

Schneider Auto Karosserie

"I value the environment around us, the air we breathe, the water we drink, the food we grow and eat. I suppose, I'm a naturalist at heart. That's why my business and my employees strive to do anything that we can to minimize our impact on the environment—it's the right thing to do."

— MARGRIT SCHNEIDER

GOALS

Recycler will conduct waste audit

Downsizing north garage doors for improved climate retention

Identifying buyers for working extra parts such as headlights

ACCOMPLISHMENTS

Retrofitted all lighting fixtures to high-efficiency T8 fluorescents

Installed new insulated garage doors

Placed hand dryers in bathrooms & replace paper towels with reusable towels

Built out 8 new skylights in roof for enhanced natural lighting
