

Artesian Well Park

Redevelopment

December 2019

ARTESIAN WELL PARK IMPROVEMENT CONCEPT PLAN

Project Update: December 2019

Artesian Well Park, located at 500 E 800 S, will be undergoing construction to improve access to water collection at the Artesian Well, increase visibility and seating within the park, and improve permeability of surfacing beneath trees.

This project was inspired by neighborhood residents who saw the potential to enhance the park as a community gathering space. The construction will start in December of 2019 and finish in the springtime.

The well water will not be available to the public during construction. However, Liberty Park also has an artesian well where water can be collected in the meantime, which is located in the south east corner of the park (near 700 E and 1300 S)

Project Details

Address: 808 South 500 East

Funding Amount/Source:

\$355,000/Capital Improvement Program

Current Phase: Construction

Anticipated Start Date: December 2019

Anticipated Completion Date: Spring 2020
