to purchase watershed land; \$5.9 million ongoing replacement of deteriorated pipelines in coordination with City, County and State projects; \$3 million to continue valve replacement program, service line replacements, new connections and small and large meter replacements.

Sewer Utility Enterprise Fund

Sewer Utility capital improvement proposed budget total appropriation of \$72 million. Of this amount, \$35 million is appropriated for Treatment Plant Improvements including; and \$33 million for collection lines master plan implementation program for various locations.

Storm Water Utility Enterprise Fund

Storm Water Utility capital improvement proposed budget total appropriation of \$5.4 million. Of this amount, \$4.2 million is appropriated for the replacement of various storm drain lines; and \$664,000 for the storm water lift stations. Other projects include riparian corridor improvements along Emigration Creek corridor through the Bonneville Golf Course; and Landscaping along the Northwest Oil Drain remediation project segment 3.

Street Lighting Enterprise Fund

Street Lighting capital improvement budget totals \$1 million. This amount will provide upgrades to high efficient lighting on arterial and collector streets, upgrades to base levels, and energy upgrade projects at specific locations.

Operating Budget Impact

The operating impact of major capital improvement projects is typically analyzed during the City's annual CIP development process. Many new capital improvements entail ongoing expenses for routine operation, repair and maintenance upon completion or acquisition and new facilities often require addition of new positions. Conversely, a positive contribution that a capital project can make to the fiscal wellbeing of the city is also factored into the decision making process.

Except where noted in the following CIP project descriptions, the general terms "No Additional Operating Budget Impact", "none" and "negligible" are used to indicate little or no impact to the annual overall operating budgets for FY 2016-17. This determination is based on scope of project (maintenance, design, etc.,) and where applicable, project construction and completion.

The term "positive" means a possible slight decrease in current operating expenses.

The term "minimal" indicates that additional costs will be absorbed by the current operating budget, but will be less than \$10,000.

Project	Project Description	2016-17 Budget	Operating Budget Impa
General Fund CI	P Projects - pay as you go		
Sales Tax - Series 2007	Debt Service payment for bonds issued for TRAX Extension & Grant Tower improvements. Bonds mature 10/1/2026.	\$407,295	NA
Sales Tax - Series 2009A	Debt Service payment for bonds issued to finance all or a portion of the acquisition, construction, improvement & remodel of a new Public Services maintenance facility, building for use as City offices & other capital improvements within the City. Bonds mature 10/1/2028.	\$2,163,264	NA
Sales Tax - Series 2012A	Debt Service payment for bonds issued for a portion of the cost of reconstruction improvements of the North Temple Boulevard & viaduct. Bonds mature 10/1/2032.	\$812,500	NA
Sales Tax - Series 2013B	Debt Service payment for bonds issued to finance a portion of the acquisition, construction, & improvements of the Sugarhouse Streetcar & Greenway Projects. Bonds mature 10/1/2033.	\$545,675	NA
Sales and Excise Tax Revenue Bond - Series 2014B	Debt Service payment for bonds issued to finance a portion of the acquisition, construction, & improvements of various CIP projects funded in place of the City & County Building Stone Remediation Project. Bonds mature 10/1/2034.	\$615,875	NA
Motor Fuel Tax Revenue Bonds - Series 2014A	Debt Service payment for bonds issued to finance a portion of the acquisition, construction, & improvements of the 1300 South, State Street to 500 West & the 1700 South, State Street to 700 East Projects. Bonds mature 4/1/2024	\$984,459	NA
Taxable Sales and Excise Tax Rev. Refunding Bonds, Series 2014A - (2005 Sales Tax Refunding)	Debt Service payment for sales tax bonds issued to refund the Series 2005 A bonds which refunded the remaining MBA series 1999A, 1999B, & 2001 Bonds. Bonds mature 10/1/2020.	\$4,301,670	NA
Parking Pay Stations - Lease Payment	Debt service pertaining to lease agreement for the Parking Pay Stations. 7 year amortization. Commenced 2012, ends 2019.	\$665,780	NA
Crime Lab - Lease Payment	CAM funding set aside to pay annual lease and common area maintenance payment for SLCPD Crime Lab. Reduces annual CAM set aside. Commenced 2/2014, ends 10/2024	\$483,473	NA
Crime Lab - Building Improvements Payment	Estimated payment for building improvements/ renovations pertaining to leased space for the SLCPD Crime Lab. Reduces annual CAM set aside.	\$118,200	NA
Fire Station 14	Debt Service funding set aside to pay annual Fire Station Bond payment. There will be capitalized interests payments. The first debt service payment will be due in April 2018. In theory, impact fees can be used for debt service.	\$2,200	NA
Fire Station 3	Debt Service funding set aside to pay annual Fire Station Bond payment. There will be capitalized interests payments. The first debt service payment will be due in 2018. In theory, impact fees can be used for debt service.	\$2,200	NA
SLC Sports Complex ESCO Debt Service Payment (Steiner)	Payment from the City. Annual ESCO Debt payment of for the SLC Sports Complex. The agreement between City & County States that the County will operate the facility & that all capital investments over \$5,000 will be equally split between the City & the County. The City is financially responsible to pay the total debt service but will be reimburse half by the County Parks & Recreation. 15 Year Term, last payment July, 2029.	\$119,000	NA

Project	Project Description	2016-17 Budget	Operating Budget Impac
Parks Esco Flat Debt Payment	Annual ESCO bond repayment (year three of six recurring payments) for energy conservation systems including irrigation, lighting & HVAC controls at Liberty Park, Salt Lake City Cemetery, Jordan Park, Jordan River Trail, tennis bubbles, etc.	\$77,400	NA
Percent for Art	To provide enhancements such as decorative pavement, railings, sculptures & other works of art.	\$157,360	NA
Transportation Safety Improvements Citywide	Safety for all people travelling is the Transportation Division's first priority. This CIP application would provide funding for high priority multi-modal safety improvements. If approved, these CIP funds will better empower Transportation to work quickly to address identified safety needs as part of our efforts to achieve zero fatalities and reduce injuries within our city. This fund will significantly reduce the time between the identification of a safety issue, and installation of the identified mitigation, thereby reducing the risk of crashes and injury in the interim period. Projects are identified by using data to analyze crash history, roadway configuration and characteristics, and with citizen input.	\$448,000	No Additional Operating Budgel Impact
Six Traffic Signal Upgrades	This project will remove the existing traffic signal equipment that has reached the end of its useful life, including steel poles, span wire, signal heads, and traffic signal loops and will upgrade the intersections with mast arm poles, new signal heads, pedestrian signal heads with countdown timers, improved loop detection, and left turn phasing, as needed. Installation of upgraded signals often leads to improvements in detection for autos and bicycles, as well as pedestrian upgrades. This item is needed to maintain state of good repair. Based on our maintenance assessments, six traffic signal upgrades are recommended each year (as noted in this application). Over the past years partial funding has been received.	\$220,000	No Additional Operating Budget Impact
Bus Stop Enhancements	UTA invests federal funds annually in bus stop improvements to achieve ADA compliance, provide transit passenger safety and comfort, and improve the travel experience to encourage ridership. Additional funds are available annually to municipalities that can provide a local match. These funds may be used to enhance investments UTA plans to make and/or to leverage additional funds by including elements in the recently developed "Bus Stop and Bike Share Station Design Guidelines" which go above and beyond thresholds in UTA's guidelines. As appropriate to each location, these will include upgraded pavement treatments, lighting, beautification, integration with neighborhood character, and additional amenities, such as shelters and passenger information enhancements.	\$100,000	No Additional Operating Budget Impact

Project	Project Description	2016-17 Budget	Operating Budget Impact
Parks and Public Lands Comprehensive Master Plan	A comprehensive parks and public lands master plan is a guiding document for Parks and Public Lands for the next 20 years. The planning process will evaluate the needs assessment to be completed in 2016, assess existing conditions and engage the community to identify goals and objectives for the enhancement and expansion of the parks and public lands assets. The plan will reflect the community vision and articulate implementation strategies to meet the park and recreation needs of the community. The plan will guide future funding requests and acquisition goals.	\$142,500	No Additional Operating Budget Impact
RAC Site Improvements - Restroom	Project funding and implementation would provide a permanent restroom, supporting 16 athletic fields in lieu of portable toilets. The added structure creates aesthetic value in addition to increased customer amenity satisfaction including: additional shade, vending, access to family restrooms, and ease of proximity. The structure allows the facility to meet tournament hosting requirements outlined in event RFPs. This 18 stall restroom is designed to meet the needs of large visitor numbers frequently over 5,000 per day. Construction documents are complete for the restroom and infrastructure is currently stubbed to the proposed facility location. Please see attachment A for additional background information.	\$689,700	No Additional Operating Budget Impact
Pickleball Courts in Jordan Park and Liberty Park	Over the last three years the demand for pickleball has increased dramatically and there is a need to distribute courts throughout the City. This project will develop six pickleball courts at Jordan Park and six pickleball courts in Liberty Park. At Jordan Park, two existing tennis courts will be converted into six pickle ball courts. The courts at Jordan Park will be developed to tournament quality and include a concession stand and benches. The Liberty courts will be supported by the tennis center and also include benches at the sidelines. Construction of the courts includes: demolition of the existing dilapidated surface in both locations, grading of site, construction of post tension concrete surfaces, court surfacing, court lines and nets, and perimeter fencing. Liberty Park then Jordan Park.	\$300,000	No Additional Operating Budget Impact
Pavement Condition Survey 2017	Approximately every five years the entire pavement network is surveyed. This condition survey is accomplished with state of the art equipment and a report summarizing possible options and cost is provided. The data collected is used by Engineering's Pavement Management Team to determine the overall street network condition, provide street rehabilitation and reconstruction recommendations, and prioritize proposed maintenance activities.	\$160,000	No Additional Operating Budget Impact

		2016-17	Operating
Project	Project Description	Budget	Budget Impact
Fire Station 6 Driveway and Parking Lot Improvement	This is a request to enhance the rear apron of Station 6. The work proposed will include the demolition of home that the Fire Department acquired in 2013. The demolition of this structure wills the enable the Fire Department maneuver the apparatus more efficiently in and out of the station. Currently, maneuvering apparatus in and out Station 6 is especially difficult and not conducive future equipment upgrades or enhancements. Furthermore, the existing concrete has deteriorated to the pointed that is buckling when apparatus drive over it. Replacement of the rear apron will ensure there will not be additional damage. The proposed work will also include landscaping enhancements to ensure that the improvements will fit in to overall look and design of the neighborhood.	\$177,595	No Additional Operating Budget Impact
Leonardo (Old Library) Atrium Roof Deck Replacement	The Old SLC Main Library located at 209 E. 600 S. was renovated beginning in 2008 and completed in 2010. This renovation was plagued with problems including budget issues, contract disputes with the General Contractor and other construction issues which resulted in litigation. A settlement was made prior to completion and the City Project Manager, Contractor, Architect and Consultant Project Manager left the project. The City owns the building and leases it to the Leonardo. Under the agreement, the City is responsible for the building shell which includes the roof and roof deck. The renovation construction did not resolve the roof leak and further investigation was needed to identify the problem and solutions.	\$322,728	No Additional Operating Budget Impact
Sorenson Multicultural Center Gymnasium Sports Courts and HVAC Replacement	Program Managers and SLC H.A.N.D. brought forward the failing condition of the sports courts and the need to accommodate the indoor pickle ball sport. Regular Citizen patrons report tripping hazards and the irregularities in the floors make the game difficult and dangerous. The floors in the small gym were original in 1964. The floors in the larger gym to the West are somewhat newer, however the rubber tiles are irregular and are lifted on the edges as well. The adhesives under the existing floors most likely contain asbestos and will need to be abated as well. Salt Lake County, (SLCO), Facilities estimate new wood courts that accommodate pickle ball and other court sports will cost approximately \$400,000.00. In addition, the restrooms and locker rooms are aging and need renovation. Metal is rusting due to the humidity from the pool, and the tile and fixtures are old and not water efficient. SLCO Facilities estimate the cost of renovation at approximately \$75,000. The make-up air handler with heat exchanger in the locker room area failed and a minor temporary fix was completed in 2014. This temporary fix was \$6,500. The HVAC unit moves the return exhaust air through a heat exchanger, extracts the heat from the heated air, mixes it with clean fresh air from outside, heats the outside air and exhausts the chlorine gasses and carbon dioxide from the building. It controls the humidity and provides fresh air in the locker room area. This unit needs replacement and the proposed replacement is similar to two units placed in the Salt Lake City Sports Complex (Steiner) which cost \$187,840 each in 2013. Historically this unit will reduce energy costs for these areas by 25%.	\$483,408	No Additional Operating Budget Impact

Project	Project Description	2016-17 Budget	Operating Budget Impact
	This traffic signal timing update provides significant direct benefits for the traveling public. Optimal timed signals along major corridors minimize the diversion of traffic to local and residential streets, improving safety and traffic conditions. Signal retiming (data collection, model development, implementation, fine tuning, evaluation, confirmation and reporting) is a cost effective tool to generate quantifiable traveler benefits as measured by decreased vehicle delay, increased safety, lower emissions and reduced fuel consumption. Qualitative benefits, such as decreased cut-through traffic on alternate routes, reduced traveler frustration, and reduced pedestrian and bicycle delay will also be realized. Signal retiming should be done every three years (travel patterns continually change) according to the Federal Highway Administration – Signal Timing Manual, pg. 7-2. Likely performance measures include: travel time, stops, delay, emissions and train delay. Partially funded would be used for the area of North Temple to 900 South and I-15 to 1300 East. Software program upgrades.	\$300,000	No Additional Operating Budget Impact
Whittier Elementary School, Drop-off/pick- up Lanes	"Design and construction of a student drop-off /pick-up lanes on 300 E., utilizing the park strip land immediately to the west of 300 East pavement, and just north of the school's entrance at 1600 South." A vehicle lane widening would be constructed some distance (TBD by Transportation) north on 300 east (of the south bound lane) between the existing power poles. The existing "day visitor/handicapped parking" area would not change. A similar bus lane turnout (length TBD by Transportation) would accommodate 3 District buses and be located further north on 300 East, in line with the automobile lane and between a second set of existing utility poles. The needed space is made by removing the park strip, widening the sidewalk to a required 5' width and adding new curbs, thereby keeping thewaiting cars and buses out of the dedicated bike lane and traffic. Signage would identify car and bus only area parking. The SLC School District may consider either moving it's playground fence or creating a gate or an opening for students exiting buses or cars so they may go right onto the existing playground, and this would support the project and reduce congestion on the existing sidewalk. CIP funds would provide for the design and construction of this critically needed feature of the street, and could couple (but not fund) any Salt Lake School District's modification to the exiting playground and fencing features located on their property. The student drop-off/pick-up lanes would follow the design of this recently completed feature at Hawthorne Elementary which was completed during the 2015 rebuild of 1700 South. The DRT was held January 11, 2016 at 3pm and resulted in this comment by Transportation Engineer, Mike Berry (from the	\$50,746	
1200 East Green Median	Green landscaped, tree-lined median in the middle of 1200 East from 600 S to 800 S. Reduces annual CAM set aside. Tied to bond above. Taxable Sales and Excise Tax Rev. Refunding Bonds, Series 2014A - (2005 Sales Tax Refunding) FY2017/2018 will end. **SLC Sports Complex** Payment from the County. Annual ESCO Debt payment of for \$119,000 NA the SLC Sports Complex. The agreement between City & County **ESCO Debt Service** Payment (Steiner) States that the County will operate the facility & that all capital investments over \$5,000 will be equally split between the City & the County. The City is financially responsible to pay the total debt service but will be reimburse half by the County Parks & Recreation. 15 Year Term, last payment July, 2029. Smiths Baseball Field - To establish budget within the 83 fund to accept the revenue No Additional \$141,705 **Naming Rights** received for the naming rights pertaining to Smith Baseball Field. **Operating Budget Revenue/Expense for** \$141,000 of revenue - this request is budget only. **Impact Maintenance of** Ballpark, 77 W 1300 S **CIP Memorial House** A revenue cost center has been established to receive revenue \$19,000 NA On-going Deferred payments from the Utah Heritage Foundation. Monthly payments Maintenance, 485 N are received and are to be re-invested in the facility to maintain **Canyon Rd** the property. Plans for the use of the funding is to be determined. 500/700 S State funds currently being held. Continue the westward \$4,000,000 NA Reconstruction extension of 500/700 South to serve the growing manufacturing and industrial area of Salt Lake City.

Subtotal - Other Fund CIP Projects

Project	Project Description	2016-17 Budget	Operating Budget Impact
Class "C" Fund (
Class "C" Fund 1300 East Reconstruction (1300 South to 2100 South) Local Matching Funds (WFRC/STP)	Engineering requested \$11.1 M to the Wasatch Front Regional Council (WFRC) for the design and reconstruction of 1300 East. WFRC awarded Salt Lake City 4,067,000 in federal Surface Transportation Program (STP) funds. The project limits and scope of work may be adjusted to meet approved funding. Receipt of the approved STP funding is contingent on a required minimum local government match of \$296,000 (6.77% of the total approved project cost). Engineering will be requesting local match funding through the 2016/2017 and 2017/2018 CIP budgets. Construction elements will include asphalt roadway milling and placement of a concrete or asphalt overlay, curb and gutter replacement where necessary, and drainage improvements. Design will start in the winter of 2016/2017 with construction scheduled to occur in 2018.	\$159,000	No Additional Operating Budget Impact
Class "C" Fund Street Improvements 2016/2017 - Pavement Overlay, Reconstruction, and Preservation, Citywide	Deteriorated City streets will be reconstructed or rehabilitated through this project, including replacement of street pavement, curb and gutter, sidewalk, drainage improvements, public way art, and appropriate bikeway and pedestrian access route improvements as determined by the Transportation Division. In 2014, the City Council requested Engineering restructure its Pavement Management Program. This resulted in the creation of Salt Lake City's Roadway Selection Committee. This committee includes representatives from numerous City departments and divisions, including Engineering, Transportation, Public Utilities, Housing and Neighborhood Development, Finance, and the Redevelopment Agency. Roadway candidates for rehabilitation or reconstruction are currently under review by the Roadway Selection Committee. Final selections will be made in the first quarter of 2016. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$2,217,846	No Additional Operating Budget Impact
Class "C" Fund GF Accessibility Ramps 2016/17 (ADA Accessibility Ramps)	Funding for this project will be used for the design, construction, and inspection of public way Americans with Disabilities Act (ADA) pedestrian accessibility ramps and related repairs to corners and waterways as needed, including sidewalk, curb and gutter, and corner drainage facilities. Locations will be determined based on the City's ADA Ramp Transition Plan and citywide inventory indicating locations throughout the City needing ramp construction. The determination of ramp construction locations also involves citizen requests, including high priority requests from individuals with disabilities, and coordination with other CIP projects involving pedestrian access route improvements. Project design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$300,000	No Additional Operating Budget Impact

	,	2016 17	
Duningt	Dusingt Description	2016-17	Operating
Project Class "C" Fund Sidewalk Rehabilitation: Concrete Sawcutting and Slab Jacking	Project Description Many tripping hazards will be eliminated through this project by horizontal saw cutting or slab jacking displaced sidewalk sections. Horizontal saw cutting is used to remove vertical displacements up to 1-1/2 inches on public way sidewalks. Slab jacking to lift displaced sidewalk sections is used at locations where raising the concrete will result in compliance with ADA pedestrian access route slope restrictions. Horizontal saw cutting or slab jacking of displaced sidewalk sections provides a significant cost savings when compared to the cost of removing and replacing defective sidewalk sections. Design will occur in the winter of 2016/2017 and construction will occur in the 2017 construction season.	\$200,000	No Additional Operating Budget Impact
Class "C" Fund Sidewalk Rehabilitation: Proactive Sidewalk Repair	This project will address extreme sidewalk displacements that create barriers to accessibility or in some other way create pedestrian access route safety concerns. ADA actual need citizen requests and time sensitive sidewalk repairs will also be addressed through this project. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$150,000	No Additional Operating Budget Impact
Class "C" Fund Missing Sidewalk Installation Program	The objective of this project is to install sidewalk at locations lacking this important public way improvement. Installation locations will be based on the City's Missing Sidewalk Priority Construction Plan and citizen requests, including high priority requests from individuals with disabilities. Funds may be used for property acquisition to accommodate new sidewalk. This project will also be coordinated with other CIP projects involving pedestrian access route improvements to provide a holistic approach to addressing community needs. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$50,000	No Additional Operating Budget Impact
Class "C" Fund Public Way Concrete Restoration Program: Curb & Gutter, Retaining Walls and Structures	The City began this program in winter 2015/16 to address deteriorated curb and gutter, retaining walls, and other concrete structures in the public way with a citywide survey to determine need and a pilot project to be constructed in 2016. Funding for this project will be used for the design, construction and inspection of city concrete facilities selected from the newly created deteriorated concrete database. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$250,000	No Additional Operating Budget Impact

		2016-17	Operating
Project Class "C" Fund Paver Crosswalks Reconstruction	Project Description This project will replace deteriorated public way paver crosswalks with colored, stamped concrete that will provide the same visual appeal without the maintenance concerns that exist with pavers. Candidates for reconstruction include the following locations: 1900 East 1300 South, 200 West South Temple, 900 East South Temple, South Temple at West Temple, South Temple at H Street, and Main Street crosswalks between South Temple and 400 South. Due to variable deterioration rates, prioritization of paver crossings requiring repair will occur following CIP funding approval to ensure public safety issues are appropriately addressed. Maps showing locations of the reconstruction candidates are attached. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction season.	\$150,000	No Additional Operating Budget Impact
_	There are 23 bridges in Salt Lake City, most crossing either the Jordan River or the Surplus Canal. UDOT inspects these bridges every two years and provides the City with a basic condition report. The City is responsible for performing appropriate maintenance activities based on statements in the UDOT report. City Engineering has prepared an ongoing maintenance strategy with the objective of extending the functional life of these structures and extending the time line between major repairs. The requested funds will be used to address needed repairs and routine maintenance. Design will occur in the winter of 2016/2017 with construction occurring in the 2017 construction	\$150,000	No Additional Operating Budget Impact
Class "C" Fund Whittier Elementary School, Drop-off/pick- up Lanes	"Design and construction of a student drop-off/pick-up lanes on 300 E., utilizing the park strip land immediately to the west of 300 East pavement, and just north of the school's entrance at 1600 South." A vehicle lane widening would be constructed some distance (TBD by Transportation) north on 300 east (of the south bound lane) between the existing power poles. The existing "day visitor/handicapped parking" area would not change.	\$40,654	
	A similar bus lane turnout (length TBD by Transportation) would accommodate 3 District buses and be located further north on 300 East, in line with the automobile lane and between a second set of existing utility poles. The needed space is made by removing the park strip, widening the sidewalk to a required 5' width and adding new curbs, thereby keeping the waiting cars and buses out of the dedicated bike lane and traffic. Signage would identify car and bus only area parking.		
	The SLC School District may consider either moving it's playground fence or creating a gate or an opening for students exiting buses or cars so they may go right onto the existing playground, and this would support the project and reduce congestion on the existing sidewalk.		
	CIP funds would provide for the design and construction of this critically needed feature of the street, and could couple (but not fund) any Salt Lake School District's modification to the exiting playground and fencing features located on their property. The student drop-off/pick-up lanes would follow the design of this recently completed feature at Hawthorne Elementary which was

Salt Lake City Capital Improvement Program Fiscal Year 2016-17 General Fund/CDBG Fund/Other Fund Projects

Project Description

Class "C" Fund Sugar House Park Roadway Maintenance	Roadways are seeing noticeable wear and need repair. A slurry seal will suffice instead of a full asphalt repair overlay.	\$82,500	
	Subtotal - Class "C" Fund CIP Projects	\$3,750,000	
Impact Fee Fund	d CIP Projects		
Impact Fee Fund Transportation Safety Improvements Citywide	Safety for all people travelling is the Transportation Division's first priority. This CIP application would provide funding for high priority multi-modal safety improvements. If approved, these CIP funds will better empower Transportation to work quickly to address identified safety needs as part of our efforts to achieve zero fatalities and reduce injuries within our city. This fund will significantly reduce the time between the identification of a safety issue, and installation of the identified mitigation, thereby reducing the risk of crashes and injury in the interim period. Projects are identified by using data to analyze crash history, roadway configuration and characteristics, and with citizen input.	\$49,778	No Additional Operating Budget Impact
Impact Fee Fund Parks and Public Lands Comprehensive Master Plan	A comprehensive parks and public lands master plan is a guiding document for Parks and Public Lands for the next 20 years. The planning process will evaluate the needs assessment to be completed in 2016, assess existing conditions and engage the community to identify goals and objectives for the enhancement and expansion of the parks and public lands assets. The plan will reflect the community vision and articulate implementation strategies to meet the park and recreation needs of the community. The plan will guide future funding requests and acquisition goals.	\$7,500	No Additional Operating Budget Impact
Impact Fee Fund Gladiola Street from 500 South to 900 South	Requested funding is for the design and reconstruction of this minor arterial street. Construction elements will include asphalt roadway milling and placement of a concrete or asphalt overlay, curb and gutter replacement where necessary, relocation of power poles, and drainage improvements. Design will start in the winter of 2016/2017 with construction scheduled to occur in 2018. Engineering anticipates the need to request project funds over two funding cycles, 2016-2017 and 2017-2018.	\$1,500,000	No Additional Operating Budget Impact
Impact Fee Fund Downtown Park Improvements	Parks and Public Lands was awarded funds to purchase downtown property for the development of a park. This application is to request funding for the design and construction of future unidentified park development and amenities.	\$945,000	
Impact Fee Fund Parks of RDA Projects	The RDA FY 2017 budget amendment #2 includes three projects that are likely eligible for parks impact fee funding. The City's impact fee consultant would need to confirm these projects are eligible. The projects are: \$354,661 Folsom Trail/City Creek Daylighting Feasibility, Cost & Design \$1,357,527 Marmalade Park Block Phase II Construction \$352,699 Parley's Trail Design & Construction	\$2,064,887	No Additional Operating Budget Impact

Project	Project Description	2016-17 Budget	Operatin Budget Im
Impact Fee Fund Additional Parks Impact Fee Funding for a New Downtown Park	This parks impact fee funding is in addition to the \$900,000 appropriated by the Council in FY2015-16 for a new downtown park.	\$1,600,000	
	Subtotal - Impact Fee Fund CIP Projects	\$6,167,16 5	
CDBG Fund CIP	Projects		
ADA Accessibility Ramps CDBG Eligible Areas	To install accessibility ramps where none have existed or replace existing deteriorated ramps or ramps that do not meet current standards.	\$169,843	No Addition Operating Bud Impact
Deteriorated Sidewalk Replacement CDBG Eligible Areas	To ensure public safety and accessibility through the replacement of deteriorated residential public way concrete sidewalks and removal of accessibility barriers. This program also improves neighborhood livability and streetscape appearance.	\$169,844	No Addition Operating Bud Impact
Glendale Street and 800 South Reconstruction	To design and bid out construction projects for the reconstruction of Glendale Street and 800 South public way street improvements.	\$437,000	No Addition Operating Bud Impact
9 Line and Jordan River Parkway Trail Amenities	To provide trail amenities along the Jordan River Parkway and 9 Line Trails, often where none have existed before. There is a clear need and desire for these amenities to simplify maintenance and enhance trail cleanliness, aesthetics, and appeal.	\$15,000	No Addition Operating Bud Impact
Jordan Park Gateway	The Jordan Park Gateway project is a neighborhood improvement project to engage the community residents in the development of a formal design plan to establish a vision, goals, and principles for site development and to implement the design plan.	\$20,400	No Additional Operating Bud Impact
Three Creeks Confluence: Phase II	The Phase II of the Three Creeks Confluence project will implement the site specific design plan that is currently being developed by Parks and Public Lands, a site design consultant, and community residents with 2015-16 CDBG funds as part of Phase I of the project. Implementation will transform 5.9 acres of blighted public property into a pocket park in the under served Glendale neighborhood.	\$528,428	No Addition: Operating Bud Impact

1	Repair Delaminating Exterior Panels on Concourse C & B-C Connector	This project will repair and/or replace delaminating exterior metal wall panels on Concourse C and the B-C Connector. Work will include removal and reinstallation of surface mounted conduits and equipment, removal of delaminated exterior panels, repair/replacement of the exterior metal panels as needed.	\$2,136,000	Minimal
2	Roof Replacements (Terminal Area)	This project is one of a series of projects that will rehabilitate and upgrade the concourses, connectors, and pedestrian bridges connecting the parking garage to the terminals. Work in this phase will be focused on Concourse B. Work will include renovating and updating floor and wall finishes, upgrading HVAC equipment and controls, remodeling restrooms, and upgrading communications/data infrastructure, and upgrading electrical infrastructure. (Design on this project was previously budget in FY2015. This request is for the total project cost including design and construction.)	\$373,000	Minimal
3	Concourse B Public Restrooms Renovations	This project is part of a continuing program to renovate public restrooms located in the terminals and concourses. Work will include demolition, repairs to floor and wall finishes, plumbing/piping repairs, and installation of new plumbing fixtures.	\$1,097,000	None
4	Concourse C Public Restrooms Renovations	This project is part of a continuing program to renovate public restrooms located in the terminals and concourses. Work will include demolition, repairs to floor and wall finishes, plumbing/piping repairs, and installation of new plumbing fixtures.	\$985,000	None
5	Concourse D Public Restrooms Renovations	This project is part of a continuing program to renovate public restrooms located in the terminals and concourses. Work will include demolition, repairs to floor and wall finishes, plumbing/piping repairs, and installation of new plumbing fixtures.	\$2,057,000	None
6	Boiler Plant - Replace pumps, valves, chillers	This project will replace chillers #1 and #3 as well as a number of heating water and chilled water pumps and valves in the boiler plant. These items have exceeded their useful lives and are becoming increasingly difficult to maintain.	\$1,532,000	Minimal

				_

8		This project is one in a series of projects to renovate operational restrooms located throughout the airport campus. Work will include demolition, repairs to floor and wall finishes, plumbing/piping repairs, and installation of new plumbing fixtures. The restrooms to be renovated in this project include the non-public restrooms D168A and D168B located on the ground level of Concourse D.	\$233,000	None	
9	Portable 60 Ton Pre- Conditioned Air Unit	This project will provide a new portable 60-ton pre-conditioned air unit to provide heating and cooling for larger aircraft.	\$160,000	Minimal	
10	Restroom Renovations - Operational (Design)	This project will provide planning, programming, and design services necessary to renovate operational (non-public) restrooms located throughout the airport campus. This project will focus on the restrooms in the North Support area of the campus.	\$50,000	Minimal	
11	Airfield Signage Replacement	This project will replace internally illuminated taxiway and runway guidance signs throughout the airfield that are over twenty years old. Work will include removal of existing signs, installation of new guidance signs, and associated electrical work.	\$4,322,000	None	
12	Airfield Lighting Rehabilitation - Phase 2	This project is the second in a series of projects to rehabilitate and upgrade the airfield lighting conductors as part of a multi-year program. Work will include removal and replacement of existing underground lighting conductors, connectors, isolation transformers, and lighting controls.	\$976,000	None	
13	PCC Pavement Joint Seal Program	This project is part of an ongoing program to repair and reseal the joints in the portland cement concrete (PCC) pavement at various locations throughout the airfield. Work will include removal of the existing joint seal material, cleaning of the joints, repairs to spalled or damaged concrete panels along the joints as needed, and resealing the concrete joints.	\$500,000	None	
14	Passenger Boarding Bridge Rehabilitation	This project is one of a series of projects that will rehabilitate and upgrade the passenger loading bridges on the existing concourses. Work will include installation of new programmable logic controllers, new loading bridge controls, and new screw jacks.	\$340,000	Minimal	

