2/14/2024 13:04	Terry Pantuso	Administrative office	I was a golf pro for 40 years and have seen a lot of bad and good administration in the golf industry. I have never seen as much nepotism as there is in salt lake city golf's administrative office. And don't understand why it has not been looked into. It is obvious to the people that support golf in SLC but apparently not to the mayor or city council. There have been some very suspect hiring in the last couple of years that should be looked into. It's hard to support something or someone who plays such favoritism. There should be competent people running an operation that so many people in Salt Lake enjoy and depend on for a way of life. Sign me: more than concerned, as well as 1000's of other golfers.
2/14/2024 14:19	Caeley Lewis	U Baseball Stadium	I recently heard about the proposal for the U's new baseball stadium, and it is my understanding that the city council will be hearing it on Tuesday. I am concerned about the proposal specifically about leasing out land from Sunnyside Park. I help coach a sober softball team for New Roads Treatment Center. We have been playing in the Wasatch Recovery Foundation Sober Softball league for a long time and have been using three fields at Sunnyside Park every Friday night from March to October for the past couple years. Our league provides important support for recovering individuals. For many of us, the league is one of the things we look forward to most every week, and we have come to love the park just as it is now: the number of fields, the location, and the beautiful sunsets every night. As you can imagine, I oppose the building of the new stadium entirely. I don't want a 35 ft wall blocking the sunsets if the city doesn't lease the land. As much as I don't like that, I definitely don't like the proposed design of the park if the city does lease the land because it removes two of the playing fields we use making it impossible for us to play there. Caeley Lewis (She, Her, Hers)

2/16/2024 9:43	Brad R Christensen 1/2	Permanent Homeless Pod Site and West Side Disconnection	<p>Hi Ale, I've written up a few paragraphs describing my concerns related to the site the state has identified for the pod camp. I'd love it if you'd read them and pass them on to whoever you think prudent. I live and work within about half a mile of the site on either side, and have worked as a social worker with the homeless population for about a decade now, so I have a certain amount of familiarity with the physical environment and the group of people who will soon be living there. I'd appreciate the opportunity to express these concerns to decision makers who can help address them and I value making the site work for everyone. Thanks for your time. As you're probably aware, State officials have identified a site at about 700 W and 500 S to locate a permanent "sanctioned camp" or pod style shelter to serve at least 100 people experiencing homelessness. (https://www.sltrib.com/news/2023/12/28/state-has-its-eyes-permanent-camp/) As a resident of Poplar Grove I'm sure I'm not the only neighbor with concerns about the site. The concerns I write about today are related to how ill-suited the infrastructure in the area is to support and serve 100 new neighbors, most of whom will rely on pedestrian infrastructure to get around. I would encourage Wayne Neiderhauser and anyone else involved in selection to attempt to walk from the nearby (on the map!) Salt Lake Central station to the site and back. Or walk to and from the Weigand Center. Navigating that area on foot or on a bike is a confusing, dehumanizing and dangerous experience. It is not ready to support 100 new neighbors coming and going. Were a 100 unit apartment building to be built there, there would be impact fees to support developing the infrastructure surrounding the building. I suggest the State appropriately consider the impact and commit to developing suitable pedestrian options that would also bring benefit to the people and businesses most impacted by the site. Solving the infrastructure problem won't be especially simple given the challenges presented by choices made in the past, but the impact of the site won't be simple or easy for the neighborhood to manage either. Without improvements I think we can count on more pedestrians wandering on the vanishing southern shoulder of 400 S or playing frogger across the 6 lanes of traffic trying to get to the tiny sidewalk on the northern side of the overpass. It also seems entirely likely that some camp residents will decide that the logical move is to navigate the trainyard to the east, sliding between seemingly stationary train cars. Using this site highlights the problems faced by west side residents and the disconnection from economic opportunity and resources downtown and on the eastern side of the city. Residents of the camp will be trapped by the design decisions of the city, stat, UDOT, and UTA. How will they get to and from the places that will allow them to improve their situation?</p>

2/16/2024 9:43	Brad R Christensen 2/2	CONTINUED!! Permanent Homeless Pod Site and West Side Disconnection	<p>I have a couple suggestions for improving the 400 S problem. One, the easiest, would be removing one eastbound lane from the overpass and making it an option for non-car travel similar to the eastbound side of the north temple overpass. Longer term I have what I think is a better idea: the Utah Transit Authority's new headquarters are on the west side of the tracks. Transit employees at the headquarters really ought to have attractive transit options for getting to work, as it stands they face the indignity of being dropped off by the train a stone's throw from the front door and are then required to walk approximately 1 city block out of their way, potentially face waiting for a freight train to pass and then walking all the way back. Residents of Poplar Grove and future residents of the sanctioned camp deserve reasonable and safe access to the transit hub. A pedestrian bridge from the transit hub to UTA headquarters at about 300 S is a no-brainer. A public access sidewalk to the bridge on the edge of the new UTA bus yard would connect a neighborhood impacted by the sanctioned camp site, and residents of the camp site to the transit hub and vastly decrease conflict between commuters in vehicles coming off the freeway at 400 s and residents of the camp attempting to get to resources and opportunities across the tracks. Prioritizing infrastructure like this should be a requirement of siting this camp. The very selection emphasizes the alienation and isolation of the west side of Salt Lake City. This out of the way site exists because of the barriers presented by I-15 and the train tracks. Allocating resources to connect the camp's residents to transit and opportunity also connects thousands of other nearby residents and dozens of businesses. It is the least the state can do. -Brad Christensen</p>
2/16/2024 14:05	Fiefia Tukuafu-Tonga	University of Utah Baseball Stadium and Sunnyside Park	Thank you in advance from your time and attention to this enhancement. We look forward to its successful completion.
2/16/2024 14:25	Ambreen Khan	Thank you and petition results **Attachments 1 - 3	<p>Hello Dan and team, Thank you again for meeting with us and having an open conversation. Attached are the 61 people from your district who signed the petition. Here is also the pie chart breakdown of signatures from each district, with total responses of 1166 people. Please let me know if you have any questions. Thank you!</p> <p>Ambreen</p>
2/16/2024 16:28	Claudia Nakano	Sunnyside Park - UofU Baseball	<p>Hello Salt Lake City Council A resident of District 6 I wholeheartedly am in support of the lease of land enabling the U of U to properly build a baseball stadium. Leasing the land to the University results in the land being used. Currently the property minimally maintained, is not safe and is not being utilized. The stadium would bring life to this part of our community, would support the U's participation in collegiate competition, and would benefit youth sports for future generations. The park remaining idle and the building of an unsightly concrete wall would potentially invite unwanted and or criminal activity. I view the U of U plan as nothing less than a move toward the continuation of building a vibrant campus, community and city. In support, Claudia Nakano</p>

2/16/2024 16:30	Fiefia Tukuafutonga	Sharing support for Sunnyside Park Improvements	Dear Salt Lake City Council Members and Mayor Erin Mendenhall, It is a privilege to offer our congratulations on the work you are doing in our communities. I sat so proudly observing District two be represented by Councilman Alejandro Puy who facilitated this past council meeting and proudly supported the University of Utah Baseball Stadium and Sunnyside Park Improvements proposal. I/We are profoundly grateful for your consideration to review the benefits to lease a portion of Sunnyside Park in exchange for the University of Utah to enhance the amenities in Sunnyside Park. Your commitment to enhance Sunnyside Park benefits the community but also various programs that are near and dear to my heart: • East Youth Football • East Youth Lacrosse • East Youth Rugby • East High School athletic pipeline • Ute Conference Football Organization Are just a few programs that utilize Sunnyside Park that is a home away from home for our youth and volunteers. Neighboring University of Utah is a historical landmark that inspires the youth to dream big about furthering their education through their passion for their various sport programs. Sunnyside Park has a long history with diverse community groups/families that benefit from all amenities: open green space, the trailway that connects and educates, the playgrounds, the various sport courts, and various multi-use that the enhancement will continue its historical site will be home for so many. As representatives of Salt Lake City, I am asking for your continued consideration of improvements and support of the University of Utah to enhance Sunnyside Park. Thank you in advance for your time and attention to this matter. This project deserves your full support. We look forward to its successful completion. If you have questions or need further input, please contact me REDACTED. Sincerely, Fiefia Tukuafu-Tukuafu
2/16/2024 16:56	Peter Corroon	Tenant Displacement Amendments	These amendments are fairly innocuous. However, as an affordable housing developer, I feel there is a lot more the city could do inside its own government to prove the affordability of housing. Salt Lake City Public Utilities fees and requirements are very costly. Shortening the lengthy plan review process would also be a better way to lower the cost of building housing. There is plenty of housing being built. The city efforts to allow higher density in single family zones should be an effective way to help lower housing costs. The proposed ordinance mostly sends a message that Salt Lake City is not welcome for housing development. Plus it will add to the cost of building housing.
2/16/2024 18:11	Brandon Patterson	baseball field Sunnyside	My son is a student at Rowland Hall and we live nearby Sunnyside Park and visit it often. We ask that if the Baseball Facility gets expanded that it can connect Rowland Hall to the park through the baseball grounds. Kindergarten classes visit Sunnyside Park for assignments, I also commute by bicycle with my son through the park, so a pedestrian path leading to/from the park through the baseball grounds would provide more safety to kids traveling to and from school.
2/16/2024 23:20	Brian Baker	University of Utah Baseball Stadium and Sunnyside Park Improvements	I wanted to share my feedback on the potential improvements to Sunnyside park if this deal is sone with the University. my kids have played field sports (lacrosse) for years and living in this area we are very limited to field access. It would be nice to improve the current grass fields with artificial turf for the east area youth sports to continue playing lacrosse, soccer and football. There really isnt any other location for the kids to play, taking them away or converting them into pickle ball courts or parks would only make it worse.
2/17/2024 10:22	Brian Cole	sunny side park upgrade	dear sir, i'm writing to ask you to approve the proposal to lease a portion of sunnyside park to the university of utah for the use of a new baseball stadium. i believe the new baseball will benefit the comunity as a whole. the trade off for the city is that the funding could be used for improving sunnyside and the upgrade of trails nearby. thank you,sincerely, brian cole

