2200 West Zoning Map Amendment	Dave Iltis	Live Public Comment	
Budget Amendment 4	George Chapman	This BAM has shovel ready Foothills Trails projects that should qualify for federal help. Assuming that the federal government passes another stimulus bill that encompasses infrastructure, the majority of SLC suggestions for using the funding should go to the potential for a world class Salt Lake Foothill Trails System. I support the \$300,000 budget amendment for the Plan.	5
Budget Amendment 4	Heather Newell	Greeting City Council- Thank you for considering the additional funding for the Bridge to Backman. I want to echo James Rodgers comments regarding the importance to funding the whole project. If not funded or only partially funded, this would still leave a big empty eyesore in the Westside community. The empty lot we are wanting to improve serves as a message to our community about the investment the city is willing to make in us. 900 South, on the Eastside, gets ANOTHER facelift and Rose Park fails to be properly invested in. With the 600N/700N plan underway, this is a great way to beautify and enhance the corridor. Please consider the importance of the project on a school and community and needs and deserves beautiful spaces to enjoy. Best, Heather Newell Principal, Backman Elementary	n/a
Cleveland Court	Amy Stoker	Live Public Comment	
Cleveland Court - - Submitted 4/1/2020 at 3:28 p.m.	Eric Miller	Esteemed Council Members, I am writing you about some concerns that I have of holding Council meetings in a business as normal fashion. Things are not normal! I have several issues. I received my notice for the meeting last week and since then have spoken with 4 of my close neighbors and 3 of the 4 were not aware of it. They or their spouses have not seen or received notices. I know that all 3 (6) of them are opposed to the changes. Fortunately I informed them of the meeting so they can participate. Under normal circumstances I would copy my notice knock on doors and encourage my neighbors to participate in the process. I am very reluctant to do that under current conditions and it would be socially unacceptable for me to do so. I have always attended public meetings in person, I have face timed a few times and it is a poor substitute for being there. I prefer to hear everything see people's faces and reactions etc. Also I am technologically challenged and don't own a computer so it my be difficult or impossible for myself and others to participate in the meetings. I feel it is unfair to the residents of our neighborhood to limit our ability to meaningfully engage in the public process. When we can't personally interact with each other it severely diminishes our ability to organize and voice our collective concerns. At the Planning Commission meeting there was a large number of people in attendance some of which made comments some that didn't. There were 14 comments against 1 for ,an associate of the developers, and the changes still passed overwhelmingly. The petitioners seem to always have the advantage,all they have to do is sit back and wait for the normal outcome. I would hope that in the current conditions it would be considered to postpone all meetings 60-90 days or at the least extend the comment period and decision for 60-90 days so that all those concerned can have their voices heard as we try to protect our surroundings. We all have much more immediate and pressing things to do! Please help us by doing what we should all be doing, putting off business as normal for a month or two. Thank You, Eric Miller	5

Cleveland Court - - Submitted 4/3/2020 at 1:58 p.m.	Eric Miller	Esteemed City Council Members, I hope you are doing well dispite our current situation. I am writing you about zoning changes for a proposed development, Cleveland Court, located on 4th east and Cleveland Ave. I have lived at [REDACTED] E for 30 years or more, in that time things have changed a bit, mostly for the better. Originally the parcel in question had a small two story house with a garage and a shed or two. An elderly couple lived there,I rarely ever saw them. At some point the husband passed away and it was just the wife for 15 years or so. She didn't drive but her children would visit now and again. After she died the house was vacant. It was purchased by two contractors that I am acquainted with, one of them owned the house directly to the north. They obtained a zoning change so that they could put 3 units on the lot instead of the maximum of 2 it was originally zoned for. I attended that meeting and all there except those 2 were opposed to those changes. Of course they received their change. That development never happened for several reasons and the lot has been unused for a number of years. At some point someone purchased the lot in question and the house and lot to the north. Both parcels were then re-subdivided, shrinking the lot to the north and enlarging the one to the south. Now there was enough room to put 5 units on the southern parcel. The current developers want to have the zoning changed to accommodate 7 units. From a large lot with a small house, fruit tress, grass, a cooling summer breeze, and a Little Old Lady how didn't own a car lived, to a 7 unit complex that fills the lot to the edges, 7 groups of tenants with all their cars, trailers motorcycles and stuff. That is basically a 700% increase in usage over what it has been for the last 30 years! Myself and many of my neighbors attended the Planing Commission meeting in January, many of us made comments,some did not.Of the 15 comments 14 were in opposition to the changes, the only one for, was obviously from an associate of the developers. We have many concerns, parking, congestion,set backs, noise, views, etc. but the number of units was shared by virtually everyone as the major concern. **Continued Below 1 of 5	5
Cleveland Court - - Submitted 4/3/2020 at 1:58 p.m.	Eric Miller	2 of 5 **Continued from above Most of the apartments in the vicinity are 4 units a couple are 5. most of us realize that we can't stop development but agree, reluctantly, that 5 units might be acceptable but 7 is too many! The Planning Commission after listening to our opinions made a few comments to us. One member told us she had done her "due diligence" and driven by the parcel a couple of times, a Sunday morning and a weekday evening, she didn't get out of her car! She thought there was plenty of on street parking in the area and that most of our concerns were negligible, and stated, we were just " afraid of change." Several of us talking together afterward thought her attitude was dismissive and condescending. We were all surprised and disappointed when they voted almost unanimously in favor of the zoning changes. It seems our opinions don't matter and had little or no influence at all, even though we are the ones who will have to live with results every day for decades! Whereas the Planning Commissioners and developers will not be impacted at all. Before I moved to my current home I lived near Sugar House Park and used it frequently. There was a Public hearing for the first office building to be built to the west of the park. Many of the people at the meeting were concerned that the multi story building would block the sunset view that we enjoyed from the park. The developers and zoning commission assured everyone that the building and future development would not block the view. You can still see, or not, the results. That office building is still 5 stories or more above street level and subsequent developments have blocked most of the rest of the horizon. It seems that these types of results are the norm from this and other situations I've seen and been involved with over the years. It seems that this is what we get when we trust the Authorities and developers to do what the majority desire. It seems that the only real concerns are how they can maximize tax revenue, and profits for the developers. It does not seem to matter what the residents want, and we are the ones that live with the results. I have several concerns with this development that will impact all of the local residents. The first and I think the largest is the lack of off street parking and the congestion that will be created. There is a 4 unit apartment 2 lots south of me that has 12 vehicles associated with it, I have the pictures. The new development in question has 7 units with 8 parking slots, at the minimum I would expect at least 14 vehicles to be parked in the vicinity and that number could easily be higher. There could easily be 6-10 or more cars parked on the street. **Continued Below	
Cleveland Court - - Submitted 4/3/2020 at 1:58 p.m.	Eric Miller	3 of 5 **Continued from above* This could create several problems,especially considering the narrowness of Cleveland Ave. which already has very limited space, with a small number of parking spaces on one side only. Several of these spaces are already frequently used by current residents. Emergency vehicles may be hindered! There will not be anywhere for visitors to park, and it will much more difficult for all traffic to navigate a street that can already be tough at times.There are also potential problems when it comes to snow removal. It will be difficult with all the parked cars, narrow set backs, lack of parking strips, driveways and sidewalks, there is very little space to pile snow. With the proposed set backs the buildings will only be about 5' from the sidewalk and about 9' from the street, there is no parking strip on either side and the homes on the south side of Cleveland are close to the street as well. There are several other concerns with the narrow set backs and on street parking. For the existing residents that have garages on the alley access in and out will be hindered, entering and exiting the alley will be difficult. I already have to jockey my way in at times because of parked cars when I am in my work truck, this will likely be a daily occurrence when this development is completed, regardless of the number of units. When exiting it will be difficult for us to see cross traffic from the east as the building will block the view and the view to the west is already almost completely blocked by a fence, a result of poor zoning regulations. It is inconvenient at least and potentially dangerous for those of us that use the alley. The residents on the west side of the development will likely find it difficult to access their garages because of the set backs. One of them is about 16' from the edge of the alley, mine is over 22' and I can just barely make it in and out without jockeying around, and I have a tight turning radius. Access for the garbage and recycling bins could also be difficult at Cleveland Court, and for the garbage truck that services the apartments along the alley. *Continued below*	

Topic	Name	Comment	District (optional)
Cleveland Court - - Submitted 4/3/2020 at 1:58 p.m.	Eric Miller	4 of 5 **Continued from above* Also, with narrow set backs and 30' tall walls there will be a micro climate that could drastically affect the current residents to the south and also those move in to the complex. It will be like living in an oven and with the layout of the complex there will be little chance of cooling breezes. Andrew, Hiedi and their children who live to the north will no longer enjoy sunshine coming through their windows, maybe a little at the height of summer. Instead they will be enjoying the growl of 7 AC compressors day and night all summer long, and a blank slab of wall 30' tall instead of a view of the mountains. Several of the neighbors to the west are also concerned about their blocked view. In addition these tall walls on all 4 sides are mostly slabs with garage doors and few windows, it would be more appropriate in an industrial complex than in a neighborhood with about 95% single family homes that are more traditional architecturally. There is very little engagement with the the community and unless the design has changed all access is from the internal courtyard. No sitting on the porch and saying hello to the neighbors. It is similar to designs I have seen in the Middle East and other areas where they have tall walls, no windows, a fortified entrance and a"Courtyard." One of the goals with the zoning changes is to engage the neighborhood and fit in. This development will do neither. These zoning changes make no sense, other than dollars. We are not close to any major transit lines Trax etc. only a normal bus route on 5th east. An acquaintance of mine that used transit regularly found it slow and difficult to use in this area. An extra 2 units will have little affect on the housing marketing in this area, but it will negatively affect our neighborhood and likely be less desirable for those who might choose to move in to Cleveland Court. Even if the existing zoning is left in place, 5 units instead of 7, increased set backs on the front and sides and an increased set back on the north, all of these concerns and many more will still exist. It will still degrade the quality of life in the neighborhood in these and many other ways, just a little less. It would be nice if we could think a little more about Quality of life, not Quantity of life.**Continued Below	
Cleveland Court - - Submitted 4/3/2020 at 1:58 p.m.	Eric Miller	5 of 5 **Continued from above* Please Council Members, for the benefit of all of the residents in the area, myself, and the future residents of Cleveland Court, I hope you can take some time to come and visit our neighborhood in the next few days, if you haven't already. Please get out of your car and walk around for a little while, experience the surroundings first hand, and think about the unique circumstances involved in this zoning decision. Use your insight to envision what it could be like in the future. And please encourage the other council members to do likewise, We would greatly appreciate it! You and your fellow council members are our last hope to preserve the character of "Our" neighborhood. We would prefer a Community Garden a micro park or single family home, 4 units instead of 5 would be nice. Seven units is Unacceptable! We are not afraid of change, just change that will deminish our quality of life! Thank you for your time, and your service to our community. Sincerely, Eric Miller	
Cleveland Court Rezone & Master Plan Amendment	Bill Davis	Dear Council members, I would like to express my support for this proposal. I live about a block away. This development is located within a cluster of higher density zoning in the middle of Liberty Wells. Several other higher density developments have also been built in the close proximity. I think this is totally appropriate. One of the issues facing SLC is the lack of affordable housing. Fundamentally it is an economic issue of supply and demand. There is a significant demand and mush less supply - hence higher prices. How are we ever going to provide the supply if we don't build housing!!! Most everyone agrees that we should have more housing - - but they think it should be built somewhere else. Unfortunately this is the same complaint you here everywhere so if one gave excessive weight to this issue, very little housing would ever be built. Another argument in reference to this particular development and the reason for the rezone is to allow a couple of more units so all of them will be a bit more affordable. Complaints I have heard at the Liberty Wells Community Council is not surprisingly - parking. Or the implication that there isn't enough provided and there is a vast shortage of public parking in the surrounding area. As I recall all of the units have off street parking and there is plenty of on street parking for residents that have guests or a second car. To repeat - there is plenty of public parking in the adjacent neighborhood. Other complaints I have heard is that LW's is a single family neighborhood and a multi-unit development will somehow sully the neighborhood. To digress, I've never understood why some people think single family housing is sacrosanct as if it is a superior form of living. I don't agree. I think it is one of many choices that are available to all of us. To get to the point, LW's (I've lived here for almost 20 years) is not an exclusive single family home neighborhood. It is a nice mix of single family homes, some higher density housing, some small commercial businesses primarily in the interior, larger commercial on the perimeter and finally a very large park. In other words this is a real neighborhood! In conclusion, I feel that this project will benefit and fit in with the neighborhood and would encourage you to approve the rezone. Bill Davis	5

