

## 200 East 8-inch Water Main Replacement Project

Construction of the 200 East Water Main Replacement Project is scheduled to start September 19, 2015.

### BACKGROUND AND NEED

The purpose of the project is to replace aging and undersized water line on the east side of 200 East from 400 South to 500 South (see map on back). This should reduce the maintenance needed on the water line in this street. Fire flow and water pressure within this area may improve.

### PUBLIC OUTREACH

SLC Public Utilities staff has been coordinating with representatives from the City/County building, The City Library – Main Library, and The Leonardo to schedule the construction around events on Washington Square and Library Plaza. Adjacent business owners and residents received a hand delivered flyer to notify them of the upcoming construction. If there are additional concerns, please contact the Project Manager, Jenni Oman, listed on the back of the flyer.

### CONSTRUCTION IMPACTS

A majority of the work will take place within existing roadway surfaces. Short-term road closures or detours may be required. Before construction activities begin, notification will be sent to each property in the areas adjacent to the work. The information in the notice will include the timing of construction, anticipated road closures, potential water service outages, and any other impacts of the project.

### ROAD CLOSURES AND DETOURS

Prior to working in any open traffic area, the contractor will submit a traffic plan to the Salt Lake City Engineer for approval. This will minimize impacts to public and private property access.

### EASEMENTS

These existing water lines are constructed on public roads, which are in public rights-of-way. During construction, the Contractor will store supplies only within the public right-of-way or in areas where they have permission.

### SAFETY

Safety is a top priority for SLC Public Utilities. We encourage and appreciate neighborhood participation to keep children away from the construction equipment and work areas. **Parents, please talk with your children about staying away from potentially dangerous construction and staging areas.** If you see any vandalism or trespassing in construction areas, please call the **Salt Lake City Dispatch: (801) 799-4600** to report the incident.

### FREQUENTLY ASKED QUESTIONS

*Q: Who do I call for a water/sewer/flooding emergency?*

*A: For water, sewer, and flooding emergencies, please call our Public Utilities Dispatch at 801-483-6900. This line is staffed 24 hours a day.*