2/18/2024 7:46	David Leta	Proposed deal between SLC and the UofU for an sale / lease of a portion of Sunnyside Park to enable the UofU to build a baseball stadium	I strongly urge the Council to table this proposal and request more information from the UofU before voting on it. The public needs to see the actual plan for the stadium, with appropriate elevations from street level in all compass directions, including what portions of Sunnyside Park will be eliminated, not general "concept" designs, so that the public can effectively consider and express comments on this proposal. These plans should include both proposed stadiums -- one the UofU is "threatening" to build on its existing property, without any land exchange of Park property, and the larger stadium that is being proposed for the land exchange. The City's construction and engineering department then needs to evaluate the feasibility of these construction proposals, especially in light of NCAA baseball requirements. Personally, I do not believe that it is feasible for the UofU to build a NCAA compliant stadium on only its existing land; it will be too small and the proposed "wall" in left field cannot withstand the stresses of high winds that often blow down Emigration Canyon. Thus, I believe that the UofU's "threat" to build a stadium on only their existing land is a red herring. Moreover, the public needs to first know what SLC proposes to do with the \$4.2M "pledge" that is being offered by the UofU. Where is that money going? Will all of it be used at Sunnyside Park? If not, how and where are these funds being allocated? In short, this proposal is premature. Much more detailed information is needed by the Council and the public before an intelligent vote can be taken. I urge you to table this proposal and seek that information. The UofU and the City have the ability to provide the same quickly. In closing I leave you with these words written by Joni Mitchell many years ago, which are even more true today: "Don't it always seem to go that you don't know what you've got til it's gone? They paved paradise, put up a parking lot."
2/18/2024 11:32	Lynda Coleman	Sunnyside Park	I don't support the U of U "leasing" the land to build a baseball diamond. The park is always in use especially during the summer months. It's ridiculous when the SL Bee's diamond is available and built. They have a current diamond they can tweak to work and room to put up more seating if they choose to. They should work with the land they have rather than take it from those of us who enjoy the park daily.
2/18/2024 14:25	Josh Sandfoss	deny UofU \$1/99years lease!!!	Tier B baseball field rental rates have gone from \$2 per hour in 2015 to \$17 in 2024. These fees are creating a burden on all Salt Lake City Recreational Baseball organizations. Field rental fees are creating conditions where we must raise our fees thus putting youth baseball out of reach for a lot of families in our communities Reason The current fees of \$17 per hour is going to cause fee increases within our organizations that will put the cost of recreational baseball out of reach for a lot of families.

2/19/2024 14:37	Alicia Ramirez	housing the homeless	<p>i would like to file a grievence for the violation of my civil rights and for discrimination for my disability and the reason is that I feel it is unfair that those of us like me who are domestic violence victims that now suffer from ptsd and anxiety cannot stay in facilities like homeless shelters due to our disabilities and mental health due to the trauma from domestic violence that we now suffer from that prevents us from being in public places with large crowds where there is alot of yelling and loud noises where it is at these places that use the tracking systems that housing agencies use to provide housing to those who are chronically homeless like me but we do have other ways to provide proof such as i do from my therapist who i have been seeing for the past two years and knows of my situation and being homeless for this long. The funding the government gives each state is to help all homeless individuals and not just those who are in shelters and i am one of those homeless individuals that is disabled and vulnerable and need housing and feel that i should be entitled to get a voucher for housing just like anyone else staying in shelters even though i choose not to stay in a shelter because of my disabilities. I also feel that housing should be offered to individuals such as my son who was a victim of a honey pot scheme on a gaming app when he downloaded a file that had a zip file containing explicit photos of children that he then got in trouble for and now has to register as a sex offender and not able to recieve housing and this has ruined his life and made him almost take his life and had a suicide attempt and in the hospital now because coping with this has been too much for him and the way the media lied and portraid him are lies. He should not have to go thru this as a victim and neither should i struggling to get housing . the last time i joined a meeting like this i was muted when i started to give my opinion but this time i am filing a grievence against the city and against the state</p>
2/19/2024 15:40	Lance Pratt	Utah Baseball Stadium	<p>I'm all for the new baseball stadium. It's been nice being able to play downtown but to help recruit and for additional student/school support of the program I think they need a stadium close to campus. I've heard complaints about game crowds like when we have football games. There are not that many fans that go to the baseball games, so I don't see a problem with parking and crowds that would negatively effect the neighborhood. Additional funds for the neighborhood park is a positive as well. I'm all for the new stadium.</p>
2/19/2024 18:50	Tina Stott	University Baseball Filed	<p>This would be a great oppportunity for families, co-workers to get involved and bring Uatah their first NCAA team.</p>

2/20/2024 10:55	Steven Hunt	Feedback on a Possible Ordinance	<p>To Whom It May Concern: I am the vice chair of the Liberty Wells Community Council and I have a concern about the possible ordinance being considered to prevent the loss of existing affordable housing. Would this ordinance prohibit the destruction of any and all such housing? I hope there is a part of this that would allow certain exceptions, such as the size of the housing that would be replaced. We have an LDS ward (Belvedere) on the corner of Downington Avenue and 600 East that has a very small parking lot—12 spaces. When the building was built nearly a hundred years ago, the boundaries of that ward were small enough that everyone within its boundaries could easily walk to the meetings. Over the years the number of Church members living in that area has decreased considerably. The boundaries for that building now extend from State Street on the west to 700 East on the east and from 1700 South on the north to 2100 South on the south. That's a total of 16 blocks and much too far for some members to walk, especially during inclement weather. In addition, a fair number of those members are senior citizens. Just to the north of the current parking lot is a small duplex. The Church is interested in purchasing that lot so they could expand the parking lot to accommodate more cars. Another factor to consider is the feeling of the neighbors surrounding the Church building. Since the current parking lot is inadequate for the Church members who need to drive to the Church, members are forced to park along the street near to the Church. We have received feedback that many of them do not appreciate the additional parking along their street. I guess my question is, will this proposed ordinance allow for some exceptions such as I have mentioned here? I will not be able to attend the public hearing, but would appreciate this situation being brought to the attention of the Council for their consideration. Steven Hunt</p>
2/20/2024 10:56	Michelle Moshea	No park land lease	<p>Please do not lease public parks/land to the University. This space is used by so many tax paying citizens. I thought the bond that passed was supposed to be used for public spaces. Michelle Feolo, RN</p>

2/20/2024 10:58	James Webster 1/3	UofU Baseball land taking	<p>My name is James Webster, a graduate of Harvard/MIT's Graduate School of Design) and former faculty member of USU's Dept. of Landscape Architecture and Environmental Planning. I've been an adjunct instructor at the U's School of Architecture, having taught site grading design. I have been living in District Six, within one city block of Sunnyside Park since 1976. My professional resume includes site grading/drainage design of baseball facilities throughout the country and I regularly provide expert witness testimony regarding adverse impacts of storm water discharge and noise pollution. Perhaps a brief history lesson will provide the Council with an appropriate context of the Yalecrest community's efforts to collaborate with the university on this important issue: 1. The community, NOT the U initiated conversations with the U.S. Forest Service upon hearing that an office building was planned for the Interagency Fire property on Guardsman Way. Documentation from Mayor Corridini in the mid 1990's clearly indicates a mutual effort by the city to orchestrate a land trade to enable the USFS to relocate its facilities to the Knudsen's Corner area. The clear intent of this, as documented on SLC letterheads was to ensure open spare uses on the Guardsman property for the community and provide expansion land for the future development of the 1980's Steiner recreation center master plan. The exclusive use of this land for UofU baseball was NEVER initiated in any public meeting by the university. Notwithstanding promises by the athletic department committed to that the practice field would be available for public use, upon completion of construction a bright red "No Trespassing" sign appeared, ostensibly related to NCAA rules. 2. At a Forum meeting a few years later, the Us athletic department admitted they had lied about public use of the field. 3. Property damage from foul balls ensued, requiring netting that was never anticipated by U planners or the AD and coach. 4. A buffer of trees was planted by TreeUtah and the local community, NOT the university. 5. Since completion of the practice field, the university appropriated land for stockpiling dirt for Supercross and other commercial events at Rice-Eccles. This industrial warehouse use was never disclosed to the community and SLC has ignored ensuing environmental and social impacts, including violations of the clean-wheel ordinance. 6. A 1980's era East Bench Master Plan (EBMP) was approved by the City Council with input from the U. The primary impetus of this plan was to provide additional open space to the East Bench and to enable the development of the Steiner Aquatic Center's master plan for a gymnasium, meeting rooms, courts and other amenities found at comparable facilities throughout the city. The city and count have failed to accomplish this. 7. Prior to that planning initiative, the Yalecrest community alone has LOST 10 acres of open space at Miller Bird Refuge. Subsequent to the 1980's EBMP, the City Council violated a reversionary clause defined by the federal War Department by re-zoning Mt Olivet Cemetery's perpetual open space to institutional use. Yalecrest lost an additional 13 acres of open space on Sunnyside Ave. The current land lease would INCLUDE a public leccrosse field and more additional land for parking and site grading/drainage (see below) to the already appropriated 5.5 acres of the practice field. In total, the Yalecrest community has list over 30 acres of public open space.</p>