Cleveland Court Rezone & Master Plan Amendment	Cindy Cromer	<p>Dear members of the Council,</p> <p>I don't have the new system figured out yet. I am writing to express my opposition to the proposal before you tonight in the RMF-35 zone called Cleveland Court.</p> <p>1 The applicant is ALWAYS distinct from the project. In this case, the applicant Peter Coroon is just fine, but the proposal is an example of the dysfunctional cherry picking that has been going on with respect to the zoning ordinance for years during the building frenzy.</p> <p>2 There are plenty of places for increased density in the City at this point without sabotaging our lower density neighborhoods.</p> <p>The City has failed miserably to provide incentives for the redevelopment of nonconforming uses, surface parking lots, and single story commercial buildings.</p> <p>3 The FBUN-1 and -2 were developed at the request of the RDA specifically for the West Gateway and were applied in a comprehensive rezoning there. The zones were adopted City-wide unfortunately and have been applied piecemeal elsewhere. Some of you will recall that you had to fix the FBUN-2 because there were no setbacks unless the abutting zone was FBUN-1. In other words, these zones as developed were intended to be used as part of a comprehensive rezoning.</p> <p>4 As someone who has lived in the Bryant neighborhood for 45 years, I will tell you that you do a profound disservice to a neighborhood when you give a property owner development rights which the abutting property owners do not have. That is the reality I live with; I can't do what my neighbors can do with their property.</p> <p>5 Finally, I don't know how the City can think that it has a handle on compatibility when the proposal includes side-by-side garage doors as close as possible to the public sidewalk.</p> <p>I realize that the historic house has already been demolished and that there is a history of prior approvals and positive recommendations, but this cherry picking of zones needs to stop. We need to deal with our wonderful neighborhoods comprehensively, not erode them piecemeal.</p> <p>Sincerely, cindy cromer</p>	n/a
Cleveland Court Rezone & Master Plan Amendment	Eric Miller	Live Public Comment	
Cleveland Court Rezone & Master Plan Amendment	George Chapman	<p>This proposal misuses the FB-UN1 zone and should be rejected. Parking is important in the single family home neighborhood.</p> <p>In addition the front and rear and garage setbacks create what I call a modern brutalist architecture that is not appropriate in ann area that is trying to protect the many single family home zoning in the area. This rezone WILL encourage destruction of the blocks of single family home zoning across the street.</p> <p>Similar higher density housing in the area has become run down and attracts a lot of criminal activity and has caused a reputation of criminal activity. The area already has problem controlling crime in the area and increasing density would exacerbate the situation.</p> <p>Ironically, State Street is a few blocks away and could, should and would provide better mixed use and mixed income housing and that should be the priority.</p> <p>This project WILL replace a single family home. Single family home neighborhoods should be protected and walkable neighborhoods with mixed use and mixed income should be encouraged on streets like State Street. Look at the pictures in the Staff Report. They show single family homes surrounding the project. Multi family units within 3 blocks is not a good reason to destroy a single family home neighborhood.</p> <p>Note that a majority of a significant number of neighbors that attended the Planning Commission were furious at the proposal (many more than 2). Good government should not be making citizens angry.</p> <p>And I still love Peter Corroon.</p>	5

Topic	Name	Comment	District (optional)
Cleveland Court Rezone & Master Plan Amendment	Josh Newton	Council, I would like to comment on the zoning changes for Cleveland court. I am not opposed to something being built on the lot but i think the current zoning and setback allows for the developer to design and build an appropriate building. The proposed zoning change will set a precedence for future developers wanting to change from RMF-35 to FB-UN1. This change allow too much freedom for the contractor to do what they want. Lets keep FB-UN1 in the areas its supposed to be - near the transit lines. The smaller setbacks are going to be a safety issue. The driveway coming on the south side is only 10'-6", this doesn't allow a midsize car to even park temporary. Cars will parked over the sidewalk, creating people to walk in the road. this will only add to the traffic issue on Cleveland. Cleveland is already a skinny street having to back out is going to be tricky, then add in parked cars on the south most side. Cleveland is a thru street from 3rd to 4th east and no one goes 25 mph on it. Plus you add the parking on the south side and it becomes a one lane road. This becomes a real dangerous sidewalk for kids and parents to travel. A 5'-6" front yard is not an allowable amount of front yard. All the houses on Cleveland have at least 9'-6" of front or side yard. The goal of these developments are to create space that blends into existing neighborhood. By turning all the front yards into the center, this not only alienates the new residents but also the current ones from entering. This type of courtyard doesn't engage the neighborhood but pushes it away, to create its only micro neighborhood. i see this courtyard attracting homeless and criminals. I think the current zoning and setbacks should stand and not allow these changes. Thanks Josh Newton	n/a
Cleveland Court Rezone & Master Plan Amendment	Josh Newton	Live Public Comment	
Cleveland Court Rezone & Master Plan Amendment	Leonard Bryoce	A voicemail was left by a constituent who is concerned about the plan to turn 1430 S and 400 E into a medium density residential area. Leonard Bryoce is his name and he is concerned that this will turn his neighborhood into a terrible place for single family residents.	5
Cleveland Court Rezone & Master Plan Amendment	Peter Corroon	Live Public Comment	
Cleveland Court Rezone & Master Plan Amendment	Ryan McMullen	SLC Council / Planners, I spoke in this evenings meeting regarding the Cleveland Court development on 1430 S 400 E“ Parcel #16-18-204-032 (excuse my atypical nervousness). My comments felt a bit scattered and short, so I wanted to provide additional feedback via e-mail in a more organized fashion. As mentioned in the meeting, I am a licensed architect used to being on the other side of the microphone proposing projects and asking for zoning amendments, so I understand the process and am not anti-development. I do want the council to recognize their power to control RESPONSIBLE re-zoning and neighborhood in-fill development. The residents of this neighborhood would very much like to see this property developed with a size & unit appropriate project. This site is already zoned for a multi-family project (RMF-35)“ zoning which should be more than adequate for an apartment / condo development to be designed and responsibly / sustainably executed. A few of my bulleted comments / concerns: - Zoning Change AND Planned Unit special exception ??? This project is seeking a Master Plan Amendment, Zoning Map Amendment, AND Planned Development modification. In short, they are asking to change the zoning, and in the same breath asking for an exception to the zoning regulation they are applying for. The developer representative mentioned the setbacks they are asking for are larger than code requires, but the diagram at the bottom of this e-mail (from the staff report) corrects that statement. Pandora's Box“ This re-zoning precedent sets a dangerous example for irresponsible future development in our city. Allowing a property with no justifiable challenges to re-zone to form-based zoning for more units / density will open the flood gates to any parcel of land to justify zoning-free design moving forward. Form based zoning makes a lot of sense where it belongs in higher density, transit oriented development, NOT adjacent to a single bus-line in a residential neighborhood. Meet in the middle: As mentioned, would very much like to see this property developed, and not opposed to a multi-family project here, just want to make sure all factors are accounted for. I would ask that if the project is approved, they are required to adhere to current zoning regulations, setbacks, density, etc. “ WIN-WIN! - *Continued Below* 1 of 3	n/a

