

Utah's Hogle Zoo

"Taking care of our shared environment is critical to saving wildlife. The Zoo aims to be a leader in the movement for a sustainable future. We support Salt Lake City's goals for 100% renewable energy electricity supply by 2030 and 80% reduction in greenhouse gas emissions by 2040. Our operations represent a small portion of the community emissions, but we hope to lead by example, and in doing so inspire our guests and partners to join us in these efforts."
— STEVE BURNS, CEO AND PRESIDENT

GOALS

80% waste reduction

Organic waste recycling

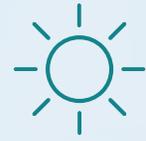

LEED construction policy in development

3-star rated by the Green Restaurant Association

ACCOMPLISHMENTS

3 Photo Voltaic Solar Arrays

2 LEED Gold certified buildings

65% water consumption reduction since 2002 baseline year