Date/Time Opened	Contact Name	Subject	Description
2/20/2024 10:58	James Webster 2/3	CONTINUED!! UofU Baseball land taking	<p>When will this end? 8. The parking component of the "lease" was NEVER disclosed. To the contrary, the U's AD and real estate people had stated NO land would be needed for parking; they had this covered on existing ownership. 9. A more recent update of the East Bench Master Plan absolutely involved the university's planners in all aspects of an alleged mutual cooperation to ensure protection of public open space. The U formally participated and adopted a critical agreement to sell the 5.5 acres on Guardsman to the city. Unless the City Council has subsequently determined to discredit community master planning and has decided such community involvement and transparency is a mere frivolous gesture to be ignored, the current East Bench Master plan is a valid and enforceable document. 10. In an open meeting of the Yalecrest Neighborhood Council, Robin Burr, AIA the university's campus architect explicitly advised the community that the U would NOT build a stadium on Guardsman. 11. Throughout the history of the community having become aware of any effort to build a stadium, YNC residents met with John Nixon (CFO of the U), Rep. Brian King, House Speaker Hughes, the SLC City Council, Robin Burr, and a wide range of public and U officials to present more viable alternative sites ON campus. The Guardsman site is not part of the campus by any stretch and at best is a "hole on the donut" within Sunnyside Park. 12. The U has illegally appropriated a large area of the above referenced lacrosse field for stockpiling large galvanized light poles, boulders and concrete retention blocks. Did the Council approve, or ever become aware of this trespass and blockage of an emergency access corridor? Perhaps the Council should consider a retroactive land lease. An honest consideration of existing topography, heritage trees, other physical limitations of the proposed site, and social impacts of the U's inept proposal includes the following: 1. The existing concrete retention wall in left field of the practice field does NOT conform to NCAA standards. It is 10' high and already encroaches about 12' into Sunnyside Park. This encroachment was NEVER disclosed by the university during the Anderson administration. If there are any documents or compensation to the city supporting this land taking the YNC and greater East Bench community would like to review them. The complete lack of transparency is unethical and illegal. 2. If the Council agrees to enable the university to take any additional land, an objective analysis of the existing topographic slope condition reveals that an ADDITIONAL 10-12' or total of 29-22' of concrete retention wall will be required. The U's fallacious proposal to eliminate the "red monster" is readily apparent. Has the Council consulted NCAA rules and design guidelines in this regard? Sure, build it a they will come! 3. The ONLY way to confirm to height limitations of the left field retention wall would REQUIRE an additional land taking of Sunnyside Park and massive excavation/removal of the existing lacrosse and softball fields. If the resulting slope were a minimum of 3:1 to enable city crews to maintain the grass, an ADDITIONAL 60-70' of land must be included in the "lease". Such residual park land will be unsuitable for any recreational use. This same impact will be attributable to center and right fields, although the extent of land taking and cross-sections of the proposed retention walls have not been disclosed by the U's architect.</p>

Date/Time Opened	Contact Name	Subject	Description
2/20/2024 10:58	James Webster 3/3	CONTINUED!! UofU Baseball land taking	<p>This site was not adaptable for a practice field and is, by a quantum leap, unsuitable for an NCAA stadium. 4. Storm water discharge management has not been adequately addressed. No one at SLC public Utilities has been involved in the final verification of the water quantity or quality impacts. Additional land taking, to be determined by qualified hydrologists will be required. 5. In addition to the significant coefficient of runoff from artificial turf, the carcinogen content of the runoff will be a public health impact. 6. It would be absolutely impossible to replace the existing grove of unique heritage evergreen trees, along with all other trees bordering the soccer fields. I know of no other stand of pseudo-Sequoias on the East Bench, including at whatever remains of Walter Cottom's Grove. 7. The existing storm collection infrastructure was NOT designed to accommodate the runoff from artificial turf, additional parking and the hardscape of buildings and seating. The city and U promoters have simply failed to to their due diligence. 8. We experienced this failure with Rowland-Hall's FieldTurf soccer field runoff, as property taxpayers were forced to spend public funds to repair flood damage at East High and erect a flood wall barrier. 9. "Walk-up music" as demanded by the U's baseball program exceeds 95 dB, or the equivalence of a rock concert's ruckus. This is illegal according to existing statutes and constitutes a significant public health impact. In summary, university officials have misrepresented their intentions to the YNC community for years. They have plastered their logo all over the Steiner Aquatic Center and Salt Lake City Recreation Center, as if they owned these public facilities. They intend to tack on a hockey addition to the Olympic ice. By allowing the U to take over tge East parking area for tailgater use, the ONLY available city land that was designated in the 1980's Steiner master plan for expansion of public recreation is in jeopardy and likely to be lost by this unfortunate "lease" proposal and percident. It's NOT a lease, it's a land taking that can never be reversed or mitigated. I was one of seven local residents who raised PRIVATE funding for construction of the Steiner Aquatic Center and I'm aware of no other comparable city facility that was developed without city funding. I've served on Mayor Wilson's Budget Advisory Cimmittee, Block Grant and other committees, have written successful CIP funded projects and co-wrote the city's Riparian Overlay Ordinance (that Public Lands violated at Miller Bird Refuge). I would appreciate your consideration of the above concerns. Respectfully. James Webster, RLA</p>
2/20/2024 11:00	Betty Iverson	Oppose Baseball Field at Sunnyside	<p>I live near Sunnyside Park and we are at the park several times a week for youth sports games and personal family enjoyment. I absolutely oppose the University taking over more than an acre to build a baseball stadium. We have limited park space in the city already and to take this space away from all SLC so there can be a baseball field for a very few is not supporting the needs of all SLC residents. There are only 25 home baseball games a year so a majority of time this field would go unused. Please vote NO and don't let this proposal go through. Betty Iverson 84108</p>
2/20/2024 11:04	James Webster	Trespass **Attachments 4-7	<p>Dear Council members, as illustrated by these photos the UofU has consistently violated property rights at Sunnyside Park for at least 25 years. These poles were dumped on a playing field along with concrete retention blocks and boulders. This violation blocks access to the city's salt stockpile, in addition to the U having appropriated the Steiner interim parking and expansion area for tailgaters. The U has a long history of trespassing onto city land with large tents damaging Steiner irrigation systems without a permit for football events. And they never clean up. Consider with whom you're dealing. Jim Webster</p>

2/20/2024 11:07	Julia Mathews	Thriving in Place	Thriving in Place is a program that would allow Salt Lake City to grow as an 'inclusive' city. It counters the growth of homelessness for individuals and families living day to day on little to no money; due to low family income, job loss, medical disaster, loss of primary income earner, etc. Homelessness is fertile ground for illness, physical abuse, drug involvement and addiction, and criminal activity. It breeds despair and entrenched emotional and physical poverty. Instead, we want a city that offers safety to more of its people, and a ground from which to build and maintain productivity. Thriving in Place is the city's chance to give a meaningful support, that keeps our city moving towards the healthy well-being of most of its people; rather than the increased wealth of only a few property investors. Salt Lake City was founded on a hope for a safe and healthy community. Supporting Thriving in Place is designed toward maintaining that hope. Dr. Julia Mathews
2/20/2024 11:11	Jordan Oseguera	City Baseball Fees	Hi, this is Jordan Oseguera. I am the head baseball coach at West High. It has been brought to my attention that the city is currently raising fees for youth baseball here in the city as well as proposing to replace softball fields with Lacross and soccer? Can I get some information on why this is price increase is occurring? A price increase does not seem to be a rational move given the economy, inflation, and the general needs of the Salt Lake City community. Who can I get on the phone and talk with about this to get more information as I want to ensure I am getting both sides of the story. This move, if it is truly happening, seems like something that could wipe out youth baseball participation in the Salt Lake valley altogether. -Jordan Oseguera
2/20/2024 11:27	Peggy Moore	Sunnyside Park/U ball diamond	i use the Sunnyside Park area under scrutiny, every day. i am just sick about the plans to take away the major park fields, to say nothing of the chopping down of so many great, mature, and beautiful trees. i completed the 'survey' the U asked for when they wanted neighborhood input, but i certainly felt like it was a meaningless effort. aside from the park issues which i think are foremost, there seems to not be much discussion about the traffic issue...traffic in the area is horrendous, now. with the multiple U athletic buildings, Rowland Hall (and of course their expansion planned), Steiner clientele, VA employees accessing their property via Guardsman's Way, U students...i can only imagine how much worse it might become. the decision to move forward is wrong. our Yalecrest Neighborhood Council Chair, Jan Hemming, has presented articulate alternatives and more long-range planning. please listen to her. peggy moore District 6 resident
2/20/2024 11:28	Charlie Freedman	In favor of five multi-use fields	I am in favor of 5 multi use fields at Sunnyside for all sports to enjoy. This would be a significant improvement and windfall for youth sports, families, and the greater SLC community. I am also in favor of lights on the fields. Thanks, Charlie Freedman Youth Director East Lacrosse
2/20/2024 11:30	Julie Lewis	Sunnyside Park field project	To whom it may concern: Please add my sincerest endorsement to the proposal for making the multi use fields with lights at Sunnyside Park. It would be such a boon to the community, to the neighborhood, to every child that will be positively impacted from this increased availability of off-line, positive, outdoor sports and team activities. Thank you for your support and concern for our youth and this wonderful idea for this project Sincerely, Julie Lewis
2/20/2024 11:31	John Evans	Email of support for Sunnyside Park redevelopment - 5 multi-use fields with lights	Dan and Council members, I am emailing to express my usport for the Sunnyside Park redevelopment and the associated 5 multi-use fields with lights. This would be a huge asset to our community! Thanks, John Evans
2/20/2024 11:32	Augusta Comey	Support 5 fields at sunnyside	Please support the 5 field plan with lights at sunny side. We have so many youth programs that would benefit. I have been a volunteer girls lacrosse coach for the last 5 years and have grown our program to 77 girls and they would definitely benefit from these fields. Thanks, Augusta Comey

