Salt Lake City, UT 84114-5467
Debbie.Lyons@slcgov.com
Phone: (801) 535-7795
Fax: (801) 535-6663

SECTION 2: Internal Operations - Waste and Recycling (Answer the following questions as it applies to waste from internal operations, not waste accepted from other entities)

What are the main items that make up your waste stream (i.e. byproducts of your operation)?

What percentage of your waste stream is recycled?

What steps have you taken to decrease your waste stream?

List recycled products you purchase and the percentage of post-consumer recycled material in each product (i.e. paper towels with 20% post-consumer recycled content)

SECTION 3: Contributions to Recycling Market Development in SLC

Does your business (check all that apply):

Collect recyclable material

Process recyclable material

Use recyclable material in a manufacturing process

If you are a manufacturer, what products do you make, and what is the post-consumer recycled content of each product?

What recyclable materials does your business accept?

What are the sources of the recyclable material your business accepts?

Residential

Commercial

Industrial

Institutional

What is the average amount (volume or weight) of material your business accepts for recycling each year?

On average, what percentage of the recyclable material your business accepts is post-consumer?

What percentage of the material your business accepts is recycled?

How do you dispose of non-recyclable material?