Topic	Name	Comment	District (optional)
Cleveland Court Rezone & Master Plan Amendment	Ryan McMullen	*Continued Above* 2 of 3 Community Council Approval“. The developer representative mentioned the project was WIDELY approved in the Liberty Wells Community Council. I would like it to be on public record that NO pointed notices of this development were distributed to the surrounding neighbors regarding this particular topic. Although we did receive notices for both Planning Commission and City Council, we were unaware the process had begun months prior. Had we been able to voice our concerns earlier, the project design may have taken on a more acceptable shape to neighbors. Public Notice Distribution Requirements “I would ask that the council look at public notice distribution requirements to adjacent property owners and confirm at what point in the project they are required or not. If they are not required during community council phase, they should be as these are the most important voices in the process. Please let me know if these are required or not for community council meetings. Planning Commission Notes“ Look back at previous meeting notes and you'll notice that the project was spoken against by +95% of attendees. The only positive comments were by developer representatives, NOT the residents of this neighborhood Green Washing: Solar panels on the roof do not mean a project is sustainable“ more interested in hearing about all electric options to HVAC systems design, alternative landscaping approaches, increased building envelope design, etc. Not enough information has been presented to date to make a case for this. Sustainable Requirements “ I would ask that if the project is approved, that sustainable guidelines are mandated on the developer - i.e. LEED Residential, NGBS - National Green Building Standards, Energy Star, Utah High Performance Building Standards, or similar. *Continued Below*	n/a
Cleveland Court Rezone & Master Plan Amendment	Ryan McMullen	3 of 3 *Continued Above* If the city / community grants exceptions to the higher project density, unit count, and setbacks in the name of smaller, more sustainable units, the project should be truly held to more justifiable sustainability requirements. Parking / Traffic The residents of this area prefer the quieter walkable streets of this micro-hood to the busier neighboring thoroughfares of 500 E, 700 E, or 1300 S. We live on Blair Street, Cleveland, and 400 East because they are lower traffic, lower speed streets for our families. The proposed parking reduction requests will create additional vehicle traffic, parking challenges, vehicle congestion, and frustrated neighbors. Traffic / Parking Study Requirements“ If this project is approved as proposed, I would ask that a full traffic and parking study analysis of the neighborhood is included in the final approvals factoring in realistic models of future vehicle use directly impacted by this development. As mentioned in this evenings meeting, Cleveland is already narrow, and deserves a decent set-back for the safety of the residents. Decreasing setbacks AND waiving parking requirements will create a safety issue for our neighborhood kids. In closing, would like to say thanks to SLC and the Council for keeping a positive attitude during these tough times. Thanks for organizing the online format for the City Council meeting so our voices can be heard. WebEx format is certainly not fool proof just yet, but definitely a positive start. Look forward to meeting my great new neighbors when the project is realized, and hope the council recognizes the responsible decision of approving an appropriately scaled unit count on this site. Funny that a few years ago when I was building a garage that uses the same alley as Cleveland Court, I was told I had to shrink my proposed 22x22 footprint to account for the square footage of my chicken coop in order to maintain 40% lot coverage. Long story short I tore down the chicken coop to accommodate the zoning / density requirements of SLC. I would ask the council look at the standing zoning for the site and require the developer to design within current city standards. Sorry for the long e-mail. Stay healthy and positive! Thanks, Ryan McMullen, AIA, LEED Green Associate Also, if the council has not already read the article below regarding the potential impact of this re-zone, I recommend they read the link below: https://www.buildingsaltlake.com/form-based-zoning-coming-to-more-slc-neighborhoods-the-case-of-cleveland-court-in-liberty-wells/	n/a
Cleveland Court Rezone & Master Plan Amendment	Ryan McMullen	Live Public Comment	
COVID-19	Dominic Furano	To whom it may concern: I have learned that there are Salt Lake City Public Library services still operating during this pandemic. I am not a health expert, but I am concerned that continuing operation of any public library services poses a risk to Salt Lake City citizens considering the very public nature of all library work. This includes receiving and handling library materials. Also, the inter-library loan service of the public library seems particularly risky and could be a probable vector of the interstate spread of coronavirus. I am asking the mayor and city council to strongly consider ceasing all library operations and requiring all library staff to remain home until this public health crisis has abated. Thank you, Dominic Furano	n/a

COVID-19	Emily Hacker	<p>Hello council members,</p> <p>I am writing to express my concern as to why Salt Lake County has not been issued a shelter-in-place order. I believe Summit County set a good example today by issuing a similar order and Salt Lake should follow that example. By the end of this week, 500,000 people around the world will have COVID-19, the US is on-track to pass Italy in the number of confirmed cases, and more than 20,000 people have died.</p> <p>As an EMT, a Master of Public Health student, and as someone who lives with two elderly people, one with pre-existing respiratory conditions, I am doing my part and staying home. But I have deep concerns that others are not taking this situation as seriously; as seen with the hundreds who gathered at the airport to greet returning missionaries.</p> <p>While Utah is not seeing the same number of cases as New York or Washington, without further stricter guidelines, I believe we will be there. Please help me protect my elderly parents and my patients by implementing a shelter in place order for Salt Lake City.</p> <p>Thank you,</p> <p>Emily Hacker</p>	n/a
COVID-19	Link	<p>This is a plea from a salt lake county resident since 1992. I live with my elderly mother, I must ask you from the bottom of my heart to please take STRONGER action against the spread of Covid19. I can tell you as an every day normal resident people are not taking this seriously! And the good people of the Wasatch front will want answers when the death toll rises.</p>	n/a
COVID-19	Lucie Hacker	<p>To the City Council: I am writing in regards to an online article published by the Desert News last night entitled "Shelter-in-Place Salt Lake County Council Members Question if More Should be Done to Slow Coronavirus". I strongly urge you to encourage county officials not to put out a shelter-in-place order or lockdown unless absolutely necessary. It is a drastic measure that I believe will do more harm than good. First, I do not think it is up to any government to protect its citizens from themselves. People need to take responsibility for their own actions, including those regarding their health. I understand this is a fine line in a pandemic situation. Public health guidelines are in place not only to protect individuals but also communities. However, as an at-risk person myself, I feel it is largely up to me to not go into crowded places or participate in large gatherings, practice proper hygiene, stay away from people with exhibiting symptoms, etc. It is not sustainable for an entire locality, let alone state or nation, to shut everything down due to an illness that is fairly mild for 80% of the population. People are ultimately responsible for themselves. Going along with this, the people of Salt Lake have done a great job so far following CDC and local health guidelines. The notable exception was the large gathering at the Salt Lake International Airport earlier this week where hundreds of friends and family members greeted returning LDS missionaries from over-seas. However, the community's and LDS church's reactions to that gathering indicate that most people take COVID-19 and the current measures for mitigating it seriously. If most people are monitoring themselves, then I see no need for the government to further restrict their movements. Salt Lake has the opportunity to provide an example to the state and country in this respect. Second, Salt Lake City is unique for its vibrant local business community. The local economy is already under significant strain due to COVID-19 and businesses are working creatively to remain open while also protecting employees and customers. Shutting down business can only damage our local economy and possibly have wider repercussions as well. *Continued Below*</p>	n/a

Topic	Name	Comment	District (optional)
COVID-19	Lucie Hacker	*Continued Above* We risk losing many businesses that contribute to Salt Lake's diversity and embody its character; removing the buying power of individuals who own or work for local small businesses; incurring municipal, county, or state debt to bail out businesses, which will have to be paid back through increased taxes; and increasing the homelessness problem if people lose their jobs and have no other recourse. Again, Salt Lake can lead by example by keeping the local economy as strong as possible during this time. Finally, a shelter-in-place order or lockdown is impossible to enforce without imposing martial law. This would divert our police force from more pressing issues, such as the increase in domestic violence calls departments have recently received that are due, at least in part, to more people sharing close quarters in a stressful situation. Even if police were solely charged with keeping people in their homes, it would still be an impossible task. They cannot be everywhere at once, and it would require people to tell on their neighbors, which many wouldn't do. Most important, enforcing a shelter-in-place or lockdown is unconstitutional. Desperate times call for desperate measures, as the saying goes, but our current times are no more desperate than previous eras and we do still live in the United States after all. I want to close by emphasizing that I understand the complexity of this situation. Coronavirus poses many unknowns and I think everyone wants to help the most vulnerable members of our community. However, it is crucial we do not act out of fear and remain as rational as possible. For example, instead of bailing businesses out, can the state or county provide incentives to businesses to provide goods or services for combating the virus in some way? Such a measure would keep more people employed, give local businesses a boost, keep money flowing in our economy, and help mitigate coronavirus. Involving more people would also better educate the public, and get more individuals on board with current measures and guidelines. Thank you for all you have done so far. I am confident you are doing your best to handle this situation appropriately. Sincerely, Lucie Hacker	n/a
COVID-19	Margaret C.	Dear Council Members, I wanted to write and say that I fully support an evictions freeze for people who cannot afford rent due to loss of work or hours because of coronavirus. But PLEASE, PLEASE do not give nuisance/criminal tenants a free pass while trying to protect those with genuine economic hardships in these troubling times. My husband and I have had to share a duplex with other tenants who have brought criminal activity to the property where our son lives, and we are terrified they will be even worse if they think there will be no consequences for their actions. Please do NOT give criminals, nuisances, and genuine lease-breakers a pass. Protect those with genuine hardship, but please, please DO NOT protect people who are just criminals from being deservedly evicted from a property where they are endangering a child's safety. Our landlord was preparing to move forward with getting them out and now we are terrified they will get to stay indefinitely and continue making us fear for our son's safety. The foot traffic thanks to the other tenants in our duplex is out of control, and at this point we have concerns about our health on top of the illegal activity. Please do NOT let them have a free pass or to benefit from protections meant for those facing genuine hardship rather than consequences for willful criminal and nuisance behavior. Thank you, Margaret C. SLC Citizen	5
COVID-19	Mark Anderson	Hi,. I saw on the news that the council were discussing a WORK at Home initiative to help curb COVID19 Spread. I also read the Governor has already asked business to help by doing this where possible,. Here is the problem, and why I and I am sure many other need HELP. My boss is very short sighted, he insists that ALL employees come to work as normal. No exceptions (except Him, he is at home !) I work in a small office, there are 9 of us in the office, but we have 300 sales agents (who are independent contactors). So, these agents come into the office periodically and then leave to go out to clients premises etc. We have already setup the office to be 100% operational with work-at-home, but my boss refuses to send people home. Instead we have a constant stream of agents visiting the office all day. There are never more than 10 at a time, but surely that doesn't matter, it's the total per day/week etc . My boss hasn't provided any protection (no sanitizer, no distance rules, nothing). I am scared, I have a elderly father at home who has 18 months to live (cancer). I am scared that a sales agent will bring the virus into the office, I will get it and then he will die, as he is extremely weak. I can't even quit this job, as no-one is hiring. I can't afford to be without work either, I am a sole bread winner. PLEASE PLEASE, think of the people like me, who are forced to expose ourselves daily (with no protection) to many people and who's boss doesn't seem to care. I have never felt the need to ask my local government for help before, but I implore you to issue an order that tells employers they must send people to work at home, when possible	n/a
COVID-19	Matt Dietz	Why is The Depot still operating and holding concerts and dance events? I like this place and have been there several times for concerts. I'm in a high risk category, almost 60 with diabetes. Just found out my step daughter who remains to be clueless on social distancing, attended a dance there on Saturday. I thought SLC temporarily shut down non-essential businesses?	n/a