2/20/2024 11:33	Sara Wikstrom	Email in support of multi-use fields with lights at Sunnyside Park	Dear Councilperson Dugan and City Council, I am a resident of Salt Lake City, parent of two school aged children (ages 10 and 8) who play both soccer and lacrosse and recreation soccer coach. Sunnyside Park and our community would benefit greatly from the addition of multi-use fields with lights. Many of us routinely need to travel outside of city boundaries for soccer and lacrosse practices and games, contributing to traffic congestion on roadways and pollution. Never mind the timely commute affects participation in sports at the local level. Sunnyside Park is a gem of a park that would only benefit from better fields. Please let me know if you have any additional questions. Sara
2/20/2024 11:35	Raina Williams	Sunnyside plans	Dear Dan- I am writing in support of five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible improvement for lacrosse and all youth sports, especially my daughters! Thanks Raina
2/20/2024 11:36	Dalton Hoopes	Sunnyside Park Redevelopment	Dear Dan, I am writing in support of five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible way to support and further improve lacrosse and all youth sports. As someone who grew up playing lacrosse from fourth grade to the end of my high school career at Sunnyside it would be amazing to see these changes carried out, especially for the future generations and the growth of Utah sports as a whole. Sincerely, Dalton Hoopes

2/20/2024 11:37	Amber Duran 1/2	Sunnyside park renovations	<p>To whom it may concern, I am writing in support of 5 multi-use fields with lights at Sunnyside Park. This improvement would be a huge improvement for our youth sports. Given my experience, these are just a few of the reasons for my feelings. First, Lacrosse. Over the past decade, there has been so much growth in this sport. Personally, at East, the school that would use Sunnyside park, has seen major growth. This is in HUGE part, due to 1 person, Charlie Freedman. He has been coaching and growing the sport at the youth level for many years now and is the new Head Coach at East High School. Years ago, I was the president for East Little League Football. Charlie made his way onto to my football practices and started handing out lacrosse sticks and balls to the boys. He was trying to find kids who could switch over from football to lacrosse. Since the main season was different, there was no reason we couldn't work together. That night, 2 of those sticks when to my boys. They went home, curious about this new sport. I had one that was picking it up fast, and another that did not. During the next few weeks, my youngest really began to enjoy it more and more. It was shortly after this, that Charlie told me...." Mom... Kendell is an AMAZING football player, but I'm telling you... Lacrosse is going to be his sport!" Around this same time, Charlie told me why he was so interested in getting Kendell to play. He said to me then, "You don't play lacrosse because you are going to go pro and make millions of dollars. You play lacrosse, because of the schools you will end up going to. Your lacrosse players come out of collage working on wall street and owning their own businesses. And I want these kids from the west side who would normally not have these opportunities to be able to do so. After this, upon seeing Kendell's potential, he continued to pay for club opportunities, private coaching, he would replace broken sticks, get new equipment, whatever Kendell needed, to help him grow in the sport. He even took him and a few other boys to Southern Virginia University, to meet with the school and admissions. While there, they took an extra day and were able to tour the White House with Senator Lee's office, see the Lincoln Monument, and many other sites. All things that they would not have been able to do without Charlie. Kendell is now going to Eearlham Collage in the fall to play lacrosse. He is one of MANY boys who have or are going to continue their education thanks to this man introducing them to a new sport and seeing their potential. In the past few years we have had as many as 9 out of 11 seniors go to college thanks to this sport. Those are numbers you will NOT find in any other high school sport. Now that he is the high school head coach he is even MORE dedicated (if possible) to getting these kids into college. If these kids has more access to fields, lights, and, maybe a wall for wall ball, I can only imagine what they could do!</p>
2/20/2024 11:37	Amber Duran 2/2	CONTINUED!! Sunnyside park renovations	<p>Second, as mentioned above, I spent MANY years working with the youth football league in many positions, including a few years as president. When it comes to East High School, the demographics there vary in a massive way. You have some of the wealthiest families on the east side and by the capital, and some families from the west side, living WELL beneath the poverty level. So often, these kids have nothing in common. They segregate and keep to themselves in the school, and often you see physical conflict due to this. Sports is the one place where you do not see this. You see kids coming together and bonding and being there for each other rather than fighting. The parks on the west side do not have lights, and most of the practices are held at Sunnyside. Anything that can be done to better this park can only hep these kids even more. Given the world we live in, the phrase "It takes a village" has never been so true. It is up to ALL OF US, to help these children reach their full potential and improving this park would held many! Thank you, Amber Duran</p>

2/20/2024 11:38	Jim Burdette	Sunnyside Park lease	I am FOR the City cooperating with the University and leasing the land for the new baseball stadium. Over the weekend we took a walk around the full perimeter of the park just to understand what's in there. I was surprised to see the 4 or 5 neglected ballfields and 2 aging tennis courts. The total acreage is some 5 acres and the 1 acre sliver to lease to the University of 1.2 acres seems a small impact to me. The construction is going to happen regardless, and the quality would be much greater without the embarrassing high wall. Also, the U of U providing significant funds will can completely revitalize the park. Jim Burdette, Sugarhouse
2/20/2024 11:40	Bart Robison	Sunnyside Park - 5 multiuse fields!!!	I am writing in support of five multi-use fields at Sunnyside park - with lights!! If we could get ONE of those with turf - even better! Rowland Hall's field is always in demand! This improvement would be an incredible improvement for lacrosse and all youth sports. (Is a small field house with 1/2 sized turf field too much to ask for? Newer High Schools are getting them... Brighton High, among others.) Bart Robison Parent, coach, supporters for youth sports
2/20/2024 11:41	Mandy Henderson	Request for SLC youth	Council members, I am a salt lake homeowner and have recently become of aware of a deal between the University of Utah and the city to allow the U's baseball to utilize acres of sunnyside while they build new facilities on their campus. This is disheartening to say the least as our league has depended on the fields at sunnyside for years and years and players at the U likely depended on little leagues like ours to give them their start in the sport. The registration costs for little league baseball has increased significantly over the past 5 years that we have had our 4 kids in sports. Our league, foothill baseball is a nonprofit. \$170 is the registration cost for some this (and only this) season! I have seen the overhead and what we pay for our kids is still not covering all the costs, so the league is dependent on donations to keep it running. I know that some in the community cannot afford to register their kids, heartbreaking! Doubly so, when learning the U's getting a sweet deal. What I cannot make sense of is why government-owned land, which is probably the least susceptible to the pains of inflation we are all experiencing at every turn, can increase it's rates 750% in less than 10 years. The majority of that being over the last 5 all the while, the fields have deteriorated and little maintenance, if any, has been done. I hope that by being made aware of what seems to be this oversight, your council can make changes to provide equity to our youth of salt lake. Something to be more comparable to the counties around us who charge about 10\$/player/season for the fields. Being afforded experiences in youth programs can change the direction of a child's future so we are hopeful that you all can keep that in mind. Thank you for your time and efforts. Sincerely and with hope, Mandy Henderson
2/20/2024 11:47	Brittney Nystrom	Sunnyside park- in support of upgrades	Hello, I would like to register my support for the proposed upgrades to Sunnyside Park. As a resident of the neighborhood (my family and I live at REDACTED), I am strongly supportive of improving the grounds at Sunnyside. My daughters are both students at Uintah Elementary and have participated in youth sports that have practiced and played games at Sunnyside in the past. The athletic fields are in urgent need of improvement. In fact, both their lacrosse and soccer teams chose last season to practice elsewhere given the uneven and dangerously worn terrain on the fields. We are very much hoping for and looking forward to playing and practicing on the upgraded athletic fields at Sunnyside. Additionally we are hoping for more dedicated athletic space. Between soccer, lacrosse and football, there is heavy use of the existing fields. An expansion to at least 5 multi use fields would be a fantastic addition to the park, the neighborhood and the community. Thank you for considering

2/20/2024 11:49	Wendy Sicard	Sunnyside park	To whom it may concern: We live in the Sunnyside neighborhood and quite frankly the University of Utah's expansion and development over the past decade has ruined our neighborhood!!! 🙄 🙄 🙄 The additional traffic on foothill is literally a nightmare every day and evening. I very much BELIEVE in sports but this neighborhood does NOT need a baseball stadium! I was on the very first University of Utah woman's soccer team in 1978. We used to practice at sunnyside park. We NEED to keep the green space of sunnyside park and build a baseball stadium away from the sunnyside neighbor hood! It is already ruined from all of the U's development! There needs to be NO more development. Build the stadium in another area but not the sunnyside area. I am exhausted of the U infringing on our neighborhood. They need to be told enough is enough and NO! Respectfully, Wendy and Roland Sicard
2/20/2024 11:51	Carrie Gunderson	Sunnyside park	I am writing to encourage you to please have 5 multiuse parks with lights at Sunnyside park. It would be a huge benefit for our kids in the community Carrie
2/20/2024 11:52	Alex LOWE	Sunnyside Park	Dan, My name is Alex Lowe and I am member of your district. I live in the Yalecrest neighborhood and am passionate about our community. I have three children attending Uintah elementary school and grew up playing sports at Sunnyside Park. I came to the City Council meeting a few weeks ago to speak on the U's baseball field and potential improvements to Sunnyside Park but wasn't able to speak. Please include this message when communicating your district's feelings about this issue. For the past two years, I have volunteered as an East High youth football coach. This means that between the months of August and November, I spend a large amount of time at the park with young kids in our community. Unfortunately, the park is in dire need of investment. I'm not sure if you've had the chance to attend other parks or facilities outside of SLC but we spend most of our weekends traveling to these areas to play other teams. The facilities outside SLC are incredible with either turf fields or grass that is well manicured. Our fields, however, are in complete disrepair. When I try to schedule scrimmages with other teams, the coaches of other teams often decline because they don't want their players playing on our fields for fear of injury. I have spent time reviewing the U's potential baseball field and as I understand, the council is considering an option between the U building a baseball field with an enormous wall overshadowing the park or a stadium that actually makes sense with the park. I recognize the 2nd option includes a long-term land lease of green space to the University in return for a \$4.2 million investment into the park. This seems like a win/win. The park gets a much needed capital infusion and the University can erect stadium that makes sense. I urge you to vote in favor of the University's proposal and accept the investment the park needs. Bottom line, we care deeply about this community and we want families to stay here. I believe an upgraded Sunnyside park would help retain and attract families to our neighborhood. I appreciate your service and am happy to discuss this in more detail at your convenience. Thanks, Alex
2/20/2024 12:06	Greg Killilea	Sunnyside Park	I am writing in support of five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible improvement for lacrosse and all youth sports. Thanks, Greg Killilea
2/20/2024 12:08	Maria Keegan	Sunnyside Park	Dear Council Members, As local residents and parents to three very active children, we find ourselves at Sunnyside Park quite often for games, clinics, scrimmages and practices. We are writing in support of the proposed multi-use sport fields with lights. Our community is in desperate need of more safe and well kept indoor and outdoor spaces for our children to be coached, get physical activity and have experiences that help them to grow/mature in a healthy and productive manner. We look forward to the improvements. Sincerely, Ben and Maria Keegan
2/20/2024 12:11	David Grayson	Sunnyside Park redevelopment	Please prioritize MULTI-USE FIELDS as part of the plan. Thank you! David

