Q18 - Which services or programs would you propose cutting or reducing?						
	Tag 1	Tag 2	Tag 3	Tag 4	Tag 5	
yard wasteand recycle to bi-monthly	Yard waste	Every-other-week				
yard waste. i use this service maybe 6-12 times a year but i'm paying a hefty monthly sum for	Yard waste					
yard waste, recycling	Yard waste	Recycling Bin				
yard waste, due to the city and rising cost of their monthly bill I can not afford a yard so I no						
longer mow a lawn	Yard waste					
yard waste, composte. why pay for services we dont use.	Yard waste					
yard waste removal does not need to be a weekly service in the winter	Yard waste	Reduced services:	yard waste winter s	uspension		
yard waste and recycling. Recycling costs more than it saves. Take it out. yard waste can go						
in the garbage can	Yard waste	Recycling services				
yard waste and recycling	Yard waste	Recycling services				
yard waste and recycling	Yard waste	Recycling services				
yard waste	Yard waste	-				
yard waste	Yard waste					
yard waste	Yard waste					
yard debris and recycling	Yard waste	Recycling services				
yard and compost removal	Yard waste	, ,				
yard	Yard waste					
whatever it takes beyond basic trash removal. NO additional taxes, fees, levies, charges.						
NONE. all governments waste money. find MORE ways the government is wasting money and	i					
stop it. i.e. i see SO many UTA buses driving around empty. UTA's budget is too high. PLUS						
we had to pay to build trax and maintain it while most buses are empty? we both know much						
more government waste can and should be identified and that money used for things that are						
really needed and affect many more people. NO NEW TAXATION of ANY kind! manage your						
budget effectively as 95% of the citizenry has too. most of our incomes are NOT keeping up						
with inflation already.	General increased	efficiency				
weekly yard waste	Yard waste	,				
weekly services, replaced with biweekly services instead,	Every-other-week					
weekly recycling could be changed to every other week.	Every-other-week					
waste services. BTW, to me it looks like those of us who use the small cans are being charged	,					
more of a rate increase, unfair.	General cuts to pro	ogram

spread out the time in which garbage is collected. people with smaller cans would buy bigger,					
people with bigger would buy a second. collect every ten days. 1, 11, 31.	Every-other-week				
smaller sized garbage containers.	Smaller garbage ca	ns			
since we are not making any money on recycling and cant recycle many items anyway lets get					
rid of that	Recycling services				
since the recycling doesn't take near what it used too. don't want to pay any more. there is a					
lament to what we can afford.	Recycling services				
shorten the green waste (brown can) collection time	Every-other-week	Yard waste			
reducing green waste collection to once a month	Every-other-week	Yard waste			
reducing all programs	General cuts to pro	gram			
reduce the yard waste or recycling program, or get rid of yearly curbside pickup services for					
large pieces of garbage.	Recycling services	Yard waste	Remove C2H		
reduce the blue recycling to twice a month instead of weekly	Every-other-week				
reduce recycling pickup to every other week	Every-other-week				
reduce pick up every week, perhaps every other week	Every-other-week				
reduce in the yard waste, and eliminate the bulky waste	Yard waste	Remove C2H			
reduce garbage collection - perhaps have your recycling snoopes look into garabage cans and					
suggest smaller cans when applicable.	Every-other-week				
recyling - rarely come close to filling that can. Collect every other week	Recycling services	Every-other-week			
recycling/or go back to what we use to recycle only need yard waste in fall maybe 2 months					
instead of all year	Recycling services	Return to NCU			
recycling it all is contaminated and largely goes to the dump regardless and costs resources					
to run and prepare anyway.	Recycling services				
recycling. until the program becomes viable. the program was started to reduce the amount					
going to the landfill. basically the only items are hard plastics (bottles) aluminum, steel cans	Recycling services				
recycling. most goes to landfill anyway	Recycling services				

