CITY COUNCIL TRANSMITTAL

BACKGROUND/DISCUSSION:

Earlier this year the Utah Legislature passed a law that requires cities to adopt the same wildland urban interface (WUI) code that the State has adopted to be eligible for state level financial reimbursement for fighting wildfires. The state requires cities to adopt this fire code before January 1, 2026 to avoid being noncompliant. The Utah Code requires adoption if the wildland urban interface is at least 640 acres. The total land area of the parcels and lots that would be subject to the WUI code in Salt Lake City is more than 1900 acres.

This text amendment would adopt what the same WUI Code identified in Utah Code. A WUI code includes special regulations intended to:

- Reducing the risk created by wildfires;
- Protect life and property;
- Support emergency management best practices;

WUI codes are typically applied to properties that are next to or close to larger areas with natural vegetation. Adoption of the Wildland Urban Interface Fire Code would subject certain properties to additional fire code requirements related to the construction of new buildings, additions to existing buildings, roofing materials, building materials, and creating defensible space by adding specific landscaping provisions intended to provide spaces between landscaping and buildings.

The Fire Department has created a map that shows which properties would be subject to the WUI code. The map is intended to be adopted as part of Title 18 and will not be part of the zoning map because the regulations are building code regulations, not zoning regulations. Only the properties highlighted in the attached map would be subject to the WUI code. The map is attached to the adopting ordinance and found in Planning Commission records. If a property is not highlighted on the map, the WUI code would not apply.

The proposal will give precedence to the fire code in situations where the Wildland Urban Interface Fire Code and the Zoning Code conflict. The zoning code does regulate building materials, fence materials, and landscaping that may not be allowed under the WUI code. This is likely to occur in the Foothill Residential Zoning Districts, in low density residential zones and local historic districts where properties are adjacent to natural lands, and potentially in other zoning districts where building materials and landscaping are regulated. It may also impact the setbacks of some types of buildings, including garages and sheds, because WUI codes typically require larger setbacks than what the city's zoning code requires.

PUBLIC PROCESS: City Code 21A.10 does not require a 45-day public engagement period for text amendments that are necessary to bring the city code into compliance with state or federal law. However, this item did include a 45-day public input period that started on August 7, 2025 and ended on September 21, 2025. This item was posted on the Planning Division Open House website during this timeframe and all property owners were mailed a notice of the pending code amendment. In addition, the Fire Department presented the proposal to the following recognized organizations:

- Capitol Hill
- Yalecrest
- Sugarhouse
- Greater Avenues
- Wasatch Hollow
- East Bench
- Rose Park (parcels removed from final map)
- Fairpark (parcels removed from final map)
- Glendale (parcels removed from final map)
- East Liberty Planning Subcommittee (9/11/2025)

A summary of the public input can be found in the Planning Commission records.

1. ORDINANCE

1. ORDINANCE

Project Title: Adopting the Utah Wildland-Urban Interface Code

Petition No.: PLNPCM2025-00554

Version: 1

Date Prepared: 9/29/2025

Planning Commission Action: Recommended 9/24/2025

APPROVED AS TO FORM Salt Lake City Attorney's Office Date: <u>September 29, 2025</u> By: <u>Katherine D. Pasker</u> Katherine D. Pasker, <i>Senior City Attorney</i>
--

This proposed ordinance makes the following amendments (for summary purposes only):

- Sections 1 and 2: Establishes the adoption of the International Wildland-Urban Interface Code, as adopted by the State of Utah;
- Section 3: Adopts the Salt Lake City Wildland-Urban Interface Map by reference in 18.44 International Fire Code and Standards Adopted;
- Section 4: Updates 21A.34.010 by adding a new section that gives precedence to the Salt Lake City Wildland Urban Interface Code over any conflicting provision of an overlay zoning district; and
- Section 5: Modifies 21A.36.010 to give precedence to the Salt Lake City Wildland Urban Interface Code over any conflicting provision found in Title 21A.

Underlined text is new; text with strikethrough is proposed to be deleted. Modifications made as part of the Planning Commission recommendation are highlighted in yellow. All other text is existing with no proposed change.

1. Adopts the International Wildland-Urban Interface Code amending Section 18.04.040 as follows:

18.04.040: BUILDING AND CONSTRUCTION CODES ADOPTED:

The following codes, as adopted by the State of Utah, along with any adopted appendices are hereby adopted as part of the code of Salt Lake City:

- The International Building Code, as promulgated by Title 15A of the Utah State Code;
- The International Residential Code, as promulgated by Title 15A of the Utah State Code;
- The International Fire Code;
- International Wildland-Urban Interface Code, as promulgated by Title 15A of the Utah State Code
- International Existing Building Code;
- International Energy Conservation Code;
- International Fuel Gas Code;
- National Electrical Code;
- The International Mechanical Code;
- The International Plumbing Code;
- The International Swimming Pool and Spa Code;
- Rule R156-56 of the Utah Administrative Code;

ICC/MBI 1205-2021 Standard for Off-Site Construction: Inspection and Regulatory Compliance, or its successor, and 1997 Uniform Code for the Abatement of Dangerous Buildings.

2. *Adopts the International Wildland-Urban Interface Code adopted by the State of Utah into the fire prevention standards administered by the Fire Department by amending Section 18.44.010 as follows:*

18.44.010: INTERNATIONAL FIRE CODE AND STANDARDS ADOPTED:

A. The edition of the international fire code as adopted by section 15A-5-103, Utah Code Annotated, or its successor section is adopted by Salt Lake City as the fire code ordinance, rules and regulations of the city. Appendices A, B, C, E, F, G of the international fire code are specifically adopted by Salt Lake City as part of the fire code of the city. Appendix D of the international fire code, including the amendments to subsection D105.3 provided in Salt Lake City Code section 18.44.020, is also specifically adopted by Salt Lake City as part of the fire code of the city. Hereafter, all references in this code to the fire code shall mean the edition adopted by section 15A-5-103, Utah Code Annotated, or its successor section, together with its appendices. One copy of the international fire code shall be filed for use and examination by the public in the office of the city recorder.

B. The Utah Wildland Urban Interface Code as adopted by Utah Code Section 15A-2-103, or its successor, is adopted by Salt Lake City as the Salt Lake City Wildland Urban Interface Code as part of the fire code of the city. The Salt Lake City Wildland Urban Interface Code applies to property shown on the "Salt Lake City Wildland Urban Interface Map," a copy of which shall be maintained on file with the Salt Lake City Recorder's Office.

3. *Adopts the Salt Lake City Wildland Urban Interface Map as referenced in proposed Subsection 18.44.010.B and as shown in Attachment A. A list of the properties affected by this map is provided in Attachment B. In the event of a conflict between Attachment A and Attachment B, Attachment A will govern. The Salt Lake City Wildland Urban Interface Map declares the wildland urban interface areas within the city and is based on the following findings of fact:*

A. The Salt Lake City Wildland-Urban Interface Map is based on an assessment of fuel types and physical characteristics affecting likely wildland fire behavior within the city;

B. That the city is situated on or near two fault lines the Wasatch Fault and the West Valley Fault, both capable of generating earthquakes of significant magnitude. These faults are subject to becoming active at any time; the city is particularly vulnerable to devastation should such an earthquake occur. The potential effects of earthquake activity include restricting or eliminating internal circulation due to the potential for collapsing of highway overpasses and underpasses, earth slides, and the potential for vertical movement rendering surface travel unduly burdensome or impossible. Additional potential situations inherent in such an occurrence include loss of the city's water sources, including local reservoirs, water mains, and storage facilities; broken natural gas mains causing structure and other fires; leakage of

hazardous materials; the need for rescues from collapsed structures; and the rendering of first aid and other medical attention to large numbers of people. The protection of human life and the preservation of property in the event of such an occurrence support the imposition of fire-protection requirements greater than those set forth in the International Building Code or International Fire Code.