2/20/2024 12:13	Jack Hindley	Sunnyside Park Redevelopment	SLC City Council, Hi my name is Jack Hindley, I am writing to voice my support of five multi-use fields with lights at Sunnyside park. This would help many youth sports that I am involved with, such as lacrosse. Thanks, Jack Hindley
2/20/2024 12:14	Stephen Chen	Sunnyside Park Redevelopment	Dear Councilman Dugan, I am writing to communicate my support for the Sunnyside Park redevelopment project with 5 multi-use fields with lights. I am a longtime youth and high school lacrosse coach and Intermountain Lacrosse board of directors member. I have spent many hours coaching youth lacrosse at Sunnyside Park. Improvements to Sunnyside Park, with its ideal location for downtown SLC residents, would benefit youth athletics tremendously in our community. I strongly urge the Salt Lake City City Council to ratify this plan. Thank you for your time and consideration! Stephen Chen
2/20/2024 12:15	Kadee Leishman	Sunnyside Park Re-development	Councilman Dugan, I urge you to support the upgrades of Sunnyside park to include five multi-use fields with lighting for evening play of sports. Our youth, teens and students need access to these fields for sports and outdoor activities for their mental and physical health. We live within four minutes of Sunnyside Park and it is such a wonderful use of our public land and is also desperately needed for youth sports in our area. As a parents of two young girls in sports, I urge you to support these upgrades so that my girls may continue to have access to play the sports they love close to home. Thank you, Kadee Wolfgram Salt Lake Resident
2/20/2024 12:17	Addam COMEY	Sunnyside	Voicing my support for the university / SLC partnership to invest in five multi-use fields at Sunnyside park and also for lights and turf. This improvement would be an incredible improvement for lacrosse and all youth sports. Thanks Adam comey
2/20/2024 12:18	Jennifer Schreiter	Sunnyside	I am writing in support of five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible improvement for lacrosse and all youth sports. These fields are a great asset to the community and investing in them means investing in our future. Thanks, Jennifer Schreiter
2/20/2024 12:19	Needs name Needs Name	Sunnyside	I am writing in support of five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible improvement for lacrosse and all youth sports. Thanks Marty deLannoy

2/20/2024 12:29	Robert Kingsford	Support for the revamped Sunnyside Park	<p>Salt Lake City Council, My name is Robert Kingsford and I am a member of District 6. I have lived in the 84108 zip code my entire life. I went to Highland High School and graduated from the University of Utah. For the last 12 years, I have been the head rugby coach of the East High school rugby program. This past year we were crowned state champions. In 2019 we finished with a national ranking of 4th in the country. Each year we try to improve our program bit by bit. We have had over 200 kids come through our program over the last 12 years. Some of these kids have started their rugby careers as young as first grade and we hope to see them on our varsity team in the coming years. It is important to understand that we are not a school sanctioned sport. In fact, we get very little access to East High's facilities and when we do use the school fields, we have to pay for usage. Because of this, we use city parks for practice. Twelve years ago, we started using 1700 south park in Glendale because it had little use. We knew there was little to no chance that we would be able to use the fields at Sunnyside because of soccer, lacrosse, and all of the other programs that are "grandfathered in" and have primary control of the fields. I know that the East Rugby community would be huge advocates of a revamped Sunnyside park. A couple of things that would be of great benefit would be access to a turf field if there is going to be one. It's my understanding that there will be a multi-use field at Sunnyside and it will have all of the different sport lines on it. McCarthy field is set up this way up at the U of U and it works for a variety of different sports. We started practicing for the 2024 season on January 17th. We are headed to our first tournament this weekend in St. George. We have to try and find gyms and other places to train to prepare for the season. Currently, we have been paying about \$400.00 per night at the U of U indoor facility for a 2 hour session to practice on a field that is ready when the weather is bad outside. We can only afford 5 practice sessions. A majority of our team can barely afford their registration fees. If we had access to a turf field that can be run on in the winter, that would be a great boost to us. I know that we aren't the only spring sport that would benefit from this addition as well. I hope you will consider this email as a sign of support for the revamped Sunnyside park, that can be used by all of the youth in our community. This seems like a great benefit to our community. I can understand there is always opposition to change, but this should be a strategic priority to take advantage of the windfall from the University of Utah and make Sunnyside park and awesome amenity for the east bench for everyone to benefit. Thanks again for your consideration. Robert Kingsford</p>
2/20/2024 12:30	David Eggers	Sunny side Park Redevelopment	<p>Hello. Even if this is late, I feel strongly enough to try to add my voice to others to those in support of five multi-use fields at Sunnyside Park that includes lighting. This improvement would be an incredible improvement for all youth sports, including one my son is passionate about and hopes to ride into a college scholarship - lacrosse. Thank you for your consideration. Sincerely, David Eggers SLC Resident Assistant Professor U of U</p>
2/20/2024 12:31	Kortney Hinckley	Support for Sunnyside Park Improvements	<p>Dear Mr. Dugan and the Salt Lake City Council - I write this email in support of the proposed Sunnyside Park improvements currently under consideration by the Council. I wholeheartedly endorse the Council's support of development of the park to include new playfields and lighting. I appreciate your consideration of this proposal, and I thank you for your time. Kortney Hinckley</p>
2/20/2024 12:32	Laurie Darnell	Please support Sunny Side Park improvements	<p>Council Members, Please vote yes to support the Sunnyside Park improvements for our community. Our family enjoys Sunnyside Park because our daughter Zoey plays lacrosse at the fields in the fall and spring. My husband, Joe has coached and played lacrosse on those fields as well. It is a great resource to our community and a great use of space. Our family will also use and appreciate improvement and expansion of the parking. Please vote yes. Thank you for your time and service to our community. Sincerely, Laurie Darnell</p>

2/20/2024 12:33	Joe Darnell	Please support Sunny Side Park improvements	Please vote yes to support the Sunnyside Park improvements for our community. Our family enjoys Sunnyside Park because our daughter Zoey plays lacrosse at the fields in the fall and spring. It is a great resource to our community and a great use of space. Our family will also use and appreciate improvement and expansion of the parking. Please vote yes. Thank you for your time and service to our community. -- Regards, Joe Darnell
2/20/2024 12:34	Lauren McBrier	Sunnyside Park - 5 multi-use fields with lights please	Hello Council Member Dugan and the SLC Council, As a Salt Lake City parent of young multi-sport athletes, and frequent Sunnyside Park user, I write to encourage you to approve a plan for 5 multi-use fields with lights at Sunnyside Park during its redevelopment in conjunction with the new plans for the University of Utah baseball stadium and adjacent city lands and fields. The children and citizens of SLC deserve beautiful and functional fields for lacrosse, soccer, football, etc. Thank you, Lauren McBrier
2/20/2024 12:35	Kaitlyn Mahoney	Resolution for Peace	City Council, My name is Kaitlyn Mahoney. I live in District 4 and own a business in District 2. As you know, more than 35,000 Palestinians have been murdered by Israel since October 7, 2023. 13,000 of those are children. Israel is now starving Gaza to ensure the genocide continues. I should be able to end this email now, knowing that my city council sees those numbers and is horrified and bound to action. But I cannot end this email now, because you have done nothing in the past five months to show your constituents that you care. Israel's ongoing war crime of genocide is being funded by our tax dollars. Salt Lake City needs to stand against genocide, and that starts with you. Not voting is a clear moral signal to your constituents, to the world, to our future generations. Staying silent aligns you with cruelty, barbarism, and human regression. How can we trust your leadership? We have shown up, we have shown you what is important to us, we have participated in the political process that you have laid out for us. Does that not matter to you? If you will not listen to us, what are we to do? You will have shown us that you are not for community but against it. We cannot work with leaders who do not have moral clarity and care about the voice of community. There is still time. We call on you to bring a resolution to the council that calls for a ceasefire and for strong anti-genocide language. We cannot stand in fear of the legislature, and you cannot continue to demonize your constituents who demand better. -- Kaitlyn Mahoney they/she
2/20/2024 12:37	Andrea Salazar	VOTE "YES" Sunny Side Park Improvements	Please vote yes to support the Sunnyside Park improvements. We enjoy this park for games and practices. Thank you for your public service. -Andrea Salazar Salt Lake City, 84106