recycling. It conves no numbers to me. I can recycle coardboard at any school and they hanglit			
recycling. It serves no purpose to me. I can recycle coardboard at any school and they benefit	Danuelina comicae		
from it.	Recycling services		
recycling.	Recycling services		
recycling- many people don't recycle the proper things anyway. A free dump pass would help			
with the call to haul program. I just feel like the city is increasing the cost of everything. It			
definitely feels like there is a problem when they are building so many new buildings and			
adding so many residences but there is still not enough money? This is pretty frustrating.	Recycling services		
recycling,glass	Recycling services		
recycling, since you are decreasing what can be recycled and it ends up in the trash, such as shreaded paper.	Recycling services		
recycling since the revenue/expense is not always determinable and when it costs the city, it is	5		
not worth it.	Recycling services		
recycling since it seems what we can recycle is dwindling every day. Until a better system is in			
place perhaps it is better to either limit recycling pick up to every other week or once a month			
until we have a good sustainable system.	Recycling services		
recycling should be eliminated at any time the expense exceeds the revenues. You sold this			
program to us with the expectation it would pay for itself.	Recycling services		
recycling seems to be going away due to not being able to ship to China anymore, may be a			
waste of time unless US finds a way to handle it themselves	Recycling services		
recycling reduction to minimize increases in garbage	Recycling services		
recycling pick up every other week	Every-other-week		
recycling options	Recycling services		
recycling it dosent go any where. the rest of us need to live with in or meens!!!	Recycling services		
recycling could be done every two weeks.	Every-other-week

change weekly recycling pick up to once every two weeks.	Every-other-week		
certainly recycling cans. I have always thought it ineffecient to send three trucks a week to	-		
every house to occomplish waste removal. The cost of trucks, gas, personel and pollution to			
do so is way to high. If I can haul my leaves to bins at the park, why couldn't I do that for grass			
clippings. if everybody did we could still get the compost rewards and cut most of the costs			
for added trucks, trips personel and pollution. One less truck a week and great cost savings to			
the customer. Many customers like myself don't put out a can every week. The cost to stop			
and start the big trucks and run the arm out to grab and dump the can would be reduced and			
the time to collect the garbage if we filled the can before dumping instead of dumped a			
quarter of a can every week. We live in the computer age it would be easy to tell if someone			
is dumping a can every week or if you were passing by their house most weeks without a stop.			
Again cost savings for those that use the service less and for the opperation if far less cans had			
to be picked up. if we are dumping recycled garbage by or at the same landfile with the			
regular garbage, why an extra trip, truck, personel, and pollution. Recycling is not working,			
you know and so do we. when it can pay for itself, then lets do it but until then it is only added			
costs. in other areas they sort the garbage through automated process mostly and it is far			
better for the enviornment and more cost efficient, why are we only thinking landfills?			
Because it is the easy way, passing the labor to the consumer to sort. Smaller cans don't do			
anything to save trips or stops or garbage. I think there are ways to reduce the cost of garbage			
collection but that is not one of your main conserns and you have little to no incentive to do			
so, instead want to increase your bottom line. I hate to be so blunt, but you are in a position			
to make a difference for every family in this valley and be part of the solution instead of part			
· · · · · · · · · · · · · · · · · · ·	General cuts to pro	Every-other-week

Yard (Green) waste and recyling - there are other ways to do both.	Yard waste	Recycling services	
Xmas trees, call 2 haul and additional Receptacles	Eliminate holiday ti		
With garbage and compost we don't need weekly pickup. Like Seattle garbage could be			
picked up every other week if we do high heat composting.	Every-other-week		
Whichever is the most expensive to run. My only goal is to have what I don't want gone for as			
little money as possible.	General cuts to pro	gram	
Whereas the yearly large item cleanup has been replaced with the Call to Haul program, and it	· · · · · · · · · · · · · · · · · · ·	8.4	
does not seem to be working as well, ie. long wait lists, does not seem as efficient. And so			
many people have yard care services that haul away the yard waste and other call commercial			
services to haul away junk maybe it is time to let that program end.	Yard waste		
Whatever is least effective. Maybe recycling so you can save the cost of paying people to go	Tatu waste		
around looking in people's cans. More education to public on what can and cant' be recycled			
would be useful	Conoral suts to pro	Descrit like enforcement team	
Well, since the streets were allowed to deteriorate beyond an acceptable appearance & use	General cuts to pro	Doesn't like enforcement team	
over the past 10 years plus, and when the cost for years ago would have been less expensive			
for repairs I feel the yard trimmings can just be left to the individuals to transport to the			
compost yards. Or, invent a system to charge per use for any of the two containers of			
compost or garbage. Recycling, well good luck with that and maybe begin with the City			
employees in the workplaces. Also, how about increasing the huge apartment complex			
users/owners of the entire properties, as well as the businesses throughout the City. The City			
surely can reduce budgets throughout the SLCCorp Departments and especially the monies			
spent on programs could be reduced or eliminated. One example would be the City investing			
in affordable housing for the nonprofits surely will step in and fill the voids that City taxpayers			
have been paying in the past many years.	Wage-related redu	Yard waste Recycling services	
Weekly yard waste could be monthly bulk or something. Recycling could be every other week.			
Some of the special services like additional bins could be removed.	Every-other-week	No free recycling bins	

