7/21/2020 10:48	Janeal Johnson	<p>We, the citizens of Utah and this great nation, fully support the first amendment right to free speech and PEACEFUL assembly. We as members of Utah Citizen's Alarm are 100% inclusive and welcome and love our brothers and sisters of any race, religion or sexual orientation. We have been falsely painted as white supremacists? or racist?. Standing up to violence, lawlessness and destruction of our communities has NOTHING to do with race. The scourge of violent protests and civil unrest is a real and present danger. The unpredictability and potential for violence at these protests has been clearly demonstrated over and over again not only nationwide, but more recently in our own community. Thus, not only has law enforcement rightfully ramped up their efforts to be a ?show of force? and a massive deterrent to any violence or unrest, so now have the citizens of Utah banded together to protect our own communities from the threat of violence and anarchy. Let this message be loud and clear: We will not stand for violence, anarchy, the destruction of public property or historical monuments, threats to innocent civilians or passers-by, threats to law enforcement or their headquarters, or any other unlawful acts. If your intention is chaos, disorder and violence you will be met with not only our beloved law enforcement, but you will also be met with the now not-so-silent majority of Utah citizens who have said ENOUGH.</p>

7/21/2020 10:33	Ken Nielson	<p>Dear Mayor Mendenhall and Salt Lake City Council, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor. Regards Kenneth Nielson</p>

7/21/2020 10:26	Frank Tervort	<p>Dear Council Member Dugan, Each day I drive into Salt Lake City where I work as a manager of a business in Salt Lake City, and have become increasingly concerned about my personal safety and the safety of the business I manage in Salt Lake City. Myself, other members of the business community, and concerned citizens are watching your response to violence and to the destruction and damage to public and private property. Although I appreciate your service to the community in the many areas you are handling well, it is clear that there is something amiss in the way the city is handling these outbreaks of violence. The following are specific concerns that I feel need to be addressed: 1) Please do everything in your power to support law and order by letting your police officers know that they have your support. We as a community cannot afford for the police department to be tepid in their response to violent and destructive acts due to unclear directives from your office. 2) Please give clear directives to the police to immediately arrest INDIVIDUALS who initiate acts of violence against other citizens; or the destruction of public and private property. For example, in the recent riot that broke out in front of the attorney general's office, it was reprehensible that the police and city officials watched while vandalism ensued. Surely when the first can of red paint was opened and applied to the building, arrests should have been made. In an earlier protest when police cars were lit on fire; the perpetrators should have been immediately arrested, the gathering declared unlawful and the vandals arrested. 3) Please give clear directives that public streets should remain open during protests. As you know citizens of our country have the right to peacefully assemble. However other members of the community have rights to not attend the protests, and must not have their rights to use and enjoy the public streets; or have access to their private property inhibited because your administration has surrendered the streets to unlawful activities. Inattention to these matters dishonors the citizens of this community. It particularly dishonors the law abiding citizens that are showing up to be involved in a peaceful protest, only to have their message tainted by the individuals perpetrating violence at these protests. Sincerely, Frank J Tervort</p>

7/21/2020 10:28	Kat Louis	Other police agencies in Utah have sent their officers to assist the SLC police during protests to protect your city. You have had blatant disregard for these police officers. You don't support the dedicated police officers just trying to make a living and be responsible members of society. I also don't approve of my tax dollars going to repair any State property that is damaged in SLC during the protests. Because of your leniency these protests have become riots and have spread to Provo where an innocent victim was shot. People are now afraid to speak out on social media because of threats from the groups that are protesting in your city. I implore you to take responsibility and restore peace to your city and back up law abiding citizens instead of the violent groups that are threatening us with harm. Sent from my iPhone
7/21/2020 10:30	Kaylene Rasmussen	I am disgusted that you are allowing lawlessness! THIS IS A DISGRACE! STOP these illegal actions by "protestors". No more toleration of blocking traffic, vandalism, intimidating business owners and citizens. DO YOUR JOB!!! K, Rasmussen