COVID-19	Mellisa Larsen	Hello, I am writing to you out of concern. On my way to and from work I pass two parks and live near a church. I major concerned for the amount of people still being seen gathering at churches and local parks, especially Liberty Park and Sugarhouse park. On the weekends it looks like they are having a festival with the amount of people out there. I am not sure where to direct my concern but I figured here is a good place to start. What is being done about enforcing stay at home orders?? Thank you, Melissa	n/a
COVID-19	n/a	A constituent called into today to ask the Council to apply pressure to the Governor to shut the state of Utah down due to the Covid-19 pandemic. Additionally, she expressed frustration with Pine Creek Rehabilitation Center being turned into a Covid-19 treatment area. She stated that if this was a wealthy district this wouldn't be tolerated but believes that this is only happening because it is a poor district. Pine Creek Rehabilitation and Nursing is in District 2	2
COVID-19	Walt Haas	Greetings, Yesterday I was at the trailhead near Morris Reservoir on 18th Avenue. I noticed two signs posted near the trail entrance advising about proper precautions against passing COVID. This is a great idea, especially because our great trail system gives us the opportunity to have fun and get exercise while maintaining social distancing. HOWEVER one of the signs looks like a wall of fine print, with good advice I'm sure but I might be one of the few people who actually read it all. The other sign isn't much better. Could we get some advertising experts to rework the trailhead notice to better attract attention and communicate the message more effectively? This should be possible, especially with the number of people in advertising looking for something to do. Thanks in advance. Walt Haas [REDACTED]	3
Ellie Development and Preliminary Plat	Mike Reed	Live Public Comment	
Ellie Development and Preliminary Plat	Rose Park Brown Berets	Greetings City Council Member, If the rezoning to Multi-Family residential contributes to the ELLIE DEVELOPMENT we would like you to VOTE AGAINST the rezoning change. We don't have an alternative plan, but we know that this project will displace the tenants that live next door in the Section 8 housing. The developer plans are to take down one of the section of the Country Oaks Apartments that is closest the property. If the families have to return to the shelter, they are at a higher risk of being exposed to the Covid-19 virus. Please consider this when you vote. We as a city have the capacity to stop gentrification and to create communities that holds people over profit. We are writing this letter to oppose the proposed Ellie Development and Preliminary Plat plan at 347, 353 & 359 North 700 West. Our neighborhood is being gentrified and working-class and poor families are being pushed out of the community. This new development would create an influx of more affluent residents and businesses. Creating upward rent pressure that will lead to the displacement of Rose Park residents. We cannot continue to repair neighborhoods at the cost of residents who have devoted their lives to creating these spaces. We cannot continue to increase attraction to an area by people with higher incomes spilling over from neighboring cities, towns, or states. We need more affordable housing complexes and not fancy, expensive apartments and condos. If this project is built, the first to be affected would be the Country Oaks Apartments I and II, a Section 8 housing complex that is home to more than thirty families. To preserve the integrity, character, and culture of Rose Park, please reconsider the development of this project and please consider this when you vote. Sincerely, Rose Park Brown Berets	2

Grant Applications	Dave Iltis	Live Public Comment	

Topic	Name	Comment	District (optional)
Grant Applications	George Chapman	Grant Applications for the 600/700 N FTN and 800 E Byway are questionable. The Grant Application for the 600/700 N FTN should stop if buses cannot reach the curb. UTA's managers in charge of the leased bus tires have expressed concern about scuffing of the tires and have ordered drivers to stay one to 4 feet from the curb! So, even a million dollar bus stop is a waste of money if riders have to step further down into the street and further up onto a bus. It actually will discourage ridership. The \$228,000 should be used to provide more frequent bus service. The 800 E. Neighborhood Byway is already walkable and the \$210,000 is a lot. If the money is to be used to install right hand only turns, I and I think the neighborhoods are against it. The 600 East Bicycle Boulevard plan did not make clear that there would be right hand only turns installed and they increase pollution. SLC should not increase air pollution.	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Alexander Griffith	To whom it may concern, Please accept this letter of support for The INN Between. The INN Between is a wonderful organization that we have worked with several times in the past as a private foundation. They make such an important impact in our community and I would urge that you reconsider your CDBG funding decision. Any amount funded can help this program remain sustainable. Kind regards, Alexander Griffith	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Annalyn Hegemann	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Please reconsider. Thank you! Annalyn Hegemann	4
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Annette Macintyre	To whom it may concern: I am a Salt Lake County resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. It is clear that the homeless will be disproportionately affected by the COVID-19 crisis. Cutting any funding to their care at this point could be especially catastrophic to them, as well as our community as a whole! Respectfully, Annette MacIntyre, MD FRCPC	n/a

I believe that they provide a vital and compassionate service for the least among us. Thank you for your service and reconsideration. Sincerely, Brad Dobson	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Brenda Koga	Dear Council Members: I am a volunteer with the Inn Between and live in District 7. I understand that you are cutting the CBDG funds allotted to the program. I urge you to reconsider directing those funds to support the facility. They operate under a bare-bones budget and do whatever they can to minimize costs yet maintain the quality of service they provide to this most needy population. Through my observations at the facility I can assure you that the funds are well spent. I appreciate your time and hope you will reconsider funding this most needed program. Brenda Koga	7
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Carl Thummel	I am very concerned about the proposal to reduce funding for the homeless in Salt Lake - in particular the federal HUD funds distributed by the SLC Community Development Block Grant program for the INN Between . I realize this is a difficult time but this is a group that has done so much with so little as it is and this is a great humanitarian need. Please continue to help them with any amount that you can to sustain their program. Thank you. Carol Jent, RDH, BA Clinical Affairs Dental Hygiene Advisor	n/a

Topic	Name	Comment	District (optional)
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Carolyn Akston	Dear City Council Members, I have recently learned that the latest budget effort does not include funding for the homeless hospice, and I ask you to reconsider. I know that you care and that all the choices you must make are hard. However, their funding is only in the tens of thousands and every dollar is well spent to keep homeless people from dying by emergency room visits. We will wind up having to pay for their medical expenses anyway, and the Inn Between is a MUCH more efficient use of those relatively modest funds. Also, in addition to the obvious need for care these people experience, the rest of us are affected by seeing them uncared for on the streets, which affects morale at this difficult time. Please reconsider, and fund the Inn Between for our most desperate and voiceless citizens. Sincerely, Carolyn Akston UofU student of social work	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Catherine Toronto	To whom ever it may concern and City Counsel Members, I am a Salt Lake City resident who has volunteered for years at The Inn Between and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Though it is only 3% is a small percentage of our absolutely necessary funding to keep the INN functioning for the many Salt Lake Residence that we provide safe, clean residence for. Most of our residence are, in fact, from Salt Lake City. We are able to supply a caring and supportive environment for our residence from a deeply committed staff and volunteers. This is an underserved community and your support deeply matters. Please come by and visit us at you convenience. Thank you warmly, Catherine Toronto .	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Christina Gringeri	Dear city council members, Please reconsider your position on funding the Inn Between. One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Cindy Spigle	Greetings Salt Lake City Council, I just found out that tomorrow (April 7th) is the last time to send in a comment on the next city budget. I would like to personally advocate for restoring funding to The INN Between (TIB). I know you have very difficult decisions to make as to allocation of the CDBG money, and there is not enough to spread as far as desired. However, I have been following TIB closely (live near them) and am so impressed with their mission and the compassion and professionalism they bring to fulfilling it. Any amount of restoration of funding will be very much appreciated and frugally utilized. I stand with my friends experiencing homelessness in our community, particularly as they face end of life and medical rehab needs. I know you care as well and thank you for your consideration of this matter. Thanks, Cindy Spigle	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Constance Baring-Gould	Dear City Council, I am a Salt Lake City resident and I urge you to reconsider your funding for the Inn Between. I understand that there is an urgent need to help the homeless in Salt Lake City, but the Inn Between needs funding to remain open and provide their care for the very ill and dying among the homeless. We must care for the poor, sick and/or dying members of our community. It is not only a moral and humane obligation but a public health issue as well. Before the Inn Between existed, my husband and I stood in the the cold in winter with fellow church members holding a candles to protest the fact that we had Salt Lake City residents dying in our streets. Please don't let us go back to those dark days. The Inn Between has my support and I hope you will make sure they have the funding to help them maintain their service. Sincerely, Constance Baring-Gould	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Deborah Thorpe	Dear City Council Members, I am the founder and current Nurse Supervisor of The INN Between and am really grateful for all of the support you have provided for this vital agency in the past. Historically we have received about \$46,000 from the Community Development Block Grant program. This represents only about 3% of our annual budget yet about 80% of our residents come from the Salt Lake City community. The need is great for all homeless service providers, however, even the small percentage of a cut in our budget represents a significant impact on what we can do to serve this community. I would urge you to reconsider the elimination of funding for The INN Between and know that we will appreciate funding at any level. Any amount that you can fund will help the sustainability of their program. I first hand, have seen the impact of this program for the staff, patients and community. These beautiful people would be lost or have died a lonely death without this service. As a community we must look out for each other, provide a better future for each other and build each other up. This is how you can help. As in life you meet the good the bad and the ugly. These people are good that want good, want a chance and want comfort in their final days or the support to make a new future. In all the conversations I have had with people at the Innbetween I have realized, this could be you, your mentors, your family members, your neighbors or your friends. What would you do if they needed your help in their final days? I hope you continue the support for such a great cause. Hailey Cherrington	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Heidi Franke	Hi there Ms. Mayor. I am a nurse with 30 years of experience. I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Please keep The INN Between funded. I was the nursing supervisor for approximately 6 months during the time The INN Between went from their provisional to full state assisted living (AL) licensing. Prior to that, I was a case manager for 9 years at the Huntsman Cancer Hospital and the University of Utah Hospital. It was such a struggle to find placement for homeless patients who needed to be off the streets due to their medical condition. The U of U would write up contracts to "house" these patient's in a skilled nursing facility where they really needed an AL which is less expensive for the taxpayers. Not to mention, how do we find a bed for a dying homeless patient? I have seen systems fail without investment in the disenfranchised population but I have also seen the beauty of it working really well. The VOA ACT team is one such example of money well spent. I think the city is best served by having a streamlined process with The INN Between, quality oversight and their funding continued. I hope your board and city council speak with professionals who deal with these issues on a day to day basis. Having had two sons's who were homeless on the streets from serious mental illness I know the issues first hand, let alone professionally. Sincerely, Heidi Franke RN BSN University of Utah graduate of Nursing	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Heidi Justice	Dear Council Members, I am the Executive Director of Utah Health and Human Rights. We have provide wrap-around services for refugee, immigrant, and asylee survivors of torture for 17 years. I recognize that all the recommended CDBG projects focus on homeless services. I attended all the consolidated plan stakeholder meetings and am disheartened to see that programs that work tirelessly to prevent homelessness have been overlooked such as ours. 99% of our clients have income less than 50% of the MFI. Our clients have overcome the unimaginable in their home countries and continue to face obstacles with mental health, poverty, language and cultural barriers, physical health, and ongoing trauma. We are the only refugee service provider in Utah who provides services without time limits. Survivors can access our services no matter how long that have been in the U.S. and they can actively receive services for as long as they need, whether that is 8 months, or 8 years. Without our services many of our clients would face homelessness, generational poverty and trauma, and chronic physical health needs. I hope that you will consider funding our program as an essential service keeping Salt Lake City families from entering homelessness. Thank you, Heidi Justice Heidi Justice Executive Director Utah Health and Human Rights	n/a