Weekly yard waste bc people can use leaves for compost instead. Or use the call 2 haul				
program.	Yard waste			
Weekly pickups	Every-other-week			
Weekly pickup. I cannot fill even a 40 gallon container on a weekly basis and would be fine				
with monthly or bi-monthly pickup.	Every-other-week			
Weekly pickup	Every-other-week			
Weekly pick up. It should be bi-monthly at most. Residents who habitually throw out more	zvery curer meen			
refuse should be charged for a second garbage container that is picked up on the same				
schedule as everything else.	Every-other-week			
Weekly garbage pick up can be biweekly	Every-other-week			
We should allow for a bi-weekly trash pickup which costs less. certain color bins are only	zvery curer meen			
picked up on some weeks. If families need weekly trash pickup they can chose to pay for that				
service. Our family who works hard to reduce waste and recycle only would need trash pick				
up once maybe twice per month. It would be great to have a reduced cost for putting in this				
effort to reduce garbage!	Every-other-week	Pay as you throw		
We never use full capacity of recycle can or yard waste can each week. Why not skip a cycle	Every other week	Tay as you allow		
or two in collecting these 90 Gal cans.	Every-other-week			
We need to be honest about what's actually happening with recycling. If it's not actually	Every other week			
getting recycled then just put it in the landfill. Don't waste the fuel of an extra truck if it's just				
going to get put in the landfill either way. Also, give people an extra recycling bin and then				
only collect two times a month. Half the fuel costs and half the labor costs.	Every-other-week	Recycling services		
We currently recycle diligently but we never fill up our recycling bin in a week. We could easily	•	Necycling services		
move to a two-week schedule for pickup. Doing so, I believe, would also encourage people to				
collapse boxes to make room in their bin, which is optimal for the recycling centers anyway.				
Other cities in our state use this two-week collection method for recycling. It would reduce the	4			
cost of gas, the number of vehicles needed each day, as well as wear on the vehicles.	Every-other-week			
We could have every other week service.	Every-other-week

Possibly reducing the pick up frequency. I usually only have to put out my blue bin once every			
two weeks. Same with my 40 gallon garbage bin	Every-other-week		
Please review your budget and look at internal cost reductions. What about all of these new			
apartments that are being built? Where is that income going?	General increased e	efficiency	
Plastic recycling and green yard waste.	Recycling services	·	
Pickup staggered every other week	Every-other-week		
Picking up the yard waste (brown) container 1x a month instead of weekly.	Every-other-week		
Picking up our garbage every other week. Picking up recycle once a month or once every six			
weeks. So many recycle cans, I notice the boxes are not deconstructed, the milk bottles are			
not flattened. We work very hard to take care cleaning and preparing the recycle for recycling			
and saving space. There needs to be better direction and encouragement to those learning			
this technique.	Every-other-week		
Picking up glass and other extra services	Glass recycling		
Pick up the trash, the recycle and the green waste cans every other week.	Every-other-week		
Pick up recycling once a month	Every-other-week		
Pick up recycle every other week or charge more to the 90 gallon waste bin users.	Every-other-week	Pay as you throw	
Pick up of recycling cans every other week. Eliminate the pilot vehicle. Do away with bulk	zvery ourier meen		
waste program. Residents can hire private companies to haul their bulk waste or go to the			
waste roundups you do in areas of the city such as Sugarhouse Park.	Remove C2H	Doesn't like enforce Every-other-week	
Pick up garbage, recycle, compost every other week.	Every-other-week		
Pick up garbage cans every other week instead of every week. Minimize green waste collection	· · · · · · · · · · · · · · · · · · ·		
by incentivizing on site composting. Minimize recycling collection by reducing packaging at the			
source.	Every-other-week		
Pick up every other week instead of weekly.	Every-other-week		
Pick up every other week for greens yard waste and recycle cans.	Every-other-week		
Pick up every other week	Every-other-week		
Pick up compost and recycling every other week, charge a small fee for Call2Haul, a more	,		
modest increase in can costs (instead of a 60% increase!)	Should be a fee-for-	Every-other-week	
Perhaps you could pick up every other week instead of weekly, saving gas.	Every-other-week		
Perhaps recycle collection and garbage collection could be be reduced to every other week.	,		
With the latest restrictions on what may be recycled we rarely put ours out every week. The			
season for yard waste perhaps could be shortened.	Every-other-week	Reduced services: yard waste winter suspension	
Our household can personally do without curbside hauls	Remove C2H		
Optional less frequent pickup for those producing less waste	Every-other-week		
Opt for less frequent services. I only end up needing yard maybe once a month and recycling	,		
once a month as well. I only need to put my trash out every 3 weeks or so but could also go			
once a month. Being able to change the frequency would really be great.	Every-other-week		
Offering free extra cana	<u> </u>	No free recycling bins	
Now that the residents have not had the Neighborhood Cleanup Program for a few years, it is	,		
time to take the next step and make owners and residents responsible for their own bulky			
waste. Removing this should lower cost to us.	Remove C2H		
Not the weekly services but all of the additional services	General cuts to pro	gram

