2/12/2025 16:33	Anonymous Constituent	Phone call to City Council	I'm calling because why is the City is charging the small businesses so much fee, it isn't much last year. I would like to know why and when this has happening?
2/12/2025 16:41	Chad Pehrson	APPEAL of Erroneous Decision from SLC Parking Enforcement - PH5085677	<p>Dear Hearing Officer HO103, I have a "green vehicle permit." The permit is # 1972. Ms. Luna sent it to me. What I was told by the City is that I could use the permit to park for up to 2 hours at a time. Apparently this is an effort from the City to encourage and/or reward adoption of EV's, which contribute less to the terrible pollution in the City. I installed the permit in the back window of my vehicle, exactly as instructed. However, despite this, yesterday I received a \$38 citation when I attempted to park in a SLC metered stall for one hour in the morning. When I nicely appealed the erroneous citation, an unknown hearing officer stated: "AFTER REVIEWING ALL THE INFORMATION FROM BOTH PARTIES AS WELL AS THE PHOTOS IN THE MATTER, WE HAVE DETERMINED THIS IS A VALID CITATION AND WOULD NOT BE ABLE TO DISMISS. YOU MUST HAVE AND PROPERLY DISPLAY A VALID GREEN STICKER TO PARK AT METERS FOR FREE FOR UP TO 2 HOURS. YOU HAVE 7 DAYS TO PROVIDE US PROOF YOU HAVE CORRECTED YOUR FAILURE TO DISPLAY VIOLATION OF YOUR PERMIT AND WE WILL REDUCE TO 10.00 YOU MUST SEND A PICTURE OF YOUR STICKER CORRECTLY ATTACHED TO THE REAR WINDOW IN THE PROPER LOCATION TO HEARINGS@SLC.GOV AND WE WILL REDUCE THE FINE AMOUNT." None of the above is true. My sticker was properly placed on my vehicle, as per the attached pictures. It has always been there. My vehicle is a hatchback and the sticker may not be immediately visible to inattentive observers. The initial picture taken by the parking ticket attendant is from far away, but the sticker is nonetheless evident even in the parking ticket attendant's photo. I am not sure that any of this process is the best use of time for city employees or for me. If the City wants to erroneously give tickets to people participating in its Green Vehicles program, then maybe consider just disbanding the program? I ask that the City please advise me as to all further appellate rights. If necessary I will pay the full citation and then sue the City for misrepresenting the nature of the Green Vehicles program. If there is some further need to exhaust remedies at the City level, please kindly advise me on the City's perception of the correct procedures. Incidentally, experiences like this are why I have moved my business out of downtown. Best Regards, Chad -- Chad S. Pehrson</p>
2/12/2025 16:43	Bernie Hart	HB 298	Rep Clancy, We may have the most successful addiction and mental health treatment program on the planet, but we can't verify that assumption because there is little or no data available on the effectiveness of current treatment programs. Clean needles help prevent deaths really effective treatment programs do away with the need for needles. When is the accountability segment of HB 298 going to be implemented? Bernie Hart Understanding Us Salt Lake City, Ut
2/12/2025 16:45	Jerry Schmidt	Property Tax Relief for Seniors	An update. On Tuesday afternoon, the Salt Lake County Council voted to oppose McCay's SB 197 and support Harper's SB 224. Unanimous on both. Also spoke on Monday to Millcreek City Mayor Silvestrini and he will also be sending a letter. Thank you.

2/18/2025 10:39	Bernie Hart	2 + 2 = 103	<p>Mayor Mendenhall, The city is already spending over \$40,000,000 on policing homelessness and apparently you feel that's not getting the job done. How many more officers and how much money do you think it will take to successfully implement something that works. Firing loyal people is not a solution. Oh... I keep forgetting that policing is not a solution. Policing... and then even more policing... may be necessary because all those programs we are spending even more millions on may not be doing what we say they are. Hmm. If they were really working ... we would need less policing. I'm confused. Maybe I'm just old and losing it... but I just can't seem to make sense of all this. Is this a creative new form of self-serving math? Spend more, nothing changes and call it all a success. 2 + 2 = 22 Bernie</p>
2/18/2025 11:19	Judi Short	704 East 900 South	<p>This property has been illegal for probably 5?years that I have known about it. It probably operated for some years before that,after the day care closed. That was open for twenty plus years. This house is not a legal conforming 4-plex because of many issues. Do we even know if it is structurally safe?This man has been making money, thumbing his nose at the system, probably laughing on the way to the bank. This is only benefiting the owner. No Salt Lake residents are living there. He has easily made enough money to bring it up to code several times over. Every time I drive down 7th East there are cars in the parking lot. No workers trucks. Tell him enough already. Has anyone ever checked his house in the Avenues? How many more does he own in our city. JUST SAY NO! It is embarrassing. Why have rules. ? Judi Short</p>