	Project	Project Description	2016-17 Budget	Operating Budget Impact
15	R/W 17-35 & R/W 14- 32 Pavement Rehabilitation			None
16	Glycol Reclamation Plant - Modular Storage Tank	This project will include the purchase and installation of a 1 million gallon modular storage tank for runoff collected from the aircraft deicing pads.	\$177,000	None
17	R/W Lighting Upgrades (Materials)	This project will purchase new energy efficient LED lighting fixtures for Runway 16R-34L and Runway 16L-34R. New fixtures include in-pavement center line lights and elevated edge lights on Runway 16R-34L and new in-pavement and elevated runway guard lights on Runway 16L-34R. The new light fixtures will be installed by SLCDA electricians as part of annual maintenance on the runways.	\$769,000	Minimal
18	UPS Apron Lighting Upgrades (Materials)	This project will purchase new energy efficient LED lighting fixtures for the apron lighting on the UPS apron at the North Cargo area. SLCDA electricians will install the new light fixtures on the existing light poles.	\$111,000	Minimal
19	East Apron Pavement Rehabilitation	This project will rehabilitate portions of the asphalt apron east of Taxiway K. Work will include asphalt cold milling, placement of new bituminous surface course, pavement markings, raising miscellaneous utility structures to grade, and minor electrical work. This is the first of two phases to rehabilitate the apron east of Taxiway K.	\$3,987,000	None
20	SVRA - R/W 16-34 & T/W A Pavement Rehabilitation	This project will consist of design and construction activities for an asphalt overlay of Runway 16-34 and the north end of Taxiway A at South Valley Regional Airport (SVRA). The project will also include the construction of a new Taxiway A1 at the south end of the runway to eliminate the taxiway located south of the displaced threshold.	\$4,316,000	None
21	SVRA - Taxilane Rehabilitation	This project will resurface the aprons that provide access to the existing T-hangars and shade hangars at the South Valley Regional Airport. The aprons in this project are those constructed before 1995. The surface will be cold milled to a depth of 3 inches and repaved with new bituminous surface course material	\$1,318,000	None
22	SVRA - PAPI Replacement 16-34 (Materials)	This project will purchase new precision approach path indicator (PAPI) lights for Runway 16-34 at South Valley Regional Airport. SLCDA electricians will install the new light fixtures. FAA will flight check the new PAPI's after installation.	\$49,000	None

	Project	Project Description	2016-17 Budget	Operating Budget Impact
23	TVY - Infrastructure Improvements	This project will provide for development of culinary water and sanitary sewer infrastructure at Tooele Valley Airport (TVY).	\$2,700,000	None
24	GA - Master Plan	This project will provide a strategic analysis of general aviation activities for the Salt Lake City Department of Airports. This analysis will include Salt Lake City International Airport, South Valley Regional Airport, and Tooele Valley Airport. The study will evaluate a broad range of issues with reference to general aviation and will analyze all three airports as an integrated system. Major elements common to general aviation will be addressed that would include existing conditions and facilities, land use on and off the airports, commercial and business development potential, existing and future aviation activity, future facility requirements, airspace analysis, noise analysis, terminal area plans, environmental considerations, potential financing, and identifying future capital improvement projects. As suggested by the report, the Airport Layout Plans could be updated to reflect future development recommendations. A final comprehensive general aviation master plan study will be prepared and distributed.	\$1,000,000	None
25	Roadway Entrance Feature	This project will consist of the design and construction of a roadway entrance feature located on the inbound roadway to the airport.	\$500,000	Minimal
26	2100 North & 4000 West Asphalt Overlay	This project is part of a continuing program to maintain the Airport's infrastructure. This project will consist of the construction of an asphalt overlay on 2100 North and 4000 West streets from the intersection of 2200 West to the intersection of 1200 North. Work will include asphalt milling, installation of new bituminous surface course, and pavement markings.	\$2,699,000	None
27	Fiber Run 2200 West & 2200 North to North Vault	This project is a major phase in the implementation of a complete fiber optic data transmission system at the airport. This project will take fiber from 2200 West along 2200 North to the North Vault. This includes concrete encased duct bank, trenching, vaults, micro-duct, fiber, labor, and mounts/pedestals. Also included is a hand-off/termination building including site work, electrical, network, equipment, and an 8-foot high security fence around the building. CASS & video will secure this termination building.	\$3,392,000	None
28	3700 West Realignment / Employee Parking Expansion	This project will realign a portion of 3700 West street in front of the new Airport Operations Center (remodeled FedEx building) and expand the existing employee parking lot. Work will include removal of existing roadway elements, new curb and gutter, new asphalt paving, new street and parking lot lighting, pavement marking, and landscape restoration.	\$1,311,000	None

Salt Lake City Capital Improvement Program Fiscal Year 2016-17 General Fund/CDBG Fund/Other Fund Projects 2016-17 Operating ect Project Description Budget Budget Impa rical Vehicle This project will purchase and install electric vehicle charging \$250,000 Minimal

			2010-17	Operating	
	Project	Project Description	Budget	Budget Impact	
29 Electrical Vehicle Charging Stations		This project will purchase and install electric vehicle charging stations at multiple locations throughout the airport campus. Locations include the parking garage, the economy parking lot, and employee parking lots. Work will also include the installation of required electrical infrastructure to support the new chargers.	\$250,000	Minimal	
30	Technical Services Building Sanitary Sewer Connection	This project will connect the Technical Services Building (TSB) located on the east side of the airport campus to Salt Lake City's sanitary sewer system. Work will include the installation of a new grinder pump, electrical panel modifications, installation of a new sanitary sewer manhole, and installation of a new sanitary sewer lateral connecting to the existing sanitary sewer main located on the north side of the building.	\$125,000	None	
31	Parking Access Revenue Control System	This project will include furnishing, installing, and testing a fully functional Parking Access Revenue Control System (PARCS) at Salt Lake City International Airport. Work will include furnishing and installing required software and hardware including ancillary devices such as gate arms, readers, and pay stations. Work will also include installation of supporting electrical and fiber backbone as necessary to provide connectivity to all parking lots controlled by the system.	\$5,500,000	Minimal	
32	Automated Vehicle Identification Readers	This project will install additional automated vehicle identification (AVI) readers at several locations on the airport's terminal entrance and exit roadways to better capture the movements of ground transportation vehicles using the airport. The project will also include upgrading the AVI software to capture vehicle dwell time	\$219,000	Minimal	
33	2100 North & 4000 West Asphalt Overlay	This project is the twelfth phase of a continuing program to maintain the Airport's infrastructure. The project will consist of surface preparation, asphalt removal, asphalt overlay, concrete placement, and minor drainage corrections to prolong the service life of the Airport's pavement. The primary areas to be overlaid in this project will be miscellaneous roads and parking lots throughout the airport campus.	\$750,000	None	
34	Land Acquisition - Airport Improvement	This project is the continuing effort to acquire property near Salt Lake City International Airport, South Valley Regional Airport, and Tooele Valley Airport on a voluntary basis. Various parcels in the vicinity of each of these airports have been identified for future acquisition as property is placed on the market for sale. These parcels are needed to prevent residential development or other land uses that may be incompatible with airport operations. The parcels targeted for acquisition are required for approach protection and land use compatibility. Because the acquisitions are voluntary, they are only undertaken on a willing-seller/willing-buyer basis. The exact parcels to be purchased will depend on which parcels become available for sale.	\$2,000,000	Minimal	

	Project	Project Description	2016-17 Budget	Operating Budget Impact
35	Airport Master Plan	This project will update the Airport's Master Plan and the accompanying Airport Layout Plan (ALP). The Master Plan Update will review existing conditions, report on historic activity, review aviation activity forecasts, look at future facility requirements, and analyze future plans for the terminal area and concourses. The Master Plan Update will also review the airfield, cargo operations and facilities, and general aviation activity and facilities. The ALP sheets will be updated to reflect findings of the Master Plan Update. The ALP will be submitted to the FAA for review and approval. This effort will also include gathering survey data for the airport and submitting this updated data to the FAA in conformance with Airport GIS standards and requirements.	\$4,000,000	Minimal
36	Central Screening Warehouse	This project will provide planning, programming, and design services necessary to provide construction documents for a new central screening warehouse. This will enable SLCDA to competitively bid for the construction of a new central screening warehouse for concessionaire goods that will be received and screened before being delivered to the new terminal and concourse buildings that will be constructed as part of the Terminal Redevelopment Program.	\$475,000	Minimal
37	CIP Committee Reserve/Airport Contingency	A fund has been established and set aside to fund unanticipated Capital Improvement Program (CIP) projects. This fund will be rolled forward each year if not utilized.	\$3,000,000	None
38	TRP - Design and Construction	The SLCDA Terminal Redevelopment Program (TRP) is a program to construct a new consolidated landside terminal, concourses, baggage handling system, associated airfield work, roadway improvements, central utility plant, parking, rental car facilities and other associated improvements. This FY2017 scope provides for ongoing architecture, engineering, construction administration, construction trade procurement, construction, testing, commissioning, and management of the TRP.	\$109,763,300	None

Office of the City Council

The Office of the City Council manages the legislative functions of Salt Lake City government. The Office consists of 7 elected City Council members, an Executive Director and staff, totaling 30 full-time equivalent positions.

Changes discussed below represent adjustments to the FY 2015-16 adopted budget.

Personal Services Base to Base Changes

146,448

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

BA #2: Positions Added

143,796

An additional 2 positions were added to the Council Office in BA #2 of FY 2016. These positions are Senior Advisor to the Council and Staff Assistant. The budget includes funding for the ongoing costs associated with these positions.

Insurance Rate Changes

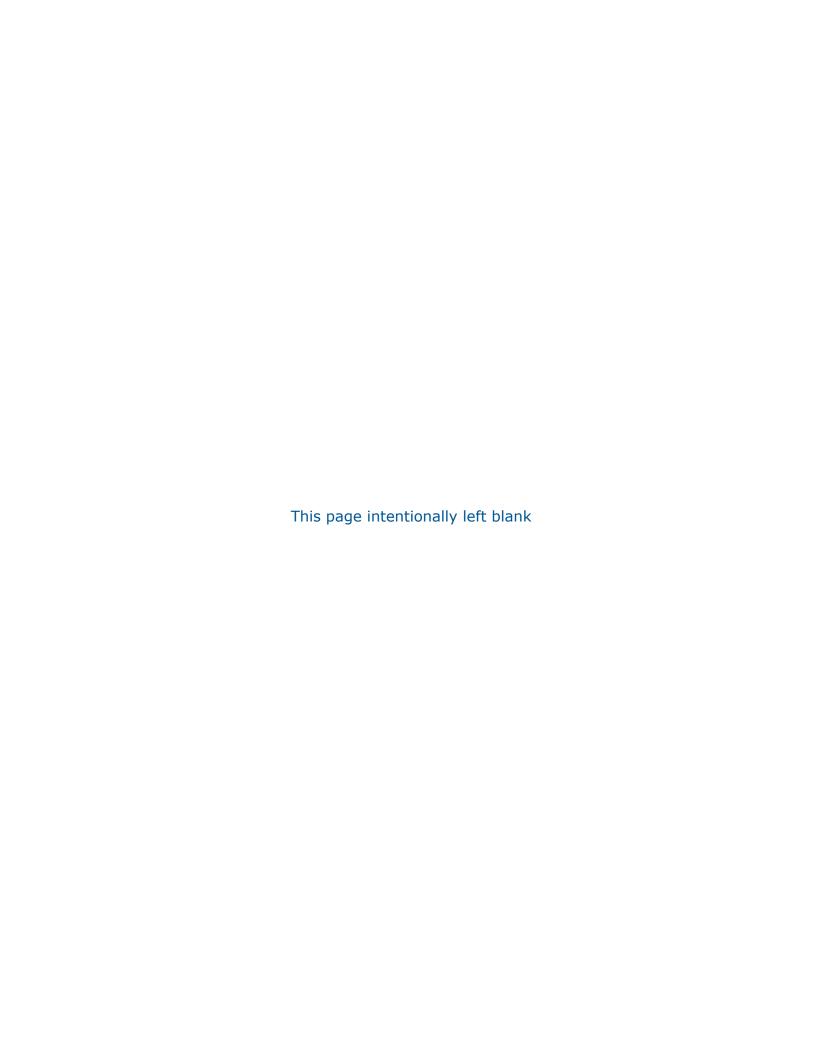

15,504

This increase reflects the cost of insurance for the City Council as described in the Budget Summary section of the Budget Book.

Salary Changes

30,465

This increase reflects the City Council Office portion of the salary increase described in the Budget Summary portion of the Budget Book.

2017 DEPT BUDGET

^{*}Numbers pulled from the accounting system prior to the completion of the audit.

911 Communications Bureau

The bureau provides dispatch services for all emergent and non-emergent calls in Salt Lake City. It also provides contract services for Sandy City. It is managed by an at-will director and reports to the Office of the Mayor. With the addition of 10 FTEs in budget amendment #3 of FY 2016, and 3 unfunded Dispatcher positions recommended in the budget, the 911 Communications Bureau has a total of 94 FTEs.

Personal Service Base to Base Changes

-121,579

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the last pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay increases, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

40,712

This increase reflects a change in the cost of insurance for the 911 Communications Bureau as described in the Budget Summary section of the Budget Book.

Salary Changes

68,205

This increase reflects the 911 Communications Bureau portion of the salary increase described in the Budget Summary portion of the Budget Book.

BA #3: New 911 Dispatchers

553,050

In budget amendment #3 of FY 2016, 10 additional Dispatcher FTEs were added to the 911 Communication Bureau. This addition will allow the bureau to more effectively meet the needs of the community, especially during peak times by enabling the bureau to meet their goal of answering all 911 calls within 10 seconds.

Policy Issues

Vacant Unfunded Dispatcher Positions to Facilitate Full Staffing

0

The budget includes funding for 3 unfunded Dispatcher positions. These positions will allow the Bureau to reach the staffing levels that are necessary during higher call volume times. These additional positions will also allow the Bureau to come closer to its overall staffing model and to achieve less mandatory overtime.

Reduce Over Time for New Dispatchers from BA #3

-65,000

The inclusion of new Dispatchers in budget amendment #3 will allow the Bureau to reduce overtime expenditures. This will be achieved through more efficient scheduling that will require less mandatory overtime.

DEPARTMENT OF AIRPORTS

The Salt Lake City Department of Airports manages Salt Lake City International Airport (SLCIA), Tooele Valley Airport and South Valley Regional Airport (SRVA) in West Jordan.

Salt Lake City International Airport serves a multi-state region and consists of three air carrier runways and a general aviation runway. There are 3 terminals, 5 concourses and 81 aircraft parking positions. Serving over 22 million passengers annually, it is classified as a large hub airport.

Tooele Valley Airport is a general aviation reliever airport to SLCIA. It has one runway and support services are on-demand only. South Valley Regional Airport is also a general aviation reliever airport. It also has one runway and is a base for a Utah National Guard military helicopter unit.

The Department of Airports is an enterprise fund. It is not supported by property taxes, general funds of local governments or special district taxes. Capital funding requirements for FY2018 are met from earnings, passenger facility charges, customer facility charges, Federal Aviation Administration grants under the Airport Improvement Program, and State grants.

Please refer to the Department of Airport's budget document for further details on department functions and initiatives.

DIVISION MISSION STATEMENT

Provide overall administration, management, legal services, employee relations, and leadership for the Department of Airports.

DIVISION OVERVIEW

The Office of the Director Division provides Department leadership and overall Departmental administration. Legal services provided by the City Attorney's Office are also facilitated in this program. The Department's employee programs and training are managed in this Division.

The Legal Services Program is administered through the City's Attorney's Office. The assigned City Attorneys provide legal ser-

vices, policy reviews, consultation, and advice to Airport management related to local, State and federal regulations. This program also provides assistance in contract development and grant proposals.

Training, and Employee Relation Programs are responsible for coordination of employee training and development, including developing and conducting programs in-house, as well as coordinating and arranging training from outside vendors and other City departments. In addition, this

section administers all employee-oriented programs including the employee newsletter, rewards and recognition, and recreation and wellness programs.

The Human Resources Program is administered through the City's central Human Resources Office. The assigned HR consultant provides consultation to Airport managers and employees on all employment practices including classification and compensation, discipline and counseling, equal employment opportunity/affirmative action, promotion and selection, performance planning and evaluation, organization development, resolution of employee grievances, and other employee assistance services.

DIVISION MISSION STATEMENT

Provide the Department, City Administrators and decision makers with reliable and timely financial information to help ensure the efficient operations and management of the City's system of airports.

DIVISION OVERVIEW

This division has two programs. The Financial and Accounting Services Program is responsible for general accounting, payroll, budget preparation and coordination, performance management coordination, financial analysis, statistical analysis and reporting, regulatory and financial compliance reporting, passenger facility charges application, coordination of the Airport's annual audit, administers the FAA's Airport Improve-

ment Program (AIP) grant acquisition process, and contract compliance audit services. The warehouse coordinates to ensure that maintenance supplies are available in a timely manner. The Capital Improvement Program facilitates the Airport's on-going capital improvement projects and includes costs associated with construction projects, high-technology procurement projects, and outside architectural and engineering services. A five-year capital improvement program is

maintained to reflect the status and funding plan for these projects. Projects identified in the current Master Plan are included in this program on an as-needed basis.

DIVISION MISSION STATEMENT

Coordinate and manage the safe, secure and efficient operations of the City's Airports while maintaining a high level of customer service.

DIVISION OVERVIEW

The Operations Division is responsible for four functions. The Security, Safety, Emergency Management, and Administration program operates the Airport's 24-hour control center providing dispatch and paging services, coordinating emergency services, American Disabilities Act (ADA) coordination, and services for the disabled. Administrative support to the various programs of this division and lost and found services are included in this program. Coordination, development, and management of the employee safety and the emergency

management programs of Airport are included in this program. The security compliance program coordinates the issuance of Airport ID badges, ensures compliance with Transportation Security Administration security regulations, coordinates resolution of all security issues at the Airport, and conducts security and driver training.

Airfield and Terminal Operations coordinates activities on the runways and taxiways, in the terminals, and general aviation. This program ensures compliance with Federal Aviation Regulations

Part 139, Transportation Security Regulations 1542, coordinates airfield closure for construction and snow removal, and assures that minimum operating standards are met. The terminal component of this program provides crowd control, operational coordination of the terminal areas, medical ambulance, and assistance to travelers with special needs.

The Landside Operations Program includes Commercial Ground Transportation that provides coordination for all commercial transportation providers at the Airport and administration of the automated vehicle identification system as well as staffing the information booths in both terminals. Management of the terminal front curbs is also a part of this program.

Aircraft Rescue and Fire Fighting (ARFF) and ARFF Training Program ensures compliance with the Federal Aviation Regulation's minimum response time within the airfield and also provides structural fire protection to Airport facilities, inspection and fire marshal responsibilities, and provides timely response to all medical emergencies at the Airport. ARFF training operates the Airport's regional training facility that provides the required training for ARFF personnel of the City and with other ARFF personnel from other airports.

DIVISION MISSION STATEMENT

Keep the airports operating safely with minimal disruptions to our customers by maintaining and constantly improving the quality of the airfield, airport facilities, systems, vehicles, grounds, and equipment.

DIVISION OVERVIEW

The Maintenance Division program is responsible for all facility maintenance including preventive, corrective, and structural maintenance of Airport owned facilities. Also included in this function are janitorial services, Computer Access Security System (CASS), sign fabrication, building equipment operation and maintenance, lock and key maintenance, and concrete repair for minor concrete work. Airfield and Grounds Maintenance oversees road maintenance,

snow removal, emergency response in the parking lots, landscaping, and all runway and taxiway maintenance including South Valley Regional Airport and Tooele Valley Airport. Fleet Maintenance ensures that the Airport's equipment is at maximum availability. Electrical Support responsibilities include electrical maintenance services, electrical construction and consultant review, and assisting in electrical inspection of construction projects. This division also is responsible for the de-icing operations program and the collections and re-cycleing of aircraft de-icing fluids to comply with environmental regulations and enabling the resale of recovered de-icing fluids.

DIVISION MISSION STATEMENT

Provide quality transportation facilities that optimize convenience, safety, and efficiency for aviation customers. The Engineering Division acts as the development arm of the Department of Airports and is responsible to oversee and manage the design and construction of airport facilities within budget and on schedule.

DIVISION OVERVIEW

Responsible for the design and construction of all facilities improvements at the Department's three airports. The Division is responsible for coordinating project requirements with all affected parties, developing project scopes, budgets, and schedules, developing staging/phasing plans for construction, producing bid documents and

procuring competitive bids for construction contracts, and overseeing construction activities to ensure that projects are completed within budget and on schedule.

DIVISION MISSION STATEMENT

Provide, manage, and maintain airport programs that focus on the design, implementation, support, and management of all information technology related services, products and efforts to provide the best technology possible to employees, tenants, and the traveling public.

DIVISION OVERVIEW

Responsible for the design, implementation, and management of information technology initiatives at the Airport. This program has three components. The Information Systems group provides support for the Airport computer users and coordinates computer system implementation and upgrades. The Telecommunications group maintains and

operates the Airport's telephone system. The Technical Systems group supports and maintains the various Airport systems: Building Automation System (BAS), and radio communication system. This group also administers outsourced technical contracts and participates in the review and design of Airport technical related projects.

Office of the Salt Lake City Attorney

The Office of the City Attorney contains four diverse divisions:

- City Attorney's Office
- Prosecutor's Office
- Recorder's Office
- Risk Management

The goal of the Attorney's Office is to be valued and trusted partners, recognized and relied upon for our expertise, creativity, and commitment to the advancement of the City's goals.

The City Attorney's Office has been successful over the past year in supervising and coordinating efforts of its four Divisions. From an administrative perspective, the Office closely coordinates with Risk Management on matters in litigation and with claims submitted against the City. The City Attorney also works with the Prosecutor's Office and the Recorder's Office on budgetary and administrative matters.

Changes discussed below represent adjustments to the FY 2015-16 adopted General Fund budget.

Personal Services Base to Base Changes

-79,969

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

23,572

This increase reflects a change in the cost of insurance for the Attorneys' Office as described in the Budget Summary section of the Budget Book.

Salary Changes

54,343

This increase reflects the Attorneys' Office portion of the salary increase described in the Budget Summary portion of the Budget Book.

BA #1: Reduction of 4.0 Positions Due to Cooperative Agreement with Salt Lake County to Manage City Prosecutors

-425,250

Salt Lake City and Salt Lake County entered a cooperative agreement for management of the City's Prosecutor's Office. Under the terms of the agreement, the Salt Lake County District Attorney oversees and manages the Salt Lake City Prosecutor's Office. This cooperative effort has created cost savings for both entities and new opportunities of scale. Four positions in the office were eliminated in September of 2015 as part of BA #1. This resulted in an ongoing saving of \$425,250.

BA #1: Contractual Change - Salt Lake County Management of City Prosecutors

212,500

As part of the above-mentioned agreement with the Salt Lake County to manage the City Prosecutor's Office, a portion of the savings realized by the City will be paid to the County for the cost of services they will provide.

BA #2: Senior City Attorney

188,000

When the Senior Advisor for Intergovernmental Relations postion was created in the Mayor's Office, the attorney who moved from the Attorney's Office built a clause into his contract that would allow him to return to the Attorney's Office in the event it was determined his services were no longer required in the Mayor's Office. Since there were no positions vacant in the Attorney's Office at the time of the Mayoral transition, a position was created and funded to address this possibility.

Remove One-time Funding - Records Management Software

-30,000

In the FY 2016 budget, funding was budgeted for technology improvements related to GRAMA and records management needs. This one-time need has been fulfilled and the budget is being reduced.

CCAC Benchmark Adjustment

90,246

This budget includes market adjustments for Senior City Attorneys benchmarks in the Attorney's Office as recommended by the Citizen's Compensation Advisory Committee. This is a market adjustment for certain benchmarked employee groups in the City who lag behind market pay rates.

Remove One-time - Election Outreach

-50,000

In the FY 2016 budget, funding was budgeted in the Recorder's Office to encourage voting by mail. The funding was used for mailings to provide information to prepare voters for the coming change. This one-time need has been fulfilled.

Policy Issues

One-time: Attorney's Office Access Data (eDiscovery) System Support

24,500

The budget includes funding to address a one-time need to install a critical system upgrade to the City's eDiscovery system. This system has become critical because the majority of City documents are now electronic. This system allows users to search, sort, retrieve and preserve electronic records, in order to comply with state and federal rules of civil procedure. This system is also assists departments in gathering information for responses to GRAMA requests.

New Prosecutor Case Management System (\$100,000 One-time)

140,000

The budget includes funding for an upgrade of the Prosecutor's existing case management system (PIMS) to the County's new case management system. The current system has been in use for approximately eight years, but is no longer being maintained by the state and will not be compatible with the court's electronic filing system, which is scheduled to be live in December of this year. The cost of upgrading the system will initially be \$140,000, but will be approximately \$40,000 thereafter. By upgrading the system, the City Prosecutor's Office will have a stable system that provides an electronic interface with the Justice Court's e-filing system. This will eliminate duplication of data entry and allow forms and pleadings to populate with case information. This is a long-term solution to managing case information.

Change Senior City Attorney (From BA #2) to Research Attorney

-105,000

As part of BA #2 in fiscal year 2016, the Council budgeted funds for an additional Senior City Attorney. The postion was budgeted to cover the cost in the case that the attorney moved from the Mayor's Officer per a clause in his contract. The attorney will not be moving, however, the position can be utilized to address workload needs. Instead of a full Senior City Attorney, the budget includes a reclassification of the position to a Research Attorney. The funding will be reduced accordingly.

Micro Computer Maintenance

-13,150

The budget eliminates funding for the Civil Division's Micro Computer Maintenance budget. Funds in the object code have not been used in recent years.

Attorney's Office (Civil Matters)

Margaret Plane, City Attorney

DIVISION OVERVIEW

The City Attorney's Office provides professional and timely legal counsel to Salt Lake City Corporation, including the City Council and the Mayor. The Office provides legal advice necessary for making sound legislative and administrative decisions to promote and protect the health, safety and welfare of the residents and resources of the City. We are zealous advocates for the City in litigation when defending the City's interests and advancing matters of concern that must be resolved through court proceedings.

For the past year, Initiatives and Accomplishments for the Civil Division include:

A. Reducing RDA Legal Expenses – By involving new and additional attorneys in providing legal services to the RDA, the City Attorney's Office expects to substantially reduce the RDA's expenses for outside legal counsel. In recent years, the RDA's annual expenses for outside coun-

sel have ranged from approximately \$400,000 to more than \$700,000 per year. It is expected that annual expenses will be below \$165,000 in the future.

- B. Broaden Attorney Knowledge of City Operations Through some restructuring, the civil attorneys have started working for more than one City Department. The attorneys better understand the different aspects of the City and their skills have improved.
- C. Improved Work Environment By improving the office work environment, increasing salaries, and encouraging involvement in the legal community, the City Attorney's Office has attracted more experienced attorneys and staff to work in the office. This past year, we hired a paralegal with more than 25 years of experience in different settings, as well as a litigator with 17 years of experience and an environmental attorney with 7 years of experience, both of whom came from premier law firms in the City.
- D. Improved Electronic Document Retrieval and Review The City Attorney's Office retrieves and analyzes electronic documents for litigation and other purposes. Though the assistance of one of our paralegals, one of our legal secretaries, and the IMS Department, we continue to develop a reliable electronic record retrieval and analysis system.

--	---------------------------------------	-------	-------	-------	-------

DIVISION OVERVIEW

The City Prosecutor's Office screens, charges, files, and prosecutes criminal violations in court. Close coordination occurs with Salt Lake County, which is implementing our pilot program under which the District Attorney manages the City's prosecution function.

The Salt Lake City Prosecutor's Office is involved in all phases of criminal justice adjudications under its jurisdiction. It is primarily responsible for the screening, filing and prosecuting to final adjudication of criminal violations within its authority in Salt Lake City in both the Salt City Justice Court and the Third District Court. It participates in collaborative specialty courts such as Veteran's Court, DUI Court (Focus) and Homeless Court to better serve the

needs of the community. It is also responsible for all criminal appeals and appearances of its issues in the Utah Court of Appeals and the Utah Supreme Court.

Prosecutor's Office Initiatives / Accomplishments

This year the City Prosecutor's Office will continue to increase its case disposition rate through early case preparation and effective management. Prosecutors will continue to participate in specialty courts and programs designed to provide community solutions to criminal violations. This has included participation in Operation Diversion, Veteran's Court, DUI court and Homeless Court.

The City Prosecutor's Office is also actively working to reduce its use of paper through electronic filing, e-discovery and electronic transmission of discovery materials. Electronic transmission of court filings has provided the added benefit of reducing archived files, mailing costs and other office supplies.

The City Prosecutor's Office has also adopted an internal training program designed to provide newly hired prosecutor's with a complete training agenda and more senior prosecutor's on-going training designed to address more complex legal issues. These training programs have been developed by taking advantage of our contractual relationship with the County.

Total Recorder's Office FTEs

DIVISION OVERVIEW

The City Recorder's Office is a central support service and is responsible to the City Council and Administration equally. The City Recorder's Office oversees public records and codification of the City Code. The City Recorder administers local elections and access to city records. The Recorder also facilitates public notices, recording minutes, and records for the City's legislative branch.

- Management of the records of Salt Lake City and facilitating citywide compliance with the Government Records Access Management Act (GRAMA) and the Open and Public Meetings Act.
- Oversight and administration of a citywide records management repository in
 - effort to encompass all official city records in one location in an easily retrievable and transparent manner with the overall goal of reducing citywide GRAMA requests.
- Facilitate employee training/staff assistance in regards to records management; staff and oversee the City's Records Committee agenda and citywide recommendations.
- Custodian of the City Seal; countersign all contracts made on behalf of the City and properly index.
- Act as Secretary to the City Council, Redevelopment Agency, and the Local Building Authority; provide support services to the City Administration and City Council.

5.75

- Offer timely and legal publication and/or posting of notices and ordinances.
- Oversee & conduct Municipal Primary and General Elections.
- Oversee the adoption and publication of the City's Municipal Code; including continued tracking and investigation into either external or internal problems or concerns with search/retrieval, code conflicts, graphics, content, etc.
- Administer and oversee the Mutual Commitment Registry.

Recorder's Office Initiatives / Accomplishments

Completed updates for all City Retention Schedules and records series, updates to continue on a monthly basis according to approval by the State Records Committee. These are hosted and made available to employees on the City Recorder SharePoint site.

Completed migration and verification of 2,000,000+ city records (222 GB) from Alchemy database to M-Files platform; OCR engaged; indexing to follow, including fine-tuning of searching techniques. This occurred simultaneously with ongoing daily digitizing of current records (approximately 50,000 annually).

