

Tracy Aviary

Tracy Aviary's conservation ethic goes beyond our work to preserve birds and their habitats; we strive for sustainability in all parts of our daily operations. We stock our gift shop and café with eco-friendly products, we generate our own electricity with our flamingo-themed solar trees, and we have a dedicated internal committee – Team Verde – who develop goals and implement projects that make the Aviary more sustainable.

GOALS

Eliminate single-use plastics in our gift shop and new Bird Feeder Café

Reduce Light Pollution in the Aviary using CFLs & lighting timers

Reprogram thermostat settings to achieve 10% annual energy consumption reduction

Utah Clear the Air Challenge 439 miles saved

ACCOMPLISHMENTS

18 kW on-site solar capacity

67% recycling diversion rate

Established "carrion crew" that assists guests in properly disposing of recyclables at Aviary events