Topic	Name	Comment	District (optional)
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Hilari Jones	As a Salt Lake City resident who is concerned about the welfare of people experiencing homelessness, I respectfully ask you to reconsider your CDBG funding decision for The INN Between. Any amount you can fund will help the sustainability of their program, particularly at a time when public health is a concern for all, with vulnerable populations at even greater risk. Thank you for your consideration, Hilari Jones	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	James and Cecilia Tonna	It has come to our attention that the City Council has cut funding to The INN Between. We are Salt Lake City residents and believe that this facility provides an invaluable service to members of our community who are otherwise unable to care for themselves. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will benefit the sustainability of their program. The people who are served there are primarily from Salt Lake City, and, we believe, deserve to have end of life services provided when they have nowhere else to turn. Please do reconsider your decision. We live in the general neighborhood (1900 E & 900 S), an area filled with medical care facilities. This one is providing a service like no other. Please do not let such a facility fold for lack of funds or for lack of consideration by those who may indeed have a say in its viability! Sincerely, James and Cecilia Tonna	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	James C. Lewis	Dear Council Members: I just got word that the Mayor and Salt Lake City Council will be cutting off funding for The Inn Between“ this is being sent as my plea that you carefully reconsider this decision. The Inn Between is a wonderful organization that provides much needed, and otherwise lacking, services to the homeless community. Its funding is limited, and this decision by the City Council and Mayor will have a significantly detrimental impact on its ability to provide these services“ which will in turn only contribute to our homeless challenges. I plead with you to reconsider and continue the funding that is so needed to help sustain this important organization. Please do not cut funding which would mean the individuals being helped would have no other means for services. I know you have to budget funding. I know you have to make hard decisions. At a time when everyone has so much to lose, this loss would seem astronomical to the individuals receiving care. Every life is valuable and worthy of dignity facing end of life. One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Jane Griffith	Hello, I am sincerely asking you to not cut funding for the INN Between. This organization performs such important work in serving the dying within the homeless population. Sincerely, Jane Griffith	n/a

Topic	Name	Comment	District (optional)
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Janet Jackson	Hello Council: I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. As a former volunteer and public relations coordinator for the INN Between, I witnessed the achievement of this small group of people firsthand. I count as friends the residents who passed through those doors. Their colorful and tragic way of living left an indelible imprint that remains as part of the very fiber of my being. The thought of a funding loss for such a worthy program is painfully disheartening and for want of a better word, ludicrous. Given the COVID outbreak, so many homeless are helplessly forced into death even earlier. Denied services by hospitals all across the united states, they face horrendous conditions without help. The INN Between is one of only TWO such facilities in the entire United States able to provide services to those who are terminally ill and homeless. In and of itself, this is shameful. I am at a loss trying to fathom why you would cut funding. Kim Correa and her incredible staff are tirelessly devoted to ensuring quality care for each and every patient in this facility. For so many of us navigating the waters of COVID and staying alive is actually an ever-present goal. Up to three months ago, it wasn't even a thought. For the residents of the INN Between and all the homeless struggling to stay alive, this is the ever-present reality of daily living. Why would you want to participate in any effort to undermine this herculean effort and support for the downtrodden? Thank you for funding the INN Between, please keep doing so. Save lives instead of taking them away. Truly, Janet Jackson	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Janice Mosby	Council Members: I am a Salt Lake City resident, and I am writing this to urge you to reconsider your Community Development Block Grant (CDBG) funding decision for The INN Between. Any amount that you can fund will help the sustainability of this program. I am aware that our city and the country are facing more than difficult times, but this program is so important for our homeless who require hospice or respite care. Yours, Janice Mosby	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Janine Sheldon	Seems like a bad time to cut funding to a homeless shelter that serves unhoused persons with serious health issues! Janine Sheldon Neighbor	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Jennifer Campbell	Live Public Comment - Journey of Hope	
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Jennifer Hawkins	To whom it may concern, "I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their valuable program. Thank you very much, M Jennifer Hawkins	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Joel M. Harris	Dear SLC Council, As an Avenues resident of Salt Lake City, I am writing to urge you to reconsider your CDBG funding decision for The INN Between. This facility provides a desperately-needed service, providing hospice care for the homeless of SLC. Any amount that you can fund will help them provide dignity at the end of life. Thanks for your consideration. Joel M. Harris	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	John G. Montgomery	I am employed by Rocky Mountain Community Reinvestment Corporation (RMCRC). In 2019 RMCRC provided most of the financing for the acquisition and rehab of the current Inn Between facility. Through its involvement RMCRC became uniquely aware of the cost savings to the City of Salt Lake and emergency services and local hospital emergency rooms because of the Inn Between. RMCRC has since been repaid on its loan and funding of the INN Between will have no impact on it financially. The relatively few dollars allocated to the Inn Between if withdrawn will substantially impact the City of Salt Lake's expenditures for emergency care and transit for this vulnerable and costly segment of the homeless population in the City. We strongly urge you to support the INN Between by continuing your funding. It is pennies on the dollar savings to the City of Salt Lake. John Montgomery John G. Montgomery	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	John Robb	I just found out that the funding has been stop for places like the Inn Between. This place is essential for a lot of people waiting for surgery or getting treatment for Cancer and other medical needs. Hospice for the homeless for those who would having a worse time at a bad time in their life. I hope that you reconsider what you're doing. I am a registered voter and my voice counts!	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Joyce Downey	Dear Council Members. I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Thank you for your consideration. Sincerely, Joye Downey	3

Sincerely, Judy Cohen	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kady Newland	To whom it may concern: I'm reaching out to you as a Service Provider in this community who has benefited from having had a wonderful organization like the Inn Between available to take in and care for Sick Homeless clients. They have been cut enormously over this last few years and I am very much afraid especially having 255 fewer Shelter beds still than we logistically need. I really feel like cutting funding and not increasing it during the Covid-19 crisis would be a bad look. Our Homeless and unsheltered community bear the brunt of our lack of investment in vital community programs when we invest in a continually over-developed city and we don't even have enough shelter beds even with the Sugarhouse shelter, it feels uncaring and that is not who we are as a community. Please reconsider your decision to cut the CDBG Grant Please consider offering more help to an agency that shows up for our very sick, and dying homeless population. Thanks for taking the time to read this. Thank You, Kady Newland	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kai Wilson	Dear Salt Lake City Council Members: As a resident of Salt Lake City and a board member of The Inn Between, I write to urge your reconsideration of The INN Between's request for CDBG funds to help insure our homeless population receives hospice, respite care and shelter. I am sure that requests for funding far outweigh what is available, but I would be grateful for any support you could provide. Thank you for your service and consideration. Kind regards, Kai	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Karena Luttmer	To whom it may concern: I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. I have volunteered for years with the group and they do amazing things for the homeless and critically ill patients. Thank you, Karena Luttmer	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Karolina Abuzyarova	Hello, I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Sincerely, Karolina Abuzyarova	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kate Corrigan	Dear Council Members, I am the Executive Director of Utah Health and Human Rights. We have provide wrap-around services for refugee, immigrant, and asylee survivors of torture for 17 years. I recognize that all the recommended CDBG projects focus on homeless services. I attended all the consolidated plan stakeholder meetings and am disheartened to see that programs that work tirelessly to prevent homelessness have been overlooked such as ours. 99% of our clients have income less than 50% of the MFI. Our clients have overcome the unimaginable in their home countries and continue to face obstacles with mental health, poverty, language and cultural barriers, physical health, and ongoing trauma. We are the only refugee service provider in Utah who provides services without time limits. Survivors can access our services no matter how long that have been in the U.S. and they can actively receive services for as long as they need, whether that is 8 months, or 8 years. Without our services many of our clients would face homelessness, generational poverty and trauma, and chronic physical health needs. I hope that you will consider funding our program as an essential service keeping Salt Lake City families from entering homelessness. Thank you, Heidi Justice Heidi Justice Executive Director Utah Health and Human Rights	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kathie Supiano	I am a palliative and hospice care social worker. The InnBetween is vital. We cannot return to the homeless dying on our streets. We are better than this. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program! We vote! Kathie and Mark Supiano	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kristina Rodriguez	Dear Council members, I am the Volunteer Coordinator at The INN Between and have been since the beginning. I have watched our resident population expand from 16 to 40 with the move to our new location. I am asking that you please reconsider your CDBG funding decision for the support of our residents. Our historical amount of about \$46,000 represents only 3% of our annual budget, and yet about 80% of the people we serve are from salt Lake City. The need is great among homeless service providers and funding is understandably limited. However, TIB will be significantly impacted by this funding cut. We would appreciate your funding at any level. Please consider your CDBG funding decision. Which of our 40 residents would you deny? Thank you and my best to you all. Kristiina Rodriguez	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Kurt Dowdle	Hello, City Council. I'm a neighbor of The Inn Between, and I urge you to reconsider your CDBG funding decision for The INN Between, especially during this time of crisis. The Inn Between performs a vital service on behalf our community's most vulnerable people, and they need your help. Thank You and Kind Regards, Kurt Dowdle Salt Lake City	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	L. Hurst	Dear Council members, I'm writing to advocate for the INN-between. This is a first class organization that is taking a huge burden off of the city of Salt Lake. Over three-quarters of the hospice patients taken in by the INN are from Salt Lake City.. I run a Resort property on North Temple and we've been supporting the INN with dollars as well as supplies, for years. Their work deserves to be encouraged and supported. I hope you will put a line item in the budget equivalent to the \$46,000 from last year or at least very very close to that. They're doing the work for us all and taking the financial burden of those folks away from Salt Lake City government! Proven track record spanning years ~ Regards, L.Hurst Director & Gen Manager The Kimball at Temple Square	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Laura Gee	Hello council members, I'm a resident of SLC and I urge you to reconsider your CDBG funding decision regarding The Inn Between (TIB). TIB provides an essential service to those experiencing homelessness and significant and/or terminal illnesses. Any amount of money that could be allocated to TIB would be put to important use. Thank you, Laura Gee	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Laurie Bryant	I am a Salt Lake City resident, and have been for 20 years. My house is one block from the INN Between. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. This is not the time to reduce funding for the critical programs provided by this important institution. If it puts the homeless terminally ill back on the streets, you will be responsible for having made our current health care crisis worse. More city residents will die, and not just those at the INN Between. I ask that you reconsider this decision. Laurie Bryant	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Leah Meyer	*See Corresponding Letter* Volunteers of America, Utah's comments for the SLC Council Public Hearing regarding federal funding grant applications.	
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Linda Bury	Dear Council Members: I am writing this letter on behalf of the Inn Between. I was shocked and surprised that the funding was cut for support of this very important and necessary service to provide a place for homeless citizens to die with dignity. I was a volunteer in the very beginning of the Inn Between and have been an advocate ever since. I have been so impressed with the loving care that is provided for the very sick and the end of life care that is provided for the homeless and less privileged in our city. Please continue your support. Salt Lake City has been a model for other states to provide the same kind of service. Thank you for reconsidering your decisions and I pray for your continued support. Best Regards, Linda Bury	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Linda Griffen	I am pleading to have continued funding for The Inn Between in this upcoming year; I speak as a family member of Patricia Rice who died there Nov. 7, 2019. She was diagnosed with cirrhosis from Hepatitis C in 2007, continued to work at a SLC company until her disability prevented her from doing acceptable work, @ 2013 when she went to full time disability through her employer and applied for Medicaid. She received a waiver through Salt Lake County Aging Services and was able to live pretty independently that way at Wasatch Manor with HUD funds until Sept. 2019 when too many falls made it impossible for her to live alone. Her hospice agency and SLCounty Aging services expedited her move to The Inn Between the first week of Sept 2019 and she was able to live there with some level of dignity and safety until her death. She was cared for very tenderly and I have the greatest respect for all the staff and volunteers whose efforts let her die in dignity and peace. The population of poor and ill are the most voiceless in our community and I know we must speak for them when their care and protection are threatened. They are not receiving luxuries, they are offered a clean place to live in their dying days; some have shared rooms, there are clothes available from donations, arts/crafts supplies are donated, classes are given by volunteers. This is a remarkable example of public/private/volunteer collaboration to support these least of us in their times of need. If anyone would like me to speak directly to the time my sister spent at The Inn Between, I am sheltering at home (I live in the Liberty Wells section of SLCity) during this time of Covid19. My telephone number is [REDACTED], this is my email and I can use ZOOM. I can't imagine the impact of Covid 19 on the poor and homeless population of SLCity and that The Inn Between may be the last option for more people next year than this year. This is not the time to cut their funds. Please reconsider. Very truly, Linda Griffen	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Linda Wilburn	Please do not cut funding for the Inn Between. Other than people who are on ventilators in hospitals right now, I can't think of any group of people more in need of support than those who are both homeless and ill, some of the terminally. Linda Wilburn Salt Lake City	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Lisa Meiling	I urge you to reconsider funding for the INN Between. They offer vital services to the homeless population that no other provider offers. We have been supporting The INN Between for many years and urge the county to do the same. Lisa Meiling	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Lynn Lonardo	My name is Lynn Lonardo and I am a Salt Lake City resident and am a neighbor and donor to the Inn Between. I heard that funding was going to be cut for them and I strongly urge you to reconsider your CDBG funding decision for them! They are an important part of this community and need support from the city to keep providing their valuable one-of-a-kind services. Any amount that you can fund will help the sustainability of their program." Thanks for your consideration! Lynn Lonardo Sugarhouse resident	7
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Marilyn Colgan	Dear Council members, I will keep this note short, as I realize this is and intense time for the world and our community. I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program Thank you for your consideration. Sincerely, Marilyn Colgan	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Mark Leone	Hi, I'm a SLC resident, and I heard that that the Council has cut all CDBG funding to The INN Between, which continues to serve our local homeless population at a time of great need. Can you explain why this was done? Where are those funds being redirected? I hope you will reconsider your decision, and perhaps find additional resources that can help The INN Between continue their important mission. My heart aches when I try to imagine the suffering to come for those who have nothing. I beg you to feel the same compassion. Thank you for you work, as well. I hope that you'll reply to this email. Sincerely, Mark Leone	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Mary Beth Vogel-Ferguson	Dear Salt Lake City Council Members, I am a Salt Lake City resident and actually a neighbor of the Inn Between. I am also a member of The Inn Between Board of Directors. Every month at our board meetings we hear a mission moment when a member of the staff shares a story of an event at The Inn Between since we last met. Sometime it is about a reunification with a resident and their extended family, sometimes it is about a residents last days and passing, always the stories reflect the mission of The Inn Between to enhance the dignity of each resident wherever they are in their life journey. In this time of uncertainty, anxiety and fear, and human and economic crises, there are hard choices to be made. While previous levels of funding may not be possible, I urge you to reconsider your funding decision regarding the CDBG dollars. Any amount you can fund would be of great assistance in sustaining the vital work of The Inn Between. The efforts of the staff of The Inn Between have been nothing less than heroic in protecting the residents from contracting Covid-19. Continuing some level of funding assures them their efforts are not in vain and that you too understand the importance of not forcing our residents to have to access services from already overwhelmed medical services in our community or even worse, die in the streets. Your consideration of this plea is much appreciated. Mary Beth Vogel-Ferguson Board Member “ The Inn Between	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Mary Josephine Riddle	"I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program."	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Matt Hovermale	Council, I am writing this to urge you to reconsider your CDBG funding decision for The INN Between. This money is critical for the sustainability of their program. As a volunteer for the Inn, a resident of Salt Lake City, and a Firefighter I see the the incredible work that the INN Between does for our most vulnerable population. Please don't turn your back on this fine organization. Thank you, Matt Hovermale	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Mike Harman	Greetings, I understand that The Inn Between is not being recommended for CDBG Funding at this time. I would like to strongly encourage you to restore CDBG funding to this important asset in our community. As some of you may know, I work to support students experiencing homelessness within the educational system. I have become more acutely aware of the needs of all individuals experiencing homelessness. Compound that with a terminal illness, or a need to be in a rehabilitation program for a long term condition, and the odds are not good. As a community, we need to do better by our homeless friends. The Inn between provides a vital service to our entire community. It allows those with no limited options, a place to die with dignity. I was fortunate to become acquainted with The Inn Between when it was across the street from my house. I volunteered to be part of the Neighborhood Advisory Committee, and heled address concerns neighbors had with the program. I found the staff to be willing to work with community members to address concerns, and make sure they were being good neighbors. I am sure that is still the same today in their new neighborhood. Please restore the funding request to the Inn Between, so they can continue the work on behalf of our truly less fortunate community members in Salt Lake City. Sincerely, Mike Harman	2
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Misty Morris	Mayor Mendenhall and Salt Lake City Council Members, I am a Salt Lake City resident. I've watched the various assistance programs that have existed for individuals experiencing homelessness over the last 12 years that I've lived here. Every administration, and even different council members, has had a different impact on the population of individuals that need help. Has all the help had the intended outcome? No. Are we getting there? Perhaps. I realize that there is a lot going on right now. I find myself disappointed to hear with everything that is going on, that you have cut CBDG funding to The Inn Between. I am writing to urge you to reconsider. Any amount that you can fund will help the sustainability of their unique program. Thank you, Misty Morris	7