C. Seasonal climatic conditions during the summer and fall create numerous serious difficulties regarding the control of and protection against fires in the city. The hot, dry weather typical of this area, coupled with very wet winter and spring conditions that can create abundant grass and shrub fuels that can elevate fire risk, results in wildfires that threaten or could threaten the city. Although some code requirements, such as fire-resistive roof classification, have a direct bearing on building survival in a wildland fire situation, others, such as residential automatic sprinklers, may also have a positive effect. In the city's dry and generally low humidity climate, many materials are much more easily ignited. More fires are likely to occur and any fire, once started, can expand extremely rapidly. Residential automatic sprinklers can arrest a fire starting within a structure before the fire is able to spread to adjacent brush and structures. The aforementioned problems support the imposition of fire protection requirements greater than those set forth in the International Building Code or International Fire Code.

4. *Amends Section 21A.34.010 only as to include a new subsection "c" as follows:*

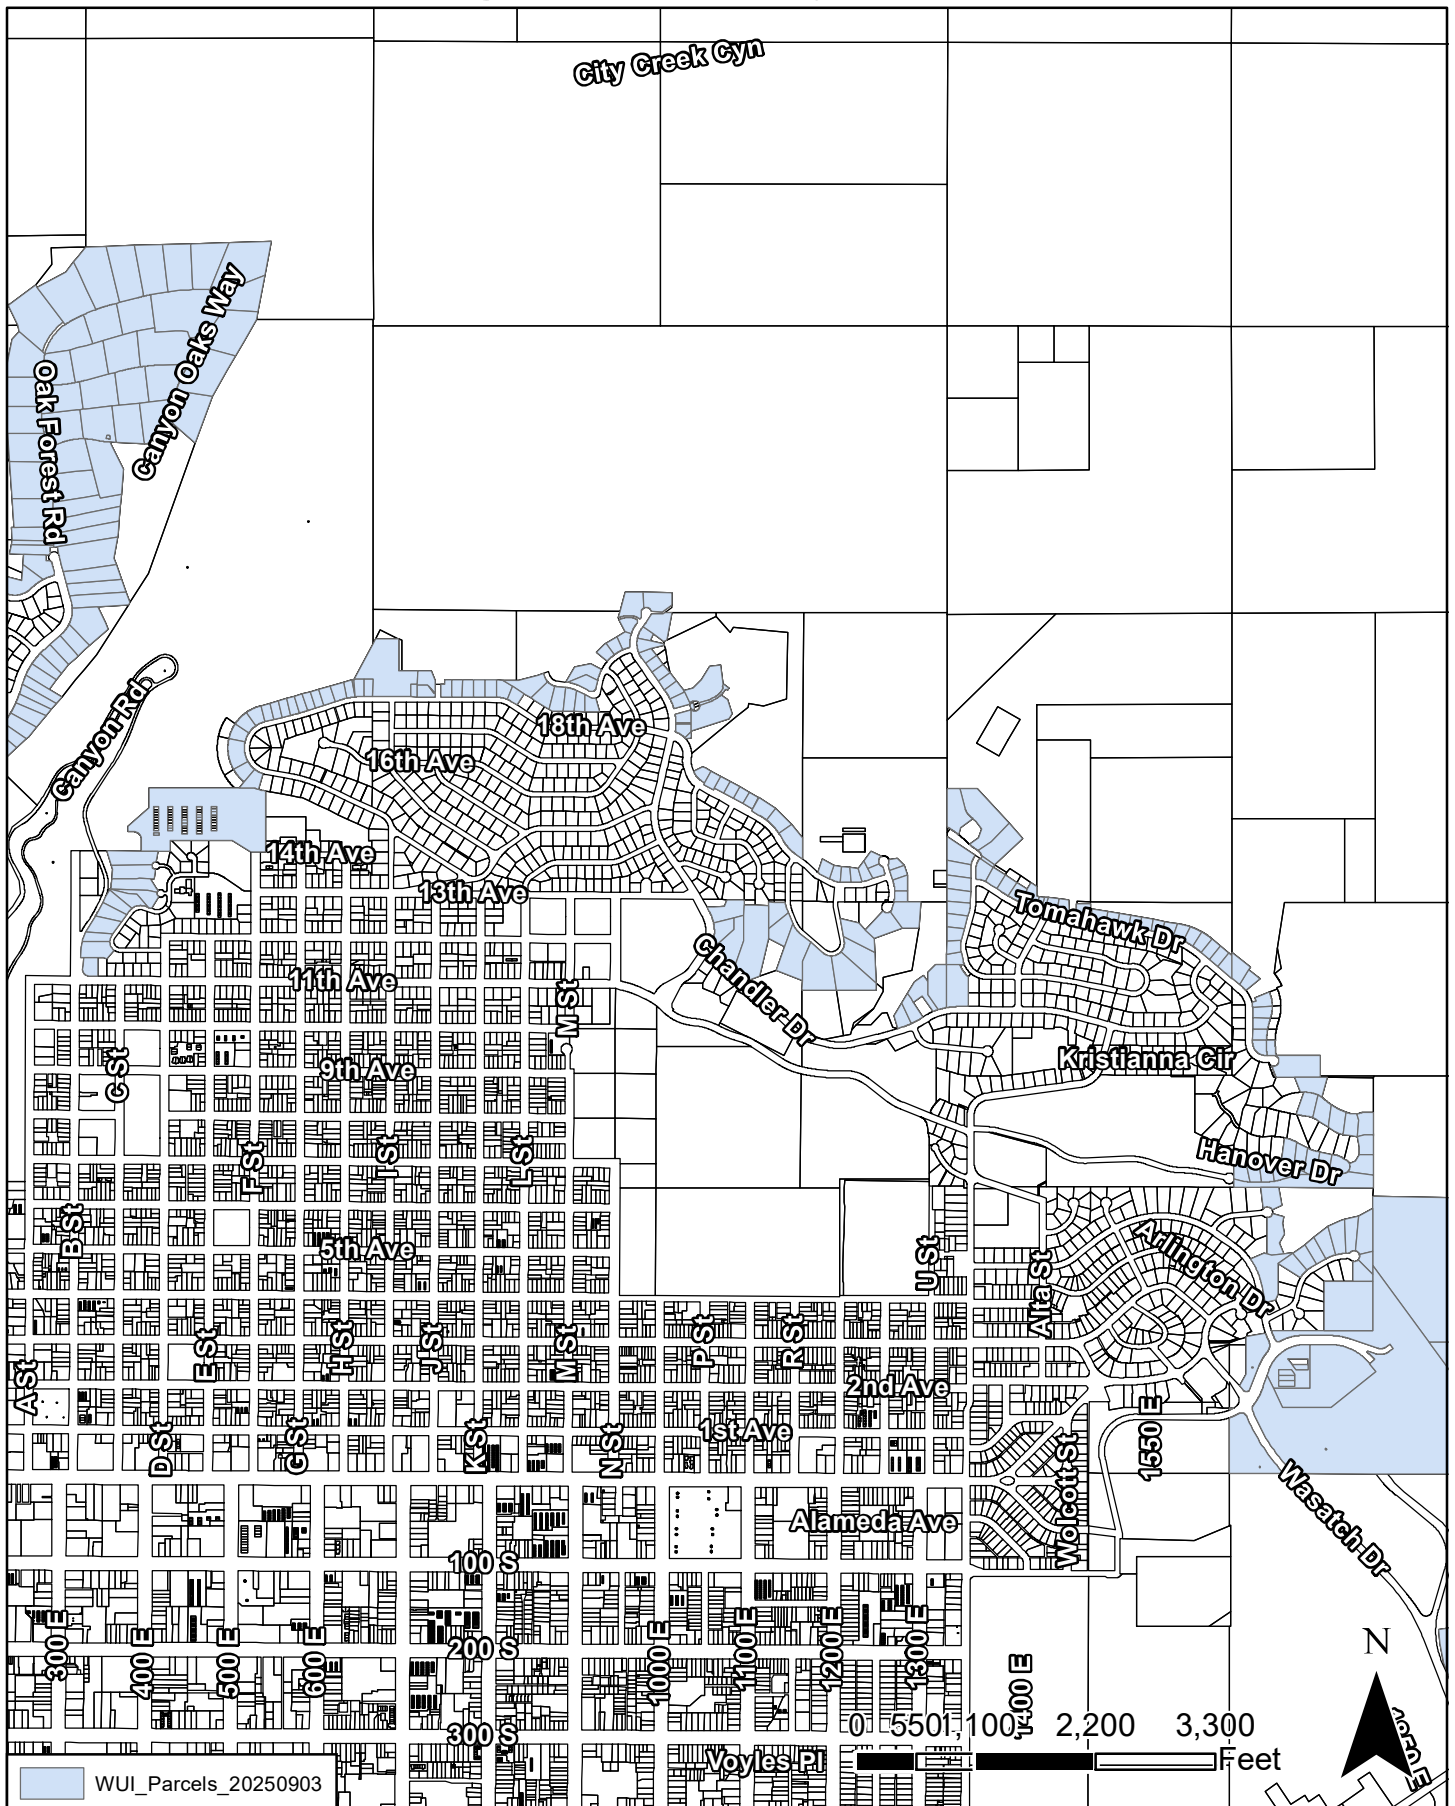

C. Except as described below with respect to the RCO Riparian Corridor Overlay District, the provisions of the Salt Lake City Wildland Urban Interface Code, as adopted in Title 18, shall take precedence over any conflicting provision of an overlay zoning district in this chapter as to those properties shown on the Salt Lake City Wildland Urban Interface Map. If a building permit is submitted that includes plans that may create a conflict between application of the Salt Lake City Wildland Urban Interface Code and the RCO Riparian Corridor Overlay District, the Salt Lake City Fire Chief and the Director of the Department of Public Utilities, or their designees, will coordinate permit approvals for work in applicable areas to assure that the plans associated with the permit meets the intent and performance of both the Salt Lake City Wildland Urban Interface Code and the RCO Riparian Corridor Overlay District.

5. *Amends Section 21A.36.010 Use of Lands and Buildings only by adding a new subsection F to indicate that the Salt Lake City Wildland Urban Interface Code takes precedence over any conflicting provision found in title 21A.*