Date/Time Opened	Contact Name	Subject	Description
2/20/2024 12:38	Margaux Miller	Call for a Ceasefire in Gaza	<p>Hello City Council, Over 35,000 Palestinians, thousands more as your silence continues, have been murdered by Isreal since October 7th, 2023. 13,000 of those are children and many more face death as Isreal continues to block aid into Gaza to ensure the genocide continues. The IJC has determined it is likely that Isreal is committing a genocide against Palestinians. Isreal's ongoing war crime of genocide is being funded by our tax dollars. Salt Lake City need to stand against genocide. What more can we say to convince you of this? No voting is a clear moral signal. A vote for a ceasefire would help stop the genocide of Palestinians and continue to pressure President Biden for a permanent ceasefire. A ceasefire has a clear definition and has not been politicized. We also must be staunchly anti-genocide. Staying silent politically aligns us with cruelty, barbarism, and human rights regression. How can we trust your leadership if you stay silent on the horrors we have witnessed and continue to have a direct hand in funding? This has been the strongest, most consistent growing movement city council has sen in the past few years. What does it say about our system? What will you be telling people if a vote does not happen or does not pass? You will have contributed to our national apathy. You will have showed us it does not matter if we show up. You will have showed us that you are not for the community, but against it. We want to partner with you on local issues, however, we cannot align with leaders who do not demonstrate moral clarity and care about the local and global community. We call you to bring a resolution to the council that calls for a permanent ceasefire and for strong anti-genocide language.</p> <p>Thank you. Margaux Miller MD</p>
2/20/2024 12:39	Shannon Freedman	Sunnyside park	<p>Councilman Dugan, I am writing to express my support for five multi-use fields at Sunnyside park and also for lights. This improvement would be an incredible improvement for all youth sports and for our community.</p> <p>Thank you, Shannon Freedman</p>
2/20/2024 12:40	Andrea Elaine Williams	Sunnyside Park	<p>Please consider a multi sport use field with lights for the redesigned Sunnyside Park. Thanks kindly! Andrea Williams Andrea Williams, LCSW Salt City Psychology</p>
2/20/2024 12:41	Elizabeth Florence	Sunnyside Park	<p>Dear Council, I am writing to you in support of the five multi-use fields at Sunnyside park and also for the addition of lights on the fields. This is a great opportunity for our area and would be an incredible improvement for lacrosse, soccer and all youth sports in our neighborhood. Thank you for your support.</p> <p>Elizabeth Florence</p>
2/20/2024 12:42	Andrew Florence	Sunnyside Park	<p>Dear council, I have kids at Indian hills and East . We love the youth sports at sunnyside park. I am writing to you in support of the five multi-use fields at Sunnyside park and also for the addition of lights on the fields. This is a great opportunity for our area and would be an incredible improvement for lacrosse, soccer and all youth sports in our neighborhood. Thank you for your support. Andrew Florence</p>
2/20/2024 12:42	Preston Evans	Sunnyside Park	I support the changes being made at Sunnyside park

Date/Time Opened	Contact Name	Subject	Description
2/20/2024 12:47	Lynn Pershing 1/2	UU baseball stadium land lease from Sunnyside Park	<p>Dear City Council members Petros, Puy, Wharton, Lopez-Chavez, Darin Mano, Dugan and Young The agreement to lease land from City-owned Open Public Land in Sunnyside Park to the University of Utah for a baseball stadium is a cautionary tale to all residents, in each neighborhood, in every district of our city. The current agreement between the City and UU has sent the message to citizens that any public open space land protected by city and district Master Plans as well as city code 2.90.070 to be purchased with use of a single line “exception” if the “price is right” to the detriment of all city residents who are losing more and more open space each year. Our open space is sacred, once its lost, it’s gone forever. Public open space is critical to the healthy well-being of all City residents. Sunnyside Park is used by 25 different zip codes for a variety of recreational and organized sports and recreational activities of all aged persons. I myself and my family have used this Park for the past 40 years to play soccer, baseball, softball, walk and play with my dog (and yes, I bag his feces). It’s like an African water hole with different activities throughout the day; a place of solitude and quiet nature in the early morning, a place of thoughtful, nature discovery for surrounding schools during the day, vigorous sports activities in the afternoon and bustling sporting venues on the weekend. It’s within walkable distance to many surrounding schools and neighborhoods. I am left wondering how all these healthy activities for people of all ages can be sustained with the proposed UU baseball stadium that will circumvent and interfere with that concurrent use of the Park? I urge the City Council to table this issue until more information is obtained. That information includes Elevations of the propose baseball stadium (not just aerial views with unverified land surveyed markings) including heights of all walls, lighting, speakers, scoreboard in every direction. To date the public has never seen actual plans. Not even at the UU open house last fall. Fulfillment of city and UU submitted GRAMA requests Uncertainty of 3 levels of baseball viability in our city; MLB, 2nd tier farm leagues and Institutional (UU) leagues. Are ALL those facilities sustainable? Until those issues are resolved, building the proposed UU baseball stadium is premature. If and/or after those issues have been resolved, I strongly encourage inclusions in the final formal contract to include a. lease agreement limited to 25 years b. guarantee UU \$4.2 million “donation” will be used in Sunnyside Park “in toto” and not used elsewhere in the city or on other University of Utah-owned or UU-leased land. c. That the \$4.2 million funds will NOT be used by city for infrastructure upgrades required for UU stadium facility including: 1) a new required 4” (or 6”) water lines and shut off valve, 2) relocation of the water capture basin on the East side of proposed stadium, 3) establishing a parking lot on current LaCross field located NE of the current UU baseball practice field,</p>

2/20/2024 12:47	Lynn Pershing 2/2	CONTINUED!! UU baseball stadium land lease from Sunnyside Park	4) costs associated with regrading the 1.175 acres of park land leased from city for stadium expansion, 5) listed use of various activities in proposed baseball stadium allowed by UU (list of NCAA regulations) that limit audio and light pollution to surrounding communities, 6) Guarantee to minimize audio, light and scoreboard pollution to neighboring residents, 7) Good faith negotiation agreement between UU baseball, City, youth sport organizations to minimize interference of UU baseball and/or other listed activities in stadium with recreational and youth sports as well citizen recreation use of Sunnyside Park 8) replacement of mature trees (that provide protection from summer sun) removed for the stadium expansion 9) UU agreement to negotiate use of stadium activity to allow and not prevent current (and concurrent) youth sport use of Sunnyside Park. 10) No use of Sunnyside Park for UU sport tailgating, concerts or other noise producing activities that detrimentally impact surrounding neighborhoods, While we await the above information, I strongly support Mayor Mendenhall's vision from her State of the City speech to create a 'Sport Zone' in the downtown that captures all sporting facilities. This vision of locating professional, semi-professional and institutional (UU) sporting facilities to a central district allows maximal access to both walkable persons living downtown and attending conventions as well as those using mass transit to sporting events. The concept maximizes economic development in an efficient and equitable manner to all citizens of our City across multiple counties and throughout our state. Respectfully Lynn K. Pershing 84108
2/20/2024 14:12	Ron Reece	U Baseball No See below	The U doesn't need a cheap deal When the dirt is gone the dirt is gone, enhancements don't offset They have already scheduled the ground breaking, just a rubber Stamp? Dan, You should stop by, we could chat about mechanical engineering programs I am always curious how they compare Ron Reece PE ME
2/20/2024 14:20	Charlie Freedman	Sunnyside Park	I am writing in support of 5 multi-use playing fields at Sunnyside Park. These are fields that lacrosse, football, rugby, soccer, ultimate frisbee, etc can all use. Five fields would be a huge benefit and gathering place for kids and families, as well as provide safe surfaces. Thanks and please contact me with any questions. Charlie Freedman
2/20/2024 14:21	Molly Pearce	Sunnyside Park	Hi Dan, I am a mother of 7 children in your district. We have used sunnyside park through the years for tennis, baseball, lacrosse, soccer and just family enjoyment. It's very disappointing to have watched the city barely take care of it through the years. Playground is often broken down, tennis courts in dire need of upgrades, grass consistently too long, gross bathrooms and not have it be a safe place for kids bc of homeless near the creek. I was encouraged to see the U wanting to make the deal to improve infrastructure in return for a great baseball stadium for their use. That being said, we hope the city can retain some grass fields for recreation sports and new tennis and pickle ball courts. I also hope the city will take these improvements as a chance to start new and start taking better care of their parks. Thx Molly P Pearce
2/20/2024 14:39	Julie Lewis	Sunny side fields	. Dear Mr Dugan, Please add my sincerest endorsement to the proposal for making the multi use fields with lights at Sunnyside Park. It would be such a boon to the community, to the neighborhood, to every child that will be positively impacted from this increased availability of off-line, positive, outdoor sports and team activities. Thank you for your support and concern for our youth and this wonderful idea for this project Sincerely, Julie Lewis
2/20/2024 14:46	Steve Schneider	Sunnyside/Baseball Support	Dan, I expressed my support via NextDoor for the agreement between SLC and the UofU for the baseball stadium and Sunnyside Park. There are many reasons after I reviewed all the materials, including finding a solution for a left field "high wall" which neither the U or the city desired. The \$4.2 million in improvements to Sunnyside are welcome such as pickleball courts. Steve Schneider

