

# Operator Opt-Out Form for Electronic Stormwater Oversight Inspections as Authorized by Utah Code § 19-5-108.3(11)(c)

As the authorized representative of the permit listed below, I am submitting this form to formally notify the Utah Division of Water Quality (DWQ) and the local Municipal Separate Storm Sewer System (MS4) authorities that our organization is electing to opt out of the electronic site inspection program established under Utah Code § 19-5-108.3.

We understand that under this law, electronic oversight inspections may be conducted using geo-located, time-stamped photographic documentation submitted by the permittee to the regulatory authorities. These electronic inspections must clearly demonstrate compliance with all applicable permit requirements, including the proper installation and maintenance of best management practices (BMPs) as described in the Utah Construction General Permit (CGP) or Common Plan Permit (CPP), as applicable.

By opting out, we are choosing not to provide electronic site inspection documentation. We acknowledge that, in accordance with state law, this provides the DWQ and MS4 with a documented reason to perform traditional on-site oversight inspections for the duration of our project.

This decision does not alter or remove any responsibilities required under the stormwater permit, including the requirement to conduct and document regular operator inspections as specified in CGP Part 4 or CPP Part 3, maintain an up-to-date SWPPP, and comply with all BMP implementation, maintenance, and documentation standards.

We also understand that we may opt back in to electronic site inspections at any time by notifying DWQ and the local MS4 of this decision and submitting the required photographic documentation.