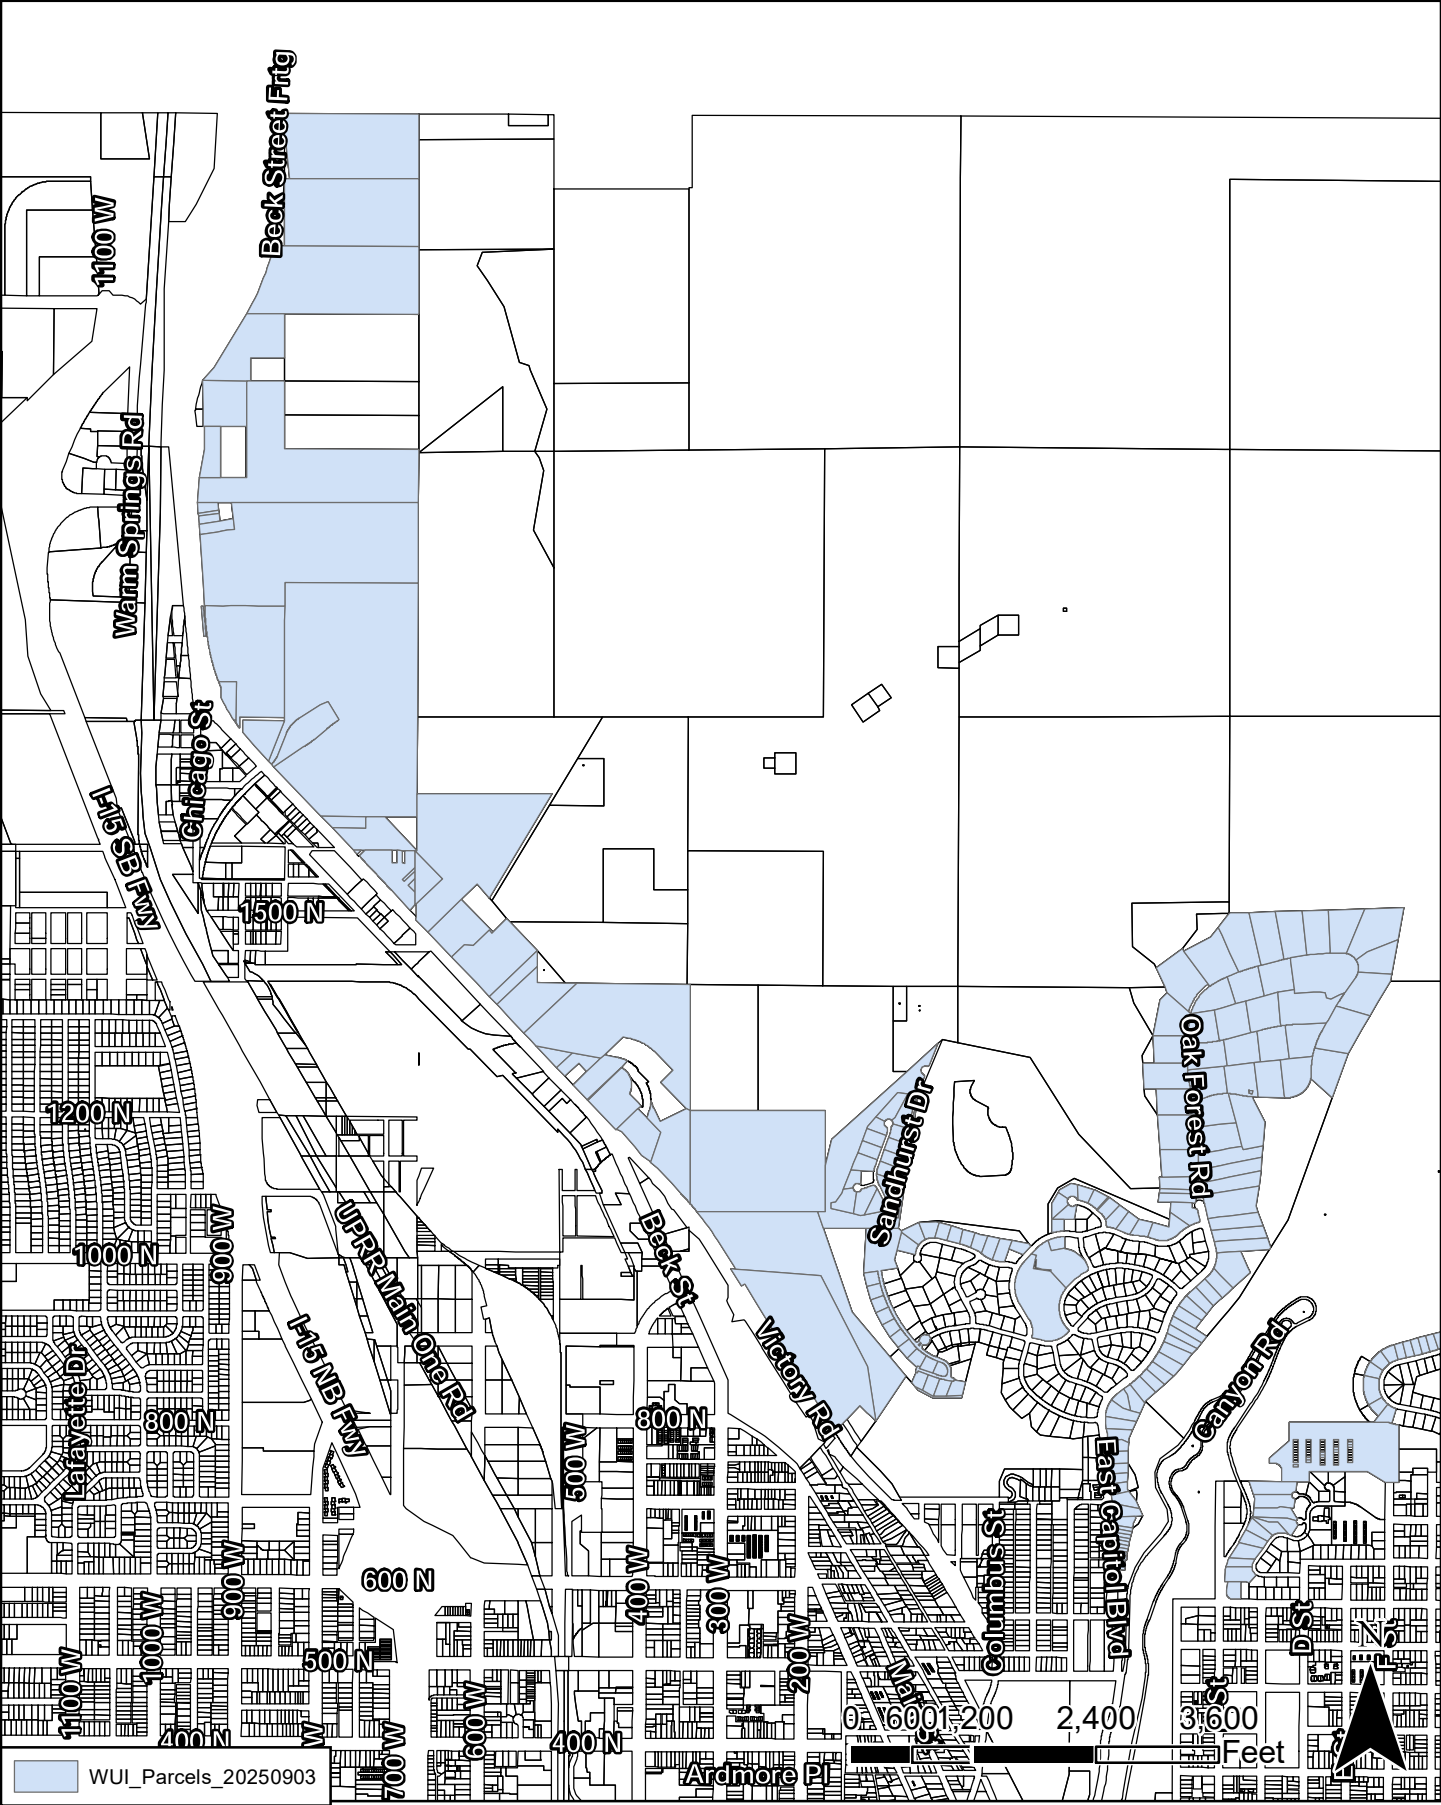

F. Regulations Conflicting with the Salt Lake City Wildland Urban Interface Code. The Salt Lake City Wildland Urban Interface Code as adopted in Title 18 shall take precedence when a provision of Title 21A conflicts with a provision of the Salt Lake City Wildland Urban Interface Code, but only as to those properties shown on the Salt Lake City Wildland Urban Interface Map.

6. *Effective Date: This ordinance, if passed, shall become effective on the date of its first publication and shall be recorded with the Salt Lake City Recorder.*

**3. NOTICE OF CITY COUNCIL
PUBLIC HEARING**

NOTICE OF PUBLIC HEARING

The Salt Lake City Council is considering **Petition PLNPCM2025-00646** a text amendment to Titles 18 Buildings and Construction that would adopt the Wildland Urban Interface (WUI) Fire Code, a state fire code that the city is required to adopt, along with a map that shows where the WUI Fire Code would apply. The proposed text amendment also amends Title 21A Zoning to give precedence to the adopted WUI Code where it conflicts with regulations found in Title 21A. The WUI Fire Code applies additional building code requirements for specified properties as indicated on the proposed map. The WUI code regulates certain building materials, construction requirements, building separation, and landscaping provisions in order to reduce the risk of fire.

As part of their study, the City Council is holding an advertised public hearing to receive comments regarding the petition. During the hearing, anyone desiring to address the City Council concerning this issue will be given an opportunity to speak. The Council may consider adopting the ordinance the same night of the public hearing.

DATE:

PLACE:

Electronic and in-person options.

451 South State Street, Room 326, Salt Lake City, Utah

**** This meeting will be held via electronic means, while also providing an in-person opportunity to attend or participate in the hearing at the City and County Building, located at 451 South State Street, Room 326, Salt Lake City, Utah. For more information, including Zoom connection information, please visit www.slc.gov/council/virtual-meetings. Comments may also be provided by calling the 24-hour comment line at (801) 535-7654 or sending an email to council.comments@slcgov.com. All comments received through any source are shared with the Council and added to the public record.**

If you have any questions relating to this proposal or would like to review the file, please call Anthony Allred at 801-799-4162 between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, or via e-mail at anthony.allred@slc.gov. The application details can be accessed at <https://www.slc.gov/planning/2025/08/07/openhouse2025-00626/>.

The City & County Building is an accessible facility. Subject: (EXTERNAL) Salt Lake Wildland Urban Interface Code - Proposed Ordinance

Caution: This is an external email. Please be cautious when clicking links or opening attachments.