Coordinated the transfer of RDA records to the City Recorder's Office. This includes integration with the City's records and filing procedures.

Assisted in organizing the City Policies & Procedures overhaul with the codifier.

Mailed 10,615 public notices.

Published 150+ public notices.

Destroyed 872 boxes of inactive records housed at the off-site archives storage.

DIVISION OVERVIEW

Risk Management administers the City's self-insured liability claims and manages the third-party administration of the workers' compensation program. Additionally, the division manages the marketing and placement of property insurance and excess casualty insurance and public official bonds.

Risk Management serves as a resource to the City on matters related to insurance and loss prevention; initiates investigations of third-party claims against the City and negotiates appropriate resolution of claims; and pursues subrogation recovery from third parties responsible for damages to

City property. Risk Management oversees the third-party administration of the City's self-insured workers' compensation program, and evaluates and analyzes occupational injury data providing loss trending and training recommendations to enhance injury prevention. In order to maintain a City-wide risk management program, the commitment and support of senior management is essential. We will work closely with department leadership to develop and foster this support to promote loss control and safety.

Risk Management Initiatives / Accomplishments

- Developed the underwriting data necessary to secure excess liability and cyber liability insurance coverage.
- Provided customized presentations to Public Services, Police Department, Fire Department and Public Utilities to show liability and injury loss trends and to share recommendations for risk reduction.
- Promoted on-demand safety training at no added cost to departments.

Department of Community and Neighborhoods (Formerly Community and Economic Development)

The newly renamed Department of Economic Development includes, Building Services, Housing and Neighborhood Development (HAND), Transportation, Planning and Engineering. With the changes in the budget, the department has a total of 190 FTEs.

Changes discussed in the Policy Issue narratives below represent adjustments to the FY 2015-16 adopted budget.

It is the mission of the Community and Neighborhoods Department of Salt Lake City to provide leadership, policies, and programming that promotes a culturally vibrant, diverse, economically vital community through livable growth and development practices, and strong community partnerships.

- 1. DRIVE INNOVATION: We generate and implement innovative ideas to make Salt Lake City "A Great American City" known for responsible growth, sustainability and livability.
- 2. COMMUNICATE: We continuously develop and share information with employees, stakeholders, partners and City leaders to foster input and empower decision-making.
- 3. SUPPORT OUR LEADERSHIP: We will support the Mayor and City Council by providing them recommendations and input based on best professional practices on how to accomplish their objectives.
- 4. OPERATE RESPONSIBLY: We responsively and proactively manage the on-going functions and resources of our Department while encouraging, driving and leading appropriate change and growth.

Personal Services Base to Base Changes

28,023

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

106,892

This increase reflects a change in the cost of insurance for the department as described in the Budget Summary section of the Budget Book.

Salary Changes 268,457

This increase reflects the department's portion of the salary increase described in the Budget Summary portion of the Budget Book.

Policy Issues

CCAC Benchmark Adjustment

18,519

The budget includes market adjustments for the Development Review Supervisor and Engineers II, IV, V and VII in the Engineering Division as recommended by the Citizen's Compensation Advisory Committee. This is a market adjustment for certain benchmarked employee groups in the City who lag behind market pay rates.

Remove One-time: Cost Estimation Services

-50,000

Funding was provided in the FY 2016 budget for the City's Engineering division to work with outside contractors to expedite the development of cost estimates for projects associated with Master Plans. This one-time funding is being reduced.

Transfer Unity Center to Public Services - Personnel Costs

-354,288

The budget includes the transfer of the positions and the personal services costs of the full-time employees of the Sorenson Unity Center from the Department of Community and Neighborhoods to the Department of Public Services, to be managed by the Youth and Family Program. The strategic direction of the Unity Center's programs and operations more closely align with that of the Department of Public Services. A number of benefits of this move have been identified, including clearly aligning administrative functions with the missions and focus of the department/divisions, clarifying the associated roles and eliminating perceived overlap of programming.

Transfer Unity Center to Public Services - Part-time Personnel

-102,600

The budget includes the transfer of the positions and personal services costs of the part-time employees of the Sorenson Unity Center from the Department of Community and Neighborhoods to the Department of Public Services.

Transfer Unity Center to Public Services - Non-Personnel Costs

-118,320

The budget includes the transfer of the non-personnel costs of the Sorenson Unity Center from the Department of Community and Neighborhoods to the Department of Public Services.

Transfer Economic Development to Economic Development Department - -429,030 Personnel Costs

This budget includes transferring functions related to the creation of the new Economic Development Department. \$429,030 in personnel costs and the associated FTEs within the Economic Development division are being reduced from the Department of Community and Neighborhoods, and will be added to the Department of Economic Development. This amount includes both salary and benefits for each of the positions.

Transfer Economic Development to Economic Development Department - -36,000 Non-Personnel Costs

This budget includes transferring functions related to the creation of the new Economic Development Department. \$36,000 in non-personnel costs within the Economic Development division are being reduced from the Department of Community and Neighborhoods, and will be added to the Department of Economic Development.

Transfer Arts Council to Economic Development Department - Personnel -525,838 Costs

This budget includes transferring functions related to the creation of the new Economic Development Department. \$515,233 in personnel costs and the associated FTEs within the Arts Council are being reduced from the Department of Community and Neighborhoods, and will be added to the Department of Economic Development. This amount includes both salary and benefits for each of the positions.

Transfer Arts Council to Economic Development Department - Non-Per- -9,537 sonnel Costs

This budget includes transferring functions related to the creation of the new Economic Development Department. \$9,537 in non-personnel costs within the Arts Council are being reduced from the Department of Community and Neighborhoods, and will be added to the Department of Economic Development.

Plans Examiners to Provide Assistance for Walk-in Customers 169,802

The budget includes funding for 2 Plans Examiner positions. These additional Plans Examiners will help improve the turnaround time for review and allow Building Services to have distinct queues and processes tailored to individual projects. Many times, small or medium plans get stuck in the queue behind larger and more complex projects, resulting in longer wait times. These positions will help address this issue.

Elimination of Vacant Position - PLS/GIS Specialist

-110,984

This budget includes the reduction of 1 vacant PLS/GIS Specialist from the Engineering division, including a reduction of \$110,984 in associated funding.

Elimination of Vacant Position - Financial Analyst III

-119,992

This budget includes the reduction of 1 vacant Financial Analyst III FTE from the Engineering division, including a reduction of \$119,992 in associated funding.

Operating Budget Reduction

-35,000

The budget includes a reduction of funding for various Community & Neighborhood Development operating budget costs.

One-time: Vacancy Savings

-130,000

The budget includes a one-time reduction in funding associated with vacancy savings. Non-critical positions would be held vacant for a longer period to achieve the savings.

"A Place for Your Stuff" Increased Capacity

45,000

The budget includes funding for A Place for Your Stuff, a service program designed for people experiencing homelessness. Specifically, these dollars support the storage program that is run in collaboration with Salt Lake City and Advantage Services. The funding supports materials and staff support to allow a place for homeless individuals to store their belongings in a secure, accessible, and safe environment.

Enhanced Day Services

25,000

The budget includes funding targeted at providing operational support for the Weigand Homeless Resource Center. This provides a safe place for people experiencing homelessness to stay during the day. The funding is designed to help with the expansion of hours specifically during winter months.

CAN Administration/Office of the Director

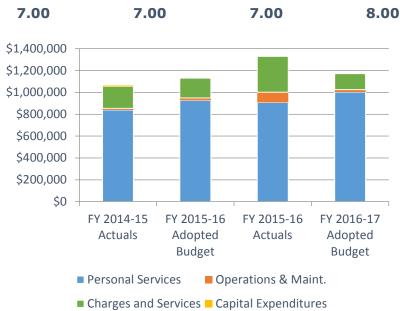

Mike Reberg, Director

DIVISION MISSION STATEMENT

The purpose of the CAN Admin department is to ensure responsibility that the department meets the overall goals of the Mayor, City Council, and the community. It is also to provide administration of the department of Community & Neighborhoods in providing leadership, management, and financial support for the divisions of the department.

DIVISION OVERVIEW

Implement best practices in the divisions of the department: Building Services, Engineering, Housing and Neighborhood Development, Planning, and Transportation.

The division provides leadership, management support, and training to other divisions within CAN, and ensures that Department/Division deadlines are met, that projects are processed in a timely accurate manner, and provide a centralized workgroup and budget coordination, and administrative support.

The division works to participate successfully in various associations and professional development programs in order to provide the best, most up-to-date service for divisions within CAN, and to ensure the Department staff is trained in the importance of diversity, customer service and anti-harassment policies and laws.

The Civic Engagement Team is also part of the CAN Administration. The Civic Engagement Team's role is to help city staff and officials facilitate better involvement and city-to-stakeholder dialogue. Its mission is to 'build capacity of citizens and the city to engage one another, through stewardship of city values and cultivation of best practices to achieve our vision for an engaged city, together. "Our success is measured by the success of others."

Building Services

Total Building Services FTEs

DIVISION MISSION STATEMENT

Provide a safe and livable community through the orderly regulation of the built environment.

DIVISION OVERVIEW

The Division provides a safe and livable community through the implementation of the Salt Lake City Zoning Ordinance and of construction codes adopted by the State of Utah. This Division provides effective and efficient operation of the following regulatory services to its public.

Building Services Admin

The purpose of Building Services Administration is to provide oversight, support and coordination for the multiple work groups within the Division. The work groups include: Building Permits/Plan Review/One-Stop-Shop, Building Inspection, Civil Enforcement and Development Review Team. (DRT) In addition, from this group, the Building Official provides direct supervision over the Technical Development Engineers, specializing in fire plan review, as well as the Economic Development and Building Services Liaison.

Plan Review and Building Permits

The Permits Section provides a safe and livable community through the implementation of the Salt Lake City Zoning Ordinance and of technical construction codes adopted by the State of Utah. This Section provides effective and efficient operation of development review services to its public Review of plans for proposed construction projects to ensure the project complies with planning objectives as identified by the Planning Commission through the conditional use and variance decisions issued by the respective Boards. Review of plans for compliance with applicable building, plumbing, mechanical, electrical, accessibility standards and energy efficiency codes and standards. Review of submitted plans for zoning ordinance compliance.

Inspection/Code Compliance

The purpose of Building Services Construction Inspection staff is to preserve life, health and safety of the Citizens and businesses within Salt Lake City through effective and efficient building code enforcement and compliance. Protect and promote the City's environment and aesthetic values through sustainable construction practices according to current codes.

Ensure that structures located in Salt Lake City where our citizens live and work are safe and meet the current standards for new construction regarding life safety features, construction materials, safe connection to fuel and electrical energy sources, and compliance with applicable energy and green (sustainable) construction codes. Ensure that all inspectors employed by the City are trained and licensed in all areas of code compliance, enforcement, safety, and customer service.

Civil Enforcement

The City Civil Enforcement section of the Division inspects apartments and homes for hazards and deficiencies that threaten the health and safety of residents. Their enforcement of required housing standards strives to keep the City's housing stock habitable and fosters the maintenance and improvement of buildings within the City. It also prevents buildings from being closed or demolished, forcing displacement of residents.

Civil Enforcement inspectors inspect properties throughout the City for junk, weeds and other unsightly problems that detract from the City's environment and aesthetic qualities. By enforcing use and property restrictions, the inspectors maintain order in the City and encourage appropriate business and residential development.

The inspection and enforcement efforts of the City's Civil Enforcement officers protect the tax base and property values of the City by removing blight and encouraging the maintenance of buildings and property. Enforcement of the Snow Removal Ordinance helps to minimize the hazards faced by pedestrians during the winter months. Enforcement of the Sidewalk Entertainers and Artists Ordinance helps to promote pedestrian safety and adds to a vibrant downtown environment.

The Civil Enforcement section of the Division, provide professional staff to advise the Housing Advisory and Appeals Board on adopted regulations and policies relating to housing code violations. The board reviews and considers housing mitigation plans, emergency demolitions, and requests for building permit fee waivers.

Building Services Initiatives / Accomplishments

- 1. Completed the digital conversion of all of the plan review archives eliminating the need for the paper storage in the basement of city building on 500 South.
- 2. Increased paperless plan review from 20% to approximately 80% currently continuous digital conversion of 100% of plan review submittals.
- 3. Implemented simplified plan review through Permit by Inspector for residential remodels and small commercial tenant improvements.

46.00

44.00

46.00

DIVISION OVERVIEW

As required by State code, Engineering manages construction and other related activities in the Public Way. In addition Engineering manages all aspects of City

funded construction projects sponsored by other divisions and departments, for example Parks and Public Lands, RDA, and Public Safety. Engineering is also responsible for mapping services used by internal and external staff, all survey work and controls for subdivisions, and new roadways. Our group includes 44 employees, led by the City Architect, Surveyor, GIS Manager and Right-of-Way Manager.

Capital Improvement Program (CIP)

Engineering is responsible for the implementation or support of projects approved through the City's Capital Improvement Program, which may include planning, programming, estimating, budget requests, and providing oversight of the design and construction of projects. Projects

are identified and adopted each year based on City Administration and Council recommendations with guidance provided by the City's Ten-Year Capital Needs Plan. This includes roadways, parks, golf, buildings, public way pedestrian and bike routes, rail, landfill and other City supported projects. As needed, Engineering also provides design, construction and procurement services for projects funded from other sources outside of the City's CIP including the RDA, Libraries, City/County Landfill, Sustainability Department and Fire and Police.

Engineering works closely with the Administration, City Council, Transportation, Planning, Redevelopment Agency, Public Utilities, and Public Services in the administration of this program. These projects frequently include working closely with outside organizations, such as UDOT, UTA, Salt Lake County, Wasatch Front Regional Council, and private entities to identify and mutually coordinate on projects using a variety of funding sources. City Engineering provides a variety of services for implementation of the CIP which require expertise in such discipline areas as architecture, landscape architecture, surveying, civil engineering, and project management. Consultants are also used when specialized expertise is required and when workloads exceed the capacity of existing Engineering personnel.

Public Way Regulation and Control Program

This team monitors all work performed in the public way outside of the City's CIP process. The team ensures that privately funded public way construction, including excavations, subdivision development, and street improvements, are constructed in accordance with City standards. Coordination of public way activities is emphasized to minimize disruption to the traveling public and adjacent property owners, and to ensure utility cuts and public way construction is conducted in a manner that protects the integrity of the City's infrastructure. The Public Way permit group performs reviews of all subdivision plats, including condominium conversions being constructed within the City. This involves street improvement design review, developer agreement administration, construction inspection, and bond release after the warranty period.

Geographical Information System (GIS)

Engineering maintains a GIS with the mission of improving the overall efficiency and effectiveness of City operations. The number of work flow applications that rely on GIS technology is constantly increasing. Engineering's GIS team is responsible for maintaining the GIS database and map layers for use by other City departments and the general public. The GIS team is also tasked with creating and maintaining Engineering's website and providing cohesive support with all other City programs and databases.

Engineering Records Management

The Engineering Records Management section is responsible for the preservation of all public way construction engineering records and related historical documents. Utah Code requires the retention and public access of all of the above mentioned documents.

City Surveying

Engineering's Survey team provides support for the City's capital improvement projects and certificates of approval for new subdivision developments. This team also prepares legal descriptions and reviews public way dedications and vacations as well as annexation plats and City boundary adjustments. Survey is also responsible for maintaining the City's monumentation that establishes control points for public property.

Street Pavement Management System

Salt Lake City's street network is comprised of 1,849 lane miles of concrete and asphalt pavement. The pavement management team is responsible for the collection of data and condition evaluation of all pavements within the City. This information is used to develop pavement condition assessments and provide recommendations for street maintenance activities for implementation by Streets and potential CIP projects. Pavement condition assessments are based on a variety of pavement distresses, including ride quality, rutting, and cracking. A citywide condition survey was completed in 2012, which aids in determining the rate of deterioration occurring at current funding levels, and facilitates long range data based decision making regarding maintenance strategies and capital improvement projects prioritization.

Special Assessment Areas

The City utilizes Special Assessment Areas (SAA's) to fund a portion of the Capital Improvement program. Assessments are a mechanism for abutting property owners to participate in the cost of projects that provide public way improvements deemed to have a specific benefit to the adjacent private property. SAA's allow the City to leverage public funds with private contributions. Engineering reviews proposed special assessment areas and provides property owners with information regarding the creation of SAA's.

Engineering Initiatives / Accomplishments

- 1. The majority of Engineering's historical plats, drawings and plans have been digitized, cataloged and made ready for permanent offsite storage. Digitizing these documents reduces required storage space and provides convenient retrieval of information for employees and the public.
- 2. Approximately 50 Plan and Plat reviews for subdivisions and development projects including, Western Metals Recycling, Plaza at State Street, 200 South Roadway Reconstruction at the Gallivan Center, Public Safety Building, Federal Courthouse, Westminster Sugarhouse Mixed Use, SL County District Attorney Building, Wilmington Gardens, and numerous others. Also, 10 Major Subdivisions were completed (that are now in the 1-year correction period) during the fiscal year. Public improvements for the UPAC Subdivision, including the Eccles Performing Arts Center and the 111 South Main Tower, progressed during the fiscal year and both are nearly completed.
- 3. Approximately 2,370 public way permits have been reviewed, issued and inspected to ensure compliance with standards and specifications. We have experienced a substantial increase in construction from all communication providers. About 90 were issued to General Dynamics

DEPARTMENT OF COMMUNITY & NEIGHBORHOODS

Information Technology for the Google Fiber installation, and CenturyLink was issued over 200 permits during the same period. Questar continued its efforts to replace thousands of feet of gas mains, including the "belt line".

DIVISION MISSION STATEMENT

To develop and enhance livable, healthy, and sustainable neighborhoods.

DIVISION OVERVIEW

Total HAND FTEs

The Housing and Neighborhood Development division administers a wide variety of housing and community development programs that contribute to the quality of life, affordability and sustainability of Salt Lake City's diverse neighborhoods, and supports those exiting homelessness. Specifically, this division focuses on the following areas:

Capital Planning

The Capital Planning section administers, monitors and supports the following HUD programs: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grant (ESG), and the Housing Opportunities for Persons with AIDS (HOPWA) which is a three county program including Salt Lake, Tooele, and Summit counties as outlined in the City's HUD approved Consolidated Plan. The federal grant applications are solicited and monitored for eligibility based on the appropriate HUD regulations. Capital Planning prepares and distributes all federally required reports ensuring goals and performance measurements are met. The application and approval process includes oversight of the Community Development/Capital Improvement Program Board (CD/CIP) and staff support for the Mayor's recommendations and City Council approval.

DEPARTMENT OF COMMUNITY & NEIGHBORHOODS

Capital Asset Management and Capital Improvement Program

The Capital Asset Management (CAM) group is responsible for developing a citywide strategy for the City's capital assets in order to better serve the capital asset needs of Salt Lake City residents and businesses. Some of the highlights of this strategy include using best practices in coordinating the resources at our disposal to guide large capital projects through the development process, and improving the procedure used to assess and rank capital projects, as well as the acquisition, management and disposal of the City's real property and facilities. The Capital Improvement and Capital Asset Program is administered in order to enable the City to coordinate and prioritize, based upon needs of all proposed capital projects to ensure the projects meet the short and long-term needs of the City.

Housing & Rehabilitation

The purpose of Housing & Rehabilitation is to make houses in Salt Lake City as safe and energy efficient as possible. To keep Salt Lake City neighborhoods safe, vibrant and beautiful, by preserving the housing stock, making home ownership affordable, and eliminating vacant and substandard housing. The Housing section ensures this vision by administering and providing financial oversight on the City's housing rehabilitation and first-time homebuyer programs and the \$50 million mortgage portfolio.

Rehabilitation: Solicits and evaluates applications for rehabilitation clients to ensure compliance with appropriate federal regulations and HUD approved policies and procedures. Evaluates each property for compliance with federal lead-based paint regulations and coordinate with Salt Lake County Lead Safe Coalition. Conducts a detailed analysis of the client's finances according to the financial requirements outlined by the appropriate HUD regulations. Prepare and execute loan documents based on the availability of the low-bid contractor. Monitor the project to assure that appropriate work is completed based on the approved work description. Review all payment requests with the clients and receive approval to release the funds to the contractor.

Home Opportunities Program: Solicit and evaluate applications for the Home Ownership Opportunities program and maintain a waiting list to ensure compliance with appropriate federal regulations and HUD approved policies and procedures. Review the approved buyer's financial capabilities and family size and match them to an appropriate house. Schedule on-site visits with approved buyers. Prepare and execute appropriate mortgage documents to transfer title to the new owner.

Handyman Program: Solicits and evaluates applications for Handyman clients to ensure compliance with appropriate federal regulations and HUD approved policies and procedures. Review the applicant's income and the work to be completed to ensure program compliance. Assign contractor to complete the repair and inspect the work to ensure the repair is completed according to specification. Authorize payment to contractor.

Housing Trust Fund

The Housing Trust Funds ensures the health, safety and welfare of the citizens of Salt Lake City by providing assistance for affordable and special needs housing within the City. Housing devel-

DEPARTMENT OF COMMUNITY & NEIGHBORHOODS

opers, providers, and nonprofits apply to the City for a loan from the Housing Trust Fund in order to provide affordable and/or special needs housing.

Property Management

Property Management provides real estate related services to various city departments. The primary functions of the team includes; acquisition and disposition of real property, granting easements, asset management of the city's real estate portfolio, and due diligence research including appraisals, environmental reports, title reports, and market data. As part of the asset management function, Property Management organizes and directs the implementation of the City's Real Estate Programs, specifically permits that allow private use of City owned right-of way, parks, and open space through license, lease, or permit. The team also strives to develop and negotiate revenue enhancement strategies related to City real estate holdings.

HAND Initatives / Accomplishments

- 1. Launched Neighborhood Building Improvement façade grant providing up to \$25,000 to small business owners in an effort to revitalize strategic areas of the City and further Westside Master Plan.
- 2. Sold four first time home buyer properties in the amount of \$696,577.00 and completed rehabilitation projects on 73 residential units.
- 3. Executed 7 Housing Trust Fund loans for a total of \$4,958,000 which resulted in assisting the building of 818 units with 503 being affordable at AMI's below 60%.

cers, the Administration and the City Council including the following:

Long Range Planning Functions including developing and updating master plans and other policy documents, creating new regulations and updating existing regulations and, creating design guidelines all of which relate to land use development, urban design and historic preservation.

Current Planning Functions including processing and analyzing applications for conditional uses, planned developments, conditional design review, subdivisions, variances, special exceptions, interpretation of the zoning ordinance and regulations, appeals of administrative decisions and development activities within local historic districts or to Landmark Sites including demolition, relocation, new construction and alteration.

Planning Initiatives / Accomplishments

- 1. Adopted Downtown Master Plan. It was a 38 month process to adoption, including 106 public meetings, over 1000 people engaged and 1415 participated in Open City Hall.
- 2. Adoption of the Northwest Quadrant Master Plan. Many previously unsuccessful attempts to adopt a master plan for this area in the last 20+ years. Recent process took approximately 15 months and included an open house and over a dozen meetings with property owners and stakeholders. Dozens of property owners and stakeholders involved throughout the process.
- 3. Warehouse National Historic District Expansion-In partnership with the RDA, 172 additional properties in the West Downtown area (CBD, Granary, Depot) were listed to the National Register of Historic Places, making them eligible for historic tax credits for qualifying rehabilitation projects. The project took just under a year to complete and throughout the process, several meetings were held with property owners as well as Staff from the State Historic Preservation Office. The Warehouse District is Salt Lake City's largest commercial district listed on the National Register.

Total Transportation FTEs 20.00 21.00 21.00 21.00

DIVISION MISSION STATEMENT

The mission of the Transportation Division is to provide a safe and efficient multi-modal transportation system for the movement of people and goods and to support a livable community. The Transportation Division provides professional transportation planning and design review services to ensure proper development and maintenance of a safe and efficient transportation system; performs studies and investigations needed to address changing transportation demands and implement the appropriate selection, placement, and operation of traffic control devices; provides traffic signal tim-

ing plan reviews and updates to best serve the travel of pedestrians, bicyclists, transit riders, and motorized vehicle drivers; plans, coordinates, designs, and implements the expansion and maintenance of trails and on-street bicycle and pedestrian facilities; and administers the City Permit Parking program to alleviate significant on-street parking impacts in neighborhoods caused by commuter vehicles.

DIVISION OVERVIEW

Administration

The Transportation Administration Section provides overall administrative direction and support to Division employees; develops and monitors the use of the Division's annual budget

DEPARTMENT OF COMMUNITY & NEIGHBORHOODS

and processes all purchase requests and billings; processes all personnel and payroll actions; organizes files and library materials, and provides supplies to the Division's 21 employees. Staff develops and distributes meeting notices, agendas, and minutes to support the function of the Transportation Advisory Board and the Bicycle Advisory Committee. This section is responsible for receiving and organizing citizen requests and complaints and ensuring timely response from staff members to the public. This section also receives and assists all walk-in and call-in customers and processes and issues 4,100 permits annually for the nine City Permit Parking areas.

Investigations, Permitting, Design

The Investigation, Permitting, Design Section reviews proposed plans for development affecting public right-of-way to assure a coordinated, functional network for all modes of transportation. Staff meets with consultants and developers to provide input, guidance, and direction on transportation issues affecting proposed development; provides technical reviews of designs for streets and transportation corridors to ensure functionality, traveler safety, and compliance with city and national standards; reviews geometric design of all new and reconstructed streets and coordinates efforts in accordance with the City's Complete Streets ordinance. This section provides transportation requirements and recommendations to the Planning Commission, the Development Coordination Team, the Transportation Advisory Board, the City Planning and Engineering Divisions, and other city departments and divisions.

The Investigations, Permitting, Design Section performs studies and investigations needed to address changing transportation demands. A primary role of this section is to collect traffic counts and other vital data and statistics used in planning for all modes of transportation, and to communicate data and analysis in support of specific projects or City goals. Staff advises on and implements the appropriate selection, placement, and operation of traffic control devices such as signing, signals, markings, and parking metering used on City owned streets. Staff coordinates with outside agencies such as the Utah Transit Authority and Utah Department of Transportation to ensure compatible traffic controls. This section also processes and approves requests for barricade and construction traffic control permits and parking meter bagging permits.

Operations and Safety Section

The Operations and Safety Section prepares signal timing plans and addresses the ongoing needs of the City's traffic signal system. Staff members participate as integral partners with the Utah Department of Transportation, Salt Lake County, and the Utah Transit Authority in the Commuter Link System, which integrates the control and management of valley-wide traffic signals, closed circuit video cameras, variable message signs, weather sensors, traffic control software, and vehicle detectors within one computerized system. Staff control the operation and coordination of approximately 372 traffic signals (189 of which are Salt Lake City's) within Salt Lake City to reduce crashes, injuries, travel time, air pollution and driver frustration, and generate approximately 46 updates to traffic signal timing plans annually. They also prepare preliminary plans for the installation of new traffic signals, and prepare necessary plans for the upgrade of existing signal infrastructure. Staff also advises on innovative signal design related to all modes of transportation, including HAWK and bicycle signals and pedestrian warning flashers. This Section also maintains a database of comprehensive, historic, and current crash data and produces annual crash/safety reports and crash related safety campaigns/education material.

Planning and Programs

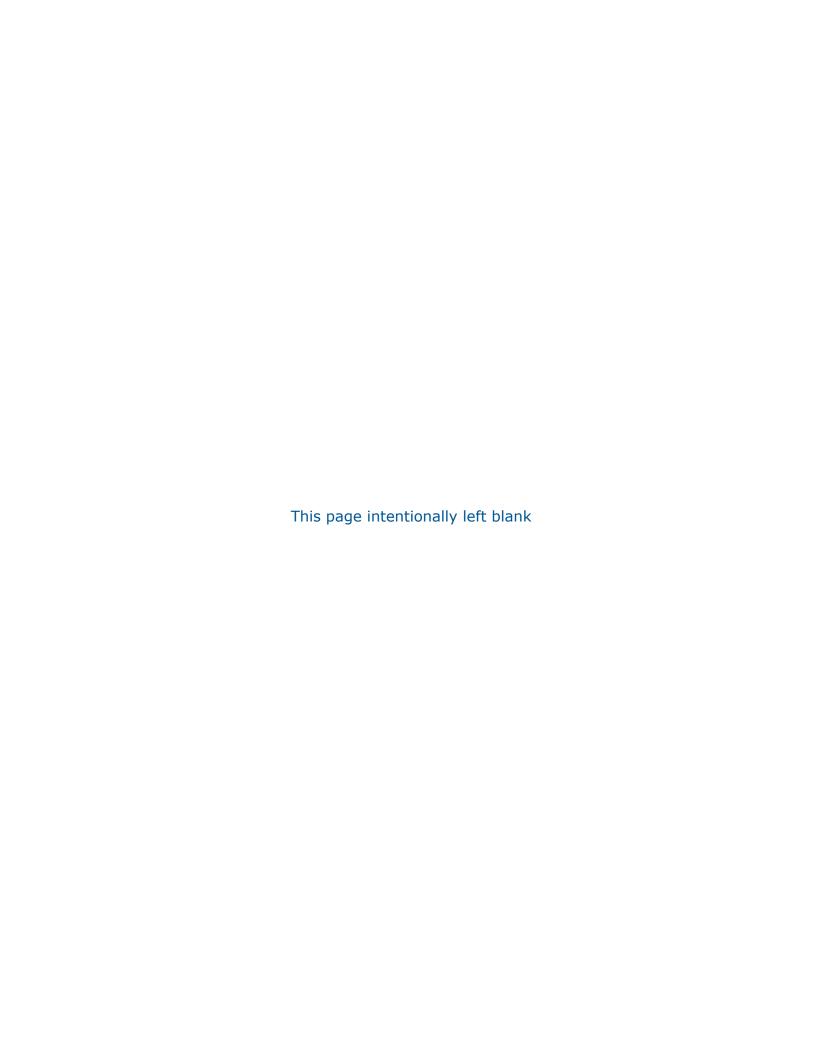

The Planning and Programs Section develops and implements the City's long range vision of creating a world-class multi-modal transportation network guided by the City's transportation master plans. This section uses data and analysis to identify opportunities to change travel patterns, and plans the appropriate facilities to support and to catalyze the reduction of single-occupant vehicles. Responsibilities include planning and implementing on and off-street bikeway improvements, planning for improved transit including implementation of a high frequency transit network, and improving pedestrian environment and safety. Staff coordinates with multiple city departments, other government and private agencies and the public to develop and implement the recommendations guided by the Salt Lake City Complete Streets Ordinance, Downtown in Motion, Salt Lake City Pedestrian and Bicycle Master Plan, the Salt Lake City Open Space Plan and other relevant plans. This group also manages the development and updates of transportation master plans.

Transportation Initiatives / Accomplishments

- 1. Completed the Pedestrian/Bike Master Plan Update. Under the umbrella of the Transportation Master Plan, the completion of this master plan provides direction for future pedestrian and bicycle projects.
- 2. Completed the 200 West protected bike lane project. This project installed a protected bike lane from North Temple to 900 South and included a protected intersection design at the connection with the protected bike lane on 300 South.
- 3. Completed 1700 South/ State Street to 700 East Complete Streets. This project, done in coordination with the Engineering Division, included a lane reconfiguration, a traffic signal upgrade, and the installation of enhanced pedestrian crosswalks.