	veek
Like the glass pick-up, reduce pickup of the blue recycling can to every other week or once a	
frequently maybe except in the fall (or other high volume times).	veek General increased efficiency
recyclables (not to China). Reduce green waste pickup to once every 2 weeks or less	
more collections per year for a fee. Do better business with selling recyclables or using	
Make call 2 haul efficient instead of here a little there a little always across town or allow	

Increase the fees for recycling to cover the "cost" to recycle. Make those that want to recycle			
pay for their recycling just like the waste bin. If I had the option, I would opt out of the			
recycling program. If recycling costs money to the city, then those that wish to continue			
recycling should be covering that cost.	Pay as you throw		
Increase recycling capabilities and decrease 90 Gallon Waste Cans	Smaller garbage car	Pay as you throw	
Increase our plastic recycling.	Misc		
Increase fees for additional yard waste cans and Call 2 Haul program. Reassess recycling			
program. Is it cost effective for the results produced?	Should be a fee-for-	No free extra yard \ Recycling services	
Increase efficiency with with pick ups are made. We have three big trucks going up and down			
the street each week. Can't you figure a better way to do this? Consider more of a user-based			
fee where those who overstuff their cans every week need to pay more.	Pay as you throw	Every-other-week General increased efficiency	
Illiminate recycling and yard waste just have one green bin. Collect every other week if needed	Recycling services	Yard waste	
If you're losing money on recycling and not willing to pick up compost materials stop those			
services	Recycling services		
If we cannot recycle as much as you say, then reduce the amount of bins each household has.			
have two which I use more than my garbage, but when I buy things I do so with purpose. It has	i		
to be in recyclable materials.	Recycling services		
If we can't find anyone who wants the waste to recycle is it worth the increased cost to do so?	Misc		
If recycling specific products is costing more than landfilling them, and I am assuming just			
about all plastic is a loss leader, then communicate that to citizens and don't collect it.			
Recycling programs "greenwash" our disposable lifestyles. The city shouldn't be an enabler of			
this. I understand the recycled market is dynamic and you don't want to change the allowable			
products so frequently it confuses people, and I know marketing campaigns are costly too, but			
be honest, because most folks have no idea.	Recycling services		
If recycling is no longer sustainable, it should be reduced or eliminated.	Recycling services		
If recycling is costing money we should cut or reduce it. Green waste and recycling could be			
reduced to every other week to decrease costs	Recycling services	Every-other-week	
If recycling cost money, it is not recycling. Totally opposed to increased fees. Make affordable			
housing affordable.	Recycling services		
If it costs less to put it into the garbage bins than the recycling bins, I see no reason to to have			
the blue bins. Also it seems that many consumer plastics are not longer accepted anyway. I			
would also be fine moving to less regular yard cleanup and ending that service earlier in the			
winter than current practice.	Recycling services	Reduced services: yard waste winter suspension	
If I cannot get a smaller recycling can - only pick up once a month and only charge once a	Every-other-week	Pay as you throw	
If Chinese recyclers will no longer take out recyclables, contract with Sitla to find some cheap			
wasteland to haul the trash. Not for upping the costs at all. If purchased better vehicles this			
should save money in the long run. Getting rid of the every neighborhood city clean up must			
have saved the city a bundle. For the same fees, let multi-family buildings >3 units partake			
in the program.	Recycling services		
If China is no longer taking recycling or it cost more to run the program than regular waste	, 5:: :::		
then why are we doing it? Cut that program if it does not make sense. Also a lot of beverage			
containers end up in the landfill i.e beer bottle glass and cans. We could change the liquor			
laws to allow more beverages to be poured on reusable keg containers instead of glass cans or			
bottles. Currenly you can only get 5 percent or lower beer on draught so if you want a			
different beer you have to get it in a can or bottle that most likely ends up in the landfill. If we			
have our commercial businesses using less landfill that would help in not having to buy more			
land for home waste. If we already have yard waste containers why don't you tell people to			
put their holiday trees in the yard waste container? For large items I think you could offer the			
service to pick it up at a fee not for free, or peple can take it to the dump themselves.	Recycling services		
per rice to plante up at a recent for rice, or pepie can take it to the dump themselves.	recycling services		