Hello Mr. Allred,

I live in the Wildland Urban Interface area. My understanding is that adoption of the proposed ordinance is mandated by H.B. 48. I support efforts to reduce the risk of wildland fires in Salt Lake City to dwellings. However, I have two concerns. 1) I am concerned that the mandate to collect an annual fee from owners of properties located within the wildland urban interface (65A-8-402(2)(b)) will be prohibitive. These funds are to be used "to pay for the costs associated with implementation of this part. . . ." 65A-8-402(4). The benefits of implementing the Wildland Urban Interface Code extend to all residents of Salt Lake City, not just the homeowners located within the defined wildland urban interface. Accordingly, the cost of the program should be borne by all Salt Lake City residents, not just those who own homes within the interface. 2) the standards for evaluating wildland urban interface property as mandated by 65A-8-402(1)(a) are not established. Adopting the ordinance in advance of defining the criteria to be used in the "triage scale" is premature.

Thanks for your consideration.

Regards,

Pat and Teri Akers

Dear Chief Allred,

We support adopting the WUI code to encourage mitigating measures to protect homes on the edge of the city and to establish an orderly process for insurance companies to assess risks. Our main concern is with the proposed implementation, as presented at the Greater Avenues City Council meeting earlier this month. It appeared from the maps that the properties designated as highest risk were only those that are immediately adjacent to wild land. So, for example, in our neighborhood, only parcels on Edgehill Rd were marked red. Why such a narrow designation? Embers from wildfire could carry some distance into the city. Isn't there by now some fairly extensive experience from California fires to determine a more realistic high risk zone. We say this, because when more homes are included, the risk can be spread more broadly. It would be unfair to saddle a few homeowners with the burden of paying extra high insurance premiums to cover the risks of a wider swath of homes.

I should mention that our home just missed being in the red zone, so we are arguing against ourselves. But our neighbors are concerned enough that some are considering selling their homes before they get the bad news from their insurance companies.

Thank you for the opportunity to comment.

Sincerely,

Carleton DeTar

Dear Division Chief Allred;

I was in attendance to the recent GACC meeting where you spoke, along with others, about H.B. 48 (<https://le.utah.gov/~2025/bills/static/HB0048.html>). This bill, which I understood, has passed and is now law in Utah will require a local official to annually inspect resident's property and determine the fire code classification for each property with in the designated WUI (Wildland Urban Interface), Further, I understood this would affect approximately 1700 homes in Salt Lake City.

I am a resident of Northpoint Estates Condominiums which are located at the top of F Street in the Avenues. Based on the maps you had available at the GACC meeting the entire Northpoint Community is within the WUI. This means that 49 units and our Property Managers' residence would be required to be annually evaluated.

Additionally, homes would be assessed a fee based on the square footage of the home. This fee would be annually collected and used to fund the costs associated with the implementation of the currently undefined wildland urban interface program. Further, the Northpoint residents are not aware of how this will be handled in our HOA. Would this be billed to the individual owner of a unit or to the HOA administration?

It is also of great concern as to why this “assessment” would only be applied to those residents who have the misfortune to live in the designated WUI area and not to all residents of Salt Lake City. The benefits of the program will extend to all residents of Salt Lake City and therefore all residents should be bearing the costs of this program. Additionally, this taxation-assessment places an unfair burden on these homeowners and I feel, would be more appropriately a shared cost across all homeowners in Salt Lake City. To me, this is similar to the cost sharing that has been implemented in Florida to help cover costs related to hurricanes and flooding in that state and similar to what is happening in California and other states relating to fires and related insurance and disaster coverages in those areas.

There are currently no established criteria or standards for evaluating the WUI properties as mandated by 65A-8-402(1)(a). The adoption of the ordinance prior to defining the criteria for the “triage” and implementation criteria is premature.

My wife and I are concerned about the lack of criteria for evaluation, the possibility of an assessment of only the residents living in the WUI and that assessment not being spread across all residents of Salt Lake City and a profound lack of implementation guidelines concerning the program dictated by H.B.48.

Please contact us if you have questions and thank you for your time.

Regards.

Subject: (EXTERNAL) Proposed Amendment to the City fire Code

Caution: This is an external email. Please be cautious when clicking links or opening attachments.

Dear Mr. Allred,

I live in the Avenues and am writing with concerns about the proposed amendment to the City Fire Code, specifically as it regards the WUI areas such as we have in the Avenues. I'm very concerned about fire risk and prevention, but we need to give careful thought to what we do and how we regulate this.

I live in the Wildland Urban Interface area. My understanding is that adoption of the proposed ordinance is mandated by H.B. 48. I support efforts to reduce the risk of wildland fires in Salt Lake City to dwellings. However, I have two concerns.

1) The types and amounts of fees that will be assessed to those living or owning property in the WUI haven't been determined or announced. I have concerns that the mandate to collect an annual fee from owners of properties located within the wildland urban interface (65A-8-402(2)(b)) could result in prohibitive expenses. These funds are to be used "to pay for the costs associated with implementation of this part. . . ." 65A-8-402(4). What will those costs be ? Are the fees

from owners of property in the WUI the only funding source for implementation ? The benefits of implementing the Wildland Urban Interface Code extend to all residents of Salt Lake City, not just the homeowners located within the defined wildland urban interface. Accordingly, the cost of the program should be shared by all Salt Lake City residents, not just those who own homes within the interface. The cost of fire prevention and fire fighting in all other areas of the city is shared by all residents, and the WUI shouldn't be different. For several years I lived on 1700 East, then for several years I lived on Elizabeth Street. Neither of these residences was in the WUI. I wasn't expected to pay for all the potential costs of fire fighting at those addresses - those costs were shared by everyone in the city. In return, I helped pay for the cost of fire prevention and fire fighting in all other areas of the city. Paying for fire related costs in the WUI should be similarly shared by all residents of the city.

In a condominium complex like Northpoint, where I live, will fees be assessed to individual unit owners, or to the HOA as its own entity ? These things should be determined and understood before anything is implemented.

In Florida, residents along the coasts are at risk for damage from hurricanes. When owners can't get or afford insurance, the state has become the insurer of last resort. The cost of that insurance isn't born just by the citizens living along the coast, instead it is shared by everyone in the state. We should have the same approach here when it comes to fire associated risks and costs.

2) The standards for evaluating wildland urban interface property as mandated by 65A-8-402(1)(a) are not established. Adopting the ordinance in advance of defining the criteria to be used in the "triage scale" , and how individual risk will be determined and defined, is premature. These things should be decided and announced before the amendment is adopted and enacted.

3) There seems to be inconsistency about how fire risk is currently determined and this amendment doesn't seem to clear that up. The City has their map of fire risk. The state also has a wild fire risk calculator and map, and the two differ significantly. I live at the top of F Street in Northpoint Estates Condominium. Our homes are close to and sometimes abutting City Creek Canyon, and we are clearly at risk for fire and should do what we can to lower this risk. A stone's throw away is a new development which Ivory Homes is building and which logically should be at the same risk as our HOA - yet your map doesn't show them as being at increased risk. The state's risk calculator tool shows my residence to be at moderate fire risk, yet as near as I can tell the City map places me at high risk. I have friends who live in the St. Mary's neighborhood. The state's fire risk tool places their home at high risk for wildfire, yet the City's map says they are not at any increased risk.

Thank you for your consideration of these issues.

Subject: (EXTERNAL) Wildland Urban Interface Fire Code

Caution: This is an external email. Please be cautious when clicking links or opening attachments.