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Morgan Johnston	Greetings Salt Lake City Council Members, I am a Salt Lake City resident and volunteer at the Inn Between, and I strongly urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of the program. 80% of the people we serve are from Salt Lake City and they would take the hit if we stop receiving this grant. Thank you, Morgan Johnston	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Nancy Challed	Dear Council Members, I have been a volunteer with the Inn Between for 4 years and have seen first hand the good this nonprofit has done for the vulnerable homeless in our city. PLEASE, please reconsider giving any amount possible to this facility. Nancy Challed	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Neil Cator	Dear City Council Members, I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program Thank you for your consideration. Sincerely, Neil Cator	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Nighton Riley	Hi, As someone who has volunteered at INN Between and lived at the Young Men's Transition Home, I have seen first hand the benefit that these programs provide for people. I have consistently seen young men make it out of homelessness thanks to this transition home program; and countless old folks have died with a smile on their face instead of a grieving frown. Let us value this as highly as it deserves to be. And let us know that our community's tax dollars are going to a good cause thanks to these programs. We would all rather fund these programs with our tax dollars than something else. Sincerely, Nighton Riley SLC Resident	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Paris Furlong	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. PLEASE PLEASE PLEASE HELP THEM!!!! They're doing some of the greatest work!!!! Homeless that are dying need a place to die with dignity, love, care and compassion. We need someone to FIGHT for them!!!!!! They need us!!!!!!!!!!!!!! HELP THEM!!!!!! Thank you!!!!!!!!!! Paris Furlong.	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Patricia Stoppi	Please continue funding the Inn Between they do wonderful work.. Patricia Stoppi Holiday Utah	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Paul Eleazer	Dear Council members, I know the city is dealing with major shortfalls, but just want to plead for maintaining funding for the INN Between - this program provides an incredibly valuable service to hospice patients who do not have a home. Please re-consider and try to maintain their funding. Sincerely, Paul Eleazer, MD, FACP, AGSF	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Peggy Hunter	Dear City Council Members: I am a Salt Lake City resident, as well as a volunteer at The Inn Between. I am aware of how tight budgets are this year. However, I urge you to consider funding The INN Between at any level possible. This facility is of vital importance to our community. Thank you. Peg Hunter, MSW Retired Medical Social Worker	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Penny Jameson	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. This is not the time to cut support services for the homeless. They are, along with the undocumented, the ones least likely to get adequate medical care during this pandemic. Penny Jameson	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	RaeLynn Forcella	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Thanks, RaeLynn Forcella	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Ray Szczepaniak	Hello, I've been a Salt Lake City resident for almost 3 years now and one of the things that impressed me the most was your care for the less fortunate. Having a hospice for the homeless demonstrates that care. My parents and two siblings, indeed, my whole family, benefited from the care they received through hospice at the end of their lives. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Thank you for your reconsideration, Ray Szczepaniak	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Rebecca Richard	Dear Council Members, I am concerned about the proposed complete cut to funding for The INN Between from Salt Lake City's Community Development Block Grant program. I am a Salt Lake City resident who cares deeply about this compassionate resource that does so much with so little, receives significant volunteer support, and is surely deserving of ongoing recognition and support from our city. Please reconsider your decision and return funding to The INN Between at any amount, to show the city's support of this vital, meaningful service in our community. Sincerely, Rebecca Richard	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Richard Gregersen	To SL City Council Members, I am a resident of salt lake city. In the past you have supported the INN Between. Pleas, please help again by granting money to the INN Between via the block grant program. Thank You! Richard Gregersen (Also shared via Facebook)	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Rob Ronald	I can't believe you red lined the whole budget for the INN Between. It's a treasure for those who need it most. The people who are the most vulnerable are the ones we need to tend too. As a society, we are judged by the thoughts and actions of those who can give, and the homeless are the ones who need a voice, they need the kind and giving support of people who are fortunate to have the means to give back. You, as a City Council have those means of giving dignity, and relief to people that have no where else to turn. Please, I beg, return the funding to a project that truly helps people who are suffering. Kim has worked so hard, put in so many hours to bring this idea to life. Don't bring it down now. Sincerely, Rob Ronald	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Robin Pendergrast	A critical component in this community of so many homeless. The INN Between is a functioning resource and will continue with active funding from Salt City and other organizations. The need for funding is now...now. Please. Kim Correa and other staff members are dedicated of course, and the hours and commitment they provide is...well...unreal. A perfect time for CDBG) funding. Thank you . Robin Pendergrast	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Robin Perley	Please continue your support for The Inn Between!! It plays such a vital role in this community and is a model of compassion. bin Perley, MPH Robin Perley, MPH Volunteer Coordinator	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Rocky Anderson	Dear Salt Lake City Council Members“ Everyone seems to talk a lot about what they'll do for the homeless, but actions speak so much louder than those words. I just discovered that CDBG funding for The INN Between is at risk. The funding received by The INN Between in the past is a small fraction of available CDBG funding and makes a tremendous difference in the sustainability of its program. This is all about dignity and compassion for dying homeless people. If the funding is going to be eliminated, please provide me and the rest of the community with your reasoning. I know there are a lot of competing claims for CDBG funding. For the eight years I served as Mayor, I went through the grueling process of considering all requests and making the tough decisions for CDBG funding recommendations. I was also aware that the priorities of City government were reflected in the funding decisions recommended by the Mayor and ultimately made by the City Council. Please count dying with dignity as a value supported by the City Council. Thank you - Rocky Ross C. "Rocky" Anderson	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Roger & Mary Lowe	We , as a community need to support the marvelous work done by In Between. Please reconsider your decision for funding this fine organization. Roger & Mary Lowe	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Sally Kaelin	I am a resident of SLC and ask they you consider the continuation of funding for the Innbetween, this is a much needed organization and we as the people should help in whatever manner we can. CDBG funding is necessary please reconsider. Thank you,	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Sarah Mckenzie	I am a Salt Lake City resident and I am writing this email today to plead that you reconsider cutting the funding for this. Especially in the current situation we are in as a nation. We need to band together and help those in need as much as possible. Our homeless population are still people and deserve to have a place to go and die with some dignity and care. Life is hard enough for everyone, we need to show some basic human compassion and not have them suffering and miserable in their last bit of life left to die on the streets. Again, I ask to please reconsider cutting funding this would be such a sad shame. Any type of funding you can allot for this organization would be greatly appreciated! Thank you in advance for taking the time to read this email, Sarah Mckenzie	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Sarajeane Edwards	Hello Salt Lake City Council, I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Your funding is invaluable to the sustainability of this wonderful program. Thank you, Sarajeane Edwards	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Shannon Cox	Live Public Comment - Journey of Hope	
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Shauna Orullian	Please DO NOT cut funding for The Inn Between	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Simon Eva	Hi, I am a Salt Lake City resident, and I live just 2 blocks from the Inn Between and support the work they are engaged with. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Respectfully, Simon Eva	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Stephanie Byrne	Council Members, I would urge you to reconsider cutting funding for one of the most vulnerable populations in Utah. The INN Between is a wonderful place that brings homeless patients comfort and hospice care during their last days on earth. Every human deserves palliative care and to be surrounded by those who show them love. I know that they have taken multiple patients from the Fourth Street Clinic before they became terminally ill. I appreciate you all working towards a solution towards the housing and healthcare crises and for fighting the idea that humanity is conditional. Sincerely, Stephanie N. Byrne,	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Steve and Jill Kogianes	Dear Members of the Salt Lake City Council, We are volunteers and financial supporters of The INN Between and witness the impact which this non profit clinic has on many Salt Lake City residents in need. We're asking you to reconsider the decision to cut CDBG funding for this facility. This grant is vital in ensuring that the clinic can continue to serve the poorest and most distressed members of our community. Please remember that The INN Between provides shelter to homeless individuals facing medical crisis as well as safety and comfort to those at the end of life. If you'd like to contact us, we'd be happy to provide you with more information about the mission of The INN Between and their success stories. Sincerely, Steve and Jill Kogianes	n/a