2017 DEPT BUDGET

Department of Economic Development

The newly created Department of Economic Development contains the City's Economic Development functions, as well as the Arts Council. The Department leadership will also participate in managing the City's Redevelopment Agency (RDA). The General Fund portion of the department will house 11.0 FTEs, however, the total number of FTEs linked to the department will be 28.0.

The mission of the Department of Economic Development is to build Salt Lake City as a vibrant, beautiful, prosperous, and authentic place. This will be done through a professional organization, business development, arts and culture, place-making, revitalization and redevelopment, while promoting the City's many attributes. This will be accomplished by working together with public, non-profit and private sectors.

Functions of the department include:

- Business assistance
- Advocating for Salt Lake City to be business friendly and accessible to all people
- Creating unique and special places throughout the City
- Facilitating public and private investment
- Hosting international delegations
- Supporting local business/local jobs
- Economic development missions/trade shows
- Research
- Arts events and programming, coordination and support
- Overseeing public art
- Managing public art facilities; and
- Promoting Salt Lake City as a vibrant, beautiful, properous and authentic place

Policy Issues

Transfer Economic Development to Economic Development

429,030

This budget includes the transfer of funding and functions related to the creation of the new Economic Development Department. \$429,030 in personnel costs and the associated FTEs in the Economic Development division are being transferred from the Department of Community and Neighborhoods. This amount includes salary and insurance charges associated with these positions, including proposed salary and benefit costs in the Budget Summary section of the Book.

DEPARTMENT OF ECONOMIC DEVELOPMENT

Transfer Economic Development to Economic Development Department - 36,000 Non-Personnel Costs

This budget includes the transfer of funding and functions to create the Economic Development Department. \$36,000 in non-personnel costs related to the Economic Development division are being transferred from the Department of Community and Neighborhoods.

Transfer Arts Council to Economic Development Department - Personnel 525,838 Costs

This budget includes the transfer of funding and function to create the Economic Development Department. \$525,835 in personnel costs and the associated FTEs related to the Arts Council are being transferred from the Department of Community and Neighborhood Development. This amount includes salary and insurance changes associated with these positions, including proposed salary and benefit costs in the Budget Summary section of the Book.

Transfer Arts Council to Economic Development Department - Non-Personnel Costs

This budget includes a funding increase related to the creation of the Economic Development Department. \$9,537 in non-personnel costs related to the Arts Council are being transferred from the Department of Community and Neighborhoods.

Adjust RDA Director Salary from RDA to Fully Funded by the General 194,470 Fund

The budget includes funding for the Director of the Economic Development Department. This allocation is an estimate and may be adjusted in a future budget year.

Hold Office Facilitator II Vacant for 6 Months -34,680

The budget includes savings associated with holding an Office Facilitator II vacant for six months.

DIVISION MISSION STATEMENT

Build upon current economic base by recruiting, retaining, expanding and helping businesses start-up which are sustainable and support higher wage employment opportunities for City residents.

DIVISION OVERVIEW

The Division of Business Development is tasked with establishing and maintaining the comprehensive strategic plan for Economic Development in Salt Lake City that integrates both the Mayor's economic development goals and the Council's Philosophy Statements. The development of this three to five year plan will help guide the day-to-day operations of the Division.

Responsible for Salt Lake City's Economic Development efforts, including programmatic design, promotion and management our division works internally and externally to accomplish our mission. Functions also include leading Salt Lake City's recruitment, retention, expansion, and start-up efforts in tandem with other city divisions/departments as well as other economic development organizations. Our goals is to advance and support various innovative development efforts emphasizing a diversified and stable tax base.

DEPARTMENT OF ECONOMIC DEVELOPMENT

The division is the sales team for Salt Lake City. We accomplish this by promoting City assets, services, tools, technical assistance, available spaces and business resources to local, regional and national businesses, and serves as a liaison between city departments and the business community to improve communication and service delivery. We act as a research center for the city by providing data analysis and information that measures the economic return/impact of potential and existing policies and practices. Promoting the strengths, diversity, uniqueness and local independent businesses in Salt Lake City is an important aspect of these business development efforts.

These efforts provide the basis for Business Development to recruit new businesses to Salt Lake City in partnership with key stakeholders and city departments that fit the City metrics of success. We also help to facilitate transitions or expansion of business by offering assistance in licensing, permitting, planning and zoning and other regulatory processes that are required of businesses by the City.

We serve as resource and catalyst for major city-led economic development initiatives. We work to develop strong community partnerships to collaborate on economic development efforts within Salt Lake City that include resources, events, and advocacy for small and medium enterprises.

Business Development Initiatives / Accomplishments

The Department of Economic Development will begin operations in July 2016. This new Department will bring together the Salt Lake City Redevelopment Agency, the Salt Lake City Arts Council and the Business Development Division to build upon Salt Lake City as a vibrant, beautiful, prosperous, and authentic place. We will do this though a professional organization, business development, arts and culture, place-making, revitalization redevelopment and promoting the City's many attributes.

DIVISION MISSION STATEMENT

To promote, present and support artists, arts organizations and arts activities in order to further the development of the arts community and to benefit the public by expanding awareness, access and participation.

DIVISION OVERVIEW

The Salt Lake City Arts Council, established by City ordinance, provides public programs and services to benefit the public, to contribute to community development, a thriving economy, and the quality of life in Salt Lake City. To serve the residents of Salt Lake City, the Arts Council produces and supports high quality, inclusive, educational

and engaging arts programs and activities that include ethnically diverse and underserved populations, both as audience and as participants. The Arts Council produces six public programs, manages five grant categories, provides information and technical assistance to the community, and manages a historical building. The public programs include: the visual arts program, at the Finch Lane Gallery in Reservoir Park, which features year-round exhibits; the Guest Writers Series, produced in partnership with the University of Utah, presents eight readings with 16 writers during the school year; the Brown Bag Concert Series produces 20 free lunchtime concerts at three downtown locations; the Living Traditions Festival is a three-day folk life and ethnic arts

DEPARTMENT OF ECONOMIC DEVELOPMENT

event which features the performing arts, crafts, and cuisine of local ethnic groups; the Twilight Concert Series is a two-month long music experience in Pioneer Park that presents high quality performances of nationally and internationally renowned artists; and the Public Art Program that averages six to ten projects a year, as well as plans, inventories, and maintains the City's public art collection.

The City Arts Grants Program awards over 100 grants annually in five categories: Artist-in-the-Classroom, Arts Learning, General Support, Project Support, and Mini Grants. The City Arts Grant program awards grants to schools, artists, nonprofits and arts organizations and requires matching funds (with the exception of the Artist-in-the-Classroom). The Arts Council has established review processes that ensure public funds are expended in an accountable and transparent manner. They include applications, peer review and evaluation requirements.

The Arts Council staff provides administration to two boards, the Salt Lake City Arts Council Board (dba the Salt Lake Arts Council Foundation, a nonprofit organization) and the advisory Salt Lake Art Design Board. Nearly 280,000 people and 925 artists are served through the Arts Councils programs and services each year.

The Arts Council directly contributes to enhancing artistic and cultural life by managing the programs and by addressing its associated goals.

Arts Council Initiatives / Accomplishments

The Arts Council is participating in the Arts and Economic Prosperity Program, a nationwide data collection project coordinated by Americans for the Arts. This three-year project collects economic data from arts groups presenting in Salt Lake City as well as patron intercept surveys which record funds spent by patrons attending arts events in Salt Lake City to provide data on the economic impact of the arts on our City. This project will be completed in the summer of 2017 when a full report is provided to the Arts Council outlining the role of the arts in our local economy.

Together with the other entities within the new Department of Economic Development, the Arts Council staff has completed a strategic plan outlining ways to increase economic activities through the arts. This, and other patron surveys and program analysis will guide the budget requests and any future program adjustments.

Redevelopment Agency of Salt Lake City

Justin Belliveau, Chief Administrative Officer

In collaboration with the Department of Economic Development the Redevelopment Agency of Salt Lake City (RDA) is tasked with overseeing redevelopment of established project areas throughout the City. The established project areas within the RDA are:

- Central Business District Project Area
- Depot District Project Area
- Granary District Project Area
- North Temple Project Area
- Sugar House Project Area
- West Capitol Hill Project Area
- West Temple Gateway Project Area
- Program Income Fund
- City Wide Housing
- Project Area Housing

Department Mission Statement

Partner with the both the public and private sector to sustain a vibrant, economically, aesthetically and environmentally attractive community.

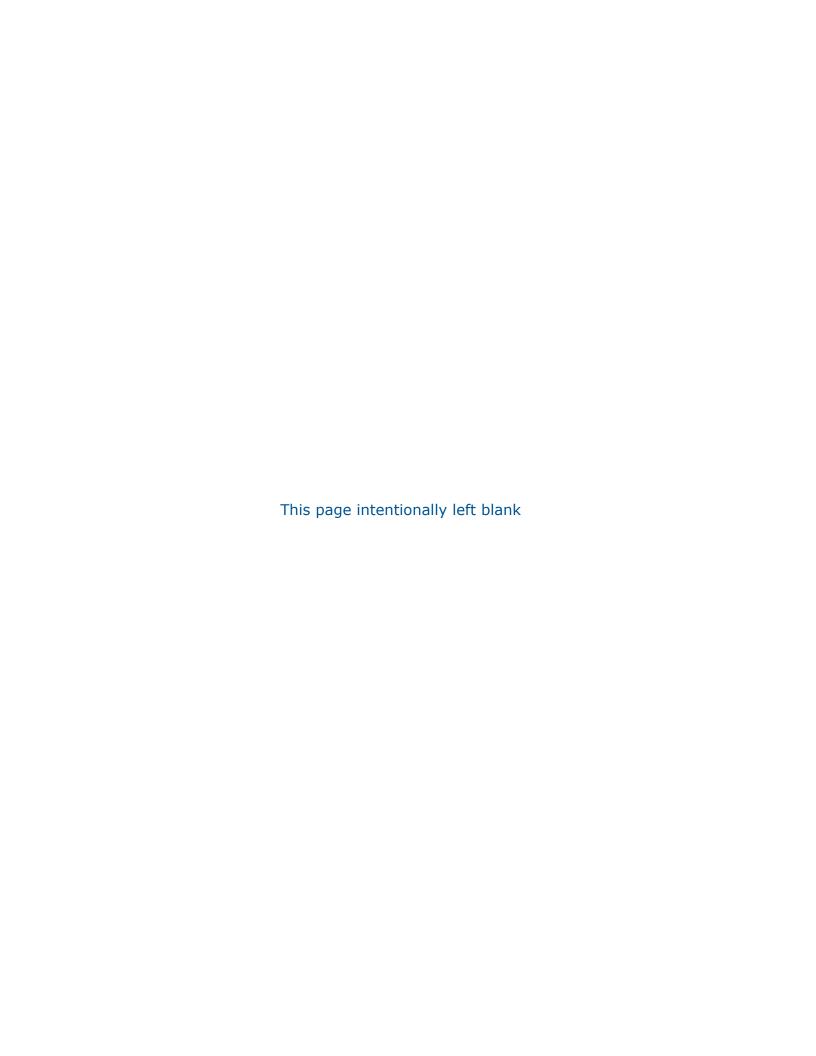

Department Overview

Since 1969, the Redevelopment Agency of Salt Lake City (RDA) has played a pivotal role in revitalizing many areas of downtown. Under the Utah Community Development and Renewal Agencies Act, the RDA has the charge and financial tools to address blight and disinvestment in specific parts of Salt Lake City. Today, areas that have previously suffered from social, environmental, physical, or economic challenges are transforming into areas characterized by a variety of useful amenities, community health, and safety. The RDA will continue to work with the community to implement the City's master plans to create vital housing opportunities, improve infrastructure, and participate in the economic development of Salt Lake City's downtown.

The RDA achieves its goals through direction from the RDA Board of Directors (the same members as the Salt Lake City Council) and is administered by the Executive Director (Salt Lake City Mayor). The RDA has a staff of 16 led by the Chief Administrative Officer. The staff conducts the daily operations of the RDA.

Department Initiatives / Accomplishments

THE RDA has worked closely with Salt Lake County and its public partners to open the Eccles Theatre. This investment in Salt Lake City's downtown will help to revitalize not only the Central Business District but all of Salt Lake City.

^{*}Numbers pulled from the accounting system prior to the completion of the audit.

^{**}Reflected as a division in accounting system, but does not function as a division alone. Rolled into Accounting & Financial Reporting in division section.

Department of Finance

The Finance Department is responsible for purchasing and contracts, revenue auditing, business licensing, collections, accounting, financial reporting, budget facilitation and the functions of the Finance Manager who directs the Department. The Department also includes the Treasurer's Office. The Department has three funding sources; the General Fund, the Information Management Services Fund and a small amount from the Risk Administration Fund. It operates with 63.70 full-time equivalent employees (FTEs).

Changes discussed below represent adjustments to the FY 2015-16 adopted budget.

Personal Services Base to Base Changes

36,081

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

36,517

This reflects an increase in the cost of insurance for the Finance Department as described in the Budget Summary section of the Budget Book.

Salary Changes

92,218

This increase reflects the Finance Department's portion of the salary increase described in the Budget Summary portion of the Budget Book, as well as additional salary increases as deemed necessary.

Policy Issues

Remove One-time: Improve Website / Form and Ticket Printing

-75,000

Funds were budgeted in the FY 2016 budget to allow the Civil Unit of Finance to transition from face to face hearing to online hearings. This one-time need has been fulfilled and the funding is being reduced.

Transfer Cost of Systems Administrator to IMS Fund

-101,000

This budget includes a reduction associated with moving a portion of the expense for the System Support Administrator position to IMS. This will not include moving the FTE. This position has the responsibility for administering the city-wide financial system. In previous years the Accounting division allocated a portion of this positions cost to IMS.

RDA Finance Position Cost

122,624

Due to significant increase in complexity of RDA operations, it has become necessary to add a position to address all financial issues for the RDA. By being in Finance, the position can better address all the financial issues between the City and the RDA.

DIVISION OVERVIEW

The Accounting & Financial Reporting Division consist of three primary functions. These include Accounts Payable, Payroll Administration and Financial Reporting. The division operates under the leadership of the City Comptroller.

Accounts Payable

The overall purpose of Accounts Payable is to generate payment to vendors that provide goods or services to the City, and to track and store the related financial documents in accordance with State

15.00

15.00

guidelines and City policy. Among the require tasks is to check the department input for accuracy and proper authorization, file all check related documentation within the required timeframe, and reconcile these transactions against bank records following the month end closing.

Accounts Payable also coordinates with departments to determine administrative fees and cost allocations for the City's quarterly reports, and to calculate and charge the City's enterprise funds for the actual costs as tracked in the detailed summary billing.

16.00

The division is also tasked with maintaining and monitoring the City's financial system (One Solution), as well as the management and generation of the various reports necessary to financial reporting.

Payroll Administration

The Payroll function of the division is responsible for providing payment to the City's employees on a bi-weekly basis. To process payroll, it is necessary to maintain detailed records of employee's up-to-date salary, deduction and direct deposit information, as well as to make payments to the federal and state government accurately and on-time. In addition to these responsibilities, payroll must make frequent payments to vendors for other deductions from employees' payroll.

One further function of payroll personnel is to assist employee in matters relating to their payroll and deductions.

Financial Reporting

The primary purpose of the divisions Financial Reporting function is to provide City decision makers with complete, timely and accurate financial information to help in controlling and monitoring the City's assets.

A significant portion of their efforts are focused on the external audit and the compilation and publication of the City's Comprehensive Annual Financial Report, also referred to as the CAFR. This is due within six month of the end of each fiscal year. Salt Lake City consistently receives the *Certificate of Achievement in Financial Reporting* from the Government Finance Officers Association (GFOA) for the CAFR.

The Financial Reporting function of the division is also responsible for reconciling the accounting system with the Mayor's Recommended Budget, and ultimately, the Council Adopted Budget, by deadlines determined by the state. As budgets are developed, they provide assistance to departments in preparing and posting budgets to the accounting system.

In addition to the above-mentioned functions of Financial Reporting, it is their responsibility to record, purchase and retire qualifying capital assets for the City.

Accounting and Financial Reporting Performance Measures

Grants Acquisition and Management

GRANTS DIVISION MISSION STATEMENT

The purpose of grant acquisition and management is to identify, secure, and manage external grant funding that supports city functions and programs.

GRANTS DIVISION OVERVIEW

- To identify federal, state, county, and private agency grant opportunities for funding and/or technical assistance that supplement city services and programs.
- To prepare and submit required elements of application packages in conjunction with city department/division staff responsible for implementation of a proposed program.
- To verify and document that committed matching funds meet funding agency requirements and city financial controls.
- To bring grant award funding into the city budget.
- To oversee fulfillment of grant award obligations and programmatic reporting with city department/division.
- To oversee, manage, and reconcile grant-funded expenditures in the city's financial system.
- To prepare and submit financial reporting and grant closeout required by the funding agency.
- To coordinate inclusion of grant financials required for the single-audit.

Policy and Budget

John Vuyk, Budget Manager

	FY 2014-15 Actuals	FY 2015-16 Adopted Budget	FY 2015-16 Actuals	FY 2016-17 Adopted Budget

Total Policy and Budget	192,924	469,362	285,557	472,095

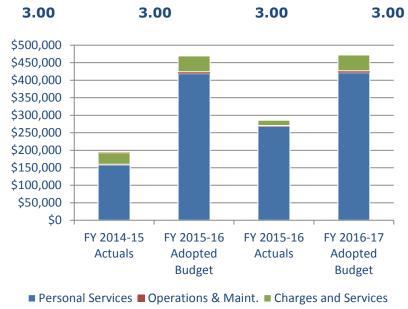

Total Policy and Budget FTEs

DIVISION MISSION STATEMENT

The Office of Policy and Budget has a primary responsibility for directing and coordinating the development, presentation, execution, and amendment of the City's budget.

DIVISION NARRATIVE

The Office of Policy and Budget is tasked with a number of different responsibilities, but its primary focus is on ushering anything budget related within the City's financial functions through all the required steps in the budgeting and budget amendment processes.

Each fiscal year, the Uniform Fiscal Procedures Act for Utah Cities within Utah Code requires that a budget be prepared and formally approved for each entity within the city. This includes all the various functions and fund classes in the City, such as the Airport, Public Utilities, the Library and all the General Fund departments. The Redevelopment Agency (RDA) and the Local Building Authority (LBA) must also meet these requirements.

The budget office assists in the preparation, analysis, and balancing of these budgets, as well as the presentation and dissemination of information to the City Council. The office also prepares the Mayor's Recommended and the Capital and Operating Budget Books. These documents are the primary source of information on budgets and budget changes for all departments and fund classes within the City.

DEPARTMENT OF FINANCE

Following the adoption of the budget, budget amendments are frequently necessary to accommodate unforeseen needs. The Budget Office also prepares and analyzes these amendment requests and works with the Administration to determine the validity of the need, the availability of funding, and whether the request should ultimately be presented to the Council for approval.

Additional Policy and Budget responsibilities include:

- Ensuring the completion of budget related ordinances
- Preparation and updating of all City policies, procedures, administrative rules and executive orders.
- Public benefit analyses
- Compilation of citywide performance measures
- Ensuring the completion of Council legislative intents
- Various budget related research, analysis and assistance

Total Purchasing and Contracts FTEs

DIVISION MISSION STATEMENT

The employees of the Purchasing & Contracts Management Division, serve our customers by providing efficient solutions, and by reducing levels of risk in compliance with statutory boundaries, for the acquisition and disposal of goods and services.

DIVISION OVERVIEW

Purchasing and Contracts Management staff research, develop, procure and contract for operational supplies and services which are required for each City Depart-

■ Personal Services ■ Operations & Maint. ■ Charges and Services

ment to function within its defined scope, and to ensure that such procurement processes meet the requirements of City Codes 3.24 and 3.25, Procurement Administrative Rules, and City Purchasing and Contracting Policies.

In providing this service, the division is responsible for all aspects of the required procurement and contracting processes. These include:

- Providing education and training to city personnel regarding the purchasing and contracting requirements of the City;
- Researching, identifying, and developing sources;
- Assisting departments in developing specifications and scopes of work;

DEPARTMENT OF FINANCE

- Solicitation and evaluation of bids, quotations and proposals;
- Ensuring procurement processes are fair and equitable to the City and suppliers;
- Negotiating with the contractors;
- Determining and acquiring the necessary certificates of insurance;
- Coordinating contract review and approval with the requesting department and the Attorney's Office;
- Providing the encumbrance information to Accounting;
- Facilitating the contractor and department designee's signatures; and
- Ensuring that processes comply with the City's Procurement Code, Rules, and Policies.

In cooperation with the City Attorney's Office, Purchasing and Contracts Management ensures compliance with City codes and rules by maintaining and updating the standard boilerplate documents as necessary to meet the changing needs and requirements for Requests for Bids, Requests for Proposals, Requests for Qualifications, and various standard contract documents.

To increase buying power and cost savings for the City, they encourage and coordinate the use of cooperative contracts with the State of Utah and other government agencies.

Further, they also provide direction and assistance to City departments for sustainability requirements established by the City's Department of Sustainability and in compliance with the City's environmental policy, including directives for procurement of environmentally preferable and energy efficient products and equipment.

Purchasing and Contracts Initiatives/Accomplishments

- Proposed changes to the City's Procurement Code for City Council consideration regarding Protests and Appeals of solicitation processes by repealing the current ordinance sections and adopting the State of Utah provisions for Procurement Protests and Appeals (completed).
- Implement a new contract management system to replace the City's aging contract system.
- Transition from the current bid and RFP publication system to the new State of Utah cooperative contract provider and develop forms and modify rules and procedures to allow online submission of bids and proposals.

DIVISION OVERVIEW

The Financial Operations division consists of numerous functions including Revenue Analysis, Auditing, Fraud Waste and Abuse, Business Licensing, Landlord and Tenant Relations, Collections, and the Parking and Civil Unit. An overview of these functions is shown below:

\$3,000,000 \$2,500,000 \$2,000,000 \$1,500,000 \$1,000,000 \$500,000 \$0 FY 2014-15 FY 2015-16 FY 2015-16 FY 2016-17 Adopted Adopted **Actuals Actuals** Budget Budget

27.00

27.00

Revenue Analysis / Auditing / Fraud Waste and Abuse

The division's Revenue Analysts provide continuous monitoring and analysis of the

■ Personal Services ■ Operations & Maint. ■ Charges and Services

City's revenue streams to aid decision makers in maintaining and enhancing City revenues. By practice, the analysis of these revenue streams is done on a monthly basis. In addition, these analysts perform audits on the various revenue related internal controls and processes to ensure that policies and procedures are being followed. Furthermore, operational research and benchmarking are employed to audit and/or justify fees and other City revenues. Cost data, which serves as the foundation of fee schedules, must be continually tracked.

Revenue Analysts are also tasked with supporting the City's Fraud, Waste and Abuse efforts, and are involved in investigating fully all reports of suspected fraud in City operations.

Other tasks include supporting various accounting functions within the Finance division including payroll, accounts payable and check writing. By doing so, they provide the necessary separation of duties.

Business Licensing / Landlord and Tenant Relations

The Business Licensing function licenses business within the City, but in a larger sense it works toward enhancing the lives of the citizens of Salt Lake City and its visitors by promoting the development of commercial enterprises, by ensuring timely responses and resolutions to community concerns, facilitating public safety, education and awareness campaigns, and by conducting proactive enforcement to ensure compliance with state and local laws.

Business Licensing maintains accurate and complete records of all business licenses, collects business license fees, inspection fees, license taxes, and other related fees and provides due process of law for businesses by providing dispute resolution.

Landlord and Tenant Relations ensures that all rental property is properly licensed. The City specifies what it expects of Landlords with regard to maintaining the Property in a safe and livable condition in order to make a positive contribution to City neighborhoods. This function is also intended to ensure Landlord and Landlord's tenants are aware of the laws and regulation relating to criminal nuisance activity, City housing and zoning requirements, fair housing and non-discrimination laws, and landlord/tenant rights and responsibilities.

Parking and Civil Unit

The City's Parking and Civil Unit is tasked with mediating civil ordinance violations in areas such as parking, ground transportation, snow removal, animal control and other ordinance violations. This is accomplished through prompt, fair and impartial hearings done in person, over the phone and online. Hearing officers resolve close to 99% of hearings. The remaining disputes go on to be contested at the Justice Court.

Collections

The Collections Unit endeavors to enhance the flow of revenues by enforcing timely payments of outstanding fees, fines, court costs, lease payments, licenses, permits and other debts owed to the City. The Collections Unit seeks to encourage personal responsibility by improving payment compliance and increase revenue.

Collections has a dedicated staff whose essential job function is collecting unpaid debts. Using telephone contact and letter notification, set up and monitoring of payment plans, consistent procedures and timely follow up as well as other statutorily permitted collection remedies, the Collections Unit generates substantial revenues.

DIVISION MISSION STATEMENT

The City Treasurer's Division strives to provide with distinction a responsive and transparent financial management, prudent custodial responsibility and oversight of the City's financial resources, by driving change through innovation in all aspects of treasury and financial management, and by providing the highest quality of municipal treasury services.

DIVISION OVERVIEW

To be a credible and valued resource to other divisions within the Finance De-

■ Personal Services ■ Operations & Maint. ■ Charges and Services

partment, other City departments and other public and private agencies. Its primary responsibilities are of a fiduciary nature relating to the collection, management and disbursement of public funds.

Cash Management

The Cash Management team of the City's Treasurer's Division invests all operating cash, bond proceeds, and other City funds, providing safety and liquidity while maximizing yield for all invested funds.

The team monitors all bank transactions and balances on a daily basis to assure that sufficient funds are available to handle all City financial transactions. Team members process the printing of all City checks, i.e. accounts payables for weekly City and Airport check writes, immediate pay checks, refund checks, payroll liabilities, payroll checks and electronic funds transfer requests.

Cash Management team also oversees the collection of funds for City-wide payments, credit cards and e-checks, the lockbox operation, the online cash receipt system, ACH debits to the customer and ACH credits from the customer. In addition, policies and procedures are kept up to date enhancing internal controls and efficient financial management.

Debt Management

The Debt Management Team consists of the City Treasurer, Deputy Treasurer, Debt Management Analyst and an accountant. Together they coordinate the creation of a financing team for the purpose of issuing debt by the City. The financing team includes bond counsel, the financial advisor, underwriters, the trustee and other relevant stakeholders.

The Debt Management Team is responsible for the following functions:

- Managing the accounting and budgeting of bond proceeds and costs of issuance;
- · Arranging for arbitrage calculations as required;
- Making semi-annual and monthly debt payments and related funding transfers;
- Submitting monthly requests for reimbursing the City from trustee-held construction proceeds for payments the City has advanced;
- Providing support to the year-end audit process of the Accounting Division as it pertains to the City's long term debt;
- Compiling annual continuing disclosure documents for dissemination in accordance with bond requirements;
- Ensuring compliance with any other bond covenants and applicable State and Federal regulations.

Special Assessments

The Special Assessments Program ensures proper billing, account management and collection of all special assessments, and manages the collections of accounts in accordance with bond resolutions, City ordinances, state statutes and City policy. This program maintains the integrity of the City's Special Assessment System ensuring accurate data for the construction, business improvement, and the remaining accounts of the street lighting special assessment areas (SAA's).

There are approximately 396 active accounts in the construction SAA, 606 accounts in the economic promotion SAA, and 600 accounts remaining accounts for collections in the street lighting SAA. These active accounts are provided with accurate ledger accounts to meet the needs of the property owners, title companies, and financial institutions. Should the City embark on issuing SAA bonds, the SAA Analyst becomes an active member of the City's financing team.

<u>Treasurer's Office Initiatives / Accomplishments</u>

Cash Management

Investment and Bank Systems are converted to paperless documents by initiating an electronic filing system, saving paper and storage requirements. This is equivalent to about 16,500 pages per year or 33 reams.

In coordination with the City's Human Resource Department, a credit- check process was implemented for employees who will have access to the City's payment systems.

The Bank Access system which had been in place for over 22 years, was converted to a web-based system with the support of the City's IMS Department. This new system provides more levels of security and audit trail for any changes in the system.

Debt Management

The Debt Management Team has initiated an ongoing update and review of policies and procedures related to the City's debt management.

Since 2013, the City has closed on five refunding bonds that provided a combined net savings of \$5,438,218.44. Savings from the refundings of three General Obligation bonds resulted in reduced property tax bills to taxpayers. In addition to the savings provided, the General Obligation 2015A bonds eliminated an unfavorable interest-rate structure by refunding the General Obligation 2013B bonds at a fixed rate during the favorable low rate market environment. Since 1999, the City has closed on 99 bond and note issues having a combined par amount of \$1,512,575,508.

As of June 30, 2016, \$372,369,000 in outstanding par amount of bonds were being managed by the Debt Management Team.

Special Assessments

Provided support to the City Council and Administration's initiative of resolving the longstanding budget issues with street lighting (enhanced) SAAs. With the review and recommendation by an outside consultant the City Council adopted the recommendation to dissolve the SAAs and convert them to a surcharge on the utility bill and become part of the Public Utilities Street Lighting Enterprise Fund. Effective FY 2017, the street lighting SAA's were converted to a surcharge on the monthly utility bill.

With the transfer of the street lighting SAA's, the general fund will no longer contribute toward the costs of an SAA by paying for 25% of the ongoing operating and maintenance costs.

Treasurer's Office Performance Measures

Fire Department

The Salt Lake City Fire Department is a professional organization that specializes in urban structural firefighting and emergency medical services, but also has numerous other functions as varied as hazardous materials intervention and swift water rescue. With the inclusion of 1 FTE, from Budget Amendment #2, in the budget, the Department has 341 full-time equivalent positions, divided into two battalions, currently serving in 14 strategically located stations covering 97 square miles. The Department structure includes the Office of the Chief, Operations, Logistical Support, Fire Prevention, and Public Relations.

Changes discussed below represent changes to the FY 2015-16 adopted budget.

Personal Services Base to Base Changes

237,336

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

221,064

This reflects a change in the cost of insurance for the Fire Department as described in the Budget Summary section of the Budget Book.

Salary Changes 352,323

This increase reflects the Fire Department's portion of the salary increase described in the Budget Summary portion of the Budget Book.

BA #2: Diversity Outreach Personnel

76,050

The budget includes ongoing funding for the Fire Department's Diversity Out-reach/Explorer Program added in budget amendment #2 of FY 2016, and will cover the associated personnel costs for 1.0 FTE. This program consists of 30 students taken from within Salt Lake City School District, as well as districts outside the Salt Lake City area. Students are required to take a certain number of hours of class instruction and will be given the opportunity to learn about the various aspects of fire science and firefighting. They will also be required to perform community outreach as part of the program.

BA #2: Diversity Outreach Equipment

35,000

The budget includes funding for equipment to be used for the above-mentioned Diversity Outreach/Explorer Program. This funding will purchase new PPE equipment for existing firefighters, freeing up the surplus PPE for students.