Mr. Allred, my name is Connie Hancock. I live in the Northpoint Estates Community which appears to be located in the Wildland Urban Interface area. It is my understanding that adoption of the proposed ordinance is mandated by H.B. 48. While I support efforts to reduce and mitigate the risk of wildland fires to Salt Lake City dwellings, I do have concerns.

More specifically, my concerns are two-fold. First, I am concerned that the mandate to collect an annual fee from owners of properties located within the Wildland Urban Interface (65A-8-402(2)(b)) will be prohibitive and inequitably applied. These funds are to be used "to pay for the costs associated with implementation of this part. . . ." 65A-8-402(4). The anticipated benefits of implementing the Wildland Urban Interface Code broadly extend to all residents of Salt Lake City, not just the homeowners located within the narrowly defined Wildland Urban Interface which includes the Northpoint Estates Community. Equity dictates that the cost of this

program should be borne by all Salt Lake City residents, not just those who own homes within this Interface. Second, the standards for evaluating Wildland Urban Interface property as mandated by 65A-8-402(1)(a) are not established. Adopting and subsequently enforcing the ordinance in advance of defining the criteria to be used in the “triage scale” is premature. Such criteria must be clear, unambiguous and understandable.

Thank you in advance for consideration of my concerns.

Attachments: 06_Utah_Wildland_5thdnd.pdf

Mr. Narus,

Unlike existing structures, which are grandfathered in with new code adoptions, landscaping, and vegetation requirements can be applied after adoption and updates. I have attached the current state code which would be adopted although we expect the state to adopt the 2024 WUI Code in January. After the council adopts the code into city ordinance we can begin developing implementation policies. The object is to adopt timelines for projects that are both reasonable and provide the benefits in a realistic way. The public input we have and continue to receive will contribute to developing these timelines. For instance, we have been using Park City's program as well as other municipalities as we look at policies. In most of these cities project timelines go anywhere from 30 days to 2 years, depending on the hazard and scope of the project.

You can visit our Wildland Page and request a free Home Assessment <https://fire.slc.gov/wildland/>. These are not code inspection but the checklists are based on many of the same standards and give homeowners a good idea of what WUI Code priorities will look like.

Please feel free to reach out again.

Best.

Tony Allred

Division Chief
Fire Prevention Bureau
Salt Lake City Fire Department

Subject: (EXTERNAL) Sept 24 agenda item: Wildland Urban Interface Fire Code

Caution: This is an external email. Please be cautious when clicking links or opening attachments.

We would like to know if there are any implications in the WUI Code for existing properties identified in the WUI map, in particular any implications for existing landscaping that may be natural or planted long ago. It is not clear from the WUI Code if it applies to existing properties, and what the enforcement will

look like. We would like to see descriptive information about this posted if applicable so that we can determine if there are specific actions we must take to become compliant with the Code if it is adopted.

Thank you.

Scott Narus

TO: Chief Anthony Allred

FROM: Judi Short, Vice Chair and Land Use Chair
Sugar House Community Council

RE: Salt Lake Wildland Urban Interface Code PLNPCM 2025-00554

This letter is written to express support of adopting the Wildland Urban Interface (WUI) code proposed by Salt Lake City Fire Department.

At the September 3, 2025 Sugar House Community Council meeting and the September 15 Land Use and Zoning Committee meeting, Fire Marshal Tony Allred spoke at length about the proposed ordinance and about likely follow-up actions to assure city-wide compliance. His presentation was thorough, informative, and professional. He patiently fielded questions about hypothetical situations from homeowners whose property may be affected.

We understand the WUI code does not represent overreaching regulation, but the bare minimum standard for life and fire safety. We understand there is still uncertainty about exactly how and when affected properties will be identified and evaluated. And we understand there is uncertainty about when and how hazard mitigation plans will be required. However, in the face of these uncertainties, our trust and confidence in Salt Lake City Fire Department permits us to support adoption of the WUI code.

One concern we have is that there are a lot of city-owned properties in the city, in and around our properties. An example is the alley behind my house, and other alleys all over the city. We are concerned that the city isn't doing much to maintain these properties, and we understand that is expensive. However if the city buys two lawnmowers and two weed eaters for this purpose, they could make a map and cover the areas all through the growing season. And if you have to raise our taxes, do it.

Your Comments for the Planning Commission: 1.)At the SHCC LUZ meeting (9/15/25) Firechief Allred stated that all properties on the WUI map would be evaluated to assess fire risk. He emphasized that any property can be taken off the map. Already, the following properties have been removed from the original map: all of Jordan River Pkwy, half of Red Butte, 2/3s of Emigration, all of Parleys. The only reason my property is on the map is because the city-managed Blaine Nature Preserve is across the street (Blaine Avenue) which is 30 feet wide. All of the houses on Blaine Avenue have setbacks of 60-80 feet. This is more defensible space than you will find in many of the areas mentioned above which were taken off the WUI map.

2.)In the 25 years we have lived here, the city has neglected Blaine Nature Preserve, failing to remove dead trees/low hanging branches, letting undergrowth attain more than six inches in height. Ten years ago the neighborhood cleaned up the area and planted 250 native plants. We are willing to do more, but this is city property, and the city needs to take responsibility for it.

3.)No one mentioned that House Bill 48 introduces lot-triggered assessments and risk-based fees. This information does not appear in your Public Input and Hearing Notice, and was not presented at any of the meetings. It appears in the FAQ section of the Utah Division of Forestry, Fire & State Lands website. It is bad policy to fail to notify your constituents that there is a fee or tax embedded in your bill. 4.)WUI will change the city code for my property to indicate a greater fire risk (thereby generating fees). It will make my house more difficult to insure. HB48 specifies that in 2026-2027 there will be a flat fee based on square footage of structure for "all" properties ("all" properties targeted on WUI fire map or "all" properties in the city?). From 2028 onward there will be fees based on triage assessment and square footage of structure size.

5.)The greatest fire risk to my property is mainly a fire starting in my home, or a fire starting in my neighbor's home. Not Blaine Nature Preserve.

6.)It is unfair that a targeted few take the hit financially for the whole city.

Your Comments for the Planning Commission: I understand the need for Salt Lake City to adopt the Utah Wildland Urban Interface Fire Code since the Utah Legislature passed HB48 - Wildfire Amendments - during the 2025 legislative session. However, I am frustrated that the zone includes my property which is south of Blaine Preserve at [REDACTED] in Salt Lake City. My house is separated from the Preserve by Blaine Ave. which is an asphalt road. And my home is almost 28 yards south of the edge of the Preserve.

My neighbors and I are frustrated that the Salt Lake City Open Lands department doesn't do a better job of keeping the weeds that grow in the Preserve cut down or removed each year. Earlier this summer I was taking pictures of the signs and plants in the Preserve to share with the Sugarhouse Community Council for a celebration highlighting the many things the Council has been involved in for many years. While taking the pictures, I saw that some SLC workers were looking at the Preserve. I approached them and told them that the neighbors are frustrated that the City isn't taking care of cutting down or removing the weeds in the Preserve. One of the men told me that it wasn't on their list of projects for 2025. This is very frustrating to me and my neighbors. The weeds and fallen tree branches and trash that's occasionally dumped there should be cut back/removed annually. Two of my neighbors took it upon themselves to cut down the weeds growing along the edge of the Preserve, close to Blaine Ave. So, it seems to me that the City needs to perform better maintenance on the plants in the Preserve rather than adding the houses on the south side of Blaine to the SLC Wildlife Urban Interface Map.