Topic	Name	Comment	District (optional)
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Steve Ferguson	Dear Council Members, Please Support the CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. I support The INN Between, by being a good neighbor 1 block south, by small personal donations of money, food, and clothes, and through supporting the efforts of my wife Mary Beth Vogel-Ferguson Ph. D, who is on the board of directors. As a former RN I've had experience in hospice settings, witnessed death with dignity, and I know the positive impact The Inn Between has on our people in need. Please support their request for the CABG funding. We must ensure that The INN Between can continue to serve the poor and afflicted members of our community as they face a medical crisis or the end of life. Sincerely, Steve Ferguson	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Susan Wieck	Dear Salt Lake City Council Members, I am a resident of Salt Lake City and am very concerned that The INN Between receive proper funding from the city. Please reconsider the funding for The INN Between. The services they provide are critical to those at the end of life and ultimately, to our community at large. We simply cannot turn our back on such a vulnerable population. At the least, we should fund at previous levels if not beyond, given the difficult time that we're in. Logic would lead one to anticipate the population served by The INN Between is going to be more vulnerable to COVID19 and thus in need of their services. And, God forbid, should the infection result in more people dying before they need to be admitted to The INN Between, there will still be people who will be in need of hospice care for other reasons. This facility is desperately needed by the community much less by those whom it serves. The dignity conveyed upon the dying is shared by those who exhibit such compassion. The city funds a small but critical amount of the facility's needs, but it's probably that many corporate and personal contributions will be less this year than in the past. Thank you for your consideration of this. I could argue that this facility is needed even more than Allen Park. Please prove to me that my community cares more for people than for birds. (I love birds and agree that we deserve to have them in our midst, but not at the expense of caring for a human being as they die). Susan Wieck	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Syd VanRoosendaal	To whom it may concern, I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Regards, Syd VanRoosendaal	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Tamy Castleforte	The Inn Between has emailed their supporters and asked them to send letters of support for funding. As many of you know, I do not support funding The Inn Between. If the genesis/funding/operations of organizations like this is typical, - then it will not stand out for you. Incompetence and grift should never be the norm and I will speak out against it at every opportunity. I have already been attacked and opined upon by SLT and Gehrke so I have nothing to hide from. I don't have to tell you that the decision being made, based on models of a virus, are going to have devastating effects on the economy as a whole. Places like The Inn Between will now stand out as the repellent example of waste that they are. 1. The State granted them a license as an assisted living (AL). In order to be legal in zoning. They have between 5-10 on the AL side. 2. The City granted them a license under eleemosynary and then housed the chronically homeless with NO criteria for entry. 3. This is not a hospice and never has been! They have since rebranded and covered most of the signage that indicates they are a hospice. 4. The appropriations committee gave them 1M dollars to buy a building that was sound and needed no work. The attached pictures shows the current work taking place which includes a new roof/electrical/elevator/HVAC to just name a few! This was possible from a federal grand that someone in this state gave them. I will be researching more on that. *Continued Below*	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Tamy Castleforte	*Continued Above* 5. Within 5 months of opening they were over budget by \$700,000. 6. They were over budget because they did not hire the required medical staff per AL licensing. They were operating for 5 months without MA's. And guess what? Everyone was just fine. They operated for several years at Goshen street without MA's. Why? Because they were not needed. So basically we are paying for medical staff so that they can be legal in zoning they should not be in. 7. Drug deals, residents sneaking out at night, assaults, suicides all go on within this facility. 8. 911 calls from WITHIN this facility are significant and consistent. 9. Our City Council, Erin Mendenhall told us at a town hall that she would hold TIB accountable. Many on the street, as well as myself, reached out to her with our concerns and proof of misdeeds. We never got a response. The only way any improvements have been made at TIB is because myself and several others have held them accountable. This is the project of those that want to put homeless shelters in neighborhoods because somehow it will fix the ills of these people. Senator Escamilla made that exact claim. While I am glad that people have a roof over their head, it should not be at the expense of what was once a functioning street. The residents of Sherman Ave. who could and understood the implications of housing the mentally ill and addicted, sold or moved and got out of the neighborhood. Stop rewarding incompetence. Tammy	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Teresa Lauman	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. It is shameful for you to cut their funding. Teresa Lauman	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Tom & Christiane Huckin	Dear Council members, We have been Salt Lake City residents for more than three decades. For the past two years we have been weekly volunteers at The Inn Between, which, as you know, is the nation's first hospice for terminally-ill homeless people, something SLC can be most proud of. It's likely that the COVID pandemic will increase the number of such people, yet the City plans to actually eliminate its financial support for The Inn Between. We can well imagine the financial constraints the City must be laboring under during this economic/healthcare crisis. Still, if you have any discretionary funds available, we hope you will continue supporting The Inn Between. Sincerely, Tom & Christiane Huckin	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Tonya Allred	Dear Council: I am a resident of Salt Lake City, and an advocate for the ethical treatment of vulnerable populations, the homeless being one. I ask that you reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program, and give the population they serve a safe place to live the remainder of their lives, and access to the treatment they deserve. Thank you, Tonya Allred	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Tripp Hopkins	Dear City Council- I know there are a lot of competing priorities out there right now. As a 40 year resident of Utah (the Avenues) I've supported many organizations. The Inn Between fulfills a unique niche within our community and their public funding is essential to them fulfilling their mission. I hope you will consider funding them to the extent that you can and know the people they support need it now more than ever. Thank you, Oren 'Tripp' Hopkins	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Valerie Fritz	Dear Council Members, I urge you to reconsider your CDBG funding decision for The INN Between for 2020-2021. They provide critical medical respite housing services for medically frail and terminally ill clients, and are an integral part of the homeless services continuum in Salt Lake City. However, they do not receive adequate funding from the state or other sources because they are not designated as a "shelter," which means that they must raise funding from other sources to provide this medical housing service to the community. Any amount of funding that you grant will help the sustainability of the program. Sincerely, Valerie Fritz	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Valerie Jeerings Blaylock	I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. I have seen the good that this facility does. Please do not cut funding, ESPECIALLY now. Valerie Jeerings Blaylock	n/a