7/21/2020 10:39	L M	<p>Dear Mayor Mendenhall, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. 7/21/2020 10:40	Laura Peterson	<p>Mayor Mendenhall and Council Members, July 20, 2020 We, who are residents of Salt Lake City and the surrounding area, are concerned by your recent inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest, destruction and devaluation of property. Tax revenue is collected for stated purposes and you have failed to protect those things our taxes pay for. All reports point to your tying the hands of the police department. You are in breach of duty and subject yourself and the city to civil liability. It was disloyal and irresponsible to apologize to the Carbajal family for the actions of your police department when it was determined to be fair and justified. While all of our hearts go out to the Carbajal family, Sim Gill's conclusion came after a thorough review. Apologizing for the police officers involved exposed your lack of integrity and cemented your lack of support for law enforcement. On July 18th protesters were allowed to gather in front of the governor's mansion. They illegally used their cars to block traffic. City streets and access to businesses were also shut down allowing protesters to march from the governor's mansion to the State Capitol. Last week you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. This, even after the first protests which caused great destruction to our beloved city. Hear this loud and clear: Utah residents are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen. Salt Lake City is not Seattle nor Los Angeles. We are better than that and our leadership should reflect the values of this community. You have been granted a sacred duty to serve and protect the citizens and our city, not a political party, an agenda, or personal vision. 7/21/2020 11:07	Nathan Moats	<p>Dear Mayor Mendenhall, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. 7/21/2020 11:27	Joshua Kaduthodil	<p>I am a resident of New Jersey concerned about Salt lake City. I am writing to demand that the City Council adopt a budget for the people, that prioritizes community wellbeing and redirects funding away from the police. We are in the midst of widespread upheaval over the systemic violence of policing, embodied by the SLCPD's well documented history of lethal force against residents of color. Empty gestures and suggestions of 'reform' are unacceptable. I am demanding the voices of this movement be heard, and that real change be made to the way this city allocates its resources. Support for marginalized communities is necessary now, more than ever. But instead, the Mayor has proposed an increase in funding to the SLCPD, while social services and education--proven to better promote community safety than policing--stagnate. The SLCPD has seen a rise in overtime pay which, when too often paid out to officers responsible for harassing unhoused, Black, Indigenous, and Latinx residents, is deeply insulting. I am demanding that the City Council defund the SLCPD. I demand a budget that adequately and effectively meets the needs of impacted Utahans during this trying and uncertain time, when livelihoods are on the line. I demand a budget that supports community wellbeing, rather than empowering the police forces that tear us apart. Although City Council has thus far avoided voting or revising Mayor Mendenhall's budget proposal, the document is back in your hands. It is your duty to represent your constituents. I am urging you to completely revise the SLC budget for 2020-2021 fiscal year, and to fund care, not criminalization and incarceration. You must adopt a budget for the people. Public opinion is with me. Thank you for your time, Joshua Kaduthodil</p>

Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor.</p>

7/21/2020 11:31	Marty Felton	<p>We all know you are allowing the mob to commit crimes daily because you want the country to look chaotic--to defeat Donald J. Trump, our beloved hero. Nobody is fooled by your claim that letting them run wild through the city day after day is a "new and innovative policing technique". Even last night you let them violated the noise ordinance with their bullhorns and PA system. You let them block traffic. You let them intimidate citizens. What the heckeroo is wrong with you people? Please ask the legislature to take control of the city by appointing a civil administrator until new elections can be held.</p>

That will not be happening in the future if I don't feel that the Mayor and City Council of the area have safety against mob violence as a priority. I know you want to make a political stand too. That is what words and persuasion are for?not violence. Please protect those who voted you in and those who support your city. Sincerely, Rob Crawley</p>

7/21/2020 11:56	Samantha Nelson	<p>Enough is Enough Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor.</p>

If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. 7/21/2020 12:42	Tom Rinkavage	<p>Mayor Mendenhall, I am in complete agreement with the sentiments of the attached letter, the text of when is included below. I moved my family to Utah last year. My wife and teenage children were not initially enthusiastic about the move, but I was more familiar with Utah and Salt Lake City, and was confident that as they got to know the area better, they would come around. And they did- one of the biggest points in Utah's favor was Salt Lake City, which they found offered all the amenities of a big city, while at the same time being both clean and safe. I am sorry that's no longer the case. You've abandoned the city to illegal and at times violent "protesters." While I am very much in support of everyone's fundamental right to protest lawfully and peacefully, the protests that you have allowed to continue for more than a month have not been lawful, and they have not always been peaceful. You have no authority to grant crowds of people "space" to block public roadways, or to effectively detain and threaten motorists. I implore you to fulfill your basic obligation to maintain law and order in your city. As things stand now, Salt Lake City is not safe enough for me to visit with my family. Sincerely, Thomas Rinkavage 208-389-8007 Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. 7/21/2020 10:27	Fred Swain	<p>We, the citizens of Utah and this great nation, fully support the first amendment right to free speech and PEACEFUL assembly. We as members of Utah Citizen?s Alarm are 100% inclusive and welcome and love our brothers and sisters of any race, religion or sexual orientation. We have been falsely painted as white supremacists? or racist?. Standing up to violence, lawlessness and destruction of our communities has NOTHING to do with race. The scourge of violent protests and civil unrest is a real and present danger. The unpredictability and potential for violence at these protests has been clearly demonstrated over and over again not only nationwide, but more recently in our own community. Thus, not only has law enforcement rightfully ramped up their efforts to be a ?show of force? and a massive deterrent to any violence or unrest, so now have the citizens of Utah banded together to protect our own communities from the threat of violence and anarchy. Let this message be loud and clear: We will not stand for violence, anarchy, the destruction of public property or historical monuments, threats to innocent civilians or passers-by, threats to law enforcement or their headquarters, or any other unlawful acts. If your intention is chaos, disorder and violence you will be met with not only our beloved law enforcement, but you will also be met with the now not-so-silent majority of Utah citizens who have said ENOUGH. -- Fred Swain</p>