Your Comments for the Planning Commission: I understand this is now a state requirement and after hearing from Fire Marshall Allred about how the City is determining the processes and the steps they are taking to ensure our safety, I support this zoning update. Thank you.

to me

Sending this to you as I never know if I will be under the number of words.

Not generated by AI

This Fire Code is being implemented to put Salt Lake City in compliance with new Utah State laws and the International Fire Code. There are many positive aspects to the proposal which incorporates best practices in new construction and replacement building materials and landscaping provisions to create defensible spaces between landscaping and structures.

However, many properties listed as subject to the WUI Code are adjacent to or nearby City properties, which have not been maintained in any meaningful manner. Before requiring property owners adjacent to City properties to undertake expensive mitigation measures at their own cost, City properties must be brought into the highest degree of compliance and continue to be maintained at that level so that adjacent property owners can:

1. Possibly be removed from the Interface Parcel List or
2. Be required to do less than would be necessary if there were no mitigation to adjacent City property.

Salt Lake City should also set up a Mitigation Fund so that property owners (investors not eligible) could be at least partially reimbursed for required expenses caused by new Codes.

Subject: (EXTERNAL) public comment on petition PLNPCM2025-00626 (proposed wildland urban interface fire changes)

Caution: This is an external email. Please be cautious when clicking links or opening attachments.

I appreciate the city's commitment to fire safety, but I urge you to reconsider the proposed Wildland Urban Interface (WUI) fire code. Its burdensome mandates threaten property rights, housing affordability, and local autonomy without guaranteeing a meaningful reduction in wildfire risk.

1. Economic Burden on Homeowners

- Retrofit requirements for fire-resistant siding, roofing, and window glazing can run tens of thousands of dollars per home.
- Many long-time residents and fixed-income households will struggle with these one-time costs.

- Higher construction expenses discourage renovation and new homebuilding, deepening the local housing shortage.

2. One-Size-Fits-All Regulations

- The code draws rigid boundaries that ignore variations in topography, prevailing winds, and existing defensible-space efforts.
- Communities that have proactively managed vegetation and maintained local firebreaks will be penalized at the same rate as higher-risk areas.

3. Threat to Housing Affordability and Equity

- By driving up building costs, the WUI code disproportionately impacts first-time buyers, service workers, and lower-income families.
- Redlining entire neighborhoods as “high-risk” can depress property values and limit our city’s capacity to attract new residents.
- Equitable fire safety should balance risk reduction with affordable-housing goals.

4. Insufficient Public Engagement

- The public comment period has been poorly advertised, and town-hall presentations use technical jargon that confuses lay audiences.
- A genuine dialogue—complete with visual risk maps and case studies—would build trust and yield better outcomes.

5. Alternative, Community-Driven Approaches

- Offer sliding-scale grants or 0% interest loans to help homeowners make voluntary upgrades.
- Coordinate with local fire districts to fund targeted fuel-reduction projects in the highest-risk zones.

I respectfully ask the Council to pause adoption of the WUI fire code and pursue a more balanced, locally tailored strategy, with existing grant programs in place prior to adopting any changes.

Let's combine sound science, community input, and targeted incentives rather than prescriptive mandates that penalize responsible residents.

Thank you for your careful consideration.

Jim Westover

SLC resident

MEMORANDUM

PLANNING DIVISION
DEPARTMENT of COMMUNITY and NEIGHBORHOODS

To: Mayor Erin Mendenhall

Cc: Rachel Otto, Chief of Staff; Tammy Hunsaker, Department of Community and Neighborhoods Director; Michaela Oktay, Deputy Planning Director; Mark Kittrell, City Attorney; Chief Karl Lieb and Chief Tony Allred, Fire Department; Troy Anderson, Building Official.

From: Nick Norris, Planning Director

Date: June 17, 2025

Re: Initiation of a text amendment to adopt the Urban Wildfire Interface (UWI) Fire Code adopted by the Utah Legislature and an Urban Wildfire Interface Zoning Overlay that would identify where the UWI code would apply.

In coordination with the Fire Department and Building Services, the Planning Division is requesting that you initiate a text amendment to the city code that would adopt the version of the Urban Wildfire Interface Fire Code adopted by the Utah Legislature and adopt a zoning overlay that will indicate on the zoning map where the UWI code would apply. The map proposed by the Fire Department is attached. The code would apply to the foothill areas, along stream and river corridors, and next to other natural areas in the Northwest Quadrant and north of the Salt Lake International Airport.

The proposal will go through the typical public engagement process, with a minimum of 45-days public input period with notice to all recognized organizations and the division's email distribution list. It is anticipated that the planning commission will hold a public hearing in late summer, and the item will then be transmitted to the City Council for a decision. Utah Code adopted legislation that goes into effect on January 1, 2026 and requires cities to adopt the UWI code by that date.