IF RECYCLING IS COSTING THE CITY MONEY AT THIS TIME SOME ADDITIONAL OPTIONS NEED			
TO BE LOOKED AT.	Recycling services		
I'm pretty sure you could cost cut most deplartments in the city. You are a bloated, inefficient			
bureaucracy that can't run a business effectively.	Wage-related reduc	ctions	
I'm not sure what options are available.	Misc		
I'm a single person so I put out my cans every other week - and often, they are not full. So			
would it be possible to cut back on how often you pick up?	Every-other-week		
I wouldn't cut or reduce any of the programs.	Do not reduce servi	ces	
I would suggest reducing the frequency with which you pick up curbside.	Every-other-week		
I would reduce or cut recycling and/or bulky trash. My personal comment is a reflection of (in			
case you haven't realized it) not wanting to see so many containers next to my front door due			
to my three neighbors. If there was just garbage pick up then there would be the elimination			
of at least two containers.	Recycling services		
I would propose reducing the glass recycling program and the yearly program to pickup large			
items.	Remove C2H	Glass recycling	
I would propose every other week pick up for trash and recycling. This would decrease the			
amount of fuel/other expenses by half as well. And people would hopefully use less waste per			
week because it would not be picked up as regularly. Or they might be more conscious of it.	Every-other-week		
I would propose cutting free recycling bins. Or at least charge for the largest bin. While			
recycling is a feel good program, shipping our waste to other states or countries to manage is			
not achieving a net positive for the environment. Programs should discourage creating waste.	No free recycling bit	ns	
I would prefer not to cut anything but to reduce it. I would be fine with every other week. But			
I am a household of (2) and we don't accumulate a lot of waste. We recycle or compost as			
much as possible. And, except during peak seasons (yard clean up) we only take the garbage			
bins out every other week.	General cuts to prog	gram	
I would not cut any of the services. They are important for our environment. Maybe garbage			
cold be collected every other week. Our recycle can fills up quicker than the garbage can does.	Do not reduce servi	Every-other-week	
I would cut whatever is needed to maintain fees as low as possible. These fee increases are			
regressive and hurt the lower income family the worst.	General cuts to prog	gram	
I would be OK if they came to pick up once every 2 weeks	Every-other-week		
I thought I was green I guess not leaves and yard clippings can go in the trash or return to the			
orange bag process	Yard waste		
I think you should only pick up the recycle and green waste cans twice monthly.	Every-other-week		
I think what is the main problem is people not properly putting recyclables in blue cans so it de	.		
values waste. Expand education and out reach to reduce lost revenue on recycle materials.	General increased e	efficiency	
I think reducing the size or the amount of times the garbage is picked up could be lowered. I			
am from Washingotn and where I lived they collect our garbage and reycling every 2 weeks			
which reduces the amount of trucks on the road.	Every-other-week		
I think households using a 90 gallon can should be charged a premium. I also think there			
should be a charge to use the Call2 Haul program. That seems above and beyond normal			
waste removal expectations.	Should be a fee-for-	Pay as you throw	
I think a study should be done to see if frequency of collections can be reduced for all 3 cans.			
Maybe every other week instead of every week. Garbage may need to stay at every week, but			
recycling and yard waste could be less frequent. Just a thought.	Every-other-week		
I support recycling but I do not think the city does enough to support recycling. For example			
you cannot recycle plastic bags(the city should be charging plastic bags), no styrofoam (the			
city should charge if using a styrofoam container!), and no shredded paper (which I do			
produce and I do not see the problem). What happens to the hard plastic in the recyclable	Recycling services		
the state of the s	, 3		