One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Vicki Turner	Hello, I received an email from a friend with concerns about SLC cutting their funding for the Inn Between. While it represents a low percentage of the Inn's funding, any more cuts at this time would appear rather devastating because of funding cuts from other private groups. Is there any rationale for cuts to those who would appear to be in dire need of medical and hospice care? I assume patients at the Inn are sheltered in place and there must be restrictions on who may come and go. If not, there should be enforcement of appropriate safe guards. I lost my husband to terminal cancer 2.5 yrs ago after enduring 4.5 yrs of a lot of pain and suffering through treatments and the devastation of this disease. I can't imagine what lack of care and home comforts would be like for those at the end of their lives no matter the illness. That goes for those who would need skilled nursing and medical care as well. We were so fortunate to have excellent care and medical insurance. I live withint 4-5 miles S of the Inn and am a SLCo resident. Certainly homelessness affects anyone in this area. A shelter was already closed. The homeless disperse throughout the valley and areas near the City and end up in homes or on other streets. It affects many areas and I applaud city and county efforts to address homelessness issues. I'm merely expressing my concerns and have questions. Thank you, and stay healthy. Vicki Turner	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	William Grua	Dear members of the City Council, I am a Salt Lake City resident who also serves as a volunteer (board member) at The Inn Between. I write to strongly encourage continued City assistance to The Inn Between, particularly at this critical time for the homeless in our City. Respectfully, William Grua	4
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Yo Holmquist	I am writing to BEG you to change your mind and reconsider allocating money to the Inn Between as the only hospice center for our local homeless. I am a Salt Lake resident and cannot think of any charity that is more deserving of your funding. I do realize that \$46,000 is a lot of money to allocate but when you think of the lives that got to gently pass through to the other side it seems like a very small amount. I do realize in todays environment funds are almost impossible to find but if you could please reconsider this groups funding. It is important to show compassion to people that are leaving this earth. Thanks, Yo Yo Holmquist Accounting / Human Resources Oil-Well Lubricant Dispense Systems, Inc.	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Zach Bale	*See Corresponding Letter* Salt Lake City Council Members, I write to express our appreciation for our partnership with Salt Lake City, and for the opportunity to seek funds from Salt Lake City to continue operations of the Housing with Persons with AIDS/HIV (HOPWA) Program. Housing Connect had requested \$548,101, to support 66 households to receive much needed rental assistance. The ask reflects a 10 household increase over our current year to support additional households who are on the waitlist (61 households total at this time). Additional details regarding our program, and the population we serve through this support are attached. We continue to see great outcomes with regards to housing stability (95%+ of households maintain their housing stability) for those we serve, who are amongst the most in need in our community (avg household income = \$9,286). With regards to our current approach during the COVID-19 crisis, we continue operations of our housing programs (including HOPWA) to ensure that those in need receive housing support. Additional information can be found our on our website: Partner Letter re: COVID-19 https://housingconnect.org/resource/a-letter-to-our-partners/ FAQ https://housingconnect.org/resource/covid-19-faq/ With appreciation, Zach ZACH BALE Executive Director - Housing Connect Fund Chief Program Officer - Housing Connect 3595 S Main Street	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Zack Star Phifer	Please do not cut the funding for this vulnerable population of SLC. The INN Between does such important work. I've been making face masks for the INN Between since being sheltered in place and made a financial donation as well. Thank you for considering this.	5
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Aaron C. Garrett	I am a constituent of SLC and I support funding for the Inn Between. Aaron C. Garrett	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Amanda Maestro-Scherer	I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. I am a hospice music therapist and have had the privilege of serving patients at this facility, and know how valuable it is to the wellbeing of those it serves. Thank you for your consideration. -- Amanda Maestro-Scherer, MA, SCMT, MT-BC Board Certified Music Therapist	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Amy Batchler	To whom it may concern, I am a Salt Lake City resident, and I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Please have empathy and compassion for our homeless community. They have a right to pass away with dignity and as comfortably as possible. Thank you, Amy Batchler	n/a

Topic	Name	Comment	District (optional)
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Angela K. Snow	Dear Members of the City Council, I am a resident of Salt Lake City and a supporter of the Inn Between. I am asking you to reconsider your CDBG funding decision for The INN Between. The INN Between provides an important service as a medical respite facility for homeless individuals, 80% of whom are from Salt Lake City. I understand that there are many, many competing needs for funding at this time. However, having a safe place for medically-fragile people to recover is still important, even more important, during this challenging time. Please consider restoring their funding for this year. Thank you. Sincerely, Angela K. Snow	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Ashley Jeter	Dear Salt Lake City Council, I sincerely hope you and your loved ones are safe and healthy during these uncertain times. I am a Salt Lake City resident, living a couple blocks away from The INN Between. What they do for those underserved in our community is remarkable. This organization is doing the work no one else wants to do. We should be honoring them, thanking them, and funding them with whatever we can. Any amount makes a difference to them - please do not cut their funding. You must reconsider your CDBG funding decision for their facility. Do the right thing. Thank you, Ashley Jeter	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Beverly Ashby	I live in Salt Lake City and I volunteer at the Inn Between. It provides needed medical service for our citizens who have limited access to medical care. I urge you to reconsider your CDBG funding decision for The INN Between. Any amount that you can fund will help the sustainability of their program. Beverly Ashby	6
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Emily Boman	Hello Council Members, I'm writing you to plead with you to continue supporting The Inn Between. The services they provide are truly nonexistent anywhere else. Our low-income, homeless, and formerly homeless neighbors NEED this service. To deprive this population of the option of having a place to die with dignity would be so cruel. As both a social worker and a resident of Salt Lake City, I urge you to continue your support. The alternative for many of these folks is to die alone and without the proper care that you or I would be able to receive. Any help you can continue to give them would be truly appreciated. These people are among our most vulnerable. Thanks so much for your consideration, Emily Boman	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Henry Whiteside	Council Members, I am the resident of township but familiar with the INN and their mission. They provide a major social return for a very small amount of public funding. It is not easy to put a price on death with dignity but in this health crisis death on the streets should be a public concern. Thank you for your consideration in renewing their funding. Henry Whiteside	n/a
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Lynne Nolte	I understand that funds from the Community Development Block Grant will not be allocated to The Inn Between. These are difficult times for the city I know, but this is an excellent organization deserving of a second look at funding. The Inn Between fulfills a very heartbreaking mission. We hear much now about patients dying in hospitals due to Covid-19, separated from loved ones. Imagine dying alone, homeless, without friends or family. Any amount of funding would help The Inn Between achieve its mission. Sincerely, Lynne Nolte	3
One-Year Action Plan for CDBG & Other Federal Grant Funds FY 20-21	Maggie Pratt	Salt Lake City Council As a resident of Salt Lake City, I am asking you to please reconsider the much needed funding for the Inn Between. The important part they play in giving a safe place for those that would otherwise die on the streets is so valuable, and allows them to at least die with dignity in a safe place. When my late husband passed away in 2015 we were among the lucky ones, as the job he had held for only 6 months placed him on long term disability which gave us an income which allowed is to continue living in a safe place, with the care he needed. Otherwise we would probably have landed on the street somewhere and he wouldn't have had the care he received up until the end. I do what little I can to support the Inn Between, and I am reaching out to you and asking that you do your part to help them keep helping those that need it the most. Thank you Maggie Pratt	n/a

Washington Street Alley Vacation	Jason Boe	<i>*See Corresponding Letter*</i> To whom it may concern, My name is Jason Boe, my company is West Brooklyn, LLC who owns several parcels next to and adjacent to 1040 S Washington Street ("the Washington Street Alley Vacation, petition # PLNPC2019-00400). Please see attached. I'm going to be up in Idaho today, for work, and I'll have very limited if any internet service. So I probably won't be able to attend the meeting. Here are my comments that I would like to be made part of the discussion and part of the record without attending. 1) I don't oppose the alley vacation. 2) That if there is a vacation that I want to reserve my right to purchase my half from the City. Please let me know if there is anything else yo need from me. Thank you, Jason Boe West Brooklyn, LLC	n/a

March 27, 2020

Salt Lake City Council Members,
Volunteers of America, Utah is grateful for the partnership we have had with the City government over many years. We appreciate the time that the CDCIP Board, Mayor Mendenhall and her staff have spent reviewing all applications that were submitted. Volunteers of America, Utah has submitted three applications for funding for next fiscal year 2020-2021.

Community Development Block Grant – CDBG Public Services

Program	Request	CDCIP Board Recommendation	Mayors Recommendation
Geraldine E. King Women's Resource Center	\$105,797	\$89,000	100,281

We are grateful for both recommendations and encourage the support of Mayor Mendenhall's recommendation of \$100,281.

Emergency Solutions Grant – Shelter Operations

Program	Request	CDCIP Board Recommendation	Mayors Recommendation
Geraldine E. King Women's Resource Center	\$40,000	\$38,000	\$38,000
Youth Resource Center	\$60,000	\$46,000	\$46,000

We appreciate the CDCIP Board and the Mayors funding recommendation for both emergency solutions grant applications.

We value the support of our programs that provide shelter and services for both homeless youth and homeless women. We thank you for the opportunity to submit a written document at this time given the Stay Home. Stay Safe. Order endorsed by the Mayor to decrease public gatherings.

Sincerely,

Kathy Bray
President & CEO

Helping America's most vulnerable®

City HOPWA (Housing Opportunities for People with Aids)

Program Description: The Housing Authority of the County of Salt Lake (HACSL)'s HOPWA program provides permanent housing opportunities through rental assistance for persons living with HIV/AIDS in Salt Lake County. To ensure that those most in need in the community are served, HACSL accepts referrals for program openings from the prioritized wait list managed by Utah Aids Foundation (UAF). UAF compiles the list from the two HIV/AIDS service providers in Salt Lake County, UAF and Clinic 1A. Those assisted with the HOPWA program pay 30% of their monthly- adjusted income towards rent.

Demographics:

- 52 Households currently on the program (10 elderly, 15 families, 37 single individuals)
- 84% of households served are extremely low income (30% of Area Median Income or below) with the remaining households falling under very low-income
- 12 households are employed, 21 receive social security payments, and 23 are receiving state assistance of some kind
- The average annual income is \$9,286.00
- Per Utah Aids Foundation medical expenses can vary but average around \$2,200 per year for insurance premiums

Program Need:

- Utah Aids Foundation currently has 65 households in need of housing assistance on the HOPWA prioritization list.
- The HOPWA program is the currently the only programming/funding providing housing specifically for this population in the state of Utah. In Utah HIV/AIDS has infected over 3,000 people.
- People with AIDS are at a higher risk for homelessness. The high cost of medical treatment may make it more difficult to maintain stable housing. The National Alliance to End Homelessness states "Due to factors such as poor hygiene, malnutrition, and exposure to cold and rainy weather, homeless people are already three to six times more likely than housed people to become ill."

Outcomes: As reported in our June 2019 CAPER

- 100% (58 out of 58) households maintained housing stability (55 remained on the program, 1 moved to permanent housing and 2 transferred to other subsidy assistance)
- 1 household obtained employment

March 31, 2020

Salt Lake City Council Office
451 South State Street Room 304
PO Box 145476, Salt Lake City Utah 84111

Dear Salt Lake City Council Members:

Thank you for your time and thoughtful consideration of the many worthy programs that serve the needs of Salt Lake City residents, along with limited available resources. Additionally, I am personally thankful for the committed support The Road Home has received from Salt Lake City for so many years partnering to serve people in dire circumstances and for the current close collaboration with the City Council and Mayor's Office to prevent the spread of COVID-19 among people experiencing homelessness.

We are incredibly grateful for the recommendations of both the Mayor and Advisory Board to fully fund our HOME Tenant Based Rental Assistance request. We have an Emergency Shelter request before you that would enable The Road Home to provide for a person's basic needs when they become homeless during cold weather through services provided at St. Vincent DePaul. In the last few years the City has provided funding through other sources and we hope that support will continue.

We also have a request before you asking \$150,000 for our Rapid Re-housing Program and \$97,200 for Housing Navigation Services to enable people to find housing. Both programs align with the Federal, State, and Salt Lake City's plan strategies to assist people experiencing homelessness to move swiftly into permanent housing with appropriate person-centered services. Case management and housing location supports are important keys to helping our community ensure the capacity and success of the new shelter resource center model. The need to help people move quickly into housing is even more critical during this COVID-19 outbreak, where shelter represents dense-living in a congregate setting.

Housing Navigation Services accelerates moves by helping people create housing plans, identify housing opportunities, and navigate the process from start to move-in. Case management remains an underfunded but essential component that helps unlock the longer-term success of housing stability to prevent a household's return to homelessness. Case management, in tandem with rental support, is the boost needed to lift people back into our community.