You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor.</p>

7/21/2020 10:32	Kelly Harrington	<p>Dear Mayor Mendenhall and City council, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor. Sincerely Larry Milligan</p>

I have been surprised by the events in Salt Lake county recently and have been very concerned as a citizen. I have been disappointed in our elected officials decisions and I think many of us are saying enough is enough before it gets worse. We need you to hear the words of this attached letter. I support it's message whole heartedly. Janice Baker</p>

While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor. -- Michael Buss</p>

7/21/2020 11:40	Mister C	<p>Hello, I am actually an employee with salt lake and have been saddened by the recent events since May 30. I know what it's like to come back to work after the weekend and see a plethora of emails that I have to sift through. As I write this I wonder if it will be read or casually skimmed through. Oh what to say about Salt Lake City. This area has been my home for 36 years and I've always loved it until as of late. I've noticed it's not a place I'd venture to anymore outside of where I now call home in Millcreek. While I do work in salt lake, it's a place I hate having to visit nowadays. Why? Well, the last thing I would want to be put through is the constant torment of protestors that are never really peaceful. Even a protest with the most vile of language is something I'd prefer to not subject my family to. I have a unique position with the city. I've been processing crime scenes for over 8 years. I'm not sworn personnel but I am the closest of that kind which interacts with the public and police, quietly, doing my job behind the scenes. What do I see? Call me biased and I have come across some police officers I personally don't like but that doesn't mean they don't know how to do their jobs well. We have good officers. Really really good officers here in Salt Lake City. I know more than all of you do. Trust me on this one. I get a sense of how they feel when the community and those outside of salt lake come in and berate them for actions they never took nor deserve. I don't know what you all individually feel about officers and I have my suspicions but if there was just a few things I could get across to each and every one of you is to trust them to do their jobs to keep this community feeling safe. Listen to our dispatch radio for a week. Scan all channels (Pioneer, Liberty, and Central) so you know what they are responding to. Ride with them. Interact with them personally. It's easy to cave to the loudest voices but this is not the way change happens. My other thing is, we should no let our streets become overrun on a whim with motorists trapped in the middle. Imagine the scenario should a medical emergency arise and one has to take a loved one to the hospital right away and the road is filled with protestors. Recipe for disaster. As I mentioned. I do not know if this will fall to deaf ears but i know I stand with many many law abiding citizens to say enough is enough already.</p>

City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor.</p>

7/21/2020 12:02	Steve West	<p>This email was drafted for the SLC mayor, but your involvement is crucial. Any culpability lies in the laps of those who allow these things to happen. Please read: Dear Mayor Mendenhall, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. 7/21/2020 11:10	Jeff Kleinman	<p>Dear Council Member Mano, My name is Jeff Kleinman and I am a resident of Salt Lake City District 5. In our neighborhood I see houseless people, people with addiction, and people with mental health crises every day. And almost every day I see these same people being harassed, not helped, by the SLPD. Forced to move to a different patch of grass on a different block, yelled at and bullied, and at worst arrested for having a mental episode. This obviously helps no one as the houseless people are still without homes, the people with drug problems still have addiction, and folks with mental health problems still unwell. To be detained and released without any assistance is in no way "serving the community". These people need help, not to be cast away and brushed off. Houseless people are people. Addicts are people. Mentally unwell people are people. I am excited to see the council continue to discuss the role of police in our community. I believe that for the safety of Black, Indigenous, and communities of Color we need to start to disempower and disband SLCPD and replace it with a combination of already existing community services, non-government organizations and new methods of community-focused transformative justice. We cannot replace the police with organizations that funnel people into the criminal justice system. The people that respond to emergency calls should not be able to arrest the people that they are serving. I believe that defunding the police and shifting that money to address inequity in the SLC budget, grant awarding, zoning, housing, and access to public programs is a way to start empowering communities that are subjugated by systemic racism. Thank you so much for your time Darin, Jeff</p>