I see that you are proposing increasing rates by 61% in six years, that seems too high. How big					
was the 2015 rate increase?	Misc				
I recommend coming down the brown and blue cans and going back to the yearly					
neighborhood clean up with dump trucks and scoops!!	Return to NCU	Recycling services	Yard waste		
I rarely use the blue recycling container, and I've noticed that some of my neighbors rarely use	!				
it.	Recycling services				
I propose sharing cans between neighbors as I said earlier so no cans are ever put out half-					
empty or almost empty. My next door neighbor and I have done this from time to time, even					
though we are both paying every month for this service: i.e., we completely fill a can between					
the two of us while the other can remains empty and is not taken to the curb. I wonder how					
many other cans in the City are half-full each week?	Every-other-week				
I propose reducing lawn & garden pickup and recycling pick up frequency during certain times					
of the year. Perhaps every other week in June, July, August & September. I would also would					
also charge more for larger garbage cans, at least linear by volume, if not progressively more.	Every-other-week	Reduced services: y	ard waste winter su	spension	
I propose a smaller size (cheaper) recycling can. I don't fill mine up each week, I usually take				İ	
my recycling to the curb once per month.	Smaller blue/brow	r Every-other-week			
I only have my recycling can picked up every other week. During the winter my yard waste can		,			
just sits there empty until late spring.		Reduced services: y	ard waste winter su	spension	
I have two ideas. One is that you pick up recycle material one week, and trash the next. Most	· ·				
cans are only partially full, and this could reduce the labor, mileage, and cost. Another					
possibility, although unlikely, is to put bar codes on the cans. The truck could scan them, and					
people could be billed by how often they put out the cans, also a way of getting people to fill					
the cans before putting them out.	Every-other-week	Pay as you throw			
I have had a significant increase in prices over the last 2 years so saying you haven't increased	Every benef week	r uy us you till ou			
prices since 2015 is not a true statement in my experience	Misc				
I have a small can. My recycling and my trash dont go out every week. I wouldbe fine with	IVIISC				
collection every other week.	Every-other-week				
I guess I am confused where is the deficit.	Misc				
I feel the current recycling program is inefficient and could be adjusted to focus on More cost	IVIISC				
effective recycling methods. For example focusing on recycling items without huge cost.					
Informing/fining bad actors. Specifically removing all subsidies for glass recycling.	Recycling services				
I don't have much garbage and recycling items. I will continue practicing minimalism.	Misc				
I don't use any of the other services, not fair I pay more for services I don't need/use	General cuts to pro	ngram			
I don't need a pickup every week.	Every-other-week	gram			
I don't care. Give me the option to not pay for these services at all and to haul my own trash	Lvery-other-week				
to the dump. Frankly, it would be more cost-effective for me.	General cuts to pro	ngram			
I could get by (2 person household, with pickup every other week.	Every-other-week	, pi aiii			
I am not sure. All the services you provide I use.	Misc				
I am a dedicated recycler, but I increasingly wonder if it is merely a "feel good†exercise.	141130				
Is recyclable plastic just going to a dump somewhere to be piled up? Does it really pay to					
diligently put newsprint and magazines in the blue can? City officials need to be transparent					
about this. If aluminum is really the only profitable item going into the can, Salt Lake City					
should abandon the curbside program altogether and place dumpsters next to the glass-					
collection bins I already use. Think of the money that could be saved on trucks, maintenance	Recycling services				
How about picking up recycling/waste every 2 weeks instead of every week?	Every-other-week				
	Every-other-week				
How about making recycling visit every other week. I would think most households don't fill	Eveny other west				
their recycling bins every week.	Every-other-week	nc			
Household garbage can size.	Smaller garbage ca	115			
Have recycle cans picked up every other week.	Every-other-week