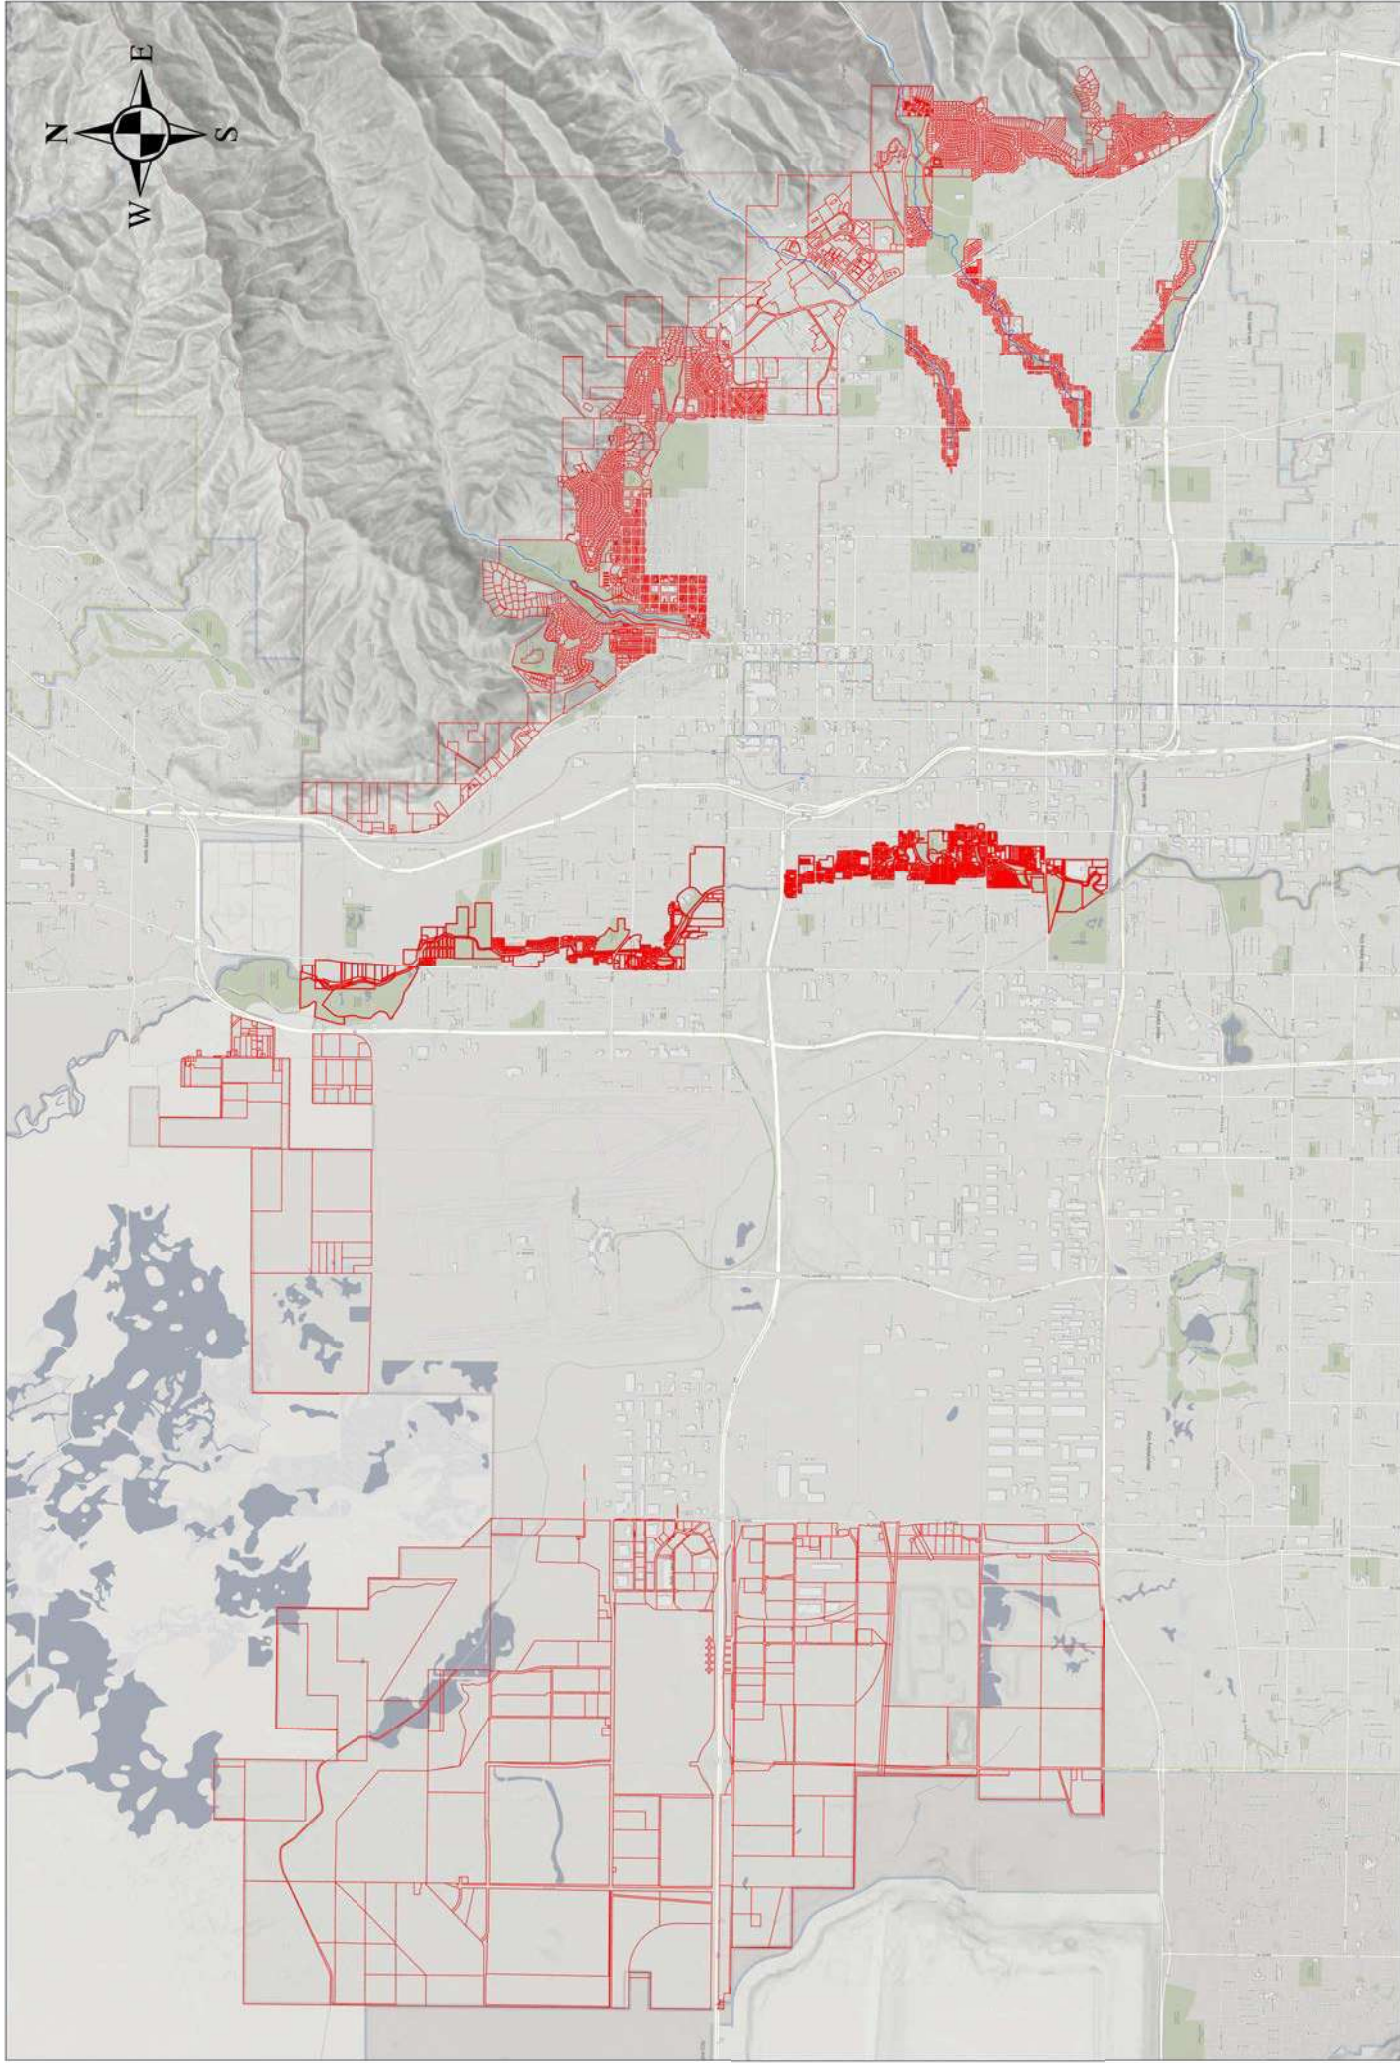

This memo includes a signature block to initiate the petition if that is the decided course of action. If the decided course of action is not to initiate the application, the signature block can remain blank. Please notify the Planning Division when the memo is signed or if the decision is made to not initiate the petition.

Please contact me at 801-535-6173 or nick.norris@slcgov.com if you have any questions. Thank you.

Concurrence to initiate the zoning text amendment petition as noted above.

Erin Mendenhall (Jun 17, 2025 1:42 MDT)