2/20/2024 14:49	Claudia Nakano	Sunnyside Park - Home of UofU Baseball	Hello Councilman Dugan A resident of District 6 (and a neighbor on Wasatch) I wholeheartedly am in support of the lease of land enabling the U of U to properly build a baseball stadium. Leasing the land to the University results in the land being used. Currently the property minimally maintained, is not safe and is not being utilized. The stadium would bring life to this part of our community, would support the U's participation in collegiate competition, and would benefit youth sports for future generations. The park remaining idle and the building of an unsightly concrete wall would potentially invite unwanted and or criminal activity. I view the U of U plan as nothing less than a move toward the continuation of building a vibrant campus, community and city. In support, Claudia Nakano
2/20/2024 14:55	Jake Crockett	Re: CORRECTION Feb. 20 Public Hearing: U of U Baseball Stadium & Sunnyside Park Improvement	Dan: Thank you for sending this along. The Crocketts join our neighbors in opposing this lease or any other arrangement shrinking (or effectively shrinking) Sunnyside Park. Thank you for your service, Jake
2/20/2024 15:36	Mary White	Leasing part of Sunnyside Park to the U	I am in favor of leasing part of the park to the university for use as part of the baseball stadium. I use the park mainly for meeting friends at the picnic pavillions and taking kids to the playground. The proposed leasing arrangement would seem to have a minimal effect on most park activities, and the promised amenities would enhance the park.
2/20/2024 16:37	Elliot L. Cheney	General Comment	A genocide is being conducted in Gaza and I am horrified by my government's complicity. Innocent people are being murdered and they are being subjected to completely inhumane conditions. I will not be satisfied until my government takes action to facilitate an immediate ceasefire.
2/20/2024 16:58	Elliott Livingston Cheney	General Comment	Because of the danger posed to the Great Salt Lake, it's of utmost importance that our local government invests more in conservation. The timeframe for action is rapidly closing before Utahns way of life is permanently threatened.
2/20/2024 17:01	Hannah Orr	General Comment	Salt Lake needs to take a stand against the ongoing genocide of Palestinians by the apartheid Israeli State. Gaza is being starved and slaughtered by the IDF. By showing solidarity with the Palestinian people, Salt Lake will stand with humanity and against genocide. We call for a resolution calling for a ceasefire.
2/20/2024 17:16	Ryeleigh Hewlett	General Comment	Salt Lake needs to take a stand and demand an immediate & permanent ceasefire from the genocidal apartheid state of Israel. No more tax dollars being used & sent to murder children. Many of my representatives have a 'copy & paste' response "Israel has the right to defend itself". Israel is not above international laws as they committ war crime after war crime.
2/20/2024 17:18	Grace Wason	General Comment	Please introduce & vote on a ceasefire resolution for our siblings in Palestine. If you cannot stand for justice in the face of genocide then I cannot trust you to stand for justice in our own communities. - from Glendale
2/20/2024 17:28	Rhonda Rapp	General Comment	Over 35,000 Palestinians, many more as your silence continues, have been murdered by Israel since October 7th, 2023. 13,000 of those were children and 87% innocent civilians. Israel is starving Gaza to ensure the genocide continues. The ICJ has determined that it is likely that Israel is committing a genocide on Palestinians. Israel's ongoing war crime is being funded by our tax dollars. SLC needs to stand agasint genocides. Our petition demanding a ceasefire resolution has been signed over 1,000 Salt Lake residents. We need action. You are our voice. We call you to bring a resolution to this.

Date/Time Opened	Contact Name	Subject	Description
2/20/2024 18:03	Tyler Defosse	General Comment	Hello City Council, My name is Tyler and I in District 4. Over 35,000 Palestinians, thousands more your silence continues, have been murdered since Oct. 7th, 2023, 13,000 of those children and 87% innocent civilians. The ICJ has determined it is likely that Israel is committing a genocide on Palestinians. Israel's ongoing war crime of genocide is being funded by our tax dollars. SLC needs to stand against genocide. Follow the recently passed resolutions out of various cities across the nation, and call for a ceasefire in Israel and Palestine. Ceasefire now.
2/20/2024 18:16	Gregorio Barahona Ocawpo	General Comment	I urge the city council, in keeping with its stated commitments to justice and equality, to call for a resolution unequivocally demanding a ceasefire in Gaza, joining the International Court of Justice's demand that the state of Israel halt all actions resulting in the harming of Palestinians. Such actions have, since October 7th of last year, included the indiscriminate bombing of residential area, hospitals, mosques, churches and universities; the targeting of journalists and aid workers; the use of white phosphorus; and the use of starvation and forced displacement as weapons of war that have caused deaths of tens of thousands of Palestinians the displacement of millions, and constitute a clear case of ethnic cleansing and genocide.
2/20/2024 22:55	Tammy Putnam	university of utah ballpark at Sunnyside park	the university of utah ballpark will take away one of the 2 completely enclosed ballparks at Sunnyside Park. i am suggesting that at least one or two of the other existing ballparks be made completely enclosed with fencing and gates. i often take my nonverbal autistic grandson there to play and run around and it is so nice to have the enclosed softball fields so that he can freely run around without easily getting away from me and running out. thank you for considering this request.
2/21/2024 10:01	Celeste Tholen Rosenlof	Support Ceasefire Resolution	Mayor Mendenhall and Councilperson Petro, I'm a district 1 constituent and deeply concerned and broken-hearted about the situation in Gaza. I wanted to write you to, first, thank Councilperson Petro for your willingness to work on a ceasefire resolution, and second, ask you, mayor, to support it. More than 29,000 people have been killed in Gaza, more than 2 million displaced, and 1 in 6 children there are acutely malnourished, according to the AP and UN. The ICJ has concluded this attack is likely genocide, a claim which many Palestinian journalists, activists, and people have been saying for months. Salt Lake City must stand against genocide and send a clear message to higher authority that our tax money will not fund genocide or be used to annihilate homes, infrastructure, and cultural institutions. Demand a ceasefire and that remaining Israeli and Palestinian hostages be returned. It is critical that city leadership shows up for oppressed and mortally threatened people and honor those who have died already. Thank you, Celeste Tholen Rosenlof CT

2/21/2024 10:03	Anthony Wright	Kensington repaving	<p>Good afternoon, I am writing about the 2024 planned repaving on Kensington from Wasatch Drive to Indian Hills Circle. As is documented on the city site with photos of some massive potholes, Kensington is in great need of repaving and I am happy to see this done. Has there been more discussion on the sidewalk additions to the Indian Hills catwalk? In addition, I wanted to bring to your attention the condition of Ute Drive. Kensington terminates into Ute Drive for about 6 houses. I have attached photos of the condition of the road. It is hard to find a section that has more than 6 inches of continuous asphalt. It is constantly breaking up and leaving potholes. I personally have taken responsibility to fix many of these in front of my house buying the product and putting in the labor to fix. You can actually see some of my patches which are stronger than the rest of the city road. Whenever it rains fine gravel and chunks flow to the gutters. My concern is that the city crews will be up here completing Kensington and Ute will be bypassed. There are not many houses on Ute, but many people drive it a day to get down to wasatch. If ute is not done while the crews, equipment, and machinery are already up here, I fear Ute will be put on the backburner and will continue to fall apart. I ask that when the city does Kensington, that it also rebuilds Ute drive which is in desperate need. Thank You for your time. If I have sent this to the wrong group, please let me know. Anthony Wright</p>
2/21/2024 11:17	Suzanne Stensaas	Landscaping and Landscape Buffers Text Amendment	<p>Please, please pass this. Should have been done years ago. In addition I wish there was a requirement for better setback of new apartments and businesses. We need trees and green as much as we can. With some apartments abutting sidewalks it is unconscionable. Suzanne S. Stensaas</p>
2/21/2024 11:23	Jarod Hall	Historic Preservation Overlays	<p>Alejandro I am a resident of the fairpark neighborhood. I am writing a quick note IN OPPOSITION to the proposed Yalecrest (and any future) historic overlays. SLC (and many other cities) has a tremendous problem with getting houses that are affordable to median income households. Historic overlay's significantly increase the price of repair and the base price of the homes in that area. They are very exclusionary. Our best neighborhoods are ones where there are a mix of living and building types and a mix of building ages. Historic overalls endeavour to freeze both the building type and age of the buildings. If anything we should as a city be looking to reduce the blanket overlays we have in place and not add more. While there are many individual structures in all of these neighborhoods that have significant historical value, doing a mass overlay instead of a building by building designation is too blunt of a tool given our other challenges around housing. I live in a house built in 1904 and if my house was in a local historic district the increased maintenance cost would have forced my family to move. When we were looking to replace our extremely drafty single pane windows the cost of windows that would have been acceptable in a historic district were \$10,000 (or 3X) more than the energy efficient vinyl windows we choose. This example is multiplied by nearly every exterior maintenance decision that gets made on a home. Please don't encumber additional homeowners with these high costs by creating more historic overlays. Jarod Hall</p>
2/21/2024 11:25	Kathryn Lindquist	properties at 2260, 2270 and 2290 East 1300 South	<p>Dear Council Members, As you consider rezoning these properties, please also keep in mind how difficult traffic can be at that small piece of 1300 South just east of the stoplight on Foothill. People are coming and going from the gas station and Wendy's as well as going east on 1300 toward the St. Mary's area. This section might be able to accommodate cars for double occupancy of each address but not multiple numbers of people at each if they are commercial or high-rise buildings. Thank you for considering the people who already live on Laird Way who must also put up with traffic taking short-cuts through that street to avoid the traffic light at the intersection of 1300 South and Foothill. Thank you very much, Kathryn Lindquist, a resident of Laird Way</p>