Glass	Glass recycling			
Glass	Glass recycling			
Give residents an option to purchase a private garbage collection service	Glass recycling			
Give people the option of less pickup per month we seldom fill our trash bin	Every-other-week			
Give people options for every-other-week pick up. Some cities do recycling every other week.				
You could do recycling one week, yard waste the other. Smaller containers does not change				
your driving or labor costs. Be smart with scheduling!	Every-other-week			
Get rid of they recycling program as it isn't fully functional as it currently is	Recycling services			
Get rid of the recycling police. How is it sustainable to have people driving all dayâ€"driving	, ,			
which pollutes more than anything– to tell us what to do. Why do these joker's have to do				
this when you can just mail out the information, which you only do when it's for this survey				
and not for what I can recycle. I got something stapled to my can about the survey the same				
day the mail delivered it, again a waste to pay the people when you mail it anyways. Get rid of				
these garbage police and you'll save tons of money. Six people's wages out of the cost will				
make it so you don't need to charge me more for a mediocre at best system.	Doesn't like enforce	ement team		
Get rid of the garbage patrol that goes around the neighborhoods looking in our bins.	Doesn't like enforce	ement team		
Get rid of recycling. Let people drop off at a group site. It is a waste of trucks, man power,				
gas, time, containers, etc	Recycling services			
Get rid of recycling	Recycling services			
Get rid of call 2 haul and glass collection	Remove C2H	Glass recycling		
Garbage- Our recycle is full every week but not garbage.	Garbage services	, 0		
Garbage,leaf waste	Garbage services	Yard waste		
Garbage to promote reclycling	Garbage services			
Garbage pickup every other week?	Every-other-week			
Garbage pickup every other week rather than every week. That would reduce transportation	·			
costs greatly.	Every-other-week			
Garbage pick up frequency. Maybe every other week but add additional holiday pick ups?	Every-other-week			
Garbage pick up every other week	Every-other-week			
Garbage collection could go once every other week if we were smart about it - got extra				
recycling bins out, increased curbside glass to twice a month, maybe set credits via water				
usage?	Every-other-week			
Garbage	Garbage services			
GLASS, blue bin (recycle), try to make FEWER garbage vehicle trips please (expensive and	Glass recycling	Recycling services	Every-other-week	
GLASS AND YARD WASTE RECYCLING AND CHRISTMAS TREE PICK UP	Eliminate holiday ti	Glass recycling	Yard waste	
Frequency of pickup	Every-other-week			
Frequency of picking up blue can recycling. Since this service is currently a cost to the city let's				
reduce the pick up frequency.	Every-other-week			
Frequency of pick up- move to every other week	Every-other-week			
Frequency of garbage pickup	Every-other-week			
Free Large item pick up	Remove C2H			
For example make a program that help people in community apartments which they do not				
have a recicle container.	Misc			
Flag apartments that are currently getting city service and make them use 3rd party trash	General cuts to pro	gram		
First, the salary of the guy who runs around in a segue putting nastygrams on people's	· ·			
recycling bins. Curbside pickup of compost, reycling.	Doesn't like enforce	Recycling services	Yard waste	

First I doubt anymous sith or play as Library the increases one vidiouleus I would proceed to sub-			
First, I don't approve either plan as I think the increases are ridiculous. I would prepose to cut			
the recycling program completely or have only pickups once or twice a month. With the			
changes in recycling and the limitations of what can go in the recycling can, there isn't as much	1		
of a need for it. We only use it now to recycle cardboard boxes. That's it, since they no longer			
allow you to put in plastic bags. I would not propose any changes to the brown cans.	Recycling services		
Fewer pickups? Maybe every two weeks? I know this would be hard, but perhaps it would			
make people more mindful of consumption and waste.	Every-other-week		
FIRE THE GARBAGE POLICE. End the fake recycling program.	Doesn't like enforce		
Extra recycling bins for free. Especially since recycling is costing us money.	No free recycling bi		
Extra cans at no cast, Christmas tree pick up.		No free recycling bi No free extra yard waste containers	
Extra bins and picking up large items for free. Charge for those as they are not regular services.			
Everything, but plain old garbage collection, 1/week in summer and 2/month in winter	· · · · · · · · · · · · · · · · · · ·	General cuts to program	
Everything pickups	Every-other-week		
Every other week garbage/recycling pickup.	Every-other-week		
Every other week for trash and recycle rubbish once or twice a month	Every-other-week		
Every fourth pickup (once a month excepting, perhaps, in December) could be dropped.			
Alternatively, increases could be less severe and the City can find 'cuts' (which really means			
'less increases') by controlling overhead (ie: one less pickup a month means less overhead).	Every-other-week		
Entirely eliminate Call 2 Haul, tree limb service, and Christmas tree service. Cheaper small cans	از		
and much more for the largest cans.	Eliminate holiday tr	Remove C2H Smaller garbage bins	
Emptying bins in a biweekly or even less frequently basis	Every-other-week		
Eliminate the trash police that make sure people are complying. Consolidate recycling			
products to include glass and eliminate glass container collection areas which will cut down on			
trucks and personel plus the carbon footprint of mulitple residents driving their personal			
vehicles to collection points. One truck is more efficient at recycling pickup than an entire			
neighborhood driving to designate locations for drop off. (most people don't have time for			
that actitity anyways).	Doesn't like enforce	General increased efficiency	
Eliminate the blue bins. https://www.nytimes.com/2019/03/16/business/local-recycling-			
costs.html	Recycling services		
Eliminate recycling.	Recycling services		
Eliminate Call 2 Haul. Collect recycling every other week.	Remove C2H	Every-other-week	
Elimate the 'free' bulk program. Charge separate fees for such services as needed. This would			
reduce our expenses by 11% and give the city a new cash stream paid only by those who			
actually use the bulk waste services.	Remove C2H		
Eleminate the blue can. Also, stop the inspection of recycle cans.	Recycling services	Doesn't like enforcement team

