

Sarah Foran

Sarah is an At-Large PNUT Board member. Sarah moved to Salt Lake City in 2016 to work for the Division of Air Quality where she worked for 8 years. She is now an Environmental Engineer focusing on air quality and sustainability with Northrop Grumman. Sarah has a BS degree in Environmental Resource Engineering and a Masters of Business Administration from the University of Utah. Sarah spends the majority of her free time recreating with her dogs and participating in local running groups. Whether on a mountain bike, road bike, or a trail run, she prefers to be outside embracing all that Salt Lake has to offer. As a member of the Salt Lake City PNUT board, Sarah is excited to assist in evaluating and exploring the best opportunities to improve and maintain the quality of Salt Lake City's natural resources.