7/21/2020 11:40	Rachel Rehm	<p>Dear Mayor Mendenhall, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family what you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor. Rachel Rehm</p>

7/21/2020 12:34	twentyfanhd	<p>Your in for a fight / reelection will be your downfall. Reel it in or you will be by the voters. We are done with this BS. We, the citizens of Utah and this great nation, fully support the first amendment right to free speech and PEACEFUL assembly. We as members of Utah Citizen?s Alarm are 100% inclusive and welcome and love our brothers and sisters of any race, religion or sexual orientation. We have been falsely painted as white supremacists? or racist?. Standing up to violence, lawlessness and destruction of our communities has NOTHING to do with race. The scourge of violent protests and civil unrest is a real and present danger. The unpredictability and potential for violence at these protests has been clearly demonstrated over and over again not only nationwide, but more recently in our own community. Thus, not only has law enforcement rightfully ramped up their efforts to be a ?show of force? and a massive deterrent to any violence or unrest, so now have the citizens of Utah banded together to protect our own communities from the threat of violence and anarchy. Let this message be loud and clear: We will not stand for violence, anarchy, the destruction of public property or historical monuments, threats to innocent civilians or passers-by, threats to law enforcement or their headquarters, or any other unlawful acts. If your intention is chaos, disorder and violence you will be met with not only our beloved law enforcement, but you will also be met with the now not-so-silent majority of Utah citizens who have said ENOUGH. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. You have been granted a sacred duty to serve and protect the citizens, not a political party, an agenda, or a personal vision. Your legacy as a mayor is for you to shape. You can be remembered and revered as an effective leader of a great community, or you can be remembered as a disgrace, where years of disaster cleanup followed your administration. Please put the great people of Salt Lake City and the surrounding communities first. Politics are insignificant compared to the personal and financial security of our residents. Please show the people of our community that your priorities are in the right place. Truly responsible leadership, that which is driven by a love for the people and not loyalty to a cause, is always rewarded at re-election time. If you wish to continue to serve, please help our community by doing the right things as mayor. Sincerely, Tammy Callahan (Concerned Citizen)</p>

7/21/2020 11:41	Mitchell Cook	<p>Dear Mayor Mendenhall, Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability. Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way. Apologizing for the correct actions of the police officers involved weakened your integrity as one that should put support of a good law enforcement agency as a top priority. You either had or should have had reasonable advance knowledge of the recent protests that affected Salt Lake City, particularly the first one where a police car was destroyed and other property was damaged. What did you do to protect your city, your citizens and your police department? All reports point to your tying the hands of the police department and facilitating a liberal agenda, which would include inciting unrest, similar to the actions of other Democrat politicians around the nation, in an effort to affect November elections in a rather counterfeit fashion. Last night, July 18th, protesters were allowed to gather in front of the governor's mansion, they illegally used their own cars to block traffic. City streets and access to businesses were shut down, allowing protesters to march from the governor's mansion to the State Capitol. Last week, you allowed protesters to unlawfully assemble, block traffic and cause hundreds of thousands of dollars of damage to the new D.A.'s office. Hear this loud and clear: Utah residents were and are disgusted with your lack of courage and leadership and for your inaction in allowing these things to happen and we will not stand for it. Salt Lake City is not Seattle. It is not Los Angeles. We are better than that, and need to behave better than what we have seen from other cities, where the leadership is determined to destroy whom and what they have stewardship over, in an effort to push a political agenda. Dear Mayor Mendenhall,

Many of us who are residents of Salt Lake City and the surrounding cities are concerned by your recent action and inaction regarding the safety of our community. You have a duty to protect Salt Lake City from violence, civil unrest and destruction and devaluation of property. If you collect tax revenue for stated purposes and then fail to support the objectives of those sources, you are in breach of duty and you subject the city to civil liability.

Apologizing to the Carbajal family when you did was irresponsible, and was disloyal to your police department. While all of our hearts go out to the Carbajal family, those of us who are familiar with precedent case law in this specific area expected Sim Gill's conclusion, which was legally correct in every way.