Discontinue recycling (blue trash bins). Doing so would save money. Not doing so makes no	, callet week		
sense to me.	Recycling services		
Difficult to say. We use the recycle bin a lot. The smallest waste can is used. Possibly more	, 5:: ::0		
community education. I am sure compost and recycle are not being used correctly by the			
masses.	Misc		
Decrease trash & recycling pick up to every 2 weeks	Every-other-week		
Decrease frequency of recycle pick up.	Every-other-week		
Cutting back on how often its picked up	Every-other-week		
Cut/reduce glass curbside collection. We can take it to the large dropoff bins.	Glass recycling		
Cut yard waste collection altogether, or remove the number of can sizes available.	Yard waste		
Cut yard waste and recycling and reduce garbage pickup to every other week	General cuts to pro	Every-other-week	
Cut yard waste and Recycling. You currently are funding 3 different fleets of trucks, drivers,			
and fuel for each of them. Stick to one fleet, garbage only (less total trucks, drivers, and fuel).			
Most of the yard waste and recycling containers go partially filled for most of the year. If you			
had to supplement a few more trucks for the little bit of extra garbage, it would still be less			
than funding 3 fleets. You don't mention another option, and that is having property owners			
make a one-time purchase of a small compactor, and then your need for trucks would go			
down substantially.	General cuts to pro	gram	
Cut the recycling program. It is not being managed properly anyway.	Recycling services		
Cut the city yard waste collection and let people handle it on their own.	Yard waste		
Cut recycling. Too many restrictions anyway.	Recycling services		
Cut recycling there is no evidence that the recycled items are used and not dumped in the			
environment.	Recycling services		
Cut recycling and yard waste - allow it to be the property owner's responsibility.	Recycling services	Yard waste	
Cut glass pickup. Glass pick up is the most underused, so no need to have the extra			
infrastructure for it. Without more data I can't make an accurate assessment of what else			
could be cut or reduced.	Glass recycling		
Cut brown cans even moreâ€" maybe only have services March- November?	Yard waste		
Cut back on reclycling to every other week since we can't recycle as much anymore. Mine is	From athem!		
rarely ever even half full.	Every-other-week		
Cut back and do pick ups on Recycling and yard waste every other week - you could cut the	Eveny other week		
staff and equipment in half. It's getting hard to afford to live in Salt Lake. Cut Recycle program	Every-other-week		
Cut 2 haul	Recycling services Remove C2H		
	Neillove CZH

Curb side recycling	Recycling services	Old35 (CCycling	
euro sue recycling	Mecyching services		

Curb side glass recycle as very few use it. In our area berhaps 1 in 20. Pure waste of money.				
Save that and return to the Spring clean-up which worked better Example: Many people				
have tree branches that come down which are too big to fit in the brown cans and do they do				
not have the saws to cut them up e	Glass recycling	Return to NCU		
Could there be no charge for a particular week if no bins are placed at the curb? This would				
encourage homes to only put full bins at the curb and thus reduce the number of stops				
garbage trucks need to make on a given day.	Every-other-week			
Could garbage collection be less frequent than weekly? Would it make any sense to institute				
an electronic system that charges for emptying of each receptacle? The Call 2 Haul has				
effectively eliminated the de facto recycling (through scavaging) that used to happen; so Call 2				
Haul has reduced reuse of materials, and the program is less valuable and might be considered				
for cutting.	Every-other-week			
Could do recycling or yard waste every 2 weeks (not in summer for yard waste)	Every-other-week			
Contractl out these services and save tons of money!	General increased	efficiency		
Consider cutting yard waste and recycling to twice a month.	Every-other-week			
Consider an every-other week type of pickup schedule. As the importance of reducing the				
amount of waste each one of us produces continues to rise, it would act as a way to make				
people see ways to reduce their volume. As mentioned before, homes that fill a 90 gallon				
trash bin and a 60? gallon recycle bin every week need to look closely at their personal				
consumption habits.	Every-other-week	Pay as you throw		
Concern - if one of services eliminated trash would increase. So, really a net savings?	Misc