Policy Issues

Restore One-time: Vacancy Savings

97,000

The FY 2016 budget included \$97,000 in one-time Fire Department vacancy savings. The budget includes funding to replace that one-time reduction.

2% Differential for Support Staff (Contractual Obligation)

62,000

The budget includes funding for a 2% Support Differential for people that work in a support role. This was agreed upon in the last round of contract negotiations with Firefighters Local 81. The intent of the program is to provide an incentive for employees to move from Station Operations to work in a support role.

One-time: Equip New Apparatus

100,000

The budget includes one-time funding of \$100,000 to purchase apparatus for 2 new tiller trucks and a HAZMAT vehicle. This amount of funding will not be sufficient to cover the entire cost of the necessary equipment. The Fire Department will be utilizing some previously used equipment to fully equip the vehicles.

Eliminate Standby

-60,000

The budget includes a reduction in standby time funding. Standby time has been used for eligible employees who are immediately available to work during otherwise off-duty hours. More efficient use of on-duty staff and current work assignments will allow for this reduction.

Reduce Durable Medical Supplies

-10,000

The budget includes a reduction in funding for durable medical supplies. This savings will be achieved through better management of the department's current resources, as well as closer cooperation with the City's Ambulance partner.

One-time: Vacancy Savings

-100,000

The budget includes a one-time reduction in funding related to vacancy savings in the department. Fire fighter attrition, retirements and delays in hiring recruit classes will provide this savings.

Operations Division

30,800,000

DIVISION MISSION STATEMENT:

The purpose of the Operations Division of the Salt Lake City Fire Department is to retain responsibility and respond to all emergency calls to protect Life, Property, and the Environment. Approximately 70% of calls are medical related with the remaining 30% involving fire calls or calls concerning threats to property or the environment where our citizens or visitors live or work within Salt Lake City.

DIVISION OVERVIEW:

All Salt Lake City Firefighters are trained in many facets and disciplines of emergency work. The Department is respon-

sible for responding to all emergency calls in Salt Lake City. The Department also has many firefighters trained as paramedics who are able to perform advanced life support; in addition all Firefighters are required to hold a certification as Emergency Medical Technicians (Basic Life Support). The Department also has firefighters trained to specialty levels of Engineer, Haz Mat, Airport Rescue Firefighter (ARFF), Swift Water Rescue (SWR) and Heavy Rescue (HRT) improving customer service delivery.

Firefighters are trained and ready to respond from fourteen fire stations located throughout the city meeting our core mission of service to the public. The Department maintains an average re-

sponse time to all life threatening emergencies of five minutes or less. This is the standard outlined by NFPA and the American Heart Association.

The department also maintains an average of four firefighters per emergency unit. This enables the department to operate at the most effective & efficient level possible and to protect firefighters from dangers associated with fighting fires.

To help the Department keep a quality workforce each firefighter is required to maintain 20 hours for firefighting training and 25 hours of EMS delivery training. Those firefighters with specialized training are also required to maintain basic training in their specialty. This occupies many hours of the firefighters time.

Additionally, each fire unit assigned to the Operations Division is required to perform 8 inspections per month, hopefully preventing fires before they start. These inspections assist the community to be prepared in an emergency and enable the firefighters to be aware of the community they serve.

The Department is the first responder to all emergency calls at the Salt Lake City International Airport. There are two fire stations located at the International Airport to meet customer service needs. All firefighters assigned to the Airport Operations Division are trained to the specialty level of Airport Rescue Firefighter (ARFF). This training prepares them to handle specific emergency operations related to the airport and its potential hazards.

Fire Operations Performance Measures

Performance Measures	2014 Actual	2015 Actual	2016 Actual*	2017 Target	2018 Target

Department of Human Resources

It is the mission of the human resources department to develop, implement and support programs and processes that add value to Salt Lake City Corporation and its employees, leading to improved employee welfare, empowerment, growth and retention, in order to enable all city employees to contribute at optimum levels toward the success of our organization.

The Department of Human Resources (HR) includes 26.0 full-time equivalent employees and provides numerous services for all City employees. Department programs include Compensation and Employment Recruiting, Benefits, Insurance and Risk Management, EEO Compliance and Training, Departmental Payroll and Administrators, Departmental Consultants and Administrative Support. Funding for the department is provided by the General Fund and the Risk Fund.

Changes discussed below represent adjustments to the FY 2015-16 adopted General Fund budget.

Personal Services Base to Base Changes

67,153

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

13,908

This reflects an increase in the cost of insurance for the HR Department as described in the Budget Summary section of the Budget Book.

Salary Changes 23,697

This increase reflects the Department's portion of the salary increase described in the Budget Summary portion of the Budget Book.

Policy Issues

CCAC Benchmark Adjustment

30,921

The budget includes market adjustments for the HR Consultant benchmarks as recommended by the Citizen's Compensation Advisory Committee. This is a market adjustment for certain benchmarked employee groups in the City who lag behind market pay rates.

DEPARTMENT OF HUMAN RESOURCES

Remove One-time: Sexual Harassment Training

-25,000

The FY 2016 budget included \$25,000 used specifically for Police and Fire Department sexual harassment training. This one-time need has been fulfilled and the funding is being reduced.

Employee University

50,000

The budget includes funding for Human Resources to develop an Employees' University for the City. This will include a partnership with the University of Utah's Office of Continuing Education and allow for some outside instructors to deliver curriculum on things like succession planning, writing business cases, leadership development and supervisor boot camp programs. This annual funding will be utilized to provide employees with ongoing professional development opportunities.

One-time: Reduction of Supplies, Training, Travel

-15,000

The budget includes a one-time reduction in funding for Human Resources supplies, training and travel.

DIVISION MISSION STATEMENT

The purpose of IMS Department Leadership and Administrative is to provide the technical and managerial leadership of the IMS Department, along with the administrative services necessary for IMS Department operation.

DIVISION OVERVIEW

IMS Department leadership is provided by the IMS Director / Chief Information Officer (CIO). The CIO, working with other City Department Directors and managers, establishes the overall technology direction

and standards for the City, including computing infrastructure, 3rd party applications, software development and information and technology security. The CIO is also the supervising manager of the IMS Department's Division Managers, including those that supervise the Software Services, and Computing Infrastructure Services and Information Security Services functions.

Department administrative services support the Department in its delivery of services to the City. Key activities include staffing administration, purchasing and payments administration, travel administration, tracking of training and maintenance of training records, budget administration and financial tracking, analysis and reporting. Also included are technology purchasing administration services on behalf and in support of other Departments.

DIVISION MISSION STATEMENT

The purpose of IMS Computing and Communications Infrastructure is to provide computing services, voice and data communications infrastructure, infrastructure services and support services.

DIVISION OVERVIEW

The City's computing and communications infrastructure includes such equipment as servers, desktop workstations, laptops, tablets, information / data storage devices, printers, switches, routers, firewalls, wireless communications devices, security de-

vices, telephone systems, power backup, etc. IMS supports more than 2,500 computers, 800 printers, 325 servers and the associated network infrastructure across Salt Lake City.

Infrastructure services include email, wired and wireless network services, telephone services, internet access, local and remote network access, spam elimination, virus / malware protection and elimination, security monitoring, infrastructure systems monitoring and control, etc.

Infrastructure support services include acquisition, preparation and deployment of desktop, laptop and tablet computers, Helpdesk user support, infrastructure systems and network administration, infrastructure systems patching and upgrading, systems repair and preventive main-

DEPT OF INFORMATION MANAGEMENT SERVICES

tenance, infrastructure planning including in support of major projects across the City Departments, supplier management and device decommissioning and disposal.

IMS has infrastructure work teams collocated with other City Departments to ensure that services are responsive and focused. For example, IMS has a dedicated work team at the Public Safety building to support Police, Fire, EMS and SLC911 Dispatch. Other work teams include those that support the Salt Lake City Public Library and the Housing Authority of Salt Lake.

To provide the quality of services required, IMS has Cisco Certified Network Administrators, Microsoft Certified Systems Engineers, Certified Information Systems Security Professionals (CISSP) and trained PBX Administrators among others.

DIVISION MISSION STATEMENT

The purpose of Information Security Services is to provide the policies, standards of performance and oversight of information security practices across the City and its Departments. It ensures that the City protects its information assets, provides for the integrity of the processes and records, and complies with applicable laws and regulations.

DIVISION OVERVIEW

The City recognizes that information is a critical government asset and must be protected consistent with its importance to the City and its constituents. Among the key responsibilities and deliverables of Information Security Services are:

- Ensuring compliance with applicable information security laws and regulations
- Performing periodic information security risk assessments
- Developing and maintaining information security policies
- Performing vulnerability assessments and addressing vulnerabilities
- Responding to information security incidents
- Evaluating, justifying, recommending acquisition and use of security technologies
- Security oversight and review of security-related considerations of business and infrastructure applications and systems

Total Multimedia Services	385,168	460,730	618,602	498,060

Total Multimedia Services FTEs

DIVISION MISSION STATEMENT

Multimedia Services produces and delivers the content that airs on Salt Lake City's Government Access cable television channel, SLCTV, under a franchise agreement with Comcast. SLCTV gives the City a televised way to provide visibility to government operations and legislative processes, information to the constituents, citizens, and visitors of the City.

DIVISION OVERVIEW

Multimedia Services provides video production services to all City departments

for creation of public service announcements for programs, events, and other informational topics. Multimedia Services also provides video and photographic work for internal use in training and documentation of events.

Multimedia Services provides video services for meetings and other events, and its live broadcasts of public meetings provide transparency to City's Executive and Legislative branches of government. In 2015, Multimedia Services created over 150 video productions including all City Council Meetings, Mayor's Community Council Meetings, Planning Commission Meetings, press conferences, and numerous Public Service Announcements.

Multimedia Services has the ability to broadcast live from the City and County Building Council Chambers, Committee of the Whole Room, the first and second floor hallways, the east steps

of the building. Live audio broadcast of Council and other meetings is provided for all meetings where an audio recording is made of the proceedings. Additionally, SLCTV can broadcast live from the City Library Urban Room and Auditorium.

Multimedia Services makes SLCTV available on the internet at www.slctv.com for those individuals that are not Comcast customers but still want access to the programming. An archive of previous meetings and programs is maintained and available on demand, by download, or via "podcasting".

Multimedia Services has garnered numerous awards for the content, creativity, and quality of its work. Communicator Awards have been received for PSA's produced in 2002, 2003, 2004 and 2006. In 2008, Multimedia Services's work in broadcasting public meetings was key in the City's recognition as a top Digital City in the nation.

Total Software Services	3,781,907	5,189,020	4,952,479	5,214,167

Total Software Services FTEs

DIVISION MISSION STATEMENT

IMS Software Services provides the advanced support services that make operational the software applications that enable all or most City functions, across every Department. Examples of these applications are Accela, which enables a variety of permitting and work-order operations, and One Solution, which enables City accounting and financial activities. It also includes the development of custombuilt applications in cases where 3rd-party, off-the-shelf software is not available to satisfy the City's needs.

DIVISION OVERVIEW

IMS Software Services performs all tasks necessary to make the applications, whether 3rd-party or custom-developed, that enable nearly every City activity, available and usable to users across the City. For 3rd-party applications, the services include application installation, configuration, database administration, version upgrades, integration of applications functions and data for enhanced automation, process scripting, management report creation, application vendor coordination and management, Purchasing / RFP support, user / stakeholder coordination and management, user training and creation and operation of production, development and backup application environments.

The currently-supported inventory of 3rd-party applications includes more than 300 applications in use across the City; however, the support intensity varies considerably among them. The inventory of applications requiring regular support attention numbers around 100, including the following highly important and visible applications that required dedicated or intensive software support:

Application	Key Services	Using Departments
Accela	Business Licensing, Scheduled and Unscheduled Maintenance Work Orders, Building and Fire Inspections, Permitting, Buildings Plans, etc.	Community and Neighborhoods, Public Services, Fire, Finance (nearly City-wide)
Versadex (upcoming Hexagon)	Computer Assisted Dispatch / Records Management System	Police, Fire, E911 Bureau
IBM Analytics	Data analytics and reporting	City-wide
One Solution	Accounting and Human Resources management and planning	City-wide
PrimeGov	Legislative Agenda Management and Live Meeting	Legislative
ServiceNow	IT Service Management, technology procurement, personnel on-boarding (user technology and systems access)	City-wide

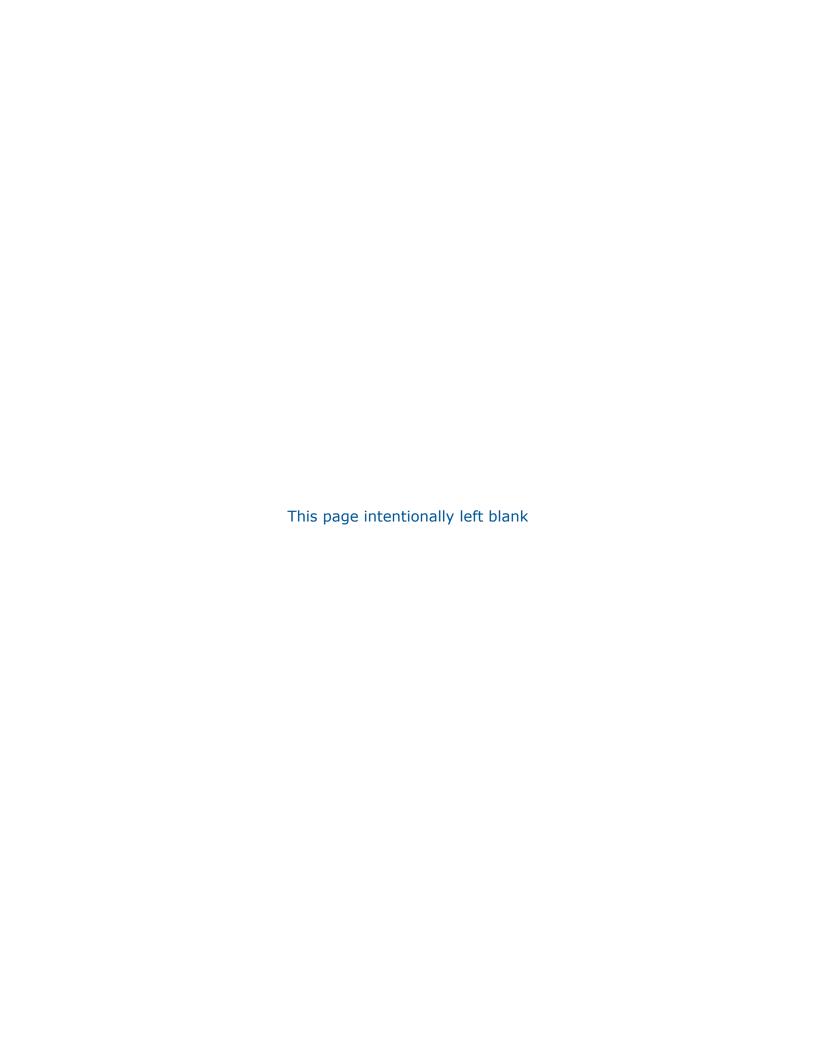

To satisfy the needs of the City when a 3rd-party solution is not feasible, Software Services performs custom software development. The City generally prefers to buy software from reputable 3rd-party sources, but frequently no off-the-shelf, 3rd-party software is available as needed. Likewise, integration between systems is largely a custom software development task, and such integration delivers high-value benefits in efficiency and management of business processes. Tasks include creation of requirement and design artifacts, software application architecture definition, coding, unit and system testing and support of user acceptance, deployment and in-service software maintenance. The work products include custom software applications, scripting-automation and systems-integration between applications and databases, whether the applications and databases are from 3rd-party suppliers or built in-house. Software Services currently maintains nearly 150 internally-developed software products developed over the years.

Software Services also provides database administration services, an essential application operation and maintenance function for all City databases, whether developed in-house or associated with a 3rd-party application.

Justice Court

The Salt Lake City Justice Court has jurisdiction over all Class B and C misdemeanors and infractions committed within Salt Lake City's corporate limits. The Court includes three sections. The criminal section handles misdemeanor criminal violations such as misdemeanor driving under the influence, theft, assault and domestic violence cases. The traffic section handles traffic violations and cases. The third section is the small claims section, which settles legal issues and problems from contractual or service disputes or others claims which do not exceed the sum of \$10,000. The Justice Court also supports numerous specialty courts including Drug Court and Homeless Court. The Court operates with 44.00 full-time employees (FTE's).

Changes discussed below represent adjustments to the FY 2015-16 adopted budget.

Personal Services Base to Base Changes

-13,787

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

22,312

This increase reflects a change in the cost of insurance for the Justice Court as described in the Budget Summary section of the Mayor's Recommended Budget Book.

Salary Changes 111,312

This increase reflects the Justice Court's portion of the salary proposal described in the Budget Summary portion of the Mayor's Recommended Budget Book.

Policy Issues

Staff Restructure 27,705

The budget includes a funding to allow the Justice Court to restructure the Traffic Clerk and Court Clerk titles and functions of their department. For the past twelve years these two types of positions worked independently and dealt with different functions in the traffic and criminal sections of the Justice Court. Recent changes in state law, changes in the structure and location of the Civil Violations unit, and the Prosecutors decision to limit the options a Traffic Clerk can use have made it clear that a restructuring of the organization will improve efficiencies and allow for more equity in pay and workload among the Court Clerks and Traffic Clerks.

Operations Efficiencies

-51,000

The budget includes a reduction in funding related to operating efficiencies to be made in the Justice Court.

DEPARTMENT / DIVISION MISSION STATEMENT

The mission of the Salt Lake City Justice Court and its staff is to provide the people an open, fair, efficient and independent system for the advancement of justice under the law and improve the quality of life in our community.

DEPARTMENT / DIVISION OVERVIEW

The Salt Lake City Justice Court was opened with the intent to preserve the City's ability to adjudicate Class B and C misdemeanors, infractions and small claims cases, as well as return justice court services to the local community.

The Justice Court, is responsible for and processes Class B and C misdemeanor violations and some infractions; jury trials, appeals and expungements, coordinate video hearings, prisoner transports and daily interaction with jails throughout the State of Utah. The court monitors and tracks probation, warrants, community service, and restitution, collections of monetary penalties, appeals, expungements and plea-in-abeyance cases. We also provide traffic school, coordination of interpreter services and ADA needs that arise.

The civil section settles legal issues and problems from contractual or service disputes or other claims which do not exceed the sum of \$10,000. This section has jurisdiction over cases in which the defendant resides or the debt arises within the geographic boundaries of Salt Lake City;

Justice Court Initiatives/Accomplishments

- The Salt Lake City Justice Court was nominated and received the honor of being the 2016 Justice Court of the Year. Considering there are 134 justice courts in the State of Utah, we are honored to have received this recognition and very proud of the services we provide and accomplishments we achieve.
- The court has gone through a restructuring process which consolidated the traffic and criminal sections and retitled the clerical positions to Judicial Assistant I, II and III levels. This was needed to bring equity for staff assignments and employee placement. This was also accomplished to create a more improved career ladder for employees.
- In collaboration with the Administrative Office of the Courts, the Justice Court has successfully began using the E-filing system. This will be mandated to be in use by all justice courts on or before January 1, 2017. This is a process whereby all criminal filings from the prosecutor will now be filed with the court electronically. This new e-filing system will now share all case related electronic documents with all parties on a case instantaneously.

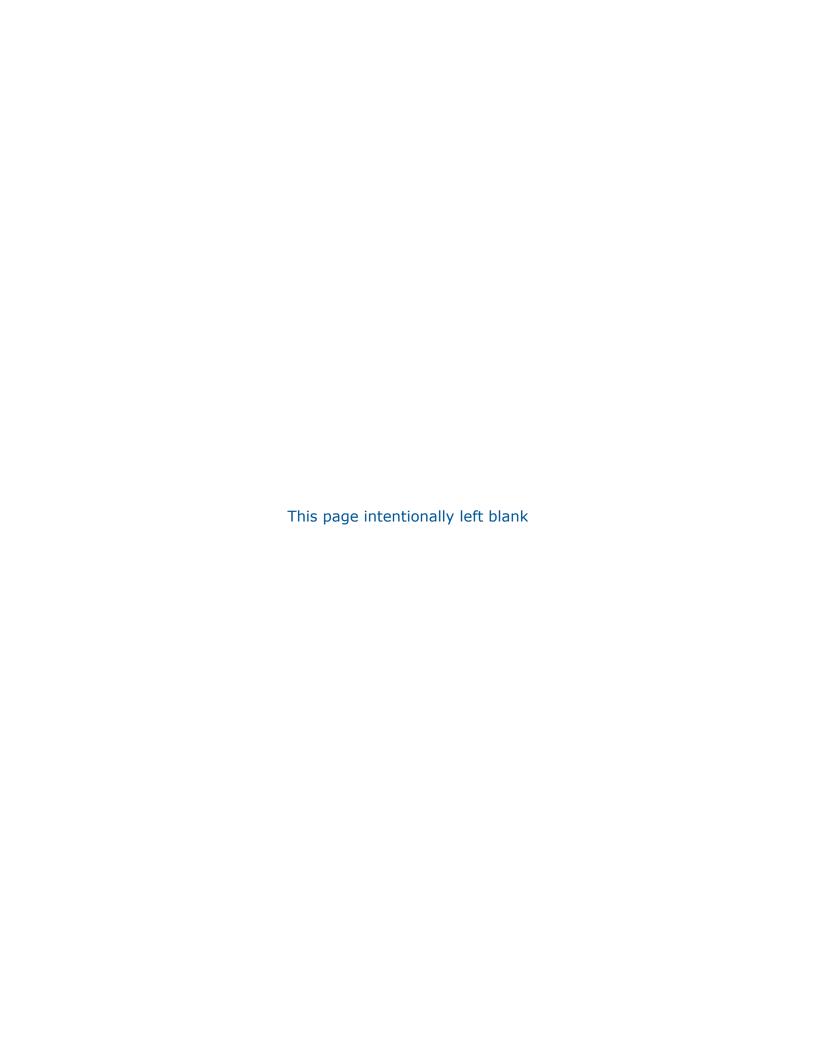

- With the help of the city IT department, the court developed an electronic judgement and order form. The court previously used triplicate paper forms. Now we have this important document in electronic form. The new electronic version of this order is easier, faster, and cost-effective, is more understandable and is uploaded to the case and sent to all parties with a few key strokes.
- Early in FY2016 the Administrative Office of the Courts made it possible for all justice courts to access public documents electronically. This service is available through the web based program called XChange. This program is a subscription based program which allows outside agencies, defendants, citizens and attorneys to get court records and case information on their own without having to contact the court. Xchange is a repository of all District Court and Justice Court cases for the State of Utah.

These changes and technological improvements for the Salt Lake City Justice Court are assisting us in providing exceptional services to the public, including easier records access for all parties and benefiting the court, its employees and Salt Lake City.

Justice Court Performance Measures

Performance Measures	2014 Actual	2015 Actual	2016 Actual	2017 Target	2018 Target
1. Access & Fairness - Percent of Justice Court customers satisfied with service received.	94%	91%	91%	≥85%	≥85%
2. Time to Disposition - 95% of criminal case dispositions should meet established guidelines for Time to Disposition (6 months).	87%	82%	87%	≥95%	≥95%
3. Age of Acting Pending Cases - 95% of all criminal cases should have a disposition within the 180 day timeframe.	78%	84%	83%	≥95%	≥95%

Police Department

The Police Department's Mission Statement is:

"We will serve as guardians of our community to preserve life, maintain human rights, protect property, and promote individual responsibility and community commitment."

The Department's Vision Statement reads:

"We will build upon the noble traditions of integrity and trust to foster a culture serve, respect and compassion toward our employees and the community we serve."

The Salt Lake City Police Department serves the 180,000 residents of Salt Lake City and a daytime population which exceeds 300,000 with 555.00 General Fund FTEs in budget for FY17. The Department is organized into three Bureaus which include Bureau of the Chief, the Operations Bureau and the Administrative Support and Support Operations Bureau.

The Police Department has worked closely with the Mayor's office and City Council to implement structural and cultural changes which will assist the Department in upholding the Mission and Vision of the Department, serving the community and improving community relations.

Changes to the FY17 budget for the Police Department are discussed below.

Personal Services Base to Base Changes

869,760

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

314,248

This increase reflects a change in the cost of insurance for the Police Department as described in the Budget Summary section of the Budget Book.

Salary Changes 655,518

This increase reflects the Police Department's portion of the salary increase described in the Budget Summary portion of the Budget Book.

Policy Issues

Remove One-time: New Officer Equipment

-102,500

The FY 2016 budget included funding for the department to acquire start-up equipment needs for the additional officers funded at the beginning of the fiscal year. This one-time need has been fulfilled and the funding is being reduced.

Remove One-time: Training

-38,000

The FY 2016 budget included funding that would allow additional outside training and certification, including specific training regarding the use of force. Funding for maintenance and other costs associated with the training simulator were also included. This one-time need has been fulfilled and the funding is being reduced.

COPS Grant Matching Funds for (COPS#3)

851,131

The budget includes funding for the matching salary portion of the COPS Grant the City received in FY 2016. The Police Department has created 15 new community policing positions, and has assigned experienced officers to those positions. The Grant requires that these officers be retained for a minimum of 12 months following the 36 month period of the grant.

Systems Maintenance Increases (FARO, Adventos, Gateways, GIS, CAD/RMS)

89,310

The budget includes an increase for technical, software and maintenance expenses. This funding will address the Police Department portion of the GIS system, gateway licenses for wireless MDT access in police vehicles, cell phone increases, Adventos software licensing and CAD/RMS backup server software, among other expenses. These increases are contractual and usage based, ongoing maintenance increases and increases in annual licensing costs.

Citizen Access to Crime Data

50,000

This budget includes funding for ongoing efforts to provide software the Police Department can use to provide better statistical reports and analytics in order to be more transparent and accountable to the community. The software will allow the department to provide customized reports for the community. This funding was previously budgeted within the Non-Departmental section of the budget as one-time funding.

Officer Equipment

163,000

The budget includes funding for a budget for ongoing supplies, safety and equipment for 25 officers, including the 15 COPS Grant hired officers. The department needs ongoing funding for safety equipment, uniform allowance and other items as provided for in the Police MOU, workers compensation, LTD premium and other supplies.

Social Worker Program Costs In the FY 2016 budget, the Council funded the addition of 8 Social Workers to establish a program to assist the Police Department with focusing efforts on work with the homeless, and others in need within the City. This funding will provide supplies, certifications/training, client software and utilities and facilities expenses related to the Social Worker program.	58,650
New Gang Position from Non-Departmental The budget includes a transfer of funding from Non-Departmental for Gang Prevention. This funding will cover the cost of 1 Gang Intervention Case Worker in the Police Department. While the position would reside in the Police Department, it would be managed by Choose Gang Free Utah.	70,000
Reduce Materials, Supplies and Services Budgets The budget includes a reduction in funding of materials and supplies, services, including the travel budget, and training.	-107,182
Fleet Fuel Savings Based on the EIA (Energy Information Administration) estimate of the cost of fuel for the next fiscal year, the Police Department's fuel budget is being decreased.	-299,500
Elimination of Vacant Position: Forensic Scientist Lab Supervisor The budget includes the reduction of a Forensic Scientist Lab Supervisor position. This position is currently vacant.	-87,364
Elimination of Vacant Position: Information Systems Supervisor The budget includes the reduction of an Information Systems Supervisor position. This position is currently vacant.	-85,580
Elimination of Vacant Position: Quartermaster Technician The budget includes the reduction of a Quartermaster Technician position. This position is currently vacant.	-69,240
Elimination of Vacant Position: Accountant IV The budget includes the reduction of an Accountant IV position. This position is currently vacant.	-97,532
Hold Vacant Positions: Three Social Service Case Workers The budget holds three Social Service Case Worker positions vacant for the entire fiscal year as the program continues to develop. Each position is funded at \$74,032 per year.	-222,096

One-time: Vacancy Savings

-150,000

The budget includes a one-time reduction in funding related to vacancy savings in the department. Officer attrition, retirements and delays in hiring recruit classes will provide this savings.

Increased Foot Patrol 100,000

The budget includes funding for overtime to increase foot patrols in community areas where increases are deemed necessary.

DIVISION MISSION STATEMENT

To uphold the mission and vision of the department, with a focus on leadership, community oriented policing, teamwork with the community and community outreach. To promote and improve relations between the department and community and to ensure department resources for gathering information, analyzing data, and disseminating intelligence to direct the goals and objectives of the operational units while working with the community to solve problems

DIVISION OVERVIEW

The Office of the Chief includes the Chiefs office, Public Relations, Outreach, and Peer Support. Public Relations works to promote and improve relations between the department and community and to ensure department responds to media inquiries about Department cases; proactive engagement of the community and media; coordinate communication within the Department, City, and outside agencies; community education about public safety issues and noteworthy items within the Department; recruitment outreach; community events; policy review and updates; social media outreach.

Community Outreach is working to improve community relationships and cultural understanding by participating in community forums, encouraging and supporting effective communication with the community and creating opportunities for community interactions to enhance understanding and trust.

Peer Support provides support services for employees and their families including education and wellness.

DIVISION MISSION STATEMENT

The Operations Bureau is responsible for responding to intelligence-led policing, coordinating tactical, investigative and analytical actions for operational solutions. These solutions include working as part of the community together with local, public, private, county, state and federal stakeholders to achieve community oriented goals that concentrate on quality of life issues which negatively impact the community.

DIVISION OVERVIEW

The Operations Bureau includes Patrol, K9, CIU, Motors, Bicycle Unit, Street Crimes, SWAT, HDU, Narcotics, Organized Crime,

Task Force, POU, Social Work, Homeless Outreach and Crisis Intervention.

Patrol: To provide prevention and suppression of criminal activity and effective response to victims of crime and other calls for service within the city. Patrol resources are deployed based on the Comp Stat process. Create community partnerships and improve community relationships through community oriented policing. Maintain surveillance while patrolling to prevent or detect criminal activity and traffic violations. Respond to dispatched calls and emergencies. Locate, apprehend and arrest law violators. Secure crime scenes and determine the need for additional and/or specialized Department units. Assist with criminal investigation activities, including the collection of evidence and the questioning of suspects, victims and witnesses. Prepare reports

and testify in court. Respond to and investigate traffic accidents; participate in traffic enforcement activities. Perform other routine police work as required, including but not limited to directing traffic, assisting stranded motorists, and assisting with crowd control.

K-9 Unit: Support the tactical and operational tasks of the organization with a certified K9 program.

CIU (Community Intelligence Unit): works with the community to solve problems. Participates in Community Council Meetings and Community Action Team meetings to share information and collaborate on community concerns.

Motor Operations: Provides traffic enforcement, special event coordination, DUI, crosswalk, bicycle, and distracted driving operations.

Community Bicycle Unit: Bicycle officers maintain a high profile in downtown business areas and other City hot spots to proactively enforce State and local ordinances. Based on intelligence-led policing, the Unit regularly focuses its efforts around Main Street, Gateway Mall, City parks, the Depot District, and Sugarhouse Business District. The result of collaboration and information sharing across the Bureau allows the Unit to make multiple misdemeanor and felony arrests to positively impact crime rates and quality of life issues for those who live, work and play in the City.