2/21/2024 11:26	Richard Layman	Sunnyside Park- University of Utah agreement	<p>I am on the board of Sugar House Park and participate on the SHCC Parks, Open Space, and Trails Committee. Earlier this month CM Young presented to POST about the proposal, and my takeaway at the moment is that there appear to be a number of gaps in the proposal as currently presented. And I'm not necessarily opposed to the proposal (SHP has similar issues with Highland High School that we need to work out. And the park and school have done land trades before.) 1. A lease of park land shouldn't be allowed to be approved pro forma by the Executive Branch. Transfer of land through a 99 year lease should especially require a more robust public process and Council approval. While the cite attached concerns eminent domain, I argue that the principles outlined by the authors are relevant to all types of municipal land transactions including sales, leases, and street and alley vacations.</p> <p>https://archive.boston.com/news/globe/editorial_opinion/oped/articles/2005/08/12/make_important_domain_fair_for_all/ 2. There aren't good renderings available making judicious evaluation of the project impossible. Design is key, as it was for Smith's Ballpark--the first "throwback" stadium in the minor leagues. 3. I am not a finance guy, but \$4.2 million in "community benefits" seems low. And additional community benefits should be negotiated every 5-10 years throughout the lease. 4. There needs to be more opportunity for public engagement especially from residents on the East Bench, for which Sunnyside is a regional park. 5. Recently, Public Lands received a grant from the Land and Water Conservation Fund for the new Glendale Regional Park. Often LWCF funding comes with an easement on a community's entire parks portfolio, not just specific parcels (this is the case for Salt Lake County). I don't know if that could be relevant here. LWCF could well approve such a change because it may still be considered outdoor education, but it would require a review regardless. Please delay this action so that all of the open issues can be better addressed. Note that in some quarters of the parks community, this is being seen as an overly accelerated land grab by the University of Utah, and is not a good look for the city. As the city's "brand managers" City Council should help to reset the consideration process for this proposal at "more normal speed" so that people's concerns can be better addressed. Thank you.</p>
2/21/2024 11:27	Jack Crockett	400 N Overpass	<p>Alejandro, I am a Fairpark Resident on Chicago St. After reading an article in the Tribune I just wanted to reach out and voice my support. I would like a overpass at 400 N connecting the Marmalade district to 400 N. It would make my bike trips to Ace Hardware and the library much faster. If that is not done, I believe UDOT should be held accountable for the decreased cost of their project. Those funds should be given back to the city in some way. That overpass is a massively expensive piece of infrastructure. Nothing would make UDOT happier than to take it off of their books. I'm sure they are quite pleased with the voices of opposition. Closing down that overpass would be a simple endeavor if the community did not want it right now. If it was a pedestrian tunnel, it could easily be gated shut or the entrances buried. If it was a cut and cover road, there would be enough traffic and road noise to dispel loitering. However, if it is not built during this splurge of state spending, there is no way it will ever be done. People might not want it now, but they may want in the future.</p> <p>Thanks for pushing this issue, Jack Crockett</p>

2/21/2024 11:28	Jay Schulze	Sunnyside Park	<p>Councilmembers Wharton and Dugan, I am writing to express support for the proposed redevelopment of Sunnyside Park with 5 multi-use fields with lights. I have been coaching youth lacrosse in the area for the past 5 years and the sport is growing rapidly. I started with a group of 10 kindergarten boys and now 40 signed up for our team this spring. On the girls side, I started a program affiliated with Judge just 3 years ago and we now have more than 80 girls playing this spring across 6 teams in 4 different age groups between K-8. Our biggest challenge has always been securing field space for practices and games, especially quality field space. A year ago we paid to reserve the West field at Sunnyside park for the season, only to find upon arrival for our first practice that the grass was all dead, and the field had many holes filled with what appeared to be kitty litter. SLC Parks department took no apparent action to improve the field condition during that season and refused to offer any refund. We have since moved all our practice back to Sugarhouse park where we have to compete for field space that cannot be reserved for you sports practices. New/Renovated fields at Sunnyside Park would provide needed space for the anticipated growth of lacrosse in Utah, as we aim to continue bringing more kids into this sport so they can benefit from all it has to offer. Additional fields would also allow our teams (mostly SLC residents) to host home games and reduce the need to drive so often to Lehi and Ogden. The potential benefits of the proposed Sunnyside Park Renovation go far beyond lacrosse, and I am excited about the prospect of having an improved mutli-sport, multi-purpose, outdoor recreation complex so close to our homes. I look forward to news about the way forward, and I thank you for your consideration. Regards, Jay Schulze</p>
2/21/2024 11:29	Jessica Steed	Baseball fees	<p>I am astonished at the exorbitant fees the city charges for these baseball fields. Please, please consider Mr. Wachter's proposal. We have three sons in his league and it gets to be very expensive and it doesn't seem to be standard across other cities or counties. Thank you, Jessica Steed</p>
2/21/2024 11:33	Cole Sloan	Sunnyside Park Redevelopment Comments	<p>Hello, I fully support 5 multi-use fields with lighting for the Sunnyside Park redevelopment proposal. Thank you for your consideration, Cole Sloan Lacrosse Parent, Referee & occasionally Player</p>

2/21/2024 11:35	Jennifer Evans	University of Utah Baseball Stadium	<p>Dear City Council Members, As a resident of District 6 and a frequent user of Sunnyside Park, I respectfully ask that you consider the following when making a decision that allows the University of Utah to lease a minimum of 1.2 acres of Sunnyside Park for 100 years. 1- This park is the only sizable area of green space in this neighborhood and is well used by many. It is used during all seasons by LaCrosse teams, little league baseball teams, little league football teams, and youth soccer teams. It is used by adult recreational softball leagues, flag football teams, families with children, neighbors walking dogs, people gathering together for parties and picnics, and many more activities. The park is accessible and free for anyone who needs a little time in nature to decompress. In this stressful world, we need more green space, not less. 2- The University of Utah promised that the plot of land that is home to their practice field would never be used for anything, except a practice field. When asked about that statement, they simply replied, " Things change." Surely with all of their resources, the University of Utah could find somewhere else to build their baseball stadium. It does not belong in a neighborhood and will bring with it a host of issues including, but not limited to traffic issues, light pollution, noise pollution and sports fans using neighborhood streets for parking. 3- In addition, the University assured the Yalecrest Neighborhood Council and the community that they had plenty of space to build their stadium on the existing site of the practice field. This didn't seem likely, and turned out not to be the case. Now they are requesting a big chunk of a city park to make their stadium a reality. What is stopping them from asking for even more? They have offered to update the park but what we really need in this city is more green space, not less. 4- To the east of Sunnyside Park the University is rebuilding their student family housing and adding more units. Those families will surely use the park. We need more green space in this growing city, not less. Thank you for allowing me to voice my concerns. I am hopeful that you will consider these thoughts when making your decision. Sincerely, Jennifer Evans</p>
2/21/2024 11:37	Anonymous Constituent	Phone call to City Council	<ul style="list-style-type: none"> • We are your neighbors. • We are good neighbors and citizens. • We take pride in our areas. • We are not a parking lot for the University. • We are not traffic control for sports games. • We are not the sanitation crew or toxic waste recyclers and we shouldn't need to deal with public urination. • The dust is terrible when events happen. The wind kicks up and makes it hard to breathe. • The Mayor, The State, The University and Council Members Dugan does not care how we fell. • Stop being shellfish and listen to your neighbors. • The University has done nothing to help the neighborhood. • No one responds to our needs. • Everyone is arrogant and does not listen. We waste our breath talking since everything is already a done deal. • Now the University wants to take more areas and cause more issues for all the neighbors.

Good Evening,

My name is Thayne Macarille and I have managed the Walgreens located at 531 E 400 S. for the past 9 months. There has been an increase of Habitual Criminals and unhoused individuals in the area and these individuals have been causing many issues inside and outside of the store.

I am here to request your approval for a temporary camera system in the Walgreens parking lot from the SLC Police Department, as well as request your approval for extra patrols in the area. I believe having a camera system and additional patrols would significantly improve crime rates and police response times.

I want to share some of the recent problems caused by these individuals:

- Theft, with our latest inventory showing a loss of \$476,120 for the year
- Biohazardous waste created by defecating in and around the store
- Biohazardous waste created discarding drug paraphernalia in and around the store
- Assault on team members and customers (I have had team members quit because they do not feel safe in the area at night)
- Criminal trespassing
- Arson
- and Vandalism

Police response times vary. In some instances, the response time is over 3 hours. Police dispatch confirmed they have received 388 calls from my store since January 2022, and the problem in the downtown area continues to escalate. From January 1, 2024 to January 23, 2024—a period of just 23 days—my store called police dispatch 25 times.

I am seeking a solution to protect Walgreens' team members, customers, property and the surrounding businesses. We all need your help. I am happy to answer any questions you may have or complete a formal request for your approval for both a temporary camera system and additional patrols. I appreciate your time and consideration of this matter, and welcome any suggestions or insights you may have.

Attached is one of the many shrink reports for my store.

Comment

Monday, Feb. 19 Prime Minister Netanyahu Boasted in the "Times of Israel" that for decades, he has blocked the establishment of a Palestinian state. This is the same man who champions the motto "from the river to the sea Palestinians will never be". Netanyahu's vision is simple. Between the Jordan river and the Mediterranean sea there will be no liberty for Palestinians; no equality for Palestinians, and thus no fraternity between Palestinians and Israeli Jews. While the world focuses on the carnage in Gaza, over 100 thousand dead or wounded and over a million displaced, little notice is given to what is going on in the other occupied Palestinian territories. Since Oct. 6th in the West Bank where Hamas has little presence, Israeli settlers and security forces have killed hundreds of Palestinians and wounded thousands. Let's be clear eyed about this. While the powers to be portray this current crisis as a war between Israel and Hamas, the truth is it's a war between Netanyahu and his gang against all Palestinians. Paralyzed by fear of the financially powerful Israel lobby, politicians obligingly give billions of American tax payer dollars to this mad man. Unfortunately, it gets worse. Netanyahu not only desires the destruction of Palestinians but also Iran and he is bound and determined to get the United States in a hot war with Iran, a war that both Iran and the current US. administration claim they don't want. A war such as this would cost America hundreds of billions of dollars and put at risk tens of thousands of American servicemen lives. Everyday that goes by without a ceasefire and meaningful negotiations is an opportunity for Netanyahu to expand the crisis. If calling for a ceasefire needs to be more than just an impassioned plea to stand against genocide then consider this. It's a call to resist the desires of a mad man and his supporters whom have little concept of justice or peace. It is a clarion call to protect the lives of American soldiers many of whom call Salt lake their home. It's a clarion call to not burden future generations with hundreds of billions of dollars of debt from another unnecessary war. But most importantly, it's a clarion call to reaffirm our values as Americans; for life, liberty and equality for all.

Mahan Khalsa