Street Crimes Unit: The Street Crimes Unit actively pursue and interrupt all forms of street level crimes. These types of crimes range from narcotic trafficking, robbery, and quality of life crimes that negatively impact troubled areas. The squad is deployable city-wide to respond to intelligence driven hot spots.

Narcotics: The Salt Lake City Narcotics Unit is focused on illicit drug problems in City hotspots including the downtown area and local neighborhoods. The squad manages informants, conducts surveillance, makes undercover purchases, and works closely with the community and various squads, as well as federal, state and local agencies, to effectively reduce drug distribution and related crimes. The Narcotic Squad works with multiple partners, including the Drug Enforcement Administration (DEA) Multijurisdictional Task Force, the Utah Pharmaceutical Drug Crime Project, and the community to mitigate effects of the illicit drug trade.

Organized Crime Unit: The Salt Lake City Organized Crime Unit utilizes a variety of investigative techniques. Operations that aim to interdict prostitution, underage beer sales, park lewdness, gambling, and other related crimes. Detectives inspect and educate establishments licensed to dispense alcohol in Salt Lake City. The Organized Crime Unit reviews licensing for sexual oriented businesses, escorts, taxi service providers, and dining establishments that serve alcohol for licensing issues.

Social Worker Partnership and Homeless Outreach Service Team: The Social Worker Partnership and Homeless Outreach Service Team works collaborative to provide a safe environment to for people to access individualized care, support and appropriate community resources. This team approach to homelessness facilitates open and honest interactions, strengthens relationships and builds opportunities for open communication between the SLCPD and Salt Lake

City's geographic and demographic communities. It also encourages standards of mutual respect and commitment to address problems and concerns.

Crisis Intervention Team: The Salt Lake City Crisis Intervention Team provides training and coordination, in partnership with local agencies to provide training on a local level, of specially trained CIT officers. These officers are certified in crisis management response and follow-up. The team conducts academies and other training for all SLCPD officers to ensure consistency with all CIT officers. The team also provides follow-up of mental health related issues encountered by SLCPD officers.

The Special Weapons and Tactics Team provides the department with a professional tactical team to deal with dangerous situations that require skills, training and equipment not available to first-line officers.

The Hazardous Devices Unit provides the department with the equipment and expertise to deal with explosives, explosions and other hazardous devices. The unit also conducts the follow up on assault cases throughout the City. The Hazardous Devices Unit (HDU) works collaboratively with other bomb squads throughout the state to effectively deal with the dangers posed by explosives and other hazardous devices. They accomplish this goal through the utilization of highly trained detectives, extensive knowledge and specialized equipment such as remote controlled robots.

Gang Unit: The Gang Unit's primary function is the suppression and investigation of gang involved crime. The unit also provides prevention, education, and intervention activities through a number of partnerships with the community and service providers. We are currently participating in the Safe Streets Task Force, the Metro Gang Task Force with the FBI and other local jurisdictions to interdict gang crime throughout the Salt Lake Valley due to its nexus to Salt Lake City.

Operations Initiatives/Accomplishments

- Tactically deploy resources through the use of "Comp-Stat" and other sources of intelligence.
- Work in cooperation with other Department, City and other governmental resources.
- Actively work to apprehend the subjects of detective and intelligence bulletins/ATL.
- Encourage and recognize proactive patrol efforts.

Operations Performance Measures

DIVISION MISSION STATEMENT

This bureau incorporates two divisions of support including Operations Support and Administrative Support. To provide professional, accurate and timely support services and resources within the Police Department and to the Community.

DIVISION OVERVIEW

Support Operations: Investigations, Crime Lab, Evidence, School Resource, Victim Advocates, Internal Affairs, Training, Gangs, CompStat and SLIC.

Investigations: Detectives are respon-

sible for the clearance and follow up on criminal cases with the intent to identify and arrest offenders by interviewing witnesses, interrogating suspects, conducting suspect line-ups, writing and executing search warrants, and for recovering and processing evidence. Detectives are responsible for the screening of cases, preparing the cases for trial and assisting in the prosecution of the offender in court.

Crime Lab: Crime lab documents crime scenes, gathers evidence utilizing the most modern scientific techniques available and forensic examination of evidence. This service must be available 24 hours per day, 7 days per week and 365 days per year.

Evidence: Evidence maintains the integrity of stored evidence, the safekeeping of found property, return property to the rightful owner, and properly dispose of property when storage is no longer warranted.

School Resource: School Resource Officers are responsible for juvenile related crime and crime on school property. They also provide outreach and intervention with the students in an effort to prevent students from becoming involved in the criminal justice system. Provide a deterrent for violent acts at the local schools and additional security when needed.

Gang Unit: Gang Unit and Outreach is responsible for prevention, suppression and investigation of gang involved crimes. This includes participating in the Metro Gang task force, and the Safe Streets Task Force. Gang detectives and outreach will also conduct intervention, education, and prevention presentations throughout the community and local schools.

Victim Advocates: Vicitim Advocates provide support and services to victims of crime including crisis intervention support, providing information, referrals, assisting through the court processes. Victim Advocates also act as liaisons to law enforcement, prosecutors and other agencies to assist victims in all crime categories. They also provide training and education to community groups and individuals.

Internal Affairs: Internal Affairs is primarily responsible for administrative investigations regarding department employees' performance and conduct including all officer involved critical incidents, firearms discharges, vehicular pursuits and vehicle accidents. Internal Affairs is responsible for maintaining a confidential and comprehensive central index for all complaints received by the Department. One of our goals is to link the findings of internal investigations to the employees training needs. If the finding of the investigation shows a heart set, skill set, mindset or tool set deficiency, the Training Unit will be advised of the need to facilitate additional training or equipment.

Training: The Training Unit is responsible for producing high quality training to our employees. Always looking for national, state and local best practices in an attempt to develop the police departments employees continued growth. Provide basic, intermediate and advanced training to all employees of the police department. They provide basic, high quality Police Officer Standards and Training (POST) Academy and Lateral Academy to all new sworn employees to the police department. They facilitate the department's Career Path program, which includes; the documentation of and verification of specialized skills that apply to the employees' growth and earning potential.

CompStat and the Salt Lake Information Center (SLIC): is responsible for gathering information, analyzing data, and disseminating information to direct the goals and objectives of the operational units.

Support Operations Initiatives/Accomplishments

Ensure every SLCPD officer demonstrates the proper heart set, mindset, skill set and has the appropriate tools to save lives, protect property, ensure citizen's rights, and gain the trust and respect of our community as we work together to solve police problems.

Administrative Support: Logistics and Technology, Facilities, Records, GRAMA, Quartermaster, Human Resources and Payroll.

Logistics and Technology: Includes management of Field Support Equipment and collaborates between units to share technology and to evaluate, repair, upgrade and train the department in the best practices and uses of the technology. They work with City Council, IMS, Facilities, EOC, Fire and Dispatch 911 to integrate core police related technology used and shared by these groups such as the Computer Aided Dispatch, Records Management, Radio, 911, A/V and Building Systems. They work collaboratively with IMS to ensure that the best solutions for hardware/software are being purchases. Research, Develop, Test, Train and Implement new technology for all aspects of the Police department including computers, software, A/V Equipment and how all those systems integrate in Police Buildings and Vehicles. Collaborate with the training unit to provide ongoing training to improve on our capabilities to efficiently use technology. Coordination with fleet to manage department vehicles.

Facilities: Responsible for maintenance coordination of all Police Facilities including the Public Safety Building, Pioneer Precinct, Crime Lab and Evidence, Large Vehicle garage, Training sites, Substations and the Community Connection Center.

Records and GRAMA maintains the RMS (Records Management System) and oversees that the records are as complete and accurate as possible. Records serves the public, private companies, media, local agencies, other city departments, state agencies and federal agencies by fulfilling: GRAMA Requests, expungements, fingerprinting, no trespassing affidavits, visa clearance and background checks. Records provides the following services for the Police Department by maintaining records and user access, transcriptions of data, training on RMS, validation of NCIC entries, researching and retrieving reports GRAMA Requests

Quartermaster: The Quartermaster is responsible for the servicing, maintenance, purchasing and issuance of all necessary equipment, uniforms, and supplies used by both this and other city departments. Equipment and supplies include ID cards, keys, police duty gear and equipment such as body cameras, Tasers, safety gear, and radios, as well as office supplies and other consumables.

Human Resources and Payroll is a support group for the police Department which provides compliance with all city hiring policies and practices and facilitates and maintains a diverse and qualified full staffing of sworn and civilian personnel.

Administrative Support Initiatives/Accomplishments

To provide professional, accurate and timely support services to our customers. Those services include: employee relations, facilities, fleet, property, payroll and compensation, accounting, budget preparation/reporting and special project assistance.

Administrative Services Unit is a support group for the Police Department, as such our purpose, function and goal is to provide assistance to the Department and its officers in a professional, timely and responsible manner while staying within the allotted budget assigned to the Department.

Support Operations & Admin Support Performance Measures

Department of Public Services

The Department of Public Services provides many of the direct, day-to-day services Salt Lake City residents and visitors receive, including the repair and maintenance of streets, park maintenance, open space land management, golf course operations, snow removal, graffiti removal, tree maintenance, street sweeping, traffic signs and signals maintenance, special and city event planning, youth activities, school crossing guard services, and parking enforcement. The Department also provides services to customers internal to the City, such as maintenance of City buildings and City vehicles and equipment. The Department has multiple fund sources, including the General Fund, the Fleet Management Fund and the Golf Fund. The Department is comprised of 375.4 full-time equivalent positions (FTE's), including 298.75 FTE's funded by the General Fund, 34.65 FTE's funded by the Enterprise Fund (Golf), and 42.0 funded by Internal Service Fund (Fleet). The Department is organized in four divisions, including the Office of the Director, Operations, Administrative Services and Finance & Accounting.

Changes discussed below represent adjustments to the FY 2016-17 adopted budget

Personal Services Base to Base Changes

576,745

Base to base changes compare personal services costs adopted as part of the FY 2015-16 budget to actual personal services costs paid during the first pay period of the calendar year 2016. Changes in this category incorporate changes in personal services at the individual staff level, including pay adjustments, reclassifications, career ladders and benefits changes that happened in the first part of the current fiscal year.

Insurance Rate Changes

158,853

This figure reflects an increase in the cost of insurance for the Department of Public Services as described in the Budget Summary section of the Mayor's Recommended Budget Book.

Salary Changes 498,493

This increase reflects the Department of Public Services portion of the salary increase described in the Budget Summary portion of the Budget Book.

BA #2: Clean Team 34,000

In budget amendment #2 of FY 2016, funding was provided for additional supplies for the Clean Team, tasked with keeping the sidewalks around the Homeless Shelter area clean. Funding in the amendment was \$20,000 for a 7 month period. A total of \$34,000 in funding will be needed for an entire year.

BA #3: Portland Loos 17,565

In budget amendment #3 of FY 2016, funding was provided to cover the cost of renting and servicing portable toilets in areas servicing homeless individuals. The budget includes continued funding for this need.

BA #3: Open Space Restoration

62,500

In budget amendment #3 of FY 2016, funding was provided to add seasonal staff to manage open space restoration, establishment and maintenance at four sites around the City. These sites include the Wasatch Hollow Preserve Restoration Site, the Fred and Ila Rose Fife Wetland Preserve Restoration Site, the Lee Charles Miller Bird Refuge Restoration Site and the Jordan River Trailside Restoration Site. The amendment provided \$30,000 in funding that was coupled with savings from a vacant Open Space position to cover the full cost. In FY 2017, a total of \$62,500 will be necessary to continue funding the seasonal staff.

Policy Issues

Transfer Unity Center to Public Services - Personnel Costs

354,288

The budget includes the transfer of the positions and the personal services costs of the full-time employees of the Sorenson Unity Center from the Department of Community and Neighborhood to the Department of Public Services, to be managed by the Youth and Family Program. During the past year it has been determined that the strategic direction of the Unity Center's programs and operations more closely align with that of the Department of Public Services. A number of benefits of this move have been identified, including; Clearly aligning administrative functions with the missions and focus of the department/divisions, clarifying the associated roles and eliminating perceived overlap of programming, among others.

Transfer Unity Center to Public Services - Part-time Personnel 102,600 The budget includes the transfer of the positions and personal services costs of the part-time employees of the Sorenson Unity Center from the Department of Community and Neighborhood to the Department of Public Services. **Transfer Unity Center to Public Services - Non-Personnel Costs** 118,320 The budget includes the transfer of the non-personnel costs of the Sorenson Unity Center from the Department of Community and Neighborhood to the Department of Public Services. Remove One-time: Mobile License Reader -80,000 In FY 2016, one-time funding was budgeted for the purchase of new hardware/ software for an additional Mobile License Plate Recognition (MLPR). This one-time need has been fulfilled and funding is being reduced. Remove One-time: Clean Air Initiative -162,500 During fiscal years 2015 and 2016, two stages of funding were budgeted to replace the City's 2-cycle engine machines, grass edgers, lawn mowers, hedge trimmers, etc, with 4-cycle engines. Funding was transferred from the Refuse fund for this cost. This need has been fulfilled and funding is now being reduced from the budget. **Remove One-time: Urban Forestry** -222,500 In FY 2016, one-time funding was budgeted to increase the amount of contractual tree pruning done on the City's urban forest. This funding allowed for one yearround contracted pruning crew to prune approximately 1,500 trees. A portion of the funding was used to plant an additional 250 trees. The need has now been fulfilled and funding is being reduced from the budget. Remove One-time: Off-Leash -10,500 In FY 2016, one-time funding was budgeted for pilot off-leash dog areas. The funding covered supplies and operating costs for one area per Council district. This one-time need has been fulfilled and funding is now being reduced. **Remove One-time: Clean Team** -14,000 In FY 2016, one-time funding was budgeted for the Downtown Clean Team program to bolster the existing \$85,000 in funding and show support for the program and the Downtown Alliance, who operates the program. Since the intent of the Council is that the Downtown Alliance find partners and other funding sources to

maintain the program, this funding is being reduced.

Electricity Costs - Rate Increase

350,000

The budget includes funding for the increased cost of electricity due to inflation.

Adjustment to Shared Office Support at Streets/Sanitation

21,000

The Refuse Fund's Sanitation Operation's office support needs have changed over time. It has been determined that they no longer need a portion of an existing Office Facilitator's time. Funding for, and use of this position has been shared between Streets and Sanitation. Since Streets has sufficient work to fully utilize the Office Facilitator position, .35 FTE and the associated \$21,000 in funding is included in the budget.

Transfer Open Space Manager from Refuse Fund

104,631

Funding has been included to cover the cost of transferring the Open Space Manager from the Refuse/Sustainability fund to the General Fund. The cost of the Open Space Manager has been funded through the Refuse/Sustainability fund for a number of years. The Refuse/Sustainability fund's revenues have been declining, primarily due to declines in the ongoing monthly dividend from the landfill. Due to this decline in revenue, the fund no longer has the capacity to support the cost of this position.

Transfer Tree Planting from Refuse Fund

44,200

Funding has been included to transfer the cost of ongoing tree planting from the Refuse/Sustainability fund to the General Fund. Due to declining revenues in the Refuse/Sustainability fund, it no longer has the capacity to support this function.

Parks Ongoing Maintenance

180,000

The budget includes funding for ongoing parks maintenance. In the past, this maintenance has been largely funded through CIP. This is an effort to provide more of the necessary funding through the General Fund. These funds will be used to address parks maintenance projects that fall between \$5,000 and \$50,000. These projects are small enough that they are precluded from the CIP application process due to the \$50,000 minimum threshold, but are often too expensive to fit within the Parks and Public Lands' deferred maintenance budget.

One-time: Parks Ongoing Maintenance (Donation Fund Transfer)

70,000

The budget includes funding for parks maintenance through a one-time transfer from donations received. It is anticipated that funding will shift to the General Fund next year.

Facilities Ongoing Maintenance

250,000

The budget includes funding for ongoing facilities maintenance. In the past, this maintenance has been largely funded through CIP. This is an effort to provide more of the necessary funding through the General Fund. These funds will be used to address facilities maintenance projects that fall between \$5,000 and \$50,000. These projects are small enough that they are precluded from the CIP application process due to the \$50,000 minimum threshold, but are often too expensive to fit within the Facilities' deferred maintenance budget.

Building Lease Discontinuation

-265,000

Since the completion of the remodel of the City and County Building, the City has made a lease payment to Salt Lake County for use of the building's first floor. Property exchange agreements made between the City and Salt Lake County have brought an end to this lease requirement, and the annual lease payment will be discontinued as of fiscal year 2017. As such, funding for the annual cost of the lease is being removed from the budget.

Land Lease Discontinuation

-38,115

The land lease agreement for a parcel of land at the City's water park (formerly Raging Waters, now Seven Peaks SLC) previously owed to the County will be discontinued as of fiscal year 2017. Funding for the annual cost of the lease is being removed from the budget.

Fleet Fuel Savings

-148,081

Based on the EIA (Energy Information Administration) estimate of the cost of fuel for the next fiscal year, the Department of Public Services' fuel budget is being decreased.

Elimination of Impound Lot with the Transfer of Positions to Parking Compliance

-502,587

The budget Includes the elimination of the City's Impound Lot and the reduction of 3.0 vacant FTEs. The remaining 7.0 FTEs will be moved to other areas within Public Services, primarily Compliance. The impound function will be transferred to state contracted vendors. One FTE will be moved to a community engagement role within the department's administration. The remaining 6.0 FTEs will move to Compliance to fill State tow coordination, Parking Enforcement and Customer Relations positions. More detail on the overall impact is available in the Budget Summary section of the book.

party (Downtown Alliance).

DEPARTMENT OF PUBLIC SERVICES

One-time: Facility Maintenance Team Vehicle Savings (Fleet, Non-Dept) -37,500 The budget includes combining one Lead and two Building Mechanics into a Facility Maintenance Team. This team should prove to be more efficient and cost-effective by coordinating, travelling and working together on work orders. One-time savings of \$37,500 will be realized with the sale of surplus vehicles. One-time: Energy Savings from Audits, Recommissioning -50,000 In the FY 2016 budget, an Energy Facility Commissioning Agent was funded. This position is responsible to coordinate, develop and implement an enhanced commissioning program, energy audit program, renewable energy program and Energy Star Certification program, among others, in new and existing City buildings. It is anticipated that the City will realize savings in the range of \$50,000 due to the implementation of these programs and the associated improvements to City building efficiencies. **Parks, Field and Turf Care Reduction** -82,500 The department's Parks & Public Lands program had previously received \$300,000 to improve turf quality at general use fields, among other things. The budget includes a reduction that will roll back a portion of the maintenance and turf care to previous year levels. **Forestry Reductions (Contractual)** -80,000 The budget includes a reduction in funding for contractual tree pruning. **Trailer Portable Bathrooms Pilot** 200,000 The budget includes funding for a pilot project to provide more restroom facilities in the Rio Grande area. This funding will be used toward staffing needs to monitor and clean the new portable restrooms, as well as the "Portland Loos". Funding is contingent on securing a \$75,000 match requirement. **Urban Forestry Funding** 75,000 The budget includes funding intended to assist with reforestation efforts. This funding will provide for the planting of approximately 273 trees. **Additional Clean Team Funding** 25,000 This increase is intended to improve cleanliness in the Homeless Shelter / Rio Grande area. 125,000 **Green Team Funding**

Funding has been included for implementing a new opportunity for training and personal development of individuals challenged with homelessness. This effort, also referred to as a new "urban farm program", will be managed through a third

DIVISION MISSION STATEMENT

The John W. Gallivan Center and Events Program is responsible for operating the Gallivan Utah Center, as well as programming community and special events at the Gallivan Center and throughout the City.

DIVISION OVERVIEW

The programming and maintenance of the Gallivan Utah Center is intended to include all aspects of activating an urban plaza, including, but not limited to:

• Organizing, scheduling, promoting, producing, staging, programming and advertising activities and events that

take place at the Plaza. These events incorporate art and music festivals, parties, fundraising events, book fairs, art shows, concerts, competitions, holiday festivals, cultural programs and festivals, adult seminars, education series, concerts, theatrical, dance and other performing arts, film series, and youth and family events.

- Providing ample security, clean-up and repair for the Plaza both as a facility and in relation to scheduled events and activities in order to sustain a safe and welcoming environment.
- Operating the ice rink and skating lessons at the Gallivan Utah Center.

- Facilitating the rental of the Gallivan Utah Center by outside parties.
- Developing earned-income revenue sources and fundraising activities to support Gallivan Events.
- Provide direction, guidance and administration for the Gallivan Utah Center Owner's Association (GUCOA).

The Gallivan and Events Program is also responsible for developing and producing community and City programming, as well as coordinating and managing the activities and permitting process related to commercially-related special events, free expression activities and filming requests within Salt Lake City limits as per City Ordinance.

-------------------------	-------	-------	-------	-------

DIVISION MISSION STATEMENT

The Compliance program strives to provide firm, fair, and consistent service that equally balances enforcement of parking ordinances, traffic & pedestrian safety, parking accessibility, and customer service to all whom live, work, and visit Salt Lake City.

DIVISION OVERVIEW

With 30 full-time equivalent positions (FTEs) and 100 hourly employees, the Compliance Program is responsible for providing the efficient and effective delivery of the following sevices:

- Enforcing right of way issues throughout the City
- Enforcing idling violations
- Enforcing food cart operations
- Crossing schoolchildren at state required intersections

<u>Compliance Initiatives / Accomplishments</u>

This budget includes the elimination of the City's Impound Lot services. The impound function will be transferred to state contracted vendors.

DIVISION MISSION STATEMENT

The Facilities program is qualified team of service professionals charged with maintaining and sustainably preserving City owned facilities and business districts to the highest standards. With an infusion of excellence, we strive at all times to provide efficient, quality service and to promote and support a comfortable, clean and safe environment for the citizens, visitors, businesses and employees of Salt Lake City.

The Facilities program has responsibility for the following major areas:

• Building Services, including Spring Mobile Ballpark, provides operations, as well as maintenance and repairs of the City and County Building, the Public Safety and Auxiliary Buildings, Pioneer Police Precinct, the Public Services Maintenance (Fleet, Streets, and Sanitation) Complex, the Parks and Public Lands Program building, the Unity Center, Plaza 349, the Salt Lake City Courts Building, Smith's Ballpark (baseball stadium), the Tenth East and Westside Sunday Anderson Senior Citizen Centers, the Art Barn, 7th South Warehouse, the 600 South Complex, the central boiler plant, Fisher Mansion, 955 Maintenance and Storage Warehouse, Warm Springs Building (former Children's Museum), Library Square Parking Structure, Liberty Conces-

sion building, thirteen fire stations, eight golf course buildings, the Liberty and Dee Glenn tennis buildings, the YouthCity clubhouse at Liberty Park, Fairmont Park, Leonardo, Ottinger Hall and other miscellaneous buildings.

• The Business District Maintenance Section provides an ever expanding role in graffiti removal, landscaping, irrigation repair, sidewalk maintenance and cleaning, snow removal and deicing, seasonal and event promotions, street furniture maintenance, bus stop maintenance, water feature maintenance, litter control and crosswalk maintenance in the Central and Sugar House Business Districts.

Facilities Initiatives / Accomplishments

This budget includes the funding of \$250,000 for ongoing facilities maintenance, previously funded through CIP.

Total Fleet FTEs 41.00 42.00 42.00 42.00

DIVISION OVERVIEW

The Fleet Fund operations will continue to be evaluated. Administration, warehousing, operational fluids, tires, replacement purchases, vehicle sales, and an aggressive vehicle replacement plan will all be examined and modified to maximize efficiencies and savings. The fund will continue to see an increase in cost due to the aging fleet (General Fund vehicles) and underfunded replacement that results in more maintenance costs and a reduction in resale value.

Fleet will continue to analyze fuel usage and implement aggressive reductions in fuel con-

sumption, tailpipe emissions, and vehicle inventory. In FY13-14 Fleet created a loaner pool of thirteen (13) Prius hybrids that replaced thirty two (32) regular unleaded gasoline engines. During FY14-15 Fleet added (2) electric vehicles, (2) passenger vans, and (1) pick-up truck to assist in the City's other loaner pool needs. In FY15-16 Fleet added three new loaner pool locations with electric vehicles only and added (9) electric vehicles to the loaner pools. This completely reduced tail pipe emissions for these vehicles. Fleet management will continue to monitor and evaluate for additional savings. Vehicles will be reassigned to departments based on annual usage. Low usage and high emission vehicles will be sold.

This budget includes a transfer from the General Fund in the amount of \$5,000,000 to the vehicle replacement fund, an increase of \$50,000 from FY15-16. This transfer will go toward existing debt service, new debt service, and/or cash purchases.

A focus on strategic vehicle maintenance in FY15-16 has resulted in savings. Fleet staff will continue to evaluate daily operations in other areas to discover possible savings. The FY16-17 budget includes positive impacts from that focus. Improvements to the heavy tire replacement process will continue to bring substantial savings. The implementation of a minimally-used onsite tire storage program will maximize tire life. Fleet has also added a state-of-the-art alignment machine that extends passenger vehicle tire life and reduces lost productive time. The impacts from this have been immediate. The department has installed a car wash monitoring system to determine better utilization of the car wash facilities. On average since December 2014, there have been 1,600 car washes monthly. Prior to the implementation of the car wash monitoring system and Fleet's focus on overall operations, it was estimated that one car wash would cost \$11.00. Since the monitoring was initiated and processes altered, the price per car wash has dropped to \$2.54. With the FY15-16 budget Fleet added an additional eight (8) wireless lifts. After the implementation of eight (8) of the same lifts in each of the prior two fiscal years, Fleet increased the efficiency of repairs, and created a much safer work environment.

Fleet will continue the preventive maintenance program that was implemented during FY2012-13. After two years of implementation, operational fluid drain time intervals have greatly improved, more than doubling the fluid drain intervals. Fleet has also invested in two onsite oil analysis machines, reducing lost productive time and consumable expenses considerably.

Fleet Replacement uses an expanded point system to determine the optimal use of replacement funds based on life expectancy, miles/hours expectancy, and maintenance/repairs versus acquisition cost life-to-date. This expanded point plan more accurately identifies the most critical units for replacement. At the time of budget preparation, there were three hundred and sixty (360) vehicles on the list for replacement with a cost in excess of \$20 million. Future maintenance and repairs will in part be based on the ongoing use of the expanded point plan, thus reducing unneeded repairs, especially on units soon-to-be replaced.

Total Golf FTEs 40.65 40.65 34.65

DIVISION OVERVIEW

This budget includes ongoing operations at seven fully-functioning golf courses. Since the Wingpointe course was closed during fiscal year 2015-16, this FY16-17 budget removes everything except \$61,417, funded by a transfer from the General Fund, for basic turf maintenance while a final decision is made regarding the future of this property. Additional funding for water, wildlife control, and basic course maintenance costs (not as an operating golf course) will covered by the budget of Salt Lake City Department of Airports once the property is turned over completely to the Airport.

The revenue budget reflects a \$.50 increase for carts effective January 1, 2017. This new fee will generate an estimated \$44,603 (\$89,206 over a full year) in additional revenue. The new demand-based fee structure (implemented January 1, 2016) was projected to generate \$388,522 over a full year in additional revenue. The new demand-based fee structure sets higher rates during high demand times of the week and season and lower rates during historically low utilization periods. The Fund's revenue budget of \$7,987,344 includes \$326,000 of the \$1 per nine-hole round CIP fee, as implemented in January 2012. Projected total rounds for FY16-17 are estimated to drop to 386,500 in large

part due to Wingpointe closing. The 386,500 includes a conservative estimate of 6,500 rounds previously played at Wingpointe that would be retained by customers choosing to move to Salt Lake City's other golf courses.

The budget for personal services expense includes an increase of \$94,046 after taking into account COLA and other salary adjustments. Furthermore, the personal services budget has a remaining reduction of 5 full-time positions at Wingpointe (\$174,809) and 1 additional Golf Course Maintenance Worker (\$68,868) through attrition.

Regarding supplies and services costs, the budget includes \$40,000 increase in marketing strategy for initiatives: Demand Pricing, Frequency-Escalating Membership Programs, Responsive Technologies, and Tactical Social Media Community Engagement.

The capital outlay budget of the Golf Operations Fund includes \$200,000 for emergency needs related to items such as equipment, facilities, and infrastructure. The FY16-17 budget also reflects an increase in debt service of \$84,398 for golf carts at Glendale, Forest Dale and Rose Park and \$33,371 for maintenance equipment.

The Golf CIP Fund budget includes ESCO debt service (partial, first-year payments) of \$303,773.

The budgeted cash flow for FY16-17 is \$16,198 in total, which includes a negative \$6,029 in the Golf Operations Fund and a positive \$22,227 in the Golf CIP Fund.

	operations rund and a positive \$22,227 in the Gon Cir rund.						l

DIVISION MISSION STATEMENT

The Parks & Public Lands Program enhances the livability of the urban environment through a diverse network of natural open spaces, recreational opportunities, park facilities, a cemetery and urban forests, and ensure that the resources under our management are carefully stewarded for future generations.

DIVISION OVERVIEW

With the support and direction of administrative and planning staff, six areas of service deliver the Parks & Public Lands mission:

- Parks maintain in excess of 170 unique parcels, including 1 regional park, 23 community parks, 23 neighborhood parks, 30 mini parks, 15 miscellaneous sites (Public Safety Building, Plaza 349, etc.) 11 green belts and 70 islands and medians.
- Open Space maintain 1453 acres of land and 25 miles of trails in the City's foothills, the Jordan River, and along the River's tributary streams.
- Park Planning make park and public land improvements, increase the availability of recreational opportunities and to provide planning, analysis, advice, construction coordination and acquisition in a community-based manner.

- City Cemetery provide stewardship for the gravesites of over 124,000 individuals and 120 acres of open space and historical infrastructure, some dating back to 1847.
- Urban Forestry -maintain over 80,000 public trees with skilled arborists that preserve and extend the lives of trees located along city streets, trails, and throughout parks and city open spaces.
- Regional Athletic Complex With 16 sand-based multi-use fields and over 100 acres of land, the Regional Athletic Complex provides a state of the art facility for youth and adult sports teams.

Parks and Public Lands Initiatives / Accomplisments

Regional Athletic Complex first full season of operations: Notable events at the RAC included the World Rugby Super Series, a ten day event with team USA, France, England and Canada; Real Salt Lake State Cup, 120 teams from across the state; La Roca Cup, a tournament hosting 243 Utah soccer teams; North American Rugby Invitational; Region IV Soccer Presidents Cup and US Lacrosse Women's Collegiate Division II Championships.

Significant projects completed in 2016:

- Design of Historic 11th Avenue Sandstone wall. Construction will begin in 2017.
- Redwood Meadows Park complete
- Fairmont Park: New playground installed, dog park will be complete in November, design for pond restoration and pickle ball courts.
- Lindsey Gardens playground and ADA improvements complete in December
- City Cemetery restrooms complete
- Wasatch Hollow Preserve riparian restoration complete
- Poplar Grove ADA playground improvements complete
- New H-Rock trail construction complete
- Initiated new nature engagement programs SLC Neighborhood Naturalist and OutdoorExplore SLC

Significant Land Acquisitions:

- Hell Canyon; 144.8 acres of open space land north of Ensign Peak
- 1250 South 900 West; .35 acres adjacent to and now part of the future development of the Three Creeks Park at this same location
- Rose Crest & 1700E; .63 acres in two locations adjacent to the Wasatch Hollow Preserve. These will serve as a neighborhood access points and expand the restored area.
- Genessee Trailhead; .43 acres adjacent to 900 South River Park on the Jordan River.

Total Streets FTEs	90.05	90.05	90.05	90.40

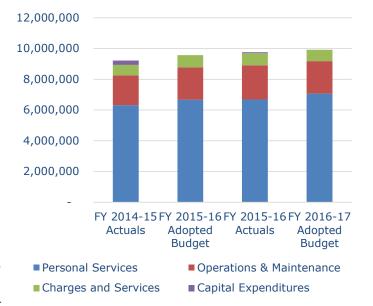

DIVISION MISSION STATEMENT

The Streets program enhances economic vibrancy and quality of life in Salt Lake City by maintaining roads and related infrastructure in a safe and effective manner.

PROGRAM OVERVIEW

The Streets program has responsibility for the following major areas:

- The asphalt road maintenance crews perform maintenance repairs and surface treatments on 1,858 lane miles (approximately 118 million square feet) of City-owned road
 - ways, including activities such as chip, fog and slurry seal surface treatments, crack sealing, level patching, pothole repair and asphalt surface milling.
- The concrete crews upgrade ADA ramps, and under 50/50, 100% concrete replacement program repair both residential and commercial sidewalks, drive approaches and curb/gutters.
 On a limited basis, some sidewalk trip and fall issues are remediated by grinding efforts.
- The snow and ice control crews provide Salt Lake City with a safe, reliable and efficient travel network for all modes of transportation during adverse weather conditions. Crews control snow and ice from 1,858 lane miles (approximately 118 million square feet) of City-owned roadways within 36 hours of a storm.
- The traffic signals group maintains, repairs and programs all of the signals, crosswalks and electronic control devices in Salt Lake City not including State owned roads.
- The traffic markings group uses specialized painting equipment to apply over 13,500 gallons

- of paint and 68,950 pounds of reflective beads annually (based on a 2 year average).
- The traffic signs group maintains signs that need to be prioritized for maintenance annually. This work group manufactures and installs all City signs.
- The Streets Response Team provides year-round, after hours coverage for the City and Public Service and provides services which include emergency response, refuse and street sweeping special event support services, and providing live response and support for calls coming from the public and our police and fire departments.
- The City street sweeping crews keep dirt, leaves and pollutants from reaching underground storm drainage lines and provides a clean, well presented City. This program responds to routine, emergency and special request sweeping.

DIVISION MISSION STATEMENT

The Youth & Family program fosters positive youth development in Salt Lake City by providing out of school time opportunities for social, emotional, skills, character, and citizenship development in an inclusive and caring environment.

DIVISION OVERVIEW

The Youth and Family Program is made up of the following services:

After-school and summer services with outof-school activities year-round at a number
of sites throughout the City. Elementary and
middle school-aged children participate in
a structured environment, which provides
them exposure to art, technology, recreation, health, cultural diversity and community service.

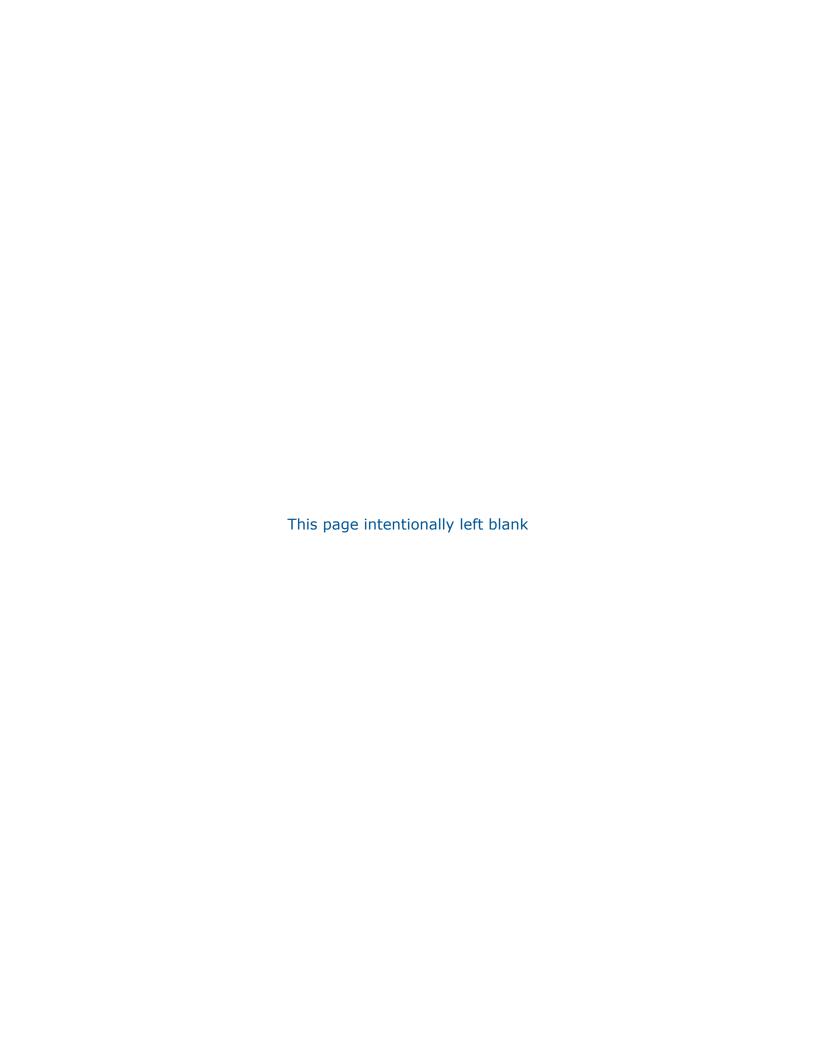

- Leadership and community service activities that engage high-school aged youth in city government, and provide a meaningful venue for participation in the policy process.
- Provides apprenticeships, training, skills, mentoring and experience to 13-19 year olds resulting in an increase in the participant's confidence and ability to succeed in the workforce.

• STEM Environmental Education in partnership with the Tracy Aviary and the Sorenson Unity Center, focusing on career exploration pathways in science, technology, engineering, and math (STEM) with a particular focus on environmental education.

Youth & Family Initiatives / Accomplishments

This budget includes the transfer of the Sorenson Unity Center services from the Department of Community and Neighborhood.

Department of Public Utilities

Serving Our Community, Protecting Our Environment

MISSION STATEMENT

To serve our community and protect our environment by working to continuously improve water, wastewater, stormwater and street lighting services in a sustainable manner.

Our Values are: Service, Leadership, Integrity, Flexibility, Efficiency and Stewardship

Our Principles are:

- Value our customers, both internal and external. Solicit and be open to their opinions, their concerns and their suggestions.
- Serve our community efficiently and effectively in a manner which exceeds their expectations.
- Create and foster a positive work environment where new ideas from employees are encouraged, listened to and acknowledged.
- Foster open, clear and timely communication among our workforce, stakeholders and customers by listening attentively, asking questions and interacting appropriately.
- Protect the public interest, and through our actions, integrity and accountability maintain a strong foundation of trust with our community.
- Conduct ourselves in a safe and professional manner and take an active interest in the wellbeing of our community.
- Treat each individual with dignity and respect.
- Anticipate and be ready to adapt to future trends and needs.
- Maximize environmental, social and economic benefits, considering the short- and long-term benefits and impacts of our decisions.
- Be accountable for our actions and results, successes and failures.
- Align our service and performance with the goals identified by our City Administration, Council and general public.

The Salt Lake City Department of Public Utilities (SLCDPU) is comprised of four enterprise funds Water, Sewer, Stormwater, and Street Lighting. SLCDPU's work within each enterprise is vital to the Salt Lake Valley's public health, environment, economy, and quality of life. SLCDPU implements fees approved by the Salt Lake City Council in order to provide revenue to operate each utility. The fee schedule for Salt Lake City includes a tiered water rate structure, sewer, stormwater, street lighting, and impact fees. SLCDPU has an annual budget of \$30-50 million, 392 employees, and critical infrastructure, including three water treatment plants, one water reclamation facility, and thousands of miles of water, stormwater, and sewer conveyance lines. Our employees are skilled, and include a diversity of disciplines, such as engineering, environmental science, maintenance, treatment plant operations, finance, accounting, public policy, and government administration. Customer service, collaboration, and public engagement are key priorities for our employees.

Current major policy initiatives and efforts SLCDPU is involved with include:

- Mountain Accord
- Nutrient Rule implementation at the Wastewater Reclamation Facility
- Utility extensions to service the new state prison
- Capital improvements and asset management across all SLCDPU utilities and enterprise funds

WATER UTILITY OVERVIEW

The Water Utility is responsible for delivering reliable, safe drinking water to more than 340,000 customers within a 134 square mile service area, including Salt Lake City and the east bench of the Salt Lake Valley. The water distribution system is very large and complex-1,299 miles of distribution lines covering over 50 pressure zones. The majority of the water supply (-50-60%) to SLCDPU's service area emanates from four key Wasatch watersheds - City Creek, Parleys, Big Cottonwood, and Little Cottonwood Canyons. Salt Lake City's water sources also include stored water in the Provo River system and groundwater. Water from the Wasatch Mountain watersheds is treated through three City-owned water treatment facilities (City Creek, Parley's, and Big Cottonwood Canyon) and through the Metropolitan Water District of Salt Lake and Sandy treatment plant.

SLCDPU is a public water supplier as defined by the Federal Safe Drinking Water Act, and must comply with water quality regulations to protect public health. To ensure water quality and meet federal drinking water requirements, SLCDPU monitors, samples, and analyzes source waters,

the treatment processes at the facilities, and the finished drinking water at locations spread through the distribution system. It also provides oversight and monitors connections within the system through a cross connection program.

In addition, SLCDPU has authority for watershed and water rights protection granted by the Utah Constitution, state statutes, and federal law. The Utah Constitution specifically addresses the authority of municipalities to own and develop water rights, and as a City of the First Class, Salt Lake City is granted extraterritorial jurisdiction to protect water from pollution where waterworks and water rights are held. This jurisdiction includes protection of the entire watershed. In the 1990's, the Salt Lake City Council enacted watershed regulations (found under Chapter 17.04and 17.08 of the Salt Lake City code) to protect its municipal water supplies. To this end, SLCDPU works collaboratively with federal, state, and local agencies and the public to manage watersheds and source water areas.

Ongoing Water Utility Programs, Operations, and Efforts:

- Watershed and groundwater protection programs
- Water quality and treatment programs
- Water conservation program
- Long term water supply planning efforts
- Water rights administration
- Water distribution operations
- Climate change planning

SEWER UTILITY OVERVIEW

The Sewer Utility manages wastewater throughout Salt Lake City's corporate boundaries. The Sewer Utility is comprised of two functions: collection and treatment, both regulated under the Utah Pollutant Discharge Elimination System (UPDES), which is a program under the State and Federal Clean Water Acts that regulates discharges into water ways.

The sewer collections group maintains over 650 miles of pipe, 13,000 manholes, 49.600 service connections, and 35 sewer lift stations that keep waste moving despite changes in elevation. The system is a very harsh environment

with corrosive and noxious gases, tree root intrusion, groundwater infiltration, and hazardous sewer waste. More than 50 percent of the system is more than 89 years old.

The Salt Lake City Water Reclamation Plant treats tens of millions of gallons per day of wastewater from the sewer collection system. The employees of the facility have com-

mitted to a mission statement to "cultivate and preserve a skilled, professional, and diversified staff that achieves the protection of the public health and environment through optimum performance of its facility. "The Plant has undergone numerous upgrades and modifications since it began operation in 1965. It now operates as a Trickling Filter/Activated Sludge Facility that has achieved perfect compliance with the Utah Division of Water Quality (DWQ) and UPDES for almost two decades. The Plant has received recognition by the National Association of Clean Water Agencies (NACWA) for each of the past 21 years with a Peak Performance Platinum Award. The Reclamation Plant also includes a pretreatment program to meet requirements of the Clean Water Act, which regulates discharge of pollutants into waters of the United States and quality standards for surface waters. These programs regulate the quality of wastewater treatment for the protection and benefit of our residents.

New Utah DWQ sewer regulations require treatment improvements now to achieve phosphorus limits by 2020, with nitrogen and ammonia rules anticipated to require improvements to achieve regulatory compliance by 2029. In addition ongoing upgrades to the remaining 50 year old sewer treatment plant will require rate changes.

Ongoing Sewer Utility Programs, Efforts, and Operations:

- Pre-treatment Program
- UPDES and Clean Water Act compliance
- Sewer conveyance and treatment plant operations
- Long term capacity planning
- Public education and outreach

STORMWATER UTILITY OVERVIEW

The Stormwater Utility is responsible for monitoring and maintaining the quality of stormwater discharge within incorporated Salt Lake City, and for managing runoff to mitigate flooding. The Stormwater Utility works to ensure that the stormwater discharges, as well as the creeks and rivers they drain to are as pure as possible, and that they adhere to the Federal Clean Water Act and the Utah Pollution Discharge Elimination System (UPDES) permit for Municipal Separate Storm Sewer Systems (MS4).As part of stormwater management, SLCDPU provides oversight and monitors industrial operations and construction activity throughout the Salt Lake City to ensure that best management practices are followed. In addition, the Stormwater Utility collects samples from the stormwater system to demonstrate compliance with permits.

In 2008, the Salt Lake City Council enacted a Riparian Corridor Overlay Zone (RCOZ) to protect streams in the urban Salt Lake City area. SLCDPU prepared riparian corridor studies and anagement plans in 2010 for each of these streams. SLCDPU implements the RCOZ requirements.

The Stormwater Utility operates, maintains, repairs, and replaces the City's stormwater collection system. Major components of this system include 336 miles of drainage pipe and 90 miles of various drainage ditches and canals. Italso includes over 14,000 inlets and clean-out boxes, supported by 26 lift stations that ensure that stormwater moves in the appropriate direction despite topographical changes.

Ongoing Stormwater Utility Programs, Efforts, and Operations:

- Flood control
- Water quality protection
- Riparian corridor protection
- Jordan River Total Maximum Daily Load studies and compliance
- Stormwater conveyance and maintenance operations
- Long term capacity planning
- Public education and outreach

STREET LIGHTING UTILITY OVERVIEW

The Street Lighting Utility is a recent addition to SLCDPU (2013), but has been a long-standing function for the City. Salt Lake City was the fifth city in the United States to have electric street lights, and has since focused on the quality and safety of the urban environment influenced by the Street Lighting System. The purpose of the Street Lighting system is to illuminate the City streets for safe vehicle operation and safe pedestrian movement. Streetlights are provided at each intersection on long blocks and midblock, if needed.

Street lighting fees are established by residential equivalency, or ERUs-Equivalent Residential Units. The utility provides base level street lighting service on a city-wide basis and enhanced street lighting services

for decorative lighting to two residential neighborhoods and to one commercial area. Annual revenue to the program funds the Street Lighting power bill, ongoing maintenance, and a capital improvement program. A major element of the capital improvement program, as directed by the City Council, is to convert the entire system to high energy efficient lamps within 10 years. As the Street Lighting Utility begins high efficiency upgrades, new fixtures will be installed or retrofitted with light-emitting diode (LED) upgrades. In addition to offering substantial energy sav-

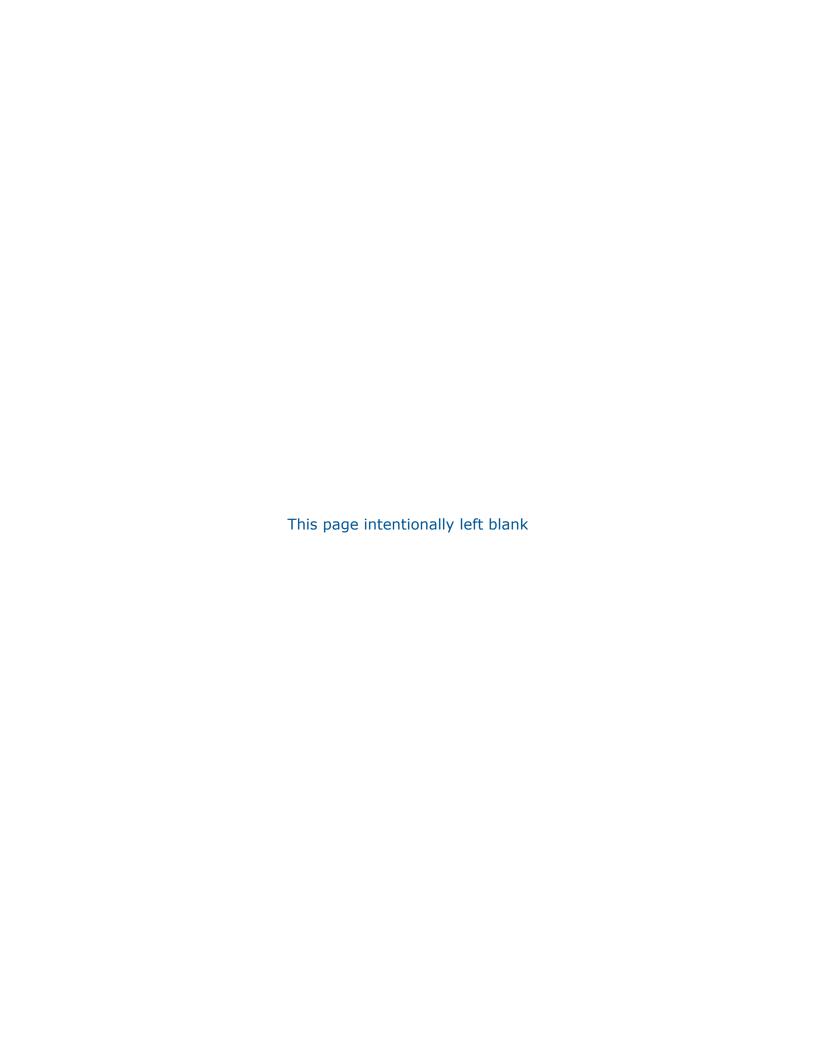

ings, LED lights have a long life, relatively low maintenance requirements, and they carry warranties from the manufacturers.

Ongoing Street Lighting Utility Programs, Efforts, and Operations:

- Energy efficiency upgrades
- Maintenance and operations
- Private lights issues
- Long term planning
- Public engagement

DEPARTMENT OF SUSTAINABILITY

Department Overview

The newly created Department of Sustainability aims to develop goals and strategies to protect our natural resources, reduce pollution, slow climate change, and establish a path toward greater resiliency and vitality for all aspects of our community. The Department is organized in two separate divisions: the Waste & Recycling Division and the Environment & Energy Division. The Waste & Recycling Division is responsible for managing the City's regular refuse and recycling collection services and is funded by refuse collection fees. The Environment & Energy Division develops plans and policies to preserve and improve our built and natural environments and provide residents information on sustainability issues affecting Salt Lake City. This division is funded primarily by landfill dividends and recycling proceeds when available. With the changes recommended in this budget the Department will be operating with 57.95 full-time equivalent positions (FTE's).

Department Key Changes Summary

Revenue & Funding- There will be no change to residential refuse collection fees for FY17. The Landfill dividend funds are down slightly from the previous year. As the Landfill garbage tonnage has decreased in recent years, so has the related dividend to its partners. The recycling proceeds have been eliminated from the FY17 budget due to a downturn in the global recycling market, which are not expected to recover within the next fiscal year. In addition, there will be a one-time cash transfer from the Operations Fund (Waste & Recycling Division) to the Environmental & Energy Fund (Environment & Energy Division) of \$1,500,000. That cash was part of the \$7,000,000 Landfill distribution received in FY11. The \$1,500,000 was placed in the Operations Fund balance to mitigate potential increased costs from shifting the curbside recycling program to an internal operation. However, the increased costs were offset by increased efficiency in the Waste & Recycling Division and therefore that portion of the distribution still remains as unspent cash in the Operations Fund balance. Operations Fund balance remains healthy and therefore the Department is requesting these funds to be used for the ongoing operations of the Environment & Energy Division.

Budgetary support for the Open Space Program and Urban Forestry tree purchases have changed funding sources from Refuse Fund to the General Fund starting in FY17. With the elimination of recycling proceeds the fund balance for the Environmental and Energy Fund is being depleted at a greater pace. Transferring the remaining operational budgetary needs for Open Space and Urban Forestry back to the General Fund will help to preserve the Environmental and Energy Fund cash balance. This funding transfer will allow those funds to be utilized directly for ongoing operational expenses of the Environment & Energy Division.

The Department of Sustainability will be adding one full-time position to the Environment & Energy Division budget. This position will be utilized to provide departmental administrative support. The Waste & Recycling Division added four full-time positions in FY17, two positions in the Can Maintenance Program, one position in the NCU Program, and one position in the Recycling Program. The Waste & Recycling Division currently has 29 CNG packers, 6 bi-fuel vehicles and 5 hybrid vehicles. The department is projecting that the entire fleet of packers used for City collection services will be clean vehicles by the end of FY17.

Dept of Sustainability, Environment & Energy Division Debbie Lyons, Division Director

DIVISION MISSION STATEMENT

The Environment & Energy Division develops strategies to ensure that Salt Lake City departments comply with all applicable environmental regulations and guides City-wide policy and practice to minimize the environmental impact of the community and city operations, and provide residents information on sustainability issues affecting Salt Lake City.

DIVISION OVERVIEW

The Environment & Energy Division is funded primarily through on-going dividends from the Salt Lake Valley Landfill and proceeds from recycled materials when available. The Division specifically focuses on: environmental compliance, air quality, climate mitigation and adaptation strategies, energy conservation, renewable energy, and food security.

Environmental Compliance

The Environment & Energy Division is responsible for completing environmental permits and remedial investigations of contaminated sites as required by the Department of Environmental

Quality. The Division provides regulatory support and training to internal departments on environmental issues and manages environmental compliance for the Salt Lake Valley Landfill.

Air Quality

The Environment & Energy Division develops strategies to improve air quality through vehicle emission reductions, conserving electricity and natural gas, and reducing other sources of pollution. The Division assists city departments with identifying strategies to reduce emissions, collaborates on fleet procurement decisions, and promotes active and public transportation to reduce vehicle miles traveled.

Climate Change

Salt Lake City recognizes the connection between human activity, especially the combustion of fossil fuels that create greenhouse gases, and warming of the planet. The department is responsible for facilitating transition to a low-carbon community, which will enhance public health, increase national and energy security, create local green jobs, and reduce reliance on finite resources. The Department is creating a roadmap towards the city's goal of 100% clean electricity by 2032.

Energy

The Environment & Energy Division implements and supports ways to save energy through efficiency and conservation while also leading renewable energy project development and policy. The Division promotes and facilitates development of renewable energy sources both on city facilities and in the community, and supports policies at the state level that allow for reasonable access to the electric grid and fair compensation for clean energy. The Division leads an internal Energy Management Steering Committee and tracks overall energy consumption, along with associated costs and emissions, for all major city facilities.

Food Security

The Environment & Energy Division promotes and facilitates community-based food production and access to healthy, nutritious local food and facilitates on-going management of community gardens on city-owned properties. The Division facilitates the Food Policy Task Force which advises the city on policies and programs which will remove barriers to food access.

Environment and Energy Initiatives / Accomplishments

- Convened the Utah Climate Action Network which includes over 20 partner organizations from all sectors, to catalyze new local relationships and partnerships to address climate change.
- Salt Lake City is one of 16 cities designated by the White House as a Climate Action Champion.
- Leveraged grants from the State Division of Air Quality to incorporate more clean fuel vehicles into the City fleet and install a network of electric vehicle (EV) charging stations for public use.

DEPARTMENT OF SUSTAINABILITY

- Passed an Idle Free Ordinance in 2011 to prohibit unnecessary vehicle idling over two minutes within city limits on public property and private property that is open to the public.
- Convened the internal Energy Management Steering Committee and developed Comprehensive Energy Management Plans for all major City facilities.
- Completed seven separate solar PV projects, and completed renewable energy feasibility studies for three separate departments.
- Completed a Community Food Chain Study to assess our local food system from production, plate, to food waste.
- Organized annual Mayor's Skyline Challenge, a competition challenging building owners and operators to reduce air pollution and hit energy-saving targets.
- Since 2010, established 27 additional community gardens.
- Created the Dining with Discretion campaign to provide resources and empower residents to make low carbon food choices.

Environment and Energy Performance Measures

Performance Measures	2015 Actual	2016 Actual	2017 Target	2018 Target	2019 Target
Reduce municipal greenhouse	128,272	129,216	115,000	100,000	85,000
gas emissions 35% by 2020	(Metric Tons	MTCO2e	MTCO2e	MTCO2e	MTCO2e
	CO2-equivalent))			
Reduce community greenhouse	5,058,650	4,769,171	4,600,000	4,500,000	4,400,00
gas emissions 80% by 2040	MTCO2e	MTCO2e	MTCO2e	MTCO2e	MTCO2e
50% renewable electricity generation for Salt Lake City municipal operations by 2020	5.00%	6.00%	12.00%	20.00%	40.00%

Total Waste & Recycling FTEs

MISSION STATEMENT

The primary goal of the Waste and Recycling Division is to encourage waste reduction while recovering as many materials as possible for highest and best use through recycling and composting.

DIVISION OVERVIEW

Waste and recycling programs are funded by the Refuse Enterprise Fund. Within the Division there are two programs: Operations responsible for all collection activities, and the Recycling Program. The Operations program provides waste collection services to 41,938 residential properties plus city parks and facilities and smaller businesses that qualify for recycling services. To promote diversion from the landfill, residents receive mandatory weekly

curbside recycling and yard waste col¬lection, annual Christmas tree collec¬tion, curbside glass recycling, recycling drop-off sites for glass, and recycling education and outreach in addition to their weekly garbage collection and the annual Neighborhood Cleanup program. Approximately 79,425 tons of material were collected in FY16

DEPARTMENT OF SUSTAINABILITY

The Materials Management program provides education and outreach and oversees and implements waste management ordinances and programs to achieve ambitious diversion goals. In FY16, 41% of the waste stream was diverted from the landfill through recycling and composting.

Recycling Collection

Weekly curbside recycling is provided to all single-family residences, city facilities and parks, as well as to eligible businesses and multi-family complexes for \$7 per container per month.

A voluntary residential curbside glass recycling program is available for a fee of \$7.00 per month. In FY16, there were 4,121 curbside glass recycling bins in service. In addition to curbside recycling, there are 19 glass drop-off sites throughout the city.

Yard Waste Collection

Weekly yard waste includes yard and garden waste as well as fruit and vegetable scraps. Yard waste collection also captures fall leaves that were formerly collected curbside in plastic bags, thereby eliminating approximately 50,000 bags. Christmas trees are collected in the yard waste can and curbside.

Garbage Collection

Weekly garbage collection is offered in 40-, 60-, or 90-gallon garbage containers on a variable fee structure that promotes waste reduction while allowing residents to pay only for the volume of garbage they produce. Garbage is also collected from city facilities and parks.

Neighborhood Cleanup

Each year residents are allowed one curbside bulky waste collection through the Neighborhood Cleanup program. The program is limited to waste that cannot fit in any of the weekly contain—ers. Green waste is separated from household waste and diverted to the com—post facility. In 2016, curbside mattress collection was added to the program.

Education and Outreach

Education and Outreach is a critical component of the Waste and Recycling Division that encourages residents to reduce waste, eliminate contamination in the recycling and yard waste containers, and comply with Neighborhood Cleanup Program rules. Education and Outreach staff inspect hundreds of containers each day and engage residents in face-to-face conversations about their services. Education and Outreach also implements the Master Recycler program, a six-week course available to all members of the community.

Special Event and Construction Waste Management

The Division Permits Coordinator reviews and approves waste management plans for all permitted special events, and assists event planners with waste reduction and diversion best practices.

DEPARTMENT OF SUSTAINABILITY

The Division works with the City's Business Services Division to implement the Construction and Demolition Recycling ordinance.

Business and Multi-Family Recycling

The Division is responsible for implementing the Business Recycling ordinance adopted December 2015, which will require properties that produce more than four cubic yards of waste per week to provide recycling services by January 2018. Waste haulers must be authorized to provide services in the city and report how much waste is recycled.

Performance Measures and Key Initiatives: (Included in Service Budget Excel File) Increase diversion from the landfill through waste reduction, recycling, and composting to 50%

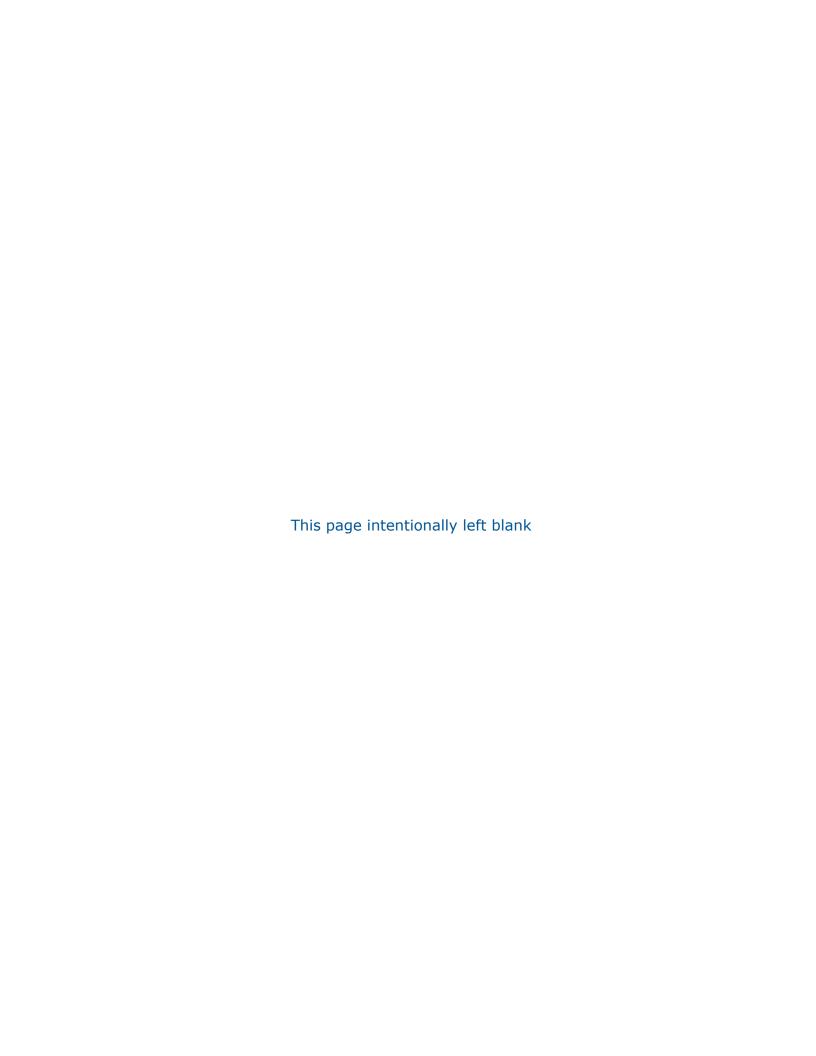

Fully implement business recycling and increase commercial waste diversion to 30%

Waste & Recycling Initiatives / Accomplishments

- Expanded CNG fueling infrastructure to accommodate all automated CNG collection trucks.
- Conducted lifecycle cost analysis of automated collection trucks to determine optimal replacement schedule and reduce life-cycle maintenance costs.
- Added curbside mattress collection to annual Neighborhood Cleanup Program.
- Piloted a compost process with the goal of reducing costs, improving quality, and increasing the amount of material diverted to composting.
- Piloted collection events for hard-to-recycle items to determine capacity for a permanent program that may divert additional material from the landfill and increase local recycling infrastructure.
- Developed new metrics for operational efficiencies, employee performance, and billing accuracy.

Waste & Recycling Performance Measures

Performance Measures	2015 Actual	2016 Actual	2017 Target	2018 Target	2019 Target

Non-Departmental

The Non-departmental portion of the Budget provides a financial reporting and budgeting section to account for all General Fund monies transferred to other funds, grants and other special revenue funds. It provides accounting for funds that do not programmatically belong to any particular City department. It includes an accounting of the City's debt service and capital improvement programs. It is also used to monitor disbursements of monies for civic organizations that provide a service on behalf of Salt Lake City but are not legal entities of the City.

Policy Issues

Capital Improvements Projects Fund

-1,800,912

The budget includes a total of \$15,737,331 in funding to be transferred to the Capital Improvement Projects fund to be used toward CIP needs throughout the City. This amount, plus the Triggered CIP from New Growth amount, represents an amount equivalent to 7% of applicable General Fund revenues.

Triggered CIP from New Growth

787,484

This budget includes an estimate of new growth based on historical trends for the past five years, and has allocated new growth based on these trends to the CIP fund transfer.

North Temple Viaduct Debt Service Transfer to CIP

35,982

Additional revenue from Salt Lake County received by the RDA will be transferred to the General Fund. These funds will be used towards the payment on the North Temple Viaduct Debt Service. The total debt for North Temple Boulevard & Viaduct is \$812,500. The total amount generated by the North Temple Viaduct CDA is \$183,732 for FY 2016.

Recreation/Open Space GO Bond Public Process (One-time)

300,000

Funding to study and market for a potential GO Bond for recreation and open space initiatives.

Sego Lily (Contingent on \$400,000 Community Match)

200,000

Funding to assist in the completion of the Sego Lily Project, a project that includes a tunnel running under 1300 East that will connect Sugar House Park and the Sugar House Business District for cyclists and pedestrians. The funding was contingent on \$400,000 being raised as a community match to the City proposed funding.

600 North Off-Ramp Transfer to CIP

80,000

Transfer to the CIP Fund to fund improved safety measures at the 600 North 800 West intersection. These improvements will address safety concerns and will include a minimum of two rectangle rapid flashing beacons and two curb extensions.

CIP Gas Tax -500,000

This gas tax funding is no longer being transferred through the General Fund, and is being allocated straight to Class C.

Remove One-time: Citizen Access to Crime Data

-50,000

Funding was provided in FY 2016 for software to enable the Police Department to be more transparent and accountable to the community. The software they are implementing will provide for better statistical reporting and analytics. Funding is now being moved from Non-Departmental to the Police Department.

City Resident Bus Pass (HIVE)

-750,000

Usage of the City Resident Bus Pass (HIVE) is lower than projected for FY 2016, and usage in FY 2017 is also anticipated to be down as well. The budget for HIVE pass expenses and the corresponding revenues are being reduced according to projected estimates.

Contract for Animal Services

52,313

The contract with Salt Lake County for Animal Services allows for annual increases based on the previous 12 months CPI. The increase in CPI was 1.25%, or \$17,313. The associated increase is included in the budget. In addition, funding of approximately \$35,000 initiated in budget amendment #2 of FY 2016 for raccoon abatement is included. The total increase in funding is \$52,313 for the Animal Services contract.

Demography Contract

20,000

FY 2016 funding for the demography contract was \$30,000. In budget amendment #1 of FY 2016 an additional \$20,000 in funding was added for the City's contractual demography needs.

Remove One-time: Funding for New Police Position Vehicles and a Vehicle for Pay Station Coin Collection

-230,000

The FY 2016 budget included \$200,000 in one-time funding for vehicles for newly added police positions, as well as \$30,000 in one-time funding for a vehicle to be used by Public Services for collecting coins from parking pay stations. This one-time need has been fulfilled and funding has been removed.

Fleet - Replacement Fund 250,000

This budget includes an increase of \$250,000 to the City's General Fund Fleet Replacement budget. This increase provides additional funding intended to continue addressing a long-term replacement strategy.

Fleet - Centralized Fleet Maintenance 198,081

This budget includes an increase of \$198,081 for the anticipated maintenance costs for vehicles in the General Fund department fleets. The amount is based on specific classes and ages of the vehicles in the fleet.

GF Costs for Street Lighting in Enhanced Service Areas54,420

Funding to cover the general fund portion of the new Enhance Street Lighting plan. This funding will cover the costs of enhanced street lighting on City owned properties.

Golf (Wingpointe Maintenance Transfer) 61,781

Funding for limited maintenance for greens and fairways at the Wingpointe Golf Course. This funding is to allow time to perform a study to determine the potential economic viability of the golf course.

Governmental Immunity Fund 491,756

Due to the higher than anticipated number of claims during FY 2016, and the projected number of claims for the coming fiscal year, additional funding is being included to allow the Governmental Immunity Fund to maintain a positive fund balance while continuing to cover the cost of potential claims against the City.

Citywide Data Processing Fund Transfer (Formerly IFAS Account) 388,807

The budget includes an increase to the Citywide Data Processing Fund transfer sufficient to cover the General Fund's portion of the costs of software purchases and development including a rewrite of the City's Contract Management System (CAMP), an Applicant Tracking System and the implementation of a Citywide Learning Management System.

IMS Fund Balance Transfer (Remove One-time) -367,500

Funding was transferred from the General Fund to balance the IMS Fund due to a required change in GASB reporting. This was a one-time item that is now being removed from the budget.

Information Management Services Fund

524,422

The budget includes additional funding of \$524,422 for IMS. This funding is the net of reductions in one-time funding, reductions in base personal services projections, increases in funding for insurance, salary changes and CCAC benchmark adjustments, as well as increases in software maintenance funding and the computer replacement fund.

Insurance and Risk Management Fund

66,663

The budget includes funding to cover additional Insurance and Risk Management related costs.

Municipal Elections

-323,500

The FY 2016 budget contained one-time funding to conduct municipal elections in 2015. This amount will not be needed in the FY 2017 budget.

Public Utilities - Land Swap Payment

200,000

A land swap between Salt Lake City and Salt Lake County has allowed the City to acquire full ownership of the City and County Building, the Raging Waters property and property in Lambs Canyon. In the swap, the County acquired ownership of Mick Riley Golf Course, 3 senior centers and the Health Department Building. Since Salt Lake City Public Utilities owned a portion of Mick Riley Golf Course, the budget includes a placeholder amount for an annual payment to be made to Public Utilities as reimbursement.

SAA Street Lighting Fund

-205,933

All of the City's Street Lighting Special Assessment Area (SAA) assets are being transferred to Public Utilities' Street Lighting Enterprise Fund. The Street Lighting division will establish a Special Service Area rate and provide for ongoing maintenance, and other costs. Funding for the Street Lighting SAA will be reduced from the budget.

Sorenson Center with County

47,000

The budget includes an increase in funding for the Sorenson Center contract with Salt Lake County to cover inflationary cost increases.

Streetcar Operations and Maintenance

-200,000

The City entered into a three year contract with the Utah Transit Authority (UTA) for costs associated with street car operations and maintenance. The contractual obligation has been completed and funding has since been removed.

Remove One-time: Studies for CIP and Building Process The FY 2016 budget included \$25,000 for the Administration to conduct and update cost justifications for and the benchmarking of building permit fees. This one-time need has been fulfilled and funding will be removed.	-25,000
Remove One-time: Downtown Parks Festival The FY 2016 budget included \$20,000 for the Downtown Parks Festival. This one-time need has been fulfilled and funding will be removed.	-20,000
Gang Prevention (Transfer to Police) The budget includes the transfer of funding for Gang Prevention to the Police Department to fund a Gang Intervention Case Worker.	-70,000
Legal Defenders The budget increases funding for the Legal Defenders Association to cover inflationary increases in their costs.	34,728
Remove One-time: National Arts Marketing Project The FY 2016 budget included \$25,000 in funding for a contribution to the local host committee of the National Arts Marketing Project (NAMP) Conference. Of these funds, \$15,000 were used for the conference opening reception and \$10,000 were used toward a related scholarship. This one-time need has been fulfilled and funding will be removed.	-25,000
Sales Tax Rebate An agreement between two businesses and Salt Lake City rebates a portion of the sales tax the business generates back to the business if sales tax collections meet certain predetermined thresholds. Both agreements expired during FY 2016 so funding is no longer needed.	-77,000
Tracy Aviary The budget includes an additional \$50,000 for Tracy Aviary funding to help the Aviary cover the cost of maintaining operations.	50,000
Utah League of Cities and Towns The budget includes an increase to address a requested increase from the Utah League of Cities and Towns for the services they provide.	8,219

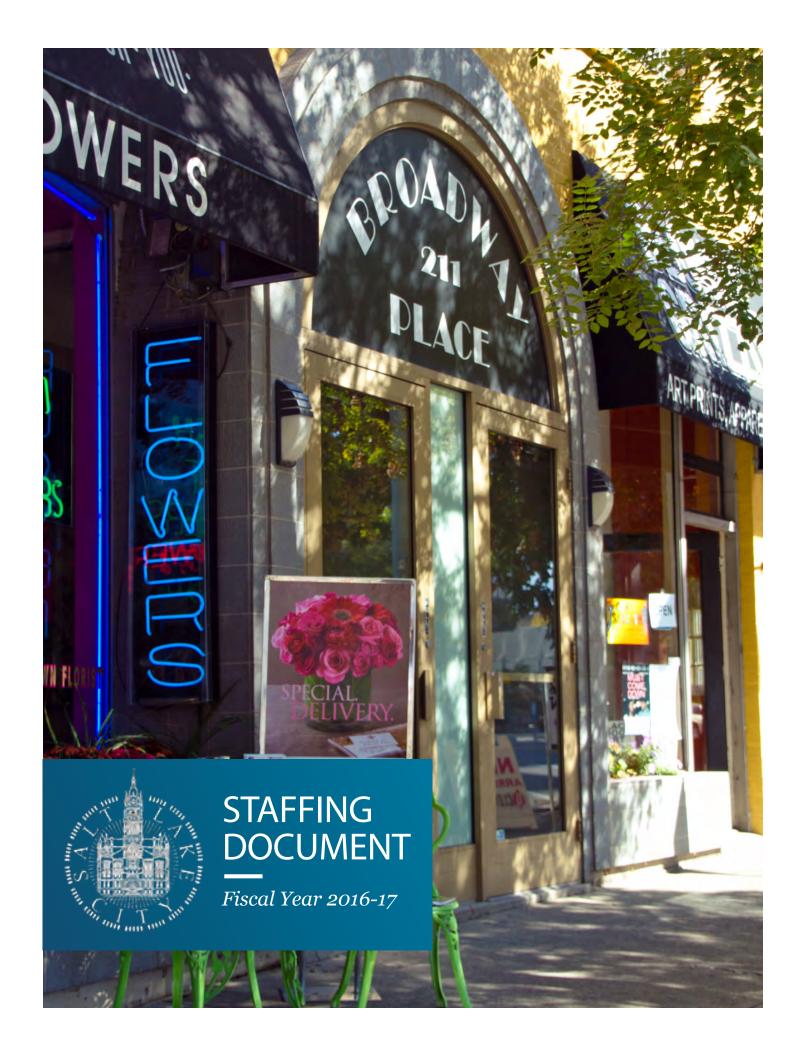

Recapture Social Worker Funds to Rio Grande Homeless Services Admin Proposal

210,000

Funding that was proposed in FY2016 to establish services for the homeless population. These funds were not spent in F2016, this appropriation will carry this initiative forward from the FY2016 budget to the FY2017 budget.

This section reflects the official staffing document for FY 2016-17. The staffing document inventories individual positions and pay grade classifications within each division. It includes the total number of authorized positions and job classifications for each department by division and fund. The total number of all positions in the City is tallied on the initial summary page.

Any change made to the City staffing document that increased costs but did not increase the number of positions was presented to the City Council for review. Any change in the total number of positions requires the approval of the City Council.

The total numbers of positions are presented for the last two fiscal years (2014-15 and 2015-16), as well as the staffing level for FY 2016-17. Changes from the previous fiscal year's budget are noted and explained in the column entitled *Changes from FY 2015-16 to FY 2016-17*.

Changes are noted as follows:

RECLASSIFICATIONS

- If a reclassification resulted in a pay grade change only, the notation would be, for example,
 Changed to _____/from 29
- If a reclassification resulted in a change of title only, the notation would be, for example, Changed to____/from Personnel Director
- If a reclassification resulted in a change of grade and title, the notation would be, for example, Changed to /from Personnel Director (29)

REORGANIZATIONS

- If a position or part of a position has been transferred to a different part of the organization the notation would be, for example, Transferred to_____/from Employee Services
- If a percentage of the position were transferred, the notation would be, for example, .25

 Transferred to /from Employee Services
- If a position or percentage of a position were transferred to another department, the notation would be, for example, Transferred to Department of _____, Division of _____/from Employee Services
- There will be offsetting notations in the receiving area of the organization to explain from where the position or percentage of the position was transferred

New Positions

 A position which has been added to the official staffing document in Fiscal Year 2016-17 is noted as, New position

ELIMINATED POSITIONS

 A position which has been removed from the official staffing document for FY 2016-17 is noted **Position eliminated**

POSITION HELD VACANT

• A position which is being held vacant in the official staffing document for fiscal year 2016-17 is noted as, **Position held vacant**

Position Title Abbreviations

- **H** indicates an hourly position
- **PT** indicates a part-time position
- Regular PT indicates a regular part-time position
- **S** indicates a seasonal position

Salt Lake City Open Enrollment Guide-Page 3

(Phrases in *italic type* are cross-references to other definitions or terms.)

Accrual - A transaction that recognizes the financial effect, event or interfund activity when it occurs, regardless of the timing of the related cash flows.

Ad valorem - A phrase indicating that taxes are applied in proportion to the value of property.

AFSCME - Abbreviation for **American Federation of State and County Municipal Employees**.

Airport Authority Fund - An *enterprise fund* established to account for revenue and the operating and capital costs of the Salt Lake City International Airport, Airport No. 2, and Tooele Valley Airport.

Amended Budget - The annually adopted budget as adjusted through City Council action.

AOC - Abbreviation for Administrative Office of the Courts.

Appropriation - A specific amount of money authorized by the City for the purchase of goods and services. The City's appropriation level is set at the department fund levels.

Arbitrage - The difference between the interest paid on tax-exempt bonds and the interest earned by investing the proceeds of the tax-exempt bonds in higher-yielding taxable securities. Federal income tax laws generally restrict the ability to earn arbitrage in connection with tax-exempt bonds or other federally tax-advantage bonds.

Arbitrage Rebate - A payment made by a bond issuer representing the amount of investment earnings on bond proceeds and certain related funds that exceed the bond yield.

ARFF - Abbreviation for **Airport Rescue and Fire Fighting**.

Arts Council Fund - A *fund* to account for activities of the Arts Council and the purchase or construction of art in City owned facilities.

Assessed Property Value - The value set upon real estate or other property by the Salt Lake County Assessor and the State of Utah as a basis for levying taxes.

Bail Bond - Bail Bonds are usually money deposited or pledged to a court for the release of defendant from jail, on the understanding that the suspect will return for trial or forfeit the bail.

Balanced Budget - A *budget* in which planned available funds equal planned expenditures.

BCI - Abbreviation for **Bureau of Criminal Identification**.

Bonds - A certificate of debt issued by an entity, guaranteeing payment of the original investment plus interest by a specified future date.

Budget - An annual financial plan that identifies revenues, specifies the type and level of services to be provided, and establishes the amount of money which can be spent.

CAFR - (Comprehensive Annual Financial Report) - The City's annual financial statement prepared in accordance with *generally accepted accounting practices*. This document is usually published in December, following the year-end closing in July and the annual financial audit conducted by an independent accounting firm.

Capital Equipment - Equipment with an expected life of more than one year and with a value greater than \$5,000 (such as vehicles, computers, or furniture).

Capital Improvement Budget - The budgeted costs to provide needed infrastructure, park development, building construction or rehabilitation and other related items. Funding is received from various sources.

Capital Projects Fund - A *governmental fund* to account for resources for construction, major repair or renovation of city property.

CBRN - Abbreviation for **chemical**, **biological**, **radiological**, **and nuclear** agents.

CCAC - Abbreviation for **Citizens' Compensation Advisory Committee**.

CDBG Operating Fund - A *special revenue fund* for projects funded by the Community Development Block Grant (CDBG) program of the U.S. Department of Housing and Urban Development (HUD), but not accounted for within the *capital projects fund*. The fund includes administrative costs, housing rehabilitation costs, pass-through project costs, and other costs of a noncapital improvement nature.

Certified Tax Rate - The multiplication factor for the assessed property valuation that provides a taxing entity with the same *ad valorem property tax* revenues as were budgeted by that taxing entity for the prior year, without taking into consideration any revenue from new growth in the entity's tax base. The initial certified tax rate for each year is calculated by the county assessor. A taxing entity's legislative body can change the rate, but Utah state law requires a truth-in-taxation hearing.

Charge For Services Fee - A variety of fees charged to the public by City agencies, generally categorized under Parks, Public Safety, Cemetery, Public Works, and Building Rental.

CIP - Abbreviation for **Capital Improvement Program**.

Class B - Class B misdemeanor filed in justice courts, a lesser charge than a class A misdemeanor which is filed in district court.

Class C - Class C misdemeanor, lesser charge than a class B misdemeanor.

CORIS - "Court Records Information System" the justice court database.

Curb/Gutter Special Assessment Fund - A *special revenue fund* to account for monies associated with the installation and maintenance of curb and gutter in certain special assessment districts.

Debt Service - The payment of principal and interest on borrowed funds such as bonds.

Debt Service Fund - A governmental *fund* used for resource accumulation and the payment of long-term debt principal, interest and related costs.

Deferred Compensation Fund - A *fund* used to account for amounts deferred under the City's employee deferred compensation plan for which the City acts in a fiduciary capacity as trustee.

Demolition Weed and Forfeiture Fund - A *special revenue fund* to account for City mandated demolition, weed abatement activities and certain police forfeiture activities.

Depreciation - An allowance made for a loss in value of property because of wear, age, or other causes.

DLD - Abbreviation for **Utah State Drivers License Division**.

Downtown Economic Developmental Fund - A *special revenue fund* that accounts for special assessment taxes collected from businesses in the Central Business District and is dedicated to downtown projects improvements.

Drug Court - A drug court program focuses on specific drug related crimes. It should include but may not be limited to continuous judicial supervision using a cooperative approach with prosecutors, defense counsel, substance abuse treatment services, with attention to promote public safety, protect participants' due process rights, and integrate substance abuse treatment with justice system case processing.

DUI - Abbreviation for **Driving Under the Influence** (usually of alcohol).

Due Process - Due process is the legal requirement that the state must respect all of the legal rights that are owed to a person. Examples of due process would be proper notice to the accused, right to grieve, and right to appeal.

E911 Dispatch Fund - A *special revenue fund* for monies received for operation and maintenance of the Emergency 911 Dispatch system. Telephone users are assessed monthly fees for the E911 service.

EEO - Abbreviation for **Equal Employment Opportunity**.

EEOC - Abbreviation for **Equal Employment Opportunity Commission**.

Encumbered or Encumbrance - The setting aside of funds for obligations in the form of purchase orders and contracts which are chargeable to an appropriation. Encumbrances are reversed when paid or when an actual liability is created.

Enterprise Fund - A self-balancing *fund* designed for activities supported by user charges or fees, rather than tax base. The city's enterprise funds are Airport Authority, Golf, Refuse Collection, Sewer Utility, Storm Water Utility, and Water Utility.

EP3 - Abbreviation for **Environmentally Preferable Procurement Policy**, the purpose of which is to support the purchase of products that will minimize negative environmental impacts and support markets for recycled and other environmentally preferable products.

Fines and Forfeitures - Fees collected by the State Court System, including bail forfeitures, fines, garnishments, legal defenders recoupment, and parking fines collected by the City.

Fitch - An international credit rating agency that provides financial research and rates on bonds issued by commercial and government entities. Fitch Ratings assigns ratings on the basis of risk and the borrower's ability to make interest payments.

Fleet Management Fund - The *internal service fund* for the maintenance and purchase of City-owned vehicles. The Public Utilities Department purchases its own vehicles, however, Fleet Management maintains them. The Airport Authority purchases and maintains its own vehicles.

FMLA - Abbreviation for Family Medical Leave Act.

Franchise Tax - Energy tax imposed on all sales of public utility services, including electricity, gas water, sewer, telephone and cable television.

FTE (Full-Time Equivalent) - A term used when developing personal services budgets; 2,080 hours worked annually equates to 1.0 full-time equivalent (FTE) position.

Fund - A self balancing set of accounts to record revenues and expenditures associated with a specific purpose. Major City funds include the *Capital Projects Fund*, the *Debt Service Fund*, *Enterprise Funds*, the *General Fund*, *Internal Service Funds*, and the *Special Revenue Fund*.

Fund Balance - The excess of assets over liabilities at the end of the accounting period; a negative fund balance indicates a fund deficit.

FY (Fiscal Year) - Any period of 12 consecutive months designated as the budget year. The City's fiscal year begins July 1 and ends June 30. For example, the notation FY 11 designates the fiscal year ending June 30, 2011.

GAAP - (Generally Accepted Accounting Practices) A set of rules governing the way in which the City's revenues and expenditures are accounted for in its quarterly and annual financial statements. The rules are codified by the Governmental Accounting Standards Board and the National Council on Governmental Accounting.

General Fund - A governmental *fund* to account for resources and uses of general operating functions of City departments. The primary resources are property, sales, and franchise taxes.

General Obligation Bonded Debt - An obligation that has resulted from the issuance of general obligation bonds. General obligation bonds are bonds issued after an affirmative vote of the taxpayers, and are secured by the City's general taxing power.

GIS - Abbreviation for **Geographic Information System**.

Golf Fund - An *enterprise fund* in which participants in City-sponsored recreational activities (such as golf, swimming, tennis, etc.) pay fees which underwrite the cost of providing these services.

Governmental Funds - Funds generally used to account for tax-supported activities. There are five different types of governmental funds in Salt Lake City: the *general fund, special revenue funds, debt service funds, and capital projects funds.*

Governmental Immunity Fund - An internal service fund used to account for the activities related to general and automobile liability of Salt Lake City.

GRAMA - Abbreviation for the **Government Records Access and Management Act**.

Grants Operating Fund - a *fund* used to account for monies received by the City under the Comprehensive Community Program, Community Oriented Policing Services, Home Program, Emergency Medical Services, Emergency Shelter Grants, Local Law Enforcement Block Grants, Salt Lake Area Gang Projects, Historic Resource Grants, and other studies and grants.

HAND - Abbreviation for the **Housing and Neighborhood Development** Division in the Community and Neighborhoods Department.

Hive Pass - A program provided by Salt Lake City through an agreement with the Utah Transit Authority (UTA) that allows residents to purchase reduced cost transit passes.

Homeless Court - A full service biweekly court staffed by court professionals, prosecutors, volunteer attorneys and civilian volunteers. Specifically for the homeless population which may include mental health issues.

H.B. - House Bill from the Utah State Legislature, House of Representatives.

Housing Loans Fund - An *enterprise fund* for housing rehabilitation loans provided to eligible participants of the Salt Lake City's housing loans and grants program. This *fund* accounts for loan repayments.

Information Management Services Fund - An *internal service fund* for control of the operations of citywide data processing services and telephone administration.

Infractions - A lesser charge than a class C misdemeanor.

Inn Keeper Tax - A one percent tax levied on hotel and motel units that rent for less than 30 consecutive days.

Infrastructure - The basic facilities, equipment, and installations needed for the functioning of the City.

Interest Income - Revenue received from investing the City's fund balances.

Interfund Reimbursement - Administrative fees charged by the *general fund* to other City funds (e.g., Airport, Water) for the provision of administrative and other city services.

Intergovernmental Revenue - Federal, state, and county grants, and other forms of revenue. These include Community Development Block Grant (CDBG) funds, Class "C" Road Funds, Liquor Control Funds, noise pollution inspection fees, and other grant funds received by Salt Lake City.

Internal Service Fund - A *fund* established to account for the financing of goods and services provided by one City agency or department to another. The City's internal service funds include Fleet Management, Governmental Immunity, Information Management Services, and Risk Management.

IVR - Abbreviation for Interactive Voice Recording.

Judgment Levy - A *tax rate* applied to provide funds for a taxing entity's eligible judgments. Eligible judgments are final and unappealable determinations by courts of law, which became final and unappealable within the previous year, and for which the taxing entity's share is greater than either \$5,000 or 2.5% of the total *ad valorem property taxes* collected by the taxing entity in the previous fiscal year.

Landlord Tenant Initiative - A program requiring landlords to complete training and participate with the City to implement measures to reduce crime in rental housing. In return for participation, landlords will receive a decreased in the licensing fee charged by the City.

LEED - Abbreviation for **Leadership in Energy and Environmental Design**. The term relates to efficiency standards for buildings.

License Revenue - Both a "revenue fee" and "regulatory fee" imposed on businesses (includes the Innkeeper's Tax, a 1-percent tax on lodging rental).

Local Building Authority (LBA) - The Local Building Authority of Salt Lake City was created in 2011, and is a mechanism the City uses for issuing debt and financing construction of essential purpose stand-alone facilities within the City. The LBA is a separate entity that is governed by the Salt Lake City Council acting as the LBA Board.

Miscellaneous Grants Operating Fund - A *special revenue fund* for grant monies received from various government agencies, when the City is the grantee.

Miscellaneous Special Service District Fund - A fund used to account for the cost of servicing the debt created by financing the construction of public improvements deemed to benefit properties against which special assessments are levied.

Miscellaneous (Other) Revenue - Sales of land, equipment, materials and supplies, impounds/evidence, industrial revenue bond application fees, and sundry revenue.

Moodys - An independent, unaffiliated the bond credit rating company that provides financial research and rates on bonds issued by commercial and government entities. Moody's assigns ratings on the basis of risk and the borrower's ability to make interest payments.

Municipal Building Authority Fund - A *fund* used to account for the acquisition and lease to the City of purchased or constructed property and equipment. This fund accounts for the bond which were issued to purchase or construct the property and equipment and also accounts for the retirement of those bonds.

NIOSH - Abbreviation for **National Institute of Occupational Safety and Health**.

NPDES - Abbreviation for **National Pollutant Discharge Elimination System**, an EPA program controlling water pollution by regulating discharges into waters within the United States.

NTU - Abbreviation for **Nephelometric Turbidity Units**. Turbidity is cloudiness, and is a measure of water quality.

One Solution - The name of the City's financial accounting system.

Operating Budget - A budget for general expenditures such as salaries, utilities, and supplies.

Parking Meter Collection - Revenues received from parking meters, bagging of parking meters, and residential parking meters.

Parking Ticket Revenue - Fees collected for civil violation of vehicle parking ordinances.

PEHP - Abbreviation for **Public Employees Health Program**.

Permit Revenue - Fees imposed on construction-related activities and for the acquisition of other non-business permits (e.g., bicycle license, house-moving permit, etc.).

Private Contributions - Funding received from various nongovernmental entities usually placed in a trust account providing for a specific dedicated purpose.

Property Tax - A tax levied on the assessed value of real and personal property. This tax is also known as *ad valorem tax*.

Property Tax Rate - The level at which all assessed property within the City limits is taxed. The City Council establishes the City's tax rate. For FY 2013-14 the rate is .003465.

RDA - Abbreviation for **Redevelopment Agency**.

Refuse Collection Fund - An *enterprise fund* which provides weekly trash pickup, an annual curbside pickup of large or oversized debris, leaf bag removal and weed removal, as well as funding for the Sustainability & the Environment Division of Administrative Services. Fees and expenditures are directly related to the services provided.

Reserve Funds - Similar to *fund* balance. This term is used to identify a surplus of cash or other liquid assets.

Revenue Bonds - Certificates of debt payable from revenues to be derived from a specific revenue source. For example, water line installations that are funded by revenue bonds are payable by revenue received by selling water to the public.

Revolving Loan Fund - A *fund* used by the City to provide low-interest loans to business in order to stimulate business development and expansion, encourage private investment, promote development and enhance neighborhood vitality.

Risk Management Fund - An *internal service fund* which provides central employee health and life insurance benefit packages, maintains worker's compensation and unemployment compensation programs, in addition to the City's insurance coverage of real and personal property.

Special Assessment Area (SAA) - A geographic area defined by the Legislative Body that encompasses properties that will receive capital improvements. Those capital improvements will be repaid by levying assessments on the property owners benefitting from the improvements.

Sales Tax - A tax administered by the State, imposed on the taxable sales of all final goods. Salt Lake City receives one percent of the total 6.6% general sales tax, and one percent of the total 7.6% restaurant sales tax.

Sales and Excise Tax Revenue Bonds - An obligation that has resulted from the issuance of sales tax bonds. Sales tax bonds are bonds issued by the City are secured by the City's general sales tax taxing power.

SCBA - Abbreviation for **Self Contained Breathing Apparatus**.

S.B. - Senate Bill from the Utah State Legislature, Senate.

Sewer Utility Fund - An *enterprise fund* established to account for resources, expenditures, capital purchases and construction for all activities providing a sewage collection and treatment system to Salt Lake City.

SLC - Abbreviation for **Salt Lake City**.

Salt Lake Donation Fund - A *fund* used to account for individual private and intergovernmental contributions held in trust by the City for the Tracy Aviary, Late Night Basketball, Bicycle Advisory Committee, Freedom Trail, Indigent Services, and other contributions received to be held for a specific purpose.

SLCTV - Abbreviation for the **Salt Lake City cable television local access channel**, located on cable channel 17.

Small Claims Judge Pro-Tempore - A licensed Utah attorney, who has been sworn in and appointed by the Chief Justice of the Utah Supreme Court to act as a temporary Judge to hear Small Claims Cases voluntarily.

Sources - All revenues and other receipts derived by the City including transfers from other funds, appropriation of prior years' earnings, proceeds from the sale of bonds, lease agreements, or other obligations excluding the proceeds from short-term tax anticipation notes.

Special Assessment Funds - Same as special improvement fund; a fund used to account for the cost of servicing the debt created by financing the construction of public improvements deemed to benefit the properties against which special assessment taxes are levied.

Special Revenue Fund - Funds used to account for certain property taxes, grant funds, and other special revenue legally restricted for specific purposes.

Street Lighting Special Assessment Fund - A *special revenue fund* to account for monies associated with the installation and operation of streetlights in special lighting districts. Property owners share in the cost of the additional lighting.

Street Lighting Enterprise Fund - An *enterprise fund* established within to account for resources, expenditures, capital purchase and construction for all activities related to providing citywide street lighting infrastructure.
